PROTECT AGAINST RADIO-TAX SYSTEM

1. Radio is now being urgent demand at least one for each house as it is the necessity to build up Civilized Japan. SCAP is also greatly concerned with this point, various instruction are being made regarding production of radio.

2. Radio have now already become necessary of life and are widely used for every body. This being the case, radio are being unavoidable for cultural existance of nation.

Taxation to this, are unfair for general public who are mostly poor condition of tax-bearing.

3. Condition of radio diffusion in SHIKOKU area are as annexed paper (No. 1 list) being at lower position and very likely to have long way before reach the mean level of the whole country.

At this time radio tax being imposed will be brought grave consequence in future.

4. To secure correct listners have hitherto been difficult (because, there are considerable people of listeners who are without being notice).

Therefore, should taxation system carry out, tax would only be imposed on listners who had reported and persons who have not been reported would be of profit.

For this reason, there is a fear of increasing illegal listeners more and more.

5. Cost of radio production within 500 yen used be exempted from taxation for having been considered the diffusion, however, whole radio at present are 30% of commodity tax being imposed owing to the rise of authorised price repeatedly and listeners are being burden in the expenses as it is (see No. 2 list annexed paper).

In addition to this, in order to prepare against trade according to the instruction of allied force, "Reflex" type radio in the past have totally been changing into "Super heterodyne" type radio, by the way, price of "Super heterodyne" type radio being about $2\frac{1}{2}$ times than that of "Reflex" type radio, as the cost being like this, burden of listeners would be of great sum.

~~The~~ a newspaper ~~annexed to this~~ was published by the Matsuyama Broadcasting Station, and has a title of "Shikoku Radio Press". The following is two selections from that paper.

1. Panel Method

Radio Listening Group means a meeting (not formal or ceremonious, but informal or familiar) of discussion ~~other~~ after listening to Radio, anywhere ——— at citizen's public hall or even at home. Discussion by which thought or knowledge advance generally, has a great importance and worth. Therefore, discussion meetings should be held oftener. We will show here a suggestion in holding meetings most suitable and effective for discussion.

At first, 5 or 8 eminent persons whose sense and knowledge are refined —— intelligentias —— sitting at central front spot of auditorium or meeting place, begin to debate in earnest prefixed subject; when secondary packing auditors make motions, question or cross-examine against them through a sponsor situated in the middle of that place. By such a method, meetings are not only defended from unilateral discussion and loose or vague opinions, but contribute to persons whose culture however low may be, any higher idea. And panels —— I call the abovementioned ~~one~~ eminent persons such —— had better sit down when debating or even answering, if circumstance permits, and they should care less they should forget auditors and fixed subjects.

This is outline of "panel method" I hope you will hold debating meeting by means of this.

To: Civil Information Officer

From: Takamatsu Broadcasting Station

Date: 16, Nov. 1948

Subject: Report of the meetings of Radio Listening Group

We hereby submit to you a copy of the report concerning the meetings of the Takamatsu Radio Listening Group, which is taking activities throughout this prefecture in cooperation with the Kagawa-ken Social Education Section. Additionally this group has distributed a series of the pamphlet of "On Radio Listening Group" to each town and village concerned in this movement to stimulate the people in general, while the abovementioned section distributed nearly 1,000 sets of the same pamphlet.

The following is the main contents of meetings

Organization: Takamatsu Music Friend

Place of meeting: Tea-room "Picter", Kawara-machi

Date and Time: 6,30 p.m., 9, Nov. 1948

Sponsor: Y. Matsunaga, member of Takamatsu R.L.G.

Attendant: Female: 12, male: 10

Receiving Instrument used: Electro-telegraph

Main contents of discussion (on broadcasting)

1) Music record and song at 6,20 a.m. every morning are very good.

2) Broadcasting hour of "The famous performers" is a unconvenient time for general workers, to listen.

3) Music in "Hour of student" is very good, because with explanation and notation.

4) In program, no Oriental Music is included.

5) Waltz in hour of prefectural people is not always good from the musical viewpoint.

6) More clasic musics are hoped.

7) Music for broadcasting should be timely changed. To continue one music is not good.

8) More musical culture is hoped against the present announcers in Takamatsu.

9) JOHP' records have sometimes trouble. They must be considered.

Conclusion:

Musics in broadcasting have a great importance, which should make for progress of living level and mental cultivation. So, authorities should consider this proglem sincerely.

Organization: Takamatsu Radio Listening Group

Place of meeting: Mr. Majimas' residence, Uchi-machi

Date and Time: 1 p.m. 26, Sept. 1948

Sponsor: Y. Matsunaga

Main contents of discussion

1) Less valuable subject should be abandoned.

2) More times for local broadcasting are hoped.

3) Radio gymnastic expercise should be revived which was abolished immediately after the surrender.

4) Hour for student is good, but it should be rather transferred into 9 or 10 o'clock program at night.

5) Local broadcasting program should be publisized one week earlier before its broadcasting.

6) Rationing news is very good.

7) Protest against radio tax.

8) Subjects in "Prefectural peoples' hour" should be fresher.
