Percentage of teachers per one class in Ehime Prefecture

The Mombusho plan	1.35	per one class	(Primary school)
	1.70	"	(Lower S.S.)
Ehime-ken's Plan	1.10	"	(Primary school)
	1.39	"	(Lower S.S.)

The Mombusho's plan is 50 pupils per one class but in this prefecture 39 pupils in one class in average, in primary school and 41 students in lower secondary school

200 teachers will graduate from normal schools this March. Many teachers are expected to retire their positions. So all the graduates will be employed in the schools. No shortage in the number of teachers in next year, it is expected.

Percentage of teachers per one class ⁵⁰ in Kochi

Mombusho plan	1.09	per one class	(Primary school)
	1.46	"	(lower S.S.)
Kochi-ken's plan	1.12	"	(primary school)
	1.76	"	(lower S.S.)

Besides, more 56 teachers are employed with the expenses of towns and villages.

Teachers' supply:

In March next, 213 graduates from normal schools, youth normal schools, want to become teachers. It is not sure that all these graduates can be employed at once, but will gradually be employed one by one.

No shortage in number of teachers now.

F₂₅₁

Percentage of teachers per one class in Kagawa-ken

The Mombusho plan	1.35	per one class	(primary school)
	1.70	"	(lower S.S.)
Kagawa-ken's plan	1.19	"	(primary school)
	1.45	"	(lower S.S.)

241 graduates from the normal schools and 80 graduates from universities and 350 other applicants want to become teachers in March next year.

No shortage in number of teachers.

241
 213
 260
 600

 914

Percentage of teachers per one class in Tokushima Prefecture:

The Mombusho plan 1.50 (Primary school)
1.80 (lower S. S.)

Tokushima-ken'plan 1.17 (primary School)
1.52 (lower S.S)

260 graduates from normal schools and other 250 applicants want to become teachers in March next. 70 teachers want to retire the positions.

No shortage in the number of teachers in the next year, it is expected.

N. Takasugi
Acting-Director

HEADQUARTERS I CORPS
APO 301 (kyoto, Honshu)

AG 000.8 - BA

31 August 1949

SUBJECT: School Statistics

TO : See Distribution

1. Reference: Letter, Headquarters I Corps, Military Government Section, dtd 7 August 1948, subject: "Transmittal of Memoranda."

2. Figures are forwarded on educational statistics as of July 1949. Civil Education officers should send corrections to these figures through channels. Continued guidance to schools and to research sections of the Secretariat should help improve pupil-accounting and teacher-accounting procedures, and provide a basis for improved budgetary methods with precise cost per pupil at each school level being the basis for cost estimates and cost accounting.

3. The vast disproportion of schools in their own buildings between upper-and lower-secondary schools indicates the need of continued cooperation among the Japanese and their cooperation with Civil Affairs to improve the lower-secondary school and to secure more adequate buildings wherever possible. The parallel at other levels would be fullest possible use of primary and upper-secondary buildings and transfer to lower-secondary schools of all available buildings or rooms at the earliest possible date. Waste in building or room use continues to be a major problem as was suggested in the I Corps special study on school reorganization.

4. Most prefectures have many private schools, especially at secondary-grade levels. Considerable attention should be paid to these private schools, to their organization, to their equipment, and to their teaching procedures and results. Guidance to the Governors on private-school and higher-education sections should be frequent so that they may develop a sense of responsibility for these schools. Particular attention should be given to Korean private schools in those prefectures where they exist. Japanese law is clear in its requirement of 9 years of formal education for all children in approved schools. The Japanese are responsible for keeping children in approved schools and for bringing all schools, public or private, up to the standards established by law or by Cabinet Ordinance. The Civil Education officer can do much in developing a desire for accreditation and for living up to the laws by private schools and by the Governor's Education Section.

Ltr, Hq I Corps, AG 000.8-BA, subj: "School Statistics," dtd 31 Aug 1949, cont'd.

5. Most prefectures have moved rapidly in the direction recommended by Hatsugaku 63 and 534 and the new curricula of the lower- and upper-secondary schools. Comprehensive schools have increased in most places over a year ago, with apparent growing understanding of the place the comprehensive school has in the community. Continued guidance on the part of the Civil Education officer and the Secretariat is indicated, with constant surveys of the needs of the children and the communities as a basis for what each school should teach.

6. The development of worthwhile try-out or experimental schools and study groups appears excellent from these statistics and from monthly reports and inspections. Continued attention should be given to these as a valuable part of in-service training. The try-out school may well be the chief contribution of the occupation to democratic education.

7. Statistics on Adult Education Courses in Democracy run through July. They are most satisfying in many prefectures as indicated by the results both in number and in monthly activities reports which show values received by participants. Many prefectures, however, are still at the starting stage of a program that should be continuous over a two- or three-year period. The course was organized and designed to reach 70% of the adult population of prefectures within I Corps. Some prefectures have already discontinued the courses after a single set of lessons. Others are establishing it on a semi-permanent basis with new courses beginning as soon as the old courses stop, the new ones enrolling persons who were not able to enter the previous course or courses. Others are providing continuation lessons for those who have found much value in the first 20 lessons, as well as new courses for those who have not previously participated. The total to date of 2,714,707 is for all attendants and should be divided by 20 to achieve the number who have actually completed all 20 lessons. That figure is too low for a 6-month period in an area comprising more than one-half of the population of Japan.

8. The continuous development of the Adult Education program will be emphasized by all team commanders.

9. Japanese officials and organizations should be urged to increase numbers of courses and frequency of meetings. It has been suggested that this course with slight modification may be used by unions for labor education. It can equally well be adapted to agriculture groups, fishing groups, white collar groups, nationality groups, Eta areas, and any other minority groups with special interests.

Ltr, Hq I Corps, AG 000.8-BA, subj: "School Statistics," dtd 31 Aug 1949, cont'd.

Particular emphasis will be placed upon the enrollment of Koreans in the Adult Education Course in those areas having a large Korean colony.

Executive committee	Officers.
Special committee	No rule.
Standing committee	General Affairs Div. (Secretary & Account Sec.), Cultural Div. (Lit., Speech, Music, Movie, Art photo, and Social Sections), Physical Training Div. (Running, Swimming, Volley, Base-ball Tennis, Basket-ball, Foot-ball, Rugby, Pingpong, and Mountain climbing Sec.), and Welfare Div.
8. Initiative and referendum	No rule.
9. Amendment of constitution	By decision of officers' meeting.
c. Writer of constitution	Welfare Div. of the University.
d. How are decisions made?	No rule.

No. 3

e. Composition of the student council

General Affairs Div. Committee members consisted of representatives for four classes.

f. Composition of the student association

Whole teachers and students representatives for each Sec. and class.

Remarks:

We have no organization and are preparing to organize "Gakuyukai" as above.

(10) Does the school have university ambitions?

(11) When does it expect to become a university or part of a university? Which does it expect?

Answer: Establishment of new systemed Tokushima University was approved already, though its formal and detailed governmental organization was not settled yet, preparation is now under way with following schedule,-
According to the plan,

Medical College to be abolished in 1951, with no connection with the new systemed university.

Medical University to be Medical Dept. of new university.

Qualification:

Those who have finished the 2nd year grade course of Technical or Liberal Arts Departments (4 years system).
or other Dep'ts.

(12) Is it a private or public school?

It is public (governmental establishment) managed directed by Education Ministry.

Medical College to be abolished in 1951, with no connection with the new systemed university.

Medical University to be Medical Dept. of new university.

Qualification:

Those who have finished the 2nd year grade course of Technical or Liberal Arts Departments (4 years system) *or other Dept's*

(12) Is it a private or public school?

It is public (governmental establishment) managed directed by Education Ministry.

(13) What sort of library do you have?

Books of medical science & general culture.
Many books and magazines were contributed from Tokushima MG and/or Takamatsu CIE Library, and these are utilized actively.

(14) Do the professors and instructors have any sort of good books available?

Available. Now we ordering British and American books from Maruzen or Nanzando Book-stores, with library budget or professors' own pay.

(15) If school is co-educational, to what extent?

In principle, co-educational and we have prepared to admit women, but actually we have no woman-student, because there was no woman applicants.
