## Gopher Goes Goofie Over Radio Music; Death Is Penalty

The rats which featured the story of the Pied Piper of Hamelin are comparable with the goofie gopher of Glendale.

At the Packer Auto company last night where they were distributing a radio concert as well as Studebaker cars, the tuneless melody coming from out of the ether lured the little rodent from the sandlot nearby.

## Max L. Green, Jr., Is Upright Youth; Yea, Painfully So

Max L. Green, Jr., son of Mr. and Mrs. Max L. Green of 528 North Maryland avenue, is "standing up" for his rights these days.

Yes, the poor youngster even is standing for his meals. For the other day he was taking a bath and while clothed only in the smile that nature gave him, he sat on a red-hot gas heater.

He had stooped to pick up a tiny sock—and you can imagine the rest. Friends of the family are extending sincerest sympathy to Junior, but his mind doesn't rest easy on sympathy.

It rests easy when he is lying face downward, you bet.

## MISS DOROTHY HUNT ENGAGED TO WED A. E. SULLIVAN

Friends Hear News at Dinner Party Given by Alumni Members of Sorority

The wedding date has not been announced, but it is understood that it will be some time this summer.

A large round table was adorned with a huge mound of spring flowers placed upon a large centerpiece. Miss Ida Phillips presided over a pleasing after-dinner program in the capacity of toastmistress. She received a degree of honor, which was conferred upon her by the president of the sorority, Miss Dorothy Hunt. The toast "Gamma Lambda Phi, Its Traditions," was responded to by Miss Florence Montgomery, "Alumni Activities," by Miss Dorothy Hunt, "The Coming Year of the Sorority," "What It Means to You," was another toast, Miss Frances Bryant gave a reading.

Sullivan, both of Glendale, and also the engagement of Miss Ellen Lake of Redlands to Robert S. Austin of Los Angeles. The favors were brought in by two attractive youngsters, David and Donald Crater, impersonating the "Lambada." Those present included Miss Dorothy Hunt, Miss Gladys Jessup of San Diego, Mrs. O. Booth, Miss Gladys Miller, Miss Virginia Smith, Miss Frances Bryant of Los Angeles; Miss Betty W. Tichenor of Pasadena; Miss Margaret L. ## QUEEN AND FAIRIES FEATURE PROGRAM TO AID SCHOOL

Colorado Pupils Present Fine Exhibition; 2 Performances Help Picture Fund

A maypole dance by "the color fairies" was one of the features of the program given Saturday afternoon and night in the high school auditorium by pupils of the Colorado school.

Mary Jane Neal had the job of being queen for the occasion. She was dressed in a filmy costume of white tulle and spangled with silver stars. Her brow was encircled with a diadem of silver. In one hand she carried a magic wand and in the other the silver trumpet with which she summoned the other members of her band, each of whom was dressed in a different colored dress with hair ribbon to match.

Among them were Estel Sooy, Francis Chambers, Livalte Henderson, Bettv Welsh, Elizabeth Burton, May Elizabeth George, Madelyn Dursey and Mildred Thompson. Beryl Campbell played the part of a little schoolgirl who went to sleep and dreamed of the fairies as they appeared on the stage.

### Helps School Fund

The two performances were given for the school's moving picture fund. According to Miss Ida M. Waite, principal, the returns were quite satisfactory. A large audience was present at both the matinee and evening "show."

"A Scene at a Ticket Office" was the title of a brief skit presented by a group of pupils from the fifth grade. Ralph Stanley of the sixth grade was the leading man. He played the part of an inexperienced railroad ticket agent who had difficulty in believing that passengers wanted to go to "North Star," "Rising Sun" and other oddly named places. His make-up consisted of a white goatee, tinted "blinkers" and a cap with a visor.

Others in the cast were: Virginia Woodard, Mildred Lewis, Bernice Smith, Lillian Kigallan, Mary Clare Morgan, Lillian Lee, "Bobbie" Morrison, Frank Arnold, George Jamison, Donald Rose and Robert Austin. A tumbling exhibition was given by pupils of the second grade dressed. (Continued on Page 8)

Mr. and Mrs. Rom have two daughters and a son in the east who are also planning to come to California in the course of the next month.

Mrs. Rom came from New York to New Orleans by boat and had a very pleasant voyage. The trip from New Orleans to Los Angeles was made by train. Mrs. Rom was in a wreck en route here and in which forty Los Angeles people were injured.

## Big Collie, Known For Beauty, Killed By Blow in Play

The Deacon is dead. Deader'n dead, but better dead than alive and paralyzed as the poor dog was after being struck on the neck in play, presumably an accident.

At least that is the way W. N. Reed of 701 North Central avenue wants to think of the Deacon's untimely death which was inflicted sometime Wednesday. The big collie was known for its beauty all over town and it was as good-natured as good looking.

For nine years it has followed Mr. Reed's footsteps and today he followed the Deacon to a lonely grave with the solemn wish that he may find another collie equally as good and true.

## STORM TOTALS 1.15 AND SEASON MARK IS 27.52 INCHES

Last Year to Date 13.60 Had Fallen; Heavy Moisture In Northern California

If you haven't set your omens yet, it's a good time to set 'em today, while Ma Nature weeps.

Also, if you have any strawberries to pick, you might as well not, for the rain has battered them bad.

And if you haven't had the roof repaired, let this serve as a warning that May is a month of unknown quantities and last year nearly four inches fell.

In the present storm 1.15 inches of water fell, some of it hard and some of it soft. This brings the season's total to 27.52, a very satisfactory amount for farmers not dependent on irrigation and a little more than desired by others.

More Storms Coming  
Last season to date, according to H. E. Bartlett's figures, only 13.60 had fallen. But the balance of the month made up for the deficiency—enough to hear the natives yell about it.

Two more good storms are headed this way, according to Father Richard's prognostications for May. However, he has missed his guess on several points regarding Southern California climatic conditions, conclusively showing that nobody knows.

South is confidently expected tomorrow by some 487 real estate dealers and the merchants agree that rain can't last forever. Incidentally, it will save the water bill.

### Southern California Wet

LOS ANGELES, May 9.—Refreshing showers brought by the rain storm which reached Los Angeles yesterday, fell in Los Angeles and Southern California today.

According to Col. H. B. Hersey, government meteorologist in charge of the United States weather bureau here, the showers came from the northwest.

Reports received here from Northern California were to the effect that heavy rains had fallen there last night and would continue today, it was said.

That the rain greatly benefited some crops was a statement made. The weather bureau predicts unsettled weather and possibly showers tonight, with Wednesday partly cloudy.

## INDORSE PLANS TO OBTAIN INDUSTRY FOR THIS CITY

Representative Citizens Agree to Invest in Machine Company to Bring It Here

Subscriptions contingent upon an escrow agreement with the Power Implement Machine company and local industries which seek to locate in Glendale were accepted last night following a banquet served to approximately 100 representative business men and women at the Chamber of Commerce banquet hall.

It was a delightful five-course meal, including fried spring chicken and other delicacies, served by the Glen Inn caterers. This provided an hour in which the diners got acquainted, talked shop and real estate and other things.

Just before the dessert was served, James M. Rhoades, secretary of the Chamber of Commerce, called the meeting to order and announced that the city council and chamber had deemed it advisable to call the leading citizens of Glendale together for the consideration of an industrial enterprise.

Payroll Is Big Help  
"The day may come when we will need a payroll," he said. "Here is a concern that wants to come here and it is our intent to place their proposition before you so there will be no reason to blame the chamber or the city officials for any action. It is up to you, folks."

He then introduced City Manager W. H. Reeves, who made the speech of the evening, and outlined the Power Implement Machine company and allied industries which J. J. Farlow and associates plan on bringing to Glendale. He read their financial reports and stated that a \$10,000 subscription of the \$100,000 preferred stock issue is sought of Glendale investors. He made a motion asking those in favor of the proposition to so signify.

Lon J. Haddock of the Haddock-Nibley company, subdividers of Glendale Heights, was asked to speak on the motion, and he, too, outlined the potent effect industry had on any community, although he discounted Glendale's need for a payroll when it was the sanitarium (not the sleeping porch) of Los Angeles. ## David Donwell and Wife Escape Injury

David Donwell, proprietor of the Little Premium market on North Glendale avenue, tells of a thrilling and interesting experience which befell him on Sunday. While enjoying their customary Sunday afternoon automobile ride, Mr. and Mrs. Donwell were slowly driving on one of the many-curved roads in the hills near Sunland when they suddenly became aware of a skidding sensation in the back of the machine. Looking back, Mr. Donwell saw that both of the rear wheels were beginning to slowly slide over the embankment.

Jumping to the ground, Mr. and Mrs. Donwell attempted to hold the car on the road, but to no avail. Gaining in momentum, it finally fell over the side and began its slide down the hillside. After sliding about fifty feet, its progress was halted by a large oak tree, which served to hold it until help could be summoned.

With the assistance of a number of passersby and a complete set of pulleys, Mr. Donwell was able to haul the toboggan-like automobile to the road, where it was found that but slight damage had been incurred.

## Glendale Boys Hosts To Long Beach Group

Thirty-five members of the Long Beach high school organization of the Young Men's Christian Association, headed by James McDill, director and secretary, motored up from the beach city yesterday afternoon's rain to attend the "steak fry" which was given at the Thom ranch in North Glendale by the local Hi-Y society. About sixty of the total boys were present, making the turnout approximately a hundred.

The merrymakers gathered under a group of large heavy foliaged olive trees, where they enjoyed real broiled steaks and other edibles which go to make up a boys' outdoor meal. Following the "feud" Dale T. Wood, who is president of the entire Glendale organization, extended a brief welcoming address to the visitors, which was in turn answered by the president of the Long Beach organization.

Dr. J. Anderson of this city gave the principal address of the evening, directing it principally toward the members who are to graduate from high school this term. A series of competitive games and contests concluded the evening's entertainment.

Glendale Has Some Good Lads  
Left Over From Last Year;  
Spring Workouts Start

By HOWARD M'GILLIS  
Sports Editor The Evening News  
With the 1922 baseball and track  
season officially closed, as far as  
Glendale high school is concerned,  
practically all of the athletically in-  
clined members of the Red and Black  
institutions are devoting their spare  
time attempting to select the prob-  
able lineup of next fall's football  
team. From present pre-season in-  
dications more interest is being  
taken in the coming grid season than  
in any since the introduction of the  
game into the school's curriculum of  
sports in 1918.

The early spring training period  
will consist practically entirely of  
signal drills and light workouts, with  
little or no scrimmaging. Beginning  
yesterday afternoon and probably  
lasting throughout the week, a con-  
siderable amount of time will be  
devoted to drilling the fundamental  
points of the game into the ever-abu-  
sed skulls of the aspiring huskies.  
It is impossible for a player to com-  
prehend the intricacies in connection  
with the more technical points until  
he has first entirely familiarized  
himself with the less complicated  
fundamentals, and for this reason  
Coach Hayhurst is planning to lay  
particular stress on continued "skull  
talks" and blackboard lectures.

**Locals Have Good Chance**  
Glendale's chances for a successful  
season appear unusually promising  
at this early date due to the fact that  
nine regular members of last year's  
team are expected to make bids for  
places on the 1922 eleven. Heading  
the list of 1921 veterans is Fred  
Stofft, captain-elect, who will prob-  
ably play fullback during the com-  
ing season. Alternating at both half-  
back and fullback positions through-  
out the 1921 games, Stofft proved  
himself to be the most dependable  
and versatile backfield performer on  
the squad, and with an added year  
of experience to his credit he should  
develop into one of the foremost ball  
carriers in southern California prep  
ranks. He will probably do all of  
the punting and drop kicking for  
the locals next year.

Ronald West, last year's find  
of the season, will form with Captain  
Stofft a nucleus for the new back-  
field combination. Although last  
year was his first in football, West,  
who is only a sophomore, gave such  
a good account of himself as a  
ground gainer that he played in  
practically all of the important  
games of the season.

The real battle for places on the  
eleven promises to develop among  
the candidates for end positions. At  
the beginning of the 1921 season  
Coach Hayhurst placed Cecil Wilson  
and Ray Goss in the flank positions,  
but it was soon found that the latter  
was not eligible for interscholastic  
competition and "Red" Ryan, an  
"unknown" Freshman, was substi-  
tuted. Ryan soon proved that Hay-  
hurst had made no mistake, develop-  
ing into one of the best defensive  
ends Glendale had ever had.

Goss is Fast Lad  
With Goss, who is the speediest of  
the trio, back in harness, it is gen-  
erally supposed that Wilson will be  
placed in the backfield.  
The members of the 1921 line who  
will be back for places on the squad  
are Russ Eiffler, Gordon "Mooney"  
Bartow, George "T-bone" Fraley,  
Cliff Cluss and Chase. This aggre-  
gation of huskies will average  
around 170 pounds to the man,  
which is no mean weight for a prep  
school lineman.

Of the members of last year's  
championship lightweight eleven who  
are expected to make strong bids for  
places on the first team are Arden  
Gingery, quarterback; Willard Rob-  
erts and Horatio Butts, halfbacks;  
and "Stubby" Searles, tackle.

If you are suffering from eczema

rid of it by using Mentho-Sulphur.  
declares a noted skin specialist.  
This sulphur preparation, because  
of its germ destroying properties,  
seldom fails to quickly subdue itch-  
ing, even of fiery eczema. The first  
application makes the skin cool and  
comfortable. Rash and blotches are  
healed right up. Mentho-Sulphur is  
applied like any pleasant cold cream  
and is perfectly harmless. You can  
obtain a small jar from any good

**'Fuzzy' Livingston On  
Visit to Friends Here**

Chancellor L. "Fuzzy" Livingston,  
former resident of this city and well-  
known local athlete, spent several  
days in Glendale last week renewing  
old acquaintances and visiting with  
former friends and relatives. Since  
receiving his discharge from the  
United States army three years ago,  
Livingston has spent most of his time  
on a large ranch near El Centro,  
where he was associated with his  
brother in the dairy farm business.  
He is now enjoying a several weeks'  
visit with relatives living in Tujunga.

While attending the Glendale high  
school, where he was a member of  
the class of 1917, Livingston estab-  
lished himself as an athlete of no  
mean ability, taking part in baseball,  
soccer, track and basketball. It was  
while representing the Black and  
Red in these various branches of  
sport that he acquired the nickname,  
"Fuzzy," which has clung to him un-  
til now.

Following his discharge from the  
navy Livingston began playing semi-  
professional baseball in the southern  
part of the state, where he played in-  
field positions on a number of sand-  
lot aggregations. While going  
through the customary infield prac-  
tice prior to a game last October,  
"Josh" Billings, veteran major  
league and trainer of hundreds of  
young pitchers, who happened to be  
a spectator, told him that he  
shouldn't be "monkeying around at  
third base with an arm like that."  
From that time on for several  
weeks "Fuzzy" was carefully tutored  
on the more technical points of the  
hurling art, rapidly developing into  
a real speed and curve ball artist.

Playing throughout the past sea-  
son in the Imperial Valley Winter  
league, which is composed of major  
and minor leagues, he won a large  
majority of his games, and as a re-  
sult he was signed with the Tacoma  
club of the Western Canadian league.  
That league was reduced to four  
teams this year, however, and he was  
declared a "free agent." At present  
the Oklahoma City team of the West-  
ern league is dickering for his ser-  
vices.

**'The Sheik's Wife' on  
T. D. L. Screen Today**

"The Sheik's Wife," now playing  
at the T. D. & L. theatre, is the very  
cream of big film creations.  
It is a glittering gem of art in a  
setting of convincing realism. It  
correctness in the detail of eastern  
life and costume will be a wel-  
come change to an American public  
not used to it. The highest artistry  
is injected into a magnificent spec-  
tacle. It is a pulsating story of war-  
blooded Oriental love.

The story is told with true artistic  
feeling. Many of the scenes are  
spectacular in the extreme. A pic-  
ture that is most colorful. A picture  
incomparable for action and beauty.  
A film that has been acclaimed a  
truly great picture. The more one  
thinks of the strange story the  
stronger it grips and holds. It is  
hard to conceive of a better picture.  
See it today. Everybody remembers  
"The Sheik," says Ralph Allan, "now  
they must see "The Sheik's Wife."

**Tagging All Bases**

For the first time this season, the  
Yankees were forced to use three  
pitchers, Hoyt, Murray and Mays, to  
win one ball game, the White Sox  
having disposed of Hoyt at an early  
hour and Murray at their leisure.  
Mays, however, appeared in the ninth  
inning and the Sox rallied to a re-  
lapse without further notice. Frank  
Baker hit the only home run in the  
big leagues yesterday and also  
bopped up with two singles.

Ty Cobb was again somewhat mys-  
tified last night in attempting to  
account for the fact that his Tigers had  
been favored with another well-  
pitched game. Olsen, a recruit, held  
the Red Sox safe from first to last  
while the Tigers were quite careless  
in the way they treated Jack Quinn,  
the ancient one.

Going into the ninth inning behind  
a three-run lead, Burleigh Grimes  
blew up like a flapper's abbreviated  
skirt and before the dust had set-  
tled the Pirates had put over four  
runs and a victory. Morrison and  
Yellowhorse did the honors for the  
Pirates without any particular credit  
to themselves.

The Indians made a merry after-  
noon in beating up three of Mr.  
Mack's twirlers to the extent of 14  
runs and 17 hits, Messrs. Jamieson  
and Sewell leading in the carnage.

**Daily HEALTH-AGAIN TALKS**  
By Dr. Otey

Surgical treatment to result in the best effect must be preceded and followed by Osteopathic correction. Osteopathic preparation and after care is the modus operandi par excellence. Its supporting influence makes for speedy and complete cure and often makes the difference in success or failure of an operation. Osteopathy more than any other thing has enlarged the list of non-surgical and decreased the list of surgical diseases and conditions. Better preserve an organ or other structure and renew its function rather than cut it out. The big idea in Osteopathy is conservation. Instead of \$300 for removing an appendix that amount should represent the proper fee for curing it without operation. I would suggest \$5.00 as a very reasonable fee for removing it and even then the doctor would be overpaid for his services if he belongs to the class that cannot cure an ordinary case of appendicitis. If your case is one that calls for surgery, the fitting of glasses, regulation of your diet, your sex life or other habits of living or problems of life, he will so advise. The men and women who have made the greatest success in life have been those who learned to avail themselves of the highly specialized training of the mechanic, the chemist, the engineer, etc., etc. Learn to utilize the services of the Osteopath for production of greater energy, for its intelligent utilization and conservation and thereby build into your success better health, more efficiency and longer life.

**ERNESTINE NILES IS HONOR GUEST AT DINNER PARTY**

Leaves Sunday for New York City, Where She Will Be L. E. Trafford's Bride

A farewell dinner party was given at the Glen Inn last night by Miss Ernestine Niles for her sister, Miss Louise W. Niles, daughter of Mrs. Louise W. Niles of 227 West Colorado boulevard, who leaves Sunday for New York City, N. Y., where she will become the bride of Leroy E. Trafford, who is in the railway mail service.

Ten of Miss Niles' most intimate friends enjoyed the five-course dinner, which was served at a table beautifully decorated with red roses and maidenhair fern. The decorations were carried out in pink and white motif with the cake adorned with a miniature bridal arch in which the kewanee bride and bridegroom were standing.

Of course, when the cake was cut everyone was interested by the thimbles, rings, etc., which were hidden therein and, as usual, the omens were all wrong. Knabe Ampico music was enjoyed, including the wedding march from Mendelssohn.

**School Day Romance**  
Miss Niles and Mr. Trafford's romance is one which budded in school days when both were residents of Hershey, Pa. Contrary to custom, she came to California and he remained in the east, but the pretty bride-to-be expects she will woo him west 'ere long, which was the sincere hope of the following present to bid her adieu:

The Misses Mildred and Edith Pride, Katherine and Clarine Pogue, Louise and Julia Moniot, Florence Krieb and Catherine Niles and Mrs. W. B. Chandler.

Funeral services will be held tomorrow afternoon at 2 o'clock at the parlors of L. G. Scovren Undertaking company, with interment at Grand View cemetery. Rev. H. **MRS. MARTHA A. FORD**

**Miss Helen Rand Is Graduate of Academy**

for the woman that is hard to fit—sizes 36 to 54 1/2—made of Gingham and Cambric Percales  
**priced \$2.25 to \$5.95**

The famous features in these Utility Dresses are

**The Adjustable Hem**

By merely pulling a thread out of a concealed tuck in the hem of a Barmon dress, the skirt may be quickly lengthened—no ripping or restitching is necessary to make this alteration.

**The Adjustable Waistline**

By the simple method of buttoning two buttons at the waistline of each Barmon Adjustable dress, the dress can be made to fit perfectly—at waist, hips and bust. There is no elastic, spring or mechanical device of any kind.

**The Under-Arm Shields**

Under-Arm Shields provide double wear in every Barmon dress. They are nicely tailored right into the dress, and are of decided benefit in reinforcing what is usually the first part of a dress to wear out.

**The Menders**

Two pieces of self material called menders are tacked inside every Barmon dress. These menders are handy aids in making neat repairs of worn or torn places. They may be washed right with the dress.

The championship game was played with the B-8ths, the latter being weakened by the loss of their captain, Johnny Copeland. The final score was 7 to 2 in favor of the A class.

**'Silent Rich' Lawn Mower Displayed Here**

The "Silent Rich" is the name of the brand of lawn mowers at 1738 South San Fernando Road in the southern Glendale establishment of the Wilson-Bell Hardware company.

According to J. M. Wilson, this "lawn barber" did not get its name because only rich people can afford it, but rather because it is the richest value for the investment. He guarantees the silent part of the name, however, as the machine is chain driven and constructed entirely different from most lawn mowers. He says it is just the "weapon" for commuters who like to get up at 4 o'clock in the morning and "attack" their lawn before leaving for Los Angeles.

**C. H. Ambrosch Gets Special Rock Agency**

The Glendale Monument works, 1727 South Brand boulevard, soon will be the exclusive agency in southern California for mahogany granite.

C. H. Ambrosch has just completed arrangements with the American Granite company of Milwaukee to handle their special form of rock which is hewed from the hills of Wisconsin.

"Mahogany granite received its name on account of its reddish brown color," asserted Mr. Ambrosch. "It makes very beautiful monuments. This granite is very durable. In fact, nothing more durable has ever been found. Of course, it may be crushed—but it takes 40,000 pounds of pressure per square inch to do it. That is two tons for each square inch. This granite is so hard that it is just like flint."

A carload of this granite will be ordered in the near future. Mr. Ambrosch does not expect to have any of it on hand for about sixty days.

**South Glendale Folk On Picnic In Canyon**

San Dimas canyon was the picnic grounds Sunday for a group of residents from southern Glendale who went there in two automobiles. As the lunch was being devoured it started to drizzle, but, according to report, the rain merely made excellent drinking water and did not succeed in dampening the spirits of the party.

The outing was enjoyed by Mr. and Mrs. T. B. Reavis of 1255 South Glendale avenue and their two boys, Walter and Bobbie; Mr. and Mrs. H. H. Reavis of 1531 South Central avenue; Mr. and Mrs. R. G. Cate of 537 West Doran street and Mrs. Maria Terrill of 1255 South Glendale avenue.

**You Make Chinese Talker Pretty Soon?**

By **GEORGE VAN SANDS**  
Radio Editor The Evening News

Merely as an example of additional proof of the popularity of radio throughout the entire world, take, for instance, the case of China, one of the few places on the globe where modern inventions are looked upon with disfavor, and yet the Chinese government has actually signed a contract and entered into an agreement with the Federal Telegraph company, which, by the way, is a California concern, to erect one of the most powerful broadcasting stations in the world, right in Shanghai, and it won't be long now before America will be in direct communication with China.

No sooner had the contract been signed, which meant that an American company had actually been awarded some rights in China, than Great Britain, Japan and several other peace-loving nations of the world immediately raised an awful kick, and made every effort to have this award set aside. Of course it has always been perfectly alright for any of the other powers of the world to step right into China and help themselves to any award that happened to suit their fancy, and neither did it make any particular difference whether the award that so happened to strike their fancy was nailed down or not, and the idea of an American company actually being awarded the right to erect a powerful wireless station in China was absolutely out of the question and all haste was made to tell him what a terrible outrage it was. But after the Federal Telegraph company casually drew attention to the fact that all wireless messages heretofore to China had to be relayed by way of Guam and Japan, and consequently could not be sent with any degree of Masonic secrecy, and that direct communication with China would sort of be a handy little thing to have around, especially in case of war, Mr. Hughes thought the point well taken and the result is that this American company will not only have a station in Shanghai, but also at Peking, Hankow, Canton and Harbin.

Next, those of us here in Glendale who expect to tune in on this Chinese stuff had better get out their old laundry checks and study them, because a Chinese message coming by wireless is going to be no easy thing to decipher.

**RADIO EXPLAINED**  
By **E. H. LEWIS**  
INSTRUCTOR NEW YORK Y. M. C. A. RADIO SCHOOL

**TYPES OF ANTENNAE**

When suitable auxiliary apparatus are used, high frequency oscillations may be created in a circuit containing a condenser and a coil of wire in series with each other. The condenser has a property called capacitance, and the coil of wire the property called inductance. If the condenser and coil are connected in series, as mentioned, the circuit is called a "closed oscillatory circuit." Such a circuit does not act on a very large amount of ether, and its electric strength is not very great at considerable distance from the circuit. It does not, therefore, create much disturbance in the ether and does not radiate at all strongly. In order to transmit by radio waves to any distance, it is necessary to arrange the oscillatory circuit so that either the coil or the condenser has large physical dimensions. Only by so doing will the ether be acted upon to a sufficient extent. It is customary to make the condenser of large dimensions.

In the "inverted L" type of antenna the condenser effect is secured by suspending a conductor of a number of parallel conductors at a distance above the surface of the earth and parallel to the earth's surface. The conductor or system of conductors becomes, in effect, one plate of a condenser and the earth is the opposite plate. In this case one end of the elevated "plate" (horizontal conductor or conductors) is connected to the earth, usually through a coil. There is then a vertical portion which, with the horizontal portion,

**Questions on Radio and Their Answers**

Question: What direction should an aerial take for best results?—C. B. N., Eagle Rock.

Answer: The free end of the aerial should point away from the station to be received. In other words, if you want to get best results from the broadcasting stations in Los Angeles, point the free end of the aerial away from Los Angeles and the lead in wires toward it. This is the advice of the very best authorities on aerials; at the same time I have seen aerials that gave perfect results pointed in the exact opposite from the above.

Question: Does an audion detector give much better results than a crystal detector?—E. L. D., Glendale.

Answer: Practically no better results unless amplification is employed.

Question: What is the range of a regenerative set using two stages of amplification?—J. L. M., Verdugo Woodlands.

Answer: Hard to say; approximately thirty miles in the daytime, and about a thousand at night.

Question: Is a ground used with a loop aerial?—L. H. G., Glendale.

Answer: Not ordinarily; only with special types of receivers and systems.

Question: Have been reading your radio page with quite a bit of interest. I was late in learning of this particular feature of your paper, and am taking the opportunity of writing you to find out if you can give me instructions as to how to build a receiving set?—H. J. McN., Glendale.

Answer: Instructions as to how to build various types of receivers will be published from time to time on this page of The Evening News.

Question: Can two leads be used from the same aerial to operate two separate receivers?—H. G. F., Glendale.

Answer: No; this is not advised, as changes at either set will affect the other.

Question: Should primary and secondary of a loose coupler be wound in the same direction?—T. K. S., Glendale.

Answer: It makes no difference whatever.

**A ROTARY SWITCH CONTROL**

A very large number of radio receivers and amplifiers are equipped with jacks for plugging a pair of head telephones into the detector circuit or one of the amplification stages, as desired. There has at times been some trouble and dissatisfaction with this method, particularly when jacks have become jammed or do not make good contacts in the circuits.

The rotary control switch illustrated is designed to replace the plug and jack system and can be used for automatic filament control as well as for selection of detector or more or more amplification stages. The filaments of unused stages are automatically extinguished when selection is accomplished by rotating the switch knob. The device is quite simple to operate.

As may be noted in the illustration, the switching is done by means of cams which work against the pressure of the spring contactors. These cams may be adjusted by one nut so that any switching requirements may be met. The contactor springs are of nickel silver and the contacts are of sterling silver. The insulation throughout is of bakelite. The switch may be very conveniently mounted on the rear of a panel in a cabinet set, in which case only the knob and pointer appear on the front.

**'Pardon My French' Is Glendale Film Today**

Ladies' maids with French accents are always alluring, and Vivian Martin in "Pardon My French," the latest Messmore Kendall production starring her and released by Goldwyn, at the Glendale Theatre, plays such a part to perfection. In the role of an actress who, after an unfortunate ending to her road career, accepts the position of maid to a nouveau riche family by the name of Hawker, she sparkles brilliantly.

Polly was hired to watch the etiquette of the newly-rich family. This she did with some success until Zeke, the heir apparent of the Hawker wealth, made love to her, and against her wishes. Fortunately, Polly had met her Lothario, who lived over the wall which guarded the Hawkers from common people. And in the end, after many funny situations, she decides to become his leading lady for life.

Baby Peggy also stars in a comedy of her own, "Get Rich Quick," while a news and review reel complete the entirely delightful bill—one that is honestly worth seeing.

**Liver Trouble Leads To Serious Ills**

**Blood Filter of the Body is Source of Infection**

Biliousness is a sure sign of liver trouble—and any derangement of the liver is likely to lead to serious if not fatal results. Torpid liver means "bile poison" in the blood—a dangerous condition. If you have pains under the left shoulder blade, coated tongue, fickle appetite, pale, muddy complexion, or attacks of headache, your liver is probably affected. Read this strong endorsement from Mr. J. W. Strawhecker, 1608 Hunter St., Harrisburg, Pa.:

"I think I can truthfully say that Dr. A. W. Chase's medicine saved my life. I suffered from bile attacks and was so far gone nothing would help me and my treatment I tried just made me worse. I had no control over my kidneys and my liver was so bad that my skin was yellow. I felt sure I was getting diabetes. I read in a little booklet of Dr. A. W. Chase's K. L. Pills and got some, and this is the remedy that saved my life. Today I am a good healthy man, bowels regular, kidneys and liver in good condition, and have a good color and splendid appetite."

Dr. A. W. Chase's remedies can be obtained at any first class drug store. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D., are on each box. This trade mark is your protection against imitation and substitutes.—Advertisement. 9

The shortest distance from Atlantic to Pacific, between points near Charleston, S. C., and San Diego, Cal., is 2,152 miles.

Trade at Home Week was slated to provide the principal discussion before the Glendale Chamber of Commerce directors this noon. Up to 12:30 o'clock a quorum had not been secured.

An unusually large report from the membership secretary, E. F. Sanders, was to be turned in, which was particularly gratifying because of the large number of Los Angeles firms who are taking an interest in boosting Glendale.

**Progressive Club to Have Dinner, Program**

The Progressive club is going to "murder" the weather man tonight when they sit down to dinner at the Chamber of Commerce banquet hall at 8 o'clock.

Yea, brothers. They have a program lined out that will make it the most enjoyable meeting yet held. Besides the installation of officers, the charter will be presented to the club; several speeches will be made.

Harry A. James has promised to be there for a few stories while the pipe of peace will be smoked. Many visitors from Los Angeles, Long Beach, San Pedro and other cities are expected.

**Merchants May Provide Suits for Base Ball Team**

Daniels Kelly, Dr. R. V. Hogue and David G. Crofton were appointed as a committee for the Glendale Merchants' Association to consider the advisability of providing suits for the "Glendale Merchants" ball team which will enter semi-pro ranks this summer. At the meeting yesterday noon the committee on oriental market exclusion was increased; the parking ordinance indorsed and the Trade at Home Committee told to continue active. Forty-six business and professional men attended.

Stated McMillin, manager of the Glendale Creamery, feels quite elated over the fact that two firsts and two seconds were won by milk distributed from his plant.

**Wilson-Bell Company Pleased By Business**

While the Wilson-Bell Hardware company on North Brand boulevard is receiving considerable merited attention, their store at 1739 South San Fernando is building quite an enviable business. In fact, Mr. Wilson believes that the gateway section of the city offers opportunities equal to any other in the sale of builders' hardware and paints.

"We are more than gratified with the gross amount of business," he says, "and while some of the kitchen hardware is not moving as actively as it might, many mechanics and contractors find this a central location and a convenient shopping place."

Householders should learn that they can obtain utensils, etc., at Wilson-Bell's store, 1739 South San Fernando Road.

**O. F. Kroehle Tells Of Alaska Weather**

Until the clouds roll by O. F. Kroehle, realtor of 305 East Broadway, says that he would just as soon be in Alaska in May as that is the most beautiful time of the year. He spent twenty years in the sordid country and although there might be snow on the ground, the sun is shining nearly twenty hours a day and wildflowers are in bloom right now.

Mr. Kroehle doesn't consider it serious to be frost-bitten and he tells of the days when the temperature dropped to 80 below zero without anyone catching cold, so to speak. Everybody feels fine in the frozen north. However, the real estate business is a little slack there and Mr. Kroehle believes more people are coming to California than going to Alaska.

**CITY DEPARTMENT CHANGE**

Whoever heard of having a moving day in the rear of City Engineer C. L. Hill, superintendent of buildings, E. G. Spaulding and members of their departments heard about it. This morning the first floor of the city hall was in a turmoil when these two departments were being transposed. The engineering department henceforth will be located on the east side of the building and the building department will be on the west side. The object of the transfer is to give the draughtsmen more room.

**ARRANGEMENTS NOT MADE**

Miss Mona L. Gardner, dramatic coach at Glendale High school, announced this morning that definite arrangements have not yet been made for participation in the Shakespearean contest May 20 at Berkeley.

### INDORSE PLANS TO OBTAIN INDUSTRY FOR THIS CITY

Representative Citizens Agree to Invest in Machine Company to Bring It Here

(Continued from Page 1)  
tally, he put over a rib-tickling yarn about the little Irish and Jew boys who were given a dollar each. A week later Mickey told his benefactor he bought presents for his mother and sister, but they had an altogether different story.  
"I spent my dollar for two halves, I got four quarters with the two halves, ten dimes for the four quarters, and twenty nickels for the four quarters which I now have in my pocket."  
"Why all the change, Ike?" was the natural question.  
"Well, somebody is going to make a mistake and it ain't going to be me."

**Makes Strong Appeal**  
Mr. Haddock then launched an appeal for Glendale people to put their shoulders to the wheel, for, as he said, "When wheels begin to hum you begin to make a city." He briefly outlined the favorable industrial situation here and concluded with the trite statement: "If we want this industry and others, the proof of the pudding is in the eating. Let's eat it."

G. C. McConnell of the Builders' Hardware & Supply company was the first to assure those present he would do what he could to assist, as he didn't want Glendale to be in the same class with the "retired" towns of the east.

Secretary Rhoades then called for expressions from Attorney Mattison B. Jones, who asked a number of leading questions of Mr. Ferlin, which was followed by a statement from F. E. Hoyt that "if Jack Ferlin is as good a manager as he is a mechanic, he is a great success."

**Committee Is Chosen**  
C. D. Lushy, cashier of the Glendale State bank and director of the Chamber of Commerce, Mayor Spencer Robinson, Councilmen S. A. Davis, Dwight W. Stephenson and A. H. Lapham gave their opinions in the matter of industries, all of which was very favorable, while Judge B. A. Mason and R. F. Kitterman concluded the discussion, the latter suggesting the committee to handle the escrow agreement.

Mr. Kitterman was named chairman, with Mattison B. Jones, D. J. Hanna, Mrs. Ella W. Richardson and City Manager Reeves as members. They will meet at 4 o'clock this afternoon and draw up the papers so that subscriptions may be taken immediately.

### COMMENT THAT'S ALL

Father of Eight Retires Apartments for Families How to Pacify Prisoners Why Is a June Bride?

By Gil A. Cowan

**O**NCE in a while there is a smile that comes over the wire, such as this one from San Francisco:

"When Theodore Roosevelt was president and commander-in-chief of the army, he backed his advocacy of large families with an army order which provided that all enlisted men who became married while in the military service and reared a family of eight children, the majority of them boys, should have government employment at \$150 a month upon retirement from the service with which to support the family.  
"Master Sergeant Phillip F. McQuillan, remained in the service 32 years awaiting the proper moment for retirement. It has arrived—a boy—and soon Sergeant McQuillan will retire to private life."

Really, to the average layman it would seem that McQuillan has enough to attend to without being called out for reveille.

A soldier who has eight children ought to be rewarded with more than \$150 a month, although that is about the salary most men with big families receive.

Their compensation is had in the pleasure that children bring. And there is a lot in that if it is guided in the right direction.

Roosevelt were alive today there is no question but what he would write a letter of commendation to the local apartment house owner who is making arrangements for the entertainment of kiddies.

This apartment which is to be built on South Glendale avenue will have a playground at the rear and a radio-phonograph in every apartment. The owner thinks it is shortsighted not to provide amusement for the tenants.

Somebody has said that men are nothing more or less than boys who have grown up. Evidently Warden Wesley Westbrook of the Cook county jail at Chicago thought so when he gave several prisoners the same sense of feeling that a small boy has when he emerges from the woods shed with his father.

An insurrection by 150 prisoners began Sunday and their campaign of terrorism including setting fire to their bedding, unearthing yells, abuse of furniture, and the like. Then the warden and thirty husky guards stepped down the corridors armed with "pacifiers." Each and every one was dealt with in a manner that caused them to eat their meals standing up yesterday.

There is no need to comment that a riot will be slow in breaking into print elsewhere. Every warden in the country now knows the most effective type of persuasion.

Somebody suggests, "Why is a June bride?"

The conductor of this column has no right to comment on this subject, but invites every reader to send in their explanations of June brides.

Surely, a bookmark chiseled from an icicle can be awarded as first prize in this event. So send in the quotations on the subject. Mix 'em funny, if you wish.

James A. Patten, the "wheat king," says one need not have their name in gold letters on the office door to be a success. And to prove the point, he has never had his name on the door.

"The way to succeed," he says, "is to work. Work hard at something you can put your heart into. Learn to play, too. But don't play too much."

"When the right girl comes along—whether you're 29 or 49—never mind your income. My 'right girl' came along at 33.

"When you get her, make good for her. You can—if you try hard enough."
