PREFACE.

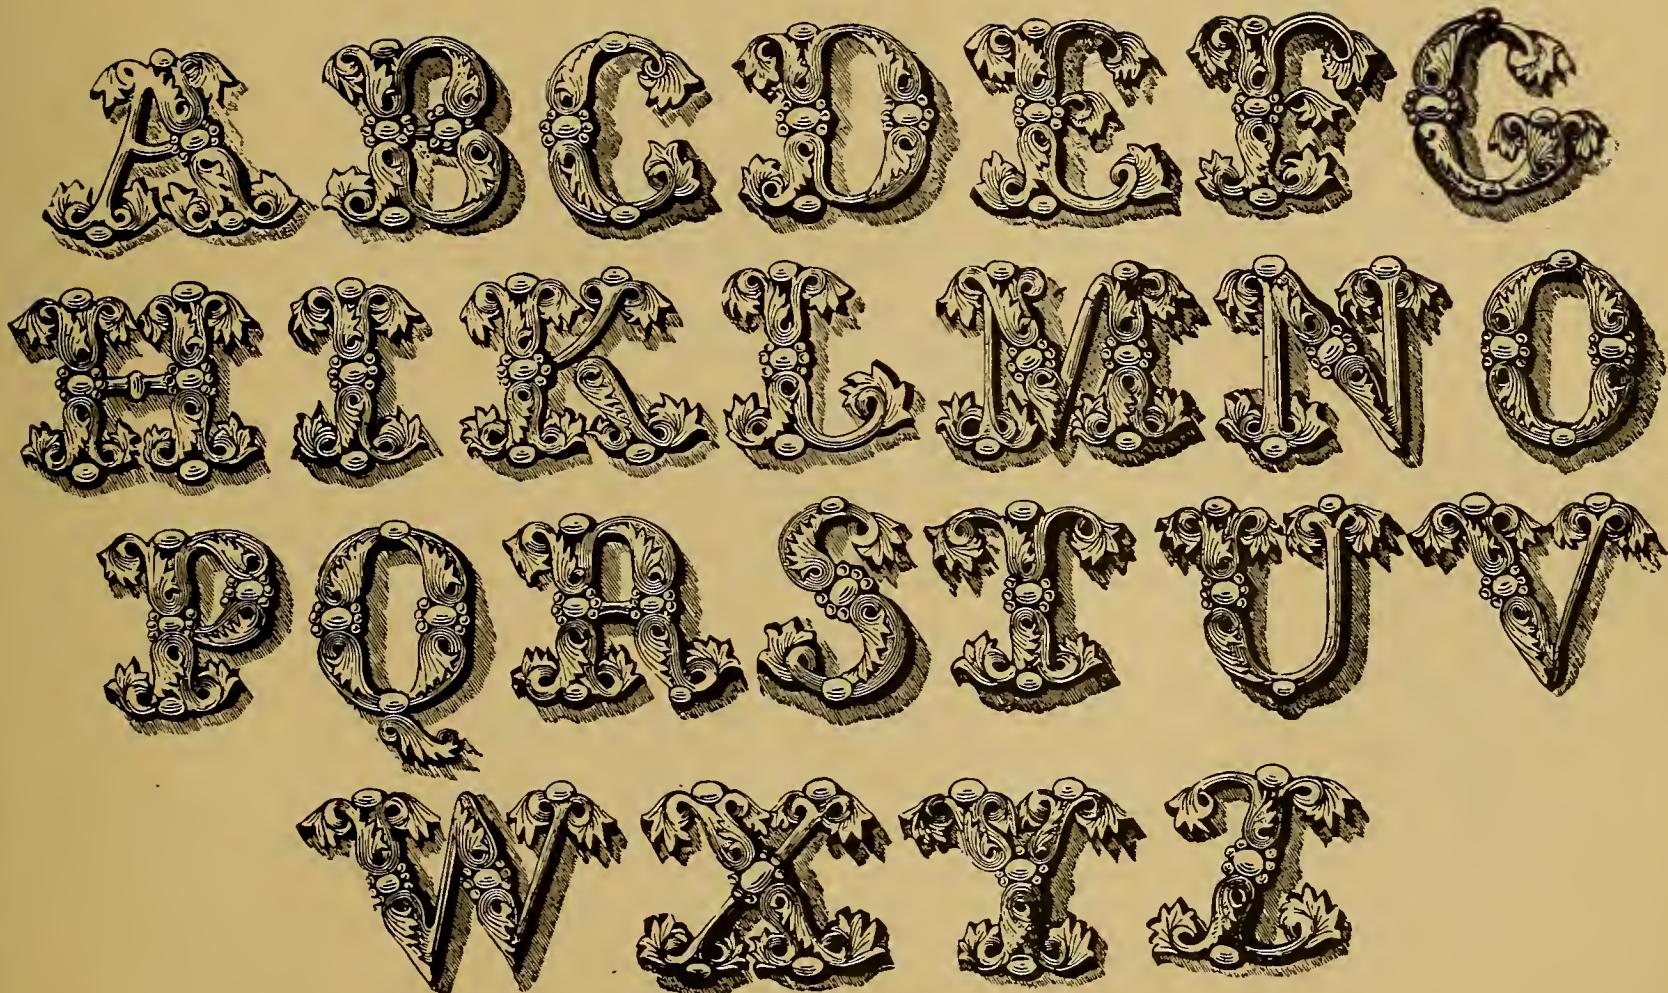

S there are no works of Ancient and Modern Alphabets of any excellence published in a cheap form, I have been induced, after many years' study and research in my profession as a Draughtsman and Engraver, to offer this collection to the favorable notice of the public, trusting that its very moderate price and general usefulness will be a sufficient apology for the undertaking.

The demand for a Second Edition within so short a period of the publication of the first, has convinced me in the most agreeable manner that it has been a work required by the public. To render it still more worthy of their attention, I have here introduced some additions, likely to enhance the interest and increase the value of the pages, as an indication of the esteem in which I have held the encouragement, and the respect I have paid to the suggestions of the purchasers of this book, and the critics by whom it has been so liberally reviewed.
