## OUR NEW SCHOOL.

### The Question of Location is Open for Discussion

Many of the citizens of the community would like to see the new school building located nearer in town than the present one. It will no doubt add materially to the appearance of our little village if we can have the fine building which is to be put up in a place where people can see it—where everyone who comes into the town from any direction will know that we have respectable school accommodations. The conditions under which the location can be changed as set forth in the school law are as follows: "Article VII, Section 1617—Boards of Trustees may, and upon a petition signed by a majority of the heads of families resident in the district, as shown by the last preceding school census, must, call meetings of the qualified electors of the district for determining or changing the location of the school house. \* \* \* Such meetings shall be called by placing three notices in public places, one of which shall be in a conspicuous place on the school house, for not less than ten days previous to the time for which the meeting shall be called, which notices shall specify the purposes for which the meetings shall be called. \* \*

District meetings shall be organized by choosing a Chairman from the electors present, and the Clerk shall be clerk of the meeting, and shall enter the minutes on the records of the district. A meeting so called shall be competent to instruct the Board of Trustees: (1) In regard to the location or change of the location of the school house \* \*

The Board of Trustees shall, in all cases, be bound by the instructions of the district meeting in regard to the subjects mentioned in this section; provided, that the vote in favor of changing the location of the school house shall be two thirds of all the electors voting at said

meeting upon the proposition to change the location."

It will thus be seen that the new school building can be located where two thirds of the voters of the district wish it. If it is to be changed, however, a new site will have to be provided. A trade might possibly be made with some property holder in town whereby a location can be secured without the necessity of an additional tax for the purpose. If, in order to secure a place, however, considerable money is needed it seems that it will involve the necessity of an assessment to provide the required funds. As it now stands the whole matter is in the hands of the people and whether the location is to be changed or the building put up on the present school property can be as they determine.

### Voted to Issue Bonds.

The election on last Monday resulted in a good majority in favor of bonding the district for a new school building. The vote stood 39 to 11 which shows that a large percent of the voters desire to see our district provided with proper facilities for educating the children growing up about us. The trustees will, no doubt, push the building along as rapidly as possible and by the opening of the fall term we will expect to see it ready for occupancy.

A woman in Pittsburg while waiting up for her husband, caught a burglar and nearly killed him. She probably thought it was her husband.—*Los Angeles Express*.

An explorer has a project for finding the south pole. The scheme must have originated in the United States Senate—it is so far away from any practical utility.—*Houston Daily Post*.

## THE ROSE CARNIVAL.

### The Pavilion to Hold 8,000 People. The Program Arranged.

The big pavilion of the Rose Carnival will accommodate 8,000. It will be completed about April 24th. It is to be finished in the rough so that the hammer and nails can be used freely by the ladies in their proposed decorations. The booths, eight in all, are 16x24 feet in size, sloping from a height of 24 feet to 9 feet. There will be ample room in each booth for exhibits and for business. The main floor will be 75 by 125 feet. Dressing rooms are provided on each side and a drop curtain of 40 feet front will be suspended at the footlights. The cost of the building is estimated at \$11,000.

The entertainment committees has now fully decided on the program of the week as follows, the details to be arranged later:

Wednesday—The street parade which will move just before noon.

Wednesday afternoon—The opening exercises at the pavilion from 3 to 6 o'clock, the Mayor and President David Starr Jordan of the Stanford University to make the addresses and other features to consist of singing, etc.

Wednesday night—An illustrated concert by Ronconvieri's band of San Francisco, the selections to be illustrated on a canvas on the stage by 20,000 candle power stereoptican.

Thursday—The polo contest at Agricultural Park between the crack Burlingame and Riverside teams.

Thursday night—The ball, music to be furnished by Ronconvieri's band. Fireworks may also be added to the program.

Friday—The Stanford University will be in charge and will present novel entertainments through the day and in the evening.

Saturday will be given over to the league meet of wheelmen under the auspices of the Garden City Cyclers.

Saturday night—The carnival masquerade and the closing scenes of the festivities.

### Council Meeting.

A meeting of the Town Council was held on last Friday afternoon at the office of Justice Campbell to consider the question of better fire protection. The Fire committee was instructed to arrange for the organization of a fire company as soon as practicable, to look after the placing of hydrants in various parts of the town and to procure some two inch hose.

The committees for the year were appointed by the chairman as follows: Fire Committee, J. C. Ainsley, George Whitney, C. H. Whitman; Park Committee, O. N. Bagwill, A. G. Williams, J. C. Ainsley, Mrs. Wm. Moore, Chas. Berry; Electric Road Committee, F. M. Righter, Chas. Miller, C. N. Cooper; Street and Side Walk Committee, W. W. Turney, R. K. Thomas, Mrs. S. A. Foote.

### As a Schoolboy Sees It.

A schoolboy's composition on "The Editor" ran as follows: The editor is one of the happiest individuals in the world. He can go to any circus in the afternoon and evening without paying a penny, also to inquests and hangings; has free tickets to theatres, gets wedding cake sent him, and sometimes gets a licking, but not often, for he can take back things in the next issue, which he generally does. While other folks have to go to bed early the editor can sit up late at night and see all that is going on. When I am a man I intend to be an editor, so that I may stay out late at nights. That will be jolly. E.v.

## ADDITIONAL LOCAL.

Mrs. Roy Watson has been appointed to take the school census of the Campbell district.

The Campbell school picnic set for Friday was postponed on account of the rainy weather.

W. M. Campbell of Porterville, Tulare county, has taken a position at C. Miller's black-smith shop.

Messrs. B. C. Pearson and H. H. Sharp of McMinnville, Oregon, are visiting with the family of C. Miller.

Mrs. S. Wenbran and Mrs. Capt. Friele of San Francisco, are visiting Mrs. Roy Watson and Mrs. Jas. Dorety.

The first hydrant for fire purposes was put in the past week by the Fruit Grower's Union near their drier on Central avenue.

C. Draper has had a neat little office partitioned off from the main room in his meat shop and will hereafter have a place to post his books "out of sight."

The Santa Clara Association of the Congregational church will meet in Campbell on Tuesday and Wednesday next, the 14th and 15th. The public are cordially invited to attend.

## The Friday Night Club.

The 20th meeting of the "Friday Night Club," of Hamilton avenue and vicinity, was held at the home of Miss Kathleen Dickey, on March 26th. This club though not of long standing, has been successful thus far in its work, and the pleasant evenings spent are gladly looked forward to by its members. Quotations were given at roll call from Ralph W. Emerson. An election of officers took place, the result being as follows: President, Miss Kate Foote; Vice-President, Miss Kathleen Dickey; Secretary, Miss May Rodgers; Sergeant at Arms, Miss Bessie Gates. This is the first time in the Club's history that ladies have held all the prominent positions gentlemen having heretofore occupied the president's chair. After the program was rendered, an exhibition of curios was given by the members. Interesting objects from Nazareth, Egypt, and Norway were

shown besides old china ware, candle sticks, snuff box with inscription, a grant of 160 acres of land written on sheep skin and signed by James Monroe, a newspaper printed in 1800, containing the news of Washington's debate and poetry written on that occasion and other interesting reading; a fac-simile of a newspaper, the contents of which were written by U. S. Grant before the battle of Vicksburg and printed on wall paper after the capture of that city. The inspection of these articles proved very entertaining. The meeting adjourned at the usual hour, 10 P. M.

**THE VISITOR AS AN ADVERTISING MEDIUM.**

That the VISITOR has great value as an advertising medium will not be questioned by those who know the class of people among whom it circulates. The citizens of Campbell and the country tributary thereto are very widely known as the most prosperous and enterprising people of the banner county of the State. They are a thrifty people, not given to extravagance, but as a rule able to buy and pay for what they need. The merchants who secure their trade get their best customers. The VISITOR, being the only local paper, is by far the best means of reaching and securing their trade and no where will your advertising bring you better returns for the money invested. **THE school house wins.**

APRIL showers were the order of the day the latter half of the week.

NEXT Monday the people of San Jose will elect city officers for the coming year and a warm time among politicians may be expected.

IMPROVEMENTS are still progressing in our "quite village." A new school house, new fire apparatus and new dwellings are the latest features.

FRUIT prospects are very good about Campbell up to the present time and as the damage from frost will soon be past we look for a large yield taking it altogether.

STRIVE diligently to succeed in your own business, but see that no effort is made to pull your competitor down while you strive to build up yourself. It is the broad minded policy that commands the respect of thinking people and which ultimately succeeds. —*S. F. Journal.*

THE Executive Committee of the Rose Carnival at a meeting in San Jose last Thursday evening very wisely appointed a committee whose duty it will be to see that hotel keepers and others expecting patronage from visitors at the Carnival do not raise their prices and systematically rob those who come to participate in the festivities as is so often done on occasions of this kind.

**THE COUNTRY WEEKLY.**

The morning papers lay on the seat beside him in the elevated train. He was reading with eagerness a crumpled little sheet. It was the weekly paper, printed in the town where this prosperous, well-dressed New Yorker had been born and bred. Many a man who has carved his fortune in this city hails the little country paper every week as a welcome messenger. It tells how the crops are flourishing, how the fences are being whitewashed every spring, and, perhaps, once in awhile, there is a paragraph about the dear old mother, who has got into print by entertaining a sewing circle. And the prosperous New Yorker reads it entire, while the metropolitan sheets lie beside him unheeded. —*New York Herald.*

**An Interesting Easter Service.**

The Easter Service at the M. E. Church on Sunday last was one of great interest. The church had been most beautifully decorated with flowers and ferns. A large cross made entirely of lilies occupied the center of the pulpit more than three hundred of these most beautiful Easter flowers being used in its construction. The program was given principally by the children of the Sunday school and all the parts were exceptionally well rendered. The following is the program in the order in which it was given. Song, "Coronation;" Scripture Reading; Prayer; Anthem; Recitation, Harley Plympton; Song, Nora and Charlie Stymers; Recitation, Acrosta "He Is Risen;" Song, "Crown the Royal Victor;" Recitation, Gertrude Cook; Song, "Bell of Gladness;" Recitation, Four Boys; Motion Song; Recitation, Fred Tibbetts; Song, "Angels Rolled the Stone Away;" Recitation, "Mission Angels;" Song, "Easter Flowers;" Recitation Miss Alda Swope; Song, By the School.

**Color Photography.**

At the Photographic Club, in Berlin, photographs in natural colors, produced by a system invented by Dr. Selle, of Brandenburg, have been exhibited. The Berlin correspondent of the *Daily News* says: The photographs show great perfection. Dr. Selle based his experiments on the three prime colors of Helmholtz. The colors may be totally different from one another, but together they must produce a pure white. Dr. Selle's prime colors are crimson, pale yellow and a peculiar shade of blue-green. He takes three photographs of an object. The first, with the red color, has only red tones; the second with the yellow, only yellow tones; and the third with the blue, only blue ones. Of each of these three photographs positives are taken on exceedingly thin films, and these correspondingly stained with aniline colors. The films, when pasted one over the other, produce the colors true to nature. It is remarkable that with the three primary colors mentioned every effect of color can be obtained. Dark red roses photographed from nature had even that peculiar violet hue which is familiar. Photographs of butterflies caused great excitement. The eye on a peacock's feather was reproduced, with its peculiar dull steel-blue color. Not less interesting are the photographs of houses and paintings. The reflection of light on the windows of houses is exceedingly true to nature. Dr. Selle regards as his ultimate aim the production of good colored portraits. The only difficulty is to

take the photograph so quickly that the expression of the face does not change.

## W. C. T. U. COLUMN.

The members of the W. C. T. U. of Campbell cordially invite a perusal of this column the matter for which is furnished by members of the society.

Man was made for conflict, not for rest. In action in his power; not in his goals but in his transitions man is great. Instantly he is dwarfed by self-indulgence. The truest state of mind rested in becomes false.—Emerson.

There is a W. C. T. U. in Mahaska county. Iowa, composed entirely of white women, which has a colored woman for its president. She is a deeply consecrated, intelligent woman, and the work of the little union, under her leadership, is going steadily on.

The St. Vincent de Paul Society, a Roman Catholic benevolent organization, has excluded saloonkeepers from membership. Like action has been taken by several Masonic bodies, and several railroads, among them the Chicago & Alton, require total abstinence of their employes.

We are told that it is none of our business what men sell or drink; and so we are to hold ourselves in constant peril, and at the mercy of drunken engineers, drunken conductors, drunken sea-captains, drunken drivers, drunken policemen, drunken doctors, drunken hoodlums, drunken men of every class, and any of whom may cause our death when intoxicated; and yet we have no right to protest against the traffic which works ruin and destruction on every hand.—*The Safeguard.*

A New York oculist declares that the cigarette is the greatest enemy to the eyes of young men. He describes a peculiar disease of the eye among smokers, the symptoms of

which are dimness and film-like gatherings over the eye that appear and disappear at intervals. The best specialists were at a loss for a long time to understand the cause of this trouble, but have at length traced it to the use of the cigarette. It is known as the "cigarette eye," and can be cured only by long treatment, and an entire suspension of the cigarette habit.

### Thinning Fruit.

Young fruit is growing with astonishing rapidity this spring, and it looks as though extra early ripening dates would be recorded. It is important to get the thinning along proportionately fast, but orchardists will, of course, look out for the "drop." In some places the "drop" is setting in very early this spring, and it seems to be aided by fungus and minute insects. The exact condition in each orchard should be closely looked into.—*Rural Press.*

### U. S. Official Postal Guide, 1896.

Just Issued.

Very few of our business men know that the Post Office Department at Washington issues in **January of each year**, a complete **POSTAL GUIDE** containing 1000 pages, and complete lists of Post Offices in the U. S., arranged alphabetically, all rules and regulations, money order offices and rulings of the department on postal matters, time of arrival and departure of foreign mails, and much valuable information for the public on postal matters.

The book is exceedingly valuable to those using the mails. It is the Guide for every Postmaster in the country and is sold to business men by the publisher, Geo. F. Lasher, 147 N. 10th St., Philadelphia, Pa., in cloth cover, \$2.50 or paper cover, \$2.00. CAN BE ORDERED THROUGH OUR POSTMASTER and every business man should secure a copy.

ACME CYCLE COMPANY,  
ELKHART, IND.

Ft. Worth, Texas, Oct. 10, 1895.

Acme Cycle Co., Elkhart Ind.

Dear Sirs:—My Acme Light Roadster arrived yesterday morning and not only myself but everyone that has seen it pronounces it a strictly first-class wheel and a beauty. I am very well pleased with the same, and will do all I can to get a great many more to buy your wheel.

Yours truly,

C. H. CHEATHAM.

Alliance, Ohio, Oct. 12, 1895.

Acme Cycle Co., Elkhart, Ind.

Dear Sirs:—Having given my wheel a good trial, am ready to say I am exceedingly well pleased and thank you very kindly for the favor and privilege you have given me. I showed the wheel to one of our prominent bicycle agents, who did his best to sell me a wheel, and he said after taking a short ride on it that it was a fine wheel, and I know if the material is as good as the finish, I will never regret my bargain.

Yours truly,

SEHT BRATON.
