第八結論

要するに帝國憲法は作業開始以来今日迄殆ど断えず英のアウトラインを形成したに過ぎないものであります。然し生活困窮者が単に國家の保護のみを頼りとして漫然と生活を續けて居る事は總ての点から言って好ましくない状態であり進んで自ら経済的に自立し國家保護の手を離れる多くの人々の負担を軽減すべきであります。そして憲法場こそは彼等の為に充分其機能を発揮する事が理想的な状態であります。

経済的な国籍と混乱が常に共産主義思想の温床でありそしてその拡がる事が常に指向する主要な事は異常時に於ける人々の生活の水準が極端に低下する事であります。北海道の全地を無かんしある所に延引する日の一日も早からん事を希望するものであります。

尚帝都復興の新事業計画として別冊廃娼更生事業を添附致しました

CHIBA-SHI JUSAN JO continued

6. Regarding question 13. The Fish Net Company in Sendai, keeps a record of all the income and expenses and sends to the Chiba Jusan Jo money for salaries and other local expenditures. Jusan Jo office is required to send to the Fish Net Company, a monthly account of expenditures and they in turn send a record of sales, etc., as reported below. Financial statement is as of 31 March 1949, when their books are closed for the fiscal year.

Income: Sale of manufactured goods	¥1,351,661.77
Value of manufactured goods stored	882,280.95
Value of raw materials on hand	241,874.40
Raw materials	2,257,213.00
Salaries	855,156.70
Transportation	76,413.82
Other operating expenses (utilities, recreation, tools)	541,146.38
Staff salaries	394,613.07
Office expenses	124,620.37
TOTAL:	¥4,259,163.34

7. Manager stated that as of the end of the fiscal year, they were in the "red" ¥1,783,346.22, for which they are reimbursed by the Fish Net Company.

8. Director was questioned as to what they considered the training period. He stated that it took approximately two months, and then the employee was given their own machine to operate.

9. Although the Chiba City Office advanced funds at the beginning of the operation as did the Fish Net Company in Sendai, the Prefecture has not expended any further funds, only the Fish Net Company. Although individuals were originally referred through the welfare office and unemployed registered with the Labor Exchange, and the Welfare Section does supervise the Jusan Jo, it appears actually that this Jusan Jo is nothing more than a branch factory of the company in Sendai.

10. The inspection was made on 11 July 1949 and two days following the Jusan Jo ceased operation. Reason given was that the Fish Net Company was unable to advance any further funds to continue the operation of the workshop, and in view of the deficit, reported above, it was decided to close the shop. A check was made with the city welfare office regarding the employees in the workshop. All employees secured employment amongst the 12-13 other private fish net manufacturing companies in this Prefecture. The Chiba City Office expects to realize their original investment through the sale of the hand operated machines and electric powered weaving machines.

SUBJECT: Chishiro-en T.B. Hospital

TO: Capt. Caccamise
Public Health Section

An inspection was made of above hospital on 9 July 1948. Main purpose of inspection was to check on reported concealed LARA goods etc. reported by one of the patients. No concealed goods were discovered. As a result of this investigation the following information obtained.

Chishiro-en is a National T.B. Sanatorium.
Director - Kuraji Kurata, M.D.
Gentaro Hosoya, M.D.
Total staff 50.

Hospital has been operating as a T.B. Sanatorium for 10 years. Total # patients 142.

38 free of charge.
19 insurance patients.
31 paying patients.
54 on public assistance (Medical Ticket)

Costs of hospitalization ~~are~~ is figured on a point basis, with 16 points per day per paitent, one point equals 6.50 yen, of the 31 patients paying — they are only able to pay 20-40% of total cost per day of 104 yen.

Hospital receives a budget by the fiscal year. Out of this budget staff is paid, all medical supplies and building equipment is purchased. Due to small budget they do not have sufficient medical equipment or building supplies. All money taken in at hospital is returned to National Treasury.

Average length of stay of patients is two years. Average number who have fully recuperated is approximately 10 individuals per year.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Sanatorium does not have an operating room — all operations performed at Chiba Medical University Hospital.

When patients are discharged from the Sanatorium they are again instructed in sanitary and preventative measures to safe guard spreading T.B. Sanatorium reports the names of each patient discharged to the Health Center nearest the patients residence.

Patients who are now in the Sanatorium are mainly referred by Health Centers and private doctors.

Inspection made of wards, examination rooms, laboratory X-ray room, pharmacy, kitchen and warehouse. Hospital seemed to be in a satisfactory sanitary condition.

Director stated that they have sufficient food for patients and LARA foodstuffs are received at regular intervals last LARA goods received 6/17/48 for 4 months period. Lard, Skimmed milk, soy sauce, powdered chocolate, dried beef, misc. canned goods, powdered rice and macaroni.

ヘ、一般学習の方針

児童の多くは学校教育法による就学を免除されている者が大部分であり、又盲ろうあ唖の順に分ち級別にこれを教授する、概して学習を嫌う傾向がある、然しなくらこれに対し聊かなりとも智能を向上させ且つ独立自活に必要なる技能を与えるため前記普科教育を主眼としている、学科指導の主眼点を挙ぐると次の通りである

1、児童の健康を出来るだけ増進すること
2、日常生活に於ける自立の能力並びに精神的良習慣を養うこと
3、社会生活に正しく適応できるようにすること
4、主要学科目を習得させること
5、一定の職業的技能を授け自立の路を開く準備をすること
6、適当な余技を與えてやること（音楽等）
7、清潔、健康、美及調和の標準を發達せしむること

ト、更生対策

精神薄弱者と雖もその指導方法の如何によっては将来社会に出て独立自活をなし得る者が少くない、特に年少の者は多少に拘らず感受性や陶冶性を有し發展性があるので絶えず性格の欠陥を矯正しその能力を伸すべく努め、その可能度がありと考えられるのであるので絶えず次のように實施している
