DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

PETITION 21 August 1950

TO : Chief, Kanto Civil Affairs Region

FROM : Hyozo Noda, Chief of Kushibikigahara Reclamation Agricultural Cooperative Association, Fujisawa-mura, Osato-gun, Saitama Prefecture

SUBJECT : Petition for Release of Land & Buildings of Tokyo 2nd Military Arsenal, Kushibiki Plant (34-36)

I take the liberty of submitting you our petition for the release of a part of the reparation custodial area of the former Tokyo Army Second Arsenal, Kushibiki Plant at the request of all the members of the Kushibikigahara Reclamation Agricultural Cooperative Association.

Our reclaimed land covers a major part of the site of the former Tokyo Army Second Arsenal, Kushibiki plant and its vicinity extending over Fujisawa, Hongo, Yodo and Okabe Villages, Osato-gun, Saitama Prefecture. Its reclamation was started in July 1946 by 241 families of repatriates (50%), war-sufferers (25%) and other demobilized farmers under the direct control of the Saitama Prefectural Government.

Our 3 long years of exertion to reclaim waste land and forest has recently brought us a cultivated land as it stands.

We have been making efforts to improve species in our field. Consequently, the upland rice crop of a member of our cooperative won the first prize of the Minister of Agriculture and Forestry and sweet potato and potato won the prizes at the National Cultivators' Agricultural Products Contest under the auspices of the Ministry of Agriculture and Forestry last year.

At present, our reclaimed land, the largest in Saitama Prefecture, is being guided as a special guidance district by the Tokyo Farm Land Office, Ministry of Agriculture and Forestry.

We have, however, troubles with the definite allotment of the reclaimed land among the member families of our cooperative.

Our cultivated field covers an area of 824.6 acres, i.e., 3.4 acres per family, while the minimum standard area of cultivated field per family in the vicinity amounts to 3.6 acres.

Further, farm land surveying has been already finished by Saitama Prefectural Government and the allotment of an area of 3.6 acres per member of our cooperative has been decided, so that we are waiting for the sale of farm land.

Provided that the part of the reparation custodial area were released to us, we could newly get farm land covering an area of about 50 acres, i.e., 0.2 acres per family, enabling each family to get an

area of 3.6 acres.

Under the circumstances as mentioned above, it is cordially requested that your kind consideration be given toward our petition.

Hyozo Noda.
