PREFACE.

THE preceding edition of the present work was sent forth at a moment when the study of the Anglo-Saxon tongue was almost at its lowest ebb in England. It was compiled as an experiment, under the belief that a small volume of extracts in prose and verse—beginning with pieces couched in the simplest language and proceeding gradually to the most difficult—accompanied by a compendious Glossary, would much contribute to the revival of the study of the Anglo-Saxon language in the land where it once had its home, and had flourished more vigorously than any of its kindred dialects on the Continent. The belief above-mentioned, though not fully justified, proved not wholly groundless: the few copies printed were gradually disposed of, and the number of students sensibly increased, many of whom, it may reasonably be supposed, were indebted for their progress to the *Analecta Anglo-Saxonica*.

Issued under more favourable circumstances than its predecessor, the present edition appears in a cheaper form, and with some modifications and changes, it is hoped, for the better, it having been the editor's object to compile an initiatory book for beginners, which might at the same time not be devoid of interest to the lovers of Anglo-Saxon lore in general.

The editor feels much gratification in mentioning that this work is now adopted as a text-book for his lectures by the Rawlinsonian Professor of Anglo-Saxon in the University of Oxford, whence it may be hoped that the study of our ancient mother-tongue may find its way, as an essential branch of English education, into our higher schools, and thus tend to the formation of a style more impressive* and more truly English than is to be found in many literary productions of the present, and very many of the last century. On this subject, the words of a very sensible and eloquent writer may with propriety be here quoted : "As Englishmen we have to think, to write, to speak in English and with Englishmen. Surely, then, it is a matter of concern to know and understand well our own tongue. How much better then would it be, if in our public and private schools as much attention at least were given to the teaching of English, as of Greek and Latin, that our youths

* That the poetry of England derives its choicest expressions from the Anglo-Saxon element of our language, may be proved by numberless examples ; among which, as a production familiar to every one who reads, may be cited Gray's Elegy.

might bring home with them a racy idiomatic way of speaking and writing their own language, instead of a smattering of Greek and Latin, which they almost forget, and generally neglect in a few years' time ! Let our English youth of both sexes be taught to drink deeply of the well of English undefiled. For this a study of Anglo-Saxon is absolutely needful ; for after all, it has bequeathed to us by far the largest stock of words in our language. About the Anglo-Saxon tongue there was the strength of iron, with the sparkling and the beauty of burnished steel, which made it withstand with success the attacks that the Norman William and his fawning courtiers directed against it, as they tried in vain to thrust their French into the mouths of the English people. If the sword of the Normans vanquished the Anglo-Saxons, the Anglo-Saxons' tongue in its turn overthrew the French of the Normans. The greatest harm that was ever inflicted on the English language came from Johnson, who in giving English endings to long-drawn Latin words, foolishly thought to impart dignity of style to his writings by words big, not with meaning, but with sounding emptiness. Such silliness and childishness have happily died away ; but still our young men have to be taught to follow our best and latest writers, and always to choose an Anglo-Saxon word before a Latin one. When this shall be done, then may we look forward to a bright period in our country's literature. We shall have our ears charmed with a flow of sounds as strong as they are sweet and beautiful, instead of, as often now happens, being wearied with a namby pamby gibberish

made up of Greek, Latin, and French words with English endings*.”

In the Glossary the student will find numerous synonyms from the other Northern tongues, particularly German and Danish. These have been inserted solely with the view of showing to learners the great affinity that prevails among these tongues and our own ancient vernacular speech. To the old Germanic and Scandinavian dialects the references are few, being deemed needless in a glossary designed for beginners, and useless to the proficient. The references to the grammar frequently occurring in the Glossary apply to the editor’s translation of Rask.

The volume, though of small dimensions, will, nevertheless, be found to contain no inconsiderable number of words, the several extracts of which the text is composed having been selected from among those which seemed to offer the greatest variety, with reference both to the vocabulary and the forms of expression. A brief notice of the several extracts will best enable the reader to form a judgement of the work.

linear gloss to the Latin; the design of its author (*Ælfric*) being, by means of a Hamiltonian version*, to facilitate to children the acquirement of the Latin tongue. As presenting a curious picture of times and manners and of monastic life at that early period, it is both valuable and entertaining.

Homilies of *Ælfric*, p. 36.

These are from "The Homilies of the Anglo-Saxon Church," in course of publication for the *Ælfric Society*.

I. Dom. I. in Mense Septembri, quando legitur Iob, p. 36.

II. IV. Id. Mart. S^{ecundus} Gregorii Papæ, p. 44. This interesting homily, giving an account of the conversion of the English by St. Augustine and his brother missionaries, was printed in the year 1709 with an English translation by Mrs. Elizabeth Elstob, which edition has been lately reprinted. This learned lady's version is, generally speaking, close and faithful, though the Saxon text on which it is formed is extremely corrupt.

III. IV. Kal. April. Depositio S. Cuthberhti Episcopi, p. 52.

This homily is entirely composed from Beda's two lives of the Saint. It is alliterative.

IV. De Fide Catholica, p. 63.

V. Dominica Septuagesima, p. 73.

A very beautiful discourse on the parable of the labourers in the vineyard.

From King *Ælfred's Translation of Orosius*, p. 81.

I. The Geography of Europe, and the Voyages of Ohthere and Wulfstan. These voyages have been frequently printed and translated. The text now given is from the original manuscript† of *Ælfred's Orosius*, to which they are prefixed, and will on collation be found in several places to differ from that printed in Daines Barrington's edition ‡, where it is accompanied by a very incorrect translation, and a commentary by J. R. Forster, abound-

The life of St. Hild, with an account of the Poet Cædmon.

This extract is from a MS. in the Library of C. C. Coll. Oxon., collated with Smith's edition.

From the Story of Apollonius of Tyre, p. 108.

This short extract is from the Anglo-Saxon version of a tale in the *Gesta Romanorum*, of which the only known MS. is in the library of C. C. Coll. Camb., and that is unfortunately imperfect. The version (which has been printed with an English translation †) is a model of Anglo-Saxon prose. For an account of the story and its versions, see Warton's *H. E. P.*

A Dialogue between Saturn and Solomon, p. 110.

This dialogue is one of a numerous family that flourished under a variety of denominations and in great estimation during the middle age. The text (from a Cottonian MS.) is in places corrupt, apparently from ignorance of the copyist. In the Red Book of Derby (MS. Bibl. C. C. C. Cantab.) is a metrical dialogue between the same parties, which, together with the above, is now in course of publication for the *Ælfric Society* by Mr. Kemble ‡, to whose

Introduction the student is referred for an abundance of curious information relating to these extraordinary compositions.

The Mandrake, p. 116.

At the head of this article in the Cottonian manuscript is an illumination, representing a dog in the act of drawing the plant out of the earth, according to the method laid down in the text. The piece affords a striking instance of “the wisdom of our forefathers.”

A Spell to restore Fertility to Land rendered sterile by Witchcraft, p. 116.

The text of this interesting specimen of the simplicity of our forefathers is from the unique manuscript in the Cottonian Library (Calig. A. 7.).

Homily in Natale S. Eadmundi, p. 119.

This homily, as we learn from the beginning, is founded on the narrative of Eadmund's sword-bearer to king *Æthelstan*, from which it was related by Dunstan to Abbo of Fleury. By Abbo the account was committed to writing, of whose narrative the present homily is a translation. Manuscripts of the homily are extant in pure Anglo-Saxon; but the present text is given as an interesting specimen of the dialect of East Anglia*. It is from MS. Bodl. NE. F. 4. 12, and was apparently written at Bury. See p. 125. It is alliterative.

Wills, p. 126.

- I. The will of *Ælfric*, bishop Elmham,—a curious specimen of barbarous Saxon in the dialect of E. Anglia.
- II. The will of *Lufa*, an East-Anglian lady, even more barbarous than the preceding. Both are from the Cott. MS.

From the Gospels, p. 128.

This is a chapter from the Northumbrian Gloss of the celebrated

* Of the E. Anglian dialect the most remarkable deviations are, *b* for *f*, as *ob* for *of*, *libgende* for *lifigende*, *hiabenlic* for *heofenlic*; *e* for *æ*, as *þet* for *þæt*; *æ* for *e*, as *wæl* for *wel*; *u* for *w* and *b*, as *suín* for *swín*, *uene ualete* for *bene valete*; *i* for *e* and *a* for *o*, as *sia* for *seo*, *wiarald* for *weoruld*; *l* for *hl*, as *laford* for *hlaford*; *i* for *ge* prefix.

nounced as our *life*), etc. On the other hand, wherever the consonant is doubled, the vowel preceding is short and sharp, as in *ȝett* (pronounced as our *yet*, not *yate*, as it would be if written with a single *t*), *Godd* (pronounced *God*, not *Gode*), etc. Thus *hus* is to be pronounced *hoos*, whereas *buss*, with a double *s*, is our *thus*. Mr. Tyrwhitt, therefore, had done well, even for his own sake, to have spared his injudicious remark upon this peculiarity of the author, for which every critical student of our early language is so much indebted to him*.

Orm's dialect merits, if any, to be called Dano-Saxon : his name also betrays a Scandinavian descent †.

In conclusion, the editor does not hesitate in expressing his belief, that every student who has read through and well understood the contents of this volume will find no difficulty in understanding any Anglo-Saxon writer either in prose or verse.

* “There is a peculiarity in the author's orthography, which consists in doubling the consonants ; e. g. brother he writes *brotherr* ; after, *afterr*, etc. He has done this by design, and charges those who shall copy his book, to be very careful to write those letters twice which he has written so, as otherwise he assures them ‘they will not write the word right.’ Hickes has taken notice of this peculiarity, but has not attempted to explain the author's reasons for it ; and indeed, without a more perfect knowledge than we now probably can have of the Saxon pronunciation, they seem totally inexplicable. In the few lines which I think it necessary to quote here as a specimen of the metre, I shall venture (first begging Ormin's pardon for disregarding his injunction) to leave out the superfluous letters ; and I shall also, for my ease as well as that of the reader, transcribe them in modern characters.”—*Essay on the Language and Versification of Chaucer.*

† An edition of the *Ornulum* by the Rev. Dr. Whit[e] late Rawlinsonian Professor of Anglo-Saxon, was printed at the University Press, Oxford, in 2 volumes, 8vo. 1852.

HOMILIES OF ÆLFRIC.

DOMINICA I. IN MENSE SEPTEMBRI,
QUANDO LEGITUR IOB.

MINE gebroðra, we rædað nu æt Godes ȝenungum be ȝan eadigan were IOB; nu wille we eow hwæt lytles be him gereccan, forðan þe seo deopnys ȝære race oferstihð ure andgit, and eac swiðor þera ungelæredra. Man sceal læwendum mannum secgan be heora andgites mæðe, swa þæt hí ne beon ȝurh ȝa deopnysse æmode, ne þurh ȝa langsumnysse geæðrytte.

Sum wer wæs geseten on þam lande þe ys gehaten Hús, his nama was Job. Se wer wæs swiþe bilewite and rihtwis and ondrædende God and forbugende yfel; him wæron acennede seofan suna and þreo dohtra; he hæfde seofon þusend sceapa and þreo þusend olfenda, fif hund getymu oxena and fif hund assan and ormæte micelne hired. Se wer wæs swiþe mære betwux eallum Easternum; and his

suna ferdon and þenode ælc oþrum mid his gódum on ymbhwyrfe æt his huse, and þær-to heora swustru gelaþodon. Iob soðlice arás on þam eahteópan dæge on aérne-merigen, and offrode Gode seofonfealde lác for his seofon sunum, þylæs þe hí wið God on heora geþance agylton. Þus dyde Iob eallum dagum for his sunum and hi swa gehalgode.

Hit gelámp on sumum dæge, þaða Godes englas comon, and on his gesihþe stodon, þa wæs eac swilce se scucca him betwux. To þam cwæð Drihten, Hwanon come þu? Se sceocca andwyrde, Ic ferde geond þas eorþan and hí beeode. Drihten cwæð, Ne beheolde þu lá minne þeowan Iob, þæt nan man nis his gelica on eorþan, bilewite man and rihtwis, ondrædende God and yfel forbugende. Swa stod se deofol on Godes gesihðe, swa swa dēð se blinda on sunnan. Seo sunne ymbscinð þone blindan, and se blinda ne gesihð þære sunna leoman. God geseah þone deofol, and se deofol swa-þeah wæs bedæled Godes gesihðe and his wuldres. Eorþe is geeweden Godes fót-sceamel, and seo heofen is his þrym-setl. Nu stod se sceocca swilce æt Godes fót-sceamele up on þære eorþan, þaða se Ælmih-tiga hine axode hwanon hé come? Hé cwæð þæt hé ferde geond þas eorþan, forþan þe hé færð, swa swa Petrus se Apostol cwæð, Beoð syfre and wacole, forþan þe se deofol, eower wiþerwinna, færð onbutan swa swa grymetende leo, secende hwæne hé abite; wiþstandað þam strange on geleafan. Micele wæron þises mannes geearnunga, þa se Ælmih-tiga be him cwæð, þæt his gelica nære on eorþan. Ge magon gehyran sume his þeawas, swa swa hé be him sylfum awrat.

Iob cwæð: Ic alysde hrymende þearfan, and þam steop-bearne, þe buton fultume wæs, ic geheolp, and wydewan heorton ic gefrefrode. Ic wæs ymbscryd mid rihtwisuysse. Ic wæs blindum men eage, and healtum fót, and þearfena

fæder. Of flýsum minra sceapa wæron gehlywde þearfena sidan, and ic þearfum ne forwyrnde þas þe hí gyrndon ; ne ic ne æt ana minne hlaf buton steop-bearne, ne ic ne blissode on minum menigfealdum welum. Ne fægnode ic on mines feondes hryre, ne læg ælþeodig man wiþutan minum hegum, ac min duru geopenode symle wegferendum. Ne behydde ic mine synna, ne ic on minum bosme ne bediglode mine unrihtwisnysse. Ne sæde Iob þis for gylpe, ac forþan þe hē wæs eallum maunum to bysne geset.

Þus mærne man wolde se māfulla deofol, þurh þam micclum costnungum þe he him to dyde, fram Gode geweman ; and cwæð to Drihtne, Ne ondræt Iob on idel God : þu ymbtrymedest hine and ealle his æhta, and his handgeweorc þu bletsodest, and his æhta weoxon on eorþan. Ac astrece hwon þine hand, and getill ealle þa þing þe hē ah, and he þe on ansyne wyrigð. Drihten cwæð to þam sceoccan, Efne nu ealle þa þing þe he ah sindon on þinre handa, buton þam anum, þæt þu on him sylfum þine hand ne astrecce. Ne derode Iobe naht þas deofles costnung, ac fremode, forþan þe he wæs fulfremedre on geþincþum and Gode near, æfter þas sceoccan ehtnysse. Se deofol gewende þa fram Godes gesihþe, and acwealde ealle his æhta anes dæges. Sum ærend-raca com to Iobe, and cwæð, Ðine syll eodon and þa assan wið hí læswodon ; þa færlice comon Sabei, and hí ealle us benamon, and þine yrþlingas ofslogon, and ic ana ætbærst, þæt ic þe þis cydde. Mid þam þe se yrþling þis sæde, þa com sum oþer, and cwæð, Fyr com færlice of heofenum, and forbærnde ealle þine scep and þa hyrdas samod, and ic ana ætwand, þæt ic þe þis cydde. Ða com se þridda ærend-raca, and cwæð, Ða Chaldeiscan comon on þrim floccum, and ure olfendas ealle gelæhton, and þa hyrdas mid swurde ofslogon ; ic ana ætfleah, þæt ic þe þis cydde. Efne þa-gyt com se feorþa

 Hwæt þa, Iob arás and totær his tunecan and his loccas
 forcearf, and feol to eorþan, and cwæð, Nacod ic com of
 minre modor innoþe, and nacod ic sceal heonan gewandan.
 Drihten me forgeaf þa æhta, and Drihten hí me eft benam ;
 swa swa him gelicode swa hit is gedon, beo his nama ge-

 þæt his mod wurde fram Gode awend, þaða he þa ungelimp
 geaxod hæfde. Þæt fyr com ufan, þe þa scēp forbaernde :
 ac hit ne com ná of heofenum, þeah þe hit swa gehíwod

 hé þanon þurh modignysse afeol mid his geferum. Eall
 swa deð Antecrist, þonne he cymð, he asent fyr ufan, swilce

 asendan, seþe on heofenum sylf cuman ne mōt. On eallum
 þisum ȝingum ne syngode Iob on his welerum. On twa
 wison men syngiað on heora welerum ; þæt is, gif hí uuriht
 sprecað, oþre riht forsuwiað ; ac Iob ne syngode on his
 welerum, forþan þe hē dyslice ongean God ne spræc, ne
 eac Godes herunge ne forsuwade : he cydde þæt he buton

 ðaþa Godes englas stodon on his gesihþe, þa wæs eac se
 scucca him betwynan, and Drihten him cwæð to, Hwæt

me togeanes him, þæt ic þearflease hine geswencte. Se scucca andwyrde, Fel sceal for felle, and swa hwæt swa man hæfð, he sylð for his life. Astreec nu þine hand, and hrepa his bân and his flæsc, þonne gesihst þu þæt he þe on ansyne wirigð. Drihten cwæð to þam scuccan, Efne he is nu on þinre handa, swa-þeah-hwæþere heald his sawle. Ne geþafode God þis to forwyrde ðam eadigan were, ac þæt hē wære to bysne eallum geleaffullum mannum, and wurde swiþor gemærsod þurh his miccle geþyld and earfoþnyssum. Ða gewende se deofol of Drihtnes gesihþe, and sloh Iob mid þære wyrstan wunde fram his hnolle ufewerdan oð his ilas neopeweरde. Iob sæt þa sarlice eal on anre wunde, up on his mixene, and ascræp þone wyrms of his lice mid anum croc-scearde. His wif him cwæð to, Gyt þu þurhwunast on þinre bilewitnysse ; wyrig God and swelt. Iob hire andwyrde, Ðu spræce swa swa án stunt wif. Gif we góð underfengon of Godes handa, hwí ne sceole we eac yfel underfon ? On eallum þisum þingum ne syngode Iob on his welerum. Se swicola deofol genam þæt wif him to gefylstan, þæt he þone halgan wer þurh hí beswice, swa swa he ár Adam þurh Euan beswac ; ac se ylca God, þe geþafode þæt he swa gecostnod wære, heold hine wið þæs deofles syrwungum and wið his sawle lyre. Witodlice, þa geaxodon þry cyningas, þe him gesibbe wæron, eal his ungelimp, and comon him to of heora rice, þæt hí hine geneosodon. Heora naman wæron þus gecigde, Elifaz, Baldað, Sofár. Hí gecwædon þæt hí samod cumende hine geneosodon and gefrefrodon. Hí þa comon and hine ne oncneowon for þære ormætan untrumnyssse, and hrymدون þærrihte wepende. Hí totæron heora reaf, and mid duste heora heafod bestreowodon, and him mid sæton manega dagas. Hit wæs swa gewunelic on ealdum dagum, þæt gif hwam sum færlic sár become, þæt he his reaf totære swa swa Iob dyde, and eac þas þry cyningas. Hí comon hine

Hwær is nu þin Godes ege, and þin strençð? Hwær is þin geþyld, and þinra dæda fulfremednys? And mid manegum þrafungum hine geswencton. Iob cwæð, Eala gif minne synna and min yrmð, þe ic þolige, weron awegene on anre wægan, þonne weron hí swærran gesewene ðonne sand-corn on sáe. To þreagenne ge logiað eowere spræce, and ge þencað to awendenne eowerne freond. Mannes lif is campdom ofer eorþan, and swa swa medgildan dagas, swa sind his dagas. He cwæð þæt mannes lif wäre campdom ofer eorþan, forþan þe ælc þæra þe Gode geþihð bið on gewinne wið þone ungesewenlican deofol, and ongean his agenum lustum, þa hwile þe hé on life bið: and swa swa se hyrman his edleanes anbidað, swa geanbidað se gastlica cempa his edleanes æt þam Ælmihtigum Gode. Godes gecorenan sind on gewinne on þyssere worulde, and þa arleasan on hire blissiað; ac þæra rihtwisra gewinn awent to blisse, and þæra arleasra bliss to biterum sarnyssum on þære ecan worulde, þe gewelgað þa þolmodan. Ealle þas costnunga deofol, and þæra æhta lyre, his bearna deað, and his agen untrumnyss, his wifes witleast, and his freonda edwit, ne mihton awecgan Iob of his modes anrædnyses, ne fram his micclan geleafan, þe he to þam Ælmihtigan Gode symle hæfde; ac se scucca wearð gescynd þe hine beswican wolde. Iob cwæð eft: Min flæsc is ymbscryd mid forrotodnyses and mid dustes horwum, min hýd forsearode and is forscruncen. Me habbað geswencednyses dagas, and on niht min bán bið mid sarnyssse þurhdyd; and þa þe me etað ne slapað. Ic eom lame wiþmeten, and yslum and axum geanicod. Eft he cwæð: Ic wat soþlice þæt min Alysend leofað, and ic on þam endenextan dæge

We sædon eow and gyt secgað, þæt we ne magon ealle þas race eow be endebyrdnysse secgan; forþam þe seo bōc is swiðe micel, and hire digele andgyt is ofer ure mæðe to smeagenne. Ða þry cyningas ða hæfdon langsume spréce wið þone gedrehtan Iob, and gewendan him ham siþpan. Ac God hí gespræc þa, and cwæð, þæt he him eallum þrim gram wære, forþan þe hí swa rihtlice ætforan him ne spræcon, swa swa Iob his þegen. God cwæð him to, Nymað eow nu seofon fearras and seofon rammas, and farað eft ongcean to minum þowan Iobe, and geoffriað þas lác for eow; Iob soþlice min þeowa gebit for eow, and ic his ansyne underfo, þæt eow ne beo to dysig geteald, þæt ge swa rihtlice to me ne spræcon swa swa min þeowa Iob. Hit wæs gewunelic on ealdum dagum, þæt man Gode þyllice lác offrode on cucan orfe, and þa acwealde; ac seo offrung is nu unalyfedlic æfter Cristes þrowunge. Elifaz þa and Baldað and Sofár ferdon ongcean to heora mæge Iobe, and didon swa swa him God bebead; and Drihten underfeng Iobes ansyne, and heora synne purh his þingrædene forgeaf. Ðeah þe Iobes ansyn wære atelice toswollen, and his lic eal maðan weolle, swa-þeah is awritten, þæt se Ælmihtiga underfeng his ansyne, þaða hé for his freondum gebæd. Be þisum is to understandenne þæt se þe for oðrum gebit, fremað him sylfum micclum, swa swa þæt halige gewrit segð, þæt þaða Iob for his freondum gebæd, þa gecyrde God to his behreowsunge, and swa eaðelice hine eft gehælde, swa hé hine ár geuntrumode. Iob hæfde ár his untrumnyssse seofon þusend sceapa and þreo þusend olfenda, fif hund getyme oxena

He hæfde seofon suna and þreo dohtra ær, and siððan eft eal swa fela. Hwí nolde God him forgyldan his bearn be twyfealdum, swa swa hē dyde his æhta ? FERIA IIII.

DE FIDE CATHOLICA.

ÆLC cristen man sceal æfter rihte cunnan aegðer ge his Pater noster ge his Credan. Mid þam Pater nostre he sceal hine gebiddan; mid þam Credan he sceal his geleafan getrymman. We habbað gesæd embe þæt Pater noster, nu we wyllað secgan eow þone geleafan þe on þam Credan stent, swa swa se wisa Augustinus, be þære Halgan þrynnysse, trahtnode.

An Scyppend is ealra þinga, gesewenlicra and ungesewenlicra; and we sceolon on hine gelyfan, forþon þe hé is soð God and ána Ælmihtig, seðe næfre ne ongann ne anginn næfde, ac hé sylf is anginn, and hé eallum gesceaftum anginn and ordfruman forgeaf, þæt hí beon mihton, and þæt hí hæfdon agen gecynd, swa swa hit þære godeundlican fadunge gelicode. Englas hé worhte, þa sind gastas, and nabbað nænne lichaman. Menn hé gesceop mid gaste and mid lichaman. Nytena and deor, fixas and fugelas hé gesceop on flæsce, butan sawle. Mannum hé sealde uprihtne gang; þa nytena hé lét gán alotene. Mannum hé forgeaf hláf to bigleofan, and þam nytenum gárs.

Nu mage ge, gebroðru, understandan, gif ge wyllað, þæt twa þing syndon, án is Scyppend, oðer is gesceaft. Hé is Scyppend, seðe gesceop and geworhte ealle þing of nahté. Þæt is gesceaft þæt se soða Scyppend gesceop; þæt sind ærest heofonas, and englas þe on heofonum wuniað; and syððan þeos eorðe, mid eallum þam þe hire ón eardiað, and sáe, mid eallum þam þe hyre ón swymmað. Nu ealle þas þing synd mid ánum naman genemnode gesceaft. Hí næron æfre wunigende, ac God hí gesceop. Þa gesceafta sind fela, án is se Scyppend, þe hí ealle gesceop, se ána is Ælmihtig God. He wæs æfre, and æfre he bið purhwu-nigende on him sylfum, and purh hine sylfne. Gif he on-gunne and anginn hafde, butan tweon, ne mihte he beon Ælmihtig God. Soðlice þæt gesceaft, þe ongann and gesceapen is, næfð nane godcundnysse; forði ælc edwist þætte God nys, þæt is gesceaft; and þæt þe gesceaft nis, þæt is God.

Se God wunað on ðrynnysse úntodæledlic, and on ánnysse ánre Godcundnysse. Soðlice oþer is se Fæder, oþer is se Sunu, oðer is se Halga Gast; ac, þeah-hwæðere, þæra þeora is án Godcundnys, and gelíc wuldor, and efen-ece mægen-þrymnys. Ælmihtig God is se Fæder, Ælmihtig God is se Sunu, Ælmihtig God is se Halga Gast. Ac, þeah-hwæðere, ne sind þry Ælmihtige Godas, ac án Ælmihtig God. Þry hí sind on hádum and on naman, and án on Godcundnysse. Þry, forþi þe se Fæder bið æfre Fæder, and se Sunu bið æfre Sunu, and se Halga Gast bið æfre Halig Gast; and hyra nán ne awent næfre of þam þe he is. Nu habbað ge gehyred þa Halgan Þrynnysse; ge sceolon eac gehyran þa soðan Annysse.

Soðlice se Fæder and se Sunu and se Halga Gast habbað áne Godcundnysse, and án gecynd, and án weorc. Ne worhte se Fæder nán þing, ne ne wyrcoð, butan þam Suna, oððe butan þam Halgan Gaste. Ne heora nán ne

Se is Fæder, seðe nis naðer ne geboren ne gesceopen fram nánum oðrum ; se is Fæder geháten, forþan þe he hæfð Sunu, þone þe he of him sylfum gestrynde, butan aelcere meder. Ac ic þe sylle bysne, hu þu Godes acennednysse þy bet understandan miht : fyr acenð of him beorhtnysse, and seo beorhtnys is efen-eald þam fyre : nis na þæt fyr of þære beorhtnysse, ac seo beorhtnys is of þam fyre. Þæt fyr acenð þa beorhtnysse, ac hit ne bið næfre butan þære beorhtnysse. Nu þu gehyrst þæt seo beorhtnys is ealswa eald swa þæt fyr þe heo ofcymð ; geþafa nu forþi þæt God mihte gestrynan ealswa eald bearn and ealswa ece swa he sylf is. Is forþi þonne án Fæder, seðe æfre is Fæder, and án Sunu, seðe æfre bið Sunu, and án Halig Gast, seðe æfre bið Halig Gast.

Æfre wæs se Fæder, butan anginne, and æfre wæs se Sunu mid þam Fæder, forþan þe hē is þæs Fæder Wisdom. Æfre wæs se Halga Gast, seðe is heora beigra Willa and Lufu. Se leoma is æfre of þære sunnan, and æfre mid hire, and þæs Ælmihtigan Godes Sunu is æfre of þam Fæder acenned, and æfre mid him wunigende. Be þam cwæð se apostol, þæt he wäre his Fæder wuldres beorhtnys. Þære sunnan hætu gæð forð of hire and of hire leoman ; and se Halga Gast gæð æfre of þam Fæder and of þam Suna gelice. Be þam is þus awritten, Nis nán þe hine behydan mæge fram his hætan.

Fæder and Sunu and Halig Gast ne magon beon togædere genamode, ac hí ne beoð swa-þeah nahwár totwæmede. Nis se Ælmihtiga God na þryfeald, ac is Þrynnys. God is se Fæder, and se Sunu is God, and se Halga Gast is God. Na þrý Godas, ac hí ealle þry án Ælmihtig God. Se Fæder is eac Wisdom of nanum oþrum wisdome ; se Sunu is eac Wisdom of þam wisan Fæder ; se Halga Gast is Wisdom : ac þeah-hwæðere hí sind ealle ætgædere án Wisdom. Eft, se Fæder is soð Lufu, and se Sunu is soð Lufu, and se Halga Gast is soð Lufu ; and hí ealle ætgædere án God, and án soð Lufu. Eac swilce is se Fæder Gast and halig, and se Sunu is Gast and halig, untwylice : þeah-hwæðere, se Halga Gast is synderlice geháten Halig Gast, þæt þæt hí ealle þry sind gemænelice.

Swa micel gelicnys is on þyssere Halgan Þrynnysse, þæt se Fæder nis na máre þonne se Sunu on þære Godcund-

nysse, ne se Sunu nis na māre þonne se Halga Gást, ne nán heora án nis na læsse, þonne eall seo Þrynnys. Swa hwaer swa heora án bið, þær hí beoð ealle þry, æfre án God untodæledlic. Nis heora nán māre þonne oðer, ne nán læssa þonne oðer, ne nán beforan oþrum, ne nán bæftan oþrum; forþan swa hwæt swa læsse bið þonne God, þæt ne bið na God; þæt þæt lator bið, þæt hæfð anginn; ac God næfð nán anginn. Nis na se Fæder ána Þrynnys, oððe se Sunu Þrynnys, oððe se Halga Gast Þrynnys; ac þas þry hádas sindon án God on ánre Godcundnysse. Þonne þu gehýrst nemnan þone Fæder, þonne understenst þu þæt he hæfð Sunu. Eft, þonne þu cwyst Sunu, þu wást butan tweon þæt he hæfð Fæder. Eft, we gelyfað þæt se Halga Gast is ægðer ge þas Fæder ge þas Suna Gast.

Ne bepæce nán man hine sylfne, swa þæt he secge oððe gelyfe þæt þry Godas syndon, oððe ænig hág on þære Halgan Þrynnysse sy únmihtigra þonne oðer. Ælc þæra þreora is God; þeah-hwæðere hí ealle án God; forþan þe hí ealle habbað án gecynd, and áne Godcundnysse, and áne edwiste, and án geþeaht, and án weorc, and áne mægen-þrymnysse, and gelic wuldor, and efen-ece rice. Is þeah-hwæðere se Sunu ána geflæschamod, and geboren to men of þam halgan mædene Marian. Ne wearð se Fæder mid menniscnysse befangen, ac þeah-hwæðere he asende his Sunu to ure alysednysse, and him æfre mid wæs, ægðer ge on lífe ge on þrowunge, and on his æriste, and on his upstige. Eac eal Godes gelaðung andet on þam rihtan geleafan, þæt Crist is acenned of þam clænan mædene Marian, and of þam Halgan Gaste. Nis se Halga Gast þeah-hwæðere Cristes Fæder, ne nán Cristen man þæt næfre ne sceal gelyfan; ac se Halga Gast is Willa þas Fæder and þas Suna: forþi þonne swiðe rihtlice is awritten on urum geleafan, þæt Cristes menniscnys wearð gefremmed þurh þone Halgan Willan.

Beheald þas sunnan mid gleawnyssse, on þære is, swa we
 ær cwædon, hætu and beorhtnys; ac seo hætu drygð, and
 seo beorhtnys onlyht. Oðer þing deð seo hætu and oðer
 seo beorhtnys, and þeah-hwæðere hí ne magon beon to-
 twæmde; belimpð hwæþere-þeah seo hæbung to þære
 hætan, and seo onlihting belimpð to þære beorhtnysse.
 Swa eac Crist ána underfeng þa menniscnysse, and na se
 Fæder ne se Halga Gast; þeah-hwæðere hí weron æfre
 mid him, on eallum his weorcum, and on ealre his fare.

We sprecað ymbe God, deaðlice be undeаðlicum, tyddre
 be ælmihtigum, earmingas be mildheortum; ac hwá mæg
 weorðfullice sprecan be þam þe is únasecgendlic. Hé is
 butan gemete, forþy þe hé is æghwær; hé is butan getele,
 forþon þe he is æfre; hé is butan hefe, forþon þe hé hylt
 ealle gesceafta butan geswince, and hé hí ealle gelogode
 on þam þrim þingum, þat is on gemete, and on getele, and
 on héfe. Ac wite ge þat nán man ne mæg fullice embe
 God sprecan, þonne we furðon þa gesceafta, þe hé gesceop,
 ne magon asmeagan ne areccan. Hwá mæg mid wordum
 þære heofenan freatewunge asecgan? Oððe hwá þære
 eorðan wæstmbærnysse? Oððe hwá herað genihtsumlice
 ealra tida ymbhwyrft? Oððe hwá ealle oðre þing, þonne
 we furþon þa lichomlican þing, þe we onlociað, ne magon

 mannan beforan þe; ac, on þære tíde þe þu his neb
 gesihst, þu ne gesihst na his hrícg: ealswa, gif þu sumne
 clað sceawast, ne miht þu hine ealne togædere geseón,
 ac wenst abutan, þat þu ealne hine geseo. Hwylc wundor
 is, gif se Ælmihtiga God is unasecgendlic and unbefan-
 genlic, seðe æghwær is eall, and nawar todæled?

Nu smeað sum undeopþancol man, hu God mæge beon
 æghwær ætgædere, and nawar todæled: beheald þas sun-
 nan, hu heage heo astihð, and hu heo asent hyre leoman
 geond ealne middangeard, and hu heo onliht ealle þas

eorðan þe mancynn on-eardað. Swa hraðe swa heo up-asprincð, on ærne-merigen, heo scinð on Hierusalem and on Rome-byrig, and on þisum earde, and on eallum eardum ætgædere; and hwæðere heo is gesceaft, and gæð be Godes dihte. Hwæt wenst þu, hu mīccle swiðor is Godes anweardnys, and his miht, and his neosung aeghwær? Him ne wiðstent nán þing, naþer ne stænen weall, ne bryden wāh, swa swa hí wiðstandað þære sunnan. Him nis nán þing digle ne uncuð. Þu sceawast þas mannes neb, and God sceawað his heortan. Godes Gast afandað ealra manna heortan; and þa þe on hine gelyfað, and hine lufiað, þa he clænsað and gegladað mid his neosunge; and þera ungeleaffulra manna heortan he forbyhð and onscunað.

Wite eac gehwā, þæt aelc man hæfð þeo þing on him sylfum untodæledlice and togædere wyrcente, swa swa God cwæð, þaða hé árest man gesceoop. He cwæð, Uton gewyrcean man to ure gelicnysse. And hé worhte þa Adám to his anlicnysse. On hwilcum dæle hæfð se man Godes anlicnysse on him? On þære sawle, na on þam lichaman. Þas mannes sawl hæfð on hire gecynde þære Halgan Þrynnysse anlicnysse; forþan þe heo hæfð on hire þeo þing: þæt is gemynd, and andgit, and willa. Þurh þæt gemynd, se man geþencð þa þing þe he gehyrde, oððe geseah, oððe geleornode. Þurh þæt andgit he understande ealle þa þing þe he gehyrð, oððe gesihð. Of þam willan cumað geþohtas, and word, and weorc, aegðer ge yfele ge gode. An sawul is, and án líf, and án edwist, seoþe hæfð þas þeo þing on hire togædere wyrcente untodæledlice; forþi þær þæt gemynd bið, þær bið þæt andgit and se willa; and aefre hí beoð togædere. Þeah-hwæðere, nis nán þera þeora seo sawl, ac seo sawl þurh þæt gemynd gemanð, þurh þæt andgit heo understande, þurh þone willan heo wile swa hwæt swa hire licað, and heo is hwæðere án sawl and án líf.

Nu hæfð heo forþi Godes anlicnysse on hire, forþan þe heo hæfð þeo þing on híre untodæledlice wyrcente. Is þeah-hwæðere se man án man and na þrynnys. God soðlice, Fæder, and Sunu, and Halig Gast, þurhwunað on þrynnysse háda, and on ánnysse ánre Godcundnysse. Nis na se man on þrynnysse wunigende, swa swa God, ac he hæfð hwæðere Godes anlicnysse on his sawle, þurh þa þeo þing þe we ár cwædon.

Arrius hatte an gedwolman, se flát wið ænne bisceop, þe wæs genemned Alexander, wís and riht-gelyfed. Þa cwæð se gedwolman, þat Crist, Godes Sunu, ne mihte na beon his Fæder gelic, ne swa mihtig swa he; and cwæð, þat se Fæder wäre ár se Sunu, and nam bysne be mannum, hu ælc sunu bið gingra þonne se fæder on þisum life. Þa cwæð se halga bisceop Alexander him togeanes, God wæs æfre, and æfre wæs his Wisdom of him acenned, and se Wisdom is se Sunu, ealswa mihtig swa se Fæder. Þa begeat se gedwola þas caseres fultum to his gedwyld, and cwæð gemōt ongean þone bisceop, and wolde gebigan eal þat folc to his gedwyldum. Þa wacode se bisceop áne niht on Godes cyrcan, and clypode to his Drihtne, and þus cwæð, þu, Ælmihtiga God, dém rihtne dóm betwux me and Arrium. Hi comon þa þas on mergen to þam gemōte. Þa cwæð se gedwola to his geferum, þat he wolde gán embe his neode forð. Þaða he to gange cóm and he gesæt, þa gewand him út eall his innewearde, æt his setle, and he sæt þær dead. Þa geswutelode God, þat he wæs swa geæmtegod on his innoðe, swa swa he wæs ár on his geleafan. He wolde dón Crist læssan þonne he is, and his godcundnysse wurðmynt wanian. Þa wearð him swa bysmorlie deað geseald, swa swa he wel wyrðe wæs.

Oþer gedwolman wæs, se hatte Sabellius. He cwæð þat se Fæder wäre, þaða he wolde, Fæder, and eft, þaða he wolde, he wäre Sunu, and eft, þaða he wolde, wäre

Halig Gast ; and wære forþi án God. þa forwearð eac þes gedwola, mid his gedwylde.

Nu eft þat Iudeisce folc, þe Crist ofslogon, swa swa hē sylf wolde and geþafode, secgað þat hí willað gelyfan on þone Fæder, and na on þone Sunu þe hyra magas ofslogon. Heora geleafa is naht, and hí forþi losiað. For ure alysed-nysse Crist geþafode þat hí hine ofslogon. Hit ne mihte eal mancynn gedón, gif he sylf nolde. Ac se halga Fæder gesceop and geworhte mancynn þurh his Sunu, and he wolde eft, þurh þone ylcan, us alysan fram helle wite, þaþa we forwyrhte wæron. Butan ælcere ƿrungne he mihte us habban, ac him þuhte þat unrihtlic. Ac se deofol forwyrhte hine sylfne, þaða he tihte þat Iudeisce folc to þas Hælendes slege ; and we wurdon alysed, þurh his unscyl-digan deað, fram þam ecān deaðe.

We habbað þone geleafan þe Crist sylf tæhte his apostolum, and hí eallum mancynne ; and þone geleafan God hæfð mid manegum wundrum getrymmed and gefæstnod. Ærest Crist, þurh hine sylfne, dumbe and deafe, healte and blinde, wode and hreoflige gehælde, and þa deadan to lífe arærde ; syððan, þurh his apostolas and oðre halige men, þas ylcan wundra geworhte : nu eac, on urum timan, gehwær þær halige men hí restað, æt heora deadum bánum God wyrcð fela wundra ; to þi þat he wile folces geleafan mid þam wundrum getrymman. Ne wyrcð God na þas wundra æt nánes Iudeisces mannes byrgene, ne æt nánes oþres gedwolan, ac æt riht-gelyfedra manna byrgenum, þa þe gelyfdon on þa Halgan ƿrynnyses, and on soðe ánnyses ánre Godcundnyses.

Wite gehwā eac, þat nán man ne mot beon tuwa geful-lod ; ac gif se man æfter his fulluhte aslide, we gelyfað þat he mæge beon gehealden, gif he his synna mid wópe behreowsað, and be láreowa tæcunge hí gebet. We sceolon gelyfan þat ælces mannes sawul bið þurh God gesceapan ;

ac hwæþere heo ne bið na of Godes ágenum gecynde. Þæs mannes lichaman antimber bið of þam fæder and of þære meder, ac God gescypð þone lichaman of þam antimbre, and asent on þone lichaman sawle. Ne bið seo sawl nahwar wunigende æror, ac God hí gescypð þærrihte and beset on þone lichaman, and læt hí habban ágenne cyre, swa heo syngige, swa heo synna forbuge. Peah-hwæðere, heo behófað æfre Godes fultumes, þæt heo mæge synna forbugan, and eft to hyre Scyppende becuman, þurh góde geearnunga; forþon þe nán man ne deð butan Gode nán þing to góde.

Eac we sceolon gelyfan þæt aelc lichama, þe sawle underfeng, sceal arisan, on dómes dæg, mid þam ylcan lichaman þe he nu hæfð, and sceal onfón edlean ealra his dæda; þonne habbað þa gódan ece líf mid Gode, and he sylð þa méde aelcum be his geearnungum. Da synfullan beoð on helle-wite á ðrowigende, and heora wite bið eac gemetegod, aelcum be his geearnungum. Uton forþi geearnian þæt ece líf mid Gode, þurh þisne geleafan, and þurh góde geearnunga, seðe þurhwunað on Prynnyssse, án Ælmihtig God, áá on ecnyssse. Amen.

Mid ðy heo þa þy slæpe tobraed, þa geseah heo oþre sweostor ymb hi restende, þa onget heo, ge on þam swefne ge on hyre modes gesyhðe, hire ætywed beón þæt heo geseah; and heo sona arás, mid micle ege afyrhted, and arn to þære fæmnan, þe þa þæs mynstres abbudysse wæs, Hylde geongra, þære nama wæs Freogyð, and heo mid wópe and mid tearum wæs swiðe geondgoten, and longe sweoretunge wæs teonde; and hire sægde, ealra heora moder Hilde abbudissan þa of weorolde geleoran, and, hyre geseondre, mid micele leohte and mid engla þreatum, to þæm ecan leohte heofona ríces wuldres, and to gemanan þara uplicra ceaster-werena astigan. Ða heo þa þæt gehyrde, þa awehte heo ealle þa sweostor, and het to cyrkan gán, and in gebedum and on sealm-songe for heora modor sawle georne þingedon. Ða hie þæt þa georne dydon þa lafe þære nihte tíde, þa comon, swiðe ár in dagunge, sume broðor, þa þe hire forðfore sægdon from þære stowe þe heo forðfered wæs; andsweredon hie and cwædon, þæt hi þæt ilce ár wiston and ongeaton; and þy hie þa þurh endebyrndnesse þam broþrum aræhton, hu hie þas þing and hwænne hie geleornodon; and hie him sædon in hwylce tíd heo of middangearde leorde. Song he árest be mid-dangardes gesceape, and be fruman moncynnes, and eall þæt stær Genesis, þæt is seo áreste Moises bōc, and eft be útgonge Israela folces of Ægypta londe, and be ingonge þæs gehát-londes, and be oðrum monigum spellum þæs halgan gewrites canones bōca, and be Cristes menniscnesse, and be his þrungne, and be his up-astignesse on heofonas, and big þæs Halgan Gastes cyme, and þara apostola láre; and eft bi þam ege þæs toweardan dómēs, and be fyrhto þæs tintreglican wites, and be swétnesse þæs heofonlican ríces, he monig leoð geworhte; and swylce eac oþer monig be þam godcundum fremsumnessum and dómum he geworhte. On eallum þam he geornlice gymde þæt he men atuge fram synna lufan and mán-dæda, and to lufan and to geornfullnesse awehte góðra dæda; forþon he wæs se mon swiðe æfest, and reogollicum þeodscypum eaðmodlice underþeoded; and wið þam þa ðe on oþre wísan dón woldon, he wæs mid wylme micelre ellenwódnnesse onbærned, and he forþon fægere ende his líf betynde and geendade.

Forþon þa ðære tide nealecte his gewitenesse and forðore, ða wæs he feowertyne dagum áér, þæt he wæs licumlicre untrymnesse þrycced and hefigad, hwæþere to þon gemetlice, þæt he ealle þa tíd mihte ge sprecan ge gangan. Wæs þær on neaweste untrumra manna hús, on þam hyra þeaw wæs þæt hi þa untruman, and þa þe æt forðore wæron, inlædan sceoldan, and him þær ætsomne þenian. Ða bæd

Da he hit on handa hæfde, þa fræng he, hwæþer hi ealle smylte mōd, and butan eallum incan, bliðe to him hæfdon ? Da andswarodon hi ealle, and cwædon, þæt hi nænigne incan to him wistan, ac hi ealle him swiðe bliðe móde wæron, and hi wrixendlice hine bædon þæt he him eallum bliðe wäre. Da andswarode he, and cwæð, Míne broþro þa leofan, ic eom swiðe bliþmōd to eow and to eallum Godes monnum. And he swa wæs hine getrymmende mid þy heofonlican wegneste, and him oþres lífes ingang gearwade. Da gyt he frægn, hu neh þære tíd wäre, þætte þa broðor arísan sceoldon, and Godes folc láran and heora uht-sang singan ? Andswearodon hi, Nis hit feor to þon. Cwæð he, Tela, utan we wel þære tíde bidan ; and þa him gebæd, and hine gesenade mid Cristes rōde-tácnē, and his heafod onhylde to þam bolstre, and med-mycel fæc onslæpte, and swa mid stillnesse his líf geendade. Ond swa wæs geworden, þætte swa swa he hluttore móde and bylewite and smyltre willsumnesse Drihtne þeowde, þæt he eac swylce swa smylte deaðe middangeard wæs forlætende, and to his gesyhðe becom. And seo tunge þe swa monig halwende word on þæs Scyppendes lóf gesette, he þa swylce eac þa ytemestan word on his herenesse, hine sylfne

Eadmund, þe æadigæ East-Englæ kyng, wæs snoter and wurðful, and wurðode symle mid æþele ðeawum þone Almih-tigæ God. He wæs eadmod and iþunegen, and swa anræde þurhwunedē, þæt he nolde bugæn to bismerfull leahtræ, ne on nane healfe he ne ahydde his þeawæs, ac wæs symle mundig þare soþan lufe. Gyf þu eart to heofod-men iset, ne ahæfe þu ðe, ac beo betweox monnum swa swa an mon of him. He wæs cystig wædlum and wydewum, swa swa fæder, and mid wæl-willendnesse wissode his folc simle to rihtwisnesse, and þam reðan styrede and isæligelice leofode. And þe fore-sæde Hinguar færlice, swa swa wulf, to londe bistaleode, and þe leodæ sloh, weræs and wif, and þa unwittige child, and to bysmere tucode þa bilewite cristene. He sende þa syððan sona to þam kynge beotlice ærende, þæt he bugon sceolde to his monrædene, gif he his feores rohte. Ðe ærendracæ com þa to Eadmunde kynge, and Hinguares ærende him heardlice a bead: “Hinguar ure kyng, kene and sigefest on sæ and on londe, hæfð felæþeodæ iwæld, and com nu mid ferde ferlice her to lande, þæt he her winter-selt mid his werode habbe. Pante, *the Blackwater, in Essex.* The following passage from Gough's Camden, vol. ii. p. 43. 1st edit., may be interesting. "The shore, curving a little to the north here, admits the sea into two bays, one called *Crouch*, the other *Blackwater*, formerly *Pant*. In Crouch are four pleasant green islands, but rendered marshy by the tide: the principal of these are *Wallot* and *Foulness*, q. d. Bird Cape, which has a church, and may be come at on horseback, when the tide is out. Between these is the hundred of Dengy, formerly *Dauncing*, abounding in pasture and cattle, but both the soil and air unhealthy.

The chief town of this hundred, which takes its name from it, is Dengy, supposed by the inhabitants to take its name from the Danes." Drayton has also;

"When *Chelmer* scarce arrives in her most wished bay,
But *Blackwater* comes in through many a crooked way,
Which *Pant* was call'd of yore,
but that by Time exil'd,
She *Froshwell* after hight, then *Blackwater* instill'd."

- Sciringes-heal, *a port of*
Norway, the exact position
of which is unknown.
Judging from the context
of Ohthere's narrative, it
seems to lie in the Skager
Rack, near the Fiord of
Christiania. To the south,
he tells us, lies a very broad
sea, no doubt the Cattegat;
on one side of which was
Gotland (Jótland, Jut-
land), and then Sillende
(Seeland). Sailing from
- Sciringes-heal to Sleswig
(æt Hæðum), Ohthere had,
as he tells us, Denmark on
his left, by which denomina-
tion he undoubtedly
means Skaane (Scania),
and Halland, the early
seat of the Danes, and
which constituted a part
of the modern kingdom of
Denmark till 1658. Then,
two days before his arri-
val at Sleswig, taking a
westerly course, he had
Gotland (Jutland) on his
right. From the men-
tion of islands on his left,
it would seem that he sailed
between Moen and Seeland.
Prof. Dahlmann supposes,
erroneously I think, that
Ohthere sailed through the
Great Belt. Forchungen,
