New Introduction for 1927

PARAMOUNT

(Hybrid Cactus)

A large canary yellow shading to cream, always comes with a good tight center. The petals are long, broad and slightly twisted, giving the flower great diameter and depth. The bush growth is about four feet, without forcing, and carries the massive blooms on exceptionally stiff and straight, erect stems, well above the foliage. \$5.00

- Papillon**—One of the big fellows which has been in many prize winning collections. A beautiful shade of old rose with golden lights. Stems are strong and long and carry the flower well. \$2.00
- Rollo Boy**—Very large flowers on long strong stems. A delicate shade of amber and old gold. Good for all purposes. \$3.00
- Rose Ash**—This is a new color in Dahlias. The outside of the petals is tan, heavily overlaid with pink and shaded with chrome yellow. The reverse of the petals is smoky pink, and the effect of this peculiar blending of colors is ashes of rose. \$2.50

- Rosa Bonheur**—Ivory white center, shading to a beautiful shell pink.
Free blooming and splendid stem. \$2.00
- Ruth Gleadell**—Soft yellow, shading to pink. Good size. \$0.50

New Introduction for 1927

STELLA DUNN

(Hybrid Cactus)

A large and beautiful hybrid cactus, creamy white shading to lemon. This dainty flower grows well out of the foliage on straight erect stems; the petals are prettily twisted and curled, which gives it a very graceful appearance. \$7.50

Siskiyou—Pink-tinged mauve. This produced the largest flowers we have ever grown. It has created a sensation wherever shown and attracted more attention than any other flower in our gardens the past summer. The plants are extra sturdy and vigorous, and the flowers are held perfectly erect on strong stems. \$3.50

Sunkiss—Pink buff hybrid cactus, shading to a rich yellow at center. The flower is very large, full and double. \$2.00

Sun Maid—The color is a beautiful soft blending of orange and gold. The erect bushes produce an abundance of blooms which are extreme in size and perfect in form throughout the entire season. \$7.50

Sunny South—The color is a bright clear yellow without any shading, the flowers are immense in size, very full and deep. \$2.50

American Cactus Dahlias

American Cactus is a California new type. The petals are coarser than the English exhibition but not heavy enough to form a Hybrid.

Empire—A huge blossom of raspberry color, borne on a fine stem. \$2.00

Gladys Bates—Large blooms, incurved petals of tan, with reverse side of rose, profuse bloomer, of fine form and stem. \$1.50

June—Is composed of many fine petals, so incurved as to hide the center. The color is creamy tan faintly suffused with pink on the outer petals. \$1.00

- Lolita Velasco**—"The most perfect White Cactus." The petals are extremely long and straight, the center excellent. The stem is very long and stiff. Will keep many days when cut. \$2.00
- Mrs. Edna Spencer**—Exquisite shade of orchid pink, very beautiful, of good formation and stem. \$0.50
- Regent**—Mauve pink, shading lighter to the center, which is hidden by the incurving petals, large size, straight stems, free bloomer. \$1.00

English Cactus Dahlias

The English Cactus Dahlias have long, narrow, pointed petals, like a Chrysanthemum, straight, incurved or twisted.

- Alabaster**—A flower of purest white. Blooms large and incurved. Plants sturdy; carrying flower erect on stout stems. \$1.00

- Ballet Girl**—Very attractive. Orange splashed and tipped with white. Perfect formation. Fine for exhibition. \$1.50
- British Lion**—Color is peculiar, yellowish for the most part, but burnished with red. Plants produce huge flowers (incurved). \$0.75
- Curlew**—Old rose, massive full flowers, very long florets incurving right over center, splendid size and shape. \$1.00
- Dominion**—A really delightful English importation, a strong, upright grower, has great size and character, and capital stem. Color a dark tan, almost brown. \$1.00
- F. W. Fellows**—The best orange scarlet Cactus, producing huge flowers with straight, narrow florets. \$0.75
- Herbert Raby**—Color is a purplish crimson; large flower (incurved). \$0.50
- Mrs. C. Cooper**—Immense flower with slightly incurved florets of great length. Clear cream color with outer petals suffused salmon. Good center. \$0.75

L I N C O L N D A H L I A G A R D E N S

- Mrs. Margaret Stredwick**—The coloring is a combination of tints of pink, softening and deepening at tips and base (incurved). Plants have grand habit, with strong stout stems. \$1.50
- Mary Purrier**—Large crimson scarlet on strong, erect stems. \$1.00
- Pennant**—An English Cactus of the coloring of F. W. Fellows, described variously as coral and orange (incurved). A free bloomer with excellent stem. \$0.75
- Pierrot**—A striking variety of immense size; deep, rich amber, boldly tipped pure white; stems good. \$0.50
- Rival**—Crimson scarlet. A very deep and full flower suitable for exhibition. The stems are long and upright (incurved). \$0.75
- Silverhill Park**—It is massive in size, beautiful incurved in form and with perfect center; color is a glistening white; the plants are strong and the stems are good. \$1.00
- Sovereignty**—Very large flowers of deep yellow; almost straight petals. One of the standard Cactus Dahlias. \$0.75
- Sidney Jones**—Pink, a very fine Cactus; long, strong, erect stem, and is one of the best. \$2.00
- Valiant**—A grand exhibition Cactus of brilliant crimson. Good stem. Form, perfectly incurved. Very large. \$1.00
- Vicar of Wasperton**—A strong, upright grower, has great size and erect stem. The base is a very pale yellow shading into pink in main body of flower, and the tips shade off lighter. \$0.75

Peony Dahlias

Semi-double flowers showing a bright yellow center, often having small twisted petals circling about the center.

- Agnes Boston**—Royal Purple shading to white. Petals long and curling. The center is nearly hidden with tiny twisted petals. Very large exhibition variety. \$3.00
- Alma Davies**—Salmon pink shading to deep old rose and apricot. It is an excellent cut-flower variety, having wonderful keeping quality and extra long, stout stems. \$2.50
- Cardinal Mercier**—A deep flesh pink with slight veins of canary shooting up from the base of the petals in the center. Then there appears a glistening sheen of white flesh pink. \$1.50

SAN FRANCISCO, CALIFORNIA

- Chanson**—Deep lilac with a bluish sheen. The nearest approach to blue in a Dahlia. It is a heavy Peony and has proven satisfactory in every respect. \$1.00

Culture of the Dahlia

The Dahlia is one of the easiest of all flowers to grow and will produce more flowers than any other plant grown, if the simple cultural directions are followed closely. They can be grown in any good garden soil, but, if possible plant in an open, sunny location. Prepare the soil thoroughly by digging 12 to 18 inches deep, in the fall, if possible, and again in the spring. Plant any time between April 1 and June 1, digging holes six inches deep and from three to four feet apart. Then lay in the tuber flat on its side, the size of which makes no difference as long as it has one strong eye, or sprout. Cover three inches deep, thus leaving the hole one-half full, to be filled after plant comes up to 6 or 8 inches above the ground. Just as soon as the plants are up, the most important thing to do is to keep the soil loose and mellow by hoeing or cultivating once or twice a week. As soon as the buds appear, stop all cultivation and around the base of each plant place a shovelful of well-rotted manure. Water the beds and plants thoroughly once or twice a week and especially during the dry weather. To have the greatest success is to keep them growing as strong and sturdy as possible. Never allow the faded flowers to remain on the plant, but cut them off with as much stem as you can. Dahlias will continue to bloom until a heavy frost kills the tops in the fall, after which the tops are cut off and the roots are dug up and stored in a frost-proof cellar or basement, covering with dry sand or anything that will keep them from shriveling. Divide them in the spring after the eyes begin to show.

HOW TO KEEP DAHLIA CUT FLOWERS

Cut the flowers late in the evening and early in the morning while the dew is still on them. Burn the ends of the stems in a gas flame, or, better still, dip ends of stems in not more than three inches of boiling water for about 15 seconds. Then immediately put them in deep cold water in a cool place. The deeper cut Dahlia stems are kept in water the longer they will keep fresh.
