Most sites are on a first-come, first-served basis.

There are 1,400 miles (2,253 km) of trails on the Willamette National Forest. Several of these trails are at lower elevations and easy to access for year-round hiking pleasure. Three very scenic low-elevation trails—the McKenzie River, Fall Creek, and South Breitenbush Gorge Trails—have been designated as National Recreation Trails. The Fall Creek and McKenzie River Trails are within 50 miles (80 km) of Eugene (with bus service available from Eugene to McKenzie Bridge). The South Breitenbush Gorge Trail is located 60 miles (97 km) east of Salem.

The Willamette has eight Wilderness areas totaling 380,805 acres (154,112 hectares). These areas, the majority of which encompass seven major mountain peaks in the Cascades, are popular with hikers, backpackers, and mountain climbers.

Winter sports are also popular. There are two developed ski areas on the Willamette National Forest, Hoodoo and Willamette Pass, and many Forest roads and trails lend themselves to cross-country skiing. Snowmobiling is popular on Waldo Lake Road and in the Big Lake area near Santiam Pass.

The Willamette National Forest is also home to over 300 species of animals. Some of the more common animals include mule and blacktailed deer, Roosevelt elk, black bear, cougar, grouse, and waterfowl. Many kinds of trout are found in the Forest's lakes and streams including brook, rainbow, brown, cutthroat, and bull trout. The Forest is open to hunting and fishing in regular seasons. Regulations and licensing are established by the Oregon Department of Fish and Wildlife.

Rainfall on the Willamette National Forest varies from 40 to more than 150 inches (102 to 381 cm) a year, much of it as snow which blankets the higher Cascades. The rain and melting snow furnish water for over one-half million Willamette Valley residents. Six major dam facilities on the Forest provide flood control, irrigation, and hydro-electric power to communities in the Willamette Valley.

The Willamette National Forest is the top timber producer among the 156 National Forests in the United States. Twenty-five percent of the revenue generated by timber harvest is returned to six Oregon Counties for support of public schools and roads.

I hope that you will enjoy your visit to the Willamette National Forest. My staff will be pleased to answer your questions and will assist you in any way they can. Please feel free to contact any one of our offices.
