Your proposed plan for reduction of Saipan to a caretaker status submitted to CINCFE by secret letter dated 21 March 1949 approved.

If, in reaching the reduced strength for each phase, it is necessary to move families from Saipan whose principals do not have sufficient credit to entitle them to housing on Guam, a request for their reassignment to Japan will receive favorable consideration if submitted 90 days in advance of their availability date.

For information only furnish forecast of ability to meet time schedule set up in plan.

- a. Letter, General Headquarters, Far East Command, AG 320.2 (24 Mar 49)GC-TC, subject: Reorganization of Far East Command Signal Units, 24 March 1949.
- b. Department of the Army radio, W87318, 18 April 1949.

2. In conformance with Department of the Army policy stated in reference 1b the 16th Signal Service Company is being inactivated and the proposed organization of the 72d Signal Service Battalion, as listed in reference 1a, has been amended. However, it is requested that authority be granted to reorganize the 72d Signal Service Battalion under Table of Organization and Equipment 11-500 rather than under a Table of Distribution for the following reasons:

- a. The cellular teams of Table of Organization and Equipment 11-500, September 1944, with four changes, fully meet the mission requirements of this unit with but few deletions and additions, the majority of which are required by Circular 8, Department of the Army, 1948, and Circular 298, Department of the Army, 1948.
- b. Equipment authorized for the various cells of this unit, as proposed, meet the equipment requirements with a minimum of change. Organization of this unit under a Table of Distribution would necessitate the preparation of an elaborate Table of Allowances, thereby resulting in considerable delay in obtaining authority for equipment.

3. Tables of Distribution are being prepared to account for the spaces previously allotted to the 16th Signal Service Company and the teams that were included in the proposed organization of the 72d Signal Service Battalion whose missions were to perform post signal functions at various posts and camps throughout Japan.
