# STATE COLORED NORMAL SCHOOL, FAYETTEVILLE.

---

## HISTORY.

This Institution was established by the State Board of Education, under an act of the General Assembly of 1876-'77, for the training of teachers for the colored schools of the State. It has completed thirteen school years of nine months each, in which there has been enrolled six hundred and thirty-one different pupils, from sixty-six counties of the State.

Ninety-two have completed the prescribed course. Of this number none have failed to devote themselves to the educational work. A large number of the undergraduates also engage in teaching. The character of this work is exerting a beneficial influence for good throughout the State.

## LOCATION.

The school is located at Fayetteville, on the Cape Fear River. Fayetteville is a very healthy and pleasant town, accessible by rail from Wilmington and by the Cape Fear and Yadkin Valley Railway from Greensboro *via* Sanford, where connection is made with the Raleigh and Augusta Railroad. Also by the Southern extension of the Cape Fear and Yadkin Valley Railway to Maxton, where connection is made with the Carolina Central Rail Road, and the Wilmington & Weldon Rail Road from Wilson.

The school is taught in a large and commodious building, furnished free of rent by the colored people of Fayetteville.

deportment is kept, and any student who falls below a certain percentage is dropped from the roll.

Intemperance, profane or ungentlemanly language is positively forbidden.

Students are liable to be suspended or expelled at any time for violation of the rules, or for unsatisfactory conduct in any respect.

#### EXAMINATIONS.

Oral and Written Examinations of all the students will be held during the first week of each term, and Public Examination and Exhibition annually, at the close of the session.

#### CERTIFICATES.

Students who complete the course of study prescribed for the third year, and whose deportment, while members of the school, has been satisfactory, will receive certificates of recommendation as teachers for Public Schools. Those who complete the studies of the Junior and Middle years will be entitled to receive certificates of higher grade. Those who complete the prescribed course satisfactorily will be entitled to Diplomas or Certificates.

#### LIBRARY, APPARATUS, ETC.

The school has a small but well-selected Library, including the Encyclopædia Britannica, and is supplied with the necessary Maps and Globes; Musical, Historical and Writing charts; and, in addition to these, a set of apparatus for the Illustration of Physics or Natural Philosophy.

#### SOCIETIES.

The Normal Literary Society, which meets Friday evening of each week, and the Normal Band of Hope (Temp.,) which meets monthly, are Societies formed among the students, and subject to their own control, under the supervision of the teachers. They are excellent means for drill in parliamentary usage and business habits.

## NON-SECTARIAN.

The school is not conducted in the interest of any religious denomination or any political party. The teachers belong to different churches, and students, while expected to attend some church, are allowed to make their own choice. All the leading denominations are represented by churches in town.

## GENERAL REMARKS.

The session just closed has been fruitful of much good.

The thirst for knowledge on the part of the youths of this section of the State knows no abatement, as the record of attendance for this and the past year amply shows.

Diligent and earnest efforts have been put forth daily by the students in pursuit of their object, and much substantial progress in learning has been the result in all the classes.

The school enjoys the moral support of the citizens of the community, and is exerting an elevating influence upon the people of this and surrounding counties.

The course of study, as will be seen from the curriculum, has been raised from year to year. It is such as will enable the teacher to do practical work in the school-room, and at the same time to lay the foundation of scholarship in the Greek and Latin Languages. This has been done to meet the demand of the steadily advancing teaching force of our public schools, and the popular sentiment, everywhere to be observed, in favor of more proficient teachers.

The Normal School is open to inspection *at all times*, and teachers and friends of education are cordially invited to visit it at their convenience.

We hope to profit by their criticisms, favorable or otherwise. We are advocates of progress, and are ready to alter or amend our system whenever it can be done to advantage.

G. H. WILLIAMS, Principal.
