FRENCH THREW ENEMY BACK; RETOOK LARGE PART OF GROUND LOST NEAR HILLS 320 AND 321, EAST OF MEUSE

Made Vigorous Counter-Attacks, States Official Report Issued at Paris; Drove Germans Back as Far as Outskirts of Thiaumont Works; Also Recaptured Trenches Between Fumin and Chenois Woods; Germans Used Six Divisions Yesterday

Paris, June 24.—The battle of Verdun continued last night with the utmost violence on both sides of the Meuse. The war office announced this afternoon that the French have regained a large part of the ground lost yesterday northeast of Verdun near Hills No. 320 and No. 321.

Undertaking a vigorous offensive, the French drove back the Germans over the ground which they won yesterday. The battle was particularly violent in the vicinity of Fleury. The French did not succeed in regaining possession of the Thiaumont works.

More than six German divisions participated in the offensive actions east of the Meuse yesterday.

The text of the statement follows:

"On the left bank of the Meuse there has been continued artillery activity in the Avocourt Wood, at Hill No. 304 and at Deadman's Hill. A German attack with hand grenades on our positions at Hill No. 304 was repulsed.

"On the right bank of the river the

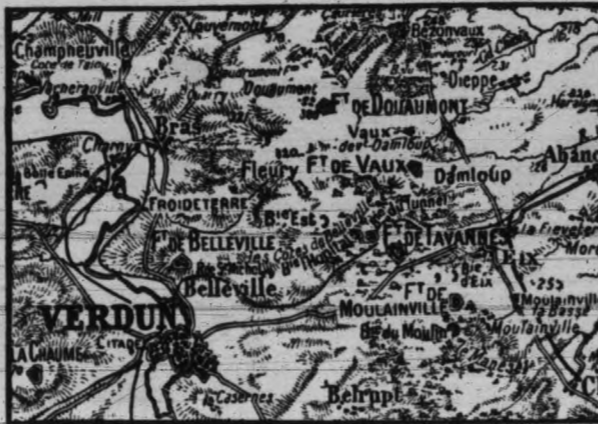

battle continued with ferocity all last night on the western portion of the front. Our counter-offensive movements, conducted with vigor, made it possible for us to recapture in the vicinity of Hills No. 320 and No. 321 a large portion of the ground recently lost there by us and to drive the enemy back as far as the outskirts of the Thiaumont works, which the Germans still hold.

"The fighting became violent on the outskirts of the village of Fleury.

"Between the woods of Fumin and Chenois in complete possession of those trenches which the enemy occupied during the night of June 21-22.

"According to the latest information as to the result of the German offensive actions yesterday evening on the right bank of the Meuse, these movements were conducted by the enemy in superior numbers, six divisions taking part."

OTTAWA GOVT. NOT FREEING AMERICANS

Some With Canadian Forces Might Wish to Fight for States

QUESTION WILL BE SETTLED IF IT ARISES

Montreal, June 24.—"The imminence of war between the United States and Mexico," says the Star's Ottawa correspondent, "raises a question as to the status of the large number of American officers and men who are serving with the Canadian overseas contingents and the likelihood of their going back to their home forces."

"The attention of the minister of militia was directed to a report from New York that he had promised to release American National Guard officers now with the Canadian army.

"I have heard nothing of it whatever," said the minister, "and besides most of them are in England."

"What may be done in the event of serious hostilities and the United States officers desiring to go back home, is a question that would be dealt with when it arises."

LACK OF MEAT IS GERMANY'S PROBLEM

Lord Robert Cecil Speaks of Scarcity and British Prisoners

London, June 24.—Information obtained from official sources confirms a dispatch of June 16 in regard to the distress of British prisoners of war in Germany.

Asked about disquieting rumors, Lord Robert Cecil said:

"I am impressed by the reports of the scarcity of food in Germany. I trust they will not be made the excuse by the Germans to cut down the supply of food for the prisoners of war in Germany. If such a thing were to happen it would produce a storm of indignation in this country and add greatly to the bitterness of a struggle that already is the bitterest of the world has known."

Lord Robert went on to say he understood Germany was facing a really serious food problem; that the meat supply was decreasing so that in a few months it was quite likely there would be little meat in the whole of Germany, and that the crops were not any too promising.

"If all we hear is true, Germany must be feeling appreciably the effects of the blockade," said Lord Robert. "But there is no telling what surplus provisions Germany may have stored away."

"The lack of meat must be a severe drawback, and eventually, if Germany can not get meat, her army must suffer a heavy handicap, for meat it must have to sustain its strength. Not enough fats can be produced from a vegetable diet."

British prisoners of war, according to information Lord Robert has, have been kept alive largely by baskets of food shipped by relatives in the United Kingdom.

MEXICANS WILL NOT HANG 17 AMERICANS

Chihuahua City, June 24.—It was announced officially to-day that none of the seventeen American troopers captured in the fight at Carrizal and brought to the penitentiary here will be hanged, that "not being the custom of a civilized country."

QUALIFICATIONS OF ALDERMEN QUESTIONED

Surprise at City Hall Follows Resolution Standing in Alderman Todd's Name

Alderman Todd threw a bombshell into the city hall late yesterday afternoon, in the form of a resolution to be introduced to the attention of the council at Monday's session, requiring an investigation of the qualification of every member of the council.

To put it mildly, his colleagues expressed their amazement this morning at the form the motion takes. It is true that gossip has associated one alderman's name with faulty qualification for two or three months, but a challenge to the whole body had not been foreseen.

There is a precedent for a search of the titles on which aldermen have qualified, early in 1899, when as a consequence two by-elections followed, but the resolution ordering that search was more definite in its terms, and limited the investigation to specific circumstances.

The resolution is worded as follows: "Whereas, it is rumored there may be members of the present municipal council who are not properly qualified; "Be it hereby resolved, that Mr. Northcott and the city solicitor be instructed to make a joint report in writing to the council meeting of Monday, July 3, reporting upon each and every individual of the eleven members of the council:

"The said report to contain the following: (a) The name in full of each member of the council. (b) The qualifications possessed at the time of the nomination of each member, together with details of the property each member qualified upon. (c) If at the present time there is any change whatever in the said qualification? If so, what? (d) If between the date of nomination and the present time there have been any other adjustments or changes in the said qualifications? If so, what, dates, and full details? (e) A definite statement, whether in the opinion of the two officers each member of the council has since the date of nomination and election, been continuously entitled to sit as a member of the council. (f) Any further matter that the two officers may deem pertinent to the subject, and the said officers are now authorized to make whatever search and investigation that may be necessary in order to ensure a proper report.

BREAK NEAR BETWEEN STATES AND MEXICO

Tension Increased by Indication American Troopers Massacred at Carrizal

WILSON AWAITING FURTHER REPORTS

His First Step Will Be to Demand Repudiation by Carranza

Washington, June 24.—Relations between the United States and the de facto government of Mexico are close to the breaking point to-day as a result of the belief that American cavalrymen were massacred on Wednesday at Carrizal by Carranza soldiers.

Secretary Lansing and Secretary Baker were at the White House early conferring with President Wilson. It is known that the possibility of drastic retaliatory action against the Mexican forces in Chihuahua was given grave consideration. If the Carranza government accepts responsibility for the attack at Carrizal, it is considered virtually certain by officials that occupation of Northern Mexico will be ordered by President Wilson to take place as rapidly as the necessary military forces can be placed at the disposal of Maj.-Gen. Funston.

Action must await further reports from Brig.-Gen. Pershing. His messages last night indicating that only seven men of the two troops of cavalry had survived in addition to those taken prisoners, had not been supplemented at an early hour.

Disavowal. It is believed the first act of the Washington government when fuller information is at hand will be to demand repudiation by the Carranza government of the attack at Carrizal. Preliminary reports have convinced officials here that the American troops were deliberately led into a trap.

Unqualified repudiation of the attack and immediate surrender of the prisoners probably will be demanded.

Although Ecuador and Salvador have authorized their ministers to confer with their colleagues on the subject, the state department does not expect any immediate overtures from the body of Latin-American diplomats. It is understood that Ambassador Naon, of Argentina, who came here from New York yesterday seeking information, telegraphed his government that nothing could be done at this time toward initiating mediation.

London, June 24.—Lord Balfour of Bureleigh, Lord Cromer, the Earl of Halsbury, Viscount Middleton and the Marquis of Salisbury, who represent the extreme anti-home rule party, have issued a manifesto deprecating the attempt to settle the Irish question by negotiations at a moment "when a sanguinary rebellion has just been repressed" and when the concessions proposed will be regarded in Ireland as a "premium on rebellion, and as a vantage ground for further demands."

The signatories of the manifesto declare it to be their conviction that the proposed settlement is fraught with infinite danger to the state.

KUTY CAPTURED BY RUSSIANS; AT FOOT OF THE CARPATHIANS

Continuing Their Drive Against Broken Austrian Forces at South End of Line, Gen. Brusiloff's Troops Have Taken Town Southeast of Kolomea; Steady Progress Being Made

Petrograd, June 24.—The capture by Russian forces of the town of Kuty, in Galicia, across the Bukowina border at the foot of the Carpathian mountains, was announced to-day by the war office.

Kuty is almost due west of Csernowitz, capital of Bukowina, now in the hands of the Russians, from which it is 37 miles. The capture of the town indicates the steady progress Gen. Brusiloff's forces have made since they delivered the blow which led to the fall of Csernowitz.

BRITISH STEAMSHIP TAKEN TO ZEEBRUGGE

Brussels, Carrying Passengers, Captured by Germans; Brother of Capt. Lives Here

London, June 24.—The British steamship Brussels, with passengers on board, has been captured by German destroyers and taken into Zeebrugge. It is stated there were no Americans on the Brussels.

Announcement of the capture of the Brussels, which belongs to the Great Eastern Railway Company, was made to-day by an official of the line here. The vessel was on her way from Rotterdam to Tilbury with passengers and mails. She was captured yesterday. Most of the passengers were Belgian refugees on their way to England.

The Brussels, a steamship of 1,390 tons, 285 feet in length, with a beam of 34 feet, was built at Dundee in 1902. Her port of registry is Harwich.

Captain Charles Fryatt, master of the Brussels, has a brother living here—A. P. Fryatt, whose home is in Garden City and who is a city postman. Mr. Fryatt recently had a letter from his brother, and at that time the captain was engaged on his regular run across the channel. Formerly the run was between Harwich and Rotterdam, but latterly, owing no doubt to admiralty regulations, the vessel had been running between Tilbury and Rotterdam.

Shortly after the beginning of the war Capt. Fryatt, who at that time was in command of the steamer Wrexham, of the same line, encountered a German submarine. The undersea craft attempted to overtake the British craft, but under Capt. Fryatt's skilful handling the British vessel escaped and landed all on board safely.

About eighteen months ago Capt. Fryatt again encountered a German submarine and again his ship was made the object of unpleasant attention. This time Capt. Fryatt again landed all aboard his ship safely, but not before he had rammed the enemy submarine.

London, June 24.—(By F. A. McKenzie).—That Rt. Hon. David Lloyd George will accept appointment as secretary of war now is regarded as assured. The whole difficulty, as I stated at the beginning, was his unwillingness to accept the greatly contracted authority which Earl Kitchener possessed at the finish. The military authorities naturally regard it as impossible that civilians should attempt, however indirectly, to control military strategy. Mr. Lloyd George's friends feel there is great scope for a statesman of supreme ability to help in the co-ordination of the allies' military plans. It is recognized that the war ministry will give Mr. Lloyd George his supreme opportunity. Even the Morning Post, which certainly is not among his warmest friends, says: "We certainly recognize Mr. Lloyd George's zeal, initiative and courage. He has in his hand an opportunity that comes to few."

FRENCH INFLECTED ENORMOUS LOSSES

Estimated Germans Lost Between 40 and 50 Per Cent. Near Verdun

Paris, June 24.—Late details indicate that yesterday's fighting near Verdun equalled in fury anything yet experienced. The total German forces engaged on a two-mile front are estimated at between four and five divisions. It was only by the last overwhelming rush, when the defenders were worn out and thinned by many hours of bombardment, that the enemy succeeded in rushing the Thiaumont works and the adjacent advanced trenches.

The Thiaumont fortifications covered the approaches to Fleury and the enemy hoped to continue the charge and sweep the defenders out of the latter place, but the French counter-attacked with such fury that the Germans were able only to cling to the positions first gained, which they were busily engaged in strengthening all night in preparation for fresh attempts to push their advantage.

The enemy's losses are placed at from 40 to 50 per cent. of the effectives engaged.

Now Regarded as Certain He Will Succeed Earl Kitchener

INSPECTOR BEYTS WILL BE RELIEVED

Regina, June 24.—Inspector W. J. Beyts, the R. N. W. 21. P. officer who is in charge of a patrol detachment inquiring into the murder of two Americans, Radford and Street, by the Killisnoak tribe of Eskimos in the Arctic, is to be relieved by Inspector F. H. French and three constables, Chinn, Douglas and Crombie, who will go to Baker Lake by way of Montreal and will sail on the steamer Nascopee.

ALLIES ALLOW WHEAT TO REACH THE GREEKS

Athens, June 24.—The blockade of Greece by the allies has been lifted and the needed wheat is arriving at Greek ports, it was announced here to-day. The new cabinet, headed by Premier Zaimis, has assumed office.

GERMAN STATEMENT

Berlin, June 24.—Capture of the armored fort of Thiaumont, north of Verdun, and the larger part of the village of Fleury, further south, was announced to-day by the war office. Ground also was gained south of Vaux. The Germans made 3,000 prisoners.

TREVINO ORDERS ANOTHER ATTACK

Threatens American Columns Moving Toward San Antonio and Ojo Caliente

Chihuahua City, June 24.—American columns have been seen advancing from the American field base in the direction of San Antonio and Ojo Caliente and General Jacinto Trevino has issued orders to attack them if they do not immediately retreat.

General Trevino said the Americans would get the same treatment that they had received at Carrizal, as he is determined to carry out his orders to the letter. In this he has all his subordinates with him and they will stick with him in case of a rupture.

The Mexican commander said to-day that it seemed probable, inasmuch as Brig.-General Pershing seemed ignorant of the fate of the Boyd column, that outside of five additional prisoners now being brought here the Americans had been annihilated, although it was possible more had escaped. Brig.-General Pershing has wired here for the names of the dead and the prisoners.

Survivors. El Paso, June 24.—Army officers here believe that the column bound for Ojo Caliente, which General Trevino has threatened to attack, probably is composed of troops surviving the Carrizal battle.

Ojo Caliente is about 40 miles southwest of Villa Ahumada. San Antonio is 50 miles southeast of Namiquipa and the mission of the column proceeding in that direction is not known here, unless it be to search for bandits.

NEUTRALS MAY WORK FOR FUTURE PEACE

Grey Intimates That, Not Ending of This War, Their Field

New York, June 24.—Herman Bernstein, editor of the American Hebrew, gave out yesterday a letter he had received from Sir Edward Grey, the British secretary of state for foreign affairs, in reply to an inquiry regarding his views as to the prospects for peace. Sir Edward answered the question as follows:

"I believe the best work neutrals can do for the moment is to work up opinion for such an agreement between the nations as will prevent a war like this from happening again.

"If the nations had been united in such an agreement and prompt and resolute to insist in July, 1914, that the dispute must be referred to a conference or The Hague, and that the Belgian treaty must be observed, there would have been no war."

DIED FOR FRANCE.

Paris, June 24.—Corporal Victor Chapman, of New York, a member of the Franco-American flying corps, was killed yesterday at Verdun after bringing down three German aeroplanes.

IS NOT EXPECTED CURZON WILL COME

Opinion at Ottawa He Will Not Succeed Duke of Connaught

Ottawa, June 24.—The report that Lord Curzon will succeed the Duke of Connaught as governor general of Canada when the duke returns to England in the autumn, is not generally credited here. Those in official circles who are inclined to doubt the coming of Lord Curzon to Canada back their opinion with at least two reasons. They say that no man formerly viceroy of India has ever been sent to Canada as governor general, although former governors of Canada have gone to India as the representative of the British crown. They also say that a British peer whose wife is an American would not be appointed to represent the king in Canada. Lady Curzon before her marriage was Miss Leithers, the daughter of a wealthy citizen of Chicago.

It seems to be practically settled that Prince Alexander of Teck, who was named before the war as the successor of the Duke of Connaught, will not come to Canada. The prince is at the front and desires to stay there. Officers who have returned from France and Belgium say that he is one of the best artillery officers in Gen. Sir Douglas Haig's armies.

NOTHING TO MEDIATE, WASHINGTON'S ATTITUDE

Washington, June 24.—News that some of the South and Central American republics were preparing to initiate offers of mediation in the crisis between the United States and Mexico drew from high officials here to-day a strong intimation that the United States was engaged only in protecting its people, and therefore considered there was nothing to mediate so far as the policy of this government is concerned.

ARGENTINE'S ATTITUDE REGARDING MEXICO

Buenos Ayres, June 24.—The Argentine cabinet decided to-day not to act at the present time on Chile's proposal concerning a united effort on the part of Latin-American republics to prevent war between the United States and Mexico. The reply sent to Chile states that Argentina preferred not to interfere at this time.

H. T. CHAMPION, OF WINNIPEG, VERY LOW

Winnipeg, June 24.—H. T. Champion, of the firm of Alloway & Champion, bankers, who has been seriously ill at his residence for the past three months, is in a semi-conscious condition to-day, and little hope is held out for his recovery. His son Sprague has been summoned from the west, and will arrive this afternoon.

NO SHIPMENTS FROM STATES INTO MEXICO

Washington, June 24.—Customs officials along the Mexican border have been ordered to hold up freight shipments into Mexico, and to advise the railroads to keep their rolling stock on the American side of the line.

Washington, June 24.—An unofficial dispatch from Mexico City to-day said it was reported there that General Carranza was preparing a reply to the last American note and that it would be published in Mexico City probably to-morrow, without waiting for its delivery to the United States.

DR. C. C. JAMES DIED SUDDENLY LAST NIGHT. Toronto, June 24.—Dr. C. C. James, C. M. G., commissioner of agriculture for Canada, dropped dead last night on a railway car near St. Catharines. Charles Canniff James was born at Napanee, Ont., in 1863. He was educated at the Napanee High school and at Victoria University, Toronto, winning the natural science gold medal at the latter institution. In 1886 he was appointed professor of chemistry at the Ontario Agricultural College, Guelph, which post he held until 1891, when he became deputy-minister of agriculture and secretary of the bureau of industries for Ontario. In this position he remained until 1912, doing much important work for the agricultural industry of the province. In 1912 he entered the service of the Dominion, becoming commissioner of agriculture.

Dr. James's services to the cause of agriculture and his successful efforts in furthering education have been highly valued by the governments under which he worked, and by the public at large. His lectures on a variety of subjects and his other literary work also brought him prominently before the people of the whole country. "The Second Legislature of Upper Canada," "The Downfall of the Huron Nation" and "The Romance of Ontario" are among his most typical literary productions. Dr. James's last visit to Victoria was made last autumn when he attended the convention of the Western Stockbreeders' Association here.

AMERICAN SOLDIERS HELD IN CHIHUAHUA. Chihuahua, June 24.—The seventeen American negroes captured in the Carrizal battle have been placed in the penitentiary here. There have been no arrangements made for removing them to Juarez to be surrendered to the American authorities. Len Spillsbury, the Mormon scout captured at Carrizal, also is in prison. The prisoners were assaulted by Mexican civilians as they were being transferred from the train to the penitentiary, but were landed safely behind the walls of the building, and, according to the authorities, are being well treated. According to a statement said to have been signed by Spillsbury which was made public to-day by General Trevino, neither he nor the negroes knew which side began the firing. Spillsbury's statement says that Troop C was first to advance against the Mexicans. It adds that practically all the Americans who lost their lives were killed when they advanced to a deep ditch in which Mexicans were stationed, and when other Mexicans, getting around to a deep ditch in their rear, attacked them from the flank.

GERMANS PAID BIG PRICE FOR GROUND. Suffered Enormously in Taking Trenches and Thiaumont Works, N. E. of Verdun. Paris, June 24.—In fierce fighting in the region northeast of Verdun the Germans yesterday carried French first line trenches between Hills 521 and 520 and also the Thiaumont works, according to the official communication issued last night. The Germans also drove their attack as far as the village of Fleury, about 3 1/2 miles northeast of Verdun, there they were repulsed. In the other sectors of this region heavy offensives by the Germans were stopped by the French fire. Following is the text of the official communication: "On the left bank of the Meuse bombardments with shells of heavy calibre continued all day in the region of Hill 604, on Deadman's Hill, and on our second lines in the sector Chantancourt. "On the right bank of the Meuse, following a violent artillery preparation last night, the Germans at 8 o'clock in the morning made a series of attacks on a large scale on a front of about five kilometres from Hill 321 to the east of the Damloup battery. Attacks with heavy effectives followed each other with extreme stubbornness, notwithstanding the enormous losses which our curtain of fire inflicted on the enemy. "Between Hill 321 and Hill 326, after several unsuccessful attacks, the Germans succeeded in carrying our first line trenches and the Thiaumont works. "A powerful German attack which had reached as far as the village of Fleury was repulsed by a violent counter attack. "Attacks directed at the woods of Vaux, Chapitre, Fumin and Chenelle and on the Damloup battery were broken by our fire and completely repulsed. "In the Woivre the artillery fighting was rather violent in the sector of Moulainville. "Elsewhere there is nothing important to report."

MINERS ASK BONUS. Calgary, June 24.—Western coal operators met in conference here yesterday with miners' officials to consider a demand by the miners for a ten per cent war bonus. The operators refused the demand, but made a counter proposal which the miners' representatives promised to place before the miners for their consideration. While there is considerable agitation among the miners for an increase of wages on account of the material increases in all sides to settle the apparent difficulties without involving either the men or the operators. It is expected the matter will be decided within two weeks.

F. L. Haynes means watchmaker and jeweler. Girl a Nervous Wreck At Eleven Years of Age Was Tired Out, Pale and Sallow—Would Tremble Till the Bed Would Shake—Dr. Chase's Nerve Food Cured Her. In the schools of to-day there is found an alarming proportion of weak, nervous children who have little chance of developing into healthy, useful men and women. Nature requires the assistance of such treatment as Dr. Chase's Nerve Food to help them over a trying period and set them on their feet. There would be fewer wearing glasses if the nerves were invigorated, less irritation in the school and home, more robust health and a greater pleasure in the school tasks. This letter bears a cheering message to parents whose children are weak, puny and nervous. It shows you what may be expected from the use of this great restorative. Mrs. Stephen Hartman, Italy Cross, Lunenburg Co., N. S., writes: "My little sister at eleven years of age became nervous, irritable and seemed all tired out. She had no appetite, was lifeless and drowsy, and her complexion grew pale and sallow. Finally she had to keep her bed and have somebody with her all the time. She was afraid of everything, would get excited and tremble till the bed would shake. As she seemed to be getting worse under the doctor's treatment, mother decided to try Dr. Chase's Nerve Food. After she had used about four boxes improvement was noticeable, and it was wonderful to see how much brighter and stronger she grew week by week. She used ten boxes altogether, and they cured her. She got fat and rosy, and went to school every day with an ambition that she never seemed to have before. I do not hesitate to recommend Dr. Chase's Nerve Food to anyone, for it was indeed wonderful what it did for her." Dr. Chase's Nerve Food, 50 cents a box, 5 for \$2.50, all dealers, or Edman-son, Bates & Co., Limited, Toronto.

GERMAN FLEET IN CRIPPLED CONDITION

Losses So Great No Doubt About Impotence, Writes Archibald Hurd

London, June 24.—Archibald Hurd, naval expert of the Daily Telegraph, writes: Three weeks have passed since the naval battle, and it is possible, in the light of an immense amount of information from British and neutral sources, to form what will prove the verdict of the historians on one of the most splendid incidents of British naval annals.

The German high seas fleet, weaker by five capital ships, is so lame that it cannot move, if it dared to do so. That is a matter on which there can be no doubt. When the war opened Germany possessed the following ships of the cruiser class (built and shipped) less than 15 years old, those lost in the course of the war being given:

Battle-cruisers—Original number, 8; since lost, 6, comprising the Lutzow, Goeben, Seydlitz (a complete wreck), Bluecher, Hindenburg, and another of a similar type, which it is believed was the von der Tann.

Light cruisers—Original number, 30; since lost, 29, comprising the Karlsruhe, Magdeburg, Kohn, Mainz, Emden, Dresden, Nürnberg, Königsberg, Leipzig, Bremen, Ondine, Roonstock, Wiesbaden, Breslau, Frauenlob, Ebbing, Ariadne and three others, the names of which have not yet been revealed.

Out of 45 effective cruisers of all classes which Germany had built and was building when the war opened, she therefore possesses to-day only 14, and of these a large proportion were damaged so seriously in the battle of the Skagerrack to be at present ineffective. Those 14 cruisers have to suffice for duty as scouts for battle squadrons, parent ships for torpedo flotillas and for patrol work in the Baltic.

SIXTEEN MORE AMERICAN SOLDIERS WERE FOUND

San Antonio, June 24.—Complete disorganization of the two troops that were engaged in the disastrous combat on Wednesday morning at Carrizal with Carranza's troops and the practical annihilation of those actually in the fight was indicated in a report from Brig-Gen. Pershing to Maj-Gen. Funston to-day.

One packer and eight enlisted men of C troop and seven men of K troop were picked up yesterday morning by Lieut. Meyer near Santa Marica. All were horse holders. The stories these men told were almost identical with those told by the other stragglers that reached the transmission lines yesterday.

FIRE AT NEEDLES, CAL.

Needles, Cal., June 24.—Six bodies have been taken from the ruins of the business section here, which was destroyed early to-day by fire. Firemen began searching the ruins at daybreak wherever the constant streams of water had cooled the wreckage sufficiently. Nick Jährelis, a mining man, was burned to death as he stood on the veranda of the Needles hotel while hundreds of persons watched.

IF YOUR THROAT IS HUSKY CATARRH MAY BE STARTING

A weak or irritated throat is the first step towards catarrh. Every thing depends on your remedy. A cough mixture slips quickly over the weak spots, drops into the stomach, and does little but harm digestion. It's altogether different with Catarrhose—it cures because it gets right to the trouble. You inhale Catarrhose, breathe in the vapor of the healing balsams that strengthen and restore the weak throat tissues.

INTENSITY AT VERDUN.

The intensity of the situation in front of Verdun has increased in consequence of the furious fighting which has been in progress on the right bank of the Meuse. There the enemy is redoubling his exertions and his losses. Proceeding on his original line, he is endeavoring to penetrate between Hills 320 and 321 west and south of Vaux, outflank and isolate the main French positions and by battering his way to the bridgehead compel the French to evacuate the east bank of the river as far south as St. Mihiel. Using no less than six divisions and regardless of losses he has made headway in spots, establishing himself in the Thiaumont farm and redoubt and advancing at other points west of Douaumont and Vaux. Yesterday the Germans succeeded in reaching the village of Fleury, about two miles west of Vaux, but the French report states that a counter-attack threw them out and regained a great part of the other ground that had been lost.

The Germans are now confronted with the most difficult part of their undertaking, the capture of the main French defences on the east of the Meuse. It has taken four months and losses conservatively estimated at more than half a million to reach this stage. They are now so near their objective that, aside from the necessity which is spurring them to slaughter, the temptation to continue will be irresistible. This is more than satisfactory to the allies. The more effective the Hunns use and lose at Verdun the less reinforcements they can divert to the eastern front.

On the east front the Germans, having diverted three or four corps from the west and augmented them with all the reserves that could be scraped together in interior depots and from von Hindenburg's sector, are endeavoring to force the Russians back in Volhynia, and in that way to counteract the progress made by Brusiloff's forces at the southern end of the line. Desperate fighting is occurring in the region northwest and west of Lutsk, and Berlin claims that the enemy is being slowly driven back. But we imagine that, for the moment, Brusiloff will be content with the general maintenance of his new front in the north while he rapidly develops his plans in southern Galicia and Bukovina. There he has reached the Carpathians at two places and, judging by the progress recorded in the last day or two, von Pflanzer's army has either been trapped or has had the narrowest escape of its harrowing career. It is desirable, too, to give the Roumanians a first-hand demonstration of the extent which Russia has demoralized the right wing of the Teutonic eastern line.

With the Germans heavily engaged all the way between Galicia and the Gulf of Riga, and the battle of Verdun entering upon another crucial stage, military commentators are eagerly watching for signs of a simultaneous attack by the allies on all the other fronts. The decision rests with Joffre. The British army will strike in co-operation with its gallant allies when the French generalissimo gives the word. And Joffre will not be hurried. This time his hand will not be forced by public clamor as it was last September. But neither is he likely to wait until the Germans blast their way to the domination of the right bank of the Meuse.

RUSSIA'S POTENTIALITIES.

The negotiation of a Russian loan of \$50,000,000 is regarded by New York newspapers as an opportunity for facilitating trade relations between the two countries, which at present are decidedly one-sided owing to the large imports of war munitions by our ally. It is realized that Russia will recover from the effects of the great struggle

in which she is now engaged with marked ease, and it is anticipated that there will be an immense acceleration in the development of her vast resources as a feature of that recovery.

Russia has long been a heavy borrower and her national debt, large when the war began, has since become several times greater. But in proportion to the undeveloped wealth of the country the indebtedness is small. Were the Russian people to develop their huge resources along progressive lines they would be in a position to carry without much trouble the indebtedness of the whole of Europe. They have an empire of nearly 170,000,000 inhabitants, which is not only the greatest wheat-producing country in the world but has vast mineral resources of all kinds and enormous forest wealth. It is probably the greatest storehouse of raw materials for manufacture on earth, and when, as the result of this conflict, these find ready access to the high seas Russia will become a tremendous factor in the race for commercial supremacy.

Although Russia's possibilities have hardly been touched, the strain of the war has been felt by her much less than it is felt by Germany, whose natural resources are negligible in comparison. As little as Russian possibilities have been developed, the strain of war finance seems to have been rather easily borne on the whole. According to recent estimates the ratio of the cost of the war to the developed wealth of Russia is 14 per cent., compared with 16 per cent. in Germany, while war costs is 113 per cent. of the national income in Russia, compared with 234 per cent. in Germany. In the ten-year period from 1901 to 1911 Russia's wealth doubled.

In the development of Russia after this war we anticipate that Great Britain and France will play an important part. There will be a strong sentimental bond of union between the three peoples born of their terrible sacrifices in the great common cause. The opening of the Dardanelles and the new railroad communications in the north will give Russia's western allies convenient connection with the most productive and most widely settled parts of the empire, an immediate advantage which the United States geographically is not in a position to meet. Odessa, the outlet of the richest region of the Czar's empire, will rank with Liverpool, Hongkong, Antwerp and New York as the greatest ports of the world, and across from Odessa, Trebizond, the outlet of eastern Asia Minor and Armenia, will become another port of major importance.

PREMATURELY PESSIMISTIC.

London newspapers reporting the battle of Jutland, arriving here during the last few days, afford an interesting study. The first issue of many of them after the announcement of the engagement inclined to the view that the British had suffered a reverse. This melancholy conclusion was inspired by the fantastic claims of the Berlin communication and the billous hug of the admiralty report. The next version, based upon fuller information, was much more optimistic and finally our big contemporaries awoke to the fact that Britain's sea power had won a great victory, the effect of which upon the fortunes of the war was out of all proportion to the material damage inflicted upon the High Seas fleet.

The tendency of British newspapers and war commentators to accept at their face value, or near their face value, German official communications, is hard to understand, not only in the light of experience, but in view of the importance attached by German authorities to lying bulletins and a lying press in war. The German War Book specifically insists upon this means of deceiving the enemy, influencing neutral sentiment and encouraging the people at home, as a vital requirement of victory. Prussian war philosophy without the element of falsehood would be like the play of Hamlet minus the melancholy Dane himself. In respect of the battle of Jutland there were extra-special reasons why the German report should have been promptly discounted. The German High Seas fleet, constructed at a cost of more than a billion dollars, was the forlorn hope of the German people against the British blockade, which had brought the spectre of famine to their very doorsteps. They had been led to believe that when all plans were perfected and conditions were favorable it would put to sea and by tactics similar to those adopted by Hindenburg and Mackensen on land, penetrate the enemy's line and destroy his units in detail.

When the High Seas fleet, fearfully mauled and lacking five capital vessels and numerous smaller ships, was driven helter-skelter to its base there was only one thing for the German admiralty to do, according to Prussian war philosophy. That was to announce a victory at once, exaggerate the enemy losses and minimize their own and organize celebrations in all the centres of the empire. This had to be done before the German people, aullen

and despairing over their losses and through deprivation, would draw alarming conclusions from the unconcealable fact that their navy had returned to its bases and ask disturbing questions. At the same time all the bases were closed and telegraphic and mail communication between them and the rest of the empire was cut off. The plan was to dull the blow by allowing the news to leak out gradually, desperate efforts meanwhile being made to capture Verdun as an antidote.

A Danish journalist who was in London at the time saw the situation with unclouded, neutral eyes at the very first, and in an interview chided the newspapers and the public for their premature pessimism. He pointed out that the precipitate retirement of the enemy to his bases showed that he had been badly beaten and, what was infinitely more important, had had a costly demonstration of the hopelessness of his position on the sea. As the main purpose of Germany's efforts on land or sea was to break the blockade, the battle of Jutland was a crushing blow to her, and he declared that the people of the British Isles while mourning their losses should feel jubilant over the result. This clear-headed, accurate view was expressed before the admiralty made its leisurely announcement that the German losses had been actually heavier than those of the British fleet.

A CHALLENGE TO BOWSER.

Says the Omicra Herald, apropos of the visit of the Minister of Public Works in the government party to Hazelton: "Premier Bowser, in what might be called a valedictory speech in the legislature, said he was proud of Hon. Thomas Taylor, because \$35,000,000 had passed through his hands and not a dollar of it had been misapplied. Is the premier trying to kid himself or amuse the public? We hope the premier repeats that speech here, for we can show him plenty of evidence to give the lie to his assertions.

"Would Bowser say funds were not misapplied when a car of bridge timber was unloaded at South Hazelton, hauled down the hill, ferried over the river, and then up over the big hill and down again, a distance of five miles, when it should have been billed to New Hazelton and taken less than two miles down-grade?"

"Will Bowser say there was no misapplication of money when thousands were spent on road machinery that has never been used and is hidden away in the bush in different parts of this district?"

"Will Bowser say the money spent for the big road roller down in the swamp and which has never done a day's work yet was not misapplied?"

"Is it not a misapplication of money to spend \$5,000 or \$10,000 to keep a bunch of horses and men doing absolutely nothing for about six months each year, when these same horses and men ought to be hauling gravel for the roads as they do in other provinces?"

"Will Bowser dare to get up and tell the people of this district there has been no misapplication of moneys when they know hundreds of thousands of dollars have been appropriated for road work in this district and yet there is not one good, properly-made road in the whole country?"

"Is it misapplying road money to use it to buy votes? Is it misapplying money to use government road horses to drive Bowser candidates around the district? Perhaps not, according to Bowser morals?"

A force commanded by General Gomez, one of Carranza's principal officers, ambushed and wiped out an American detachment after Carranza had formally threatened to use force if American troops moved from their base. What happens? An order to Funston to throw all his force into Mexico? Not at all. The inevitable note goes forward demanding that Carranza disavow the action of his commander. If the Mexican president play his cards on the Berlin model his soldiers will be able to keep massacring American troops and citizens for at least a year longer with impunity. Apparently he needs military force less than he does a polished and subtle controversialist to write return notes to Washington.

President Wilson is in a quandary. He is doubtful whether Carranza will offer a disavowal, with, of course, a promise of reparation. Germany always could be depended upon to come through with something that obviated the necessity of action. But Carranza is an obstinate cuss. Besides, he has not been warned that he will be held to "strict accountability." Woodrow might try the effect of shaking a finger at him, or some menacing action of that kind.

The Germans dropped bombs on the open cities of Lunenburg and Bar-le-Duc. Whereupon the French dropped bombs on Treves and Karlsruhe. Berlin at once sent up a howl about the enemy attacking the German civilian population. The white is characteristically Prussian, and we venture the prediction that the French action will be effective. German

aviators will leave open towns in France alone for a while.

The people of Germany are paying a pretty price for that assault upon Verdun which originally was launched for the glory of the house of Hohenzollern. Of course someone in the high command had to be made the goat for the escapade, and quite as a matter of course it could not be "Little Willie." His was to be the glory of success, but it would never do to make him the victim of failure. So van Falkenhayn had to go.

Saanich Assessment Appeals.—The date for expiry of appeals on the assessment roll does not occur at Royal Oak till July 7, but already a few appeals are being lodged for the consideration of the court. The notices published that the payments of delinquent taxes to avoid property going to tax sale next month must be made before July 7, has resulted in the payment into the municipal exchequer of a considerable amount of taxes in the last few days.

Present Conditions Foretold 30 Years Ago—Great Events of Immediate Future Fore-shadowed

A lecture of great interest will be delivered Sunday evening on "The Fulfillment of Prophecy and the Significance of the Present World Crisis."

FOUR BIBLE PROPHECY

The speaker in part says: "For over 30 years Bible students have been calling attention to the various Bible prophecies and Scriptures, foretelling the present distress of nations. Just as surely as these conditions now existing are foretold in the Bible, so also are the events of the immediate future set forth in that wonderful Book of Prophecy. These events which are just ahead of us will, according to the Bible, be of such magnitude as to affect the entire civilized world, even overshadowing the events of the past two years." The lecture is under the auspices of the Associated Bible Students. Seats free, no collection is taken. The above lecture will be delivered in the Pantages theatre. Doors open at 7 o'clock. Lecture commences at 7.30.

Is It A Gamble?

IF in the dark ages it used to be said that a life insurance policy was a gamble in which the assured had to "die to win." What are the facts?

If the husband who is uninsured dies, the wife and her children stand to lose all; if he lives, they will be provided for. The risk is taken by the wife where there is no insurance. She gambles on the chance of her husband living.

The life company, for a premium which has been exactly calculated, can take the risk because it insures large numbers of whom only a certain portion die in any one year. Where a policy is taken, therefore—

The company runs no risk; the assured runs no risk; his wife and children escape the risk. Thus life insurance is a system that eliminates gambling.

Mutual Life policies, besides protecting the family, are good investments. The splendid profits earned by the Company go to the policyholders exclusively, there being no stockholders to share in the profits of a mutual company.

Call of Fire.—The fire department was out yesterday to a brush fire on Hillside avenue, near the orphanage. The outbreak was quickly under control.

City Police Court.—A charge against a Chinaman for selling liquor to Indians was dismissed in the police court to-day. The court was occupied for some time with hearing evidence against another Chinaman charged with a serious offence.

Ratepayers' Association.—The Ratepayers' Association of Ward 4, Saanich, will hold a meeting at Mackenzie avenue school on Monday at 8 p. m. Members of the Women's Institute will attend to ask for the support of the ratepayers in the women's suffrage referendum. The proposed burial ground application now before the council will be also discussed.

Silver Medal Contest.—A silver medal contest will be held under the auspices of the West End W. C. T. U. in the Gorge Presbyterian church, Tillicum road, on Wednesday evening next at 8 o'clock. Five young people will contest for the prize and an interesting musical programme will be rendered. A silver collection will be taken up in aid of W. C. T. U. work.

Christian Science Lecture.—Christian Science is more and more engaging the attention of thoughtful people and many will doubtless welcome the opportunity of hearing an authorized exposition of this great subject, as far as this can be accomplished within the limits of a lecture. At Pantages theatre to-morrow afternoon at 2.45. A member of the board of lecturership of the First Church of Christ, Scientist, in Boston, Mass., will speak on the subject of Christian Science. The lecture is free, no collection, and the public is cordially invited.

AGED LADIES' HOME DOING GOOD WORK

Reports Read at Annual Meeting Testify to Usefulness of Institution

The annual meeting of the Aged Woman's Home management was held recently at the home, when the year's reports were presented and the election of officers took place.

The past year gives nothing of an exceptional nature to report. We perhaps have had more than the average number of deaths amongst our inmates, but the fact that several old ladies came to us in extreme ill health and the severity of the winter accounts for this.

The following report was read by the secretary-treasurer, Mrs. L. B. Gould: "Eighteen years ago the Aged Woman's Home was organized, and since then 161 women have been cared for within its walls, some for a longer and some for a shorter period.

AT THE THEATRES ROYAL VICTORIA. For the last time to-night, the Royal Victoria will present the "Two Orphans," the screen version of the drama that has thrilled millions. This play was written and produced by Herbert Brenon, with Theda Bara, Jean Sothern and William E. Shay in the leading roles. On the same programme is also shown a special series of pictures taken for Ashmead Bartlett, the famous war correspondent, of the Dardanelles expedition also a comedy entitled "Betrayed by the Camera."

DOMINION THEATRE. Mary Pickford makes her last appearance in the Famous Players feature "The Eternal Grind" to-night. Those who have not already seen Mary in this, her latest success, would do well to avail themselves of this final opportunity, as they will find Little Mary as captivating as ever, if not more so. For next week's offerings two big features have been billed. On Monday, Tuesday and Wednesday Dustin Farnum will be seen in the Lasky picture, "David Garrick." On Thursday, Friday and Saturday Sessue Hayakawa, the wonderful Japanese actor, who made such a sensation when he appeared recently with Fanny Ward in "The Cheat," will star in a Paramount drama entitled "Alien Souls."

PANTAGES THEATRE. Lovers of Grand Opera music will enjoy a real treat at the Pantages next week with the La Scala Sextette. Signora Lillian Bianca, soprano, is a most gifted young woman who has spent the better part of her past life in Italy studying music under the most able masters, Jena Jennings, styled the "golden singer," and Signora Louisa Sylvia, contralto, have played important roles with The Lombardi Opera Company. Audiences have given proof of their enjoyment of this act by pronounced applause calling them back for two or three encores. The little company change their programme each performance. They present excerpts from "Ermani," "Lucia," "Traviata," "Carmen," "Rigoletto," and other standard compositions. "The Original Nut" will also be at this playhouse in the person of Harry Breen, one of the funniest men ever seen at this theatre. He concludes his side-splitting act with an entirely impromptu song relating to various members of the audiences, all of which is thoroughly enjoyed. Better unsupported ladder acrobats are seldom seen than the Five Florimonds. May and Billy Carr receive good popularity, the audiences applauding them generously for their 15 minutes of real entertainment. The Venetian Four dispensed musical numbers upon a harp and three violins in a method which brings them much applause. Johnson, Howard and Lizette presenting "The Three Dutzy Tramps," are good acrobats and good singers. The tenth installment of "The Iron Claw" serial is even more thrilling than usual.

Sun and Wind Bring Out Ugly Spots: How to Remove Easily. Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength othine, as this is the prescription sold under guarantee of money back if it fails to remove freckles.

DRESS REGULATIONS FOR ALL REGIMENTS

District Orders Contain Information as to How Officers Shall Be Attired

Similarity in uniform and equipment among officers is required in units of the 11th military district, according to an announcement published in the last district orders. In the case of boots three kinds are allowed, also two kinds of greatcoats, but whichever is selected must be universal within the unit. Stiff service caps only are allowed. Gloves must be worn, not carried. Instructions are given for dress of officers in light and heavy marching order. Walking sticks are not to be carried on parade. N. C. O.'s and men are not permitted to walk out without puttees. The full orders are as follows:

Mounted Officers. Boots—Brown leather, with brown leather leggings, or "field service" boots, or brown boots (whichever of the three is adopted must be universal within the unit). Spurs—Regulation spurs, with short shank. Belt—Sam Browne. Greatcoat—Either greatcoat or British warm may be worn (but whichever is adopted must be universal within the unit). Rank badges on shoulder straps. Breeches—Bedford cord faced inside the knee with buckskin or leather. Jacket—Khaki with worsted rank badges on sleeves. Gloves—Brown leather. Caps—Service caps of the stiff pattern only will be worn. Soft trench caps are not to be worn either on or off parade. This applies to all officers. Dismounted Officers. Boots—Brown boots. Puttees—Fox spiral puttees, pattern. Breeches—Whipcord, faced inside the knee with same material. Jacket—Khaki, with rank badges on sleeves. Belt—Sam Browne. Greatcoat—Either greatcoat or British warm may be worn (but whichever is adopted must be universal within the unit). Gloves—Brown leather.

By the term "mounted officer" is meant an officer for whom a horse is authorized in the establishment of the unit to which he belongs. Officers must be worn, not carried. Practice of tucking gloves under belt or shoulder straps is not permitted. Officers will not wear greatcoats or raincoats unless greatcoats are worn by the men. Belts must be worn on all parades and duties, when an officer appears in public, but will not be worn at mess or when off duty in camp or barracks. Slacks may be worn in or out of barracks or camp when off duty, but low shoes and colored socks are not to be worn. When slacks are worn outside of barracks or camp, Sam Browne belt must also be worn. Walking sticks are not to be carried on parade. Officers will only wear badges of the rank for which they are qualified and holding appointment in the branch of the service in which they are serving. Non-commissioned Officers and men. N. C. O.'s and men will wear only the uniform issued by the department of militia and defence. N. C. O.'s above the rank of corporal will carry straight canes when walking out. N. C. O.'s below the rank of sergeant and men will carry swagger sticks when walking out. The battalion sergeant-major will carry a cane on all parades, but he is the only N. C. O. permitted to do so. Company sergeant majors and company quartermaster sergeants will carry the same arms and equipment as the men. N. C. O.'s and men are not permitted to walk out without puttees. N. C. O.'s above the rank of corporal will wear side arms when walking out. N. C. O.'s below the rank of sergeant and men will wear waist belts, with out side arms, trinkets, watch chains, etc., are not to be worn on the jacket. Gloves must not be tucked under the shoulder straps or carried in pockets or hands. N. C. O.'s and men will not wear waterproof coats, but great coats may be worn in inclement weather. Drill Order. Officers—Service dress, with greatcoats on banderole (if not worn). N. C. O.'s and men—Service dress, with rifle, side arms and pouches, greatcoat on banderole (if not worn). Trousers to have two inch roll over puttees. Heavy Marching Order. Officers—Same as above, with revolver and ammunition pouch, field-glasses, prismatic compass. Haversack over right shoulder or slung on belt. N. C. O.'s and men—Full infantry equipment, waterbottle filled on right side, haversack containing knife, fork and spoon over bayonet scabbard on left side. Pack containing greatcoat, palacaeva cap, holdall complete, housewife, soap, towel, one pair of socks and tin of dubbin, mess tin in cover on top of pack on blanket rolled in ground sheet 14 in. long, with ends neatly butted underneath pack. Clasp-knife with lanyard around neck. Light Marching Order. Officers—Service dress with greatcoat on banderole (if not worn). Field-glasses and prismatic compass, haversack over right shoulder, water bottle and map case over left shoulder or slung on belt. (Blanket rolled in ground sheet may be carried instead of a greatcoat). N. C. O.'s and men—Infantry equipment without pack, water bottle, haversack, containing knife, fork, spoon. Hold-all complete, palacaeva cap, soap, towel, one pair of socks and one pair of boot laces. Mess tin in

cover. Clasp knife, blanket rolled in ground sheet, worn on banderole. Officers actually riding, as above, but greatcoat or blanket and ground sheet strapped on saddle. Dress—Warrant Officers. The following is published for guidance of commanding officers as to the clothing to be worn by a warrant officer: (a) The scarlet or blue clothing and forage cap is identical with that of the senior non-commissioned officers of his arm of the service, with such additional lacing shown on the lithographic plates, and badges of rank (detailed in the Clothing Regulations, 1905, page 17). (b) All other clothing to be of the same pattern as issued from ordnance stores, except that commanding officers may sanction the use of better material in the khaki frock and trousers. (c) Persian lamb gauntlets are not to be worn. The wearing of unauthorized articles of clothing, etc., such as mess dress, frock coats, leggings, or Sam Browne belts by warrant officers is strictly forbidden.

VICTORIA BOY SCOUTS

This week we are able to publish a programme of the arrangements for the First of July, when the Scouts hope to do their share towards making a success of Dominion Day. We hope to be able to keep closely to the times given below:

9.45—Troops assemble at the corner of Yates and Cook streets and march under the senior scout master to Beacon Hill park by the following route: Yates, Government, Simcoe, the park. They will take up their stations at the Burns monument. 10.45—General salute of the flag. 10.55—Ambulance display. 5 Scouts, including the "patient," from each troop will compete, and the event will be judged by Doctor Stanier, who has kindly offered to help the Scouts in this and other ways. 11.20—Trial heats for the tug-of-war (11 from each troop, and no competitor to be in the centipede race.) 11.30—Centipede race, team of 6, fifty yards there and back. 11.40—Individual displays, half an hour. 12.10—Final tug-of-war. This event and the centipede race will be judged by E. C. S. George, who is also doing a good turn to the Scouts. The distribution of prizes will take place immediately after the final event. His honor the lieutenant governor has very kindly consented to present the prizes, and to encourage the Scouts still further in generously offering one himself. His honor will also present the Wilkerson shield to the winners, the Tenth Troop. His own prize will go to the troop that gains the most points in the above programme. It is possible that we may be able to gain a little on the appointed times, and every effort will be made to do so, in order that there may be plenty of time to watch the cricket in the afternoon. A bugle will start and end each event.

Our best congratulations and wishes to the new patrol at Qualicum Beach. Eight members have been sworn in by Mr. Hensage, and we hope there are many more "pebbles on that beach." Attention is called to the new regulation to the effect that Tenderfoot must be twelve years of age before they can be sworn in. We hope that lots of them are ready to join up. The correspondent takes this opportunity of thanking those scribes who have at last sent in some news of their troops. Third, Tenth and Eleventh set the example for the rest to follow. 3rd Troop. The 3rd and 11th had a strenuous and enjoyable afternoon on the 17th, as will be seen from the report sent us by the member of the 11th, which we print in full. After the tournament followed a "fun-feed," many games and a team began to get ready for the tug on July 1st. 10th Troop. We are very pleased to hear from Scout Master Brinkman that new members are coming in rapidly, and that extra parades are being arranged to get them through their "Tenderfoot." This will mean more candidates for the Wilkerson shield later on. 11th Troop. From S. M. Burgess:—The boys of the above are not taking as keen an interest in the forthcoming parade as their Scout Master had anticipated, but the keenness will come, and no doubt they will give a good account of themselves, as several of the patrol leaders have in hand some good items of scoutcraft. The 11th feel honored at the selection of P. L. Wootton as a member of the Scouts' Dominion Day committee and as secretary of the P. L. council boys.

P. L. Murren and his baseball buddies are looking for more colts to test their metal, as up to the present they have had it all their own way. A trial with the boys of the 3rd troop would meet with their hearty approval. Scout Nash has been advanced to acting patrol leader, and Scout Beale as his second. ing previously been with the 5th Regiment, C. G. A. He was formerly a florist by occupation, and was employed by Brown Bros and at Pletwink. He is 34 years of age, married, and his wife and two children are living here. He is a member of the Foresters. Lieut. Horace Charles Saunders, who is the youngest, left an auctioneer and valuer's office in London to join Kitchener's army. He became a member of the 7th Queen's Royal West Surrey Regiment, and after training at Amersham Camp, left for the Dardanelles. He was later transferred to the Egyptian zone, and is now seeing service in France. He has frequently been in extremely dangerous situations, but so far has remained unscathed.

and Davies have been working assiduously to master the intricacies of the bugle and drum. Three tenderfoots took the Scouts' promise during the month. From P. L. Wootton:—On Saturday, the 17th, a very enjoyable tennis tournament was held between the Kangaroo and Beaver patrols of Third Troop, and the Fox patrol of 11th Troop. The Kangaroos came out on the long end of a 9-7 set after a very hard and well played match with the Beavers. The Foxes won from the Beavers 5-3, 6-0. These teams would be very glad to receive challenges from any other patrols and will undertake to supply the court and balls for the games. The ambulance team for the 1st of July sports met at 6 p. m. on Friday, the 16th, and held a practice. The Boy Scouts have been asked to remind the public that there will be aquatic sports at Cowichan Bay on Dominion Day in aid of the Canadian Red Cross and Patriotic funds. The compiler of this column will be away for part of July and August, and ventures to suggest to the Scout Masters that they should send to the paper accounts of their camps.

FIELD OFFICERS' COURSE

Results of the Recent Examinations Held at Work Point. The results of the recent examination for field officers at Work Point show that less than 50 per cent. of the candidates were successful. RALLY RECRUITS FOR THE BANTAMS

Recruiting Contingent in Fraser Valley Completes March; British Campaigners Assist. The Bantam contingent engaged in recruiting on the mainland, in command of Lieut. G. D. L. Peck, accompanied by the noted silver band of the 143rd Battalion, is expected to reach Vancouver this afternoon, returning from its route march through the Fraser valley in search of recruits. The mainland newspapers state that the party was tendered an enthusiastic reception when it reached Chilliwack on Thursday by the civic authorities. The mayor and aldermen entertained the men at lunch in the drill hall. The contingent marched through Chilliwack with its famous band in the afternoon and was greeted with hearty applause, not only by the townspeople, but residents of the farming communities, who came to town to see the parade. In the evening the band gave a concert at the drill hall and played to a packed house. In the morning it proceeded to Abbotsford and started from there the same afternoon on its march back to the coast. This afternoon the British Campaigners' Association held a recruiting rally for the Bantams. In the absence of the band the bugle band of the battalion led the parade, in the van of which was a decorated motor car carrying veterans of the Crimea and Indian Mutiny campaigns, followed by another motor car in which seats were provided for recruits who heard the call of the old men to them to do their duty. An escort of the Bantams joined in the parade of the British Campaigners, the members of which association had volunteered to engage in recruiting this afternoon for the battalion.

VERNON SUMMER CAMP

Troops Now Settled Down to Training; First Newspaper Issued. With the arrival of the Western Irish at Mission Hill camp, Vernon, there now are more than 5,000 soldiers camped there, and preparations are being made to accommodate the 25th, Kootenay, Battalion, now mobilized at Fernie and making good progress to full strength. Other regiments in the camp are the 158th, 172nd, and 131st. The Army Service Corps also is there. The camp is under the command of Col. Gregory, who has quickly got things into military shape and now is prepared to inaugurate the strenuous campaign of summer training of the troops under his command. The first camp paper of the year has made its appearance at Vernon. It is published by the Western Irish, Pte. A. J. Levy being the editor. The paper has received the praise of the community and contains all the military news of the camp and editorially asks for the cooperation of the camp and the townspeople during the stay of the soldiers there.

The play was falling flat, and the comedian was unwell. "Sorry, sir," he remarked to the much-worried manager, when his next "call" came, "but I can't go on for a few minutes. I am feeling kind of funny." "Funny! Great Scott, man!" exclaimed the manager. "Then go on at once, and make the most of it while it lasts!"

NOT YET ORDERED TO SIDNEY CAMP

Two Victoria Battalions Are Likely to Remain Here for Another Week

No orders to go to Sidney have yet been received by the 103rd and the 142nd Battalion, although the island military camp there will be ready on Monday, according to information received from the engineering staff. It is improbable that the two battalions stationed here will leave Victoria for at least one week. Should immediate orders be received for the 103rd to go to Sidney, it will take three days to move its equipment there. Lt.-Col. Henniker said this morning that his battalion could move overseas quicker than to Sidney, because the equipment and the stores at the Willows would be taken over by the ordnance department if the 103rd went overseas. Referring to the moving of the 142nd to Sidney, Lt.-Col. Powley said to-day that it would take one week for his battalion to get there from the time he received official orders. A detachment would have to leave in advance to complete the camp arrangements for the reception of the remainder of the battalion, and this work would occupy some days. Meantime, the 103rd is hoping to get orders to stand by for a move overseas at any moment. An unofficial information was received there yesterday afternoon that the stand-by order would soon be forthcoming, and there was much enthusiasm displayed by the rank and file at the announcement. Several appointments on the staff of officers of the 103rd will be announced by the commanding officer as soon as they are authorized from headquarters.

SALMONBELLIES HAVE FIRST GOOD WORKOUT

Veterans Turn Out in Force at Westminister Headed by "Dad" Turnbull

The first real practice of the veteran New Westminster lacrosse players was held in the Royal City a few nights ago, when eight of the athletes who will again don the familiar red and black of the Salmonbellies tested their skill with the stick. "Dad" Turnbull was at the head of the aggregation, instructing the players, but while the "peerless one" was able to tell his men what to do with the ball he was unable to aid them when their wind was cut short.

The Royal City veterans have lost mighty little of their ability at stick handling, and if they are able to improve their physical condition enough to stand the strain of the game on the holiday, sport followers who witness the struggle at Vancouver on July 1, will certainly be treated to some major league lacrosse.

Undoubtedly the feature of the workout was the display of C. D. "Biscuits" Peele. "Biscuits" managed to locate a stick that he used almost fifteen years ago, and even with Dad Turnbull piloting them the home players could not get the ball past the Peele party. He stopped everything in sight, and checked close, with the result that Boy Cheyne had an easy time between the flags.

Among those who turned out at the oval were Bob Cheyne, Tommy Gifford, C. D. Peele, A. Turnbull, H. P. Latham, W. Gifford, F. J. Lynch and Thac Oddy.

Barlow Galbraith, Charley Snell and Stanley Peele are expected to line up with the Dominion Day team. Galbraith will practice Monday night. Snell is at present living in Vancouver, while Peele is located in Victoria.

The official lineup of the Royals will not be known until after the practice Monday night, when it is expected that about fifteen players will put in an appearance.

"Dad" Turnbull states that he intends to give some of the real oldtimers a chance to play in the "viable weak spots on the Royals' lineup. "Alick" knows the public want to see the pioneers in action and it is more than likely that he will use them as "subs" on the holiday. Those in line for the positions are Jack Cambridge, Herb Ryal, L. A. Lewis, W. G. and C. J. McQuarrie.

Manager Matt Barr is whipping his men in pretty fair condition and the Salmonbellies will have nothing on the Vancouver men in this respect when they come together in the first game.

GRUMAN WANTS TO BOX WILLIE RITCHIE

Portland, June 24.—Ralph Gruman, Portland lightweight, has gone to San Francisco, where he hopes to be matched with Willie Ritchie for a bout on July 4. Later he will attempt to get a bout with Joe Rivers at Los Angeles. Gruman had planned to go to New York on telegraphic advice from his manager, Billy Roche, but at the last moment changed his plans because the prospects of getting matches in California looked more attractive.

CANT BLAME CRAVATH.

Cravath has been blamed for the lack of the "punch" in the Philly offense; but this is an injustice. The slugging outfielder failed just as often in the early stages of the 1915 season, but at that time Luderus and Hancock were clubbing at a terrific rate, and they picked up where Cravath left off. Cravath is hitting .300, and a large number of his safeties have produced runs.

"Human Toothpick" Writes From the Trenches to Friend in Bellingham

The many friends of Percy Cove, alias P. V. Chamberlain, alias "The Human Toothpick," will be pleased to learn that the report circulated all over the northwest about six months ago, stating that the elongated one had been permanently disabled while helping the empire on the Canadian front, is absolutely untrue, as a letter written by the ambitious boxer from his dugout somewhere in France will testify. The note was sent to Kirk Fletcher of Bellingham. The Reveille of that city publishes the following: "I don't know whether I will be able to box as well as I used to," the former local boxer writes, "but I ought to be able to duck, as I get lots of practice when the bullets come near my head. It's not much use trying to duck 'em, but you know I can't very well block them, although blocking used to be one of my strong points."

Cove said he does not know whether he will ever get back to Bellingham, but that if he does, a small thing like climbing Mount Baker will look easy to him. He says he is so used to carrying a pack about at the front that he could trot up the mountain with fifty or sixty pounds on his back. On St. Patrick's Day, Cove writes, the Germans shelled the Canadian positions ferociously, but their aim was bad. Cove joined the Canadian contingent at Vancouver several months ago.

NAPS DRAWING WELL.

The Philadelphia reporter travelling with the Athletics wired home to his paper last week from Cleveland: "As many fans go out to the games here every day as stay away from Shibe Park," the home of the Athletics. Cleveland is in for a rich harvest. Every Sunday the team is at home standing room is the best a late comer gets.

**TO COMMENCE WORK
ON OAK BAY AVE.**

**Aldermen Decide on Course;
Shelbourne Street En-
trance Into City**

Oak Bay avenue will be resurfaced with tar macadam, as called for in the original by-law, it was decided by the streets committee of the council yesterday.

Saanich council asked the city council to proceed with the improvement of Shelbourne street between Hillside avenue and the city limits, in view of the district municipality proceeding with its paving to Mt. Douglas park, on the new thoroughfare.

When the matter was before the aldermen previously, the committee had authorized an expenditure not exceeding \$1,900 for ordinary macadam surfacing.

The Saanich engineer now came forward with an offer to carry out the work within the city limits for the sum of \$2,800, for a similar surface to that laid on the West Saanich road. The engineer recommended that the offer should be accepted, and the difference should be provided for. The plan shows a paved road 18 feet wide.

After a long discussion, the aldermen decided to stand by the original motion adopted some time ago, to lay a macadam road within the limits at a cost of \$1,900, such work not to be done till the Saanich paving is laid.

Further reference was also made in the committee to a matter of some difference of opinion, namely the supplying material in the city limits having been the cause of the engineer opposing the idea, in favor of buying under contract in Vancouver.

The engineer considered the committee ought to take up the advisability of calling for tenders.

The aldermen approved this suggestion, the tenders to be limited to taking material from city streets.

The committee decided to purchase from the Worwick Company its bunker on Gladstone avenue. There is approximately 50,000 feet of first class lumber, which could be purchased. The engineer recommended its purchase on account of suitability for the repairs to Rock Bay bridge, and this course was unanimously adopted.

The committee approved of the type and style of arch for the concrete arch at Burnside road, for the C. N. P. R. The arch's strength must be approved by the department of railways for British Columbia.

SEWER INTERCHANGE

**Councilor Mesher, of Esquimalt, Meets
City Aldermen on Subject.**

At the meeting of the streets and sewers committee of council yesterday afternoon Councilor Mesher and Municipal Engineer Topp interviewed the committee with regard to reciprocal use of sewers.

It appeared from the city engineer that the city has a sewer on Dominion road, between Pine street and Powderly avenue, and on Arm street, between Craigflower road and Selkirk avenue, and the Esquimalt municipality has a sewer on Dominion road, between Powderly avenue and Craigflower road. These sewers have been used for the drainage of property, both within the municipality of Esquimalt and in the city of Victoria. The Esquimalt authorities are desirous of having an arrangement made by which the joint use of these sewers can be arranged so as to enable their municipality to assess the property within their municipality and fronting upon these sewers. The engineer had no objection to this arrangement being carried out.

Councilor Mesher explained the proposal with the aid of a map, and the matter was laid over for the attention of the engineers.

CREOSOTING PLANT

**Proposal to Repair and Utilize Plant
is Made to Aldermen.**

Aldermen Porter, Dilworth and Johns were appointed at the meeting of council yesterday afternoon to take up a proposition with Grant, Smith & Co. and McDonnell Ltd., for repairing the creosoting plant, now dormant, for use by the company in its breakwater piers contract, on the understanding that the city shall have the opportunity of taking any blocks for treatment there at a nominal figure.

Mr. Jameson explained the situation on behalf of the company, and said he thought the company would put the plant in repair in return for the privilege of using it. The company desired to employ as much local labor as possible.

Alderman Cameron welcomed the idea of using as much local labor as the company is able to employ.

**—small—light—economical
—your ideal car**

Each season for a number of years the Overland organization has accomplished what no other automobile manufacturer has even attempted.

Each season it has built a car that would satisfy the demands of the most fastidious—one having all the up-to-date advantages, comforts and conveniences known to the automobile industry—to sell at a price so low as to defy comparison.

Overland organization, Overland experience and Overland factory facilities have accomplished what others have considered impossible.

This year Overland dominance is even more positive.

We have developed and built the ideal small, light, economical car—complete in every detail of construction and equipment—smart in appearance, of highest quality and finest finish—to sell for \$850.

Only the economies possible with a production of 1,000 cars a day make possible such a complete car at such a price.

This Overland was built to reach a new low level of operating and upkeep expense. It was designed to meet the demands of those who could not afford a big, expensive automobile, yet would not be content to own a little, unsightly, uncomfortable car.

But its success has been such that everyone—people of wealth and automobile experience, as well as those of modest means find in this economical \$850 Overland their ideal light car.

It has beauty, finish, comforts and conveniences that everyone wants.

A look at the car will tell you that.

But you must ride in it to appreciate fully and completely its ample power, its smooth operation, its comfort, simplicity of control and remarkable easy riding qualities.

Yet it is not only inexpensive to buy but very economical to operate.

You can own this Overland.

See the Overland dealer and let him give you a demonstration.

But do it now.

In spite of our output of 1,000 a day we are pressed to the utmost to meet the demands. For no other car at anywhere near the price compares with this small, light, economical Overland in beauty, finish, comfort and performance.

Do not delay action until it means a long wait for delivery.

Act today.

CANADA MARU MAKING HEAD AFTER SUNDOWN

Wireless Reports Indicate That Japanese Liner Will Make Station Forty Minutes Late

Wireless reports received by R. P. Rithet & Co. from the inbound Osaka Shosen Kaisha liner Canada Maru, indicate that the Japanese liner will be unable to make William Head to-night in time to secure pratique before official sundown, set for 8.20 p.m. The message states that the Canada Maru expects to make the quarantine station at 9 p.m. Unless the liner is able to develop an unusual burst of speed on the final run up the straits, she will be forced to swing at anchor over night. Shipping men who know the speed of the Canada Maru contend that she will be unable to make it. The local agents look for the arrival of the liner at the outer docks about 6.30 o'clock in the morning. The Canada Maru has several hundred tons of Oriental cargo for this port and a number of passengers will disembark.

Among the vessels arriving here during the coming week are two of the largest liners plying to this port. The Niagara, 13,500 tons, of the Canadian-Australian line, and the Empress of Asia, 16,850 tons, of the Canadian Pacific Ocean Services fleet.

The Niagara left Honolulu yesterday on the last lap of her trip from Sydney and Auckland, and is scheduled to reach Victoria on Thursday. Among her saloon passengers is the noted British novelist, Sir Rider Haggard, and also Sir James Mills, of the Union Steamship Company, of New Zealand.

The Empress of Asia is due here next Saturday with a heavy saloon list and capacity cargo from Hongkong and Yokohama.

Another trans-Pacific vessel coming in is the Nippon Yusen Kaisha liner Inaba Maru, due here on Wednesday in the Japanese company's Kobe service. This is the Inaba's first trans-Pacific trip in over three years. She is under the command of Captain Higo, formerly master of the liner Kamakura Maru.

The outbound steamers during the coming week are the Kamakura Maru and the Empress of Japan. The N. Y. K. ship is scheduled to sail on Tuesday. The C. P. R. liner on Thursday. Both steamers are bound for Yokohama and Hongkong.

LEAVING TO SALVE BEAR

STEAMER SALVOR

In command of Capt. M. F. Cutler, the B. C. Salvage Company's steamer is due to leave the outer docks this afternoon for Cape Mendocino to attempt the salvage of the steamer Bear, wrecked recently while on passage from Portland to San Francisco. Capt. F. C. Stratford, master of the Salvor, is remaining behind to take charge of the Sesostris salvage expedition.

REPORTS INDICATE BIG WHALING SEASON

Kyuquot Has Edge on Other Stations to Date; Over 100 Mammals Harpooned

That the present whaling season will prove a record one is indicated by the reports reaching the Victoria Whaling Company from its various stations on the west coast of Vancouver Island and the Queen Charlottes. According to a statement made to-day by Manager S. C. Ruck, all stations are doing remarkably well, the catches to date comparing with the big season of 1914. Over a hundred whales have been harpooned since the season was inaugurated about two months ago, with the Kyuquot station slightly in the lead in the number of catches. Fifty whales had been bagged at the Kyuquot ten days ago, when the last reports were received from the west coast station, and officials of the company have no doubt that this number has been considerably augmented in the meantime. A more recent report from Naden Harbor shows that fifty mammals have been caught and towed to the northern Queen Charlotte station. Rose Harbor, at the southern end of the Charlottes, which station has only been in active use a short time, reports taking 15 whales within a week.

The catches mark a good average in sulphurs, flukes and humpbacks, and several sperm whales also been taken. The steam whalers are distributed as follows: Kyuquot, St. Lawrence, Black and Green; Rose Harbor, William Grant, Brown and Orion; Naden Harbor, White and Blue.

The whaling tender Gray, Capt. Hawes, arrived in port this morning from the whaling stations and will leave here on Monday with a cargo of fertilizer for San Pedro, Cal.

STEAMER BEAR MAY BECOME TOTAL LOSS

Heavy Seas of Past Week Have Landed Wrecked Ship High on Beach

San Francisco, June 24.—Latest reports indicate that the stranded San Francisco and Portland Steamship Company's steamer Bear is a total loss. The heavy seas of Thursday night and the day before landed her high up on the beach. She is filled with water and badly strained.

With seventy cabin passengers booked for Japan and 150 ready to sail in her steerage, the T. K. K. steamer Nippon Maru is being held in port pending the result of the stevedores' strike. Only 600 tons of the 6,500 ton cargo she was to take to the Orient has been loaded.

The French barque La Roche Jaqueleine, disturbed by reports to the effect that dynamite had been placed in her hold in an effort of the Germans to blow her up, put to sea yesterday on her way to Havre with a grain cargo.

EMBARGO ON COAL TO EXPEDITE WHEAT

Permits to Load Fuel at Newcastle, N. S. W., Refused to All Tight Vessels

The embargo on the export of coal from Australia, established some time ago by the Commonwealth government, has, it now appears, a certain bearing on American shipping in the Pacific. The reason for the coal embargo, it may reasonably be assumed, is to facilitate the export of wheat, there being at present something like 135,000,000 bushels in the hands of the Australians wheat board, which has been held up on account of shortage of tonnage.

The interpretation of the coal embargo, according to information received here, is that a permit for the export of coal will not be given to any vessel that can carry wheat. Recently the Ayrion secured a permit to load coal at the same time that the Star of Holland was definitely refused. Those vessels are American sailers, capable of carrying about 3,500 tons dead weight of coal. They reached Australia from the Pacific coast of the United States with cargoes of lumber; they desired to proceed with coal for Chile, and there load nitrate for San Francisco. It was impossible for the wheat board to secure insurance on the Ayrion because it was not tight. The Star of Holland, however, being suitable for carrying wheat, had to proceed to Chile in ballast.

For the first time in twenty years it is possible to refer to "American shipping" in Australian water. Old sailing vessels, many of small size, have emerged from creeks on the Pacific coast and are running to Australia with cargoes of timber. Recently there were five such sailers in the port of Melbourne, and twelve more are on the way. As a rule, they return to the United States empty, endeavoring to lose no time in picking up another timber cargo at high freight rates.

The ship Star of Holland is one of the fleet of Alaska Packers' Association, which concern operates a large number of sailing vessels in the canneries plying between domestic and foreign ports. Despite this more than 50 per cent. of Japan's foreign trade is carried in foreign bottoms. These facts were brought out in an address before the Engineers' Club of Seattle by M. Matsumoto, cashier of the Oriental State Bank of Seattle in a discussion of "Oriental Trade."

AWARDED D.S.O. FOR SERVICES IN AFRICA

Com. G. Spicer-Simson, R. N., Rewarded for Part in Lake Tanganyika Expedition

Commander Geoffrey Spicer-Simson, R. N., son-in-law of E. Baynes-Reed, of this city, has been awarded the D. S. O. in recognition of his services in the transport of a naval detachment some 3,000 miles to Lake Tanganyika, German East Africa, the expedition resulting in the destruction of three German gunboats and the control of the lake by the British.

Commander Spicer-Simson is well known in Victoria, being stationed here some years ago at Esquimalt in H. M. S. Egeria.

On June 12 of last year Commander Spicer-Simson sailed from Tilbury docks in charge of 27 officers and men on the expedition to German East Africa. Two armed motor boats, the Tou-Tou and the Mimi, were shipped from Cape Town to Fungurume, Congo territory, a distance of 2,488 miles, where the real work of the naval expedition began. For the next 146 miles the expedition proceeded by a road constructed by the party. One dried up river gorge, 40 yards across, took 500 tons of tree wood to fill in the breach, and all existing tracks had to be reinforced to support the weight of the traction engines used for the hauling of the gunboats.

None of the party suffered seriously in health, although the region is infested by sleeping sickness. After long delays the perilous journey to Luabala river was completed and then started a 350-mile voyage up stream to Kabelle.

Another railway journey of 173 miles brought the expedition to within a few miles of Lake Tanganyika. Even then a harbor had to be built to afford protection for the gunboats against storm. On December 25 the Mimi and Tou-Tou began operations and succeeded in capturing the German gunboat Mangan after a ten minutes' action. The expedition made short work of two other enemy gunboats, capturing the Kingani and sinking the Von Wissman.

LOST OVERBOARD.

Owner of Fishing Boat Nebraska Missing When Apprentice Woke Up.

Port Angeles, June 24.—Robert Burt, owner of the gasoline fishing boat Nebraska, bound for Port Stanley, Lopez Island, to Seattle, with a load of salmon, was lost overboard last night, according to the report of Apprentice Norman Mitchell, who brought the boat here to-day and informed coast-guard officials of the drowning of Burt.

Mitchell said that he went to his bunk at 2 a. m., leaving Burt in charge on deck. On arising at daybreak Mitchell found the engine stopped, the boat tangled in a kelp bed off Port Creacant, and no sign of Burt.

Burt was married and had a family. He was a partner of L. W. Choyo in a fish market in Seattle.

NIPPON SHIPPING EXPANSION.

Seattle, June 24.—Japan has thirty merchant steamships under construction for her principal lines, the tonnage of the new vessels ranging from 2,500 to 7,500 tons. She has 3,000 steamships plying between domestic and foreign ports. Despite this more than 50 per cent. of Japan's foreign trade is carried in foreign bottoms. These facts were brought out in an address before the Engineers' Club of Seattle by M. Matsumoto, cashier of the Oriental State Bank of Seattle in a discussion of "Oriental Trade."

ALICE SAILS NORTH.

The C. P. R. steamer Princess Alice, Capt. Locke, left port last night on her second tourist cruise to Alaska, and is posted to sail from Vancouver at 9 p. m. to-day. She has her entire accommodation booked for the trip. Among the passengers embarking here were Mr. and Mrs. J. M. Savage, Mr. and Mrs. B. S. Heisterman, Mrs. Taylor and two children, Miss N. Macdonald, Mr. E. Doety and Mrs. T. R. Almond.

BURNING OIL FUEL

Set the burners open wide, Do not touch the valves at side, Keep the pressure on the pump And up the ballly steam will jump. If the smoke is black and thick, Open up the fans a bit. If the smoke is thick and white, To slow the fans will be quite right, For when sufficient air is given No smoke ascendeth up to Heaven. If the jets refuse to squirt, Assume the cause is due to dirt, Should the flame be short and white You have combustion clear and bright, But should the flame be yellow and long Combustion is entirely wrong. A wise man to his hearers sees And keeps it 300 degrees, To have it more is not quite wise Because the oil may carbonise, A little lower has been found To give as good results all round. If the filters are kept clean No rise of pressure will be seen, But should the pump kick up a ruction There's likely air within the suction, The pressure governs the supply, So do not keep it very high. If these instructions you will follow, You'll beat the other fellow hollow, BRITISH DESTROYER SERVICE.

IN THE LODGE ROOM

SONS OF ENGLAND
 Lodge Alexandra meets the first and third Thursdays.

Lodge Pride of the Island, second and fourth Tuesdays.

Juvenile Lodge Young England, first and third Thursdays.

The Sons offer sincere sympathies to the families of the late Bro. Harold Russell and Bro. Elmer Thomas, both of whom passed away this week. They were members of Alexandra Lodge.

Lodge Pride of the Island meets on Tuesday evening next.

The basket picnic will be held on Dominion Day on the beach at the foot of Fraser street, Esquimalt.

Special care will be given to the old Victoria theatre at 10 o'clock. A programme of sports will be held during the day and prizes given to the winners of the various events. All Sons, Daughters and Juveniles are invited.

Lodge Alexandra are holding a special W. R. D. meeting next Thursday at 8 o'clock in the A. O. F. hall.

of the cushion donated by Mrs. A. H. Nunn \$25.50 had been paid direct to Mrs. Hardman, and that the \$113.65 raised by the concert and dance in the Alexandra hall had been paid into the bank along with the general fund received at the Times and Colonist offices. General satisfaction was expressed by the members for the manner in which the public had responded to the call for assistance and their generosity will not soon be forgotten by Court Victoria.

Court Camosun No. 9233.

Court Camosun, No. 9233, A. O. F., held its regular quarterly meeting on Tuesday evening, and at which the following officers were elected for the ensuing term: C. R. Jus. Tagg; S. C. R. F. Smith; treasurer, A. R. Colby; secretary, T. W. C. Hawkins; S. W. J. Oldall; J. W. W. Daniels; S. D. F. Pomeroy; J. H. S. V. Jenkins; medical officer, Dr. A. D. Bechtel; organist, J. Smith. The district officers of Vancouver Island were present, it being their first official visit.

Business being concluded, the rest of the evening was devoted to a social time. A very pleasing programme had been arranged, those taking part were: A. Crook, a very pleasing bass singer; J. Walker, a noted reciter of Scotch comedy; Mrs. Roberts's orchestra, which gave some splendid musical selections; J. Smith, court organist; and Master J. Todd. Altogether a very pleasing evening was spent.

I. O. O. F.
 Meetings Next Week.

Monday—Colfax Sewing Circle, 8 p. m. Victoria Lodge No. 1, 8 p. m.

Tuesday—Colfax Rebekah Lodge No. 1.

Wednesday—Columbia Lodge No. 2.

Thursday—Dominion Lodge No. 4. Colfax Sewing Circle.

The regular weekly meeting of the circle will be held next Monday afternoon at 2 o'clock.

Victoria Lodge No. 1.
 The regular meeting of this lodge will be held next Monday evening. The election of trustees and delegates to the board of union will take place at this session.

Colfax Rebekah Lodge No. 1.
 The regular semi-monthly session of this lodge will be held next Tuesday evening, when the report of the representatives to the Rebekah assembly will be read. At the conclusion of the session a social hour or two will be spent with cards and guessing contests. Sisters are requested to bring refreshments. As this will be the last session of the present term it is probable that a large number will be present. Colfax lodge has had a very successful term, which is no doubt due to the efficient staff of officers and the enthusiasm displayed by the membership as a whole.

Vancouver Encampment No. 1.
 The regular meeting of this lodge was held last Tuesday evening. Those present had the pleasure of hearing a few remarks from Pat. A. Henderson, P.G.P., regarding matters dealt with at the grand encampment session in Vancouver last week. Pat. J. Bell, P.G.P., and Pat. W. Baylis, P.C.P., also favored those present with short talks on grand encampment matters. In view of the fact that Pat. F. B. Shaver, chief patriarch-elect, has joined the colors and left the city, Pat. F. F. Forner, C.P., was elected for a second term last Tuesday evening.

Columbia Lodge No. 2.
 The regular meeting of this lodge was held last Wednesday evening and those present had the pleasure of hearing a very comprehensive report from the representatives to the recent sessions of the grand lodge. The report dealt fully with the various matters which engaged the attention of the representatives, and was interesting from start to finish. Bro. J. Wilby, P.G., and Bro. R. M. Sanburn, P.G., are to be congratulated upon submitting a report of such merit. The election of three trustees and five delegates to the board of union will take place next Wednesday evening.

Dominion Lodge No. 4.
 A very full report regarding matters dealt with at the recent sessions of the grand lodge was submitted by the representatives to this lodge last Thursday evening, and many of those present voiced their appreciation of the splendid report submitted. The election of trustees and delegates to the board of union will take place in this lodge next Thursday evening.

Bro. W. H. Huxtable III.
 Members of the order generally will regret to learn that Bro. W. H. Huxtable, P.G., has been ill during the past week. Bro. Huxtable has been sadly missed by the members of the various lodges during the week, as he has acted in the capacity of outside guardian for all the lodges for a number of years. Bro. Huxtable is now reported as progressing favorably and will soon be around again.

Bro. P. A. Maclean, D.D.G.M.
 The members of the various local lodges will be pleased to learn that Bro. P. A. Maclean, P.G., has been appointed district deputy grand master for this district. Bro. Maclean is a most energetic member of Victoria lodge and has been for a number of years, and has given much of his time and labor on the general relief committee. The members extend sincere congratulations to Bro. Maclean, and are convinced he will fill the office with credit to himself and honor to the order.

Sister F. A. Moore, D.D.P.
 Members of Colfax Rebekah Lodge No. 1 are extending congratulations to Sister F. A. Moore, P.G., who has been appointed district deputy president for this district. The honor is conferred upon Sister Moore for the valuable services rendered during the past years, which have been much appreciated by the members of Colfax lodge.

Express Their Sympathy.
 The members of Colfax Rebekah Lodge extend their deep sympathy to Sister H. McCahill, whose sister, Mrs. W. B. Pottinger, died last Saturday. The late Mrs. Pottinger, though not a

HEALTHIEST ONE IN THE FAMILY

No Sign of Dropsy and Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN

Fort Robinson, Ont., July 8, 1915.—"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with kidney disease. The doctor said she was threatened with dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives.' She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

member of Colfax lodge, took a great interest in the work, and she was known by a large number of the members.

Bro. P. G. Cudlip, D.D.G.P.
 The members of the order are pleased to learn that Bro. P. G. Cudlip has been appointed district deputy grand patriarch for this district. The district deputy will install the officers of the encampment on Tuesday, July 4.

Maud—"So you wrote an anonymous letter to Jack's wife, telling her about his going on?" Kate—"An anonymous letter! Certainly not! I wouldn't be the guilty of such a mean thing! I signed a made-up name to it, of course."

LESSONS FOR THE KAISER

(Henry Watterson in the Louisville Courier-Journal.) On the morning of Feb. 3, 1865, upon a steamer lying at anchor in Hampton Roads off Fortress Monroe, Abraham Lincoln, attended by William H. Seward, met three Confederate commissioners, Alexander H. Stephens, Robert M. T. Hunter and John A. Campbell, appointed by Jefferson Davis "for the purpose," as Mr. Davis wrote, "of securing peace to the two countries." But, as Mr. Lincoln had written, "with the view of securing peace to the people of our one common country." There had been many epistolary and verbal exchanges between the two capitals, Washington and Richmond, before this fateful conference had come to pass. The parties to it were personally well known to one another. Mr. Lincoln and Mr. Stephens were, indeed, old friends. The proceedings were informal and without ceremony. At the outset it was agreed that no written memorandum should be made of what might be said or done. It is known, however, that at a certain point the president of the United States and the vice-president of the Southern Confederacy, sitting a little apart from the rest, Mr. Lincoln took up a sheet of paper and said, by way of completing the unreserved conversation that had passed between them, "Let me write 'Union' at the top of this page and you may write 'He had already committed himself, in the event that the Southern armies laid down their arms and the Southern States returned to the Union, to the payment of \$400,000,000 for the slaves. That such an opportunity for the South, then on the verge of collapse, to end the war should have been refused will never be forgotten by a mystery bordering on the supernatural. Two months later Lee surrendered. Instead of achieving an honorable peace on favorable terms, the Confederacy went down in total shipwreck—vanquished—the waves of passion and plunder for ten succeeding years sweeping over the stricken survivors as they floundered in the sea of reconstruction, the Christ-man who had thrown out a life line gone, no one left having the will and the power to stay the fury of the elements. 'Was it the hand of God?' Could it have been that God deemed the South not sufficiently punished? Who shall tell us? Two years before the end of the Napoleonic drama Metternich, speaking for the allied sovereigns, offered the Corsican adventurer peace with the recognition and confirmation of his dynasty and a larger France than he had found when he overthrew the Directory, created the empire and ascended the throne, and Napoleon rejected it with scorn. He preferred and took the road to ruin. He was war mad. He could not see Elba and St. Helena looming through the powder clouds of triumphant battle. So he rushed upon Waterloo. What fate was it that brought the rains the night before the battle, delaying the attack and thus converting a probable victory into a disastrous defeat. 'Was it the hand of God?' Had God decided against world conquest and decreed that Bonaparte should sleep in the grave with Tamerlane the Great? Who shall tell us? There is reason to believe that Germany is approaching, if it has not reached, the point which the South faced when Sherman marched across Georgia to the sea and Grant moved through the Wilderness upon Richmond. It is only a question of time when the Kaiser's wondrous fighting machine set for world conquest, will come to its Appomattox. As God smote slavery in America and struck down the war lord of France, will he find a way to circumvent the powers of darkness in Germany. Be the time limit long or short, the end is sure. The medieval spirit must die. The right divine of ideas is already as dead as the right of property in man. THE FOR SALE - AUTOMOBILES. FOR SALE - Five-passenger Ford, in good condition, \$130 cash. UNUSUALLY DASH ON BABY'S FACE Healed by Cuticura Trial Free

"When my baby was only three days old, an unusuall rash appeared on his face and back of his head. It would discharge a watery fluid which irritated him, and he couldn't keep from scratching. His face was disfigured and he couldn't sleep. "It was pronounced eczema." It took one cake of Cuticura Soap and two boxes of Ointment to heal him." (Signed) Mrs. F. J. Crawford, 92 Finkle St., Woodstock, Ontario, October 11, 1915. Sample Each Free by Mail With 32-p. Skin Book. Address postcard: "Cuticura, Dept. T, Boston, U.S.A." Sold throughout the world.

Prussian militarism must be crushed and will be crushed as the Southern Confederacy was crushed, as the vaunting ambition of Napoleon was crushed, as the century that is sinking back into the feudal ages that were, government but an armed camp, the earth a universal battlefield. But what may Germany do to be saved? Except the Kaiser, there is no one to speak for her. Will the Kaiser speak—can he speak? Or must the end come to Germany as it came to Napoleon, to the South, in bloody, all-embracing conflagration? Let us give even the devil his due. There are those who believe that the Kaiser did not want to go to war. Their theory is that the sword was thrust into his unwilling grasp by the war party—that is, the Prussian general staff—using the hellicose Crown Prince as a monkey-wrench to open his hand. Certain it is that, August 1, 1915, the first anniversary of the war, the Kaiser issued from army headquarters a manifesto in which he said: "Before God and history my conscience is clear. I did not will this war. One year has elapsed since I was obliged to call the German people to arms. It will be recalled that Mr. Jefferson Davis was wont to dwell upon the reluctance with which he quitted the Union and joined in establishing the Confederacy. Yet, at the supreme moment, he could not see his way to an advantageous peace by honorable agreement. He let the golden moment pass and went, taking with him the cause he had maintained during four years so valiantly to precipitate and complete extinction. The hour is striking for the Kaiser. Will he let the golden moment pass him by, and, thus diminished, go down to ruin, overwhelmed and final? Germany has but one friend in the world, and the German leaders both in Germany and America have done their utmost to alienate this friend. Except for the pro-German propaganda, making quasi war upon our industries, while threatening civil war if we went to war with the Kaiser, public opinion in the United States would have been divided. At no time have the American people been hostile to the German people. At all times have we recognized their virtues as citizens and neighbors. We have resented with proper emphasis and spirit an organized intrusion, financed and directed from Berlin, which has subsidized American newspapers printed in the German language, and let loose among us a horde of secret service agents who defy our laws, disturb the public order and flout our dignity as a nation and a people. Concurrent with these offences a campaign of frightfulness has been pursued at sea in contravention alike of humanity and treaty obligations, a campaign of indiscriminate, unrelenting and barbarous, beneath whose cruel away our citizens, helpless and unarmed, have been slaughtered. We have protested in vain. Now we demand—nay, we command, and we be the consequence to that Germany—to those Germans—that heed not; that hesitate to heed; that fear, as the foolish Mexican fancy, that the Gringos will not fight. Yet the solutions were so easy if the Kaiser—even the Kaiser—could only see the opportunity. It is such an opportunity as Napoleon was offered by Metternich, as Jefferson Davis was offered by Abraham Lincoln. America is not the friend of England. The true American hates no land and no people, loving none except their own. The Kaiser might make the interview with Gerard the avant courier of a rapprochement of Dresden, a Hampton Roads conference, which would not be empty of results. He could ask the intervention of the United States and make proposals so reasonable that the United States could compel a parley and in the end bring the war to a close without the annihilation of the German fabric. Belgium must be put where Belgium was. Alsace-Lorraine must be returned to France. Short of these acts of reparation there can be no lasting peace and should be no peace at all. Further details as to Poland and Serbia may be left to a congress of the powers. Finally, universal disarmament, the four kingdoms composing the German Empire to determine their future as they please; no further war indemnity for Germany to pay; the United States, Germany to pay; stand by the German people and German industries; to see them through their sore travail; to help them upon their feet; to furnish them the credit and the money, their true friend, a friend in need and a friend indeed. The alternative to this is massacre and ruin; more massacre and more ruin; and last scene of all, annihilation, the earth consumed as they met for Napoleon after Waterloo, for the Confederacy after Appomattox.

PREPARATION FOR SPECIAL SERVICES

Many Salvation Army Officers Will Be Here for Anniversary Next Week

Next week will mark the twenty-ninth anniversary of the arrival of Salvation Army officers here, and special services are being arranged. The army has tried to keep pace with the city and has also tried to justify its need for existence here by assisting those in need, lifting up those who have fallen and preaching the Gospel of the grace of God to all.

Of the officers recently stationed here, no doubt Staff Captain E. Hayes is the best known. After working here for three years, she left to take charge of the Temple Corps at Toronto. During those three years the local corps more than doubled in size. This devoted officer lost her life on the Empress of Ireland disaster in the St. Lawrence river.

The present officers, Ensign and Mrs. Merritt, have been stationed here three years and have done much in that time in bringing before the people the wonderful character of the army work. In the early months of the war the army stepped forward to help those in distress in the city and many homes were provided with food and fuel.

In connection with the anniversary special meetings are announced to take place in the citadel on July 2 and 3, and the gatherings will be of an exceptionally interesting and helpful character.

Brigadier and Mrs. McLean, the officers in charge of the army work in British Columbia and the Yukon, will be leading the meetings. They will be assisted in all the services, except the Sunday night meeting, by Colonel and Mrs. Scott, of Seattle, Wash. On Sunday night the colonel will preach in the First Presbyterian church in this city.

Among the officers who will be present will be Staff Captain Smith, the chancellor, Vancouver; Adjutant A. Bristol, of the transportation department; Adjutant Bond, in charge of the S. A. rescue home in Vancouver, with her assistant, Ensign MacCauley; Adjutant Hector Habkirk, the officer in command of all the men's social work in this province, with his brother adjutant, John Habkirk, who is a well-known musician, from Regina headquarters staff; Mrs. Adjutant James, from the citadel corps, Vancouver; Captain and Mrs. Carruthers, from the No. 2 corps, and a number of officers from other corps.

Officers will also be present from Kamloops, New Westminster, Coombs, and other points.

Many of the officers will assist in the divisional string band, which is led by Adjutant Hector Habkirk.

A full programme of meetings, both public and private for officers, is being arranged.

FOR SOLDIERS' FUND

Clavier Recital Being Given at Empress Ballroom Next Thursday Evening.

A demonstration of the clavier is always interesting. That by the pupils of Miss Heming to be given at the Empress ballroom next Thursday evening will have additional interest owing to the fact that the proceeds are to go to the Returned Soldiers' Association fund, a thing which the people are only too ready to assist. It is expected, therefore, that a big audience of students and of the public generally will be present.

The programme, which is to commence at 8.15, will be in two parts, the first by Miss Heming's pupils, to consist of a piano recital with demonstration of the Virgil clavier; the second to be in the nature of a recital by some of the better known artists of the city, Miss Eva Hart, Mrs. Helen Gillespie, Mrs. Andros Taylor, and Miss Heming. The following is the programme in full:

Part I. First Lesson in the Virgil Clavier Method—Hunting Song.....Gurliitt Miss Lillian Norris. Trill Exercise—Will o' the Wisp.....Gurliitt Miss Priscilla McBride. C. university, having just completed his second year in science at the latter institution.

INSPECTED SCHOOL

Trustee Mrs. Jenkins Visits Oaklands School, Gardens and Needlework Classes.

The children at Oaklands school had reason to feel proud of the needlework and gardening which they have done during the past term when Mrs. Jenkins, who afterwards gave teachers and pupils alike highest praise, visited the school yesterday afternoon and inspected the work. Her first visit was to the room where the needlework done by the girls under Miss Boorman's direction was on display. The work has been done during the past few months for the Red Cross, and at the close of the term will be sent to the headquarters and thence to the soldiers' hospitals. Afterwards Mrs. Jenkins went out to see the school gardens where boys and girls alike have done some practical work under direction of Mr. Coates, one of the teachers of the school. Admiration of the plants led to several of the children pressing gifts of flowers and vegetables on Mrs. Jenkins, who was greatly interested in watching the bedding-out and transplanting on which the pupils were engaged while she was there. Afterwards the trustee was the guest of the teachers at tea.

Parents of children in the district have taken a very real interest in the school garden movement particularly, and very often have supplied plants and seeds to encourage the idea. The principal of the school also has a very efficient and interested staff.

AMERICAN LEAGUE RACE TIGHTENING

Detroit Climbing Ladder; Red Sox Pitchers Are Going Strong

The race for the pennant in the American League is tightening up and the favorites, who have been down in the second division most of this season, are forging to the front. Detroit has been going strong the last two weeks, with the result that they are now trailing Cleveland, which club has been faltering just a little. New York and Boston have both picked up a few points and are within easy striking distance of the leaders, there being only three games difference between the league-leading Indians and the Red Sox in fifth place. The White Sox have been going a little better this last week and are hovering at .500, but the St. Louis Browns seem to be hopelessly stuck in the seventh hole. The reigning over Connie Mack's team seems to have been a little premature, as the "Tall Tactician" is just taking about one game out of four.

The feature of the week in major league circles has been the grand showing of the Red Sox pitchers. On Wednesday Foster let the New York Highlanders down without a hit or a run, and Ruth came back the next day and shut out the same team, allowing but three hits, while yesterday Shore held the Athletics to two hits. Connie Mack's men not being able to put a run across the pan, that means that in three games the Red Sox hurlers have held their opponents to five hits and no runs, which is some-twirling.

BULGARIAN TROOPS SHOW SOME ACTIVITY

London, June 24.—The Daily Chronicle prints the following from its correspondent at Salonica: "It is stated here on good authority that Bulgarian forces are marching toward the important fort of Peapetra. From the same source it is learned that Bulgarians have crossed the river Mesta, which for some length inland from its mouth forms the frontier between Greek Macedonia and Bulgaria. The news with regard to Peapetra is that patrol combats are reported from the Kuba and Osen regions, where some movements of Bulgarian forces also are reported.

40 AMERICANS ARE UNACCOUNTED FOR

Washington, June 24.—Major-General Funston reported to the war department late to-day that 41 survivors of the Carrizal fight had reported to Brig-General Pershing's line, 16 were reported to have been picked up by the cavalry relief column and 17 to have been captured by the Mexicans, leaving unaccounted for 49 of the 84 officers and men who were under Capt. Boyd.

GERMAN FOOD COST 85 PER CENT. HIGHER

Increase in Britain, Due to War, Only 49 Per Cent and in Italy, 29

ADMITS GERMANY'S UNITY IS BROKEN

In Inspired Article Conservative Member of Reichstag Foretells Crisis

Rome, June 24.—Prof. Einaudi, one of Italy's most prominent economists, explains in the Corriere della Sera of Milan the failure of the German government's organization intended to avert the shortage of food, as illustrated in what he calls the "tragicomic story of potatoes."

"If preparation in peace time and organization in war time had been so economically efficacious in Germany," Prof. Einaudi says, "then that country would have become a food market sufficient unto itself and foodstuffs should have been cheaper there than elsewhere. Instead, according to official statistics published by the Statistische Korrespondenz, the average increase in prices between July, 1914, and February, 1916, exceeded 85 per cent. Thus the price of rye bread increased 42 per cent., that of corn bread 44, rye flour 46, butter 106, lard 234, and milk 36. The consumption of the above articles has been limited to quantities fixed by the authorities. Beans and lentils have increased 187 and 132 per cent, respectively, and are no longer procurable. Sugar increased 28 per cent, coffee 43, eggs 185, beef 117, mutton 106 and pork 73.

"Prices in the British Isles, according to the Labor Gazette, have increased on the whole by 49 per cent. The highest increase in prices are those of wheat, which has risen 127 per cent, and sugar 123. The rise in prices in the United Kingdom, however, is easily supported, owing to the low price prevailing in ordinary times.

"As regards Italy, prices have risen on the whole by about 27.8 per cent, despite unfavorable exchange, high freights, high price of coal and other drawbacks. Bread has increased only 23 per cent, flour 54, milk 13, beef 50, lard 15, and oil 20.

"Thus, in conclusion, the average increase of prices in the three countries is as follows: 85 per cent, in Germany, 49 in the British Isles and 27.8 in Italy. The German genius for organization has not led to brilliant results after all.

German Failure. Where German organization has completely failed is in the case of potatoes, despite the fact that the Germans are still bragging that the price of potatoes has not increased since the war started. And yet it is sufficient to relate the story of German potatoes briefly and chronologically as follows:

"November, 1914—Complaints about the scarcity and high prices of potatoes compel the government to fix the maximum prices in all the empire for growers.

"Winter, 1914-15—Potatoes disappear from the markets. The Socialists blame speculators, the agrarians blame unfavorable weather and transport difficulties; the people suspect the potatoes are being devoured by pigs.

"January-February, 1915—The slaughter of pigs is ordered and as a result the prices of pork rise by 70 per cent. Yet potatoes are still scarce in the western industrial cities and Berlin. Potatoes are sold by the municipalities in small quantities. Prof. Ballou announces that the potato crop was only 43,000,000 tons, instead of 52,000,000, as in former years.

"March-April, 1915—The government decrees that potatoes should be censured and enforced distribution.

"May-June, 1915—Sensational developments. The agrarians, realizing that the price of potatoes will not increase and fearing that the stocks they hoarded will deteriorate, dump them on the market. The newspapers urge the consumption of potatoes, especially as prices are low and it is announced that the crop yielded 55,000,000 tons.

"July, 1915—The inhabitants of Berlin, whose houses are close to the railroad stations complain to the hygiene office about the pestilential odor from stacks of potatoes allowed to rot in the station yards.

Sold at Loss. "August, 1915—Accounts of the government's administration of potatoes are published and reveal that the government purchased 24,000,000 hundredweights of potatoes, sold only about 4,000,000 to the municipalities and was forced to get rid of the remaining 20,000,000 by selling them at a loss to distributors.

"September, 1915—Potatoes again scarce. At Marburg farmers refuse to sell, deciding to wait for spring.

"October, 1915—Farmers who have more than ten acres of land under potato cultivation are ordered to keep 20 per cent. of their crops at the disposal of the government.

"Winter, 1915-16, and spring, 1917—Impossibility to get potatoes at the prices fixed by the government and impossibility on the part of the government to compel the farmers to sell the potatoes they are hoarding."

Prof. Einaudi concludes his tragicomic story of German potatoes by merely pointing out that even the most wise and all powerful German bureaucracy failed to change the habits of man and to avert the inevitable mistakes that every bureaucracy in the past has been in the habit of committing.

TURKISH STATEMENT.

Constantinople, June 24.—Turkish troops on June 22, after an attack with the bayonet, captured the greater portion of Russian positions extending for a distance of 5,000 feet on the mountain ridge north of the Teboruk river, in Turkish Armenia, according to an official statement issued to-day. The Turks captured 600 Russians and took a great number of tents and quantities of food.

GROWING ALARM FELT BY BERLIN GOVERNMENT

London, June 24.—What seems to be an indication of the growing alarm of the German government at internal conditions and fear of strife is contained in an inspired article in Der Tag by Dr. Hugo Bottger, Conservative member of the Reichstag, who declares that the normal political life of Germany is fast approaching a crisis which "may be a misfortune if patriots are unwilling to aid the government in its task."

The writer deprecates the lack of unity. The article contains the first official admission that conditions have changed since the beginning of the war, when the Kaiser declared there were no more parties in Germany, every German being united in the prosecution of the war. The following are extracts from the article:

"With the outbreak of the war our inner political development was suspended. Parties rolled up their flags and a domestic truce was declared. All existing questions that caused divisions were thrust into the background. On the contrary, external politics, which had been in the backwater, became agitated. Mars took the history of the world under his hammer.

Breakdown Coming. "Now the process seems reversed. Just as Britain's star is setting international forces friendly to Britain have sprung into being to check the development of our foreign policy and reimpose the status quo. In spite of all the great efforts we have made, the successes won, with this end, to prepare the ground for the free play of domestic plans, this strife combined with the difficult question of organizing our food supplies would then be sufficient to weaken the spirit of our people and undermine our strength so that we would be driven to an untimely peace. We seem to be reaching that critical point, as the debates on the censorship have made abundantly clear.

"The heart of the mischief lay in raising the question of the object of the war in the discussion of external political questions, especially the terms of peace, the U-boat problem, and the intervention of President Wilson. This was all intimately connected with the censorship, which forbade public discussion and suppressed public opinion, and thereby compelled incoherent speeches in the Reichstag. These speeches were much applauded by those who wished to be rid of their anxiety about President Wilson's intervention and a cowardly peace, but it is my opinion that the proper boundaries for discussion of external politics are overstepped in the Reichstag, if without any knowledge of the subject we press our parliamentary rules in this matter during war time and cause fermentation against a government that cannot protect itself. It is undesirable that external and domestic politics be intermingled.

Government Denounced. "Many politicians of the Right denounced the government because it has declared for a new direction of domestic politics after the war, and because it has proved that it can live in peace with the Social Democrats, who fulfil their duty to the fatherland and maintain their patriotic attitude in spite of the face of parliamentary criticism.

"These criticisms may well make the diplomatic situation more difficult. For instance, our successes in the Balkans are forgotten while diplomatic failures, which are far more frequent among our enemies, are underlined. Necessary caution is regarded as a proof of weakness and incapacity.

"In the face of parliament and public opinion our government and its diplomacy are indeed in a most difficult position, because in the absence of complete command of the sea the government is bound to observe certain, albeit not excessive, consideration for powerful neutrals. I cannot state the exact degree of caution necessary or how long it must be observed without injuring the vital interests of the state and domestic politics.

Dangerous Cross Currents. "I hope and trust that the hotheads will cool themselves, but there are under-currents and cross-currents of suspicion which make a dangerous radical stream. Perhaps that is a welcome result to the Radicals, who regard the nationalism of the Social Democrats with every sign of distrust, as do their opponents on the Left.

"Those politicians who do not allow themselves the full luxury of criticism but regard some measure of discipline of the press and restraint of the freedom of speech as necessary conditions of war, ought to work for domestic peace for the sake of the fatherland. Dr. Helfferich was right when he said that modern wars are more conducted with printers' ink and that we ought to avoid helping the enemy with so much material in ink.

"Domestic strife is just what is most welcome to the enemy. Those who demand a real peace with strong guarantees for the future of a prosperous Germany ought to think of that and let their personal feelings and considerations stand aside. That is what the time requires."

GERMAN STATEMENT. Berlin, June 24.—German troops yesterday repulsed attempts of Russian troops to advance south of Ilouk and North of Widzy, on the Dvinsk sector, according to the report issued to-day at army headquarters.

400 WERE LOST WHEN RUSSIAN STEAMER SUNK

Petrograd, June 24.—Four hundred persons lost their lives, according to latest reports, when the Russian passenger steamer Mercury was sunk in the Black Sea by a mine. The total number of persons aboard the ship was approximately 950.

The disaster occurred about 10 o'clock in the morning off the village of Grigorievka. The passengers felt a tremendous shock in the forward of the ship, which staggered ahead for three ship's lengths and then went down bow first in five minutes.

All available steamers and tugs hastened from Odessa and rescued the survivors clinging to lifeboats and wreckage.

TO-DAY'S TRADING ON THE WINNIPEG MARKET

Winnipeg, June 24.—Wheat closed 1c. up for July and Oct. and 1c. for December. July oats unchanged and October up 1c. Day up 1c. The fluctuations in all the markets were small. All wheat prices were steady and firm. This was due not so much to good buying as to natural reaction from the last big week. Most of the trade was covering. There was little outside interest in the market, though there were reports of the allied governments buying in the market again. Their agents are said to have taken about 10,000,000 out of the local pit during the day. Most of the trade to-day, however, was preparing for the week-end. The demand in the cash market was good for both wheat and oats. What started off at better premiums, but dropped back to unchanged near the close.

MONTREAL STOCKS

(By F. A. Borden & Co.) Montreal, June 24.—To-day's short session of the local market was devoid of interesting features and no group could be called active. In the unlisted department Wayagamac Pulp was strong. The paper companies are all doing a good business. Traders are watching the market and the Mexican news. Should something definite develop either way in the Mexican affair, the stock markets probably would do better, as it is the uncertainty more than anything else which causes liquidation.

SHORTS CONSTRAINED TO BUY COMMITMENTS

(By F. W. Stevenson & Co.) Chicago, June 24.—Northwest markets led the firmness, although crop reports from that section were uniformly favorable. Limitations pointed to the amount of old wheat on hand there as too much for the demand at the levels that have been prevailing. The immediate cash situation in its relation to demand and supplies of old wheat is being ignored as the dominating influence just now and to-day's market appeared as an oversold affair, shorts being constrained to cover their commitments.

EQUALIZING PROCESS PURSUED THROUGHOUT

Copper Metal Outlook Uncertain; Upward Movement of Those Securities Stayed

Looked as Though Liquidation Was Incomplete, Although Support in Places

(By F. W. Stevenson & Co.) New York, June 24.—While support was tendered in various directions which imparted to certain issues an appearance of resiliency, if not firmness, weakness was evidenced in other quarters and there were no distinct indications of liquidation having run its course. There was little doubt that the situation as a whole will be decidedly complicated by the Mexican incident and the appeal of the southern republic to various South American nations tends further to aggravate an already unsatisfactory state of things. In addition, the fact that the long interest in the industrial department in the stock market is still extended contributes to the existing uneasiness. It would seem that regardless of other considerations the stock list will be forced to withstand in large part the equalizing process which it now is experiencing.

Prices tended variously and in the end advances and declines were about equally divided. Included in the strong category were Snowstorm, Canada Copper, McCraw's Nest Egg, while among issues that were quoted lower were Canada Consolidated, Rambler, Slocan Star and Lucky Jim. The latter stock revealed unexpected buying interest, but the speculative flurry recorded during mid-week has placed it to the front of the list, at which place it will remain until replaced by some other more active issue.

Granby's softness was nominal, but there is considerable difference of opinion concerning the outlook for copper metal. Cancellation of contracts is certainly no bull card, yet on the other hand inquiry from other sources may be re-stimulated.

INTEREST IN COUNCIL PROCEEDINGS AWAKENS

Three Motions for Monday on Harbor Crossing; Worswick Affidavit to Be Considered

The city council meeting on Monday evening promises to be the most lively session of 1916, for in addition to a resolution standing in Alderman Todd's name on the qualification of members of the council, referred to elsewhere, there are two controversial resolutions from the same alderman with regard to the Johnson street bridge. Also interest is lent by the uncertainty as to what course will be followed in reference to the Worswick affidavit containing charges against a number of citizens alleging graft at the time of the paving contracts of 1911.

The two resolutions of Alderman Todd on the bridge question do not exhaust the agenda's reference to that subject, for Alderman Walker is responsible for a motion for the harbor committee to inquire into the feasibility of a traffic bridge from the foot of Herald street to a point on the old reserve.

Alderman Todd's motion, published yesterday, with regard to the Esquimalt & Nanaimo railway having responsibility for preventing the public use of the bridge for highway purposes since 1887, and calling for damages accordingly, after submission of the situation to a competent authority, is followed to-day by another asking the council to petition Ottawa to prevent any repairs being done at the bridge without the consent of the municipal council, and the openings in such bridge to be of certain limits defined in the resolution set out below.

No positive information with regard to the attitude of the aldermen to the Worswick document can be obtained from a canvass of the members. The council is, however, sharply divided into two factions, one pressing for it to be read in open council, relying on the privilege of a public body in open session, the other inclined to follow the advice of the city solicitor, and not take a chance with the document's technical "publication." There is certain to be a warm discussion, as three or four members can be relied upon to resist by their votes any attempt to give publicity to the document at this stage, until corroborative evidence of Capt. Worswick's statements is forthcoming.

Alderman Todd's motion posted late last evening on the bridge question follows:

"Whereas the existing E. & N. railway bridge across Victoria harbor has been in use by the railway since 1888; and whereas it is commonly understood that the railway company may apply to the department at Ottawa for permission to repair or reconstruct this structure;

"And whereas on the 29th of October, 1909, the city of Victoria applied to the board of railway commissioners (amongst other matters in connection with the bridge) for an order to compel the railway to enlarge the opening of the bridge, judgment being deferred by the board at the time;

"And whereas at the present time, after the expiration of over six years, the railway company has done nothing to enlarge the opening;

"And whereas the Dominion government have expended large sums in the improvement and deepening of Victoria harbor, to the north of, or above, the said bridge, and industries have been established, and large industrial areas and railway terminals are being there laid out;

"Be it resolved that the department of public works at Ottawa be respectfully requested to make the following general regulations concerning the construction, repair or reconstruction of any bridge crossing from the east to the west side of the harbor, and north of the Point Ellice bridge, namely:

"(a) No such reconstruction, repair, or construction will be permitted except with the consent of the municipal council of the city of Victoria, as to the general plan and type of bridge.

"(b) The clear openings shall be such as are approved by the department of public works, and the municipal council of the city of Victoria, and shall not be less than in the case of a bascule or similar type bridge, a clear opening of 130 feet, and in the case of a swing bridge, two clear openings, each of not less than 110 feet."

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to any active drug store and get a bottle of Non-Opto Tablets. Dissolve one in a glass of water and use the water. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished who have been told that they have astigmatism, eye-strain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this prescription. Get the prescription filled at once. You may strengthen your eyes that glasses will not be necessary. Thousands who are blind, or nearly blind, or who wear glasses might never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eye-glasses are only like crutches and every few years they must be changed to fit ever-increasing weakened condition, so better see if you can, like many others, get clear, healthy, strong magnetic eyes through the prescription here given. The Valmas Drug Co., of Toronto, will fill the above prescription by mail, if your druggist cannot.

A prominent City Physician to whom the above article was submitted, says: "This is a very remarkable remedy. Its constituent ingredients are well known to me and I can assure you that it is one of the very few preparations I feel justified in recommending for regular use to almost everybody."

WILL SEEK HEARING ON FUTURE OCCASION

Telephone Toll Information Has Not Yet Been Completed for Railway Board

The sitting of the railway commissioners in Victoria on Wednesday and Thursday comes too soon after the meeting of the executive of the Union of B. C. Municipalities in Vancouver on May 21 for a full statement of the case with regard to the telephone tolls being taken up on this occasion.

At that meeting it was decided that every municipality in the province should be requested to furnish data on telephone communication in its district, and a number of replies have been received by Secretary-Bowser. However, there is considerable information still lacking, and it is the intention of Mayor Stewart and F. A. McDiarmid, solicitor of the union, to make an application at the sitting here of the commission for a copy of the tolls of the B. C. Telephone Co., which must be deposited by September 18, with the request that the board will at a later date hear the arguments of the union representatives on telephone matters as they affect the various municipalities.

So far as the city case is concerned, Alderman Bell, chairman of the legislative committee, has gathered some information, but it is doubtful whether it will go before the commissioners till all the data required is ready to be presented, so that the whole situation may be covered in a single order of the board.

Under the private act passed last session at Ottawa the company must deposit its schedule of tolls with the board of railway commissioners for approval. This legislation was largely secured by the activities of the executive of the union.

KILLED IN ACTION

PTE. RAYMOND C. BURTON Who was killed in action on June 13, was the son of Mrs. George H. Brown, Helmcken street. He was 18 years of age and a native of Victoria. He left here with the 48th Battalion and was transferred to Eaton's Motor Machine Gun Brigade in France.

GOOD RED CROSS WORKERS

Beacon Hill Circle, Which Has Just Adjourned for Summer, Has Made Many Articles.

A little organization which has been doing a great deal in a quiet way for the Red Cross is the Beacon Hill circle, which has just adjourned its meetings for the summer and will continue to carry on the work only as individual workers. A statement of the articles sent by the circle to the Victoria Red Cross headquarters since the beginning of the year is an indication of what they have been doing: Thirty-three dozen surgical kits; 15 dozen large pads; 50 dozen small pads; 15 dozen eye pads; 53 dozen sponges; 40 dozen gauze cotton-covered sponges; 12 dozen drains; 3 dozen packings; 7 dozen dressings.

The financial statement showed that the sum of \$46.22 had been collected amongst the members for the purchase of material absorbent cotton, etc. The membership has embraced old and young, one of the most ambitious being an old lady of 82, while two small girls of eight years worked busily at all the meetings. The summer months are to be spent making trench caps for the soldiers. All the meetings have been held at the home of Mrs. Johnson, 15 Cook street.

C. P. R. TRACKS CLEAR

Repairs on Main Line Completed Today and Trains Are Being Operated on Time.

L. D. Chatham, local C. P. R. passenger agent, was advised to-day from Vancouver that the main line east was clear this morning and trains are now being operated on time. The worst of the trouble was experienced between Glenogle and Field, but large gangs of section men have been engaged in repair work, and at 2.30 a. m. to-day the road was reported clear.

VICTORIA VOLUNTEER RESERVE.

The following members are listed to shoot on Monday evening next at 7.30 o'clock. Capt. Crow, Sgt.-Maj. Cantwell, Sgt. Wrightsworth, Ptes. Carey, Carter, Carpenter, Errington, Harriman, Harrison, Hewison, Neale, Sayer, Thom, Vaughan and Willis.

POLITICAL NOTES

A public meeting of Liberals of Ward I. is called for Monday evening at the Liberal headquarters in the Arcade building. At this meeting it is hoped that the leader of the party, H. C. Brewster, will be able to be present and address the electors of that ward, and that the other city candidates, A.M. Bell, H. C. Hall and John Hart will also be speakers.

At the meeting of the Ward IV. Conservatives to be held on Monday evening in the new rooms in the Union Bank building, the chair is to be taken by C. K. Courtney, who, by the way, is an official of the legislative assembly and has been for several years past. Delegates are to be named to a nominating convention, "should one be held within the next few weeks," as the morning paper cryptically puts it.

The present political tour of the premier and his colleagues in the northern part of the province is being paid for at the expense of the people, on the plea that the tour is really one to find out what the needs of the people are. Speaking of this fact in relation to the meeting held in Prince Rupert a week ago, the Daily News, of that city, says: "Billy Ross tried feebly to explain that they were out looking for information in regard to the wants of the districts. The speeches showed that they were out electioneering, and nothing else. The public purse has to stand the expense of this tour. Why should it? Electioneering at the public expense is just another sign of the corruption that is inherent in the Bowser government."

"The delay allowed for the filing of an answer to the statement of claim of the Liberal leader in his action against the attorney general of British Columbia, and the putting in of a statement of defense, expires to-day. So far as is known at the office of the registrar of the supreme court here no appearance has been entered by Mr. Bowser in the case, nor has he instructed any counsel to act for him or file any reply to the action.

Mr. Bowser seemingly is taking the position that he is superior to the courts and that he does not need to take any notice of legal processes launched against him, and in the special circumstances in this case that he is not called upon to assist in obtaining a speedy determination of a doubt which he himself entertained as far back as the beginning of this year. He has ignored the writ and the statement of claim in this suit, and his only references to it have been for the purpose of misrepresenting the intention of Mr. Brewster in taking the action he has.

Over the doors of the Westholme theatre, in Prince Rupert, in which Premier Bowser and his colleagues held a public meeting last Saturday evening, appeared the word "GRAFT" in huge letters. The coincidence was a significant one and was referred to in the course of the meeting, which is described by the Prince Rupert News as a "joke, if a Tory missionary meeting, but as a variety entertainment rather a success." The audience was large; absolutely unresponsive for the most part and at times openly hostile. In dealing editorially with the "great silences" of the meeting the News says:

"On Saturday night, for once in a way, the Tory leaders were obliged to face a free-thinking, free-speaking audience, and, judging by their facial expression, they did not relish it. A hand-picked Tory audience, supplied with cigars, will swallow anything, but it is an entirely different matter when an independent audience is met.

"The Tory organ speaks of organized disturbance. With such a large audience, the vast majority of whom were distinctly hostile to Bowser and his satellites, organized disturbance would have meant no meeting. Considering what this province has suffered at the hands of the men addressing the meeting, the audience kept itself well in hand. The one outstanding feature was that Prince Rupert will have no more of Bowser and Bowserism."

"The speeches were remarkable for what they did not contain. The P. G. E. was naturally given a wide berth. It was reserved for Prince George. All mention of the C. N. R. and Mackenzie and Mann was studiously avoided, while the prohibition bill was passed over in silence.

"Bowser made no attempt to defend his action in handing over to the P. G. E. millions more than their agreement called for. The province is being bled and thrown deeper into debt to save the millions of J. W. Stewart and Pat Welch, but the subject was too dangerous to bring before any but a hand-picked audience.

"The Vancouver plugging charges proved a boomerang, and Bowser had to retire to his dug-out when the audience demanded that he take back his statement. In his personal attack upon T. D. Pattullo he struck more trouble. The attack would never have been made had Mr. Pattullo been present, as Prince Rupert's coming member would have demanded a hearing and the audience would have backed him almost to a man.

"Of course, the speakers referred to the reports of the Tory-ruled public accounts committee, and claimed that no funds had been misapplied, though \$96,000,000 had been spent since 1903. The audience had read the evidence in the Sam Matson case, the Kitilano case, the Hanington case, and the parliament buildings hand-out, and showed that it preferred the evidence to the Tory whitewash."

Under the caption of "Fish and political special this morning," the Prince Rupert News of Monday says: "Premier Bowser and his staff left for Terrace this morning on the fish special which left about six a. m. It was too bad that they had to leave so early, as it prevented citizens from going down to bid them farewell. Proximity to four carloads of fish and ice must have reminded each one of them of the meeting on Saturday night."

LIBERALS OF SOOKE AND OTTER POINT

Successful Gathering of Members of Party in South End of Esquimalt Riding

There was an enthusiastic meeting of the Liberals of the Sooke and Otter Point districts of the Esquimalt constituency in Sooke hall last night, at which there was a very large attendance, including many women. In addition to the electors of the neighborhood, a number drove out from Esquimalt.

Henry C. Helgesen, one of the Liberal stalwarts of Esquimalt electoral district, was in the chair, and he expressed his pleasure at the attendance and the enthusiasm which was being shown all through the district in the coming fight and the cordial support which was being manifested for the leader and the principles of the party.

Dr. William D. Calvert, Otter Point, spoke on the political issues of the election in some detail, and to the great satisfaction of the audience. He pointed out the utter failure of the government railway policy insofar as it affects the district, the long-promised railway being as far away as ever, and no likelihood of the Canadian Northern Pacific constructing the Island line being in sight. The agricultural needs of the province and many other phases of the policy of the Liberal party were ably dealt with by Dr. Calvert.

The meeting was under the auspices of the Sooke and Otter Point Liberal Association, and was most successful in every way. During the evening there was a programme of vocal and instrumental music, refreshments were served by the ladies, and a dance brought the evening to a pleasant close.

Hearty votes of thanks were passed to the chairman and Dr. Calvert, and a resolution of confidence in the leader of the party, H. C. Brewster, was received and passed with cheers.

IS IN HOSPITAL

PIONEER J. A. MCGREGOR

Mrs. S. McGregor, received the following telegram on Thursday, "Sincerely regret to inform you Pioneer James Arthur McGregor, officially reported admitted 1st Scottish General Hospital, Aberdeen, June 17, wounded right leg, wrist."

Pioneer McGregor is a native son 30 years of age, and was educated in the North Ward school. He was a cigarmaker, having learned the trade with S. Gold of this city, and prior to enlisting was in the employ of the Schnorrer Cigar Co., of Vancouver, where he had worked for nine years. Pioneer McGregor joined the 1st Cameron Pioneers in September, 1915. He has a brother John in the 102nd. Another brother, Alex., is employed by Simon Leiser. His mother and two sisters reside at 613 Bay street.

TOURIST IS ENTHUSIASTIC

Automobilist Finds Island Has Great Attractions and Will Come Back Next Year.

C. F. Bishop, an automobile tourist, who with Mrs. Bishop returned last night from a trip up the island to Campbell river, is enthusiastic over the scenery of Vancouver Island and will henceforth be a good advertiser of its many attractions. The scenery of the northern part of the island, he said this morning, was better than anything he had seen during the course of his long journey on the American continent. He particularly was impressed with Great Central lake.

"This island," he said, "is something everyone ought to know about. You have an asset of great value, and it should be well advertised. Those who come and see the island cannot help but go away enthused and most naturally become 'boosters.' Mr. Bishop said the road were good, with the exception of some parts where new gravel had been put down. Although these were soft, they nevertheless were good roads. He tried to get to Strathcona park, but found the roads impassible one mile beyond Campbell river. Mr. Bishop hopes to come back next year and get into the park, having been informed that the scenery is more wonderful there than on any part of the island."

TO THE ELECTORS OF BRITISH COLUMBIA

READ THIS SECTION OF THE B. C. PROHIBITION ACT

Section 48, Par. 1.—The Superintendent and any police officer, policeman or constable shall, for the purpose of preventing or detecting the violation of any of the provisions of this Act, at any time have the right to enter into any and every part of any building or place wherein refreshments or liquors are sold or reputed to be sold, or where he believes liquor is kept contrary to the provisions of this Act, and to make searches in every part thereof and of the premises connected therewith as he may think necessary for the purpose aforesaid; AND FOR SUCH PURPOSE MAY, WITH SUCH ASSISTANCE AS HE DEEMS EXPEDIENT, BREAK OPEN ANY DOOR, LOCK, OR FASTENINGS OF SUCH PREMISES, OR ANY PART THEREOF, OR OF ANY CLOSET, CUPBOARD, BOX OR OTHER RECEPTACLE WHICH MIGHT CONTAIN LIQUOR.

WHAT DOES THIS SECTION MEAN?

IT MEANS that you are not even afforded the protection of a magistrate's order before search of your house can be made. IT MEANS that the question of a forcible entry into your home is left entirely to the discretion of any police officer, policeman or constable.

IT MEANS that practically upon mere suspicion, while you are away for a holiday or upon a business journey, your house door may be forced open and every closet, box or other receptacle which MIGHT contain liquor, ransacked by the police.

IT MEANS that under the provisions of the B. C. Prohibition Act, every home in this province would lose the assurance of its most real and treasured advantages, and that the supreme significance of "home" may become common sport for freak legislation.

Court of Appeal.—On Monday morning the court of appeal will hear argument in two criminal appeals. The first of these is in Rex v. Gosden, in which counsel for the accused was given a stated case on the point as to whether the constitution of the special committee of the legislature had been legally proved. The other is Rex v. Riley, in which Gordon Grant, Vancouver, will argue that the sale of cards and other articles in a social club—the Pender Club—does not constitute it a common gaming place, and that the firing of the steward Riley was therefore improper.

Judgment Reserved.—In the appeal of the Wellington Colliery Co. Ltd., v. the Pacific Coast Coal-mines, Ltd., in which the latter was the appellant and the former the respondent, the court of appeal has reserved judgment. W. J. Taylor, K. C., argued the appeal for the defendant and appellant company and H. B. Robertson for the plaintiff and respondent company. The trial judge was Mr. Justice Gregory.

HUNDREDS AT FUNERAL OF BISHOP SCRIVEN

Last Sad Rites for Dead Pre-late Held Yesterday at Christ Church Cathedral

No finer tribute to the life and work of the late Rt. Rev. Augustine Scriven could be given than the testimony expressed in the attendance yesterday at his obsequies of a congregation representing every denomination and class from all parts of the diocese in which he had labored for so many years with loving and untiring energy.

Christ Church cathedral, in which the funeral services took place at 2:30, was filled to overflowing, those who were unable to obtain seats standing patiently outside until the conclusion of the long service, and then joining the procession which moved out to Ross Bay cemetery. Perhaps one of the finest attestations to the great love in which the late bishop was held by everyone in the community was the presence of nearly 35 clergy and ministers representing every religious creed in the city, men who either through working with him in social service interests or by chance personal contact in other ways, had come to recognize his fine broad-mindedness, Christian manliness and great humanitarianism.

Services in Morning.

On the arrival of the remains of the late bishop from Courtenay on Wednesday evening they were taken immediately to Christ Church cathedral, where they lay until the time of the funeral yesterday, with watchers by the casket day and night. The cathedral was draped in mourning, purple and black crepe being hung along the chancel rail and pulpit. In front of the latter, facing the congregation, hung a big cross of white lilies, and white lilies were in the altar vases.

There was a celebration of holy communion at 8 o'clock yesterday morning, a very large congregation being present at this service also. The Very Rev. Dean Schofield was the celebrant, and assisting in the service were the Ven. H. A. Collison, archdeacon of Quatsino, the Ven. J. H. S. Sweet, archdeacon of Victoria, and Rev. F. J. Christmas, rector of Duncan. "Saints of God" was the hymn sung during the offertory, and "Now, Oh Father, Mindful of Thy Love," during the administration of the communion.

Order of Procession.

The funeral service was at 2:30 yesterday afternoon. The procession of choir, clergy, mourners, members of the synod and churchwardens formed in Christ Church schoolroom, and entered the church through the vestry, moving slowly along the aisles to the front of the cathedral, while J. E. Watson, the organist, played the dead march in "Saul." The procession was headed by the cross-bearer, followed by the choir boys and men whose numbers had been augmented for the solemn occasion by drawing on other Anglican church choirs in the district. Then came the clergy of the diocese in order of seniority as follows: Rev. Canon J. A. Leakey, Rev. F. G. Christmas, Rev. Canon W. F. L. Paddon, Rev. E. G. Miller, Rev. J. W. Flinton, Rev. W. Baugh Allen, Rev. G. A. Bagshaw, Rev. S. Ryall, Rev. J. S. A. Eastin, Rev. H. B. Hadlow, Rev. A. Wolff, Rev. F. L. Stephenson, Rev. H. St. J. Payne, Rev. H. T. Archbold, Rev. E. P. Laycock, Rev. F. A. P. Chadwick, Rev. A. E. de L. Nunns, Rev. W. E. Cockshott, Rev. H. V. Hitchcox, Rev. A. Blachlager, Rev. A. Stackhouse, Rev. A. H. Greenwood and Rev. J. D. Mackenzie-Naughton. Other clergy in the procession were Rev. Gilbert Cook, Rev. F. H. Fatt, Rev. M. S. Hilton, Rev. F. Venables and Rev. Mr. Keeling.

At the end of the procession, just in advance of the archdeacon of Victoria, the dean of Columbia and the archdeacon of Quatsino, came the representative of the Metropolitan (who was unable to take part owing to his absence in Aitutia), Rev. T. C. Don Barnes, of Sidney; the representative of the bishop of the Kootenays, whose synod is in session at present, Rev. W. Baugh Allen, and Ven. Archdeacon Heathcote, as commissary of the diocese of Westminster, representing Bishop De Pencier, who has gone on active service as chaplain to the forces.

Impressive Service.

The Church of England service for the burial of the dead is always impressive. Canon Leakey, of Ladysmith, read the lesson, and the dean of Columbia took the remainder of the solemn service. The hymns sung were

230, "Now the Laborer's Task Is O'er," the beautiful lines of which were written by Rev. John Ellerton, 533, "Where the Light Forever Shined," and 433, "Love Divine, All Loves Excelling." The clergy occupied seats reserved in the front of the church. Other seats were reserved for members of the Social Service Commission, of whom the following were present: For the Presbyterians, Rev. Joseph McCoy, president of the Social Service; Rev. Dr. Maclean, Rev. J. G. Inkster, Rev. W. L. McKee, Rev. Dr. Macrae, Rev. R. A. Macconnell, Rev. Dr. Campbell, Rev. The Baptists, Rev. William Stevenson, Rev. F. T. Tapscott, Rev. Robt. Cameron, D. D., Rev. J. B. Warnicker, and Rev. T. M. Habershon. For the Methodists, Rev. A. S. Colwell, Rev. John Robson, Rev. C. T. Scott, D. D., Rev. S. J. Thompson, Rev. A. B. Osterhant, Rev. W. C. Bunt, and Rev. C. M. Tait. Rev. Mr. Letham represented the Unitarian community, Rev. A. de B. Owen that of the Reformed Episcopal church, Rev. Father Anselm Wood was at the obsequies representing Rt. Rev. Bishop MacDonald, of the Diocese of Victoria, who is out of town.

Seats had been reserved in the main part of the church also for members of the Lady Douglas Chapter, of which Mrs. Scriven was a member, and regent for some time; and for the Five C's Cricket Club, of which the late Bishop was honorary president.

Honorary Pallbearers.

The service lasted about an hour. The procession when it left the church was augmented by the pallbearers and others who joined the cortege out to Ross Bay cemetery. The following were the honorary pallbearers: Rev. Canon Leakey, Rev. F. G. Christmas, Rev. Canon Paddon, Rev. J. W. Flinton, Rev. Scimus Ryall, and Rev. E. G. Miller. The acting pallbearers were the Chancellor of the Synod, Lindley Crease, K. C.; E. Wootton, registrar of the diocese; F. W. Blankenbach, lay secretary; A. J. Dallain, F. Burrell, and H. W. Perry, members of the executive committee; and the churchwardens of Christ Church Cathedral, J. Garvey and Charles Williams. The honorary mourners were: The Honorary Lieutenant-Governor, who was accompanied by his secretary, H. J. S. Musket; Sir Clive Phillips-Wolley, Major John Walsh, E. Crow Baker, William C. Ward, J. W. Church, Edwin Johnson, K. C., George Jay, Godfrey Booth, H. S. Crotty, Percy Wollaston, John Toimle, Lewis Toms, Dr. Stainer, E. A. Jacob, Beaumont Boggs, J. L. Raymur, W. Atkins, H. O. Litchfield, and H. A. Munn. The last-mentioned as president of the Pacific club, of which Bishop Scriven was a member, represented that organization. Rev. J. W. Collins, of St. James' church, Vancouver; Rev. W. Houghton and Rev. A. Croucher, of Yale; and J. H. McGill, registrar of the diocese of New Westminster were others present at the obsequies.

Service at the Grave.

At the cemetery the choir formed a circle round the grave, behind them being the clergy, then the many laymen and ministers of other denominations who had joined the cortege. The Dean of Columbia, who took the office, stood at the head of the grave. The hymn sung was "Jesus, Lover of My Soul."

Several Chinese from the mission on Fisgard street were present at the services, and sent several beautiful wreaths. The big floral cross which stood in front of the coffin while the remains rested at the cathedral was placed there by the synod executive on behalf of the diocese, and hundreds of beautiful wreaths, sprays, anchors, and other floral designs were sent by various organizations and personal friends of the late Bishop Scriven. Among those who sent flowers were the following: The Guild of St. Agnes, St. Matthias, Fowl Bay; Mr. and Mrs. A. Neame, Ven. Archdeacon and Miss Sweet, Mr. and Mrs. W. T. SENDING MORE MONEY

Victoria Branch of Red Cross is Subscribing \$2,000 for General Fund.

The raffle of a tea cloth, donated by Miss Isabel Elliott, will be held on Tuesday next at the Temple rooms at 3 o'clock.

At the last meeting of the executive committee, of the Victoria branch of the Red Cross the question of sending more money to headquarters owing to the very heavy casualties among the Canadian troops during the past few weeks, was discussed. As it was realized that the demand for all kinds of hospital supplies would be largely increased, the committee decided to send a check for \$2,000 for the general funds of the society, and also a check for \$500 for the Canadian prisoners of war fund.
