CHINESE PICKETING SCHOOLS; FIVE BOYS START WORK TO-DAY

Boycott Continues and Separate Schools Will Close To-night; Five Chinese Pupils to Be Taught in Special Class; Even Pupils Granted Special Permits Refuse to Attend White Schools

Rapid developments to-day brought the Chinese school situation here to a crisis. Picketing of separate Chinese schools and other public schools to prevent the attendance of Chinese pupils was started by Chinese who are fighting the School Board's school segregation policy.

Five Chinese children, the first to attend any schools since the separate school policy was inaugurated, presented themselves at the King's Road School and were received in spite of the efforts of Chinese picketers.

Announcement was made at the School Board offices that the separate Chinese schools would be closed this afternoon for the remainder of this term, in accordance with the ultimatum issued by the Board last week.

It was also announced that the five Chinese pupils who attended the King's Road School this morning would be educated separately there and would not be placed in the white classes.

A meeting of the School Board was arranged for Wednesday night, but it was made clear that there is no possibility whatever of the Trustees changing their present determination to carry out the separate school policy.

It also developed to-day that no Chinese students who have been granted special permission to attend the white schools have made use of this permission. The school authorities believe that they are afraid to attend the white schools or that they are remaining at home in accordance with some agreement among themselves.

When the separate Chinese schools are closed late to-day the Chinese school problem will be settled so far as the School Board is concerned. The Chinese pupils who have been granted to attend the white schools will be legally closed until January.

Efforts by the Chinese to picket white schools appeared to be quite elaborate to-day. At all the schools where the Chinese pickets were present two or three Chinese boys about eighteen years of age paced up and down in front of the school grounds.

When the five Chinese pupils appeared at the King's Road School and presented themselves for instruction the pickets made notes of their names. The five pupils, however, commenced their studies immediately.

Running the Blockade. Efforts by the Chinese to picket white schools appeared to be quite elaborate to-day.

Montreal, Oct. 9.—Five violent deaths occurred in this city over the week-end. Four were the results of accidents, while the fifth was the case of a burglar shot by a watchman.

Arthur Leclair, a night watchman, shot and killed Victor Jenkudowich, 19, when the latter attempted to escape from him after being discovered on the top of a factory.

One auto victim, a drowning, a football fatality and a boy falling off a wagon were the other deaths.

Ottawa, Oct. 9.—Robert Smith, K.C., of Cornwall, has been appointed a judge of the Supreme Court of Ontario, succeeding the late Mr. Justice Sutherland.

Duncan, Oct. 9.—Fred Bonnell, a well-known resident of Duncan, was accidentally shot while out hunting with a companion yesterday afternoon at Tanor, on the Cowichan Lake Road.

The accident happened while Bonnell and a companion named Churchill were after birds in the timber near the house of a man named Hunt at Tanor.

CONSTABLE KILLED IN VANCOUVER

R. G. McBeath, V.C., Victim of Bullet in Street

Vancouver, Oct. 9.—Hero of the Great War and winner of the Victoria Cross, Police Constable Robert G. McBeath lies dead in the city morgue to-day, the victim, it is alleged, of a bullet from a gun in the hands of a drink-crazed negro, while Detective R. S. Quirk is wounded, a shot having struck him in the left hand. The negro appeared in police court this morning and was charged with murder. He was remanded until Thursday next.

McBeath met death on Granville Street, near Davie Street, at 2.30 a. m. to-day, when, seeing an auto driven in an erratic manner, he stopped the car, to find Fred Deal, 20, at the wheel.

The negro, who was accompanied by Marjorie Earl, a woman of the underworld, was ordered by McBeath to get out of the car, and was taken across to the patrol box. Detective Quirk, who happened to be nearby, taking the woman from the auto.

As far as can be ascertained, Deal commenced struggling with the constable, and Detective Quirk, rushing to the assistance of his comrade, was met with a shot which struck his left hand, inflicting a bad wound. A second bullet struck him in the head near the right ear, causing Quirk to fall, whereupon Constable McBeath attempted to pick up his stricken comrade, only to topple across his prostrate body with a bullet through the breast, close to the heart.

Rising, after struggling from beneath the body of McBeath, Quirk pursued the assailant, who turned into an alley. The detective fired a number of shots in his endeavor to "wing" his man, the chase being taken up by several men who were aroused by the shooting.

Meanwhile Constable McBeath, mortally wounded, was rushed to St. James' hospital.

ASK RESIGNATION OF LLOYD GEORGE

With British Fleet at Dardanelles; Superdreadnought King George V.

Among the British battleships concentrated in the Near East is the King George V, which is a sister-ship of the Centurion, also at present in those waters.

London, Oct. 9.—(Canadian Press Cable)—A Reuter dispatch from Malta says that although Great Britain is striving her utmost to bring about a settlement of the Near Eastern problem, she evidently is leaving nothing to chance. Reinforcement of the three arms of the British forces in Turkey is proceeding uninterrupted, judging from the number of transports carrying troops and military armaments, warships and fleet auxiliaries which are continually passing through Malta.

New transports bound to Chanak include the Corsican, Bratton Castle, while quite a fleet of oil ships are proceeding up the Straits. Five additional oil vessels are now on the way eastward, while the number of supply ships is increasing continually under Admiral Brock, which is now complete in every detail and fully adequate for the task confronting it.

EMPERESS INER HAD GOOD LIST

Men Prominent in Diplomatic, Shipping, Commercial and Mission Circles

Bringing men prominent in diplomatic shipping, commercial and mission circles in the Far East, the Empress of Canada docked here to-day from Hongkong and Yokohama.

Mr. Frank D. Gamewell, general secretary of the China Christian Educational Association, who has been a missionary in China for the past forty years, is bound to New York on an educational mission. Dr. Gamewell is editor of the Educational Review, which is widely read among men engaged in educational and evangelistic work in China.

P. E. Vaes, member of the British diplomatic service in China was a passenger by the Empress of Canada from London via the Canadian route.

H. M. Croft, who is connected with the Dunlop Rubber Company at Kobe, is en route to England on furlough. Capt. J. C. Ross, of the British army in India, is going through to Japan after a short holiday in England.

Charles E. Fletcher, expert in an English machinery concern, who has been directing the installation of the gear-cutting machinery at the Kawasaki Dockyard at Kobe, is returning to England.

Mr. and Mrs. H. Barton, of Shanghai, where Mr. Barton is on the staff of the Standard Oil Company, are en route to the United States.

F. Hartshorn, well known in Kobe, where he is chief engineer for E. H. Hunter & Co., is bound for England. Mr. and Mrs. S. Kirkman, of Shanghai, where Mr. Kirkman is with the Standard Oil Company, are on their way to New York.

HUNTER KILLED IN NOVA SCOTIA WOODS

Bridgetown, N. S., Oct. 9.—James Munro, 25, was accidentally shot and killed while moose hunting Saturday. He was struck by a bullet from the gun of one of his two companions, who fired simultaneously at a moose.

ALLIED SPOKESMEN AT MUDANIA MEET

TURKS AND GREEKS

Conference Resumed Under New Instructions Framed At Paris Meeting; Ismet Promises There Will Be No Further Advance In Neutral Zone.

Mudania, Oct. 9.—The Allied generals here for attendance at the armistice conference spent this morning conferring with the Greek delegates. The conference with Ismet Pasha, the Turkish Nationalist representative, was scheduled to be resumed at three o'clock this afternoon. The delegates met informally last night, postponing formal discussions until this afternoon.

General Harrington, the British commander-in-chief, received in writing an assurance from Ismet Pasha that there would be no further advance of the Nationalist troops in the neutral zone.

London, Oct. 9.—The British Cabinet met to-day to consider the detailed report of Lord Curzon, Foreign Secretary, on his conference in Paris with Premier Poincare, at which the position of the Allies in the Turkish question was again consolidated.

The Mudania conference is being resumed under the new instructions framed at the Paris meeting, which were approved with slight changes by the British Cabinet Saturday night and forwarded to General Harrington.

The Kemalists were instructed to insist upon fixation of the number of Turkish gendarmes to be allowed in Thrace, and the withdrawal of all Turkish troops from the neutral zone and delay in the occupation of Thrace by the Turkish army until after the signing of a peace treaty.

In Ismid Zone. Meanwhile the situation created by the Turkish invasion of the Ismid district, a section of the armistice zone, from two sources saying an entire division has entered the neutral zone.

General Harrington is reported to have warned Ismet Pasha that unless the Kemalists withdraw he may be obliged to make a military demonstration on the Turkish flanks. The British representative said to have promised the advance would cease.

As a measure of protection for Constantinople, General Harrington ordered suspension of ferry services across the Bosphorus and the Sea of Marmora.

Greek Attitude. Although the Greek Government has accepted the inevitable, acquiescing in the evacuation of Eastern Thrace, reports from Athens and Thrace indicate uncertainty regarding the attitude of the Premier, who is reported to be still on the throne, despite the report of his abdication received here Saturday.

DESIRES OF TURKS ARE MET

London, Oct. 9.—The Constantinople correspondent of The Times declares that by the new Paris agreement Ismet Pasha has secured ninety per cent. of what the demagogue should have refused the offer, the correspondent adds, there will be only one interpretation of his refusal, that the Ankara Government desires war.

FRENCH LOOK FOR AGREEMENT

Paris, Oct. 9.—Strong hopes were entertained in French circles to-day that the Mudania conference would reach a complete agreement and the protocol for an armistice would be signed to-day.

The hitch in yesterday's proceedings at Mudania is attributed here to the probability that General Harrington had then received only a part of the new instructions drafted under the agreement reached Saturday by Lord Curzon, the British Foreign Secretary, and Premier Poincare.

GENDARMERIC WAS SUBJECT DISCUSSED

Constantinople, Oct. 9.—At the session of the conference at Mudania yesterday the Turks refused to specify the number of gendarmes they desired to send to Thrace. The British delegation had instructions to insist on limitation of the number permitted.

Withdrawal Demanded. In the course of the afternoon session General Harrington demanded of Ismet Pasha that the Turks should withdraw their forces from the neutral zone near Ismid. Unless this was done, he declared, he might make a demonstration on both flanks of the Turkish forces.

AGAIN CONSULTED COMMISSIONERS

Two of the three members of each of the Allied delegations returned to Constantinople last evening. General Harrington, Colonel Vitell and Colonel Chatel remained at Mudania. In explanation of their return, one of the delegates informed the Associated Press:

PROHIBITION IN INDIA IS GOAL

Dr. J. Nyogi Says Total Ban on Liquor Is Coming in India

Temperance Advocate Will Tour United States and Canada

India is falling in line with other countries flying the prohibition banner and within a few years the British Dependency with a native population of over 300,000,000 will be absolutely dry, according to Dr. Jnananjan Nyogi, prominent Indian prohibition advocate representing the Bengal Temperance Federation, who reached here to-day from Calcutta via Hongkong aboard the Canadian Pacific liner Empress of Canada.

"Prohibition is coming in India," declared Dr. Nyogi in speaking of his mission to this continent. "Despite the enormous population, the consumption of alcoholic liquors in India is practically negligible. We hope to bring in laws giving India absolute prohibition. The question has already been brought before the Indian Assembly and was defeated by only eight votes."

Dr. Nyogi will tour the United States to gather all possible data on prohibition and the working of the Volstead Act in the States of the American Union. He will also lecture on prohibition in the larger centres of population, not only in the United States, but also in Canada.

He will attend the temperance convention to be held in Toronto this month.

Habitual Truants. When the separate Chinese schools are closed late to-day the Chinese school problem will be settled so far as the School Board is concerned.

Running the Blockade. Efforts by the Chinese to picket white schools appeared to be quite elaborate to-day.

Montreal, Oct. 9.—Five violent deaths occurred in this city over the week-end. Four were the results of accidents, while the fifth was the case of a burglar shot by a watchman.

AGAIN CONSULTED COMMISSIONERS

Two of the three members of each of the Allied delegations returned to Constantinople last evening. General Harrington, Colonel Vitell and Colonel Chatel remained at Mudania. In explanation of their return, one of the delegates informed the Associated Press:

DISTURBING ELEMENTS SEEN

Greek Adrianople Army Unwilling to Retire

Turkish Forces Looking Toward Constantinople

London, Oct. 9.—The Near Eastern situation continued to present disturbing potentialities to-day with the revolutionary Greek army at Adrianople, declaring it would not retire, and with the victorious Turkish army concentrating at Brusa and Ismid, anxious to reach Constantinople.

The British Cabinet met this afternoon to watch the proceedings at Mudania, where the armistice conference was being resumed under the new instructions by which the Allies present a united front to the Turks on the immediate military stipulations.

The Cabinet members passed their quietest Sunday in four weeks, but this morning they were unable even to affirm that the situation was entirely satisfactory, although entertaining the hope of a successful conclusion of peace so long as the French stood firm with the British.

Warning Given. While the British are using the utmost patience in the effort to conclude peace, it is being warned that if a settlement is not reached the British will abandon the whole peace effort.

CAUTIOUS ABOUT PEACE TERMS

As to the peace terms, the attitude of the Cabinet may be expected as one of extreme caution towards engaging in any promises until the conclusion of the Mudania conference.

One of the points of insistence regarding the present situation with respect to the neutral zone is that whatever zone is agreed upon may become permanent neutral, remaining so after the peace conference. In this connection Lord Curzon is believed to have informed Premier Poincare frankly that the British were not working to secure exclusive control of the straits; that they had too many undertakings already and favored the League of Nations or any participation which would make the straits open to commerce and neutral in time of war.

Scene of Conference. There is little discussion concerning the next conference to arrange a general peace, but the Allies, the Greeks and the Turks as parties, although it is suggested now that Prinkipo, in the Princes' Islands in the Sea of Marmora, would be more suitable than Scutari, previously mentioned.

On general lines the instructions upon which General Harrington is returning to-day is to reiterate to Ismet Pasha that the Turks must respect the neutral zone and that they can not send a large number of troops to Thrace, both of which points were made in the original Allied note of September 23.

FORCES BATTLE FOR VLADIVOSTOK

There can be no doubt that Mr. Bonar Law's letter to The London Times expresses with characteristic directness what the great majority of the British people think.

THE MENNONITES.

If we may rely upon the accuracy of a dispatch from El Paso, this month will see the commencement of an exodus of more than ten thousand Mennonites from Canada to Mexico.

WHAT TO DO WITH THE T. B. EX-SERVICE MAN.

One of our correspondents suggests that many of the trials and tribulations of the tubercular ex-service man would disappear if he could depend upon a permanent pension of one hundred dollars per month.

Completion of a fair and reasonable arrangement of the colony's entrance would be an important climax to the original ideal of more than half a century ago.

The WEATHER. Daily Bulletin Furnished by the Victoria Meteorological Department.

Victoria, Oct. 9—5 a. m.—The barometer is high over Northern B. C. and the weather is generally from the Coast.

LABOR IN BRITAIN.

Although the Government's policy in the Near East has by no means increased its popularity the issuance of caustic manifestoes by the Joint Council of the British Labor Party will be interpreted as nothing more than an attempt to make political capital out of an unfortunate and extremely delicate course of events.

NEWFOUNDLAND.

If the recent statement of Lord Morris may be taken to mean that the general abating of Newfoundland's opposition to entering the Canadian Confederation is reaching the point at which negotiations may be resumed with Ottawa, The Manitoba Free Press interprets the remarks which the former Premier made at Montreal as implying that this may happen before many years.

BONAR LAW IS GIVEN SUPPORT.

The Chronicle is troubled over the spirit of faction among the independent Liberals, and says: "There are two alternatives proposed to the Government. The Liberal policy is that we should follow France in whatever she does, which policy the country will not look at."

H.G. WELLS FAMOUS OUTLINE OF HISTORY The Romance of Mother Earth

TO-DAY'S INSTALMENT—25 When Man Began to Wrinkle His Forehead

Before we go on to tell how 6,000 or 7,000 years ago men began to gather into the first towns and to develop something more than the loose-knit tribes that had hitherto been made highest political association, something must be said about the things that were going on inside these brains of which we have traced the growth and development through a period of 600,000 years from the ape-man stage.

What was man thinking about himself and about the world in those remote days? Here is a bear, what shall I do? Or "There is a squirrel; how can I get it?" Until language had developed to some extent, the bear could have been little thinking experience, for language is the instrument of thought as a bookkeeping is the instrument of business. It records and fixes and enables thought to get on to more and more complex ideas. It is the hand of the mind to hold and keep.

In Days Before Speech. Primordial man, before he could talk, probably saw very vividly, mimicked very cleverly, gestured, laughed, danced, and lived without much speculation about whence he came or why he lived. He feared the dark, no doubt, and thunder-storms and big animals and queer things and whatever he dreamt about, and no doubt he did things to propitiate what he feared or to change his luck and please the imaginary powers in rock and beast and river. He made no clear distinction between animate and inanimate things. If a stick hurt him, he kicked it. If the river foamed and flooded, he thought it was hostile.

His thought was probably very much at the level of a bright little contemporary boy of four or five. He had the same subtle unreasonableness of transition and the same dimness of thought that we find in the speech he would do little to pass on the fancies that came to him, and develop any tradition or concerted action about them.

The drawings even of Late Paleolithic man do not suggest that he paid

any attention to sun or moon or stars or trees. He was preoccupied only with animals and men. Probably he took day and night, sun and stars, trees and mountains, as being in the nature of things—as a child takes its meal-times and its nursery staircase for granted.

So far as we can judge, he drew no distinction or anything of that sort. The Reindeer men's drawings are fearless familiar things, with no hint about them of any religious or occult feelings. There is scarcely anything that we can suppose to be a religious or mystical symbol at all in his productions. No doubt he had a certain amount of what is called fetishism in his life, he did things we should now think unreasonable to produce desired ends, for that is all that we know of his religion. No religious or occult feelings, no incorrect science based on guess-work or false analogy, and entirely different in its nature from religion.

Perhaps there was a certain power of suggestion in these encounters. A fear really felt needs few words for its transmission; a value set upon something may be very simply conveyed. In these questions of primitive thought and religion, we must remember that the lowly and savage peoples of to-day probably throw very little light on the mental state of men before the days of fully developed language.

Primitive man could have had little or no tradition before the development of speech. All savage and primitive peoples of to-day, on the contrary, are soaked in tradition—the tradition of thousands of generations. They may have weapons like their remote ancestors and methods like them, but what were slight and shallow impressions on the minds of their predecessors are now deep and intricate grooves worn through the intervening centuries generation by generation.

Copyright, 1921, by the Macmillan Company. Published by arrangement with the McClure Newspaper Syndicate.

the caribou in Labrador must be living under circumstances rather like those of the Reindeer men. They scatter in small family groups, the caribou scatter in search of food; but when the deer collect for the seasonal migration, the Indians also collect. That is the time for trade and feasts and marriages.

The simplest American Indian is 10,000 years more sophisticated than the Reindeer man, but probably that sort of gathering and dispersal was also the way of Reindeer men. At Solutre in France there are traces of a great camping and feasting place. There was no doubt an exchange of news there, but one may doubt if there was anything like an exchange of ideas. One sees no scope in such a life for theology or philosophy or superstition or speculation. Fears, yes; but unsystematic fears; fancies and freaks of the imagination, but personal and transitory freaks and fancies.

Life Without a "Past." In these questions of primitive thought and religion, we must remember that the lowly and savage peoples of to-day probably throw very little light on the mental state of men before the days of fully developed language.

To-morrow — "The Education of Fear."

WHISKY AND WINES TO FLOOD THE STREET

Big Barrels of Brandy and Sherry Also to Be Turned Loose

Gonzales Port Prices Go Up; Export Concern Moves Near Border

While the mist of dawn is still hanging in the air, some morning this week, thousands of dollars worth of whiskies of all kinds, wines and beer, will be turned out of the main liquor warehouse at Vancouver to flood the gutters and sewers.

The Liquor Board yesterday decided that it has 250 bottles of gin, maraschino, rum, Highland cream and some rare concoctions that are all unfit for human consumption and must do duty in the sewer. Most of the liquor was taken from individuals by liquor officers.

Employers should aid registration

Slow Progress During First Week of Householders' Registration

Employers should take a pride in seeing that their establishments score a "possible" in the matter of civic registration, the Gyro Club feels, and, unable to supply sufficient notaries to call at the various stores, offices and factories in the city, the organization asks that the heads of concerns co-operate in the Get-a-Vote Campaign to the extent of seeing that their employees place their names on the voters' list.

CHIEF JUSTICE'S OPINION OF ELDERLY WINNER

Why He Joined With Majority of Appeal Court in Favor of Police

Chief Justice Macdonald, in allowing the appeal and decreeing probate of the will of Frank R. Roundy in favor of Frank Pulice, gave the following judgment last week in the Court of Appeals.

"I am convinced that the deceased was quite capable of making the will which is questioned in this action," said His Lordship, "it is true that the learned trial judge came to a different conclusion, but I think on careful consideration of the case it will be seen that his conclusion is based on inferences drawn from facts and circumstances which were either not in dispute or which had been sufficiently established. In such a case the Appellate Court is in just as good a position to draw inferences as was the trial judge, whose opinion I differ from with great respect.

Medical and Other Evidence. "I agree with the learned trial judge when he says that the evidence that evidence is not entirely satisfactory, because conclusions rather than evidence are stated therein. That is true of all the medical evidence; it is true of the evidence of Dr. Fraser, the attending physician as well as of others who were not attending physicians. With regard to Dr. Fraser's evidence, it must be remembered that he is a very busy practitioner, and that his attendance on the deceased was two years before the date of trial. His recollection therefore is not very clear. He says bluntly that the deceased was not, at the time the will was made competent to make a valid will, but that opinion is not founded on any clear indications of incompetency. Of course if this pronouncement were conclusive there would be no necessity for courts of justice to examine the evidence. Most of the medical evidence is in the category of expert evidence, and subject to the observations to which such evidence is open. To my mind the evidence of the deceased for many years before his stroke, is much more valuable than the evidence of physicians given in the manner in which the medical evidence was given in this case. Having known the deceased when there was no question of the soundness of his mind, Mr. Naden was in a position to detect a change, if any, in that condition resulting from his stroke of paralysis. There is no question prior to the stroke as to the deceased's competency to make a will. After the stroke his condition was that of physical infirmity, not of mental disease. After he had been in the hospital some days and had begun to think of the future and of his property, the deceased, who had previously known and had been friendly with the appellant, asked the appellant to procure for him a notary as he wished to make his will. A notary was procured who was not therefore acquainted with the deceased. The will was prepared on the instructions of the deceased, who gave a clear and accurate statement of what he possessed in the United States and part in Canada. He gave that part, valued at about \$25,000, which was in the United States, and that part which was in Canada, valued at about \$10,000, he gave to the appellant. Undue influence on appellant is not shown. The appellant is not shown to have procured the will on this ground, or to have procured the will on this ground, or to have procured the will on this ground.

VICTORIA LIBERAL ASSOCIATION ANNUAL MEETING, Wednesday, Oct. 11

Special Announcement

Wrigley Directories, Ltd.

CONSIDERS USE OF MAILING MACHINE

Will Expedite Handling of Mail; Records Total Postage Used

A postage meter machine, an ingenious device which greatly expedites the sorting and dispatch of mail matter and eliminates to a great extent the necessity for the purchase of large quantities of stamps by business firms, is being considered by the Post Office Department.

Approval of this device is under consideration by the Post Office Department, following a demonstration by order officials. The machine, which is driven by a small electric motor, prints an impression on each letter signifying that so many cents postage has been paid, and the machine automatically records the quantity of letters thus paid for on a meter system.

The Post Office controls this machine, which is called the postage meter. The machine is set to record the number of letters specified in a permit granted on payment of the amount of postage involved. The device locks automatically when the total is attained. No more impressions can be printed until it is re-set at the post office, but the main portion, however, may be used for sealing envelopes if so desired. Two hundred and fifty pieces per minute is the approximate speed at which this machine may be operated. It also stamps letters of varying size and many benefits will be derived by the big firms by this new method. A list of the benefits has been compiled at the post office, as letters of large quantities of letter may avail themselves of postage being paid in cash there is no necessity to purchase large quantities of postage stamps, no loss of postage through excessive moistening of stamps, and stamps falling off; time saved in mailing letters, and more expeditious treatment at post office, as letters or circulars when mailed are immediately ready for sorting and dispatch.

HARVEST SCENE IS DEPICTED AT MARKET

Many New Commodities Offered; Strawberries Make Prominent Display

A veritable harvest scene was depicted at the Victoria Public Market at the week-end session Saturday when all the stallholders made an effort to offer to the public one of the best displays that has been given there for the past three months.

Note This Price—25 POUNDS FOR \$1.00

For several years this has been our charge for our efficient laundry service. Hundreds of housewives in Victoria recommend our service because it is a genuine ECONOMY.

B.C. SCHOOL TRUSTEES MEET AT PENTICTON

Many Important Questions Will Be Discussed at Convention To-morrow

The three days' session of the British Columbia School Trustees' convention will open at Penticton to-morrow. Penticton has arranged a splendid programme of entertainment for the visitors.

Nearly thirty resolutions will be considered by the delegates dealing with taxation, teachers' salaries, working conditions and other problems connected with school administration.

The most important discussion will undoubtedly occur about school taxation. All the trustees of the province are being faced with increasing difficulties in school financing and several resolutions proposing an improvement in the method of raising money will be introduced.

Among the speakers scheduled to be heard are President Klink of the University of British Columbia on "Some Cleanings from the Congress of Universities, the Environment" (illustrated with lantern slides), and R. P. S. Twizell on "Modern School Buildings."

The World's Best Piano Music at Your Disposal to Play When and as You Like It.

-the Ampico is not a mechanical player-piano

It is the one and only player-piano that reproduces the playing of the world's great artists without you having to bother with tempo and expression adjustments. Just put on the roll.

THE DIFFERENCE

A clergyman once told a story concerning a man he had approached for a contribution towards the church steeple. No amount of persuasion would make the man give anything, and at last he said to him, "Why not? Isn't the cause a good one?" "Yes," answered the man, "but the fact of the matter is I owe too much money. I must be just before I'm generous, you know."

The man who stands on his dignity never gets so tired as he makes other people.

PORTLAND MAKING BID FOR ALBERTA GRAIN BUSINESS

H. L. Hudson, of Portland Commission, Seeks Co-operation at Calgary

Calgary, Oct. 9.—Portland, Ore., is bidding for the Alberta grain trade, according to H. L. Hudson, traffic manager of the Portland Commission of Public Works, who is at present in Calgary.

Mr. Hudson said Portland experts want to secure the co-operation of Alberta grain interests in obtaining a lower rate for grain shipped from Calgary to Portland via the C.P.R.

"Up to the present," he said, "we have not handled any Alberta wheat because of the high freight rates between Calgary and Portland. The present rate is 53 1/2c, while the rate between Calgary and Vancouver is 41 1/2c."

"The distance between Calgary and Vancouver is 641 7/10 miles, while between Calgary and Portland it is 426 1/2 miles. This would make little difference in the rates to Vancouver and Portland from Calgary."

To have her propellers repaired and a lot of underwater work done by Yarrows, the Italian steamer "Trenta" of the Navigation Company, Trieste, Genoa, now loading lumber at the wharf of the Canadian Puget Sound Lumber Co. in the upper harbor, will not have to go around to Esquimalt, and entering drydock.

Workmen on barges will get at the party resulting from tipping the boat up. This will be done by loading the bow until the propellers and part of the keel stick out of water.

The boat is taking on 4,000,000 feet of lumber here for New York.

She took 29 days in her trip across the Pacific from Honolulu. She encountered rough weather and sustained some damage. She was built two years ago at Genoa. Capt. Marino Martinovich is in command.

Workmen on barges will get at the party resulting from tipping the boat up. This will be done by loading the bow until the propellers and part of the keel stick out of water.

The boat is taking on 4,000,000 feet of lumber here for New York.

She took 29 days in her trip across the Pacific from Honolulu. She encountered rough weather and sustained some damage. She was built two years ago at Genoa. Capt. Marino Martinovich is in command.

CONCILIATION BODY TO SETTLE MARINE DISPUTE IS NAMED

Ottawa, Oct. 9.—(Canadian Press)—A board of investigation and conciliation has been named in the dispute between the Canadian Pacific's British Columbia Lake and River Navigation Service and certain employees, members of the Canadian Navigators' Federation, British Columbia section of the National Association of Marine Engineers.

The men directly concerned, 35 in number, operate vessels on the Kootenay, Slocan, Arrow and Okanagan lakes. Some 1,250 men, crews of the vessels concerned, are indirectly concerned in the matter.

The board is composed of Robt. Lennie, chairman; E. A. James, an engineer, named by the company, and one who is named by the representative. All three board members are Vancouver men.

The dispute arises from proposals to amend the schedule and working conditions.

The board is composed of Robt. Lennie, chairman; E. A. James, an engineer, named by the company, and one who is named by the representative. All three board members are Vancouver men.

News from the Ocean Lanes

CANADA MAKES PORT ON THIRD PACIFIC VOYAGE

Ship Has Speed and Is as Steady as a Rock, Says Her Commander

Brings in Total of 365 Passengers and 1,200 Tons of Silk

Emerging from a barrage of fog which enshrouded her off the Race Rocks, the crack trans-Pacific liner Empress of Canada, Capt. A. J. Hailey, R. N. R., of the Canadian Pacific Steamships, Ltd., arrived at Pier 2 at 10 o'clock this morning, completing her third voyage from Hongkong, Shanghai, Kobe and Yokohama.

The big three-stacker made quarantine about 8 o'clock after a smart passage of 9 days, 7 hours and 30 minutes from Yokohama, which port she cleared from at 4 p. m. Sept. 30. The remaining time for the trans-Pacific passage was taken from Kannonaki-off Yokohama, break-water, to William Head quarantine station.

The Empress of Canada brought in a total of 365 passengers, those being 104 in the first class saloon, 55 second class, 46 third class, and 259 Asiatic steerage. She carried a full Oriental cargo which included 1,200 tons of raw silk for the Eastern markets.

Delayed at Yokohama. Delayed four hours in her departure from Yokohama on September 30, the Empress of Canada got away to sea one hour after the departure from Yokohama of the United States Shipping Board steamer ship President McKinley. The McKinley was passed the next day at sea and easily assumed the lead arriving in quarantine seven hours ahead of the American ship. The Empress of Canada is making a name for herself in the Pacific service. Her speed is as yet undetermined for so far she has not been extended, but Capt. A. J. Hailey, her commander, is confident that he can get 21 knots out of her if the occasion should arise.

On this voyage the ship averaged 18.8 knots and for the greater part of the trip she was only using fourteen of her battery of sixteen boilers.

Steady As a Rock. She is also gaining a reputation for steadiness at sea. "We had a bad following sea on our quarter outside and a roll of 10 degrees was almost imperceptible," said Capt. Hailey in discussing the performance of his ship on her most recent voyage. "Any other ship would roll at least 20 degrees under similar conditions," he said. "She is as steady as a rock."

"While we were at Honkong a typhoon blew up and we were forced to leave our berth and go to an anchorage outside. We had just half her boilers working at the time and I was surprised at her steadiness. The force of the typhoon can easily be imagined when it is understood that the wind cut off the top of the waves and hurled the sprindrift before us."

Japanese quarantine regulations were partly responsible for the delay to the Empress of Canada in clearing from Yokohama.

Mat Fog Here. The ship just escaped being delayed in quarantine here by fog. When the Empress was steaming up the Straits the weather was clear, but as she rounded Race Rocks the fog shut down. These sea-and-fog-in-the-harbor, however, and the ship was docked without trouble.

A number of first class passengers disembarked here in addition to the usual complement of Chinese steerage.

Mails for the aerial route to Seattle were put ashore here and taken across the water by Eddie Hubbard in his seaplane.

The Canada got away from Pier 2 at 11:30 for Vancouver.

The officers of the vessel were greatly interested in the mishap to the liner Empress of Australia and evinced an eagerness to learn the real cause of the engine trouble which caused the ship to put back to port.

RATE IS RAISED ON BULK GRAIN

Increased Activity in Grain Bookings to Europe Noted

Vancouver, Oct. 9.—A very marked increase in activity in bulk grain to the Continent started last week and is continuing. Space prices have jumped and there is nothing more offering than the regular lines have taken care of. It is said by shipping men that from 14,000 to 20,000 tons was being offered on Friday. The Royal Mail Steam Packet Line has booked several thousand tons of the first 35-shillings sale sold this year. The Harrison Direct Line reports additional space sold on ships which already have booked wheat to Europe and that Saturday was \$7.778 tons.

The R.M.S.P. announces 1,500 tons on the Cardiganshire for November, 2,000 tons on the Loch Rannoch for January. The increase in rates is 2s 6d—last year the rates opened around 30s, the same as this year and rose to about 45s, where they stayed until March, when some space was booked at about 41s 6d. It is thought the latter figure will be reached and perhaps exceeded this season.

SS. Astronomer has added 300 tons to the 3,500 tons already reported. SS. Stateamer has booked 2,200 tons. Actual shipments of grain made to date are not heavy. The SS. Glamorganshire of the R.M.S.P. will be the first of the first cargo with 17,300 bushels of rye for Rotterdam; SS. Craftsman has sailed with 20,000 bushels of wheat; City of Durban has 20,000 bushels for Holland; SS. Ixion took 23,000 bushels to Japan. The Belfast Maru went to the grain-berth to start loading 8,000 tons for Europe.

Dingwall, Cotts & Co. report the SS. Margaret Coughlan will sail tomorrow from Portland for Montreal with 4,750,000 feet of lumber.

ADMIRAL BOATS CALL. The Admiral steamship Dorothy Alexander left port at 9:30 a. m. yesterday on her southbound voyage to California points. Over one hundred passengers boarded the ship at this port.

The Admiral Dewey docked here yesterday from San Francisco and cleared shortly after 10 a. m. for Seattle.

SEEKING HIS LOST MASTER

"Billy" Quebec's tramp dog, is still seeking his lost master. When the boys came back on the "Empress of France" he and "Billy" became separated and "Billy" has been looking for him ever since. He meets the "Empress" each time she arrives at Quebec, sniffs at the passengers who come down the gangway, walks away with an air of disappointment and then waits for the next passenger ship. Everybody's friend but no man's dog for long. "Billy" has many names as he has friends answering with a wag of his tail to "Bum," "Tramp," "Bijou," "Rags," "Paddy," etc. Now and then an admirer takes "Billy" home, but in a few days the little, wire-haired terrier is nobody's dog again—nobody's but the lost master—and is back on the docks once more to meet the ships and him.

How "Billy" knows when a passenger ship is due is a mystery of the docks. He is as regular and prompt as the customs' men, greets the incoming steamer with joyous barking, and after he has nosed the job of placing the great hawsers which moor her alongside the pier, he dashes to the gangway and looks for once familiar figures, kinkie-clad. Perhaps some day the lost master will return. And if he does, faithful "Billy" will be there.

PERFECT EQUALITY. Father—"Why is it that you are always at the bottom of the class?" Johnny—"It doesn't make any difference, daddy; they teach the same things at both ends."—Western Christian Advocate.

VOYAGE MARKED BY EXCITING INCIDENTS

Gales and Discontented Crew Marked Long Passage of Str. Hopkins Bros.

Vancouver, Oct. 9.—The coasting steamer Hopkins Bros. Capt. T. Chermiside, is here after a most eventful trip from the United Kingdom. The Hopkins Bros. left England the same day that Shackleton's ship, Quest, sailed and rode out the same heavy weather that forced the Quest to seek shelter.

According to officers of the steamer, the crew, which was taken on at Southampton, developed strong feelings of mutiny as soon as the vessel reached the seas where pirates once reigned in all their glory. Fyval, in the Azores was reached without incident, and coal was taken for the run to Panama. This was early last Winter. Drunkenness among the crew caused neglect, which burst out the boilers a few days from Fyval. For fourteen days the Hopkins Brothers lay at the mercy of rough Atlantic gales before temporary repairs permitted getting enough steam to limp back to St. Michael's in the Azores. The crew was continuously drunk. At 3 a. m. the morning of arrival they attempted to kill the captain with an iron bar, but he held them off with a revolver. That day he and the mate went ashore, complained to the Portuguese police, and a detachment of constables, gay in gold and blue, swords and revolvers, went aboard and arrested the ringleaders. The remainder of the crew was sent back to England.

Boiler repairs were necessarily obtained from England. Owing to strikes there was great delay, and this was increased by unrest in Portugal, which made customs clearances difficult through Lisbon. After eight months the Hopkins Brothers was again ready for sea and sailed the latter part of August for Vancouver, with a new English crew.

The vessel was built in England in 1916 and was engaged in patrol work between the North Sea and the coast of Iceland during the war. She has a stout steel hull with five water-tight bulkheads, a length over all of 155 feet, beam measurement of 25 feet and a draught of about 2 feet. She carries a special set of admiralty-built triple expansion engines 14-1-2 by 24-1-2 by 39 inches with 24-inch stroke fed by two boilers built by Babcock & Wilcox and developing a speed of fifteen knots and is fitted with a large electric lighting set and a steam steering gear service; she has a cutaway keel and balanced rudders aft for quick manoeuvring and stands at present as she was during service in the navy.

It is the intention of the owners, Messrs. Hopkins Brothers of Hopkins Landing, to reconstruct her upper works in this port and adopt her for passenger service on Howe Sound, where her manoeuvring qualities and shallow draught will make her especially valuable.

SETTLERS ARRIVE ON VICTORIAN

Party of Britishers With Means to Look Over Western Canada

Quebec, Oct. 9.—Several British families of means who have come out to Canada to look the country over will be held at New York October 10.

After the convention Mr. Bayley will pay a visit to all the industrial plants of the West, including Chicago, engaged in the manufacture of agricultural implements. Among the returned Canadians in the cabin were: Mrs. H. F. Byles, Calgary; Alva; Mrs. N. Bond, Mrs. D. J. and Miss M. Rowley, Toronto; Mrs. E. Grenfield, Mrs. M. C. Henderson, and Mr. and Mrs. E. S. Jackson, Mr. and Mrs. B. Newcomb, Toronto; A. W. Chalkfield, E. Kincaid, A. D. MacDonald, Mr. A. M. and Mrs. Macfarlane; Mr. and Mrs. E. Phillips, Montreal; G. H. Galton, Durham, Ont.; Mrs. A. L. E. Riekman, E. J. Hewitt, Mrs. M. H. Hodgson, Vancouver, B. C.; and Miss W. Fleet, Aurora, Ont.; Mr. and Mrs. W. Forshaw, Brooks, Alta.; F. Graham, Peterboro, Ont.; Mrs. L. Harkins and family, R. Lawson, Winnipeg; Mrs. B. A. and Miss D. McDonald, Mountain Park, Alta.; Mr. and Mrs. A. Marr, Saskatoon, Sask.; Mrs. L. Rathburn, Cobalt, Ont.; G. Scott, Billington, Ont.; Mr. Starn and family, Fernie, B. C.; Mrs. W. Thomas and family, Ottawa; Mr. and Mrs. A. Weatherill, Regina, Sask.; Capt. A. C. McWilliams and family, Victoria, B. C.

M'KINLEY HERE FROM THE ORIENT

The Admiral liner President McKinley reached port this afternoon from the Orient. The American ship passed in at the Cape at 10:20 a. m. and reached quarantine about 2:30 p. m. Docking later at her usual berth at Pier A, Ogden Point.

AUSTRALIA MAY GO TO BREMERTON

Freight Is Now Being Transferred from Disabled Ship at Vancouver

The Empress of Australia, which returned to Vancouver last week with her port engines disabled, is now discharging her cargo. Part of the Australia's freight will go out on the liner Empress of Canada, which arrived at this port to-day from the Orient, and which vessel is scheduled to sail outward October 19. The Japanese steamship Toyama Maru is also taking out freight transferred from the disabled ship. Captain E. Becham, superintendent of the Canadian Pacific Steamships, Ltd., on this coast, states that no decision has been reached as to where repairs to the Empress of Australia will be made.

Bremerton Favored. It is understood, however, that the company engineers are of the opinion that the work can be done most quickly at the Bremerton Navy Yard on Puget Sound, and the big passenger vessel may be sent there.

Todd Drydocks, Inc., of Seattle, are interested and representatives of the company have been in Vancouver endeavoring to land the contract. It has been announced that the trouble to the port engine was caused by a band in the shaft. It is reported to be probable that a new shaft will be installed.

BANK BRANCH IN MANITOBA ROBBED

Bold Daylight Crime Done in Alberta

Winnipeg, Oct. 5.—A masked robber entered the Alberta, Man., branch of the Bank of Montreal at noon today, locked the manager and junior clerk in the vault, unlocked the teller's cage, scooped up \$2,000 in cash and escaped in a waiting automobile, which was standing in a lane at the rear of the building. Three other men were in the car, which bore no license number.

This is the first daylight robbery in the series of bank hold-ups throughout Manitoba and Saskatchewan in recent weeks.

NEWS IN BRIEF

Roof Caught Fire.—A roof fire in a residence at the corner of Fenwick and McClure Streets, at 12.30 p. m. to-day gave the fire department a run.

St. Columba L. A.—Ladies of St. Columba Church held a very successful sale of work Saturday, finding a very good stand at Spencer's. Mrs. Charles Wilson was in charge. The delicious home-made cakes and pies, bottled fruits, etc., were greatly in demand.

Daisy Chain Chapter.—At a meeting of the Daisy Chain Chapter, I. O. D. E. held Saturday, plans for the forthcoming Winter were made, and it was decided to change the date of the meetings to the first Monday of the month, at 4 o'clock, at the home of the regent, Miss Norris.

Women's Auxiliary, A. and N. V.—The sale of work and home-cooking held Saturday in Spencer's Store by the Women's Auxiliary to the Army and Navy Veterans was a financial success. Mrs. Charles Wilson was in charge, with Mrs. Weeks assisting. The auxiliary expresses its thanks to the firm of David Spencer, Ltd., for the use of space in the store.

Veterans' Smoker.—There was a very large attendance and everyone thoroughly enjoyed the programme given at the smoker in the Veterans of France Saturday night. Those who assisted in the splendid programme were: Messrs. Chris Wade, Joe Ramsay, William Boggs, George Ingledew, Horce Potts, Thomas Kelway, Laurie Brunell, F. Megyfield and daughter, Ernie Impett and George Marshall.

Will Still Operate.—The Pioneer Drug-Store of this city will continue to operate under the same name as the result of George Chadwick, Joseph H. Emery, and Thomas Shotbolt, who bought the business, name and goodwill from the estate of the late Thomas Shotbolt. The only difference in the name will be that limited will be attached to the present name of Thomas Shotbolt.

Will Debate Single Tax.—A debate on the following: "Resolved, that Single Tax is Best Method of Taxation for the City of Victoria," will be the feature of the regular luncheon of the Kiwanis Club at the Dominion Hotel to-morrow. The function will open at 12.14 p. m. Kiwanians J. B. Clearhouse and H. G. Hinton will speak to the affirmative, opposed by Kiwanians Reginald Hayward and W. C. Gaunce. A three-piece orchestra will be in attendance.

Canadian Legions.—The smoker given by the Canadian Legion in their Douglas quarters Saturday evening was very largely attended, and a splendid programme was given. Community singing was indulged in, and everyone had a very good time. Comrade E. L. Knott presided, and among the artists who assisted were: George Potter, Sidney Corassey, Laurie Brunell, Alfred Siskner, Comrades J. W. Van Com, Mrs. E. J. Harris acted as accompanist.

Need More Work.—The will to work harder individually, civically and nationally, is the need of Canada at the present time according to A. Vanderstraeten and L. W. Van Com, who are touring the Dominion, and now at the Empress Hotel, Belgium lost her markets during the war, and the re-construction of the country has led to a modernization of industry with some benefit to the internal resources of the country.

Open Community Concerts.—The Community Concerts to be staged on Saturday at the Armories by the Band of the Fifth Regiment, C. G. A., opened Saturday with an excellent premier entertainment at which about 1,000 were present. The Crusaders Club furnished two teams which engaged in a brisk basketball tussle. The game finished with a close win for the "A" team, by a score of 23-19 points. Dancing followed, being patronized by the general public. Much of the success of the entertainment, and for the inauguration of the Winter series is due to the committee—Major E. B. Monk, including S. M. Hatcher, B. S. M. Bowden, B. Q. M. S. McNaughton, B. Q. M. S. Food, Sgt. Colbert, Bandmaster Rumbay, Sgt. McIntyre, Sgt. Phillips and Gunner Zala.

Car is Damaged.—Nails one inch and a half long were driven into four tires of a car owned by F. J. Roscoe, 3024 Caledonia Avenue, while the vehicle was parked outside the Royal Victoria Theatre on Saturday evening last. No reason for the malicious act has been found.

Defaced Windows.—No less than seven premises were visited by a gang of youths during the week-end, and a trail of wild damage being left behind the operations of the gang, using diamonds, or more likely, cheap glass cutters, the boys scratched and drew pictures on plate glass windows of many of the downtown stores. The police are investigating.

Reeve Lockey Hurt.—While cranking his automobile this morning, Reeve Lockey of Esquimaux suffered a painful injury to his right hand. The machine was cold, and he had to crank it to get it started. The crank kicked back and struck the Reeve so violently that he was thrown back and the flesh was bruised from his little finger, the first finger being severely bruised as well.

Fire Cracker Quizzes.—The use of fire crackers or squibs within the city limits is prohibited by section 99 of the Streets By-Law, stated the police yesterday. The constant stream of complaints against juveniles in this connection has led the police to adopt stern measures with the offenders. The depredations of the boys range from chasing elderly Chinese with lighted fire crackers to throwing the squibs on to front porches of city residences.

In Police Court.—Charged with being found in an opium den at cabin in the rear of 821 Herald Street, Wing and Ah Chong were each fined \$25 and costs in the city police court to-day. Both pleaded guilty. Chief Fry told of the raid in which detective Rogers, McLellan and Calwell took part. Lum, charged with being the keeper of the same premises, was remanded until Thursday at the request of Crown Attorney counsel for the defence. C. Macfarlane, charged with exceeding the speed limit of fifteen miles an hour on Douglas Street, was fined \$10 and costs. He was charged on remand with being in possession of stolen goods, was remanded until Wednesday for hearing.

Sustained Fractured Leg.—As the result of a collision between a motor cycle and a motor car at the corner of Government and Simcoe Street yesterday at 8.15 p. m., William Reynolds, 377 Dunedin Street, sustained a fractured leg. The man was riding a motor cycle at the time of the collision and was taken at once to his home in Cameron & Calwell's ambulance. C. Chafe, 2619 Blanshard Street, was the owner of the car.

Goes Into Business.—Ex-Detective Macdonald, who is well-known in Victoria, has gone into business for himself. He will in future be found at the Bellevue Cigar Stand on Yates Street, the business of which he recently purchased.

Maccabees Met.—The first regular bi-monthly meeting of the Queen Alexandra Review No. 11 of the Women's Benefit Association of the Maccabees was held in the K. of P. Hall, Thursday evening, with Commander Mrs. Galbraith in the chair. It was reported that Mrs. Hodgson, Provincial Commander, is somewhat better, but will not be able to resume her duties for some time. Several reports were received from the convener of the various stalls for the bazaar, which show that they intend to make the bazaar a success. It was decided that the bazaar be held November 2. There was a fairly large attendance of members and a good deal of business was transacted, including two initiations. The litera-

Will Not Hold COUNCIL MEETING

Owing to the absence of Mayor Marchant and the fact that no important business is pending, no meeting of the City Council will be held to-night. The civic Finance Committee, however, is meeting this afternoon to consider the further distribution of Dr. Adam Shortt's report on the city's financial position. The committee also is considering the advisability of making a grant of \$5,000 to the British Columbia Agricultural Association.

DAMAGE BY FIRE TO JAMES BAY HOUSE

Fire which is thought to have started in the kitchen and which blazed through to the roof before it could be brought under control did considerable damage to the home of W. C. Winkel, 218 Simcoe Street yesterday. The outbreak was noticed at 8.17 p. m., when the alarm was rung in.

The Fire Department responded in good time and a serious battle took place, in which the fire fighters were eventually successful. The rear of the house was considerably damaged.

YOUTHFUL JOY RIDERS STEAL CAR

In response to a report that a Ford delivery car had been stolen, the police yesterday were active in the chase of two boys, each of twelve years, who were found to have taken the car, driven to Colwood, and returned to the city before being caught. The car was returned to the owner by the police, being discarded by the boys within a few blocks of the point from which they took it.

TWO LAWYERS CALLED TO BAR

In a brief ceremony before Mr. Justice Morrison in the Supreme Court chambers to-day W. C. Morehead in response to the Chamber's representations, Ottawa has instructed Major Johnson, of the Department of Trade and Commerce, to visit Victoria on his present tour of investigation to promote foreign trade.

Frank Waring gave a report on the activities of the Tourist Group, outlining the plans for the establishment of a suitable camping site for motor tourists and the plan for holding a "Visitors' Night" once a week during the winter months. In conjunction with Mr. Waring's trip to the prairies to induce people to visit here the Group will do its best to make the visitors feel at home and anxious to remain longer at the establishment.

The Development Group of the Chamber is continuing its work in regard to building up greater cooperation between Victoria and its surrounding districts in relation to trade and other matters.

Mark Graham and E. H. Wilson, newly-elected directors, were welcomed by President J. W. Spencer.

Remember the Poudre Party of the W. C. T. U. Home, 10a. Street, on Tuesday, October 10, 3 p. m.

URGENT CANADIANS TO VISIT COAST

Chamber of Commerce Approves Lecture Tour

Canada should do everything possible to keep her money at home, and in order to induce prairie people to spend their winter vacations here, the Public Bureau is sending Geo. L. Warton on the western tour already reported in The Times, Alderman E. Todd informed the directors of the Chamber of Commerce at to-day's luncheon at the Dominion Hotel.

The directors approved of the scheme as a move that should result in bringing a large number of visitors to Victoria and the Island.

UNION'S DECISIONS FORCE CHANGES IN CITY PRIVATE BILL

Victoria to Press Legislative Plans in Spite of Cities' Veto

Gas Tax Abandoned; Mayor's Schemes Emphatically Rejected

City officials commenced to-day to untangle a mass of conflicting resolutions and legislative proposals passed by the Union of British Columbia Municipalities at its Kamloops convention last week.

The action of the Union on many of the resolutions will necessitate changes in the city's private bill to be brought before the Provincial Legislature when it meets at the end of the month, it was explained at the City Hall this morning. This work will not be taken up by the Council until next week, however, as no Council meeting will be held to-night.

The Council is determined to press many of the legislative plans turned down by the Union, it was learned. In the first place, it will proceed with its plan to collect taxes in monthly instalments. Victoria's resolution on this subject was rejected by the Union on the ground that cities already had power to inaugurate a monthly tax collection system if they so desired. The city authorities, however, are not sure that they possess such power and will ask the Legislature to put the matter beyond doubt.

Gas Tax Killed.

The Council's gasoline tax plan, which was rejected by the Union, will not be pressed further, as such a tax would have to be province-wide and would be of no use to a single city.

Alteration in the dates on which city assessment rolls must be prepared, as proposed by Victoria, was adopted by the Union so that it will be unnecessary for the city to fight the question alone before the Legislature's Private Bills Committee.

Victoria's efforts at the Union convention were not strikingly successful, in the opinion of city delegates who returned home to-day. Of the twenty-two resolutions presented by Victoria four were carried, it was explained. The schemes brought up by Mayor Marchant were flatly rejected, and His Worship was refused a hearing on some matters. The Mayor's persistence on some of his proposals did not help the Victoria delegation to go through its resolutions, it was intimated to The Times.

The Mayor himself did not return to Victoria to-day. He is spending a few days on the mainland, and will come home about Wednesday.

TURN THE TABLES ON "PREVENTION" WEEK

Gyros Learn How to Make a Good Fire, and Whence Comes the Fuel

Last week at the regular luncheon of the Gyro Club an entertaining address was given on "How to prevent a fire," in connection with Fire Prevention week. This week the Gyros had a talk on "How to make a good fire," from the same speaker. In three words he told how to attain the desired result "Burn Kingham's Coal," but proceeded to elaborate and told the Gyros how to run a coal mine, the various methods employed in getting the black diamonds to the surface, and the system of washing and screening the coal once it reaches the surface.

The Gyros were entertained to a thoroughly enjoyable musical time to-day, for in addition to its eight-piece orchestra the "Geraniums" heard with attention the singing of W. Vaughan Jones and Dai Davies. The musical numbers were exceptionally well rendered, and loudly applauded.

The "Get-a-Vote" campaign undertaken by the Club is making great strides, and the Club is expecting a very large registration as a result of its efforts.

on Tuesday at 2.30 p. m. in the Health Centre.

The semi-annual examinations of the Pharmaceutical Association of British Columbia will be held in the B. C. School of Pharmacy and Science rooms, Pender Street, Vancouver, on Wednesday and Thursday. John Cochrane, the chairman of the board of examiners, and Joseph H. Emery, registrar of the association, will be present from this city. Fred C. Stearnman, of Nanaimo, and John M. Fisher, Vancouver, complete the members of the board of examiners. There are twenty-five candidates writing on the qualifying examinations and eighteen on that of the assistants or certified clerks.

A special meeting of the executive council of the Grand Army of United Veterans will be held this evening at 8 o'clock at 1203 Langley Street, to receive the report of delegates who attended the recent convention of the Provincial Command, which was held in New Westminster, and also to hear the reports of the Dominion convention at Niagara Falls.

The annual meeting of the R. N. W. M. P. Veterans' Association will be held on Wednesday, October 18, at 8 p. m. in the Army and Navy Veterans' quarters, Hamley Building, Broughton Street.

A hearty invitation is extended to all Welsh singers to attend a rehearsal of the above choir to be held at the Congregational Church, corner of Quadra and Mason Streets, on Tuesday evening at 8 o'clock. Splendid progress is being made by the choir and its conductor, D. A. Davies.

The Young Women's Auxiliary of St. Paul's Presbyterian Church intend to hold a concert and social in the lecture room of the church on Tuesday evening, commencing at 8 o'clock. A musical programme consisting of songs, violin, piano and cornet solos and selections, also orchestral selections will be rendered after which tea will be served.

Events to Come

The Victoria British Israel Association will meet at the B. I. Book Depot, 1019 Cook Street (near Fort Street), on Tuesday, Oct. 10, at 8 p. m. The topic will be "Israel, the Hidden People of God."

The Elks Amateur Swimming Club will open their Winter series of dances on Wednesday this week at the Elks Hall, Weiler Building. Dancing will commence at 9 and terminate at 1 o'clock. Ozard's Orchestra will be in attendance and buffet supper will be served.

A rally night will be held by the employed boys of the local Y. M. C. A. to-night commencing at 6.15 o'clock. Formation of clubs and election of officers will be held at this gathering which will inaugurate their new season.

Ward Three Liberals will meet in the Liberal Rooms, Tuesday evening at 8 o'clock. As this is the regular meeting of the Ward, and the last one before the annual meeting a large attendance is looked for. Delegates from the convention will make a report.

The monthly meeting of the Craig-Power Parents-Teachers Association will be held on Friday next at 8 o'clock, when a musical programme will be rendered.

The regular monthly meeting of the Victoria and District Rabbit Breeders' Association will be held in the Y.M.C.A. to-morrow at 8 p. m. A full attendance is requested as the discussion of a joint Winter show with Vancouver will be the chief business before the members.

Ward Two Liberals will meet to-night at 8 o'clock in Liberal rooms, corner Government and Broughton Streets. All Liberals are invited to attend.

To-morrow night's meeting of churchmen and older boys will be held in Christ Church, Cathedral schoolroom at eight o'clock, not in the Cathedral, as stated previously. A conference on "Church Work With Men and Boys" will occupy the evening, led by Francis A. Williams, former Western traveling secretary for the Brotherhood of St. Andrew in Canada, and now Junior work secretary for the Brotherhood in the United States.

Under the auspices of the Knights of the Thistle and the Quilting Club, with the assistance of the Caledonian Society and the Ladies' Auxiliary, a Scottish dance will be held at the Caledonia Hall on Tuesday evening commencing at 8.30 o'clock. The proceeds are in aid of the juvenile pipe band. Wallace's orchestra will provide the music.

A meeting of the Native Daughters of British Columbia, Post No. 3, will take place on Wednesday at 7.30 at the Victoria Club. Plans for the Winter's sale will be made.

The monthly meeting of the Saanich Health Centre W. A. will be held

Kelly's Bat Gives Giants The Series

Miller Huggins Guessed Wrong When He Ordered Bush to Pass Young to Get at Kelly; Long George Then Poled Out a Single That Won Game and Series; Art Nehf Wins Final Game For McGraw; Score 5-3.

New York, Oct. 9.—The New York Giants are once more baseball champions of the world. They reached that pinnacle of success for the second consecutive year in a furious uphill rush yesterday afternoon that flung the Yankees to defeat, 5 to 3, and crushed a disgruntled pitcher, Bullet Joe Bush. It was the second successive time that the Yankees have bucked the Giants in a world series and failed. This year they went down ignominiously without the solace of having won even one of the five games that comprised the battle for the title. The best the Yankees could do was to tie the second game of the series. The Giants won the other four.

In all the annals of the game, only two clubs ever triumphed in a world's series in such a decisive fashion. In 1907, the Chicago Nationals won four straight victories over the Detroit Americans after fighting a twelve-inning first game to a 3-2 tie.

Savage years later the Boston Braves surprised the fans of Canada and the United States by wrecking Connie Mack's superb Athletics four games in a row.

Row in Yankees' Camp.—The final downfall of the Yankees was that of a home momentarily divided. Miller Huggins, the head of the household, which was then enjoying a 2 to 2 lead over the Giants, differed with the manager, Joe Bush, in his strategic programme for blocking the onslaughts of the champions in the eighth inning.

Giants Break Loose.—And then in the eighth, the courageous Giants flung out their challenge to the Yankees' first baseman, halted them for a moment by stopping Bancroft's hard blow back of first base and leaping to the bag just in time to beat the runner. But when the Giants could not be denied a victory quick and sure, Brox cut the diamond squarely in half with a single that ripped through the turf into centre field.

Huggins Made a Guess.—At this moment there popped into the mind of Miller Huggins the best way out of the difficulty was to let Young walk to first, filling the bases, so that a force out would be facilitated. He was willing to take a chance that Kelly, who has been weak in his recent batting, would continue to be weak. So he ordered Bush to walk Young. Later both Giant and Yankee players said it was a splendid example of real inside baseball strategy.

Kelly Delivers.—And then Kelly, who bats right-handed, opened at the plate. Bush's first pitch to him was a ball. The next was a speedy curve. It cracked off Kelly's bat and into centre field at a fast clip, scoring Frisch and Meusel. Huggins had guessed wrong. Bush perhaps had won a moral victory, but everything else was lost.

Young tallied a moment later on King's Texas leaguer to left, but Snyder ended the inning by flying to McMillan.

Meusel popped to Bancroft and Schang and Ward fled to fouling in the ninth, and the Giants raced from the first world champions for another year.

The strategic move referred to occurred in the eighth inning when Miller Huggins ordered Bush to pass Young, the Giant rightfielder, a left handed batter. The Yankees at that time were one run ahead of the Na-

Little Arthur Again Twirls The Deciding Game In Series

ART NEHF

In the world's series last year little Arthur Nehf, the midget southpaw of the Giants, twirled three games against the Yankees and he was beaten in two of them because young White Hoyt was pitching a little better ball than he was. Undaunted Nehf opposed Hoyt in the eighth game of the series and this time the verdict went in favor of Nehf and with his victory the Giants won the series. It remained for Nehf to twirl the deciding game this year. Yesterday he went in and opposed the Yankees' ace, Joe Bush, with the Giants needing but one game to clinch the series. Artie won by 5-3, letting the once hard-hitting Yankees down with five singles. Last year he gave the Yankees but four hits in the final game.

Wests Win and Lead The First Division

By virtue of their 1-0 victory over the Thistles at the Royal Athletic Park on Saturday afternoon Victoria West, last year's champions, went into undisputed leadership of the First Division. The only goal of the game came from the toe of Frank Youson's boot after Merfield had brought off a pretty run and centre. The Thistles played a strenuous game to obtain the lead in the division but they were not able to score through.

The two newcomers to the division made their initial appearance on Saturday and both went down to defeat. The Sons of Canada went under before the attack of the Metropolitans by 2-2 and the Crusaders were handed a 4-1 defeat by the Sons of England.

A Hard Game.—The most interesting centre of the battle between the Wests and Thistles for first place in the First Division, both teams did a lot of hustling but showed signs of not being in the best of condition. The second half saw the best play with the Thistles making the least effort to even the score and the Wests in turn fighting hard for additional counters, but both were defeated. Both goals had some narrow escapes.

Crusaders Beaten in Rally.—Although the Crusaders managed to tally first in their match with the Sons of England they were soon overtaken and nailed a goal, Allan being responsible for the shot that beat the Englishmen's custodian. This seemed to be the spark needed to put the Sons on edge and they went out and with the Crusaders tir-

ing under the pace, shot four goals. Tostevin wended the score with the first tally, and right afterwards scored again, putting his team in the lead. Shanaka got the third and Smith the fourth.

Old Rivals Meet.—Two old rivals from the Second Division last year met at Central Park and the Metropolitans were able to emerge victorious over the Sons of Canada by the odd goal in five. Both teams played a fast, sound game, and the only goal in the first half came from a fast shot by "Scotty" Dowds. This player proved the star of the Mets, scoring their three goals. He was originally slated for full-back, but when the club manager to sign Church, of last year's senior team, Dowds was able to go on the forward line.

The teams in the three games were as follows: Wests—Leeming; Whyte and Chester; Baker, Muir and Thomas; McColl, Pender, Youson, Merfield and Sherratt. Thistles—Hewitt; Burton and Tuckwell; Roe, Ord and Wright; J. Watt, Potter, Southern, Swan and T. Watt.

WOMAN SWIMMER EXCELS RECORD MADE BY A MAN

Hamilton, Bermuda, Oct. 9.—Swimmers here to-day are still talking of the three world records made by Sybil Bauer, of Chicago, at St. George Saturday night, including the feat of excellent a world's record made by a man. In the 440-yard backstroke Miss Bauer won from Ethel McGary, New York, establishing world's records in the 300, 400 and 440 yards marks, the figures being respectively 4:19 2-5, 5:50 and 6:25 4-5. The old record was 5:28, held by Harold Krueger, of Honolulu. This was the first time in the history of swimming that a woman has beaten a world record held by a man.

Gertrude Ederle, of New York, is said to have established a world record by winning the 150-yard free style event in 1:45. The former record was 1:49 3-5, held by Charlotte Boyle Clune, of New York, and 1:48, held by Hilda James, of England.

Wests' First Division Standing.

LIVERPOOL APPEARS OUTSTANDING TEAM

Leads First Division With Splendid Goal Average; Sunderland Looms Up; Portvale and Plymouth Spring Surprises in Saturday's O. C. Football

London, Oct. 9.—(Canadian Press Cable) Notable among the several big surprises of Saturday's league football games was Portvale's win on the grounds of Manchester United who have not been particularly successful hitherto in their efforts to return to the first division.

Another surprise was Plymouth's successful raid on the record of Portsmouth whose clean goal sheet was spoiled by two goals. Plymouth, who narrowly missed promotion last season, will now supplant Portsmouth at the head of the southern section of the Third Division.

Liverpool looks like being the outstanding team of the season. Their goal average is now 26 for and 11 against.

Sunderland Does Well.—Another first league side scoring heavily lately is Sunderland, whose four goals look like being the outstanding team of the season. Their goal average is now 26 for and 11 against.

Tottenham suffered their first defeat away from home by Aston Villa. Arsenal alone of the London first league sides won Saturday, beating West Bromwich by a convincing score.

London's second league near the bottom of the table showed some improvement, although Fulham failed at Sheffield.

Sarazen Winner Of World Golf Title

Made Sensational Recovery In Second Day of Match With Walter Hagen and Won Three Up and Two to Play; Golfers Arrange to Play Another Special Match; Sarazen Now Holder of Three Important Titles

Rye, N. Y., Oct. 9.—Gene Sarazen crowned his wonderfully successful season on Saturday when he defeated Walter Hagen three and two in their 72-hole match for the unofficial "world's championship of golf."

Sarazen, the twenty-one-year-old winner of the American open and Professional Golfers' Association titles, was two down after he had battled for 36 holes with Hagen over Oakmont Country Club course in Pittsburgh Friday, but he quickly overcame that lead in this morning's round and led one up when they started the final 18 holes over the Westchester-Biltmore course in the afternoon. Once in the lead he refused to relinquish it.

Sarazen and Hagen held the two most sought-after titles in professional golf and they agreed that whoever was returned the loser in the 72 holes just completed would be given another opportunity and a second match will be arranged with Chicago as the likely scene for the first 36 holes.

Hagen Could Not Recover.—The final 36 holes was contested in adverse weather conditions. Rain, however, did not dampen the ardor of some 1,000 fans who stuck behind the champions until the end, for they remembered Hagen's sensational finish over the same course when he was four down with nine to play against Abe Mitchell and yet beat the Englishman 2 and 1.

There was a gleam of hope for Hagen when he won the ninth hole on Saturday afternoon and reduced Sarazen's lead from three to two holes and then put his tee shot within putting distance at the short tenth hole. Sarazen drove into a trap and his out left him twelve feet from the cup. Hagen's supporters thought their favorite would win the hole and be out one down, but Sarazen held the putt to half in three and from then on was unbeatable.

An Eagle Three.—The eleventh was halved in fours and Hagen's last hope died when Sarazen, after playing two fine shots to the 454-yard twelfth hole, dropped for an eagle three and became three up with five to play.

MONTEAL RUGGER DIES AFTER GAME

Allan Arless, Substituting for M. A. A., Against Argos, Had Neck Broken

Montreal, Oct. 9.—Allan Arless, well-known local athlete, died at the General Hospital last night from a broken neck, sustained in the M. A. A. Argonaut Rugby game played here on Saturday. Arless was conscious after the Argonaut Rugby game played here on Saturday. Arless was conscious after the accident until this evening.

Arless was 26 years old and had seen overseas service with the 78th Battery. He is survived by his widow and a 13-month-old son. Arrangements for a benefit Rugby game in the case of Arless are under way.

Montreal, Oct. 9.—Football circles in Montreal were shrouded in gloom last night as a result of the critical condition of Allan Arless, plucky little quarterback of the Montreal Amateur Athletic Association team, who sustained what are indicated as fatal injuries in Saturday's game here with Toronto Argonauts, Dominion champions. The Argos are equally downcast, despite their 16 to 7 victory and their now commanding lead toward retention of the inter-provincial title.

Arless was knocked unconscious when he went into substitute for Frank McGill in the third quarter. McGill was ruled off after he had draped himself over Gonnacker and in the next play his substitute was knocked down and carried from the field.

It did not develop until after the game was over that he was seriously injured. The game was one of the most stubbornly contested inter-provincial battles witnessed here since pre-war days.

Varsity Defeats McGill.—Varsity triumphed over McGill in the opening game of the inter-collegiate series here Saturday afternoon by the score of 20 to 3. At half time there was little to choose between the two teams, the score being 2 to 1 for the Varsity.

GIANTS SUPERIOR IN EVERY BRANCH

Giants Bat .309; Yankees .203; Groh Led Hitters

New York, Oct. 9.—The official batting and fielding averages for the world's series show the decisive superiority of the Giants over the Yankees in nearly every department of the game. The Yankees excelled in fielding, with a mark of .95 to .972 for the Giants, but in pitching, batting, base running and general ship, the world's champions had a clean cut advantage.

The Giants hit .309 as a team, collecting fifty hits and scoring 18 runs, while the Yankees batted only .203, making thirty-two hits for 11 runs. Groh, Frisch and Emil Meusel were the batting heroes, although Young and Kelly also came through with some timely blows.

Groh, with nine hits out of 19 times at bat for an average of .474, had the best record of any player on either team. The Giants had five singles, four doubles and drove in seven of the winners' runs.

Ward's Only Hits Homers.—Bob Meusel and Walter Pipp, with six hits each, led the Yankees in batting. Ward had the distinction of hitting out the bottom runs. They were the only hits he made and came each time with no one on bases.

Frisch and Groh also were fielding stars. The Giants' play in every department of the game was a shining spot in the aggressive work of the Giants. The failure of Huggins' all-star pitching staff to come through, while the Giants' hurlers showed an expected good form, was the outstanding upset of the pre-series "dope."

A Dismal Failure.—The failure of Huggins' staff to show any prowess at bat whatever, was a big disappointment to Yankee followers. Ruth got only two hits out of seventeen times at bat and seldom was able to get the ball out of the infield. The nearest he came to a home run was in the fourth game when he drove a towering fly to right centre that Cunningham caught a few feet from the bleachers.

"MANSLAUGHTER" NOW AT DOMINION

Rome Before the Fall Disclosed in Striking Photoplay

The most lavish scene since "Jean the Woman" is what is said of the Roman bacchanal recently staged by Cecil B. DeMille for his latest Paramount production of "Manslaughter."

Several years ago the same producer gave to the screen his classic tale of the "Maid of Orleans." At that time thousands of "extras" clad in picturesque costumes of the period, were to be seen daily around the studio and on the massive sets created for that picture.

Since that date there have been many huge scenes filmed at the West Coast home of Paramount Pictures. Hundreds and even thousands of people have worked simultaneously before the camera. But it remained for Cecil B. DeMille to again set a new mark for sheer, spectacular splendor. And he did it with the Roman scenes in "Manslaughter."

The episode, which is used to point a powerful moral, shows Rome just before the fall—pagan Rome with all of its licentiousness and debauched beauty. At the height of the revel while the guests, the dancers and the guards slumber in drunken stupor—the barbarian hordes storm the gates and pillage, burn and destroy everything in their path.

Leatrice Joy in the role of the patrician hostess of this bacchanal and Thomas Meighan as the leader of the barbarians have the principal roles in this as with Lois Wilson—they have in the major portion of the actual story of "Manslaughter."

Credit for the stately settings goes to Paul Irlbe, art director for Cecil B. DeMille's productions, who also contributed to the designing of the hundreds of colorful costumes. An elaborate ballet trained by Theodore Kosloff especially for this occasion figured prominently in the action of this portion of the picture.

Jeanie Macpherson, who adapted Alice Duer Miller's story for the screen, spent many weeks in research work preparing for the actual filming of these scenes. Several famous paintings including the "Thumbs Down" painting depicting the end of a gladiatorial combat were literally reproduced by the producer and scenarist, "Manslaughter," which is Cecil B. DeMille's most masterful and lavish creation is the Dominion's attraction this week.

Patrons of the Royal Victoria Theatre are to be congratulated on their opportunity to see such films as "Kindred of the Dust."

This combination is always a guarantee of real entertainment, and it is doubly so in this instance, for never has a picture reached the screen which contained so many dramatic and romantic elements as "Kindred of the Dust." Thrills galore, a touch of humor and a dash of adventure, with pure romance winding its way through the mazes of the plot, makes this picture one of the events of the screen.

The director has not rested there; he has assembled one of the most capable casts ever found in one picture, and the result is perfect entertainment.

THE TOUCH

"Don't talk to me about colleges!" scoffed the self-made man. "Look at me. Do you suppose I would have been any more successful than I am if I'd had a college education?"

"No," admitted the professor, "but you might have been less inclined to brag about it."—Judge.

OLIVER HITS BACK HARD AT EDITOR WHO MALIGNED HIM

Premier Oliver Saturday attacked a Lower Mainland editor associated with Senator Taylor of New Westminster, who called him a "desperado," and charged that "honest John's truculence" and "the violence of his threats" had blocked the efforts of the P. G. E. promoters to get money in the money markets.

What the editor published last Wednesday—not only called the Premier a "desperado" in the body of the article but in the title he referred to him as "A Railway Desperado."

The Premier quoted this part of the "desperado" article written against him by this editor: "Then in an evil day for the Province 'honest' John came to power; and the temporarily suppressed instincts of the desperado reasserted themselves. The P. G. E. promoters were halted for finance, and Mr.

MECCA OINTMENT

Burns, Sores, Guts, Etc.

Get Free Sample From Your Druggist

Oliver made their further negotiations in the money market impossible by the violence of his threats against them. Within a few weeks he had cost the Province a million and a quarter dollars in the value of rails ordered on the private credit of one of the contractors to be put into the road; but which order was cancelled because of 'honest' John's truculence."

Blocked Shady Rail Deal.

"Here is a plain statement that the Province of British Columbia lost one and a quarter million of dollars in connection with a contract for rails to be used on the Pacific Great Eastern Railway and it is a further fact that the contractors wished to dispose of this contract and take a profit in excess of one million dollars, and that as Minister of Railways I prevented them disposing of this contract, holding that the contract should inure to the benefit of the railway and not to the benefit of the contractor."

"As a fact these rails were delivered to the Government and used in construction of the Pacific Great Eastern Railway and paid for by the Government at the original contract

price, which was considerably less than one-half of what rails could have been purchased for by the Government to replace them had the rails been sold or the contract cancelled as stated by the editor of the Columbian newspaper.

The Columbian newspaper has a record for falsification and I must say that it has never succeeded in pulling off anything more diametrically opposed to the actual facts than are the statements appearing in this editorial."

THOMAS MEIGHAN

in Cecil B. De Mille's supreme achievement

"Manslaughter"

From the Novel by Alice Duer Miller

A Drama of the Mad Age—Dedicated to the Speed-Craving Ladies of To-day

CORRECTION—But No Apology!

We did not mean to mislead when we said "Blood and Sand" was all that the screen could give. We honestly believed it. So did our patrons. "Blood and Sand" was a great achievement—But Greater. Far Greater, is Cecil B. DeMille's Masterpiece, "Manslaughter." And that's a statement we won't have to retract.

HIS FIRST SIX-REEL SUPER-FEATURE

When "Grandma's Boy" was shown in Victoria last week at a private screening before a select audience of Rotarians, Kiwanians and Gyro Clubs and members of the press, it was unanimously acclaimed that it was the funniest comedy ever shown in this city.

CHINESE PICKETING SCHOOLS; FIVE BOYS START WORK TO-DAY

(Continued from page 1.) under the teachers provided for the separate schools. These studies will continue permanently. Picketing was not confined to the separate Chinese schools. Pickets also were stationed at some of the white schools, apparently to prevent the attendance of Chinese who speak English well, and who have been granted permission to attend the white schools. As stated, none of these students, however, have attended the white schools yet. Chinese boys and girls are anxious to start work in the separate classes prepared for them and prevented from attending only by some broad plan to which the Chinese generally have pledged themselves. School Trustees believe. Picketing of the schools is regarded as evidence of this plan. It is thought that the five pupils who attended the King's Road School to-day displayed remarkable courage, under the circumstances. That the Chinese are still determined to fight against the separate school system is evidenced in a letter which they have written to the School Board. The letter to the board, signed by the Chinese Consolidated Benevolent Association, the Chinese Chamber of Commerce and the Chinese-Canadian Club and a large number of guardians and parents of Chinese students, is as follows:

Text of Letter. "Your letter of the 5th instant, outlining the views of your board in reference to suggestions made by the delegation representing the Chinese community and parents which waited upon the board last Monday night, addressed to Mr. H. Hastings, has been handed to us, and we have given it very careful consideration. "We note the objections suggested by you to the proposals put forward on our behalf. "Remembering that your honorable board have been elected by public vote, and concluding that it must be for your well-known ability, we are reluctant to think that such problems as may exist should prove so difficult a solution as to adopt a system which we therefore cannot bring ourselves to believe that your present letter represents your final views. "In order to avoid any misunderstanding we wish here to reiterate that we have the strongest possible objection to the principle of segregation; our objection is based upon the conviction that the very allegations made by your inspector—that of imperfect knowledge of English on the part of some of the Chinese pupils—the segregation system at Rock Bay, which has been practiced during the last eight years, has proved a complete failure. That an acceptance of your present plans would mean an extension of a system which has proved incapable of attaining the objects, viz.: that of securing a better knowledge of English, which your board say they have in view. "We are firmly convinced that under the board's present plans our children will not be able to acquire even a working knowledge of English, and we consider that an acceptance of your plan will mean wasting the best school years of the lives of our children. It is in the best interests of our children, and because we are anxiously considering their future, that we must reluctantly record our objections to it, and beg that your board will reconsider their decision. "Will Co-operate. "We are willing and anxious to co-operate with your board in devising a workable plan in the best interests of all concerned, but we have to remember, and we beg you to bear in mind, that any mistakes made now will be irreparable so far as the children affected are concerned. "We are bitterly conscious of our helplessness so far as legal and constitutional redress are concerned, and we can only invoke the world reputation earned by the British Empire for justice and fair play, and the close friendship which has existed for many years between the British Empire and China, and ask you to give some consideration to our views. "We would be most reluctant to disturb this friendship and the excellent commercial relations which have existed between the two peoples hitherto. "With a view to finding a solution to the present impasse we, therefore, submit the following alternative suggestions for your consideration: "We take it as a first principle that the object of your board, as of ourselves, is that of the best interests of the children. "We attribute such difficulties as may exist to the segregation system which has been in practice, at Rock Bay, for the last eight years, and we believe that it ought to be abandoned altogether, and a revision made to the system of intermingling which had proved so successful previously. The board, however, say that they have some particular plan of special attention to the teaching of English which they believe will be successful under segregation. We take this to mean that hitherto this new plan has not been adopted at Rock Bay; we, therefore, suggest that your board try this new plan, on a small scale, in the Rock Bay school, with the following modifications: "1. All children up to the age of 10 years of age, inclusive, in the first and second primers; 11 years of age, inclusive, in the first readers, and 12 years of age, inclusive, in the second readers, be withdrawn from Rock Bay and drafted into the graded public schools to be intermingled as much as possible; and all those over the respective ages and the respective classes to remain at Rock Bay. "2. All children over the respective ages and the respective classes mentioned above, be drafted from the graded schools to Rock Bay, unless distance of their homes from Rock Bay should prove a hardship. "3. All children within the age limits mentioned above be permitted to resume their education with their former playmates in the graded schools. "4. All new entries be accepted in the graded schools if not over eight years of age; and must commence their education in Rock Bay school if over the age of eight years. "Suggestions. "In the classes at Rock Bay should be made smaller by providing more teachers so that more personal attention can be given. "The teachers at Rock Bay school might be instructed to organize the children into teams for sports during play hours under the supervision of the teachers who should see to it that English be spoken as much as possible, in the circumstances."

ERNIE PETCH

ENGLISH SHABBY? TAILORS BLAMED

London, Sept. 24.—(By Mail).—The old saying that "it takes nine tailors to make a man" was revised to read "every tailor pays the income tax of nine men" at the meeting of the Federation of Merchant Tailors at Oxford. Lord Decies, who married

Vivian Gould of New York, in answering the question why Englishmen are growing shabby in their dress said it was because Englishmen saved on their clothes to pay their income taxes and that shabby dressing was a question of necessity and not of choice. In welcoming the delegates the Mayor of Oxford said that the deliberations would not be in vain if they could devise something more human than a man's evening clothes. "Miserable man," he declared, "should no longer be forced to wear the horrible things you are pleased to call evening dress." He pleaded for re-

forms, especially with regard to stiff shirts. But the tailors after a long discussion decided that this could not be done, and that although collets for evening dress were not suited to manhood, if a change comes it must be back to court dress with knee breeches, silk stockings, buckles, velvets and powdered wigs. The tailors agreed that a man has enough to bear in keeping up with the present vogue and that they would not dare attempt old or new extremes. "We would welcome a change in men's styles every season, as in the case with women's clothes," declared the president of the federation, "but it's no use. They are somehow not made of the same stuff when it comes to clothes and we would only make ourselves ridiculous if we attempted seasonal changes."

BRITISH GUARD FASHION SECRETS

London, Oct. 9.—(Associated Press).—Women visiting London are usually of the opinion that English styles, with the exception of the sports models, come from Paris by way of New York, although London is readily accorded a place as the home of fabrics of the finest quality. English designers admit that they cannot quite compete with Paris in individuality, but collectively see no reason why with skilled workers and the finest fabric London should not rank first in supplying the overseas Dominions and perhaps the United States. With this object in view a fashion exhibition is being held in London at which the British designers hope to prove the merits of their creations to the buyers' world. The secrets in designs are being closely guarded, but it is said the purchaser in search of Autumn costumes has no marked novelty before her. "The general outline of dress is graceful, with perhaps an inclination to moor flesh upon the hips and below the waist than has been favored in recent months. American buyers are especially interested in all phases of sport wear, in which a remarkably successful use is made of the colorings of nature and of game-birds. Truth is mighty, but error often gets there first.

CHURCHES IN YEAR RAISE HALF BILLION

Members Average \$10; Episcopalians Lead With \$31.59 Per Capita

Washington, Oct. 9.—The churches of America raised during their last respective fiscal years at least a half billion dollars. Reports from the religious bodies gathered by the Federal Council of Churches and published in its year book of the churches give the exact figures as \$488,424,084, but they do not tell the whole story. Owing to the various methods of gathering statistics in the different churches some of the reports include only part of the amounts raised. Some, for instance, report missionary offerings only. In many cases the figures represent a minimum.

Of the total raised, the combined Methodist bodies lead with \$130,730,479. The Catholic Church is second with \$78,348,294. The combined Baptists are third with \$60,796,534. The standing of the leading denominations according to the official figures of each is: Methodist Episcopal (North) \$55,931,089; Methodist Episcopal (South) \$23,827,211; Northern Baptist Convention \$14,872,221; Southern Baptist Convention \$14,445,145; Protestant Episcopal \$14,372,211; Presbyterian (North) \$7,024,442; Presbyterian (South) \$6,858,522; Congregationalists \$2,232,412.

These figures show that each of the 48,242,139 church members of the country gives at least \$10 a year to the support of his church and its work. From the figures available, the 1,194,923 members of the Protestant Episcopal Church are the most generous of the larger communions, their average gift being \$31.59 a year. The 287,958 members of the Presbyterian Church in the United States (South) are second with a per capita gift of \$30.54. Third place is held by the members of the Presbyterian Church in the United States of America (North) with an annual gift of \$27.31 each. The Congregationalists give \$25.92 each, while the Northern Methodists give \$21.82 each. Other large communions according to the figures available give as follows: Northern Baptists, \$17.48; members of the United Lutheran Church in America, \$14.73; Southern Methodists, \$14.45; and Southern Baptists \$10.50. Full returns from some of the churches might change this standing considerably, but these figures are the best available from the facts obtainable. The per capita gift of the Catholics of the country is \$4.21, but that church includes in its membership

COMPOSES MUSIC FOR KUMTUKS CLUB

Song Dedicated by J. D. Macey; Address on Fire Prevention

Fire prevention was the subject of an excellent talk given by Alderman Perry, chairman of the Fire Wardens' Committee, before the Kumtuks Club at its luncheon to-day, when over thirty members were present, with Miss Bowron in the chair. An interesting address was also given by Miss Unwin, a member of the club. Warm applause greeted the announcement that J. Douglas Macey, the well-known local composer, had dedicated to the club the music for the club's song, "Victoria Our Homeland," for which the words were composed by Mrs. E. B. Shaw, a member of the club. Miss Bowron, Miss Mason and Miss Paul invited the members of the club to a housewarming on Halloween. Final plans were made for the club's dance to be held in the Alexandra ballroom on Friday evening of this week. Tickets may be obtained of members or from Brown's, Forster, View Street. On Saturday afternoon a number of the members visited the Protestant Orphans' Home with a view to taking up the "Big Sister" project. The party was received by Mrs. Hiscocks, vice-president of the ladies' committee; Mrs. Harris, the matron, and Mrs. Street, Miss Shaw and Miss Richards, of the staff. After being shown over the home they regaled the children with candies and left donations in the shape of cakes and candies.

HARROGATE VERY BUSY. CHURCH DESTROYED IN HAMILTON

Harrogate, England, Oct. 9.—Harrogate is having a very gay season, which is likely to be prolonged into the late Autumn. Hamilton, Ont., Oct. 9.—The Wentworth Street Baptist Church here was completely destroyed by fire last night. The losses estimated at \$20,000. Insurance for \$6,000 is held. Remember the Pound Party of the W. C. T. U. Home, Ida Street, on Tuesday, October 10, 3 p.m.

HILLHURSTS AGAIN ALBERTA CHAMPIONS

Calgary, Alta., Oct. 9.—Hillhurst had little difficulty in carrying off the Bennett shield, emblematic of the

provincial football championship, when they defeated Edmonton South Sides, 4 to 0, here Saturday and won the round, 6 to 2. This is the third championship for the local eleven this season, and they previously tucked away the Dominion and Calgary titles.

GENERAL CONFERENCE TO BE HELD HERE

British Columbia Y. M. C. A.
Organizations to Meet; H.
Ballantyne Will Attend

It was announced this morning at the Young Men's Christian Association that a general conference of the British Columbia organizations will be held at the Victoria Association building on Monday, October 16.

Discussion to enable the various provincial organizations to obtain new ideas will be held. A committee has been formed, of which W. S. Maguire of the Victoria Y. M. C. A. is a member. The conference, which is an annual one, will be attended by H. Ballantyne, the general secretary of the National Y. M. C. A. and talks, suggestions and ideas are expected to be obtained by his presence at this assembly.

The delegates will be in session all day. The conference is divided into three portions—morning session, afternoon session and evening gathering.

It was also stated this morning that the Y. M. C. A. was prepared now to adopt its winter programme, having renovated its various departments and enrolled the usual winter staff of workers. Under the leadership of Mr. Graham, the season should be a successful one. The physical director, Mr. Maguire will be attending during the winter season by Mr. McKinnon, assistant physical director, while D. Battrick and McEwan have been enrolled and will look after various junior departments and the social side of the organization. H. C. Cross has charge of the Boy's Department and announces a programme which will be well worth attending.

F. THOMAS KING DIED IN VANCOUVER

One of City's Best Known
Contractors

Vancouver, B.C., Oct. 9.—Frederick Thomas King, thirty-nine, one of this city's best known contractors, died suddenly Sunday morning at St. Paul's Hospital.

After suffering from diabetes for some time he was taken acutely ill on Saturday and conveyed from his room at the University Club to the hospital. The late Mr. King was a member of the firm of Hodgson, King & Marshall, a native of Newport, Monmouthshire, Eng.

Mr. King was president of the Master Builders' Association, vice-president of the Manufacturers' Association of British Columbia, and a member of the Board of Trade.

MONEY AVAILABLE FOR PRAIRIE USES

Sir F. Williams-Taylor Speaks
of Bank Branch System

Montreal, Oct. 9.—Sir Frederick Williams-Taylor, General Manager of the Bank of Montreal, who attended the conference of the American Bankers' Association in New York last week, stated to-day that criticism had been voiced of the Canadian branch banking system. In reply, Sir Frederick said that no alternative form of banking was practicable and it was inconceivable that any system could be devised that would afford anything approaching these banking facilities.

FATHER AND CHILD LOST THEIR LIVES

Saskatoon, Oct. 9.—When an east-bound freight train struck an automobile at a Blackfoot, Alta., level crossing on the Canadian National Railway, five miles west of Lloydminster, Sask., late Saturday, Chester Smith was fatally injured, his wife was terribly injured and their young child was instantly killed. T. H. Currie, Kitchener, who was driving the car, suffered a broken leg and was badly cut about the head and face.

Smith died early Sunday morning and Mrs. Smith is in a critical condition. Currie, who was a Liberal candidate in the last Alberta provincial election, is expected to recover.

How the accident occurred has not yet been explained, as there is a clear view in both directions for more than a mile at the crossing. The engine, after colliding with the car, carried it for 200 feet before the train could be stopped.

The survivors are in the Lloydminster Hospital.

BALTIMORE COMES FROM BEHIND AND WINS THIRD GAME

Baltimore, Md., Oct. 9.—After a game up-hill fight, in which they overcame a five-run lead which St. Paul, of the American Association, piled up in the third inning, the Baltimore club of the International League, won the third game of the little world series here yesterday afternoon, 13 to 10.

MONTREAL RUGGER DIES AFTER GAME

(Continued from page 18.)
defeated St. Bridget's of Ottawa, 14 to 5, in the opening fixture of that organization Saturday afternoon. The game was played under most trying conditions and the players of both sides emerged from the contest a mud-begrimed and exhausted set of grid-iron warriors. The game started in a downpour of rain.

A Great Surprise.
Saskatoon, Sask., Oct. 9.—The greatest surprise of the football season was sprung here Saturday when the Saskatoon Junior Rugby Football team overwhelmed the University of Saskatchewan seniors by 22 to 9. A week ago, Varsity was beaten by the City Seniors, 30 to 6.

Tigers and Senators Draw.
Hamilton, Ont., Oct. 9.—Hamilton Tigers and Ottawa Senators played a 6 to 6 tie here Saturday afternoon in a Big Four football game here. No overtime was played because of rain which made good football a matter of extreme difficulty. At that, both teams put up a formidable showing.

Regina Wins Title.
Regina, Sask., Oct. 9.—Regina Rugby team won the city championship Saturday by defeating the Boat Club, 17 to 1.

Tigers Defeat Varsity.
Winnipeg, Oct. 9.—The Winnipeg Tigers won a hotly contested game from Varsity, 8 to 6, in a senior Rugby game here Saturday after 20 minutes overtime play. The Tigers opened the 1922 season Saturday with four games as follows:

Senior, Lycoming 12, Y. M. C. A. 0;
Intermediate, Y. M. C. A. 18, Normans 12;
Junior, Canucks 24, Lycoming 6;
Midget, Canucks 32, Victorias 0.

Edmonton Beat Saskatoon.
Edmonton, Alta., Oct. 9.—Edmonton Eskimo rugby team, Western Canada champions of last year, defeated the Saskatoon Quakers, Saskatchewan champions, here Saturday afternoon by a 13 to 10 score, in an exhibition game. Three thousand persons saw the contest.

MURDER CHARGE AGAINST BROTHERS

Calgary, Oct. 9.—Othello and Otis Dortch, brothers, aged 17 and 19, respectively, will be charged jointly with the murder of Charles H. Kelly, a well-known farmer of the Vulcan district, when they appear before Magistrate Gresham in Vulcan Tuesday morning. The preliminary hearing will commence at 10:30 o'clock. At the inquest held Saturday evening a coroner's jury returned the following verdict: "Charles H. Kelly came to his death by a gun shot wound at the hands of some person or persons unknown." According to information received from the police, Otto, the elder of the two brothers, has confessed to having fired the shot that killed Kelly.

SEATTLE POSSESSOR OF THE PUNCH BOWL

Seattle, Oct. 9.—The Seattle Golf Club became the permanent holder of the magnificent punch bowl when its eight-man team won the annual competition on the North End links yesterday, finishing 21 up on bogey. Inglewood Country Club was second, 5 down on bogey; Shaughnessy Country Club, of Vancouver, B. C., third, 21 down, and Waverley Country Club, Portland, one of the favorites, fourth, 23 down.

Captain Sam Russell's winners walked away from the field of eight teams chiefly on the legs of Bon Stein, first Washington State amateur champion, but ably supported by his seven teammates. Stein played brilliantly from his first to his thirty-sixth hole, turning in a card of 140, four below par for the day, and whipping bogey 21 up, the score his team won by.

The showing of Waverley, which also needed only one victory to take possession of the cup, was the disappointment and surprise of the day. Dr. F. O. Welling and Rudy Wilhelm did their best, each defeating bogey 11 up, but Russell Smith fell down miserably, finishing 7 down, while every other Portland player took a trimming from bogey.

KASAR, BULLOCK UP, WINS BIG PARIS RACE

Paris, Oct. 9.—Mme. Edmund Blac's Kasar, with Bullock up, won the 300,000 franc Arc de Triomphe race at Long Champs yesterday before the first characteristic crowd of the Autumn racing season. The day was a fine one, although chilly, and the leader's fashion back from the resorts competed with the dressmakers' models for the attention of the holiday crowd. The big race had only French entries.

PENN COLLEGIANS HOLD 'VARSITY TO DRAW AT FOOTBALL

Philadelphia, Pa., Oct. 9.—The University of Toronto soccer team tied the University of Pennsylvania at one-goal each in the Canadians' final game at University Field on Saturday.

COWICHAN GOLFERS TO COMPETE FOR BUNDOCK CUP

(Times correspondence)

Duncan—The Bundock golf cup is to be played for again this year, and great interest is being shown in the event, thirty-seven having entered for the competition. This is a perpetual challenge cup presented to the Golf Club of Kossiak several years ago by W. W. Bundock, and as that club is now the Cowichan Golf Club, it is to be fought for on the new links. The winner has his name on the base of the cup on a silver shield and is presented with a small replica of the large silver cup, which he keeps.

Those to play are:
A. R. Peterson vs. H. R. Punnett.
C. W. O'Neill vs. J. G. Somerville.
J. C. Henslow vs. H. T. Reed.
L. H. Helen vs. B. Hope.
G. Cunningham vs. C. H. Dickie.
W. H. Weller vs. K. F. Duncan.
R. D. Harvey vs. A. Dav.
W. B. Powell vs. D. Robertson.
J. S. Robinson vs. H. P. Prevost.
W. R. Smith vs. D. C. Hills.
W. R. Young vs. A. H. Lomas.
H. Smith vs. winner of Peterson vs. Punnett.
Dr. D. E. Kerr vs. B. Gilmour.
A. Leemie vs. Brig.-Gen. Spaight.
F. Hoey vs. H. W. Dickie.
C. Ward vs. G. B. Grieve.
G. B. Share vs. E. W. Carr-Hilton.
W. B. Heyworth vs. Capt. E. G. Williams.
W. L. B. Young vs. W. B. Harper.

A MOVING PICTURE OF THE WEST

Not Dead But Starved For Lack of People.—Riches On Little Legs.—Pumping Pep into the Country's Hired Men.—No Job For Meth-Eaten Intellectuals.—Cured The Cackle and Hitch the Team.

By Howard Angus Kennedy, Western Farmer, Ex-Editor of The London Times Weekly, Author of "The Story of Canada," "New Canada and the New Canadians," and "The New World Fairy Book."

"The West is dead." So spoke a high authority in my hearing last Spring. I smiled, recalling Mark Twain's reply to the announcement of his own decease: "The report is somewhat exaggerated." Still, I thought I had better go and see—only to take a last look at my old friend's remains.

I have come back, with the wreath I had meant for his coffin. The funeral was postponed, owing to the objections of the corpse, who said he was too busy.

Most unreasonable of him, eh? If he was not dead he ought to have been, if half the tales I heard were true—tales of blue ruin, black ruin, red ruin, every colored ruin in the devil's paint-box stayed with him all Summer, and found him capital company. A few pungent remarks now and then about the cussedness of things—but quite cheerful all the same and see—like like two dollars a bushel. I hitched up one of his four-horse teams and helped him put in the crop. Then I went off and spent two months going round his big place, with one eye open all the time for signs of moribundity.

Sorry to disappoint you, tragedy fans. No "Death of the Hero" in this film. Never mind—my moving picture will give you thrills enough. The comic and idyllic stars shall not have everything their own way. Get your handkerchiefs ready. Only, if you want nothing but soft stuff, ask your money back and patronize another house.

Circumnavigation of the West.

For two months, then, I circumnavigated the West, as I had often done before, making a systematic and searching inquiry into the state of every kind of country—not only the typical grain lands, the cattle ranches, the mixed farms, the irrigated oases and fruit valleys, but the newest settlements of the northern pioneers on both sides of the mountains. . . . What did I find?

More blue sky than blue ruin, for certain.

But that is not enough. You may have twenty healthy organs to one diseased, and yet be fatally ill—like the man who described himself as "dying of a hundred good symptoms."

We must be frank with ourselves, candidly examining our bad symptoms, discovering which are caused by unalterable Nature and which by mere human cussedness, and what is to be done about it.

Picture, please. This is getting serious.

Pumping Pep Into Patrick.

Scene.—A little farm house on the edge of a poplar bluff. A little perch covered with hop vines. A little garden gorgeous with flowers. A not very little barn in the back-ground. Five rosy children, uproariously see-sawing up and down on a two-by-eight pivoted on a big stump. They stopped when they saw me riding up. "Great fun, playing see-saw," I remarked. "No," said the biggest little girl, with a smile, "we're pumping pep into Patrick."

Buzzed, I covered up my stupidity with a slab of chocolate, and re-

"A MOVING PICTURE OF THE WEST"

A very keen and sometimes delectably peevish and humorous account of Western conditions, as they appear to one of the ablest of Canadian writers, will be found in a series of witty articles which we have secured for exclusive publication here.

Howard Angus Kennedy, the author of these articles, certainly knows the West intimately as few Eastern writers do—though we would probably not call him an Easterner at all, as he has had a farm at Lacombe in Central Alberta for ten years past, and spends much of his time living and working on it. In the East, where he mostly writes, he is regarded as a recaptured Montrealer who plays truant for periods varying from a few months to twenty years but always comes back in the end.

He was first inoculated with his enthusiasm for the West in 1885, and it was not exactly a painful operation, for it consisted of the campaign against Louis Riel's Indian allies, and included the battle of Cukku Hill and the pursuit of Big Bear. After some years as city editor of The Montreal Daily Witness, which he had represented throughout that campaign, he was transferred to the Dominion. His invitation from the owners of The London Times to take in hand their weekly edition—which he transferred into a remarkably fine paper and edited for twenty years.

All that time he was constantly pushing Canadian interest in the Old Country by voice and pen, and taking a very active part especially in promoting emigration to the Dominion. His name over nearly every year, often making long journeys of investigation, both east and west, until finally he broke away from Printing House Square and became a Western farmer.

Mr. Kennedy is the author of "The Story of Canada" in the Story of the Empire series, which he originated and edited throughout; also "New Canada and the New Canadians," describing the whole of Western Canada at the time when Alberta and Saskatchewan came into existence. His "New World Fairy Book," which the sixth edition has just appeared, is the standard book embodying our old Indian legends in tales of the sort our children love. He also wrote biographies of his father, Dr. John Kennedy, of Aberdeen and London, and of his uncle, the famous Scottish professor, John Stuart Blackie.

ready for a vast population, but weighing heavily on a small one.

We have got to get that population, if only in justice to the population we have already. But if we can only ask others to help us pay our debts and taxes we had better sit still and hold our tongues.

No, what we have to offer is what they need and crave—a share of our great opportunities—we in which they will themselves create wealth, not a fortune. Stretching out for a fortune has kept thousands of us poor. "If farming does not pay," that is one of the chief reasons for giving up the chance of a big crop in districts where the odds are against its crop worth cutting and "biting off more than we can chew" in all directions—that and other reasons I shall have to take up later.

Many thousands of quite ordinary farmers, taking one year with another for a reasonable period, have "made it pay," even by methods which we are slowly learning and must now learn swiftly to outdo. And many good farmers whose lands are free for adoption by oldsters and newcomers alike "make it pay" when most of their neighbors do not. The case of Easy Street, where

"Life is One Long Dinner" is a mirage. Going after it we fall into a hole. The "high standard of living" that we talk so much about we discover to be a will-o'-the-wisp when it has dropped us into a hole.

We have got to set a new aim before the new people we ask to join us, as well as before ourselves; a high standard of working, a high standard of learning, and thinking, and in these we shall possess a high standard of living indeed.

We want people whose chief aim is to establish a home where they can live and bring up their children in health and independence; people who want but little here below but want that little good.

THE BUSY MAN'S NEWSPAPER

POLITICS FINANCIAL FOREIGN

only as our most hopeful material for Canadian citizenship, but because they anchor their parents to the soil. In Class C put young spinsters, with the young bachelors close at hand in Class D. Have a Class E for childless long-married couples and middle-aged singles of either sex. As the most valuable children of all are those bred on the spot and needing no assimilation, why not think out ways of encouraging their increase? Australia gives the mother a bonus of \$25 every time a child is born. Quebec used to give 100 acres of public land to every father of twelve living children. Both rather crude, but each carrying the germ of a good idea. We punish parents with a trifling tax here and there. We negatively reward parents with an exemption of \$400 per child in assessing their incomes for the Federal tax. We occasionally amuse ourselves by giving prizes to baby shows. This doubtless gratifies the parents, but probably few babies are yet brought into the world with a distinctly competitive purpose. A landlord at Woodstock, Ont., offers houses on the admirable principle of "The more children you have the less rent you pay." Many landlords go to the other extreme in discouraging the human child, and the community lets them stay unchanged.

Akin to this interesting subject, which I hope to tackle another time, is the problem of the farm-bred Canadians in our own towns. Many of

these would be valuable on the land if they returned to it, as they might if offered the same inducements as outsiders. This would benefit agriculture and somewhat relieve the pressure in the town, but would not increase our total population.

The most contradictory opinions are bandied about concerning immigrants of alien race. They include a mass of our best settlers, especially the Scandinavians. Even from the less advanced races of Southern Europe candor compels me to say that we have had many valuable recruits, and with keen discrimination in force many more may well be admitted, but only if we are prepared to spend a lot of ingenuity and energy on methods of educating and transforming them into thorough Canadians and inculcating on their explicit acceptance of such methods as a condition of entrance.

I never reckon among aliens the English-speaking citizens of the United States. To them we should look for great and most valuable reinforcements as soon as they can possibly be got.

There is no good reason, with a first class follow-up system in force, why the Government should not rent its land, first for a short and then for a long term as the tenant makes good. The land available, by the way, should include not only parts of existing farms which are too large for the owners to cultivate, but land sold

for non-payment of taxes and often bought by banks or other creditors who cannot cultivate it themselves.

No help should be given the immigrant either for transportation, for the acquisition of land or for any other end unless he has accepted conditions as imperative (though, of course, not the same) as those imposed on tenant-farmers in England, and on him to treat the land properly. The lack of such conditions, except the trifling and temporary duties to be fulfilled before the patent issued, was one of the gravest defects of our free homestead law and its continuance, with our present accumulation of knowledge as to the methods of cultivation required, will be inexcusable.

POSTAL WORKERS KEPT ON STAFF

Ottawa, Oct. 9.—A majority of the post office employees temporarily engaged for holiday relief purposes, will not be dismissed at the conclusion of the holiday season this year, according to an announcement from the Post Office Department.

In the ordinary course, these employees would have terminated their engagements about the end of this month. They will, however, be absorbed in the permanent establishment with due consideration to economy and the needs of the service. This measure is primarily to relieve the unemployment situation. One effect of the change will be to extend the holiday season over a ten-month period.

Delegates to the recent conference of Dominion postal officials expressed themselves in favor of the change.

SASKATCHEWAN HARVESTER ROBBED

Weyburn, Sask., Oct. 9.—This town has had a taste of the crime wave which is prevalent in Western Canada. Joseph Long, a harvester, was robbed of \$400 at the Waverley Hotel, where he was staying. The robbers made their get-away during the early hours of Saturday morning. The offices of the Rogers Lumber Company and the Canadian Investment Company were broken into and the safes opened. Nothing of importance was stolen.

PAYNER'S NAVY CUT CIGARETTES

Whom Moslems Dominate And The Danger Zones

The upper map strikingly illustrates the immense extent of territory under Moslem domination and possibly explains the extremely careful policy of Britain and her Allies.

The lower map shows the Dardanelles area, the shaded portions giving the approximate position of the neutral zones from which Britain has demanded that the Turks retire immediately.

THE PROVIDER.

An old negress went to the governor of Tennessee and said, "Massa Gov'n, we's mighty po' this Winter and ah wish you would pardon mah ole man."

"What was he put in for?" asked the governor.

"Stead of workin' for it, that good-fel'nothin' nigger done stole some bacon."

"If he's good for nothing, what do you want him back for?"

"Well, you see, we's all out of bacon ag'in," said the old negress innocently.

CORRECTLY SPEAKING

"And you and your wife got into arguments of course, about things."

"Well, I can't say we argue, but she does a red-hot monologu'!"

Richmond Times-Dispatch.

As the modest tongue wrote; people who are lappy if they have enough. These are the people who generally get more than enough, without any more. And many of these people are thousands, often in unlikely places. If we send capable men and women after them, good judges of character; men and women with intimate knowledge of the common people; and their ways over there and of the new ways they will have to adopt over here; and many of these people are thousands, often in unlikely places. If we send capable men and women after them, good judges of character; men and women with intimate knowledge of the common people; and their ways over there and of the new ways they will have to adopt over here; and many of these people are thousands, often in unlikely places. If we send capable men and women after them, good judges of character; men and women with intimate knowledge of the common people; and their ways over there and of the new ways they will have to adopt over here; and many of these people are thousands, often in unlikely places.

Tests for Future Canadians

The tests to be applied to applicants for admission must be those of good sense, good character, and a moderately high standard of physique, of mental capacity and of character must be insisted on. But don't forget that if terribly high standards had been imposed in the past a crowd of our best citizens would not be ours to-day. Go for the boys and girls. Town-bred boys, brought out young enough and planted carefully on Canadian farms, take root easily and make, on the whole, better Canadians and better farmers than adult English farm laborers do.

Even grown-ups in considerable numbers, perfectly fit or easily fittable for Canadian country life, can be combined out of English town jungles by such a corps of capable emigrant hunters as we should employ. A high percentage of British townfolk are county bred. Many of these are disillusioned and disgusted with the town and ready to jump at a chance of getting back to country life with the most modest expectations.

How Many Children Have You?

If we are to classify the fit, after rejecting the unfit, let us at once put the best parents in Class A, couples with seven or more children standing at the head of the list as A-1. Couples with five or six would be put in Class A-2, and couples with three or four in Class A-3, and so on. The newly-weds would form Class B, with promise of promotion when earned. Children are valuable not

MUTT AND JEFF

Jeff's Laundry Bill Must Be Next to Nothing

Copyright 1922, By H. C. Fisher. Trade Mark Reg. in Canada.

MUTT, I MADE A BIG HIT AS BASTMASTER AT THE LIONTAMERS BANQUET TONIGHT!

THAT SO?

YES! I HAD THE BUNCH ROARING ALL THE TIME! I CERTAINLY GOT OFF SOME FUNNY STUFF!

MY WORD, I'LL NEVER FORGET THE MIRTH I CAUSED! I GOT OFF ONE GOOD THING AFTER ANOTHER TONIGHT, THAT'S CERTAIN!

OF COURSE I DON'T KNOW ANYTHING ABOUT TONIGHT'S AFFAIR, BUT THAT WAS A GOOD THING YOU GOT OFF THIS AFTERNOON.

WHY, THE DIRTY SHIRT YOU'D WORN FOR TWO WEEKS!

Notice of Application For Private Bill

NOTICE IS HEREBY GIVEN that an application will be made to the Legislative Assembly of the Province of British Columbia at its next Session by the Corporation of the City of Victoria for an Act to be known as the "Victoria City Act, 1922."

1. Amending "Victoria City Act, 1921," as follows:

(a) Amending Section 3 to provide for withholding from tax sale in any year lands in respect of which all taxes, including instalments of capital sum, or of soldiers' capital sum, due and payable to the City prior to the first January of the current year shall be paid before the close of the year held in said current year.

(b) Amending Section 11 to provide for closing the Municipal Voters' List on 30th day of September in each year.

(c) Amending Section 12 by inserting "and" before the word "nomination" first appearing in Subsection (3) of Section 13.

(d) Providing (retroactively) that the Council may make, alter or repeal by-laws for charging owners of land, and the land itself, with the expenses of the City with sewer rentals where such land is connected with any sewer owned, or to be owned, by the City, or by the City in conjunction with other municipalities, and for collecting and recovering the same from the owner or occupier of the lands charged to the same extent as if the said lands were within the City.

(e) Enabling the Council by-law to cancel any or all unpaid future instalments of consolidated arrears of taxes on reverts lands, and providing that receipts from sales of such lands shall be properly applied.

(f) Providing that the upset price of all lands sold at tax sale may, or shall include all future instalments of consolidated arrears of taxes on such lands.

(g) Providing that the Assessor shall return his completed assessment roll to the Council not later than 14th August in each year.

(h) Providing that the Court of Revision shall hold its first sitting on first October, and shall complete same not later than 30th November in each year.

(i) Enabling the Council by resolution to provide that general rates shall be paid not later than 30th June in any year.

(j) Enabling the Council to provide by-law for the collection for periodic payments of taxes, such periods to be not less than one month.

(k) Enabling the Council to impose penalties on unpaid taxes of one per cent, per month from the date of due date to the date of payment, and to provide for the collection of such penalties.

(l) Enabling the Council to regulate by-law building lines and the distance of same from any street in the construction of any or all buildings.

(m) Enabling the Council to impose taxation on bill-boards, or hoardings, or upon the advertising on same, or upon both, including power to regulate, license and prohibit the same.

(n) Removing the exemption from taxation on private hospitals, and to regulate the same.

(o) Enabling the Council, or the Assessor, upon instructions from the Council, to assess rental values for the purpose of taxation, and to levy taxes thereon according to the assessed value, such tax not to exceed ten per cent, of the rental value, and not to be applicable to premises used solely for residence purposes.

(p) Enabling the Council to impose and collect a tax of \$5.00 per annum upon every horse using the City streets.

(q) Providing that the publication of the Assessor's list of lands required by Section 2 of the Municipal Act Amendment Act, 1921 (Second Session), shall not apply to the City of Victoria.

(r) Providing relief in respect of those lands that were withheld from the annual tax sale for 1922 by extending the payments for a period of fifteen years of the total of arrears due and payable on or before 31st September, 1922, in respect of said lands, and the whole amount of unpaid future instalments of consolidated arrears charged on said lands, on condition that interest on grand total of arrears at six per cent, per annum and all other accruing due and payable thereafter be paid annually in

THE AGE OF REASON 1922

FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT

Half hidden among the leaves of the tree Mr. Possum spied Jimmy Crow, his head cocked to one side and his bright eyes peering down at Mr. Possum. "So you do not want Mr. Fox's gift? Kind, thoughtful Mr. Fox," cried Jimmy. "He is so charitable with everything he has, saw, saw, saw!"

"I don't know how to get them back to him," said poor Mr. Possum. "I may be wrong about it, but some-

how I feel that he wanted Mr. Dog to find these bones here in my yard."

"Your thought is right, Mr. Possum," said Jimmy Crow flying to a lower limb of the tree. "Mr. Fox steals a goose and gives the giblets in aims. That is his idea of charity and you would not get even the bones if he did not want to get rid of them. He does not wish Mr. Dog to find them around his yard."

"But I don't see the giblets," said Mr. Possum looking at the bones. "Oh, Mr. Crow, laugh loudly. 'Giblets' that is an old saying, Mr. Possum," he said. "He steals a goose and gives the giblets in aims." Then, seeing that poor dull Mr. Possum hadn't the least idea what he meant, Jimmy said, "But that has nothing to do with getting those bones back in Mr. Fox's yard before Mr. Dog happens along."

"Mr. Possum, I will take those bones back to Mr. Fox. You leave them right there and before morning every bone will be gone from your yard."

Mr. Possum looked up at Jimmy Crow and blinked, his little eyes shin-

ing with delight at the thought of being rid of the bones. "You are a nice kind friend, Mr. Crow," he said, "and I thank you very much."

"Oh, that is all right," cried Jimmy, picking up a bone and flying away. "I have a little affair of my own to settle," said Jimmy to himself as he flew towards the home of Mr. Fox.

Mr. Fox was away from home all day and he was surprised when he returned at dusk to find by his door a heap of bones, for Jimmy Crow had been busy all day long carrying bones from Mr. Possum's yard.

Jimmy had not gone to bed, either. He was sitting in a tree close by watching with sharp eyes Mr. Fox as he stood staring in surprise at the bones.

"He steals a goose and gives the giblets in aims," quoted wise Jimmy with one of his loudest saw, saw, saws.

Mr. Fox looked at the tree. He could just make out in the twilight the form of Jimmy Crow. "What are you talking about?" he asked. "I haven't had a goose in a long time." "Ah, ha, ha," laughed Jimmy Crow. "You are as dull as—Possum about proverbs; but dull as he is Mr. Possum knows why you were so charitable to Mr. Possum's yard."

"Such dispositions as my neighbors have," mused Mr. Fox as he got his supper ready. "Mr. Possum is full of suspicious thoughts and Jimmy Crow is so revengeful, I seem to have the best disposition of any one round, and I am so little understood. It is too bad, too bad."

"A survey of the situation now shows that more people will come in weekly contact with the church than ever before, but that the direct influence will be lessened. Thousands will listen to a sermon where now only hundreds hear it. People who have the time to church in years will listen to devotional exercises; some will be won back, although it is probable that many of them will continue to receive instruction from the sermons only indirectly. It may mean that eventually the smaller and less ambitious church will have to close its doors. Suitable pastors will be called on to preach while the less gifted ones will find other work. It will mean a widening of the doors for meticulous theology will not be welcomed by a heterogeneous audience. Sermons of the future will be more direct, will have less underbrush and more substance."

So Says Homer Crox; Calvary Church First in Field

"The first church to try the experiment of broadcasting sermons was the Calvary Protestant Episcopal Church, Pittsburg, Pa.," writes Homer Crox in the Christian Herald.

In telling the story of this enterprise Mr. Crox says it was not long ago—in fact Jan. 2, 1921, that the rector, Rev. Edwin J. Van Eaton, conceived the idea and directed its successful operation.

Continuing his discussion of the marvelous development of the radio, Mr. Crox describes what he believes will be the effect of the invention upon the church of the future. On this point he writes:

"It is going to affect the church as much as did the automobile in its day, as much as did the motion picture in the motion picture days. The radio is going to affect the church in new audiences. The first direct effect so far seen is shown in the motion picture industry. The radio has hurt motion pictures."

"But the very thing that has kept people away from the motion picture theatres, the fact that the direct listeners to the church—the fact that people can stay at home and still go to church. Radio will bring the inspiration of the church to the workers, who dislike to stir so early on Sunday morning."

"At present the sending equipment is outside the resources of the average church. As a result, the larger church will be the first to install radio, or to make arrangements for the use of sending stations at certain times, so that the first broadcasting will be confined to the larger and wealthier churches."

"With widespread use of radio, sermons will be available for all who wish, within a distance of several hundred miles. As a matter of fact, the distance can be measured in thousands of miles. A church will be a dot in the centre of a great web spun through by lines of radiation. The scope of the church in years will be wider, the web will grow larger. A church in another city will reach out to meet it and the small church in between will suffer."

"A survey of the situation now shows that more people will come in weekly contact with the church than ever before, but that the direct influence will be lessened. Thousands will listen to a sermon where now only hundreds hear it. People who have the time to church in years will listen to devotional exercises; some will be won back, although it is probable that many of them will continue to receive instruction from the sermons only indirectly. It may mean that eventually the smaller and less ambitious church will have to close its doors. Suitable pastors will be called on to preach while the less gifted ones will find other work. It will mean a widening of the doors for meticulous theology will not be welcomed by a heterogeneous audience. Sermons of the future will be more direct, will have less underbrush and more substance."

GERMANS TRY "SOAK" OTHERS FOR OPERA

London, Oct. 9.—In future foreigners must pay for seats at the Berlin Opera, it is reported by the native press, reports the Berlin correspondent of The Daily Telegraph.

The administration of the opera, which is a department of the Prussian Government, is, however, going to work South German State theatres where similar differentiations have already been introduced.

No doubt, with a view to the peace treaty, which forbids Germany to subject the nationals of Allied and Associated Powers to any charge, tax, or impost, direct or indirect, other or higher than those which may be imposed on her own nationals, the Berlin Opera will make its exception nominal, not to fleece the foreigners but to benefit the native.

The nominal prices will be trebled, and any one who can prove himself a foreigner will be obliged to pay to be a German or an Allied subject, the allowed a reduction of two-thirds.

In doing this the Opera will be following the example of numerous Berlin theatres, which long ago adopted the custom of pricing their seats for the foreigner and taking off a substantial percentage in favor of the German.

Who has been appointed Professor of Social Science at McGill University? He is also director of the School of Social Service.

News From the Markets

CONDENSED MILK REGISTERED ADVANCE

Pullet Eggs Are Up; Meat Prices Vary; Okanagan Output Given

It is reported in market circles this morning that the output of the Okanagan apple crop this year would amount approximately to 2,215,000 boxes of apples, and the total fruit output of the district is expected to reach 4,000 carloads. Some have been played by the worm pest on account of the warm weather, but the crop will be a good one despite this and the recent storm.

Dairy dealers were compelled to mark the pullets' eggs up to 45 cents per dozen, bringing it on a par with the storage eggs. This equality will enable the pullets' eggs to obtain a stronger demand than it has been receiving of late. All butter prices are expected to advance again this week.

Dairy prices varied to-day and denoted a fluctuation of a downward trend. Condensed milk was reported to have advanced 15 cents on ten case lots of Borden's, Libby's and Carnation milk.

Few changes were registered to-day. The prices have been revised as follows:

Table of market prices for various commodities including Vegetables, Fruits, and Meats. Lists items like New Potatoes, Apples, and various cuts of meat with their respective prices.

TO-DAY'S EXCHANGE

Beacon Blankets and Comfortables

Highgrade Qualities of Pure British Wool A Blanket which will give every satisfaction. Bought direct from the leading mills.

TOMATO PRODUCTION TO INCREASE THIRTY PER CENT NEXT YEAR

Owing to the addition of new glass, it seems probable that in 1933 the production of tomatoes in Victoria and district will show a 30 per cent increase. In the season which has just closed the production under glass is estimated at 35,000 crates of tomatoes, and next season the total should be 50,000 crates.
