

The annual visual celebration of Africa

WIKI  
LOVES  
AFRICA

# HEALTH + WELLNESS 2021

**COMPETITION CLOSES: 15TH APRIL 2021 ENTER: [bit.ly/EnterWLA2021](https://bit.ly/EnterWLA2021)**

**The Wiki Loves Africa is an annual photographic competition that celebrates Africa's diversity, richness and complexity on Wikipedia. Enter images, audio or video that depict the theme of Health + Wellness, learn how to contribute to Wikipedia at a local event, have fun, and possibly win prizes.**

Enter your photographs ! Audio ! Videos ! that represent Health + Wellness practices, infrastructure, materials, personnel, etc. across Africa. The theme embraces reality and focuses on the positive views of where we are and how we can be into the future. The theme focuses on our personal health + wellness, and how our health systems and personal wellness practices affect those around us - people we know and love, and the complete strangers who we come into contact with whilst working, shopping, walking from one place to another.

You can enter from anywhere, but look out for special online and in-person events happening in many countries across Africa.

Wiki Loves Africa is an annual photo contest that runs across the African continent to shift and disrupt the relentless negative depiction of "Africa" on online news and knowledge platforms.
