The problem

- There are many issues in articles, that waits to be fixed
  - Issues, that shouldn't get fixed automatically but it would be tedious to fix them manually
- There are many users, who could fix those issues
- How to help editors find and fix those issues easier?

What issues am I talking about?

- Typos

- Repeated words

- Missing DEFAULTSORT in articles about people

- Missing <references /> for articles

- … many more
