[General Imports Order M-63 as amended June 2, 1942]

Section 1042.1 *General Imports Order M-63*¹ is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported materials for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1042.1 *General Imports Order M-63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). Release from the bonded custody of the United States Bureau of Customs shall, for the purpose of this order, be deemed a transportation.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(b) *Restrictions on imports of materials.* (1) After the date upon which any material is first made subject to this order, no person, other than the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, and any other United States governmental department, agency or corporation, or any agent acting for such company, department, agency, or corporation, shall, ex-

The materials subject to this order are those listed upon List I, List II, and List III attached hereto, and those hereafter made subject to this order by the Director of Industry Operations.

(2) Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form PD-222-C, addressed to the War Production Board, Ref.: M-63, Washington, D. C.

(3) Unless otherwise directed by the Director of Industry Operations, this prohibition shall not prevent the importing, under the restrictions hereinafter set forth, of any material on List I or List II by any person under any contract made before, or in existence on, the date when such material was first made subject to the provisions of this Order M-63.

(4) This prohibition shall apply, however, to the importing of any material on List III by any person under any contract or other arrangement whether made prior or subsequent to the date upon which such material was made subject to the order except where on such date such material was in transit to a point within continental United States.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the effective date of this order. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

interest in any material on List I imported after such material has become subject to this order shall in any way, directly or indirectly, except to the extent necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c):

- (i) Dispose of any such interest; or
- (ii) Transfer possession, or cause or permit a transfer of possession of such instrument.

(d) *Permissible disposition of imported materials on List I*—(1) *Transfer to Governmental Agency.* Nothing contained in this order shall prohibit any person having any interest whether as owner, consignee, or otherwise, in any material on List I imported after such material has become subject to this order from disposing of, or making any arrangement to dispose of, any interest in such material to the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by Director of Industry Operations.* Notwithstanding the provisions of paragraph (c), an owner of material on List I imported after such material has become subject to this order or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the Director of Industry Operations. (3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any such material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material purchased or otherwise acquired from any United States governmental department, agency, or corporation.

(e) *Restrictions on disposition of imported material on List II or List III.* Any material on List II or List III, which is imported after such material has become subject to this order, may be sold, processed, consumed, or otherwise disposed of without restriction, subject to the provisions of paragraph (f) hereof as to reports, and subject to the provisions of Priorities Regulation No. 1 (Part 944), hereinafter mentioned, and of any general preference, conservation, or limitation order of the Director of Industry Operations which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports of existing contracts to the War Production Board.* Promptly after any List I or List II material has become subject to this order, every person other than any United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation who has outstanding any order, contract, or other arrangement for the importing of any such material or who has heretofore acquired for import any such material which has not physically arrived at the port of entry thereof when this order becomes effective with respect thereto, shall report all relevant facts with respect to such material to the War Production Board, Ref: M-63, Washington, D. C. Such report shall be filed in duplicate.

(2) *Reports of authorized contracts to the War Production Board.* Every person (other than any United States governmental department, agency, or corporation, or any agent acting for such department, agency, or corporation), who is authorized by the Director of Industry Operations under paragraph (b) hereof, to make any contract or other arrangement for the importing of any material subject to this order, shall promptly report all relevant facts with respect to any contract or other arrangement entered into pursuant to such authorization to the War Production Board, Ref: M-63, Washington, D. C. Such report shall be filed in duplicate.

Such statement shall be filed in duplicate; both copies shall be transmitted by the Collector of Customs to the War Production Board, Ref: M-63, Washington, D. C.

(4) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after it has become subject to this order, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

PART 1095—COMMUNICATIONS

[Interpretation 1 of General Conservation Order L-50 as Amended April 23, 1942]

The following official Interpretation is hereby issued by the Director of Industry Operations with respect to § 1095.1 (b) (2) (i) of General Conservation Order No. L-50, as Amended April 23, 1942:

"The demands for service reasonably required by persons engaged in direct defense or charged with responsibility for public health, welfare or security" and required by those in the service categories of Schedule "A" of that order includes only such telephone service as is essential to such persons in carrying on their direct defense activities or in the discharge of their responsibility for public health, welfare or security.

The fact that an applicant for telephone service is engaged in direct defense activities, or is within the service categories shown on Schedule "A" or holds a position which carries with it responsibility for public health, welfare or security is not of itself determinative of such applicant's right for service unless, in addition, the telephone service requested is essential to such applicant in the discharge of such public responsibility.

PART 1112—OFFICE MACHINERY

[General Limitation Order L-54-c]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials used in the production of office machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1112.4 *General Limitation Order L-54-c—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person manufacturing new office machinery, of the types listed in Lists A and B, to the extent that he is engaged in such manufacture, and shall include majority-owned sales, distribution, and manufacturing subsidiaries.

(3) "Dealer" means any wholesaler, retailer or other distributor of new office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving new office machinery on consignment.

(4) "New office machinery" means office machinery, including attachments thereto, of the types listed in Lists A and B, which has not been delivered to any person acquiring it for use. The term shall not include any machine which has been delivered for trial, loan, rental, or demonstration at any time prior to March 14, 1942.

(5) "Delivery" includes any physical transfer of new office machinery, and includes transfers for trial, loan, rental, or the demonstration or other use; but the term shall not include the transfer to the consignee designated on the shipping documents, of any new office machinery actually in transit at the date of issue of this order.

¹⁷ F.R. 2102, 2276, 3443.

(6) "Army of the United States", "Navy of the United States" and "Maritime Commission" include the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise financed by or controlled by the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government, or any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government.

(b) *General restrictions—(1) Restrictions on production and delivery.* No manufacturer shall hereafter manufacture new office machinery in greater quantities than specifically authorized herein or from time to time hereafter by the Director of Industry Operations; and no person shall hereafter deliver, or receive delivery of new office machinery in any manner other than as specifically authorized herein or from time to time hereafter by the Director of Industry Operations.

(2) *Elimination of models.* The Director of Industry Operations may, from time to time, order the cessation of production, sale or delivery of any model, style, or type of new office machinery, including attachments or repair parts thereof.

(c) *Authorized production quotas.—(1) List A quotas.* Between June 1, 1942 and November 30, 1942, inclusive, each manufacturer of the kinds of new office machinery listed in List A shall not manufacture a dollar value (based on retail list prices) of such new office machinery in excess of six times the percentage specified in List A of average monthly dollar value (based on retail list prices) of such kind of new office machinery billed to customers by such manufacturer during calendar year 1941. On and after December 1, 1942, no manufacturer shall produce any of the kinds of new office machinery listed in List A.

(2) *List B quotas.* Between June 1, 1942 and December 31, 1942, inclusive, each manufacturer of the kinds of new office machinery listed in List B shall not manufacture a dollar value (based on retail list prices) of such new office machinery in excess of seven times the percentage, specified in List B, of average monthly dollar value billed to customers by such manufacturer during the calendar year 1941.

(3) *Basis on leased machinery.* Any manufacturer whose customary practice has been to lease substantially all of any particular kind of new office machinery shall base his production quota of such kind of new office machinery on the average monthly number of new units manufactured during the calendar year 1941.

(4) *Basis on exports of finished machines.* The dollar value of assembled new office machinery which, during the

calendar year 1941, was exported, shall be determined by the retail list price of the same kind of machinery to domestic customers.

(5) *Sets of parts for export.* During each month of the quota periods set forth in subparagraphs (1) and (2) above, each manufacturer shall not produce for export a number of sets of parts of any kind of new office machinery in excess of the percentage set forth in List A or List B, as the case may be, of the average monthly dollar value of sets of parts of such kind of machinery shipped for export from his factories during 1941. The right to produce and export any such sets of parts shall not be construed to authorize the export of such sets unless an Export License can be secured. Quantities of sets of parts so produced shall be over and above the production quotas for finished machines set forth in subparagraphs (1) and (2) above. No manufacturer so producing and exporting sets of parts shall directly or indirectly import any new office machinery into the United States. As used in this paragraph, "sets of parts" means parts for new office machinery fabricated at plants in the United States and shipped to foreign countries for assembly into new office machinery.

(6) *Further limitation on production rate.* No manufacturer shall increase his production rate of any kind of new office machinery over his rate of production for such kind of machinery in April 1942, unless expressly authorized by the Director of Industry Operations.

(d) *Restrictions not applicable to replacement parts.* The restrictions upon the manufacture of new office machinery shall not be construed to limit the manufacture of parts to be used to service or repair office machinery.

(e) *Distribution of new office machinery—(1) General restrictions.* On and after the date of issuance of this order, regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any blanket preference rating order, no manufacturer or dealer shall deliver any new office machinery from his production or stock thereof except as follows:

(i) *Back orders.* A manufacturer or dealer may deliver new office machinery to fill orders actually on hand at the date of issuance of this order only to the Army or Navy of the United States.

Such application may be made by filing with the War Production Board, in triplicate, plainly marked "Ref.: L-54-c", a letter containing a list of all such orders, together with such information as will support the representation of the manufacturer or dealer that the machinery is special. As used in this paragraph, a "special" machine is a machine built to special specification for

Such Preference Rating Certificate PD-1A may be used to secure new office machinery only by the person to whom it was directly issued, and only when such office machinery is expressly specified on the face of the certificate. Persons entitled to new office machinery by virtue of a Preference Rating Certificate PD-1A who do not surrender such certificate, but retain the same, as permitted by Priorities Regulation No. 3, as amended from time to time, shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3, certify to the Person from whom the machinery is to be acquired that the certificate was originally issued to him and that the machinery was expressly specified on the certificate.

Bituminous Coal Division.

[Docket No. B-219]

FREEBROOK CORPORATION

NOTICE OF FILING OF AMENDED APPLICATION FOR DISPOSITION OF COMPLIANCE PROCEEDING WITHOUT FORMAL HEARING

In the matter of Freebrook Corporation, code member, defendant.

Notice is hereby given that an Amended Application dated April 30, 1942, for the disposition of this proceeding without formal hearing was filed with the Bituminous Coal Division (the "Division") on April 30, 1942, pursuant to § 301.132 of the Rules of Practice and Procedure before the Bituminous Coal Division (the "Admission Rules") by Freebrook Corporation, the above-named code member.

The Amended Application was filed in respect to the written complaint dated February 4, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), filed with the Division on February 10, 1942, by Bituminous Coal Producers Board for District No. 1, a district board, complainant, alleging that the code member which operated the Freebrook No. 7 Mine, Mine Index No. 664, located in Indiana County, Pennsylvania, in Subdistrict 5 of District No. 1, and the McWilliams Mine, Mine Index No. 583, located in Armstrong County, Pennsylvania, in Subdistrict 11 of District No. 1, wilfully violated the provisions of the Act, the Code, and the effective minimum prices as follows:

(A) By selling for resale during the period October 1, 1940 to February 28, 1941, both dates inclusive, approximately 27,249.35 tons of run of mine coal produced at said mines, to Pittsburg & Shawmut Coal Company, a registered distributor, Registration No. 7349, Kittanning, Pennsylvania, (the "Distributor") at prices below the minima therefore established by the Division and allowing said Distributor which physically handled said coal, excessive and unauthorized distributors' discounts, in wilful violation of Rule 1 of section III of the Marketing Rules and Regulations, section 4 Part II (e) of the Act and Part II (e) of the Code;

(B) By filing on March 31, 1941, for the period of October 1, 1940 to February 28, 1941, copies of false and untrue invoices with the Statistical Bureau for District No. 1, for the coal described in paragraph (A) above in wilful violation of section 4 Part II (i) (8) of the Act, Part II (i) (8) of the Code, Rule 3 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations;

(C) By failing to file with the Statistical Bureau for District No. 1, during the period October 1, 1940 to February 28, 1941, both dates inclusive, (1) copies of certain contracts within 15 days after entering into said contracts and (2) copies of certain spot orders within ten (10) days from accepting said spot orders in wilful violation of the provisions of

Order No. 14 of the Division, Rule 3 of section V and Rule 7 of section VI of the Marketing Rules and Regulations.

(1) In the Amended Application the code member admits that it wilfully violated section 4, Part II (e) of the Act, Part II (e) of the Code, and Rule 1 of section III of the Marketing Rules and Regulations by selling coal to the Distributor at prices less than the minima therefor established by the Division, and allowing to the Distributor which physically handled coal, excessive and unauthorized discounts in the form of commissions, deductions for reject coal, amounts paid for railroad car stopovers, transfers, and cleaning and sizing charges and that these amounts represent the difference between the effective minimum prices for said coal of \$2.05 per net ton f. o. b. said mine for use as railroad locomotive fuel and the \$1.50 and \$1.65 per net ton f. o. b. said mines received by the code member as follows:

(a) During the period January 11, 1941 to January 15, 1941, both dates inclusive, 810.45 net tons of run of mine coal produced at its Freebrook No. 7 Mine at \$1.50 per net ton f. o. b. said mine, upon the basis of which the code member consents to the entry of a cease and desist order;

(b) During the period January 16, 1941 to February 28, 1941, both dates inclusive, 3,178.90 net tons of run of mine coal produced at its Freebrook No. 7 Mine, at prices of \$1.50 and \$1.65 per net ton f. o. b. said mines, upon the basis of which the code member consents to the entry of an order of revocation of its code membership;

(c) During the period November 25, 1940 to January 15, 1941, both dates inclusive, 9,765.80 net tons of run of mine coal produced at said McWilliams Mine at \$1.50 per net ton f. o. b. said mine, upon the basis of which the code member consents to the entry of a cease and desist order; and

(d) During the period January 16, 1941 to February 28, 1941, both dates inclusive, 4,995.85 net tons of run of mine coal produced at said McWilliams Mine at a price of \$1.50 per net ton f. o. b. said mine, upon the basis of which the code member consents to the entry of an order of revocation of its code membership.

(2) With respect to the allegation contained in the complaint that the code member wilfully violated section 4 II (i) (8) of the Act, Part II (i) (8) of the Code, and Rule 3 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations as set forth in paragraph (B) above, the code member neither admits nor denies said allegation but does admit that it wilfully violated the Act, the Code, and the Marketing Rules and Regulations by failing to file proper invoices for the transactions referred to in said allegation.

(3) With respect to the allegation contained in the complaint that the code member wilfully violated Order No. 14 of the Division, Rule 3 of section V, and Rule 7 of section VI of the Marketing Rules and Regulations as set forth in paragraph (C) above, the code member neither admits nor denies said allega-

tion but does admit that it wilfully violated the above-mentioned Order and Marketing Rules and Regulations by failing to sell said coal in accordance with said Order and Marketing Rules and Regulations and by failing to file copies of certain contracts and spot orders as required by said Order and Marketing Rules and Regulations.

(4) That in addition to the violations alleged in the complaint, the code member in its Amended Application admits that it wilfully violated the Order of the Director entered in General Docket No. 19, dated October 9, 1940, effective October 14, 1940, by selling to the Distributor during the period November 25, 1940 to December 24, 1940, both dates inclusive, approximately 2,457 tons of run of mine coal produced at its aforesaid Freebrook No. 7 Mine at the price of \$1.50 per net ton f. o. b. the mine, whereas effective minimum prices, temporary or final, had not been established for such coal by the Division, upon the basis of which the code member consents to the entry of an order of revocation of its code membership.

(5) In its Amended Application, the code member states that to the best of its belief and knowledge it has not committed any violations of the Act, the Code, or rules and regulations thereunder, including the Marketing Rules and Regulations, either before or after the above-admitted violations occurred, whether of the same or of any other character other than those referred to in paragraphs (1), (2), (3), and (4) hereof.

(6) Upon the basis of the foregoing admitted violations, the code member consents to the entry of an order revoking and cancelling its membership in the Code, and to an order directing it to cease and desist from further violations of the Act, the Code, and rules and regulations thereunder, and agrees that the Acting Director may impose a tax under section 5 (b) of the Act in the amount of \$8,500.08 on the tonnage referred to in (1) (b) and (d), and (4) hereof, as a condition precedent to the restoration of its membership in the Code.

All interested parties may, if they desire to do so, file with the Division recommendations or requests for informal conferences in respect to such Amended Application within fifteen (15) days from the date of this Notice.

The applications of Walter Bledsoe & Company allege that all of said coal will be produced by Public Service Company of Indiana. Since said applications were not filed by the alleged producer of the coal, as required by the second paragraph of the said section 4-A, such applications will be treated as petitions of intervention and Walter Bledsoe & Company will be deemed to be a party in interest, within the meaning of Rule VII (I) of the Rules of Practice and Procedure before the Bituminous Coal Division;

It appearing that the above-entitled matters raise related and analogous issues;

Now, therefore, it is ordered, That Docket Nos. 490-FD, 1227-FD, 1560-FD, 1613-FD, 1877-FD, C-1, C-4, and C-10 be, and they hereby are, consolidated.

It is further ordered, That a hearing in the above-entitled matters under the applicable provisions of said Act and the rules of the Division be held on June 29, 1942, at 10:00 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such days the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles C. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matters. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said applicants and to all other parties herein and to all persons and entities having an interest in these proceedings and eligible to become a party herein. Any person or entity desiring to be admitted as a party to the proceedings herein and eligible under the said section VII (I) shall file a petition of intervention not later than fifteen (15) days after the date of the issuance of this Order of Consolidation and Notice of and Order for Hearing.

Notice is hereby given that:

(1) Within fifteen (15) days from the date of the issuance of this Order of Consolidation and Notice of and Order for Hearing, the applicant or other interested party shall file with the Division a concise statement in writing of the facts expected to be proved at the hearing. Other interested parties shall also file a written petition of intervention, in compliance with Rule VIII of the said Rules of Practice and Procedure. The statements of facts shall be considered as pleadings and not as evidence of the facts therein stated. The affirmative evidence adduced by the parties at the hearing shall be limited to their respective statements of facts;

(2) If no written statement of the facts expected to be proved at the hearing is filed by the applicant within the fifteen-day period, in the absence of extenuating circumstances, the applications of such applicant shall be deemed to have been withdrawn on the expiration of said period, in accordance with section VII (g) of the said Rules of Practice and Procedure;

(3) If the applicant does not appear and offer evidence in support of its statement of facts, in the absence of extenuating circumstances, the applications shall be deemed to have been withdrawn, in accordance with the provisions of section VII (g) of the aforesaid Rules of Practice and Procedure;

(4) The burden of proof in this proceeding shall be on the applicant.

All persons are hereby notified that the hearing in the above-entitled matters and any orders entered therein may concern, in addition to the matters specifically alleged in the applications and petitions, other matters necessarily incidental and related thereto, which may be raised by amendment to the applications, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of these applications.

The matters concerned herewith are in regard to the applications of Public Service Company of Indiana, pursuant to section 4-A of the Act, for a determination of the status of the coals produced at the Dresser Mine, Vigo County, Indiana, in District No. 11. The applications allege that such coals are exempt from section 4 of the Act because they are consumed by applicant, the producer thereof, or transported by applicant to itself for consumption by it, within the meaning of section 4 II (1) of the Act. The applications further allege that the transactions in the coals

produced at the said mine are in intrastate commerce and do not, as between persons and localities in such commerce on the one hand and interstate commerce in coal on the other hand, result in any undue, unreasonable or unjust discrimination between interstate commerce in coal or in any manner directly affect interstate commerce in coal, pursuant to the first paragraph of section 4-A of the Act.

CLAUDE E. TAYLOR

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND DISMISSING PROCEEDING

In the matter of Claude E. Taylor, code member.

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on October 4, 1941, by the Bituminous Coal Producers Board for District No. 8 pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937. The complaint alleges that Claude E. Taylor, a code member in District No. 8, wilfully violated the Bituminous Coal Code and the rules and regulations thereunder and prays that the Division either cancel and revoke code member's code membership or, in its discretion, direct the code member to cease and desist from violations of the Code or rules and regulations thereunder.

After due notice to interested persons, a hearing in this matter was held December 15, 1941, before Charles S. Mitchell, a duly designated Examiner of the Division in a hearing room thereof at Middlesboro, Kentucky. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by complainant and by code member.

Examiner Mitchell submitted on April 23, 1942, his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. The Examiner found that Claude E. Taylor, a code member in District No. 8, sold on April 17, 1941, 226.4 tons of $\frac{3}{8}$ " x 0 coal produced at Mine Index No. 1556 at a price substantially below the minimum price that would have been applicable had the coal been sold for truck shipment. Examiner Mitchell found, however, that although the coal had been moved from the mine by truck the coal had been ultimately shipped by rail and that, therefore, since such coal was not priced for rail shipment, code member had violated the Order in General Docket No. 19. Since Taylor had been charged only with having sold coal below the minimum price established for truck shipment, the Examiner recommended that the proceeding be dismissed.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner and supporting briefs. No exceptions or supporting briefs have been filed.

The undersigned has determined the proposed findings of fact and proposed conclusions of law in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That this proceeding be and it hereby is dismissed without prejudice.

DOWLING COAL COMPANY

NOTICE OF AND ORDER FOR HEARING

In the matter of Lawrence H. Dowling, doing business as Dowling Coal Company, registered distributor, Registration No. 2472.

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine:

A. Whether or not Lawrence H. Dowling, doing business as Dowling Coal Company, registered distributor, Registration No. 2472 (hereinafter sometimes referred to as the "registered distributor"), whose address is 424 Bell Building, Manchester, New Hampshire, has violated any provisions of the Act, the Code, and Orders and regulations of the Division, including the marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors and the Distributor's Agreement (the "Agreement") dated April 23, 1940, and filed by Lawrence H. Dowling, doing business as Dowling Coal Company, pursuant to an Order of the National Bituminous Coal Commission dated March 24, 1939, entered in General Docket No. 12 which was adopted as an Order of the Division on July 1, 1939, and more particularly whether or not subsequent to September 30, 1940, said registered distributor:

1. During the period January 20, 1941 to March 28, 1941, both dates inclusive, purchased for resale to the Emerson Manufacturing Company, approximately 274 net tons of run of mine coal produced by Forks Coal Mining Company, a code member in District No. 1, at its Hughes No. 11 Mine (Mine Index No. 219) at \$2.20 per ton, the applicable minimum f. o. b. mine price for said coal,

and in said transaction accepted and retained a discount of 25¢ per net ton from said mine price, which discount was in excess of the maximum allowable discount of 12¢ per net ton prescribed by the Division in the Order of the Director entered in General Docket No. 12 dated June 12, 1940, the acceptance and retention of which resulted in a violation of paragraph (a) of his Agreement.

2. On or about January 9, 1941, resold to Tilton Worsted Mills, Tilton, New Hampshire, approximately 54.15 net tons of run of mine coal produced by J. Bruce Anderson, an individual doing business as Helen Jennings Coal Company, a code member producer at his Helen Jennings Mine, Mine Index No. 660, located in District No. 1 and purchased for resale by said registered distributor from said code member, whereas minimum prices, temporary or final, had not been established by the Division for said coal, thereby participating in a violation by said code member of the order entered in General Docket No. 19, dated October 9, 1940, resulting in violation of paragraph (e) of his Agreement.

3. During the period January 20, 1941, to February 25, 1941, both dates inclusive, purchased for resale to said Tilton Worsted Mills, Tilton, New Hampshire, approximately 110 net tons of run of mine coal produced by said J. Bruce Anderson, at his aforesaid mine, at \$2.45 per net ton, the applicable minimum f. o. b. mine price for said coal, and in said transaction accepted and retained a discount of 17¢ per net ton from said minimum price, which discount was in excess of the maximum allowable discount of 12¢ per net ton prescribed by the Division in the Order of the Director entered in General Docket No. 12, dated June 12, 1940, the acceptance and retention of which resulted in a violation of paragraph (a) of his Agreement.

4. On or about September 23, 1941, granted settlements or allowances of twenty-five (25) cents per net ton to Manchester Gas Company, Manchester, New Hampshire, and to Public Service Company, Manchester, New Hampshire, on claims for alleged substandard preparation on the resale to said purchaser of approximately 486 net tons of 1¼" nut and slack coal produced by said J. Bruce Anderson an individual doing business as Helen Jennings Coal Company at his aforesaid mine, and purchased for resale by said registered distributor from said code member, the granting of which settlements or allowances by said registered distributor resulted in the resale of said coal to said purchasers at prices below the minimum therefor established by the Division in the Schedule of Effective Minimum Prices for District No. 1 For All Shipments Except Truck, as amended and supplemented by Order of the Director entered in Docket No. A-663, dated April 18, 1941, without complying with the provisions of Section X of the Marketing Rules and Regulations, which resulted in violations of Rule 1 subparagraphs (a), (b), (c) and (d) of said section X, section 4 Part II (e) of the Act, Part II (e) of the Code, and para-

graphs (b), (e) and (f) of his Agreement.

5. In granting the settlements or allowances described in paragraph 4 hereof, (1) adjusted claims with said purchasers in such manner as to grant secret allowances, secret rebates or secret concessions, or other price discriminations; (2) granted adjustments, allowances, discounts, credits or refunds to said purchasers for the purposes or with the effect of altering retroactively prices agreed upon, in such manner as to create price discriminations, and (3) paid or allowed rebates, refunds, credits or unearned discounts, which resulted in violations of Rules 2, 4 and 6, respectively, of section XIII of the Marketing Rules and Regulations, section 4 Part II (i) paragraphs 2, 4 and 6 respectively of the Act, Part II (i) paragraphs 2, 4 and 6, respectively, of the Code, and paragraphs (c) and (e) of his Agreement.

B. Whether or not the registration of said Lawrence H. Dowling, doing business as Dowling Coal Company, registered distributor, Registration No. 2472, should be revoked or suspended, or other appropriate order should be issued.

It is, therefore, ordered, That a hearing pursuant to Section 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Lawrence H. Dowling, doing business as Dowling Coal Company, has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate order should be issued, be held on June 30, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at Room "C," Washington Hotel, Washington, D. C.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Lawrence H. Dowling and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Lawrence H. Dowling, with reference to the matters hereinbefore described must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on said Lawrence H. Dowling, and that failure to file an answer herein within such period,

unless the presiding officer shall otherwise order, shall be deemed to be an admission by said Lawrence H. Dowling, of the commission of the violations hereinafter described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

An Order having been issued herein on January 12, 1942, after hearing on said complaint, cancelling and revoking the code membership of Miller Coal Company (H. P. [Docket No. B-70]

IN THE MATTER OF JAKE ABBOTT, CODE MEMBER

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATION AND DISMISSING PROCEEDING

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on October 4, 1941, by the Bituminous Coal Producers Board for District No. 8, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937. Complainant alleges that Jake Abbott, a code member in District No. 8, wilfully violated the Bituminous Coal Code and the rules and regulations thereunder, and prays that the Division either cancel and revoke Abbott's code membership or, in its discretion, direct code member to cease and desist from violations of the Code or rules and regulations thereunder.

After due notice to interested persons, a hearing in this matter was held on December 15, 1941, before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in Middlesboro, Kentucky. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by complainant and by code member.

Examiner Mitchell submitted on April 23, 1942, his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation. The Examiner found that Jake Abbott, a code member in District No. 8, sold on June 2, 1941, about 177.5 tons of 3/8" x 0 coal, Size Group 8, produced at Mine Index No. 1492, at a price substantially below the minimum price that would have been applicable had the coal been sold for truck shipment. Examiner Mitchell found, however, that although the coal had been moved from Abbott's Mine by truck, it had been ultimately shipped by rail. The Examiner concluded therefore that a price established for truck shipment was inapplicable to the sale and recommended that the proceeding be dismissed because code member had been charged only with having violated

the schedule for truck prices and not with having sold unpriced coal.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner and supporting briefs. No exceptions or supporting briefs have been filed.

The undersigned has determined that the proposed findings of fact and proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That this proceeding be, and it hereby is, dismissed without prejudice.

Dated: May 30, 1942.
