FISCAL YEAR 1975 BUDGET RESCISSIONS AND DEFERRALS

March 1975 Cumulative Report

OFFICE OF MANAGEMENT AND BUDGET

CUMULATIVE REPORT OF FISCAL YEAR 1975 RESCISSIONS AND DEFERRALS, MARCH 1975

This report is submitted in fulfillment of the requirements of section 1014 of the Congressional Budget and Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014 provides for a monthly report listing all budget authority for the current fiscal year with respect to which as of the first day of such month, a special message has been transmitted to the Congress. This March report includes those deferrals and rescissions in the eight special messages sent by the President to the Congress in September, October, November, December, and January.

Rescissions. A release of \$387,880,000 in budget authority was made as of March 1, 1975 as a result of the expiration of the 45 day period for Congressional consideration. These funds were associated with 39 proposed rescissions contained in the first seven special messages. Congress is currently considering legislation which would permit rescission of some of these funds. However, since Congressional action was not complete at the end of the 45 day period, the funds were released in accordance with law. In addition, \$284,719,000 in budget authority contained in a health services planning and development (Hill-Burton) rescission request were released on February 7, 1975 in accordance with a court order. Therefore, \$672,599,000 in budget authority contained in rescission requests was made available since February 1, 1975. Five proposed rescissions, totalling \$131,481,000 in budget authority, were effected by Pub. L. 93-529 signed December 21, 1974. In addition, \$455,635,000 in budget authority proposed for rescission for Rural Electrification Administration

loans but not included in Pub. L. 93-529 was made available for obligation on December 12, 1974. Another \$85,000,000 proposed for rescission under the Agricultural Conservation Program (REAP) and not included in Pub. L. 93-529 lapsed on December 31, 1974. These items are shown in Attachment A together with the remaining proposed rescissions which total—as of March 1, 1975—\$1,121,919,000.

Deferrals. Attachment B identifies, by agency and account, all deferred funds reported. As of March 1, of the 152 deferrals submitted to the Congress, 30 had been revised by supplementary reports. When supplementary reports have revised previous reports, the amount initially reported has been placed in brackets and zeroed out in the column labeled "Adjustments." Unlike proposed rescissions of budget authority, funds reported as deferred (Section 1013 of the Act) are often planned to be made available for obligation, in whole or in part, during the course of the fiscal year. As of March 1, 1975, 9 of these deferrals had been made available in whole for obligation. These releases, as well as the partial releases, are detailed in Attachment B which shows, for each deferral, the amount of deferred funds made available by the Office of Management and Budget and other Federal agencies in the current year, the date the funds were made available, and the balance of funds being deferred as of the first of the month. The two largest deferral releases of the past month are \$5 billion in sewer construction grants and \$2 billion in federal-aid highway funds. The total of all budget authority deferrals currently before the Congress, as amended by subsequent releases or lapses of funds, is \$13,751,650,000. In addition to this amount of deferred budget authority, another \$10,000,000 in outlays have been deferred under the Department of the Interior's Land and Water Conservation Fund.

Actions Concluded Before July 12, 1974. Some of the actions reported in the special messages are not, in the opinion of the Attorney General, subject to Congressional ratification or disapproval under the Impoundment Control Act since they were concluded before it became effective on July 12, 1974. These items, marked by asterisks, are included in the report to provide more complete information on the status of withheld funds.

Actions by Congress on Rescissions and Deferrals. The report formats provide for showing the effect of congressional action and inaction on both deferrals and proposed rescissions. As of March 1, 1975, no congressional action on deferrals had been concluded. Public Law 93-529, signed December 21, 1974, rescinded \$131,481,000 of budget authority proposed for rescission in the first two special messages. Details of these approved rescissions are shown in Attachment A under columns entitled "Amount Rescinded by Congress" and "Date Rescission Act Signed." The proposed rescission of \$455,635,000 for Rural Electrification Administration Loans was not included in Pub. L. 93-529 and was made available for obligation on December 11, 1974.

Information from the Special Messages. The eight special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the **FEDERAL REGISTERS** of:
