Wikidata Modeling Days 2023
2023-12-02

What?

We would like to model

Grant applications – funder, grant, requested amounts, co-financing, applicants; including for unsuccessful applications

Funded project/event – the financial aspects of this including: final costs, sources of funding (in case of multiple or non-grant).

[stretch goal] **Overall yearly finances of a chapter** – budget size, final costs/income/result, donations

Metabase

Initially for our chapter data on metabase.wikibase.cloud

- but should be compatible with Wikidata
- should work for other movement actors

Metabase

664 pages

Introduction

Metabase is a platform (a Wikibase instance in [Wikibase Cloud](#)) set up by **Wikimedia Sverige** to collect information about the activities and documents of the Wikimedia movement as Linked Open Data. Metabase Cloud offers us a possibility to experiment with this innovative project without having to adhere to the criteria and modeling practices of Wikidata; at the same time, we are trying to stay as close to Wikidata as reasonably possible.

A commonly highlighted problem limiting capacity building has been the lack of findability of existing data, such as training material, reports, and case studies. The hope is that Metabase will be able to help to address this by improving searchability and findability of the knowledge and experience of the Wikimedia Movement. The current stage of its development, which is currently ongoing as of 2023, is to focus on the content production of Wikidata in Sverige, such as data about its reports, events, projects etc. with a special focus on initiatives connected to the Wikimedia Sweden Partnerships. This data is currently stored on the chapter's [wiki](#) in text form. By making the data available in Metabase, we hope to be able to get a better overview of what the chapter has done over the years.

In the next stage we aim to scale the efforts to add a broader set of data around content production and the international Movement this includes adding data on informational resources requested through the [Partnership Hub Helpdesk](#) and identified by the connected Working Groups. The hope is that this data will be on this foundation to then invite other Wikimedia affiliates and interest groups to join in and contribute.

Grants

Grant applications

- Which funder
- Which grant scheme
- Which grant round
- Outcome
 - successful/failed/withdrawn
 - Resulting project(s)/event
 - Amount awarded
- Applicant(s)
 - main applicant?
- Amount requested
 - Subdivided by applicant?
- Co-funding promised
 - Subdivided by applicant?

On Wikidata today

- [Funder \(P8324\)](#)
- [Funding scheme \(P6195\)](#)
- [Applicant \(P10602\)](#)
 - [Co-applicant \(P10601\)](#)
- [Immediate cause of \(P1536\)](#)

Project /Event

Resulting project/event

- Source of funding
 - Can be multiple
 - Application item
 - Funder
 - Other funding mechanism?
- Budget
 - Subdivide by source?
- Final costs/financial result

On Wikidata today

- [Funder \(P8324\)](#)
- [Funding scheme \(P6195\)](#)
- [Has immediate cause \(P1478\)](#)
- [Commissioned by \(P88\)](#)
- [Funded by grant \(P11814\)](#)
- [Budget \(P2769\)](#)
- [Cost \(P2130\)](#)
-

Annual data [stretch goal]

Annual financial data for an affiliate

- Budget size
- Final financial result
 - Costs
 - Income
 - Result
- Donations
 - Amount
 - Number of donors
- Number of members
 - Amount of membership dues?

On Wikidata today

- [Budget \(P2769\)](#)
- [Total expenditure \(P2402\)](#)
- [Total revenue \(P2139\)](#)
- [Donations \(P8093\)](#)
- [Source of income \(P2770\)](#)

Thank you!
