Date. Dec. 2, 1947.

To: The commanding officer,
Tottori Mil Govt Team.

From: Kenichi Morimoto.
Manager of Tottori Factory, Sanin Nogyo k.k.
No 1258. Moynmason Aetakagun Tottori Prefecture.

Subject: application for permission to dispose one part out of the immovable property of the reparation factory.

We are intending to dispose one part out of the company's immovable property as under , for which your esteemed permission will be very much appreciated.

1. Designations of articles to dispose.
   Location: No 1703, 7-Ku, Naro-cho, Tottori City.
   Detail: Land (building site) and Buildings (dwelling qaaters)
   Land: Total area 10,823 tsubo.
   Building: Total floor space 48 wings 1707 tsubo.
   One story wooden, tile-roofed structures, 14½wings.
   One story wooden, single or cryptomeria bark-roofed structures 26½ wings.
   Bath room, lumber-room, attached structures.
   One story wooden, single or cryptomeria bark-roofed structures 7 wings.
2. Where to dispose.
   Tottori city.

3. Reason why to be disposed.
   These buildings were constructed a large quantity in very short time as temporary residences of the company's workers in 1943, after the war the workers who utilize the same because less and less, moreover the present management situation of this company does not allow to have good chance to repaire the same or ample fund to carry out, and also the buildings being temporary one and not well repaired due to leaking of rain and accumulation of snow, damages therefore were very severe, consequently to have the same as the company's residences will be too much expensive for the company itself as well as the residences and there is no hope to be improved more.
   At the earthquake disaster of Tottori district in September 1943 nearly all of the buildings were damaged almost completely after that no revival was progressed, in addition to the above we are experiencing great difficulties to receive war sufferers, those

Date: 6 June 1947

Subject: Application for permission of partial sale of property.

To: The commanding officer
Tottori Mil. Gov't Team

Through: The governor of Tottori Prefecture.

We hereby to apply for the permission for the partial sale of the property owned by us as stated below:

1. Description of the property to be sold.
   a. Location of property: In the compound of the plant no. 1258 Koyama-mura, Ketaka-gun, Tottori prefecture.

   b. Type of property: One building(wooden, cement-tile roofed, one-storied warehouse. Ground space: 418 tsubo.

2. Buyer: Mr. Hironori Uyeda, residing at no. 53 Oyumino-cho, Tottori city.

3. Reason for the disposition.

The said building is the leftout part of the warehouse collapsed by the accumulated snow twice on 19th and 20th of February this year, and needs early disposition, either repairing or dismantling, as it would be deteriorated if left unattended.

However, as either disposition needs considerable expensed for one thing, and we see no necessity for putting the same in shape for our use under the present condition of the plant for another, we have been unable to get any idea how to dispose of it, when the abovementioned person happened to offer to buy the same for the purpose of establishing a department-store therein by removing and rebuilding the same.

Believing the project will be of help to the commercial development and the housing rehabilitation of Tottori city, we are decided to sell it under the present damaged conditions.

1. Reference is made to letter 36th Military Government Company, subject: "Industrial Report Sanin Kogyo Kabushiki Kaisha (formerly Nissan Yuso Hikoki K.K., 1258 Koyama Mura, Ketaka gun, Tottori Ken)" dated 9 May 1946, copy of which is attached hereto with inclosures as inclosure 1.

2. The Sanin Kogyo Kabushiki Kaisha is listed among the plants designated for reparation purposes, and is included on inclosure 2, Operational Directive No. 5, Headquarters 8th Army, 15 January 1946. This report is made in accordance with paragraph 2-d of the above directive.

3. Subject plant is currently in operation under permit issued by Headquarters Sixth Army under date of 26 November 1945 which authorized production of prefabricated houses, furniture, and other miscellaneous wooden ware.

4. This headquarters has permitted subject plant to continue operations on all items authorized in their reconversion permit for the following reasons:

a. Reconversion is 100% completed.

b. Authorized products are all of vital necessity to the local civilian economy. Although there are a number of factories in the same area manufacturing prefabricated houses, the rate of production in those factories is far from being satisfactory and the continuance of operation of subject plant is essential.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. Although subject company has been permitted to continue operation, 36th Military Government Company has been instructed to continue custody and control of the plant for future reparations.

6. Your attention is invited to the fact that subject company has changed its name to Sanin Kogyo Kabushiki Kaisha, subsequent to receiving reconversion permit from Headquarters Sixth Army.

1. Reference is made to Operational Directive No. 5. Headquarters Eighth Army, 18 January 1946 and Operational Instructions No. 1, Headquarters I Corps, 14 February 1946. In O.I. No. 1 specific reference is made to reports requested in paragraph 4, sub-paragraph g. Through oversight the following report was not included with other reports from this Headquarters, submitted 18 March, on the same subject.

2. The following industrial status report on the Sanin Industrial Company Ltd. (Nissan Yuso Hikoki K K), Tottori City, Tottori Prefecture, is submitted in accordance with O.I. No. 1, paragraph 4, sub-paragraph g.

a. On all items authorized in the reconversion permit of this factory, namely pre-fabricated houses, furniture and wooden wares (toys and household utensils), reconversion is now complete, 100 percent.

b. Pre-fabricated house - 30 per month.
Furniture----------¥94,000.00 per month.
Wooden Wares-------¥18,000.00 per month.

The planned ultimate production of pre-fabricated houses is 50 per month. On furniture and wooden wares, the above figures is the monthly capacity.

c. This Headquarters recommends that this establishment be allowed to continue operations on all items authorized in their reconversion permit.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. Statement of Tottori Prefectural Office:

a. Other firms producing the same product (knock-down houses) as the Nissan Yuso Hikoko K K (Sanin Industrial Co. Ltd.) are the Tottori Mokko K. K. (Tottori Wooden Work Co. Ltd.) and twenty other small factories. The production of the knowkdown houses which had been produced up to a recent date, had been suspended, the design being unsatisfactory and is now being revised. The rate of production in those 21 factories meeting only part of civiliam needs, is far from being satisfactory.

b. The production rate of knockdown houses by the Nissan Yuso Hikoki K. K. is as follows and its continued operation is deemed necessary: The symplified panel knock-down houses which the Nissan Yuso H. K. K. has designed and is now producing, is a building constructed with some 120 panels upon a tract of land covering 16 "tsubo". It is so designed as to enable only 2 men to carry the panels and assemble them into a complete house. This device is considered unique in this country. Its chief materials are lumber, n nails, iron, boards, bolts, etc. The lumber, which forms the principal part of the house, need not be so long and big as needed in an ordinary house. Moreover the panels can be assembled into whatever types of building one likes according to the purpose such as a residence, an office, a shop or what not. The production of panels does not require any skilled carpenter, but unskilled laborers or even women suffice in their mass production. The present monthly production rate is thirty houses. It is projected further to build factories for such types in Tokyo-Yokohama, Osaka-Kobe, and Nagoya Areas to ease the present housing deadlock in those districts. The design has been completed and tentatively seven houses have been almost finished. They are striving to enhance the production rate, aiming at meeting the minimum housing need.

c. Hiroshi Nakatani, manager of the factory, has been nominated to take charge of the Nissan Yuso Hikoki K.K. (Sanin Industrial Co. Ltd.) and Jiro Muraishi (chief of the General Affairs Section), resident asst.-manager, has been delegated the whole responsibility for protection and guard while the maneger is absent.

File: MG 129 Date: 26 November 1945

SUBJECT: Permit for Reconversion from War Production and for Resumption of Production of Essential Civilian Commodities.

TO : Nissan Aircraft Manufacturing Company.
(Name & Address of Firm)

1,258 Koyama-mura, Ketaka-gun Tottori pref.

1. In accordance with the provisions of paragraphs 3 a and 3 b of Directive No. 3 from the Supreme Commander for the Allied Powers, dated 22 September 1945; Memorandum for the Imperial Japanese Government, Subject: Reconversion of War Production Plants to Peacetime Production, dated 28 October 1945; and under authority granted this Headquarters by CINCAFPAC Radio ZAX 6197 dated 3 October 1945, you are authorized to commence operation of your plant, and to manufacture the essential civilian commodities listed in Annex No. 1 to this permit.

2. This permit grants authority only to operate. The acquisition of materials, parts, and sub-assemblies, as well as the disposition of finished products and establishment of sales prices, will be in accord with the regulations of the Imperial Japanese Government.

3. At the end of the first month of operation, and at the end of each three-month period thereafter, until notified to the contrary by this Headquarters a report will be made to the Commanding General X Corps, Headquarters Kure, Attention: Military Government Section. This report will be written in English and will list each item, by name, type, and quantity produced by each factory, subsidiary, or sub-contractor operating under the provisions of this permit. This report will be delivered to Corps Headquarters not later than fifteen (15) days after the conclusion of the period to which the report pertains.

1. As indicated in Operational Directive No. 5, the Nissan Yuso Hikoki K.K. is one of the Japanese aircraft plants taken into the custody and control of the Supreme Commander for the Allied Powers. Confirming Verbal instructions to you on this subject, we list below the action which will be taken immediately in complying with this directive and memorandum.

a. To carry out these orders you will place your plant under guard to prevent theft, sabotage and unauthorized removal of equipment and machinery.

b. You will perform such maintenance of equipment, and the buildings housing it, as is necessary to prevent deterioration.

c. You will immediately remove all useful machinery and capital equipment from underground or small dispersed locations to convenient collection and storage points, unless, in the opinion of this section, the present location is better adapted to proper custody and control.

d. No additional removals by you of capital equipment or facilities will be permitted except to locations approved by this section when required as a protective measure, or to centralize control. No machinery or equipment owned by you, loaned to you or for any other reason whatever in your possession will be sold, moved or otherwise disposed of. No machinery or equipment owned privately or by the government, located in any other aircraft installation listed in Directive No. 5 will be acquired, purchased or sold without approval from this headquarters.

e. With reference to your permit for partial conversion to peace time commodities essential to civilian welfare, your permit is being reviewed, with due consideration of the probability that your plant will be taken as reparations. It must be clearly understood however that conversion or continuance of operation, where permitted, in no way prejudices final disposition of your installation for reparations or other purposes.

3. Such inventories of plant equipment as are deemed necessary in connection with custody and control will be made by this section, pending receipt of detailed inventory instructions which will be received at a later date. You will immediately prepare and submit to this Headquarters an inventory of all machinery and equipment owned by you and in your plant or in other plants as of 20 January 1946. This inventory to indicate machines both privately owned and government owned. It will be kept up to date at all times, furnishing this section with any authorized changes that may effect its accuracy.

4. A system of spot checking your installation by Allied personnel will be instituted to insure compliance with these orders.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SANIN KOGYO KABUSHIKI KAISHA
TOTTORI FACTORY
No 1258 Koyamas on Ketakagun Tottori Pref.

Sancho No 320

Date: 28 May 1948

To: Commanding Officer
Tottori Military Goverment Team.

Through: Tottori Prefectual Governor.

Subject: Application for Approval for the Renovation of Building.

This factory is, we beg to note, now manufacturing pre-fabricated house and wooden ware with the permission granted for the reconversion to the civilian industry, but has no dehy-dration plant which is essential to the wood industry, though we had one within the area now sold to Kote Middle School.

We, therefore, intend to rebuild the factory on the left-over vement foundation of the former factory workers' latrine thirty meters north to the Erection-shop as per the plot plan attached herete.

Under the present circumstance, the materials required being hard to obtain, the building will be 162 sq. ft. plant of waste cement, bricks and clay. Awd the fire prevention will be completely taken care of to ensure the safe guard of the reparation plant.

Such being the case , we would like you approve the above with your special consideration.

With the Rehabilitation Board, the supervising agency of the Japanese Central Goverment, an application has already been filed, we beg to add.

5). Nececity for Use.

Our factory manufacturing wooden goods is in a difficult management.

On top it,the burden of running expense has been added to,due to the hike of electricity rate,driving the factory into the Worst condition,neor bankruft.

As a step to overcome the difficulties,the study has been made on the possible improvments to insure the maximum efficiency with the minium equipments.

As the result,we have decided to economize the contract electr-city power be effecting an adjustment on the electric motors now in use.

For the purpose,it is planned to replase 2 motors in use(41-1-208. 30H.P. and 41-1-206.15H.P.) with 2 other motors herein applied for.

Thus we desire to reduse the expense and production,where by placing the management on the rational basis.
Hence this application which we hope you will kindly favor us with your approval,taking into yourconsideration the aforementioned circumstances.

(5) Reasons for Necessitating operation:

The electric motor attached to band saw machine (41-1-151) now in use being of small horse power, it is impossible to get the highest efficency, and therefore to produce any goods of high quality, moreover, the production cost becomes high.

Should this situation be left unattended, the increase of production would not be expected, let alone the improvement of quality, rendering it wellnigh impossible for the factory to operate.

As a remedy to this situation, we filed with Tottori Civil Affairs Team an application, dated 1 September 1949 for permit for temporary use of the motor then not in use to replace the aforementioned small horse power motor, and the verbal permit was granted. We have since been laboring to increase the production.

We hereby beg to apply a-new for your esteemed permit to use this temporary-use-authorized motor as use-authorized.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(5) Reasone for Neesstating pperation:

The electric motor attched to band saw machine(41-1-151) now in use being of small horse power, it is impossible to get the highest efficency, and therfore to produse any goods of high quality, moreover, the production cost become high.

Shoued this situation be left unattened, the increase of production would not be expected, let alone the improvement of quality, rendering it wellnigh impossible for the factory to operate.

As aremedy to this situation, we filed with Tottori Civil Affairs Team an application, dated 1 September 1949 for permit for temporary use of the motor then not in use to replase the afaremen-tionedsmall horse power motor, and the verbal permit was granted. We have since been labaring to increase the production.

We herby beg to apply anem for yonr esteimed permit to use this temporary-use-authorized motor as use-authorized.
