Aircraft Action Report No. 21, Photographic Reconnaissance

Truk Airfields (Moen, Eten and Param Islands), 15 February 1945.

Enclosure:

(A) Subject report.

Enclosure A) is forwarded herewith. 1.

XII. TACTICAL AND OPERATIONAL DATA.

Two PB4Y-1P's obtained regular periodic coverage of Truk's Airfields; on Moen, Eten and Param Islands, with escort of four B-24's of the Army's Eleventh Bombardment Group. Lt. J. T. BROOKS, USNR, led the take-off from Agana Field, Guam, at 0700 King, followed by Lt. M. R. COOPER, Jr., USNR. The Army planes took off immediately thereafter from Depot Field, Guam.

Arriving at target, 1137 King, both photo flight lines were run successfully in clear weather, several radical changes in direction being made between legs of the runs. These turns plus the dropping of radar window at each change in direction (assorted window lengths dropped at 5 second intervals) contributed to the general inaccuracy of AA encountered. One piece of shrapnel, however, found Lt. COOPER's plane, Buring withdrawal from the targets, three Zekes were observed east of Eten Island engaged mostly in aerobatics out of range. Two Zekes made runs on Lt. COOPER, both from 2,000 feet above at 9 to 10 o'clock and diving below COOPER's formation. On one of these runs, the Navigator in one of his Army escorts was slightly wounded by a 20MM shell.

Both photo planes returned to Agana Field, Guam, by 1500 King.
