Democratic Party

Primary Nominating Election

May 23, 1972

Compiled and Distributed by

CLAY MYERS

Secretary of State

INFORMATION STATEMENT

(1) Requirements for a citizen to qualify as a voter:

Citizen of the United States.

Eighteen or more years of age.

Registered as an elector with the County Clerk or official registrar at least 30 days before election.

(2) Voting by absentee ballot.

You may apply for an absentee ballot if:

You are a registered voter. ("Service voters" are automatically registered by following the service voting procedure.)

You have reason to believe you will be absent from your county on election day.

You live more than 15 miles from your polling place.

You will be physically unable for any reason to attend the election.

"Service voter" means a citizen of the State of Oregon absent from the place of his residence and: serving in the Armed Forces or Merchant Marine of the United States, or temporarily residing outside the United States and the District of Columbia.

Application for the ballot may be filed with, or mailed to the County Clerk at any time within 60 days preceding the Primary election, March 24—May 23, 1972 (Service voters, after January 1 of election year).

THE MATERIAL CONTAINED IN THE VOTERS' PAMPHLET IS WRITTEN BY THE CANDIDATES, BY COMMITTEES, AND BY SUPPORTERS OR OPPONENTS OF BALLOT MEASURES. UNDER OREGON LAW, THE SECRETARY OF STATE COMPILES AND PUBLISHES THE STATEMENTS SUPPLIED TO HIM.

(See back of book for list of candidates)

Application includes:

Your signature.

Address or precinct number.

Statement relating why applicant is physically unable to attend the election personally.

Address to which ballot will be mailed.

Ballot, when voted by elector, must be returned to County Clerk not later than 8 p.m. on election day.

(3) A voter may obtain from his County Clerk a certificate of registration if he:

Changes residence within his precinct, county or to another county within 60 days prior to the ensuing election and has not re-registered. (Certificate is presented to his election board.)

Is absent from his county on election day. (Certificate may be presented to the election board in any county in the state. Elector may vote only for state and district offices.)

(4) A voter is required to reregister if he:

Changes address by moving within his precinct or moves to another precinct or county, or his residence address is changed for any reason.

Changes party registration.

Changes name.

At the Primary Election of 1972 the electors of Marion County will cast their votes on the equipment illustrated below. This page is inserted into the Voters' Pamphlet as an aid to those of you who will be using this equipment for the first time.

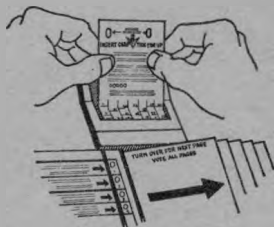

HOW TO VOTE A PUNCH CARD BALLOT

SPECIAL NOTE

IF YOU MAKE A MISTAKE, RETURN YOUR CARD AND GET ANOTHER.

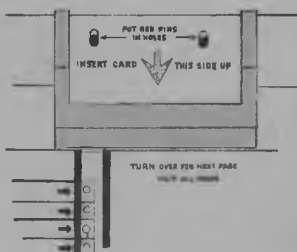

STEP 1

INSERT THE BALLOT CARD ALL THE WAY INTO THE DEVICE.

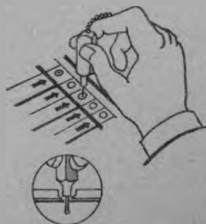

STEP 2

BE SURE THE TWO SLOTS IN THE STUB OF YOUR CARD FIT DOWN OVER THE TWO PINS.

STEP 3

TAKE THE PUNCH ATTACHED TO THE DEVICE AND PUNCH THROUGH THE BALLOT CARD FOR CANDIDATES OF YOUR CHOICE. HOLD PUNCH VERTICLE (STRAIGHT UP). DO NOT USE PEN OR PENCIL.

THE BLACK SPOT IN THE VOTING CIRCLE SHOWS YOU HAVE RECORDED YOUR VOTE.

STEP 4

AFTER VOTING, WITHDRAW THE BALLOT CARD AND PLACE IT INSIDE THE ENVELOPE, WITH THE STUB SHOWING.

THERE IS A PLACE FOR WRITE-IN VOTES ON THE BALLOT ENVELOPE.

As a result of the 1971 Legislative Reapportionment, state representatives and state senators are elected from single-member districts. In this, and subsequent elections, you will vote for one state representative and one state senator. The exception to this is in those instances where a state senator will not be elected this year from your county.

The following list of districts, and precincts within those districts, is provided to help you identify the state senator and state representative candidates for whom you may vote.

Find your precinct number or name in the left column. It will identify your representative or senatorial districts in the columns on the right.

If you have any questions about which candidates you are eligible to vote for at the primary election, please call your county clerk.

Measure No. 1

Eliminates Literacy Requirement; Lowers Voting Age

Proposed by the Fifty-sixth Legislative Assembly by Senate Joint Resolution No. 7, filed in the office of the Secretary of State April 14, 1971 and referred to the people as provided by Section 1, Article XVII of the Constitution of Oregon.

Explanation

By Committee Designated Pursuant to ORS 254.210

This measure proposes to amend a section of the Oregon Constitution which pertains to registration and voting. If passed, it would do two things:

- (1) Remove from the constitution the requirement that every voter must be able (except for physical disability) to read and write the English language.
- (2) Lower the minimum voting age from 21 to 18 years of age for all elections in Oregon.

These changes are proposed to bring Oregon's constitution into conformity with the federal constitution. The United States Supreme Court has declared literacy requirements unconstitutional, and the 26th amendment to the federal constitution supersedes Oregon's constitution in matters where the two conflict. Therefore, a vote of the people is necessary in order to bring into conformity Oregon's constitution.

The outcome of the vote on this amendment is immaterial. If the measure is not approved by the voters, Oregon will still be required to comply with the federal constitution.

Measure No. 1**Eliminates Literacy Requirement: Lowers Voting Age****Argument In Favor****By Legislative Committee Pursuant to ORS 255.421 (3)**

Ballot Measure Number 1 proposes amendments to section 2, Article II and section 6, Article VIII of the Oregon Constitution. Its effect would be to lower the voting age to 18 years of age and to delete the English literacy requirement for voting.

Oregon ratified the new XXVI Amendment to the U. S. Constitution in June of 1971. That amendment provided for voting by persons 18 years of age and older. The proposed amendment to the Oregon Constitution is, thus, only a further affirmation of the right now granted by the U. S. Constitution.

The U. S. Supreme Court ruled in 1970 that the Federal Voting Rights Act of 1965, as amended in 1970, could constitutionally prohibit English literacy tests as prerequisites to voting. That law is enforceable against the states. In order to comply with the court mandate, the legislature has proposed the further amendments contained in Ballot Measure Number 1.

Oregon has long been a leader among the states in extending the full rights of citizenship to all of its qualified residents. We should do no less now with the newly granted voting rights to young people and to those minorities whose inability to meet an English reading requirement might result in improper disenfranchisement. Vote "YES" on Ballot Measure Number 1 to show that Oregonians truly believe and reaffirm in full measure those rights protected by the U. S. Constitution.

Eliminates Literacy Requirement: Lowers Voting Age

Argument In Opposition

Submitted by The Women's Legislative Council

LOOK CLOSELY AT THIS PACKAGED CONSTITUTIONAL AMENDMENT

A United States Constitutional Amendment to lower the voting age to 18 years has been ratified, BUT nothing in that Amendment removes the requirement that voters be able to read and write.

BALLOT MEASURE 1 REMOVES THE REQUIREMENT THAT A VOTER BE LITERATE—THAT IS, ABLE TO READ THE BALLOT AND SIGN THE POLL BOOK.

- The privilege of voting should not be extended to those who have not bothered to learn to read and write their country's language.
In order to become citizens, aliens are required to know English. Citizenship tests are given in English.
- Millions of taxpayers dollars are spent on education. There is no valid excuse for illiteracy in Oregon today.
- It is not reasonable to permit those who can't read or write to vote. Who will tell them how to vote?

DON'T BE MISLED

The matter of lowering the voting age has been settled. THE ISSUE in Ballot Measure 1 is the MATTER OF LITERACY AS A VOTING QUALIFICATION.

Measure No. 1

Eliminates Literacy Requirement: Lowers Voting Age

Be It Resolved by the Legislative Assembly of the State of Oregon:

Paragraph 1. Section 2, Article II, and section 6, Article VIII, Oregon Constitution, are amended to read:

Sec. 2. (1) Every citizen of the United States is entitled to vote in all elections not otherwise provided for by this Constitution if such citizen:

(a) Is [21]18 years of age or older;

(b) Has resided in this state during the six months immediately preceding the election, except that provision may be made by law to permit a person who has resided in this state less than six months immediately preceding the election, but who is otherwise qualified under this subsection, to vote in the election for candidates for nomination or election for President or Vice President of the United States or elector of President and Vice President of the United States; and

(c) Is registered prior to the election in the manner provided by law. [; and]

[(d) Is able, except for physical disability, to read and write the English language. The means of testing such ability to read and write the English language may be provided by law.]

(2) Except as otherwise provided in section 6, Article VIII of this Constitution with respect to the qualifications of voters in all school district elections, provision may be made by law to require that persons who vote upon questions of levying special taxes or issuing public bonds shall be taxpayers.

Sec. 6. In all school district elections every citizen of the United States of the age of [twenty-one]18 years and upward who shall have resided in the school district during the six months immediately preceding such election, and who shall be duly registered prior to such election in the manner provided by law, shall be entitled to vote. [, provided such citizen is able to read and write the English language.]

Paragraph 2. The amendment proposed by this resolution shall be submitted to the people for their approval or rejection at the time of the next regular primary election held throughout the state.

Measure No. 2

Repeals Requirement for Decennial State Census

Proposed by the Fifty-sixth Legislative Assembly by House Joint Resolution No. 16, filed in the office of the Secretary of State, April 21, 1971, and referred to the people as provided by section 1, Article XVII of the Constitution.

Explanation

By Committee Designated Pursuant to ORS 254.210

ARTICLE IV, Section 5, of the Constitution of Oregon reads as follows:

"Section 5. Census. The Legislative Assembly shall in the year eighteen hundred and sixty-five, and every ten years, after, cause an enumeration to be made of all the white population of the State."

Measure No. 2, if approved, will repeal Section 5, of Article IV in its entirety.

At present, Section 5 requires that a census enumeration be made every 10 years but excludes therefrom all non-white residents.

If Section 5 is repealed, the State will be permitted to decide whether such an enumeration should be made, how often it should be made, and may include therein all residents of the State without regard to race or National Origin.

Measure No. 2**Repeals Census Section of State Constitution****Argument in Favor****By Legislative Committee Pursuant to ORS 255.421 (3)**

Ballot Measure Number 2 proposes the repeal of Section 5, Article IV of the Oregon Constitution of 1859 which provides for a state census of the white population to be taken every ten years, beginning in 1865. This census was intended as the basis for apportionment of Senators and Representatives. With the extensive amendment to the apportionment provision of the Constitution that occurred by an initiative adopted in 1954, the state census provision became meaningless since apportionment is based on the Federal Census. In fact, re-apportionments that occurred prior to the 1954 amendment had not been based on a state census. Moreover, the reference to "white" population would probably make any census made under its authority useless for any public purpose. The provision for a state census is, therefore, an archaic provision that is offensive to many minority people and should be repealed by vote of the people.

Measure No. 3

Allows Legislators to Call Special Sessions

Proposed by the Fifty-sixth Legislative Assembly by House Joint Resolution No. 15, filed in the office of the Secretary of State June 9, 1971, and referred to the people as provided by Section 1, Article XVII of the Constitution of Oregon.

Explanation

By Committee Designated Pursuant to ORS 254.210

From the time of statehood in the middle of the last century, Oregon's Legislature has been limited to one session every two years, unless the head of a different branch of government—the governor—orders a special session.

Ballot Measure No. 3 would change the time-worn constitutional restriction. It would provide the necessary machinery for the Legislature to fulfill its modern governmental duty.

The proposed constitutional amendment would allow the Legislative Assembly to decide, by majority action, whether it is necessary to meet between the regular biennial sessions. Two methods are set forth by which the Legislature could reconvene itself. Prior to adjournment of a regular session, the two houses could adopt a joint resolution setting a date for a future special session. After adjournment, a petition signed by a majority of the members of each house (16 in the Senate, 31 in the House of Representatives) could authorize a special session. In either case, the resolution or the petition could limit the subjects to be considered.

The concept of allowing the Legislature to reconvene itself was developed by a special citizens' advisory committee. The recommendation was based on these findings: With rising costs that reflect the demands of a growing state, the historic system obstructs a timely legislative response to wide fluctuations in revenue that have produced fiscal crises in some years and unplanned surpluses in others. Furthermore, as state government expands, the Legislature is unable to remain current in its review of government operations. The constantly growing involvement of federal agencies in state programs has resulted in policy decisions by appointed officials in state and federal agencies rather than the elected representatives of the people, which conflicts with the Legislature's policy-making role.

To fill the void that now exists between sessions, the Emergency Board, consisting of one-tenth of the Legislature, has been called on to undertake increasingly more of the responsibility of the full Legislature.

Measure No. 3 would not alter the constitutional requirement that the Legislature convene in January of odd-numbered years. Nor would it diminish the governor's power to call a special session.

But it would make the Legislature the separate and equal branch of government that it is supposed to be, equipping the Legislative Assembly with modern tools for modern government.

Measure No. 3

Constitutional Amendment Concerning Convening of Legislature

Argument In Favor

By Legislative Committee Pursuant to ORS 255.421 (3)

Ballot Measure No. 3 would modernize a century-old provision of the Oregon Constitution. Under its authority, the Legislative Assembly can meet more frequently than the regular biennial sessions. Current experiences with the fluctuating revenues that could not be foreseen at the time of a regular session emphasizes the importance of giving the legislature the tools to respond in a timely manner, in behalf of the people. This needed flexibility will be accomplished by either of two methods:

(1) During a regular session by adoption of a joint resolution by a majority of the members of each house calling for a special session; or

(2) During the interim by petition of a majority of members, filed with the presiding officers.

The session would commence on the date specified in the resolution or petition, and the Legislative Assembly could limit the matters to be considered at such session.

This proposed amendment in no way necessitates or dictates annual sessions. It is designed to better enable the legislature to respond to situations in the state which in legislative judgment require immediate legislative action and to vest in the Legislative Assembly that power which is now possessed only by the Governor. The legislature should be so empowered as consistent with the doctrines of separation of powers. This proposal is in no way an infringement on the Governor's emergency authority.

The legislature has historically demonstrated great reluctance to meet in special session when less than an emergency or crisis situation exists. In fact, such situations have occurred rarely. The legislature has been in special session only fourteen times in the past 113 years. However, three of those have occurred since 1963. Increased social and technological demands on state government require an ability to respond more quickly and flexibly. More frequent legislative sessions may be required in the future. Rather than resort to the rigidity of fixed annual session, it is the conclusion of the Legislative Assembly that Ballot Measure No. 3 is a more appropriate tool.

Measure No. 4**Capital Construction Bonds for State Government**

Proposed by the Fifty-sixth Legislative Assembly by Senate Joint Resolution No. 25, filed in the office of the Secretary of State June 9, 1971 and referred to the people as provided by Section 1, Article XVII of the Constitution of Oregon.

Explanation**By Committee Designated Pursuant to ORS 254.210**

This measure would amend the Oregon Constitution to authorize general obligation bonds to finance buildings and related state projects. The bonds would be repaid from rentals, parking fees, other building fees and gifts. Rental rates are set to retire bonds and provide operating funds.

Construction of State buildings is presently financed by borrowing from State trust funds. The general obligation bond method of financing proposed by this measure normally carries a lower rate of interest.

This measure, as all general obligation bonding measures, contains a provision which would allow a state property tax if actual revenues from the projects are too low. No State bonding measure has ever required such a levy. Only projects which the legislature considers to be self supporting or self-liquidating could be constructed under this measure.

The constitution of Oregon prohibits lending the credit of the State for more than \$50,000.00. Other changes previously have been made in methods of financing by a vote of the people (Example: Bonds for higher education facilities, pollution control, veterans loans). Ballot Measure No. 4 proposes to add the construction of buildings for use of the State government to this list.

Measure No. 4

Capital Construction Bonds for State Government

Argument in Favor

By Legislative Committee Pursuant to ORS 255.421 (3)

The State of Oregon has a serious shortage of space for housing state agencies at the present time. Many agencies are housed in privately-owned buildings located throughout the Salem area at a cost of more than \$600,000 per year. Much of the leased space is ill-suited for state use, and it is difficult for citizens doing business with these agencies to find them in their scattered locations.

The Legislature must provide space on the Capitol Mall to meet these needs. The Legislature presently has authority to borrow construction money from various state trust funds, but it must pay full commercial interest rates for such money. If this measure is approved, the state may issue bonds to finance needed construction at reduced interest rates. The interest saving will be approximately \$650,000 for each \$1 million borrowed over a 30-year loan period. This will represent a substantial saving to the taxpayer in providing for these space needs.

If these bonds are authorized, the borrowed money and interest will be repaid by user charges assessed against the agencies which occupy the state-owned buildings.

We strongly recommend a favorable approval of this measure to minimize the cost of state government.

L. W. NEWBRY, Ashland

PHILIP D. LANG, Portland

Measure No. 4**Capital Construction Bonds for State Government****Argument in Favor****Submitted by Capitol Planning Commission**

This measure allows the State of Oregon to issue general obligation bonds for capital construction.

Space needs are already here, and are not a future need. In the Salem area alone, space is leased from private landowners at a monthly cost of \$52,400.00. This same amount of money, under this measure, would allow the State to build \$10,000,000.00 of its own buildings, which would be amortized over a 30 year period. Let's build our own buildings.

Past experience in bonding indicates that this is a good measure, and it is designed to enable the State of Oregon to borrow at lesser interest rates; thereby reducing total cost of projects which will ultimately create savings for the taxpayer.

This measure would increase employment in all construction fields.

This is a money saving measure.

Measure No. 4

CAPITAL CONSTRUCTION BONDS FOR STATE GOVERNMENT

Be It Resolved by the Legislative Assembly of the State of Oregon:

Paragraph 1. The Oregon Constitution is amended by creating new sections to be added to and made a part thereof, to be designated Article XI-I, and to read:

ARTICLE XI-I

CAPITAL CONSTRUCTION FOR STATE GOVERNMENT

Section 1. The credit of this state may be loaned and indebtedness incurred in an amount that may not exceed at any one time one-fourth of one percent of the true cash value of all taxable property in this state, as determined by law, to provide funds with which to:

(1) Repay outstanding indebtedness incurred to finance the cost of buildings, structures and other projects for state government; and

(2) Construct, improve, repair, equip and furnish buildings, structures and other projects for state government, and to purchase or improve sites therefor.

Section 2. The buildings, structures and other projects constructed, improved, repaired, equipped and furnished under subsection (2) of section 1 of this Article shall be such only as conservatively appear to the constructing authority to be wholly self-liquidating and self-supporting from gifts, grants, rentals and parking or other building fees. All unpledged net revenues of existing buildings, structures and other projects for state government may be pooled with the net revenues of new buildings, structures and other projects in order to render the new buildings, structures and other projects self-liquidating and self-supporting.

Section 3. Ad valorem taxes shall be levied annually on all taxable property in this state in sufficient amount, with the revenues described in section 2 of this Article, to provide for the payment of such indebtedness and the interest thereon. The Legislative Assembly may provide other revenues to supplement or replace such tax levies.

Section 4. Bonds issued under this Article shall be the direct general obligations of this state, be in such form, run for such periods of time, and bear such rates of interest, as are provided by law. The bonds may be refunded with bonds of like obligation. Unless otherwise provided by law, bonds may not be issued under this Article for the construction of buildings or other structures until all of the outstanding indebtedness has been repaid under subsection (1) of section 1 of this Article.

Section 5. The Legislative Assembly shall enact laws to carry out this Article. This Article supersedes all conflicting provisions of this Constitution.

Paragraph 2. The amendment proposed by this resolution shall be submitted to the people for their approval or rejection at a special election to be held at the same time as the regular state-wide primary election in 1972.

Measure No. 5**Irrigation and Water Development Bonds**

Proposed by the Fifty-sixth Legislative Assembly by House Joint Resolution No. 14, filed in the office of the Secretary of State June 30, 1971 and referred to the people as provided by Section 1, Article XVII of the Constitution of Oregon.

Explanation**By Committee Designated Pursuant to ORS 254.210**

Measure 5 is a constitutional amendment authorizing the sale of general obligation bonds up to one percent of the true cash value of taxable property in the state to establish a Water Development Fund. Loans would be made from the fund for the construction, operation, and maintenance of irrigation projects to the property line of farms owned by Oregon residents, corporations or public entities and to acquire easements and rights-of-way for federally approved water development projects. This authorization would amount to the sum of 220 million dollars, to be loaned only to Oregon residents qualifying under the Water Bank Act. If funds are "reasonably available" to them from other sources, their application for a Water Bank loan would be rejected.

Patterned after the Veterans' Loan Program, Water Bank loan interest rates would be low, 1.3 percent above the interest rate paid by the state on the self-liquidating bonds.

Development of irrigation projects for increased crop yields and better land use is the primary purpose of the fund; secondary uses for irrigation projects would include recreational, natural resource conservation uses and municipal and industrial water use. (State money would not be loaned for secondary projects.)

Provision is made in the Water Bank Act for a five million dollar revolving fund for financing assistance on federal water projects, approved by Congress, but waiting for initial federal funds to acquire easements and rights-of-way. The borrower would repay the state loan when the federal money is appropriated.

The borrower's interest would be protected by feasibility studies on proposed irrigation projects and the required approval of the governor, state engineer and other agencies responsible for water use programs in the state.

In accordance with the provisions of House Bill 1303, the companion bill to Measure 5, the loan repayments by the irrigators are required to be adequate to pay the interest and retire any state bonds issued under the proposed amendment.

Measure No. 5

Irrigation and Water Development Bonds

Argument in Favor

By Legislative Committee Pursuant to ORS 255.421 (3)

Ballot Measure 5 will help release Oregon's untapped irrigation potential, a source of wealth in natural resources, which will beautify and enrich lands formerly lying in an unproductive state.

Passage of Ballot Measure 5 will enact House Bill 1303. This combination will put money into the hands of Oregonians to permit and encourage the development of Oregon land and water resources to the benefit of all the people of the state and will do it without disturbing any of Oregon's revenue sources.

Being limited to resident individuals and corporations of Oregon, the measure will insure that average Oregonians of modest means have an opportunity to develop Oregon resources on a family-farm basis, rather than leave them to giant out-of-state corporations, which stand poised to grab the wealth for themselves.

Oregon's young people, now leaving farms for other, more remunerative, lines of work, would be encouraged to remain on the land because of new opportunities, better income and diversified farming afforded by application of irrigation. Young people could afford to develop their own farms.

Development of Oregon's land and water resources means more jobs, means that Oregon workers will make more money and means that Oregonians will own more property. These result in a broadened tax base and lower taxes for all Oregonians.

Ballot Measure 5 will do for Oregon's land and water resources what the State Veterans Home and Farm Loan has done for veteran home and farm ownership. Like the veterans home and farm loan program, bonds issued to finance water bank loans will be retired through the payments of these irrigators who borrow from it. No tax moneys will be used.

The veterans loan has resulted in appreciation of land values and has generated millions of dollars of revenue over and above the actual funds loaned to finance it. It has eased our property and income tax burden by millions of dollars annually by broadening the property tax base and by providing new jobs and income tax potential.

Ballot Measure 5 will create jobs in the same sense and will create more income for farmers, for labor and for businessmen. It will create greater property values at no cost to the taxpayer.

More jobs, more income and higher property values spell lighter tax burdens for all Oregonians. Vote for increased agricultural prosperity, more jobs and a lighter tax load.

Vote yes on Ballot Measure 5 to allow Oregonians to develop Oregon land and water resources at no cost to, and to the great benefit of, all Oregon taxpayers.

Measure No. 5**Irrigation and Water Development Bonds****Argument in Favor****Submitted by Edward J. Whelan****VOTE "YES" FOR BALLOT MEASURE 5**

Oregon's labor force is more dependent upon a healthy agricultural economy than most people realize. The growth of the state's commodity handling, processing and transportation to inter-state and intra-state commerce means more jobs, more payrolls, and, ultimately, a more even distribution of the income tax burden.

Passage of Ballot Measure 5, the Water Bank Bill, will do much to bring Oregon agriculture into a new and vital chapter of growth. It offers those still on the family farm an opportunity to diversify production and to get out of the blind alley of current cropping patterns through the managed and judicious use of irrigation water, where little or none was available before.

Oregon's youth is leaving the farm because of the lack of opportunity. The average age of Oregon's farmers must be reduced by making agriculture a viable, expanding industry. Irrigation offers the best opportunity to achieve this end.

The addition of irrigation water increases the capability of land to produce and to be used for crops not ordinarily grown in particular regions of Oregon.

Increasing the ability to produce commodities which are needed by emerging markets throughout the world, not only increases the farmer's own prosperity, but increases the value of his land. This, in turn, adds to its assessed valuation and acts to broaden Oregon's property tax base.

With strict controls on potential irrigation projects by the State Engineer and a review by the office of the Governor of each application for environmental impact among other things, the passage of Ballot Measure 5 offers Oregonians a once-in-a-lifetime opportunity to rebuild a clean industry, enhance the beauty of the state, keep our youth in healthful occupations, and add materially to the prosperity of the state.

Vote "Yes" on Ballot Measure 5.

Irrigation and Water Development Bonds

Argument in Opposition

Submitted by Walter E. Eriksen

In an address to Congress on February 1, 1972, President Nixon said, "... the vitality of rural America has been at the heart of our Nation's strength. It is essential that we preserve and expand that vitality in the years ahead."

Ballot Measure #5 appears to be for the benefit of developers of large new tracts of land. House Bill #1303, which will be enacted if Ballot Measure #5 is passed, defines "Irrigation Project" as the complete undertaking of getting water to the lands, but "... SHALL NOT INCLUDE ON-FARM DISTRIBUTION WORKS AND FACILITIES."

At the present time there is no farm commodity that is in short supply. Increased production of any farm crop on newly opened irrigated acres will only flood an already over-supplied market and will work a hardship on the family farms which are now in jeopardy. Families moving off farms will, of necessity, move to the cities and compete with the urban unemployed for jobs.

The proponents suggest that a 160 acre farm costs 60% more PER ACRE to operate than a 640 acre farm. I cannot believe that these figures apply to the average existing farms in Oregon today. This suggests that economic feasibility will be determined by size. New tracts of 640 acres or more could totally destroy small family farms.

Ballot Measure #5 would not help the present established farm families, as the Veterans Loan Program benefits the Veterans. This Measure is intended to encourage big new operators on more farms which we DO NOT NEED at this time. So let's wait until we no longer need to pay farmers a subsidy to idle un-needed acres before we encourage others to increase total cropland acres at the same time.

Measure No. 5

Irrigation and Water Development Bonds

Be It Resolved by the Legislative Assembly of the State of Oregon:

Paragraph 1. The Constitution of the State of Oregon is amended by creating a new Article, to be known as Article XI-I, and to read:

ARTICLE XI-I

Section 1. Notwithstanding the limits contained in section 7, Article XI of this Constitution, the credit of the State of Oregon may be loaned and indebtedness incurred in an amount not to exceed one percent of the true cash value of all the property in the state, for the purpose of creating a fund to be advanced for the construction, and, when necessary for the security of the state, the operation and maintenance of irrigation projects to and upon farms owned by residents of the State of Oregon and for the acquisition of easements and rights of way for water development projects authorized by the laws of the United States. Such fund shall be known as the "Water Development Fund." "Residents" includes both natural persons and any corporation or cooperative, either for profit or nonprofit, or municipal or quasi-municipal, or other body created and existing under the laws of the State of Oregon.

Section 2. Bonds of the State of Oregon containing a direct promise on behalf of the state to pay the face value thereof, with the interest therein provided for, may be issued to an amount authorized by section 1 of this Article for the purpose of creating such fund. The bonds shall be a direct obligation of the state and shall be in such form and shall run for such periods of time and bear such rates of interest as provided by statute.

Section 3. Refunding bonds may be issued and sold to refund any bonds issued under authority of sections 1 and 2 of this Article. There may be issued and outstanding at any one time bonds aggregating the amount authorized by section 1 of this Article but at no time shall the total of all bonds outstanding, including refunding bonds, exceed the amount so authorized.

Section 4. Ad valorem taxes shall be levied annually upon all the taxable property in the State of Oregon in sufficient amount to provide for the payment of principal and interest of the bonds issued pursuant to this Article. The Legislative Assembly may provide other revenues to supplement or replace, in whole or in part, such tax levies.

Paragraph 2. The amendment proposed by this resolution shall be submitted to the people for their approval or rejection at a special election held throughout the state on the same date as the next regular state-wide primary election.

NOTE: Matter in bold face in an amended section is new; matter [bracketed] is existing law to be omitted; complete new sections begin with **Section**.

BALLOT TITLE

IRRIGATION AND WATER DEVELOPMENT BONDS—Purpose:

5 Authorizes bonds up to one percent of true cash value of taxable property in state to provide funds to be advanced for construction and, when necessary for security of state, the operation and maintenance of irrigation projects to and upon farms owned by Oregon residents (including corporations and public bodies) and to acquire easements and rights-of-way for water development projects; authorizes ad valorem tax sufficient to pay principal and interest on bonds.

YES NO

Measure No. 6

Enabling County-City Vehicle Registration Tax

Submitted to the People pursuant to Referendum Petition filed in the office of the Secretary of State, September 8, 1971, in accordance with the provisions of section 1, Article IV of the Constitution of Oregon.

Explanation

By Committee Designated Pursuant to ORS 254.210

This measure gives the governing body of a County authority to increase registration fees for passenger cars, busses and trucks not engaged in interstate commerce. It excludes campers, trailers, mobile homes, government-owned vehicles or trailers that require an annual license fee of \$10 or less.

The county may levy a \$10 increase which will be shared equally between the county and the cities within the county. The cities' half-share shall be divided in accordance with each city's population; or

The county may levy a \$5 increase for either county or city purposes; or

If the county takes no action to levy an increase, one or more cities having a population of at least 60 per cent of the total city population in the county may require the county to levy a \$5 registration fee increase which will be distributed to all the cities in the county on a population basis. The Motor Vehicles Division would be responsible for collecting the \$5 or \$10 fee at the time a vehicle is first registered or due for re-registration and, after deducting administrative costs, would take appropriate action at regularly stated intervals to make the balance available for distribution to cities and counties as provided in the law.

These funds can be spent only on roads and streets, traffic policing, parks, recreation facilities, scenic or historic places.

If you are **IN FAVOR** of permitting counties and cities to have the option of levying an increase of up to \$10 in the motor vehicle registration fee, you should vote **YES**.

If you are **OPPOSED** to permitting the counties and cities to have the option of levying an increase in the motor vehicle registration fee, you should vote **NO**.

Measure No. 6**Enabling County-City Vehicle Registration Tax****Argument in Favor****Submitted by Hiram C. Johnson**

This proposal is designed to help finance some badly needed local road and street improvements.

Just how badly are these improvements needed? One way to answer that question is from your own observation of the county roads and city streets that you have occasion to use.

Another answer can be found in some state-wide data compiled by Oregon State University. The OSU study was thorough and impartial. A highly skilled staff studied the problem on an area by area basis for some four years to arrive at their findings. They concluded that Oregon city and county road needs will total 5.8 billion dollars over the next 20 years. They also estimated that all income for such purposes over the same period of time will fall short of meeting these needs by more than 3.7 billion dollars. In other words, cities and counties across the state should be spending about \$185 million per year more than they are now spending if we in Oregon expect to achieve and maintain an adequate local road and street system. Obviously, Oregon cities and counties will never come close to receiving enough money to satisfy needs of this magnitude.

But these figures do point up the fact that the additional \$13.5 million per year that measure No. 6 could provide is everwhelmingly justified. It is a sound investment in the future economy and liveability of the State of Oregon.

Measure No. 6

Enabling County-City Vehicle Registration Tax

Argument in Opposition

Submitted by Leslie V. Bahr

You should vote NO on this tax measure because it is an unfair, unjust and inequitable tax.

Any tax, to be reasonably fair, must meet at least one of two standards:

1. It must be based on ABILITY TO PAY, such as the income tax.

This tax is not! A person with a \$100 car, motorcycle or truck pays the same amount of tax as the owner of a \$10,000 limousine. IS THAT FAIR?

2. It must be based on BENEFITS RECEIVED, such as the gas tax.

This tax is not! A person driving 5,000 miles a year pays the same as one driving 100,000 miles a year. The motorcycle or small car owner pays the same as the owner of a heavy car or truck. IS THAT EQUITABLE?

THOSE TWO REASONS ALONE JUSTIFY A RESOUNDING "NO" VOTE!

Governor McCall has supported this tax measure. He stated the money is so "desperately needed" by counties and cities. If this is true, then the city and county officials should have no difficulty in convincing the voters of the need. And if they can, they need no new tax legislation to raise "desperately needed" funds. There are ample laws on the books now to provide them with the methods of raising additional revenues.

THERE SHOULD BE NO ATTEMPT TO INCREASE TAXES THROUGH SNEAKY, BACK DOOR LEGISLATION WITH AN UNFAIR TAX MEASURE SUCH AS THIS. May I say to the mayors, commissioners, city and county managers and other government officials who were counting on this revenue, if they had been able to convince the legislators that the funds were needed and could be obtained through a tax based on ability to pay or benefits received, there would have been no referendum effort on my part.

My opposition is not to taxation, but to unjust, unfair and inequitable taxation. But I also believe the people should have a greater say in tax matters, particularly when a new tax is proposed.

And I want to say "thank you" to the many, many people that took the time and effort to gather the better than 50,000 signatures to have this measure placed on the ballot.

Also a "thank you" to those that helped pay part of the expenses an initiative or referendum drive requires whether it is successful or not. A total of \$800 was required and \$500 has been reimbursed, leaving a deficit of \$300 to be covered. The auto, bus, truck and motorcycle owners will already have saved millions in taxes since last fall.

The state of Oregon needs tax reform. A way must be found to reduce the inequitable property tax. Once this is done the people will be more receptive to providing the funds needed to sustain vital government services.

Meanwhile, this proposed \$10 auto tax increase must be soundly defeated.

Measure No. 6

ENABLING COUNTY-CITY VEHICLE
REGISTRATION TAX

AN ACT

Relating to amount and allocation of vehicle license fees for counties and cities; creating new provisions; and amending ORS 481.105, 481.270 and 481.950.

Be It Enacted by the People of the State of Oregon:

Section 1. As used in sections 1 to 13 of this 1971 Act, unless the context requires otherwise:

(1) "Division" means the Motor Vehicles Division of the Department of Transportation.

(2) "City" means an incorporated city.

(3) "Vehicle" means those vehicles subject to registration or license fees under ORS chapter 481, but does not include:

(a) A camper, travel trailer or mobile home.

(b) A government-owned vehicle registered under ORS 481.125.

(c) A vehicle registered under ORS 481.620 to 481.730.

(d) A trailer requiring an annual license fee under ORS chapter 481 of \$10 or less.

(e) A vehicle which is not registered or licensed for use on highways.

(4) A vehicle is "located within the county" if the residence or business address of the owner of the vehicle appearing on the application for registration filed under ORS 481.105 is within the county. As used in this sub-section, "owner" has the meaning given that term by ORS 481.040.

(5) "Registration" does not include the second registration of a vehicle if the second registration is made because the division initially registered the vehicle for less than a 12-month period pursuant to sub-section (2) of ORS 481.145.

Section 2. The governing body of a county may levy a tax of \$10 on the registration or renewal of registration under ORS chapter 481 of each vehicle located in the county. This tax is in addition to and not in lieu of the registration and license fees under ORS chapter 481.

Section 3. (1) Notwithstanding any other provision of law, the governing body of a county may levy the tax described by section 2 of this 1971 Act by transmitting a certified copy of its resolution making the levy to the division.

(2) Thirty days after the receipt of the resolution making the levy the division shall collect the tax at the time of the registration or renewal of registration of each vehicle located in the county.

Section 4. By October 20, January 20, April 20 and July 20, the division shall distribute the amount of taxes collected under section 3 of this 1971 Act during the three-month period ending 20 days prior to the date of distribution as follows:

(1) 50 percent of the amount of taxes collected under section 3 of this 1971 Act shall be distributed to the county treasurer of the county levying the tax, and

(2) The remaining 50 percent of the amount collected shall be distributed among the cities within the county levying the tax, each city's share being computed according to the proportion its population bears to the population of all cities within the county.

Section 5. The governing body of a county levying the tax authorized by section 2 of this 1971 Act may elect to have all or a portion of the moneys it would receive under subsection (1) of section 4 of this 1971 Act distributed to cities at the same time and in accordance with the distribution formula provided in subsection (2) of section 4 of this 1971 Act. The county governing body shall notify the division by certified copy of its resolution of its election to have moneys to which it would be entitled distributed to cities within the county.

Section 6. In lieu of the tax authorized by section 2 of this 1971 Act, the governing body of a county may levy a tax of \$5 on the registration or renewal of registration under ORS chapter 481 of each vehicle located in the county. This tax is in addition to and not in lieu of the registration and license fees under ORS chapter 481 and the tax authorized by section 9 of this 1971 Act.

Section 7. (1) Notwithstanding any other provision of law, the governing body of a county may levy the tax described by section 6 of this 1971 Act by transmitting a certified copy of its resolution making the levy to the division.

(2) Thirty days after the receipt of the resolution making the levy the division shall collect the tax at the time of registration or renewal of registration of each vehicle located in the county.

Section 8. By October 20, January 20, April 20 and July 20, the division shall distribute the amount of tax collected by it under section 7 of this 1971 Act during the three-month period ending 20 days prior to the date of distribution to the county treasurer of the county levying the tax.

Section 9. In lieu of the tax authorized by section 2 of this 1971 Act, the governing body of a county may levy a tax of \$5 on the registration or renewal of registration under ORS chapter 481 of each vehicle located in the county. This tax is in addition to and not in lieu of the registration and license fees under ORS chapter 481 and the tax authorized by section 6 of this 1971 Act.

Section 10. (1) Notwithstanding any other provision of law, the governing body of a county may levy the tax described by section 9 of this 1971 Act by transmitting a certified copy of its resolution making the levy to the division.

(2) Thirty days after the receipt of the resolution making the levy the division shall collect the tax at the time of the registration or renewal of registration of each vehicle located in the county.

Section 11. By October 20, January 20, April 20 and July 20, the division shall distribute the amount of tax collected by it under section 10 of this 1971 Act during the three-month period ending 20 days prior to the date of distribution among the cities within the county levying the tax, each city's share being computed according to the proportion its population bears to the population of all cities within the county.

Section 12. A county governing body shall proceed to levy the tax authorized in section 9 of this 1971 Act if it receives ordinances requesting the county governing body to levy the tax enacted by a city or cities within the county that represent 60 percent of the population of all cities within the county. If the county governing body refuses to submit a resolution to the division levying the tax on behalf of the cities of the county, any city affected by the action may bring suit in mandamus to compel the county governing body to act.

Section 13. (1) Subject to subsection (2) of this section, any tax imposed by this 1971 Act shall be terminated at the time specified in a resolution of

the county governing body terminating the tax or 10 days after the division receives a certified copy of the resolution terminating the tax, whichever period expires the later.

(2) No resolution of a county governing body terminating the tax imposed by section 9 of this 1971 Act shall be issued until such time as the county governing body receives currently valid ordinances from a city or cities comprising more than 60 percent of the population of all the cities within the county requesting that the taxes imposed by section 9 of this 1971 Act be terminated. The resolution shall have attached to it copies of the ordinances of the cities requesting the termination and, if the ordinances are not attached to the resolution, the division shall disregard the resolution.

Note: Section 14 was deleted by amendment.

Section 15. ORS 481.105, as amended by section 8, chapter ..., Oregon Laws 1971 (Enrolled House Bill 1473), is amended to read:

481.105. (1) Every owner of a motor vehicle, trailer or semitrailer, before he operates it upon the highways, shall, for each such vehicle of which he is the owner, cause to be filed by mail or otherwise in the office of the division, on blanks furnished by the division, an application for registration. The application shall be accompanied by the prescribed fee and any applicable tax levied under sections 2, 6 and 9 of this 1971 Act. The division shall refuse to register or renew the registration of a vehicle until the tax due thereon has been paid.

(2) Except for any camper and travel trailer that is held by a dealer and that is not subject to a lien under ORS 481.490, every camper and travel trailer shall be currently registered with the division, whether or not such camper or travel trailer is used on the highways, and the number or identification plate assigned to it by the division shall be conspicuously displayed at all times on the rear of the vehicle. Campers and travel trailers as defined in ORS 481.021, regardless of weight, height, length or width, shall be registered as required by this chapter, but the use of any such camper or travel trailer on the highways is subject to all laws, rules and regulations governing the operation of vehicles on the highways of this state. Every owner of a camper or travel trailer required by this subsection to be currently registered shall, for each camper or travel trailer he owns, cause to be filed by mail or otherwise in the office of the division, on blanks furnished by the division, an application for registration. The application shall be accompanied by the fees prescribed by ORS 481.450 and 481.460.

(3) All mobile homes in this state on and after the effective date of [this 1971 Act] Chapter ..., Oregon Laws 1971 (Enrolled House Bill 1473), shall be registered by the division and issued a permanent identification plate. A new registration shall be made with each transfer of ownership; however, the identification plate shall remain the same. The identification plate shall be affixed to the mobile home in plain sight. The application for registration shall contain information as to the present and proposed location of the mobile home. The division shall notify the appropriate assessors of the present and proposed location.

(4) The application under subsection (1), (2) or (3) of this section shall be duly signed by the owner and shall contain:

(a) The true name and actual residence or business address of the owner; and

(b) A description of the vehicle, including the name of the make, the serial number, the motor number and any other information required by the division.

(5) In any incorporated city the division may designate, for the convenience of the public, the chief of police or city recorder, or sheriff or clerk of the county, or other persons, to accept applications and fees for the titling

and the registration of vehicles, together with any applicable tax levied under sections 2, 6 and 9 of this 1971 Act, and for the issuance of permits under ORS 481.177, 481.178, 481.179 and 481.335 and duplicate plates or stickers under ORS 481.235. Such persons shall serve during such periods of time as the division may designate. Persons so designated shall promptly transmit such applications to the division and properly account to the division for such fees and taxes. Such person shall refuse to register or renew the registration of a vehicle until the tax due thereon has been paid.

(6) A fee of 25 cents shall be charged the applicant for each transaction where a fee is collected under subsection (5) of this section by each person referred to in subsection (5) to cover the expense of such transaction. The fees provided by this subsection and the compensation provided by subsection (7) of this section, if collected or received by:

(a) A county sheriff or county clerk, shall be accounted for as are other fees collected by such officers and shall be paid to the county treasurer and credited to the general fund.

(b) A police officer or city recorder, shall be accounted for as are other fees collected by such officers and shall be paid to the city treasurer.

(c) Any other person who is not a county or city officer or employe, may be retained by such person as compensation for his services under this section.

(7) At regular intervals, the divisions shall pay to each person designated under subsection (5) of this section additional compensation at the rate of 25 cents for each transaction where he collected a fee under subsection (5) of this section.

Section 16. ORS 481.270, as amended by section 2, chapter, Oregon Laws 1971 (Enrolled House Bill 1473), is amended to read:

481.270. (1) Except as provided in subsections (2) and (4) of this section, sections 1 to 11 of this 1971 Act and ORS 481.272, the registration and license fees imposed by this chapter upon vehicles, and upon the owners thereof by reason of such ownership, are in lieu of all other taxes and licenses, except municipal license fees under regulatory ordinances, to which such vehicles, or the owners thereof by reason of such ownership, may be subject.

(2) Old or new vehicles, including campers and travel trailers, not registered and licensed under this chapter on January 1 of any year, which are being held in stock by the owner or dealer for sale or exchange, shall be reported to the county assessor by the owner and listed for ad valorem taxation but the assessor shall cancel such listing with respect to all such vehicles, except vehicles subject to taxation by ORS 481.272, upon being furnished documentary proof, not later than the date specified in subsection (4) of ORS 308.250, that the vehicles so assessed have been registered in this state and the license fees have been paid thereon not later than March 31 of the same year.

(3) Except as otherwise provided in subsection (2) of this section and in ORS 481.272, if a vehicle is properly registered and licensed under this chapter on January 1 of any year or at any time during the six months immediately preceding January 1 of such year, such vehicle is entitled to the exemption provided by subsection (1) of this section for the assessment year beginning on January 1 of such year.

(4) Mobile homes registered under this chapter shall be subject to assessment and taxation under the ad valorem tax laws of this state.

Section 17. ORS 481.950 is amended to read:

481.950. (1) Except as provided in ORS 481.943 or 481.952, all moneys received by the division under the provisions of this chapter shall be deposited to the State Treasury and credited to a suspense account, along with moneys received under ORS 15.190 and 15.200, ORS chapters 319, 482 and 486, and

any other statute administered by the division. Refunds authorized by any statute administered by the division, when approved by the division, shall be paid out of the suspense account. Moneys subject to sections 4, 8 and 11 of this 1971 Act, ORS 481.480, subsection (2) of ORS 319.410 and subsections (6) and (7) of ORS 482.250, and moneys collected for or dedicated to any other purpose or fund except the State Highway Fund, shall be paid out of the suspense account after deducting the expenses of collection and transfer incurred by the division.

(2) Except for moneys subject to subsection (2) of ORS 319.410, ORS 481.480 and subsections (6) and (7) of ORS 482.250, and moneys collected for or dedicated to any other purpose or fund except the State Highway Fund, moneys in the suspense account, including amounts deducted for expenses under subsection (1) of this section, remaining at the close of business on the last day of each month shall, on or before the 15th day of the following month, be credited to an account in the General Fund to be known as the Motor Vehicle Division Account.

(3) After paying out of the money so deposited in the Motor Vehicle Division Account, the expenses incurred by the division in administering this chapter, ORS chapters 319, 482 and 486 and any other statute and any amounts authorized by law to be charged against such account, the money remaining at the close of business on the last day of each month shall, on or before the 15th day of the month following, upon certification to the State Treasurer by the division, be transferred to the State Highway Fund.

(4) However, upon receiving a certificate from the secretary of the State Highway Commission, certifying as to the amount of principal or interest of highway bonds due on any particular date, the division may turn over and make available for the payment of such interest or principal, such sum or sums as may be necessary to the extent of the moneys on hand available for the State Highway Fund, regardless of the dates above specified.

Section 18. The Motor Vehicles Division of the Department of Transportation shall make a report to the Oregon Legislative Assembly at its 1973 regular session. The report shall include any information the division considers necessary to fully inform the legislature of any loss of revenue experienced by a county or city or the state by reason of the enactment or implementation of the provisions of sections 1 to 13 of this Act.

NOTE: Matter in bold face in an amended section is new; matter [bracketed] is existing law to be omitted; complete new sections begin with Section.

**ELECT SENATOR VERN COOK
AS OUR DEMOCRATIC
NATIONAL COMMITTEEMAN**

Senator Vern Cook is a candidate for re-election to the Oregon Senate from East Multnomah County Senatorial District (12). The position of National Committeeman is an unpaid party office which will aid, not interfere with Senator Cook's ability to serve the people of his district.

Membership on the National Committee, with the close contacts Senator Cook will have with the New Democratic president, our congressional delegation and with leading Democrats from all over the nation will make it possible for Vern to do a better job for the voters who elect him and for all the people of Oregon.

The experience Senator Cook has gained through 16 years of legislative service and his continued membership in our highest legislative body will make him a more effective member of the National Committee.

Senator Vern Cook, Our Man In Salem, will represent Our Interests in National Democratic Councils, With Our Congressional Delegation and With the Democratic Presidential Administration We Elect This November!

Senator Vern Cook pledges that he will support the people's choice in the forthcoming presidential primary. He did so in 1964 as a Delegate to the Democratic Convention which nominated President Johnson and Vice-President Humphrey. He did so again in 1968 when, as an uncommitted delegate, he supported the people's choice of Eugene McCarthy. He then supported Vice-President Humphrey and Senator Muskie in the general election.

Senator Vern Cook has held numerous Democratic Party offices: Charter President, East Multnomah County Democratic Forum; President, Young Democrats of Oregon; State and County Voter Registration Chairman; County Finance Chairman; and Delegate to the 1964 and 1968 Democratic National Conventions.

Senator Vern Cook was born October 14, 1925. He is a lawyer in Gresham and a former City Judge. He is a graduate of the University of Oregon Law School and Reed College and has sixteen years of legislative experience. Vern Cook is well qualified to serve you.

As a Voting Delegate at the Democratic National Convention, Senator Vern Cook will Support Our Choice For the Presidential Nomination .

We Need Senator Vern Cook As Our Democratic National Committeeman.

Senator Vern Cook, Our Senator, Knows what Oregonians Want and Need from Washington D.C.

Senator Cook supports Immediate Withdrawal from Vietnam. We have invested 55,000 lives and billions of dollars in the Vietnam War and what have we gained? Nothing but the ingratitude of one-half of the Vietnamese and the hatred of the other. We have lost prestige in the world which all of Nixon's trips to China cannot replace. The tremendous waste of our tax money used to destroy the people and economy of Vietnam is driving us to bankruptcy. If the South Vietnamese government, with the second largest army in Asia does not have the support from its own people necessary to prevent its overthrow and to expel invaders, our continued presence merely prolongs the agony. It's Time to End It. Nixon Won't Do It. We Need A Democratic President.

Senator Vern Cook Supports the creation of new jobs in America to eliminate unemployment. There is no excuse for the 10 percent unemployment rate we have in Oregon. With one-fourth of this nations people living below the poverty level, with polluted rivers and fouled up air, with inadequate housing to decently provide living places for another one-fourth of our population, with shortages of classrooms in schools, and space in cities and counties there is plenty of work to be done to provide employment for all. Nixon Won't Do It. We need a Democratic President.

Senator Vern Cook supports the curbing of inflation in America. The Best way to stop inflation is to increase the quantity of goods available to the consumer. Reduce the cost of housing by lowering the interest rates and by providing more housing. Reduce the cost of medical care by doubling the number of Doctors and by increasing the number of hospital beds. Reduce the cost of automobiles and appliances by increasing the number manufactured. Reduce the cost of Food by encouraging the family farm and stopping subsidies to the huge farm corporations, which control the food supply. Nixon Won't Do It. A Democratic President Will.

Senator Vern Cook comes from the mainstream of the Democratic Party. Vern has served in the Oregon Legislature for 16 years, holding many responsible positions including 1971 Chairman of the Senate Tax Committee.

Senator Vern Cook, Will Be Our Man In The Democratic National Committee. Vern Will Represent Our Interests With National Office Holders. Vern will work for the election of a Democratic President, a Democratic Congress and a Democratic Legislature.

**RE-ELECT BLAINE WHIPPLE YOUR
NATIONAL COMMITTEEMAN**

As Oregon's Democratic National Committeeman, Blaine Whipple will continue to help build a strong Party organization, voice your viewpoints on the major issues of the day, bring an open-minded objectivity to the office, lend the assistance and prestige of the office to all Democrats.

**BLAINE WHIPPLE KNOWS HIS
WAY AROUND WASHINGTON**

Respected as a national party leader and fighter for progressive causes and party reform, fellow national committee members named Blaine Whipple to the executive committee of the Western Region Democratic Conference. Under his leadership, the National Committee adopted a resolution against storing nerve gas in Oregon. He has been a leading advocate of the McGovern and the O'Hara Commission reforms to make the party more open and representative.

A NEW KIND OF DELEGATE SLATE FOR OREGON

In past years, Oregon has been represented at National Conventions by well-known political personalities to the exclusion of the average Democrat.

Never have women represented half our delegation, though they represent half our population. And what of our younger voters, the minority groups --and yes, the retired worker? Isn't it time Oregon Democrats elect a broad cross-section of our Party to represent us at the National Convention?

This kind of delegation is what Party reform is all about. This kind of delegation is what will keep us from having another Chicago-type convention in Miami Beach.

We ask that you vote for the McGovern delegate slate. Minorities are represented, and 50% are women. Four of the people are over 60 while 14 are under 30. They come from all over Oregon, from all walks of life, and live in the districts in which they have filed. It's a slate you will be proud of in Miami Beach.

CUT THIS SLATE PAGE OUT AND TAKE IT TO THE POLLS WITH YOU

1st Congressional District. Vote for 7 only.

We recommend:

- Ron Abell
- Jeanne Caswell
- Betty L. Crooks
- Judith Miller
- Robert (Buzz) Willits
- Barbara Rohde
- John Wolf

2nd Congressional District. Vote for 7 only.

We recommend:

- Patricia A. Allender
- Wm. H. Beall
- Mary Davison
- Brian Doherty
- David McTeague
- Judith (Judy) Sugnet
- Wilbur Sulzbach

3rd Congressional District. Vote for 10 only.

We recommend:

- Annie Goekjian
- Robert Hughley
- Patricia A. Knott
- Norman Lindstedt
- Jerry Lowe
- Gladys McCoy
- Betty Roberts
- Keith Skelton
- Kathy Walsh
- Howard Willits

4th Congressional District. Vote for 8 only.

We recommend:

- Al Densmore
- Holly Hall
- Dorothy Leeper
- Joyce Morgan
- Charles Porter
- John Stewart
- James Tattersall
- Phyllis Zweig

For Democratic National Committeeman, We recommend: Blaine Whipple.

You will note other delegates running in each Congressional District pledged to Senator McGovern. They are fine people, as are the other delegate candidates. However, since Oregon has only been allotted 32 Congressional District level delegate votes, we could not include everyone on the slate.

ELECT

B. HUGHEL (BILL) WILKINS
to represent Oregon Democrats on the
Democratic National Committee

BILL WILKINS teaches economics at Oregon State University where he has been on the staff since 1961. His responsibilities include international economics and the economics of resource problems. Born July 17, 1931, he holds a Ph.D. degree. He is married to State Democratic Chairman Caroline Wilkins. Their son, Brian, is six years old.

BILL WILKINS has been a precinct committeeman in Benton County for six years. He is a member of the Benton County Democratic Executive Committee and of the First Congressional District Democratic Committee. He has five times been elected delegate to state conventions and was chairman of the state convention's Economic Development Committee in 1968.

BILL WILKINS is a recognized community leader. He was the first chairman of "Focus," a non-partisan group of men and women concerned about local political problems. He is vice chairman of OSU's Faculty Senate, chairman of the Corvallis Chamber of Commerce Airport

Committee and active in PTA Air Force Reserves and OSEA.

BILL WILKINS has campaigned for and with Democrats in virtually every county in Oregon. He knows the problems and opportunities facing Oregon Democrats.

"As your National Committeeman I will support efforts to make our Party even more responsive to the changing needs and times. A healthy and just economy; a nation of people with expanding opportunities, justice and security; a peaceful world. These are among the concerns of the Democratic Party. Our best chance to obtain them is with a progressive Democratic president and Congress. As National Committeeman, I will seek to unify—not divide—Democrats. I will use the influence of the office to benefit all Democrats who share the party's ideals."

BILL WILKINS will work for closer cooperation among the National Democratic Party, the Democratic Party of Oregon and Oregon's elected Democratic officials.

BILL WILKINS will be a strong, effective, respected and responsible voice for Oregon Democrats on the Democratic National Committee.

The incumbent Democratic National Committeewoman fails to represent the Democratic women of the State of Oregon or the nation in national party affairs. Historically, Oregon can be proud of the women who have led the way towards the equality of women and progressive reforms. If elected, I pledge to do my utmost to continue this historic fight to give Oregon Democratic women progressive and liberal representation at the highest level of the Democratic Party.

Regarding my personal choice for President of the United States it has been written of Eugene McCarthy on the rights of women:

"MS.—THE NEW MAGAZINE FOR WOMEN has written that 'McCarthy relates to the women's movement in a more thoughtful and personal way than a public one.' He was the primary and original sponsor of the Equal Rights Amendment. McCarthy has supported every effort to equalize the treatment of women with that of men in employment, pay and promotions. He has pledged himself to appoint women to the upper echelons of government, but he warns against 'focusing too much attention on symbolic gestures which are used to evade real problems.'"

My personal preference for President is Eugene McCarthy but, if elected, I will follow the voters decision.

HUBERT H. HUMPHREY
For President of the United States

Humphrey cares about unemployment

When Mr. Nixon took office unemployment stood at 3.3% level. Since that time it has almost doubled to 6.1%. Today that means there are more than 5,000,000 Americans out of work. And who knows what tomorrow will bring. Humphrey says that working men and women must be the beneficiaries of the economy, not its victims. "We need a national economic policy that will invest in people, so that every man and woman who is able to work can have a job."

Humphrey cares about older Americans

The elderly of this country are living in a state of neglect. One out of every three older Americans exists below the poverty level. Humphrey says, "let's commit ourselves to the establishment of one paramount goal; a person in their old age should be treated like a human being." To this end Humphrey has proposed the creation of a cabinet level Office on Aging, and introduced legislation to increase social security benefits by 10%. Humphrey also wants to amend the present Medicare program to cover the cost of prescription drugs and to provide payment for all nutrition services.

Humphrey cares about equality

"Liberty and justice for all" is not an idle phrase with Humphrey. His ongoing record of fighting for the rights of every man testifies to his deep con-

(Concluded on following page)

cern. "We must open the gates of opportunity to all Americans; white, black or brown; young and old; man or woman; the healthy and the unfortunate; no matter what their creed. We must do this not only for our own self-respect, but to grant a measure of personal dignity that only a productive life can bring."

Humphrey cares about the drug problem.

No one single problem in American life is of as much concern to people as the increasing use of drugs. And, it is not only a health problem. Crime is on the upsurge because many addicts must commit one crime a day to feed their habit. Humphrey has a two-fold plan: first, a massive rehabilitation program to get the addict off the street and cured; and second, tougher law enforcement to deal harshly with the drug seller. "America cannot afford this sickness anymore."

Humphrey cares about high prices

The President has said that 1971 would be a "good" year for the economy. You know the record on that. He said 1972 would be a "very good year." Maybe a very good year for his friends in big business, but not for the consumer. Prices keep going up and up and up. The consumer price index has climbed close to 14% in under three years. Humphrey says we must bring prices down. He calls for "a strict enforcement of price guidelines and tough prosecution of price violators" coupled with "a reforming of our tax system to give consumers additional purchasing power."

Humphrey cares about law and order

Hubert Humphrey believes that every man, woman and child in this nation requires full protection from the mugger's knife, the robber's gun, and bricks and bombs of the mob. "I believe in the shield a police officer wears. I believe he needs our support. What we have to do is give state and local law enforcement agencies all the help they require to give the American people all the protection they want."

Humphrey cares about the farmer

Farm prices for some commodities are the lowest they have been in 23 years. Parity is down to 70%. Huge feed surpluses are depressing prices further. Realized net farm income for 1971 is expected to drop between \$300 to \$500 million, and even more in 1972. Humphrey has introduced two measures to improve farm income without involving extra costs to the Government. The Strategic Storable Commodities Act and the Base Acreage Program Resolution would increase the value of grain crops by billions of dollars. "The American farmer is in trouble. We have had enough rhetoric and pious promises. The farmer needs action now."

Humphrey cares about our youth

"America has never produced a finer generation of young people," says Humphrey. To make sure that they become participants in our society, he fought hard for the 18-year old vote. And he has also introduced the National Voter Registration Act. This measure would remove the barriers to voter registration by permitting registration for national elections with the filing of federal income tax returns.

HENRY M. JACKSON
For President of the United States

Henry M. Jackson is a United States Senator from Washington. He was born on May 31, 1912, received his law degree from Washington in 1935, and was elected County Prosecutor at age 26. He served six terms in the House of Representatives and was elected to the Senate in 1952. In 1970, he was elected to his fourth Senate term by 709,000 votes, an astounding 84% majority.

(Concluded on following page)

(This information is submitted by Oregon Citizens for Jackson Committee)

Senator Jackson is Chairman of the Senate Interior Committee and, as Chairman, he has insisted on the preservation of Oregon's natural resources. He also serves on the Government Operations Committee and is Chairman of the Subcommittee on National Security and International Operations. He is a member of the Senate Armed Services Committee and the Joint Committee on Atomic Energy.

In 1960, at the request of then Presidential Candidate, John F. Kennedy, he served as Chairman of the Democratic National Committee.

Senator Jackson is married to Helen Hardin. They have two children, Anna Marie, 9, and Peter, 5.

A PRESIDENT FROM THE NORTHWEST. Scoop Jackson is a Senator from the Northwest, and he understands our special problems in Oregon. He blocked the plan to pump Columbia River water to the Arizona and California deserts. He termed this multi-billion dollar plan irresponsible since the river water was needed in the Northwest to irrigate our farms and provide low-cost power for our homes and businesses.

A PREMIER ENVIRONMENTALIST. Senator Jackson is the most decorated man in Congress when it comes to conservationist awards. As Chairman of the Senate Interior Committee, he helped carve out 13 million new acres of national parks, wilderness and recreational areas. He's also the author of the Youth Conservation Corps that gives city youths summer jobs in our forests and parks. Jackson refuses to make a choice between environment and a healthy economy. He believes American science and technology can solve our pollution problems.

AN ECONOMIC ACTIVIST. Jackson is an economic activist. He called for wage-price controls two years before the White House took action. He thinks that President Nixon's program is too timid. It won't deliver jobs fast enough. It won't put enough money in the hands of consumers. It won't get the economy off its back and moving.

A COMMON SENSE CANDIDATE ON FOREIGN POLICY AND DEFENSE. Jackson lays it on the line: "I'm not a hawk and I'm not a dove. I just don't want my country to be a pigeon." He believes weakness invites trouble. We should negotiate for peace but negotiate from strength.

Senator Jackson wants to bring the troops home from Vietnam as soon as possible, but he wants to give the President of the United States a chance to do that in a responsible manner. He opposes unilateral disarmament but strongly supports the SALT talks.

A CANDIDATE YOU CAN TRUST. Scoop Jackson always tells you where he stands. He's a quiet, studious, hard-working man. He puts in 18-hour days. But once he's made up his mind, he fights for what he believes. Six U. S. Presidents have trusted Jackson. They have respected his independent judgment and his soundness and coolness under fire. He combines the best in America today. America needs Senator Jackson's brand of common sense.

JOHN LINDSAY
For President of the United States

JOHN V. LINDSAY

The Democrat's Best Chance for a Change in Washington, D. C.

I am running for President in Oregon's primary because I believe it is time the towns and cities of America sent a President to Washington who knows about this country from the community level where Americans live and work.

In 1972, someone must speak for the America that Washington has ignored — for Portland and Pittsburgh, for Salem and San Diego, and for all the communities that have been forgotten by Washington.

(Concluded on following page)

(This information furnished by Lindsay for President Committee of Oregon,
Julie A. Williamson, State Director)

Someone must speak for the men and women without jobs, for neighborhoods without hope, for the bitter young, the friendless aging, and for the millions of Americans who have come to feel their country has lost something precious.

Someone must say, "These people count. They must not go unheard."

I served for a decade in Washington, in the Executive Branch and in the Congress. I made speeches and wrote laws. But any single week as Mayor of New York—confronting crime, disease, and stunted lives—confronting the same realities I have seen in every town and city and suburb in my travels across this nation—has taught me more about America than all my years in Washington. Six years of running the second biggest government in America—six years of fighting for survival—has convinced me that our communities and neighborhoods will have a chance only when Washington looks beyond its sheltered walls.

We must choose to stand for something better. We must choose to speak out for Americans beyond the walls of power in Washington. We must choose what our best instincts tell us we can be: compassionate, trusting, and willing by our deeds to bind up the wounds among our countrymen, to turn away from the work of death abroad and begin the work of life at home.

I think we can be that kind of country—if we listen to America. But for the last forty years, since the election of Franklin D. Roosevelt, every President with a political background has come from Washington, as does every other Democratic contender this year. I believe it is again time America sent a President to Washington, instead of letting Washington send a President to us. It is time for a President who has seen and felt firsthand the anguish of imposed scarcity—who has been forced to choose between teachers in our schools and doctors in our hospitals, between cleaning our rivers and caring for the sick, because the funds we needed are drained away into mindless wars and into the pockets of the privileged few.

I have seen and endured that kind of scarcity, and it has taught me what our nation needs.

I have fought for safe streets and we have reduced crime in New York—against the odds imposed by a federal government that did not care. I have seen the sorrow of an aged couple trying to live on savings disappearing daily in the face of a federal government that has allowed inflation to victimize the old. I have fought for tougher pollution laws and higher priority for environmental programs in the face of a federal government—including the Congress—that cuts back its already inadequate funds for clean air and rivers. And I have struggled daily to prevent the ravages of a mismanaged economy from sweeping away all the gains of all our efforts to heal the sick and care for the jobless—in the face of a federal government that does not care that five million Americans are still out of work and millions more pay unjust taxes while Congress and the White House give away billions to corporations on welfare and foreign governments without honor or justice.

Voters in Oregon—new young first-time voters, women rightly seeking full equality through the ballot, and urban dwellers and farmers alike—can show the nation that you want a government that listens to the communities of America. I promise you that as President I will listen—and act.

EUGENE MCCARTHY

For President of the United States

"The Democratic Party has not had a significant or really creative platform since the platform of 1948.

That platform supported the Marshall Plan and the United Nations. It included the Civil Rights plank; a program of public housing; a significant beginning of a National Health Program; repeal of the McCarran-Walters Immigration Act. It supported Statehood for Hawaii and Alaska, the right of suffrage for people of the District of Columbia, and the constitutional amendment on Equal Rights for Women.

Since that time, the platforms of the party have become less and less courageous and less and less relevant.

The platform of 1968 was perhaps the worst. It should have included a number of obvious and necessary proposals: the end of the War in Vietnam; amnesty, with the requirement of social service, to the young men who had left the country because of the war; the recognition of Mainland China; new openings, especially in trade, to the countries of Eastern Europe and Russia.

And also an assured income for every American; the promise of protection of individual liberties and the removal of J. Edgar Hoover as head of the FBI; renewed emphasis upon the Equal Rights Amendment; a cut back in the space program, in military spending, and in the interstate highway program, and the redirection of resources to meet the more pressing needs of housing, urban renewal, education and medical care.

For 1972 the platform must reemphasize these points, but it must go beyond that. Specifically, it must include the following as well:

1. A new assertion of the right of every child to a proper education, even if it means overriding or even eliminating present school systems.

2. The creation of entirely new systems by which the poor, through their own representatives, can serve their own needs.

3. A commitment to provide a job for everyone who wants work, even if the government has to create these jobs or compel private privileged corporations to provide them.

4. A requirement that unions not only admit blacks, but also offer programs of apprenticeship and training.

5. A program to provide decent homes for all Americans, even though that requires opening of the suburbs as well as new construction in the ghetto. The Constitution does not contain an exclusive grant of the land around cities to the non-poor and the non-black.

(Concluded on following page)

(This information furnished by Oregon McCarthy for President Committee)

6. A program to provide health and medical care for all, even though this requires changes in the doctor's concept of his profession and in the practice of medicine.

Above all, we need a president who, we can be certain, will as his first act bring the war to an end. Not at a date certain in the future, but as soon as he is inaugurated.

Politicians and parties must be judged not only by the promises they make but by the enemies they are willing to make; not only by their willingness to increase appropriations but by their willingness to challenge and change institutions.

In the nearly 200 years since the American Revolution, we have moved from George Washington to Richard Nixon, from John Adams to Spiro Agnew, from Thomas Jefferson to William Rogers, from the remarkable Edmund Randolph of Virginia to John Mitchell, from Alexander Hamilton to John Connally, from John Jay and John Marshall to Warren Burger and William Rehnquist. This is not exactly progress.

It may be that we cannot easily match the quality of leadership of the early years of the Republic. But we can have a President who has traits more significant than his own ambition. In fact, it should not at all be a question of who wants the Presidency the most, or who says it first and with what intensity. We can have a President who accepts readily the limits of power as well as its possibilities. We can have, if only we will it, a President who has spoken to the best purposes and most serious concerns of the nation in difficult and critical times. If you take into account these difficult standards and apply them to all of the candidates, you might find me the most qualified."

EUGENE McCARTHY was born on March 29, 1916 in Watkins, Minnesota. He graduated from St. John's University in Collegeville, Minnesota, and received a Master of Arts degree from the University of Minnesota. An economist by training, GENE McCARTHY was a teacher for ten years, and, during World War II, he served in military intelligence for the War Department.

McCARTHY served in the House of Representatives from 1949 to 1959; in 1958 he was elected to the United States Senate where he served two terms. In the Senate EUGENE McCARTHY was chairman of the Select Committee on Unemployment Problems; he was a member of the committees on Agriculture, Finance, Foreign Relations, Government Operations, Public Works, and the Democratic Steering Committee. SENATOR McCARTHY is the author of six books.

GEORGE MCGOVERN
For President of the United States

Born July 19, 1922, son of a Wesleyan Methodist Minister in Avon, S. Dak. Bachelor's degree from Dakota Wesleyan; Doctorate in history from Northwestern; married; 5 children.

Enlisted in Army Air Corps; flew 35 missions over Europe as a bomber pilot; awarded Distinguished Flying Cross for valor.

Served 2 terms in U. S. Congress; appointed Director, Food for Peace by President Kennedy in 1960; twice elected to U. S. Senate.

Dear Friend:

I want this statement to express myself as completely, clearly and candidly as I can on a wide range of issues. I want there to be no mistake or doubt on where I stand.

1. We must withdraw all military aid, direct or indirect, from the military dictatorship of South Vietnam.

2. We must cease all support of military oppressors everywhere.

3. We must give up our obsession with overkill capability and return to a more rational system of adequate national defense, at a saving of at least \$33.5 billion a year.

This does not mean a return to "isolationism," as some Republicans claim. We must continue to identify with and join hands with legitimate democratic governments such as Israel.

4. We must apply this peace dividend to guaranteeing a decent job opportunity for every man and woman in America. This will require the employment of idle labor in meeting the nation's needs for housing, public transportation, health facilities and public services.

It means, too, ending the blight of hunger, drug addiction and environmental pollution. It means an end to the outrageous Nixon policy of deliberately creating unemployment as a means of controlling the economy. It means a job at a living wage for every American. It means the federal government must serve as an employer of last resort if private industry can't provide jobs for all.

(Concluded on following page)

5. A sensible first step toward helping state and municipal government in the throes of financial crisis would be for the federal government to assume the full burden of welfare costs and a greater share of the costs of education and health care. This would also ease the high property tax burden on average American homeowners.

6. We must continue the battle for equal rights and equal opportunities for all Americans. It seems to me this country should prize the diversity and uniqueness of the different peoples that are Americans.

7. We must permit and encourage more women in the highest places in government, including the presidential cabinet, the State Department and the Supreme Court. Discrimination against women is a damaging reality that is morally wrong and socially wasteful. Federal funds should not go to any institution that discriminates against women; not in salary, not in admissions, not in hiring, not in promotion.

8. Except in the eventuality of real national emergency, we must stop drafting our young men and start building a streamlined volunteer army adequate to national defense.

9. We must give Americans tax equity through the elimination of "super tax shelters" which benefit only the rich. An excess war profits tax should be imposed during time of war.

10. We must assure fair treatment of our nation's rural people and give priority to the improvement of life in rural America. The farmer has a right to a fair and reasonable income. I was the first Senator to call for full, 100% parity for wheat and other agriculture produce in 1966.

I have brought my campaign to Oregon because I believe the people of this state want to see new priorities and new directions for America. I ask for your vote, Tuesday, May 23. In return, my pledge to you is to seek and speak the truth.

Sincerely yours,
George McGovern

P. S. A slate of McGovern delegates have filed to represent Oregon at the National Convention. I ask that you vote for the McGovern slate. Blaine Whipple, Oregon Democratic National Committeeman and chairman of my committee, has a page in this pamphlet. Details on the McGovern slate are on that page.

OCCUPATIONAL BACKGROUND AND PRIOR GOVERNMENTAL EXPERIENCE: Attorney at Law. Lecturer for the University of Hawaii 1952-56 and 1959-62. Attorney for the Hawaiian Territorial Legislature in 1955. Member of Hawaiian House of Representatives in 1956 and 1958. Member of Hawaiian Senate in 1958-59 and 1962-64. Charter President of the Young Democrats of Oahu in 1954. Delegate to the National Young Democratic Convention in 1957, 1959 and 1961. Delegate to the National Democratic Convention in 1960. Vice-President of the National Young Democrats from 1957 to 1959. Elected to the United States House of Representatives in 1964; re-elected in 1966, 1968 and 1970. Currently a member of the Committee on Education and Labor; member of the

Select Sub-Committee on Education; member of the General Sub-Committee on Education; member of the General Sub-Committee on Labor; member of Committee on Interior and Insular Affairs; member of Sub-Committee on Territories; member of Sub-Committee on Indian Affairs; member of Sub-Committee on National Parks.

I am a candidate for the Office of President of the United States because I share that dream of a better America in which all Americans, regardless of race, color, religion, or sex, have a responsible creative opportunity to serve and to establish a more perfect society.

Too many people believe that government cannot or will not respond to their needs. Too many fail to strive for needed changes. I was called by citizens of Oregon to run for the Presidency in order to demonstrate that any person with something to say, can aspire for the highest office our democracy has to offer, and when challenged should accept it. If I failed to accept this challenge, I would have added to the deafening silence of apathy and given in to a personal preference for comfort and security.

The Vietnam War is my principal issue. I must succeed in keeping this matter before the voters of this country, or we will be the victims ourselves of Vietnamization. It cannot be moral to believe that since fewer Americans die today, while Asians still do, that the war is no longer an issue. My faith in America requires me to denounce this callous policy and to insist that we take a stand to end the killing of all persons in Indochina.

(This information furnished by Repr. Patsy T. Mink,
U. S. House of Representatives, Washington, D. C. 20515)

The threat of China pushed us into this tragic war. Yet we have hailed our President for dining in Peking. If we can dramatically change our policy towards a super-power and legitimize what we have condemned as illegitimate for 23 years, surely we can do no less for the tiny country of North Vietnam which in no way threatens the peace of the world.

We should withdraw totally from Vietnam and permit the Vietnamese people to decide their own destiny. This is what the President said about China and Taiwan . . . that these two governments should work things out themselves. Our policy should be the same for the two Vietnams.

Secondly, I am concerned with the crisis of confidence spawned by the Administration's obsession with secrecy. The Pentagon Papers, the Can-kin Papers, the Anderson Papers, and the ITT Memo remind us that the government does not deal in good faith with the American people. There must be honesty in all the daily activities of government, and more importantly, we must adopt policies that can withstand public scrutiny. A Commission against Secrecy should be empowered to assure the public of a constant review of all documents "rubber stamped" "TOP SECRET" to determine whether in fact the security of the nation today requires their being withheld from the public.

Lastly, morality, honesty, and integrity cannot thrive without social justice. Therefore, we need positive programs to feed the hungry, heal the sick, house the impoverished, and aid the suffering. Blacks, Women, Chicanos, and all the other minority groups must be given the full and equal opportunities that America has to offer. More funding should go to education, mass transportation, job-training, and cleaning up the environment, and less to the international arms race and weapons of destruction.

Our senior citizens, the working people, and the consumers are so often forgotten Americans. We must reject the obsolete "trickle down" theory of economics under which immense tax handouts and other benefits go to the rich and the mighty giants of industry without direct relief to the average citizen. Economic vitality must be restored by programs aimed at benefiting all our people directly through tax reform, tax relief, higher wages and through consumer protection.

Historically, the Democratic Party has stood for these policies of concern for the average person. We must not break faith at this crucial time by placing in nomination any candidate who will be less than 100 per cent committed to these ideals of a just society. I believe that my record during my four terms in Congress and my previous service in the State legislature of Hawaii offer evidence of my commitment to this quest for justice.

With your help, I hope to extend this effort by seeking a voice in the national Democratic Convention . . . one of human compassion and liberal conscience . . . as Oregon's nominee for President of the United States.

THESE NATIONAL CONVENTION DELEGATE CANDIDATES SUPPORT THESE PRINCIPLES:

First dist.: Anthony N. Hazapis, William Paxton Hoag III, Myra H. Johnson, Nancy Ostberg, Israel Vasquez, Arnolde Garcia, and Martin Villerreal.

EDMUND S. MUSKIE
For President of the United States

(This information furnished by Robert W. Straub,
Co-chairman, Oregon Muskie '72)

MUSKIE — THE MAN

"His greatest asset is that he is a fair, intelligent, compassionate and candid man. His character was not formed by politics, but by austerity, integrity, and the law . . ."—James Reston in the New York Times.

Senator Muskie's Oregon supporters know that his personal quality exceeds in every respect the high standards of character which Oregon voters rightly demand of their public officers. He inspires trust and confidence—the qualities most needed to lead this diverse nation of 200 million free citizens.

Edmund S. Muskie: Born March 28, 1914. Graduate of Bates College and Cornell University Law School. Successively, lawyer, minority leader of the Maine House of Representatives, Governor of Maine and U. S. Senator from Maine.

MUSKIE — THE LEADER

"At 57, after four years as governor of Maine, more than a dozen years in the Senate and an impressive campaign as his party's vice-presidential nominee, Muskie comes across to the public as a man with the weight and experience to be President."—William V. Shannon, New York Times News Service.

"I have never encountered an elected public official with his attention span and capacity for analyzing difficult problems."—Joseph Kraft, commentator with 15 years experience in Washington, quoted in Atlantic Magazine.

Senator Muskie's Oregon supporters feel deeply that his wide background of information and his ability to get things done uniquely qualify him to be the Democratic nominee for President.

Senator Muskie is:

- The only Democratic presidential candidate serving on the Senate Foreign Relations Committee, where he is urging withdrawal from Vietnam at a fixed date with release of American POW's before the end of the withdrawal.

- Chairman of the Air & Water Pollution Subcommittee of the Senate Public Works Committee, where he has written most of the key environmental legislation of the last decade.

- Chairman of the Senate subcommittee on local property tax relief. He has a plan to close \$14 billion worth of federal tax loopholes.

- A former member of the Housing & Urban Affairs Subcommittee where he was the author of numerous housing expansion measures.

- A member of the Public Works Committee which deals with rivers and harbors, flood control, roads and public buildings.

- A member of the Special Committee on Aging.

Not only, then, is Sen. Muskie broadly qualified to represent the nation's best interests, but also he has intimate knowledge of the principal matters of importance to Oregon.

As to his ability to get things done, let the Majority Leader of the U. S. Senate, Mike Mansfield, testify to that: "Senator Muskie is the only Senator I've known in my 19 years here who has been able to change a large number of votes to get a certain piece of legislation through."

ROBERT B. DUNCAN
For United States Senator

Bob Duncan, former congressman, twice speaker of the Oregon House of Representatives, life-long Democrat and practicing lawyer, is eminently qualified by experience and temperament for the office of United States Senator.

Bob Duncan was elected to the Oregon Legislature from Jackson County in 1956, and was the first man to be elected Speaker of the House in successive sessions—1959 and 1961.

(Concluded on following page)

(This information furnished by Duncan for Senate Committee)

Bob Duncan's leadership in the Legislature produced such far-sighted and important legislation as—

- Development of community colleges and mental health clinics.
- Fair housing and public accommodations laws that placed Oregon well in the forefront in civil rights.
- Decent living standards for migrant workers.
- Electoral and judicial reforms.
- Upgraded educational standards and state support for schools to afford some relief for property tax-payers.

Bob Duncan consistently opposed any attempt to make Oregon's tax structure regressive through a discredited sales tax. He was a watchdog of the Treasury.

Bob Duncan was quickly recognized as a newcomer with great potential when he was elected to Congress from Oregon's 4th District in 1962. He was named one of the ten most promising legislators by the Capitol press corps. He was given top committee assignments of great significance to Oregon—Interior, and Agriculture in his first term, and Appropriations in his third year. He was respected as a knowledgeable, conscientious, working congressman with a primary concern for representing his district and his state.

Bob Duncan has practiced law in Multnomah County since 1966. He and his wife, Marijane, live on four acres east of Gresham with their three youngest daughters, Laurie, Bonnie and Jeanne. Two sons, David and James, are in college, the eldest son Angus, having worked for the State Department, is presently living and writing in Oregon. Nancy, the oldest daughter, has been traveling as a journalist in Asia and Europe.

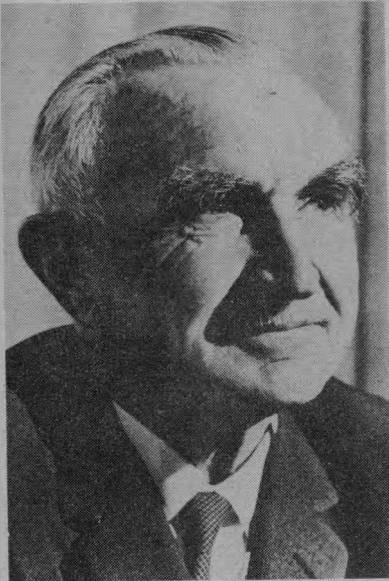

Bob Duncan—legislator, lawyer and family man—represents the highest tradition of public service and responsible citizenry. His candidacy offers the voters of his party a strong and viable candidate, and the people of Oregon, a hard-working and effective United States Senator who will stay on the job.

- Born December 4, 1920.
- Attorney, Public Servant.
- Law degree, University of Michigan; Bachelor of Arts, Illinois Wesleyan University; also studies at University of Alaska and DePaul University.
- Practicing attorney in Jackson County (1948-1963); practicing attorney in Portland (1966-72).
- State Rep. from Jackson County (1957-62); Speaker of House of Representatives (1959-62); Congress, Oregon 4th District (1963-66); Oregon representative or delegate to various interstate compact commissions and committees; member President Kennedy's Advisory Commission on Inter Governmental Relations.

General, U. S. Dept. of Justice, 1937-39; Public Member, National War Labor Board, 1941-44, (on leave from University of Oregon); U. S. Delegate to the United Nations, 1960; numerous Presidential assignments to Labor Disputes Boards, 1941-68; Chairman, National Commission on the Future of U. S. SENATOR, 1945-69.

Presidential assignments to Labor D State Colleges and Universities, 1970-72, tional Commission on the Future of U. S. SENATOR, 1945-69.

WAYNE MORSE OF OREGON—Known and respected throughout the world. He was your man in Washington for 24 years. He served Oregon and the Nation well.

WAYNE MORSE is greatly missed in Congress and is desperately needed there to help solve the problems of the critical years immediately ahead. **WE CAN'T WAIT FOR SOMEONE ELSE TO OBTAIN THE EXPERIENCE AND KNOW-HOW THAT MORSE ALREADY HAS.**

WAYNE MORSE WAS RIGHT ABOUT THE WAR. In the last four years, **WAYNE MORSE** has gained even greater national stature from the revelations of the Pentagon Papers. His effectiveness will be greatly enhanced when he is returned to the United States Senate, where his tremendous energy, vigor, and capacity for hard work can be used for the benefit of all.

WAYNE MORSE will be no ordinary Freshman Senator. He will use his enormous prestige and legislative skill, on the Senate floor and in the give-and-take of Committee deliberations, to pursue his unrelenting quest for **PEACE**, for social and economic **JUSTICE** for all Americans, while he is safeguarding individual Constitutional Rights and Freedoms.

WAYNE MORSE believes that when you compromise a principle, you have no principle left. He knows how far to go in making the conscionable compromises, necessary to the legislative process, **WITHOUT SACRIFICING PRINCIPLE.** He promises to continue placing principle above politics and the public interest above partisanship.

**LET'S GET WAYNE MORSE BACK IN THE SENATE
WORKING FOR US!**

**MORSE CAN BE TRUSTED WITH THE POWER OF
THE OFFICE OF U. S. SENATOR**

With the **EXPERIENCE** gained from 24 years of dedicated service in the United States Senate,

HERE ARE A FEW THINGS WAYNE MORSE CAN DO FOR YOU

- Work with Senators from other States, who know and admire him, to bring Federal dollars into Oregon to help lower your property taxes.
- Work to reduce taxes by plugging loopholes. **OPPOSE** a national sales tax which, by any other name, smells just as bad.
- Provide needed leadership in Senate committees, and on the Senate floor, to initiate and strengthen Education Legislation. Known as "Mr. Education" in the Senate, **WAYNE MORSE** believes that each American child is entitled, as a matter of right, to the educational opportunities for maximum development of his intellectual potential. He will work for 50% Federal funding of Education, thus lowering your property taxes.
- Use his invaluable **INFLUENCE**, gained from years of association with many members of Congress, to help change our National Priorities from a War Economy to a Civilian Economy, emphasizing programs for providing jobs, for cleaning up and protecting the environment, for helping **YOU** to cope with a world of accelerated change.
- Help **YOU** make contact with government officials in order that **YOUR** voice may be heard when you have a problem with the Federal government, or when you wish to influence the long-term goals of our Nation.
- Work to reverse the trend toward Government by Executive Supremacy and Secrecy, by restoring Congress to its rightful place in the Constitutional system of Checks and Balances.
- "Watchdog" the Senate for incursions against your Constitutional Rights and Individual Freedoms. This calls for tenacity, vigilance, long hours of work, ability to detect "sleeper" clauses in legislation that might infringe upon Civil Liberties of Americans. It also requires **COURAGE** to do battle.

WAYNE MORSE'S ACHIEVEMENTS IN THE SENATE WERE NOT ONLY THE MANY GOOD THINGS HE ACCOMPLISHED, BUT THE BAD THINGS HE PREVENTED. HE WAS CALLED "THE CONSCIENCE OF THE SENATE."

- Devote himself to ending the war, not only the military ground operations but the air and sea operations also. This means repudiating the Nixon Doctrine of military containment of Asia, which can only lead to more war. **WAYNE MORSE** will urge Congress to restrain Presidents from exceeding their Constitutional Powers in Domestic and Foreign Affairs.
- Continue to co-sponsor and support **CONSUMER** legislation, as he has since 1946, and vote money for Senate investigations and hearings dealing with injustices to consumers. He will seek an appointment on the Senate Committee dealing with Consumer problems.
- Continue his unceasing efforts in **CONSERVATION** of Natural Resources for future generations, and work tirelessly for a **BETTER QUALITY** of **LIFE** for all Americans.
- Oppose the strait-jacketing of Management and Labor by Compulsory Arbitration and the imposition of Labor Courts.

**YOU CAN FEEL SECURE WITH WAYNE MORSE IN THE SENATE
DURING THE NEXT CRITICAL YEARS
SEND WAYNE MORSE BACK TO THE SENATE
FOR THERE IS STILL SO MUCH FOR HIM TO DO**

DON WILLNER
For United States Senator

Date of birth: May 22, 1926

Occupation: Oregon State Senator and attorney

Practicing attorney since 1951. Partner in Portland law firm of Willner, Bennett & Leonard. Veteran of World War II. Graduate of Harvard College and Law School.

ABLE LEGISLATOR

Present State Senator from Multnomah County, having served in the legislature for 12 years. Author of many laws now on the books to protect consumers, to tighten air and water pollution controls, to enhance the environment, to increase basic school support.

PROTECTOR OF THE CONSUMER

Until the end of January, Don Willner was the national president of the Consumer Federation of America. In that office he met with President Nixon to try to persuade him to have the con-

sumer viewpoint represented in the current price control program. Willner's work on behalf of consumers goes back many years. In the legislature he authored laws to require full disclosure in retail installment sales, to give district attorneys the power to prosecute for fraudulent practices, to strengthen the laws against consumer fraud. He was instrumental in legislative action to keep down BankAmericard interest charges. In 1970 the Oregon Consumer League granted Willner its Consumer Achievement Award.

A REAL OUTDOORSMAN

In addition to enjoying the outdoors with his favorite sports of backpacking, mountain climbing and river running, Don Willner has really worked to preserve Oregon's outdoor environment for future generations. He was the author of the Scenic Rivers initiative and led the successful campaign to get signatures and pass the measure on the ballot in 1970. The 1971 legislature finally passed his Recreational Trails law. Both laws have become nation-wide models for other states. Last year the Oregon Division of the Izaak Walton League presented him with its Citizen of the Year Award. The Oregon Wildlife Federation presented to Willner its Distinguished Conservation Award.

A VIGOROUS WORKER

At age 45 Willner displays the energy and stamina which have enabled him to accomplish so much for Oregon and his community. He has worked hard

(Concluded on following page)

for such organizations as the Boys Clubs of America (Past President, Northwest Regional Council), Portland Chamber of Commerce (former Director). On the campaign trail, he is up at dawn to meet the morning shift at the plant gates. He spends each campaign day talking with Oregonians and listening carefully to their concerns.

SPORTSMEN SUPPORT WILLNER

One of the first groups of Oregonians to urge Don Willner to run call themselves Sportsmen for Willner. Hundreds of outdoor-lovers around the state have contributed their dollars and their energy, including such individuals as R. W. "Red" Buker, Dwain E. Campbell, Robert G. Dixon, Earl Flick, Jerry Gross, Leonard Phegley, H. R. "Ranny" Rancourt, George C. Reed, Irv Urie, Fred Wenger, Dean L. Jones, Judy Mattot, George F. Waldum, Willard Hatch, Pat Workman, Francis Stokes Berry.

LABOR SUPPORTS WILLNER

Don Willner has been a good friend of labor for many years. Working men and women saw the need for someone of Don Willner's stature in the U. S. Senate, so Labor for Willner was formed by Clarey Adamson, Dick Archer, Hugh Bannister, Jess Bell, Jim Bledsoe, C. D. (Ford) Bowen, Max Carpenter, Roy Coles, Burl Corbin, Mel Davidson, Kenneth Davis, Ralph Dickey, Sharron Farrell, Merlen Freeman, Dick Gilman, Shirley Gold, Henry Greening, Dorothy Harris, Lyle Hiller, Harold Hinshaw, Frank Jackson, Russ Joy, Bill Luch, Jim Manley, E. P. McKean-Smith, Clair Morse, Neil Myers, Harvey Nelson, Swan Nelson, Leonard (Blackie) Palmer, Chauncey Perrizo, Frank Philpot, George Reed, Sam Shepherd, George Starr, Matt Walters, Wayne Winter.

STUDENTS SUPPORT WILLNER

Many active students on Oregon campuses recognize that as U. S. Senator Don Willner will be able to help them make Oregon and the nation the kind of place they want to raise their families in. That was the origin of Students for Willner, led by such active people as Saralynn Baker, Dana Gold, Isabelle Haley, Holly Hall, Ben Merrill, Karsten Musaeus, Dale Olson, Paul A. Olson, Linda Rentz, Mike Ryan, John Stewart, Joan Risner, Steve Wynne, Charles Raimondi, Herb Pierson, Wesley Lashbrook.

YOU KNOW WHERE HE STANDS

Don Willner supports closing tax loopholes available only to the rich, and limiting monopoly economic power; he attacks inequities in the wage-price stabilization program; and he seeks to balance the needs for business and payrolls with a good environment.

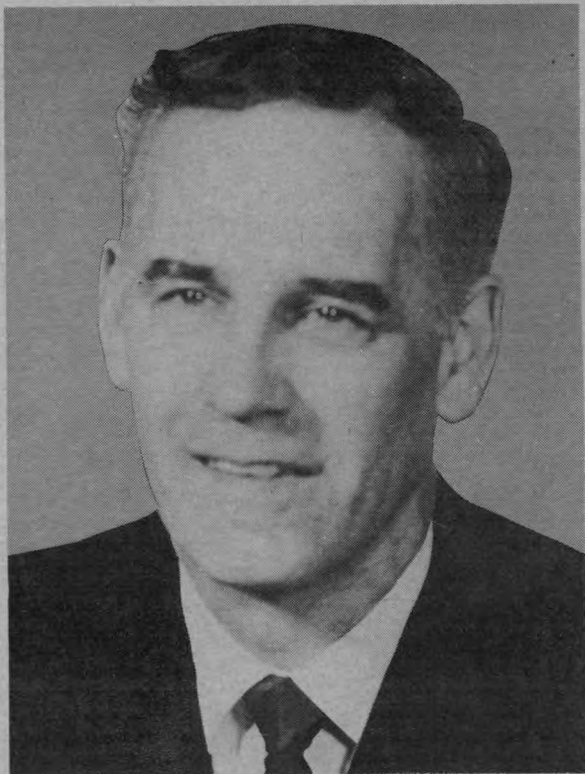

If elected to the U. S. Senate, he would be in a position to work for peace in the world, peace in the land, and conditions which allow peace within ourselves.

"Democrats: Forget old feuds. Elect hard working
Oregon State Senator. He produces!"

RALPH WISER
For United States Senator

RALPH WISER

Born of Catherine Peterson Wiser and Dr. Ralph E. Wiser at Carlton on June 2, 1923.

Now a Chemical Operator, he has worked in many phases of Oregon Agriculture. He knows the timber industry by experience from conservation through falling to the green chain. He has followed developments and economics in both more closely than in his study of the overall business situation. He sailed for four years.

A University of Oregon graduate, major Business Administration, minor Social Studies, he also attended Oregon State University. Post graduate work in psychology and counseling. While at Vanport Extension Center, he assisted in the original move to the old Lincoln High School where Portland State University developed. Three of his children now attend PSU.

(Concluded on following page)

(This information furnished by WE NEED WISER Committee)

He has about twenty years as Democratic Precinct Committeeman and with his Committeewoman wife enjoys amiable relationships with his neighbors. He is Treasurer for the West Side Democratic Club of Portland.

We need a man who will stand firmly and speak out in leadership. We have had enough of the thievery of deficit spending inflation, of violent crime, of narcotics in our grade and high schools, of ever increasing taxes, of a foreign policy of spend, retreat, and defeat.

We need positive, sensible, affordable programs in public protection, social security, education, ecology, industrial relations, health care, equal rights, poverty-employment, national defense and racial honesty. Wisner has these programs.

We must quit spending money internationally as though we were drunken fools. We must adopt logical, peaceful, constructive methods in promotion of freedom. Wisner has these methods.

The other three candidates are not solutions, they are part of the problem. They, on their record, favor more taxes, more government, more defeat. Not one of them will effectively mention the worldwide, coordinated attack on freedom. One would defend, understandably, Israel, but seemingly none would defend any other Asian. Indeed, they would retreat from protection of now free people so that the Communist slaughter squads might have their way. Whom would they defend? At home they support fantastic tax increases plus inflation producing deficits. Their ideas for spending your money are without end. We need an intelligent, vigorous Oregon man who believes in and works for your freedom, who has volunteered his life twice in this cause. Further, an educational program he initiated in 1960 has been an important factor in maintaining open societies in the Congo, Brazil, Iran and elsewhere. In American Samoa it has been a resounding success.

He will firmly and powerfully support the Constitution, all of it, including the right to keep and bear arms.

An active 48 years old, 6 feet tall, 200 pounds, he was born on a farm in Yamhill County, where his family has lived for over 100 years. He was raised a Christian. His lovely wife shares a close relationship with five wonderful children and four beautiful grandchildren. He holds and has held responsible executive positions in several public and private organizations.

He knows Oregon and Oregonians.

He knows the problems.

He has intelligent solutions.

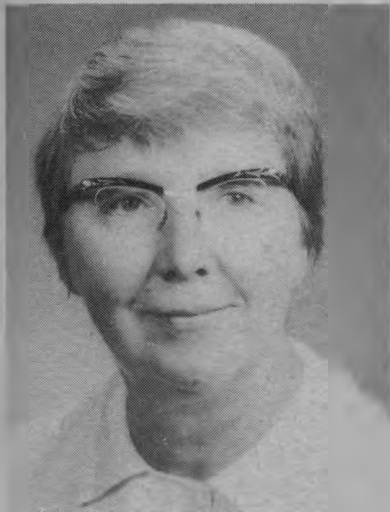

He stands firmly and speaks out.

He will really work for Oregon.

WE NEED WISER.

**BEULAH HAND
For Secretary of State**

Personal Data: Born in Baker, Ore. 1917. Educated in Baker and Portland public schools, honor student, 3 years college, married to Floyd Hand 1937. 4 terms state legislature. No children. Unpaid worker for **HONEST GOVERNMENT**.

.

Four years ago candidates for Secretary of State and their financial supporters spent \$207,977.96 for a person to be elected to this office. That's enough money to feed and clothe 30 average families for a year. It's time to call a halt to such useless spending. With your vote and help maybe I can be the candidate who'll prove that money **ISN'T NECESSARY** to get elected.

In my campaign, I pledge to you to spend **NO MONEY** (mine or anyone's) for public relation firms, paid advertising, fancy brochures, polls or computerized letters that look personal but aren't.

QUALIFICATIONS AND EXPERIENCE:

State Representative 1958-1965. Sub-committee chairman of Ways & Means, Emergency Board, Chairman of Local Government Committee, Vice-chairman Interim Committee on Metropolitan Problems, Member of Committees on Highways, Elections, Commerce & Utilities, Education. Governor's Committee on Parole & Probation.

Delegate to 1960 and 1968 Democratic conventions. Served on National Democratic Credentials Committee in 1968 and helped prepare reforms for 1972 convention.

Vice-Chairman and Acting Chairman of Democratic Party of Oregon 1957-58 when Democrats were doing well.

CURRENT ACTIVITIES:

Successfully spearheaded effort to stop the legislative \$10 increase in automobile and motorcycle licenses until people have a chance to vote on the question themselves this primary.

Co-sponsor of the vital initiative to provide safety regulations for prospective nuclear power plants so that radiation does not contaminate Oregonians either by accidents in transporting lethal radioactive wastes through Oregon or by malfunctions of the power plants.

AIMS AND GOALS IF ELECTED:

Extremely low limit on campaign spending, Strict enforcement of the Corrupt Practices Act, Voter registration by mail, Uniform election procedures and voting machines, Reduction in size of precincts, so that, except for sparsely populated areas, voters can walk to the polls to vote.

JEANNE DOST
For State Treasurer

Every Oregonian has a stake in the job **JEANNE DOST** seeks. As State Treasurer, she will be:

CAPABLE . . . 16 years experience as a professional economist. Understands modern budget review procedure for more efficient and more effective government. Able to analyze significance of state and national picture to make wise investment decisions.

COURAGEOUS . . . will fight to prevent citizens' hard earned dollars from being used as hidden subsidies for self-serving businesses. Work to protect public lands from profit-seeking land developers.

CONCERNED . . . cares about all citizens. **JEANNE** is not a politician and has no vested interests in business or land development. She can honestly represent the welfare of all Oregonians.

PREVENT POLITICAL MONOPOLY

Until recently, Republicans dominated the top state offices, **JEANNE DOST** is qualified to keep the Treasurer's job for Democrats.

Men have monopolized elected positions mainly because well qualified women failed to run for public office. **JEANNE DOST** is highly qualified and will bring a woman's valuable insights to government.

WHY WE URGED JEANNE DOST TO RUN FOR STATE TREASURER

JEANNE DOST is a sincere candidate for the very important office of State Treasurer. She is committed to serving the public interest not only in the specific duties of State Treasurer but as a concerned citizen dedicated to integrity and efficiency in the role of the public servant.

JEANNE DOST, born on August 12, 1929, is a life long Democrat. She is a native of the Pacific Northwest with a B.A. in Economics from Washington State University. She earned a Ph.D. in Economics in 1959 from Harvard University. She has served on the faculties of Kansas State University, Washington State University and Oregon State University. Currently at home, she has successfully combined the roles of career and home for many years. Jeanne and her husband, Frank, have a son and a daughter.

PHIL H. McALMOND
For State Treasurer

It takes a special kind of man to be State Treasurer, to manage our precious tax dollars, to invest \$800 million in state funds wisely. It takes a man with the special kind of know-how that comes from long experience in the specific area of money management and investments.

Phil McAlmond has that kind of know-how.

(Concluded on following page)

(This information furnished by McAlmond For State Treasurer Committee)

A Portland businessman, Phil McAlmond was born Dec. 6, 1928, was educated in the public schools of Oregon and Washington, and graduated from the Real Estate Law Institute of Seattle. Starting with virtually no capital, he built a successful and rewarding career in real estate development, investments and securities.

Twenty years of experience in the market place have given him an understanding of money management and investment insight that's impossible to come by in any other way.

Phil McAlmond believes it will take imaginative economic leadership to meet the challenges that confront each of us, our communities, and our state in the 1970s. And he has the ideas to meet those challenges. . .

Ideas for putting Oregon money to work IN OREGON, to stimulate the economy, broaden local tax bases, and ease the burden of every taxpayer.

Ideas for expanding state fund investments in federally-insured home, business and farm mortgages, and sound conventional loans . . . in EVERY area of the state . . . to create more jobs and business opportunities for ALL Oregonians.

Phil McAlmond has ideas for saving tens of thousands of Oregon tax dollars each year, by coordinating state insurance purchases through a Risk Manager. Though he is a successful businessman today, he's known what it means to be poor and hungry with a young family to provide for. And because he understands so well that our tax dollars don't come easy, he'll continue to look for ways to eliminate waste and reduce the cost of government.

The 43-year-old McAlmond is a "complete" man, actively involved in the world around him. He served as a member of the Young Leadership Council of the National Democratic Party and on the party's Committee on Reorganization. Democratic Voter:
City, Suburb, or Farm
Oregon

Pendleton, Oregon

May, 1972

Dear Fellow Democrat:

I write you to apply for the job of Attorney General; above is a resume for your consideration.

To write all the Democratic voters in Oregon individually—even with letters like the present Attorney General used in 1968—would cost over \$75,000.00, and my family can't afford that. (My father was a school teacher, and even in those days, school budgets were pretty tight). I hope you'll excuse this less personal method.

I fell in love with Oregon upon first coming here in 1957. The open spaces up where I live, over the greens of the Willamette and the Rogue, to our unmatched coast—it's home. And I've watched us lose ground the last 15 years, in preserving Oregon as it can be. Our air is not so clear, nor our waters so pure, and sometimes—perhaps as we see blight in our cities, or watch the fish and game dwindle—we feel less confident that we can save the Oregon we know for our children.

I believe we can.

But to do it, we need a government that will listen—and we need courage to make hard decisions.

As Suzie and I travel over Oregon, we sense a recurring frustration that Government no longer belongs to the people—that it doesn't listen. We must all change that—by speaking out, and electing those who will hear. (There are encouraging signs; for example, when the federal government started to bring nerve gas to my county, the great majority of Oregonians spoke up—and it didn't come!)

One cause for the gap between people and politicians is the cost of campaigns. For instance, in 1968, the present Attorney General outspent the incumbent 10 to 1—nearly \$200,000—to win. When people see that kind of money spent, small wonder they suspect politicians only listen to those with lots of money.

And when a candidate can't get people away from their T.V. sets to discuss the issues, and thinks he must look for contributors who'll pay for expensive T.V. spots, small wonder he finds himself listening to the men with the money. We must do something about that.

I mean to try.

Oregon needs an Attorney General who will help our elected and appointed officials—Governor, Legislator, civil servant—reach the goals for Oregon the people set. Who will SERVE, and not try to take over. One who will help local law enforcement become more effective, locally, and not seek to run things from Salem. Most of all, one who will help government listen—and respond.

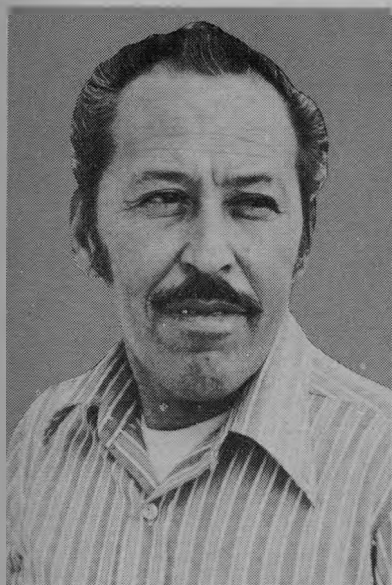

I hope you'll give me the chance to help. In Oregon, we still have time.

R. P. "Joe" Smith,
District Attorney, Umatilla County.

Second Congressional District**

Birthdate—Dec. 29, 1927

Occupation—Director of the Centro Cultural Chicano in Gervais

Educational Background—High School drop-out, job training at Valley Migrant League, Work Shops and Conferences, Adult Education courses, participant in sensitivity courses for educators.

Occupational Background—Farm worker, foundry worker in Chicago, in the migrant stream until involved in Valley Migrant League, job counselor, resource worker, area director for Jefferson Opportunity Center

Prior Governmental Experience—None

It is time, past time, that we are represented in all areas making decisions concerning our lives. In many ways, many times, we have asked the government to be responsive to the people, to not shut the doors in our faces.

Now we must become more involved and form the unity to solve our mutual problems and gain the strength that comes from working together. A broad variety of people throughout our country must participate in increasing public awareness of the mutual problems we face, in searching for solutions, in implementing whatever answers have been or will be found—individuals who work on the base of belief in the people and not only for their own interests—committed people not afraid to listen, to speak out, to be honest, that will serve as our political leadership and support our right of self determination.

I want to work everywhere I can to help all of us have things like education and jobs and representation on governing bodies and to ensure our universal human right to dignity.

JOHN W. GOFF**For Delegate to the National Party Convention
Second Congressional District**

John Goff is the pastor of John Knox Presbyterian Church of Salem, where he has served since August, 1970. Born on October 9, 1944, he received his B. A. at Pomona College, Claremont, California, in 1966. As a VISTA Volunteer for the U. S. Office of Economic Opportunity, he spent the next year as a counselor in a narcotic addiction rehabilitation project in New York City. Three years of study at San Francisco Theological Seminary, San Anselmo, California, led to an M. Div. Degree in June of 1970. Rev. Goff has not held political office. The following is his statement:

Oregonians, like all Americans, can no longer permit themselves the luxury of nominating and electing a President on the basis of looks, charm, wealth, personality, or rhetoric. The Democratic candidate must speak to the issues. As a member of Common Cause, the national citizens' lobby, I am working for a re-ordering of our national priorities. When freed to cast my convention vote, I pledge to support the candidate who is committed to taking decisive action towards meeting the following urgent needs:

- A complete end to our military involvement in Vietnam, Laos, and Cambodia.
- A foreign policy based not on fear and reaction, but on co-operation for peace and human betterment.
- A comprehensive program for the preservation of the environment.
- Reform and renewal of government at national, state, and local levels.
- Equal opportunity for Americans of all races, ages, religions, and sexes.
- Overhaul of the criminal justice system, especially court and prison reform.
- Elimination of poverty through an all-out attack on its economic, social, and political causes.

The candidate should also have a thorough understanding of and imaginative proposals for problems of health care, drug addiction and alcoholism, education, housing, family planning, urban transportation, unemployment, consumer protection, inflation, and tax reform. His concern should be for the welfare of all Americans, not favoring the interests of any one segment of the electorate. As President he should not only tolerate, but welcome, dissent, as a healthy part of the American process. Such a candidate would offer the people of this nation a real choice—a Democratic nominee who could give strong leadership to America in this critical time.

RUSTY GOLDY (Mrs. Daniel L. Goldy) is an editor and writer for the National Council on the Aging. She was born November 12, 1918, in Minnesota, the daughter of Mr. and Mrs. Edward Rustvold and the granddaughter of homesteading Norwegian immigrants.

She has a Bachelor's Degree in Political Science and a secondary teacher's certificate from Lewis and Clark College in Portland.

Rusty Goldy first came to Oregon in 1939, to Coos Bay, where she worked for three years on the staff of the daily Coos Bay World (then called the Times). After serving nearly three years as an officer in the Women's Army Corps in World War II, she and her husband returned to Oregon.

While her son, Skip (now studying to be a doctor) was young, she worked on a part-time basis as a substitute teacher in Portland and Lake Oswego.

She was executive director of the Democratic presidential campaign in Oregon in 1968. In 1960 she was executive secretary of the Monroe Sweetland campaign for Secretary of State.

Rusty Goldy has been an active worker in Oregon Democratic campaigns, beginning with the election of Richard L. Neuberger to the U. S. Senate in 1954. She has served as a precinct committeewoman and has been a member of Oregon's Jane Jefferson Democratic Club.

After having lived elsewhere in Oregon, Rusty Goldy and her husband, Dan, made the decision six years ago to locate in Deschutes County and the Second Congressional District.

Rusty Goldy is an uncommitted candidate for Delegate to the Democratic National Convention. She will give her wholehearted support to any Democratic candidate for President who is genuinely committed to bring peace on earth, jobs and prosperity to our nation.

For many years, I have served our Party, from Precinct Committeeman to County Chairman — most recently as Chairman of the Rules and Resolutions Committee of the Clackamas County Platform Convention.

I have had this Peace Maker's job since 1964 and helped reconcile differences in opinions of our leaders.

I was an alternate at the 1940 convention when Franklin Delano Roosevelt was nominated and managed the campaign in Oregon for his re-election.

I was a delegate in 1948 and helped start Harry Truman on his memorable road to victory.

I am a lawyer, in active practice in Oregon City with offices at 20229 South Molalla Avenue and am now President of the Clackamas County Bar. I served as an Assistant Attorney General in Illinois and as an Assistant U. S. Attorney in Oregon and Washington. I attended Brown and Loyola Universities and have a J. **For Delegate to the National Party Convention
Second Congressional District**

Date of birth: February 4, 1909.

Occupation: Farmer and property rentals. 1950-1954 State Vice-Chairman of Democratic Party of Oregon.

Senator Henry M. Jackson (D—Washington) was an environmentalist long before the cause became popular. As chairman of the Senate Interior Committee he has helped carve out 13 million NEW acres of national parks, wilderness and recreation areas. He was the author of such landmark conservation legislation as the National Environmental Policy Act and the Federal Lands for Parks and Recreation Act. He authored the legislation creating the Redwoods National Park, the North Cascades National Park, the Land and Water Conservation Fund and the Youth Conservation Corps.

Scoop Jackson is the most decorated man in Congress when it comes to conservationist awards. In the last two years he has received four national conservation awards: the Medal of the American Scenic and Historic Preservation Society, the National Wildlife Federation's Legislator of the Year Award, the coveted John Muir Award of the Sierra Club and the Baruch Conservation Award from the Baruch Foundation.

I am running as a Jackson Delegate to the Democratic National Convention because Senator Jackson can be trusted. He is not afraid to tell the American people where he stands on each issue. This courage makes Scoop Jackson an unusual candidate. Take national defense policy for example. As the Senator said in San Diego, California, on May 20, 1971: "We all want to put the brakes on the arms race . . . we all want to achieve arms control . . . but to those who say we must take risks for peace by cutting the meat from our military muscle, I say you are unwittingly risking war."

Not all presidential candidates will agree with this statement, but all of us voters can admire Senator Jackson's honesty.

PATRICK McMAHON**For Delegate to the National Party Convention
Second Congressional District**

Pat McMahon, born 9-7-52, is a 19-year-old youth presently in his 2nd year at the U. of O. He has been involved with the role of youth participation in the Democratic process since age 17 when he was an active member of GO-19. During his freshman year at the U. of O., he served in the A.S.U.O. Senate and several student-faculty committees. At present, Mr. McMahon is involved with the Muskie campaign and is on the U. of O. steering committee for the Model Democratic Convention which will play host to some 3000 people from the state of Oregon.

Young people (just as many adults) are disturbed about what is happening in our nation's cities, Vietnam, and the direction of our domestic priorities. It is sad that billions of dollars are spent abroad supporting various activities (war, foreign aid, etc.) instead of curing the ills of the middle class and the 20 million American people living in poverty.

A feeling of "getting involved" in today's large political spectrum is held by a majority of the youth, but they have no real outlet to exercise that involvement. I have heard young people my age say, "I want to become involved but what can one person do?" My answer to them is, "find even a fraction of the 11 million new enfranchised voters who feel the same way you do and make people listen." It has been common practice throughout our nation's history that interest groups are only heard when a number of votes is at stake. It is ironic but true.

The need for young Democrats at the national convention is quite clear—give the new enfranchised voters a "visible" voice within the Democratic party thus demonstrating to the nation, Oregon's support for the involvement of youth.

Giving young adults (18-20) a vote in local, state and national elections was a good first step but the real test will be May 23, 1972, in the election of young Demo's to the functioning parts of government.

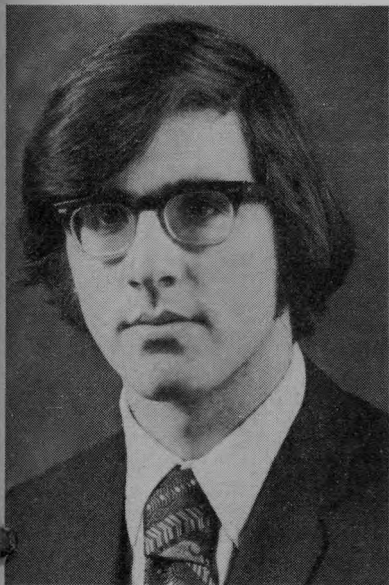

The American people have been divided due to fear and mistrust of a United States President as well as each other for many years. The day has come to lay our barriers aside and move to a reunified state under a strong central leader concerned about the welfare of all Americans. It is for this reason, I have and will continue to support Senator Edmund S. Muskie for the Democratic Presidential Nomination.

PATRICK MELENDY

For Delegate to the National Party Convention
Second Congressional District

The United States today is beset on all sides by difficulties and hard decisions, by changes that reverberate throughout the whole society. It is small solace for a politician to hear that the troubles of state are nothing new. It has been a leading thought that the experiences of man over more than 25,000 years on this continent can hold up a mirror to modern America. To comprehend the discontent in American cities today, we have to understand the complex web that binds an individual to his society. Through the inventory of culture, knowledge, beliefs, art, law, morals and custom, much else can be learned from the living test tube of the Indian-Chicano experiment in North America.

We have allowed these cultures to die. There is something here that sense and sensibilities rebel against. Millions of dollars have been expended to excavate and transport to museums the tools, weapons and other artifacts of

Indians, but scarcely a penny has been spent to help save the living descendants of those who made them; modern man is prompt to prevent cruelty to animals, and sometimes even to humans, but no counterpart of the Dierra club exists to prevent cruelty to entire cultures, little is being done to preserve the numerous cultures that have so much to tell modern man.

At a time in which the might of the United States is being ground down, at home, its society is being subjected daily to increased stress as the environment is befouled, the resources squandered, and the population soars. The times are clearly out of joint when people are still starving to death in the mightiest nation ever seen on earth. I believe that Indian and Mexican people should leave the past glories to historians and embark on an aggressive program of rebuilding ourselves.

Patrick Dion Melendy—Born: Oct. 19, 1946; Enrolled member of the Hupa tribe; Graduated from Central High School; Married and has two children ages 1 and 4; Occupation: director of Indian programs for the Chicano Indian Study Center of Oregon.

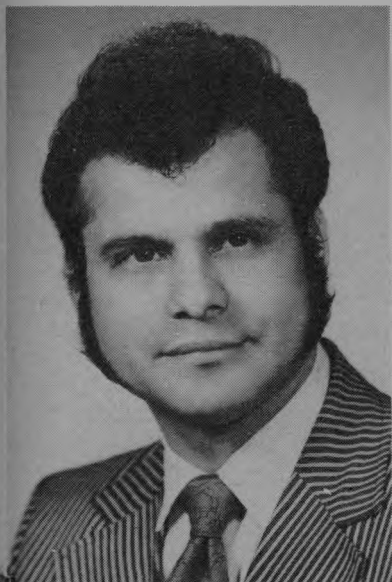

I have heard many speeches and read much literature specifying a great need for improvements for the Indian and Chicano peoples. Hundreds of thousands of dollars are made available to college professors for research on our people and our culture, and even more is spent to preserve our artifacts. Yet we, the offspring of that culture, cannot even obtain seed money to establish a program that preserves our cultures, and at the same time helps us to adapt to the Anglo society in a way that will enable us to better understand our goals, limits and those opportunities awaiting us.

Chicanos, Indians, and other minorities, including poor whites, suffer greatly in all phases of participation through the United States. The elderly suffer regardless of their nationality.

First using the elderly as an example, they are greatly ignored. As soon as they show age or any signs of handicap, not mentioning that at the age of 62 to

65 years of age, they are robbed of the knowledge and long earned professions that they have greatly depended on for a living.

This leaves them idle and with a worthless feeling. Not to mention an insecurity of holding on to their own personal possessions. The little social security and welfare that they might receive, will not accommodate for what is monetarily expected from them.

Also, those that weren't fortunate enough to have a profession suffer even greater as state and federal agencies act as if their services to them are a favor.

These people are not treated equally or by any other means with respect. I was always brought up to respect my elders, but unfortunately, some government representatives don't, and believe me, that is a real shame.

As I started, I mentioned Chicano's, Indians and other minorities. It is very simple and very short. They have never been able to participate in any federal, state or choice private employment. The reason given: lack of education. But they have never been given that opportunity either. Their cultural traditions have been denied them. They have always been taught from the Anglo point of view.

The migrants suffer from extreme degrees of neglect and discrimination— income, life expectancy, etc. But what has been done about it? Formed temporary programs for them. But have we tried to settle them or is it impossible? It is time to find out, isn't it? Yes, we have learned your system well. Have you tried to learn ours? Of course not, because we are in America. I feel McGovern stands for these issues.

KATHLEEN RACKLEFF**For Delegate to the National Party Convention
Second Congressional District**

Kathleen Rackleff was born on July, 29, 1948, in Myrtle Point, Oregon. She attended grade school and Jr. High in Eugene and then finished high school at Crow where her parents own a farm. After two years at Southern Oregon College and a summer working at Crater Lake she transferred to the University of Oregon and majored in history and education. After finishing her work for a B.A. she moved to Bend where she is working part time teaching at the Deschutes County Confidence Clinic. She is preparing ADC mothers to take the High School Equivalency test. She is also Vice President of the Community Involvement League (ADC Association) and Chairwoman of the ADC Scholarship Committee. She lives with her sister Jane Rackleff and her daughter, Lara Willis.

I believe that, although the Democratic Party has been officially making an effort to include women, poor people and minorities in decision making positions within the party, we must make it a reality. The party and the country need to utilize the human resources they have, other than solely white males, in order to even understand the country's diverse problems. Racism, war, exploitation of the earth's resources and poverty require everyone's effort. Self help and dignity for the poor does not come from the forced labor of women with children in an already saturated job market as proposed by Nixon's welfare reform, HR-1. This will create an excess of cheap labor which will hurt all labor. I am committed to support Patsy Mink who I believe will provide a humane alternative.

JUDITH A. (JUDY) SUGNET

**For Delegate to the National Party Convention
Second Congressional District**

One Man's Courage Has Given The American People An Honest Voice In Every Critical Issue. That's Why I Support George McGovern.

George McGovern is the most honest and direct candidate to run for the presidency in 1972.

Senator McGovern's philosophy about what has to be done in this country forms a listing of what can not wait to be done.

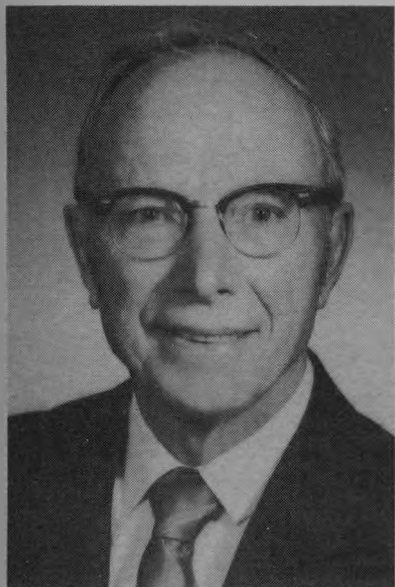

Among the many things that need to be done and must be done are Lowering the Budget for the Department of Defense; increased Social Security; all Americans, rich and poor, are entitled to adequate health care; complete and total removal of the United States from the War in Vietnam; Closing of tax loopholes and special treatment of the high income tax bracket; the corporations should pay their taxes, not receive tax write-offs; and civil rights and liberties for all Americans must be enforced.

Judy Sugnet believes, as Senator McGovern does, that the government must be made to work for the people and not against them.

Judy Sugnet was born in Salem on August 1, 1945. She attended Salem Public Schools and is a Political Science graduate of Oregon State University. She is a researcher, who has worked at both the 1969 and 1971 Sessions of the Oregon Legislature.

Judy Sugnet is a precinct committeewoman in Marion County and she is the Voter Registration Chairman for the county. Judy also served on the state-wide Ad Hoc Committee to Reform Convention Procedure this past year.

WILBUR R. SULZBACH**For Delegate to the National Party Convention
Second Congressional District****DEMOCRATS:**

Here is the course I intend to pursue if you elect me National Delegate to the Democratic Convention:

1. I will wholeheartedly support the winner of the Oregon Democratic presidential primary for the first two ballots.

2. Following the above I intend to support the nomination of McGovern, McCarthy, Humphrey, Muskie and Lindsay in that order.

3. I will make every effort to help in the adoption of a party platform which, in addition to others promises a Democratic administration:

(a) That will promptly remove our armed forces of every type and our CIA from Indo China and will offer aid through the United Nations to restore what we have destroyed.

(b) That will cease supporting military dictators in Brazil, Greece, Taiwan, Portugal, Guatemala, Spain, and Indo China and will stand for "government by consent of the governed."

(c) That pledges itself to hold our birthright of civil liberties intact and rejects the Mitchell-Nixon ideas of electronic surveillance, preventive detention, no-knock entry, and repression of dissent.

(d) That will work to strengthen the United Nations generally and will help establish a U.N. administration of the oceans and sea beds for the benefit of all the world's people.

(e) That will reverse the "trickle down" theory of the Republicans in which favors are granted to corporations in an attempt to secure prosperity and will offer a program in which government at various levels becomes the employer of last resort, millions of needed jobs are done in our communities, and jobs are available.

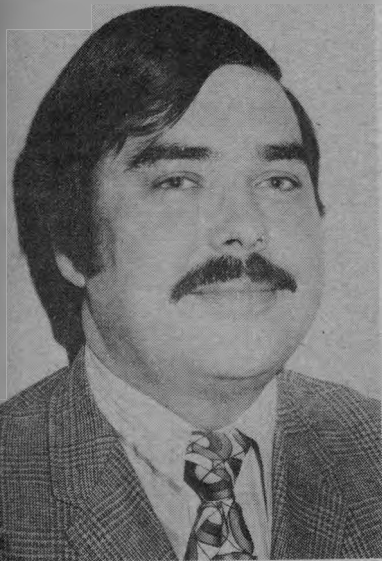

I ask for your vote as one who is motivated by the American Dream of liberty, justice, and a fair break for every citizen. I am a retired school teacher and army officer, a long time member of Amer. SALLY MUFFETT TIMM

**For Delegate to the National Party Convention
Second Congressional District**

SALLY TIMM was born March 21, 1936, in Spokane, Washington, and has lived most of her life in Oregon. She is a registered nurse by occupation, with a Bachelor of Science degree in Nursing from the University of Oregon School of Nursing. She has also worked on a farm. She is married and has three children.

It is time now to restore PEACE and ORDER to our country by nominating a candidate for President of the United States of America

- Who will stop IMMEDIATELY the now-computerized war in Indochina
- Who is COMMITTED to the ideals of life, liberty, the pursuit of happiness, and justice for all and
- Who will therefore use the influence, power, and technical resources of the office for the benefit of people rather than their destruction
- Who believes that people are more important than profits
- Who believes that medical care is a right, not a privilege
- Who will attack the basic causes of inflation, rather than the symptoms
- And who REALIZES that peace and order will be attained best and most rapidly by insuring full proportional participation at decision-making levels of women, senior citizens, people of color, youth, working men and women, the poor, and all other interests of the people.

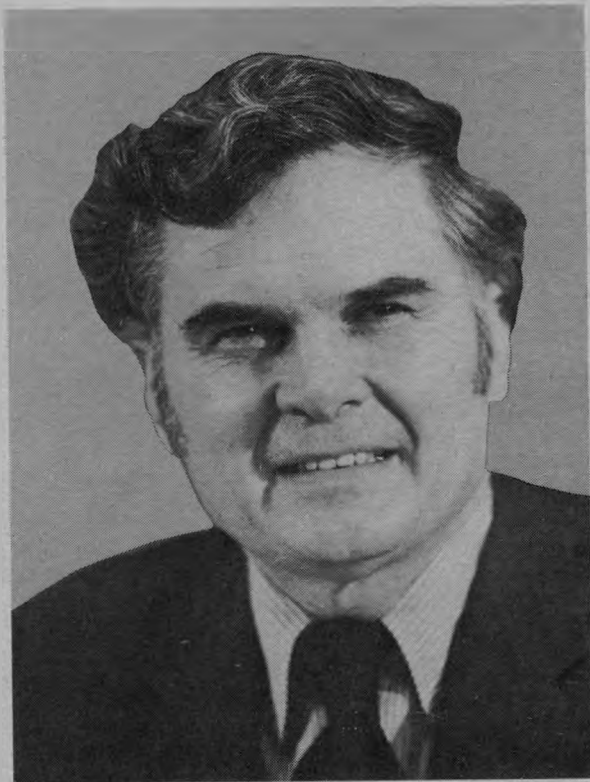

As your delegate to the Democratic National Convention, I will support any candidate, female or male, who is committed to these goals and plans of action. We CAN have a qualified president who will truly inspire the people and bring new unity and vision to our country.

JOHN LINDSAY IS:

EXPERIENCED—six years as Mayor of New York City, the "second toughest job in America;"

CONCERNED—enough to go where the people and the problems are;

COURAGEOUS—has dealt directly with the major issues of our time.

JULIE A. WILLIAMSON believes that America needs a President who has had firsthand experience in dealing with the crucial problems of the '70's. While Washington has been talking about our problems, JOHN LINDSAY has been fighting them.

JULIE A. WILLIAMSON was born on September 14, 1939.

JULIE A. WILLIAMSON is the State Director of the LINDSAY FOR PRESIDENT COMMITTEE OF OREGON. She attended Grant High School in Portland, is the mother of two sons, and is married to a Portland attorney.

JULIE A. WILLIAMSON was Secretary of the Legislative Action Center during the 1970 Oregon Legislative Session. She has worked for Legal Aid Service-Multnomah Bar Association for two and one-half years as a secretary.

STEPHEN WM. YIH

**For Delegate to Democratic National Convention
Second Congressional District**

Stephen W. H. Yih, 52, married, father of two sons, Episcopalian, and homeowner, is a resident of Albany. Steve, who was born on April 2, 1919 in Shanghai, China, is Group Executive of Refractory Metals for Teledyne, Inc., a large diversified company headquartered in Los Angeles, California. He is also President of Teledyne Wah Chang Albany, a refractory metal manufacturing plant, at Albany, Oregon with 1200 employees. He has a Masters Degree in Electrical Engineering from Polytechnical Institute of Brooklyn, Brooklyn, New York and a Masters Degree in Mechanical Engineering from New York University, New York City. Steve and his wife Mae have long been active in Linn County politics. He is this year's State Financial Chairman for Al Ullman.

As a Delegate, Yih would support Senator Henry M. Jackson of Washington as the Democrat best qualified to be President of the United States. His reasons for support are:

Senator Jackson believes that the American people are entitled to a court system which does not bog down in delay. He is working for a criminal justice system that runs fairly and smoothly.

Senator Jackson knows that our natural resources must be preserved—and he has a Sierra Club award to prove it. Senator Jackson knows our farm problems. He opposed Nixon's nomination of Earl Butz for Secretary of Agriculture and he supports the independent farmer and a fair price for the food he produces.

Senator Jackson believes the property tax is an unfair way to support local schools and he has introduced legislation to increase Federal aid to local schools fourfold over the next five years.

Senator Jackson is from Washington State and knows our problems here in the Northwest. Senator Jackson is also a great American and knows the problems of the American people.

Please vote for Stephen W. H. Yih for Delegate. He also hopes you will support the other Jackson Delegates running in our Congressional District. They all live in the Second Congressional District. Their names are: Judge James O. Burns, Ken Rinke, Sybil Rinke, Martin Holmes, Gladys Last Holmes, and Ashley Greene.

DEL COURSEY**For State Senator, Fifteenth District**

I want to be your new Senator. It's a new district. I have lived in most of it. Your problems are now, or have been, mine. I came up out of the woods. I got my education at Linfield. I raised my family, pursued my profession in education, and watched the problems grow. I would use all the knowledge I have attained, both in life and education, to tackle some of the problems that face us.

I have taxes that are too high. I don't like the prospect of growing old and trying to live on my pension. I have been poor. I didn't like it. I would like to make life easier to live for people who are poor now. I've lived in Oregon since it was all country and very little metropolitan. I wouldn't want to see it all metropolitan and no country.

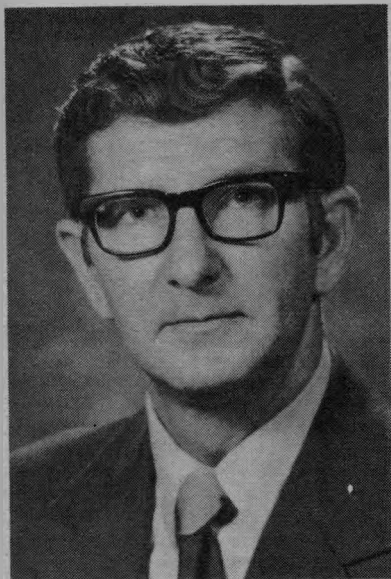

It's time to "get involved." I want to be your voice. Don't sit back and say it can't be done. I'm only one voice, UNLESS you give me the power to speak for us as a unit.

**VOTE FOR A MAN WITH A VARIETY OF BUSINESS EXPERIENCE,

Educational Background:
Colton High School, 1954
Portland State University (B.S.) 1961
Northwestern School of Law
Lewis & Clark College
(J.D.) 1966

Occupational Background:
United Air Lines—9 years
Practicing Attorney—6 years

Married and the father of four children, ADRIAN D. Dick Coram, born December 18, 1918, a high school graduate, is a railroad conductor. Prior occupations were: Warehouseman, sawmill worker, and store manager. He has no prior elected governmental experience.

DICK CORAM

Believes:

- Tax reform should be a high priority item with the next legislature, with home and farm property tax relief the basic objective.
- We must eliminate the loopholes in our income tax structure which benefit those in high income brackets at the expense of the middle and low income taxpayer.
- Orderly development of the Boardman area is vital to all of Oregon.
- Maximum usage of our timber resources on a sustained yield basis is necessary to our economy.

SCHOOL IN PORTLAND—JANUARY 9, 1972; OCCUPATIONAL BACKGROUND—BARBER—25 YEARS, CROP DUSTER—3 YEARS, CHAUFFEUR—3 YEARS; PRIOR GOVERNMENTAL EXPERIENCE—NONE.

Born and raised in Portland, Oregon, I have barbered for approximately 25 years, was President of Barbers' Union Local No. 75 for 2 years, delegate to Barber's National Convention twice, helped form 5-day week for barbers, have worked with the Barbers' Association of Oregon to legislate and get bills passed in Salem.

I know the workers problems as well as anyone, better than most. I also understand the general problems of management—have worked on the Laws Committee for the Democratic Party—approximately 1965; have been Precinct Committeeman; Division Chairman of

Precinct¹ Committeemen in the late 1950's through the early 1960's.

I am an active member of the Tualatin United Methodist Church, past Lay Leader and now Chairman of Council of Ministry; married, father of 7 children, 6 living. They are all living in Portland, Oregon.

JIM SAYS:

"I am against any type of sales tax and this includes the Nixon (Added Value Tax).

"I am for the (Ability to Pay) Tax (Income) and for plugging up all loopholes in our tax structure. I am for taking school expenses off the property tax.

"I am for constitutional amendments to give the people more control and power and less to the politician.

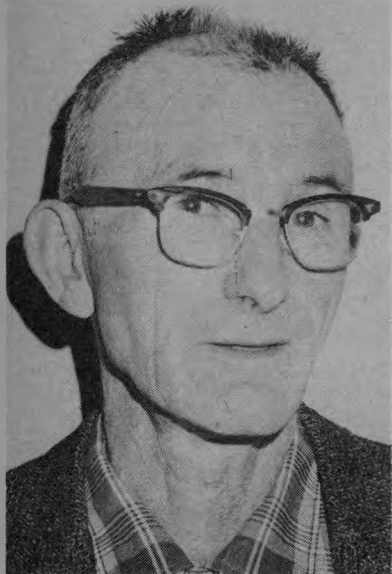

"I am for a good sensible and sound Ecology Program, but we should study all phases of Ecology and know what we are talking about before we act, thereby creating less confusion.

"I am for education—to give all our children the very best without waste.

"I am for welfare and relief to those that deserve it and need it."

SYLVESTER (SID) GASSER**For State Representative, Twenty-eighth District**

Sylvester "Sid" Gasser

Date of Birth: June 1, 1912.

Occupation: Self-employed farmer and contractor.

Education and Occupational Background: Educated in Rural Country Schools. Past thirty-eight years spent owning and operating his own business. He has had extensive business training.

Born of a local pioneer family, Sid Gasser has lived his entire life in our state. Dedicated to the American free enterprise system, he has owned and operated his own business for thirty-eight years.

Known as a good neighbor, he has accepted community responsibility over a period of many years. Dedicated to the principles of Jefferson and Jackson, he feels our Constitution tempered by the Bill of Rights, a sacred document. Also dedicated to the Oregon system, known as the Initiative Referendum and Recall. He has supported many dedicated persons in public service. He has also fearlessly opposed those he felt were not

serving with credibility or in the public's best interest.

He would support a more equitable taxing program with local taxes retained for local needs. He would oppose the proposition of taxing rural people to perform a service for a large metropolis such as a domed stadium for the City of Portland. Taxes must be levied on the ability to pay, no sales or added value tax. He would limit the powers of some government agencies and insist they understand these are the servants of, not the masters of, the people they serve.

He would encourage uniform development throughout the state and expect all developments to become good and welcome neighbors.

He is concerned with the motives of those who would tax us at will, regulate our home and property taxes, discourage competition, even disarm us.

CAROLINE NEUWIRTH**For State Representative, Twenty-eighth District**

CAROLINE NEUWIRTH was born in Salem, Oregon, February 11, 1931 and has resided in the mid-Willamette area her entire life. She took her baccalaureate degree in economics at Willamette University and had additional graduate level courses in public administration through the General Extension Division.

MRS. NEUWIRTH is a housewife and mother of two school age children. She and her family have lived in the Silverton-Mt. Angel area for 9 years. She is a member of the Silverton Planning Commission and is Treasurer of the Silverton Day Care Association, a community-sponsored non-profit corporation which is establishing a facility where parents can be assured of responsible care for their children.

MRS. NEUWIRTH worked in personnel at Oregon Fairview Home and in the Teacher Certification Section of the State Department of Education and recently has served on the Citizen's Advisory Committee to MacLaren School.

MRS. NEUWIRTH remembers with pride how Oregon has always been a responsible leader in fiscal matters by meeting its budgetary needs with sound, equitable tax programs. She is concerned with the emergence in recent years of a "ticky-tacky" tax psychology. Mrs. Neuwirth is determined that we shall not become a "sock-the-other-guy" state.

MRS. NEUWIRTH'S interest in "planning" goes back 20 years to her undergraduate studies. She is convinced that whether we develop "plans" or just let things happen, we ARE planning! It is time for all citizens to take a concerned look at our valley, decide our best uses and then go to the planning hearings and the commissions and fight for our rights; we are the "have's" and the "have-nots" will persist as long as necessary to attain their goals. WE must protect our heritage with eternal vigilance—and action.

CAROLINE NEUWIRTH promises to be YOUR representative.

She will work for WISE USE OF OUR LAND AND RESOURCES AND SENSIBLE, EQUITABLE TAXATION.

CURT WOLFER

For State Representative, Twenty-eighth District

The Wolfer family came to this legislative district five generations ago as farmers in the historic Aurora Colony. Curt Wolfer was born and raised on a farm. In 1965 Curt began working for an investment company, and is now a general and managing partner in the investment firm.

Curt is a member of the Chamber of Commerce, and serves on the government committee. He completed college in international business at Oregon State University, and was born February 17, 1949.

Curt worked as a legislator's assistant in the 1971 legislative session, and is the sponsor of the initiative petition to allow a vote on lotteries. CURT WOLFER wants a state lottery for PROPERTY TAX RELIEF for homeowners and farmers. He is OPPOSED to gun control for law abiding citizens. Curt OPPOSED and helped to defeat the \$1 million dollar Capitol remodeling for new legislative offices.

THIS I BELIEVE . . .

"The Constitution of the United States is a document never equaled as a declaration of personal, political and religious freedom. For nearly ten years I defended it as a United States Marine. I will continue to defend it as your Representative."

"The one most important factor that has allowed our democratic system of government to survive and made our country great is the ability to compromise. For nearly 200 years this has allowed men with divergent views to work acceptable to all parties involved."

together and bring about solutions

"Tolerance and respect of other's rights, beliefs and property is essential in our system of government. A radical, even one with noble and selfless intentions, has no room in our society for we cannot and will not allow him to forcefully impose his will on us. Our system, though often slow, cumbersome and far from perfect, is broad and flexible enough to permit needed reforms in an orderly fashion.

"It is the right of every American to be taxed under a just system based on the ability to pay. This can be achieved by a substantial reduction in home owners' property tax."

"It is the right of every American to obtain an education. Economic circumstances, birth or ideology should not limit this right."

"It is the right of every American to live with dignity even if he cannot obtain a job, is disabled or too young or old to support himself."

"It is the right of every American to receive necessary medical assistance regardless of his economic condition and to live free of fear that a prolonged illness will completely ruin him and his family."

"It is the right of every American to participate in our society equally, regardless of race, creed, sex or national origin."

JOE SPENNER

For State Representative, Thirtieth District

Joe Spenner. Born October 23, 1921. Occupation: Janitor. Education and occupation experience: Farmer & school bus driver. No government or political experience. Single.

Reasons for running: Recent sessions of legislature disregarded voice and will of the citizens, resulting in more taxes, crimes and debts. We need laws in plainer language. We need to know what government does with money. A common janitor is needed to represent common people.

I belong to: Right to Life, Oregon Legislature and Research Committee, Knights of Columbus, ZAMO (Zoning Adjustment Modification Organization), St. Boniface Catholic Church and the Farmer's Union.

My motto: To listen to the people of District 30, and obey them according to our Constitution. Theme song of my campaign, "The Song of St. Francis."

Our government is like a fine guitar that needs tuning.

PAT WAHL

For State Representative, Thirtieth District

PAT WAHL, businesswoman and housewife, native Oregonian, born Feb. 6, 1930. Husband employed with the State of Oregon for the past 23 years. Concerned mother of three.

PAT WAHL, high school graduate with more than twenty-five years business experience, who for the past seven years, with her husband, operated a small metal manufacturing firm in Salem.

PAT WAHL, former Legislative Secretary and Committee Clerk and former Legislative Chairman and principal lobbyist for the Oregon Consumer League.

PAT WAHL, an active Democratic Party worker since 1961, holding many offices, committee chairmanships and numerous other party responsibilities, including convention delegate.

PAT WAHL, now living on a small farm and having been the owner of a small business, can easily recognize and sympathize with problems facing the farmer today and is eager to assist in resolving these problems in an impartial and responsible manner.

PAT WAHL, is concerned with Zoning and Land-Use controls and their effects on our economy and tax base.

PAT WAHL believes the people of Oregon are looking for and are deserving of Property Tax Relief on their homes and farms, which is long overdue, that other forms of revenue must be found and government spending must be kept within the bounds of doing the most good for the most people.

PAT WAHL feels that every problem facing us today has two sides and can be resolved fairly and realistically to all concerned, whether it be farm labor housing, collective bargaining, pollution controls, or drug and alcohol abuse.

PAT WAHL wants the young people of Oregon to have the best education possible, with greater emphasis and opportunities placed on Community College facilities, and to grow and learn in a healthy environment, physically and socially. State and federal aid must be increased to accomplish this, yielding further Property Tax Relief.

PAT WAHL is sure Oregonians want a clean environment and our resources and recreational areas saved for future generations to know, love and enjoy.

PAT WAHL will face these problems realistically, responsibly and responsibly!

JAMES S. MEAD

For State Representative, Thirty-first District

Date of Birth—
October 10, 1925

Occupation—
Accountant (Self-employed)

Education—
Oregon City Public Schools
Oregon State University
University of Oregon
(B.S.—Economics)
Starr King School for the Ministry,
Berkeley, Calif.)
(Bachelor of Divinity)

Experience—
Fifteen years in accounting, data systems, and public administration.
Three years minister of Unitarian church of Eugene, Oregon
No previous candidacy for elective office

Oregon, like most of the States, faces a fiscal crisis. Continuing inflation pushes costs up, while high unemployment expands welfare rolls, reduces the productivity of the income tax and increases voter resistance to property taxes. In the face of these realities, the Republican majority in our legislature has offered slogans as a substitute for leadership and stopgaps as an alternative to solutions. Mistrusting the people, they have declined to give us an opportunity to vote on reasonable alternatives to the existing inequitable tax structure. It's time to elect legislators who will honestly seek to serve the public interest by enacting a workable and equitable state revenue system.

OREGON NEEDS LEADERSHIP—NOT DOUBLETALK

OREGON NEEDS SOLUTIONS—NOT STOPGAPS

**OREGON NEEDS A DEMOCRATIC LEGISLATURE, A LEGISLATURE
WHICH WILL SERVE THE PUBLIC INTEREST—
NOT PRIVATE INTERESTS**

JIM MEAD is pledged to work for a program of TAX REFORM which will provide adequate revenues for education and necessary public services without placing heavy burdens on those who can least afford to pay and without gimmicks which eat up in administrative costs a large portion of the "tax relief" they are supposed to provide.

CLEMENS E. ADY

For State Representative, Thirty-second District

Clemens Ady was born December 6, 1941. He is married to Jean Ady, an educator currently teaching at Chemeketa Community College. They have one child, Erika, and are expecting another in July.

Clemens Ady is an attorney at law and has been in private practice in Salem for three years. He was graduated from Willamette University College of Law with a Doctor of Jurisprudence. He did his undergraduate training at Washington State University.

Clemens Ady has had experience as a researcher for the Judicial Counsel of Oregon, is a member of the Oregon State Bar Criminal Law Committee, and a member of Common Cause.

Clemens Ady desires to be elected to the Legislature primarily because there will

be drastic changes in Oregon's Criminal Procedure Code and he feels that there needs to be a moderating voice among those prospective members of the Legislature that desire greater controls over individual rights.

Clemens Ady is also deeply interested in changing Oregon's current governmental make-up. He feels that a new system needs to be implemented to eliminate the excessive waste of tax money to support three levels of government. If elected, he will propose legislation to consolidate current county-state functions that could best be served by one agency.

Clemens Ady will bring a youthful approach to old problems with experience, education, and vigor.

MARGARET U. (PEG) DERELI**For State Representative, Thirty-second District**

Peg Dereli was born on Feb. 18, 1937 and moved to Oregon at the age of four. She graduated from Corvallis High School, worked as a bank teller and bookkeeper and lived in Europe for two years with her husband. For many years Dereli has been active in the Democratic Party and is currently Alternate Vice-Chairman of the Marion County Central Committee. She has volunteered her services to individuals and organizations in need.

Peg Dereli is a housewife and mother of two children with a vital interest in representative government. Peg believes we need representatives free of special interests—free to represent the people. She does not feel the State should be run with costly special sessions and referendums.

Peg Dereli is convinced taxation can no longer be based on what is going to benefit select groups, but tax reforms that are fair and equitable can be accomplished. Tax reforms must come now in order to begin to meet the needs of the people.

Peg believes that every person has a right to a meaningful life. A life that begins with quality education that is available to all. Education that extends from pre-school programs to programs for training and retraining of adults. Education should not be financed with property taxes and she will work toward this goal.

Peg Dereli wants to see adequate medical and dental services available to ALL people. She will work hard for All people to have these services at reasonable fees.

Peg does not believe that our Senior Citizens should be the forgotten people in our society, for our Senior Citizens have contributed their share and often more. Nursing homes must be up-graded and State standards met. For the elderly who are not confined to nursing homes, she wants to see them included in multi-generational programs and aid must be made available to help them maintain themselves and their homes in the community.

Peg Dereli is a consumer. She insists that as consumers of goods and services we must have more protection and she will work for this.

Peg Dereli wants to represent PEOPLE. Do you want representation? Then Vote for PEG DERELI . . . YOU ARE HER SPECIAL INTEREST.

DAVID D. KIDD**For State Representative, Thirty-second District**

David D. Kidd was born at McMinnville, Oregon, July 17, 1917 and was raised in the Portland area.

He is retired.

His educational background started by attending Elementary School in Portland. In 1949, he took a G.E.D. Test which gave him the equivalency of a High School Education. He attended Merritt Davis School of Commerce in 1963, at Salem, taking a course in Business Administration.

David D. Kidd's occupational background started by picking berries, hops, apples, as a child and as a newsboy. David D. Kidd joined the C.C.C. (Civilian Conservation Corps). Leaving the C.C.C., he enlisted in the U. S. Marine Corps, serving with the 6th Marines, Fleet Marine Force and was honorably discharged in San Diego, California. After his discharge, he became a Special Police Officer with the Portland Police

Dept. David D. Kidd, resigned there to become a regular Multnomah County Deputy Sheriff at Portland. The major portion of his employment has been in Law Enforcement, ending with 5 years with the Oregon State Highway Dept., in their Enforcement Division, as a State Weighmaster. David D. Kidd's prior governmental experience was as Chief of Police for nearly two years at Florence, Oregon. He is at present Chairman of the Local School Advisory Committee at Waldo Junior High School.

Many persons have asked him WHY he wants such a thankless job? He want to work for Property Tax Relief as your Legislator and to represent you, the People, in the House of Representatives. Again he is asked HOW? His answer, "By working for, NUMBER 1, have State Government do more financing of local school districts by legalizing such gambling devices as pin-ball machines, punchboards, slot machines, which are now illegally operated within our State; to Tax and License such devices, earmarking such Revenue to Property Tax Relief as a designated fund. NUMBER 2, to do away with the Oregon Liquor Control Commission and Tax and License all Liquor Dispensers. Do away with our State operated Liquor Stores and Warehouses. Allowing privately owned stores to dispense our liquors and Tax and License such stores. Again earmarking such Taxes and Licenses to a designated fund for Property Tax Relief. All the above should be enforced and controlled by the Oregon State Police under the Directive of Our Governor."

MAYNARD C. DRAWSON

For State Representative, Thirty-third District

Maynard C. Drawson was born in Portland, Oregon, July 3, 1925 and has been a life-long Democrat. His father was a Greek immigrant and his mother one of the pioneering Funston family. He married Dorothy Dawson in 1947 and they have seven children, five boys and two girls—5 to 17 years of age. He has been a barber and shop owner for 25 years and was an official in the barber's union for almost 20 years. Graduated from Salem High School and a Salem business college. Served in the U. S. Navy during WWII. Spent two years of combat duty on the USS Boston and attended three colleges while in the Navy preflight program. Has taken a number of special courses since that time, two of which were in data processing and real estate. Held a real estate salesman license for a time. Has had no previous government experience but has had personal contact with virtually every major state agency while engaged in research. His hobbies include fishing, hiking, writing, big tree hunting, stamp collecting, artifact collecting, tree farming, and historical re-

search. He currently leads Oregon's record-tree detectives in reporting present champions—as recognized by the American Forestry Association. His knowledge of Oregon is extensive and he has written numerous articles dealing with the state's past and present. He has endeavored to Oregonize Oregonians in his writings and is now compiling a book on the Oregon Country. His interests are widespread and has not led to any special interest group niche. He believes what is good for Oregon is good for Maynard C. Drawson and his family. He also believes that livability in the greatest state in the Union must be preserved and not jeopardized by expediency of the times. Ignorance is the greatest enemy to this livability and citizens must continue to be informed. Protection can only come from awareness. The people must make their views and wishes known BEFORE legislation is enacted, not merely criticize what has been done. Knowledgeable planning is the only hope for the future. This requires an interest and involvement in government affairs by all citizens—for involvement is the key to good government. Communicating with each other is extremely important, and those representing the public must keep the lines of communication open. Maynard works well with people and he would like to represent and work with the people in the 33rd district as a full-time legislator. He pledges responsible economy. Vote for Maynard C. Drawson—he is a man you can talk to.

WALTER PONSFORD**For State Representative, Fifty-fifth District**

Walter Ponsford was born July 13, 1935 in Eugene, Oregon. He grew up on a farm in the Willamette Valley, graduated from O.C.E. in Monmouth and moved to Central Oregon in 1961. Mr. Ponsford is a teacher of Social Studies and Theater Arts. He is married and has two daughters, ages 8 and 4. Mr. Ponsford began his work in the Democratic Party as a Precinct Committeeman and has worked at State and Local levels for 10 years. He was a member of the 1972 Oregon Democratic Pre-Primary Platform Committee.

WALTER PONSFORD IS CONCERNED

Walter Ponsford is angered with the current taxing plan in Oregon. Such situations as the last cigarette tax campaign are exercises in deception. Oregon needs and deserves taxation which is understandable and fair and based on the ability to pay.

Walter Ponsford rejects the trend toward large corporation farming and is concerned about what is happening to the family farm and agriculture.

Walter Ponsford is an outdoor sportsman who is worried about the quantity and quality of fish and game in Oregon. He supports action which will insure the maintenance and the increase of existing fish and game populations.

Walter Ponsford is a teacher who worries about education and its place in the community. He favors job-oriented training that more fully serves the communities' best interest. At the same time, he asks that more intensive academics be made available to the students who have use for them. Compulsory education standards should be revised.

Walter Ponsford wonders if it is possible to win by being completely honest, tolerant and uncommitted to special interests? He will not make impossible promises, but wants the chance to represent you honestly and fairly in the Oregon House of Representatives. He supports legislation limiting campaign expenses. He has faith in people and would not support punitive unfair regressive legislation because he is most of all progressive and believes we must trust in and work toward a better future.

AS YOUR REPRESENTATIVE, Walter Ponsford will work on the difficult job of representing farmer, rancher, laborer, lumberman and townspeople. The people deserve equal representation.

DEAR VOTERS: There are many issues
 facing future legislative bodies, including:
 property tax relief, environmental qual-
 ity control, alcohol and drug use, zoning,
 consumer protection, and education. These
 issues and others will require thoughtful
 consideration by your legislative repre-
 sentative. In seeking solutions the rep-
 resentatives must avoid passing legis-
 lation that will impose demands or place
 restrictions on individuals, firms, organi-
 zations and local governments. Each bill

considered should be carefully checked to see that it will not unnecessarily im-
 pose added costs to the people involved. There are examples of legislation that
 placed an additional burden on the people without subsequent benefits being
 achieved to offset the added costs. Representatives should also see that legis-
 lation for the benefit of one area or interest group is not at the expense of oth-
 ers. Also, governmental bodies should exercise care in spending as they are a
 large contributor to inflation.

I strongly believe in the preservation of the family farm as an economic factor
 for our rural representative district where only four towns have populations over
 1000 and none over 2000, timber and agriculture being the major industries.
 Therefore, I feel that the extensive background I have attained in agriculture,
 education, business in the operation of a large farm and participation in organi-
 zations and services will help me qualify to be your representative. I would en-
 deavor to represent one and all.

The services you perform for others is the price you pay for the space you
 occupy upon this earth. In seeking to become your representative and my desire
 to serve the needs and wishes of the people is my attempt to help pay my share

HAROLD E. WASHAM**State Representative, Fifty-fifth District**

HAROLD E. WASHAM, 44, Democrat candidate for Representative, District 55, lives at Colton. A family man with wife and 4 children, 3 at home, 1 at Clackamas Community College, 1 finishing Seminary in Calif., and 2 at Colton High.

This is his first entry into politics.

Washam is employed by Clackamas County fire zone 2 as a deputy Fire Warden. He also operates a small mfg. shop at his farm.

He was born Oct. 8, 1927 in California.

Washam was raised on a farm in So. Mo., attended So. Mo. State and Drury Colleges and is a veteran of W.W. 2. Washam is active in Church Lay work, has served on the Colton School Planning Committee, is now chairman of the Building Crafts Vocational advisory board for Colton School.

He is an active Colton Volunteer Fireman and also active member and treasurer for the Oregon City Volunteer Fire Dept.

Washam feels it's high time some Christian principles be used as a code of conduct by people who serve in government, that we get back to the Constitution and to the many great principles set forth by Jefferson and Jackson. We must return credibility to Salem—(no more secret legislation). We need positive property tax relief—(not just double talk). We need a just and equitable representation of Rural property owners in deciding and implementing Comprehensive land use, Zoning and building regulations. Rural communities must build a defense from the encroachment of Regional Agencies and Service Districts which tax but offer little or nothing in services, example—Tri-Met.

He is for "sensible" environmental quality control, but with more attention to a greater threat which is the pollution of the minds and bodies of our young generation by drugs, alcohol, permissiveness, rampant venereal infection and pornography. Let's get rid of teachers of evolution theory dogmatism who give no allowances for a Creation retort. School Districts which include extensive O. and C. lands should regain this tax money.

We need more consumer protection, particularly in the Health and Auto Insurance fields, by repealing Subrogation. He is against sales tax in any form, against loop holes in taxation for the wealthy, against liberal abortion, mercy killing of our aged, against legalizing marijuana. He is strongly for the return to law and order, for Courts that render strict but just decisions, for respect for our law enforcement agencies.

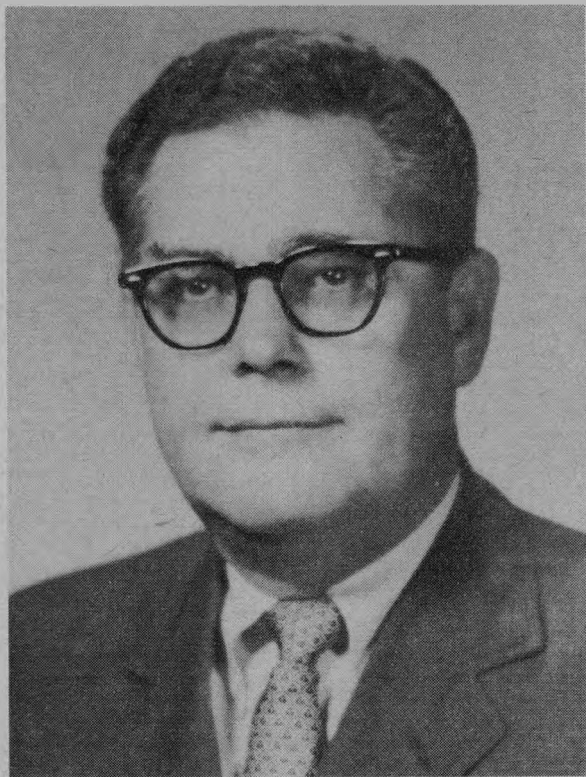

Washam is certain that the good people in District 55 want a down to earth, honest Representative, one that understands their problems and talks their language. He feels he is that man and can and will serve all the people in the District with equal vigor.

PAT McCARTHY

For County Commissioner, Marion County, Position No. 3

Pat McCarthy was born July 14, 1913, at Starkweather, North Dakota. He farmed in the St. Paul area from 1933 until he assumed office as Marion County Commissioner in January, 1961, and has served in this capacity since that time. Pat was graduated from St. Paul Grade and High Schools and attended Portland University. He is married to the former Elizabeth Hickey and they have nine children.

McCarthy served on the St. Paul Union High School Board of Directors from 1949 to 1959. He served as Sergeant at Arms in the Oregon House of Representatives during the '57 and '59 sessions and has served as Marion County Commissioner since January 1961, including three terms as Chairman of the Board.

Pat McCarthy is the first and only Democrat to be elected to the Marion County Commission. He has given the County responsible government which has been a credit to the Democratic Party. Through the years McCarthy has

kept his word on his campaign pledges. Prompt attention is paid to all problems and complaints. Everyone receives a fair, courteous and impartial hearing. He has advocated and put into effect an "open door" policy to the people and to the press so everyone is better informed on what is taking place in the courthouse. He has involved greater citizen participation in county government by appointing many more persons to advisory committees.

Pat is the immediate past President of the Association of Oregon Counties and presently serves on their Board of Directors. He is a member of the Marion County Board of Health. He is Chairman of the Governmental Coordinating Committee of the Council of Governments and Chairman of the Advisory Committee to the Marion-Polk Boundary Commission. McCarthy is a member of the Mid-Willamette Valley Community Action Council, the Comprehensive Steering Planning Committee for the Willamette Valley, Salem Area Chamber of Commerce, State Human Rights Advisory Council, Salem Area Human Relations Commission, Governor's Livable Oregon Committee, Save Oregon from Litter and Vandalism Committee, the Knights of Columbus, Kiwanis and Grange. Pat is also Vice-Chairman of the Marion County Farmers Union.

Re-elect Pat McCarthy. Keep a vigorous and effective Democrat on the County Commission—a man of honor and integrity, familiar with County problems and dedicated to their solution.

FRANK C. HILLS**For Mayor, City of Salem**

Birth date: May 17, 1922

Occupation: Self-employed—trucking

Education: High school graduate

Govt. Exp: None

Military service: Marines, WW 2 and Korea.

As candidate for Mayor of Salem I find it impossible to apprise voters in advance of all that I might hope to accomplish in office—or of the manner in which I might handle the myriad of unforeseen contingencies arising.

As an alternative I have elected to share with you some of the fundamental convictions which I hold — convictions, which if elected, I earnestly hope would prove to be honest and fair, and to the best interests of the City and its people.

As we view the present structure of City government and scan the list of candidates one conclusion emerges: a change must be forced upon this governing structure by the people themselves if they want any alteration of governing attitudes.

The following are some of the principles that would guide my administration if elected Mayor:

- first consideration to the human element—the needs of the people held above materialistic goals.
- give ear to the worker, the senior citizen, the state and local government employee—all need to be heard—for too long has government catered to the demands of down-town business and professional vested interest groups.
- take strict inventory and honest appraisal of current financial situations with primary concern for consolidation of position before acquiring additional burdens via annexation.
- urban renewal programs to be decided by that fundamental principle of “the will of the majority of those affected.”
- a firm NO on any program of compulsory inspections.
- another firm NO on any city income tax.
- and yet another NO to the forced placement of government housing.

If elected Mayor of Salem I would, to the best of my ability, attempt to create within City Hall the atmosphere of “Servants of the people”—replacing one of mini-dictators riding rough shod over citizens in the imposition of current whims and fancies.

CYRIL R. (Cy) JARVIS

For Alderman, Ward No. 1, City of Salem

Born: March 13, 1918

Occupation: Public Affairs Representative Portland General Electric Co. Graduate Salem Public High School, completed 3 year Electrical Apprenticeship, Correspondence Course in Radio & Electronics, home study course in Labor Law. Experienced at all phases of electrical trade, including equipment operator and work as journeyman electrician. Served as IBEW Business Agent and 12 years in the field of Public Affairs. Served 4 years in Military Service and worked as a City Fireman. Prior governmental experience—3 years on City Budget Committee.

fore their homes would be included in a housing rehabilitation project. "We work a major part of our lives to buy a home and I feel people should have the right to vote on the final disposition of their property."

I will support those who wish to be in the housing rehabilitation program, but will also work to see that the city's promises to residents of the North Salem Project be kept. I will exert every effort to insure that no retired fixed income residents are evicted from their homes because they are unable to bring their homes up to code. I will pledge honest representation for all property owners in Ward No. 1.

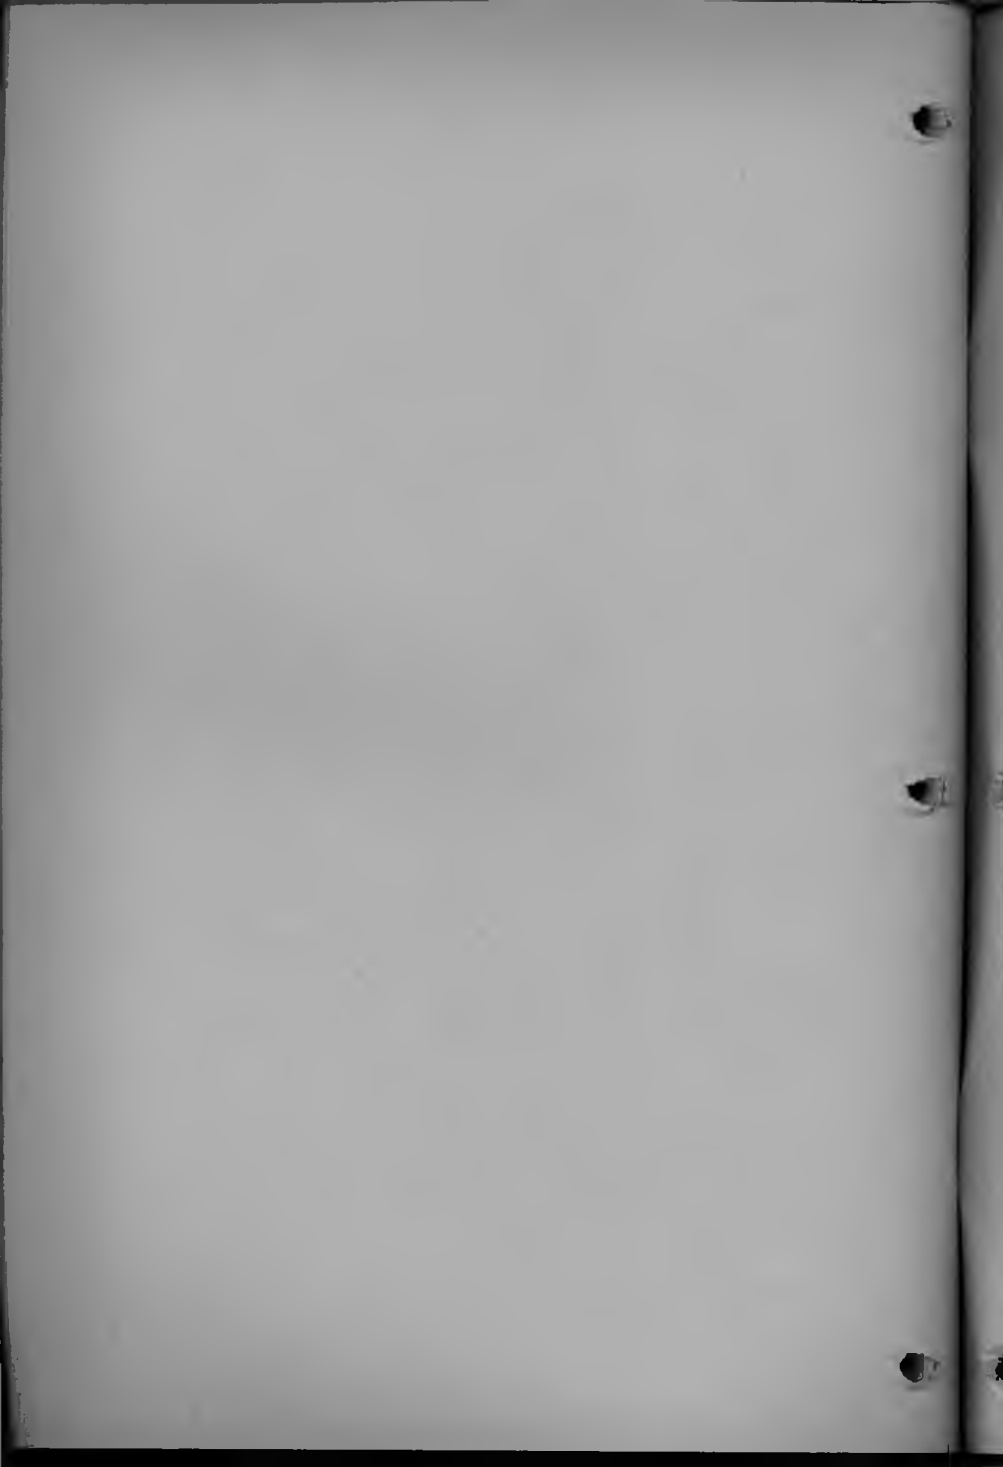

I was born and raised in the City of Salem, a lifetime resident of the North Salem District and a long time property owner and taxpayer.

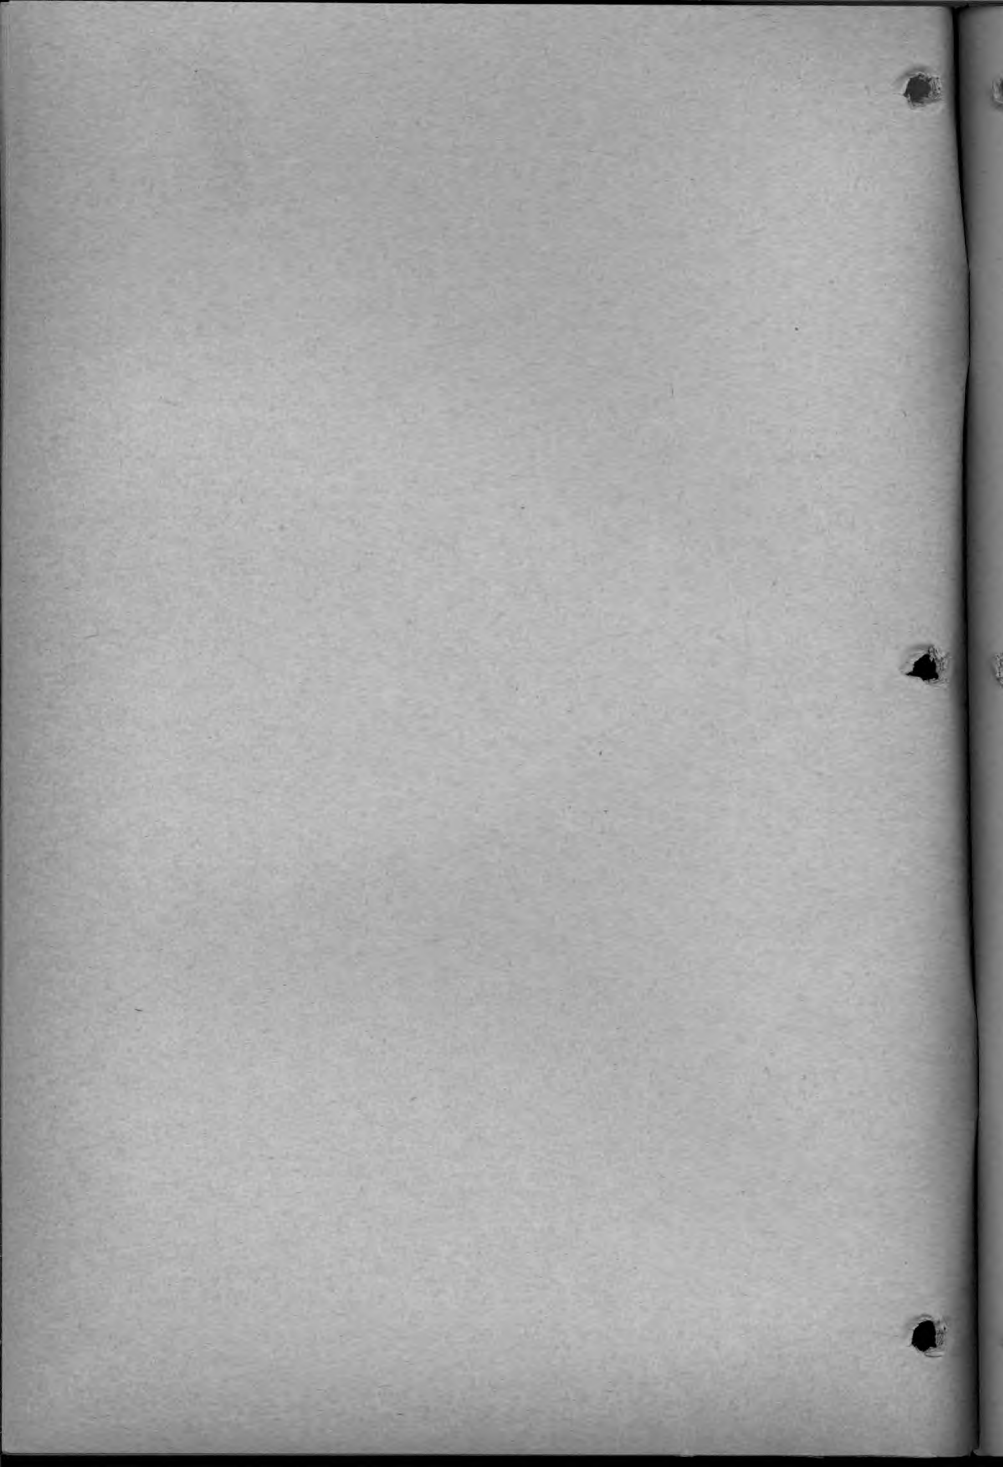

Married, wife Ida and son Joe (a senior at McNary High School) live at 1205 Columbia St. we have two married daughters. Nancy in Eugene, a Public Health Nurse, and Kris, mathematics teacher living in Hamilton Air Force Base, Calif.

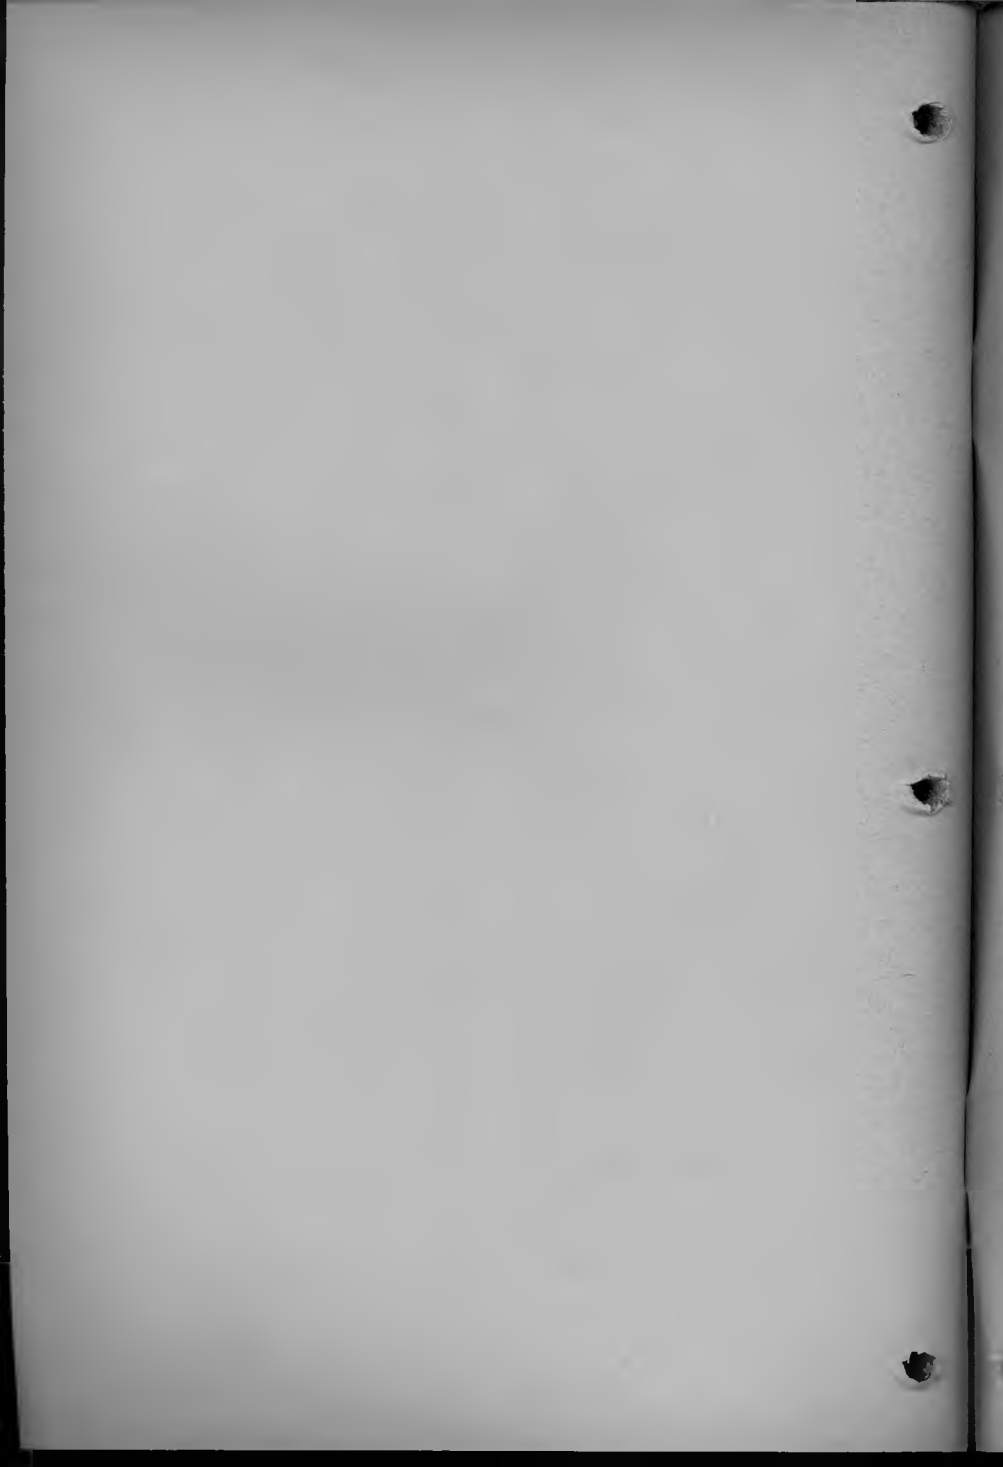

I support orderly city progress, but am determined to oppose unreasonable and exorbitant city taxes.

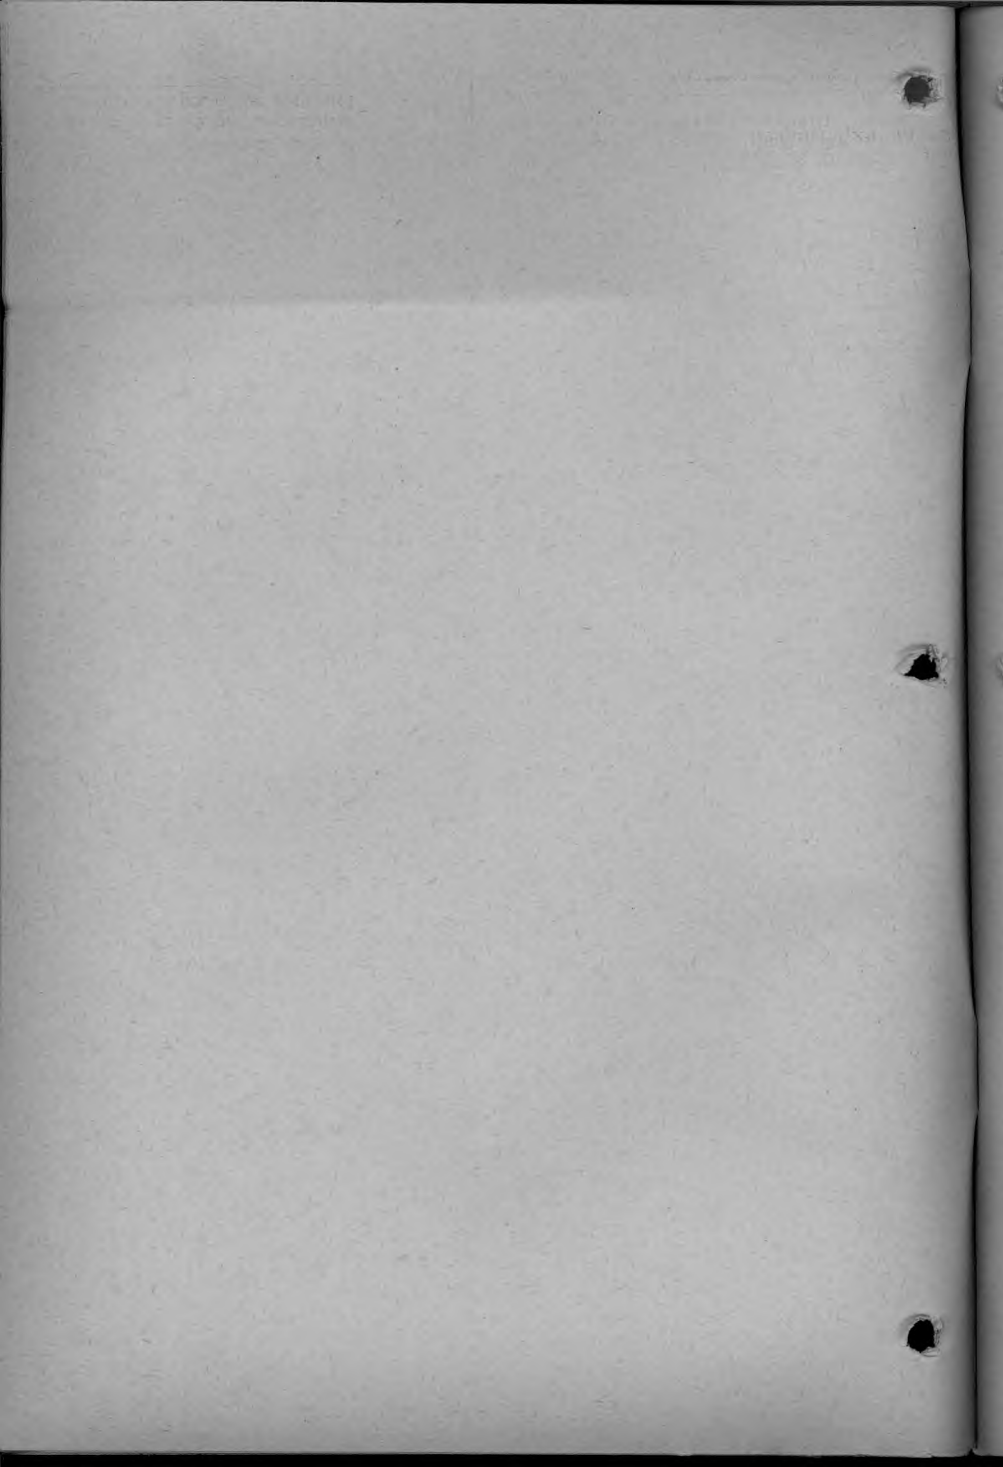

I stand for dedicated equal representation for all people in the City of Salem.
