TO WHOM IT MAY CONCERN:

It is with pleasure that we testify to our own good opinion of the integrity, responsibility and business ability of Sears, Roebuck & Company. They show a fully paid up capital and surplus of over Two Million Dollars (\$2,000,000.00), and are one of the largest mercantile institutions in Chicago.

Anyone can, in our judgment, feel perfectly secure in sending money to them with their orders, as we understand that they ship their goods agreeing that anything not proving entirely satisfactory when received can be returned to them, and the money paid will be immediately returned to the purchaser.

The officers and stock holders of the company are well and favorably known to us, command our full confidence, and we believe can be relied upon to do exactly as they agree.

Yours very truly,

James B. Forgan

SPECIAL CATALOGUE

OF

TOMBSTONES, MONUMENTS,
TABLETS AND MARKERS.

IN OFFERING YOU THIS COMPLETE LINE OF NEW AND MODERN DESIGNS IN MONUMENTS AND TOMBSTONES, shown in this catalogue, we call your attention to the important fact that we have absolutely avoided any of the inferior grades of marble, which are so largely in the stock of most of the retail marble cutters. Controlling by far the largest portion of the product of the **CELEBRATED ACME BLUE MARBLE QUARRIES OF VERMONT** we have it entirely in our hands to prevent the using of cheaper grades of material. We positively require that every piece of marble that enters into the construction of the beautiful monuments quoted herein shall be carefully inspected before it is cut and polished, and even if after much expense of time and labor is put on the stock any flaws detrimental to appearance and lasting qualities are found, such part is entirely rejected. By using the utmost precaution, therefore, we can assure our customers of a class of cemetery work such as they will seldom if ever find in the stocks of retail marble companies.

ONLY THE MOST EXPERT ARTISANS ARE EMPLOYED, men whose life has been devoted to this class of work, fitting them for turning out a product superior to that found in any other works. The facilities in this mill are unusual. The very latest type of polishing machines and largest gangs, etc., are used.

IN THE POLISHING AND FINISHING of the celebrated White Acme Rutland Italian or the Acme Blue dark marble we challenge competition and guarantee that our products are the equal of anything on the market, having an appearance the same as the most expensive and highly celebrated Italian marble, and for lasting qualities is even superior to it. In the back pages of this book we attempt to show in color printing the natural appearance of these wonderful marbles, but good as the engraving is, we cannot do it justice. It must be seen to be appreciated.

THE FINISHED PRODUCTS THAT COME FROM OUR WORKS receive the very highest commendation from our customers, and those who have purchased them express surprise at the wonderful value which they are receiving for their money.

ABOUT OUR PRICES.

THE LINE OF TOMBSTONES, monuments, tablets and markers is a line of goods with which the ordinary buying public is not familiar. It is a purchase that one makes perhaps once in a life time. The purchaser makes inquiries at the local marble cutter with practically little or no idea as to what such an article is going to cost him. He has no idea of the intrinsic value of the goods, what it costs to quarry marble and the amount of time and labor that must be spent in polishing and finishing the product. The dealer shows him one style of monument after another, quoting various prices, and this is the purchaser's first introduction or intimation as to what such goods cost in the open market. It is for this reason, perhaps, and also for the further reason that it is a peculiar line of goods, a line of goods on which the intending buyer is not so likely to question the matter of price, that it is customary to ask and receive prices on these goods that are far in excess of their intrinsic value including the cost of labor; prices that have really no relation to the value of the goods, but simply depend upon how much the buyer is willing to invest. And usually the intending purchaser is inclined to be liberal in the matter of price and is not inclined to attempt to secure a tombstone, monument or marker at a lower figure than what the dealer asks. These are some of the reasons why tomb-

stones and monuments are sold at such universally high prices and why there is such a difference between our prices as shown in this catalogue and the prices that you would be asked for the same grade of marble and workmanship from any other dealer in the country.

WE ARE SELLING TOMBSTONES, monuments, tablets and markers on the same basis that we are selling our most staple article of merchandise, namely, we make our selling price to cover simply the cost to us of the material and labor under the most advantageous conditions, and our own small percentage of profit added. We handle the goods in this catalogue under the same policy that governs our dealings in dry goods, clothing, stoves, sewing machines or any other well known commodity. Our success in selling merchandise is due to the fact that we have always made our selling price as low as possible, and have never asked more than a small percentage of profit above the actual cost to us, which is, in practically all cases, the actual manufacturing cost, as we control the manufacturing proposition in nearly all of our large departments.

OUR PRICES for the highest grade of marble work are about one-half the prices usually asked; in other words, if you are in the market for anything in this line we can positively save you one-half on your purchase. This, we wish to assure you, is not a casual statement, but an investigation will prove the absolute truth of our claims. If you will select any one of the tombstones or monuments illustrated and described in this catalogue and then price the same size, style, quality of workmanship at your local dealer or from any marble works in the country, you will find that the prices others will ask you are just double the figures quoted in this book.

Dealers may say to you, in defense of their high prices, that their goods are higher grade, better marble, finer finished and better polished than ours. We wish to assure you that each and every number quoted in this catalogue is the best that can be had for the price, for there is no better, finer or handsomer marble made than the marble we use, namely, our Acme Blue Dark Vein Marble and our White Acme Rutland Italian. We can positively say no marble yards in the country can show you handsomer polished or more beautifully finished monuments, and to prove all this, to refute the possible claim about inferior quality or workmanship as regards our goods, we make this open proposition and heretofore unheard of offer in this line.

OUR OPEN PROPOSITION AND CONVINCING OFFER, NAMELY OUR LIBERAL C. O. D., SUBJECT TO EXAMINATION TERMS.

WHILE NEARLY ALL OUR CUSTOMERS SEND CASH IN FULL WITH THEIR ORDERS, and we advise everyone to do this in order to save the extra express charge of from 25 to 50 cents which the express companies always make for collecting the amount of the C. O. D. and returning the money to us, nevertheless to convince everyone that we are offering the highest grade of tombstone and marble work at one-half the prices usually asked, to show those who may doubt the statement that our tombstones and monuments are the very finest grade marble and polished and finished with the highest degree of skill, and would therefore prefer to see and examine a tombstone or monument before they pay for it, we will ship any tombstone or monument in this catalogue C. O. D., subject to examination, as follows:

ON RECEIPT OF \$5.00 we will ship any tombstone or monument to any address east of the Missouri River and north of Tennessee. The tombstone or monument will go to you by freight C. O. D., subject to examination. You can examine it at your freight depot and if found perfectly satisfactory, and you are convinced that you are getting the very best grade of marble, polished and finished in the very finest manner, if you are sure that you are getting a tombstone or monument the equal of what would cost you double the price if bought elsewhere, if you are thoroughly satisfied in every way, then pay the railroad agent our price and freight charges less the \$5.00 deposit sent with the order. If on examination of the tomb-

stone or monument at your depot it does not prove all of our claims, you need not feel that you are under the slightest obligation to accept the tombstone or monument, but it will be returned to us at our expense of freight charges both ways, and we will refund your \$5.00 deposit without question or argument.

We could not possibly afford to make such a broad, open C. O. D. proposition unless we were absolutely sure of our ground and sure of the merits of our goods; and while every order is made up specially, with special lettering cut and is therefore practically useless to us should the tombstone or monument not be accepted by the purchaser, nevertheless we make this liberal C. O. D. proposition simply to convince everyone that our goods are the very highest grade, the workmanship is the very best, and above all, that our prices mean a saving of about one-half. We make this C. O. D. offer so as to enable you to prove the truth of our claims without any risk, so that when the local dealers tell you that you will not get a satisfactory tombstone or monument from us, that it will not be as highly polished or as handsomely finished as you expect, you need not accept what he says and thus lose the chance of saving a great deal of money on your purchase, but you can take advantage of our open C. O. D. proposition and thus be enabled to buy a tombstone or monument at a big saving in price, and without any hesitancy or timidity about ordering.

WE RECOMMEND that you send the full amount of cash with your order. We always urge our customers to send the full amount of money with the order for several reasons, principally because it is less trouble for you to receive a paid shipment than to receive a C. O. D. shipment, and it is less trouble for us to handle the order. If you send the full amount of money with your order, you save 25 to 50 cents, the charge that the express companies always make for returning the money to us, but just the same we are fully as willing to ship C. O. D., as for you to send the money with your order, if there is any question in your mind about our reliability or the quality of our goods. We only recommend that you send the full amount of money with your order, in your own interest.

OUR RELIABILITY IS ESTABLISHED.

WE ARE KNOWN THROUGHOUT THE COUNTRY as the largest supply house doing business by mail. We have thousands of customers in every part of the country to whom we can refer. We refer, by special permission, to the First National Bank or Corn Exchange National Bank of Chicago, to the National City Bank of New York, to the Second National Bank of Boston or to any business house, resident, express company or railroad company in Chicago, and we especially refer with pride to our hundreds of thousands of satisfied customers all over the country. If you have any doubt about our responsibility and reliability, make inquiries among your own friends and neighbors. Surely there are some of our customers right in your own neighborhood who have dealt with us, and can testify to our honesty and fair dealing, and we are willing to leave our case in their hands.

TIME REQUIRED for cutting, finishing and lettering any tombstone or monument. Every tombstone or monument is made to order and requires about four to six weeks to complete and get ready to ship. Add to this the time required for a freight shipment to reach you.

WE HAVE ONE OF THE LARGEST AND BEST QUARRIES and marble works in the country. We sell to our customers on a basis of the actual cost of material and labor in large quantities, with but our one small profit added. Buying, as we do, tons of marble while the local marble cutter buys pounds, and by reason of the enormous purchases; we secure exceptionally low prices.

HAVING OUR MONUMENTS FINISHED IN LARGE NUMBERS on the most economical plans, adding our small margin of profit, subject to no bad debts, losses in collections, etc., it is no wonder that where the dealer will ask you \$75.00 for a monument, our price will be less than \$35.00. Where a dealer will ask you \$30.00 to \$40.00 for a tombstone or marker, our price is about \$20.00, and the wonderful difference between these prices, even after you have paid the freight, has verified the fact that we buy from 20 to 30 per cent cheaper than the dealer, and we have all the work turned out at 20 per cent less cost than the dealer and are willing to accept a narrow margin of profit on a large number of sales, while the dealer must make up a very large profit on a few sales.

LETTERING.

WE WILL PUT ON ANY TOMBSTONE plain sunk inscription letters for any name, and we will also put on the date of birth and date of death in ordinary sunk letters at 6 cents per letter. This applies to all markers, tombstones and monuments. For any additional lettering our extra charges are as follows: For each additional sunk inscription letter, same style as name, 6 cents per letter. For all verses or verse letters, the charge will be 2½ cents per letter. (See pages 60 and 61 for some popular verse inscriptions.) If the family name or any inscription is desired on the upper base, or any letters raised in panel, the charge will be 15 cents per 2-inch letter raised ¼-inch, and other sizes of letters in proportion.

ACME BLUE DARK VEIN MARBLE is a first class quality of marble, a handsome blue color and dark blue veins running through. Our White Acme Rutland Italian marble is one of our highest grades, almost identical in appearance to the celebrated Italian marble and even less impervious to atmospheric effects than the Italian marble.

ABOUT THE FREIGHT.

WHILE THE PRICES QUOTED in this catalogue are for cemetery work carefully boxed and delivered on the cars at our quarry and marble works in Vermont, and the freight must be paid by you, yet you will find the freight charges will amount to next to nothing as compared to what you will save in price. If you live in the west, our Vermont quarry and works may seem a long distance away, but do not let this deter you from ordering, as the freight is cheap on finished marble. The weights are carefully given opposite each price, and to points east of the Mississippi River the freight averages only 25 to 75 cents per 100 pounds. West of the Mississippi River and east of the Rocky Mountains averages only 75 cents to \$1.50 per 100 pounds. From this you will see the freight on our No. 22P700 at \$4.88, weighing 125 pounds, will only amount to 65 cents to \$1.00 east of the Mississippi River, and \$1.00 to \$2.00 between the Mississippi River and the Rocky Mountains. If you live in the New England States, the freight will be very low on account of the location of our quarry and works in Vermont.

OUR PRICES ARE FOR THE GOODS DELIVERED ON BOARD CARS at our marble works in Vermont, from which point the customer pays the freight.

THE FINISH OF A TOMBSTONE OR MONUMENT is the all important point. The appearance and quality of the tombstone or monument depends upon the amount of work and the degree of skill with which it is polished and finished. We claim that our monument work excels in point of finish and polish that of any other marble concern in the country. We wish to say that we do not use oxalic acid in finishing. The work done by us is entirely mechanical and done by hand. We have the very best artisans it is possible to employ on this work, and you will find that the tombstone or monument you will get from us will have a superiority in finish and will show a beauty in the polish that you cannot secure from any other source unless you pay two or three times the special prices we ask.

Please consider carefully the values shown in this catalogue. We are extremely anxious that you should favor us with your order, for we know that we can furnish you such a tombstone or monument at a figure that you cannot possibly duplicate. We know that we can positively save you at least one-half on your purchase and furnish you even a finer and better finished monument than you expect; in fact, we are positive of pleasing you in every respect.

A VERY POPULAR AND DESIRABLE TOMBSTONE is the one shown in the accompanying illustration. It is often found desirable to erect one handsome monument at the adjoining graves of father and mother, husband and wife, sister and brother, two brothers or two sisters. The beautiful tombstone shown in this illustration is made with this idea specifically in view, and to fulfill the wishes of many who have expressed their desires along this line. Like all our tombstones and monuments, it is made either of the choicest Acme Blue Dark Vein Vermont Marble or our world famous White Acme Rutland Italian Marble.

The Bottom Base is of a high grade of marble, plainly sawed and finished by sand rubbing only.

The Upper Base is rock face finish all around with a portion of the face cut away and polished to admit the carving of the family name, if so desired.

The Slab or Tablet is rock finish, except the face, which is of a beautiful polished surface, showing the very handsome grain and vein effect of the marble. On this face the names, births and deaths are carved.

The Top has the words Father and Mother or any other two words desired, carved in raised letters.

We save you at least 50 per cent, even after you pay the low rate of freight, as fully explained on page 4 about the freight. If you do not find it fully as represented and a wonderful value at the price, we will cheerfully refund the money remitted to us on return of the monument.

WONDERFUL VALUE FOR \$27.60

DELIVERED ON CARS AT OUR QUARRY
AND MARBLE WORKS IN VERMONT.

The very attractive tombstone which we show in the illustration on the opposite page, is one that appeals to the tastes and preferences of a great many of our customers.

AT \$27.60 IT IS A RARE VALUE.

The extra amount of tracing, carving and polishing required on this tombstone adds very materially to the expense, but the expense is well warranted in the handsome appearance which the tombstone presents.

The very highest class and best of workmen are necessarily employed on a tombstone of this quality. The delicacy of tracing, carving, etc., requires the work of none but skilled artisans, and when you consider the high prices which the marble cutters in small towns charge for this class of work, you will appreciate the vast saving which we effect for you.

Our charges for lettering are only 6 cents per letter for ordinary sunk inscription letters in the name and date lines, 2½ cents per letter for ordinary sunk verse letters and 15 cents per letter for 2-inch letters, raised ½-inch in panel. Other sizes of letters raised in panel, prices in proportion. See pages 60 and 61 for some popular verse inscriptions.

Seldom can such tombstones be sold by local dealers at less than \$50.00 and in fact as high as \$100.00 will be asked for the larger size, which we quote in this same stone.

See page 4 about the freight rates. We save you \$50.00 to \$100.00 on this tombstone even after you pay the low rate of freight as fully explained on that page.

This tombstone is complete with bottom base, regular base, and die.

OUR \$14.66 MONUMENT.

Delivered on the Cars at Our Quarry
and Marble Works in Vermont

AT \$14.66 AND UPWARD, it scarcely seems possible to more than pay for the actual material which enters into this elegant tombstone. As shown in the illustration on the opposite page, it is cut in a very attractive shape, the shaft being cut in the shape of a heart and the entire work being done in a most artistic manner, it presents a chased and elegant appearance which is only the result of the very best workmanship. Aside from being made of Superior Acme Blue Marble, in the various grades quoted below, it is carved by expert workmen, traced and decorated very handsomely, and presents an appearance equal to that of many monuments which are sold by dealers at double the price. If you are not entirely satisfied, you are at full liberty to return it at our expense and we will immediately refund your money.

THIS HANDSOME MONUMENT consists of bottom base, regular base and shaft, and is sent to you complete, just as shown in illustration. Our artist has endeavored to give you a very good idea of the appearance of this monument, and we feel sure that if you should order any size or any color, you would not only be delighted with it, but would be surprised at the amount of money you have saved by purchasing through us. See back pages of this book for sample illustrations of these beautiful marbles.

This enables anyone whether rich or poor, to purchase a tombstone to his liking, and at prices ranging from \$14.66 to \$50.23, the gratification of preferences is extended to those who have limited means as well as those who have a well filled purse.

A LAMB, THE SYMBOL OF INNOCENCE, is so often desired to mark the graves of the young, that our artist has devoted his best efforts to designing one that will be reasonable in price whether of the Acme Blue Dark Vein Vermont Marble or the celebrated White Acme Rutland Italian Marble.

AT \$18.40 WE OFFER THIS SIMPLE, PURE AND ELEGANT DESIGN IN DARK VEIN MARBLE AS SHOWN IN ILLUSTRATION.

Delivered on the Cars at our Quarry and Marble Works in Vermont.

The upper base and part of the ground supporting the lamb is polished dark as shown, while the figure of the lamb stands out sharply in bright gray. If desired in White Acme Rutland Italian Marble it will all be polished white excepting the figure of the lamb which will be handsomely carved in soft finish, and the bottom base will be of the same marble not polished, but finished and sand rubbed. The demand for designs symbolizing innocence is so great and the expense of obtaining statuary work of this kind is so exorbitant that many are unable to own one. We have attempted here to supply this demand at a reasonable price and at half the cost your local marble dealer would charge you.

At \$18.40 delivered on the cars at our quarry and marble works in Vermont you save the wholesalers' profit, the retailers' profit and the agents' commission, paying us only the actual cost of taking the marble from the hills, shaping it, polishing, finishing, boxing and putting it on the cars at the works with only our one small percentage of profit added. Vermont may seem a long distance from your home station but after you have paid the low rate of freight explained on page 4 about the freight you will find you have saved from \$20.00 to \$40.00 on this beautiful piece of cemetery work. The hardness of the finish of this marble makes it more durable under weather exposure than the imported Italian and it is in every way the most desirable tombstone you can purchase.

The lettering will cost you 6 cents per letter for ordinary sunk inscription letters, 2½ cents per letter for ordinary sunk verse letters. See pages 60 and 61 for some popular verse inscriptions. The upper base being polished, you have room for any inscription of name, date of birth and date of death that you may desire to place on this design.

THIS DESIGN AT \$19.00

For Acme Blue Dark Vein Vermont Marble, and
\$21.00 for White Acme Rutland Italian Marble.

This design is elaborate and expensive to carve, polish and finish, but by these prices you will see that we have reduced the cost to the very smallest possible figure, trying only to cover the cost of the marble in the quarry, adding the labor of taking it out, paying only for the shaping, polishing, and the work of the sculptor in cutting out the design, including the statuary work on the lamb, finishing it in the most artistic manner possible, boxing and putting it on the cars at our works in Vermont.

We will letter it just as you desire, at the cost of only 6 cents per letter for ordinary sunk inscription letters, 2½ cents per letter for ordinary sunk verse letters, and guarantee to give you one of the handsomest tombstones of this size and kind you could possibly purchase anywhere. See pages 60 and 61 for some popular verse inscriptions. We like to repeat that the distance from Vermont to your own station does not make a serious cost in the freight, as fully explained on page 4 about freight.

The rate of freight is low on marble, and when it reaches your own station we guarantee it to be in good order, to be perfect in every respect, and to save you at least 50 per cent on what it would cost you at your nearest marble dealer. All bases are raised on the ground, are of the same marble not polished, but finished and sand rubbed.

The rate of freight, as explained on page 4, is so very low that even after shipping this handsome, modern tombstone from Vermont to your station it costs you about one-half of what it would to buy it from your local dealer or any traveling commission agent, both of whom sell only by the old high priced high profit methods. This low roll design is traced with a vine or trellis and finished exactly as shown in the illustration, highly polished all around the roll and at both ends, exactly as shown.

ACCORDING TO SIZE. ANYONE CAN AFFORD TO PLACE A SUITABLE MEMORIAL ON THEIR CEMETERY LOT IN MEMORY OF THEIR LOVED ONES, AND NOT FEEL THAT THEY HAVE PAID THE HIGH PRICES CUSTOMARILY CHARGED BY THE LOCAL DEALERS OR ROVING AGENTS' ENORMOUS COMMISSIONS.

Delivered on the Cars at our Quarry and Marble Works in Vermont.

At \$8.59 you save the wholesalers' profit, the retailers' profit and the agents' commission, paying us actual cost of the quarried stock and labor to shape and polish the marble, with but our one small percentage of profit added.

THE LETTERING will only cost you 6 cents per letter for ordinary sunk inscription letters, 2½ cents per letter for ordinary sunk verse letters, and if you desire the family name put on the upper base, with letters raised in panel, it will only cost you 15 cents per letter for 2-inch letters raised ½-inch in panel. See pages 60 and 61 for some popular verse inscriptions. While these prices are wonderfully low yet we guarantee the work to be the finest and the lettering to be done exactly as you order it or your money will be refunded. Vermont may seem a long distance away from your home station yet the low rate of freight on boxed marble added to our prices at quarry will still save you at least 50 per cent of what you would have to pay at home for the same size, style and quality of monument.

The famous Acme Blue Vein Marble is the same quality, strength and hardness as the White Acme Rutland Italian. The difference in price is caused by the supply, Rutland Italian being less plentiful. All bottom bases are made of the same marble, not polished, but simply dressed and sand rubbed and should not be lettered. All upper bases are polished in the same high finish as the shaft and is the proper place to put the family name in letters, raised ½-inch in panel. All our cutting, polishing, finising and lettering is done by hand. We do not use oxalic acid, and our workmen are the most skilled artisans money can hire. We assure you the finest quality of work and the lowest prices in the country. See the back pages of this book for color illustrations of these beautiful marbles.

OUR GREAT SPECIAL BARGAINS.

Massive Marble Monuments

for \$13.50 to \$52.98.

AT AS LOW AS \$13.50 WE CAN OFFER YOU A BEAUTIFUL MONUMENT LIKE THAT SHOWN IN THE ILLUSTRATION ON OPPOSITE PAGE.

Delivered on board the Cars at our Quarry and Marble Works in Vermont,

Saving you from \$25.00 on the smaller size to \$50.00 on the larger sizes, even after you pay the low rate of freight, fully explained on page 4, entitled, "About the Freight."

\$13.50 seems like a ridiculous price and hardly the cost of the material itself. In fact, it is only by taking a large portion of the products of this particular Vermont quarry that we are able to offer such wonderful value in these handsome tombstones. The celebrated Acme Blue Dark Vein Marble of this Vermont quarry is known the country over for its mottled effect, and also for its unusual durability. See the back pages of this book for color illustrations of these beautiful marbles.

AT \$13.50 WE ARE OFFERING A TOMBSTONE that will compare favorably with anything offered at \$50.00 or more. We guarantee the best of satisfaction, and will cheerfully refund money if you do not find it as we represent it to be.

Remember that only the best marble cutters are employed on this class of work, and that the handsome polish, beautiful engraving and decoration which this monument receives is only equaled by the very highest priced and most expensive work of the kind on the market. Nothing more effective is found anywhere, than this graceful tombstone shown in the illustration. We consider that it will compare favorably with anything made, and recommend it as something rare, not only in appearance and quality, but also in price.

LETTERING EXTRA. Ordinary sunk inscription letters, 6 cents per letter; sunk verse letters, 2½ cents per letter; 2-inch letters, raised ¼-inch in panel, 15 cents per letter, and other sizes in proportion. See pages 60 and 61 for some popular verse inscriptions.

We make this beautiful tombstone in a variety of sizes and either in Acme Blue Dark Vein or White Acme Rutland Italian Marble.

WHITE ACME RUTLAND ITALIAN
MARBLE.

At \$13.80 to \$56.30, according to size, anyone can afford to own a suitable memorial and make their cemetery lot look superior to anything in its neighborhood. At \$13.80 to \$48.57 for the Acme Blue Dark Vein Vermont Marble and at \$15.53 to \$56.30 for the White Acme Rutland Italian Marble, delivered on the cars at our quarry and marble works in Vermont, saving you the wholesaler's profit, the retailer's profit and the commission of the traveling agent, costing you only the value of the quarried stock and labor, to shape, finish and polish the marble, with but our one small percentage of profit added.

THE INSCRIPTION will only cost you 6 cents per letter for ordinary sunk inscription letters, 2½ cents per letter for ordinary sunk verse letters, and if you desire the family name on the upper base in 2-inch letters, raised ½ inch in panel, it will only cost you 15 cents per letter, and other sizes in proportion. See pages 60 and 61 for some popular verse inscriptions.

While these prices are delivered on the cars, at the quarry and marble works in Vermont, yet you take no risk whatever, as we guarantee safe arrival at your station; we guarantee the work to be the finest that can be produced and to please you in every particular, and save you nearly 50 per cent, even after you pay the low rate of freight fully explained on page 4 about the freight.

If the railroad company injures the work in any way, we guarantee to make it good, and will collect the damage from the railroad company ourselves. We have never had an accident to a shipment of marble in the years we have been handling it, so you can rest assured you will receive a perfect tombstone without injury, exactly as described, lettered exactly as ordered and satisfaction guaranteed or your money refunded. Vermont may seem a long distance away from your home station, but the low rate of freight on boxed marble, added to our prices at the quarry, will still save you nearly one-half of what you would have to pay at home for the same style and quality of monument. Compare the measurements and prices we offer with those sold by your local dealer and you will find your saving to be as large or larger than we promise.

We offer the Acme Blue Dark Vein marble as the most popular of all the marble used for cemetery work, and to those who prefer a white marble we offer the world's celebrated White Acme Rutland Italian. The hardness and durability, high finish and polish is just the same on either marble, and the slight difference in price is caused entirely by the plentiful supply of Acme Blue Dark Vein marble and the more limited supply of White Acme Rutland Italian. See the back pages of this book for color illustrations of these beautiful marbles. All bottom bases are made of the same marble, not polished but simply traced and sand rubbed, as it is placed on the ground. All upper bases are polished in the same high finish as the shaft, and is the proper place to put the family name in letters raised ½ inch in panel, and any sized letters can be furnished as desired. All our cutting, polishing, finishing and lettering is done by hand. We do not use oxalic acid and our workmen are the most skilled artisans money can hire. Send us your order and we assure you the finest quality of work and the lowest prices in this country.

In Offering this Elegant Monument with a
Cross on the Top, We Endeavor to Furnish

The Best Design of its Kind for the Least Money

Of any Marble Work in the Country.

Delivered on the Cars at our Quarry and Marble Works in Vermont.

AT \$21.28 IN ACME BLUE DARK VEIN VERMONT MARBLE you obtain more for the investment in durability, elegance of dark vein and mottled effect than can be offered you in any other marble produced. The price eliminates all the quarryman's profit, the marble mill's profit, the wholesaler's profit, the retailer's profit and the commission salesman's profit, giving you this splendid monument at the cost of the labor with but our one small percentage of profit added. The stately effect of this monument in your cemetery, even the smallest size, will attract the attention of all observers and surpass anything surrounding it in the cemetery. The dark high polish this monument receives is its natural color when hand rubbed to a mirror finish and the tracing and cutting stands out sharp and bright as shown in the etching and tooling as shown in the illustration.

The small expense of freight, as explained on page 4 about the freight, will place this monument at your home station at about half the price you could obtain it elsewhere. The upper base is polished the same as the shaft and cross.

THE LETTERING will cost you 6 cents per letter for ordinary sunk inscription letters, $2\frac{1}{2}$ cents per letter for ordinary sunk verse letters, and if you desire the family name on the upper base in 2-inch letters raised $\frac{1}{8}$ -inch in panel, it will only cost you 15 cents per letter and other sizes in proportion. See pages 60 and 61 for some popular verse inscriptions.

The World Famous Acme Blue Dark Vein Vermont Marble is of the same quality, strength, hardness and durability against all kinds of weather as the White Acme Rutland Italian Marble and the difference in price is caused only by the scarcity of the White Acme Rutland Italian and the plentiful supply of the Dark Vein. Either of them are superior in every way to the imported Italian marble for withstanding the weather of ages, and are the most durable marbles produced in that wonderful marble district of Vermont. See the back pages of this book for color illustrations of these beautiful marbles.

ANOTHER \$100.00 MONUMENT FOR \$29.33

Catalogue Nos. 22P888 to 22P891 See full description on the opposite page.

OUR BEAUTIFUL MARBLE MONUMENT, WITH URN, FOR \$29.33.

Delivered on the Cars at our Quarry and Marble Works in Vermont.

ONE OF THE MOST POPULAR DESIGNS IN TOMBSTONES is that shown in the illustration on opposite page, which consists of the monument complete with the bottom base, upper base, shaft and urn. We have endeavored in the illustration to give you some idea of the beautiful appearance of this

HANDSOME AND REMARKABLY LOW PRICED MONUMENT

It is only by seeing the monument, however, that you can fully appreciate the immense amount of skilled workmanship that has been consumed in order to produce such a handsome tombstone.

The polish, carving, tracings, in fact, the entire production of this beautiful work of art, according to the design, is such as you would naturally only expect to find in monuments which retail at from \$300.00 to \$500.00.

It is a well known fact that those who, through sad necessity, contemplate the purchase of a tombstone, are subjected to most exorbitant prices. These prices are not in accordance with the cost of material nor the cost of labor. While it is true that it requires perfect artisans to produce beautiful results, handsome engraving, etc., still the price is adjusted very largely at an exceedingly high price, not only because there is very little or no competition, but because a local marble cutter is so much subjected to bad debts, expense of collections, etc.

Having these tombstones produced to order for us by one of the largest Vermont marble works right at the quarry, being subjected to none of the unusual expenses of local marble cutters, it is not at all surprising then, that we are able to offer these goods at such a remarkable difference in price.

We ask you to consider the handsome and imposing appearance of this beautiful monument. Consider the quality of Acme Blue Marble from which it is made. Consider the high polish and the decoration. Remember also the fact that we guarantee that you will be entirely satisfied with the monument, or we will cheerfully refund your money. See pages 60 and 61 for some popular verse inscriptions. See the back pages of this book for color illustrations of these beautiful marbles.

Remembering all of these facts we feel sure that you cannot afford to place your order elsewhere, but that you will favor us with your order, and in such a case we guarantee to ship you such a monument as you will seldom see turned out from any other quarry at less than double our price, even after the inscription is done and the low rate of freight is added, as explained on the introductory pages of this book.

A REGULAR \$100.00 MONUMENT FOR \$28.18.

Delivered on the Cars at our Quarry and Marble Works in Vermont.

OUR PRICE OF \$28.18 MEANS A SAVING TO YOU OF AT LEAST \$50.00 TO \$70.00. Means that you will secure a monument which will compare favorably with anything that is being retailed at \$100.00 anywhere. It means that you will secure a monument which is made of the very choicest Vermont marble, the celebrated Acme Blue marble, a quality which is not obtainable anywhere else at anything like our price.

It is generally supposed that the imported Italian marble is the best marble for monumental purposes, but it is a well known fact that Acme Blue marble has stood identically the same test as the Italian marble and is even less impervious to atmospheric effects than the Italian marble.

Finish. The illustration on the opposite page will give you a fair idea of the beautiful finish of this handsome monument. It is impossible, in this illustration, to show you the elegant polished effect of the stone; but you can form some idea of the handsome tracing, carving, etc., which render this monument one of the most graceful and imposing to be found anywhere.

Why we can sell at such low prices. We are not subjected to losses by bad debts, etc., which cause such a vast amount of loss to the retail marble cutter. In accordance with the recognized fact, that the manufacture of any class of goods in large quantities for cash, means a wonderful economy in cost, it is natural that the production of thousands and thousands of these handsome monuments yearly by one concern can be done at a large percentage lower in cost than the marble cutter who turns out but a few yearly. We buy for cash, sell for cash, and do our business entirely on the closest possible margin of profit. Hence it is no wonder that the prices which we name will be found, on an average, 50 per cent lower than retail marble cutters' prices.

See the introductory pages of this book for description of the different marbles and all about the freight, lettering, etc. See pages 60 and 61 for some popular verse inscriptions. See the back pages of this book for color illustrations of these beautiful marbles.

VERSE INSCRIPTIONS

THE frequent requests of our customers for verse inscriptions for memorial tombstones and monuments has encouraged us to print a collection of those used very frequently on work we have made in the past. We submit this collection herewith to assist those who may not have the opportunity to select for themselves, and we have given each verse a catalogue number, with the price for engraving the letters, so that in ordering a tombstone or monument by its own catalogue number you can order a verse in this collection by naming its catalogue number also. We have not attempted to furnish a large assortment of verse inscriptions, but trust these will be of service to some of our customers. By figuring the name and date lines in ordinary sunk inscription at 6 cents per letter and adding the price of your selection of verse inscription, together with the catalogue price of the tombstone and monument you select, will enable you to know exactly what it will cost you delivered on the cars at our quarry and marble works in Vermont. As all tombstones and monuments are made to order and all inscriptions are engraved to order, our prices are all for cash in advance, or if desired sent C. O. D., a deposit of \$5.00 is required, as fully explained in the opening pages of this book, but if any of our monuments and tombstones are not exactly as described and the lettering done exactly as ordered, your money will be refunded, together with any freight you may have paid.
