Perished From Cold

Bodies of Men Who Were Frozen to Death Found by Prospectors.

They Were Probably Making for St. Michael When Caught in Blizzard.

Three Miners Believed to Have Been Murdered on Unamink Island.

(Associated Press.)
Nome, July 19 via Seattle, July 22.—A tragic story comes from St. Michael. A party of men, en route to Nome, recently found the bodies of six men at a point near Cape Romanoff. It is presumed they all froze to death during some one of the terrible blizzards that prevailed last winter. The bodies were scattered at intervals. Five of them were about a quarter of a mile apart. Each had some camp equipment near him, but no food. One of the dead men had evidently been either injured or sick, as he lay on a litter constructed of a pair of oars and canvas sheet. It would seem that the storm must have overcome those carrying him. Evidently becoming exhausted they had abandoned him and wandered off each for himself, to perish where found. General Rand thinks they were a party of prospectors who, in an effort to reach St. Michael, had run out of provisions and perished from exhaustion and exposure.

Supposed Murders.
Port Townsend, July 22.—The steaming Oregon sailed from Seattle on July 13th. For several days previous to her sailing a fearful surt was sweeping the beach at Nome. A party, consisting of ex-Governor Ogilvie, of the Yukon Territory, Dr. Herbert B. Hatch and Mrs. E. S. Walker, wife of Captain Walker while being landed from the St. Paul in a steam launch, barely escaped drowning.

News comes from Unamink island that two brothers named Sutherland and a man named Jackson were probably murdered. The three men were landed there last fall by the schooner Thomas F. Bayard. She returned for them this season and found a collapsed tent. Inside were a coat and vest, both of which were pierced with knife cuts. One of the Sutherlands was known to have \$1,000 when he landed on the island.

AT WORK ON FRASER.

Nearly All the Union Fishermen Went Out Last Night.
(Special to the Times.)
New Westminster, July 22.—As a result of the agreement between the fishermen and cannery in Vancouver, nearly all the union fishermen went out from here to fish last night. The run, however, was poor and the highest catch reported was 32.
Flood, one of the Vancouver players in a baseball game here on Saturday, had his thumb broken while trying to catch a ball, and another Vancouver player was also seriously hurt by being hit with a ball. The game was stopped after the second innings, the score being four runs all.

SAD FATALITY AT NELSON.

D. J. Beaton, Editor of the Miner, Victim of a Tragic Accident—Came From Winnipeg Three Years Ago.
(Associated Press.)
Nelson, July 21.—D. J. Beaton, one of the best known journalists in Canada, who left Winnipeg nearly three years ago to assume the editorship and management of the Nelson Miner, while returning from paying an afternoon call to-day, was thrown from a street car which rapidly rounded a sharp curve.

REBATE FOR MINERS.

Presentation of Royalty Certificates at Dominion Assay Office, Vancouver, Entitles Holders to Refund of One Per Cent.
(Special to the Times.)
Vancouver, July 22.—G. R. Maxwell, M.P., received a message this morning from Hon. Clifford Sifton that miners from the Klondike presenting certificates of payment of royalty in Dawson at the Dominion assay office in Vancouver would receive a rebate of one per cent. The announcement has caused great satisfaction among the business men. The bankers, however, are not so fast about endorsing it and will discuss the matter at the clearing house this afternoon.

PREHISTORIC CITY.

Los Angeles, July 22.—A prehistoric city of immense proportions is said to have just been unearthed on the Navajo Indian reservation, between Durango, Colorado, and Farmington, N. M., the particulars of the find having been reported to the land department of the Santa Fe system in this city. A palace has been found containing, it is said, about 1,000 separate apartments, some of them in an excellent state of preservation. Another stone castle contained 100 separate apartments. In some of the rooms suspected were found the finest wood and other relics of a valuable character, specimens of which have been gathered and sent to the Smithsonian Institute.

NO CHANGE.

Interest in Steel Trade Strike Lies in Situation at Wellsville and McKeesport.
(Associated Press.)
Pittsburg, Pa., July 22.—The situation of the strike to-day is practically the same as on Saturday. Wellsville and McKeesport being points around which the interest centers and any developments will no doubt emanate from these places. The situation this morning throughout Pittsburg and Allegheny in the strike district was about the same as on Saturday. Contrary to the expectation of many no efforts were made on the part of any of the plants to run.
Resume at Old Wages.
Scranton, Pa., July 22.—The striking boiler-makers, machinists and foundry-men at the shops of the Delaware, Lackawanna & Western railroad returned to work at the old rate of wages to-day, notice having been posted by the company following a decision of the men to return if the 573 men who went on strike eight weeks ago would be taken back. Two men were discharged for cause.
Refuse to Work.
Shamokin, Pa., July 22.—All the striking firemen refused to go to work this morning. President Shultz said none of the men will go back until ordered to do so from headquarters at Wellsville.

Better Than The Best

Trade Figures for Fiscal Year Ending June Make Pleasant Reading
Increase of \$13,000,000 Compared With the Previous Twelve Months
More Goods Are Being Manufactured and Exported—Rate of Taxation Decreased.
(Special to the Times.)
Ottawa, July 22.—The customs department to-day prepared a statement of trade figures for the fiscal year ending June 30th last. They show that the aggregate trade of the Dominion for the year is \$24,000,000, an increase of \$13,000,000 over the same time last year, and last year was the greatest in the history of the country.

Large Mills Running

Sheet Steel Manufacturers Expect Additional Men at Work To-Day.

Two Big Meetings, One Favoring Non Unionism, the Other Condemning It.

Pittsburg, July 20.—The first week of the steel strike ended to-day in this district with two big meetings, one endorsing non-unionism, the other condemning it.

The first was held at Vandergriff, this afternoon where the sentiment of the workers of the Vandergriff, Leeburg, Apollo and Saltsburg plants of the American Sheet Steel company were expressed in speeches and resolutions. More than 1,800 men attended the gathering. Speeches were made by prominent mill workers endorsing non-unionism and declaring loyalty to the company.

When the speech-making had concluded, the following resolutions were adopted: "Whereas, there is at the present time existing between the Amalgamated Association of Iron and Steel and Tin Workers and the American Sheet Steel company, which has arisen by reason of said association demanding that no non-union mills be organized into the union, which demand we do not endorse.

"Therefore, be it resolved, the iron workers of Vandergriff, Apollo, Saltsburg, assembled this 20th day of July, 1901 at Vandergriff, that we hereby express our loyalty to the managers of the American Sheet Steel company.

"During the year's work with said company we have received the fairest treatment at their hands, our wages have been entirely satisfactory, and we ask that we be permitted to work non-union as we have been doing since 1894. We feel that no labor union can make our situation better than it is at present.

"We also hereby heartily endorse the action of the business men of Vandergriff, Leeburg, Saltsburg and Apollo in their recent endorsement of the policy of the American Sheet Steel Co., and assure them that our interests are mutual, and that we as workmen will not be misled nor do anything that will in any way impair the good feeling and pleasant relations that have existed between us and the management of the American Sheet Steel Co."

Before adjourning the management of the company was thanked for its liberality and the entire audience united in singing "America."

The meeting at McKeesport was diametrically opposite to the Vandergriff gathering in its object and action. It was held under the auspices of the Amalgamated Association, and was addressed by several prominent officials of the association, principal among whom was President Shaffer.

The manufacturers claim to be well satisfied with the developments of the week, as they are still in operation at the non-union mills at Vandergriff, Duncansville, Old Meadows, Saltsburg and Scouville and the tin plate at Monessen. All these mills, they say, have a large capacity and are running full. They also express gratification at the partial start made at Wellsville and the promise of a larger force on Monday.

Organize the Men. Cleveland, Ohio, July 20.—Great interest is manifested in labor circles here in the announcement that the United States Steel corporation is equipping an idle rolling mill in this city to be started next Monday to manufacture cotton ties to fill pressing orders, and that the plant will be managed with non-union labor.

Vice-President Ward of the Amalgamated association declared to-day that the mill would not be started. Mr. Ward and Lawrence Kelly, members of the Amalgamated executive board, came here yesterday upon instructions from President Shaffer for the purpose, it is said, of preventing the plant from being operated, if possible. Messrs. Ward and Kelly were busy to-day organizing the employees of the American Wire & Steel Co., and also addressing a large meeting of the American Tin Plate Co. workers.

ANARCHIST PLOT

Man Arrested for Being Concerned in Conspiracy to Kill King Victor-Emmanuel.

London, July 20.—A special dispatch from Rome says a man named Napoleone Motti has been arrested on a charge of being concerned in an anarchist plot to kill King Victor Emmanuel III. He was betrayed by a letter to his sweetheart, breaking off their engagement of marriage on the score that he had received an order to kill the King from a society of which he was a member.

HOT WEATHER IN GERMANY.

Berlin, July 20.—The weather has been unusually hot throughout almost the entire country and the drought is extensive. Violent storms have been announced from various points in the empire, and the vineyards in portions of the Harz mountains have been almost wholly destroyed. The best crop has been injured in some places by the drought, while the rains have helped in other portions. The water in the Weiser and other streams is so low that shipping is attended with difficulty.

A whale's skeleton weighs 50,000 pounds.

EXHIBITION AT CORK.

Donations to Fund for Erection of Buildings are Pouring in.

Cork, Ireland, July 20.—The following particulars relative to the great international exhibition which it is proposed to hold in Cork next year are at hand. The exhibition is being organized with the co-operation of a government department known as the department of agriculture and technical instruction, which has already given a donation of \$2,000 towards the erection of the buildings, and in addition, the department proposes to give the benefit of its organization to collect exhibits from the great industrial centres of the world, to be shown in Cork, and in other ways to ensure the success of the great undertaking. The idea has caught on with great enthusiasm.

The patronage of the lord lieutenant of Ireland, Earl Cadogan, has been obtained, and leading noblemen of the United Kingdom figure as officers of the general committee.

The donations towards the funds have been pouring in very generously since the matter was first made known. More than 1,800 men attended the gathering. Speeches were made by prominent mill workers endorsing non-unionism and declaring loyalty to the company.

When the speech-making had concluded, the following resolutions were adopted: "Whereas, there is at the present time existing between the Amalgamated Association of Iron and Steel and Tin Workers and the American Sheet Steel company, which has arisen by reason of said association demanding that no non-union mills be organized into the union, which demand we do not endorse.

"Therefore, be it resolved, the iron workers of Vandergriff, Apollo, Saltsburg, assembled this 20th day of July, 1901 at Vandergriff, that we hereby express our loyalty to the managers of the American Sheet Steel company.

"During the year's work with said company we have received the fairest treatment at their hands, our wages have been entirely satisfactory, and we ask that we be permitted to work non-union as we have been doing since 1894. We feel that no labor union can make our situation better than it is at present.

"We also hereby heartily endorse the action of the business men of Vandergriff, Leeburg, Saltsburg and Apollo in their recent endorsement of the policy of the American Sheet Steel Co., and assure them that our interests are mutual, and that we as workmen will not be misled nor do anything that will in any way impair the good feeling and pleasant relations that have existed between us and the management of the American Sheet Steel Co."

Before adjourning the management of the company was thanked for its liberality and the entire audience united in singing "America."

The meeting at McKeesport was diametrically opposite to the Vandergriff gathering in its object and action. It was held under the auspices of the Amalgamated Association, and was addressed by several prominent officials of the association, principal among whom was President Shaffer.

The manufacturers claim to be well satisfied with the developments of the week, as they are still in operation at the non-union mills at Vandergriff, Duncansville, Old Meadows, Saltsburg and Scouville and the tin plate at Monessen. All these mills, they say, have a large capacity and are running full. They also express gratification at the partial start made at Wellsville and the promise of a larger force on Monday.

PLAGUE AT HONOLULU.

Washington, July 20.—General Young, Adjutant-General Ward, that the commanding officer at Honolulu reports two more deaths from bubonic plague at that place, also a third case under suspicion.

Dispatches from the frontier report serious collisions between Serbians and Albanians. Kolashin, recent dispatches claim to have authentic information in this matter from the recent tariff conference, the two most striking features of these schedules are the high duties and the minimum and maximum charges on cereals. The minimum figures are the lowest admissible in commercial treaties, while the maximum charges are 35 marks per ton on wheat and 60 marks per ton on rye and oats. The minimum charge on wheat is 55 marks per ton, and on rye and oats 50 marks. The present duties on rye and wheat are 35 marks per ton, and on oats 28 marks. Animals and meat are without minimum. The duty on cattle has been raised from 9 marks and on swine from 50 marks per ton to 100 marks per ton. Meat, lard and calves are scheduled for a considerable increase.

The Berliner Tagblatt is the recipient of information to the effect that the promised schedule as printed by the Stuttgart Beobachter are correctly given. The Tagblatt considers them to be monstrous and prints statistics showing that the new duties, on the basis of the imports for 1900 mean an increase expenditure of 96,000,000 marks to the consumer, not to mention the rise in prices on domestic products, and argues that the United States and Russia, two of Germany's best customers, would adopt reprisals were the duties put into effect.

The Hamburger correspondent says the government will publish the tariff bill in a few days.

Of ten thousand British seamen, sixty-six are lost at sea every year.

Will Not Be Released

British Government Declines to Set Any American Prisoners at Liberty.

Report That a Party of Constabulary was Ambushed Near Petrusburg.

Washington, July 20.—In response to the representations of the state department the British government has declined to release any of the Americans who were captured while serving in the Boer army. The only exceptions will be in the case of prisoners whose health is such as to make their confinement dangerous.

Some Americans are among the military prisoners in Ceylon, and the state department had special reference to their case in addressing the British government in this matter.

Killed and Missing. London, July 20.—The casualty lists tonight at the war office indicate that a party of South African constabulary were ambushed near Petrusburg, July 16th. Two members of the party were killed, one was dangerously wounded and seventeen are missing and are believed to have been taken prisoners by the Boers.

Confident as Ever. Paris, July 20.—An official communication received from the Boer headquarters protesting against the publication of the correspondence between Mr. Hertzog, Boer minister of war, and Mr. Steyn, former president of the Orange Free State, that was captured with the latter's baggage near Lindley on July 11th. The communication maintains that Mr. Steyn's optimistic reports are fully upheld by confidential reports from Botha, Delarey, Smuts and Beyers. It is said that Mr. Kruger has received within a week a most satisfactory letter from General Botha, in which details of future plans and movements are given, everything going to show that the Boers in the field are as determined and confident as ever.

STRUGLES OF ACTRESSES.

Suicide of Yeoland Sisters Reveals Sad Lot of Many Girls in London.

London, July 20.—The suicide in London of Ida and Edith Yeoland, actresses, on July 16th in consequence of their lack of engagements and disappointment at failing to secure an expected opportunity to play in New York, has forcibly brought to public notice the difficulties of making a livelihood on the London stage, and the fact that there are to-day a number of tolerably good actresses in London who are destitute or next door to it. Among these actresses are many Americans who have come over in the hope of making a hit, and who find engagements almost impossible to secure without social and financial backing.

The struggle in the gloomy rooms of Bloomsbury continues. The actresses are ashamed to go back to the United States and confess their failure, and that they were unable to secure employment in London for that moderate talent which would generally assure them engagements in the United States. A pitiful case came up this week, when an American girl, who had done very well at home and who was well connected, appealed to the United States embassy to send a cable to her uncle, asking him for funds. She had been almost starving for three weeks before she brought herself to the point of asking for help.

Even when employment is found it is a beggarly pittance that actresses get in return for their services, unless they possess exceptional talent or backing. At perhaps the most fashionable of all the theatres a girl who can take a good part will be paid only 23 a week, from which she must make her own dresses. The death of the two clever and unusually good looking Yeoland girls has brought this entire matter to the notice of London theatre-goers with no pleasant emphasis.

AGRICULTURAL DUTIES.

Berlin Paper Says the New German Tariff is Monstrous.

Berlin, July 20.—All the leading members of the ministry are now absent on their vacations. Baron von Bichthofen, secretary of the Imperial foreign office, having left this week, and a summer stillness prevails in Berlin political circles.

In the discussion of tariff questions brought out this week upon the publication of the new agricultural schedules by the Stuttgart Beobachter, it is claimed to have authentic information in this matter from the recent tariff conference, the two most striking features of these schedules are the high duties and the minimum and maximum charges on cereals. The minimum figures are the lowest admissible in commercial treaties, while the maximum charges are 35 marks per ton on wheat and 60 marks per ton on rye and oats. The minimum charge on wheat is 55 marks per ton, and on rye and oats 50 marks. The present duties on rye and wheat are 35 marks per ton, and on oats 28 marks. Animals and meat are without minimum. The duty on cattle has been raised from 9 marks and on swine from 50 marks per ton to 100 marks per ton. Meat, lard and calves are scheduled for a considerable increase.

The Berliner Tagblatt is the recipient of information to the effect that the promised schedule as printed by the Stuttgart Beobachter are correctly given. The Tagblatt considers them to be monstrous and prints statistics showing that the new duties, on the basis of the imports for 1900 mean an increase expenditure of 96,000,000 marks to the consumer, not to mention the rise in prices on domestic products, and argues that the United States and Russia, two of Germany's best customers, would adopt reprisals were the duties put into effect.

The Hamburger correspondent says the government will publish the tariff bill in a few days.

Of ten thousand British seamen, sixty-six are lost at sea every year.

HOW WAR WAS AVOIDED.

Side Light on the Release of M. Schaebele.

Paris, July 20.—The Figaro continues its interesting revelations concerning the private opinions of the late President Faure. The Figaro now turns to the "Schaebele affair," in which it is shown how Prince Munster de Derneburg avoided what threatened to be another war between France and Germany.

It will be remembered that Schaebele was arrested 15 years ago by a German detective named Gantsch, on the Franco-German frontier. The difficulties which followed this arrest produced a war scare in Europe.

According to M. Faure, France's assertion that Schaebele had been arrested on French territory was bitterly contested by Prince Bismarck. At this point a letter from Gantsch to Schaebele, summoning the latter to a conference, was found. This letter was immediately sent to M. Herbet, French ambassador to Berlin, but the latter had found Prince Bismarck so unfavorably disposed that he declined to entrust such an important document to his tender mercies.

At this juncture, Prince Munster de Derneburg, who was visiting Berlin, called upon M. Herbet, saying he ardently desired the maintenance of peace and offering to aid the French minister. When he was shown the Gantsch letter the German diplomat said: "Give it to me; I will bring it back to you." M. Herbet hesitated to turn over the letter, but finally consented and entrusted France's trump card to the German ambassador at Paris. Prince Munster went to Prince Bismarck and showed him the Gantsch letter. Bismarck angrily asked the diplomat what business it was to attend to M. Herbet's commissions. Munster firmly replied he had only come to warn Bismarck and that he was going to show the letter to the Emperor of Germany.

This he did. The Emperor read the letter carefully and said: "Then Schaebele was under a flag of truce; if we do not release that man no one will ever dare to send a flag of truce into a Prussian camp. He must be released. I will at once give the order, and you can tell Herbet that I have done so."

A few hours later Bismarck set Schaebele at liberty, and the war cloud rolled away.

DOMINION NOTES.

Not the Man—The Strike of C. P. R. Trackmen.

Montreal, July 20.—J. C. Gauvreau, chief of police at Rimouski, telegraphs that the man arrested at St. Anne des Monts, and supposed to be Blondin, the wife murderer, is not the man wanted.

Choked. Louis Consine, proprietor of the Cafe Francaise, while eating breakfast to-day was choked to death by a piece of cucumber. He leaves a widow and eight children.

The Governor-General. Chatham, N. B., July 20.—Lord Minto arrived at Miramichi yesterday, being met at the mouth of the river by a fleet of fifteen local steamers, the foremost containing Senator Snowball and the mayor and council of Chatham. A short time was spent at Newcastle, where the party received a salute of guns. The party then proceeded to Chatham.

The Railway Strike. Winnipeg, July 20.—It was stated to-day that the settlement of the trackmen's strike appears to be further away than ever. For several days past the committee of trackmen, headed by Mr. Shaw, of Rat Portage, has been in conference with the C. P. R. officials, discussing terms of settlement. These, it is alleged, were reached. Mr. Leonard, general superintendent, issued the reported order to the men by which they were to return to work on June 1st, which practically gave details of the terms the committee had accepted. Although the details of wages, hours, and other details were practically settled, it is stated by the C. P. R. officials that the strike is not yet over.

PREVENTING DISEASE

The thing medical men are trying to do nowadays more than anything else is to prevent disease—to get the system into a state of soundness, in which disease germs cannot do harm and keep it so. "An ounce of prevention," etc.

Powley's Liquefied Ozone does it: provides the system with the oxygen it needs in a form in which it can be used; cleanses the blood, aid digestion, promotes assimilation, stimulates the normal functions.

Nature is the greatest healer after all; it is only necessary to provide the right conditions, Powley's Liquefied Ozone is the greatest health-maker ever discovered. Here is one evidence of what it will do.

This is what Mr. Westwood, of the Wilkes, Westwood Co., wholesale dealer in fishing tackle, says about Ozone:

Gentlemen.—In answer to your enquiry regarding my experience with Ozone, would say that we have used it in our home of and on for the past three years. We have found it most useful for stomach troubles, and for various other ailments that come up from time to time. We have used it in a suit many ways, and have found it most beneficial and would not be without it. (Signed) C. H. Westwood, Sec. Treas. The Wilkes, Westwood Co., 92 Bay Street, Toronto.

We could give a multitude of such records. Powley's Liquefied Ozone will cost you 50c and \$1.00 a bottle. The druggists will have it. You should read our little pamphlet about it. Sent free; writing sending for.

The Ozone Co. of Toronto, Limited. The Liquid Ozone Co., Chicago, U.S.A.

the men that the company absolutely refused to recognize the union, or deal with them in any way as a body, and so the whole trouble will continue, and negotiations for the present have ceased. The committee in consultation with the C. P. R. having found it impossible to secure recognition, they held to be the main feature of the settlement, has dispersed pending instructions from the head committee on the matter.

Mr. McNeill makes the statement that he has never refused to recognize the union, but that he has always been ready, and is now, to meet the men and discuss with them any questions arising out of the strike.

Wreck Delays Train. The Imperial Limited reached here from Montreal 22 hours late, owing to freight wreck at Cross Lake, 100 miles east.

Imprisoned for Swindling. Philip Wagner, Dominion immigration agent at Edmonton, convicted of swindling Galician immigrants, has been sentenced to two months' imprisonment.

SPORTING

HASSELL. EVERETT WON AGAIN.

The second match in the Vancouver- Everett baseball series resulted in a win for the visitors by 7 to 4. About 2,000 spectators were present at the Powell street grounds, Vancouver, probably the largest gathering that ever watched a ball game in British Columbia. It is noteworthy that not a run was scored by either side till the 7th inning. The magnificent pitching of Harvey and Shock was a feature. The former pitched the game of his life and fielded like a National League.

The following is the score table: Vancouver. a. b. r. b. h. e. Holmes, f. f. 4 0 0 1 Pickering, 2nd b. 4 1 0 2 Broad, 3rd b. 4 1 2 2 Broadhurst, r. f. 4 1 0 1 Jensen, c. f. 4 1 1 0 Mackey, c. 4 0 0 0 Reid, s. s. 4 0 0 2 Miller, 1st b. 4 0 1 0 Harvey, p. 4 0 0 0 Total 36 4 4 8 Everett. a. b. r. b. h. e. THE OAR.

ARGONAUTS WON. Philadelphia, July 20.—The United States champion Vesper eight-oared shell crew, of this city, which has carried the colors of its club to many a victory, went down to defeat to-day before the strong Argonauts of Toronto, in the last day of the annual regatta of the National Association of Amateur Oarsmen. Not only was this crew whipped by the Argonauts, another Canadian crew, the eight men of the Winnipeg Rowing Club, also dashed past the Vespers and beat them out at the finish. It was the first defeat for the Vesper eight since the crew was got together.

With the exception of two men, the Vesper crew was the same as that which wrested the victory from the Argonauts at Paris last year. The Argonaut team for the mile and a half was 7:48, just 10 seconds slower than the time made by the Vesper crew on the same course in a race last year. Winnipeg's time was 7:53, and the Vespers 7:56. Between 20,000 and 50,000 people saw the races.

The results were as follows: Intermediate Singles (final)—Lon Schooles, Don R. C., Toronto, first; A. C. McCluskey, Pennsylvania Barre Club, Philadelphia, second; Joseph Miller, Columbia B. C., Allegheny, third. Time, 10:17. Senior Eight (final)—Argonauts B. C., of Toronto, first; Winnipeg B. C., second; Vesper B. C., Philadelphia, third. Time, 7:48. Intermediate Doubles (final)—Detroit B. C., first; New York A. C., second; Harlem B. C., third. Time, 9:24. Harlem B. C. was disqualified in the intermediate four final.

International Fours (final)—Vesper B. C., Philadelphia, first; Western B. C., St. Louis, second. Time, 8:31. Intermediate Pairs (final)—Atlanta B. C., New York, first; West Philadelphia B. C., second; Pennsylvania B. C., third. Time, 10:14.

VACATING.

CUP TRIAL RACES. Chicago, July 20.—Milwaukee won the first of the trial races sailed to-day to determine what boat shall be the defender of the Canada cup. Cadillac, of Detroit, was second, 2 minutes and 23 seconds behind the Milwaukee. Nine boats sailed the course, and Cadillac, of Detroit, Illinois, Briar, Yankee and Prairie, of Chicago, The Briar and Prairie were not in the race officially, but having engaged in former events of this kind were out to try their speed against the newer boats. The original distance of 21 miles was observed. The race throughout was largely between Milwaukee and Cadillac.

WANT MORE WAGES.

Glasgow, July 20.—It appears the difference between Sir Thomas Lipton and his sailors arises from the fact that the men employed on Shamrock II. are the best sailors procurable, and are paid £2 a week. The sailors on Shamrock I. are paid only the usual wage of 25 shillings. With the equal wage of 25 shillings, the men would not be equal to that of the men employed on Shamrock I. are required to help the latter they contend they should receive equal remuneration.

CRICKET.

THE NAVY TEAM WON. The match on Saturday afternoon at the Canteen grounds between the Navy cricketers and the Vancouver club resulted in a victory for the former by 113 runs. The winners scored 200 runs and Vancouver 86

BUSINESS DIRECTORY

BUILDER & GENERAL CONTRACTOR THOMAS GATTERALL—16 Broad street. Alterations, office fittings, warrens repaired, etc. Telephone B 31.

Tide of Victory Did Not Flow For the Westminsters on Saturday.

Victoria Lacrossists Put Up a Superb Struggle—Battle a Royal One

Victoria, 4, New Westminster, 4. Such was the result of the most extraordinary lacrosse match ever played on the Caledonia grounds. It was extraordinary, not only because of its unusual length and unexpected result, but because of the surprises it contained and the lessons it should teach.

There was a large attendance, which at the commencement of the match was ordinarily indifferent. While always constrained to cheer their own players out of loyalty if for nothing else, they did not for one moment imagine that their exclamations or encouragement would wrest from the visitors even a temporary triumph.

The match commenced at 3 o'clock, the ball being faced off by Hon. D. M. Eboris, who was observed to retreat with alacrity when he observed how the men, quivering with excitement, leaped forward to battle like hounds liberated from their leashes.

Among the visitors were many familiar faces. There was Cheyne, their invincible goal-guardian; Lorimer, their very energetic point; the Peels, brothers, who have all the vigor of the Castor and Pollux of antiquity; the stalwart Giffords, who sweep down the field like Kansas cyclones; and Turnbull, the ubiquitous one, of untiring energy, the most formidable lacrosse opponent in shoe leather in the province to-day.

Among the local men were noted three

startling. Another defect was the neglect of the local men to cover their opponents. It was noted that when the visitors left their legitimate territory with the sphere, after passing it they invariably darted back to their positions.

Several "swift shots" were "fired" on the visitors' goal, and were stopped with machine regularity by Cheyne. The New Westminster men put up a brilliant defence. They would congregate in front of their goal flags and present a solid phalanx, which at times was absolutely impenetrable.

But their time was coming. Some pretty combination play between Jesse, Tite, McDonnell and Smith worked the ball toward the north. There was a sudden rush on the red coated defence, and the ball was suddenly passed to Dinsmore, and that player swished a beautiful shot "on the flag." Would Cheyne stop it? No, the great man did not, and that is why the crowd on the grand stand made "Rome to bow." Staid politicians and clergymen, and calm calculating business men shouted bravos, while a flutter of divers colored

ball being worked through by Gifford and Peels.

It would require an entire newspaper to contain an account of all that happened in the next game, if it tended itself to narration. Suffice to say that it was Victoria's game. The local men were brightening up and the visitors became more formidable than ever. The score was made by Frank Smith, who certainly deserved it. If the ornamentation of a man's nasal machine and a gash across the forehead do not deserve some of the fruits of victory, then something is radically wrong.

This same player scored the next goal, and as he made the score three to two he was at once canonized. Turnbull evened matters up in the next, and again the audience became apprehensive, that the time of play was rapidly drawing to a close. To put a long story short, each side secured another goal, and when time was called it stood four to four. The time was then extended twenty minutes, but neither side scored. They were becoming spent although Victoria was beginning to push their

Norman, in goal, played an excellent game. He was unfortunately at times too reckless. In the excitement doubtless he forgot that the visitors moved swiftly; in fact that is one of the factors of their play and factors of their power. The goal keeper should exercise the wisest discretion, and unless absolutely necessary never leave his goal unattended.

Lorimer played a stubborn game in the Westminster home. He checked Gray with a persistence that aggravated that gentleman. In fact had he given a trifle more elasticity to his position he would have had a greater opportunity of scoring. There were times when he was neutralized by Gray while endeavoring to isolate that player.

Tite, the veteran, cool-headed centre, played a very creditable game. There were few errors attributed to him, and his work in the face off was very effective. He was quite at home with the New Westminster men; he had been there before many times and seemed combat with them as a chaffer does the toughest conflict.

Wilson and Dinsmore acquitted themselves

marched off the grounds, flanked by the sergeant of police and one of the largest shows of the match. W. B. Ditchburn field captained the local men and J. J. Cambridge the visitors.

KING AND JOURNALIST.

It is not often that a man who can write well is also a good orator. The two talents do not seem to go together. King Oscar is, however, a notable exception to this rule. He is one of the finest speakers in Europe. He has made a special study of the art of oratory. "A speech," he says, "ought to resemble a ship which has been carefully freighted with goods of great value. It can withstand storms and mighty waves; it goes steadily ahead and brings its precious cargo safe to port." The King's speeches are for the most part impromptu. A year or two ago he was passing through Copenhagen on his way to inaugurate a new railway. At the station he was accosted by a Jewish journalist, who had been sent to the inauguration as a reporter to some big Danish paper. The journalist wanted a copy of the speech to telegraph to his paper, because he had no time to wait for its delivery, if the speech was to appear in his paper the next morning. So he asked the King to give him a copy of the speech which he intended to deliver. "That is impossible," said the King. "I have not written it out yet." The journalist was not, however, to be baffled. He explained that it was of vital importance that a copy of the speech should appear in his paper; that he, personally, would be in despair if he did not get it, and so worked on the King's feelings that he cried out: "Oh, my dear King, please give me a copy of what you are going to say." The newspaper man needed no second bidding. The King, without the use of any notes, dictated to him the whole of the long speech which it was his intention to deliver.—Pearson's Magazine.

K. WOLLASTON.

Photo by Savannah.

For years the redoubtable players from the banks of the Fraser had tasted naught but the pleasure of victory. Defeat had become to them a meaningless term, a contingency to be eliminated from their programme. A drawn game, therefore, must have had for them an aspect of reverse, and Victoria salutes her stalwart players who made a superb struggle.

To describe in detail Saturday's match is impossible; an attempt to photograph into cold type a struggle of such magnitude is farcical for the very good reason that the ball can travel infinitely faster than the pencil, and it would decidedly be unjust to the players to make the attempt.

A lacrosse match does not lend itself to adequate detailed description. The account is written for the edification of the reader who was not present; not for the players or the spectators who attended. Were it not for the fact that Saturday marked the first occasion for years on which the Royal City team did not conquer, the mention of the match would hang from the belts of the visitors with that large number gained in the East and West.

They were not only surprised but delighted with the result. They have had an opportunity of seeing the very best that was in their men, of witnessing the most trying test the local team has ever encountered and the results exceeded their expectations.

old war-horses—Charlie and Frank Cullin, and George Tite, of whom more will be said further on; Lorimer, Wilson, Smith, Norman and Dinsmore, and the younger element, Milne, Jessie, McDonnell and Dewar. In size the visitors had a great advantage, while their stamina was acknowledged.

When the play commenced the Victorians were distinctly nervous. This was quite natural, in view of their rather severe defeat by these same opponents a few weeks ago; also in view of the fact that they were playing men who had earned their right to be placed indisputably on a par with the best teams in the whole of Canada.

The New Westminster players, with that easy confidence which challenged admiration, and doubtless none more than they were surprised over the result. It was some little time before the lads in blue threw off their nervousness and uncertainty, but when they saw that the jerseyed champions were not unduly forcing them; when they realized that so far it was diamond cut diamond, all diffidence was thrown to the winds, and they settled down to play as they never played before. The Victorians were playing down the field, and to the surprise of the adherents of the visitors, a contingent of whom were banking in the sun-light on the rocks, the sphere travelled to that end as frequently as vice versa.

The visitors were splendid in their combination. Their catching and passing in the earlier part of the match were irreproachable. On the other hand, the Victorians in some instances were inaccurate. Dewar lacked judgment in his throwing; he put a little too much energy into his toss, and the ball was taken captive by some meteoric visitor. Smith was also a trifle inaccurate in his catching. He kept a cool head, however, and at times displayed a tenacity that was

handkerchiefs testified to the appreciation of the ladies.

It was too soon to prophesy. Victorians must keep their expectations well in check, for it was no child's play. This first game lasted eight minutes, and strangely enough, the second was a minute less. The visitors, somewhat surprised, but not particularly startled, settled down to a methodical, masterly style of play, which was admirable. Turnbull was immense, active and strong as a lion, sureheaded and resourceful, he was feared on the grand stand. Between him and Gifford and Rushton and the Peels the Victorians had an opportunity of seeing that beautiful combination which has made the Fraser river athletes famous. Like lightning they darted along the field, but only to dash themselves futilely against Charlie Cullin, F. Cullin and Milne, who were playing magnificent lacrosse. These New Westminster rushes were dangerous, and the spectators held their breath whenever they were made.

Alternately the sphere moved from territory to territory; every man played with great intensity. Finally again the ball travelled toward the home goal; there was a short, sharp scrimmage, several masterly passes, and Peels shot the sphere into the net.

Victoria liberally applauded the clever player, who had equalized the score and given to the match a dash of excitement, which was all but maddening. The next game was in many respects a repetition of the previous one. Every man had his work cut out for him. If Cheyne's stick intervened between his flags and the sphere as frequently, if Lynch and Gray were checked extremely close the Giffords and Peels watched Milne and the Cullins just as vigilantly. Again, however, the visitors scored, the

rivals at an alarming pace. When a o'clock came, the game was declared finished, having resulted in a draw.

The score was as follows: Game. Won by. Scored by. Time. 1—Victoria..... Dinsmore..... 8 min. 2—Westminster... S. Peels..... 7 min. 3—Westminster... S. Peels..... 3 min. 4—Victoria..... F. Smith..... 5 min. 5—Victoria..... F. Smith..... 5 min. 6—Westminster... Turnbull..... 12 1/2 min. 7—Westminster... Lynch..... 8 1/2 min. 8—Victoria..... McDonnell..... 7 min.

Sidelights on the Match.

Victoria takes off its hat to Charlie Cullin. He never played a better game of his life. It would be unjust to the other players to say that he was the hero of heroes or anything of the sort, but he was the Stonewall Jackson of the Victoria team. He played with all that magnificent strength with which Nature has endowed him, and to his splendid work, mentally and physically, Victoria owes a lot—more than perhaps it can determine.

The junior element covered themselves with distinction. Milne was very closely checked, but he saved his team at several critical moments. Jesse was never more accurate or tireless. In fact he was comparatively fresh at the conclusion of the match, and showed physical capability of the highest order. McDonnell, the Auburn crowned lad, was a host in himself. Too much preliminary exertion in the shape of excessive training, however, played havoc enough for him; he will thrive famously on that.

Frank Cullin, played with a strength and daring which are characteristics of his brother. His reappearance among the local ranks helped to give the Victorians the confidence they sorely needed in the beginning of the match.

adversely, although the latter was not allowed to work his own sweet will at the nets as in previous games. Dewar was uncertain in his throwing. He passed too strongly. That was his chief defect, and it would be overdue by future practice along this line.

Frank Smith played like a Trojan. In the early part of the match he was uncertain in his catching, but in his throwing and shooting, never. When he shot on the goal he was dangerous, and the opposing goal, despite his nonchalance, knew it.

The Visitors.

Of the visitors Turnbull played the star game. In fact he and Charlie Cullin played the bright, brilliant game of the day. Turnbull runs like an antelope, shoots like a comet and uses his head like a strategist. When he retires from the New Westminster team the other lacrosse organizations will breathe easier.

Cheyne was nasty. He lost his temper and should be ashamed of himself. No man who has been playing as long as he should so far forget himself as to resort to a petulant school boy's tactics. He is a splendid player, in fact one of the best goal keepers in the country. That should satisfy him. If he pines for a fight he should challenge "Old Tally" or some other well known experienced Cheyne on Saturday, but felt sorry that so fine a goal keeper had such an unenviable disposition.

The referee, F. Miller, was very satisfactory. It is saying a poor tribute to a good man by using so hackneyed a term as "satisfactory," but Mr. Miller was all that and more. There may have been errors in his decisions, but no man, or even his critics, are faultless. There were a few fights occasioned by Cheyne's unfortunate breaks. Two citizens who were about to interfere were

IMPORTERS.

OMINECA NOTES.

(Special Correspondence of the Times.) Manson, B. C., June 4.—As a great number of your readers are interested in this country I thought I would send you a short sketch of what is being done in this district.

There are four companies working here. The Forty-third Milling & Mining Company on Killarney gulch, the Arctic Slope Hydraulic Mining Company on Black Jack and Germanson creek, the Breadwinners on Skelton gulch, the Anthony Company on Germanson creek. All are now washing, so that there should be some showing at the closing of the season for this district. The Arctic Slope Company have proven their ground to be very rich last year. The trails and mail accommodation are both bad. There have been no newspapers received here since last September, no government mail having come in since then.

CREMATION AND CHINAMEN.

To the Editor:—The Chinese question being always open for discussion so long as it remains unsolved, may I add a suggestion to the many already offered, namely, "The adoption of compulsory cremation." As to the merits of cremation when compared with our present method of disposing of our dead, it must be plain that cremation has everything in its favor, and if adopted in British Columbia, would possess an advantage not known in other places where it is in successful operation, namely, its effect upon the Chinese population.

The custom prevailing among the Chinese of sending to China the bones of the deceased, with all its disgusting and unsanitary details, would be stopped, and one of two results would follow: Either he would cling to his heathen practice and leave our province, or remain and bid farewell to this relic of heathenism with its many superstitious formalities. Even the latter result would be a change to be welcomed as a triumph of advancing civilization.

PROGRESS.

Victoria, B. C., July 22nd, 1901.

PICKING THE NOSE is a common symptom of worms. Mothers who suspect their child is troubled with worms, should administer Dr. Lee's Worm Syrup. It is pleasant, safe, and effective.

The annual sales of German toys in the United Kingdom amount to over £2,000,000.

Crushed To Death
Tragic Accident to R. & N. Yardman at Russell Station This Morning.
William Sutherland Instantly Killed While Attempting to Couple Coaches.
A fatal accident occurred this morning at the Russell street station of the E. & N. railway, whereby William Sutherland, yardman, lost his life. He was caught between the platforms of coaches No. 1 and No. 4 while attempting to couple them. He was instantly killed. The tragedy took place about 9:45, just northwest of the Russell street crossing. Driver Davey and Sutherland were making up trains, and were attempting to get at a gravel car which stood on the track well down toward the turntable. Three coaches, Nos. 1 and 2 and one of the new palace cars, stood in the order mentioned in front of the gravel car, but unconnected. Davey backed his engine down to No. 1, which was coupled to the engine, and then down to No. 4.

mentioned heading up to one big dome similar to that in the Klondike region. Assays of ore were found to run from \$15 to \$20 on free milling quartz, but no work had been done up to the time of the departure of the expedition. The route to the country lies from White Horse and up Hootalinqua by the steamer to Mason's road house 20 miles up stream, then across country 20 miles by pack trail to the south fork of the Big Salmon, where a big flat country is to be found. The trail is very easy, the elevation being only 1,725 feet in about ten miles. Another route given is by way of the Hootalinqua for thirty miles, which goes through level country, and twelve miles across the regular winter trail. The Big Salmon itself is not navigable for steamers. Livingstone creek has two hydraulic companies working on Discovery, where most of the gold has been taken out, as also on the ten claims below. There are some very fine nuggets being taken out of the different claims, one pocket alone holding a \$100 specimen. Discovery on Livingstone creek is owned by Peters and Cavanagh. Mrs. Morris made the round trip to Dawson and return with her husband.

COMMENCED TRAINING.
Oarsmen Left for Shawnigan This Morning—Getting Ready for Regatta.
This morning the J. B. A. A. Junior, Vancouver, senior and Nelson Rowing club four went to Shawnigan, the scene of the forthcoming regatta, for the purpose of training for the events in which they will compete. That they will work hard is undoubtedly, and this few days' practice will constitute the finishing touches on a course of training persistent as thorough as far as the local men are concerned. Yesterday a number of the J. B. A. A. boatmen laid out the course for the regatta. It will be a mile and a half straight away. The starting place will be opposite Koenig's, and the finish opposite the Hotel Strathcona. It is an excellent course from a spectator's standpoint, and should give onlookers an opportunity of viewing the various events from start to finish. The cut on the inside pages of this paper is taken from a photograph of the junior J. B. A. A. crew. It represents A. McLean (stroke), W. Wilson, L. Gill and K. Wollaston (bow). The regatta will be held under the distinguished patronage of Sir Henri Joy de Lotbiniere, Lieutenant-Governor of British Columbia; Rear-Admiral Bickford, C. M. G., commander-in-chief of the North Pacific squadron; His Worship Mayor Hayward, Lt.-Col. Grant and the officers of the Fifth Regiment, C. F. Smith, United States Consul Hon. Abraham E. Smith. The officials will be as follows: Commodore—H. Dallas Helmcken, K. C., M.

PLEASANT OUTING.
Several Hundred People Enjoyed Themselves at Excursion Yesterday.
Several hundred people took in the excursion to Whatcom and Fairhaven yesterday, and all thoroughly enjoyed themselves. The steamer City of Nanaimo left the C. P. N. wharf about 9 o'clock, and drew out of the harbor amid the strains of the Fifth Regiment band. The weather was somewhat threatening on the early stage of the outward trip, but continued to improve. The steamer reached Whatcom at 3 o'clock, and the excursionists disembarked for about an hour and took in the place. The lumber mill and other points were visited, and at 4 o'clock the journey was resumed, the next stopping place being Fairhaven, where the canneries were inspected—that is, externally, as they were not running. The return trip was then made the good time. The captain and officers of the steamer were extremely courteous, while every effort had been made that would contribute to the pleasure of those present. The following address was presented to the captain by the passengers, and speaks for itself:
Sunday, 20th July, 1901.
On Board S. S. City of Nanaimo, Straits of F. S. City of Nanaimo.
Dear Sirs—We, the undersigned passengers on board of your ship to-night, most heartily beg to tender to you our very sincere thanks for the great kindness you have extended to us throughout the whole excursion from Victoria to Whatcom and return, and trust that both yourself and officers of your good ship may have the command of many such excursions.

Provincial News

REVELSTOCK.

B. R. Atkins, secretary to the hospital trustees, has received advice of a substantial and generous grant having been made to the Revelstoke hospital by the Victorian Order of Nurses and its auxiliary, the Victoria cottage hospital fund, so successfully organized by Her Excellency the Countess of Minto.

ILLECILLEWAET.

On Wednesday night Julian's shingle mill, south of the Illecillewaet, was destroyed by fire. The engine and boiler were saved, but the plant and a carload of shingles were destroyed. Julian was uninsured, and estimates his loss at \$2,500. He intends ordering a new plant and starting up again within a few weeks.

PHOENIX.

On Tuesday night a meeting of the citizens was held in the schoolhouse to organize a fire brigade. The report of the committee appointed at a previous meeting to draft a constitution and by-laws was received, and the by-laws were adopted clause by clause. J. F. Hemenway, who has had a wide and varied experience with volunteer fire brigades, was chosen as chief and J. E. W. Thompson was appointed assistant chief. The fire apparatus ordered by the city is expected daily.

ASHCROFT.

On Monday last Allan Bruce, a young man who has been living in Lillooet for some time, was arrested on complaint of the manager of the Anderson Lake mines for stealing gold from the mine. Bruce had been detected panning gold in a mortar from rich quartz and had sold, or offered for sale, rich specimens. His room was searched and, tied to the mattress, was found two small sacks containing gold to the value of \$100. Bruce pleaded guilty before Magistrate Phair and was given five months in the provincial jail. He had only worked 11 days in the mine.

NEW WESTMINSTER.

Capt. Grant, of the Imperial army, was in town on Thursday for a few hours, being on his way home to England from India, where his regiment is stationed. Capt. Grant had never been here before, but he felt quite at home among so many old-timers when he was the son of Captain, now General, Grant, who commanded the Royal Engineers corps here in the early days, under Col. Moody. The general, who is now 54 years of age, has been on the retired list for some years. He has another son in the army, the one born here, and who has now risen to be a colonel in the same branch of the service. Capt. Grant came here to see about some property his father owns across the river, and before leaving he went out to Sapperton and secured a photograph of the old camp.

HOSEA.

Local athletes are interested in the action being taken by the city council to secure the athletic organization's grounds to replace the Black Bear grounds, which are to be used for other purposes. The city fathers have taken in hand the matter of securing other grounds, Mayor Lalonde having taken the initiative and directed the attention of the board of works to the necessity of moving if the city is to have any recreation grounds next year. Major VanBuskirk, city engineer, has gone over the city park lands east of the corporation, and information has been secured with regard to the ground. With this information in hand the board of works will bring in a report at next council meeting. It will be quite possible to secure an area of five or six acres on the park grounds south of the cemetery and within half a mile of the court house.

KAMLOOPS.

The Liberal club held its annual meeting on Tuesday evening. The following officers were elected: Hon. president, W. A. Gallihier, M. P.; hon. vice-president, Major Gordon; president, Jas. Vair; 1st vice-president, W. H. Elson; 2nd vice-president, J. H. Morrison; treasurer, Dr. A. P. Proctor; secretary, J. H. Wilson; assistant secretary, Chas. F. Armstrong; executive committee, Ald. Brown, Josiah Savage, J. M. Harper, W. H. Whittaker, Jno. Hopgood, Lee Anderson, W. H. Fowler, Alex. McDonald, Alex. Shindler and J. P. Wells.

News has just been received of the death of H. W. Armstrong who was killed in action at Vlakfontein, South Africa, on or about June 1st, last. Mr. Armstrong, it will be remembered, joined the Strathcona's at Kamloops, being one of the Canadian contingent. Later he accepted a commission in the Imperial Yeomanry, and at the time of the fight was captain of his troop.

VANCOUVER.

A serious bicycling accident took place on Hastings street on Friday evening, resulting in Edward Bars being conveyed to the hospital with a bad scalp wound. Bars, George McMillan and T. C. Bailey were wheeling down Granville street, and had turned the corner into Hastings street some little distance, when Bars ran into a buggy which was being driven on the wrong side of the road. Bars fell and it was ascertained that his head struck the hub of the wheel, as he sustained a long and nasty cut, extending from his forehead well back on the right side of his head. The buggy, which, it is alleged, caused the accident, contained a lady and gentleman. The latter stopped to find out the extent of the man's injuries, but drove on again before the names of the occupants could be secured.

H. Shimizu, Japanese consul for Canada, has been decorated by the Emperor of Japan with the sixth order of Zusho Sho, which translated means "Sacred Treasure." There are eight orders of the Sacred Treasure. The decoration is conferred on statesmen and civil servants as a mark of appreciation by the Mikado. The lower or decoration received by Mr. Shimizu is in the form of a star, the body of the star being encircled by jewels with highly polished metal in the centre. On the reverse side of the decoration are the words in Japanese figures, "For merit." The conference of the order by the Emperor entitles Mr. Shimizu to place several Japanese characters after his name.

The five-year-old son of Mr. Roberts, an employee of the cannery at Eburne, was drowned at that place on Friday. He is supposed to have fallen from the wharf while playing. The death of John Crawford took place last evening. He deceased was 58 years of age, and was well known in the city. Damage to the extent of about \$300 was done to the residence and furniture of Deputy-Sheriff Shirley, by a fire which broke out in the roof on Saturday evening. The house is situated on Barclay street below Denman. The brief details of a sad tragedy were received from Lillooet on Saturday evening by the arrival of a telegram stating that William Young had been accidentally killed at Ward's ferry. Mr. Young was only 28 years of age, and was well known in this city, his mother and sister residing here. For some time past he had been interested in mines in the Lillooet and Bridge River districts, and was a part owner of the Lorne mine, Bridge River. This property is regarded as one of the most promising mines in the district. From the above information to hand it is surmised that Mr. Young met his death through some mishap or accident while returning to the mine after a visit to Lillooet. Ward's ferry, the scene of the fatality, is on the Bridge River trail, about 12 miles from Seaton Lake, and close to the Brett ranch.

Per steamer Charming from Vancouver—Saturday—W. H. Reed, E. H. Palmer, R. J. Ker, A. S. Potts, Geo. Wilson, H. M. Carden, W. J. Inglis, P. Thomas, Mrs. Thomas, Miss Thomas, J. Turner, Jas. GOOD HEALTH IS IMPOSSIBLE without regular action of the bowels. Laxative Pills regulate the bowels, cure constipation, dyspepsia, biliousness and sick headache.

CURE FOR CHOLERA INFANTUM—NEVER KNOWN TO FAIL. During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail. Mrs. Curt's Baker, Book-walker, Onto. Sold by Henderson Bros., Wholesale Agents.

BETTER LATE THAN NEVER. "You may recall me, sir, as the man who eloped with your daughter about a year ago." "Well, sir, what can I do for you?" "I may be a little bit tardy, but I have come to offer you my congratulations."

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following areas are here by reserved from pre-emption, sale, or other disposition, existing under the provisions of the mining laws of the Province, and having a width on each side thereof of one mile.

Area 1.—All the surveyed land on both sides of Kinkeoin River, and the land adjacent to Kinkeoin-Kingcome Inlet and Sound.

Area 2.—Commencing at the northeast corner of Lot 45, 55 and 65, on the Kin-na-Klene River; thence north along the said river and its branches five miles, and having a width on each side of one-half mile, including all surveyed lands.

Area 3.—Commencing at the northern boundary of Lots 45, 55 and 65, on the Kin-na-Klene River; thence north along the said river and its branches five miles, and having a width on each side of one-half mile, including all surveyed lands.

Area 4.—Commencing on Wakonagan Sound at the southeast corner Lot 41, thence west on the 51st parallel of latitude to a point north of Embury Lagoon; thence north to said lagoon; thence south-westerly following the passage between Kinnaid Island and Pambora Head to the passage between Queen Charlotte Sound and the shore line of Noel Island; and easterly along the centre of Pile Sound to Village Point; thence north-westerly to the north of Trivet Island to the mouth of Kinkeoin Inlet; thence north along the west shore of Wakonagan Sound to the point of commencement.

Area 5.—Consisting of Harbledown and Turner Islands.

W. S. GORE, Deputy Commissioner of Lands & Works, Land Department, Victoria, B. C., 22nd June, 1901.

NOTICE. SHIPPING

UTOPIA VS. ROSALIE.

Since the steamer Utopia was docked a couple of weeks ago and her new propeiler shipped, her crew have been acting for an opportunity of trying her speed in a race from Seattle with the opposition steamer Rosalie. Saturday is the only day in the week in which the two boats come together, and for some days considerably in front has been maintained along the waterfront in the competing race, over which considerable money changed hands between the rival crews and others interested.

Last Saturday at midnight both the Utopia and Rosalie left Seattle together, the former gradually taking the lead and maintaining it until Fort Flager was reached, where she had to branch off from the regular course to Port Townsend, and call in at the government station. The Rosalie in the meantime continued up the Sound. She was detained a short time at Port Townsend discharging cargo, which enabled the Utopia to catch up with her, and then the race commenced again in earnest, the Utopia finally reaching her berth at the inner wharf here at 8.35 a. m., and the Rosalie twenty minutes later.

The Utopia's crew are much elated over the victory, and are talking of challenging the North Pacific and the Flyer, but the dates have not been fixed.

SAILORS ARE SCARCE.

There is again a scarcity of sailors for deep water ships along the coast. At Tacoma a grain loaded ship is said to have been detained in port for some three weeks through the want of men, entailing a big financial loss to her owners or charterers. Victoria has perhaps been more fortunate than many of the Sound ports, but has, notwithstanding, felt the want of sailors. The schooner Linn, however, was not detained very long, and proceeded to sea last evening with her cargo of logs for Santa Rosalia. The ship Highlands is still at anchor off the outer wharf waiting for a crew, but will probably be ready to sail to-morrow or next day, as a number of the nine men she requires to complete her crew have already been secured.

BOSKOWITZ IN PORT.

Steamer Boskowitz arrived from northern British Columbia ports on Sunday evening with a number of passengers, but little freight. Among the former were a couple of surveyors who have been working in the vicinity of Seymour Narrows. One of the surveyors is Mr. Parr, of this city. The Boskowitz brings no later northern news than the Tees, which reached port on Sunday morning.

MARINE NOTES.

The fine new steamship the Kaga Maru, of the N. Y. K. line, will leave Seattle en route to the Orient at 4 o'clock to-morrow morning. She will receive as freight here a quantity of lumber being forwarded to Japan. Another Oriental liner due this week will be the Duke of Fife, of the Dollar fleet, which should arrive on Wednesday.

On her return from the North the steamer Tees called at Comox for coal, but was disappointed because of an accident to some machinery in the mine. The collier Kvarven was also in port, and had just finished loading after waiting a couple of weeks for her cargo.

The Pilot goes to Ladysmith to-day, from which point she proceeds to Juneau with the coast hulk Richard III.

Steamer Yosemite left Vancouver at 1.25, and did not connect with the train, which was eight hours late.

DAWSON WEDDING.

The Bride is a Well Known Young Lady From This City.

The following announcement of a wedding which took place in Dawson on Sunday, July 15, is taken from the Klondike Nugget of July 10th. The bride is well known in this city, being a sister of W. N. Lenfesty, Johnson street. The Nugget says:

"Mr. D. J. Jenkins and Miss Barbara Wilson Lenfesty were quietly married last Sunday afternoon by Rev. Dr. Sparling at the Methodist parsonage.

"Mr. Jenkins was at one time in the undertaking business in Dawson, but sold his business and is now engaged in mining on bench claims opposite 85 below on Bonanza.

Miss Lenfesty is a well known and popular young lady from Victoria, B. C., and arrived in Dawson on Sunday at 2 o'clock. She was met at the boat by Mr. Jenkins and Mr. and Mrs. G. Brantston, who escorted her to the parsonage, where the ceremony occurred, just 45 minutes after her arrival, and Mr. and Mrs. Jenkins left for their claim to-day."

The British cruiser Minerva, which started at 4.30 o'clock on the afternoon of July 17th, from Gibraltar, in a race with the cruiser Hyacinth to Portsmouth, was sighted off the latter place at 9.30 o'clock on Saturday evening. The performance of the cruiser is rather disappointing, as "both have" been expected to arrive ever since daylight.

the remedy that cures a cold in one day

PICKETING PROHIBITED.

The House of Lords Sustains Justice Farwell's Decision in Strike Case.

(Associated Press.)
London, July 22.—The House of Lords has reversed the decision of the Appeal court dissolving the injunction rendered on August 30th, 1900, by Justice Farwell, in the High Court of Justice, which enjoined General Secretary Bell, of the Amalgamated Society of Railway Servants, and Organizing Secretary Holmes from "watching and besetting" the Great Western railway stations and approaches with a view of inducing non-unionists to refrain from taking the places of Taff Vale railroad strikers.

This action of the House of Lords reverses Justice Farwell's judgment. The House held that it was not the intention of the legislature to prevent a trades union from being sued if, through its officers, it were guilty of illegalities.

ANOTHER VICTIM.

Mrs. Talman Dies of Injuries Sustained in Chicago & Alton Train Wreck.

(Associated Press.)
Kansas City, July 22.—Mrs. Ora J. Talman, of Valparaiso, Ind., died at the University hospital, being the twenty-third victim of the Chicago & Alton train wreck. She was on the way to the Epworth League convention at San Francisco when injured.

SALE OF TULAMEN LOTS.

Joshua Davies has returned from the Similkameen country, where a sale of the government townsite of Tulameen was held on Wednesday last. Only 55 lots were sold and the aggregate received for these was \$4,720. The highest price paid was that for a corner lot on Otter avenue and Second street in the centre of the town, bought by R. Hall, for \$175. The four principal corners were bought by Victorians, namely, E. V. Bodwell, R. Hall, B. Gordon and A. Anderson.

Sixteen of the purchasers were from Princeton, where the sale was held, and ten from Victoria, the latter being in addition to those mentioned, P. C. MacGregor, H. M. Graham, C. W. Hills, F. C. Davidge, Dr. Jones and J. A. Virste. There was one purchaser from Kamloops and two from Nicola.

Every merchant in Princeton bought lots, and some of them will erect buildings at once. The average price paid was \$86.

Personal.

Last evening's Chatter had on board two of the crew from the Matland who will compete at the N. P. A. O. regatta at Shawnigan on Friday and Saturday. The crews are from Nelson and Vancouver. They stayed at the Vernon last night, and early this morning left for Shawnigan, taking with them their outfit. The Nelson crew is composed of Manager E. M. Mathews, R. W. Day, C. B. Winter, D. Thomson and J. W. Ford. The Vancouver crew consist of G. W. Seymour, F. Springer, H. Springer and G. Bidwell. Mrs. Seymour accompanied her husband.

The Everett Baseball Club, under the management of Walter Thornton, are registered at the Dominion hotel. Mrs. Thornton accompanied her husband on the tour. There arrived also this morning a number of Everett baseball enthusiasts, who apparently expect to see the closest match of the tour on the Oak Bay grounds this afternoon.

J. Trapp, president of the Royal Agricultural Society, of New Westminster, and G. D. Bremner, manager of the Bank of Montreal in that city, are in Victoria on business connected with their forthcoming exhibition.

E. N. Chrystal, J. Sullivan and Mrs. F. I. Gentry compose a tourist party from Salt Lake City who are staying at the Victoria.

A party of tourists from Tacoma, consisting of Mrs. E. D. Dwyer, P. Dignon, E. M. Allen, wife and daughter, and E. N. Allen and wife, are staying at the Driad.

Mrs. Coleman and child, of Tacoma, are staying at the New England, awaiting the arrival of the Duke of Fife, which is due to-morrow.

J. Buntzen, general manager of the B. C. Electric Railway Company, accompanied by Mrs. Buntzen, came over from Vancouver last night.

A. J. Goddard, principal of one of the Seattle schools, is a guest at the Dominion hotel. He is accompanied by Mrs. Goddard, R. J. Kay, A. S. Hedges, H. McKenstry, C. Mosher and W. D. Ramsay were passengers on Saturday evening's Chatter.

F. M. Tyrrell, an attorney from Lincoln, Neb., is spending a vacation in this city. He is a guest at the Oriental hotel.

R. P. Rithet and his son, J. A. Rithet, who have been in the South, arrived from Vancouver on Saturday evening.

E. A. Orchard, from South Africa, arrived on the Chatter on Sunday night and is staying at the Dominion.

R. M. Palmer, inspector of fruit pests, arrived from the Matland on Saturday evening.

E. M. Burns, G. A. Kirk, M. Lenz and A. B. Erskine came over on the Chatter last night.

C. A. Thompson and Mrs. Thompson came over from Vancouver on Saturday evening.

Miss Parsons and Miss Davidson, tourists from Portland, are staying at the Oriental.

J. M. Lewis and H. G. Day, tourists from New Haven, Conn., are at the Victoria.

D. S. Gray, of the Bernard Meat Company, is registered at the Dominion.

Indian Agent W. R. Robertson, of Dunsmuir, is registered at the Victoria.

Dr. and Mrs. G. H. Bowley, of Berlin, Ont., are registered at the Vernon.

F. S. Reynolds, of the Astor Journal, is staying at the Victoria.

Mrs. A. A. Langley, of Vancouver, is registered at the Dominion.

Thos. Dobson, of Nanaimo, is staying at the New England.

J. R. Girdwood, of Dunsmuir, is a guest at the New England.

Thomas G. Irving, of Toronto, is a guest at the Driad.

E. W. Parney, of Chilliwack, is at the Oriental.

A Napoleon Of the Press

C. Arthur Pearson, the London Publisher, Pays a Visit to the States.

His Scheme For a Chain of Newspapers Around the World.

"Fleur-de-lis" writing to the San Francisco Argonaut from New York, says: "Still another shrewd advertising scheme is responsible for the presence here at this time of a remarkable young Englishman, whose success should go far toward convincing us that all the energy and enterprise and talent for big undertakings is not monopolized by Americans. C. Arthur Pearson is the name of this notable visitor from across the water, and almost everybody has heard of him as the publisher of a dozen or more London magazines, weekly and monthly, one great half-penny daily newspaper, and the only rival of Alfred Harmsworth, whose career is similar in most details. Mr. Harmsworth was here several months ago, and edited one edition of the World, brought out in magazine form, and the comments on his New York production, the first specimen of "tabloid journalism," are still fresh in memory. Mr. Pearson is also to lend the World.

A Helping Hand, having consented to edit during his stay one issue of the Sunday magazine supplement of that paper. Few startling innovations are looked for. One trial of the "tabloid" was enough even for the World, and Mr. Pearson's efforts will probably expend themselves on novel topics served in British style.

For himself, Mr. Pearson disclaims any intention of pronouncing amazement or alarm in his experimental dash into American journalism. He says he is here for the purpose of looking over the newspaper field, picking up a few pointers, discovering why Pearson's Magazine has twice as many readers here as in England, and enjoying himself a bit. All this he will do in ten days, and find time meantime to visit Philadelphia, see the Pan-American exposition at Buffalo, and look over the various brands of automobiles in the market. He is energetic and inviolable as his programme of exercises for the week and a half must be, he undoubtedly possesses the vigor necessary to carry him through on schedule time.

Made a Good Start by evading quarantine, boarding a tug with his baggage in spite of the protests of Capt. Cameron, of the Oceanic, and landing several hours before his fellow-passengers.

Just half of Mr. Pearson's life has been spent in active newspaper work, for he is now thirty-five, and it is a little more than seventeen years since he secured his foothold in a London publication of the name of Pearson's Magazine, another publisher of varied enterprises, offered in his successful patchwork of oddities, "Tit-Bits," to give a position to the reader sending in the best answers to a lot of queries, and young Pearson, then a boy fresh from school, won the prize, and paid him five hundred dollars a year, but he earned the money, for the position was not a sinecure. Among the contributors to the weekly paper at that time was Alfred Harmsworth, so that "Tit-Bits" really furnished both these young men with the experience that has been turned to good account. Mr. Pearson was successful from the start, showing marked ability in the business department of the paper, and impressing favorably most of those who came in contact with him. It is said that in five years, when his salary had been increased to fifteen hundred dollars, he had gained such a reputation for

those who see him with the belief that he has the nervous force necessary to plan and put in operation any number of such schemes. It is interesting to know that in his own country, down in the pleasant Surrey hills, he has a handsome country home, a wife and three little daughters, and that he takes some enjoyment in life as he goes along.

DEATHS AND PROSTRATIONS.

Fourteen Fatalities Caused By Heat Reported From Missouri and Kansas.

(Associated Press.)
Kansas City, Mo., July 22.—Fourteen deaths from heat with 40 prostrations were reported up to 1 o'clock to-day in Kansas City, Mo., and Kansas City, Kan., for the past 24 hours. Nine occurred yesterday and five since midnight last night. At 1 o'clock this afternoon the weather bureau thermometer registered 102. Not a drop of rain is reported from any point in the southwest to-day, and there is no immediate promise of moisture.

No Indications of Relief.
Washington, July 22.—To-day's reports from the middle Mississippi valley stations of the weather bureau do not indicate any relief for people of that drought and heat stricken region. At St. Louis the thermometer at 7 o'clock registered 86 degrees, four degrees higher than at same hour yesterday; at Kansas City, 84, 2 higher; at Springfield, Ills., 84, 6 higher; at Omaha, 84, 2 higher; at Austin, Texas, 82, 8 higher. The weather was clear throughout the region and no thunderstorms were indicated there. There was a fair to higher temperature at Chicago and the prospect is for cooler weather in the Great Lakes, and later through New England. The weather forecasters say there is no sign of relief for the people of the Mississippi valley.

AROUND THE WORLD.

(Associated Press.)
Chicago, Ills., July 22.—Gaston Stigler, who is trying to break the record around the world for Le Matin, of Paris, France, has left for Niagara Falls. Stigler expects to reach Paris on August 1st. His time in the world encircling trip will probably not be under sixty-four days.

RUBBER BANDS.

Process of Making Is Simple and Business Large.
"The little elastic rubber band that is nowadays used in various businesses in place of twine seems a simple sort of thing, but there are few, if any, of the modern articles made out of rubber for which there is such an enormous demand, especially in the United States," remarked a wholesale dealer in rubber bands in New York to the writer the other day. "In this country the number of rubber bands sold in one year amounts to about 400,000 gross, or 57,000,000 single bands. At least 92 per cent. of the goods are made in New York and the rest are produced in factories located in New Jersey and New England. In New York there are a half dozen factories devoted partly or exclusively to the manufacture of rubber bands.

"The process by which the bands are made is simple. The rubber in a liquid state is moulded into tubing of sizes suitable for forming the small and medium varieties of bands. When the tubing is ready for use it is put into a rapid running machine having knives, which cut or slice the rubber into bands. The larger bands are cut by machinery from flat sheets of rubber and joined together with the aid of heat and a pressing machine.

"Rubber bands are made in only two colors, black and brown. They range in size from one-quarter of an inch to six inches in length. The smallest bands are one-sixteenth of an inch wide and the largest are one and one-half inches wide. The smallest bands are worth 24 cents per gross, while the medium-sized bands sell at from 48 to 96 cents per gross wholesale. Larger sizes cost from \$1 up to \$6 per gross.

"The greatest consumers of rubber bands are druggists and grocers. They use the smallest and medium sized bands in place of twine for putting up small packages. The late flat and expensive bands are used by court officers, lawyers, bankers and merchants for filing documents and papers. No rubber bands are imported into this country, but a few American rubber bands are exported to the West Indies and South American countries."—Washington Star.

Figures Tell The Tale
From January 1st to July 1st, 1901, the importations into the United States of
G. H. Mumm's "Extra Dry"

reached the enormous quantity of 60,008 cases, or 33,273 cases more than that of any other brand, which is sufficient evidence of the popularity of this justly celebrated Champagne.

ONLY THE FIRST PRESSINGS of the best grapes from the choicest vineyards in the Champagne District are used by G. H. MUMM & CO., and owing to their great skill in the composition of their cures by combining quality, purity and natural dryness with the smallest percentage of alcohol, no other Champagne, no matter at what price, can excel their "Extra Dry."

NO WEDDING SUPPER, party or public function is complete without the G. H. MUMM'S "Extra Dry," used at all notable Dinners and Banquet both in Europe and the United States.

TO BE OBTAINED at all first class Hotels, Clubs and Refreshment places throughout British Columbia and the Yukon Territory.

All Grocers who handle Wine have the G. H. MUMM'S; take no substitute, there is none other quite so good.

ANOTHER SHIPMENT of one thousand cases (four car-loads) just received direct from Reims, France. Every bottle and every case guaranteed to be in perfect condition.

Victoria & Esquimalt Telephone Co., Ltd.
Japan is a country of the little. The men here are from 5 feet to 5 feet 5 inches high, and the women are smaller. Notwithstanding the fact that they raise themselves 3 inches off the ground on their wooden sandals, a fair-sized British girl towers above them like an Amazon. Japanese trees are dwarfed, and, in fact, all Nature seems to be made in miniature. The chickens are nearly all bantams, and the cats, with their bobtails, look like kittens compared with ours, and the horses are ponies. The houses of the poorer people have but one story, and the rooms look like those of dolls' houses. The country, though big enough, is pretty rather than grand, and you have beautiful bits rather than sublime landscapes. It is the same with everything.
