**M. LOUBET DEPARTS.**  
Thanked King Edward for Reception, "As Representative of France, the Friend of England."

(Associated Press.)  
London, July 9.—President Loubet's visit to London was brought to a close at 8.40 o'clock to-day, when the French chief magistrate left the Victoria station for Dover. The scenes and incidents of his departure testified as to how the Republican President had captured all classes and won the popular good-will. Despite the eagerness of his departure, crowds lined the route from St. James Palace to the railway station, and the British "butter" and French "vive Loubet" resounded through the streets until the President had entered the station. Here the nation's guest was met by the King and his suite and members of the French embassy. As M. Loubet's carriage drew up King Edward advanced with outstretched hand, and taking the President familiarly by the arm led him through the waiting room to the royal car. King Edward grasped M. Loubet's right hand and shook it with extreme cordiality, while with the left hand he patting the President on the shoulder. His Majesty showed the President into the royal car and stood chatting with him until the train pulled out, and cheers and shouts of "Vive Loubet" mingled with the strains of "The Marseillaise." President Loubet stood at a window of the car waving his hat in his gloved hand until the royal special disappeared from view.

Upon his arrival at Dover, M. Loubet embarked on the French cruiser Guichen, and the vessel sailed at once for Calais, escorted by a British fleet and followed by farewell salutes from the fleet and castles.

Before his departure from Dover, President Loubet telegraphed to King Edward thanking him for the hearty reception accorded him, "As the representative of France, the friend of England."

**NEW MAST FOR SHAMROCK.**  
(Associated Press.)  
New York, July 9.—The Shamrocks were towed into Erie basin to-day and the masts on Shamrock III. immediately began to take out the big steel mast. The mast to replace it had been used in some of Shamrock III's early trips on the other side. It will be stepped to-day and to-morrow Shamrock III. will be put in dry-dock and her underbody cleaned and repainted. Shamrock I. will also be treated likewise. No changes will be made in the rig of Shamrock I.

There are less than 300,000 people in the United Kingdom who speak no language but Gaelic or Gaelic.

**SUDDEN CHANGE FOR THE WORSE**  
**ANOTHER DOCTOR HAS BEEN SUMMONED**  
**The Pontiff Appeared Much Better This Morning and Received Cardinal Rampolla.**

(Associated Press.)  
Rome, July 9, 1.15 p.m.—By special favor the correspondent of the Associated Press here was allowed this morning to visit the Papal apartments, where he had an interview on the situation with a personage who is better informed than anyone else, but who from motives easily understood does not wish his name mentioned. He said:  
The first positive sign of amelioration in the Pope's condition since he was taken ill was seen this morning. The august patient rested well enough during a greater part of the night. It was not the sleep of prostration or collapse, but peaceful and natural, so much so that the benefit is quite visible this morning. His temperature is 96, which is quite normal for the Pontiff, considering his age and recent condition. What is important is that his temperature never rose above normal, and never even approached a feverish state. He now has a slight cough, and his kidneys are still deranged. His heart is stronger and his circulation better, as demonstrated by the complete disappearance of cyanosis, so that his hands have again taken their natural, almost diaphanous aspect.

Dr. Lapponi this morning informed the papales who were waiting in the ante-chamber that he had examined the matter which the Pope had expected thoroughly, and he said he was able to confirm his diagnosis, having found traces of blood, clearly demonstrating the existence of pneumonia.  
Everyone noticed that while in the past Dr. Lapponi never participated in the announced or unannounced amelioration in the Pope's condition, remaining always reserved and anxious looking, this morning for the first time Dr. Lapponi's face was tranquil and even hopeful looking.

**Morning Bulletin.**  
Rome, July 9.—A bulletin issued at 10.15 o'clock this morning by the Pope's physicians says:  
"The night was tranquil and the patient rested well. The pneumonia is following the ordinary course in that part of the lung not covered by the little liquid still existing in the pleura. The general condition remains pretty good." (Signed) Lapponi and Mazzoni.

**Received Rampolla.**  
Rome, July 9, 1.10 p.m.—The Pope on learning that Cardinal Rampolla, the Papal secretary of state, desired to see him, received the cardinal at 10 o'clock this morning. The Pontiff said he had seen with great pleasure how the sacred college was interested in his person, and he was equally gratified at the manifestations from the good people of Rome. After this His Holiness spontaneously asked Cardinal Rampolla whether there were any urgent affairs to deal with, and asked the cardinal for a short summary of the principal pending questions. The Pope interested himself in all of them, and the conversation turning to the Pontiff's condition, he said: "Weakness has always been my greatest preoccupation."  
Dr. Lapponi, on leaving the Pope's bedroom at 1 o'clock this afternoon, said: "I cannot yet say that I hope, but I no longer despair."

**Hope of Recovery.**  
London, July 9.—A special dispatch from Rome says a surprising rally has occurred in the Pope's condition, and his doctors say there is some hope of his recovery.

**Consultation Unnecessary.**  
Rome, July 9.—The Pope was sufficiently well this morning to be shaved. A consultation with other physicians is now considered to be unnecessary.

**Change For Worse.**  
Rome, July 9, 5.50 p.m.—Dr. Rossini has just arrived at the sick room in consequence of a sudden change for the worse in the condition of the Pope. A consultation will be held immediately.

**Struggle Between Cardinals.**  
Paris, July 9.—According to the Journal's correspondent at Rome, the Italian government has organized everything admirably. An army of police is present, yet invisible.  
The present struggle between Cardinal Oreglia and Cardinal Rampolla is becoming serio-comic. On the former claiming an apartment in the Vatican, Cardinal Rampolla had a thousand chairs piled up in St. Cardinal Oreglia, says the Journal's correspondent, told him that evening that there were possibly treasures, and in any case important documents in the Pope's room, and he must prevent any one entering, "some relatives of cardinals have long fingers."  
Monsignor Volponi Dead.  
Rome, July 9.—Monsignor Volponi, who was stricken with syncope yesterday, died early this morning shortly after the doctors in attendance had announced that all hope of saving his life had been abandoned.  
Although the condition of the Pope is still the centre of interest, the case of Mons. Volponi has attracted much attention, not only because of his office as secretary of the consistorial congregation,

to which he had just been appointed by Pope Leo, but also on account of the manner in which he was seized by his fatal illness, and it is hardly possible to describe the sensation and emotion which has prevailed at the Vatican when his death was announced.  
From the moment he was stricken and fell to the floor, Monsignor Volponi lost entirely the power of speech and the use of the entire right side of his body, and he was apparently unconscious when he died. It has been ascertained that the cause of death was cerebral congestion.  
It will be impossible to keep the news of the death of Mons. Volponi from the Pope, as the office of secretary of the consistorial congregation, to which Pope Leo appointed the deceased prelate on July 5th, the last appointment made by His Holiness, must be filled without delay in view of the possibility of a Papal interregnum. At the moment a Pope dies, the secretary of state ceases to exercise his functions, which pass to the hands of the secretary of the consistorial congregation, whose career is from that time assured, as according to custom he is the first cardinal to be appointed to the new Pope. The satiric humor of the Romans reveals itself even at this solemn and sad moment. The remark has been heard that Pope Leo, not satisfied with having killed all the cardinals created by his predecessor except Cardinal Oreglia, and over one hundred of those created by himself, now begins to kill those to be created by his successor.

**Kaiser May Go to Rome.**  
Berlin, July 9.—The newspapers report that Emperor William has addressed a telegram to the Pope personally, saying that he prayed God to preserve the Pope's life for many years. The Emperor has also requested daily information to be sent to him regarding the condition of His Holiness. According to Cardinal Rampolla telegraphs His Majesty twice daily.  
In case of the Pontiff's death, says the newspapers, the Emperor will immediately return from Scandinavia and proceed to Rome to take part in the funeral. The truth of the latter statement, however, is doubted.

**PROPOSAL ENDORSED.**  
Grand Trunk Pacific Project Discussed at Large, Attended Government Council.

(Special to the Times.)  
Ottawa, July 9.—There was a large attendance at the government caucus to-day, which was held in the new railway committee room on account of the other rooms being too small. The meeting started at 10.30, and an adjournment was reached at 1 o'clock. The whole of the time was taken up with the Grand Trunk Pacific proposition. The Premier outlined the project, which is practically the same as published. There were a good many suggestions thrown out in respect to details, but there was practically no opposition to the scheme. One prominent member present said after the close that everything passed off very satisfactorily, and that the proposed transcontinental line as arranged between the government and the Grand Trunk was endorsed. A bill granting aid will be introduced in parliament very soon.

**Contracts Awarded.**  
The following have been awarded contracts for supplies to the British Columbia penitentiary: Flour, R. P. Rhetter & Co., Geo. Adams; fresh meat, the Reichbach Co.; coal, Gilley Bros.; sole leather, W. G. Fischer and E. E. Ross; knifes; hardware, sundries, R. F. Anderson & Co.; drygoods, sundries, The Hamilton Co.; groceries, sundries and staples, George Adams; drugs, Burke & Parke; hats, Brocksman & Co.; Milling Co.; lumber, E. C. Mills; Timber & Trading Co.; fish, St. Mungo Cannery Co.

**Member Hurt.**  
Two of three members of parliament had narrow escapes while sitting in the House this afternoon. A man carrying a pail in which was a chunk of ice weighing 10 pounds, was crossing one of the sections of the glass ceiling when it broke. The pail fell and the man was hurled into the chamber, a distance of fifty feet, and the man was half way through, but he succeeded in pulling himself back. Mr. McGowan, Middlesex, had his head cut.

**The Pilgrims.**  
Wilson and Green arrived to-day. They came from Toronto.

**Hon. D. Mills' Estate.**  
Letters of administration were applied for to-day for the estate of the late Hon. David Mills. The estate is valued at \$41,200, real estate \$30,000 and the balance personal.

**PEEL TO DEATH.**  
Woman Killed While Trying to Escape From an Angry Wife.

(Associated Press.)  
New York, July 9.—In attempting to escape from Mrs. Thomas Healy, an angry wife, who accused her of an intrigue with her husband, Mrs. Bridget Cavanagh early to-day plunged to a horrible death from the fifth story fire escape platform of her home at 743 Third avenue, to the courtyard below. Pursued by his incensed wife, his son and a policeman, Healy had reached the fire escape and had just descended to the street. Mrs. Cavanagh tried to escape by using an ironing board as a bridge to the roof of an adjoining building. The board turned under her and she was hurled into the airshaft.

Mrs. Healy, with a policeman, went to Mrs. Cavanagh's rooms to serve a summons. A knock on the doors alarmed the man and woman, and there was a mad race to escape.

**THE TRIAL WILL NOW BE POSTPONED**  
**OTHERS MAY BECOME PARTIES TO ACTION**  
**Sir Richard Musgrave Expected to Come and Give Evidence in the Case.**

The counsel for the plaintiff in the Hopper vs. Dunsmuir will case have gained the consent of the court to an adjournment of the trial until a later date. It is now believed that Mrs. Joan Dunsmuir and James Dunsmuir's sisters may become parties to the action. The presence in court of Sir Chas. Hibbert, Tupper, counsel for these parties, and the deep interest which he has taken in the proceedings so far prompts this supposition. A few days ago Sir Charles stated in court that he might take steps to have the interests of his clients represented in the action. Mr. Davis, objecting to an adjournment upon the grounds that Sir Charles was about to make such an application. With the assurance of His Lordship this morning that the date of the trial would be postponed it is confidently believed that other members of the Dunsmuir family will become parties to this action. It is thought they will join issue with Edna Wallace Hopper in the attempt to break the will.

When court resumed this morning E. V. Bodwell in making an application for a postponement of the trial stated that the plaintiff had come into possession of facts which were very material to the action. He read a statement made by H. Dallas Holmeken under affidavit, dated 8th July, that Sir Richard Musgrave and a sister of James Dunsmuir were marginal witnesses, and that it was essential that the trial should be postponed until those witnesses could be obtained. It would require a little time to get these witnesses. He had been informed by Sir Chas. Tupper that there were reasons for believing that they would be willing to come to Victoria and give evidence. On this ground they were to be communicated with.

A. F. Luxton's affidavit was also submitted by Mr. Bodwell, in which the former stated that Judge Coyne in New York a short time ago had stated to Mr. Luxton that he did not intend to call Sir Richard Musgrave.

An affidavit of Judge Coyne set forth that in his conversation with Mr. Luxton he had not given any assurance that Sir Richard would not be asked to give evidence. Judge Coyne had recalled to his mind a conversation with Sir Richard Musgrave from which he believed material evidence might be given.

**WILL CONTINUE STRIKE.**  
Cumberland Miners Decide Not to Return to Work.

(Special to the Times.)  
Nanaimo, July 9.—A majority of Cumberland miners have decided to continue the strike, after having received a report from delegates who conferred with Mr. Moore at Lasquith. About twenty, however, were dissatisfied with the outlook and have announced their intention of seceding from the union and resuming work next week. The Western Federation is distributing reformed funds amongst the strikers to-day to the extent of \$1,000.

**EARTHQUAKE SHOCK.**  
Capetown, July 9.—The most violent earthquake in twenty years was felt here at noon to-day.

**TURBINE A SUCCESS.**  
New Steamer Queen Averaged Twenty-Two Knots an Hour.

London, July 9.—The new turbine steamer, the Queen, has taken her place in the regular service of the P&O. Co. (Galle) in connection with the London-Paris service. On her trial trip across to France the vessel did much better than expected. She made the passage averaging 22 knots an hour, showing a speed much of the way of 23 knots. The inventor of the Queen predicts that Atlantic liners will be propelled by the new engine within five years and that a day will be clipped from the passage.

**STUDENTS ARRESTED.**  
Taken Into Custody When Entering Synagogue to Attend Memorial Service.

London, July 9.—According to a Vienna dispatch to the Times, a memorial service for the victims of the Kishinev massacre was held yesterday in the synagogue of the Austrian capital. The students, wishing to show their disapproval of the massacre, decided to attend in a body. At the entrance to the synagogue they were surrounded by gendarmes and arrested. They will be prosecuted for disturbing the public order.

The carriage and wagon repository of Studobaker Bros. at Market and Tenth streets, San Francisco, was destroyed by fire on Wednesday, causing a loss estimated at \$200,000.

**MILLS BURNED.**  
Fire at Port Arthur Destroys Lumber Valued at \$7,000—Sixty Street Cars Collide.

(Associated Press.)  
Port Arthur, Ont., July 8.—Fire has completely destroyed Vigar & Co.'s planing mill together with a quantity of lumber. Two C. N. R. cars loaded with lumber were also burned. The loss is about \$7,000; insurance \$2,000.  
Two cars on the street railway collided at the corner of Cumberland and Bay streets, resulting in the injury of several people. Motorman Tapp had a leg cut off above the ankle, and sustained other injuries. Harry Scott, of Fort William, had his head driven through a window, and was cut badly on the face and head. Mrs. King, Fort William, was injured slightly. The front of one car was badly wrecked. Motorman Tapp was pinned under the wreck, and only with difficulty was extricated from the position. The Melbourne-McDowell Co. presented "Defora" at the hall, and a car was dispatched after the performance at Fort William at 11 o'clock, and under the orders of the superintendent, was to proceed slowly, watching for the other. It came around Johnstone avenue to Bay street, and as the car from Port Arthur approached Bay street, the motorman seemed to lose his head as he did not apply the brake.

**JAPANESE CABINET CRISIS.**  
No Settlement Yet Reached—Protest Against Cable Laying by Russia.

(Associated Press.)  
London, July 9.—The Tokio correspondent of the Times says the Japanese cabinet crisis is still unsettled. The leading journals bitterly lament the incident, which they claim tends to create a false impression regarding the nation's mood in questions of foreign policy on which Japan is unanimously resolved. It is understood that the crisis is due to the interference of the elder statesmen, who hamper the action of the ministry.  
The Russians, continues the correspondent, have laid a cable from Antung to Yenchoway without consulting Korea. Japan has protested that Korea is bound to prevent a foreign power acquiring any telegraphic privilege interfering with Japanese interests. Japan is pressing for the opening of the Korean port of Wiju, the great depot of the overland trade with China. Korea pleads that Russia objects, and Japan claims that the objection is irrelevant, and the decision lies with Korea.

**GERMAN MEAT LAW.**  
Belgian and Dutch Shippers Are Capturing Trade Owing to Its Provisions.

(Associated Press.)  
Berlin, July 9.—The German Meat law, which went into effect in April, is having more serious consequences than were anticipated. As the regulations required the inspection of meats and lard to take place in bonded warehouses before export, and the inspection fees are heavy, the German merchants complain that they are placed at a great disadvantage in transit trade. They had hitherto supplied Austria and Switzerland with American meats and lard, sending it directly from the bonded warehouses without expense. But since the meat law has been applied, the Belgian and Dutch shippers are getting all the German and Swiss trade and Germany is losing the transit profits. The German shippers therefore are calling loudly for the abolition of the inspection requirements in the case of export goods.

**ONE MILLION FOR COAL.**  
Big Deal Has Just Been Completed in West Virginia.

(Associated Press.)  
Charleston, W. Va., July 9.—One of the largest coal deals in the history of this section has been closed here by Garbush and Garbush capitalists. They sold 16,000 acres of coal lands in Wetzel county, the Perry Coal & Coke Co.'s property at Adadstown, the Poso Coal & Coke Co.'s plant near Lumber Port, and the Howard Coal & Coke Co.'s mines and property at Wilsonburg, to the Pittsburgh & Fairmont Fuel Co., a New York corporation, with a capitalization of \$2,250,000. The price paid was \$1,000,000.

**SIOT HIS WIFE.**  
Baltimore, Md., June 23.—At an early hour this morning Frank Manley shot and killed his wife while she was sleeping in bed. She was shot four times in the head. Manley says he was dreaming and imagined he was shooting at a burglar.

**LOST ON BEANS.**  
Chicago, July 9.—A dispatch from San Francisco says: "After losing \$45,000 on cornering the Lima bean market and securing 6,000,000 pounds to find nobody who wanted the beans, Lyden & Co. have assigned." The liabilities will amount to \$200,000, and the assets are estimated at \$25,000."

**King Edward, Queen Alexandra, President Loubet, the Prince and Princess of Wales, the Duke and Duchess of Connaught, Foreign Minister DeJesse, Ambassador Cambon and others were present at the manoeuvres of the First Army Corps at Aldershot on Wednesday. Sixteen thousand troops of all arms passed in review.**

No Guesswork. When you want your medicines prepared without guesswork, of pure quality, by skilled pharmacists, send your prescriptions to us.

No More Use For Gas. SO SAYS EDWARD VII., KING OF ENGLAND. You will be of the same mind when you have compared Electric Light with the aforementioned out-of-date illuminant.

LIFE CONTINUES TO HANG BY THREAD. THE POPE'S BREATHING WORSE THIS MORNING. His Wonderful Vitality Assists in Combating a Complication of Diseases.

Great Britain Seems to Be on the Verge of a Famine. New York, July 8.—The Herald's London special telegram says: "The attention of speculators is being turned toward lead by certain financial newspapers."

MASSACHUSETTS SAFE. Hortá, Azores Islands, July 8.—The United States battleship Massachusetts and the converted yacht Mayflower, accompanied by the colliers Caesar, Sterling and Lehman, arrived at Fayal yesterday and reported all well on board.

DEATHS FROM HEAT. Chicago, July 8.—Three deaths and a number of prostrations were reported to the police to-day as a result of the heat. At 2:30 p.m. the government thermometer registered 93 degrees, which is the highest so far this year.

CHILL WINDS. Are the dread of those whose lungs are weak? Some fortunate people can follow the summer as it goes southward, and escape the cold blasts of winter and the chill airs of spring.

CANADIAN NOTES. Farm Laborer Killed by Horse and Killed—Synod Meeting. Winnipeg, July 8.—The synod of the diocese of Rupert's Land met in annual session here tonight, when Archbishop Machray delivered the opening sermon.

Bar's Reception. Rev. Mr. Barr, founder of the All-British colony, who returned to this city this morning from Bireford, was greeted with a fusillade of rotten eggs fired by a party of colonists, who were disgusted with the actions of the reverend gentleman. Mr. Barr was not injured, and there was one arrest.

THE CREATIVE HOUR. Mr. Chamberlain's Speech to Representatives of Colonial Universities.

Toronto, July 8.—The News's London cable says: "To-day Sir Gilbert Parker lunched in the Commons' restaurant with about 40 representatives of colonial universities. Among those present were Lord Strathmore, Principal Peterson of McGill, Christopher Robinson of Trinity College, Toronto; Dr. Cameron, Professors Reeve and McPhedram of Toronto; Hon. Messrs. Chamberlain and Ritchie were also present, but the latter left before the Colonial Secretary arrived."

THE VISITING FLEET. United States Naval Officers Will Attend State Ball at Buckingham Palace. London, July 8.—Rear-Admiral Cotton, Capt. Hemphill, United States flagship Kearsarge, and the other American officers, who are to attend to-night's state ball at Buckingham Palace, arrived in London this afternoon, accompanied by Rear-Admiral Milne, the representative of King Edward, and took up quarters at various hotels, as guests of the nation.

THE POPULAR GORGE TRIP. Our leading citizens and visitors patronize the elegant steam launch Kootenay in her unrivalled and delightful trip to the beautiful Gorge, leaving Jones's boathouse sharp on the hour, three times in the morning, five in the afternoon and twice in the evening.

DO NOT NEGLECT YOUR DUTY. REGISTER YOUR VOTE AT ONCE. The American treaty negotiations are deadlocked owing to the failure of Chinese authorities at Peking to reply to the demand for the opening of Manchurian ports to the trade.

YEAR'S REPORT OF THE TYEE COMPANY. STATEMENT OF WORK CARRIED ON AT MINE.

The Smelter at Ladysmith Has Given Very Satisfactory Results Since Its Blow-in. The annual report of the Tyee Copper Company, Ltd., has been received. It is a very gratifying one, showing the possibilities of the Vancouver Island mines.

"In giving an estimate of the ore reserves of my mine, I would say that they must be spoken of as probable ore reserves, as in the strict sense of the term, we are exposed on four sides, there is very little that could be counted on. It would be almost an impossibility in the Tyee mine, to expose any very large amount of ore in that way, without going to a very large and unnecessary expense, as the ore bodies are so irregular in shape that they would have to be simply honeycombed with workings to really expose all the ore in them."

"The work in this mine has, therefore, been laid out, more with a view to finding bodies of ore, and then to extracting the ore from them in the most economical way, than exposing as much ore as possible, in each body; and this being the case, I have, in calculating the ore reserves, been guided by previous results of work in this mine. Best estimates of known bodies, I made my estimates on the same way before stopping was begun, and I have since found that the estimate I then gave, viz.: 62,500 tons, was below the amount subsequent work on the then known bodies has proved."

"I feel confident that this will be found to be a most conservative estimate, and that during the present year they will be largely added to."

"I feel confident that this will be found to be a most conservative estimate, and that during the present year they will be largely added to."

OFFICERS ELECTED. The Trades and Labor Council Have Appointed Their New Executive.

At the meeting of the Trades and Labor Council held last evening considerable discussion took place as to the re-appointing of some of the delegates, particularly those from the Millmen and Hackmen's Union, which were abandoned by the American Labor Union. Finally these delegates were appointed, and the election of officers for the ensuing six months followed.

The following were elected: President, J. C. Watters; vice-president, A. E. McEneaney; secretary, Christian Sivertz; treasurer, O. L. Charlton; sergeant-at-arms, J. H. Smith; executive committee, J. C. Watters, F. E. Dangerfield, A. D. McLaughlin, F. T. D. Hodges, C. Sivertz.

The annual statement of the secretary showed that there were 25 unions affiliated with the council, averaging 57 accredited members. The balance sheet showed the receipts for the year were \$351.54, and there was \$120 cash in hand.

"I GAINED FIFTEEN POUNDS." AND WAS CURED OF NERVOUS EXHAUSTION, INDIGESTION, AND HEART TROUBLE BY FERROZONE.

From Wakefield, Ont., comes news of the remarkable cure of Mrs. Cross. She suffered from nerves that had been shattered and almost ruined by poor health. Numbers of skillful physicians failed to alleviate her suffering. Almost every remedy was tried without avail.

**WEATHER BULLETIN.**

Daily Report: Furnished by the Victoria Meteorological Department.  
Victoria, July 9—5 a. m.—The summer type of high barometric pressure now covers this province and the adjoining states. It is causing fine and warmer weather throughout the Pacific slope. These conditions are likely to continue for several days. Showers have again occurred in Alberta and also in Manitoba.  
Forecast:  
For 26 hours ending 3 p. m.—Friday: Victoria and vicinity—Moderate to fresh winds, chiefly westerly and northerly, fine and warm today and Friday.  
Lower Mainland—Light to moderate winds, fine and warm to-day and Friday.  
Reports:  
Victoria—Barometer, 30.04; temperature, 43; minimum, 32; wind, 10 miles S. W.; weather, fair.  
New Westminster—Barometer, 30.04; temperature, 56; minimum, 56; wind, 4 miles E.; weather, cloudy.  
Kamloops—Barometer, 30.00; temperature, 56; minimum, 56; wind, calm; weather, fair.  
Barkerville—Barometer, 30.02; temperature, 42; minimum, 40; wind, calm; weather, cloudy.

**THE NEW CHURCH.**  
Another home to God erected, somewhere else His praise to sing,  
Still another temple builded for the honor of our King;  
He, who reigns o'er earth and heaven, is most merciful and kind,  
Then when we His temple enter let us leave the world behind.  
Well we know no mortal building can contain the Lord of might,  
Who pervades both earth and heaven though now hidden from our sight,  
Yet we feel His presence nearer when we raise the prayer and hymn,  
While He seems to bless His children and remove their every sin.  
So let us implore His blessing on the house we call His own,  
Though His footstool is the planets and the heavens are His throne,  
Let us ask a Father's blessing and an increase of His grace,  
Till within His heavenly temple we behold Him face to face.  
**CONGREGATIONAL.**  
As a result of the urgent representations from Austria and Russia, Prince Ferdinand has given the strongest assurance that Bulgaria will make no further military preparations against Turkey.

**ATTRACTIONS FOR THE COMING SHOW**

**EXECUTIVE PROPOSE THREE DAYS' RACES**

**Suggested That a Mineral Exhibit from Vancouver Island May Be Arranged.**

A meeting of the B. C. Agricultural Association was held last evening in the city hall. Among those present were Mayor McCandless, Ald. Yates, W. LePoe Trench, H. D. Heineken, K. C. Watson, Clarke, Anton Henderson, M. Baker, R. Scabrook, W. J. Hanna, Handress, Clarke, F. Olsen, F. Sere, J. Shopland, G. F. Higgins, Lawrence Goodacre, James Christie and B. G. Moore.  
Mayor McCandless, the president, in opening the meeting announced that the meeting was one of the four regular ones held each year.  
The secretary read a condensed report of the conclusions reached by the executive as to the changes in the constitution of the board of management and respecting the arrangements for the coming exhibition. It was as follows:  
At a meeting of the board of management, held in the city hall, a special committee, acting with the city solicitor, reported on the constitution, recommending "that at the next annual meeting of the B. C. Agricultural Association the board of management be reduced to five, to include His Worship the Mayor, two members to be nominated by the city council and two by the British Columbia Agricultural Association, this board to have the full control of the affairs of the association and the appointing of all officials. And in the meantime the present board of management appoint from their members an executive committee constituted as above, who shall have the same powers until the next annual meeting of the association."  
This was passed by you unanimously, and the following members elected as representing your association: Dr. Tolmie and Mr. M. Baker, Ald. J. S. Yates and Mr. Fred. Norris were appointed as representatives of the city council on the executive.  
On May 13th your executive met and decided to advertise for applications for the position of secretary, as a result of which Mr. Robert H. Swinerton was appointed.  
The executive have appointed committees as shown on memo, "A," attached hereto.  
The prize committee has met several times and amended the prize list, particularly that portion relating to the "Poultry Division" adopting the plan of the Victoria Poultry and Pet Stock Association which Mr. Christie, secretary of that association, advised would give more satisfaction than the method used in previous years.  
It has been decided to publish the prize list, a book similar in design to that of last year, but with a more attractive and handsome cover, and offer 12 pages to the public for advertising matter. For the purpose of securing the advertisements, a committee consisting of Mr. Norris, Ald. Yates and Mr. Baker has been appointed, and they have been engaged in this work the past few days. The rates are \$25 for the inside page, \$50 for back of cover and \$35 for inside cover. The book will cost something over \$200, and should the advertising committee be successful in their endeavors the book will be more than paid for. A proof has been received and it is hoped soon to have it in the hands of the exhibitors. A large number of valuable special prizes have been offered and an endeavor will be made to publish as many as possible in the regular prize list.  
The legislative assembly passed the estimates which included \$3,000 for this exhibition. In connection with this, we might say that the uncertainty as to whether this would be passed owing to the political situation caused some little delay in proceeding with the arrangements for the exhibition; should this not have been passed it would have been practically impossible to have held one this year.  
The secretary has been instructed to procure proper books of accounts and to keep an account of all receipts and expenditures classified under their proper headings. Requisition books have been purchased and the purchases made under the account for same recognized unless a requisition has been issued and signed by the secretary. This is necessary as a check on any unpaid accounts. No expenditure or liability will be incurred without the authority of the executive.  
All accounts for last year are being referred to the city for payment.  
Application has been made for bonds with the London Guarantee Co., covering the \$1,000 and \$250 respectively.  
The sports and attractions committee have met and reported, and it has been decided to hold three days' horse races. Last year this proved to be about one of the best paying attractions; the grand opening and grand parade of stock has been arranged for Tuesday, October 6th. His Honor the Lieut.-Governor has kindly consented to open the exhibition, Wednesday (Children's Day) has yet to be arranged for, Thursday (Citizens' Day) to be a public holiday, races at 2 p. m. sharp, Friday (American Day) races at 2 p. m. sharp, Saturday (B. C. Day) races at 2 p. m. A programme of the races, which has been practically decided on, is submitted on memo, "B" attached hereto.  
The band attractions and entertainments for the evening are under consideration, and nothing of a definite nature has yet been arranged for. It is hoped, if possible, that the Arion Club may give one or more concerts, which would be an excellent evening's entertainment.  
An island mineral exhibit is under consideration, and it is intended to make this a special feature which will show the development of the mineral resources of the Island. It is expected that the Tye and Crofton smelters will be willing to cooperate, and with products from these smelters a very interesting and instructive exhibit can be shown.  
It is thought, if it can be economically arranged for, that power should be installed so that it would be possible for manufacturers to demonstrate their various industries. This in itself would prove a great attraction, and would, in addition, be an excellent means for manufacturers to advertise their products. A large number of manufacturers and business men of Victoria are already taking quite an interest in this.  
As yet the committee have not had sufficient data or time to complete an estimate of the receipts and expenditures.  
A communication has been received from Mr. J. R. Anderson, deputy minister of agriculture, in which he informs the association that judges would be furnished by the Dominion authorities, and that the extra expense was last year for the same number of judges as last year would not exceed 50 per cent. over that of last year, which he stated to be \$120. This matter is under the consideration of the live stock and poultry committee, and nothing has been definitely decided upon.  
Your executive committee would suggest that after the business of the exhibition has been completed, the constitution and by-laws of the association be revised. The Agricultural and Horticultural Society's Act, under which the association is formed, requires two transcripts of the by-laws, rules and regulations, as framed from time to time, shall be forwarded to the registrar-general of titles, one of which shall be filed in his office, and the other shall be endorsed by him and a certificate issued of such filing and returned to the secretary of the association. Such transcripts have not been so filed.  
A suggestion was made by Mr. Bullock, of Salt Spring Island, our fourth vice-president, to adopt a plan as used in Old Country fairs, of requiring exhibitors to state on the entry forms whether or not the animals exhibited were for sale, and if so, stating the price, which was afterwards ticketed on the animal. Purchases could be made by simply dealing with the secretary the purchase price on which the association charged a commission of 5 per cent. This information was also given in the printed catalogues. The executive have decided, while not adopting the whole of the above plan, to permit or request exhibitors of the stock to give a price on the entry forms, if for sale, and such price will be marked on the entry tag. This will serve as an experiment to see whether such a plan will meet with the approval of exhibitors in this country, without having to go to the expense of printing and preparing catalogues.  
W. LePoe Trench introduced the subject of district exhibits. He said that there had last year been some exception taken to the arranging of the quarters for the displays. He thought that perhaps something might be done in the way of allowing the district exhibitors an opportunity to arrange in part their own exhibit.  
It was thought that perhaps something could be done in this matter.  
Mr. Christie, president of the Poultry Association, suggested offering prizes for dressed poultry.  
B. G. Moore in referring to the importance of having exhibits in this class gave warning that in exhibiting dressed poultry the fowl should not be drawn, as it would not keep in that condition.  
After the discussion of a few other points the meeting adjourned.  
Jas. W. Pope, the Canadian expert in connection with the Alaska boundary controversy, who has also been named as principal assistant to the Canadian agent, in the preparation of the Canadian case for submission to the commission, which will meet in London in September, called at the state department, Washington, on Wednesday, and began the examination of the originals of some of the important charts to be presented by the American side in support of its case.  
The Belgian chamber of deputies which has been discussing the charges brought against the administration of Congo Independent state, by 41 to 35 votes passed the order of the day, expressing agreement with the government and confidence in the moral development and prosperity of the Congo state under the direction of King Leopold.  
**BABY WEATHER.**  
Little Fellows Don't Like the Hot Days.  
Mothers should know exactly what food to give babies in hot weather.  
"With the broiling hot days in July and August the mother of a baby is always anxious for the health of her little one, and is then particularly careful in feeding him. Milk sours quickly and other food is uncertain. Even in spite of caution, sickness sometimes creeps in and then the right food is more necessary than ever.  
"Our baby boy two years old began in August to have attacks of terrible stomach and bowel trouble. The physician said his digestion was very bad and that if it had been earlier in the summer and hotter weather we would surely have lost him.  
"Finally we gave baby Grape-Nuts food, feeding it several times the first day, and the next morning he seemed better and brighter than he had been for many days. There was a great change in the condition of his bowels and in three days they were entirely normal. He is now well and getting very strong and fleshy, and we know that Grape-Nuts saved his life, for he was a very, very ill baby. Grape-Nuts food must have wonderful properties to effect such cures as this.  
"We grew-up as in our family all use Grape-Nuts and also Postum in days of coffee, with the result that we never, any of us, have any coffee, tea, but are well and strong." Name given by Postum Co., Battle Creek, Mich.  
The reason Grape-Nuts food relieves bowel trouble in babies or adults is because the starch of the grain is predigested, and does not tax the bowels, nor ferment like white bread, potatoes and other forms of starchy food.  
Send for particulars by mail of extension of trial on the \$1,000.00 contract for 700 money prizes.

**CONSERVATION OF THE ISLAND SPORT**

**INTERESTING MEETING OF THE GAME CLUB**

**Timely Communications on the Subservicing of Game—Report of the Executive Adopted.**

At last night's meeting of the Vancouver Island Fish and Game Club, in the Tourist Association rooms, an interesting letter was read from T. W. Lambert, M. D., of Kamloops. He pointed out that immediate action was necessary if both large and small game as well as the fish of the province are to be subserved as an attraction for sportsmen. In Lillooet and Chilcotea and other places where sheep are found no means are taken to check the number of heads taken, or whether ewes or lambs are spared. The Indians form large hunting parties in the spring and fall, and slaughter all the deer they can find, the carcasses being left to rot and only the hides and choice portions taken. Dr. Lambert also ascertained that trout fishing in the Thompson and the Kootenay rivers has fallen off, which he attributed entirely to the lumber mills being allowed to dump their sawdust into the rivers in question. He suggested that the real remedy lies in a system of supervision by the government in the appointment of a head game warden for the province, with country game wardens throughout the country.  
Upon the motion of S. P. Mills, seconded by E. Musgrave, the letter was received with thanks, the writer to be advised that the jurisdiction of the local club was confined to Vancouver Island, but that everything would be done to assist the inferior sportsmen in remedying their grievances.  
The executive committee's report was adopted. It is as follows:  
The executive committee having met and considered the matters referred to them, especially the preparation of a programme for improving Vancouver Island, beg to report as follows:  
1. That advantage should be taken of a low state of the water in the mill stream at the outlet from the lake into the stream to remove obstructions which the club are advised to prevent access by the fish to the stream for spawning purposes, and that the work of removing the obstruction should be done under the supervision of a qualified person.  
2. That your committee recommend the appropriation of \$100 for the foregoing object.  
3. That your committee having considered the reports of Mr. Fetters and the statement of Mr. Babcock, fishing inspector, recommend that the question of obtaining a licence to stock the waters and the construction of ladders should be energetically pushed forward, and that in regard to the construction of fish ladders be publicly announced, and that special subscriptions be asked from land owners, fishermen and others interested.  
4. That the committee recommend the continuation of the club's efforts to obtain a stock of Salmo fontinalis and Loch Leven trout from England. All of which is respectfully submitted.  
THOS. SHOTBOLT,  
Chairman.  
The following interesting letter was also received.  
"Mr. Munro-Ferguson has let Nova House, his place in Ross-shire, to an American gentleman for six weeks, from August 12th, at a rental of \$1,500. This is the sum which the Duke of Argyll gets for inventory 'castle for the season.'  
The above clipping may be of use and interest to you, as it proves the immense value of sport at the present time. The sport of this estate was let for the whole of the season of 1899 for the sum of £1,600, so that in the short space of four years it has more than doubled in value for one-sixth of the season. This is owing to a small river about the size of the Koksilah, and certainly not as good from an angling point of view as the Koksilah was 10 years ago. The legal season is from February 11th to October 31st. There is also some grouse shooting attached. The name of the river is Aultgraet, and is about seven miles long and contains salmon, sea trout and brown trout. The market value from an American point of view is at the rate of about \$1,000 per week.  
As it is to be anticipated that salmon angling will continue to increase, in value at the same rate it has been doing the past 25 years, a line will rapidly approach, when fairly good angling water (for salmon) will be worth at least \$1,000 per mile per week. When one remembers that, with the exception of Scotland and Norway and some of the Maritime Provinces, Vancouver Island is the only place in the world where salmon angling is to be obtained, it appears to me that it is worthy of an effort to protect what little remains for the benefit of the province. Were our Island rivers properly protected and conserved, a time is coming when they would yield a revenue greater than that of the best of the salmon lochs. A few years ago, before the salmon were practically exterminated in the Cowichan river by illegal methods, were caught round Victoria and Esquimalt during the months of March, April, May and June to supply the local market, besides furnishing magnificent sport to residents and visitors, such as could be obtained in no other country, and which was of great importance as an attraction to visitors; in fact, I may say, the greatest attraction.  
Thinking of the present state of affairs, we have to send to Seattle and France

river for our market supply; while for sport, there remains none!  
The Commissioner of Fisheries, in his last report to the Minister of Marine and Fisheries, states as follows: "I have come to the conclusion that the decline in the fisheries of inland waters is more directly due to obstructions, natural and artificial, than to any other harmful cause."  
Notwithstanding this report we find the passage of fish on the Cowichan river entirely blocked by illegal obstructions, such as weirs, etc., while both salmon and trout are noticed out in the most open manner during the whole year round. Every visitor or from the district has the same complaint to make, viz.: The river obstructed throughout its whole course by illegal weirs which entirely prevent the ascent and descent of all fish, while the pools in the immediate vicinity of the weirs are netted daily, and nightly, and no attempt is made to put a stop to the practice. It is therefore not surprising to learn that our Island rivers are destroyed, and one of the greatest sources of wealth in the country deliberately thrown away for want of a little supervision and intelligent handling. It appears to me that this would be an excellent opportunity to obtain the co-operation of the C. P. R. Co., as they have now practically decided upon expending a large sum of money in this city to encourage tourist travel, and no greater inducement could be offered to the wealthy class of tourists than really good salmon angling.  
During the past certain ignorant or malicious persons have systematically spread reports in other countries that salmon do not take a fly in the waters of Vancouver Island. There is not one word of truth in this report; on the contrary, salmon take a fly in our island rivers, even better than in many of the most celebrated salmon rivers in the old country; all that is necessary to catch them being the knowledge of how, when and where to fish for them.  
Trusting your association will continue its valuable work and obtain the necessary reforms before it's too late.  
J. H. P.

The executive will deal with the matter of appointing a competent person to superintend the proposed construction of ladders and removal of obstructions in Cowichan river. In order that these improvements may be carried out funds will be necessary and special efforts are to be put forth to increase the membership of the club and to secure additional subscriptions.

A Teething Child Must Have Proper Diet and No Change of Food in Hot Weather.

Teething itself rarely causes illness. It is the changing of food during the period that causes trouble and danger. When care is taken to feed the child with life-giving and nourishing Lactated Food, the little one will fully develop and keep well during the time of dentition.  
Thousands of grateful letters from mothers tell of babies' lives saved by Lactated Food after all other forms of food failed to nourish and build up the body. When mothers feed their babies on pure and life-giving Lactated Food, the use of medicines is unnecessary. If your baby is cross, irritable and weak, be assured dear mother that you can make it bright and strong by feeding it with Lactated Food. Get it from your Druggist; every tin guaranteed fresh and pure.  
Mrs. Jas. Thorpe and Pearl McDonald her daughter, who were arrested charged with the murder of the woman's husband, have been released from jail at Jackson, Michigan. An examination failed to show any evidence to hold them.

Curse Drink—Colonial Remedy Cured By—No taste, no odor, can be given in glass of water, tea or coffee, without patient's knowledge. Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.  
ENDORSED BY MEMBERS OF W.C.T.U. Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards and the cure have been many. In many cases the Remedy was given secretly. I cheerfully recommend and endorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to add to us in our temperance work."  
Sold by druggists everywhere and by mail. Price \$1. Trial package free by writing or calling on Miss M. A. Cowan for your member of the Woman's Christian Temperance Union, 2204 St. Catherine St., Montreal.  
Sold in Victoria by THOS. SHOTBOLT, 50 Johnson Street.

REGISTER

EVERYONE WHO HAS NOT REGISTERED HIS VOTE SINCE WEDNESDAY, 17th DAY OF JUNE, 1908, MUST DO SO WITHIN FOURTY DAYS, OTHERWISE HE WILL HAVE NO VOTE AT THE NEXT ELECTION.

THE COLONEL'S RETIREMENT.

Colonel Prior announces that he has retired into his shell and from the provincial political field. We are sorry for that. The fights in which the Colonel has been mixed up have always been interesting.

Then the Colonel says there are several reasons for his decision not to run. He gives publicity to but one of them as above. The others, we are sure, would be quite as interesting.

WEIGHING IN THE BALANCE.

This is a statistical age. The value of every factor that enters into the economy of human activities in progressive nations is more or less accurately computed by figures.

they have placed on the market. Every grain of wheat, threshed, every ear of corn or turnip plucked from the ground, every pound of meat turned over to the butcher, is weighed in the balance, and the profit therefrom more or less accurately computed.

Measured in dollars and cents the combined value of the two is more than double that of the combined gold and silver production of the country, and six times that of the wool crop.

THE REAL OBSTRUCTIONISTS.

Yes, it is true the Times has done all in its power to show the absurdity of the present regulations governing the taking of salmon in British Columbia waters.

The local jealousies to which the Colonel refers undoubtedly exist and have been instrumental to some extent in maintaining the present conditions, utterly illogical and unreasonable though they be.

But local jealousies are not the sole cause of the slow movement in the direction of reasonable and common sense methods. There are more responsible influences operating.

SOME COMPARISONS.

The Treadgold concessions trouble the soul of our esteemed contemporary greatly. The election of Mr. Ross, with the light it throws on the strength of the cult of Toryism in the West, annoys it a great deal more.

In the Eastern provinces the Liberals had been challenged more than once to a fight for honors, on party lines, in the provincial field.

CLOCKS CLOCKS CLOCKS. There is nothing more useful and ornamental in a house than a good clock. In our stock you will find almost every kind and at all prices: ELECTRIC CLOCKS, OFFICE CLOCKS, MANTEL CLOCKS, in marble or polished wood cases, FRENCH CARRIAGE CLOCKS, ALARM CLOCKS, SMALL DESK CLOCKS, CLOCKS FROM 75c UPWARDS.

Victoria's Popular Store. **THE Westside** July 9th, 1903.

**SUMMER SALE**  
**Friday, "Remnant" Day.**

On Friday we'll give special attention to remnants, odds and ends, etc. The small lots, incomplete assortments, soiled or mussed goods, and any lines we want out of our way before this Summer Sale closes, are to be dealt with in a way that will make short work of their existence here. Where quantities are too small, they'll go on sale without newspaper mention. These columns merely tell of the lots of which liberal quantities remain, and from them you glean ideas of the price-cutting that will prevail. It goes without saying that there'll be rare bargain-picking for shoppers who come to the store and keep their eyes open, and those who come early will fare better than those who wait.

**Kid Gloves**  
Ladies' Fine French Kid Gloves, in all shades, lacing or elastic; all sizes; "Per-Fine" make. Regular price \$1.25 a pair. **FRIDAY**

COMMUNICATIONS. THE TERMINAL RAILWAY.

To the Editor:—Is the city council playing fair with the Terminal Railway Company? The company is giving the service contracted for, and I cannot understand why there should be any quibbling over the fact that the ferry steamer was not wholly built expressly for the purpose...

There is another aspect of the case. I suppose that the company contemplates a bond flotation. Delay in closing the contract with the city may greatly interfere with that...

#### Tenders for Sand

Tenders, sealed, endorsed "Tenders for Sand," and addressed to the undersigned, will be received up to 3 p. m., on Monday, the 27th day of July, 1903, for the supplying and delivering at the Filter Beds, Deaver Lake, of 1,000 cubic yards (more or less) clean, sharp sand, suitable for filtering purposes, as per specification, which may be seen at my office.

Each tender must be accompanied by a sample, not less than 100 lbs., of the sand which it is proposed to supply.

The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTT,  
Purchasing Agent.  
City Hall, 2nd July, 1903.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

#### NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF JOHN WALSH, DECEASED, LATE OF THE CITY OF VICTORIA, B. C.

Take notice that prolate of the last will and testament of the deceased has this day been granted to Mary Godfrey, the executor therein named. All persons having claims against the estate are requested to send full particulars thereof to the undersigned on or before the 15th day of July, 1903, after which date the executor will proceed to distribute the assets of the said deceased amongst the parties entitled thereto, having regard only to the claims of which they shall have had notice, and the executor will not be liable for the assets to any person or persons of whose claims she shall not have had notice at the time of distribution.

Dated at Victoria, B. C., the 2nd day of July, 1903.

BODWELL & DUFF,  
No. 2 Broughton Street,  
Solicitors for the Executor.

### NEVER BE BEHIND THE TIMES

When you have determined upon acquiring a bathtub—as who will not?—don't get the antiquated painted kind, but buy a modern porcelain lined tub such as we are pleased to sell you. The difference in luxury more than exceeds the difference in cost.

## A. SHERET,

TEL. 629. 102 FORT ST.

The Sunlight Maids are always through their wash at twelve o'clock.

## SUNLIGHT SOAP

With ordinary soap a woman has to work so hard and so long on wash day she has no time for preparing any of the family meals. Wash day is a trial, and the good wife faces each with a sigh of despair.

Sunlight Soap makes all the difference in the world. No soiling—no rubbing—no boiling—less than half the labor with much better results. Most women are all through their wash by twelve o'clock when they wash with Sunlight Soap the Sunlight way. It makes child's play of work.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO.

### PROVINCIAL NEWS.

#### MORRISSEY MINES.

Young Wilson died on Tuesday evening from the injuries he received in an accident in the afternoon. The body was shipped to Winnipeg for burial, accompanied by Dr. Wilson, brother of the deceased. Wilson was 17 years old and was a second year student at the Manitoba College.

#### NEW WESTMINSTER.

At the residence of the bride's parents, Rev. Father O'Neill on Tuesday tied the knot which united Miss Della Agnes Burke, daughter of Joseph Warden Burke of the R. C. Penitentiary, and Mr. William Ellis Morrison, of the staff of the Columbian.

The vital statistics for the half year ending June 30th were: Births, 93; marriages, 29; deaths, 97. For the last three months the returns were: Births, 56; marriages, 16; deaths, 41. The death rate in the city for June was the lowest for years.

#### VANCOUVER.

The executive of the Vancouver Horticultural Society has decided that owing to the backward season, which has militated against outdoor floral culture very considerably, the dates of the annual flower show be changed from July 14th and 18th to three weeks later.

Four lots of California apples and pears arrived on Monday night and were carefully inspected by Inspector Cunningham on Tuesday. The apples were found to be infected with the dreaded San Jose scale, and all were condemned. The pears were all in bad order and were also condemned. The entire shipment will be either cremated or reshipped to the United States.

"So far the sockeyes have not made their appearance in the Fraser," says Wednesday's News-Advertiser. "A few boats have been out 'prospecting,' but two or three fish have been the highest catches. Rev. Goro Kaburagi, secretary of the Japanese Benevolent Society, stated yesterday that he had handed to the Fraser River Cannery Association a letter that the Japanese would not fish for less than 10 cents per fish during July and 15 cents during August. Mr. Kaburagi, who left for Stevenson on the afternoon train, said that he had just received a reply from the Cannery Association, which had refused to agree to the demands of the Japanese. The letter pointed out that the white fishermen had agreed to work for 15 cents straight, and it was thus stated to ask them to grant the Japanese a higher rate. It was further stated that in the event of the Japanese causing a strike, the Cannery Association might withdraw their present offer, viz., 15 cents during July and 14 cents during August, and only pay what the state of the European market would warrant. A leading canneryman yesterday informed the News-Advertiser that, despite the decision reached at Sunday's meeting, he expected they would have plenty of both white and Japanese fishermen as soon as the fish began to run."
