## HUNDRED THOUSAND FOR NEW BUILDING

### Gets the Sum It Asked For---Whirlwind Finish in Its Great Campaign Last Night.

In a whirlwind finish that astonished the most sanguine, the Y. M. C. A. committee last night roped-out the sum for which they have been struggling for a fortnight and turned in subscriptions for a new building of \$100,000.

Chairs and stings from the big headquarters tent crowded the tidings of all those who rushed within four or five blocks of the tent. Then there were congratulations and the strain which has been on every committee member for days was relaxed. It was but natural that in some cases the exuberance was almost hysterical.

It is safe to say that not one hundred people in Victoria really believed the huge sum for which the committee would be obtained. It is believed that such a sum had been made up of which were in excess of two amounts that

Victoria has out-grown that stage and nothing could have proved it much better than the campaign just closed.

It was, moreover, a strictly local movement. There were two or three larger contributions expected from corporations or people outside Victoria, but they did not materialize, and hence the new building will be built on the money of the people of Victoria at large.

At the Finish...

After dinner last night was the testing time. The \$50,000 mark had been passed, but a long and dreary distance stretched to the \$100,000 mark. But the spirit of "never say fail" predominated, and as one of the committee said: "We just have to raise it."

Steadily by fives, tens and fifties the sums kept pouring in. They came in some instances from unexpected quarters, but in 90 per cent. of the cases they represented the work of some committee member. By 10 o'clock the ninety thousand mark had been reached, and it became evident that the resources of the workers, so far as outside help was concerned, had been almost reached. Several telegrams which were expected from the east had not materialized, and the committee looked blank.

Then the heroics of the play came in. Ten feet each the physical instructor demonstrated his athletic qualifications. The last bound brought him up in front of the big dial, and before the city-clock stopped he had swung the hand around to the limit. Just as he left the tent Chairman Long, of the Dreadnoughts, shouted out an additional contribution of \$122.50, which he had been keeping in reserve, so that the sum was over subscribed by that amount.

A fanned riot broke out immediately. Everybody cheered and some sang. There was a roar of cheering which was carried on to the street and followed some of the workers nearly to their homes. It was heard by Chairman McMicking as he went up his own steps in James Bay, and he says it was the sweetest kind of a lullaby.

Finally the workers joined in singing the Doxology, and Mr. Wilcox closed with a few words of prayer and thanksgiving. Then the workers went home to bed. Some are not up yet.

## NEARLY TWO HUNDRED KILLED IN STORMS

### Man Towns in the Mississippi Valley are in Ruins--- Later Reports May Increase Death Roll.

(Times Leased Wire.)  
Memphis, Tenn., May 1.—One hundred and eighty-two persons are known to be dead and 700 injured and not less than fifty towns in the Mississippi valley are in ruins as the result of the storm which swept over the country Thursday night.

Communication is being restored, but is far from satisfactory. When the wires, which were torn down by the storm, are replaced, it is almost certain that the list of dead and injured will be greatly increased.

The property damage will amount to millions of dollars.

## ANY CATTLE PERISH

(Special to the Times.)  
Winnipeg, May 1.—This week's snow storm and cold weather have worked havoc amongst the ranches of Southern Alberta. The older cattle came through all right, but hundreds of your heifers in calf succumbed. Gordon's Ironside, Winnipeg's exporters, suffered heavy losses.

## RESENTS ATTACK ON LEE MONG KOW

(Special to the Times.)  
Ottawa, May 1.—F. C. T. O'Hara, deputy minister of trade and commerce and chief controller of Chinese immigration, has given out an interview deprecating in the strongest manner some of the statements appearing in an article contributed to the May number of the *Huay Man's Magazine*, by H. B. Bennett, of Calgary.

The article in question is entitled "A Remarkable Canadian Chinaman," and refers to Lee Mong Kow, Chinese interpreter for the department of trade and commerce of Victoria. Much attention is given to the alleged part taken by Lee Mong Kow at an investigation held last summer in Montreal by Mr. O'Hara, pursuant to which several alleged Chinese merchants were refused free admission into Canada.

The article pleads "Lee Mong Kow is a most honest and deserving citizen in the eyes of his countrymen in Canada, and charges in effect that he is unjustly attacked as a Chinese spy by the government."

Mr. O'Hara says at the time it was no official Chinese interpreter. "A remarkable Canadian Chinaman," and refers to Lee Mong Kow, Chinese interpreter for the department of trade and commerce of Victoria. Much attention is given to the alleged part taken by Lee Mong Kow at an investigation held last summer in Montreal by Mr. O'Hara, pursuant to which several alleged Chinese merchants were refused free admission into Canada.

BOND ATTACKED

BY MORRIS MEN

Former Premier Meets Hostile Reception on Election Tour.

St. John's, Nfld., May 1.—Sir Robert Bond, the former premier met with a hostile reception yesterday when he attempted to land from a steamer at Western Bay, in the Bay district, for the purpose of addressing a political meeting. Sir Robert is touring the towns and villages along Conception Bay in the interest of his party. He was met by a crowd of voters in sympathy with Sir Edward Morris' party, and warned that the electors of Western Bay did not desire to hear him.

PNEUMONIA'S RACE WITH CONSUMPTION

These Two Diseases Mow Down Annually Ten Times More Than War and Famine Combined.

At this season of the two evils pneumonia is most to be feared. It develops quickly and if not taken in time leaves the patient but a slim chance for his life.

Who knows of a real trusty remedy that can be relied on to cure colds as quickly as Nerviline, it is impossible to find any thing that draws out inflammation, eases that tight, congested feeling, gives such sure relief as Nerviline. Why for fifty years in thousands of homes no other medicine is even kept.

COAST MILLERS BUY BACK FLOUR IN ORIENT

Will Be Sent Across Pacific and Shipped to the East.

Portland, Ore., May 1.—Flour, which the Pacific coast millers were over anxious to sell to the Orient early in the season at prices that did not in many instances pay for the cost of wheat and grinding, much less a profit to the miller, is actually being bought back by American flour men and will soon cross the Pacific by steamship and then go by rail to the east.

Sacramento, Cal., May 1.—With a smile on his lips, refusing to talk and disdaining the attendance of a priest, Antonio Cippola, a Sicilian, was hanged yesterday at the Folsom prison for the murder of Joseph Pirano.

"It's all right, boys," were the last words he uttered as the black cap was adjusted and he was dropped through the trap into eternity. Cippola has protested his innocence throughout, despite the damning evidence of his crime. He has refused to talk for the past few days and no clue to his accomplices could be secured from him.

They are: French Cook, Shirley Rosmore, Margaret Randolph, Cesarlass (two-year old), Belle of Brass, Bye Bye II, Maid of Gotham and Elizabeth Harwood. Other horses that arrived yesterday from Seattle were: Belonging to T. H. Boyle, Roy Jr., Matchem, Josie S., Meltondale, Servience, Canigue, Phosphorus and Fairy Ring. Cobart, the boy jockey from Los Angeles, will ride for the Boyle stable. Three animals, the property of J. Davis, named F. E. Shaw, Sempron and Christine A., and Redondo, and a two-year-old (unnamed) the property of J. James, also reached the city.

**JUNIOR LACROSSE SCHEDULE ARRANGED**  
**First Game Friday Night, May 14th—Three Teams Entered.**

A meeting of the Junior Lacrosse League was held last night at the office of the Victoria Sporting Goods Company, President Alex. Monteth acting as chairman. The most important business was the drawing up of the schedule for the season which is as follows:  
 May 14—North Ward v. Victoria West.  
 May 21—Victoria West v. Oak Bay.  
 May 28—Oak Bay v. North Ward.  
 June 4—Victoria West v. North Ward.  
 June 11—Oak Bay v. North Ward.  
 June 18—North Ward v. Oak Bay.  
 June 25—North Ward v. Victoria West.  
 July 2—Victoria West v. Oak Bay.  
 July 9—Oak Bay v. North Ward.  
 This schedule includes the season's engagements of the three teams in the junior league, and it is expected that the youngsters will show ability on a par with their seniors in the city, and will probably be the means of developing many good lacrosse players to fill the places of the veterans who will soon be dropping out of the regular ranks.  
 Most of the games will be played at Royal Athletic Park and the North Ward Club grounds. All games will be called at 8:15 in the afternoon, and contests will consist of fifteen minute quarters with a three-minute interval. Those who were elected to act as referees during the season were: R. Dewar, L. Sweeney and Alex. Stevens. The club colors will be as follows: Oak Bay, red and white; Victoria West, green and white; North Ward, blue and white.  
**Practice To-Morrow.**  
 The North Ward junior lacrosse team will practice to-morrow morning at 10 o'clock at the North Ward grounds, Quadra street. A full attendance is asked for.  
**THE RING.**  
**CHICK HUDSON WINS.**  
 (Times Leased Wire.)  
 San Francisco, Cal., May 1.—One-sided fights were the order last night at Dreamland, and no "comers" were developed. Chick Hudson, of Seattle, outroughed Johnny Murphy, of San Francisco, in a 15-round lightweight match. Fans who expected to discover a possible opponent of Battling Nelson as a result of the mill were disappointed. "Montana" Jack Sullivan won easily from Al. Nell in 25 rounds of poor going.  
 Most interest was displayed in the Hudson-Murphy match, but it proved to be such an uneven affair that the fans had a hard time keeping awake. Hudson started after Murphy at the outset and punished him severely in the first four rounds. After that he had everything his own way. Murphy was slower than ever, if that is possible, and not once did he have a chance.  
**MEDAL FOR NELSON.**  
 Rochester, N. Y., May 1.—Battling Nelson to-day is the proud possessor of a handsome gold medal presented to him by the Rochester Newsboys' Benevolent Association. The gift was in return for the interest the champion displayed in the fourth annual ball of the association on Wednesday, when he led the grand march.  
 The presentation was made at the conclusion of Nelson's sparring exhibitions with Kid Herrick and Lee Edlin.

**ATTEMPTED BLACKMAIL.**  
 San Francisco, May 1.—No charge has been placed against Benj. Sotie, under arrest accused of attempting to blackmail Rudolph Spreckels and Wm. O'Brien-Gunn, president of the Mechanics' Saving Bank. Sotie is said to have made a confession to the police that he attempted to extort 75,000 from each of his intended victims. The delay in preferring charges against the man is due to the fact that it has not been decided who shall appear as prosecuting witness. Cheap novels are said to have been responsible for Sotie's downfall.  
 Of the 5,000,000 inhabitants of London more than 1,000,000 have to live on less than 25s a week for each family.

HUNDRED THOUSAND FOR NEW BUILDING

(Continued from page 1). sible active building operations will begin. A site will first have to be selected and plans then drawn. This may take six weeks, but building should be actively in progress by midsummer.

When the Y.M.C.A. clock reached its \$100,000 mark, the energetic workers of the Women's Auxiliary also attained the much smaller but no less important goal, which they had set themselves to win, namely, \$3,000 for the furnishing fund of the new Y.M.C.A. Building. The ladies had \$1,900 in the bank at the beginning of the campaign, and they have during the past fortnight secured \$3,000, or more, making a total of \$4,900 and still a very great many ladies of the city have not yet been called on.

Table with columns: Citizens, Young men, Boys, Ladies' Auxiliary, Afternoon Total, Total. Values include \$18,470.50, \$3,825.25, \$25.75, \$5,000.00, \$19,922.50, \$109,327.75.

At the final luncheon of the committee held at noon to-day, speeches of congratulations and felicitation were made, the final returns indicating that the sum of \$109,312 had been subscribed.

FISHING BOAT GRANT PICKED UP DISABLED

Princess Beatrice Brings Halibut Steamer Into Vancouver.

Vancouver, B. C., May 1.—Washed about helplessly in a gale that raged along the British Columbia coast two days ago, the Seattle fishing boat Grant, formerly a United States revenue cutter, can consider that she has luck on her side. She is now anchored in English Bay, off Vancouver, with her tail shaft broken.

In the terrific gale of Thursday, which strewn the coast with small tugs and their tows, the Grant was caught just off the North Queen Charlotte Islands. She turned to run for shelter behind Haycock Islands, where the Levi Woodbury was captured some time ago.

Falling in this, the Seattle tug, now on her way here, will tow her back to her home port in all haste.

The Grant is owned by the San Juan Fishing & Packing Company, of Seattle. She was purchased from the United States government in 1906.

### MANIFOLD METHODS OF ADVERTISING

Great are the uses of adversity, but manifold are the methods of advertisers. The remark is provoked by a casual glance at the various strange methods adopted to attract and hold public attention for purposes of profit, says the Montreal Standard.

Of late there has been a revival of the old-fashioned method of fixing up a signboard with a name that will stick to the public memory. Some forty years ago several Parisian mourning shops adopted signs like "The True Remembrance," and "The Contemplation of Eternity," in the firm belief that a widow would rather buy her weeds from the "True Remembrance" store than from a prosaic person like Jean Laureau.

It was left to the advertiser of a soap to lay a vandal's hands on that pathetic ballad, "Mary and Her Little Lamb," which he altered thus:

"Mary had a little lamb,  
His fleece was white as snow,  
For every morn with—'s coap  
She washed him—don't you know.  
Now Mary never boiled the lamb  
She merely let him soak  
In soap and water overnight,  
And rinsed him when he woke."  
There is a tender, intimate strain about the poem that reminds one of the photographer who made a specialty of baby photographs. His advertisement read:

"Bring your dear little babies. If they don't sit still, I won't get cross. I pay a baby once myself."

What is especially rare is to find an advertiser who will exhibit any candor about the negative qualities of his goods. It is all the more refreshing, then, to

peruse the announcement of an innkeeper in one of the smaller States who was evidently burning with a desire to tell the exact truth about his establishment:

"Not the largest hotel in the town; not newly furnished throughout; no free bus to train; not the best grub the market affords; but simply clean beds and good food. 25 cents to sleep; 25 cents to eat. Toothpicks and ice-water thrown in. Try us. Pay up. And if not satisfied, keep mum!"

It was the spirit of candor, too, that prompted a New Jersey farmer to advertise the sale of one portion of his livestock in the following manner:

"Owing to ill-health, I will sell one bluish rabby cow, aged eight years. She is of undaunted courage and gives milk freely. To a man who does not fear death in any form she would be a great boon. I would rather sell her to a non-resident of the county."

Amusing, too, was the wonderfully Englished price-list of an enterprising Chinese laundryman, which ended up with the words, "Buttons are sewed on in our customers."

Phineas T. Barnum will always be regarded as the prince of "spoof" advertisers. When there was a rush of gold-seekers for California, he engaged a lecturer to describe the gold-fields. As he had no sample nugget to show Barnum simply had a brick grided, and placed in a glass-case beside the lecturer. No mention of the exhibit was made during the lecture, though the public inferred that this was a real specimen nugget.

Ingenuous, also, was the showman who advertised an exhibition of "The Human-headed Cat." Having paid their money, the audience were shown the stuffed, headless body of a young calf. On the head was stuck a concave mirror, which reflected the onlooker's own face, and made him appear with the body of the calf.

When a well-known menagerie made a stand at Chicago during the exposition, the press agent, in his attempt to raise

a sensation, inserted this advertisement in the leading dailies:

"Wanted, fifty mules quickly, to feed the lions."

That announcement brought thousands of people to witness the spectacle. His success seemed to unnerve him totally, for the following day he inserted another, "Wanted, fifty tons of rags to feed the elephants." The sad sequel is that, seeing this unauthorized advertisement in the morning paper, the proprietor of the menagerie felt reluctantly compelled to terminate the engagement of his much too enterprising agent.

### MAY RESUME SEATS.

### WORRIED TO DEATH.

### INDIGESTION, LOSS OF SLEEP, HEART PALPITATION.

### A Case That Proves Prompt Action is Wise When Health is Poor.

"At night I would wake up with vague feelings of fear and numbness in my hands and other parts of the body," writes M. E. X. Smeaton, of St. John's. "I had grown thin and pale, and at night it was very difficult to get enough warmth in my feet to get to sleep. My digestion was poor, and appetite very uncertain. The form of nervousness that worried me most was starting at every little thing, which resulted in such violent heart action as sometimes frightened me. Finally I had to give up my work, which was inside office work, so languid, nervous and weak had I become. Through the intervention of a friend I was induced to use Ferrero's. My appetite improved at once, circulation also improved and Ferrero's accomplished the renewal of my blood and natural warmth seemed to come back to my limbs. At the same time Ferrero's built up my constitution. I became quite strong and resumed my occupation. In brief, I am well."

Ferrero's is the only remedy of its kind in the world—it makes you feel better at once; when you are tired, dull, dispirited—when you feel there is nothing in life for you, that's the time to take Ferrero's.

What a change Ferrero's makes! Your blood sings through your veins, carrying nourishment to every nook and corner of the body, you feel the exultant thrill of abundant nerve force, you learn the luxury and delight of being at your best—in perfect health.

Just try Ferrero's and see how much better you feel; it's the one remedy in all the world that will get you bracing health at once. Sold everywhere, 50c per box, or six boxes for \$2.50, at all dealers.

**VICTORIA'S  
NORTHWARD  
GROWTH**

**STRIDES OF THE CITY PROGRESSIVE AS NOTED IN THE NORTH END.**

**A** PROSPEROUS community, thriving by pleasant labor, is an agreeable thing to contemplate. To one who can recall the fine homesteads that thickly line the old Grimsby road near Hamilton, Ontario, who can bring back the panoramic view spread before the eye of the summer tourist from the top of Brock's monument on Queenston Heights, or who can revive the mental picture of any thriving community of small fruit farms, these pleasant reminiscences will be finely suggested by a drive along the northern outskirts of Victoria.

Here are conditions almost ideal for fruit growing. Soil, climate, market—all have already borne successfully the test of experience. Along the extension of Quadra street is a succession of small holdings whose fine houses, trim lawns, well tilled vineyards and flourishing orchards speak eloquently, not only for the present prosperity of their owners, but also for the firm faith of these men in the future of fruit growing in the district.

A typical residence on one of these farms is illustrated in an accompanying cut. It lies within two miles of the heart of the city. Its water supply is derived from the city main. Modern conveniences such as the telephone and electric light are available to it. It combines in an enviable degree the advantages of both city and country life.

MAP OF VICTORIA'S NORTHERN SUBURBS

The farm whose owner is housed here so comfortably is one of six acres. At its southern end is a fringe of tall firs such as, two years ago, covered the whole farm. Piles of cordwood at the foot of the slope on which raspberries, strawberries, currants, blackberries and other small

fruits are now flourishing, tell how recent have been the labors of clearing the land. Apple trees, mere whips last year, are putting out valiant leaves and branches. In three years more, if the hopes of their experienced and very conservative owner are realized, they will be bearing half a case

of marketable autumn apples to the tree. Many of the smaller fruits promise good returns this year. If anywhere there is to be found, for the man of modest means, the promise of an ideal life—useful, independent, not too laborious—it lies in such conditions as those just described.

One advantage of fruit growing over grain growing or mixed farming is that it insures the proximity of congenial neighbors. From five to ten acres is an average size for a fruit farm. Hence a road through a settled fruit growing district resembles more the principal street of a suburb

of a great city than a country thoroughfare.

The farm just described has even now no lack of neighbors. Soon it will have many more, for it overlooks the broad acres of the Tolmie estate, where, on land long cleared and cultivated, is room for a score or more of similar farms.

One of the historic estates whose names have long been household words in Victoria, the Tolmie estate, is now going the way of its old-time neighbors, the Work, the Finlayson and the Fairfield estates. Too valuable for pasture land, it is being subdivided into city lots or suburban fruit farms.

In the wide area between the Saaich road and Cook street, the estate offers every variety of building site. The comparatively level land along the Douglas street car line is already nearly all in the hands of permanent owners. Proximity to water mains and the car lines, combined with the attraction of very moderate prices, in easy payments, have been the factors in accomplishing this result. A few more lots, such as those of the Dupplin Road subdivision, are still procurable in this neighborhood, through the firm of Swinerton & Musgrave.

Along Cloverdale avenue, which is now being graded, buildings are at present limited in number. Ascending the rising ground toward Cumberland avenue, conditions begin to change. This beautiful street, already lined with the substantial homes of well-to-do fruit growers, illustrates the invariable tendency of discriminating buyers to choose the higher sites. "A second Rockland avenue" is the description applied to this picturesque street by its admirers. Farther out, beyond Cloverdale avenue, along "S" street, Oak street, and the Saaich road are many desirable lots. These are all under the sole control of the firm of Swinerton & Musgrave. They are offered in sizes varying from an acre to ten acres. Desirable as they are at present for suburban homes and small fruit farms, these lots have the immense additional advantages of being directly in the line of the city's future expansion. Besides the returns derivable from a rich and productive soil they offer the certainty of a constantly enhancing value that will keep pace with the northward growth of the city. The conservative nature of such a

statement can best be realized by recalling that the most remote of them is only two miles from the heart of the city, and in close proximity to the city's principal avenue of approach, the Saanich road, which serves the rich farm-

face of the wall. Into these, concrete is poured from dump cars running around the top of the wall and allowed to set before the adjacent section is touched.

An incline railway at two corners of the reservoir is used for

needing street car service; but nowhere, throughout all this immense section is there a point from which signs of present activity, promising rapid advancement, are not easily visible. Workmen's homes in process of

dential advantages of this fast expanding section of Victoria.

This is not the place to dilate on the needs of any part of the city. The purpose of this article is served rather by noting what has been accomplished recently than what remains to be done. Yet another glance at the map will reveal to a stranger the fact that, while car lines run along the southern and western bounds of the area under discussion, not a single foot of street railway traverses it. In the face of such a condition it is marvelous that so much building activity has been displayed. As to whether street railways should follow or should precede the settlement of suburbs there is room for difference of opinion, but that there is now a crying need for better transportation service throughout the area east of Douglas street is the unanimous opinion of the people residing in it. The new Cook street car line, at its inception, passed through a part of the city not nearly so thickly populated as would a new car line along Hillside avenue. It is difficult to believe that the extending of the B. C. Electric company's tracks along this avenue can be much longer delayed. Where profit is waiting, transportation companies are usually not backward in reaching after it. The faith that a new car line must soon be built in the north end to parallel those of Fort street and Pandora avenue accounts, we believe in some measure, for the present very active demand for building sites within the area such a line would serve.

**TRANSFORMING THE WORK ESTATE.**

Next week the Island Development company will place on the market the historic property known as the Work estate. Everyone familiar with that part of Victoria north of Pembroke street knows well the old cottage, nesting among ivy-clad oaks, which is represented in the advertisement of the company on another page. Standing at an acute angle to King's road, surrounded irregularly with far more ancient structures, it carries the mind back irresistibly to days when the only streets were trails that followed the most convenient, not

the most direct, line; when houses were built, not in alignment with other houses of similar pattern, but in the position that best suited the whim or the artistic conception of the builder.

The lover of the antique, however, has a keener pleasure awaiting him if he should stroll through the grounds. The old Work home, it has just been said, is surrounded by still more ancient structures. One of these is the old log house which was the first permanent home of the founder of the family in pioneer days. It has known many of the vicissitudes, and some of the indignities, to which age is unfortunately subject. The stout walls that were once a defence against lurking human foes, as well as a shelter from Nature's milder assaults, have since performed a like office for successive generations of feathered inmates. The old fireplace still stands. Where the blazing log once radiated its cheerful warmth the se-

to furnish a fresh illustration of the city's progress. The new Victoria has need of the ground covered by the old buildings. Streets nowadays must run in straight lines. One of those lines cuts fairly through the present site of the old cottage. Vancouver street, now being extended by the city along the eastern boundary of the City Park, will be continued from Bay street to King's road as a private enterprise by the Island Investment company. Empress street, similarly opened and graded by the same company, stands as a guarantee of the thoroughness and expedition which will characterize the new work. As a preliminary, the old house must be removed.

Pursuing the vigorous policy which has made so signal a success in disposing of the 76 lots of the Empress subdivision, the Island Investment company now offer for sale, subdivided into city lots of the usual size, a por-

117 feet. Monthly buildings will be erected. Building restriction of \$1,000 will rule. What has happened on Queen's avenue will happen again here. Within two years the Work estate, long held off the realty market by legal complications, will be dotted with pretty and substantial homes.

**PROPOSED IMPROVEMENTS.**

Directly affecting all the north end suburbanites whose comings and goings to and from the city are by way of Douglas street is the proposed plan for the beautification of the area surrounding the fountain. It will be recalled that a plan of this work was submitted some time ago by the parks superintendent to the city council. The decision reached by the council, after going into the details of the plan, was that it called for too large an expenditure of money to be undertaken at the present time.

**GROWING TIME ON QUEEN'S AVENUE.**

ing and fruit growing district of the Saanich peninsula.

**THE EMPRESS SUBDIVISION.**

With land beyond the city limits slowly but surely passing into the hands of home-builders, it is little wonder that closer in activity in real estate should be correspondingly greater. Under the vigorous advertising policy of the Island Investment company, public interest in the property known as the Empress subdivision has been well maintained throughout the week. Within two weeks after the inception of its vigorous advertising policy the company was able to report the sale of nearly every one of the seventy odd lots in the subdivision. That the prices asked were well within the actual value of the lots was shown by the fact that more than half of the lots sold were re-listed with the company for sale at increases in price ranging from \$50 up. Even at the advanced price there is still in these lots a splendid opportunity for speculative buying. Certainly, when one thinks of lots situated but little more than a half-mile from the heart of a city that is growing, it is easy to believe they find ready buyers at prices ranging from \$450 up.

**THE NEW CITY RESERVOIR.**

A work which, considering its magnitude, has attracted little public attention, is now nearing completion in the north end of the city. Possibly the new name of Reservoir Hill, appearing in recent real estate advertisements, has been the first intimation to some that a work of such magnitude as the new city reservoir was under construction.

Just a year ago—April 28th, 1908, to be exact—the work commenced. In another month it is expected the work will be completed.

In shape, the surface of the reservoir is practically a rhombus. For those whose recollection of geometrical definitions is growing dim, it will be well to imagine a square whose sides have been pulled out of the perpendicular. The four sides remain of equal length, but the four right angles become two acute and two obtuse. Each side of the new reservoir is 362 feet in length. The depth is 26 feet. These dimensions give a total capacity of 16,000,000 gallons. In case of accident to the machinery at the pumping station this will give nearly a week in which to make repairs without interruption of the city's supply of water.

The walls of the reservoir have been built of the earth and rock excavated in making the basin. From three sides, they present on the exterior the appearance of a great bank or "fill" freshly made on the line of a new railway. The fourth side has been practically cut down through rock and soil from the original level of the hill. On the interior side the walls were first faced with stone, as shown in the accompanying illustration. Concrete was then laid on this surface, and a final coat of plaster given to the concrete. Three sides have been completed already in this manner, but the fourth, or south side, is still offering a few remaining obstacles to the drill of the rockmen. The manner, both of putting on the final coat of plaster and of building up the initial layer of concrete, is well illustrated in the accompanying cuts. Wooden forms, 20 feet in width, are built against the stone

hauling up and down the cars used for distributing rock, sand or concrete from the mixer stationed in the centre of the basin. A huge pile of rock has still to be moved before the floor can be given its final coat of concrete.

To prevent scoring, the embankment forming the exterior walls will be seeded with some variety of grass or planted with suitable shrubs. A communication received by the water commissioner from German authorities recommends acacias, set close together and trimmed to the height of ordinary shrubs, as the best means of preventing the ravages of rain or similar scarp.

That part of the city represented in the map on page 13 is, roughly, an irregular block two miles in its greatest length, from Pandora avenue north, and a mile and a half in its greatest breadth, from the Burnside road to Cook street. A walk over this great area shows much vacant land many streets in need of modern improvements, many parts badly

erection are seen from Douglas street considerably beyond the city limits. The fine houses with their surrounding gardens and orchards along Quadra street and Cumberland avenue have already been given scant justice in an earlier part of this article. On Reservoir Hill, as it will undoubtedly be known in the future, the builder is also active. Our illustration shows three typical houses in this quarter, two of which are new. The new reservoir and the preparations for laying pipe for the new main on Hillside avenue are public works that add civic activity to private enterprise in this promising part of the city. Coming closer to the heart of the city, building activity is correspondingly increased. "Growing Time on Queen's Avenue," as represented in the accompanying cut, has been a time as brief as it has been strenuous. The new Central Park school and the proposed new St. Barnabas church will be buildings adding equally to the appearance and to the res-

cretive hen may now deposit the maternal egg; but about the old place still clings a romantic charm that things modern can never wholly achieve.

A remembrance of Victoria's past, the present cottage is soon

tion of the old homestead. In all, thirty-five lots will be available. These, offered at very low prices, from \$350 up, will undoubtedly find a ready sale. The soil is unusually rich. Every lot fronts east or west. Each is 50x

The scheme contemplated the putting in of a cement base around the present fountain and boulevarding the fronts of the surrounding blocks. The farthest the council felt prepared to go was to improve only the small plot immediately surrounding the fountain.

Recently, by another demonstration of the public spirit becoming more and more common in Victoria, the property owners in the neighborhood have indicated their willingness to contribute a sufficient amount to justify the adoption of the more ambitious of the two schemes. The probability is now that what has long been an unsightly spot will be made a source of civic pride.

A work of far greater magnitude affecting the north end is the proposed improvement of the Spring Ridge gravel pits. After years of agitation, the residents of this neighborhood appear to be at last within measurable distance of realizing their pet ambition. The plans for the work have been provisionally approved. It remains only to raise the funds necessary for the prosecution of the work.

The area most affected lies between Queen's avenue and North Park streets from north to south, and between Fernwood road and Chambers street from east to west. The regrading of this area will entail the expropriation by the city of property at present assessed for more than \$36,000. As an offset to this expense will be the enormous amount of sand and gravel that will be made available for corporate purposes. Many houses will have to be lowered to the new level, while others will have foundations built under them after the manner now familiar to all who have seen the work of regrading Seattle's precipitous streets. It is estimated that the value of the property in the neighborhood directly affected will be enhanced fully one hundred per cent.

**DELICATE LITTLE CHILDREN MADE WELL AND STRONG**

The little ones are frail. Their hold on life is slight. A slight disorder may become serious if not promptly attended to. At the very first symptom of trouble Baby's Own Tablets should be given. This medicine promptly cures indigestion and all stomach troubles, constipation, diarrhoea, and brings the little teeth through painlessly. You can give the Tablets with equally good results to the new-born baby or well-grown child. Mrs. R. G. Flewell, Uxbridge, Ont., says: "I have used Baby's Own Tablets and find them a perfect medicine for stomach and bowel troubles." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

## WHERE REALTY SNAPS WILL RULE NEXT WEEK

ON MONDAY that beautiful old property known to Victorians as the Work Estate will go on sale at our offices as a subdivision lying between Bay Street and King's Road and situated immediately north of the Empress Subdivision.

**A**LL THE NATURAL ADVANTAGES that have made this latter property sell with such phenomenal rapidity will apply equally well to the Work Estate.

Do you know the old Work Estate? Have you seen the splendid old oaks, the growth of centuries that surrounded the old house on King's Road! Have you trod the rich green turf that year after year has been in preparation for the pretty homes that soon will dot it? Before Victoria's northern growth beauty spots must change; the Work Estate like the Empress Subdivision is needed to accommodate the influx of new comers who will this year make Victoria their home.

**LOGGERS PREPARE FOR SUMMER WORK**

Victoria Lumber Company's Camp Near Ladysmith Will Be Opened Shortly.

(Special Correspondence.)  
Ladysmith, April 30.—The logging engine for camp 5 of the Victoria Lumber Company has been taken from town for work in the woods. The logs will be loaded on cars this summer instead of being dragged along the track as usual. Work with about a hundred men will commence shortly. The steamship Wellington, after receiving a new coat of paint, is coaling at the wharves. For the first time in the history of this city a Ladysmith lacrosse team took the field this evening, and before a large and enthusiastic crowd succeeded in defeating the Extension Giants by a score of 4-0.

**MUST WAIT FOR SALARIES**

Attorneys for Calhoun Adopt New Tactics in Fight.  
San Francisco, May 1.—A restraining order was issued yesterday by Superior Judge Sturtevant to prevent the city and county treasurer from paying salaries for April to Detective William J. Burns and his assistants. The order is made returnable on May 8th. It was issued in suit enjoining payment of these salaries which was filed by the attorneys of Patrick Calhoun and the United Railroads in connection with the attack recently by Burns on the safes of the railroad company. It is alleged in the complaint that there is no provision in the charter for employment by the city of Burns and his assistants, who are performing duties which belong to the police department.

**THRILLING EXPERIENCE**

Berlin, May 1.—A captive balloon belonging to the army corps was broken from its moorings yesterday by a strong gust of wind and drifted rapidly over the city. In mid-air it caught fire from atmospheric electricity and came down half burned in a northern suburb. Lieutenant Gruber was the only passenger and he had to put up a desperate fight in mid-air to save his life. He was badly shaken up in the landing, but after his wounds had been dressed he was able to go in an automobile to his home.

**LICENSES REDUCED**

Toronto, May 1.—The license commissioners last night cut off forty-one tavern licenses instead of forty, which was the number voted on in the by-law at the municipal elections. The extra one was due to the fact that the annexation of East Toronto brought in an extra license. The licenses cut off are given three months to clear out, but will have to pay \$400 to sell in that time.

**TOLMIE ESTATE**

**This Large Estate is Divided Into Half Acre, One Acre, and Ten Acre Blocks**

**IT IS SITUATED** immediately north of the City boundary line, and possesses the very great advantage of having both the city water mains run through it. The Douglas street car line gives a convenient service to Cloverdale Avenue. The South Saanich Municipality has an appropriation for further improving Cloverdale Avenue. This Avenue is eighty feet in width and will open up an extent of very desirable property. The principal portion of the property is to a great extent protected from the prevailing winds, and slopes to the south making it a beautiful sunny location. It offers many

## Advance, Canada

"The Twentieth Century is Canada's," so says Sir Wilfrid Laurier, "Canada's Grand Old Man."

Canada begins the twentieth century where the United States began the nineteenth. The opportunities of building rapid fortunes are even greater in Canada now than they were in the early days of the United States.

The richest field for investment and enterprise in America to-day is Western Canada. One of the richest sections of Canada is alluring Alberta, the link between the prairies and the sea.

Lord Strathcona says, "At the end of the twentieth century Canada will have a population twice as large as that of the British Isles." This will make Canada the dominating unit of the British Empire.

Alberta is the "Land of Opportunity," and the time is Now.

## Quick Wealth in Oil

Few realize the phenomenal fortunes being made daily in oil. The cost of producing a barrel of oil is 5 cents, and the average selling price is \$1.15. An oil well which spouts 5 barrels daily earns 150 per cent. annually on its cost; one producing 10 barrels a day earns 300 per cent.; a 35-barrel well gives a dividend of 1,000 per cent., and a 100-barrel well, 3,000 per cent. A well which yields one barrel a day richly pays for operation.

## Two Thousand Per Cent.

Is the average advance of the stock of thirty oil companies in the United States.

## FACTS ARE STUBBORN THINGS

We know we have the oil, for it appears on the surface, and in the centre of our six square miles are a seepage and spring of unusual size.

Dr. Dawson, Dr. Selwyn and other authoritative geologists tell us that great subterranean pools of oil underlie the Pincher Creek District.

It was Dr. Dawson who predicted the wealth of the Kootenays, and foresaw years ago the present-day oil activities of Alberta.

The Chicago-Alberta Company's Oilfields are on the direct line of the old Kootenay trail over which Dr. Dawson passed.

## Petroleum Pays

Fifty years ago the American Petroleum Industry did not exist. To-day the Petroleum exported from the United States brings a cash return into that country of \$10,000 per hour, 24 hours to the day, 365 days to the year. Petroleum exports have added \$2,000,000,000 to America's wealth.

The Canadian Oil Industry is in its infancy. The history of the United States will be repeated in Alberta Oil Fields, AND YOU HAVE A CHANCE TO GET IN ON THE GROUND FLOOR.

But oil chances are for the alert. It is a time for quick decision. Fortune knocks once at a man's door, she doesn't keep on ringing the bell.

Oil stock offered at \$1 per share to-day may pay \$1 a share in dividends before the New Year bells of 1910 ring out.

## Accommodation Offer

At the request of many intending investors, the Board of Management have made a time-payment concession: The block of shares offered for immediate selling at 20 cents cash, may be secured on time payments at 25 cents per share, one-fifth of the purchase price cash with application, and the balance in four consecutive monthly payments of a like sum.

PRESBYTERIAN SYNOD TO MEET NEXT WEEK

Moderator J. W. Millar to Deliver Sermon on Wednesday.

The annual meeting of the British Columbia synod of the Presbyterian church will be held next week in St. Andrew's Presbyterian church.

It is expected that there will be a full attendance of the ministers and elders of the churches throughout the province, though the present evangelistic campaign being held in the Kootenays may delay a few of the ministers from that section of the country.

There is no certainty as to who will be the new moderator of the synod, though it is thought that one of the men from the interior will be selected for the position.

The usual routine business will occupy the attention of the synod for a considerable part of the sessions. The home-mission problems are somewhat difficult of adjustment just now, and these will cause some discussion.

All the sessions of the synod will be held in St. Andrew's church, and the pastor, Rev. W. L. Clay, and board of managers, are doing all in their power to make it convenient and pleasant for the delegates during their stay in the city.

Sunday School Lesson

Paul's First Missionary Journey—Antioch in Pisidia, Acts xiii:13-52. Golden Text—The word of the Lord was published throughout all the region. Acts xiii:48.

Verse 13—At what point had Paul and Barnabas touched, according to the last lesson? What important events were narrated in the last lesson?

Verse 14—Should a Christian always attend church on Sunday, if he has the opportunity, whether at home or abroad?

Verse 15—Are not our present day churches too stiff and formal, compared with the services in this synagogue?

Verse 16—Were there many devout Jews and others in those days, who feared God and were accepted of Him who had not embraced Christianity?

Verse 17—In addressing a hostile audience it is well to speak to commence with things which they believe in common, making them lead up to the main question; what matters did Paul refer to, in carrying out this wise rule?

Verse 18—In what sense can God forgive sins through Jesus? He could not through the law of Moses. Granted a future life of rewards and punishments, what question can compare in importance with the forgiveness of sins?

Verse 19—What do unconverted sinners need to 'behave' of? Why do sinners not accept of the salvation offered to them by Jesus? Verse 20—What is a sign of when men want to hear the gospel preached?

Does Your Back Ache?

If you are a woman and you have this symptom get Lydia E. Pinkham's Vegetable Compound without delay. Backache seems an invention of the evil one to try woman's souls.

Brooklyn, N. Y.—'I have been a great sufferer with a constant pain in my back. I was advised to use Lydia E. Pinkham's Vegetable Compound for it, and the pain has disappeared. I feel like a new woman since that awful pain has gone, and may God bless the discoverer of that great and wonderful remedy.'

Lydia E. Pinkham's Vegetable Compound has made thousands of cures of such cases. You notice we say has cured thousands of cases. That means that we are telling you what it has done, not what we think it will do.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine.

CHURCH'S COLD WATER

MAKES ARTISTIC WALLS. The best decorators discourage the use of 'old fashioned' wall paper, and recommend Alabastine. Because, with the use of the dainty Alabastine tints much more beautiful and artistic effects can be obtained.

It won't Rub Off. A handsome book, called 'Home, Healthful and Beautiful,' showing many stylish schemes for using Church's Cold Water Alabastine, will be mailed free to you on request.

When one preacher is jealous of the good others are doing? Verse 46—Is God more partial to one nationality than he is to another? Does God ordain all those to eternal life who will accept of Jesus?

Verse 47—What do unconverted sinners need to 'behave' of? Verse 48—What is a sign of when men want to hear the gospel preached? Verse 49—Is God more partial to one nationality than he is to another?

Verse 50—When the bad persecute the good, which gets the real trouble? Lesson for Sunday, May 16th, 1909.—Paul's First Missionary Journey—Iconium and Lystra, Acts xv:1-25.
