goes on to attack the amendment as an assault on the foundations of law and justice. Evidently it is ignorant of justice or the idea that law was intended to enforce. If justice has not miscarried how could error in rules of pleading work a hardship on anyone? These same technicalities of law are what have brought disrespect upon the courts, and enabled dishonest or cowardly judges to free rich scoundrels on the merest trifles. It is what has brought about the movement for recall and made possible the contention of Fred Warren, the socialist editor, to substantiate his statement that there is one standard of justice for the rich and another for the poor. It is these same technicalities that send the poor devil who steals a loaf of bread to the pen while the banker who robs the poor of their savings goes scot free.

It is to be expected that the Times would oppose any thing that makes for common justice and equality before the law. All the men who are now identified with the progressive republican movement it vilifies in the most violent terms. Any one who dares to stand up for the masses is an anarchist. To the able and brilliant editor of the Fresno Republican, the Times has applied such epithets as "bubonic flea," "busted stinkpot," and "supereducated damn fool." All of which go to show the character of the man behind the Times and also goes to show that Harrison Gray Otis is exactly the kind of man that Governor Johnson described him to be in a public speech.

He certainly takes himself seriously. When the war with Spain was declared, the general was then a pensioner from wounds received in the Civil War. When he got his commission for his command in the Philippines his pension stopped and there was no time lost between the time he resigned his commission and when his pension was again renewed. When over in the Islands and on some inconsequential campaign he sent the thrilling dispatch that he had crossed the Rubicon and evidently expected the world to stand agaze at the achievements of Caesar No. 2.

It is a lamentable occurrence that the Times building was destroyed. It gave some color to his intemperate assertions and gained a sympathy for his reactionary creed that it does not deserve. Honest men, however, will put him in the class where he belongs, along with the red flag anarchists and Tories who neither know nor respect the sublime truths contained in the Declaration of Independence.

March 11th was the banner day in the construction of the Panama canal. On that day a greater quantity of material was excavated than had been done in any previous 24 hours of the construction. The work is now systematized and is going ahead at a regular and methodical rate. According to the engineer in charge, Colonel Goethals, the canal will be completed and ready for use by January 1, 1914. The report of progress seems to indicate that his prediction will be verified without a doubt.

According to the recently published opinions of a number of visiting engineers about 73 per cent of the excavation has already been completed, the locks at Gatun are 56 per cent done and the Gatun dam is about 60 per

cent completed. When the big work is completed and the flood waters of the tropical rivers are turned into its confines it will be a big interior lake with only the proportions and lines of a canal at either end.

Thanks to the progress of modern science the canal zone has become habitable for man and the scourge of fever and disease has been practically eliminated.

It has been a tremendous undertaking. Difficulties without number have been encountered and overcome. In some cases the unstable ground has slid into the excavation. At the Gatun dam they have to contend with quicksand and flood waters. These are things to be expected in so great an undertaking. Some of them were foreseen and some unforeseen. But it stands to reason that the thing will be completed according to program and will stand as the greatest achievement of modern engineering skill.

It will be a monument to the initiative and militant optimism of ex-president Roosevelt. A president of less positive character, of less bouyant confidence would hardly have attempted it. He fitted into circumstances at the right time, took advantage of the opportunity and put the thing through. It will cost a mint of money but it will pay many fold in the end.

It takes a fire and sacrifice of human life to make communities exercise a proper safe guard of its citizens. The recent holocaust in New York City has disclosed the criminal negligence of property owners in failing to provide adequate means for escape from fire. It is presumed that the building ordinance of the metropolis prescribe proper safeguards in all cases. But like most other things the man with the pull in local politics or corruption of officials in charge a state of things is allowed to exist that is a constant menace to the lives of people who inhabit the places.

Profiting from this lesson the city of Los Angeles has taken steps to see that all buildings are provided with adequate means of escape from fire. Many other cities would do well to follow her example. On the account of the recent fire here in San Francisco we have practically a rebuilt and fireproof city. The building restrictions are such that it is not probable that such a disaster as that has occurred in New York will ever happen here.

Since the 1911 colonist rates have been in effect, 13 days, nearly 10,000 prospective settlers have started for California over the different lines that lead to this state. The actual number of tickets sold since March, 10, the day the special rates became effective, is 9,583.

The increase in 1911 over the same period last year is 2,437. Every ticket was sold exclusively to California points and they are one way tickets only. The difference in the fare amounts to \$16.75 from Chicago and to as much as \$20 from points farther west.

This indicates a healthy increase in the interest taken in California and the west. The advertisement the state has received from the campaign for the Panama Exposition has directed people's attention toward the state.

Hitherto we have been lagging be-

hind the more aggressive states of the northwest. The tide of immigration and colonization has been directed northward for the last decade. It is now time for it to reach California and this early railroad travel is indicative that the stream has already set this way.

The recent decision of the federal Judge Cornelius Hanford in the United States District court, which virtually acquits the three men of Seattle who had been indicted for frauds in locating coal land in Alaska, seems to upset the contention of the government in those cases. The indictments were for conspiracy to defraud the government in making and filing coal locations, not for the locators personally, but for a corporation known as the Pacific Coal and Oil Company. The evidence in the cases seem to rest mainly upon an agreement by which the locators agreed to assign their claims which went to show that the locations were not made in good faith. It was because of such an agreement that the Cunningham claims were declared to be fraudulent under an act passed in 1873. It appears that another act was passed in 1894 to permit such assignments after location and filing and the defendants claim that the two acts must be construed together.

These coal lands are said to be the richest in Alaska, 6000 acres of the located land estimated to be worth over one hundred millions of dollars.

It may be that the learned judge is right in his interpretation of the law. He at least seems to have gone outside the cases cited by the counsel on either side and to have given his own grounds for his decision. However, the published reports and excerpts from his decision read a good deal like the arguments advanced by corporation counsel or the editorials of newspapers whose proprietors have a strong antipathy to government conservation.

And whatever the law may be the people generally have a vital interest in these natural resources. It would seem that the question virtually rests with the Interior Department as to how these locations shall be made and it is up to the executive department to see that adequate protection is provided for the natural resources that are still the heritage of the people.

Now that the last Spring rains are trailing out their final benedictions to the grass and flowers the inhabitant of the city of San Francisco must be keenly alive to the splendid setting of the surrounding country. Nowhere is there a city so situated. Nowhere is there a city that has at its very gates such a variety of scene, of mountain, and forest and valleys and hills. No wonder that the preachers find San Francisco a hard place to hold a congregation, for Sunday finds its citizens out in the free air and light of God, enjoying the splendid panorama of mountain, bay and ocean, and inhaling the free ozone that renews the life for another week.

If one is not a pedestrian he surely ought to become one at this season. For out in the country the hills are carpeted with flowers, nature has put on a new garment and the everchanging colors of the mountains have taken on their brightest hues.

Sunday finds its usual number of pilgrims to the Marin County shore.

There the walkers find an untold pleasure in climbing Tamalpais and the surrounding mountains and pleasant walks through the great woods around. The hills back of Oakland finds their number of people out to get a breath of the pure ozone and view the splendid panorama that stretches out for miles and miles. The peninsula south of the city also claims its votaries and for them all there is the most healthful and delightful enjoyment that the world affords.

Surely there is no place in the world to live like San Francisco! To anyone who has climbed the hills in its vicinity at this season of the year and beheld the splendid panorama at his feet it must seem apparent that Shakespeare must have had the vision in mind when he wrote his thirty-third sonnet:

Full many a glorious morning have I seen,  
Flattering the mountaintop with sov-  
ereign eye,  
Kissing, with golden face, the meadows  
green,  
Gilding pale streams with heavenly  
alchemy.

It is a remarkable fact that so often as any step is made in the progress toward securing a water supply from the Hetch-Hetchy valley source in the Sierras just so often some other supply is offered for the city that is said to be a great deal cheaper and a whole lot better.

There is continual doubt being cast upon the city's power to acquire the property and all kinds of obstacles are thrown in the way. The matter has proceeded to such length at this time and the people have declared themselves so unequivocally on the subject that one would think there would be little room to doubt the eventual outcome.

The latest thing to be persistently presented before the board of supervisors is the Sierra Blue Lakes supply, a water company originally organized by A. F. Martel, the president of the defunct Market Street Bank.

This company has been reorganized or the new company has purchased its holdings, and now its properties are offered to the city as the only simon pure supply.

Among the objections offered against the Hetch-Hetchy supply is that of the Sierra Club that the construction of a dam would spoil the beauties of the valley.

Half of the people who object have never seen the valley and the other half dont know whether or not such action would detract or add to its beauty.

With such steps as have been taken and the publicity that has marked the long fight for a pure and adequate water supply the time has certainly come to put an end to tricks of delay and for active work to be begun on the project. There is a pure and inexhaustible water supply to be acquired. There is no reason why the government should not extend its grants as originally proposed. It is high time for the city to get to work and the authorities should spare but little time to the consideration of private offers that can mean nothing for the city.

The case of Lorimer, the boodle senator from Illinois, will again come up at the special session just called. This time it looks less favorable for the

blond boss, as he is called, as the personnel of the senate has materially changed since last election.

No more powerful argument for election of senators by the direct vote of the people could be urged than the facts disclosed in the election of this same senator. And if the facts in the cases of the election of many of the other senators now holding office were known there would be abundant cause for other investigations. For the United States senate is notoriously corporation owned. It is there that the special interests have sought and maintained their protection in the legislative body. So long as senators are chosen by the present process it is much easier for powerful interests to control their election and send men favorable to them to the upper house.

The new congress is pledged to take steps to obtain the election of senators by a direct vote. The insurgent movement is investing a different type of men with the senatorial toga. Gradually the old guard of stand patters are being thinned out for better and more progressive men. New York loses its senior senator this session. No act has become his public career so well as his leaving of it, for if ever there was a false alarm inflicted on the American people it was that offerdinner orator, Chauncey Mush Depew.

A bill has passed the legislature appropriating \$10,000 for the publication and distribution of printed matter to inform the public on the danger from infection from tuberculosis and the means of prevention and cure.

It is a remarkable fact that this disease here, as elsewhere, is the chief cause of death. The mortality is high here especially as so many consumptives come here for their health and seek the advantages of climate that the state affords.

Another bill was also passed requiring doctors to report cases of tuberculosis to the health officers and prescribes penalties for consumptives who fail to take proper precaution for spread of the disease from infection.

These are good measures as the public has a right to protection. And here in California where the climate is one of its great assets we have a right to demand that those who come here to live or who came here to recover from disease shall take care that they do not spread this great plague that is the chief scourge of the human race.

Now that an effective lien law will in all probability be signed by the governor this week the question of the pro rata contractor will be simplified to a great extent. For if all the sub-contractors have the advantage of a direct lien on the property and the general contractor is required to furnish a good and sufficient bond the days of the fellow who figures on beating his creditors will be numbered. An owner will look to it that he employs a competent and reliable man and that he is indemnified against loss. The fellow with a lead pencil for capital and an oversized gall for ability will not be able to take a contract for any old price and then scheme with some material man to beat all the rest of his creditors on the final windup. It will be up to the contractor to make good or go out of business.

# The Adaptability and Increasing Importance of Portland Cement As A Building Material.

The most protean agent of modern construction is Portland cement. From the pig sty and the hen's nest to the sky-scraper and the water tower, from the nest egg to the great dams and locas of the Panama canal this omnipresent building material is the chief factor in modern work. For its adaptability has made itself apparent to all lines of industry and there is no branch of material development where Portland cement and concrete do not play an important part.

Like electricity cement seems to be destined to play an important part in human development. It is not strange therefore that we read that Edison had turned from the field where we had so long identified him to perfect a model for a concrete monolithic house that can be poured into a mould and left to harden in much the same manner that the colored preacher supposed that the Lord created man. Nor is it surprising to find that this material can be used in works of art to embellish public places with groups of statuary or restore in artificial stone the prehistoric animals that peopled the world millions of years ago.

Since the time of the old Romans a kind of concrete has been used for building purposes. But not until modern times, within the period of the present generation, has modern concrete, which is Portland cement mixed with sand and gravel, come into such extensive use that it has not only added to, but, in a great degree, has supplanted all other kinds of building material.

While Portland cement has thus become so universally known and so indispensable to the engineer and the builder, and also on the farm and in the house and factory as well, scarcely any of us would know what answer to make if asked to define the name. A brick-maker of Leeds, England, first discovered that a wonderful product could be made by mixing the English chalk or lime with the clay found in the bed of the river Thames. He named the product Portland cement from its resemblance to a well known and popular building stone then in use in England which was quarried on the island of Portland and was considered the hardest of the building stones.

While it was discovered in England this cement was imported into the United States from Germany. Then it was discovered that this country contained the materials from which it could be manufactured and the industry has grown in the past 40 years till the amount of capital now invested in the production of this article alone amounts to over \$600,000,000.

Whenever cement is spoken of it is naturally supposed that Portland cement is meant by the term. There are other cements used such as Rosendale, a slow-setting product and Puzzolani a production from iron slag. But the manufacture of these is insignificant compared to the enormous quantity of the other.

Scientifically speaking, Portland cement is a trisilicate of lime and alumina. It can be manufactured wherever these materials can be found. In the Lehigh valley in Pennsylvania, where for a long time about 75 per cent of all the Portland cement in the United States was manufactured, there are extensive natural deposits of what is known as cement rock. The development of the industry has led to the discovery and development of similar deposits in California and the West, so that the manufacture of the product has become a nation-wide industry and second in importance to none.

Between the years of 1870 and 1879 the total of manufactured Portland cement in the United States amounted to 82,000 barrels. Last year alone the output is estimated at 74,000,000 barrels. To convey some idea of this enormous quantity, the Scientific American last month printed a graphic illustration representing a gigantic barrel that would hold this product. This imaginary barrel, built in the same proportions of the ordinary cement barrel, would be 980 feet high, just short of the Eiffel tower, and contain 29,690,000,000 pounds. To realize what this weight would be, take the population of the United States at 90,000,000, figure each person at 150 pounds and you would have a weight of 13,500,000,000 pounds, which would still leave the cement barrel 16,000,000,000 pounds to the good. So that the production last year amounted to more than twice the weight of the entire population taken even at that figure.

The production of this cement under modern conditions necessitates the erection of a costly plant. The raw material is quarried and in various ways conveyed to the plants where it is crushed to a very fine powder. The resulting fine material, mixed in proper proportion and controlled by chemical analysis, is then fed into rotary kilns where it is burned into what is known as "cement klinker." The klinker is then cooled and pulverized into a very fine powder and becomes the Portland cement of commerce.

While the initial cost is high the increasing uses to which the product is put has enabled it to be produced in such large quantities that the cost has steadily cheapened. To give some idea of the growth and value of this product the following statistics show some striking figures:

	Number of Barrels	Value \$
1870 to 1879.....	82,000	246,000
1880.....	42,000	126,000
1881.....	70,000	150,000
1882.....	85,000	191,250
1883.....	90,000	193,500
1884.....	100,000	210,000
1885.....	150,000	292,500
1886.....	150,000	292,000
1887.....	240,000	487,500
1888.....	250,000	480,000
1889.....	300,000	500,000
1890.....	325,500	704,000
1891.....	451,813	967,429

1892.....	547,440	1,153,600
1893.....	590,625	1,158,138
1894.....	789,575	1,283,473
1895.....	990,324	1,586,830
1896.....	1,543,023	2,424,011
1897.....	2,677,775	4,315,891
1898.....	3,692,284	5,970,773
1899.....	5,652,266	8,074,371
1900.....	8,483,020	9,289,525
1901.....	12,711,225	12,532,360
1902.....	17,230,644	20,864,078
1903.....	22,342,973	27,713,319
1904.....	26,505,881	23,355,119
1905.....	35,246,812	33,245,867
1906.....	46,463,424	52,466,186
1907.....	48,875,310	53,932,551
1908.....	51,072,912	43,547,679
1909.....	62,508,461	50,510,385
1910*.....	74,000,000	55,500,000

There are 103 plants in the country which turn out a total of 6,000,000 barrels a month today. Compared with the product of twenty years ago these figures are astounding. There is more cement produced now in a month than there was then in a year. During the last decade, from 1899 to 1909, the production has increased more than 120 per cent. In the Lehigh valley district alone there is more cement produced now in a year than there is in Germany and England together, although these countries were the first to put it to practical use.

It has only been about fifteen years since the first attempts were made to combine steel and concrete in such manner that the result would give a product that would have a high resistance to bending and tension stresses as well as to compression. From these experiments have sprung our modern reinforced concrete construction and from these experiments have grown construction of tanks and piling, for trussed bridges, for roofs and for flooring of wide span. The work has even gone so far that certain kinds of boats and barges have been constructed of concrete with admirable results. More particularly has the cement come into use for utilitarian purposes. We read of a concrete railroad tie that has been patented. Concrete fence posts are now in use on the farm, and concrete hen's nests, vermin-proof poultry houses, clean pig pens, and sanitary cow-sheds are all improvements to the modern farm. And it is these little things that make up the sum total of the big demand for cement. We read of how 2,100,000 barrels of the material were shipped to the Panama canal in 1910, of 800,000 barrels to the Florida Key West Railroad, and of 1,000,000 barrels to the Ashokan dam during the same period, but this leaves 70,000,000 tons of the product still unaccounted for and it is the small sales for all conceivable uses that make up the total consumption.

Such great undertakings as the construction of the Panama canal would have been practically impossible without the aid of modern concrete. So also such great irrigation enterprises as the erection of the Roosevelt dam in the Salt River project in Arizona

Portland cement has become the handmaid of progress, the necessary element for great enterprises as well as the convenient servitor in small things.

Of late years a very good grade of cement has been manufactured from the slag from the blast furnaces of the United States Steel Corporation. In 1901 the process was discovered and since that time this company has been in the field for competition. 200,000 barrels were manufactured from this product in 1901 and since the material could be more cheaply produced than by ordinary methods the production has steadily increased till last year it amounted to 7,000,000 barrels or about one-tenth of the total product in this country.

The total export trade last year amounted to about 2,340,000 barrels, of which 2,000,000 barrels went to the Panama canal, leaving only 340,000 barrels to be shipped to foreign ports. But the foreign field is wide. The exploitation of new schemes to develop the new countries of South and Central America, the sanitation of cities of the far east and for that matter throughout the world should produce a steady and constant demand for this material which has been demonstrated to be the binding property of stone, the means by which man may erect in a day a monument of stone that would take Nature in her laboratory millions of years to build.

#### STRENGTH OF BLENDED CEMENT. RESULT OF TESTS CONDUCTED BY THE GERMAN GOVERNMENT.

Exhaustive data relating to two series of official tests made to determine the effect of the blending or adulteration of cement by the addition of tufa and other materials, is contained in the 1900 publication recently issued by the commission in charge of the Royal Prussian material-testing station at Lichterfelde West, near Berlin.

Following the initial experiment made in Charlottenburg during the summer of 1898, a large number of tests constituting the first series were carried out at Westerland, on the island of Syt, in the North Sea, with a view to ascertaining the comparative pressure resistance and tensile strength of mortar blocks made from various pure cements and from cement blended in certain proportions.

The blocks were seasoned in specially constructed containers, one-half of each kind of blocks in fresh water and one-half in salt or sea water. The blocks were made by adding each of the following binding materials to ordinary sand and to raw, coarse-grained sand: (1) Portland cement, (2) Portland cement mixed with finely ground tufa, and (3) Portland cement mixed with fine sand. The first provisional report of the tests was made in the fall of 1899 and subsequent reports at various times until 1908. The results indicate that in fresh water the blending mortars remain inferior to those unblended, in both resistance and tensile strength, while in sea water the tufa cement mortars were equal to the unblended mortars in tensile strength, and after a year the compressive strength of the blended mortars was nearly as great as that of the unblended. The commission therefore decided that, within certain limits, Portland cement might be profitably blended with tufa in mortars to be used in sea water constructions,

and especially in mortars whose cement content is comparatively low.

The second series of tests now being carried out at Westerland were begun in 1902, by a specially appointed commission of the Prussian Ministry of Public Works, and are to continue during a period of 30 years. The purpose is to test various cement mortars and concretes, blended and unblended, when used in the construction of quays; to determine the chemical effects of sea water upon these materials, as compared with fresh water, and the mechanical washing effects of the tides, open sea, etc. Mortars and concretes of various percentages of (1) cement and sand, (2) cement, tufa and sand, and (3) tufa, fat lime (Fettkalk), and sand, were used in making (1) concrete facing blocks of the dimensions used in quay constructions, (2) large concrete cubes or blocks to be tested with reference to their compression resistance, and (3) smaller sample pieces of mortar and concrete for testing their compression resistance and tensile strength.

The concrete facing blocks were allowed to season under a covering of moist sand—one-half of each kind of mortar or concrete mixture—for a period of three months, and the other half for a period of one year. The facing blocks after being seasoned were used in quay constructions where they are continually being observed with reference to the chemical and mechanical effects of the sea water. The large concrete blocks of each mixture were seasoned, first in sand, some for nine days and some for one year, after which they were stored in special containers, one-half of each kind in fresh water and the other half in sea water. Tests of the compressive strength of the large blocks were made after periods of 28 days, 1 year, and 5 years, and are still to be made after periods of 15 and 30 years. The sample mortar and concrete pieces were subjected to the same seasoning conditions and were tested with reference to compression and tensile strength at the same time as the corresponding concrete blocks.

The results of the observations of 140 concrete facing blocks, which are given in the report from the Royal material testing station, have led the commission to decide that, from the point of view of durability when exposed to the action of the open sea, the blending of cement with tufa is of questionable or at least only limited value. The results of the tests thus far made of the compressive strength of the large concrete blocks and of the compressive and tensile strength of the sample mortar and concrete pieces seem to corroborate the conclusions reached by the commission in the first official series described. The conclusions are to the effect that the chemical disintegrating effects of sea water upon cement concretes and mortars in closed containers, and therefore not exposed to the washing effects of the open sea, are somewhat counteracted and diminished by blending with tufa, and especially in concrete and mortar whose cement content is low.

#### GENERAL CONTRACTORS' ASSOCIATION.

In the month of February the Associated General Building Contractors and the Builders' Association were amalgamated, and on Thursday evening, April 6th, a new organization, composed of the consolidated membership, was incorporated under the name of the "General Contractors' Association." This is the first time in twenty years that the general contractors doing business in this city have been united together in one association, and from information to hand the organization bids fair to be a very strong body, which will have considerable bearing on the future welfare of the building business in this city.

The General Contractors' Association is incorporated as a stock company, and each member is to hold one share of stock, the par value of which is \$500. The association is incorporated for 250 shares at a par value of \$500, making a total capitalization of \$125,000.

Since the amalgamation of February activity at the meeting quarters at 402 Kearny street, has been greatly increased. The specialty contractors and material men are associate members, and at this time there are about 250 of them, and it is feared that the quarters at 402 Kearny street are going to prove too small for future use. There are about 140 stockholders in the "General Contractors' Association" in addition to the associate members, and the quarters of the old Builders' Association are not proving large enough to accommodate the members fittingly.

The stockholders of the General Contractors' Association seem to be all pulling together, and are determined to build up an association which will command the respect of the building business generally, and do much to regulate the evils which have existed in the past. What with our new lien law and the general contractors getting together to do things, and the other branches of the business being organized as they now are, it would seem that the time is not far distant when the contracting business will be placed on a much better basis. This is a day of organization, and the need of it is particularly felt in the building business. It behooves every man to join the organization which represents his particular branch of the business, and through the medium of the Affiliated Contractors' Associations which was formed some eight months ago, the contractors will have the means at hand to regulate the business and do much to protect their individual interests; and we will hope that the time is not far distant when some practical plan can be devised by which all the contractors can come together under one roof. This would be a logical step, and if the many interests involved could be brought together by some practical plan, and the proper medium established, the pro rata contractor and the evils attendant upon his method of doing business could easily be eliminated from the field.

**Brick Building—Portland, Ore.**—Architects Bonnes & Hendricks have awarded the general contract for erecting a two-story brick building on Williams avenue near Shaver street for Geo. C. Flanders to C. C. Johnson, who will commence construction on the same at once. Cost, \$10,000.

**Court House Site, Wash.**—The County Commissioners will submit to the voters of King County in May, the issuance of bonds for the erection of a new court house costing \$20,000.

Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.

## Plans Wanted.

Rosa, California, are considering the erection of a city hall in that city. There is approximately \$15,000 available for this purpose, and the city is the owner of a lot in the heart of the business district on which the proposed building will be erected. The lot has a frontage of 40 feet and a depth of 120. The Trustees want a building two stories high and of concrete, if possible. Money for the structure will be available after August next.

The Tacoma, Washington, Lodge of Elks has definitely decided upon the construction of a 10 story building on the property owned by the lodge. A committee has been appointed, consisting of the following members: Arthur Magill, Chas. J. Swindells, W. MacDonald, Fremont Campbell, D. J. William, F. M. Lamborn and H. W. Tyler, who will have charge of the work. The building is to cost in the neighborhood of \$150,000.

Eureka, Humboldt Co., Cal. The Presbyterian Church of Eureka has decided to build a new church edifice, and have started a campaign to raise money for the building.

The city of Oroville, California, is making an effort to secure a Carnegie donation for public library purposes. At the present time the city has a small public library, and this fact has been holding back the Carnegie donation. It is stated that after a more complete statement of the library facilities has been made that the donation will be secured. The town is asking for a \$20,000 building.

The Young Men's Christian Association of Seattle, Washington, is planning the erection of an eight story Class A building in that city. The association has secured the property, and are now working to raise \$400,000 for the construction and furnishing of the building.

The town of Newman, California, is to vote on bonds for the purpose of erecting a new high school within a short time. The amount of the bonds which are to be voted upon is set at \$50,000, part of which will be used in securing a site and the balance in the construction of the building.

Plans for the San Mateo High school gymnasium, costing \$20,000, are to be examined by the board Saturday, April 15th. A number of San Francisco architects have submitted drawings as well as local architects.

The question of the selection of an architect for the new City Hall, which is to be erected at Redwood City, will come up before the City Trustees on April 17. There are to be some five sets of plans considered. The building will cost about \$12,000.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 3 story and base, frame, \$5,000. Architect Victor J. Solari, Phelan Bldg., S. E. Owner Mrs. R. Solari. The building will contain five apartments. There will be no heating system. The exterior

will be of shiplap and rustic. The plans are complete and the work is to be done by Day Labor.

**San Francisco**—Apartment house, 4 story and base, brick and steel, \$60,000. Architect C. O. Clausen, Phelan Bldg., S. E. Owner Mr. Bernheim. The exterior will be designed in the Colonial style and is to be faced with pressed brick and Colusa Sandstone. There will be 32 apartments of 2 and 3 rooms each. A complete mechanical system will be installed, including private telephone systems for both companies. Marshall-Stearns wall beds are specified. The plans are complete and work will be started at once.

**San Francisco**—Apartment house, 5 story and base, brick and steel, \$70,000. Architect C. A. Meussdorffer, Humboldt Bank Bldg., S. E. Owners O'Conner Estate. The building is to be arranged for retail stores on the first floor and modern apartments on the upper floors. The exterior will be of pressed brick and terra cotta. There will be steam heat and other modern conveniences. The entrance lobby will be elaborately finished in Caen Stone. The architect is preparing the plans.

**Oakland, Cal.**—Apartment house, alterations, 3 story and base, frame, \$3,000. Architect Sidney B. Newson, Commercial Bldg., Oakland. Owner Geo. R. Williams. The work will consist of extensive repairs to the interior of the building, including new plumbing, etc. The plans are now being figured.

**Fresno, Fresno Co., Cal.**—Apartment house, 3 story and base, frame, \$17,000. Architect C. K. Kirby, Jr., Fresno. Owner N. Kochman. The building will contain 12 apartments besides stores on the first floor. There will be a heating system and open fire places in the apartments. The exterior will be of shiplap. The plans are now being figured.

**Sacramento, Sacramento Co., Cal.**—Apartment house, 2 story and base, frame, \$15,000. Architect C. N. Burrell, Central Bank Bldg., Oakland. Owner George E. Lester, Sacramento. The exterior of the building will be of metal lath and cement plaster. There will be a furnace heating system installed. The plans are now complete and are being figured.

**Sacramento, Sacramento Co., Cal.**—Apartment house, 5 story and base, brick and frame, \$50,000. Architect C. N. Burrell, Central Bank Bldg., Oakland. Owner's name withheld. The building will be one of the largest apartment buildings yet erected in Sacramento. The exterior will be of cement plaster on metal lath. There will be a heating system installed and electric elevators. The plans are complete and are now being figured.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 3 story and base, frame, \$10,000. Architects Home Builders Co., Long Beach. Owners same. The building will be modern in every particular. The exterior will be cov-

eder with cement plaster on metal lath. The construction will be started in about two weeks.

**Santa Monica, Los Angeles Co., Cal.**—Apartment house, 2 story and base, frame, 32x50, \$4,000. Architects Eager and Eager, 1201 Story Bldg., L. A. Owner Carl Schrader, Jr. The building will contain four apartments of 4 rooms each. Plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$10,000. Architect none. Owner A. Gilman, 310 So. Main St., L. A. The building will contain 12 apartments. The construction is to be started at once.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 3 story and base, 65x120, \$25,000. Architects Austin and Sedwick, 503 Long Beach National Bank Bldg., Long Beach. Owner Dr. T. G. Harriman. The building will contain 100 rooms divided into apartments of 2 and 3 rooms each. There will be 36 baths, wall beds and steam heat. The plans and specifications are complete.

**Los Angeles, Cal.**—Apartment house, 2 story and base, frame, 39x110, \$25,000. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner Jonathan S. Dodge. There will be 51 rooms and 21 baths. The exterior will be of cement plaster on metal lath. Plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick, \$35,000. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner E. C. Bowyer. The plans for this building are being revised to comply with the State tenement house act. The exterior will be of pressed brick. The work will be started as soon as the plans are completed.

**Vancouver, B. C.**—Apartment house, 3 story and base, brick, 66x66, \$30,000. Architects Quandt and Creutzer, Haight Bldg., Seattle. Owner L. M. Cameron. There will be fourteen apartments of 3 rooms each. Plans will be completed in May.

**Vancouver, B. C.**—Apartment house, 6 story and base, brick and steel, \$200,000. Architects Quandt and Creutzer, Haight Bldg., Seattle. Owner Peter Agren. This building has been mentioned here before, and the architects now state that plans will be completed the last of this month.

## Contracts Awarded.

**Santa Monica, Los Angeles Co., Cal.**—Apartment house, 3 story and base, frame, \$22,000. Architect not given. Owner Carl F. Schrader. Contractors Eureka Mill Co., 940 East Fourth St., L. A. Contract price \$22,900.

**Los Angeles, Cal.**—Apartment house, 1 story and base, brick, 52x116, \$100,000. Architects R. B. Young and Son, 701 Lankershim Bldg., L. A. Owner's name not given. Contractors F. O. Engstrum Co., 5th and Seaton Sts., L. A. General contract \$76,000. J. Hokou, 4312 Moneta Ave., L. A. Heating \$11,000.

## —BANKS—

**Prineville, Ore.**—Bank, 2 story and base, brick and concrete, 36x100, \$30,000. Architect McClaren, Portland. Owners Oregon County Bank. The first

floor will be occupied by the bank and there will be offices located on the second floor. The plans are now nearly complete.

### Contracts Awarded.

**Winters, Yolo Co., Cal.**—Bank, 1 story and base, brick and terra cotta, \$40,000. Architects Parker and Kenyon, 244 Kearny St., S. F. Owners Citizens Bank of Winters, Contractors Brady and Fisher, Dixon, Cal. Contract price \$30,000. N. Clarke and Son, S. F., terra cotta work.

S. Bids will be opened in Seattle on May 1.

### Contracts Awarded.

**Portland, Ore.**—Stores and offices, 4 story and base, reinforced concrete, \$75,000. Architects Doyle, Patterson and Beach, Portland. Contractor Advance Construction Co., Portland.

### SEALED PROPOSAL.

Hundreds of dollars may be saved by securing numerous and able competitors to bid on your work. All large construction enterprises and the supply of materials should be advertised in these columns to secure "rock bottom prices." All the leading contractors, manufacturers and material men on the Pacific Coast States read the Building and Industrial News. Send us your advertisements, note the results and save money.

Announcements in these columns will be published at a uniform rate of 10 cents per line for first insertion and 5 cents per line for each subsequent insertion.

Advertisers may send plans and specifications to this office for the convenience of local bidders without extra charge.

### CONSTRUCTING BUILDING.

(Bids opened May 3.)

W. BENEPE.

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

## San Francisco.

**Apartment House**—3 story and base, frame, \$5,000. San Francisco. Architect Victor J. Solari, Phelan Bldg., S. F. Owner Mrs. R. Solari. The building will contain five apartments. There will be no heating system. The exterior will be of shiplap and rustic. The plans are complete and the work is to be done by Day Labor.

**Apartment House**—4 story and base, brick and steel, \$60,000. San Francisco. Architect C. O. Clausen, Phelan Bldg., S. F. Owner Mr. Bernheim. The exterior will be designed in the Colonial style and is to be faced with pressed brick and Colusa Sandstone. There will be 32 apartments of 2 and 3 rooms each. A complete mechanical system will be installed, including private telephone systems for both companies. Marshall-Sterns wall beds are specified. The plans are complete and work will be started at once.

**Apartment House**—5 story and base, brick and steel, \$70,000. San Francisco. Architect C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owners O'Conner Estate. The building is to be arranged for retail stores on the first floor and modern apartments on the upper floors. The exterior will be of pressed brick and terra cotta. There will be steam heat and other modern conveniences. The entrance lobby will be elaborately finished in Caen Stone. The architect is preparing the plans.

**Flats**—3 story and base, frame, \$9,000. San Francisco. Architect Loring P. Rixford, Mills Bldg., S. F. Owner Mrs. C. R. Johnson. The building will contain five flats. The exterior covering will be of rustic. The plans are complete and will be figured at once.

**Flats**—3 story and base, frame, \$9,000. San Francisco. Architect Hladik and Thayer, Monadnock Bldg., S. F. Owner William Buchanan. The building will contain six flats complete with all modern conveniences. The exterior will be of rustic and shiplap. The plans are complete and bids are being taken.

**Flats**—3 story and base, frame, \$6,000. San Francisco. Architect none. Owner O. E. Anderson, 179 7th Ave., S. F. The exterior covering will be of brick veneer and rustic. The plans are complete and the work will be done by Day Labor.

**Flats**—2 story and base, frame, \$14,000. San Francisco. Architect Albert Farr, Foxcroft Bldg., S. F. Owner Mrs. A. Legg. The exterior covering will be of cement plaster on metal lath. There will be a warm air heating system. The plans are complete and are being figured.

**Fire House**—2 story and base, brick and steel, \$30,000. San Francisco. Architect Alfred I. Coffey, City Architect, David Hewes Bldg., S. F. Owner City and County of San Francisco. The building will be known as Engine

House No. 43. The plans are being prepared.

**Police Station**—2 story and base, brick and steel, \$30,000. San Francisco. Architect Alfred I. Coffey, City Architect, David Hewes Bldg., S. F. Owner City and County of San Francisco. Station will be known as the Potrero Station. The working drawings have just been started.

**Church**—Class A construction, \$125,000. San Francisco. Architects Shea and Lofquist, Bank of Italy Bldg., S. F. Owners Saint James Parish (Catholic.) The plans for this work have not been started yet, and the announcement that the architects have been selected to prepare the drawings for the new buildings has just been made. The new edifice will take the place of the one recently destroyed by fire.

**Cottage**—1 story and base, frame, \$2,000. San Francisco. Architect none. Owner J. H. Cundiff, 567 2nd Ave. The dwelling will contain six rooms and bath. The work is to be done by Day Labor.

**Cottage**—1 story and base, frame, \$2,000. San Francisco. Architect none. Owner Valentine Huber, 157 Powell St., S. F. The plans are in the hands of the owner and the work will be done by Day Labor.

**Residences**—2, 1½ story and base, frame, \$2,000 each. San Francisco. Architects none. Owner J. S. Purcell, 842 Presidio Ave., S. F. The plans are in the hands of the owner and the work will be done by Day Labor.

**Residence**—2 story and base, frame, \$10,500. San Francisco. Architect C. W. McCall, Central Bank Bldg., Oakland. Owner's name withheld. The dwelling will be a double residence. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**School**—2 story and base, Class A, \$90,000. San Francisco. Architect Alfred I. Coffey, City Architect, David Hewes Bldg., S. F. Owner City and County of San Francisco. The plans for this building are complete and bids are being called which will be opened April 19th.

**Hall**—1 story frame, \$15,000. San Francisco. Architect H. Dettrich, 317 Paris St., S. F. Owners Woodmen of the World. The building is to be an immense log cabin, and will be erected for convention purposes. The architect is now seeking firms from which redwood logs may be had.

**Hotel**—3 story and base, brick, \$25,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner Mr. Bryan. The first floor will be arranged for store purposes and the upper two floors for a hotel. The exterior will be faced with pressed brick. The plans are complete and are now being figured.

**Garage**—1 story and base, brick, \$6,500. San Francisco. Architect W. G. Hind, Humboldt Bank Bldg., S. F. Owner J. Eisenbach. The exterior will be of pressed brick. The work will be done by Day Labor.

## CANADA'S LUMBER PRODUCTION.

Quebec has been, is, and promises for many years to remain, the chief spruce-producing region of Canada. The cut of spruce in 1909 showed an increase over that of 1908 in every Province, except Saskatchewan and British Columbia. The decrease in the former was only 3,277,000 feet, but in the latter 16,531,000 feet, or 25.2 per cent. Nova Scotia's 1909 output exceeded that of 1908 by 26.2 per cent and there was a gain of 56.8 per cent in Ontario. The price of spruce rose 46 cents during the year. It was most expensive in Saskatchewan at \$16.54, and cheapest in Prince Edward Island at \$11.53. Spruce is the only lumber in Canada that is felled in the whole nine Provinces.

Ontario dominated the white pine cut even more completely in 1909 than in 1908, furnishing 84.8 per cent of the total. This Province increased its output 16.3 per cent, and there were gains of 76.6 per cent in Nova Scotia, 84.4 per cent in New Brunswick, and 293.9 per cent in British Columbia. Quebec alone showed a decrease. The average price of white pine rose \$1.47 during 1909. It was dearest where only a very small quantity was cut—in Prince Edward Island—at \$23.13; cheapest in Nova Scotia at \$13.92.

Douglas fir in Canada is confined almost exclusively to British Columbia, where it is the chief timber. The total 1909 output was 26.2 per cent larger than in 1908. The price increased 80 cents during the year. The cut of fir in British Columbia is small compared with that in Washington and Oregon; Idaho and California also greatly outrank this Province in their annual production of such lumber.

The fall of hemlock for 1909 exceeded that for 1908 by 16.8 per cent. Over one-half of it was cut in Ontario, and in point of quantity this wood is surpassed only by white pine in that Province's lumber production. British Columbia showed an increase of 91.7 per cent; and New Brunswick 62.6 per cent. The average price decreased 63 cents. It was dearest in British Columbia at \$13.69; cheapest in New Brunswick at \$10.15. Five American States, Wisconsin, Pennsylvania, Michigan, West Virginia, and New York, exceeded Ontario in hemlock production. In each of the first three named the annual production is greater than the total for Canada.

### Cedar, Red Pine, and Balsam—Production by Provinces.

There was an increase of 54.2 per cent in the Canadian production of cedar for 1909. The gain in British Columbia over 1908 was 75.5 per cent; Quebec, the second Province in cedar production, showed a decline of 36.5 per cent. An increase of 599.3 per cent

placed New Brunswick third, a position previously held by Ontario, whose output for 1909 rose 14.2 per cent. The average price throughout Canada dropped \$1.73. This wood was dearest in Ontario at \$15.41 and cheapest in Prince Edward Island, where the cut is very small, at \$8. No State in the United States equals British Columbia in cedar production. The nearest approach is Washington, which in 1909 felled 115,135,000 feet.

The gain of 23 per cent in the red pine production for 1909 was not sufficient to enable it to maintain fourth place, and for probably the first time it was exceeded by the cedar output. Ontario produced over nine-tenths of the red pine cut in Canada; Quebec was second. There was an increase in Nova Scotia of 2,227,000 feet, which gave it third place over New Brunswick, where there was a decrease. The average price of red pine in Canada was almost the same in 1909 as in 1908, declining only 14 cents. It was most expensive in Ontario at \$17.03, and cheapest in New Brunswick where it cost only \$9.96.

The growing scarcity of other woods in the East is bringing balsam to the fore. The Canadian cut for 1909 was 87.8 per cent greater than in 1908, and more than three-quarters of this output was supplied by Quebec. Ontario's production rose about 2,000,000 feet and Nova Scotia's 800,000 feet, while New Brunswick's declined 7,000,000. The price of balsam lumber was nearly the same in 1909 as in the year preceding. It was highest in Ontario at \$15.39 and lowest in New Brunswick at \$9.37. The cut in Quebec for 1909 was as great as in the whole of the United States for 1908.

#### Some Other Gains—Jack Pine Output Less.

Tamarack gained 92.2 per cent over 1908, with a large increase in each of the Provinces furnishing this lumber. It now ranks fourth in the list of British Columbia woods. The average price for all Canada advanced \$1.01. Tamarack was dearest in British Columbia at \$15.38 and cheapest in Manitoba at \$13.11.

Birch is the most important hardwood cut in Canada. It showed an increase of 15.7 per cent during the year. Ontario produced more than one-third of the total output. A gain of 9,500,000 feet gave New Brunswick second place, previously held by Quebec. The price rose \$1.82 over the average for 1908. It was lowest in Nova Scotia at \$11.59; highest in Ontario at \$21.76.

The maple cut for 1909 exceeded that for 1908 by 40.4 per cent; in spite of this gain it is still tenth in the list of Canadian woods, and second in the schedule of hardwoods. The fall of this timber in Ontario was 51.9 per cent more than in 1908. The average price remained about the same in the two years under discussion. In 1909 it was lowest in New Brunswick at \$10.27 and highest in Quebec at \$18.33. Although Canada is the land of the maple, the annual production in the United States is about 20 times greater than in the Dominion.

The 1909 cut of basswood in Canada was much larger than for 1908, rising 187.6 per cent. This enabled it to pass elm, jack pine, and yellow pine in lumber production. Ontario supplies about two-thirds of the Canadian basswood, the remainder comes from Quebec. The

price was 42 cents higher in 1908 than in the preceding year, for all Canada, and locally it was \$2.23 higher in Quebec than in Ontario. The United States produces annually about seven times as much basswood as does the Dominion.

There was an increase of 31.8 per cent in the output of elm lumber during 1909, nearly all of which was produced in Ontario. The average price declined 83 cents. The yearly output of elm in the United States is about eight times greater than in Canada. Wisconsin and Michigan each produce more than the total Canadian cut.

The eastern species of jack pine is sometimes called "gray" or "scrub" pine, or, in Quebec, "cypress;" the western species is cut in British Columbia under the names of "lodgepole" and "black" pine. This was one of the few woods to show a loss in 1909, when it fell off 2.2 per cent as compared with 1908. Jack pine is used more largely for railway ties than for lumber. The average price was 58 cents higher in 1909 than in the preceding year.

The only yellow pine cut in Canada is the western yellow or "bull" pine of southern interior British Columbia, and should not be confused with the hard yellow pine imported in large quantities into eastern Canada from the Southern States. Although the cut of all other important British Columbia woods increased in 1909, the yellow pine output was 11.8 per cent less than in 1908. The area of yellow pine forests in Canada is very small. The average price for 1909 was \$4.64 below that of 1908.

#### Ash, Beech, Poplar, Oak, etc.

Practically all the ash lumber produced in Canada is felled in Ontario and Quebec, which latter Province showed an increase of 119.3 per cent in its output for 1909. Ontario gained 22.4 per cent. Nova Scotia, the most important of the maritime Provinces in the supply of hard wood, cut only 39,000 feet of ash in 1909, and 236,000 feet in 1908. The total ash yield was, however, 62.1 per cent more than in 1908. The average price for all Canada was 58 cents lower in 1909 than in the preceding year, but it was \$3.17 higher in Ontario than in Quebec. In the United States the annual cut of ash is 13 times as great as it is in Canada. Each of five States, Michigan, Arkansas, Ohio, Indiana, and Wisconsin, exceeds the Dominion in its annual production of this wood.

The scarcity of other more valuable hardwoods is leading to an increased use of beech, and in consequence the cut for 1909 was 195.8 per cent more than in 1908. Ontario produced over half of the beech manufactured in Canada. The price was nearly the same in 1909 as in the preceding year, being 17 cents higher in 1908. The annual output of beech in the United States is approximately 27 times as great as that of Canada.

There are several species of poplar in Canada, some of them widely distributed in large quantities throughout the northern timber belt, though none are yet cut extensively for lumber. There was an average increase of 16.5 per cent in the cut of poplar for 1909. Ontario has a strong lead in the production of this wood. The average price was \$1.12 higher in 1909 than in 1908.

Only relatively small quantities of oak can now be secured in the Dominion;

the timber is chiefly confined, as is the case with other important hardwoods, to farmers' wood lots. The variety cut in Manitoba is burr oak. A portion of the oak manufactured in Canada is American timber, imported from the United States in the log. Excepting walnut, oak is the most expensive Canadian timber. Hickory is another wood which is, for commercial purposes, nearly extinct in Canada. This scarcity seems reflected in its average price for 1909, which was \$6.45 higher than in 1908. Walnut is the most expensive Canadian lumber, and the increase in price, \$11.10 per thousand, during 1909 was the greatest shown by any timber.

#### DEVELOPMENT BOARD ELECTS OFFICERS.

The annual meeting and election of officers by the members of the California development board was held Friday afternoon in the assembly room of the board, in the ferry building. A luncheon was served before the meeting, during which short addresses were made by former Governor Gillett and John P. Irish. Thirty-five representatives of large firms and corporations, besides delegates from nearly every county in the state, were present.

Former Governor Gillett, William J. Dutton and Robert Newton Lynch were re-elected to the respective offices of president, vice-president and manager. The places of Arthur Briggs, Arthur E. Mott and F. Tillman Jr., on the executive committee of the board, were filled by F. M. Tarpey, Theo Gier and Miles Standish. Lewis E. Aubury, state mineralogist, was elected an honorary member.

Following the reading of the report by Manager Robert Newton Lynch, John P. Irish spoke on the new industry of the production of Egyptian cotton in California. He said that in the next decade the raising of Egyptian cotton would mean more to the development of the state than the discovery of gold. Gillett read the president's report, in which he emphasized the work of the development board in the furthering of home industry in this state.

#### BIG WATER POWER DEAL.

GROVELAND, April 15.—The Tuolumne River Power Company, holding valuable water rights along the Tuolumne river, has transferred its title to the Yosemite Power Company. The company owns sixty-five miles of ditch and power sites valued at \$650,000.

The deal closes an option held for the past year by the purchasing company.

The property can be developed so that it can furnish 175,000 horsepower. John Hays Hommond is one of the interested parties to the investment, though the stock is held mostly in Maine. Over \$10,000,000 will be invested in the properties of the new corporation to develop power for mining purposes.

Apartment House—Tacoma, Wash.—Revised plans are now being prepared by W. J. Plouffe, a local architect, for the erection of a handsome \$25,000 apartment house for A. T. Collier of this city on Sixth and Tacoma avenues.

## Editorial Comment.

In a report filed Tuesday with the mayor and board of supervisors of the city, Mr. Byrne, Light and Water Inspector of the Board of Public Works, takes occasion to criticize the methods of the gas company in installing meters and making connections with the mains. He predicts the possibility here of a fire like the New York horror on account of improper construction of connections and poor workmanship and states that the whole business should be overhauled and remedied.

Fire prevention is at all times a live question. No matter how fireproof the construction, if inflammable materials are stored in a building they are liable to burn. And if insufficient care is exercised in handling gas there is at all times danger from fire and explosion.

This question of fires is now receiving some attention in the public schools of the country. In some states provision has been made for the inclusion of lessons in fire waste, fire prevention, and the ordinary fire hazards in the course of study. Some states have set apart one day in the year, known as "fire day," when public exercises are held with discussions on the subject, fire drills and talks by firemen and insurance men.

It is certain that the American public needs education in the matter of fire waste, for every year it runs up into hundreds of millions of dollars. Most of it is due to carelessness. This education may well begin in the schools for what the younger generation learns in its childhood may later be put to profitable use.

James A. Patten, the millionaire wheat gambler of Chicago, has come forward with the idea to spend his surplus fortune on means for preventing the "white plague." Apparently he has just discovered the need of such action and whether he expects to immortalize his name to posterity by a great work of charity or whether it is a sincere wish to benefit mankind is not known.

The trouble with these great fortunes is that they have been wrung from the people by dishonest methods and by means of unfair advantages. Patten's millions have been won on gambling deals that spelt ruin to many a home. Not only that but it was on deals of the necessities of life whereon an artificial price was put and every person had to pay a slight advance.

Of all the stock gambling, that which deals with the necessities of life are

the worst. Sometimes a "bear" market for instance will artificially depress the price of wheat. A farmer perhaps who has to meet a mortgage on his farm may have to sacrifice his entire crop and then go broke because a lot of millionaire gamblers are depressing the market.

Again the wheat market is cornered, the prices are artificially boosted and the cost of bread is materially increased. These are the methods by which such fortunes are created.

Charity is a good thing, but a free and independent people who do not need it is a whole lot better. Pensions and paternalism are not good things for people generally, nor for free governments. To be dependent on charity does not foster independence and ruggedness of character.

While it is an admirable thing that rich people should spend their fortunes in benefiting the human race in nine cases out of ten they are simply restoring to the people the money they took by unfair means.

The increased power of the railroad commission which gives it the power to regulate express rates within the state should have a good effect for the shippers. For the rates here in California are certainly exorbitant. Governor Johnson's comparison of rates showing that it costs practically as much to send a parcel from San Francisco to Los Angeles as it does to send it from San Francisco to New York shows that there is something wrong somewhere.

Railroads and express companies are common carriers. They usually have mutual agreements and the express companies have exclusive contracts with the railroads. So that in general where there are extortions by the express companies the railroads are as much responsible for the result as are the companies themselves. The railroads are usually holders of the express companies stock and it is simply a case of a subsidiary corporation used to get a few more dollars from the ultimate consumer.

There certainly is no more expense attached to the handling of express here in California than anywhere else. Especially is this true in the case of transportation to the East.

Perhaps no business of any magnitude in the United States derives so great profits from the amount invested as do the express companies. Their great danger is the parcels post. The sooner such an arrangement is instituted in the post office department by the government the sooner will there be more liberal rates and the public will not have to pay 300 per cent on the watered stock of the express companies.

# Fire and Its Prevention. Some Practical Suggestions For the Mill Owner.

By Homer Cloukey.

Perhaps the greatest bugbear of the mill owner whose factory is not of the modern concrete fireproof construction, is the ever-present fear of fire. There has resulted on account of this fear and the desire to lower insurance premiums, the investment of thousands of dollars in the installation of sprinkler systems and their maintenance. Such a tremendous investment is but a small part of the cost of fire inspection, the maintenance of other equipment and the pay and organization of private fire companies.

Now the primary object of all this expense is the reduction or elimination of the possibilities of loss or damage by fire. In order to receive reasonable rates for insurance, it is necessary to make the property to be insured a low risk, that is to say, reduce the liability of its burning by such construction and protection as will tend to retard fire or put it out.

Of course, there are those who, because of small investment and flimsy construction do not insure, and there are many of these who luckily save the cost of their building in insurance premiums in the course of a few years. Over against this class, however, are those of the same class who do not come out so easily and who lose their entire investment from an uninsured fire loss.

A little planning at the time of building will do much to secure a low insurance rate, even on such an inflammable risk as the wood-working factory is almost certain to be. The location of fire walls, with openings protected by fire doors mounted on inclined tracks so as to make them self-closing when released, and which can easily be caught open by a floor latch when desired, will often mean the segregation of the fire in one section until it can be extinguished. Even in a wooden building, if there are one or more such partitions, covered on both sides with sheet iron, painted or galvanized, it will often mean only a small instead of a total loss.

To prevent spreading from floor to floor, as there is always a tendency to do, it is well to have stairways and elevators in walled-out areas, connecting with the different floors, through fire-proof doors that can be closed in emergency and which should always be closed except in working hours. This will eliminate the spread of fire through these large openings, and while with lineshaft drives it is impossible to avoid a great many small openings through floors, for belts, still, fire will not spread through these nearly so quickly as through the larger openings. With the increase in electric drives, these small openings will gradually become a thing of the past.

In the construction proper of wooden factory buildings or of brick buildings with wood joists and interior, if the joists are heavier and spaced far-

ther apart, and the use of bridging is not required to keep them steady, much less studding surface will be presented to fire attack, and much more damage can be done before the joists give way and let down the floor. When a common 2-in. joist has burned completely through, the 4-in. or 5-in. has not yet been weakened dangerously. The floors for factory use can be made of a heavy 2-in. or 3-in. planking laid one way, and a light hardwood surface laid angling to this. This not only furnishes a substantial, hard-wearing surface for trucking, but effectively shuts off the draft up through cracks that so much accelerates the burning of supporting joists.

The walls, if not made of brick, stone or concrete, should have a covering of sheet metal siding. If the studdings are sided on the inside, cross-headers should be put in every 6 or 8 feet to prevent the wall acting as a flue to carry flames up to the roof. Flimsy, light walls, unless well protected, are nothing but a menace. The roof, especially, should be well protected against live coals or flaming embers from other fires.

A good coating of all the exposed wood work in the factory with a strong lime salt whitewash, renewed occasionally, will prevent the swift spreading of fire. There are plenty of fire-proof paints, but there are none cheaper or more easily applied than the whitewash sprayed on with a compressed air sprayer.

Besides these general items, there are others which cannot be said to be strictly fire preventive, although their tendency is in that direction. The first is the shavings system, which removes the sawdust and shavings from around the machines. Many fires have been caused by the accidental ignition of piles of shavings, which are nowadays removed out of the way as fast as made. Waste cans with hinged covers are almost essential now, removing one very common source of trouble. A few refuse cans of sheet iron, placed conveniently, will dispose of one item that has always been a source of danger, and that is the throwing of old papers and clothing in out-of-the-way corners or under benches. The providing of boxes to hold scrap, preventing its spreading out over the floor, would also help prevent fire gaining a foothold.

Of those precautions directly concerned with fire prevention, the one most highly specialized is the sprinkler system, which has been brought to a high degree of efficiency. While the modern system does not require much attention if properly installed, still, in cold climates in particular, a little carelessness will put the whole system out of commission. In some instances entire factories have burned down in spite of the sprinkler system. Properly speaking, its field of usefulness is restricted to checking the spread of

fire once started, and the putting out of small blazes before they can spread.

It is well to take the additional precaution of providing fire barrels, filled with a brine strong enough to prevent freezing in the winter, and covered with wooden lide to check evaporation; fire buckets should be provided for each barrel. By using either a round bottom bucket or one with a handle fastened to the bottom, and fastening them to the lid of the barrel with leather straps well nailed, they will be secure against theft or use for other purposes. When the occasion does arise, a man can jerk them loose or cut the strap in a second's time. The bucket with the handle on the bottom is preferred by many because, while it incidentally serves the same purpose as the round bottom, it is also possible to throw a bucket of water farther and with greater certainty by having a secure hold on the bottom of the pail.

In buildings of any size standpipes should be provided running through all the different floors, connected with the city mains, with a private supply, or with both, if possible. On each floor have a hose line of ample length all ready, connected with the pipe and with the nozzle attached to the other end. This hose is best stored in a swivel rack hung on the standpipe, as this will enable a man to seize the nozzle and run, there being no danger of the hose snarling or kinking. Thus arranged, it is but a matter of seconds to throw a good-sized stream, and with most factories the first few seconds tell the tale. In offices, show rooms and other such places, where fire lines or sprinkler systems would be unsightly, chemical fire extinguishers should be provided. These can be inclosed in sightly cabinets if desired, but should always be arranged so as to be instantly accessible.

The rational extension of the three lines of endeavor mentioned as follows will do much to lessen the present fire loss, as well as pay fair dividends in the way of smaller insurance premiums: The construction of factories with a view to retarding the spread of a fire once started; the provision for collecting and preventing the accumulation of inflammatory waste and refuse, and the adequate provision of apparatus and water for the prompt extinguishment of small blazes.

There is an increasing tendency to build well when you build and to take advantage of modern construction in the factory field, and the time may come when the wood-working institution will not be any more liable to fire than any other business. Fire is a dead loss. It may not be to the owner of the building, through adequate insurance, but it is to the resources of the nation at large; the loss is not lessened; it is merely distributed through the agency of the insurance company.—The Woodworker.

**Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.**

## Plans Wanted.

The Presbyterians of Madera, Madera County, California, are planning the erection of a new church edifice which is to cost in the neighborhood of \$20,000. The site has been selected and financial arrangements are being perfected. No architect has as yet been selected.

The members of the American Institute of Architects has been successful in their endeavors to have an advisor appointed by the state of Washington to act with the competing members for the new \$350,000 Temple of Justice which is to be erected in the Capitol of that state. The Commission having the matter in charge have signified their willingness to make such an appointment and to act with the Institute in other ways in conducting the competition. It has been arranged to hold to competition under the American Institute Code and plans will be opened on July 1.

A twenty thousand dollar high school building is to be erected at La Grande in Merced County during the coming year. The bonds for the new building have been voted and the Trustees of the Board are now engaged in perfecting the details which are to be incorporated in the new structure. Competitive plans will probably be called for within a short time.

A number of fraternal organizations in the city of Oroville, California, are planning the erection of a suitable building for hall purposes. The organizations which are interested in this project include the following: Native Sons, Modern Woodmen of America, Red Men, Knights of Pythias, Eagles, Moose and the Fraternal Brotherhood. A lot has been selected and the purchase of the same is to be made at once. The building which is to be erected will contain two large lodge halls, banquet rooms, and stores on the first floor. About \$30,000 will be spent on the structure.

The Masonic Lodge at Santa Monica, California, are to shortly start the work of raising money for the construction of a lodge hall for for the Masons of that city. A site has been selected at the corner of Second street and Orange Ave. The Building Committee consists of the following members: W. Rodgers, R. R. Tanner, R. H. Dow, H. J. Engalls, I. D. Wheeler, O. G. Tullis and J. C. Steele, all of Santa Monica.

Supervisor Fairbanks of Mendocino County, has been instructed by the Board to secure plans for a new jail building which is to be erected at Laytonville, in that county. Mr. Fairbanks lives at Ukiah.

Bonds for a small school building will be voted on May 4th in the city of Bakersfield, California, for the erection of a new building. The work will not exceed \$10,000.

Several architects are preparing competitive plans for the \$200,000 Polytechnic High School which is to be erected in San Jose, California. No date has as yet been set for opening the plans. The building will be two or

three stories high and in the Spanish Mission style of architecture.

The Independent Order of Odd Fellows at Fullerton, Orange County, California, have purchased a site and will commence the construction of a lodge hall as soon as an architect has been selected. The new building is to be one of the finest structures in Fullerton and the organization hopes to have the work under way by the first of the year.

R. A. McWilliams, 331 First National Bank Bldg., Oakland, California, intends erecting several residences in the near future and has as yet selected no architect. The dwellings will be built for sale, and are to cost between \$3,000 and \$4,000.

J. E. Loze, 831-17th street, Oakland, California, will erect a seven room story and a half residence this summer and has not selected his architect as yet. The owner wants to begin work about July 1st.

## —APARTMENT HOUSES—

**San Francisco**—Apartment House, 3 story and base, frame, \$15,000. Architect H. C. Smith, Humboldt Bank Bldg., S. F. Owners Frank and Lewis C. Heuter. The exterior of the building will be of cement plaster on metal lath. The interior will be handsomely finished, a feature of the living rooms being large open fire places. The architect has just started the working drawings.

**San Francisco**—Apartment House, 3 story and base frame. Cost not given. Architect John Davis Hatch, Humboldt Bank Bldg., S. F. Owner Henry Hickman. The house will be arranged on the terrace plan, the exterior being of cement plaster on metal lath. The same architect has just awarded the contract for a building for the same owner, and will start the plans for this structure at once.

**San Francisco**—Apartment house 5 story and base, brick and steel, \$60,000. Architect Ralph Warner Hart, Humboldt Bank Bldg., S. F. Owners Robson-Sattler Co. The owners have just come into the possession of this property, and beyond the building, but few particulars as to its construction can be given at this time. The intention of the owners is to erect a high-class apartment, complete in all its details, and the architect has been ordered to prepare the plans accordingly.

**San Francisco**—Apartment House, 3 and 4 story and base, brick, \$50,000. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owner Mrs. Honorah Conlan. The building will contain 7 apartments to the floor, arranged in suites of 2 and 3 rooms each. The exterior will be of pressed brick. Complete steam heating plant, elevators and dumb waiters will be installed. Wall beds will be used in all apartments. The architect is preparing the drawings.

**San Francisco**—Apartment house, 6 story and base, brick and steel, \$100,000. Architect Frederick H. Meyer, Humboldt Bank Bldg., S. F. Owner A. E.

Eisen. The building will be 125x104, with the street elevation faced with pressed brick. The mechanical equipment will be complete, including steam heat, elevator service and vacuum cleaners. The sketches have been approved and working drawings are being prepared.

**San Francisco**—Apartment House, 3 story and base, frame, \$20,000. Architects Dunn and Kearns, Monadnock Bldg., S. F. Owner P. Noble. The house will be strictly modern, all apartments being fitted with Marshall Stearns wall beds. There will be a complete steam heating system and elevator service. The plans are ready for figures.

**San Francisco**—Apartment House, 3 story and base, brick, \$15,000. Architect John A. Ettlter, Atlas Building, San Francisco. Owners Bothin Real Estate Co. The exterior of the building will be faced with cement plaster. The interior is to be finely finished and equipped in the most modern manner. The plans are complete, and the work is to be done by Day Labor.

**Stockton, San Joaquin Co., Cal.**—Apartment house, 3 story and base, frame, \$11,000. Architect R. P. Morrell, Stockton. Owner A. Sanguinetti. The building is to be complete in all the details. The architect is now preparing the plans.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick. Cost not given. Architect Peter M. Ehlers, 611 Delta Bldg., L. A. Owners G. J. Schaefer and Franz Kern. The building will be 60x157, and will contain all the most modern improvements, including steam heat and a vacuum cleaning system. The exterior will be of pressed brick. The plans are being figured.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 3 story and base, brick, \$60,000. Architects Scholes and Lochridge, 616 First National Bank Bldg., Long Beach. Owner R. A. Eno. The building will be 100x150 and will be faced with pressed brick on the street elevations. The plans are now complete and are ready for figures.

**Modesto, Stanislaus Co., Cal.**—Apartment house, 2 story and base, brick, \$20,000. Architect Walter King, Elks' Bldg., Stockton. Owner P. H. Griffin. The exterior of the building will be of pressed brick. The interior finish will be of Oregon pine. The architect is preparing the plans.

**Los Angeles, Cal.**—Apartment house, 2 story and base, brick. Cost not given. Architect J. William Roberts, 2340 W. 30th St., L. A. Owner same. The building will be 40x90, and the exterior will be faced with pressed brick. The architect is preparing the plans. The work will probably be done by Day Labor.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame. Cost not given. Architects Garrett & Bixby, Currier Bldg., L. A. Owner Nelson Van Fleet. The building will be 40x142, and will contain 39 apartments fitted in the most modern manner. The exterior of the building will be of cement plaster on metal lath. The plans are complete and bids are being taken.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$15,000. Architects Garrett & Bixby, 405 Currier Bldg., L. A. Owner Celestine Walker. The building will be 44x83, and will be equipped with steam heat, private baths and wall beds. The plans are complete.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$20,000. Architects Fred J. Ryan & Co., Consolidated Realty Bldg., L. A. Owner's name withheld. The building will have steam heat, private baths and wall beds. The plans are nearly complete.

**Hollywood, Los Angeles Co., Cal.**—Apartment house, 2 story and base, frame, \$14,000. Architects Architectural Designing Co., 623 Grosse Bldg., L. A. Owner John Holt. The building will be 50x110 and the plans are complete. The work will be done by Day Labor.

**Los Angeles, Cal.**—Apartment house, 2, 3 story and base, frame, \$30,000 each. Architect none. Owners J. F. Heartwell, 661 Pacific Ave., L. A. and E. V. Eastman, 2nd and Elm Sts., L. A. The buildings will be erected on adjoining lots. The exterior will be of cement plaster on metal lath. Mr. Heartwell will take bids for the work shortly.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick, \$45,000. Architect C. F. Borton, 615 Union Trust Bldg., L. A. Owner Mrs. L. E. Borton. The building will be 50x150. The exterior of the building will be of cement plaster. The equipment will include steam heat, vacuum cleaning system, wall beds and private telephones. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 5 story and base, concrete and stone. Cost not given. Architect A. L. Haley, Inc., 908 Higgins Bldg., L. A. Owner's name withheld. The building will be 60x114. The exterior will be of stone and cement plaster. There will be stores on the first floor and 48 apartments of 2 and 3 rooms each on the upper floors. There is to be steam heat, elevators and wall beds used. The plans are being prepared.

**Seattle, Wash.**—Apartment house, 3 story and base, brick, \$30,000. Architect John Carrigan, 508 Oriental Bldg., Seattle. Owner's name withheld. The work will be done by Day Labor, but bids are being taken through the architect's office for all materials.

**Spokane, Wash.**—Apartment house, 3 story and base, brick, \$25,000. Architect Harvey Smith, Eagle Bldg., Spokane. Owner Mrs. Ruth Rhodenhamel. The exterior of the building will be of pressed brick and terra cotta. The plans are being prepared.

**Spokane, Wash.**—Apartment house, 3 story and base, brick, \$25,000. Architect Harry Dittmer, Spokane. Owner Mrs. Eleanor S. Worcester. The architect has started the working drawings, and the construction will be started as soon as the condition of the ground permits.

### —BANKS—

**San Fernando, Los Angeles Co., Cal.**—Bank, 2 story and base, brick. Cost not given. Architects Train and Williams, 226 Exchange Bldg., L. A. Owners First National Bank of San Fernando.

The building will be 60x80, and will be faced with glazed brick. The first floor will be occupied by the bank and the second floor will be divided into offices and apartments. The plans are being prepared.

**Corona, Riverside Co., Cal.**—Bank, alterations, \$15,000. Architect not given. Owners Corona National Bank, Corona. New store fronts will be put in and the interior of the banking rooms completely changed. C. B. McConnell is the president of the bank.

### —BRIDGES—

**San Mateo Co., Cal.**—Bridges, 1 concrete arch bridge and 1 wooden trestle bridge. Cost not given. Engineer County Surveyor Neuman, Redwood City. Owner San Mateo Co. Bids are now being taken for the construction of two bridges, one in the Third Township and one in the First Township. The plans are on file at the Engineer's office, and bids will be opened by the Board of Supervisors on May 1st.

**Sacramento, Sacramento Co., Cal.**—Bridge, steel and concrete, \$30,000. Engineer Sacramento County Surveyor, Sacramento. Owners Sacramento County. The Supervisors have voted to construct this bridge, which will span the American River, and have instructed the Surveyor to prepare plans.

**Skagit River, Wash.**—Bridge, steel and concrete, \$25,000. Engineers Bowerman and McCloy, Central Bldg., Seattle. Owners Skagit County. The bridge is to be a fixed span steel draw bridge, resting on concrete piers. The plans are complete and the Engineers will receive bids up to and including May 2.

### Contracts Awarded.

**Gray's Harbor, Wash.**—Jetty contracts, Major C. W. Kutz, Burke Bldg., Seattle, has awarded the following contracts for materials for the jetty work. Little Rock Lumber Co., Little Rock, Wash., 77,000 feet of piling, \$11,043.50. Ela & Kinnear, Seattle, brush facines, \$9,175. A. Tibbetts, Little Rock, Wash., 2,000 grillage poles, \$1,020. Contracts for approximately \$300,000 worth of rock will be awarded by the Secretary of War on the recommendation of Major Kutz shortly.

### —CHURCHES—

**San Francisco**—Church, 1 story and base, frame, \$8,000. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owners St. Monica's Church. The exterior of the building will be covered with rustic. The plans are complete and bids are being taken.

**Berkeley, Alameda Co., Cal.**—Parish house, 2 story and base, frame, \$15,000. Architect Willis Pelk, Merchants' Exchange Bldg., S. F. Owners St. Mark's Episcopal Church. The building will contain a large auditorium, Sunday school rooms, library and office. The details of construction are not yet complete. The plans will be ready in about 30 days.

**Portland, Ore.**—Church, frame construction, \$20,000. Architects H. M. Fancher & Co., Portland. Owners Trinity Presbyterian Church. The building is designed in the Modified English

style and will seat about 400 people. Bids are under advisement.

**San Luis Obispo, San Luis Obispo Co., Cal.**—Guild Hall, 2 story and base, frame, \$8,000. Architect G. M. Eastman, San Luis Obispo. Owners St. Stephens Church. The plans for this building have just been approved by the committee. Construction will be started as soon as the drawings can be completed.

**Alhambra, Los Angeles Co., Cal.**—Church, brick and frame construction. Cost not stated. Architects Austin and Pennell, 1015 Wright and Callender Bldg., L. A. Owners Methodist Episcopal Church of Alhambra. The edifice will be designed in the Gothic style, and have a seating capacity of about 500. Plans are being prepared.

### Contracts Awarded.

**Monrovia, Los Angeles Co., Cal.**—Church, Concrete and frame, \$25,000. Architects Allison and Allison, Exchange Bldg., L. A. Owners Methodist Episcopal Church, Monrovia. Contractors J. P. Dawson and G. A. Daniels, Pasadena, Cal. Contract price \$24,868. Contract does not include plumbing.

### —COURT HOUSES & JAILS—

**Ventura, Ventura Co., Cal.**—Court House, 2 story, attic and base, reinforced concrete, \$125,000. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners Ventura County. The architect is completing the working drawings for this building, and the excavating is now being figured. The exterior of the building will be of cement plaster.

**Dayton, Lyons Co., Nev.**—Court House, 2 story and base, steel and stone, \$125,000. Architect L. U. Chant, Dayton, Nev. Owners Lyons County. The plans of the architect have just been approved. The exterior of the building will probably be of Manti stone.

**Fairfield, Solano Co., Cal.**—Court House furnishings. Cost not stated. Architects Hemmings and Jones associated, Sacramento and Vallejo. Owners Solano County. Plans are being prepared for the metal furniture and bids will be called for shortly.

### —FACTORIES & WAREHOUSES

**Oakland, Cal.**—Factory, 3 story and base, reinforced concrete, \$30,000. Architects Meyer and Reed, Oakland Bank of Savings, Oakland. Owner Emil Lehnhardt. The building will be used for a candy factory. The plans will be ready for figures about April 30th.

**Sacramento, Sacramento Co., Cal.**—Warehouse, 2 story and base, reinforced concrete, \$60,000. Engineer H. J. Brunier, 651 Monadnock Bldg., S. F. Owner Hayward Reid. The building will be 260x200, and will be carried on concrete piles. The plans are being prepared.

**Los Angeles, Cal.**—Laundry, 2 story and base, brick and concrete, Cost not stated. Architect Chas. E. Shattuck, 318 Mason Bldg., L. A. Owners Golden State Laundry. The building will be 100x100. The engine and boiler rooms

will be of reinforced concrete. The plans are being prepared.

**San Francisco**—Warehouse, 3 story and base, reinforced concrete, \$40,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Eastman Kodak Co. This building has been mentioned here before. Some changes have been made in the original drawings and figures are again being taken. The first floor will be occupied by stores and the upper floors by lofts.

**San Francisco**—Warehouse, 3 story and base, reinforced concrete, \$15,000. Architect Thomas Smith, Lick Bldg., S. F. Owner's name withheld. The building will contain stores on the first floor and lofts above. The exterior will be of cement plaster. The plans are ready for figures.

## FIRE HOUSES.

**San Francisco**—Fire house, 2 story and base, brick and concrete. Cost not stated. Architect City Architect Alfred I. Coffey, David Hewes Bldg., S. F. Owner City and County of San Francisco. The building will be known as Engine House No. 43. Bids are now being taken and will be opened on May 3. The plumbing and electrical work have been separated from the general contract.

## FLATS.

**San Francisco**—Flats, 3 story and base, frame, \$6,500. Architects William Curlett and Son, Phelan Bldg., S. F. Owner R. W. McElroy. The building will contain 6 flats with all modern conveniences. The exterior will be of rustic. The plans are now being figured.

**San Francisco**—Flats, 2 story and base, frame, \$6,500. Architects George A. Streshley & Co., Balboa Bldg., S. F. Owner's name withheld. The building will contain four flats. The exterior is to be of shiplap and rustic. The plans are being figured.

**San Francisco**—Flats, 2 story and frame, \$12,000. Architect Albert Farr, Humboldt Bank Bldg., S. F. Owner Mrs. A. Legge. This work has been mentioned here before when the plans were figured. The building ran too high and new figures are being taken.

**San Francisco**—Flats, 3 story and base frame, \$9,000. Architect Loring P. Rixford, Mills Bldg., S. F. Owner Mrs. C. R. Johnson. The building will contain five flats and a store. The exterior will be covered with rustic. The plans are now complete and are being figured.

**San Francisco**—Flats, 3 story and base frame, \$7,800. Architect Paul De Martini, 628 Montgomery St., S. F. Owner Mrs. Maria Valponia, Livermore, Cal. The exterior of the building will be covered with rustic and shiplap. The plans are complete, and the work is to be done by Day Labor.

the dwellings will be of rustic and the frame, \$4,000. Architect none. Owner W. Oszdorff, 184 Waller St., S. F. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Portland, Ore.**—Flats, 2 story and base, frame, \$8,000. Architects Kroner & Henn, Portland. Owner William A. Dempsey. The building will contain

four flats of 5 and 6 rooms each. The plans are being figured.

## GARAGES.

**Hollywood, Los Angeles Co., Cal.**—Garage, 2 story and base, reinforced concrete. Cost not stated. Architect Elmer Grey, 811 Wright and Callender Bldg., L. A. Owner G. W. Wattles. The plans are complete and figures are being taken.

## GOVERNMENT WORK AND SUPPLIES.

**Benicia Arsenal, Benicia, Solano Co., Cal.**—Bids will be opened on May 1st for furnishing the Government with the following supplies for the fiscal year ending June 30, 1912: Bar Iron, Hardware, Leather, Lumber, Paints, Oils, Cements, Electrical supplies, etc. Lt. Col. J. W. Benet, Commanding Officer.

**San Francisco**—Alternating steam pipes and heating system, \$6,000. Architect J. W. Roberts, Superintendent of Repairs, 402 Post Office Bldg., S. F. Owner U. S. Government. The work to be done is located in the Marine Hospital. Bids will be opened on May 4th.

**Fort Russell, Wyo.**—Vitrified Pipe and Specials. Cost not stated. Owner U. S. Government. Bids are being taken for the furnishing of approximately the following quantities of vitrified pipe: 3,125 feet of 8 inch, 2,900 feet of 6 inch together with specials, etc. Bids will be opened May 4th. Capt. F. S. Armstrong, officer in charge.

**Navy Yard, Puget Sound, Wash.**—Supplies. Cost not stated. Officer in charge T. J. Cowie, Navy Paymaster's office, Seattle, Wash. The supplies consist of the following: Douglass fir and spruce lumber and copper tubing. Bids will be opened May 2nd.

## HOTELS.

**San Francisco**—Hotel, 7 story and base, brick and steel, \$70,000. Architect Edward Foulkes, Crocker Bank Bldg., S. F. Owner A. Rudgear. The exterior of the building will be faced with pressed brick and stone. The mechanical equipment will consist of elevators, steam heating plant, and a vacuum cleaning system. The plans are complete and bids are being taken.

**San Francisco**—Hotel, 4 story and base, brick, \$27,500. Architect none. Owners Boscus Bros, S. F. The building will contain stores on the first floor and rooms above. The exterior will be of pressed brick. The work will be started as soon as a loan can be negotiated.

**San Francisco**—Hotel, 6 story and base, reinforced concrete, \$60,000. Architect Geo. A. Streshley & Co., Balboa Bldg., S. F. Owner's name withheld. The architect has completed the working drawings and is taking figures on the work. There will be steam heat

and elevator service installed. The exterior will be of cement plaster.

**Los Angeles, Cal.**—Hotel Add, 3 story brick. Cost not stated. Architects R. P. Young and Son, Lankershim Bldg., L. A. Owner C. G. Berg. The addition will contain 18 apartments of 2 rooms each. There will also be added elevator service and steam heat and wall beds. The plans are being prepared.

**Los Angeles, Cal.**—Hotel and store, 2 story and base, brick, Cost not stated. Architects Garrett and Bixby, 495 Currier Bldg., L. A. Owner S. C. Dodge. The building will be faced with pressed brick. There will be 67 rooms, 14 toilets and 8 baths. The work is to be done by Day Labor.

**Bakersfield, Kern Co., Cal.**—Hotel, 3 story and base, brick and steel, \$50,000. Architect T. B. Wiseman, Producers' National Bank Bldg., Bakersfield. Owners Barnett and Morrow. The building will contain 60 rooms and stores on the first floor. There will be steam heat and elevator service.

**Los Angeles, Cal.**—Hotel 4 story and base, reinforced concrete, \$100,000. Architect Elmer Grey, 811 Wright and Callender Bldg., L. A. Owners Percy A. Clark, M. H. Sherman, H. E. Huntington and others. The details of construction have not been worked out, but the building will contain about 200 guest rooms, and will be the most modern in all points of equipment. The architect is preparing the plans.

**San Francisco**—Hotel, 5 story and base, brick and steel, \$80,000. Architects Cunningham and Politeo, Chronicle Bldg., S. F. Owner George T. Marye. The architects have completed the drawings and are taking figures on this work. The excavating and bulk heading have been awarded. The building is arranged for stores on the first floor and rooms above. There will be steam heat and elevator service installed.

**San Francisco**—Hotel, 3 story and base, frame, \$35,000. Architect none. Owner J. Dominio, 618 Haight St., S. F. The building will be located in a small town near San Francisco. The owner wants contractors to submit bids.

**San Francisco**—Hotel, 5 story and base, Class A construction, \$400,000. Architects Macdonald and Applegarth, Call Bldg., S. F. Owner John Martin. The property on which this hotel is to be erected has recently been sold by the Regents of the University of California, and the new owner is reported as retaining the architects who were to design the structure for the Regents.

## HALLS & SOCIETY BLDGS.

**Oakland, Cal.**—City Hall, 14 story and base, Class A construction, \$1,000,000. Architects Palmer and Hornbostel, New York and First National Bank Bldg., Oakland. Owners City of Oakland. The official bids for this work have been advertised. The work has been separated into 27 departments. Bids will close May 22nd.

**Ballard, Wash.**—Hall, 2 story and base, frame and brick, \$20,000. Architect V. W. Voorhees, Eitel Bldg., Seattle. Owners Ballard Elks' Hall Association. The building will be 100x118, and will be faced with pressed brick veneer. The plans are being prepared.

**Los Angeles, Cal.**—Club house, 3 story and base, brick, \$30,000. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners American Institute of Bankers. The building will be finely appointed and will contain elaborate baths, steam heating system and elevators. The plans are being figured.

**Eugene, Ore.**—Hall, 2 story and base, brick, \$30,000. Architects E. E. McClaran, Portland. Owners Elks' Hall Association of Eugene. The building will be 80x160, and will be arranged for stores on the first floor and lodge rooms above. The exterior will be of pressed brick. The plans will be ready for figures about May 15th.

**Berkeley, Alameda Co., Cal.**—Fraternity house, 2 story and base, frame, \$14,000. Architect J. Cather Newson, Monadnock Bldg., S. F. Owners Sigma Nu Fraternity. The building will contain 18 rooms, and will be handsomely finished throughout. The plans are ready for figures.

**Sacramento, Sacramento Co., Cal.**—Auditorium and stores, 2 story and base, concrete, \$60,000 to \$70,000. Architect Foale, Sacramento. Owners represented by Merkeley, Chittenden and Keller of Sacramento. A site has been secured, and the building project will become a reality. The main auditorium will seat 2,000 people. The preliminary plans are complete.

### —HOSPITALS—

**San Francisco**—Marine Hospital, alterations to steam piping, \$6,000. Architect John Roberts, Superintendent of Construction, 402 Post Office Bldg., S. F. Owner U. S. Government. The work consists of complete alterations to the present system of piping. Bids will be opened May 4th.

**Oakland, Cal.**—Hospital, 2 story and base, Class A construction, \$60,000. Architects Meyer and Reed, Oakland Bank of Savings Bldg., Oakland. Owner's name withheld. The building will accommodate about 30 patients. The work will be undertaken this summer. The plans are now well advanced.

**Riverton, Wash.**—Hospital Add, 2 story and base, frame, \$4,000. Architects Gould & Champney, American Bank Bldg., Seattle. Owners Seattle Pulmonary Hospital. The bids for this work are now being taken.

### Contracts Awarded.

**San Luis Obispo, San Luis Obispo Co., Cal.**—Sanitarium, 2 story and base, frame and brick \$2,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owner Dr. W. D. Stover. Contractor J. J. Manlo, San Luis Obispo. Contract price \$22,000.

### —LIBRARIES—

**Hollister, San Benito Co., Cal.**—Library, 1 story and base, concrete, \$10,000. Architect William Bluder, Rea Bldg., San Jose. Owners Town of Hollister. The plans for this building are now complete and have been approved by the Board. Bids are being taken.

**Dixon, Solano Co., Cal.**—Library, 1 story and base, brick, \$10,000. Architects Parker and Kenyon, 244 Kearny

St., S. F. Owners City of Dixon. The building is a Carnegie donation, and the financial end of the work is in the hands of the Ladies' Improvement Club of Dixon. The plans are being prepared.

**Seattle, Wash.**—Art Museum, 4 story and base, Class A construction. Architects Kingsley and Eastman, Empire Bldg., Seattle. The exterior will be of granite and sandstone, and the building will be fireproof throughout. The preliminary plans have just been approved.

### —POST OFFICES—

**Fort Collins, Colo.**—Post Office, 2 story and base, steel and stone. Cost not stated. Architect James Knox Taylor, Washington, D. C. Owner U. S. Government. The plans for this building are now complete and have been forwarded to the west, and figures are being taken. The bids will be opened on May 23rd.

**San Diego, Cal.**—Post Office and Custom House, 3 story and base, Class A construction. Cost not stated. Architect James Knox Taylor, Washington, D. C. Owner U. S. Government. The plans for this building are complete and have been forwarded to local cities for figures. The bids will be opened May 25th.

**San Francisco**—Alterations to Appraisers Building, \$15,000. Architect Supt. of Construction John Rogers, 402 Post Office Bldg., S. F. Owner U. S. Government. Plans have been forwarded to Washington for approval of considerable work in this building, which will include the tearing out of all old partitions and replacing them with partitions of metal lath and plaster. There will be two new elevators and new plumbing.

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Willows, Glenn Co., Cal.**—Station, 2 story and base, frame. Cost not stated. Architect Engineering Dept. S. P., Flood Bldg., S. F. Owners Southern Pacific Co. The announcement that Willows is to have a new station was made public through a message sent by the company to the City Trustees. The plans for the work are now nearly complete and work will be started at once.

**Lemoore, Kings Co., Cal.**—Station, brick and frame. Cost not stated. Architect Engineering Dept. S. P. Co., Flood Bldg., S. F. Owner Southern Pacific Co. The plans for this building have been started and the work is to be commenced this summer.

**Handford, Kings Co., Cal.**—Freight Depot, frame. Cost not stated. Architect Engineering Dept. S. P. Co., Flood Bldg., S. F. Owners Southern Pacific Co. The passenger depot has been moved from its old site to make room for this work, and the plans are nearing completion.

**Vancouver, Wash.**—Sub. Station, 2 story and base, reinforced concrete, \$25,000. Architect Engineering Dept. Mount Hood R. R. and Power Co., Portland, Ore. Owner Mount Hood R. R. and Power Co. J. S. Grow of Portland announces that this work will be started at once.

### RESIDENCES.

**San Francisco**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner Knut Anderson, 139 State St., S. F. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**San Francisco**—Bungalows, 2, 1½ story and base, frame, \$1,500 each. Architect none. Owner H. H. Ohlson, 2869 Harrison St., S. F. The plans are complete and in the hands of the owner. The work is to be done by Day Labor.

**San Francisco**—Residence, 2½ story and base, frame, \$14,000. Architects Frye and Osborn, French Bank Bldg., S. F. Owner C. R. Sprivalio. This dwelling has been mentioned here before when the plans were figured for the first time. The work ran too high and new bids are now being taken. Only minor changes have been made in the original plans, and the contract will be let as soon as the new figures are received.

**Portland, Ore.**—Residence, 2 story and base, frame, \$5,000. Architects Kroner & Henn, Portland. Owner H. W. Lemcke. The dwelling will contain 8 rooms and baths. The plans are being prepared.

**Portland, Ore.**—Residence, 2 story and base, frame, \$4,000. Architects Clarke and Bristow, Portland. Owner S. Mathison. The dwelling will contain 8 rooms and bath. The exterior will be of pressed brick veneer. The plans are being prepared.

**San Francisco**—Residence 3 story and base, brick, \$35,000. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owners Dominican Fathers. The exterior of the dwelling will be of pressed brick. The interior is to be handsomely finished. The steel contract has been awarded to the Brode Iron Works and figures for the balance of the work are in and under advisement. The contract will be let this week.

**San Francisco**—Residence, 2 story and base, frame, \$2,500. Architect G. A. Berger, 736 Octavia St., S. F. Owner Patrick F. Keely. The figures for this work are now under advisement in the architect's office.

**San Francisco**—Cottages 4, 1 story and base, frame, \$1,200 each. Architect none. Owners McArthur Bros., 625 Dolores St., S. F. The exterior of San Francisco—Flats, 3 story and base interior trim of redwood. The plans are complete and in the hands of the owners. The work will be done by Day Labor.

**San Francisco**—Residence, 2 story and base, frame, \$2,000. Architect none. Owner E. E. Manseau, 1225 6th Ave. The exterior will be of brick veneer and cement plaster on metal lath. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,000. Architect Peter Fredrickson, 2317 Haste St., Berkeley. Owner same. The dwelling will contain 9 rooms and 2 baths. The exterior is to be covered with shingles. The work is to be done by Day Labor.

**Seattle, Wash.**—Residence, 2 story and base, frame, \$4,000. Architect Robert Knipe, Henry Bldg., Seattle. Owner same. The plans are complete, and the work is to be done by Day Labor. Mr. Knipe is also taking figures for the electrical work for a \$50,000 apartment house which he is erecting.

**Portland, Ore.**—Residence 2 story and base, frame, \$4,500. Architect C. H. Kable, Portland. Owner Mueller. The dwelling is to be designed in the Colonial style, and the interior will be handsomely finished in hardwoods. The plans are being prepared.

**Oakland Cal.**—Residence, 2 story and base, frame \$5,500. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Dr. R. C. Anderson. The exterior of the dwelling will be of cement plaster on metal lath. The interior will be finished largely in hardwoods. The plans are now being figured.

**Berkeley Alameda Co., Cal.**—Residence, 2 story and base, frame. Cost not given. Architect W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner Walter Smith. The dwelling will contain 7 rooms and baths. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Oakland, Cal.**—Residences, 2 story and base, frame, \$3,000 to \$5,000 each. Architect none. Owner R. A. McWilliams, 331 First National Bank Bldg., Oakland. The owner will shortly start the construction of several fine residences, and would like to hear from material men and others. Catalogues will be carefully considered.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect none. Owner John Parikka, 831 Snyder Ave., Berkeley. The dwelling is to contain 12 rooms and the exterior will be of shingles. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Fruitvale, Alameda Co., Cal.**—Bungalow, 1½ story and base, frame. Cost not stated. Architect Ralph Warner Hart, Humboldt Bank Bldg., S. F. Owner C. A. Bosworth. The plans are now complete and figures are being taken.

**Alameda, Alameda Co., Cal.**—Bungalow, 1 story and base, frame, \$4,000. Architect W. E. Baumberger, 126 Cole St., S. F. Owner G. Earle Kelly. The exterior of the dwellings will be covered with shingles. A feature of the living room will be the large open fire place. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$15,000. Architect none. Owner Carl Doell, 467 22nd St., Oakland. The exterior of the dwelling will be of rustic. There will be large wood mantels. The plans are in the hands of the owner and figures are being taken.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$15,000. Architect F. Truman Swain, Mutual

Bank Bldg., S. F. Owner R. Kennedy. The plans call for a handsome dwelling in the Spanish style, with the exterior of cement plaster on metal lath. There will be a warm air heating system. The work is to be done by Day Labor.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$2,000. Architect A. Morgensen, 360 63rd Ave., Oakland. Owners Morgensen Bros. The dwelling will contain six rooms and bath. The exterior will be of shingles. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$2,500. Architect William C. Hays, Foxcroft Bldg., S. F. Owner Mrs. M. C. McMahon. The exterior will be of cement plaster on metal lath. The plans are complete and are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect Noble Newson, 2610 Durant Ave., Berkeley. Owner George T. Clow. The dwelling will contain 7 rooms and baths. The exterior will be of cement plaster on metal lath. The plans are complete and the work is to be done by Day Labor.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$2,500. Architect F. M. May, 2145 Center St., Berkeley. Owner C. P. Davies. The exterior of the dwelling will be of shingles. The interior will be finished in pine and hardwood. The plans are being figured.

**Los Angeles, Cal.**—Residence, 2 story attic and base, brick, \$35,000. Architects Edelman and Edelman, Blanchard Bldg., L. A. Owner Otto Sweet. The dwelling is to be designed in the French style. The exterior will be faced with cement plaster. There will be five bath rooms. The interior will be largely in hardwoods. The working drawings are being prepared.

**Los Angeles, Cal.**—Residence, 2 story and base, stone and frame. Cost not stated. Architect Peter W. Ehlers, 611 Delta Bldg., L. A. Owner G. A. Vandermeulen. The exterior will be partly of granite and partly of shingles. The interior trim will be of mahogany. There will be a complete heating system installed. The architect is preparing the plans.

**San Francisco**—Residence, 2 story and base, frame, \$2,500. Architect G. A. Berger, 736 Octavia St., S. F. Owner Patrick F. Keely. The architect has called for bids on the work and the contract will be awarded at once.

**Los Angeles, Cal.**—Residence, 2 story and base, hollow tile and plaster. Cost not stated. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owner Mr. Bettis. The dwelling will contain 12 rooms and three baths. The plans are nearly complete.

**Los Angeles, Cal.**—Residence, 2 story and base, frame, \$7,500. Architect Fred H. Eley, Hervey-Finley Bldg., L. A. Owner Mr. Gervais. The dwelling will contain 11 rooms. The exterior will be of cement plaster on metal lath. The plans are being prepared.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architect Thomas Preston, Currier Bldg., L. A. Owner F. H. Rindge. The dwelling will contain 10 rooms and will be hand-

somely finished in hardwood. There will be a warm air heating system installed. The plans are being figured.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects George T. Plowman, Needham and Cline, associated, Wright and Callender Bldg., L. A. Owner Carl Sal-

**Oakland, Cal.**—Residence, 2 story and base, frame, \$3,600. Architect A. W. Smith 1004 Broadway, Oakland. Owner H. S. Craig, 1003½ Broadway, Oakland. The exterior of the dwelling will be covered with shingles. The plans are being figured.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$2,000. Architect J. A. Pinkerton Berryman St., Berkeley. Owner same. The dwelling will contain 5 rooms and bath. The exterior will be covered with shingles. The work is to be done by Day Labor.

**Alameda, Alameda Co., Cal.**—Residence, 1½ story and base, frame. Cost not stated. Architect Fred P. Rabin, Builders' Exchange Bldg., S. F. Owner George E. Ford. The exterior of the dwelling is to be covered with rustic. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence alterations, \$3,000. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Abbie Edwards. The work includes considerable exterior changes and complete rearrangement of the interior of the building. The plans are being figured.

**San Francisco**—Residence, 2½ story and base, frame and brick, \$40,000. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner's name withheld. The plans for this handsome dwelling are now nearing completion and figures will be taken next week. The building will be erected in the Marine View district of San Francisco. The plans include all the most modern conveniences.

## SCHOOLS.

**Campo, San Diego Co., Cal.**—Day School, 1 school building and 1 employee's quarters. Cost not stated. Architect Dept. of Indian Affairs, Washington, D. C. Owner U. S. Government. Bids will be received until May 16 by Superintendent Chas. D. Rakestraw, Campo, Cal.

**Covelo, Mendocino Co., Cal.**—School Dormitory, frame. Cost not stated. Architect Dept. of Indian Affairs, Washington, D. C. Bids will be received up to May 18th for the construction of this building. Thomas B. Wilson, Superintendent, Covelo, Cal.

**Centerville, Alameda Co., Cal.**—Addition to school, \$7,000. Architect F. D. Voorhees, Central Bank Bldg., Oakland. Owner Centerville School District. The exterior of the building will be of rustic. There will be a heating system installed and connected with the present plant. The plans are complete and figures are being taken by the architect.

**Tracy, San Joaquin Co., Cal.**—School, 2 story and base, brick, \$25,000. Architects Deuel and Wright, Macdonough Bldg., Oakland. Owner Tracy School District. The exterior of the building will be of pressed brick. A heating

and vacuum cleaning system will be installed. The preliminary plans have just been approved.

**Melrose, Alameda Co., Cal.**—School Gymnasium, 1 story and base, frame, \$5,000. Architect, Louis S. Stone, Macdonough Bldg., Oakland. Owners Oakland Board of Education. The exterior of the building will be of rustic. The heating system will be connected with the main school building. The plans are being figured.

**Gilroy, Santa Clara Co., Cal.**—School, 2 story and base, brick, \$30,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners Town of Gilroy. The bond election which is to provide means for the construction of this building, has not been voted as yet, but it is stated that there will be no opposition. The architect has prepared preliminary drawings only.

**Monroe, Wash.**—School, 2 story and base, frame, \$15,000. Architects, Thomas, Russell & Rice, Eilers Bldg., Seattle. Owners Monroe School District. Bids for this work were opened recently in the offices of the architects and were found to be too high. New bids are being taken.

**Portland, Ore.**—School, 2 story and base, brick, \$30,000. Architects Kroner & Henn, Portland. Owners Benedictine Fathers. The building will be 60x72, and will be faced with pressed brick. The mechanical equipment will include steam heat and vacuum cleaning system. The plans are being prepared.

**Montalvo, Ventura Co., Cal.**—School, 1 story and base, frame, \$6,000. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owners Montalvo School Dist. The plans for the work are now being prepared. Bids will be called in about two weeks.

**Ventura, Ventura Co., Cal.**—School buildings. \$250,000. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owner City of Ventura. This work has been mentioned here before. The architect is now revising the original drawings in accordance with the ideas of the Trustees, who wish to enlarge the general administration building.

**Phoenix, Ariz.**—School buildings Class C, construction \$150,000. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owner City of Phoenix. The preliminary drawings for this work have just been approved and the details of construction have not been worked out.

**Anaheim, Orange Co., Cal.**—School group plan, reinforced concrete construction will probably be used. \$75,000. Architects John C. Austin and W. C. Pennell, associated, Wright & Callender Bldg., L. A. Owners Town of Anaheim. The preliminary drawings of the architects have just been approved and details are now being worked out. The plans will not be ready for figures for about two months.

**Watts, Los Angeles Co., Cal.**—2 story and base, brick, \$25,000. Architect Paul V. Tuttle, Glendale. Owners Watts School District. The building will be 74x130 and will be faced with blue brick. There will be a steam heating and vacuum cleaning system. The plans are completed and are being figured. The bids will be opened May 1st.

## STORE.

**San Francisco.**—Store and lofts, 2 story and base, frame, \$4,000. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner M. Levin. The plans for this building are complete and figures are being taken.

**San Francisco.**—Store and Lofts, 2 story and base, brick, \$7,000. Architect W. S. Rhodes, 3372 16th St. Owner C. T. Hornung. The architect has completed the plans and will shortly award the contract for this building.

**San Francisco.**—Stores and Lofts, 4 story and base, reinforced concrete, \$60,000. Architect Mac Donald and Applegarth, Call Bldg., S. F. Owner represented by F. A. Corbusier, 75 Sutter St., S. F. The building is to be designed for light manufacturing concerns and printers. The exterior will be of cement plaster. The plans are being prepared.

**Alameda, Alameda Co., Cal.**—Store, 1 story and base, brick, \$4,000. Architect Charles E. J. Rogers, 24 California St., S. F. Owner A. H. Koerber. The exterior of the building will be of pressed brick. The plans are being figured.

**Oakland, Cal.**—Stores and Office, Class A, construction, \$50,000. Architect, C. W. Dickey, Russ Bldg. S. F. Owners Kahn Bros. Oakland. The details of this big structure have not been completed and beyond the fact that the work will be undertaken this year nothing can be said. The preliminary plans are in the hands of the owners.

**Ballard, Wash.**—Store, 2 story and base, brick, \$25,000. Architect V. W. Voorhees, Eltel Bldg., Seattle. Owner H. W. Treat. The building will be faced with pressed brick. The plans are being prepared.

**Seattle, Wash.**—Store, 2 story and base, concrete, \$14,000. Architect, V. W. Voorhees, Eltel Bldg., Seattle. Owner Louis Anderson. The plans for this building are being completed and will be ready for figures shortly.

**Los Angeles Cal.**—Stores, 1 story and base, concrete, cost not given. Architect J. William Roberts, 2340 West 30th St. Owner H. C. Akin. The building will contain 6 stores. The plans are being prepared.

## Contracts Awarded.

**Los Angeles, Cal.**—12 story and base. Class A, \$350,000. Architects Parkinson & Bergstrom, Security Bldg., L. A. Owners Chester Fireproof Bldg. Co., L. A. Contractors National Fireproofing Co., Central Bldg., L. A. The general contract has been let to the above named firm for \$318,000. This does not include considerable of the special work about the big structure.

## THEATRES.

**San Francisco.**—Theatre, 1 story and base, reinforced concrete, \$12,000. Architect M. Mattonovich, 642 Pacific Bldg., S. F. Owners Emanuel Lewis Investment Co. The building will be occupied by a moving picture show and will have a seating capacity of 350. The exterior will be of cement plaster. The plans are complete.

**San Francisco.**—Theatre, 1 story, steel and concrete, \$10,000. Architects M. Oser Bros., Metropolis Bank Bldg., S. F. Owner M. Oser. The building will have a seating capacity of 400. The plans are complete.

**Los Angeles, Cal.**—Theatre, 2 story and base, brick and steel, \$100,000. Architect A. F. Rosenheim, 615 H. W. Hellman Bldg., L. A. Owners Anheuser Busch Co. The building is planned for a casino and will include a complete stage, dining rooms, etc. The plans are being figured.

## SEALED PROPOSAL.

Hundreds of dollars may be saved by securing numerous and able competitors to bid on your work. All large construction enterprises and the supply of materials should be advertised in these columns to secure "rock bottom prices." All the leading contractors, manufacturers and material men on the Pacific Coast States read the Building and Industrial News. Send us your advertisements, note the results and save money.

Announcements in these columns will be published at a uniform rate of 10 cents per line for first insertion and 5 cents per line for each subsequent insertion.

Advertisers may send plans and specifications to this office for the convenience of local bidders without extra charge;

## CONCRETE ARCH BRIDGE.

(Bids opened May 1.)

A deposit of \$25 required to insure return of plans, etc. Envelopes containing proposals to be indorsed "Proposals for Barracks, Presidio of San Francisco," and addressed to LT. COL. GEO. McK. WILLIAMSON, Deputy Quartermaster General, U. S. A.

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

### San Francisco.

**Apartment House**—3 story and base, frame, \$15,000. San Francisco. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owners Frank and Lewis C. Heuter. The exterior of the building will be of cement plaster on metal lath. The interior will be handsomely finished, a feature of the living rooms being large open fire places. The architect has just started the working drawings.

**Apartment House**—3 story and base, frame. Cost not given. San Francisco. Architect John Davis Hatch, Humboldt Bank Bldg., S. F. Owner Henry Hickman. The house will be arranged on the terrace plan, the exterior being of cement plaster on metal lath. The same architect has just awarded the contract for a building for the same owner and will start the plans for this structure at once.

**Apartment House**—3 story and base, brick, \$15,000. San Francisco. Architect John A. Ettler, Atlas Bldg., S. F. Owners Bothin Real Estate Co. The exterior of the building will be faced with cement plaster. The interior is to be finely finished and equipped in the most modern manner. The plans are complete and the work is to be done by Day Labor.

**Apartment House**—6 story and base, brick and steel, \$60,000. San Francisco. Architect Ralph Warner Hart, Humboldt Bank Bldg., S. F. Owners Robson-Sattler Co. The owners have just come into the possession of this property, and beyond the building, but few particulars as to its construction can be given at this time. The intention of the owners is to erect a high-class apartment, complete in all its details, and the architect has been ordered to prepare the plans accordingly.

**Apartment House**—3 and 4 story and base, brick, \$50,000. San Francisco. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owner Mrs. Honora Conlan. The building will contain 7 apartments to the floor, arranged in suites of 2 and 3 rooms each. The exterior will be of pressed brick. Complete steam heating plant, elevators and dumb waiters will be installed. Wall beds will be used in all apartments. The architect is preparing the drawings.

**Apartment House**—6 story and base, brick and steel, \$100,000. San Francisco. Architect Frederick H. Meyer, Humboldt Bank Bldg., S. F. Owner A. E. Elsen. The building will be 125x104, with the street elevations faced with pressed brick. The mechanical equipment will be complete, including steam heat, elevator service and vacuum cleaners. The sketches have been approved and working drawings are being prepared.

**Apartment House**—3 story and base, frame, \$20,000. Architects Dunn and Kearns, Monadnock Bldg., S. F. Owner P. Noble. The house will be strictly modern, all apartments being fitted with Marshall Stearns wall beds. There will be a complete steam heating system and elevator service. The plans are ready for figures.

**Fire House**—2 story and base, brick and concrete. Cost not stated. San Francisco. Architect City Architect Alfred I. Coffey, David Hewes Bldg., S. F. Owner City and County of San Francisco. The building will be known as Engine House No. 43. Bids are now being taken and will be opened on May 3. The plumbing and electrical work have been separated from the general contract.

**Residence**—2 story and base, frame, \$2,500. San Francisco. Architect G. A. Berger, 736 Octavia St., S. F. Owner Patrick F. Keely. The figures for this work are now under advisement in the architect's office.

**Cottages**—4, 1 story and base, frame, \$1,200 each. San Francisco. Architect none. Owners McArthur Bros., 625 Dolores St., S. F. The exterior of the dwellings will be of rustic and the interior trim of redwood. The plans are complete and in the hands of the owners. The work will be done by Day Labor.

**Residence**—2 story and base, frame, \$2,000. San Francisco. Architect none. Owner E. E. Manseau, 1225 6th Ave. The exterior will be of brick veneer and cement plaster on metal lath. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Residence**—2½ story and base, frame and brick, \$40,000. San Francisco. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner's name withheld. The plans for this handsome dwelling are now nearing completion and figures will be taken next week. The building will be erected in the Marine View district of San Francisco. The plans include all the most modern conveniences.

**Residence**—3 story and base, brick, \$35,000. San Francisco. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owners Dominican Fathers. The exterior of the dwelling will be of pressed brick. The interior is to be handsomely finished. The steel contract has been awarded to the Brode Iron Works, and figures for the balance of the work are in and under advisement. The contract will be let this week.

**Cottage**—1 story and base, frame, \$2,000. San Francisco. Architect none. Owner Knut Anderson, 139 State St., S. F. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Hunglows**—2, 1½ story and base, frame, \$1,500 each. San Francisco. Architect none. Owner H. H. Ohlsen, 2869 Harrison St., S. F. The plans are complete and in the hands of the owner. The work is to be done by Day Labor.

**Residence**—2½ story and base, frame, \$14,000. San Francisco. Architects Frye and Osborn, French Bank Bldg., S. F. Owner C. R. Sprivallo. This dwelling has been mentioned here before when the plans were figured for the first time. The work ran too high, and new bids are now being taken. Only minor changes have been made in the original plans and the contract will be let as soon as the new figures are received.

**Flats**—3 story and base, frame, \$9,000. San Francisco. Architect Loring P. Rixford, Mills Bldg., S. F. Owner Mrs. C. R. Johnson. The building will contain 5 flats and a store. The exterior will be covered with rustic. The plans are now complete and are being figured.

**Flats**—3 story and base, frame, \$7,800. San Francisco. Architect Paul de Martini, 628 Montgomery St., S. F. Owner Mrs. Maria Valponia, Livermore, Cal. The exterior of the building will be covered with rustic and shiplap. The plans are complete and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$4,600. San Francisco. Architect none. Owner W. Oszdorff, 184 Waller St., S. F. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$6,500. San Francisco. Architects William Curlett and Son, Phelan Bldg., S. F. Owner R. W. McElroy. The building will contain six flats with all modern conveniences. The exterior will be of rustic. The plans are being figured.

**Flats**—2 story and base, frame, \$6,500. San Francisco. Architects Geo. A. Steshley & Co., Balboa Bldg., S. F. Owner's name withheld. The building will contain four flats. The exterior is to be of shiplap and rustic. The plans are being figured.

**Flats**—2 story and base, frame, \$12,000. Architect Albert Farr, Humboldt Bank Bldg., S. F. Owner Mrs. A. Legge. This work has been mentioned here before when the plans were figured. The work ran too high and new figures are being taken.

**Altering Steam Pipes and Heating System**—San Francisco, \$6,500. Architect J. W. Roberts, Superintendent of Repairs, 402 Post Office Bldg., S. F. Owner U. S. Government. The work to be done is located in the Marine Hospital. Bids will be opened on May 4th.

**Alterations to Appraisers Bldg.**—\$15,000. San Francisco. Architect Supt. of Construction John Roberts, 402 Post Office Bldg., S. F. Owner U. S. Government. Plans have been forwarded to Washington for approval of considerable work in this building, which will include the tearing out of all old partitions and replacing them with partitions of metal lath and plaster. There will be two new elevators and new plumbing.

**Reconstruction Water System and Reinforced Concrete Tank**—Cost not stated. San Francisco. Engineer Lt. Col. George McK. Williamson, Fort Mason, S. F. Owners U. S. Government. Bids will be opened May 4th for the reconstruction of the water system at Fort Mason and for the erection of a six million gallon tank.

**Theatre**—1 story and base, reinforced concrete, \$12,000. San Francisco. Architect M. Mattonovich, 642 Pacific Bldg., S. F. Owners Emanuel Lewis Investment Co. The building will be occupied by a moving picture show, and will have a seating capacity of 350. The exterior will be of cement plaster. The plans are complete.

**Theatre**—1 story, steel and concrete, \$10,000. San Francisco. Architects M. Oser Bros., Metropolis Bank Bldg., S. F. Owner M. Oser. The building will have a seating capacity of 400. The plans are complete.

**Residence**—2 story and base, frame, \$2,500. San Francisco. Architect G. A.

Berger, 736 Octavia St., S. F. Owner Patrick F. Keely. The architect has called for bids on the work and contract will be awarded at once.

**Store and Lofts**—2 story and base, frame, \$4,000. San Francisco. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner M. Levin. The plans for this building are complete and figures are being taken.

**Stores and Lofts**—4 story and base, reinforced concrete, \$60,000. San Francisco. Architects MacDonald and Applegarth, Call Bldg., S. F. Owner represented by F. A. Corbusier, 75 Sutter St., S. F. The building is to be designed for light manufacturing concerns and printers. The exterior will be of cement plaster. The plans are being prepared.

**Church**—1 story and base, frame, \$8,000. San Francisco. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, St. Monica's Church. The exterior of the building will be covered with rustic. The plans are complete and bids are being taken.

**Hotel**—5 story and base, brick and steel, \$80,000. San Francisco. Architects, Cunningham and Politeo, Chronicle Bldg., S. F. Owner, George T. Marye. The architects have completed the drawings and are taking figures on this work. The excavating and bulk heading has been awarded. The building is arranged for stores on the first floor and rooms above. There will be steam heat and elevator service installed.

**Hotel**—3 story and base, frame, \$35,000. San Francisco. Architect, none. Owner, J. Dominion, 618 Haight St., S. F. The building will be located in a small town near San Francisco. The owner wants contractors to submit bids.

**Hotel**—8 story and base, Class A construction, \$400,000. San Francisco. Architects, MacDonald and Applegarth, Call Bldg., S. F. Owner, John Martin. The property on which this hotel is to be erected has recently been sold by the Regents of the U. of C. and the new owner is reported as retaining the architects who were to design the structure for the Regents.

**Hotel**—7 story and base, brick and steel, \$70,000. San Francisco. Architect, Edward Foulkes, Crocker Bank Bldg., S. F. Owner, A. Rudgear. The exterior of the building will be faced with pressed brick and stone. The mechanical equipment will consist of elevators, steam heating plant, and a vacuum cleaning system. The plans are complete and bids are being taken.

**Hotel**—4 story and base, brick, \$27,500. San Francisco. Architect, none. Owners, Boscus Bros., S. F. The building will contain stores on the first floor and rooms above. The exterior will be of pressed brick. The work will be started as soon as a loan can be negotiated.

**Hotel**—6 story and base, reinforced concrete, \$6,000. Architect, Geo. A. Streshley & Co., Balboa Bldg., S. F. Owner's name withheld. The architect has completed the working drawings and is taking figures on the work. There will be steam heat and elevator service installed. The exterior will be of cement plaster.

**Warehouse**—3 story and base, reinforced concrete, \$40,000. San Francisco. Architects, Bliss and Faville, Balboa Bldg., S. F. Owners, Eastman Kodak Co. This building has been mentioned here before. Some changes have been made in the original drawings and fig-

ures are again being taken. The first floor will be occupied by stores and the upper floors by lofts.

**Warehouse**—3 story and base, reinforced concrete, \$15,000. San Francisco. Architect, Thomas Smith, Lick Bldg., S. F. Owner's name withheld. The building will contain stores on the first floor and lofts above. The exterior will be of cement plaster. The plans are ready for figures.

**Marine Hospital**—Alterations to steam piping, \$6,000. San Francisco. Architect, John Roberts, Supt. of Construction, 402 Post Office Bldg., S. F. Owner, U. S. Government. The work consists of complete alterations to the present system of piping. Bids will be opened May 4th.

The exterior will be of cement plaster on metal lath. The plans are complete, and the work is to be done by Day Labor.  
**Bungalow**—1 story and base, frame, \$2,500. Oakland, Cal. Architect F. M. May, 2145 Center St., Berkeley. Owner C. P. Davies. The exterior of the dwelling will be of shingles. The interior will be finished in pine and hardwood. The plans are being figured.  
**Residence**—2 story and base, frame, \$15,000. Berkeley, Alameda Co., Cal. Architect F. Truman Swain, Mutual Bank Bldg., S. F. Owner R. Kennedy. The plans call for a handsome dwelling in the Spanish style with the exterior of cement plaster on metal lath. There will be a warm air heating system. The work is to be done by Day Labor.  
**Bungalow**—1 story and base, frame, \$2,000. Oakland, Cal. Architect A. Morgensen, 360 63rd Ave., Oakland. Owners Morgensen Bros. The dwelling will contain six rooms and bath. The exterior will be of shingles. The work is to be done by Day Labor.  
**Residence**—2 story and base, frame, \$2,500. Berkeley, Alameda Co., Cal. Architect William C. Hays, Foxcroft Bldg., S. F. Owner Mrs. M. C. McMahon. The exterior will be of cement plaster on metal lath. The plans are complete and are being figured.  
**Bungalow**—1½ story and base, frame. Cost not stated. Fruitvale, Alameda Co., Cal. Architect Ralph Warner Hart, Humboldt Bank Bldg., S. F. Owner C. A. Bosworth. The plans are complete and figures are being taken.  
**Bungalow**—1 story and base, frame, \$1,000. Alameda, Alameda Co., Cal. Architect W. E. Baumberger, 126 Cole St., S. F. Owner G. Earle Kelly. The exterior of the building will be covered with shingles. A feature of the living room will be the large open fire place. The plans are being figured.  
**Residence**—2 story and base, frame, \$15,000. Oakland, Cal. Architect none. Owner Carl Doell, 467 22nd Oakland. The exterior of the dwelling will be of rustic. There will be large wood mantels. The plans are in the hands of the owner and figures are being taken.  
**Residence**—2 story and base, frame. Cost not given Berkeley, Alameda Co.,

Cal. Architect W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner Walter Smith. The dwelling will contain 7 rooms and baths. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Residences**—2 story and base, frame, \$3,000 to \$5,000 each. Oakland, Cal. Architect none. Owner R. A. McWilliams, 331 First National Bank Bldg., Oakland. The owner will shortly start the construction of several fine residences and would like to hear from material men and others. Catalogues will be carefully considered.

**Residence**—2 story and base, frame, \$3,500. Berkeley, Alameda Co., Cal. Architect none. Owner John Parikka, 831 Snyder Ave., Berkeley. The dwelling is to contain 12 rooms and the exterior will be of shingles. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Residence**—1½ story and base, frame. Cost not stated. Alameda, Alameda Co., Cal. Architect Fred P. Rabin, Builders' Exchange Bldg., S. F. Owner Geo. E. Ford. The exterior of the dwelling is to be covered with rustic. The plans are being figured.

**Residence Alterations**—\$3,000. Berkeley, Alameda Co., Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Abbie Edwards. The work includes considerable exterior changes and complete rearrangement of the interior of the building. The plans are being figured.

**Residence**—2 story and base, frame, \$5,500. Oakland, Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Dr. I. C. Anderson. The exterior of the dwelling will be finished largely in hardwoods. The plans are now being figured.

**Residence**—2 story and base, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect Peter Fredrickson, 2317 Haste St., Berkeley. Owner same. The dwelling will contain nine rooms and two baths. The exterior is to be covered with shingles. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$3,600. Oakland, Cal. Architect A. W. Smith, 1004 Broadway, Oakland. Owner H. S. Craig, 1003½ Broadway, Oakland. The exterior of the dwelling will be covered with shingles. The plans are being figured.

**Hutgalow**—1 story and base, frame, \$2,000. Oakland, Cal. Architect J. A. Pinkerton, Berryman St., Berkeley. Owner same. The dwelling will contain 5 rooms and bath. The exterior will be covered with shingles. The work is to be done by Day Labor.

**City Hall**—14 story and base, Class A construction, \$1,000,000. Oakland, Cal. Architects Palmer and Hornbostel, New York and First National Bank Bldg., Oakland. Owners City of Oakland. The official bids for this work have been advertised and a copy of the note to bidders appears in its proper place in this issue. The work has been separated into 27 departments. Bids will close May 22.

**Parish House**—2 story and base, frame, \$15,000. Berkeley, Alameda Co., Cal. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners St. Mark's Episcopal Church. The building will contain a large auditorium, Sunday school rooms, library and office. The details of construction are not yet complete. The plans will be ready in about 30 days.

**Hospital**—2 story and base, Class A

construction, \$60,000. Oakland, Cal. Architects Meyer and Reed, Oakland Bank of Savings, Oakland. Owner's name withheld. The building will accommodate about 30 patients. The work will be undertaken this summer. The plans are now well advanced.

**Fraternity House**—2 story and base, frame, \$14,000. Berkeley, Alameda Co., Cal. Architect J. Cather Newson, Monadnock Bldg., S. F. Owner Sigma Nu Fraternity. The building will contain 18 rooms and will be handsomely finished throughout. The plans are ready for figures.

**Factory**—3 story and base, reinforced concrete, \$30,000. Oakland, Cal. Architects Meyer and Reed, Oakland Bank of Savings Bldg., Oakland. Owner Emil Lehnardt. The building will be used for a candy factory. The plans will be ready for figures about April 30th.

**School Gymnasium**—1 story and base, frame, \$5,000. Melrose, Alameda Co., Cal. Architect Louis S. Stone, Macdonough Bldg., Oakland. Owners Oakland Board of Education. The exterior of the building will be of rustic. The heating system will be connected with the main school building. The plans are being figured.

**Addition to School**—\$7,000. Centerville, Alameda Co., Cal. Architect F. D. Voorhees, Central Bank Bldg., Oakland. Owner Centerville School District. The exterior of the building will be of rustic. There will be a heating system installed and connected with the present plant. The plans are complete and figures are being taken by the architect.

**Store**—1 story and base, brick, \$4,000. Alameda, Alameda Co., Cal. Architect Charles E. J. Rogers, 24 California St., S. F. Owner A. Koerber. The exterior of the building will be of pressed brick. The plans are being figured.

**Stores and Offices**—Class A construction, \$500,000. Oakland, Cal. Architect C. W. Dickey, Russ Bldg., S. F. Owners Kahn Bros., Oakland. The details of this big structure have not been completed, and beyond the fact that the work will be undertaken this year nothing can be said. The preliminary plans are in the hands of the owners.

Owners Methodist Episcopal Church of Alhambra. The edifice will be designed in the Gothic style and have a seating capacity of about 500. Plans are being prepared.

**Garage**—2 story and base, reinforced concrete. Cost not stated. Hollywood, Los Angeles Co., Cal. Architect Elmer Grey, 811 Wright and Callender Bldg., L. A. Owner G. W. Wattles. The plans are complete and figures are being taken.

**Court House**—2 story, attic and base, reinforced concrete, \$125,000. Ventura, Ventura Co., Cal. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners Ventura County. The architect is completing the working drawings for this building and the excavating is now being figured. The exterior of the building will be of cement plaster.

**Hotel**—4 story and base, reinforced concrete, \$100,000. Los Angeles, Cal. Architect Elmer Grey, 811 Wright and Callender Bldg., L. A. Owners Percy H. Clark, M. H. Sherman, H. E. Huntington and others. The details of construction have not been worked out, but the building will contain about 200 guest rooms and will be the most modern in all points of equipment. The architect is preparing the plans.

**Laundry**—2 story and base brick and concrete. Cost not stated. Los Angeles, Cal. Architect Chas. E. Snattuck, 318 Mason Bldg., L. A. Owners Golden State Laundry. The building will be 150x100. The engine and boiler rooms will be of reinforced concrete. The plans are being prepared.

**Apartment House**—5 story and base, concrete and stone. Cost not given. Los Angeles, Cal. Architect A. L. Haley, Inc., 908 Higgins Bldg., L. A. Owner's name withheld. The building will be 60x114. The exterior will be of stone and cement plaster. There will be stores on the first floor and 48 apartments of 2 and 3 rooms each on the upper floors. There is to be steam heat, elevators and wall beds used. The plans are being prepared.

**Apartment House**—3 story and base, frame. Cost not given. Los Angeles, Cal. Architects Garrett & Bixby, 405 Currier Bldg., L. A. Owner Nelson Van Fleet. The building will be 40x142, and will contain 39 apartments fitted in the most modern manner. The exterior of the building will be of cement plaster on metal lath. The plans are complete and bids are being taken.

**Apartment House**—3 story and base, frame, \$15,000. Los Angeles, Cal. Architects Garrett & Bixby, 405 Currier Bldg., L. A. Owner Celestine Walker. The building will be 44x83, and will be equipped with steam heat, private baths and wall beds. The plans are complete.

**Apartment House**—3 story and base, frame, \$20,000. Los Angeles, Cal. Architects Fred J. Ryan & Co., Consolidated Realty Bldg., L. A. Owner's name withheld. The building will have steam heat, private baths and wall beds. The plans are nearly complete.

**Bank**—2 story and base, brick. Cost not given. San Fernando, Los Angeles Co., Cal. Architects Train and Williams, 226 Exchange Bldg., L. A. Owners First National Bank of San Fernando. The building will be 60x80 and will be

faced with glazed brick. The first floor will be occupied by the bank, and the second floor will be divided into offices and apartments. The plans are being prepared.

**Bank Alterations**—\$15,000. Corona, Riverside Co., Cal. Architect not given. Owners Corona National Bank, Corona. New store fronts will be put in and the interior of the banking rooms completely changed. C. B. McConnell is the president of the bank.

**Apartment House**—2 story and base, frame, \$14,000. Hollywood, Los Angeles Co., Cal. Architects Architectural Designing Co., 623 Grosse Bldg., L. A. Owner John Holt. The building will be 50x110 and the plans are complete. The work will be done by Day Labor.

**Apartment Houses**—2, 3 story and base, frame, \$30,000. Los Angeles, Cal. Architect none. Owners J. F. Heartwell, 661 Pacific Ave., L. A., and E. V. Eastman, 2nd and Elm Sts., L. A. The buildings will be erected on adjoining lots. The exterior will be of cement plaster on metal lath. Mr. Heartwell will take bids for the work shortly.

**Apartment House**—4 story and base, brick, \$45,000. Los Angeles, Cal. Architect C. F. Borton, 615 Union Trust Bldg., L. A. Owner Mrs. L. E. Borton. The building will be 50x150. The exterior of the building will be of cement plaster. The equipment will include steam heat, vacuum cleaning system, wall beds and private telephones. The plans are being prepared.

**Stores**—1 story and base, concrete. Cost not given. Los Angeles, Cal. Architect J. William Roberts, 2340 West 30th St. Owner A. C. Akin. The building will contain 6 stores. The plans are being prepared.

**School**—Group plan reinforced concrete construction will probably be used, \$75,000. Anaheim, Orange Co., Cal.; Architects John C. Austin and W. C. Pennell, associated, Wright and Callender Bldg., L. A. Owners Town of Anaheim. The preliminary drawings of the architects have just been approved and details are now being worked out. The plans will not be ready for figures for about two months.

**School**—2 story and base, brick, \$25,000. Paul V. Tuttle, Glendale, Own-000, Watts, Los Angeles Co., Cal. Arch-ers Watts School District. The building will be 74x130 and will be faced with blue brick. There will be a steam heating and vacuum cleaning system. The plans are complete and are being figured. The bids will be opened May 1.

**School**—1 story and base, frame \$6,000. Montalvo, Ventura Co., Cal. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owners Montalvo School District. The plans for the work are now being prepared. Bids will be called in about two weeks.

**School Buildings**—\$250,000. Ventura, Ventura Co., Cal. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owner City of Ventura. This work has been mentioned here before. The architect is now revising the original drawings in accordance with the ideas of the Trustees, who wish to enlarge the general administration building.

**School Buildings**—Class C construction, \$150,000. Phoenix, Ariz. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owner City of Phoenix. The preliminary drawings for this work have just been approved and the details of construction have not been worked out.

**Residence**—2 story and base, frame, cost not stated, Los Angeles, Cal.

Architect Thomas Preston, Currier Bldg., L. A. Owner F. H. Rindge. The dwelling will contain 10 rooms and will be handsomely finished in hardwood. There will be a warm air heating system installed. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects George T. Plowman, Needham and Cline, associated, Wright and Callender Bldg., L. A. Owner Carl Salbach. The plans for the work are being prepared. The same architects have plans nearly complete for a similar building for Webb and Ketchum, and bids will be taken on the work at once.

**Post Office and Custom House**—3 story and base. Class A construction. Cost not stated. San Diego, Cal. Architect James Knox Taylor, Washington, D. C. Owner U. S. Government. The plans for this building are complete and have been forwarded to local cities for figures. The bids will be opened May 25th.

**Residence**—2 story and base, hollow tile and plaster. Cost not stated. Los Angeles, Cal. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owner Mr. Bettis. The dwelling will contain 12 rooms and three baths. The plans are nearly complete.

**Residence**—2 story and base, frame, \$7,500. Los Angeles, Cal. Architect Fred H. Eley, Hervey-Finley Bldg., L. A. Owner Mr. Gervais. The dwelling will contain 11 rooms. The exterior will be of cement plaster on metal lath. The plans are being prepared.

**Hotel Add**—3 story brick, cost not stated. Los Angeles, Cal. Architects, R. B. Young and Son, Lankershim Bldg., L. A. Owner, C. G. Berg. The addition will contain 18 apartments of 2 rooms each. There will also be added elevator service and steam heat and wall beds. The plans are being prepared.

**Hotel and Store**—3 story and base, brick, cost not stated. Los Angeles, Cal. Architects, Garrett and Bixby, 405 Currier Bldg., L. A. Owner, S. C. Dodge. The building will be faced with pressed brick. There will be 67 rooms, 14 toilets and 8 baths. The work is to be done by Day Labor.

**Club House**—3 story and base, brick, \$30,000. Los Angeles, Cal. Architects, Parkinson and Bergstrom, Security Bldg., L. A. Owners, American Institute of Bankers. The building will be finely appointed and will contain elaborate baths, steam heating system and elevators. The plans are being figured.

### Contracts Awarded.

**Church**—Concrete and frame, \$25,000. Monrovia, Los Angeles Co., Cal. Architects Allison and Allison, Exchange Bldg., L. A. Owners Methodist Episcopal Church, Monrovia. Contractors J. P. Dawson and G. A. Daniels, Pasadena, Cal. Contract price \$24,868. Contract does not include plumbing.

**CONTRACT AWARD** vyand-  
**School**—1 story and base, frame, \$20,000. Artesia, Los Angeles Co., Cal. Architects Whitley and Lavis, Story Bldg., L. A. Owner Artesia School District. Contractor Chas. Reed, Long Beach, Cal. Contract price \$17,985 Heating and Ventilating, Machinery and Electrical Co., L. A. Contract price \$1,118.

**Office Bldg.**—12 story and base. Class A, \$350,000. Los Angeles, Cal. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners Chester Fireproof Bldg. Co. Contractors National Fire-

proofing Co., Central Bldg., L. A. The general contract has been let to the above named firm for \$318,000. This does not include considerable of the special work about the big structure.

## Seattle and Washington.

**Vitrified Pipe and Specials**—Cost not stated. Fort Russell, Wyo. Owner U. S. Government. Bids are being taken for the furnishing of approximately the following quantities of vitrified pipe: 3,125 feet of 8 inch, 2,900 feet of 6 inch, together with specials, etc. Bids will be opened May 4th. Capt. F. S. Armstrong, Officer in Charge.

**Sub. Station**—2 story and base, reinforced concrete, \$25,000. Vancouver, Wash. Architect Engineering Dept. Mt. Hood R. R. and Power Co., Portland, Ore. Owner Mount Hood R. R. and Power Co. J. S. Grow of Portland announces that this work will be started at once.

**Store**—2 story and base, brick. Ballard, Wash. Architect V. W. Voorhees, Eitel Bldg., Seattle. Owner H. W. Treat. The building will be faced with pressed brick. The plans are being prepared.

**Store**—2 story and base, concrete, \$14,000. Seattle, Wash. Architect V. W. Voorhees, Eitel Bldg., Seattle. Owner Louis Anderson. The plans for this building are being completed and will be ready for figures shortly.

**Residence**—2 story and base, frame, \$4,000. Seattle, Wash. Architect Robert Knipe, Henry Bldg., Seattle. Owner same. The plans are complete and the work is to be done by Day Labor. Mr. Knipe is also taking figures for the electric work for a \$50,000 apartment house which he is erecting.

**Residence**—2 story and base, frame and brick, \$12,000. Seattle, Wash. Architect Roy Chapman, Seattle. Owner J. S. Holt, Hinchley Bldg., Seattle. The work will be done under the direction of the owner who is now taking figures on the materials.

**School**—2 story and base, frame, \$15,000. Monroe, Wash. Architects Thomas, Russell and Rice, Eilers Bldg., Seattle. Owners Monroe School District. Bids for this work were opened recently in the offices of the architects and were found to be too high. New bids are now being taken.

**Bridge**—Steel and concrete, \$25,000. Skagit River, Wash. Engineers, Bowerman and McCoy, Seattle. Owners, Skagit County. The bridge to be a fixed span steel draw bridge resting on concrete piers. The plans are complete and the Engineers will receive bids up to and including May 2.

**Apartment House**—3 story and base, brick, \$30,300. Seattle, Wash. Architect, John Carrigan, 508 Oriental Bldg., Seattle. Owner's name withheld. The work will be done by day labor but bids are being taken through the architect's office for all materials.

**Apartment House**—3 story and base, brick, \$25,000. Spokane, Wash. Architect, Harvey Smith, Eagle Bldg., Spokane. Owner, Mrs. Ruth Rhodenhamel. The exterior of the building will be of pressed brick and terra cotta. The plans are being prepared.

**Apartment House**—3 story and base, brick, \$25,000. Spokane, Wash. Architect, Harry Dittmer, Spokane. Owner, Mrs. Eleanor S. Worcester. The architect has started the working drawings and the construction will be started

as soon as the condition of the ground permits.

**Hall**—2 story and base, frame and brick, \$20,000. Ballard, Wash. Architect, V. W. Voorhees, Eitel Bldg., Seattle. Owner, Ballard Elks' Hall Ass'n. The building will be 100x118 and will be faced with pressed brick veneer. The plans are being prepared.

**Supplies**—Cost not stated. Navy Yard, Puget Sound, Wash. Officer in charge, T. J. Cowie, Navy Paymaster's office, Seattle, Wash. The supplies consist of the following: Douglass fir and spruce lumber and copper tubing. Bids will be opened May 2.

**Hospital Add**—2 story and base, frame, \$4,000. Riverton, Wash. Architects, Gould & Champney, American Bank Bldg., Seattle. Owners, Seattle Pulmonary Hospital. The bids for this work are now being taken.

**Art Museum**—4 story and base, Class A construction, \$700,000. Seattle, Wash. Architects, Kingsley and Eastman, Empire Bldg., Seattle. Owners, City of Seattle. The exterior will be of granite and sandstone and the building will be fire-proof throughout. The preliminary plans have just been approved.

### Contracts Awarded.

**Sewer System**—\$40,000. Sedro-Wooley District. Contractors Sullivan Construction Co., 412 Leary Bldg., Seattle. Contract price \$40,092.

**Jetty Contracts**—Gray's Harbor, Wash. Major C. W. Kutz, Burke Bldg., Seattle, has awarded the following contracts for materials for the jetty work: Little Rock Lumber Co., Little Rock, Wash., 77,000 feet of piling, \$11,043.50; Ela & Kinnear, Seattle, brush facies, \$9,175; A. Tibbetts, Little Rock, Wash., 3,000 grillage poles, \$1,020. Contracts for approximately \$300,000 worth of rock will be awarded by the Secretary of War on recommendation of Major Kutz shortly.

## Portland and Oregon.

**Flats**—2 story and base, frame, \$8,000. Portland, Ore. Architects Kroner & Henn, Portland. Owner William A. Dempsey. The building will contain 4 flats of 5 and 6 rooms each. The plans are being figured.

**Hall**—2 story and base, brick, \$30,000. Eugene, Ore. Architect E. E. McClaran, Portland. Owners Elks' Hall Association of Eugene. The building will be 80x160, and will be arranged for stores on the first floor and lodge rooms above. The exterior will be of pressed brick. The plans will be ready for figures about May 15th.

**Church**—Frame construction, \$20,000. Portland, Ore. Architects H. M. Fancher & Co., Portland. Owners Trinity Presbyterian Church. The building is designed in the Modified English style, and it will seat about 400 people. Bids are under advisement.

**School**—2 story and base, brick, \$30,000. Portland, Ore. Architects Kroner & Henn, Portland. Owners Benedictine Fathers. The building will be 60x72, and will be faced with pressed brick. The mechanical equipment will include steam heat and vacuum cleaning system. The plans are being prepared.

**Residence**—2 story and base, frame, \$5,000. Portland, Ore. Architects Kroner & Henn, Portland. Owner H. W. Lemcke. The dwelling will contain 8 rooms and baths. The plans are being prepared.

## Editorial Comment.

Notwithstanding the improved methods of construction and the additional safeguards against fire waste the fire losses in the United States for the month of March 1911 reached the enormous total of \$31,500,000, or more than one million of dollars a day. This without any great conflagration, but only the ordinary fires that occur at any time. This is far in excess of the proportionate fires in Europe and perhaps may be attributed to the fact of cheap construction in smaller cities and even the old buildings of the larger ones.

These figures represent an absolute waste. How much could be saved by permanent and fireproof construction! Not only this but it should be a lesson for fire protection and a caution against insufficient means to guard against loss from this cause. The general public pays for these losses in the insurance rates charged and a million dollars a day amounts to some money at the end of the year.

Five years ago the city was a mass of smoldering ruins. Today the representatives of the people are holding daily discussions as to where is the most appropriate place to place an international exposition, whereon the people of the city alone will spend twelve and one-half million dollars. This fact alone tells a story of growth and energy unparalleled anywhere in the history of the world. When four years from now the Panama canal will have been built and half the commerce of the world will have been diverted through it then the time of the great conflagration will seem as far distant as the days of the argonauts. It will be a new era for California and the west and the cities around the bay of San Francisco will expand into one of the great commercial centers of the world.

Professor A. N. Holcombe, instructor in the University at Harvard, has written a volume entitled "Public Ownership of Telephones on the Continent of Europe." It is an authoritative statement of facts resulting from an extended investigation of the subject and shows the result of government ownership of this branch of the public service on the continent.

The result of the investigation shows that government ownership of this particular public service has been a marked success. For the telephone, more than any other public utility is by reason of its nature a monopoly. Competing systems, as a rule, do not pay and they are a double tax on the public. Hence when owned by a private corporation the public does not get the service that it pays for and government regulation is a hard thing to arrange. The postal system, or written

communication is efficiently handled by all governments, even if in the United States there is a postal deficit. It seems reasonable to suppose that oral communication could be as efficiently organized and administered by the government as it is a natural monopoly and should be controlled by the public whom it serves.

Telegraph lines and other public utilities generally admit of successful competition and there is some equalization of service and charges. But the telephone is a public convenience that demands connection with all parts of communities and seems to be destined to some day be absorbed by the government and handled in the same way as is the Post Office.

The federal constitution provides that direct taxes of the United States "shall be apportioned among the several states according to population." This provision was a compromise measure when the constitution was adopted, inserted to balance the controversy on the slavery question, and the original document provided that three-fifths of the slaves should be counted in estimating population. Now about 50 years after the adoption of the constitutional amendments which abolished slavery the proposition comes up for the states to ratify an amendment to the constitution to provide for an income tax. Heretofore there have been laws passed by the national congress providing for a federal income tax but they have always been declared unconstitutional, because the supreme court has held them to be a direct tax and therefore they must be apportioned according to population.

The present amendment looks like it will be ratified by the requisite number of states to make it a part of the fundamental law. Thirty-five states is now the requisite number as it takes that many to constitute the required three-fourths.

There is no reason why there should not be a federal graduated income tax. The people of great wealth and especially those of inherited wealth can well afford to pay for the support of the government, which, in many cases has allowed them to accumulate vast fortunes. Again the tax is very necessary in times of war or great stress and the congress should be empowered with authority to pass such a law.

Another amendment that should be made to the constitution is that the United States senators should be elected by the direct vote of the people instead of the manner in which they are now elected, by a vote of the joint houses of the state legislatures.

Many states have already adopted laws which virtually mean election of senators by popular vote, but the constitution should be amended so that it can be done directly and without any hindrance of any sort.

## Some Practical Suggestions To The Millman For Measuring Interiors For Millwork.

There are undoubtedly many systems, for each man who measures up the mill work will have a method which differs in some degree from that of another man; but from my experience of the work the writer has come to the conclusion that the one which is described herein is the most satisfactory—to me at least.

In the first place, the man who takes measurements at buildings, it is needless to say, should be thoroughly familiar with every branch and detail of the planing mill; should be a practical mechanic who has had much experience, besides having ideas of his own. Often he will be called upon to make suggestions to people who are building or making alterations, and it would be greatly to his discredit if he were not able to supply them.

John Wavrek, Jr., writing in the *Woodworker*, states that he has often come across people who intend to have certain work done in their houses, yet do not exactly know what they want; or, rather, do not know the details of the job. In such cases the mill man should be able to give ideas and suggestions. If he is able to do so, people will have confidence in him, whereas his inability to do this will be detrimental to the interests of the concern which employs him. On the other hand, he will be directly the cause, to a great extent, of the mill owner's success, for people will have confidence in him, knowing that the work will be right.

In some mills there is a very lax system in regard to taking data at houses for the interior, calling any man to do the work who may not be busy at the time there is a call to take such measurements. This is positively wrong practice, for in many instances the party who takes the measurements does not write out the cutting bills for the mill, but it is done by the foreman or some man in the office. If the data should not be very explicit, it will cause a lot of running back and forth in trying to find out the correct data, thereby squandering much valuable time, besides delaying the work, and all because the management employs the wrong method in this respect.

There are some instances which justify the bench man taking his own measurements, as, for instance, the stair man. There are some stairways which are much complicated, requiring very exact data, for a mistake in this kind of work is very costly to the mill. In such an instance it would certainly be the wiser procedure to have the stair-builder take the data himself. Sometimes there is a store front to be made which has some complicated features, and this, too, should be measured up by the man who is going to make it. However, these are exceptional cases which do not occur often. As a rule, there should be one man employed to take all the measurements.

There is another advantage in this, because of the fact that the one man

gets to know the peculiarities and desires of the different contractors with whom he comes in contact, and will therefore know how to approach them and arrange to have their work gotten out according to their requirements. Another advantage to be gained by this system is that one man will be acquainted with progress of the various jobs which are in the course of construction, and can see to it that interior work for them is gotten out at the proper time, so that it can be sent on the job when needed.

For an example, we will assume that we are to measure up the interior of an ordinary house three stories in height. To be thoroughly familiar with the job which we are to work on it is essential that we read up the specifications thoroughly, also study the plan well. Of course, in most cases there are some changes made either in the plans or specifications, which should be noted in the estimate or contract. This latter sheet should also be taken along to the job and note taken to see that there are no extras put to the job without being noted on the slips containing the measurements.

A very handy book to use to take data is one which has loose leaves that can be removed upon having completed the measurements, and placed on file. The sheets are in size about 5x7 inches, and section ruled. This ruling I find very convenient in making sketches, and especially in taking data for stair cases. We will use a 4-foot rule as the most convenient for our purpose, besides a handy steel tape for the stair work.

First, then, I go to the uppermost floor, which is the third in this instance, and start by taking the measurements of all the windows first. The handiest and quickest method is to take the sash sizes. Having this, and knowing the construction of the frames, we have a very good basis to work on. There would be one twin box frame, 2 feet 5 inches by 4 feet 6 inches, 1¾ inch jamb, 1-inch center; one box frame, 2 feet 9 inches by 5 feet 2 inches, 1¼-inch jamb; one skeleton window frame, 2 feet 7 inches by 5 feet 2 inches, 3¾-inch seat.

After having taken all the windows, proceed by taking the door sizes next. There may be an opening of 2 feet 10 inches by 6 feet 10 inches between the rough studs. This would mean a door of 2 feet 8 inches by 6 feet 8 inches. The stud, which may be 3 inches, would need a jamb of 4¾ inches. Whatever the rough opening is, make the door 2 inches less in size and the jamb 1¾ inches wider than the rough stud. However, in cases where plaster boards are used, this would be too wide, but in such cases we would make the right allowance for the jamb by finding out the thickness of the wall finish. If an opening for a door should be irregular in width, as for instance, 2 feet 9 inches, then it is a good plan to mark the studs with the correct size of the door which we intend to

furnish, so that there will be no mistake made by the carpenter when placing the jambs.

When taking the size of closet doors be careful to make note of the fact, for in most cases closet doors are only 1⅞-inch thick, while the others will probably be 1¾-inch. Also, very often the trim in a closet is different on the inside in cases where there is a cabinet head finish on the outside. Also measure the opening for switchbox doors, which are usually made the inside size of the box. After having taken the doors, proceed to measure up the baseboards or base taking the closets separate, because in most cases they are different.

Next is the base blocks, if any are needed, which is not always the case. Then corner beads, stating how long, for some corners will not allow of a regular 4-foot stock head being used. Sometimes it happens that a corner is not at right angles, which must therefore be stated and the correct angle noted.

In most cases there is a plaster railing inclosing the staircase on the top floor. If this wall is 4 inches thick, then furnish a cap of 5¼-inch wide, nosed on both edges, calculating a piece of molding the same kind as the base cap on each side of and under this nosed cap. These moldings should mitre into the base cap. Now measure the closets for shelving and pin rail.

Having taken all the data on this floor, take the steps and risers, nosing and strings for the stairs, which are usually the box kind; also wall rail. This would bring us to the second floor, with which we proceed in the same manner. It very often happens that this floor has different kinds of wood in the different rooms, the front room being of oak or chestnut, the bedroom cypress or pine, and the bathroom and toilet poplar. It is best to mark on the plans the various kinds of finish to be used in the different rooms, so that there is not so much chance to make a mistake; for a door which is to be made up of two different kinds of wood is expensive, as it has to be veneered and cannot very well be kept in stock. These are exceptional cases and should be measured up carefully.

On this floor there may also be a bay window, in which case take note of the width of space between the frames at the angles, for in many cases the regular trim is not wide enough, and a special trim must be made for these angles. If a seat is to be put in this bay window, correct measurement must be taken of all angles, length and depth, so that the seat will fit when sent to the job.

It is often the case that a door leads onto a rear porch from this floor. Note must be made of this fact, because the door will only need trim on one side; also a threshold will be wanted. If this door has a transom above, take size of same, also width of bar so that the trim on the inside will be made long enough. In the bathroom there will be very likely be a medicine chest;

# Building Statistics For the Month of March. The Record Shows Gains For All California Cities.

While there seems to be a sort of lethargy in the movement of business generally throughout the country, a kind of lack of freedom in money adventures, still the records for the month of March show that the country and cities of the west are doing far better than our sister states and cities on the Atlantic seaboard.

Official reports sent to the American Contractor, Chicago, from 43 different cities, representing the building centers, show a decline in the building activities for the month of March, 1911, of 15 per cent as compared with the same month of the previous year. The principal cause of the aggregate falling off was a very marked decline in the totals of the boroughs of Manhat-

tan and the Bronx, in Greater New York. These figures making a decrease in the aggregate of over nine millions of dollars pulled the total down, which would otherwise have evened up to a pretty good extent. Of the smaller cities some have shown remarkable gains. Louisville, Kentucky, heads the list with a record increase of 274 per cent; Indianapolis, 68; Oakland, 55; Portland, 35; Wilkesbarre, 33; Los Angeles, 23; San Francisco, 20; Pittsburg, 18; Cincinnati, 16; Philadelphia, 4.

The borough of Manhattan, of Greater New York, shows a loss of 30 per cent; the Bronx, 59; Chicago, 4; St. Louis, 2; Kansas City, 44; Omaha, 15, with the general list of the minor cities showing a slight decrease over the same month last year. Particulars are shown in the following table:

City	Mar. 1911	Mar. 1910
Baltimore	\$1,047,860	\$ 959,275
Birmingham	286,506	448,957
Buffalo	699,000	926,000
Chattanooga	149,505	142,947
Chicago	9,553,700	10,002,900
Cincinnati	1,099,470	947,535
Cleveland	1,214,790	1,192,204
Dallas	414,976	582,377
Denver	719,050	1,121,900
Des Moines	88,629	107,785
Duluth	264,550	548,820
Grand Rapids	232,588	313,576
Hartford	447,765	521,020
Indianapolis	1,731,514	1,026,399
Kansas City	895,460	1,622,398
Knoxville	27,588	81,843
Little Rock	104,494	216,221
Los Angeles	2,122,886	1,719,921
Louisville	1,259,825	336,455
Manchester	106,700	106,475
Milwaukee	1,088,039	957,619
Minneapolis	1,060,115	1,426,160
Newark	1,027,228	1,793,501
New Haven	388,296	350,034
New Orleans	269,046	302,210
Manhattan	8,868,645	14,227,121
Bronx	1,993,255	4,875,250
Oakland	918,878	589,970
Okl. City	311,185	835,308
Omaha	421,960	500,943
Paterson	238,885	238,432
Philadelphia	5,581,295	5,343,270
Pittsburg	1,009,901	853,052
Portland	1,993,648	1,471,585
Rochester	885,812	130,436
St. Louis	2,297,198	2,347,944
San Francisco	2,819,727	2,381,909
Scranton	160,001	300,619
Seattle	737,640	1,475,895
Tacoma	238,727	329,871
Toledo	386,596	558,130
Wilkes Barre	209,727	157,343
Worcester	409,273	344,963
<b>Total</b>	<b>\$55,781,933</b>	<b>\$65,726,567</b>

It will thus be seen that nearly all of the Pacific coast cities show a gain over the same month last year. Seattle shows a marked decrease in the permits for March, 1911, amounting to about 50 per cent of the same month of the former year, and Tacoma also shows a falling off of about 27 per cent.

California generally has been prosperous. San Francisco shows the largest total for the month of March that has been registered for eleven months. Oakland comes forward with the largest gain of any city in the state. Los Angeles keeps up its consistent record. Pasadena registers \$138,857 worth of

permits: San Diego, \$525,950; Sacramento, \$124,000; Stockton, \$59,135; San Jose, \$29,471.

Building in the rural districts has been as active as it has in the cities. Quite a number of substantial school buildings and churches for the country towns have been started or the contracts let for their building during the past month.

Comparative figures for San Francisco for the month of March for the years succeeding the fire are as follows:

March, 1907	\$5,173,905
..March, 1908	2,954,237
March, 1909	2,956,308
March, 1910	2,331,909
March, 1911	2,819,727

These seem to indicate a normal growth and activity commensurate with the record previous to the conflagration. They show a marked increase compared to the past ten months, and are the largest but one for any month of the year. Compare these figures for the past twelve months:

April, 1910	\$3,383,269
May, 1910	2,789,204
June, 1910	1,458,464
July, 1910	1,596,613
August, 1910	1,743,587
September, 1910	1,433,797
October, 1910	1,772,952
November, 1910	805,938
December, 1910	1,169,131
January, 1911	1,242,806
February, 1911	1,568,680
March, 1911	2,819,727

The southern part of the state continues active. The oil fields continue to pay enormous sums of money, and a goodly portion of it goes to the southland. The development of the Imperial Valley has added a great amount to the lower section of the commonwealth, and the prospective fair at San Diego in 1915 has given a boom to the sheltered city on the southern bay.

Sacramento and Stockton are going ahead at a substantial clip. Fresno shows an advance over last year of over three to one. Willows, in Glenn County, is fast becoming a prosperous country city. Banks, churches, hotels and apartment houses are in process of construction there. Chico is building a new city hall. Placerville is erecting a new court house. Railroads and irrigation schemes are being put through all over Superior California, and it looks like a steady and consistent boom in the building line for the near future.

Sacramento is considering the proposition of issuing bonds in the sum of \$750,000 for the erection of new school buildings. It also is preparing to execute plans for the purchase of a site for the \$100,000 armory to be erected by the state at the capitol city. Biggs, in Butte County, has voted \$25,000 bonds for the erection of a new school building. Nevada City is to vote \$30,000 for a High school. Work has already begun on a \$25,000 school building for Williams, Colusa County.

In general building activities throughout the state are taking on new life with the opening season, and unless all prospects fail the year will be a prosperous one.

take the rough opening size of this, also the depth.

The first floor is usually the hardest to measure up, for very often there is a colonnade which members into the staircase, and must therefore be measured very exact. Then there may be a paneled wainscot in the dining room, in which case the utmost care must be taken to get the figures just right, or there will be "something doing" when the paneling does not fit. A circular bay window is also one of the nightmares which often occurs on this floor. If this should have a paneled base or box seat, then your troubles are more than a few. However, be sure what you are about and go ahead.

In the kitchen there is the dresser, which sometimes has to fit into a certain space between the trim of two doors; this must be measured very correctly, also the height of the story taken. The range place trim and doors must not be forgotten.

The staircase, which is by no means the easiest part of the job, I usually reserve for the last. This necessitates the making of sketches in order to take down right so that the stair man may readily understand what is meant. Here it is very appropriate to impress the fact that whoever the man that takes the data he should be able to make a tolerably good sketch, both instrumental and free hand, for often it is required of him to sketch the outlines of some ornamental work which has many curved lines and moldings and which must be duplicated exactly.

It is therefore evident that you can not pick out a man at random from the mill employes and send him out to get data. Also, there is very great responsibility connected with the work, which is not always appreciated by the mill owner. If you have the right man it is to your interest to pay him well; his path is not strewn with roses, for if anything goes wrong the man who takes the measurements is blamed first.

The data should be explicit in every respect, so that the man who writes out the cutting list for the mill may understand it thoroughly, without asking a lot of questions. It often happens that the measuring man will be out for several days in succession, and if the data is not explicit it will cause great delay in writing out the cutting list.

Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.

## Plans Wanted.

Saint Luke's Episcopal Church of Woodland, California, intends to erect a new church edifice on the property recently purchased at the corner of Second and Lincoln Avenues in that city. A guild hall will also be erected in connection with the church.

The First Congregational Church of Bakersfield, California, has a fund of \$10,000 and a site clear from debt. Rev. E. R. Fuller, the pastor, expects to have the matter of plans for the new \$40,000 edifice which is to be erected by them settled within the next few weeks. As yet no plans have been considered.

The Young Men's Christian Association of Fresno, California, have recently purchased five lots in the heart of the city on which they will erect a new building. Secretary Eastman states that while the work cannot be undertaken this year, that the preliminary steps towards securing funds and selecting the plans will be made this year. The association will make the effort to erect a five-story structure to cost about \$100,000.

Work will be started at once on the reconstruction of the Presbyterian Church of Bandon, Oregon, which was recently destroyed by fire. Plans for the construction of the new building are now being considered. A structure costing \$20,000 is planned.

The San Joaquin Diocese of the Episcopal Church has purchased three building lots in Fresno, California, and will erect a residence for the Bishop, costing about \$15,000. Rev. Louis Sanford is the Bishop of the Diocese.

San Diego, California. The movement to erect a new city hall has gained such headway that the site of one of the old school buildings has been purchased by the city, and a new building will be constructed as soon as the plans can be secured.

Mrs. J. Torience, 1247 Golden Gate Avenue, San Francisco, intends to erect a three-room frame cottage on her property in this city. She will consider plans for a dwelling costing not over \$2,500.

The Young Men's Christian Association of Toppenish, Washington, is contemplating the construction of a new building, costing in the neighborhood of \$20,000. E. G. Fleming is one of the business men who is especially interested in the project. No plans have been considered.

Glendale, California. Trustee Anderson has been appointed by the Board of Trustees to receive competitive bids from architects for the construction of a new city hall. The building is not to exceed \$18,000 in cost.

Andrew Carnegie has donated \$105,000 to the City of Portland, Oregon, which amount is to be used in the construction of new library buildings. There are to be three buildings erected, and the donation will be divided equally among the three. T. L. Elliott is the Vice President of the Portland Library Association.

The announcement comes from Seattle, Washington, that Architect Charles

H. Bebb, of the well-known firm of Bebb and Mendel, Denny Building, Seattle, has been appointed Advisory Architect by the State Capitol Building Commission. Attorney General Tanner is now preparing the official call for competitive plans for the Temple of Justice, which is to be erected in Olympia, and architects who wish to compete will forward their names and addresses to him.

The Woodmen of Fresno, California, have appointed a Building Committee to secure plans for the construction of a three-story and basement brick lodge building, which they are about to erect on their site at the corner of Tuolumne and K streets. The building will cost about \$30,000, and work is to be started as soon as the plans can be selected.

Phillias Cote has been appointed as chairman of the Building Committee of the Placerville Odd Fellows Hall Association, which is to build a new lodge building in Placerville, California. The site for this building has already been secured, and the committee is engaged in securing plans for the building. Mr. Cote may be addressed at Placerville.

The project to erect a large hotel at Petaluma is meeting with great success. Mr. John L. Camm of Petaluma, California, is the head of the company which is to erect the building, and he states that no plans have as yet been selected.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 7 story and base, brick and steel, \$60,000. Architect W. G. Hind, Humboldt Bank Bldg., S. F. Owner's name withheld. The building will contain 84 apartments of 2, 3 and 4 rooms each, and will be equipped with all the most modern improvements. The exterior will be faced with pressed brick and terra cotta. The architect is preparing the plans.

**San Francisco**—Apartment house, 3 story and base, frame, \$25,000. Architect Lee, Montgomery St., S. F. Owner Charles Wright and Lee, Montgomery St., S. F. The building will contain 21 apartments of three rooms and bath. The exterior will be of cement plaster on metal lath. The plans are complete and the work is to be done by Day Labor.

**Los Angeles, Cal.**—Apartment house, 6 story and base, reinforced concrete, \$160,000. Architects R. B. Young and Son, Lankershim Bldg., L. A. Owner Fred E. Engstrom. The mechanical equipment will include dumb waiters, electric elevator service and steam heat. Plans for another apartment house, 6 stories high and of reinforced concrete, costing \$300,000, are complete and in the hands of E. O. Engstrom, of the Engstrom Co. Both buildings will be erected by the Engstrom Co.

**San Francisco**—Apartment house, 4 story and base, brick, \$35,000. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner J. H. House. The building will contain 16 apartments of two and three rooms each with private baths.

There will be steam heat and elevator service. The bids are in and under advisement.

**Los Angeles, Cal.**—Apartment house, 2 story and base, brick. Cost not stated. Architect C. E. Apponyi, Consolidated Realty Bldg., L. A. Owner C. A. Switzer. The building will be 40x120, and will be equipped in the most modern manner. The exterior will be of pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$50,000. Architects M. S. Yeager & Co., 305 Los Angeles Trust and Savings Bank Bldg., L. A. Owner James M. Kerr. The building will contain 120 rooms, in each of which will be installed a wall bed. There will be elevator service and a steam heating plant. The plans are being prepared.

**San Francisco**—Apartment house, 3 story and base, frame, \$10,000. Architects Chas. M. and A. F. Rousseau, Monadnock Bldg., S. F. Owner's name withheld. The building is designed in the Spanish style, and the exterior will be of cement plaster on metal lath. The plans are being prepared.

**San Francisco**—Apartment house, 3 story and base, frame, \$12,000. Architect Henry Shermund, Mills Bldg., S. F. Owners Kessler & Stettin. The exterior of the building will be covered with rustic. There will be open fireplaces in place of a general heating system. The plans are complete and the architect is taking figures.

**San Francisco**—Apartment house, 3 story and base, frame, \$15,000. Architects Chas. M. and A. F. Rousseau, Monadnock Bldg., S. F. Owner Theo. E. Ruefs. The building will contain 17 apartments of two and three rooms each. The exterior will be of brick veneer and shiplap. There will be a steam heating system installed. The plans are being prepared.

**San Francisco**—Apartment house, 4 story and base, brick and steel, \$54,000. Architect E. J. Vogel, Shreve Bldg., S. F. Owner's name withheld. The building will be strictly modern in every particular, and the mechanical equipment will include steam heating, electric elevators and a vacuum cleaning system. The exterior will be of pressed brick and terra cotta. The plans are complete and the architect is taking figures.

**San Francisco**—Apartment house, 9 story and base, brick and steel, \$100,000. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. The building will contain 120 rooms, arranged in suites of two and three rooms each. There will be a steam heating plant and elevator service installed. The exterior of the building will be of pressed brick and ornamental terra cotta. The plans are being prepared.

**Apartment House**—7 story and base, brick and steel, \$60,000. San Francisco. Architect W. G. Hind, Humboldt Bank Bldg., S. F. Owner's name withheld. The building will contain 84 apartments of two, three and four rooms each, and will be equipped with all of the most modern improvements. The exterior will be faced with pressed brick and terra cotta. The architect is preparing the plans.

**San Francisco**—Apartment house, 5 story and base, brick and steel, \$40,000. Architects Salfeld and Kohlberg, Clunie Bldg., S. F. Owner H. Cohn. The first floor will be occupied by retail stores and the four upper floors divided into apartments. There will be steam heat and elevator service. The exterior will be faced with pressed brick. The architects have completed the plans and are taking figures on the work.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame. Cost not given. Architect Alfred F. Priest, 615 Fay Bldg., L. A. Owner George McAnnary. The building will be 50x132, and the street elevation will be faced with brick veneer and cement plaster. There will be 31 baths. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$25,000. Architect C. C. Rittenhouse, 206 Story Bldg., L. A. Owner Jonathan S. Dodge. The building will be 30x110 and will contain 34 baths. The exterior will be of cement plaster on metal lath. There will be steam heat and wall beds. The plans are complete and figures will be taken at once.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$25,000. Architect A. W. Riewe, 315 Henne Bldg., L. A. Owner's name withheld. The street elevation will be faced with cement plaster. There will be 45 baths in the plant, and a complete steam heating plant will be installed. The plans are being prepared.

**Ocean Park, Los Angeles Co., Cal.**—Apartment houses, 2 story and base, frame. Cost not given. Architects Yeager & Co., 305 Los Angeles Trust and Savings Bldg., L. A. Owner's name not given. The buildings will contain 30 and 36 apartments each. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$35,000. Architects M. S. Yeager & Co., Los Angeles Trust and Savings Bldg., L. A. Owner I. D. Kroesen. The building will contain 60 rooms, and the exterior will be of cement plaster and metal lath. There will be a steam heating system. The architects are preparing the plans.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not given. Architect E. J. Borgmeyer, 317 Stimson Bldg., L. A. Owner L. Gugenheim. The building will be arranged for stores on the first floor and apartments above. There will be steam heat and elevator service. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not given. Architect Fernand Parmentier, Bryne Bldg., L. A. Owner's name withheld. The building will be 50x153, and will contain 29 baths. The exterior will be of pressed brick. The architects are preparing the plans.

**Ocean Park, Los Angeles Co., Cal.**—Apartment house, 3 story and base, frame, \$15,000. Architect Jos. F. Smith. Owner G. S. Reed. The building will be 30x60 feet, and will contain 14 suites of 2 and 3 rooms each. The bedrooms will be equipped with wall beds. The plans are complete.

**Seattle, Wash.**—Apartment house, 3 story and base, brick and steel, \$70,000. Architect C. Alfred Breitung, Walker Bldg., Seattle. Owner's name withheld. The architect has completed preliminary drawings and is taking estimates.

**Seattle, Wash.**—Apartment house, 5 story and base, concrete and frame, \$55,000. Architects Breseman and Durfee, Central Bldg., Seattle. Owner's name withheld. The building will contain 45 apartments of 2 and 3 rooms each. The plans are being figured.

### Contracts Awarded.

**San Francisco**—Apartment house, 6 story and base, brick and steel. Cost not given. Architect C. J. Colley, Pacific Bldg., S. F. Owner Rockingham Apartment Co. Contractor Herbert Construction Co., 330 Turk St., S. F. Contract price not stated.

### —BANKS—

**Los Angeles, Cal.**—Bank and office building, 13 story and base. Class A construction, \$1,000,000. Architect Ernest McConnell, L. A. Owners Los Angeles Investment Co. The building will be located at 8th and Broadway, and will cover an area of 100x150. The structure will be fireproof throughout, and the mechanical equipment will be complete in all its details. The exterior will be of marble, pressed brick and terra cotta. The plans will be complete in three or four weeks and will be figured from the architect's offices.

**San Fernando, Los Angeles Co., Cal.**—Bank and hall, 2 story and base, brick, \$25,000. Architects Train and Williams, 226 Exchange Bldg., L. A. Owners First National Bank of San Fernando. The building has been mentioned before. The plans are now being revised and will be out for figures very shortly.

### Contracts Awarded.

**Concord, Contra Costa Co., Cal.**—Bank, 2 story and base, brick, \$30,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners Foskett and Elworth. Contractors Hoyt Bros., Santa Rosa and S. F. Contract price \$30,000. The main floor of the building will be occupied by the Concord National Bank.

### BARRACKS.

**Boise, Idaho**—Barracks, 4 reinforced concrete buildings. Cost not given. Architect Constructing Q. M. Dept., Boise Barracks. Owner U. S. Government. Bids will be opened on May 16. Official proposals in this issue.

**Fort D. A. Russell, Wyo.**—Barracks, 2 story and base, concrete. Cost not stated. Architect Constructing Q. M. Dept., Fort D. A. Russell, Wyo. Capt. F. S. Armstrong, officer in charge. Owner U. S. Government. Bids will be opened May 15th.

### —BRIDGES—

**Santa Barbara, Santa Barbara Co., Cal.**—Bridges, 1 steel span and 1 concrete, \$60,000 each. Engineer Frank Flournou, Santa Barbara. Owner Santa Barbara County. The bridges are to be erected over the Santa Ynez River near San Lucas. Both will have a span of about 500 feet. The concrete bridge

is to be a patented type known as the Young Hinged Concrete Bridge. The plans are nearly complete.

**Seattle, Wash.**—Repairs to Pier No. 6, \$40,000. Engineers office, Chicago, Milwaukee & Puget Sound R. R. Co., White Bldg., Seattle. Owners City of Seattle. The company has been granted permission to make the repairs and the contract will be let at once.

### Contracts Awarded.

**Yakima, Wash.**—Dam, reinforced concrete, \$350,000. Engineers U. S. Reclamation Service, Portland, Ore. Owners U. S. Government. Contractor Far West Construction Co., Portland. Contract price, hydraulic construction, \$351,730; alternate construction, \$375,730. Bids ranged from the above figures up to as high as \$695,000. No official award has as yet been made.

### —CHURCHES—

**Phoenix, Ariz.**—Church and Rectory, reinforced concrete, \$60,000. Architects Shepley, Rutan & Coolidge, Boston. Owners Episcopal Church of Phoenix. Plans have been forwarded to Rev. J. W. Atwood, Phoenix. The edifice is designed in the Mission style and will be faced with cement plaster and will have a tile roof. Plans will be figured shortly.

**Huntington Beach, Orange Co., Cal.**—Church, frame, \$10,000. Architects Walker and Vawter, Wright and Callender Bldg., L. A. Owners Methodist Church of Huntington Beach. The architects have just received the commission to prepare the plans, and it will be some time before they are ready to receive figures on the work.

**Seattle, Wash.**—Church, 1 story and base, brick, \$25,000. Architect George W. Kramer, Seattle. Owners Christian Church of Seattle. The building will be 72x91. There will be a steam heating plant installed. The exterior will be faced with pressed brick. The architect is preparing the plans.

**Seattle, Wash.**—Church, brick and steel, \$30,000. Architect Theo. Buchinger, Arcade Bldg., Seattle. Owners St. Mary's Catholic Church. The building will be 60x110, and will be faced with pressed brick trimmed with terra cotta. There will be a hot water heating system. Rev. A. J. Fisher is the pastor. The plans are complete and figures are being taken.

**Colfax, Wash.**—Church, brick and frame construction, \$10,000. Architect Dudley, Seattle. Owners First Congregational Church of Colfax. The plans of the architect have just been approved. They call for a building seating 400 people, and with a complete heating system. The construction will be started as soon as the working drawings can be completed.

### Contracts Awarded.

**Colfax, Wash.**—Church, brick and frame, \$14,000. Architect not given. Owners First Methodist Church of Colfax. Contractor William Anderson, Spokane. Contract price \$10,120. Contract does not include heating, or decorating or art glass.

**COURT HOUSES & JAILS—**

**Salt River, Ariz.**—Cottages, 1 story, frame. Cost not given. Architects Dept. of Indian Affairs, Washington, D. C. Owner U. S. Government. Bids will be opened May 26th. Plans can be seen at the office of Capt. Collier, 412 8th St. S. F., or at the Los Angeles office of the Indian Agency. Charles E. Coe, Superintendent. Address McDowell, Ariz.

**San Francisco**—Furnishing stone for Humboldt Harbor jetties. Cost not stated. Engineer Col. John Biddle, 401 Customs House Bldg., S. F. Owner U. S. Government. Bids will be opened on May 29th. Full particulars at Engineer's office.

**Boise, Idaho**—Earth work for canal. Cost not stated. Engineers U. S. Reclamation Service, Boise, Idaho. Owners U. S. Government. Bids will be opened on June 1st. Work involves the excavation of about 13,000 cubic yards of earth.

**Moscow, Idaho**—Court House, 2 story and base, steel and stone, \$125,000. Architects L. R. Stritesky and Rooney, Spokane. Owners Latah County. There will be a jail built in connection with the court house. The construction will be of stone native to the locality. The architects are completing the working drawings and bids will be called for shortly.

**Contracts Awarded.**

**Montesano, Chehalis Co., Wash.**—Court House furniture, \$5,000. Architect's name not given. Owners Chehalis County. Contractors Willard & Wallager Mfg. Co., Milwaukee. Contract price \$5,992.

**FACTORIES & WAREHOUSES**

**Acampo, San Joaquin Co., Cal.**—Factory, 1 story and base, frame, \$4,000. Architect Walter King, Elks' Bldg., Stockton. Owners Cutting Packing Co., Stockton. The structure will be used for a fruit packing establishment. The plans are complete.

**Los Angeles, Cal.**—Warehouse, 6 story and base, reinforced concrete, \$45,000. Architect none. Owners Bekins Van and Storage Co., L. A. The building will be 54x92 and fireproof. The owners are to do the work by Day Labor, and have started the excavation.

**Los Angeles, Cal.**—Factory and Warehouse buildings, 4 and 5 story and base, reinforced concrete. Cost not given. Engineer George W. Harding, 631 Citizens National Bank Bldg., L. A. Owner M. J. Connell. Leasee Brownstein, Louis Co. The plans for both buildings are complete and figures are being taken.

**Contracts Awarded.**

**Chino, San Bernardino Co., Cal.**—Factory, 1 story and base, brick and steel, \$25,000. Architect none. Owners American Beet Sugar Co., Chino. Contractors Richards, Neustadt Co., 705 Wright and Callender Bldg., L. A. Contract price, \$20,000, not including steel, which was awarded to the Union Iron Works.

**FIRE HOUSES.**

**Los Angeles, Cal.**—Fire house, 3 story and base. Class A construction, \$50,000. Architects Krempel and Erkes, Henne Bldg., L. A. Owners City of Los Angeles. The building will have a steel frame and brick walls and will be faced with pressed brick. The architects are preparing the plans.

**FLATS.**

**San Francisco**—Flats, 3 story and base, frame, Architect A. Porporato, 619 Washington St. Owner J. Cavaglieri, 618 San Bruno Ave. There will be a store on the first floor and 4 flats above. The work will be done by Day Labor and started at once.

**San Francisco**—Flats, 2 story and base, frame, \$6,000. Architect O. E. Evans, 2454 Mission St. Owner M. T. Kerrigan. There will be a store on the first floor and flats above. The exterior will be of cement plaster and rustic. The plans are being figured, and all contracts are to be let separately.

**San Francisco**—Flats, 2, 2 story and base, frame, \$6,000. Architects Chas. M. and A. F. Rousseau Monadnock Bldg., S. F. Owner A. Rouffs. These buildings will be similar to several others built by the same owner. The architects are now preparing the plans.

**San Francisco**—Flats, 3 story and base, frame, \$7,500. Architect E. A. Schumacher, 45 Kearny St., S. F. Owner's name withheld. The building will contain 3 flats of 5 and 6 rooms each. The exterior will be of rustic and ship-lap. The architect is completing the working drawings and figures will be taken at once.

**San Francisco**—Flats, 3 story and base, frame, \$6,000. Architect E. H. Hildebrand, Crocker Bldg., S. F. Owner same. The building will contain 6 flats of 5 and 6 rooms each. The exterior will be covered with brick veneer and rustic. The plans are being prepared.

**San Francisco**—Flats, 2 story and base, frame, \$3,600. Architect Paul Demartini, 628 Montgomery St., S. F. Owner Maria Stampononi. There will be four flats in the building. The plans are complete and the work is to be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$4,000. Architect none. Owner Mary T. Tyndall, 33 Church St., S. F. There will be three flats in the building arranged in suites of 5 and 6 rooms each. The exterior will be of brick veneer and rustic. The plans are complete and the work will be done by Day Labor. The owner is now purchasing materials.

**San Francisco**—Flats, 2 story and base, frame, \$4,500. Architect none. Owner Frank James, 1350 Pacific St. The work will be done by Day Labor, and the owner is purchasing materials.

**San Francisco**—Flats, 2, 2 story and base, frame, \$4,500 each. Architect none. Owner J. U. Koenig, 524 Church St., S. F. The buildings will contain 2 flats each. The exterior will be covered with rustic. The work is to be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$4,500. Architect Paul Demartini, 628 Montgomery St., S. F. Owner Carmela Barletta, 1417 Golden Gate Ave. The plans have been turned over to the owner, and the work will be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$5,500. Architect none. Owner W. P. Nolan, 1219 Webster St., S. F. The owner will have the work done by Day Labor, and is now purchasing materials.

**San Francisco**—Flats, 3 story and base, frame, \$12,000. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner M. A. Lynch. The building will contain 6 flats of 5 and 6 rooms each. The exterior will be of rustic. The interior is to be handsomely finished. The plans are being prepared.

**San Francisco**—Flats, 3 story and base, frame, \$10,000. Architect none. Owner Mrs. C. Stableton, 501 Sansome St., S. F. The building will contain 6 flats of 5 and 6 rooms each. The plans are in the hands of the owner and figures will be taken at once.

**San Francisco**—Flats, 3 story and base, frame, \$5,000. Architect none. Owner Emile and Louis Figone, 1322½ Kearny St., S. F. The plans are in the hands of the owners, and the work is to be done by Day Labor.

**Richmond, Contra Costa Co., Cal.**—Flats, 3 story and base, brick, \$26,000. Architect Walter King, Elks' Bldg., Stockton. Owner W. A. Morehead, Richmond. The building will be arranged for stores on the first floor and a number of living rooms above. The exterior will be of pressed brick. The plans are complete and the architect is taking figures.

**Portland, Ore.**—Flats, 2 story and base, frame, \$12,000. Architect L. R. Bailey Co., Abington Bldg., Portland. Owner Mrs. M. A. Keller. The building will contain 4 flats with steam heating system. The plans are complete and bids will be opened this week.

**HOTELS—**

**San Francisco**—Hotel, 2 story and base, brick, \$14,000. Architects Crim and Scott, 425 Kearny St., S. F. Owners Franks and Swift. The exterior of the building will be of cement plaster. There will be no heating system. The architects have completed the plans and are taking figures on the work.

**San Francisco**—Hotel, 7 story and base, brick and steel, \$100,000. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner Morris Brown. The building will contain 250 rooms besides the baths, and will be one of the best equipped hotels yet erected south of Market street. There will be a steam heating plant, hot and cold running water in every room and all other modern improvements. The exterior will probably be of pressed brick and terra cotta. The architect has just been commissioned to prepare the plans.

**Watsonville, Santa Cruz Co., Cal.**—Hotel, 4 story and basement, reinforced concrete, \$100,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners Watsonville capitalists headed by

O. D. Stosser. The nature of the construction is still an open question, and the Class C type may be substituted for the reinforced concrete. The building will be by far the most modern structure of its kind in Watsonville, and will be complete in every detail. The plans have been started but it will be some time before figures are taken.

**Monrovia Los Angeles Co., Cal.**—Hotel and Annex, 2 story and base, frame, Cost not stated. Architects Eager and Eager, Story Bldg., L. A. Owner L. B. Vollmer. The main building will contain 35 rooms and baths, and the annex 24 rooms. The exteriors will be of cement plaster on metal lath. The plans are complete and ready for figures.

**Los Angeles, Cal.**—Hotel Addition, 3 story and base, brick. Cost not stated. Architect A. L. Acker, 1127 Story Bldg., L. A. Owner A. E. Krier. There will be 26 wall beds installed. The addition contains 8 baths and 14 toilets. The plans are ready for figures.

**Seattle, Wash.**—Hotel, 3 story and base, brick and concrete, \$25,000. Architects Spaulding and Umbrecht, Globe Bldg. Seattle. Owner J. E. Ryan. The building will be 60x120. The plans are complete and will be put out for figures as soon as it is decided whether or not to let the work in a general contract or to separate it.

### Contracts Awarded.

**Hotel**—9 story and base, brick and steel, \$130,000. San Francisco. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. Contractor A. B. Johnson, 251 Kearny St., S. F. Contract price \$130,000.

**San Francisco**—Hotel, 9 story and base, brick and steel, \$130,000. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. Contractor A. B. Johnson, 251 Kearny St., S. F. Contract price \$130,000.

### —HALLS & SOCIETY BLDGS.—

**San Francisco**—Hall and apartments, 4 story and base, brick and steel, \$30,000. Architect L. Mastrovasqua, 586 Washington St., S. F. Owner V. Sattani. The building will contain a large hall for meeting purposes and several living apartments. The exterior will be of pressed brick and terra cotta. The plans are now out for figures.

**Willows, Glenn Co., Cal.**—City Hall, 3 story and base, brick and steel, \$50,000. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owners City of Willows. The architect has just been selected from among several submitting sketches. The building is a beautiful example of the Spanish style of architecture. There will be quarters for the fire department on the first floor, and offices for the city officials on the second, and a meeting hall on the third floor. The plans are being prepared.

**Eugene, Ore.**—Hall, 3 story and base, brick and steel, \$60,000. Architect E. E. McClaren, Portland. Owners Eugene Elks' Hall Association. There will be stores on the first floor and social rooms and offices on the two upper floors. There will be a complete steam heating system installed. The plans are being prepared.

**Portland, Ore.**—Stores and Offices, 12 story and base. Class A construction, \$225,000. Architects Doyle and Patterson, Worcester Bldg., Portland. Owner Princeton Trust Co. Contractors Hurley-Mason Co., Board of Trade Bldg., Portland. Contract price \$225,000.

### SEALED PROPOSAL.

#### FURNISHING STONE. (Bids opened May 29.)

**STONE**—U. S. Engineer Office, 401 Custom House Bldg., S. F. Sealed proposals for furnishing and delivering stone for Humboldt Harbor jetties will be received here until 12 o'clock noon, May 29, 1911. Information on application. JOHN BIDDLE, Colonel Engineer.

### CONSTRUCTING BUILDING.

#### (Bids opened May 15.)

**BUILDING, ETC.—War, Department Office of the Constructing Quartermaster, Fort D. A. Russell, Wyo.**—Sealed proposals, in triplicate, will be received at this office until 9:30 o'clock a. m., Monday, May 15, 1911, at which time they will be opened in public for constructing one hospital corps barrack, plan No. 276. The following quotation from letter of instructions 292502, dated January 11, 1911, quartermaster general of the Army, is inserted for the information of intending bidders: "In inviting proposals for this work it is desired that bids be obtained for the building complete, to include construction proper, heating, plumbing, electric wiring, and electric fixtures. Separate bids for the minor items mentioned will not be considered, but bidders should be required to state names of sub-contractors for mechanical equipment, if any, and make of plumbing fixtures which it is proposed to install." Plans and specifications and general instructions to bidders are on file in this office, and also in the office of the chief quartermaster, department of Missouri, Omaha, Neb.; chief quartermaster, department of Colorado, Denver, Colo., and in the office of the secretary of the Builders' Exchange, St. Paul, Minn. Blank forms of proposal may be obtained upon application to this office. The Government reserves the right to reject or accept any or all bids or any part thereof. Envelopes containing proposals should be indorsed "Proposals for Constructing Public Buildings at Fort D. A. Russell, Wyo." Bids to be opened May 15, 1911, and addressed to F. S. ARMSTRONG, Capt. and Q. M., 9th cavalry, C. Q. M., Fort D. A. Russell, Wyo.

**EARTH WORK.**

(Bids opened June 1.)

**EARTH WORK**—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the U. S. Reclamation Service, Shaw Building, Boise, Idaho, until 10 o'clock a. m., June 1, 1911, for the enlargement of the Main South Side Canal, between stations 789 and 799, near Boise, Idaho, involving the excavation of about 13,000 cubic yards of material. For particulars address the U. S. Reclamation Service, Washington, D. C., or Boise, Idaho. **FRANK PIERCE**, acting secretary.

**CONSTRUCTING BUILDING.**

(Bids opened May 16.)

**BUILDING, ETC.**—Constructing quartermaster's Office, Boise Barracks Idaho.—Sealed proposals, in triplicate, will be received here until 11 a. m., May 16, 1911, and then opened, for construction, complete, with plumbing, hot air heating and wiring, of quarters for four non-commissioned officers at Boise Barracks, Idaho. Separate bids for plumbing, heating and wiring not considered. Information furnished on application. The United States reserves the right to reject any or all bids or any part thereof. \$5 deposit required for plans, etc. Proposals should be enclosed in sealed envelope, marked "Proposals for Non-Commissioned Officers' Quarters" and delivered at this office prior to hour set for opening.

The building will be strictly modern in every particular and the mechanical equipment will include steam heating, electric elevators and a vacuum cleaning system. The exterior will be of pressed brick and terra cotta. The plans are complete and the architect is taking figures.

**School**—2 story and base. Class A. Cost not stated. San Francisco. Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owners City and County of San Francisco. The work which is now being figured includes the complete construction of what is to be known as the shop building of the Polytechnic High School. Separate bids will be taken for the general construction, the electric work, the plumbing and the heating. Bids will be opened May 10th.

**Apartment House**—4 story and base, brick, \$35,000. San Francisco. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner J. H. House. The building will contain 16 apartments of two and three rooms each with private baths. There will be steam heat and elevator service. The bids are in and under advisement.

**Flats**—3 story and base, frame, \$12,000. San Francisco. Architect Edward T. Foulkes, Crocker Bldg., S. F. Own-

er M. A. Lynch. The building will contain 6 flats of 5 and 6 rooms each. The exterior will be of rustic. The interior is to be handsomely finished. The plans are being prepared.

**Flats**—3 story and base, frame, \$10,000. San Francisco. Architect none. Owner Mrs. C. Stableton, 501 Sansome St., S. F. The building will contain 6 flats of 5 and 6 rooms each. The plans are in the hands of the owner, and figures will be taken at once.

**Flats**—3 story and base, frame, \$5,000. San Francisco. Architect none. Owners Emile and Louis Figone, 1322½ Kearny St., S. F. The plans are in the hands of the owners, and the work is to be done by Day Labor.

**Flats**—2, 2 story and base, frame, \$6,000. San Francisco. Architects Chas. M. and A. F. Rousseau, Monadnock Bldg., S. F. Owner A. Roufs. These buildings will be similar to several others built by the same owner. The architects are now preparing the plans.

**Flats**—3 story and base, frame, \$7,500. San Francisco. Architect E. A. Schumacher, 45 Kearny St., S. F. Owner's name withheld. The building will contain three flats of 5 and 6 rooms each. The exterior will be of rustic and shiplap. The architect is completing the working drawings and figures will be taken at once.

**Flats**—3 story and base, frame, \$6,000. San Francisco. Architect E. H. Hildebrand, Crocker Bldg., S. F. Owner same. The building will contain 6 flats of 5 and 6 rooms each. The exterior will be covered with brick veneer and rustic. The plans are being prepared.

**Flats**—2, 2 story and base, frame, \$4,500 each. San Francisco. Architect none. Owner J. U. Koenig, 524 Church St., S. F. The buildings will contain 2 flats each. The exterior will be covered with rustic. The work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$5,000.

**Apartment House**—3 story and base, brick and steel, \$100,000. San Francisco. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. The building will contain 120 rooms, arranged in suites of two and three rooms each. There will be a steam heating plant and elevator service installed. The exterior of the building will be of pressed brick and ornamental terra cotta. The plans are being prepared.

500. San Francisco. Architect none. Owner W. P. Nolan, 1219 Webster St., S. F. The owner will have the work done by Day Labor, and is now purchasing materials.

**Flats**—2 story and base, frame, \$3,600. San Francisco. Architect Paul Demartini, 628 Montgomery St., S. F. Owner Maria Strampononi. There will be four flats in the building. The plans are complete and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$4,000. San Francisco. Architect none. Owner Mary T. Tyndall, 33 Church St., S. F. There will be three flats in the building arranged in suites of 5 and 6 rooms each. The exterior will be of brick veneer and rustic. The plans are

complete and the work will be done by Day Labor. The owner is now purchasing materials.

**Flats**—2 story and base, frame, \$4,500. San Francisco. Architect none. Owner Frank James, 1350 Pacific St., S. F. The work will be done by Day Labor and the owner is purchasing materials.

**Flats**—3 story and base, frame, \$7,000. San Francisco. Architect A. Porporato, 619 Washington St. Owner J. Cavaglieri, 618 San Bruno Ave. There will be a store on the first floor and flats above. The work will be done by Day Labor and will be started at once.

**Flats**—2 story and base, frame, \$6,000. San Francisco. Architect O. E. Evans, 2454 Mission St., S. F. Owner M. T. Kerrigan. There will be a store on the first floor and flats above. The exterior will be of cement plaster and rustic. The plans are being figured, and all contracts are to be let separately.

**Residence**—2 story and base, frame, \$2,300. San Francisco. Architect none. Owner Frederick W. Corcoran, 1290 7th Ave., S. F. The dwelling will contain 7 rooms and 2 baths. The exterior will be covered with klinker brick veneer and rustic. The interior will be finished in pine and redwood. The work is to be done by Day Labor.

**Bungalow**—1 story and base, frame, \$2,000. San Francisco. Architect none. Owner Harry Barman, 1143 Devisader St., S. F. The exterior will be of shiplap and rustic. There will be open fireplaces. The work is to be done by Day Labor.

**Bungalow**—1 story and base, frame, \$2,300. San Francisco. Architect L. Traverso, 854 Union St., S. F. Owner G. Giusti. The dwelling will contain 6 rooms and bath. The exterior will be of rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**Cottages**—1 story and base, frame, \$1,200 each. San Francisco. Architect none. Owners McArthur Bros., 625 Dolores St., S. F. The exteriors of the dwellings will be covered with shiplap and shingles. The work is to be done by Day Labor, and will be started at once.

**Flats**—3 story and base, frame, \$4,500. San Francisco. Architect Paul Demartini, 628 Montgomery St., S. F. Owner Carmela Barletta, 1417 Golden Gate Ave. The plans have been turned over to the owner and the work will be done by Day Labor.

**Residences**—4, 2 story and base, frame, \$3,000 each. San Francisco. Architect none. Owner Thomas Scoble, 1425 Clement St., S. F. The dwellings will contain 6 and 7 rooms each with baths. The exteriors will be of rustic and shingles. The work is to be done by Day Labor and will be started at once.

**Residences**—5, 2 story and base, frame, \$3,000 to \$3,500 each. San Francisco. Architect none. Owner Louis Heilmann, 1234 Jones St., S. F. All of the dwellings are to be different in design, and the exteriors will be of shiplap, shingles and cement plaster. The interior will be handsomely finished in pine and redwood. Fireplaces will be a feature of all the dwellings. The plans are in the hands of the owner, and the work will be started at once under the Day Labor system.

**Furnishing Stone for Humboldt Harbor Jetties**—Cost not stated. San Francisco. Engineer Col. John Biddle, 401

Customs House Bldg., S. F. Owner U. S. Government. Bids will be opened on May 29th. Full particulars at engineer's office.

**Apartment House**—5 story and base, brick and steel, \$40,000. San Francisco. Architects Salfeld and Kohberg, Clunie Bldg., S. F. Owner H. Cohn. The first floor will be occupied by retail stores and the four upper floors divided into apartments. There will be steam heat and elevator service. The exterior will be faced with pressed brick. The architects have completed the plans and are taking figures on the work.

**Hotel**—2 story and base, brick, \$14,000. San Francisco. Architects Crim and Scott, 425 Kearny St., S. F. Owners Franks and Swift. The exterior of the building will be of cement plaster. There will be no heating system. The architects have completed the plans and are taking figures on the work.

**Hotel**—7 story and base, brick and steel, \$100,000. San Francisco. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner Morris Brown. The building will contain 250 rooms besides the baths, and will be one of the best equipped hotels yet erected south of market street. There will be a steam heating plant, hot and cold running water in every room and all other modern improvements. The exterior will probably be of pressed brick and terra cotta. The architect has just been commissioned to prepare the plans.

**Stores and Lofts**—2 story and base, Class C, \$15,000. San Francisco. Architects Bakewell and Brown, 417 Montgomery St., S. F. Owner Elizabeth G. Baldwin. There will be two stores on the ground floor and large lofts on the second floor. The exterior will be of pressed brick and terra cotta. The plans are complete and figures are being taken.

**Store**—2 story and base, brick, \$20,000. San Francisco. Architect Thomas Smith, Lick Bldg., S. F. Owner Gough Furniture Co. Besides two full stories and a basement there will be a mezzanine floor. The building is on a corner, and both street elevations will be fitted with large show windows. The exterior will be faced with white cement plaster. The plans are ready for figures.

**Hall and Apartments**—4 story and base, brick and steel, \$30,000. San Francisco. Architect I. Mastropasqua, 586 Washington St., S. F. Owner V. Sattani. The building will contain a large hall for meeting purposes and several living apartments. The exterior will be of pressed brick and terra cotta. The plans are now out for figures.

**Addition to Hospital**—2 story and base, reinforced concrete. Cost not given. San Francisco. Engineer constructing Q. M. Dept., U. S. A. Lt. Col. George McK. Williamson, officer in charge, Fort Mason, S. F. Owner U. S. Government. The building will constitute a part of the General Hospital at the Presidio of San Francisco. The plans are now being prepared.

**MARIN, CONTRA COSTA AND  
 SONOMA COUNTIES.**

**Store and Rooms**—2 story and base,  
 frame, \$4,500. Vallejo, Solano Co., Cal.  
 Architect none. Owner J. J. McDonald,  
 Vallejo, Cal. The first floor will be  
 fitted up for undertaking parlors and  
 living rooms will be located above. The  
 plans are in the hands of the owner  
 and figures are being taken.

**Flats**—3 story and base, brick, \$26,-  
 000. Richmond, Contra Costa Co., Cal.  
 Architect Walter King, Elks' Bldg.,  
 Stockton. Owner W. A. Morehead, Rich-  
 mond. The building will be arranged  
 for stores on the first floor and a num-  
 ber of living rooms above. The exter-  
 rior will be of pressed brick. The plans  
 are complete and the architect is tak-  
 ing figures.

**Constructing Electric Road**—Cost not  
 given. Petaluma to McNear's Point,  
 Cal. Owners Petaluma and Santa Rosa  
 Electric R. R. Co., Santa Rosa. This  
 company, it is stated, has secured a  
 private right of way between the above  
 named towns and will commence the  
 construction of a new road. The line  
 is to be operated by electric power.  
 George D. Shearer of Petaluma is act-  
 ing for the company.

**Contracts Awarded.**

 000. Concord, Contra Costa Co., Cal.  
 Architect W. H. Weeks, 251 Kearny  
 St., S. F. Owners Foskett and El-  
 worth. Contractors Hoyt Bros., Santa  
 Rosa and S. F. Contract price \$30,000.  
 The main floor of the buidng will be  
 occupied by the Concord National Bank.

**Sacramento, Stockton &  
 Northern California.**

**Cottage**—1 story and base, frame, \$2,-  
 500. Lodi, San Joaquin Co., Cal. Archi-  
 tect O. A. Schroeder, Lodi, Cal. Owner  
 same. The dwelling will contain five  
 rooms. The plans are being figured.

**Residence**—2 story and base, frame,  
 \$6,000. Modesto, Stanislaus Co., Cal.  
 Architect J. Bernard Joseph, First Na-  
 tional Bank Bldg., S. F. Owner Mrs.  
 Maze. The exterior of the dwelling  
 will be of cement plaster and metal  
 lath. The architect is preparing the  
 plans.

**Stores**—1 story and base, brick. Cost

not stated. Stockton, San Joaquin Co.,  
 Cal. Architect R. P. Morrell, Stockton.  
 Owner A. Wolfe. The plans for this  
 work have just been started, and fig-  
 ures will be taken as soon as the  
 drawings can be completed.

**Factory**—1 story and base, frame,  
 \$4,000. Acampo, San Joaquin Co., Cal.  
 Architect Walter King, Elks' Bldg.,  
 Stockton. Owners Cutting Packing  
 Co., Stockton. The structure will be  
 used for a fruit packing establishment.  
 The plans are complete.

**City Hall**—3 story and base, brick  
 and steel, \$50,000. Willows, Glenn Co.,  
 Cal. Architect C. L. Russell, Hum-  
 boldt Bank Bldg., S. F. Owners City  
 of Willows. The architect has just  
 been selected from among several sub-  
 mitting competitive sketches. The  
 building is a beautiful example of the  
 Spanish style of architecture. There  
 will be quarters for the fire depart-  
 ment on the first floor and offices for  
 the city officials on the second, and a  
 meeting hall on the third floor. The  
 plans are being prepared.

**Residence**—2 story and base, frame,  
 \$5,000. Stockton, San Joaquin Co., Cal.  
 Architect Walter King, Elks' Bldg.,  
 Stockton. Owner C. Rodder. The  
 dwelling will contain 7 rooms and  
 baths. The architect is preparing the  
 plans.

buildings are complete and figures are being taken.

**Church and Rectory**—Reinforced concrete, \$60,000. Phoenix, Ariz. Architects Shepley, Rutan & Coolidge. Boston. Owners Episcopal Church of Phoenix. Plans have been forwarded to Rev. J. W. Atwood, Phoenix. The edifice is designed in the Mission style and will be faced with cement plaster and will have a tile roof. Plans will be figured shortly.

**Church**—Frame, \$10,000. Huntington Beach, Orange Co., Cal. Architects Walker and Vawter, Wright and Callender Bldg., L. A. Owners Methodist Church of Huntington Beach. The architects have just received the commission to prepare the plans, and it will be some time before they are ready to receive figures on the work.

**Bank and Office Building**—13 story and base. Class A construction, \$1,000,000. Los Angeles, Cal. Architect Ernest McConnell, L. A. Owners Los Angeles Investment Co. The building will be located at 8th and Broadway, and will cover an area of 100x150 feet. The structure will be fireproof throughout, and the mechanical equipment will be complete in all its details. The exterior will be of marble, pressed brick and terra cotta. The plans will be complete in three or four weeks, and will be figured from the architect's offices.

**Bank and Hall**—2 story and base, brick, \$25,000. San Fernando, Los Angeles Co., Cal. Architects Train & Williams, 226 Exchange Bldg., L. A. Owners First National Bank of San Fernando. The building has been mentioned here before. The plans are now being revised and will be out for figures very shortly.

**Apartment Houses**—2 story and base, frame. Cost not given. Ocean Park, Los Angeles Co., Cal. Architects Yeager & Co., 305 Los Angeles Trust and Savings Bldg., L. A. Owner's name not given. The buildings will contain 30 and 36 apartments each. The plans are being prepared.

**Apartment House**—3 story and base, frame, \$35,000. Los Angeles, Cal. Architects M. S. Yeager & Co., Los Angeles Trust and Savings Bldg., L. A. Owner I. D. Kroesen. The building will contain 60 rooms, and the exterior will be of cement plaster and metal lath. There will be a steam heating system. The architects are preparing the plans.

**Apartment House**—3 story and base, brick. Cost not given. Los Angeles, Cal. Architect E. J. Borgmeyer, 317 Stimson Bldg., L. A. Owner L. Guggenheim. The building will be arranged for stores on the first floor and apartments above. There will be steam heat and elevator service. The plans are being prepared.

**Fire House**—3 story and base. Class A construction, \$50,000. Los Angeles, Cal. Architects Krempel and Erkes; Henne Bldg., L. A. Owners City of Los Angeles. The building will have a steel frame and brick walls, and will be faced with pressed brick. The architects are preparing the plans.

**City Hall**—2 story and base, brick, \$18,000. Glendale, Los Angeles Co., Cal. Architect Paul V. Tuttle, 1417 W. 4th St., Glendale. Owners City of Glendale. The architect has just received instructions to prepare the drawings and the details of construction cannot be given at this time.

**Residence**—3 story and base, frame and concrete, \$25,000. Raiston-by-the-Sea, Los Angeles Co., Cal. Architect

E. Russell Ray, 34 Howard Canfield Bldg., L. A. Owner A. C. Norton. The exterior of the dwelling will be of cement plaster on metal lath. There will be 15 rooms and baths. The plans are complete.

**Residence**—2 story and base, frame, \$10,000. Los Angeles, Cal. Architect E. Russell Ray, 34 Howard Canfield Bldg., L. A. Owner J. R. Whittemore. The dwelling will contain 12 rooms and baths. The plans are complete.

**Residence**—2 story and base, frame. Cost not given. Los Angeles, Cal. Architect Alfred F. Priest, 615 Fay Bldg., L. A. Owner Ernest Eastwood. Plans are complete.

**Light and Power Plant**—Reinforced concrete, \$43,000. San Bernardino, Cal. State Engineer N. S. Ellery, Sacramento. Owner State of California. The plans are being prepared for a plant to supply the State Insane Asylum. The appropriation is \$43,000 for the building and \$12,000 for the equipment.

**Concrete Culverts**—Cost not stated. Los Angeles, Cal. Owner City of Los Angeles. Bids will be opened on May 8th for four culverts in the Pasadena Road District.

**School**—2 story and base, brick, \$12,000. Graham, Los Angeles Co., Cal. Architect H. D. Salveter, 822 Central Bldg., L. A. Owner Graham School District. The exterior will be of blue brick. There will be a steam heating plant. The plans are complete.

### Contracts Awarded.

**Factory**—1 story and base, brick and steel, \$25,000. Chino, San Bernardino Co., Cal. Architect none. Owners American Beet Sugar Co., Chino. Contractors Richards, Neustadt Co., 705 Wright and Callender Bldg., L. A. Contract price \$20,000, not including steel which was awarded to the Union Iron Works.

**Car Barns**—1 story, steel and brick. Cost not stated. Los Angeles, Cal. Engineers of the Los Angeles Electric Co. Owners Los Angeles R. R. Co. Contractors C. J. Kubach Co., 672 Pacific Electric Bldg., L. A.

**Pumping and Booster Plant**—\$20,000. Ontario, San Bernardino Co., Cal. Engineer F. E. Trask, Laughlin Bldg., L. A. Owner City of Ontario. Contractors Fairbanks-Morse Co., 423 E. 3rd St., L. A. Contract price \$17,311.80.

**School**—2 story and base, reinforced concrete, \$25,000. National City, Cal. Architect W. S. Hebbard, Grant Bldg., L. A. Owners National City. Contractors Sparks and McGinnis, San Diego. Contract price \$25,000.

**School**—1 story and base, brick, \$25,000. Artesia, Los Angeles Co., Cal. Architects Withey and Davis, 1126 Story Bldg., L. A. Owners Artesia School District. Contractor Chas. A. Reed, 242 Atlantic Ave. Long Beach. General construction \$17,985. Contract does not include heating and ventilating.

**School**—Polytechnic group, reinforced concrete, \$200,000. Riverside, Riverside Co., Cal. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owners City of Riverside. Contractor William C. Crownell, Pasadena, \$180,455 Heating and Ventilating, Machinery and Electrical Co., L. A., \$14,837.

**School**—2 story and base, brick, \$25,000. Mabton, Wash. Architect's name not given. Owners Mabton School District. Contractor G. H. Yeaman, Mabton, Wash. Contract price, \$24,300.

## Seattle and Washington.

**Barracks**—1 reinforced concrete buildings. Cost not given. Boise, Idaho. Architect Constructing Q. M. Dept., Boise Barracks. Owner U. S. Government. Bids will be opened on May 16th. Official proposals in this issue.

**Barracks**—2 story and base, concrete. Cost not stated. Fort D. A. Russell, Wyo. Architect Constructing Q. M. Dept., Fort D. A. Russell, Wyo. Capt. F. S. Armstrong, officer in charge. Owner U. S. Government. Bids will be opened May 15th.

**Earth Work for Canal**—Cost not stated. Boise, Idaho. Engineers U. S. Reclamation Service, Boise, Idaho. Owners U. S. Government. Bids will be opened on June 1st. Work involves the excavation of about 13,000 cubic yards of earth.

**Apartment House**—3 story and base, brick and steel, \$70,000. Seattle, Wash. Architect C. Alfred Breitung, Walker Bldg., Seattle. Owner's name withheld. The architect has completed preliminary drawings and is taking estimates.

**Apartment House**—5 story and base, concrete and frame, \$55,000. Seattle, Wash. Architects Breseman and Durfee, Central Bldg., Seattle. Owner's name withheld. The building will contain 45 apartments of 2 and 3 rooms each. The plans are now being figured.

**Repairs to Pier No. 6**—\$40,000, Seattle, Wash. Engineers' office Chicago, Milwaukee & Puget Sound R. R. Co., White Bldg., Seattle. Owners City of Seattle. The company has been granted permission to make the repairs, and the contract will be let at once.

**Hotel**—3 story and base, brick and concrete, \$25,000. Seattle, Wash. Architects Spaulding and Umbrecht, Globe Bldg., Seattle. Owner J. E. Ryan. The building will be 60x120. The plans are complete and will be put out for figures as soon as it is decided whether or not to let the work in a general contract or to separate it.

**Church**—1 story and base, brick, \$25,000. Seattle, Wash. Architect George W. Kramer, Seattle. Owners Christian Church of Seattle. The building will be 72x91. There will be a steam heating plant installed. The exterior will be faced with pressed brick. The architect is preparing the plans.

**Church**—Brick and steel, \$30,000. Seattle, Wash. Architect Theo. Buchinger Arcade Bldg., Seattle. Owners St. Mary's Catholic Church. The building will be 60x110, and will be faced with pressed brick trimmed with terra cotta. There will be a hot water heating system. Rev. A. J. Fisher is the pastor. The plans are complete and figures are being taken.

**Church**—Brick and frame construction, \$10,000. Colfax, Wash. Architect Dudley, Seattle. Owners First Congregational Church of Colfax. The plans of the architect have just been approved. They call for a building seating 400 people, and with a complete heating system. The construction will be started as soon as the working drawings can be completed.

**Court House**—2 story and base, steel and stone, \$125,000. Moscow, Idaho. Architects L. R. Strlesky and Rooney, Spokane. Owners Latah County. There will be a jail built in connection with the court house. The construction will

be of stone native to the locality. The architects are completing the working drawings and bids will be called for shortly.

**Hospital**—4 story and base, brick and stone, \$70,000. Walla Walla, Wash. Architect none. Owner Dr. J. F. Cropp, Walla Walla. The plans for this work are complete and are in the hands of the owner. The work will be started this summer.

**Railroad Construction**—Cost not stated. Seattle, Wash. Engineers of the C., M. and P. S. Co. White Bldg., Seattle. Owners Chicago, Milwaukee and Puget Sound R. R. Co. The work of constructing a 500-mile road through the northern counties of Washington has been decided upon and the capital secured. Work will be started this year.

**Railroad Construction**—Cost not stated. Wenatchee, Wash. Engineer J. C. Barton, Wenatchee. Owners Methow Valley and Washington Northern R. R. Co. The announcement has been made by the Vice President of the company that construction work would be started at once on the line from Winthrop to Pateros.

**Residence**—1½ story and base, frame and brick, \$30,000. Seattle, Wash. Architect W. Marbury Somerville, White Bldg., Seattle. Owner W. E. Boeing. The plans for this dwelling are now complete and figures are being taken.

**Stores and Lofts**—6 story and base, reinforced concrete, \$125,000. Seattle, Wash. Architect Louis Baeder, White Bldg., Seattle. Owners Frye-Bruhn. The building will be 100x120 and will be fireproof. The plans are complete and bids will be called for at once.

**Stores**—3 story and base, reinforced concrete, \$75,000. Seattle, Wash. Architect Frank Goodwin, Seattle. Owners Goodwin Realty Co. The preliminary plans have been completed, and the work will go out for figures about May 30th.

**Stores and Offices**—5 story and base, brick and steel, \$200,000. Seattle, Wash. Architect A. H. Albertson, representing Howells & Stokes of New York. Mr. Albertson's address is Seattle. Owner's name withheld. The building will be 120x240. The plans are complete and will go out for figures this month.

**Repairs to School**—\$20,000. Seattle, Wash. Architect Edgar Blair, Seattle. Owners City of Seattle. The work consists of the repairs to the portion of the building recently destroyed by fire. The work will be started after June 17.

**College Buildings**—Cost not stated. Moscow, Idaho. Architects Cutter and Malmgren, Spokane. Owners State of Idaho. Several new buildings are to be erected at the college this year, all of which will be of the Class A type of construction. Prof. W. L. Carlyle is in charge of the work.

**School Buildings**—2 story and base, brick, \$100,000. Elma, Wash. Architect Watson Vernon, Aberdeen, Wash. Owners Elma School District. The plans for three buildings have just been accepted by the board. But one of the units will be erected at this time, costing about \$40,000.

**School**—2 story and base, brick, \$16,000. Silver Beach, Wash. Architect T. F. Doan, Bellingham. Owners Silver Beach School District. The plans are once,

## Contracts Awarded.

**Court House Furniture**—\$5,000. Montesano, Chehalis Co., Wash. Architect's name not given. Owners Chehalis County. Contractors Willard & Wallager Mfg. Co., Milwaukee. Contract price \$5,992.

**Church**—Brick and frame, \$14,000. Colfax, Wash. Architect not given. Owners First Methodist Church of Colfax. Contractor William Anderson, Spokane. Contract price \$10,120. Contract does not include heating, decorating or art glass.

**Hospital**—2 story and base, reinforced concrete, \$50,000. Fort Missoula, Mont. Architect Constructing Q. M. Dept., U. S. A., Fort Missoula, Mont. Owners U. S. Government. Contractors Olsen and Johnson, Missoula. Contract price \$51,300.

**Constructing Electric Line**—\$50,000. Seattle, Wash. Engineers not given. Owners W. H. White and associates, Bailey Bldg., Seattle. Contractor Homer Crosby, 423 Hinkley Bldg., Seattle. Contract price \$50,000, not including rails.

**Tunnel Contract**—\$600,000. Seattle, Wash. Engineers C., M. and P. S. R. R. White Bldg., Seattle. Owners Chicago, Milwaukee and Puget Sound R. R. Co. Contractors Bates and Rogers, Spokane. Contract includes the complete construction of a 650 foot tunnel.

## Portland and Oregon.

**Flats**—2 story and base, frame, \$12,000. Portland, Ore. Architect L. R. Bailey Co., Abington Bldg., Portland. Owner Mrs. M. A. Keller. The building will contain 4 flats with steam heating system. The plans are complete and bids will be opened this week.

**Eugene, Ore.**—Apartment house, 3 story and base brick, \$30,000. Architect John Hunziker, Eugene. Owner C. H. Hales. The building will contain 21 apartments all with private baths. The exterior will be of pressed brick. The plans are complete and contracts will be awarded at once.

**Apartment House**—3 story and base, brick, \$30,000. Eugene, Ore. Architect John Hunziker, Eugene. Owner C. H. Hales. The building will contain 21 apartments all with private baths. The exterior will be of pressed brick. The plans are complete and contracts will be awarded at once.

**Hall**—3 story and base, brick and steel, \$60,000. Eugene, Ore. Architect E. E. McClaren, Portland. Owners Eugene Elks' Hall Association. There will be stores on the first floor and social rooms and offices on the two upper floors. There will be a complete steam heating system installed. The plans are being prepared.

**Residence**—2 story and base, frame, \$8,000. Portland, Ore. Architect C. R. Lewthwaite, Portland. Owner B. L. Bancom. The dwelling will contain 10 rooms and baths. The plans are complete.

**Residence**—2 story and base, frame, \$5,000. Portland, Ore. Architects Claussen and Claussen, Portland. Owner A. C. Cammack. The plans are complete and bids will close May 8th.

**Stores**—1 story and base, brick, \$20,000. Portland, Ore. Architect D. L. Williams, Portland. Owner Edgar J. Daly. The building will be 100x30, and will be faced with pressed brick. The plans are ready for figures,

## Contracts Awarded.

**Dam**—Reinforced concrete, \$350,000. Yakima, Wash. Engineers U. S. Reclamation Service, Portland, Ore. Owners U. S. Government. Contractor Far West Construction Co., Portland. Contract price, hydraulic construction, \$351,730; alternate construction, \$375,730. Bids ranged from the above figures up to as high as \$695,000. No official award has as yet been made.

**Stores and Offices**—12 story and base. Class A construction, \$225,000. Portland, Ore. Architects Doyle and Patterson, Worcester Bldg., Portland. Owners Princeton Trust Co. Contractors Hurley-Mason Co., Board of Trade Bldg., Portland. Contract price \$225,000.

## ECONOMIES OF ELECTRICALLY-TRANSMITTED POWER.

By S. A. Fletcher.

That electric motors in wood-working plants really secure economies which pay handsome returns on the investment, cannot be questioned, because there are today hundreds of examples of new wood-working plants that are successfully using electrically-transmitted power throughout, and hundreds of other examples of older plants converted from engine drive to electrical drive, which are no less successful. In fact, these converted shops actually prove the economies, because they permit an accurate comparison to be made between the two kinds of drive. It is obviously impossible to determine exactly what the operating cost would have been in a new factory had it been engine-driven instead of electrically-driven, and hence these new plants do not permit of any accurate comparisons of operating by different systems of power distribution.

Since the economy of electric motors is a fact, it must be due to one or more causes which can be explained. Two principal causes, differing materially in their nature, may readily be found. These are, first, the intermittent nature of the load required by wood-working machines and the ability of electric drive to take advantage of them; and, second, the increased production from the machines due to electric drive. The first has to do with the power actually consumed, and the second with the amount of work turned out, and the two, taken together, determine the cost of power per unit of manufactured product. This cost of power is the only basis of comparison which actually shows anything definite to the manager or owner of the plant. The cost for power per horse-power hour or per kilowatt hour does not indicate anything whatever about the relative costs of power by the two systems.

It is well known that every steam-power plant has a certain load at which its economy is highest, and that any lower load reduces the economy and hence makes the cost per horse-power hour higher. It therefore is evident that the lowest cost per horse-power hour will be obtained when the engine runs all the time at the most efficient load. But it is a fact so well known that it hardly requires stating, that the power in a wood-working plant is so fluctuating in its character that the average load is always considerably below the maximum, and hence below the most efficient load. If, now, the engineer could connect

some form of adjustable brake to his engine, so that by increasing the load at the brake when the shop load is low, he would be able to maintain a load on the engine practically equal to the most efficient load. Hence, by so doing, the cost of power per horsepower hour will be decreased, but no one will consider for an instant that there has been any real gain by so doing. This extra friction load would not represent any increased output in the factory, and the power is produced for the sole reason of helping to turn out product from the factory. Hence, while the cost per horse-power hour has come down, the cost per finished product has gone up.

It is true that in an engine-driven plant this friction brake that has been mentioned has a parallel in actual fact, in the friction of the lineshafts. The machines which do the actual work in the shop do not of themselves require that a large amount of power be spent in turning lineshafts, countershafts and belts. This waste of friction is due solely to the system used for the distribution of the power, and hence it is just as useless as the friction brake previously considered, and has just as bad an effect. This friction load due to shafting, etc., then goes merely to increasing the load on the engine, and hence to decreasing the cost per horse-power hour, while it increases the cost per unit of manufactured product.

By cutting out this friction loss wasted in turning the shafts, by applying the power directly to the different machines only when they are actually turning out work, a material economy of power may be effected. If this could be done with engine power, the average load on the engine would be reduced and the cost of horse-power hour would be higher, but the cost per unit of manufactured product would be lower, and hence a comparison of costs per horse-power hour would be very misleading. As a matter of fact, electric drive does just this very thing of cutting out the power formerly lost in friction, by applying the power directly to the machines through individual motors, hence any comparison of the costs of power by the two systems, unless based upon the cost per unit of factory product, is absolutely worthless.

Again, with the power applied by individual electric motors, it has always been found that the workmen can turn out a better grade of work and more of it in a day than they could previously. This increase in output is due to the steadier speed, the decreased drop as the machine is loaded, and to the greater comfort and convenience afforded to the workmen by the motors. The light is better, the belts are out of the way, there is less danger of accident, and the machines may be started and stopped with far greater ease and dispatch than when driven from a lineshaft.

Here, again, due to the increased output from the machines, the basis of power cost must be the unit of factory output, for it is obvious that more power will be required to do more work, and hence the total cost will be greater.

Accurate comparisons of operating costs will include all the factors which enter into the power cost, as labor, fuel, water, interest and depreciation on the investment, supplies, etc. In most wood-working plants it will be

found most economical to use individual electric motors, with the power purchased from a central station, rather than produced in the plant itself. In this way the fuel refuse may frequently be sold for enough to pay a large share of the power bill, and some labor chargeable to power may also be dispensed with.

Wherever accurate comparisons have been made of the costs of power by the two systems, on the basis of the unit of factory output, the cost of electric drive has always been found to be the lower, provided individual motor drive has been employed intelligently. Some installations of electric motors have been made by ignorant persons which reflected no credit upon any one, just as there are many installations with engine drive which are positive disgraces to the mechanical engineering profession.

#### THE HEATING OF SCATTERED BUILDING FROM A CENTRAL PLANT.

The Boston City Hospital has a system of steam heating which is unusual in several respects. To appreciate the conditions which indicated the design of this system it is necessary to take a brief glance at the history of steam heating in this institution. The hospital itself consists of many buildings scattered over a considerable amount of space. Its present extent is the result of years of gradual growth, and consequently the original heating system consisted of a miscellaneous collection of heating layouts. Some buildings were equipped with one-pipe systems while others were arranged for two-pipe heating, and there was little if any uniformity throughout the installation.

A few years ago two new buildings were added to the hospital and it was decided to equip these with a modern vacuum heating system. Accordingly a Webster vacuum system was installed in these two buildings and the following year it was decided to change over the equipment of the entire hospital to this form of heating. The engineering firm of Densmore & LeClear has charge of this work and also designed additions and improvements to the power plant.

In order to increase the capacity of the power plant, the old boilers, which had been in service sixteen years, were replaced by four boilers of 350 horsepower each. A 1,500 horsepower Webster feed water heater was installed and three Knowles pumps for the new heating system. The nature of the Webster system made it possible in very many cases to change over the old systems at a very small expense, as practically all of the original piping was utilized for the new system, in some cases as small as three-eighth inch brass pipe being used for return lines.

All the radiating units—some 1,700 altogether—as well as many of the vent surface returns and heating pipe drips are equipped on the return end with Webster water seal motors, which serve to discharge water and air into the return lines without permitting uncondensed steam to pass. By means of these devices backing up in the radiators is absolutely prevented and the fact that they are entirely automatic in their action obviates the necessity of attendance. Each radiating

unit may thus be regulated entirely by means of the inlet valve.

In order to insure to each building an equal amount of "draft" from the vacuum pumps the Webster type "D" vacuum controller has been installed at each building. This device, which consists essentially of a diaphragm controller through which the air is discharged and an automatic trap which discharges the condensed steam into the returns, automatically regulates the degree of vacuum at each building. In this way circulation in the most remote buildings is as positive as in those lying near the vacuum pumps. In an installation as extensive as that of the Boston City Hospital, where twenty-six buildings some of the steam mains are over 1,000 feet in length, this feature of vacuum regulation at the individual buildings is of prime importance.

Another feature of this installation is the certainty with which the radiating units and all the intermediate piping rid themselves of water and air. Quietness of operation is, of course, an essential in any mechanical device operating in a hospital, and water hammer and kindred disturbances, unfortunately so often found in steam heating installations cannot be tolerated if it is possible to do away with them. The fact that with this system water is never allowed to collect in the radiators accounts for its remarkably quiet operation. This feature in connection with the positive circulation obtained and the even steam distribution render this system particularly adaptable to installation of this class.—Construction Record.

#### REVERSIBLE WINDOWS ARE MONEY SAVERS.

Any improvement that will save money to the user is always interesting.

A window that can be reversed so as to be cleaned from the inside will save money, because the window cleaner can work faster. This is specially true in large office buildings.

For ordinary residences and flats it will not be necessary to send for outside help to clean the windows. The tenant of a house or flat so equipped will appreciate the convenience of being able to clean the windows without the aid of a Jap.

Architects should specify some such device on all their work. The market is full of patent window devices. All of them have their strong points.

#### ESTABLISH LOCAL OFFICE.

In order to take adequate care of its increasing business on the Pacific Coast, the Raymond Concrete Tile Company of New York and Chicago has recently opened offices at 689 Pacific Electric Building, Los Angeles, and at 503 Market Street, San Francisco, in charge of Thomas D. Campbell.

## Editorial Comment.

The plan of the downtown associa-  
tion to adopt a decorative scheme for  
ornamenting lampposts on Kearny  
street is worthy of commendation. It  
is proposed to have boxes suspended  
from them with flowering and orna-  
mental plants that are to be kept grow-  
ing and carefully tended. This will  
give that portion of the city a distinc-  
tive appearance and lend a charm to the  
old thoroughfare that is truly Cali-  
fornian. For it was there that the  
center of gaiety existed in the old  
days and there still much of the  
oriental and cosmopolitan life exists.  
In old Portsmouth square is the mon-  
ument to Stevenson with its reminder  
of his land of Bohemia. At the north-  
ern end is the Latin Quarter, the North  
Beach, Fisherman's wharf, and the cos-  
mopolitan life of all nations. At the  
junction with Market street are the  
flower vendors with their baskets of  
colored flowers upon the sidewalks.  
And this addition to the ornamentation  
of the street will add to its individu-  
ality and charm.

This mode of ornamentation is said to  
exist in the European cities, particu-  
larly in Vienna. There the streets  
are said to have a particularly pleasing  
and gay appearance because of these  
hanging flower boxes. In a climate  
such as this, in a city such as this,  
there is great possibilities in just such  
little things as these that will give an  
individuality to the city and materially  
add to the pleasure of its inhabitants.

On the front page of the Scientific  
American of the date of April 29, is a  
full page graphic illustration of the  
types of ships and the tonnage value  
of our merchant marine taken from  
three different periods, namely, 1789,  
the date of the adoption of the federal  
constitution; 1861, the date of the com-  
mencement of the Civil War and 1910,  
the present time. On the date first  
mentioned the tonnage for the year  
amounted to 123,893 tons; in 1861, 2,-  
496,894 tons, and in 1910, 718,517 tons.

These figures showing a decadence  
of more than two-thirds in the total  
amount of goods shipped in American  
vessels are powerful reminders that

something should be done in aid of  
American shipping. A great many na-  
tions of the world pay large subsidies  
to their ships that are built at home  
and thus maintain a large merchant  
marine, partially at public expense,  
that can successfully compete against  
foreign vessels that do not pay such  
subsidies.

In view of the fact that the opening  
of the Panama Canal will greatly in-  
crease the ocean traffic of this country,  
it is very necessary that the matter of  
our carrying trade be looked into and  
that some provision be made for re-  
storing it to the proper place among  
the world's shipping.

The question should be regulated by  
congress and the president on its  
merits. If the desired result can be  
obtained by giving preference to  
American vessels, or if, it is necessary  
to grant subsidies to enable the ship-  
ping of this country to successfully  
compete with the subsidized vessels of  
foreign countries some effective  
method should at least be thought out  
and adopted that will restore the flag  
of the American Merchantman to the  
high seas.

The old adage that "familiarity  
breeds contempt" is perhaps no better  
illustrated than in the case of men who  
work in dangerous places. Aviators  
and men who follow similar callings  
have often met death through the  
grossest negligence. Structural iron  
workers, carpenters and masons daily  
take chances that there is no reason  
for, chances that are the result of  
pure carelessness and as a rule the  
fault of the men themselves. The  
case of the scaffold falling the other  
day and precipitating two carpenters  
to the sidewalk at the corner of Wash-  
ington and Powell streets, illustrates  
the point. Men will go to work on  
a scaffold of their own construction  
where the supports are insufficiently  
held, maybe only by a small nail, or  
put up in a haphazard way with out  
any idea of the weight and strain the  
apparatus is expected to stand. The  
only wonder is that there are not  
more accidents than are recorded.

Contractors should see to it that the  
scaffolding on which their men are at  
work is properly constructed. How-  
ever much contributory negligence  
there may be on the part of the victim  
it is ninety-nine chances out of a hun-  
dred that if any one is injured the  
contractor or owner will be sued by  
the injured person or his survivors.  
The best way to prevent such accidents  
and law suits is for the person in  
charge to personally inspect all scaf-  
folding and false work which is sup-  
posed to be used by the workmen and  
then the probabilities of accident will  
be lowered to a minimum.

# Stucco An Artistic Building Material. Practical Instructions For Its Use.

By Albert M. Moyer.

Assoc. Amer. Soc. C. E.

The history of stuccoes does not furnish sufficient information and data to be of practical value in the manufacture of the present-day Portland cement stuccoes. There are records standing 350 years B. C. of stuccoes made of vastly different material than are of economical use at the present time, and we find that such stuccoes were almost invariably used in the warm climates where the action of frost would not tend to disintegrate the rather poor material which was then available.

There is every reason to believe that originally these stuccoes were intended to cover up and protect inferior building stone and sunburned straw brick. The archaeology of stucco would tend to show that from an artistic standpoint this method of decoration was a development of the wattled buildings, which were plastered with clay and different muds hardened by being baked in the sun. Therefore, in this instance, the use of clay plaster over wattled houses was to protect an inferior building material.

Today stucco is used for a similar purpose, that of protection and pleasing surfaces. It would, therefore, seem advisable to recommend a material which would best serve the purpose of protection and artistic merit. Stucco of plaster should never be used as an imitation of other building material.

"To cover brick with plaster, and this plaster with fresco is perfectly legitimate, the plaster is gesso grounds on panels or canvas, but to cover brick with cement and to divide this cement into joints that it may look like stone, is to tell a falsehood, and is just as contemptible a procedure as the other is noble."

To carry out these ideas we desire to recommend Portland cement stucco for exteriors, as this is the only hydraulic material which will stand the action of the elements.

From the artistic side we would also recommend such surface finish for stucco as will cause both natural color and pleasing texture. It would be well, therefore, to expose to view the aggregates used and avoid as far as possible exposing the bonding material, Portland cement.

There is no artistic reason for allowing only the bonding material to be displayed to the eye. On very large jobs the surface can be cleaned off by means of a sand blast, and on smaller jobs the surface may be cleaned, exposing each grain of sand, by means of muriatic acid in dilute solution, one part commercial muriatic acid, four to five parts clear water.

Where white aggregates are used the surface may be cleaned off with a solution of sulphuric acid, one part acid, four to five clear water. The sulphuric acid leaves a white deposit and therefore should not be used excepting where the aggregates are white.

Another method is to scrub the surface white yet green, say within twenty-four hours, with a house scrub-

bing brush and clear water. This is more difficult than the others, for the reason that if the stucco is allowed to remain too long before scrubbing, it will be too hard to remove the coat of neat cement from the outside of each particle of sand or other aggregates; and if scrubbed when it is too soft the surface may be damaged and difficult to repair.

If the character of the available aggregates will not present a pleasing surface when exposed, the following surface treatment may be used:

While the last coat is still thoroughly damp, apply a Portland cement paint composed of one part Portland cement, twelve per cent of the volume of the cement of well hydrated lime, pulverized form, and one part of the volume of the cement of fine white sand. Mix with water to the consistency of cream or the ordinary cold water paint. Stir constantly and apply by using a whisk broom, throwing the paint on with some force.

Keep the finish surface damp for at least six days, or longer if economy will permit. Do not allow it to dry out in any one place during the week. If necessary protect by hanging tarpaulins and using a fine spray of water, playing on several times during the day by means of a hose. This will give a pleasing light gray color of excellent texture.

Stucco may be applied to various building materials. There is hardly any reason at the present time for stuccoing stone buildings, the procedure at best is difficult and hardly to be recommended. Our building stone is usually an excellent material and therefore does not require either protection or covering to produce pleasing effects.

New brick may be covered with stucco very successfully. The joints should be first raked out half an inch. The brick must be saturated with water. It is always best to start stuccoing at the top of the wall and work down between the pilasters or corners, finishing a whole strip or whole side wall from top to bottom in one day. Thus no streaks or cracks are formed where one day's work ends and another begins. By this method the wall can be kept wet ahead of the work by means of a hose.

The second coat should be put on as soon as the first coat has stiffened sufficiently to hold in place and stand the pressure of the trowel. This second coat should be well scratched and the finish coat applied while the second coat is damp. The finish coat should then be kept wet, protected from the rays of the sun and as far as possible from drying out. This can be done by hanging wet clothes over the same. This rule of keeping each coat moist until the other coat is applied and protecting after applying the finish coat, must be observed in all forms of Portland cement stucco.

If the stucco is to be applied to metal lath or wire cloth the metal should be plastered on two sides, so that it is

entirely encased in mortar in order to avoid rusting. If this is impracticable then the metal lath or wire cloth should be dipped in a paint made of equal parts of near Portland cement and water. Immediately after dipping the metal lath or wire cloth should be tacked onto a frame in the position it is intended to occupy. As soon as the near Portland cement has hardened on the metal apply the first coat of stucco. Hair should be added to the mortar to be applied on wire mesh or expanded metal. One bag of cement should be used to one pound of hair.

If plaster boards are used they should be nailed on the frame work of the building, leaving at least a quarter of an inch joint between each plaster board. This joint to be filled with lime putty, otherwise each plaster board will cause square cracks on the outside of the stucco the size of each board.

A convenient method of waterproofing plaster boards is easily available. The boards may be painted with two coats of any of the reputable bitumen waterproof paints to which plaster adheres. Then about twenty-four hours after the bitumen paint has been applied, and within six days after the first coat of stucco.

For stucco on terra cotta blocks great care should be exercised in keeping the blocks thoroughly saturated with water, for if the blocks are not saturated they will pull the water out of the mortar and it will crack and disintegrate.

Portland cement requires water until it has thoroughly hardened, which ultimate hardening usually takes from fourteen days to a month. It is not always necessary to play the hose on the wall for a month although it would be advisable. The dews at night, the dampness in the atmosphere and the rain will furnish the necessary moisture, provided the material on which the mortar has been plastered has not too great an affinity for water.

In order to prevent the porous hollow terra cotta tile from sucking the moisture from the stucco and also to furnish waterproofing and an additional bond other than that which would be given by the key, it is good practice to paint the surface of the dry terra cotta blocks after having been erected in the wall with two coats of bituminous paint, equal to such paints as dehydratine, Minwax, R. I. W. or X-Hydro-Plastic. It is important that the first coat of stucco is placed over this paint after twenty-four hours and within six days.

Proportions for a good stucco should be one part Portland cement, 2½ parts coarse clean sand. (If coarse clean sand is not available use only two parts of sand.) Add ten to fifteen per cent of well hydrated lime dry pulverized, of the volume of the cement.

If it is the desire of the owner or architect to use the exposed aggregate method, interesting natural colors can be obtained by using the following materials instead of sand, the same

proportions: Green, red, buff, black or white marble screenings all passing a No. 8 screen and all collected on a No. 40 screen. These different colored marbles and different colored sands, where obtainable, can be used singly or in a combination. When exposed by scrubbing or the acid treatment, very interesting results are obtained.

In mixing stucco great care should be exercised to obtain the thorough incorporation of cement, sand and the other aggregates. The sand and cement should be mixed together dry until an even color results. This can be done by shoveling and raking while shoveling. Water should then be added, being careful not to add too much water at a time and not to get the resulting mortar too wet so that more sand or cement has to be added. Be very careful to bring the resulting mortar up to the proper consistency or plastering.

It is advisable to add to the mortar from ten to fifteen per cent of the volume of the cement of well hydrated lime. This should be mixed dry with the cement and sand before the water is added. The addition of the hydrated lime tends to fatten the mortar, making it more adhesive and impervious.

Another specification which we believe will prove of considerable value is by the addition of mineral oil to wet mortar. After the water is added and thoroughly mixed with the mortar add fifteen per cent of mineral oil and re-mix. If a light effect is to be produced use white oil, such as oil petrole, manufactured by the Chesebrough Manufacturing Co.

When the oil is to be mixed with the mortar it is always advisable to use hydrated lime, as we thus have a large amount of emulsifying material.

The color obtained by the scrubbing or acid method is limited only to the available sand or marble screenings. The color will be the color of the aggregate. An excellent green can be obtained by adding eight per cent of the weight of the cement of Chromium Oxide. This should be mixed dry with the sand, cement and hydrated lime.

Always keep in mind that the surface to which the mortar is to be applied must be thoroughly saturated with water, each coat of stucco must be kept moist for at least one week and longer if economy will permit.

Stucco should not be troweled to a smooth surface. The artist painter would never think of smoothing the paint on the canvas by means of a straight edge. Texture and color are necessary if artistic results are to follow. By using the suggestions above outlined, the architect is privileged to select the aggregates from which the stucco is made and has in fact as great play in the planning of the color, tone and texture as has the artist in mixing the paints on his palette.

#### BUILDING AT COLFAX.

COLFAX (Placer Co.), May 8.—Byron Whent is building a six-room bungalow in the corner of Culver and Oak streets. D. Falconer is building a three-room house on the heights. Geo. Richards is constructing two pretty cottages of three and four rooms each, on Culver street.

## Illustrations For The Week.

### THE NEW WILLOWS HOTEL.

Architect C. H. Russell, Humboldt Bank Building, San Francisco, has completed the plans and specifications for a new and modern hotel building, which is to be erected on the property of the Mueller Estate in Willows, Glenn County. The property which is about to be improved is one of the most important corners in the rapidly growing city, and as a location for a commercial hotel is unsurpassed.

The design of Architect Russell's shows a three-story and basement building of the brick type of construction, and especially well adapted to its surroundings. The ground floor will contain several stores, besides the main lobby, dining room and offices of the hotel. The guest chambers on the two upper floors are all large and airy, and many of them will have private baths in connection. There will be steam heat and hot and cold running water in each room, and the rooms will be handsomely finished.

The exterior of the building is to be faced with a red pressed brick, and trimmed with a lighter colored brick or stone. A pleasing feature of the design is a long recess balcony, which extends about half way along the main street elevation on a level with the second floor. The windows of the apartments on this floor have been placed on this balcony and command a splendid view of the street below.

A capable manager has been secured for the new hotel, and it will be conducted in the most up-to-date manner. The expenditure, not including the property value or furnishings of the hotel, will be in the neighborhood of \$50,000. The architect has completed the plans, and several Willows contractors will be asked to submit figures on the work at once.

### DR. KROTOSZYNER'S NEW OFFICE AND RESIDENCE.

Architect Herman Barth, 12 Geary street, San Francisco, has recently completed the plans and specifications for a handsome three-story, attic and basement brick residence and office, which is to be erected for Dr. Martin Krotoszyner on his property at the southeast corner of Sutter and Hyde streets in San Francisco.

The building will be three stories, basement and attic. It will be built with reinforced concrete walls, a steel frame and wooden joists and will be earthquake proof. The exterior of the building presents a refined and modern treatment of the Italian Renaissance. The material employed for the exterior will be soft-toned, buff Tapestry brick, having a rough texture, and terra cotta trimmings to blend in with the brick work. The first story is entirely devoted for the Doctor's office, treatment rooms, operating room, laboratories, waiting rooms, etc. The second and third stories and attic are arranged for the home of the family. In the arrangement of the building the most modern and up-to-date appointments have been provided. The cost of the building will be in the neighborhood of \$30,000.

### —APARTMENT HOUSES—

San Francisco—Apartment house, 6 story and base, brick and steel, \$85,000. Architect A. J. Barnett, 585 California St., S. F. Owner Mr. Zellerbach. The building will be erected on Sutter street and will cover nearly a full Fifty Vara lot. There will be about 160 rooms arranged in suites of 2 and 3 rooms each with private bath. There will be steam heat and elevator service. The exterior will be of pressed brick and terra cotta. The architect is preparing the plans.

San Francisco—Apartment house, 3 story and base, frame, \$20,000. Architect A. H. Knoll, 147 Noe St., S. F. Owner's name withheld. The building will contain 14 apartments with private baths. There will be steam heat. The interior trim is to be largely of hardwoods. The plans are being figured.

San Francisco—Apartment house, 8 story and base, Class A construction, \$1,000,000. Architect Creighton Withers, S. F. Owner H. L. Sly, 125 Sutter St., S. F. This big building enterprise has just been launched. The property on which the building is to be erected is situated at the southwest corner of Powell and California streets, and formerly belonged to the Stanford Estate. The sale by which it passed into the hands of Mr. Sly has just been made public. The apartment house to be erected will be the largest building of its kind west of Chicago, and will contain approximately 700 rooms, arranged in suites of from three to ten rooms each. It will be absolutely fire-proof. The exterior will be faced with sandstone. The plans for the work have been started. Mr. Sly is a well-known builder and real estate operator in this city, and will superintend the construction of the building and will purchase all materials.

Los Angeles, Cal.—Apartment house, 3 story and base, frame, \$20,000. Architect L. B. Pemberton, Auditorium Bldg., L. A. Owner Henry J. Kramer. The building will contain 32 apartments of 3 and 4 rooms each. There will be steam heat and wall beds included in the building. The plans are complete.

Los Angeles, Cal.—Apartment house, 2 story and base, frame. Cost not stated. Architect E. E. B. Meinardus, 821 Higgins Bldg., L. A. Owner H. D. Meyer. There will be wall beds used and other modern conveniences. The plans are in the hands of the owner, and he is taking figures on the work.

San Diego, Cal.—Apartment house, 3 story and base, frame, \$25,000. Architect Theo. C. Kistner, San Diego. Owner C. E. Lochboeler. The building is to be arranged for stores on the first floor and apartments above. The exterior will be of cement plaster on metal lath. There will be a steam heating plant installed. The plans will be ready for figures about May 15.

Los Angeles, Cal.—Apartment house, 2 story and base, frame, \$15,000. Architect Fred Biren, 609 Broadway Central Bldg., L. A. Owner Mrs. Della McLean. The building is designed in the Mission style, and the exterior will be of cement plaster. There will be 4 apartments of 3 rooms each. The architect is preparing the plans.

**Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.**

**San Francisco**—Apartment house, 3 story and base, frame, \$10,000. Architect none. Owner P. L. Roberts, 129A Lily Ave., S. F. There will be 35 apartments in the building. The exterior will be of cement plaster on metal lath and brick veneer. The plans are in the hands of the owner and he will do the work by Day Labor.

**Los Angeles, Cal.**—Apartment house, 2 story and base, brick, \$25,000. Architect C. C. Rittenhouse, 308 Wilcox Bldg., L. A. Owner R. J. Smith. The building will be 55x55, and will be arranged for three stores on the first floor and four apartments above. The exterior will be of blue brick. The same architect is also preparing plans for Mr. Smith for another similar building, which is to be of frame construction, and will be located near the first mentioned structure.

### —BANKS—

**Eureka, Humboldt Co., Cal.**—Bank, 2 story and base, steel and stone, \$25,000. Architects Jules Godart & Son, 628 Montgomery St., S. F. Owners Bank of Eureka. The main floor will be devoted entirely to the use of the bank, and the upper floor will be occupied by offices. There will be a steam heating system. The architects are preparing the plans.

**Concord, Contra Costa Co., Cal.**—Bank and offices, 2 story and base, brick, \$30,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners Foskett & Elsworthy, Concord. Contractors Hoyt Bros., Monadnock Bldg., S. F. The contractors are taking sub-figures on the bank fixtures and other parts of the work.

### Contracts Awarded.

**Colusa, Colusa Co., Cal.**—Bank, 2 story and base, brick, \$20,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners Farmers and Merchants Bank of Colusa. Contractor W. C. Blean, Colusa. Contract price \$19,950.

### —BRIDGES—

**Redwood City, San Mateo Co., Cal.**—Bridges and culverts, concrete and steel. Cost not stated. Engineer County Surveyor Neuman, Redwood City. Owner San Mateo County. Mr. Neuman has completed plans for three new bridges and several concrete culverts which are to be erected at once in the county. Bids are being called for by the Clerk of the Board of Supervisors, and will be opened on May 15th. Plans and specifications on file at the Court House, Redwood City.

**Berkeley, Alameda Co., Cal.**—Bridge, concrete. Cost not stated. Architects Bakewell and Brown, 117 Montgomery St., S. F. Owner's name withheld. The architects have plans out for figures for a small concrete arch bridge, which is to be erected by a private estate company.

**Los Angeles, Cal.**—Dredging. Cost not stated. Engineers Dessery and West, 1117 Union Trust Bldg., L. A. Owners Consolidated Lumber Co., San Pedro. The work is to be done in the company's harbor in San Pedro Bay. The amount of work to be done is as follows: Dredging, 200,000 cubic yards to a depth of 18 feet, and 300,000 cubic yards to a depth of 20 feet. Bids are to be in May 10th.

**Seattle, Wash.**—Docks and Sea Wall. Cost not stated. Engineer Virgil Bogue, Seattle. Owners City of Seattle. The engineer has submitted plans for several new docks which are to be located as follows: One at Rainier Beach, one at Renton, one at Madison Park and one at West Seattle. The matter of providing funds for this work will be put in the hands of the Commercial Club.

**San Pedro Harbor, Cal.**—Dry Dock. \$400,000. Engineer's name not given. Owners represented by J. C. Wickham, of the Pacific Wharf and Storage Co., L. A. It is reported that negotiations for the right to construct this work have been completed, and that the engineer is now busy on the plans.

**Seattle, Wash.**—Docks and warehouses, concrete construction. Cost not stated. Engineering Dept. Alaska Steamship Co., Seattle. Owners Alaska Steamship Co., Seattle. The Company has purchased seven water lots, and have announced that they have plans under way for the erection of several large warehouses, a large concrete dock and a coal bunker.

### Contracts Awarded.

**Pendleton, Ore.**—Bridge, steel and concrete, \$35,000. Engineer's name not given. Owners City of Pendleton. Contractors Coast Bridge Co., Portland. Contract price \$35,000.

**Los Angeles, Cal.**—Bridges, 3 pile trestle, \$3,100. Engineer City Engineer of Los Angeles. Owners City of Los Angeles. Contractors Mercereau Bridge and Construction Co., Pacific Electric Bldg., L. A. Contract price, 2 bridges, \$2,550. One bridge \$650.

### —CHURCHES—

**Vancouver, Wash.**—Church, brick and steel construction. Cost not stated. Architects Tobey and Wayne, Portland, Ore. Owners First Presbyterian Church of Vancouver. The structure will be 67x100, and will include all the latest features of church construction. The seating capacity will be about 1,000. The architects are preparing the plans.

**Albany, Ore.**—Church, stone and steel construction. Cost not stated. Architects Tobey and Wayne, Portland, Ore. Owners Presbyterian Church of Albany. The structure will be 80x80, and will have a seating capacity of 1,000 people. There will be steam heat and all other modern conveniences. The plans are being prepared.

**Sumner, Wash.**—Church, 1 story frame, \$7,000. Architects Dugan and Lewis, Savage-Scofield Bldg., Tacoma. Owners Presbyterian Church of Sumner. The architects have started the working drawings and bids will be taken shortly.

**Pomona, Los Angeles Co., Cal.**—Church, 1 story and base, frame, \$4,000. Architect C. E. Wolfe, Pomona. Owners Church of Our Lady of Guadalupe (Catholic) The architect has the working drawings nearly completed and the plans will be figured at once.

**Anaheim, Orange Co., Cal.**—Church, 1 story and base, frame, \$13,000. Architect Charles E. Shattuck, 318 Mason Bldg., L. A. Owners Christian Scientists Church of Anaheim. The church will have a seating capacity of 200. The plans are being prepared.

### Contracts Awarded.

**Portland, Ore.**—Church, 1 story and base, stone, \$40,000. Architects Tobey and Wayne, Portland. Owners First German Evangelical Reform Church. Contractor J. M. Wallace contract for stone work, L. Mills carpentry work. Both contractors are of Portland. There will be a number of art glass windows the contract for which has not been awarded.

### —FACTORIES & WAREHOUSES

**San Francisco**—Warehouse, 4 story and base, steel and reinforced concrete, \$150,000. Architects Frye and Osborn, French Bank Bldg., S. F. Owners Lally Plumbing Co. This work has been mentioned when the architects first started the plans for the building, bids for the big structure are now being taken, both as a general contract and as all work segregated. The completed building will be one of the largest warehouses on the coast.

**Berkeley, Alameda Co., Cal.**—Addition to factory, concrete and frame, \$3,000. Architect none. Owners California Corrugated Culvert Co., Berkeley. The addition to the present building will rest on concrete foundations and will have concrete floors. The exterior will be of corrugated iron. The work is to be done by Day Labor.

**Bellingham, Wash.**—Cement factory, group of concrete buildings, \$1,000,000. Engineers S. L. Smith and Co., New York. Owners Balfour-Guthrie Co., San Francisco and Seattle. Engineers representing the New York firm are now on the ground and state that the project will be started at once. The work includes the construction of docks, factory building, several warehouses and a general administration building.

### —FIRE HOUSES.

**Portland, Ore.**—Fire house, 2 story and base, brick, \$16,000. Architects Tobey and Wayne, Portland. Owners City of Portland. The building will be 50x80, and will accommodate two fire companies. The exterior will be of pressed brick. The architects are preparing the plans.

**Ocean Park, Los Angeles Co., Cal.**—Fire truck auto mo. Cost not stated. Owners Town of Ocean Park. Bids

will be received on May 15th for furnishing the town with one automobile fire truck to carry 1,000 feet of hose. Bids should be addressed to G. G. Watt, City Clerk.

### Contracts Awarded.

**Los Angeles, Cal.**—Fire house, 2 story and base, brick, \$15,000. Architect J. J. Backus, Chief Fire Inspector, L. A. Owners City of Los Angeles. Contractors J. D. Kneen Construction Co., Santa Monica, general contract, \$12,592; Central Electric Co., Exchange Bldg., L. A., Electric work, \$822; H. J. Crawford, 550 Center Place, L. A., \$1,075.

### FLATS.

**San Francisco**—Flats, 2 story and base, frame, \$4,500. Architect none. Owner H. P. Otton, 236 6th Ave., S. F. The building will contain 2 flats of 5 and 6 rooms each. The exterior will be of shiplap and the interior trim of pine. The plans are in the hands of the owner and the work is to be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$5,000. Architect C. O. Clausen, Phelan Bldg., S. F. Owner Francis Friedman, 3468 17th St., S. F. The architect has placed the plans in the hands of the owner who is taking figures on the work. The building will contain 3 flats.

**San Francisco**—Flats, 3 story and base, frame, \$9,000. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner A. Lynch. The building will contain 6 flats. The exterior will be of brick veneer and rustic. The plans are nearly complete and figures will be taken shortly.

**Seattle, Wash.**—Flats, 3 story and base, frame, \$14,000. Architect Ellsworth Story, New York Bldg., Seattle. Owner's name withheld. The building will contain five flats of 5 and 6 rooms each. The bids are being taken.

**Portland, Ore.**—Flats, 2 story and base, frame, \$7,000. Architects Tobey and Wayne, Portland. Owner George King. The building will contain four flats of 6 rooms each. There will be a warm air heating system and wall beds. Bids are now being taken.

### GARAGES.

**San Francisco**—Garage, 1 story and base, brick and steel, \$15,000. Architect Ed. T. Foulkes, Crocker Bldg., S. F. Owner S. I. Moore. There will be a concrete floor in the building, which is to cover a lot 50x110. The exterior will be of cement plaster on brick. The architect is completing the plans, and will take figures shortly.

**San Francisco**—Garage, 1 story and base, brick, \$4,500. Architect George A. Dodge, Foxcroft Bldg., S. F. Owner California Street R. R. Co. The exterior of the building will be faced with Sacramento stock brick. There will be a concrete floor. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Garage, 1 story, frame, \$4,000. Architect Geo. F. King, Shattuck Hotel Bldg., Berkeley. Owners Morrill & Collegman. The exterior of the building will be of cor-

rugated iron. The plans are complete and are being figured.

### HOTELS.

**San Francisco**—Hotel, 4 story and base, reinforced concrete, \$50,000. Architects Skidmore and Bolles, Foxcroft Bldg., S. F. Owner's name withheld. The building will contain between 150 and 160 rooms, about 25 per cent of which will have private baths. The first floor will be devoted to a lobby and stores. The plans are complete and are out for figures.

**San Francisco**—Hotel, 6 story and base, steel and brick, \$60,000 or more. Architects Paff and Baur, Merchants' Exchange Bldg., S. F. Owner's name withheld. The building will have a steel frame, but will be of the Class C type in other points of construction. The exterior will be of pressed brick and terra cotta. The interior will be arranged for about 200 rooms all of which will have private baths attached. The architects are taking figures on the work.

**Oakland, Cal.**—Hotel, 4 story and base, reinforced concrete, \$60,000. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owner R. A. Derge. The interior of this building will be handsomely arranged, and nearly all rooms will be connected with a private bath. There will be steam heat and elevator service. The exterior will be of cement plaster. The plans are complete and the work is being figured.

**San Francisco**—Hotel 6 story and base. Class A construction, \$200,000. Architects William Curlett and Son, Phelan Bldg., S. F. Owners Terminal Hotel Co. This building will contain about 250 guests rooms on the upper floors and stores on the first floor. The contract for the steel work has been awarded to the Dyer Bros and figures on the balance of the work will be taken this week. The mechanical equipment will be complete in all details and the interior will be handsomely finished.

**Los Angeles, Cal.**—Hotel addition, 3 story and base, frame, \$13,000. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owners Hershey-Arms Hotel. The addition will be plastered on the exterior and will contain 6 suites of rooms with private baths. The plans are being prepared.

**San Diego, Cal.**—Hotel, 3 story and base, brick, \$60,000. Architect A. Herick Stiboly, 713 Grant Bldg., L. A. Owner O. A. Thompson. The building is to be designed in the Mission style, with the exterior faced with plaster. There will be 60 rooms and 21 baths. There will be steam heat and elevator service. The architect is preparing the plans.

**Seattle, Wash.**—Hotel alterations, \$30,000. Architect James H. Schack, 64 Downs Bldg., Seattle. Owners C. D. and T. D. Stimson. The interior of the present four-story brick building will be torn out and rearranged. There are 25 baths to be installed. The plans will be complete within one week and bids will be taken at once.

**Seattle, Wash.**—Hotel, 2 story and base, brick or reinforced concrete, \$10,000 to \$17,000. Architects Josenhans and Allen, Hinckley Bldg., Seattle.

Owner's name withheld. The owner is undecided as to whether brick or concrete construction will be used. The plans will be complete May 5th and figures taken at once.

**Portland, Ore.**—Hotel, 5 story and base, reinforced concrete, \$60,000. Architects Williams and Rasmussen, Lumber Exchange Bldg., Portland. Owners Sinnott and Swett. The first floor will be arranged for five stores, and the upper four floors will contain 18 rooms each with private baths. The architects are now taking figures on the work.

**Portland, Ore.**—Hotel, 3 story and base, brick, \$50,000. Architects Roberts and Roberts, Portland. Owner W. J. Patton. The building will be 75x100, and the upper floors will contain 65 rooms and baths. The architects are now taking figures on the work.

### Contracts Awarded.

**Bakersfield, Kern Co., Cal.**—Hotel, 4 story and base, brick. Architect Thomas B. Weiseman, Bakersfield. Owner M. T. Kean. Contractors B rnett and Morrow, Bakersfield. Contract price \$50,000.

**Portland, Ore.**—Hotel, 4 story and base, brick, \$50,000. Architects Bennes and Hendericks, Portland. Owner Mrs. W. Mayer. The building will be 57x100, and will be arranged for stores on the first floor and hotel rooms on the floors above. Contractors J. S. Winters Co., Portland.

### HALLS & SOCIETY BLDGS.

**San Francisco**—Masonic Temple, 4 story and base. Class A construction, \$306,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Grand Masonic Lodge. This work has been mentioned here twice before. The plans have been slightly revised and are now being figured by four contracting firms in San Francisco. The funds to complete the handsome structure as originally planned have been secured and the work will be started at once.

**Oakland, Cal.**—Additions to Young Men's Christian Association, 4 story and base. Class A, \$100,000. Architect W. C. Hayes, Foxcroft Bldg., S. F. Owners Oakland Y. M. C. A. The original building has but recently been completed, but the rapid increase in membership has made the addition necessary. The plans are nearly complete and will be out for figures this week.

**Los Angeles, Cal.**—Association building, 4 story and base. Class A construction, \$150,000. Architect A. B. Benton, 114 North Spring St., L. A. Owners Young Women's Christian Association. The building is a gift of Senator William Clark. The architect has just received the commission to prepare the drawings, and details of construction cannot be given at this time.

**Pasadena, Los Angeles Co., Cal.**—Country Club, 2 story and base, reinforced concrete, \$25,000. Architect J. J. Blick, Dodsworth Bldg Pasadena. Owners Altadena Country Club. The architect has just started the preliminary drawings, and details of the construction of the building cannot be given at this time.

**Los Angeles, Cal.**—Club, 2 story and base, brick, \$25,000. Architects Parkin-

son and Bergstrom, Security Bldg., L. A. Owners Los Angeles Chapter of the American Institute of Bankers. The architects are revising the plans for this work, which were out for figures sometime ago. The new plans will be completed shortly and new figures will be taken.

**Ellensburg, Wash.**—Association Bldg., 3 story and base, brick, \$50,000. Architect Fay R. Spanler, Ellensburg. Owner Ellensburg Young Men's Christian Association. The plans for this building have been completed and accepted by the association, and will be ready for figures within a short time.

**Eugene, Ore.**—Club, 4 story and base, brick and steel, \$60,000. Architect E. E. McClaran, Portland. Owners Eugene Elk's Hall Association. The architect has awarded the contract for the foundation work of this building, and will be ready for figures on the balance of the work by May 10th.

### —HOSPITALS—

**San Francisco**—Hospital, 2 story and base, reinforced concrete, \$35,000. Architect Construction Q. M. Dept. U. S. A. Lt. Col. George McK. Williamson, officer in charge, Fort Mason, S. F. Owners U. S. Government. The building will be erected as a part of the General Hospital at the Presidio of San Francisco. The plans for the work are complete and bids are being called, which will be opened on May 25th.

**San Jose, Santa Clara Co., Cal.**—Hospital, 2 story and base, frame, \$20,000. Architects William Klinkert and Son, Ryland Bldg., San Jose. Owner's name withheld. This building was mentioned in these columns when the architects were preparing the plans. The drawings are now complete and figures are being taken. The contract will be awarded this week.

**Woodland, Yolo Co., Cal.**—Sanitarium, 2 story and base, frame, \$20,000. Architect L. M. Turton, Napa, Cal. Owner Dr. Fred R. Fairchild, Woodland, Cal. The plans for this building which will accommodate some twenty odd patients are complete and figures are being taken. The plans may be seen at either the offices of the architect or the owner. The contract will be awarded at once.

**San Francisco**—Hospital buildings, group of Class A buildings, \$400,000. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owner St. Luke's Hospital. This work has been mentioned here before, when the statement was made, but not authenticated that Mr. Hobart had been selected to design the work. This report has now been verified. The preliminary plans show accommodations for about 160 patients and 60 nurses. The exterior of the buildings will be of pressed brick and terra cotta. The mechanical equipment will include the most improved machinery. The architect states that the plans will be complete about July 1st.

### —LIBRARIES—

**Modesto, Stanislaus Co., Cal.**—Library, 1 story and base, reinforced concrete, \$15,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owners City of Modesto. The plans for this building have just been accepted, and the work-

ing drawings will not be completed for about 30 days. The structure is designed in the classic style. There will be a plenum heating system. Metal furniture will be used in the building.

**Mill Valley, Marin Co., Cal.**—Add. work to library. Cost not stated. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner Town of Mill Valley. Bids will be opened on May 16th for the construction of a concrete wall and steps around the library building. Plans can be seen at the architect's offices or at the office of the Town Clerk.

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Spokane, Wash.**—Terminal facilities, \$1,000,000. Engineering Dept. Northern Pacific R. R. Co., St. Paul. Owners Northern Pacific R. R. Co. No less an authority than the road's president, Howard Elliott, has stated that this work will start at once, and he is now in Spokane with this in view. The work consists of moving the shops and roundhouse some three-quarters of a mile, and the construction of a sixty-stall reinforced concrete roundhouse, besides the construction of several other buildings and much additional track.

**Toppenish, Wash.**—Passenger depot, 1 story and base, brick, \$30,000. Architectural Dept., N. P. Co. Owners Northern Pacific R. R. Contractors Rounds-Hurson Co., 219 Globe Block, Portland. Contract price \$30,000.

### Contracts Awarded.

**Portland, Ore.**—Freight depot, 2 story and base, reinforced concrete, \$75,000. Architects not given. Owners O. and W. Co., Portland. Contractor W. N. Concannon, Monadnock Bldg., S. F. represented by G. W. Boscki, 22nd and Thompson Sts., Portland. Contract price \$30,000.

### RESIDENCES.

**San Francisco**—Residence, 2 story and base, frame, \$3,000. Architect H. P. Maas, 3939 17th St., S. F. Owner A. Duffee, 685 Dolores St., S. F. The dwelling will contain 8 rooms and bath. The exterior will be of brick veneer and rustic. There will be a warm air furnace. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Residence, 3 story and base, frame and brick, \$40,000. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner I. Strausberger. The building will be in the form of a duplex house, and has been mentioned here when the architect was preparing the plans. The work is now out for figures and the contract will be awarded at once.

**San Francisco**—Residence, 2 story and base, frame, \$9,000. Architect none. Owners Chandler and Bourn, 249 Russ Bldg., S. F. The dwelling will contain 10 rooms and baths. The exterior will be of metal lath and plaster. The work is to be done by Day Labor.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$6,000. Architect C. S. McNalley, Mechanics' Institute Bldg., S. F. Owner's name withheld. The

building will contain 9 rooms and 1 bath. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$9,000. Architect J. Cather Newsom, Monadnock Bldg., S. F. Owner's name withheld. The exterior will be covered with shingles. The interior trim will be of pine and hardwoods. The architect is now taking figures on the work.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story, attic and base, frame, \$7,500. Architect none. Owner Edwin T. Cooper, 20 Hillcrest Road, Berkeley. The dwelling will contain 8 rooms and baths. The exterior will be of cement plaster on metal lath. The owner is taking figures on the work.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$5,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Chas. F. Gardner. The exterior of the dwelling will be of cement plaster on metal lath. There will be a warm air heating system. The work is to be done by Day Labor.

**Pomona, Los Angeles Co., Cal.**—Residence, 1 story and base, frame, \$2,000. Architect C. E. Wolfe, Pomona, Cal. Owner F. C. Gaskill. The foundation of the building will be of cobble stone. There will be a sleeping porch and baths. The work is to be done by Day Labor.

**Hanford, Kings Co., Cal.**—Residence, 2 story and base, frame, \$3,000. Architects A. C. Swartz and Son, Fresno. Owner Joseph Boman. The plans for the dwelling are nearly complete and figures will be taken at once.

**Oakland, Cal.**—2 cottages, 1 story and base, frame, \$1,500 each. Architect W. L. Schmolle, Foxcroft Bldg., S. F. Owner R. Boucher. The cottages will be of five rooms each and bath. The exterior will be of shingles. The architect is taking figures.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$10,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Charles W. Fox. The dwelling will contain 12 rooms and 2 baths. The exterior will be of cement plaster on metal lath. The interior trim will be of pine and hardwood. The architect is preparing the plans.

**Berkeley Alameda Co., Cal.**—Residences, 2, 2 story and base, frame, \$3,000 each. Architect John H. Thomas First National Bank Bldg., Berkeley. Owner Edna S. Mayer. The dwellings will contain seven and eight rooms each with baths. The exteriors will be covered with cement plaster on metal lath. There will be warm air heating systems installed. The plans are complete and bids are being taken.

**Piedmont, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$5,000. Architect A. L. Mazurette, Bacon Block Oakland. Owner W. M. Gruener. The exterior of the dwelling will be shingles. There will be a warm air heating system and coal grates. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$5,000. Architect F. M. May, 2145 Center S.

Berkeley. Owner W. B. Pressly. The dwelling will contain 9 rooms and bath. The exterior will be of cement plaster on metal lath. The building will be heated by a warm air furnace. The plans are being figured.

**Oakland, Cal.**—Cottage, 1 story and base, frame, \$3,000. Architect Alex. C. Wieben, 1801 34th Ave., Oakland. Owner Mr. Westover. The exterior will be of brick veneer. There will be coal grates. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$7,000. Architect Alfred Henry Jacobs, French Bank Bldg., S. F. Owner Rose P. Ruben. The exterior of the building will be covered with cement plaster. There will be a warm air heating system. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$12,000. Architect C. O. Clausen, Phelan Bldg., S. F. Owner A. E. Suckling. The 2 dwelling will contain 12 rooms and 2 baths. The interior will be finished largely in hardwoods. There will be a heating plant installed. The architect will award the contract at once.

**Redwood City, San Mateo Co., Cal.**—Residence, 2 story and base, \$10,000. Architect Warren Skillings, Garden City Bank Bldg., San Jose. Owner's name withheld. The dwelling will be in the Spanish style, and the exterior will be of cement plaster on metal lath. The plans are being prepared.

**Portland, Ore.**—Residence, 1½ story and base, frame, \$7,000. Architect E. E. McClaren, Portland. Owner Wingate (Mayor of Dalles). The dwelling will contain 9 rooms and 2 baths. The plans will be complete and ready for figures by May 10th.

**Seattle, Wash.**—Residences, 25, 2 story and base, frame, \$50,000. Architect none. Owner S. L. Craven, 107 White Bldg., Seattle. The dwellings will be of 5 and 6 rooms each and all will have heating systems. The cost will range from \$2,000 to \$2,500 each. The work is to be done by Day Labor.

**Los Angeles, Cal.**—Residence, 2 story and base, frame \$8,000. Architect J. Galloway, 3078 West Pico St., L. A. Owner same. The dwelling will contain 14 rooms and baths. The exterior will be of cement plaster on metal lath. The work will be done by Day Labor, and the plans are now complete.

**Tropico, Los Angeles Co., Cal.**—Bungalow, 1½ story and base, frame. Cost not stated. Architect Chas. E. Shattuck, 318 Mason Bldg., L. A. Owner Mr. Kenny. The dwelling will contain 7 rooms and baths. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**Los Angeles, Cal.**—Residence, 2 story and base, frame, \$20,000. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owner W. I. Hollingsworth. The dwelling will contain 12 rooms and baths. The architect is now working out the details of the dwelling, and plans will not be complete for some time.

## SCHOOLS.

**San Francisco**—School, 3 story and base. Class A construction, \$100,000.

Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. This building will be known as the John Swett Grammar School. The plans for the work are complete and bids have been called by the Board of Public Works. Bids will be opened on May 17th. Separate bids are being taken for the general construction, the plumbing, heating and ventilating, electric work and vacuum cleaning system.

**San Francisco**—School heating and ventilating system. Cost not stated. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. Bids are being called for by the Board of Public Works for the heating and ventilating for the Lowell High School. Bids will be opened on May 17th.

**Haywards, Alameda Co., Cal.**—School, 1 and 2 story and base, brick and concrete, \$40,000. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Haywards School District. The architect's plans for this building have just been approved and working drawings have been started. There will be two buildings, one containing class rooms, and both will be used as an auditorium.

**Tacoma, Wash.**—School heating and ventilating system. Cost not stated. Architects Dept. of Indian Affairs, Washington, D. C. Owners U. S. Government. Plans for this work, for which bids are now being taken, may be seen at the office of the United States Indian Warehouse, 312 8th St., S. F.

**Modesto, Stanislaus Co., Cal.**—School, 2 story and base, brick or concrete. Cost not stated. Architect W. H. Weeks, 251 Kearny St., S. F. Owner City of Modesto. The architect has just received instructions to prepare the preliminary drawings for this building, and details of its construction cannot be given at this time.

**Cashmere, Wash.**—School addition, 1 story and base, stone, \$20,000. Architects Stephen and Stephen, New York Bldg., Seattle. Owners Cashmere School District. The addition will contain four rooms. The plans also call for remodeling the heating system of the main building. The plans will be ready for figures about May 12th.

**Porterville, Tulare Co., Cal.**—School, 2 story and base, concrete, \$35,000. Architect F. W. Griffin, Porterville. Owners Town of Porterville. This work has been mentioned here before when the architect was first selected. The plans have been figured and were found to exceed the cost allowed. Plans are now being revised and new figures will be called.

**Newhall, Los Angeles Co., Cal.**—School, 1 story and base, frame, \$8,000. Architect Julius W. Krause, 3035 Foster St., L. A. Owners Newhall School District. The plans have just been started for this building and bids will be called in about two weeks.

**Bell, Los Angeles Co., Cal.**—School, 1 story and base, frame and brick, \$13,000. Architect J. W. Lindstrom, Bell Station. Owners Bell School District. The building will contain 8 rooms, and the exterior will be faced with brick veneer. The plans are being prepared.

## SEWERS, STREET WORK AND WATER SYSTEMS

**La Grande, Ore.**—Sewers. Cost not stated. Engineer City Inspector of Streets, La Grande, Ore. Owner City of La Grande. The work includes the furnishing and laying of approximately 40,000 feet of 8-inch sewer. The bids are being taken and will be opened on May 10th.

**Pasadena, Los Angeles Co., Cal.**—Storm drain, concrete, \$85,000. Engineer Van Ornum, Pasadena. Owners City of Pasadena. The plans for this work are complete. The drain will have a cobble stone bottom and concrete sides. Bids will be called for shortly.

## STORE.

**San Francisco**—Store, 2 story and base, brick, \$20,000. Architect Thomas Smith, Lick Bldg., S. F. Owners Gough Furniture Co. This building has been mentioned here before when the architect was preparing the plans. Bids are now being taken for the work, and the contract will be awarded at once.

**San Francisco**—Stores and offices, 2 story and base. Class C construction, \$25,000. Architects William Curlett and Son, Phelan Bldg., S. F. Owner Mrs. L. M. Huddleston. The building will be faced with pressed brick and terra cotta. There will be several stores on the first floor and offices above. The plans are now being figured.

**Danville, Contra Costa Co., Cal.**—Stores, 1 story and base, brick, \$7,000. Architect Neil Harrison, Danville, Cal. Owner's name withheld. The building will be faced with pressed brick. The plans are complete and figures are being taken.

**Los Angeles, Cal.**—Stores and lofts, 7 story and base, reinforced concrete, \$80,000. Architects Edelman and Barnett, Blanchard Bldg., L. A. Owner Mrs. Max Isaacs. The building will provide for several stores on the first floor and lofts above. The mechanical equipment will be complete in all its details. The work will not be started before next September as certain leases do not expire before then.

**Oakland, Cal.**—Stores, 3 story and base, brick and steel, \$35,000. Architect Walter J. Mathews, 969 Broadway, Oakland. Owner's name withheld. The exterior of the building will be of pressed brick and terra cotta. The upper floors will be occupied by offices. There will be a steam heating plant installed. The architect is now preparing the plans.

**Haywards, Alameda Co., Cal.**—Stores, 2 story and base, brick. Cost not given. Architects Lane and Isbell, 1915 Linden St., Oakland. Owner's name withheld. The exterior of the building will be of cement plaster on brick. The plans are complete and figures have been called for, and the contract will be awarded at once.

## THEATRES.

**Spokane, Wash.**—Theatre, 2 story and base, reinforced concrete, \$100,000. Architects Ballard and Plannery, Kuhn Bldg., Spokane. Owners Bueno Tempo Amusement Co., 709 Paulsen Bldg.,

Spokane. The building will be in the form of a castle. The site has been secured and excavation has been started. The plans will be complete in a short time and figures will be taken.

**Portland, Ore.**—Theatre alterations, \$20,000. Architect E. W. Houghton, Seattle. Owner Majestic Theatre Co., Portland. The alterations consist of the remodeling of a store building for theatre purposes, and the plans are complete. Bids will be taken at once.

**Lodi, San Joaquin Co., Cal.**—Theatre, 1 story and base, reinforced concrete. Cost not given. Architects Deuel and Wright, Macdonough Bldg., Oakland. Ownr Mr. Lighthouse, Lodi. The building will be used for a motion picture house. The plans are being prepared.

### SEALED PROPOSAL.

#### CONSTRUCTING WALL AND STEPS. (Bids opened May 17.)

SEALED bids will be received by the Board of Trustee of the Town of Mill Valley, Cal., up to 8 o'clock p. m. of Tuesday, May 16th, 1911, for furnishing material and constructing a concrete wall and steps of the Public Library. Plans and specifications at the office of C. H. Russell, architect, Monadnock Bldg., S. F. The Board reserves the right to reject any or all bids. T. G. PARKER, Clerk of the Board of Trustees, Town of Mill Valley.

#### CONSTRUCTING CULVERTS AND ABUTMENTS.

(Bids opened May 15.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of the County of San Mateo, State of California, up to the hour of 10 o'clock a. m., on Monday, the 15th day of May, 1911, for constructing a culvert with concrete abutments, in the First Township, to take place of present wooden structure known as O'Reilly bridge, according to the general plans, working details and specifications therefor which have been prepared by the County Surveyor of said county and adopted by said Board of Supervisors, which said plans, drawings and specifications are now on file in the office of the Clerk of said Board in the court house in Redwood City, where the same may be inspected.

All bids must be addressed to the Clerk of said Board of Supervisors at Redwood City, and each bid must be accompanied by a certified check on some reliable bank in a sum equal to at least 10 per cent of the amount of said bid payable to the undersigned Clerk of said Board of Supervisors. JOS. H. NASH, County Clerk.

#### CONSTRUCTING ARCH BRIDGE. (Bids opened May 15.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of the County of San Mateo, State of California, up to the hour of 10 o'clock a. m., on Monday, the 15th day of May, 1911, for constructing a concrete arch bridge in the First Township over San Pedro creek according to the general plans, working details and specifications therefor heretofore prepared by the County Surveyor of said county, which said plans, drawings and specifications are now on file in the office of the Clerk of said Board in the court house in Redwood City, where the same may be inspected.

All bids must be addressed to the Clerk of said Board of Supervisors at Redwood City, and each bid must be accompanied by a certified check on some reliable bank in a sum equal to at least 10 per cent of the amount of said bid payable to the undersigned Clerk of said Board of Supervisors. JOS. H. NASH, County Clerk.

#### CONSTRUCTING CULVERTS.

(Bids opened May 15.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of the County of San Mateo, State of California, up to the hour of 10 o'clock a. m., on Monday, the 15th day of May, 1911, for constructing a concrete culvert in the First Township on Colma and San Pedro Road according to the general plans, working details and specifications therefor heretofore prepared by the County Surveyor of said county, which said plans, drawings and specifications are now on file in the office of the Clerk of said Board in the court house in Redwood City, where the same may be inspected.

All bids must be addressed to the Clerk of said Board of Supervisors at Redwood City, and each bid must be accompanied by a certified check on some reliable bank in a sum equal to at least 10 per cent of the amount of said bid payable to the undersigned Clerk of said Board of Supervisors. JOS. H. NASH, County Clerk.

#### CONSTRUCTING CONCRETE BRIDGE.

(Bids opened May 15.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of the County of San Mateo, State of California, up to the hour of 10 o'clock a. m., on Monday, the 15th day of May, 1911, for constructing a concrete arch bridge in the Fifth Township on San Gregario and Pescadero Road, near Tom Moore's ranch house, according to the general plans, working details and specifications therefor heretofore prepared by County Surveyor of said county, which said plans, drawings and specifications are now on file in the office of the Clerk of said Board in the court house in Redwood City, where the same may be inspected.

All bids must be addressed to the Clerk of said Board of Supervisors at Redwood City, and each bid must be accompanied by a certified check on some reliable bank in a sum equal to at least 10 per cent of the amount of said bid payable to the undersigned Clerk of said Board of Supervisors. JOS. H. NASH, County Clerk.

#### CONSTRUCTING BUILDING.

(Bids opened May 17.)

C.—Sealed proposals will be received at the office of the United States Reclamation Service, Los Angeles, Cal., until 2 o'clock p. m. May 15, 1911, for furnishing a steam power plant for Rio Grande project, New Mexico-Texas. For further particulars address United States Reclamation Service, 605 Federal Building, Los Angeles, Cal., or Washington, D. C. F. H. NEWELL, Director.

#### ELEVATOR AND PUMP.

(Bids opened —.)

**ELEVATOR AND PUMP**—Office of the Superintendent of Repairs, U. S. Public Buildings, Room 403, Post Office, San Francisco, Cal., —, 1911.—Sealed proposals will be received at this office until — o'clock p. m. on the — day of — 1911 and then opened, for change in freight elevators and furnishing a new pump at the U. S. appraisers' building at San Francisco, Cal., in accordance with specifications, copies of which may be obtained upon application. J. W. ROBERTS, Superintendent of Repairs.

## San Francisco.

**Apartment House**—6 story and base, brick and steel, \$85,000. San Francisco. Architect A. J. Barnett, 585 California St., S. F. Owner Mr. Zellerbach. The building will be erected on Sutter street and will cover nearly a full

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

Fifty Vara lot. There will be about 160 rooms arranged in suites of 2 and 3 rooms each with private bath. There will be steam heat and elevator service. The exterior will be of pressed brick and terra cotta. The architect is preparing the plans.

**Apartment House**—3 story and base, frame, \$20,000. San Francisco. Architect A. H. Knoll, 147 Noe St., S. F. Owner's name withheld. The building will contain 14 apartments with private baths. There will be steam heat. The interior trim is to be largely of hardwoods. The plans are being figured.

**Residence**—2 story and base, frame, \$3,000. San Francisco. Architect H. P. Maas, 3959 17th St., S. F. Owner A. Duffee, 685 Dolores St., S. F. The dwelling will contain 8 rooms and bath. The exterior will be of brick veneer and rustic. There will be a warm air furnace. The plans are in the hands of the owner and the work will be done by Day Labor.

**Residence**—3 story and base, frame and brick, \$40,000. San Francisco. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner I. Strausberger. The building will be in the form of a duplex house, and has been mentioned here when the architect was preparing the plans. The work is now out for figures and the contract will be awarded at once.

**Residence**—2 story and base, frame, \$9,000. San Francisco. Architect none. Owners Chandler and Bourn, 249 Russ Bldg., S. F. The dwelling will contain 10 rooms and baths. The exterior will be of metal lath and plaster. The work is to be done by Day Labor.

**Flats**—2 story and base, frame, \$4,500. San Francisco. Architect none. Owner H. P. Otton, 236 6th Ave., S. F. The building will contain 2 flats of 5 and 6 rooms each. The exterior will be of shiplap and the interior trim of pine. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$5,000. San Francisco. Architect C. O. Clausen, Phelan Bldg., S. F. Owner Francis Friedman, 3468 17th St., S. F. The architect has placed the plans in the hands of the owner who is taking figures on the work. The building will contain 3 flats.

**Flats**—3 story and base, frame, \$9,000. San Francisco. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner A. Lynch. The building will contain 6 flats. The exterior will be of brick veneer and rustic. The plans are nearly complete and figures will be taken shortly.

**Warehouse**—4 story and base, steel and reinforced concrete, \$150,000. San Francisco. Architects Frye and Osborn, French Bank Bldg., S. F. Owners Lally Plumbing Co. This work has been mentioned here when the architects first started the plans for the building. Bids for the big structure are now being taken both as a general contract and with all work segregated. The completed building will be one of the largest warehouses on the coast.

**School**—3 story and base. Class A

construction, \$100,000. San Francisco. Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. This building will be known as the John Swett Grammar School. The plans for the work are complete and bids have been called by the Board of Public Works. Bids will be opened on May 17th. Separate bids are being taken for the general construction, the plumbing, heating and ventilating, electric work and vacuum cleaning system.

**School Heating and Ventilating System**—Cost not stated. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. Bids are being called for by the Board of Public Works for the heating and ventilating for the Lowell High School. Bids will be opened on May 17th.

**Hotel**—4 story and base, reinforced concrete, \$50,000. San Francisco. Architects Skidmore and Bolles, Foxcroft Bldg., S. F. Owner's name withheld. The building will contain between 150 and 160 rooms, about 25 per cent of which will have private baths. The first floor will be devoted to a lobby and stores. The plans are complete and are out for figures.

**Hotel**—6 story and base, steel and brick, \$60,000 or more. San Francisco. Architects Paff and Baur, Merchants' Exchange Bldg., S. F. Owner's name withheld. The building will have a steel frame, but will be of the Class C type in other points of construction. The exterior will be of pressed brick and terra cotta. The interior will be arranged for about 200 rooms, all of which will have private baths attached. The architects are taking figures on the work.

**Garage**—1 story and base, brick and steel, \$15,000. San Francisco.—Architect Ed. T. Foulkes, Crocker Bldg., S. F. Owner S. I. Moore. There will be a concrete floor in the building, which is to cover a lot 50x110. The exterior will be of cement plaster on brick. The architect is completing the plans and will take figures shortly.

**Garage**—1 story and base, brick, \$4,500. San Francisco. Architect George A. Dodge, Foxcroft Bldg., S. F. Owner California Street R. R. Co. The exterior of the building will be faced with Sacramento stock brick. There will be a concrete floor. The work is to be done by Day Labor.

**School Heating and Ventilating System**—Cost not stated. Tacoma, Wash. Architects Dept. of Indian Affairs, Washington, D. C. Owners U. S. Government. Plans for this work, for which bids are now being taken, may be seen at the office of the United States Indian Warehouse, 312 8th St., S. F.

**Masonic Temple**—4 story and base. Class A construction, \$306,000. San Francisco. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Grand Masonic Lodge. This work has been mentioned here twice before. The plans have been slightly revised, and are now being figured by four contracting firms in San Francisco. The funds to complete the handsome structure as orig-

inally planned have been secured, and the work will be started at once.

**Hospital**—2 story and base, reinforced concrete, \$35,000. San Francisco. Architect Constructing Q. M. Dept. U. S. A. Lt. Col. George McK. Williamson, officer in charge, Fort Mason, S. F. Owners U. S. Government. The building will be erected as a part of the General Hospital at the Presidio of San Francisco. The plans for the work are complete and bids are being called, which will be opened on May 25th.

**Apartment House**—8 story and base, Class A construction. San Francisco. \$1,000,000. Architect Creighton Withers, S. F. Owner H. L. Sly, 125 Sutter St., S. F. This big building enterprise has just been launched. The property on which the building is to be erected is situated at the southwest corner of Powell and California streets, and formerly belonged to the Stanford Estate. The sale by which it passed into the hands of Mr. Sly has just been made public. The apartment house to be erected will be the largest building of its kind west of Chicago, and will contain approximately 700 rooms, arranged in suites of from three to ten rooms each. It will be absolutely fireproof. The exterior will be faced with sandstone. The plans for the work have been started. Mr. Sly is a well-known builder and real estate operator in this city, and will superintend the construction of the building and will purchase all materials.

**Apartment House**—3 story and base, frame, \$10,000. San Francisco. Architect none. Owner P. L. Roberts, 129 A Lily Ave., S. F. There will be 35 apartments in the building. The exterior will be of cement plaster on metal lath and brick veneer. The plans are in the hands of the owner and he will do the work by Day Labor.

**Hospital Buildings**—Group of Class A buildings, \$400,000. San Francisco. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owner St. Luke's Hospital. This work has been mentioned here before, when the statement was made, but not authenticated that Mr. Hobart had been selected to design the work. This report has now been verified. The preliminary plans show accommodations for about 160 patients and 60 nurses. The exterior of the buildings will be of pressed brick and terra cotta. The mechanical equipment will include the most improved machinery. The architect states that the plans will be complete about July 1st.

**Hotel**—6 story and base. Class A construction, \$200,000. San Francisco. Architects William Curlett and Son, Phelan Bldg., S. F. Owners Terminal Hotel Co. This building will contain about 250 guests rooms on the upper floors and stores on the first floor. The contract for the steel work has been awarded to the Dyer Bros., and figures on the balance of the work will be taken this week. The mechanical equipment will be complete in all details and the interior will be hand-somely finished.

**Store**—2 story and base, brick, \$20,000. San Francisco. Architect Thomas Smith Lick Bldg., S. F. Owners Gough Furniture Co. This building has been mentioned here before, when the architect was preparing the plans. Bids are now being taken for the work and the contract will be awarded at once.

**Stores and Offices**—2 story and base. Class C construction, \$25,000. San Francisco. Architects William Curlett and

Son, Phelan Bldg., S. F. Owner Mrs. L. M. Huddleston. The building will be faced with pressed brick and terra cotta. There will be several stores on the first floor and offices above. The plans are now being figured.

**Residence**—2 story and base, frame, \$5,000. Berkeley, Alameda Co., Cal. Architect F. M. May, 2145 Center St., Berkeley. Owner W. B. Pressly. The dwelling will contain 9 rooms and bath. The exterior will be of cement plaster on metal lath. The building will be heated by a warm air furnace. The plans are being figured.

**Cottage**—1 story and base, frame, \$3,000. Oakland, Cal. Architect Alex. C. Wieben, 1801 34th Ave., Oakland. Owner. Mr. Westover. The exterior will be of brick veneer. There will be coal grates. The plans are being figured.

**School**—1 and 2 story and base, brick and concrete, \$40,000. Haywards, Alameda Co., Cal. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Haywards School District. The architect's plans for this building have just been approved and working drawings have been started. There will be two buildings, one containing class rooms, and the other will be used as an auditorium.

**Hotel**—4 story and base, reinforced concrete, \$60,000. Oakland, Cal. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owner R. A. Derge. The interior of this building will be handsomely arranged, and nearly all rooms will be connected with a private bath. There will be steam heat and elevator service. The exterior will be of cement plaster. The plans are complete and the work is being figured.

**Residences**—2, 2 story and base, frame, \$3,500 each. Berkeley, Alameda Co., Cal. Architect John H. Thomas, First National Bank Bldg., Berkeley. Owner Edna S. Mayer. The dwellings will contain seven and eight rooms each with baths. The exteriors will be covered with cement plaster on metal lath. There will be warm air heating systems installed. The plans are complete and bids are being taken.

**Residence**—2 story and base, frame, \$5,000. Piedmont, Alameda Co., Cal. Architect A. L. Mazurette, Bacon Block, Oakland. Owner W. M. Greuner. The exterior of the dwelling will be of shingles. There will be a warm air heating system and coal grates. The plans are being figured.

**Garage**—1 story frame, \$4,000, Berkeley, Alameda Co., Cal. Architect George F. King, Shattuck Hotel Bldg., Berkeley. Owners Morrill & Colleman. The exterior of the building will be of corrugated iron. The plans are complete and are being figured.

**Additions to Young Men's Christian Association**—4 story and base. Class A, \$100,000. Oakland, Cal. Architect W. C. Hayes, Foxcroft Bldg., S. F. Owners Oakland Y. M. C. A. The original building has but recently been completed, but the rapid increase in membership has made the addition necessary. The plans are nearly complete and will be out for figures this week.

**Residence**—2 story and base, frame, \$7,000. Berkeley, Alameda Co., Cal. Architect Alfred Henry Jacobs, French Bank Bldg., S. F. Owner Rose P. Ruben. The exterior of the building will be covered with cement plaster on metal lath. There will be a warm air heating system. The plans are being figured.

**Residence**—2 story and base, frame, \$12,000. Berkeley, Alameda Co., Cal. Architect C. O. Clausen, Phelan Bldg., S. F. Owner A. E. Suckling. The dwelling will contain 12 rooms and 2 baths. The interior will be finished largely in hardwoods. There will be a heating plant installed. The architect will award the contract at once.

**Stores**—3 story and base, brick and steel, \$35,000. Oakland, Cal. Architect Walter J. Mathews, 969 Broadway, Oakland. Owner's name withheld. The exterior of the building will be of pressed brick and terra cotta. The upper floors will be occupied by offices.

There will be a steam heating plant installed. The architect is now preparing the plans.

**Stores**—2 story and base, brick. Cost not given. Haywards, Alameda Co., Cal. Architects Lane and Isbell, 1915 Linden St., Oakland. Owner's name withheld. The exterior of the building will be of cement plaster on brick. The plans are complete and figures have been called for, and the contract will be awarded at once.

**Building Contracts Awarded.  
Oakland.**

 \$20. Plans and specifications filed.

**Los Angeles and South-  
 ern California.**

**Residence**—1 story and base, frame,  
 \$2,000. Pomona, Los Angeles Co., Cal.  
 Architect C. E. Wolfe, Pomona, Cal.  
 Owner F. C. Gaskill. The foundation  
 of the building will be of cobble stone.  
 There will be a sleeping porch and  
 bath. The work is to be done by Day  
 Labor.

**Apartment House**—2 story and base,  
 brick, \$25,000. Los Angeles, Cal. Archi-  
 tect C. C. Rittenhouse, 308 Wilcox  
 Bldg., L. A. Owner R. J. Smith. The  
 building will be 55x55, and will be ar-  
 ranged for three stores on the first  
 floor and four apartments above. The  
 exterior will be of Blue brick. The  
 same architect is also preparing plans  
 for Mr. Smith for another similar  
 building, which is to be of frame con-  
 struction, and will be located near the  
 first mentioned structure.

**Apartment House**—3 story and base,  
 frame, \$25,000. San Diego, Cal. Archi-  
 tect Theo. C. Kistner, San Diego. Own-  
 er C. E. Lochboeler. The building is  
 to be arranged for stores on the first  
 floor and apartments above. The ex-  
 terior will be of cement plaster on  
 metal lath. There will be a steam  
 heating plant installed. The plans will  
 be ready for figures about May 15th.

**Apartment House**—2 story and base,  
 frame, \$15,000. Los Angeles, Cal. Archi-  
 tect Fred Biren, 609 Broadway Cen-  
 tral Bldg., L. A. Owner Mrs. Jella  
 McLean. The building is designed in  
 the Mission style, and the exterior will  
 be of cement plaster. There will be 4  
 apartments of 3 rooms each. The archi-  
 tect is preparing the plans.

**Apartment House**—3 story and base,  
 frame, \$20,000. Los Angeles, Cal. Archi-  
 tect L. B. Pemberton, Auditorium  
 Bldg., L. A. Owner Henry J. Kramer.  
 The building will contain 32 apartments  
 of 3 and 4 rooms each. There will be  
 steam heat and wall beds included in  
 the building. The plans are complete.

**Apartment House**—2 story and base,  
 frame. Cost not stated. Los Angeles,  
 Cal. Architect E. E. B. Meinardus, 821  
 Higgins Bldg., L. A. Owner H. D.  
 Meyer. There will be wall beds used  
 and other modern conveniences. The  
 plans are in the hands of the owner  
 and he is now taking figures on the  
 work.

**Dredging**—Cost not stated. Los An-  
 geles, Cal. Engineers Dessery and  
 West, 1117 Union Trust Bldg., L. A.  
 Owners Consolidated Lumber Co., SAN

Pedro. The work is to be done in the company's harbor in San Pedro Bay. The amount of work to be done is as follows: Dredging 200,000 cubic yards to a depth of 18 feet, and 300,000 cubic yards to a depth of 20 feet. Bids are to be in by May 10th.

**Dry Dock**—\$400,000. San Pedro Harbor, Cal. Engineer's name not given. Owners represented by J. C. Wickham, of the Pacific Wharf and Storage Co., L. A. It is reported that negotiations for the right to construct this work have been completed, and that the engineer is now busy on the plans.

**Church**—1 story and base, frame, \$4,000. Pomona, Los Angeles Co., Cal. Architect C. E. Wolfe, Pomona. Owners Church of Our Lady Guadalupe (Catholic). The architect has the working drawings nearly complete and the plans will be figured at once.

**Church**—1 story and base, frame, \$13,000. Anaheim, Orange Co., Cal. Architect Charles E. Shattuck, 318 Mason Bldg., L. A. Owners Christian Scientists of Anaheim. The church will have a seating capacity of 200. The plans are being prepared.

**Fire Truck Automobile**—Cost not stated. Ocean Park, Los Angeles Co., Cal. Owners Town of Ocean Park. Bids will be received on May 15th for furnishing the town with one automobile fire truck to carry 1,000 feet of hose. Bids should be addressed to G. G. Watt, City Clerk.

**Association Building**—1 story and base. Class A construction, \$150,000. Los Angeles Cal. Architect A. B. Benson, 114 North Spring St., L. A. Owners Young Women's Christian Association. The building is a gift of Senator William Clark. The architect has just received the commission to prepare the drawings, and details of construction cannot be given at this time.

**Country Club**—2 story and base, reinforced concrete, \$25,000. Pasadena, Los Angeles Co., Cal. Architect J. J. Lick, 414 Dodsworth Bldg., Pasadena. Owners Altadena Country Club. The architect has just started the preliminary drawings, and details of the construction of the building cannot be given at this time.

**Club**—3 story and base, brick, \$25,000. Los Angeles, Cal. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners Los Angeles Chapter of the American Institute of Bankers. The architects are revising the plans for this work which were out for figures sometime ago. The new plans will be completed shortly and new figures will be taken.

**Hotel Addition**—3 story and base, frame, \$13,000. Los Angeles, Cal. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owner Hershey-Arms Hotel. The addition will be plastered on the exterior and will contain six suites of rooms with private baths. The plans are being prepared.

**Hotel**—3 story and base, brick, \$60,000. San Diego, Cal. Architect A. Erick Stiboly, 713 Grant Bldg., L. A. Owner O. A. Thompson. The building is to be designed in the Mission style, with the exterior faced with plaster. There will be 60 rooms and 21 baths. There will be steam heat and elevator service. The architect is preparing the plans.

**Residence**—2 story, attic and base, brick, \$35,000. Los Angeles, Cal. Architects Edelman and Barnett, Blanchard Bldg., L. A. Owner Otto Sweet. The dwelling will contain 14 rooms exclusive of baths. The exterior will be of cement plaster. There will be a central heating system. The interior trim will be of hardwoods. The architects are taking figures on the work.

**Residence**—2 story and base, frame, \$8,000. Los Angeles, Cal. Architect J. Galloway, 3078 West Pico St., L. A. Owner same. The dwelling will contain 14 rooms and baths. The exterior will be of cement plaster on metal lath. The work will be done by Day Labor, and the plans are now complete.

**Bungalow**—1½ story and base, frame, Cost not stated. Tropic, Los Angeles Co., Cal. Architect Chas. E. Shattuck, 318 Mason Bldg., L. A. Owner Mr. Kenny. The dwelling will contain 7 rooms and baths. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**Residence**—2 story and base, frame, \$20,000. Los Angeles, Cal. Architect J. Martyn Haenke, 315 Central Bldg., L. A. Owner W. I. Hollingsworth. The dwelling will contain 12 rooms and baths. The architect is now working out the details of the dwelling, and plans will not be complete for some time.

**Stores and Lofts**—7 story and base, reinforced concrete, \$80,000. Los Angeles, Cal. Architect Edelman and Barnett, Blanchard Bldg., L. A. Owner Mrs. Max Isaacs. The building will provide for several stores on the first floor and lofts above. The mechanical equipment will be complete in all its details. The work will not be started before next September, as certain leases do not expire before then.

**School**—1 story and base, frame, \$8,000. Newhall, Los Angeles Co., Cal. Architect Julius W. Krause, 3035 Foster St., L. A. Owners Newhall School District. The plans have just been started for this building and bids will be called in about two weeks.

**School**—1 story and base, frame and brick, \$13,000. Bell, Los Angeles Co., Cal. Architect J. W. Lindstrom, Bell Station. Owners Bell School District. The building will contain 8 rooms, and the exterior will be faced with a brick veneer. The plans are being prepared.

**Storm Drain**—Concrete, \$85,000. Pasadena, Los Angeles Co., Cal. Engineer Van Ornum, Pasadena. Owners City of Pasadena. The plans for this work are complete. The drain will have a cobble stone bottom and concrete sides. Bids will be called for shortly.

## Contracts Awarded.

**Bridges**—3 pile trestle, \$3,100. Los Angeles, Cal. Engineer City Engineer of Los Angeles. Owners City of Los Angeles. Contractors Mercereau Bridge and Construction Co., Pacific Electric Bldg., L. A. Contract price, 2 bridges, \$2,350. One bridge, \$650.

**Fire House**—2 story and base, brick, \$15,000. Los Angeles, Cal. Architect J. J. Backus, Chief Fire Inspector L. A. Owners City of Los Angeles. Contractor J. D. Kneen Construction Co., Santa Monica, general construction, \$12,592, Central Electrical Co., Exchange Bldg., L. A. Electric Work, \$822, H. J. Crawford, 550 Center Place, L. A., \$1,075.

## Seattle and Washington.

**Docks and Sea Wall**—Cost not stated. Seattle, Wash. Engineer Virgil Bogue, Seattle. Owners City of Seattle. The engineer has submitted plans for several new docks, which are to be located as follows: One at Rainier Beach, one at Renton, one at Madison Park and one at West Seattle. The matter of providing funds for this work will be put in the hands of the Commercial Club.

**Church**—1 story frame, \$7,000. Sumner, Wash. Architects Dugan and Lewis, Savage-Scofield Bldg., Tacoma. Owners Presbyterian Church of Sumner. The architects have started the working drawings and bids will be taken shortly.

**Cement Factory**—Group of concrete buildings, \$1,000,000. Bellingham, Wash. Engineers S. L. Smith and Co., New York. Owners Balfour-Guthrie Co., San Francisco and Seattle. Engineers representing the New York firm are now on the ground, and state that the project will be started at once. The work includes the construction of docks, factory building, several warehouses and a general administration building.

**Flats**—3 story and base, frame, \$14,000. Seattle, Wash. Architect Ellsworth Story, New York Bldg., Seattle. Owner's name withheld. The building will contain five flats of 5 and 6 rooms each. The bids are being taken.

**Association Building**—3 story and base, brick, \$50,000. Ellensburg, Wash. Architect Fay R. Spanler, Ellensburg. Owner Ellensburg Young Men's Christian Association. The plans for this building have been completed and accepted by the association, and will be ready for figures within a short time.

**Docks and Warehouses**—Concrete construction. Cost not stated. Seattle, Wash. Engineering Dept. Alaska Steamship Co., Seattle. Owners Alaska Steamship Co., Seattle. The company has purchased seven water lots, and have announced that they have plans under way for the erection of several large warehouses, a large concrete dock and a coal bunker.

**Hotel Alterations**—\$30,000. Seattle, Wash. Architect James H. Schack, 64 Downs Bldg., Seattle. Owners C. D. and T. D. Stimson. The interior of the present four-story brick building will be torn out and rearranged. There are 25 baths to be installed. The plans will be complete within one week and bids will be taken at once.

**Hotel**—2 story and base, brick or reinforced concrete, \$10,000 to \$17,000. Architects Josenhans and Allen, Hinckley Bldg., Seattle. Owner's name withheld. The owner is undecided as to whether brick or concrete construction will be used. The plans will be complete May 8th and figures taken at once.

**Passenger Depot**—1 story and base, brick, \$30,000. Toppenish, Wash. Architectural Dept N. P. Co. Owners Northern Pacific R. R. Contractors Rounds-Hurson Co., 219 Globe Block, Portland. Contract price \$30,000.

**Terminal Facilities**—\$1,000,000. Spokane, Wash. Engineering Dept., Northern Pacific R. R. Co. St. Paul. Owners Northern Pacific R. R. Co. No less an authority than the road's president, Howard Elliott, has stated that this work will start at once, and he is now in Spokane with this in view. The

work consists of moving the shops and roundhouse some three-quarters of a mile, and the construction of a sixty-stall reinforced concrete roundhouse, besides the construction of several other buildings and much additional track.

**Residences**—25, 2 story and base, frame, \$50,000. Seattle, Wash. Architect none. Owner S. L. Craven, 107 White Bldg., Seattle. The dwellings will be of five and six rooms each, and all will have heating systems. The cost will range from \$2,000 to \$2,500 each. The work is to be done by Day Labor.

**Theatre**—2 story and base, reinforced concrete. \$100,000. Spokane, Wash. Architects Ballard and Plannery, Kuhn Bldg., Spokane. Owners Bueno Tempo Amusement Co., 709 Paulson Bldg., Spokane. The building will be in the form of a castle. The site has been secured and excavation has been started. The plans will be complete in a short time and figures will be taken.

**School Addition**—1 story, and base, stone, \$20,000. Cashmere, Wash. Architects Stephen and Stephen, New York Bldg., Seattle. Owners Cashmere School District. The addition will contain four rooms. The plans also call for remodeling the heating system in the main building. The plans will be ready for figures about May 12th.

## Portland and Oregon.

**Church**—Brick and steel construction. Cost not stated. Vancouver, Wash. Architects Tobey and Wayne, Portland, Ore. Owners First Presbyterian Church of Vancouver. The structure will be 67x100, and will include all the latest features of church construction. The seating capacity will be about 1,000. The architects are preparing the plans.

**Church**—Stone and steel construction. Cost not stated. Albany, Ore. Architects Tobey and Wayne, Portland, Ore. Owners Presbyterian Church of Albany. The structure will be 80x80, and will have a seating capacity of 1,000 people. There will be steam heat and all other modern conveniences. The plans are being prepared.

**Fire House**—2 story and base, brick, \$16,000. Portland, Ore. Architects Tobey and Wayne, Portland. Owners City of Portland. The building will be 50x80, and will accommodate two fire companies. The exterior will be of pressed brick. The architects are preparing the plans.

**Flats**—2 story and base, frame, \$10,000. Portland, Ore. Architects Tobey and Wayne, Portland. Owner George King. The building will contain four flats of 6 rooms each. There will be a warm air heating system and wall beds. Bids are now being taken.

**Club**—1 story and base, brick and steel, \$60,000. Eugene, Ore. Architect E. E. McClaren, Portland. Owners Eugene Elk's Hall Association. The architect has awarded the contract for the foundation work of this building, and will be ready for figures on the balance of the work by May 10th.

**Hotel**—5 story and base, reinforced concrete, \$60,000. Portland, Ore. Architects Williams and Rasmussen, Lumber Exchange Bldg., Seattle. Owners Sinnott and Swett. The first floor will be arranged for five stores, and the upper four floors will contain 18 rooms each with private baths. The architects are now taking figures on the work.

**Hotel**—3 story and base, brick, \$50,000. Portland, Ore. Architects Roberts and Roberts, Portland. Owner W. J. Patton. The building will be 75x100, and the upper floors will contain 65 rooms and baths. The architects are now taking figures on the work.

**Freight Depot**—2 story and base, reinforced concrete, \$75,000. Portland, Ore. Architects not given. Owners O. and W. Co., Portland. Contractor W. N. Concannon, Monadnock Bldg., S. F., represented by G. W. Boscki, 22nd and Thompson Sts., Portland. Contract price \$75,000.

**Residence**—1½ story and base, frame, Portland, Ore. Architect E. E. McClaren, Portland. Owner Wingate (Mayor of Dalles). The dwelling will contain 9 rooms and 2 baths. The plans will be complete and ready for figures by May 10th.

**Bungalow**—1 story and base, frame, \$3,500. Portland, Ore. Architect D. B. Flickinger. Portland. Owner C. L. Sheets. The dwelling will contain five rooms and bath. There will be a warm air heating system. The plans are ready for figures.

**Theatre Alterations**—\$20,000. Portland, Ore. Architect E. W. Houghton, Seattle. Owner Majestic Theatre Co., Portland. The alterations consist of the remodeling of a store building for theatre purposes, and the plans are complete. Bids will be taken at once.

**Sewers**—Cost not stated. La Grande, Ore. Engineer City Inspector of Streets, La Grande, Ore. Owner City of La Grande. The work includes the furnishing and laying of approximately 40,000 feet of 8-inch sewer. The bids are being taken and will be opened on May 10th.

## Contracts Awarded.

**Bridge**—Steel and concrete, \$35,000. Pendleton, Ore. Engineer's name not given. Owners City of Pendleton. Contractors Coast Bridge Co., Portland. Contract price \$35,000.

**Church**—1 story and base, stone, \$40,000. Portland, Ore. Architects Tobey and Wayne, Portland. Owners First German Evangelical Reform Church. Contractor J. M. Wallace contract for stone work; L. Mills carpentry work. Both contractors are of Portland. There will be a number of art glass windows, the contract for which has not been awarded.

## THE LICENSING OF ARCHITECTS.

### The Protest of an Oregon Man Against the Prevailing System.

There would seem to be no good reason—logical, practical or ethical—to require from any man the payment of a yearly license fee (not a tax in the ordinary sense of the word) for permission to practice any profession. None is imposed upon the lawyer, the doctor, dentist, nor is any such fee required in any of the trades. A mercantile tax, it is true, is exacted for the privilege of carrying on certain businesses, but the reason for such tax is obvious. It is only hucksters and the itinerant peddlers who come within the category of the annually licensed. Why architects should seek to get into this class can only be explained on the hypothesis given later.

Architectural license, with a vigilant building inspection department, is a negligible quantity. The number of plans coming to the office of the

Inspector that do not comply with the code, and are blue penciled for amendment, is surprisingly large, but the corrections are rigidly insisted upon before the permit issues and the possibility of a blunder is reduced to a minimum. Strict inspection of the building operation is enforced during the progress of the building, and any laches or neglect or failure to comply with the law is speedily checked, and the building can only be proceeded with when full compliance is made with the requirements of the building laws.

The incompetent man, whether architect or builder, is speedily discovered and forced out of business under such a system. He cannot go wrong, for he is not permitted to. If he does not know how to go right he is forced to quit. No license is given him.

Is not this better than exacting a paltry five or ten dollars from him, and then giving him a piece of paper, and dubbing the veriest duff a "certified architect?" In the proposed law provision is made to include everyone now in the state who has the affrontery to call himself an architect, as an acceptable object upon whom to bestow the title if he has five dollars to pay for it. It is only the new-comer who is to be submitted to an examination to prove his efficiency or proficiency.

What is the object of the proposed law? Does it not seem to savor of fear of the new-comer, a hostility, prejudice or jealousy of him, that seeks to keep him out? It would not elevate the "tone" of the profession one whit, or at the most not more than five dollars' worth per man.

The Illinois or California laws have not been productive of any marked improvements in the profession. Under the latter law the use of the word "architect" is prohibited to any man not duly certified and who has not a seal of his office denoting his high calling. Nevertheless, parties calling themselves "designers" actually do design and build more houses than the duly legalized and licensed architects. It has been of no benefit pecuniarily and of no advantage professionally to the practicing architect. It may have deterred some timorous individuals from submitting to an examination and setting up as architects, but in all probability they must become "designers."

Off hand, how many of our own men could with any certainty give the strength of any described girder, or a graphic demonstration of the fitness of any truss to support a specified weight? What do they know about windstresses, moments or gyration or factors of safety? Yet a man might know all about these things and much more, and still be a poor architect. He might be a graduate of L'Ecole des Beaux Arts, or of Massachusetts Tech. or hold a diploma of architecture from Yale, Pennsylvania or Harvard, and be incompetent as a designer. The public soon picks the able from the inefficient, and no certificate from the state can be more effective than public opinion. By a man's work shall ye know him. That comes near being Biblical even if it is not an exact quotation.

It is to be hoped that the profession of architects is not to be narrowed, nor yet stilled. It should be free from prejudice.

## Editorial Comment.

### BUILDERS SHOULD BE REPRESENTED.

One of the aphorisms of Daniel Webster, the American statesman who achieved prominence in public life because of his intellect, was that the "schoolhouses and colleges are the forts and arsenals of a free people." As a necessary corollary to this proposition is the statement that "representatives of the people should be intelligent and honest men."

In the coming municipal election the builders of San Francisco should see that there is some one on the board of supervisors who has some intimate knowledge of this most important branch of the city's industry, some capable and honest man who can be depended upon to see that legislative regulation in regard to building and its allied enterprises receives intelligent consideration as well as to see that the ticket is a representative one and that people are elected who will understand the duties of public service and treat every man alike.

The name of Mr. Joseph J. Phillips has been mentioned before the municipal conference as a candidate for supervisor. No better selection of a representative man could be made. He has been identified with the building business all his life. A young man whose integrity is unquestioned, he has held important positions among the associations of his calling for many years. He was President of the Bricklayers' Union 12 years ago; he has served eleven terms as secretary of the Masons and Builders Association and was its president for three terms. For the past three years he has been a director of the Builders' Exchange and was its secretary last year. Further than this he has represented the Masons and Builders and the various organizations with which he has been connected before the municipal bodies and is thus familiar with the machinery of government.

No question has come up before the builders of San Francisco that Mr. Phillips has not shown a vital interest in it; he has always had a keen and comprehensive grasp of the situation and has always been aligned on the right side. He is, therefore, eminently fitted to represent not only the builders but all classes of citizens as well, and there can be no question that anything affecting the city's welfare would receive intelligent and fair consideration from him.

At this time when the building industry of this city is so vitally interested there is great need of an honest, fairminded, and intelligent representative of the building industry, one who knows at first hand all the ins and outs

of the business, on the board of supervisors. No better man could be selected than Mr. Joseph J. Phillips. He is a representative man of high character, qualified by nature, training and experience for such a position and the builders and people generally could make no better choice.

As voicing the opinion of the British people with regard to the military power of Japan the London Outlook seems to think that the Japanese have all the best of it in the matter of being prepared and has this to say regarding the United States:

"The great Republic of the West with its vast population and its enormous wealth, is in a state of abject naval and military impotence before the armed might of Japan. Never before in the history of the world has there been a people, numbering 90,000,000 human beings, in the very forefront of civilization, so far as manufacturing and wealth-producing faculty is concerned, possessed of every advantage which science gives, and yet as incapable as were the inhabitants of Bengal in the eighteenth century of defending their own liberties and their own territory against attack."

However much this view may be overdrawn it is instructive as representing the British idea of our condition and it is also concurred in by many military experts of Europe as well as military men of our own country.

Since this country entered upon the mistaken policy of holding colonies in the far east there has ever been all kinds of chances for international complications. No man in his senses desires war, but the instruction of Washington in his farewell address, that in time of peace prepare for war, is as true today as when he uttered it.

There is a strong element of truth in our lack of preparedness for war. Disarmament is eminently desirable. But if some nations are weak and others strong the strong ones will undoubtedly find some way of gobbling the weak nation's territory.

The American army and navy need to be increased in strength and efficiency. Before it can be the people must be made to understand the dangers that may at any time confront them, especially here on the Pacific. The fact that the whole world is still barbarous and that the polish of civilization is only a thin veneer causes all nations to go armed to the teeth and ready to spring at each other's throats.

If one nation goes armed all the others must do so or they are liable to be caught unprepared and get robbed of half their possessions. As Josh Billings said:  
Thrice is he armed who hath his quarrel just,  
But four times he who gets his blow in fust.

## Some Phases of Modern Architectural Practice.

By Walter H. Kilham, Architect,  
Boston, Mass.

(Presented before the Congress of Technology at the fiftieth anniversary of the granting of the charter of the Massachusetts Institute of Technology.)

It is a difficult matter to suggest at this day any questions of architectural business importance which are not already clearly understood by the members of that enlightened profession. Questions of specifications, contracts and general business relations are pretty definitely settled in the minds of both architects and the general public and but little can be said that will add anything now to the general fund. It is sometimes profitable, though, to talk over familiar points that constantly arise in the daily office routine, perhaps gaining by discussion a new point of view or a better grasp of some of the less firmly established principles.

The direction of the complicated operations which form the daily duties of the modern architect requires, in addition to the regular professional knowledge and skill derived from early training or natural aptitude, a considerable amount of executive ability which must be employed both in placing before the builder in clear and definite form the directions necessary for the successful execution of the work and at the same time keeping the owner, the most vitally interested of all parties to the affair, fully informed as to the character of every part of the building which is under construction.

An architect's principal duties are threefold: He designs buildings and produces clear and intelligible working drawings and specifications; he secures tenders from contractors and arranges the letting of the contracts, and he secures proper execution of the work and certifies as to the amounts due to the contractor from time to time under the contract.

Proper fulfillment of these duties is impossible unless the architect has at his disposal a business machine or "system" so well adjusted and lubricated that its method of operation will never make itself evident either to the clients or contractors who do business with the office. This system must work so well that every drawing, sketch, letter or memoranda will always be producible at a moment's notice; nothing must ever be forgotten from a specification; no mistake occur in a certificate and no "extra" or "changed" work be done except on a special order countersigned by the owner prior to its execution. An ideal state of affairs, some may say. But it is a good one to strive for and the result is not impossible, barring the human element which at the best is liable to an occasional error.

To carry out the above state of affairs the filing system should be simple and efficient and free from all unnecessary complication. The stationery at the office, blanks, forms, etc., should be of uniform size, or at least

of sizes to fit the standard filing cases. Where to stop in the provision of printed forms and filing arrangements is often a problem. The story is told of an enterprising agent for an office furnishing house calling at an office where he had installed his complete line of labor-saving devices a month before. "How is the filing system working?" he inquired of the head of the firm. "Great," was the reply. "A complete success." "Fine," said the agent; "and how is business?" "Oh," said the merchant, "we aren't doing any. We have given up business to attend to the filing system."

The letter file for correspondence will also carry the specifications if, as is our own custom, the latter are typewritten on standard size letter sheets opening at the side like a book. A case of smaller drawers (4x6) will take the receipts for drawings, the card reference specifications, if such are used, and the address list. Drawings can be kept flat in drawers, and great convenience results from adopting standard sizes of sheets and making "full sizes" wherever possible on bond paper or "Alba" from which blue prints can be readily taken. The convenience of this system extends also to the contractor's shanty, where fewer valuable drawings would be lost behind piles of cement bags if it were easier to keep them in a neat pile.

While I am speaking of uniform sizes I wish that the concerns which put out advertising matter relating to the building trades could be induced to agree on standard filing sizes for their output. A vast quantity of costly advertising material, much of it containing information which the architect needs and knows is valuable, goes directly to the waste basket because it can not be kept in form for ready reference. An attempt has been made by the Chicago Architects' Business Association to bring about the above result, and a similar campaign is being considered by the publicity committee of the Boston Society of Architects, but it seems strange that the advertisers themselves, whose interests are of paramount importance, can not take up the matter. Incidentally one may well inquire as to how much expensive advertising adds to the "cost of living." A certain large manufacturer called up the other day asking to have his "Z" roofing used on a certain building. In the course of the conversation he said his "X" roofing was equally good, but cheaper. On being asked why it was cheaper, he claimed that they had spent so much money in advertising the "Z" brand that they had to get more money for it, and that the "X" brand, which had been but little advertised, was an equally reliable product.

Every floor plan should show the points of the compass and every column, pier, window, room space and electric outlet should be numbered on the plans according to a relative system; thus Column 42 on the second floor should be called Column 2-42; Room 23 on the sixth floor should be known as

Room 6123, and so on. It is far easier to refer in a letter to Pier 3-16 than to say "the second pier from the southwest corner on the third floor," and simplicity is of the essence of all building operations.

Possibly the greatest bugbear of owners and many architects in the past has been the bill of extras which used to follow every building operation. Verbal orders or instructions given by the owner to the architect and repeated by him to the builder and then forgotten or not confirmed, on the theory that "it wouldn't cost much," have caused the shipwreck of many a promising young career and brought what was in many cases deserved reproach upon the profession. The remedy is simple and absolutely effective. Have special order blanks printed and numbered in triplicate. Let each one have a blank space large enough to contain a clear definition of the work to be done and the agreed price, with a notice to the effect that the order shall not be considered valid until signed by all three parties—owner, contractor and architect—and make them all sign all three copies before issuing the order. This takes time, sometimes several days, but the architect should insist upon the signatures even if the work stops. Occasionally an inexperienced owner, who may often be a sharp business man in his own line, will protest against the architect who "can not take his word," but firmness on the architect's part will bring its reward at the final settlement of the contract. The three copies allow each party to retain one for his files. I have followed this system through a fairly active business career of thirteen years and have never had the slightest difficulty in settling any of the some 300 building operations conducted during that period, as every change, whether "extra" or "allowance," which went through the office, was fully vouched for in writing by all the parties interested. I believe it is well to have certain general clauses of the specification printed in fine type at the bottom of the order to assure the relation of the extra or changed work to the general contract. The above suggestion must seem unnecessary to most of the profession, but that it is not yet universally followed I have gathered from many recent Massachusetts court cases brought to my attention by a busy Boston lawyer.

One of the most constant cares of an architect is to assure himself that the owner, who apparently has more or less definite ideas as to the building that he is to pay for, understands clearly what result is to be brought about by the plans and specifications. The ability to read plans and understand technical wording is given to few outside of Tech graduates, and the difference between paints and stains, "Water struck" and "common" brick, "lift" and "heart rift" must ever remain a sealed book to the majority of the laity. Add to this the multi-

licity of misleading trade adjectives, such as "double thick" glass, which the unfortunate client will generally read and expect the thickest of French plate, or "standard" thickness of slate, which means the thinnest (why is "standard" or "first quality" always used to mean the poorest grade?), and the care which devolves upon the architect to properly inform his client becomes quite considerable. All this care must be taken, however, as part of the day's work and vigilance of this sort must never slacken.

Disappointment sometimes ensues, not through any particular fault of the work, but from faulty drafting of the specifications or contract requiring impossible performance from the contractor. For example, architects have for years been accustomed to insert at the beginning of their specifications a clause stating that no sub-contractors shall be employed except such as are approved by the architect. This clause, which is a necessary one to prevent portions of the work being let to irresponsible or disagreeable sub-contractors, should be followed by a clause stating that a list of the proposed sub-contractors shall be handed in with the bid which is stated to be based on such sub-proposals. If, then, it is desired to use a different sub-contractor, the difference between his bid and the one used as a basis of estimate should be added to the contract price then and there. The ideal way is really for all sub-bids to be sent to the architect, who selects the lowest received from reputable concerns and sends them to the contractors. This involves so much painstaking labor on the part of the architect that it is not likely to be generally adopted at the present rate of compensation.

Another objection to this clause is that the owner, in making the selection of the sub-contractors optional with the general contractor, escapes liability on the ground that he has not the selection or control of his servants and workmen, whose neglect may cause the loss. So, therefore, if the architect, an employee or possibly agent of the owner interferes in the selection or control of such servants, the owner may be held responsible for their acts and neglect.

General clauses are in many cases an unexpected disappointment. It is of little use to say "all the painter's work must be done in the best and most thorough manner known to the painting and finishing trade" when you only expect a three-coat job for a low-priced building, for to the owner the clause will mean that his North Carolina pine will come out looking like Circassian walnut. Neither should the contractor be required to guarantee a piece of work for which an elaborate specification has been written. Either let him do it his own way, if he is to guarantee it, or have him do the work your way, and it won't need any guaranty, if you are sure of your ground. The average contractor will sign anything anyone may put into his contract, but he is apt to think that in the last analysis, even if the contract makes the architect the sole arbiter of every detail, the courts can not be ousted and that he will be able to force a payment, even without a final certificate from the architect. It has, however, been repeatedly decided that architects are free to adopt, for purposes of their decision, such legal principles as they honestly believe are

applicable and to act on such evidence as they choose to receive. *Norcross vs. Wyman*, 187 Mass., 25.

The Supreme Court has also stated that "it is well established that where a building contract makes the architect an arbitrator between the parties, to determine practical questions of construction that arise under the plans and specifications in the execution of the work, his decision upon those matters is binding.

An interesting point is also made that a distinction exists between the judgment of an architectural firm, acting in a purely professional architectural capacity and their judgment acting as referees, it being called upon to act as referees in case of a difference between an owner and a contractor, they must give an independent inspection and judgment as to whether the work in question is performed according to specifications.

The building contract often provides for certificates by the architect at various stages that the work done is in accordance with specifications, which throws the responsibility on the architect for determining that fact. The attempt is sometimes made to avoid that responsibility by inserting a clause to the effect that said certificates shall in no way lessen the total and final responsibility of the contractor. Such a clause, however, does not authorize the architect to furnish a certificate that the work has been done in accordance with the specifications if in any particular he has reason to believe the contrary, for the courts have construed the above language to apply only to deficiencies afterward discovered. The architect, although given the authority to decide whether or not the contract has been performed and to give the final certificate or withhold it, must act in good faith in the matter. If the architect dies or wilfully and in bad faith refuses to give the final certificate, the contract will be treated by the court as if the clause requiring the final certificate were stricken out, and the builder will be allowed to recover the contract price; but if the architect, on the other hand, acting in good faith, refuses the certificate, even though in the opinion of the court under the particular circumstances he ought to have given it, his refusal is final and the contractor can not recover the contract price, but must be left to recover the value of materials and labor furnished. (*Herbert vs. Dewey*, 191 Mass., 403.)

The claim is sometimes put forward by architects that on account of some detail of minor importance having been overlooked by the contractor the final or completion certificate can not be issued. An interesting decision on this point is found in the case of *Handy vs. Bliss*, 187 Mass., 25, which stated that if the contractor has honestly attempted to carry out an honest intention to fully perform his contract, he can recover even if there are omissions which can not be supplied exactly as called for by the contract, except at great expense or risk, such as taking down the building to the foundations, provided such omissions affect the value of the building for use or otherwise so slightly as to be hardly appreciable.

The practice of specifying materials by their trade names is a dangerous one. If a contractor, for instance, supplied a cement of a specified brand

and the lot was found worthless, he might, through some loophole, try to evade liability. It is usual to specify, rather than the cement shall conform to the requirements of the American Society of Civil Engineers. It is worth noting, however, that some cements behave much better in frosty weather than others, and this ought to be taken into account in carrying on masonry work in the winter time.

So much for a few of the ordinary aspects of the regular verbiage of specifications. A much wider subject is the designing and specifying of the materials of which a building is constructed in such a way as to bring about the desired results with a minimum cost and in a minimum amount of time. Most buildings are wanted complete by the owners in an incredibly short time after completion of the plans, and every means should be taken by the architect to simplify the task of the contractor. Much time can be saved in the erection of a building if the different materials which constitute the structure are specified in such a way that none will be specified to be used in the early stages of the work which will cause delay on account of processes of manufacture. For example, ornamental terra cotta should not be specified for any part of the construction where it will be wanted within six weeks of the date of signing of the contract, for it is rarely that a shipment of this material ever arrives on the site in less than that time after the order for it is placed. In ordinary buildings, therefore, some more easily procurable material should always be used for the trimmings up to the first floor level.

Another point, somewhat less generally understood, is the reduction of operations involved in the construction of a building. Take, for example, the case of a public building. In many buildings of this sort it has been a common custom to use brickwork, steel frame and terra cotta block filling, galvanized iron and even reinforced concrete in construction of the walls, flues and partitions of one and the same building, each done by a different sub-foreman. In our experience we have found that in most cases the same gang of bricklayers under the same foreman has carried out the whole construction in brick at a saving which sometimes has amounted to one cent per cubic foot on the entire building. There is no loss of time between the departure of the one gang and the arrival of another and no waste of odd lots and unused material, and the building is a homogeneous whole.

Many public buildings of ordinary size, such as libraries, gymnasiums and schools, are contrived in an unnecessarily complicated manner on account of the prevalence of "hobbies" among the officials who control their erection. Probably more money is wasted in this manner than is ever expended for purposes of mere architectural adornment in buildings of this class. This form of extravagance can seldom be controlled by the architect, but he ought to remember that the so-called "conveniences" strenuously urged by one official will be as strenuously condemned by the next and he should try to preserve an open-minded view over the entire situation.

The above are a few suggestions for the smooth and pleasing conduct of an ordinary architect's business. It

only remains to be added that no human machine will operate for very long without attention, and no system, however perfected, will work successfully without constant oversight. An American sage has said that "The doors of opportunity are marked 'Push' and 'Pull.'" The successful architect has generally found, however, that to the above will have to be added the legends Progressiveness, Punctuality and Prudence, and then as many more as constantly suggest themselves. But no time spared from the harassing daily duties of a modern architect will yield better results than that spent in the perfecting of a system which shall help to keep the varied interests of builders and owners directed toward the quick and efficient securing of results which both are seeking.

## Illustrations For The Week.

### A MODERN APARTMENT HOUSE.

Plans have been completed for a modern apartment house, which is to be erected on the property of Julius F. Hetty, in the north line of Ellis street, 87 feet and 6 inches east of Jones. The lot in question is one of those so common in the Fifty Vara District, having only a 25-foot frontage and a depth of 137 feet and 6 inches. The problem of designing a suitable building for one of these lots has proved no easy matter for the San Francisco architects, and the solution as worked out in the Hetty apartments by Architects Salfeld and Kohlberg is well worth consideration.

A perspective of the building is shown on Plate A of this week's illustration, and shows an attractive five-story and basement building of the reinforced concrete type carried on a steel frame, and which will contain eight two-room apartments to the floor besides the baths, offices, a lobby and a store. The building contract has been let, and at a figure that will turn the building over to the owner complete at a cost not exceeding \$60,000. The exterior of the building will be faced with a white cement and the bay windows will be of galvanized iron.

The first floor will be arranged for a store with large display windows, the vestibule and lobby for the apartments. The vestibule will be finished in marble and the lobby will be wainscoted with marble to the height of the doors. Around the lobby there will be a mezzanine floor, which will be given over to the office of the house manager. The four upper floors will be arranged so as to accommodate eight splendidly arranged apartments of two rooms and bath each. The living rooms will all be furnished with wall beds, and there will be large clothes and linen closets in each. The kitchens will all be equipped with a large dresser, hinged table, coal closet and wash trays. A feature of the kitchen equipment will be the electrical apparatus which will be installed in each for cooking and heating purposes. This feature has not been installed before in any of the apartment buildings in the city, and will prove attractive to tenants. Besides the private baths in connection with each apartment there will be a

**Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.**

public bath and toilet on each floor and a public porch with sinks and lockers. Trademen delivering supplies to the kitchens will not be obliged to enter the rooms as there will be an opening directly into the hall which leads to the kitchen. In connection with the modern equipment for the building will be a central steam plant and an automatic elevator. The mechanical apparatus will all be located in the basement which extends under the whole building.

A part of the roof will be floored with pine and will be used for drying purposes. All living rooms will have cove ceilings, and will be wainscoted with lincrusta four feet high.

### COMPANY OFFICE BUILDING.

Architects Frye and Osborn, San Francisco, have plans nearly complete for an attractive company office building, which is to be erected for the Union Gas Engine Company on their property in the city of Oakland. The building will contain the general offices of the company, their accounting rooms, draughting rooms and a lunch room for the office employees.

The matter of cost was of the utmost importance in the case of the design of this building, but the result as shown on Plate B of this issue proves how attractive a perfectly plain structure can be made.

## Plans Wanted.

The Supervisors of Alameda County have expressed their intention of purchasing a site in the town of Niles on which to erect a modern jail building for that town. No architect has been selected.

The Episcopal Church of Willows, Glenn County, California, have secured a site for a new church building on Walnut street, and they expect to commence the work sometime this year. No plans have as yet been selected. Two other small churches are to be erected in California towns this year, one for the Methodists at Exeter and one for the Presbyterians at Madera. The last named building will cost about \$10,000.

Steps are being taken by the city authorities of the city of Alameda, California, to call a bond election for \$125,000. The bonds will be used in the purchase of an electric light plant, a new emergency hospital building and in securing additional fire protection.

The town of Maxwell, California, has started a movement to secure funds for the erection of a small city hall building, which is to cost about \$5,000. The movement is headed by the Booster Club and the Women's Improvement Club.

An election will be held in the Ocean Park School District, Los Angeles County, to determine if the electors want a Union High School District established. If the election turns out favorably to the proposition a bond election will be held at once to secure funds for the construction of a build-

ing and the purchase of a site.

An election held at Vale, Oregon, recently, resulted in the voting of \$25,000 worth of bonds for a new 2-story brick school building, which is to be erected in that city as soon as the plans can be secured.

Four school districts located in the neighborhood of Tuolumne, California, have voted to form a Union High School District. Another election will be held in the near future to vote upon bonds for the erection of a new building. The County Superintendent of Schools of Calaveras County can furnish all desired information.

The Young Men's Christian Association of Sacramento, California, have plans on foot for a big membership campaign, and if successful they will secure funds for the erection of a larger building in that city. The campaign will be started about June 1st.

The Tamalpais Union High School bonds were carried at the recent election and amount to \$33,000. The money will be expended in the enlarging of their present building. The County Superintendent of Schools at San Rafael can furnish all information.

The recent bond election at San Jose, and at which there was \$200,000 worth of bonds voted for the construction of a new high school building, is to be contested. Competitive plans have been called for on the work, and the contesting of the election may stop this work.

The Board of Trustees of the Bethel Congregational Church of Ontario California, have determined to erect a new church building in that city. A site has been secured at the corner of Euclid avenue and F street, and the work will be started as soon as plans can be secured. The new edifice will cost about \$30,000.

The Chamber of Commerce of Corona, California, have asked that an election be called for on the proposition of voting \$160,000 worth of bonds to be put before the people. The bonds will be used for the erection of a city hall, costing \$16,000, for fire houses and street work.

A committee has been appointed in Sacramento, California, and an effort will be made to call a bond election to vote upon the question of issuing \$80,000 worth of city bonds for the betterment of the public schools in that city.

The Nevada City High School District of Nevada City, California, have voted favorably on the project to bond the district for \$30,000 for the erection of a new school building. The Board of Education of Nevada City will at once take steps to secure plans and sell the bonds.

The twelve days' campaign to secure funds for the construction of a new Young Men's Christian Association Building in San Diego has been brought to a close with \$155,111 subscribed. Plans will be secured for the new building at once and the construction will be started this year.

Freewater, Oregon, Baptists have secured a site and will erect a new church edifice at once. No plans have as yet been secured. J. R. G. Russell is the pastor.

The Baptist Church of Monravia, Los Angeles Co., Cal., have raised the sum of \$15,108 and will start the construction of a new building this year. A site has already been secured. H. Russell Greaves is the pastor.

### —APARTMENT HOUSES—

**San Francisco**—Apartment house, 4 story and base, brick and steel, \$70,000. Architect Leo Devlin, Pacific Bldg., S. F. Owners Cronin Estate. The building will contain about 65 apartments of 2, 3 and 4 rooms each. All apartments will have a bath connecting. There will be steam heat, electric elevator service, dumb waiters and all other modern improvements. The exterior of the building will be of pressed brick and terra cotta. The plans are being prepared.

**San Francisco**—Apartment house, 3 story and base, frame, \$17,000. Architect Arthur F. Scholz, Phelan Bldg., S. F. Owner Mrs. Moretti. The building will contain 7 apartments and private baths. The exterior will be of shiplap and rustic. The plans are now being figured.

**San Francisco**—Apartment house, 6 story and base, brick and steel, \$65,000. Architect Willis Lowe, 244 Kearny St., S. F. Owner's name withheld. The building is being designed for bachelor apartments, and will contain 54 apartments with private baths. There will be steam heat and elevator service. The exterior will be of white cement plaster on brick. The architect will complete the plans about the middle of this week.

**San Francisco**—Apartment house, 5 story and base, brick, \$80,000. Architect August Nordin, Mills Bldg., S. F. Owner Dr. George P. Allen. The building will contain 47 apartments, arranged in suites of two and three rooms each with private baths. There will be steam heat and elevator service and other modern improvements. The exterior will be of pressed brick and terra cotta. The plans are complete and figures are being taken.

**San Francisco**—Apartment house, 3 story and base, frame, \$20,000. Architect A. L. Knoll, 145 Noe St., S. F. Owner Lanx Investment Co. This building was mentioned here when the architect was preparing the plans. The plans are now complete and the architect is now taking figures on the work. All contracts are to be let separately.

**San Francisco**—Apartment house, 7 story and base, steel and brick, \$125,000. Architect Creighton Withers, 125 Sutter St., Owner's name withheld. The building will contain about 120 apartments, equipped with all of the latest improvements, including steam heat, elevator service and wall beds. The exterior will be of pressed brick and terra cotta. The work is to be done by Day Labor, and excavating has been started.

**San Francisco**—Apartment house, 4 story and base, steel and brick, \$35,000. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. The building will contain 56 apartments of 2 and 3 rooms each with private baths. There will be stores on the first floor. The building will be equipped with steam heat and an electric elevator. The architects are taking figures on the work.

**Los Angeles, Cal.**—Apartment house, 4 and 3 story brick and steel. Cost not stated. Architect A. W. Riewe, 315 Henne Bldg., L. A. Owner R. H. Wood. The building will be 50x150, and the 3-story part will be given over to stores. The exterior will be faced with pressed brick. The apartments will be equipped with wall beds and will be heated with steam. An electric elevator will be installed. In all there will be 46 baths. The architect is now ready to receive figures.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick and steel, \$65,000. Architect A. W. Riewe, 315 Henne Bldg., L. A. Owner Dr. Frank Wilkinson. This building will contain 130 rooms besides the baths. There will be steam heat, elevator service and wall beds used. The exterior will be of pressed brick trimmed with terra cotta. The architect is preparing the working drawings.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not stated. Architect Robert M. Taylor, 309 Trust and Savings Bldg., L. A. Owner J. H. Roberts. The building will contain 76 apartments, equipped with all of the latest improvements. The street elevation will be faced with pressed brick. The architect is preparing the plans.

**San Francisco**—Apartment house, 3 story and base, brick and steel, \$50,000. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owner Mrs. Honora Conlon. The building will contain 21 apartments of 2 and 3 rooms each, and will be modern in every particular. The plans are complete, and the architect will take figures on the work at once.

**San Francisco**—Apartment house, 7 story and base, reinforced concrete, \$90,000. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner Andrew Rudgear. This work was mentioned in these columns some time ago. At that time it was understood that a contract would be let for the building, but since the owner has decided that it would be cheaper to do the work by Day Labor. The structure will contain all of the most modern improvements, including wall beds, steam heat and elevator service.

**Oakland, Cal.**—Apartment house, 3 story and base, frame, \$20,000. Architect Sidney B. Newsom, Commercial Bldg., Oakland. Owner same. The building will contain 18 apartments of 2 and 3 rooms each with private baths. The plans show a building designed in the Mission style with the street elevations faced with cement plaster on metal lath. There will be steam heat, elevator service and wall beds. The architect has not completed the working drawings as yet.

**Oakland, Cal.**—Apartment house alterations. Cost not stated. Architect Sidney B. Newsom, Commercial Bldg., Oakland. Owner George W. Williams. The present two-story frame building which is to be altered will be made to contain 8 apartments of five rooms each. The exterior will be completely remodeled, and the interior arrangement will be entirely changed. The work is to be done by Day Labor.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame. Cost not

stated. Architects Train and Williams, 226 Exchange Bldg., L. A. Owner R. B. Wilson. The building will contain 90 rooms all with private baths. There will be wall beds and steam heat and elevator service. The plans are now being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick and frame. Cost not stated. Architect V. Patrosso, 423 Grosse Bldg., L. A. Owner same. The building will be 41x130 and will contain 60 rooms, all with private baths. There will be steam heat and wall beds. The exterior will be of pressed brick veneer. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick, \$30,000. Architects Garrett and Bixby, 403 Currier Bldg., L. A. Owner Mrs. Mary L. Redmon. The apartment house will contain 60 living rooms besides the baths, billiard rooms and reception rooms. The exterior will be of pressed brick. There will be steam heat and wall beds. The owner is represented by A. L. Park, 400 H. W. Hellman Bldg. The plans are now complete.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$24,000. Architect Chas. W. Von der Kuhlen, 401 S. Fremont Ave., L. A. Owner H. L. Von der Kuhlen. There will be three buildings in the group, arranged around a hollow square. Two will be of one story and of frame construction plastered with cement, the administration building will be two stories and of brick construction, and will contain the heating plant for the other buildings. The architects are preparing the plans.

**Riverside, Riverside Co., Cal.**—School alterations, 2 story and base, brick, \$15,000. Architects Dept. of Indian Affairs, Washington, D. C. Owner U. S. Government. This work consists of the rearrangement of two of the dormitories of the Sherman Institute. Bids will be opened on June 16.

**Ventura, Ventura Co., Cal.**—School, group of 1 and 2 story buildings, concrete type, \$175,000. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Owner City of Ventura. This work has been mentioned in these columns before when the architect was preparing the plans. The bids are now being called for, and will be opened by the Board of Trustees on May 20th.

**Orange, Orange Co., Cal.**—School, 2 story and base, brick or concrete, \$20,000. Architect C. B. Bradshaw, Orange,

Owners Orange School District. The building will be equipped as a manual training school. The plans have just been approved, and details of the construction have not yet been worked out.

**Phoenix, Ariz.**—Schools, 1 story and base, brick. Cost not stated. Architects Royal W. Lester and Knipe and Hurst, associated, Phoenix. Owner Phoenix School District No. 1. The plans for three buildings, all of the same type are on file at the architects' offices and at the office of L. D. Dameron, the Clerk of the School Board, and bids will be taken up to May 23.

**Richland, Wash.**—School, 2 story and base, concrete, \$20,000. Architects Keith and Whitehouse, Empire Bldg., Spokane. Owners Richland School District. The plans for this work will be complete and ready for figures about May 20th. Plans at either the architect's offices or at the office of the Clerk of the School Board, Richland.

**Wenatchee, Wash.**—School, 1 and 3 story and base, brick and concrete, \$150,000. Architects Stephen and Stephen, New York Bldg, Seattle. Owners City of Wenatchee. This work has been mentioned here before when the plans were being prepared. The work is now ready for figures and the contract will be awarded as soon as the figures can be taken.

## Contracts Awarded.

**Watts, Los Angeles Co., Cal.**—School, 2 story and base, brick, \$25,000. Architect Paul V. Tuttle, Glendale. Owners City of Watts. Contractors Perkins & Holcomb, Watts. General contract, except heating, plumbing, painting and blackboards. Contract price \$18,380.

## STORE.

**San Francisco**—Stores and offices, 2 story and base, brick, \$35,000. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner Martin Loventritt. The building will be erected on a corner in the Mission district, and will be arranged for several stores on the first floor and offices above. The exterior will be faced with pressed brick and terra cotta. The architect is preparing the plans.

**Oakland, Cal.**—Company offices, 2 story and base, frame, \$5,000. Architects Frye and Osborn, French Bank Bldg., S. F. Owners Union Gas Engine Co. The building will contain the general offices of the company and their draughting rooms. The exterior will be of cement plaster on metal lath. The work will be done by Day Labor.

**Modesto, Stanislaus Co., Cal.**—Stores and offices, 3 story and base, brick, \$55,000. Architect C. E. Wethered, 143 Second St., S. F. Owner's name withheld. The plans for this building are complete and are being figured. The exterior will be faced with pressed brick. There will be several stores on the first floor and offices above.

**Stockton, San Joaquin Co., Cal.**—Stores and lofts, 3 story and base, brick, \$25,000. Architect Walter King, Elks' Bldg., Stockton. Owner James Turner. The exterior of this building will be of pressed brick. The architect is preparing the plans,

**Bakersfield, Kern Co., Cal.**—Telephone Exchange, 3 story and base, reinforced concrete. Cost not stated. Engineering Dept. Pacific States Tel. and Tel. Co., New Montgomery St., S. F. Owner Pacific States Tel. and Tel. Co. The building will be a strictly modern structure. The plans for the work are now practically complete, and will be ready for figures shortly.

## Contracts Awarded.

**Seattle, Wash.**—Store, 5 story and base, reinforced concrete, \$150,000. Architect R. C. Heath, 615 Cray Bldg., Seattle. Owners Grote-Rankin Co. Contractor P. A. Baillargeon, Seattle. Contract price approximately \$150,000. The plans for this building have just been started, and, while the owners have decided upon their contractor, the work will not be started until mid-summer.

## SEALED PROPOSAL.

### PROPOSALS FOR SEWERS.

(Bids opened May 17.)

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m., on Wednesday, the 17th day of May, 1911, for doing the following street work to wit:

1. That the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances be constructed:

An 8-inch along the center line of Judah street, between the center and westerly lines of Fifteenth avenue; an 8-inch along the center line of Fifteenth avenue, between the center and southerly lines of Judah street; a 12-inch with one brick manhole with cast-iron frame and cover and galvanized wrought iron steps along the center line of Judah street, between the center and easterly lines of Fifteenth avenue; and a 12-inch with 16 Y branches and 1 brick manhole with castiron frame and cover and galvanized wrought iron steps along the center line of Judah street, between Fifteenth and Fourteenth avenues.

2. That the crossing of Fifteenth avenue and Irving street be improved by constructing granite curbs and artificial stone sidewalks on the angular corners thereof, where not already constructed, by paving the roadway thereof with a bituminous rock pavement, consisting of six (6) inch concrete foundation and a two (2) inch bituminous rock wearing surface; by constructing brick cesspools (catch-basins) with cast iron frames, vitrified salt-glazed, ironstone pipe culverts on the southeasterly and southwesterly angular corners thereof; by constructing an eight (8) inch, vitrified, salt-glazed, ironstone pipe sewer along the center line of Fifteenth avenue between the center and southerly lines of Irving street, and by constructing a twelve (12) inch, vitrified, salt-glazed, ironstone pipe sewer with one (1) brick manhole with cast iron frame and cover and galvanized wrought iron steps along the center line of Fifteenth avenue between the center and northerly lines of Irving street.

3. That a 15-inch vitrified, salt-glazed, ironstone pipe sewer with 1 brick manhole with cast iron frame and

cover and galvanized wrought iron steps be constructed along the center line of Ninth avenue, between the northerly and center lines of Ortega street; that a 12-inch, vitrified, salt-glazed, ironstone pipe sewer be constructed along the center line of Ninth avenue, between the center and southerly lines of Ortega street; and that an 8-inch, vitrified, salt-glazed, ironstone pipe sewer be constructed along the center line of Ortega street, between the center and westerly lines of Ninth avenue.

#### PROPOSALS FOR STREET WORK. (Bids opened May 17.)

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m., on Wednesday, the 17th day of May, 1911, for doing the following street work to wit:

1. That Twenty-third street, between Noe and Sanchez streets, be improved by constructing artificial stone sidewalks of the full official width, where artificial stone sidewalks at least six (6) feet in width are not already constructed.

2. That Nineteenth street, between Church and Sanchez streets, be improved by constructing artificial stone sidewalks nine (9) feet in width, where artificial stone sidewalks at least six (6) feet in width are not already constructed.

3. That the crossing of Army and Sanchez streets be improved by resetting to official line and grade the granite curbs already constructed that are not at official line and grade; by constructing artificial stone sidewalks on the angular corners thereof, where not already constructed, and by paving the roadway thereof with a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface.

4. That the intersection of Alvarado and Douglass streets be improved by constructing artificial stone sidewalks on the angular corners thereof, by paving the roadway thereof with a bituminous rock pavement consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface, and by resetting to official line and grade the granite curbs already constructed that are not at official line and grade.

5. That the crossing of Anza street and Forty-first avenue be improved by constructing redwood curbs on the angular corners thereof and by constructing broken rock pavement on the roadway and sidewalks thereof.

6. That Reservoir street, between Church street and Market street, be improved by constructing granite curbs, where not already constructed, and a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2½-inch bituminous rock wearing surface, where not already constructed.

Bids will be received for any one of the above mentioned jobs or for all of the work.

#### ISTHMIAN CANAL COMMISSION. (Bids opened May 25.)

CANAL CIRCULAR 630—Annual Estimate for the Period Ending June 30, 1912.—Hand cars, push cars, wheelbarrows, shovels, picks, wrenches,

nails, cotters, hacksaw blades, hose clamps, scrubbing brushes, lanterns, garbage cans, brass unions, Manila rope, canvas, leather, toilet paper, fire clay, rosin, caustic soda and crude carbolic acid.—Sealed proposals will be received at the office of the general purchasing officer, Isthmian Canal Commission, Washington, D. C., until 10:30 a. m., May 26, 1911, at which time they will be opened in public, for furnishing the above-mentioned articles. CANAL CIRCULAR 631—Lumber and CREOSOTED PILES—Sealed proposals will be received at the office of the general purchasing agent, Isthmian Canal Commission, Washington, D. C., until 10:30 a. m. May 31, 1911, at which time they will be opened in public, for furnishing the above-mentioned articles. Blanks and general information relating to this circular (No. 631) may be obtained from this office or the offices of the assistant purchasing agents, 24 State street, New York City; 614 Whitney-Central Building, New Orleans, La., and 1086 North Point street, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash. and Los Angeles, Cal.

#### HEATING AND VENTILATING SYSTEM. (Bids opened June 6.)

HEATING AND WATER SYSTEM—Department of the Interior, Office of

Indian Affairs, Washington, D. C.—Sealed proposals, plainly marked on the outside of the sealed envelope "Proposal for Water Works, Cushman School, Washington," and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian office until 2 o'clock p. m., June 6, 1911, for furnishing materials and labor for the steam heating and the installation of a hot water service system at the Cushman School, Washington, in strict accordance with plans, specifications, and instructions to bidders, which may be examined at this office, the offices of the Pacific Builder and Engineer, Seattle, Wash.; Ledger, Tacoma, Wash., and at the U. S. Indian warehouse at San Francisco, Cal., and at the school. For further information apply to H. M. Johnson, superintendent, Tacoma, Wash. H. C. VALENTINE, commissioner.

### CONSTRUCTING BUILDING.

(Bids opened June 14.)

**BUILDINGS**—Department of the Interior, Office of Indian Affairs, Washington, D. C.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for Buildings, Sherman Institute, Cal.," and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until 2 o'clock p. m. June 14, 1911, for furnishing materials and labor to construct and complete additions to two dormitories and one new hospital at the Sherman Institute, Cal., in strict accordance with the plans, specifications and instructions to bidders, which may be examined at this office, office of the Builder and Contractor, Los Angeles, Cal.; U. S. Indian warehouse, San Francisco, Cal., and at the school. For further information apply to Frank M. Conser, superintendent, Riverside, Cal. R. G. VALENTINE, commissioner

## San Francisco.

**Apartment House**—4 story and base, brick and steel, \$70,000. San Francisco. Architect Leo Devlin, Pacific Bldg., S. F. Owners Cronin Estate. The building will contain about 65 apartments of 2, 3 and 4 rooms each. All apartments will have a bath connecting. There will be steam heat, electric elevator service, dumb waiters and all other modern improvements. The exterior of the building will be of pressed brick and terra cotta. The plans are being prepared.

**Apartment House**—3 story and base, frame, \$17,000. San Francisco. Architect Arthur F. Scholz, Phelan Bldg., S. F. Owner Mrs. Moretti. The building will contain seven apartments and private baths. The exterior will be of shiplap and rustic. The plans are now being figured.

**Garage**—1 story and base, steel and brick, \$15,000. San Francisco. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner S. J. Moore Co. This work has been mentioned here before when the plans were being prepared. The working drawings are now complete and will go out for figures at once. The building will have concrete floors, a steel frame and will be faced with cement plaster.

**Apartment House**—5 story and base, brick, \$80,000. San Francisco. Architect August Nordin, Mills Bldg., S. F. Owner Dr. George P. Allen. The build-

ing will contain 47 apartments, arranged in suites of two and three rooms each with private baths. There will be steam heat and elevator service and other modern improvements. The exterior will be of pressed brick and terra cotta. The plans are complete and figures are being taken.

**Apartment House**—3 story and base, frame, \$20,000. San Francisco. Architect A. L. Knoll, 145 Noe St., S. F. Owner Lanx Investment Co. This building was mentioned here when the architect was preparing the plans. The plans are now complete and the architect is now taking figures on the work. All contracts are to be let separately.

**Apartment House**—7 story and base, steel and brick, \$125,000. San Francisco. Architect Creighton Withers, 125 Sutter St., Owner's name withheld. The building will contain about 120 apartments, equipped with all of the latest improvements, including steam heat, elevator service and wall beds. The exterior will be of pressed brick and terra cotta. The work is to be done by Day Labor, and excavating has been started.

**Hospital**—3 story and base. Class A construction \$200,000. San Francisco. Architects J. E. Kraft and Sons, Phelan Bldg. Owners Mt. Zion Hospital Ass'n. The details of the construction of this building can not be given at this time as the architects have not started the working drawings. The senior member of the firm is now in the East studying the institutions in that section and on his return work will be started on the plans.

**Apartment House**—3 story and base, brick and steel, \$50,000. San Francisco. Architect Smith O'Brien, Humboldt Bank Bldg., S. F. Owner Mrs. Honorah Conlon. The building will contain 21 apartments of 2 and 3 rooms each, and will be modern in every particular. The plans are complete, and the architect will take figures on the work at once.

**Apartment House**—7 story and base, reinforced concrete, \$90,000. San Francisco. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner Andrew Rudgear. This work was mentioned in these columns some time ago. At that time it was understood that a contract would be let for the building, but since the owner has decided that it would be cheaper to do the work by Day Labor. The structure will contain all of the most modern improvements, including wall beds, steam heat and elevator service.

**Residences**—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect none. Owner W. R. Kenny, 430 Arguello Boulevard, S. F. The dwellings will contain 8 rooms each besides the baths. The exteriors will be of cement plaster on metal lath. There will be gas grates installed. The work is to be done by Day Labor.

**Bungalow**—1½ story and base, frame, \$2,000. San Francisco. Architect O. N. Evans, 2454 Mission St., S. F. Owner E. L. Moody, 4184A 24th St., S. F. The exterior will be covered with shingles. The interior trim is to be of pine. The work will be done by Day Labor.

**Apartment House**—6 story and base, brick and steel, \$65,000. San Francisco. Architect Willis Lowe, 244 Kearny St., S. F. Owner's name withheld. The building is being designed for bachelor apartments, and will contain 54 apartments with private baths. There will be steam heat and elevator service. The exterior will be of white cement plas-

ter on brick. The architect will complete the plans about the middle of this week.

**Residences**—2, 2 story and base, frame, \$4,000 each. San Francisco. Architect Joseph A. Leonard, Phelan Bldg., S. F. Owner Urban Realty Co., Phelan Bldg. The dwellings are to be of the type usually erected by this company on their property in the Richmond District. The exteriors will be of klinker brick veneer and shingles. The trim will be of pine and some hardwood. The work is to be done by Day Labor, and will be started this week.

**Residence**—2 story and base, frame, \$4,000. San Francisco. Architect J. M. Geary, 408 Crocker Bldg., S. F. Owners Parkside Realty Home Bldg. Co. The building will contain 8 rooms and bath. The exterior will be of klinker brick veneer and shingles. The work will be done by Day Labor.

**Flats**—2 story and base, frame, \$6,000. San Francisco. Architect A. Franchina, 6 Imperial Ave., S. F. Owner J. Pasqualetti. The building is to contain 2 flats of 6 and 7 rooms each, and a finished basement. The exterior will be of cement plaster on metal lath. The plans are complete and the architect is taking figures.

**Flats and Stores**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner Thomas J. Fletcher, 825 Clement St., S. F. There will be two stores on the first floor and living apartments above. The exterior will be of rustic. The work is to be done by Day Labor.

**Flats**—2 story and base, frame, \$7,500. San Francisco. Architects O'Brien and Werner, Foxcroft Bldg., S. F. Owner Mrs. Hogan. The building will contain four flats. The exterior is to be faced with rustic. The plans are now being figured by the architects.

**Flats**—3 story and base, frame, \$25,000. San Francisco. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owners Frank and Lewis Hunter. This building has been mentioned in these columns before when the architect was preparing the plans. The building is in the Spanish style, and will be one of the finest residential flat buildings in the city. The plans are now complete, and the architect is taking figures on the work.

**Warehouse**—4 story and base, reinforced concrete \$60,000. San Francisco. Architect's name withheld. Owners Ciocca-Lombardi Wine Co., 530 Chestnut St., S. F. This building will be used as a wine cellar and office building for the company. The plans are in the hands of the manager and bids will be taken shortly. The building will be of exceptionally heavy construction. The exterior will be of cement plaster.

**Hotel and Stores**—3 story and base, brick and steel, \$38,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. The building will contain 64 rooms, many of which will have private baths in connection. The exterior will be of pressed brick. There will be a steam heating plant and electric elevators installed. The plans are now complete and figures have been taken.

**Hotel**—7 story and base, brick and steel, \$50,000. San Francisco. Architect John Bauer, Merchants' Exchange Bldg., S. F. Owner E. Blanquire. The plans for this structure, which has been mentioned here before, are now

complete and figures are being taken. The equipment throughout will be modern in every particular, nearly all of the rooms being connected with a private bath. There will be steam heat and elevator service.

**Hotel and Stores**—2 story and base, brick, \$20,000. San Francisco. Architect J. Eugene Freeman, Kohl Bldg., S. F. Owner's name withheld. The building will be erected in the Chinese quarter. The exterior will be of cement plaster. The plans are being prepared.

**Stores and Office**—2 story and base, brick \$35,000. San Francisco. Architect G. Albert Lansburgh, Gunst Bldg., S. F. Owner Martin Loventritt. The building will be erected on a corner in the Mission District and will be arranged for several stores on the first floor and offices above. The exterior will be faced with pressed brick and terra cotta. The architect is preparing the plans.

**Residence**—2 story and base, brick, \$30,000. San Francisco. Architects Havens and Toepke, Mutual Bank Bldg., S. F. Owner Frank Maskey. The dwelling will contain 14 or 15 rooms and baths. There will be a steam heating system installed. The interior will be handsomely finished in hardwoods. The exterior will be faced with pressed brick. Considerable steel will be used. The plans are complete, and the architects are taking figures on the work.

**Apartment House**—4 story and base, steel and brick, \$35,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. The building will contain 56 apartments of 2 and 3 rooms each with private baths. There will be stores on the first floor. The building will be equipped with steam heat and an electric elevator. The architects are taking figures on the work.

**Hospital**—4 story and base. Class A construction \$400,000. San Francisco. Architect Lewis P. Hobart, Crocker Bldg. Owner St. Luke's Hospital. This work has been mentioned here twice before and it can now be stated that the plans for the building will be complete and ready for figures about July 1st.

## Oakland and Alameda County.

**Apartment House**—3 story and base, frame, \$20,000. Oakland, Cal. Architect Sidney B. Newsom, Commercial Bldg., Oakland. Owner same. The building will contain 18 apartments of 2 and 3 rooms each with private baths. The plans show a building designed in the Mission style with the street elevation faced with cement plaster on metal lath. There will be steam heat, elevator service and wall beds. The architect has not completed the working drawings as yet.

**Residence**—2 story and base, frame, \$5,000. Berkeley, Alameda Co., Cal. Architect John Hudson Thomas, First National Bank Bldg., Berkeley. Owner H. L. Dugan. The building will be a ten-room residence with all modern conveniences. There will be a warm air heating system installed. The exterior will be of rustic. The plans are now being figured.

**Flats**—2 story and base, frame \$4,500. Oakland, Cal. Architect C. W. McCall, Central Bank Bldg., Oakland. Owner Dr. Demar. The building will contain two flats. The plans call for beautifully finished interiors, open fire places, hot water heaters. The exterior will be covered with shingles. The plans are ready for figures.

**Cottage**—1 story and base, frame, \$2,000. Architect George Rice, 2115 Ashby Ave., Berkeley. Owner's name withheld. The dwelling will contain 6 rooms and bath. The exterior will be of rustic. The plans are being figured.

**Cottage**—1 story and base, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner L. L. Shepard. The cottage will contain 6 rooms and bath. The exterior will be of cement plaster on metal lath. The architect is taking figures on the work.

**Cottage**—1 story and base, frame \$2,500. Oakland, Cal. Architect none. Owner C. H. Bobb, Wakefield Ave. and 27th St., Oakland. The dwelling will contain 6 rooms and bath. The exterior will be of rustic. The owner is taking figures on the work.

**Cottage**—1 story and base, frame, \$2,500. Oakland, Cal. Architect P. Groose, 3034 Champion St., Oakland. The dwelling will contain 5 rooms and bath. The exterior will be of rustic. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$4,000. Oakland, Cal. Architect L. W. Tuckert, Bacon Block, Oakland. Owner W. M. Gruener. There will be eight rooms in the dwelling besides the bath. The exterior will be of cement plaster on metal lath. A warm air heating system will be installed. The work is to be done by Day Labor.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner A. Landegren. Berkeley. The dwelling will contain 6 rooms and bath. The work will be done by Day Labor.

**Lofts**—2 story and base, brick, cost not stated. Haywards, Alameda Co., Cal. Architects Haar & Davis, Haywards. Owner George Hauschildt. The plans for this building are now out for figures. There will be considerable plumbing. The exterior will be of cement plaster.

**Residence**—2 story and base, frame, \$5,000. Berkeley, Alameda Co., Cal. Architect Frank M. May, 2145 Center

St., Berkeley. Owner H. C. Macauly. The dwelling will contain 9 rooms and baths. The exterior will be of shiplap. There will be a warm air heating system installed. The plans are complete, and the architect is taking figures on the work.

**Residence**—2 story, attic and base, frame, \$12,000. Berkeley, Alameda Co., Cal. Architect C. O. Clausen, Phelan Bldg., S. F. Owner A. E. Suckling. The dwelling is designed in the early English style and will contain 14 rooms and two baths. The exterior will be of shingles and cement plaster on metal lath. The interior trim will be largely of hardwoods. There will be a warm air heating system installed. The architect has taken figures on the work, and will award the contract this week.

**Cottage**—1 story and base, frame, \$2,500. Oakland, Cal. Architect Noble Newsom, 2610 Durant Ave., Berkeley. Owner W. E. Brown. The cottage will contain five rooms and bath. The exterior will be of rustic. The architect is taking figures on the work.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner Edward Larmer, 631 Polier St., Oakland. The cottage will contain five rooms, and the work will be done by Day Labor.

**Residence**—2 story and base, frame, \$4,000. Oakland, Cal. Architect C. W. McCall, Central Bank Bldg., Oakland. Owner D. V. Cowden. The dwelling will contain 8 rooms and bath. The exterior will be of shingles. The architect is now taking figures on the work.

**Garage**—1 story and base, brick \$12,000. Oakland, Cal. Architect C. W. Dickey, Russ Bldg., S. F. Owner H. C. Capwell. The building will have cement floors and will be faced with cement plaster. There will be one store as well as the garage in the building. The architect is preparing the plans.

**Residence**—2 story and base, frame. Cost not stated. Fruitvale, Alameda Co., Cal. Architect C. J. Colley, Pacific Bldg., S. F. Owner F. McMillan. The dwelling will contain 9 rooms and bath. The interior trim will be of pine. The plans are now being figured.

**Bungalow**—1 story and base, frame, \$2,500. San Leandro, Alameda Co., Cal. Architects Dewese Bros., San Leandro. Owner J. M. Frank. The bungalow will contain 7 rooms and bath. The exterior will be covered with shingles. The plans are now being figured.

**Hotel and Stores**—4 story and base, brick, \$40,000. Oakland, Cal. Architect Walter Mathews, 967 Broadway, Oakland. Owner Mr. Iveson. The work is to be done by Day Labor, and the old building is now being demolished. Work will be started on the new structure this week. The exterior will be faced with pressed brick. Several stores are provided for on the first floor, and about 45 rooms on the upper three floors.

**Church**—1 story and base, frame, \$4,000. Berkeley, Alameda Co., Cal. Architect E. J. Aalto, 1531 California St., Berkeley. Owners Evangelical Lutheran Church of Berkeley. The architect has the figures under advisement and will award the contract shortly.

**Church**—1 story and base, concrete and frame, Alameda, Alameda Co., Cal. Architect Louis Mulgard, Chronicle Bldg., S. F. Owners Alameda Christian Scientists. The building is designed in the Mission style and will be

handsomely finished. The working drawings are complete, and the owners are endeavoring to finance the enterprise.

**Church**—2 story and base, steel and brick, \$75,000. Oakland, Cal. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owners St. Paul's Episcopal Church. The church is designed in the Tudor Gothic style, and will have a seating capacity of 600 people. There will probably be a parish house built in connection, bringing the investment up to about \$120,000. The architect is now working on the detail drawings. Rev. Alexander Allen is the pastor.

**Company Offices**—2 story and base, frame \$5,000. Oakland, Cal. Architects Frye and Osborn, French Bank Bldg., S. F. Owners Union Gas Engine Co. The building will contain the general offices of the company and their draughting rooms. The exterior will be of cement plaster on metal lath. The work will be done by day labor.

**Residence**—2 story and base, frame, \$4,500. Berkeley, Alameda Co., Cal. Architect Noble Newsom, 2610 Durant Ave., Berkeley. Owner Ward B. Esterly. The dwelling will contain 9 rooms and baths. The interior trim will be of redwood and hardwood. There will be coal grates. The exterior will be of rustic. The plans are being figured.

**Apartment House Alterations**—Cost not stated. Oakland, Cal. Architect Sidney B. Newsom, Commercial Bldg., Oakland. Owner George W. Williams. The present two-story frame building which is to be altered, will be made to contain 8 apartments of 5 rooms each. The exterior will be completely remodeled and the interior arrangement will be entirely changed. The work is to be done by Day Labor.

## Los Angeles and Southern California.

**Apartment House**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architect Robert M. Taylor, 309 Trust and Savings Bldg., L. A. Owner J. H. Roberts. The building will contain 76 apartments, equipped with all of the latest improvements. The street elevation will be faced with pressed brick. The architect is preparing the plans.

**Apartment House**—4 story and base, brick and steel, \$65,000. Los Angeles, Cal. Architect A. W. Riewe, 315 Henne Bldg., L. A. Owner Dr. Frank Wilkinson. This building will contain 130 rooms besides the baths. There will be steam heat, elevator service and wall beds used. The exterior will be of pressed brick trimmed with terra cotta. The architect is preparing the working drawings.

**Apartment House**—4 and 3 story, brick and steel. Cost not stated. Los Angeles, Cal. Architect A. W. Riewe, 315 Henne Bldg., L. A. Owner R. H. Wood. The building will be 50x150, and the 3-story part will be given over to stores. The exterior will be faced with pressed brick. The apartments will be equipped with wall beds and will be heated with steam. An electric elevator will be installed. In all there will be 46 baths. The architect is now ready to receive figures.

**Apartment House**—3 story and base, frame. Cost not stated. Los Angeles, Cal. Architects Train and Williams, 226 Exchange Bldg., L. A. Owner R. B. Wilson. The building will contain 90 rooms, all with private baths. There will be wall beds and steam heat and elevator service. The plans are now being prepared.

**Apartment House**—3 story and base, brick and frame. Cost not stated. Los Angeles, Cal. Architect V. Patrosso, 423 Grosse Bldg., L. A. Owner same. The building will be 41x130, and will contain 60 rooms all with private baths. There will be steam heat and wall beds. The exterior will be of pressed brick veneer. The plans are being prepared.

**Apartment House**—3 story and base, brick, \$30,000. Los Angeles, Cal. Architects Garrett and Bixby, 403 Currier Bldg., L. A. Owner Mrs. Mary L. Redmon. The apartment house will contain 60 living rooms besides the baths, billiard rooms and reception rooms. The exterior will be of pressed brick. There will be steam heat and wall beds. The owner is represented by A. L. Park, 400 H. W. Hellman Bldg. The plans are now complete.

**Apartment House**—3 story and base, frame, \$24,000. Los Angeles, Cal. Architect Chas. W. Von der Kuhlen, 401 S. Fremont Ave., L. A. Owner H. L. Von der Kuhlen. The building will be 50x130, and will contain 76 rooms, divided into 33 apartments with private baths. There will be steam heat and wall beds. The exterior will be of cement plaster on metal lath. The architect started to figure the plans on May 12th.

**Church**—2 story and base, frame, \$18,000. Glendale, Los Angeles Co., Cal. Architects Walker and Vawter, 216 Wright and Callender Bldg., L. A. Owners Baptist Church of Glendale. The building will have a seating capacity of about 400 people. The exterior will probably be of cement plaster on metal lath. The working drawings have just been started.

**Apartment House**—4 story and base, brick. Cost not stated. Los Angeles, Cal. Architect Peter W. Ehlers, 611 Delta Bldg., L. A. Owners G. J. Schaefer and Franz Kern. The building will cover an area of 60x157 feet, and will contain 109 rooms, divided into 2 and 3 rooms apartments with private baths. There will be steam heat, elevator service and wall beds. The exterior will be faced with glazed brick. The plans are complete and the architect is taking figures on the work.

**Fire Houses**—2, 1 story and base, concrete. Cost not stated. Holtville, Imperial Co., Cal. Architect City Engineer of Holtville. Owner City of Holtville. The plans for these two buildings are complete and the City Clerk is calling for bids, which will be opened on May 23rd.

**Schools**—1 story and base brick. Cost not stated. Phoenix, Ariz. Architects Royal W. Lester and Knipe and Hurst, associated, Phoenix. Owner Phoenix School District No. 1. The plans for three buildings all of the same type, are on file at the architects' offices and at the office of L. D. Hameron, the Clerk of the School Board, and bids will be taken up to May 23rd.

**Factory**—2 story, concrete. Cost not stated. San Bernardino, San Bernardino Co., Cal. Architect W. J. Saunders, 512 Wright and Callender Bldg., L. A. Owners General Fertilizer Association, San Bernardino. The building will be 40 feet high and 20x100. The work is to be done by Day Labor.

**Factory**—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architect M. D. L. Scott, L. A. Owner St. Elmo Cigar Co., 216 Central Ave., L. A. The structure will be 40x120, and the street elevation will be faced with pressed brick. The plans are complete.

**School**—Group of 1 and 2 story buildings, concrete type, \$175,000. Ventura, Ventura Co., Cal. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Owner City of Ventura. This work has been mentioned in these columns before when the architect was prepar-

ing the plans. The bids are now being called for, and will be opened by the Board of Trustees on May 20th.

**School**—2 story and base, brick or concrete, \$20,000. Orange, Orange Co., Cal. Architect C. B. Bradshaw, Orange. Owners Orange School District. The building will be equipped as a manual training school. The plans have just been approved and details of the construction have not yet been worked out.

**School**—1 and 2 story and base, frame and brick, \$75,000. Anaheim, Orange Co., Cal. Architects Austin & Pennell, Wright and Callender Bldg., L. A. Owners Anaheim School District. There will be three buildings in the group arranged around a hollow square. Two will be of one story and of frame construction, plastered with cement, the administration building will be two stories and of brick construction, and will contain the heating plant for the other buildings. The architects are preparing the plans.

**School Alterations**—2 story and base, brick, \$15,000. Riverside, Riverside Co., Cal. Architects Dept. of Indian Affairs, Washington, D. C. Owner U. S. Government. This work consists of the rearrangement of two of the dormitories of the Sherman Institute. Bids will be opened on June 16th.

**Flat**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Clyde J. Cheney, 204 Grant Bldg., L. A. Owner Mr. Fore. The building will contain two flats of 5 rooms each. The exterior will be of rustic. The plans are complete.

**Garage**—2 story and base, concrete and frame. Cost not stated. Santa Monica, Los Angeles Co. Cal. Architect Frank T. Kegley, 1111 Story Bldg., L. A. Owner Dr. C. P. Thomas. The building will have room for three cars, and on the second floor there will be living apartments. The architect is now preparing the plans.

**Hotel Addition**—2 story and base, brick, \$12,000. Pasadena, Los Angeles Co., Cal. Architect A. W. Taylor, 520 Jackson St., Pasadena. Owner Hotel Vista del Arroyo. The addition will contain about 20 rooms. There will also be a 400-gallon water tank erected. The plans will be ready for figures shortly, and all contracts will be let separately.

**Lodge Hall**—2 story and base, brick and steel, \$40,000. Redlands, San Bernardino Co., Cal. Architect J. F. Kavanaugh, 15 Fourth St., Redlands. Owners Redlands Elks' Hall Association. The building will contain a large auditorium with a seating capacity of 250, lodge halls, etc., on the first floor, and 20 apartments of two rooms each on the upper floor. The exterior will be of pressed brick. Bids will be called for at once.

**Country Club**—2 story and base, concrete and frame, \$14,000. Pasadena, Los Angeles Co., Cal. Architect J. J. Blicke, Pasadena. Owners Altadena Country Club. The exterior of the building will be of shakes. The interior will be handsomely finished in hardwoods. There will be a warm air heating system installed. The plans of the architect have just been accepted.

**Lodge Hall**—3 story and base, brick and steel, \$55,000. Long Beach, Los Angeles Co., Cal. Architects Fisher and Lory, Omaha, Neb. Owners Long Beach Elks' Hall Association. The building will be modern in every particular. There will be steam heat,

electric elevator service and dumb waiters. The exterior will be of pressed brick. The plans will be figured as soon as the drawings can be completed.

**Hospital**—2 story and base, brick, \$15,000. Riverside, Riverside Co., Cal. Architect Dept. of Indian Affairs, Washington, D. C. Owners U. S. Government. The work is to be done at the Sherman Institute, and the building will be 38x76. The plans for the work are now on file at the various offices of the department and figures are being taken. The bids will be opened June 16th.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Peter W. Ehlers, 611 Delta Bldg., L. A. Owner G. A. Vandermeulen. The dwelling will contain 14 rooms and baths. There will be a furnace and hot water heaters. The interior trim will be of Peruvian mahogany. The exterior will be of shingles and cement plaster on metal lath. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Santa Monica, Los Angeles Co., Cal. Architect Frank T. Kegley, 1110 Story Bldg., L. A. Owner Thomas McCall. The dwelling will contain 16 rooms and three baths. The interior trim will be of pine and hardwood. The exterior will be of rustic and shingles. The dwelling will be heated by a coal furnace. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect F. M. Tyler, 600 Union Trust Bldg., L. A. Owner Rev. L. F. Lavery. The dwelling will contain 10 rooms, and the exterior will be covered with shingles. There will be furnace and hot water heaters. The plans are being prepared.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect F. M. Tyler, 600 Union Trust Bldg., L. A. Owner Charles H. Bareford. The dwelling will contain 10 rooms and baths. The exterior will be of rustic. The dwelling will be heated by a furnace and there will be special hot water heaters. The work is to be done by Day Labor.

**Bungalows**—2, 1 story and base, frame, \$4,000 each. Los Angeles, Cal. Architect A. S. Heineman, Union Trust Bldg., L. A. Owners Watkins and Belton, 109 Stimson Bldg. The dwellings will each be of 8 rooms and bath. The work is to be done by Day Labor.

**Residences**—2, 2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect A. S. Heineman, Union Trust Bldg., L. A. Owners J. S. Spence and F. N. Newell. The dwellings will contain 6 and 7 rooms each. The exteriors of both will be covered with shingles. The plans are being prepared.

## Editorial Comment.

The Spring Valley Water Company playing the roll of detective and champion of the public welfare is rather a strange circumstance, but the trapping of Assessor Dalton of Oakland is an instructive example of the truth of the statement that no corporation need be "held up" if it does not want to be.

It is not at all improbable that Mr. Patrick Calhoun could have trapped Ruef and Schmitz and the board of supervisors who "held up" the United Railroads for the trolley franchise. Nor is it hard to imagine that it would have been difficult for any other of the companies that were "held up" to have laid a trap that would have disclosed the situation and brought the offenders to justice.

As a rule in the case of these "hold ups" the corporation is a willing party and profit by the procedure to a greater extent than the officials themselves.

So that if the United Railroads had been willing to bid for the franchise in the open there is no question that they could have forced the issue.

As it is they have gotten a franchise by brazen bribery that has been proven in court and no member of the corporation has been punished. On the contrary the president of the corporation issues proclamations to the people of San Francisco much in the same manner that a feudal lord would address his vassals and serfs.

Not only does the United Railroads hold this trolley franchise secure for which it paid the city absolutely nothing, but it also continues to hold the Sutter street extension on Market street to the ferry by trick and legal fiction. No doubt the city will have to fight for it own ground when it goes to establish its own road and run it over its own streets. And the business interests, many of them and many of the newspapers will no doubt aid the trolley trust as much as possible and put every possible hindrance in the way of the city.

That bland, unctuous and butter-mouthed statesman, Congressman Julius Kahn of San Francisco, says Washington, Lincoln, Jefferson, Madison and Roosevelt would all have been victims of the recall, had it been applicable to the Presidency.

It is even conceivable that Kahn himself might be recalled, if ever an occupant of the White House.—Sacramento Bee.

The report of a committee of the Illinois Legislature, that Lorimer could not have been elected United States

Senator without bribery and corruption, elaves nothing for the Senate to do but kick him out.

It was a disgrace to the Nation that he was allowed to get and hold a seat in that body, but it would be even more of a disgrace and shame if he were allowed to stay in it.

Not that the Senate itself is anything to brag on, in point of purity, for there are other men in it whose seats were bought. But yet it is a public scandal, a reproach to the American people in the eyes of the Nations, that such things happen in this Republic.

The fact that Lorimer's seat was bought for him, by interests which knew they could use him, makes him the more odious and despicable. He is a mere servile tool, a hypocritical humbug, posing as honest and conscientious.

Out with him!—Sacramento Bee.

The newspapers over the country seem to have come to the belief that the supreme court really handed the people a lemon in the decision where-in the Standard Oil Company was declared to be an illegal combination in restraint of trade. The use of the word "reasonable" has put the kibosh on the whole business. That word has been interpreted by every judge from the time of Blackstone and its definition varies with every interpretation. Some other plan for the restraint of unlawful combines will have to be worked out that will leave no loophole for longwinded lawsuits and hair line decisions that will leave the whole matter up in the air.

Properly to celebrate Fathers' Day, which some Eastern philanthropists have founded to honor those who could not legitimately be honored on Mothers' Day, everybody should work but father on June 16th, when the event befalls.

Magazine story: A doctor told the wife of a patient to give him just as much of a certain powder as could be placed on a dime. When he next called he found the man about dead. "We couldn't find any dime in the house," she said, "but we found a nickel and five pennies so we filled them up."

What with the trial of the San Mateo Supervisors and the arrest of Assessor Dalton of Alameda County, San Francisco is not alone in being oppressed with grafting officials. At first reports the Alameda County assessor seems to have been about as bold in his holdups as were Ruef and Schmitz. The experience of other grafters seems to have had but little effect upon these officers who are adopting get rich-quick methods that have so often proved a trap for their undoing of late years.

# Building Statistics For the Month Of April. Comparative Figures Of Canadian Cities.

Uncertainty in national politics and anticipated labor troubles in the large building centers are reasons given for the general decline in the statistics of the building record for the month of April. Official reports made to the American Contractor, Chicago, show an aggregate decrease for the month of about 17 per cent as compared with the same month of the previous year. Most of the cities reporting show a loss of from 6 to 76 per cent and among them are included nearly all of the cities of the Pacific Coast.

New York shows a loss over the previous year of about 25 per cent; Philadelphia, 26; St. Louis, 25; Baltimore, 36. The following important gains are recorded: Dallas, Texas, 188 per cent; Manchester, 112; Worcester, 108; Knoxville, 92; Little Rock, 81; Detroit, 70; Toledo, 67; Salt Lake City, 39.

Particulars are found in the following table:

City	April, 1911	April 1910
Atlanta	\$ 852,363	\$ 1,111,177
Baltimore	1,138,777	1,802,310
Birmingham	197,690	367,428
Buffalo	918,000	875,000
Chattanooga	45,947	77,981
Chicago	8,581,100	7,837,200
Cincinnati	960,730	1,179,885
Cleveland	1,460,939	1,711,165
Dallas	1,158,220	401,565
Denver	602,225	1,184,500
Des Moines	77,930	151,050
Detroit	1,930,115	1,134,700

Rochester	1,076,559	1,439,147
Salt Lake City	490,400	350,450
St. Louis	1,724,229	2,326,885
San Antonio	163,211	685,248
San Francisco	2,139,696	3,383,269
Scranton	143,482	196,293
Seattle	902,000	1,389,005
Spokane	408,110	873,169
Tacoma	157,860	215,142
Toledo	446,282	267,417
Worcester	719,933	344,963
Total	\$62,908,158	\$77,336,620

Los Angeles, Oakland, Portland, San Francisco, Seattle, Spokane, and Tacoma all show a decrease for the

month. Salt Lake City shows a slight gain.

While San Francisco shows a decrease for the month it shows a comparative gain for the past year. For April has always been a big month for the city by the Golden Gate. Statistics for this month for the past ten years, as shown by the files of the Daily Pacific Builder, are as follows:

April, 1902	\$1,587,875
April, 1903	1,509,694
April, 1904	1,614,714
April, 1905	2,226,555
April, 1906	817,084
April, 1907	6,556,007
April, 1908	3,306,676
April, 1909	3,330,909
April, 1910	3,383,269
April, 1911	2,139,696

The record for 1906 is for the half month before the fire. While the figures for 1911 are the smallest for the month of April of any year since that date, still the record is a good one as compared with the months of the previous year and is also an excellent showing compared with statistics from other parts of the country. For the past year the figures run in the following order:

May, 1910	\$2,789,204
June, 1910	1,458,464
July, 1910	1,596,613
August, 1910	1,743,587
September, 1910	1,433,797
October, 1910	1,772,952
November, 1910	805,938
December, 1910	1,169,131
January, 1911	1,242,896
February, 1911	1,568,680
March, 1911	2,819,727
April, 1911	2,139,696

It will thus be seen that in San Francisco, at least, the month's total compared favorably with the figures of the past year.

Whatever may be the political situation but few labor troubles have materialized and the coming months ought to put this fear out of existence. When general improvement starts we can rest assured that San Francisco and the west will get its full share, for here will be the terminal and center of future activity.

In this regard it is interesting to compare the figures of the principal building centers of Canada, as reported in "Construction," published at Toronto. While the statistics in this country show an aggregate loss for the month of March of 15 per cent and about 17 per cent for the month of April, returns from twenty-six cities of the Dominion for the month of March, 1911, show an investment of double that of the month of February and an average gain of 8 per cent over the same month of the previous year. Comparative figures are shown below:

	Permits for March, 1911.	Permits for March, 1910.
Berlin, Ont.	\$ 29,295	
Brantford, Ont.	43,445	\$ 11,470

Calgary, Alta.	1,012,260	415,800
Edmonton, Alta.	276,925	263,585
Port William, Ont.	166,850	92,585
Halifax, N. S.	22,000	43,800
Hamilton, Ont.	350,300	289,390
Kingston, Ont.	19,172	14,850
Lethbridge, Alta.	81,500	120,420
London, Ont.	65,638	130,700
Medicine Hat, Alta.	78,400	3,460
Montreal, Que.	1,101,577	676,804
Moose Jaw, Sask.	74,100	58,825
Ottawa, Ont.	134,475	219,350
Peterboro, Ont.	6,655	10,327
Port Arthur, Ont.	14,810	5,365
Quebec, Que.	47,350	
Regina, Sask.	545,025	329,650
St. Thomas, Ont.	8,650	15,500
Sydney, N. S.	12,440	17,935
Toronto, Ont.	2,210,770	1,583,165
Vancouver, B. C.	2,147,798	1,806,106
Victoria, B. C.	279,945	244,760
Windsor, Ont.	60,250	27,225
Winnipeg, Man.	1,007,400	2,543,150
Total	\$9,805,560	\$8,943,432

It is a notable fact that Vancouver, B. C., is second in the list and that only by a small margin of the much greater city of Toronto. Its total of over 2 million is only slightly short of San Francisco for the same month. In fact all the cities of Western Canada, as well as the cities of the United States, show consistent gains. In fact the whole of Canada shows a general growth which is natural with the increase of population.

## FOREIGN TRADE OPPORTUNITIES.

Parties interested in any of the following items and requiring additional information should address their inquiries to the bureau of manufactures, Department of Commerce and Labor, Washington, D. C., and refer in all instances to the file number noted.

No. 6376. Waterworks System—Consul Alfred A. Winslow, of Valparaiso, reports that the Chilean government has decided to put in waterworks at Vallenar, at an estimated cost of \$53,690 United States gold, and complete the water systems at Guindos, Buln, San Bernardo and San Joaquin at an estimated cost of \$128,042. Persons desiring to get in touch with this work would do well to address an official whose name is given in the report, asking for the addresses of the parties in charge of the respective works.

No. 6393. Steam Motors.—The adoption of steam motors in place of gasoline or naphtha is being considered by the management of a railway in a South American country, for use on railway bicycles, as well as for cars to be operated on the extension of a street tramway line. An American consul writes that information in regard to such motors and in regard to their more varied application in railway operation will be of interest to the manager of the line, to whom correspondence in English should be addressed.

## Illustrations For The Week.

The above illustration shows a typical San Francisco residence, situated on one of the many glorious promontories with which San Francisco is so amply blessed. Here the sunlight, view and surroundings were all so cleverly utilized by the architect that a most delightful and refreshing creation has resulted.

The first, or basement, story is constructed of tapestry brick while the rest of the building is covered with cement plaster. All of this is topped off with a roof covered with green slip tile. The result is most charming to behold.

The entrance steps of imported marble, leads to an interior the finish of which is in mahogany throughout. With the walls of the living and bedrooms covered with tapestry silk and other rooms frescoed and the floors throughout of hardwood, one is at once impressed with the air of comfort and romance that prevades the whole structure. The estimated cost of the building is \$25,000.

Special credit must be given to Cameron & Disston, the contractors, for the thorough and workmanlike manner in which the architect's drawings and instructions were carried out. This firm has been in business for twelve years and in that time have constructed many of the most prominent buildings in San Francisco and vicinity. They are members of the Builders' Exchange.

### THE COLONIAL HOTEL.

The city of Point Richmond will shortly have a modern hotel building, a much needed improvement. The plans for this work have been completed by Architect C. O. Clausen; Phelan Building, San Francisco, and the contract awarded to James Cruickshank of Point Richmond. The new building will be erected on the property of Miss K. Riordan, at the corner of Washington and Cottage Avenues, at a cost of approximately \$20,000.

The plans of Architect Clausen show a three-story building in the Colonial style, with the two street elevations faced with pressed brick. There will be a regular hotel dining room on the first floor, offices of the hotel, grille room and several stores. The two upper floors will contain 44 rooms, well arranged, light and airy. There will be a number of baths connecting with the rooms on the second and third floors. The interior throughout will be nicely finished in Oregon Pine.

Work on the structure will be started at once, as the owner of the hotel has made arrangements to open the building to the public before fall.

## Plans Wanted.

A campaign has been started in the city of San Jose by the local Young Men's Christian Association to secure funds for the construction of a new building. A site has been purchased in a central part of the city and the new building, which is to be erected, will cost in the neighborhood of \$100,000.

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

A part of this fund has already been raised. No architect has been selected as yet.

Santa Ana, California. Presbyterians have purchased a site at the corner of Sixth and Bush streets for their proposed church edifice. A building committee has been appointed to select plans for the new building, and the finances of the church are in such shape as to make an immediate start possible. R. R. Smith, 1323 North Broadway, Santa Ana, is chairman of the committee.

Through the efforts of the Woman's Improvement Club of Sonoma, with the assistance of the Board of Trustees, Andrew Carnegie has promised to give \$6,000 for the erection of a Carnegie library at Sonoma.

The recent school bond election which was held at Kerman, California, was defeated by a large majority. The location of the site is said to be the main cause for the refusal of the voters to support the new High School bonds. A new election will probably be called later, and a change made in the selection of the site. The bonds were for \$20,000.

At a meeting of the Washington State Capitol Commission recently, the program drawn up by Architect Charles H. Bebb, of Seattle, for the competition for the new capitol building, was adopted, and 250 copies ordered printed. These may be had by applying to the architect above mentioned. The prizes will be: \$1,000 for second; \$750 for third and \$500 for fourth.

Members of First Congregational Church of Riverside, California, voted unanimously to proceed at once with plans for building a new church on the site. The Building Committee reported that the congregation has raised \$50,000 toward it, and also that \$11,750 had been pledged by outsiders.

The preliminaries are being arranged for the erection of a County High School in Winnemucca, Nevada. The last session of the Legislature authorized a bond issue of \$20,000 for said purpose.

An election will be held in the Coalinga School District of Fresno County, California, May 29th, at which time will be submitted the question of issuing and selling bonds in the amount of \$20,000, for the purpose of raising money for supplying the two school houses with necessary apparatus. James M. Robertson is the Clerk of the Board of Trustees.

### —APARTMENT HOUSES—

**San Francisco**—Apartment house, 2 story and base, brick, \$32,000. Architects R. B. Young and Son, 701 Lankershim Bldg., L. A. Owner's name withheld. The building will be arranged for one store on the first floor and a number of apartments above. The exterior will be faced with pressed brick. There will be wall beds used. Each apartment will have a connecting bath. The architects are preparing the plans.

**San Francisco**—Apartment house, 6 story and base, brick and steel, \$45,000. Architect M. Mattanovich, Pacific Bldg., S. F. Owner A. Roy Harrison. This building will be a modern structure in every detail. There will be steam heat, elevator service and wall beds. All apartments will have connecting baths. The exterior will be faced with pressed brick and terra cotta. The architect has secured a building permit and the work will be started at once.

**San Francisco**—Apartment house, 2 story and base, frame, \$8,000. Architect J. C. Flugger, Crocker Bldg. Owner's name withheld. The building will contain a number of well arranged apartments. The exterior will be covered with cement plaster on metal lath. The architect has completed the plans and is now taking figures on the work.

**Oakland, Cal.**—Apartment house, 3 story and base, frame, \$20,000. Architect Sidney B. Newsom, Commercial Bldg., Oakland. Owner same. The building is designed in the Mission style and will contain a number of apartments of 3 and 4 rooms each. There will be private baths, wall beds and steam heat. The exterior will be of metal lath and plaster. The architect is preparing the plans.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not stated. Architects Sircy and Gentry, 608 I. W. Hellman Bldg., L. A. Owner G. E. Loyd. The building is to be arranged for stores on the first floor and apartments above. There will be steam heat and elevator service. The exterior will be faced with glazed brick. The architect is preparing the plans.

**Portland, Ore.**—Apartment house, 5 story and base, brick, \$75,000. Architects R. F. Wessell & Co., Yeon Bldg., Portland. Owner's name withheld. The building will contain 43 apartments arranged in suites of 2 and 3 rooms each. There will be steam heat, elevator service, wall beds and all other modern improvements. The exterior will be faced with light colored pressed brick. The plans will be complete and ready for figures by June 1st.

**Los Angeles, Cal.**—Apartment house, 4 story and base, frame. Cost not stated. Architect E. M. Fletcher, 916 10th St., L. A. Owner's name withheld. The building will contain 44 apartments arranged in suites of 2 and 3 rooms each. There will be private baths connecting with each apartment. The exterior of the building will be covered with metal lath and plaster. The plans are complete.

**Long Beach, Los Angeles Co. Cal.**—Apartment house, 2 story and base, frame, \$25,000. Architect J. C. Beer, 2437 East Ocean Ave., Long Beach. Owner same. The building will be in the Mission style and will be fitted up in the most modern manner. The work will be done by Day Labor and the plans are complete.

**Portland, Ore.**—Apartment house, 3 story and base, brick, \$40,000. Archi-

pects Claussen and Claussen, Portland. Owner George W. Jackson. The building will be 100x100, and will be arranged for stores on the first floor. The upper floors will have 18 apartments of 2 and 3 rooms each to the floor. There will be steam heat, wall beds and private baths. The architects are preparing the plans.

### Contracts Awarded.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$30,000. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner Mrs. Mary L. Redmon. Contractor E. J. Chaption, 724 Maple Ave., L. A. Contract price \$30,000.

### —BANKS—

**Oakland, Cal.**—Bank alterations, \$12,000. Architects Meyer and Reid. Oakland Bank of Savings Bldg., Oakland. Owners Harbor Bank. The work includes the complete remodeling of a part of the St. Mark's Hotel building for banking quarters and the installation of modern banking fixtures and vaults. The plans for the work are being prepared.

**Willows, Glenn Co., Cal.**—Bank and offices, 2 story and base, steel and brick, \$50,000. Architect C. H. Russell. Humboldt Bank Bldg., S. F. Owner (new banking institution and name has not yet been selected.) The plans for this work are now complete and will be forwarded to Willows shortly for figures. The exterior will be of pressed brick. The interior will be of marble and mahogany.

**Los Angeles, Cal.**—Bank and offices, 12 story and base. Class A construction, \$180,000 or more. Architects Morgan, Walls and Morgan, 1114 Story Bldg., L. A. Owner I. N. Van Nuys. This work has been mentioned here when the plans were first started. The contract for the excavating has been figured and other parts of the work will be out for figures shortly.

### Contracts Awarded.

**Santa Ana, Orange Co., Cal.**—Bank alterations, 2 story and base, brick. Cost not stated. Architects Train and Williams, 226 Exchange Bldg., L. A. Owners Orange County Savings Bank. Contractor A. C. Black, 709 West 4th St., Santa Ana. The work includes a new fireproof vault, new fixtures, new front and the remodeling of the upper floors for offices.

### —BRIDGES—

**Santa Barbara, Santa Barbara Co., Cal.**—Bridge, Steel and concrete. Cost not stated. Engineer County Surveyor Santa Barbara. Owners Santa Barbara County. The plans for this work are now complete and the official call for bids appears in its proper place in this issue. Bids will be opened June 6th. C. A. Hunt is the County Clerk.

**Ridgefield, Wash.**—Bridge, steel and concrete. Cost not stated. Engineer County Surveyor Clarke County. Owners Clarke County. The bridge will be a steel structure with reinforced concrete abutments. The plans are being prepared.

**Seattle, Wash.**—Docks, 3, pile and wood, \$15,000 each. City Engineer of Seattle. Owners City of Seattle. The property in Madrona Park district has been condemned and the work will be started this summer.

### Contracts Awarded.

**Los Angeles, Cal.**—Bridge repairs, \$1,500. City Engineer of Los Angeles. Owners City of Los Angeles. Contractors Mercereau Bridge and Construction Co., Pacific Electric Bldg., L. A. Contract price \$450 for repairs and 12 cents per square foot for asphalt paving.

**Skagit, Wash.**—Bridge, fixed span steel draw bridge, \$52,000. Engineers Bowermab and McCloy, Central Bldg., Seattle. Owners Skagit County. Contractors Lance and Peters, 314 Walger Bldg., Seattle. Contract price \$25,377 and \$26,061.

### —CHURCHES—

**Oroville, Butte Co., Cal.**—Church, 2 story and base, brick and frame, \$25,000. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner First Congregational Church of Oroville. This work has been mentioned here before when the architect started the preliminary drawings. These have been somewhat revised and a more pretentious building is to be erected. The working drawings will be complete in a short time and bids will be taken.

**Visalia, Tulare Co., Cal.**—Church, 2 story and base, concrete and frame, \$20,000. Architect J. Carl Thayer, Visalia. Owners Presbyterian Church of Visalia. The preliminary drawings only have been completed, and details of the work cannot be given at this time.

**Visalia, Tulare Co., Cal.**—Church, 2 story and base, frame and brick. Cost not stated. Architect J. W. Rosebrook, Exeter. Owners Christian Church of Visalia. The plans have just been approved and work will not be started until summer. The exterior will be of cement plaster and metal lath.

**Ontario, San Bernardino Co., Cal.**—Church, 2 story and base, brick, \$40,000. Architects Walker and Vawter, 216 Wright and Callender Bldg., L. A. Owners First Methodist Church of Ontario. The plans for this building are now complete, and the plans and specifications have been forwarded to Rev. George C. King, who will complete all arrangements for the construction.

**Tacoma, Wash.**—Church, 1 story and base, brick and concrete, \$6,000. Architect Frank Mahon, Parkland, Wash. Owners Slavonian Catholic Church of Tacoma. The plans for this work are complete and contracts will be awarded at once.

**Seattle, Wash.**—Church, 2 story and base, reinforced concrete, \$50,000. Architects Clark and Bristow, Seattle. Owners First Christian Church of Seattle. The building will have a 12-foot basement under the whole structure. The seating capacity of the main auditorium will be about 1,000. There will be steam heat and other modern improvements. The plans will be ready for figures shortly.

### —COURT HOUSES & JAILS—

**Fairfield, Solano Co., Cal.**—Court house furnishings. Cost not stated. Architects Hemmings and Jones, 1005 K St., Sacramento. Owners Solano County. Bids are now being called for the metal furniture, fittings, cork, linoleum and tile floors, window shades and draperies, lighting fixtures, clocks, cement walks and hitching posts for the new court house now under construction. Bids will be opened by the Board of Supervisors on June 5th. For official proposal see columns in this issue.

**Dayton, Lyon Co., Nev.**—Court house, 2 story and base, reinforced concrete and stone, \$125,000. Architect F. J. De Louchant, Reno, Nev. Owners Lyon County. This work has been mentioned here before when the architect was first selected. The working drawings are now complete and the official call for bids has been published.

**Placerville, El Dorado Co., Cal.**—Court house, 2 story and base. Class A construction, \$125,000. Architects Cuff & Diggs, Sacramento. Owners El Dorado County. The working drawings for the work have been forwarded to the Supervisors and are now ready for figures. There has been some trouble experienced with the sale of the bonds voted for the construction of the building, and bids will not be called by the Board until the matter is straightened out.

**Moscow, Latah Co., Idaho.**—Court house, 2 story and base. Class A construction, \$150,000. Architects Stritesky and Rooney, Empire Bldg., Spokane. Owners Latah County. The building will be 60x150, of fireproof construction with reinforced concrete floors. The exterior will be of pressed brick. The interior trim will be of metal. A County Jail will be erected in connection with the court house. The plans are now being prepared.

### —FACTORIES & WAREHOUSES

**Emeryville, Alameda Co., Cal.**—Warehouse, 2 story and base, brick Cost not stated. Architects Cunningham and Politeo, Chronicle Bldg., S. F. Owner T. W. Corder. The building will be of extra heavy construction and there will be no interior finish. The exterior will be of stock brick. The plans are being figured.

**Tacoma, Wash.**—Warehouse, 2 story and base, brick, \$16,000. Architects Bullard and Hill, Provident Bldg., Tacoma. Owners Sperry Flour Co. The building will be 30x36, and the exterior will be of stock brick. The plans are being prepared.

**Spokane, Wash.**—Warehouse, 1 story and base, reinforced concrete, \$20,000. Architect Ballard Plannery, Kuhn Bldg., Spokane. Owners American Fire Brick Co. The plans have been turned over to the owners and the work will be done by Day Labor.

### Contracts Awarded.

**Chino, San Bernardino Co., Cal.**—Factory, 2 story and base, brick, \$21,000. Architect Carl Leonardt, H. W. Hellman Bldg., L. A. Owners American Beet Sugar Co. Contractor Carl Leonardt, H. W. Hellman Bldg., L. A. Contract price \$21,000.

**FIRE HOUSES.**

**San Quentin, Marin Co., Cal.**—Plumbing fixtures. Cost not stated. State Engineer Ellery, 84 Capitol Bldg., Sacramento. The State Engineer is now taking figures for the plumbing fixtures for the main cell block of the State Prison. Bids will be opened June 5th.

**Contracts Awarded.**

**San Francisco**—Fire House, 2 story and base, brick and steel, \$25,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. Contractor O. C. Holt, S. F. General contract on only \$11,940.

**FLATS.**

**San Francisco**—Flats, 2 story and base, frame, \$11,000. Architect Chas. Peter Weeks, Mutual Bank Bldg., S. F. Owner Mrs. James Campbell. This building will contain two large flats, beautifully finished. There will be furnace heat and coal grates. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**San Francisco**—Flats, 3 story and base, frame, \$5,500. Architect none. Owner Marcellin Chavanetti, 1148 Green St., S. F. The building will contain 3 flats of 6 and 7 rooms each. The exterior will be of cement plaster on metal lath. The plans are in the hands of the owner and the work is to be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$3,500. Architect none. Owner A. Foscarini, 42 Allen St., S. F. There will be three flats in the building. The plans are in the hands of the owner and the work will be done by Day Labor.

**Oakland, Cal.**—Add. to flats, 2 story and base, frame \$8,000. Architect A. Merrill Bowser, Central Bank Bldg., Oakland. Owner's name withheld. The building will be remodeled so as to accommodate a store on the first floor and living rooms above. The exterior will be of cement plaster on metal lath. The plans are complete and are now being figured.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$4,000. Architect J. M. Moss, 371 13th St., Oakland. Owner C. Robinson. The building will be in the form of a double residence with the exterior covered with shingles. There will be coal grates. The plans are now being figured.

**Oakland, Cal.**—Flats, 2 story and base, frame. Cost not given. Architect Robert L. Holt, 3774 Grove St., Oakland. Owner Mrs. Anna C. Smith. The building will contain two modern flats with the bedrooms equipped with Marshall-Stearns wall beds. The exterior will be of shingles. The plans are being figured.

**Oakland, Cal.**—Flats, 2 story and base, frame. Cost not given. Architect Chas. W. McCall, Central Bank Bldg., Oakland. Owner Dr. J. Maher. The building will contain two flats of 5 rooms each, with all modern conveniences. The exterior will be covered with shingles. The plans are complete and are now being figured.

**Richmond, Contra Costa Co., Cal.**—Flats, 2 story and base, brick, \$25,000. Architect G. Dahl, 126 Ohio St., Richmond. Owner Daniel Barton. The building will be arranged for stores on the first floor and several flats above. The exterior will be faced with pressed brick and the interior will be trimmed with pine. There will be coal grates. The plans are complete and figures are now being taken.

**San Francisco**—Flats, 3 story and base, frame, \$9,000. Architect John Davis Hatch, Humboldt Bank Bldg., S. F. Owner Mrs. N. K. Neilson. The building will contain three flats of 5 and 6 rooms each. The interiors will be handsomely finished in pine and hardwood. The plans are being figured.

**San Francisco**—Flats, 3 story and base, frame, \$8,000. Architect none. Owner W. ... Yeager, 330 Cabrillo St., S. F. The building will contain six 4-room apartments, fitted with every modern convenience. There will be private baths. The plans are in the hands of the owner and he will have the work done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$12,000. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner M. A. Lynch. The building will contain six flats of 5 and 6 rooms each. There will be all of the modern conveniences. The plans are complete and are being figured.

**San Francisco**—Flats, 3 story and base, frame, \$25,000. Architects Bearwald and Fabre, Metropolis Bank Bldg., S. F. Owner's name withheld. The preliminary drawings for this work have just been started and the detail cannot be given at this time. The building will be one of the most modern erected in the city and will contain unique features.

**Los Angeles, Cal.**—Flats, 2 story and base, frame. Cost not given. Architect Fred Biren, 609 Broadway Central Bldg., L. A. Owner J. E. Landon. There will be 16 rooms in the building, divided into four-room suites, all with private baths and wall beds. The exterior will be of rustic. The plans will be ready for figures shortly.

**Portland, Ore.**—Flats, 2 story and base., frame, \$7,000. Architect George Foote Durham, Portland. Owner J. Levinger. The building will contain 4 flats of 5 and 6 rooms each. The exterior will be of brick veneer and rustic. There will be furnace heat. The plans are now complete. The work is to be done by Day Labor.

**Portland, Ore.**—Flats, 2 story and base, frame, \$8,000. Architect D. B. Flickinger, Portland. Owner J. L. Glazik. The building will be 40x74, and will contain 8 suites of 3 rooms and bath each. There will be furnace heat. The plans are being prepared.

**GARAGES.**

**San Francisco**—Garage and lofts, 2 story and base, brick, \$20,000. Architects Ross and Burgren, 222 Kearny St., S. F. Owner Joseph Estate. The exterior of the building will be faced with pressed brick. There will be large display windows. A freight elevator will be installed. The plans are complete and the architects are taking figures.

**Los Angeles, Cal.**—Garage, 1 story and base, brick, \$15,000. Architect J. W. Chalmers, 432 Mason Bldg., L. A. Owner A. L. Hill. The building will be 100x130, and will have cement floors, plate glass windows and a pressed brick front. The architect is preparing the plans.

**HOTELS.**

**San Francisco**—Hotel, 5 story and base, steel and brick, \$85,000. Architects Cunningham and Politeo, Chronicle Bldg., S. F. Owner George T. Marye. There will be several stores on the first floor and a modern hotel above, equipped with steam heat and elevator service. The excavating and foundation work has already been let, and figures are now being taken on the balance of the work. Contracts will be awarded at once.

**San Francisco**—Hotel, 6 story and base, steel and brick, \$60,000. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner Chas. Warren. There will be several stores on the first floor and the remaining five floors will be divided into hotel rooms. There will be steam heat and elevator service. The exterior will be faced with pressed brick and trimmed with terra cotta. The plans are complete and the architect is now taking figures.

**Los Angeles, Cal.**—Hotel, 2 story and base, brick. Cost not stated. Architect John B. Nicholson, 912 Wright and Callender Bldg., L. A. Owner Phillip Wilson. The building will be 50x115, and will be arranged for stores on the first floor and rooms above. There will be steam heat. The exterior will be faced with pressed brick. The plans are being prepared.

**San Francisco**—Hotel and stores, 3 story and base, steel and brick, \$45,000. Architect Lewis M. Gardner, Phelan Bldg., S. F. Owner Edward B. Hines. The building will contain five stores and about 95 rooms. There will be a steam heating system. The exterior will be faced with red pressed brick. The plans are out for figures.

**Concord, Contra Costa Co., Cal.**—Hotel, 3 story and base, reinforced concrete, \$50,000. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Concord Hotel Co. The building will contain about 60 rooms and 30 baths. The design is in the Spanish Mission style. There will steam heat and a vacuum cleaning system.

**San Diego, Cal.**—Hotel and stores, 3 story and base, brick, \$20,000. Architect J. B. Stannard, 10 Ingle Bldg., San Diego. Owner Hans Petrikowski. The building will be 50x100, and there will be five stores on the first floor and 42 rooms above. There will be heat and six baths. The exterior will be of red pressed brick. The architect has completed the plans.

**Beverly Hills, Los Angeles Co., Cal.**—Hotel, 3 story and base. Construction not decided, \$150,000. Architect Elmer Grey, 811 Wright and Callender Bldg., L. A. Owner Percy H. Clark and associates. The owners are now considering two sets of plans, one for a frame and cement plastered building and the other for a fireproof structure. There will be 200 rooms and 100 baths. The architect is preparing the plans.

**Seattle, Wash.**—Hotel, 2 story and base, reinforced concrete, \$18,000. Architects Josenhans and Alleb, Hinchley Bldg., Seattle. Owner's name withheld. This work has been mentioned here before, and at that time the owner had contemplated a brick structure. The plans were completed on May 18th and figures will be taken at once.

**Bakersfield, Kern Co., Cal.**—Hotel and stores, 4 story and base, steel and brick, \$300,000. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owner Bakersfield Hotel Co. The building will contain 8 stores on the ground floor and 175 rooms on the floors above. There will be a complete steel frame covered with pressed brick and terra cotta. The work will probably be done by the Lindgren Co., Monadnock Bldg., S. F., and will be started early in July.

### —HALLS & SOCIETY BLDGS.—

**Willows, Glenn Co., Cal.**—City Hall, 3 story and base, brick and steel, \$50,000. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner City of Willows. This work was reported here when the architect was awarded the competition. The plans are now complete, and the Clerk of the City Trustees has been instructed to advertise for bids, which will be opened May 29.

**Ramona Acres, San Diego Co., Cal.**—Country Club, 2 story and base, frame and concrete, \$50,000. Architect Hudson Munsell, Stimson Bldg., L. A. Owners New Country Club (H. F. Stewart of the Southern Trust Co. Pres.) The plans for this building are as yet in the preliminary stage, and details cannot be given. It is stated that the building will be a Spanish Mission style and that the interior will be elaborately finished.

### —HOSPITALS—

**Alameda, Alameda Co., Cal.**—Hospital addition, 2 story and base, frame. Cost not stated. Architect Charles McRea, Alameda. Owner Alameda Sanitarium. The building will have accommodations for 15 nurses besides diet kitchens, baths and dining room. The plans are practically complete and figures will be taken shortly.

**Oakland, Cal.**—Hospital, 4 story and base, steel and brick, \$75,000. Architects Meyer and Reed, Oakland Bank of Savings, Oakland. Owners Drs. Cunningham and Chamberlin. The building will have accommodations for 40 patients besides the nurses. There will be steam heat, elevators and all other modern conveniences. The exterior will be of cement plaster. The plans are being prepared.

### —LIBRARIES—

#### Contracts Awarded.

**Hollister, San Benito Co., Cal.**—Library, 1 story and base, brick and concrete, \$10,000. Architect William Binder, Rea Bldg., San Jose. Owners Town of Hollister. Contractor E. J. Spaulding, Hollister. Contract price \$9,983.

### —POST OFFICES—

**La Grande, Ore.**—Post Office, 2 story and base, steel and brick. Cost not stated. Architect John Knox Taylor, Washington, D. C. Owners U. S. Gov-

ernment. The plans for this work are complete and bids are being taken. Bids will be opened at Washington June 22.

**Leads, South Dakota.**—Post Office, 2 story and base, brick and steel. Cost not stated. Architect John Knox Taylor, Washington, D. C. Owners U. S. Government. The plans for this building are complete and bids are being taken. Bids will be opened in Washington on June 24th.

**Albany, Ore.**—Post Office, 2 story and base, stone and brick. Cost not stated. Architect John Knox Taylor, Washington, D. C. Owners U. S. Government. The plans for this building will be forwarded to coast cities for figures early in July. A copy of the same has already reached the Postmaster at

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Oakland, Cal.**—Passenger Station, 3 story and base. Class A construction, \$400,000. Architect Jarvis Hunt, Chicago, Ill. Owners Southern Pacific Co. The building is to be known as the 16th street station. The plans have been put out for figures by the engineering department of the company with offices in the Flood Bldg., S. F. The bids are to be in early in June. Eastern contractors are also figuring the work.

**Bremerton to Gray's Harbor, Wash.**—Railroad construction. Cost not stated. L. H. Gray of Seattle, representing the Puget Sound and Southern R. R., has been granted a franchise through the town of Bremerton for a road on which will be operated street and interurban cars. The franchise stated that work must be started within one year and completed within three years.

**Centralia, Wash.**—Freight and passenger stations, \$750,000. Engineering Dept. Northern Pacific R. R. Co., Seattle. Owners Northern Pacific, Great Northern and O. W. R. and N. Co. It has been officially announced that the three roads mentioned will expend the above amount constructing freight and passenger depots, round house, repair shops and yards during the summer.

#### Contracts Awarded.

**Los Angeles, Cal.**—Car barns, reinforced concrete, \$250,000. Architects Engineering Department Los Angeles Railroad Company. Owners Los Angeles Railroad Co. Contractor Arthur S. Bent, 520 Central Bldg., L. A. While no contract has as yet been filed of this contract, it is generally accepted that Mr. Bent will do the work. Some slight changes are now being made in the original plans.

**Glendale to Burbank, Cal.**—R. R. grading. Cost not stated. Owners Pacific Electric R. R. Co., L. A. Contractor Robert Sherer & Co., Pacific Electric Bldg., L. A. The work mentioned is a double track system. Work is to be started at once.

**Vale, Ore.**—Passenger depot, 1 story brick and stone. Cost not stated. Architect D. H. Ashton, Portland. Owners Oregon Short Line. Contractors Bayles and McDonald, Vale, Ore. Contract price not stated.

### RESIDENCES.

**San Francisco.**—Residence, 2 story and base, frame, \$3,000. Architect none. Owner John Rench, 438 Judah St., S. F. The dwelling will contain 7 rooms and bath. The exterior will be of cement plaster on metal lath. The work is to be done by Day Labor, and the owner is now purchasing materials.

**San Francisco.**—Residence, 2 story and base, frame \$2,500. Architect none. Owner C. A. Hall, 1318 5th Ave. The dwelling will contain 6 rooms and bath. The exterior will be of brick veneer and rustic. The work is to be done by Day Labor.

**Oakland, Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner O. L. Burritt, 377 63rd Ave., Oakland. The cottage will contain 5 rooms and bath. The exterior will be rustic. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Bungalow, 1 story and base, frame, \$3,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner E. C. Wilson. The dwelling will be fitted with all modern conveniences and will be handsomely finished. The exterior will be covered with shingles. The plans are complete and are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$4,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner E. C. Wilson. This dwelling will be erected on the property adjoining the lot on which the same owner is erecting another building. The plans are complete and figures are being taken.

**Seattle, Wash.**—Residence, 2 story and base, frame and brick, \$15,000. Architect Roy Chapman, 726 Northern Bank Bldg., Seattle. Owner J. S. Holt. The dwelling will contain 12 rooms and baths. The exterior will be faced with pressed brick veneer. There will be a warm air heating system. The owner has not decided whether or not to let a general contract or to do the work by Day Labor.

**Berkeley, Alameda Co., Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect Willford. Owner H. D. Irwin, 3264 Adeline St., Oakland. The dwelling will contain 5 rooms and bath. The plans are in the hands of the owner and figures are being taken.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,000. Architect none. Owner W. W. Dodge, 2230 College Ave., Berkeley. The dwelling will contain 7 rooms and bath. There will be a furnace installed and coal grates. The exterior will be covered with shingles. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$4,000. Architect W. H. Ratcliff, First National Bank Bldg., Berkeley. Owner Prof. J. T. Allen. The dwelling will contain 8 rooms and 2 baths. The exterior will be covered with shingles. The plans are being figured.

**Piedmont, Alameda Co., Cal.**—Bungalow, 1 story and base, frame, \$2,500. Architect none. Owner R. S. Chadburne. The work is to be done under the direction of the Building Dept. of

the Realty Syndicate, Oakland. The plans are now out for figures.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,500. Architects T. D. Newsom and Son, 906 Broadway, Oakland. Owner Franklin Coater. The dwelling will contain 8 rooms and bath. There will be coal grates. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Bungalow, 1½ story and base, frame, \$2,500. Architect none. Owner Carl Ericsson, 2421 Edwards St., Berkeley. The dwelling will contain 6 rooms and bath. The exterior will be of resawed shingles. The work is to be done by Day Labor.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$6,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Mrs. N. Thompson. The exterior of the dwelling will be of cement plaster on metal lath. The interior will be handsomely finished. There will be a warm air heating system. The plans are being figured.

**San Leandro, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect H. M. Frosthalm, 6457 Duñcan St., Oakland. Owner Mr. Edgar. The dwelling will be in the rustic style with the exterior covered with shingles. The interior will be finished in pine and hardwood. The plans are being figured.

**Woodside, San Mateo Co., Cal.**—Residence, 2 story, attic and base, frame, \$35,000. Architect J. R. Miller, Lick Bldg., S. F. Owner Robert Oxnard. The plans for this building were prepared sometime ago, but the owner has decided to revise them before putting them out for figures. His architect is now engaged in this work, and until it is completed the details of the construction cannot be given.

**San Bruno, San Mateo Co., Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner C. H. Montell, San Bruno. The cottage will contain 5 rooms and bath. The exterior will be of rustic. The owner is now taking figures.

**Stockton, San Joaquin Co., Cal.**—Residence, 2 story and base, frame, \$4,250. Architect Walter King, Elks' Bldg., Stockton. Owner Dr. Eddy. The dwelling will contain 8 rooms and bath. The exterior will be covered with rustic. The architect has the figures under advisement.

**Stockton, San Joaquin Co., Cal.**—Bungalow, 1 story and base, frame, \$3,500. Architect P. P. Morrell, Stockton. Owner Mr. Saini. The dwelling will contain 6 rooms and bath. The exterior will be covered with rustic. The plans are being prepared.

**Stockton, San Joaquin Co., Cal.**—Bungalow, 1½ story and base, frame, \$3,000. Architect P. P. Morrell, Stockton. Owner Mr. Foreman. The bungalow will contain 5 rooms and bath. The exterior will be covered with rustic. The plans are being figured.

**Bakersfield, Kern Co., Cal.**—Residence add., 2 story and base, brick, \$10,000. Architect Thomas B. Wiseman, Producers' National Bank Bldg., Bakersfield. Owner Echo Publishing Co. The exterior of the building will be of

sandstone brick. The interior of the present building will be entirely changed, and new plumbing and a steam heating system will be installed. The architect is now preparing the plans.

**San Francisco**—Residence, 2 story and base, frame, \$3,000. Architect E. E. Young, 251 Kearny St., S. F. Owners Lettich Bros., 365 Fell St., S. F. The dwelling will be of brick veneer and cement plaster. The interior will be handsomely finished. The plans are complete and the work is to be done by Day Labor.

**San Francisco**—Residence, 3 story and base, frame, \$12,000. Architect George A. Schastey, Monadnock Bldg., S. F. Owner John D. Kerr, Monadnock Bldg., S. F. The plans have been turned over to the owner and he is now taking figures. The exterior will be of cement plaster on metal lath. The interior will be handsomely finished.

**Berkeley, Alameda Co., Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner Junk-Biddell Investment Co., Berkeley National Bank Bldg., Berkeley. The cottage will contain 5 rooms and bath. The owners are now taking figures.

**Anaheim, Orange Co., Cal.**—Residence, 2 story and base, frame, \$12,000. Architect none. Owner D. O. Gervais, Anaheim. The dwelling will contain 12 rooms and baths. There will be furnace heat. The plans are in the hands of the owner and he is now taking figures.

**Los Angeles, Cal.**—Residence, 2 story and base, frame, \$8,000. Architect B. Cooper Corbett, 1128 Story Bldg., L. A. Owner Mrs. George Willshire. The dwelling is designed in the Colonial style and there will be three baths. The architect is preparing the plans.

**Redlands, San Bernardino Co., Cal.**—Residence, 2 story and base, frame, \$10,000. Architect J. F. Kavanaugh, Redlands. Owner H. A. Cherrier. The dwelling will contain 10 rooms and 2 baths. There will be furnace heat. The interior will be finished in hardwoods. The plans are now complete.

**Los Angeles, Cal.**—Residence, 2 story and base, frame and brick. Cost not stated. Architects Austin and Pennell, Wright and Callender Bldg., L. A. Owner S. F. Zombro. The dwelling will contain 12 rooms and baths. The exterior will be faced with blue brick veneer and cement plaster. There will be furnace heat and Ruud heaters. The plans are now complete.

**Seattle, Wash.**—Residence, 2 story and base, frame, \$8,000. Architects Breseman and Durfee, Central Bldg., Seattle. Owner's name withheld. The dwelling will contain 9 rooms and bath. The exterior will be covered with shingles. There will be furnace heat. The plans are being prepared, and the work will be done by Day Labor.

## SCHOOLS.

**San Francisco**—School, 2 story and base, steel and brick, \$65,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and

County of San Francisco. The Board of Public Works are now taking figures for the plumbing, heating and ventilating, electric work and vacuum cleaning system for the Lincoln School. Bids will close on May 31.

**McKinley School District, Santa Clara Co., Cal.**—School, 1 story and base, frame, \$10,000. Architect Chas. S. McKenzie, Bank of San Jose Bldg., San Jose. Owners McKinley School District. The plans for this work call for a three room and assembly hall. The building is designed in the Spanish Mission style. The bids will be advertised for at once.

**Fresno, Fresno Co., Cal.**—School, 2 story and base, reinforced concrete, \$20,000. Architects A. C. Swartz and Son, Fresno. Owners Le Grande School District. The architects have just been commissioned to prepare the plans for this work. There will be five class rooms and an assembly hall. The building will be heated by steam. The exterior is to be plastered with cement.

**Davis, Cal.**—School dormitory, 2 story and base, brick, \$33,000. Architect John Galen Howard, 604 Mission St., S. F. Owner University of California. The appropriation for this work has just been made, and the details of construction have not been settled upon. The architect has started the preliminary drawings.

**Fullerton, Orange Co., Cal.**—School, six 1 story frame class rooms. Cost not given. Architect Frank H. Peters, 705 Auditorium Bldg., L. A. Owners Fullerton School District. The plans provide for buildings with shingle exterior, and are to be temporary structures for use only while the new building is being erected.

**Stratton School District, Kings Co., Cal.**—School, 1 story and base, frame, \$5,000. Architects A. C. Swartz and Son, Fresno. Owners Stratton School District. The plans for this work are complete and figures will be taken at once. The school will contain four class rooms.

**Whittier, Los Angeles Co., Cal.**—School, 1 story and base, frame, \$13,000. Architect W. Lindstrom, Bell Station. Owners Whittier School District. The building will contain 8 class rooms. The exterior will be of brick veneer. There will be a steam heating plant. The plans are being prepared.

**El Centro, Imperial Co., Cal.**—School, 2 story and base, brick, \$75,000. Architect Fred T. Harris, 14 First National Bank Bldg., Redlands. Owners El Centro Union High School District. The building will contain 12 class rooms, offices and assembly rooms. There will be a heating and ventilating system and vacuum cleaning system. The plans have just been accepted by the Board of Education and the bonds have not yet been sold.

**Seattle, Wash.**—School addition, 2 story and base, brick, \$50,000. Architect's name not given. Owners City of Seattle. Bids are being taken for this work, which includes the complete construction of a building 104x150. Bids will be opened May 25th.

**Seattle, Wash.**—School, 2 story and base, reinforced concrete. Cost not stated. Architect Ellis F. Lawrence,

Seattle. Owners City of Seattle. The building will be fireproof. There will be six rooms in the new building, but provision has been made in the plans for the addition of two more units of six rooms. The plans will be completed by June 10th.

**Tacoma, Wash.**—Schools, 15 new buildings, \$690,000. Architect Frederick Heath, Savage-Scofield Bldg., Tacoma. Owners City of Tacoma. A bond election has just been carried, voting the above amount for school construction. The following buildings are provided for: Central, \$140,000; Cushman, \$15,000; Fern Hill, \$15,000; Jefferson, \$15,000; Manito Park, \$5,000; Oakland, \$35,000; Parental, \$35,000; Rogers, \$25,000; Regents Park, \$5,000; Sheridan, \$30,000; South Side, \$20,000; Whitman, \$15,000; Willard, \$35,000; High School, \$50,000; and South Side High School, \$250,000.

### Contracts Awarded.

**Patterson, Nevada Co., Cal.**—School, 2 story and base, reinforced concrete, \$25,000. Architect's name not given. Owners Patterson School District. Contractors Brown and Alcorn, S. F. Contract price \$25,000.

**San Francisco**—School, 2 story and base, brick and steel, \$80,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. Contractors General Construction O. C. Holt Co., \$57,838; Heating and Ventilating, Abrahamson and De Gear, \$8,589; Electric Work, National Electric Co., \$2,300; Plumbing, William S. Snook and Son, \$6,058. The Board of Public Works has also awarded the contract for the heating and ventilating of the Lowell High School, the contract going to Chas E. Thomas Co. for \$29,850.

## SEWERS, STREET WORK AND WATER SYSTEMS

**Elsinore, Riverside Co., Cal.**—Sewer system, \$20,000. Engineer Frank A. Lathrope, L. A. Owner City of Elsinore. The engineer has completed the preliminary plans which show two systems, one a gravity system with two outfalls, and the other using an automatic pumping plant. Bonds are yet to be voted.

**Bakersfield, Kern Co., Cal.**—Sewer. Cost not stated. Engineer Superintendent of streets Greeley of Bakersfield. Owner City of Bakersfield. The plans for an 18 inch sewer in I street from 4th to 20th street have been approved, and bids will be called for in about a week.

**Fort Barry, Marin Co., Cal.**—Concrete reservoir. Cost not stated. Engineer Constructing Q. M. Dept. U. S. A., Lt. Col. George McK. Williamson, officer in charge, Fort Mason, Cal. Owner U. S. Government. The plans for a 3,000,000 gallon reservoir are being prepared and bids will be asked for shortly.

**Seattle, Wash.**—Pipe line, \$80,000. City Engineering Dept., Seattle. Owners City of Seattle. The pipe line will be of steel, and will be used to convey the city water supply. The plans and specifications have been approved.

### Contracts Awarded.

**San Francisco**—Reinforced concrete reservoir, \$40,000. Engineer Construct-

ing Q. M. Dept. U. S. A., Lt. Col. George McK. Williamson, officer in charge, Fort Mason. Owner U. S. Government. Contractor J. J. Leonard, Builders' Exchange, S. F. Contract price \$41,951.

## —STORE BUILDINGS—

**San Francisco**—Store, 2 story and base, reinforced concrete, \$6,000. Architect Has Booker, 1136 Geary St., S. F. Owner F. J. O'Rourke. The building will be covered with cement plaster on the street elevation. There will be one store and offices above. The plans are being figured.

**San Francisco**—Store, 1 story and base, brick, \$6,000. Architect Nathaniel Blaisdell, 255 California St., S. F. Owner Lawrence McCreery. The building will be arranged for a cafe, and will have all the modern kitchen conveniences. The exterior will be faced with pressed brick and terra cotta. The plans are being figured.

**San Francisco**—Store and rooms, 3 story and base, reinforced concrete, \$40,000. Architect Harry Skidmore, Foxcroft Bldg., S. F. Owner's name withheld. The building will be arranged for several stores on the first floor and rooms above. The exterior will be covered with cement plaster. The plans are complete and figures are being taken.

**Campbell, Santa Clara Co., Cal.**—Store and lofts, 2 story and base, reinforced concrete, \$12,000. Architect F. D. Wolfe, Smout Bldg., San Jose. Owner B. O. Curry. There will be several small stores on the first floor and lofts above. The exterior will be of cement plaster.

**San Leandro, Alameda Co., Cal.**—Store, 1 story and base, brick, \$5,000. Architect J. C. Flugger, Crocker Bldg., S. F. Owner's name withheld. The building will contain 2 stores. The exterior will be faced with pressed brick. The plans are being figured.

**Pomona, Los Angeles Co., Cal.**—Stores, 2 story and base, brick. Cost not given. Architect Ferdinand Davis, First National Bank Bldg., Pomona. Owner's name withheld. The building will be arranged as a modern business block. The exterior will be faced with a cream-colored pressed brick. The plans are being prepared.

**Santa Monica, Los Angeles Co., Cal.**—Store, 1 story and base, brick, \$10,000. Architect H. C. Hollwedel, 205 Butler Bldg., Santa Monica. Owner E. D. Sweetser. The building is to be in the Mission style. The exterior will be faced with enameled brick and tile. The plans are complete.

**Los Angeles, Cal.**—Store and offices, 8 story and base. Class A construction, \$150,000. Architects Krempel and Erkes, 415 Henne Bldg., L. A. Owners Los Angeles Times Publishing Co. The plans for this building, which has been mentioned here before, are complete, and bids have been called for on the excavating. The plans for the balance of the work will be ready for figures shortly.

## THEATRES.

**San Francisco**—Theatre, 4 story and base. Class A. Cost not stated. Archi-

tect J. R. Miller, Lick Bldg., S. F. Owner John D. Spreckels et al. (Leasee Pantages Theatre Co.) The announcement that this lease has been signed was recently made public. The front part of the building will be occupied by stores and the rear by a fireproof theatre. The two buildings may be erected by separate contracts.

**San Francisco**—Theatre, 2 story and base, reinforced concrete, \$35,000. Architects O' Brien and Werner, Foxcroft Bldg., S. F. Owner company headed by Benj. Harris. The plans for this building have not been completed, and details cannot be given at this time. It is stated that the building will have a seating capacity of about 750.

**Fresno, Fresno Co., Cal.**—Theatre and hotel, 4 story and base, reinforced concrete and brick, \$225,000. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owner Robert L. Fargo. The plans for this work are still in the preliminary stage, and the details of the construction cannot be given. It is stated that the building will be the largest and most modern play house between San Francisco and Los Angeles.

**Long Beach, Los Angeles Co., Cal.**—Theatre and offices, 4 stor and base, brick and steel, \$50,000. Architect Robert B. Ogden, Long Beach. Owner Dr. Ernest A. Hall, 905 Ocean Ave. Long Beach. The building will cover an entire lot and will be fireproof. There will be stores and a large cafe on the first floor.

**Seattle, Wash.**—Theatre, 8 story and base, reinforced concrete, \$200,000. Architect W. Marbury Somervell, White Bldg., Seattle. Owners Phinney Realty and Investment Co. The owners have just announced the choice of their architect, and the matter of the exact height and nature of their new building is still somewhat in doubt. The 8 story project is strongly favored, but may be changed to a smaller building, costing \$75,000, and fitted for moving pictures and vaudeville shows.

## SEALED PROPOSALS.

### PROPOSALS FOR FURNISHINGS. (Bids opened June 5.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of Solano County, California, at the office of the Clerk of said Board at the Court House in the town of Fairfield, said Solano County, up to and including the hour of 10 o'clock a. m. on Monday, June 5th, 1911, for the following for the new Court House of said Solano County:

All metal and wood furniture, furnishings and fittings: Cork, tile and linoleum floor covering, window shades and window draperies, all lighting fixtures, all clocks, all cement walks and hitching posts; all, as provided for and set forth in the plans and specifications heretofore adopted by said Board of Supervisors on the 1st day of May, 1911, and which said plans and specifications are now on file with the Clerk of said Board, reference to which is hereby made.

Plans and specifications are also on file with Messrs E. C. Hemmings and W. S. Jones, associate architects for the Court House, at their office number 1005 K street, Sacramento, California.

A certified check for 10 per cent of the amount thereof shall accompany each bid. Bids may be submitted for all or any one of said propositions and the Board hereby reserves the right to reject any or all bids.

Dated May 1st, 1911

G. G. HALLIDAY,

County Clerk and Ex-Officio Clerk of the Board of Supervisors of said Solano County, California.

### CONSTRUCTING BUILDING.

(Bids opened May 29.)

SEALED proposals will be received by the Clerk of the Board of Trustees of the town of Willows, Glenn County, California, up to , and including 12 o'clock noon, of May 29th, and then publicly opened, for doing the following work: The complete construction, including heating and plumbing, of the new City Hall building in accordance with the plans and specifications as prepared by Architect C. H. Russell, 5th floor Humboldt Bank Bldg., San Francisco. Plans and specifications may be seen at the office of the architect in San Francisco or at the office of the Town Clerk of Willows, Cal.

### CONSTRUCTING BUILDING.

(Bids opened June 12.)

C.—Sealed proposals, plainly marked on the outside of the sealed envelope "Proposals for School House, Western Shoshone School, Nevada," and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian office until 2 o'clock p. m., June 8, 1911, inviting proposals for furnishing labor and material for construction and completion of school house for the Western Shoshone School, Nevada, in strict compliance with plans, specifications, and instructions to bidders, which may be examined at this office, U. S. Indian warehouse, San Francisco, Cal., and at the school. For further information apply to George B. Haggett, superintendent, Owyhee, Nev. R. G. VALENTINE, Commissioner.

### PROPOSALS FOR CASTINGS.

(Bids opened June 3.)

STEEL AND CASTINGS—Sealed proposals, endorsed "Proposals for Structural Steel for Seven Buildings," will be received at the Bureau of Yards and Docks, Navy Department, Washington,

until 11 o'clock a. m. June 3, 1911, and then and there publicly opened, for about 2,500 tons of fabricated structural steel and certain castings for seven buildings, delivered at the naval station, Pear Harbor, Territory of Hawaii. Plans and specifications can be obtained on application to the bureau or to the commandant of the naval station named. R. C. HOLLYDAY, Chief of Bureau.

### PROPOSALS FOR SEWERS.

(Bids opened May 24.)

OFFICE OF THE BOARD OF PUBLIC WORKS OF the City and County of San Francisco. Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 24th day of May, 1911, for doing the following street work to wit:

1. That the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances be constructed:

An 8-inch along the center line of Cabrillo street, between the easterly and center lines of Forty-second avenue, a 12-inch along the center line of Twenty-second avenue, between the northerly and center lines of Cabrillo street; a 15-inch with 1 brick manhole with cast iron frame and cover and galvanized wrought iron steps along the center line of Cabrillo street, between the center and westerly lines of Forty-second avenue; a 15-inch with 16 Y branches and 2 brick manholes with cast iron frames and covers and galvanized wrought iron steps along the center line of Cabrillo street, between Forty-second and Forty-third avenues; a 15-inch along the center line of Cabrillo street, between the easterly and westerly lines of Forty-third avenue; and an 18-inch along the center line of Forty-third avenue, between the northerly and center lines of Cabrillo street.

2. That a fifteen (15) inch, vitrified, salt-glazed, ironstone pipe sewer, with eighteen (18) Y branches be constructed along the center line of Geary street, between Thirty-third and Thirty-fourth avenues; that a fifteen (15) inch, vitrified, salt-glazed, ironstone pipe sewer, with one (1) brick manhole with cast iron frame and cover and galvanized wrought iron steps be constructed along the center line of Geary street, between the easterly and center lines of Thirty-fourth avenue; and that a twelve (12) inch, vitrified, salt-glazed, ironstone pipe sewer be constructed along the center line of Geary street, between the center and westerly lines of Thirty-fourth avenue.

### PROPOSALS FOR STREET WORK.

(Bids opened May 24.)

OFFICE OF THE BOARD OF PUBLIC WORKS OF the City and County of San Francisco. Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 24th day of May, 1911, for doing the following street work to wit:

1. That the crossing of Excelsior avenue and Paris street be improved by constructing granite curbs, artificial stone sidewalks and brick catchbasins (cesspools) with cast iron frames, gratings and traps, and 10-inch vitrified, salt-glazed, ironstone pipe culverts on

the four angular corners thereof, where not already constructed, and by paving the roadway thereof with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface.

2. That the crossing of Boyce street and Geary street be improved by constructing artificial stone sidewalks on the angular corners, where not already constructed, and by constructing granite curbs and a brick cesspool (catchbasin) with cast iron frame, grating and trap and 10-inch, vitrified, salt-glazed, ironstone pipe culvert on the southwesterly angular corner of said crossing.

### FURNISHING HARDWARE.

OFFICE OF THE BOARD OF PUBLIC WORKS OF the City and County of San Francisco. Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 10 o'clock a. m. and 11 o'clock a. m., on Monday, the 5th day of June, 1911, for furnishing and delivering to the City and County of San Francisco, the following materials to wit:

The necessary hardware for the Hall of Justice, located at the southeasterly corner of Washington and Kearny streets.

### CONSTRUCTING BUILDING.

(Bids opened June 24.)

C.—Sealed proposals will be received in this office until 3 o'clock p. m. on the 24th day of June, 1911, and then opened for the construction, complete, including plumbing gas piping, heating apparatus, and electric conduits and wiring of the U. S. Post Office at Lead, South Dakota, in accordance with drawings and specifications, copies of which may be obtained from the custodian of site at Lead, South Dakota, or at this office at the discretion of the supervising architect. JAMES KNOX TAYLOR, Supervising Architect.

### CONSTRUCTING BUILDING.

(Bids opened June 22.)

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C.—Sealed proposals will be received in this office until 3 o'clock p. m. on the 22nd day of June, 1911, and then opened for the construction, complete, including plumbing, gas piping, heating apparatus, and electric conduits and wiring of the U. S. Post Office at La Grande, Oregon, in accordance with drawings and specifications, copies of which may be obtained from the custodian of site at La Grande, Oregon, or at this office at the discretion of the Supervising architect. JAMES KNOX TAYLOR, Supervising Architect.

### CONSTRUCTING BRIDGE.

(Bids opened June 6.)

OFFICE OF the Clerk of the Board of Supervisors of the County of Santa Barbara, California.—Sealed proposals will be received until 10 o'clock a. m. June 6, 1911, for the furnishing of all labor and material necessary for the construction of a bridge across Loma Abaja Creek at Trainor Crossing, in the Third Road District, in the County of Santa Barbara, State of California. Said work to be done in accordance

with plans, profiles and specifications on file in the office of the county clerk of said county and open to the inspection of bidders. Each bid for the above must be accompanied by a certified check, payable to the chairman of the Board of Supervisors, for 10 per cent of the amount bid, as a guarantee that the bidder, if successful, will enter into a contract satisfactory to the Board of Supervisors, and in addition thereto, the successful bidder will be required to file good and sufficient bonds for the faithful performance of said contract. The board reserves the right to reject any and all bids.

By order of the Board of Supervisors of Santa Barbara County, made May 1, 1911.  
C. A. HUNT,  
County Clerk and ex-officio clerk of the Board of Supervisors.

### PROPOSALS FOR PLUMBING.

(Bids opened June 5.)

NOTICE is hereby given that sealed bids for furnishing plumbing fixtures for the Main Cell Building, San Quentin, California, will be received at the office of the State Department of Engineering, room 84, State Capitol, Sacramento, Cal. up to 12 o'clock, noon, Monday, June 5, 1911. Specifications and all necessary information may be obtained upon application to the State Department of Engineering, Sacramento, Cal. and must be marked "Proposals for Plumbing Fixtures, San Quentin Prison." N. ELLERY, State Engineer.

## San Francisco.

**Apartment House**—2 story and base, frame, \$8,000. San Francisco. Architect J. C. Flugger, Crocker Bldg. Owner's name withheld. The building will contain a number of well-arranged apartments. The exterior will be covered with cement plaster on metal lath. The architect has completed the plans and is now taking figures on the work.

**Residence**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner John Rench, 438 Judah St., S. F. The dwelling will contain 7 rooms and bath. The exterior will be of cement plaster on metal lath. The work is to be done by Day Labor, and the owner is now purchasing materials.

**Residence**—2 story and base, frame, \$2,500. San Francisco. Architect none. Owner C. A. Hall, 1318 5th Ave. The dwelling will contain 6 rooms and bath. The exterior will be of brick veneer and rustic. The work is to be done by Day Labor.

**Hotel**—5 story and base, steel and brick, \$55,000. San Francisco. Architects Cunningham and Politeo, Chronicle Bldg., S. F. Owner George T. Marye. There will be several stores on the first floor and a modern hotel above, equipped with steam heat and elevator service. The excavating and foundation work has already been let and figures are now being taken on the balance of the work. Contracts will be awarded at once.

**Hotel**—6 story and base, steel and brick, \$60,000. San Francisco. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner Chas. Warren. There will be several stores on the first floor, and the remaining five floors will be divided

into hotel rooms. There will be steam heat and elevator service. The exterior will be faced with pressed brick and trimmed with terra cotta. The plans are complete and the architect is now taking figures.

**Flats**—2 story and base, frame, \$11,000. San Francisco. Architect Chas. Peter Weeks, Mutual Bank Bldg., S. F. Owner Mrs. James Campbell. This building will contain two large flats beautifully finished. There will be furnace heat and coal grates. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**Flats**—3 story and base, frame, \$5,500. San Francisco. Architect none. Owner Marcellin Chavanetti, 1148 Green St., S. F. The building will contain three flats of 6 and 7 rooms each. The exterior will be of cement plaster on metal lath. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$3,500. San Francisco. Architect none. Owner A. Foscarini, 42 Allen St., S. F. There will be three flats in the building. The plans are in the hands of the owner and the work will be done by Day Labor.

**Apartment House**—2 story and base, brick, \$32,000. San Francisco. Architects R. B. Young and Son, 701 Lankersham Bldg., L. A. Owner's name withheld. The building will be arranged for one store on the first floor and a number of apartments above. The exterior will be faced with pressed brick. There will be wall beds used. Each apartment will have a connecting bath. The architects are preparing the plans.

**Apartment House**—6 story and base, brick and steel, \$45,000. San Francisco. Architect M. Mattanovich, Pacific Bldg., S. F. Owner A. Roy Harrison. The building will be a modern structure in every detail. There will be steam heat, elevator service and wall beds. All apartments will have connecting baths. The exterior will be faced with pressed brick and terra cotta. The architect has secured a building permit and the work will be started at once.

**Flats**—3 story and base, frame, \$25,000. San Francisco. Architects Bearwald and Fabre, Metropolis Bank Bldg., S. F. Owner's name withheld. The preliminary drawings for this work have just been started, and the details cannot be given at this time. The building will be one of the most modern yet erected in the city and will contain many unique features.

**Garage and Lofts**—2 story and base, brick, \$20,000. San Francisco. Architects Ross and Burgren, 222 Kearny St., S. F. Owner Joseph Estate. The exterior of the building will be faced with pressed brick. There will be large display windows. A freight elevator will be installed. The plans are complete and the architects are taking figures.

**Flats**—3 story and base, frame, \$9,000. San Francisco. Architect John Davis Hatch, Humboldt Bank Bldg., S. F. Owner Mrs. N. K. Nellson. The building will contain three flats of 5 and 6 rooms each. The interiors will be handsomely finished in pine and hardwood. The plans are being figured.

**Flats**—3 story and base, frame, \$8,000. San Francisco. Architect none. Owner W. W. Yager, 330 Cabrillo St., S. F. The building will contain six 4-room apartments, fitted with every modern convenience. There will be

private baths. The plans are in the hands of the owner and he will have the work done by Day Labor.

**Flats**—3 story and base; frame, \$12,000. San Francisco. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owner M. A. Lynch. The building will contain six flats of 5 and 6 rooms each. There will be all of the most modern conveniences. The plans are complete and are being figured.

**Hotel and Stores**—3 story and base, steel and brick, \$45,000. San Francisco. Architect Lewis M. Gardner, Phelan Bldg., S. F. Owner Edward B. Hines. The building will contain 5 stores and about 95 rooms. There will be a steam heating system. The exterior will be faced with red pressed brick. The plans are out for figures.

**School**—2 story and base, steel and brick, \$65,000. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. The Board of Public Works are now taking figures for the plumbing, heating and ventilating, electric work and vacuum cleaning system for the Lincoln School. Bids will close on May 31st.

**Residence**—2 story and base, frame, \$3,000. San Francisco. Architect E. E. Young, 251 Kearny St., S. F. Owners Lettich Bros., 365 Fell St., S. F. The dwelling will be of brick veneer and cement plaster. The interior will be handsomely finished. The plans are complete and the work is to be done by Day Labor.

**Residence**—3 story and base, frame, \$12,000. San Francisco. Architect George A. Schastey, Monadnock Bldg., S. F. Owner John D. Kerr, Monadnock Bldg., S. F. The plans have been turned over to the owner, and he is now taking figures. The exterior will be of cement plaster on metal lath. The interior will be handsomely finished.

**Store**—2 story and base, reinforced concrete, \$6,000. San Francisco. Architect Has Booker, 1136 Geary St., S. F. Owner F. J. O'Rourke. The building will be covered with cement plaster on the street elevation. There will be one store and offices above. The plans are being figured.

**Store**—1 story and base, brick, \$6,000. San Francisco. Architect Nathaniel Blaisdell, 255 California St., S. F. Owner Lawrence McCreery. The building will be arranged for a cafe and will have all modern kitchen conveniences. The exterior will be faced with pressed brick and terra cotta. The plans are being figured.

**Store and Rooms**—3 story and base, reinforced concrete, \$40,000. San Francisco. Architect Harry Skidmore, Foxcroft Bldg., S. F. Owner's name withheld. The building will be arranged for several stores on the first floor and rooms above. The exterior will be covered with cement plaster. The plans are complete and figures are being taken.

**Theatre**—4 story and base. Class A. Cost not stated. San Francisco. Architect J. R. Miller, Lick Bldg., S. F. Owner John D. Spreckels et al. (Lensee Pantages Theatre Co.) The announcement that this lease has been signed was recently made public. The front part of the building will be occupied by stores and the rear by a fireproof theatre. The two buildings may be erected by separate contracts.

**Theatre**—2 story and base, reinforced concrete, \$35,000. San Francisco. Architects O'Brien and Werner, Foxcroft

Bldg., S. F. Owner company headed by Benj. Harris. The plans for this building have not been completed, and details cannot be given at this time. It is stated that the building will have a seating capacity of about 750.

Contracts Awarded.

Fire House—2 story and base, brick and steel, \$25,000. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. Contractor O. C. Holt, S. F. General contract on only \$11,940.

Reinforced Concrete Reservoir—\$40,000. San Francisco. Engineer Constructing Q. M. Dept., U. S. A., Lt. Col. George McK. Williamson, officer in charge, Fort Mason. Owner U. S. Government. Contractor J. J. Leonard, Builders' Exchange, S. F. Contract price \$41,951.

**Oakland and Alameda County.**

**Bungalow**—1½ story and base, frame, \$2,500. Berkeley, Alameda Co., Cal. Architect none. Owner Carl Ericsson, 2421 Edwards St., Berkeley. The dwelling will contain 6 rooms and bath. The exterior will be of resawed shingles. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$6,000. Oakland, Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Mrs. N. Thompson. The exterior of the dwelling will be of cement plaster on metal lath. The interior will be handsomely finished. There will be a warm air heating system. The plans are being figured.

**Cottage**—1 story and base, frame, \$2,000. Oakland, Cal. Architect none. Owner O. L. Burritt, 377 63rd Ave., Oak-land. The cottage will contain 5 rooms and bath. The exterior will be rustic. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$3,500. San Leandro, Alameda Co., Cal. Architect H. M. Frosthalm, 6457 Dun-can St., Oakland. Owner Mr. Edgar. The dwelling will be in the rustic style with the exterior covered with shingles. The interior will be finished in pine and hardwood. The plans are being figured.

**Flats**—2 story and base, frame. Cost not given. Oakland, Cal. Architect Chas. W. McCall, Central Bank Bldg., Oakland. Owner Dr. J. Maher. The building will contain two flats of 5 rooms each, with all modern conveniences. The exterior will be covered with shingles. The plans are complete and are now being figured.

**Add. to Flats**—2 story and base, frame, \$8,000. Oakland, Cal. Architect A. Merrill Bowser, Central Bank Bldg., Oakland. Owner's name withheld. The building will be remodeled so as to accommodate a store on the first floor and living rooms above. The exterior will be of cement plaster on metal

lath. The plans are complete and are now being figured.

**Flats**—2 story and base, frame, \$4-000. Oakland, Cal. Architect J. M. Moss, 371 13th St., Oakland. Owner L. C. Robinson. The building will be in the form of a double residence with the exterior covered with shingles. There will be coal grates. The plans are now out for figures.

**Flats**—2 story and base, frame. Cost not given. Oakland, Cal. Architect Robert L. Holt, 3774 Grove St., Oakland. Owner Mrs. Anna C. Smith. The build-ing will contain 2 modern flats with the bedrooms equipped with Marshall-Stearns wall beds. The exterior will be covered with shingles. The plans are being figured.

**Bungalow**—1 story and base, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner E. C. Wilson. The dwelling will be fitted with all modern conveniences and will be hand-somely finished. The exterior will be covered with shingles. The plans are complete and are being figured.

**Residence**—2 story and base, frame, \$4,000. Berkeley, Alameda Co., Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner E. C. Wilson. This dwelling will be erected on the property adjoining the lot on which the same owner is erecting another building. The plans are complete and figures are being taken.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect Willford. Owner H. D. Ir-win, 3264 Adeline St., Oakland. The dwelling will contain 5 rooms and bath. The plans are in the hands of the own-er ad figures are being taken.

**Residence**—2 story and base, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect none. Owner W. W. Dodge, 2230 College Ave., Berkeley. The dwelling will contain 7 rooms and bath. There will be a furnace installed and coal grates. The exterior will be covered with shingles. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$4,000. Berkeley, Alameda Co., Cal. Architect W. H. Ratcliff, First National Bank Bldg., Berkeley. Owner Prof. J. T. Allen. The dwelling will contain 8 rooms and 2 baths. The exterior will be covered with shingles. The plans are being figured.

**Bungalow**—1 story and base, frame, \$2,500. Piedmont, Alameda Co., Cal. Architect none. Owner R. S. Chad-burne. The work is to be done under the direction of the Building Dept. of the Realty Syndicate, Oakland. The plans are now out for figures.

**Residence**—2 story and base, frame, \$4,500. Oakland, Cal. Architects T. D. Newsom and Son, 906 Broadway, Oak-land. Owner Franklin E. Coater. The dwelling will contain 8 rooms and bath. There will be coal grates. The exter-ior will be of cemet plaster on metal lath. The plans are being figured.

**Apartment House**—3 story and base, frame, \$20,000. Oakland, Cal. Archi-tect Sidney B. Newsom, Commercial Bldg., Oakland. Owner same. The building is designed in the Mission style and will contain a number of apartments of 3 and 4 rooms each. There will be private baths, wall beds and steam heat. The exterior will be of metal lath and plaster. The architect is preparing the plans.

**Bank Alterations**—\$12,000. Oakland, Cal. Architects Meyer and Reed, Oak-

land Bank of Savings Bldg., Oakland. Owners Harbor Bank. The work in-cludes the complete remodeling of a part of the St. Marks Hotel building for banking quarters, and the installa-tion of modern bank fixtures and vaults. The plans for the work are being prepared.

**Warehouse**—2 story and base, brick. Cost not stated. Emeryville, Alameda Co., Cal. Architects Cunningham and Politeo, Chronicle Bldg., S. F. Owner T. W. Corder. The building will be of extra heavy construction and there will be no interior finish. The exterior will be of stock brick. The plans are being figured.

**Hospital Addition**—2 story and base, frame. Cost not stated. Alameda, Ala-meda Co., Cal. Architect Charles Mc-Rea, Alameda. Owner Alameda Sanita-rium. The building will have accom-modations for 15 nurses besides diet kitchens, baths and dining rooms. The plans are practically complete and fig-ures will be taken shortly.

**Hospital**—4 story and base, steel and brick, \$75,000. Oakland, Cal. Archi-tects Meyer and Reed Oakland Bank of Savings, Oakland. Owners Drs. Cun-ningham and Chamberlin. The build-ing will have accommodations for 40 patients besides the nurses. There will be steam heat, elevators and all other modern conveniences. The exterior will be of cement plaster. The plans are being prepared.

**Store**—1 story and base, brick, \$5,000. San Leandro, Alameda Co., Cal. Archi-tect J. C. Flugger, Crocker Bldg., S. F. Owner's name withheld. The building will contain 2 stores. The exterior will be faced with pressed brick. The plans are being figured.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner Junk-Biddell Investment Co., Berkeley National Bank Bldg., Berkeley. The cottage will contain 5 rooms and bath. The owners are now taking figures.

**Passenger Station**—3 story and base. Class A construction, \$400,000. Oak-land, Cal. Architect Jarvis Hunt, Chi-cago, Ill. Owners Southern Pacific Co. The building is to be known as the 16th street station. The plans have been put out for figures by the Engineering Department of the company with offices in the Flood Bldg., S. F. The bids are to be in early in June. Eastern con-tractors are also figuring the work.

**MARIN, CONTRA COSTA AND SONOMA COUNTIES.**

**Court House Furnishings**—Cost not stated. Fairfield, Solano Co., Cal. Architects Hemmings and Jones, 1005 K St., Sacramento. Owners Solano County. Bids are now being called for the metal furniture, fittings, cork, linoleum and tile floors, window shades and draperies, lighting fixtures, clocks, cement walks and hitching posts for the new court house now under construction. Bids will be opened by the Board of Supervisors on June 5th. For official proposals see columns in this issue.

**Flats**—2 story and base, brick, \$25,000. Richmond, Contra Costa Co., Cal. Architect G. Dahl, 126 Ohio St., Richmond. Owner Daniel Barton. The building will be arranged for stores on the first floor and several flats above. The exterior will be faced with pressed brick and the interior will be trimmed with pine. There will be coal grates. The plans are complete and figures are being taken.

**Plumbing Fixtures**—Cost not stated. San Quentin, Marin Co., Cal. State Engineer Ellery, 84 Capitol Bldg., Sacramento. The State Engineer is now taking figures for the plumbing fixtures for the main cell block of the State Prison. Bids will be opened June 5th.

**Hotel**—3 story and base, reinforced concrete, \$50,000. Concord, Contra Costa Co., Cal. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Concord Hotel Co. The building will contain about 60 rooms and 30 baths. The design is in the Spanish Mission style. There will be steam heat and a vacuum cleaning system.

**Concrete Reservoir**—Cost not stated. Fort Barry, Marin Co., Cal. Engineer Constructing Q. M. Dept., U. S. A., Lt. Col. George McK. Williamson, officer in charge, Fort Mason, Cal. Owner U. S. Government. The plans for a 3,000,000 gallon reservoir are being prepared, and bids will be asked for shortly.

**LIENS FILED.**

**MARIN COUNTY.**

Recorded	Amount
May 17, 1911—Mill Valley, Marin Co., Cal. Nicholas P Yost, C E Christley, firm name Mill Valley Lumber Co vs Joseph Motore & S E Woods .....	\$37.76

**Sacramento, Stockton & Northern California.**

**School Dormitory**—2 story and base, brick, \$33,000. Davis, Cal. Architect John Galen Howard, 604 Mission St., S. F. Owner University of California. The appropriation for this work has just been made, and the details of construction have not been settled upon. The architect has started the preliminary drawings.

**Bungalow**—1½ story and base, frame, \$3,000. Stockton, San Joaquin Co., Cal. Architect P. P. Morrell, Stockton. Owner Mr. Foreman. The bungalow will contain 5 rooms and bath. The exterior will be covered with rustic. The plans are being figured.

**Residence**—2 story and base, frame,

\$4,250. Stockton, San Joaquin Co., Cal. Architect Walter King, Elks' Bldg., Stockton. Owner Dr. Eddy. The dwelling will contain 8 rooms and bath. The exterior will be covered with rustic. The architect has the figures under advisement.

**Bungalow**—1 story and base, frame, \$3,500. Stockton, San Joaquin Co., Cal. Architect P. P. Morrell, Stockton. Owner Mr. Saini. The dwelling will contain 6 rooms and bath. The exterior will be covered with rustic. The plans are being prepared.

**Court House**—2 story and base, reinforced concrete and stone, \$125,000. Dayton Lyon Co., Nev. Architect F. J. De Louchant, Reno, Nev. Owners Lyon County. This work has been mentioned here before when the architect was first selected. The working drawings are now complete and the official call for bids has been published.

**Court House**—2 story and base. Class A construction, \$125,000. Placerville, El Dorado Co., Cal. Architects Cuff & Diggs, Sacramento. Owners El Dorado County. The working drawings for this work have been forwarded to the Supervisors and are now ready for figures. There has been some trouble with the sale of the bonds voted for the construction of the building, and bids will not be called by the Board until the matter is straightened out.

**City Hall**—3 story and base, brick and steel, \$50,000. Willows, Glenn Co., Cal. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner City of Willows. This work was reported here when the architect was awarded the competition. The plans are now complete and the Clerk of the City Trustees has been instructed to advertise for bids which will be opened May 29.

**Bank and Offices**—2 story and base, steel and brick, \$50,000. Willows, Glenn Co., Cal. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner (no banking institution and name has not yet been selected.) The plans for this work are now complete and will be forwarded to Willows shortly for figures. The exterior will be of pressed brick. The interior will be of marble and mahogany.

**Church**—2 story and base, brick and frame. Oroville Butte Co., Cal. Architect C. H. Russell, Humboldt Bank Bldg., S. F. Owner First Congregational Church of Oroville. This work has been mentioned here before when the architect started the preliminary drawings. These have been somewhat revised, and a more pretentious building is to be erected. The working drawings will be complete in a short time and bids will be taken.

The plans for this work will be complete and ready for figures about May 20th. Plans at either the architect's offices or at the offices of the Clerk of the School Board, Richland.

**School**—1 and 3 story and base, brick and concrete \$150,000. Wenatchee, Wash. Architects Stephen and Stephen, New York Bldg., Seattle. Owners City of Wenatchee. This work has been mentioned here before when the plans were being prepared. The work is now ready for figures and the contract will be awarded as soon as figures can be taken.

**Lodge Hall**—2 story and base, reinforced concrete \$12,000. Everett, Wash. Architect Samuel Ward, Everett. Owners Knights of Pythias Hall Ass'n. There will be stores on the first floor and lodge rooms above. The exterior will be faced with cement plaster. The plans are now being prepared.

**Residence**—2 story and base, frame \$10,000. Seattle, Wash. Architects Williatzen and Byrne, Henry Bldg., Seattle. Owners Olsen Land Co. The dwelling will contain 9 rooms and two baths. The exterior will be of rustic. The plans are being prepared.

**Residence**—2 story and base, brick \$50,000. Seattle, Wash. Architects Howells & Stokes, White Bldg., Seattle. Owner C. F. White. The building will be one of the most pretentious dwellings erected in the Highlands for some time. There will be a hot water heating system. Hardwoods will be used throughout. The plans are being prepared.

**Warehouse**—1 story and base, brick, \$16,000. Tacoma, Wash. Architects Bullard and Hill, Provident Bldg., Tacoma. Owners Sperry Flour Co. The building will be 30x36, and the exterior will be of stock brick. The plans are being prepared.

**Warehouse**—1 story and base, reinforced concrete, \$20,000. Spokane, Wash. Architect Ballard Plannery, Kuhn Bldg., Spokane. Owners America Fire Brick Co. The plans have been turned over to the owners and the work will be done by Day Labor.

**Bridge**—Steel and concrete. Cost not stated. Ridgefield, Wash. Engineer County Surveyor Clarke County. Owners Clarke Co. The bridge will be a steel structure with reinforced concrete abutments. The plans are being prepared.

**Docks**—3 pile and wood, \$15,000 each. Seattle, Wash. City Engineer of Seattle. Owners City of Seattle. The property in Madrona Park district has been condemned and the work will be started this summer.

**Court House**—2 story and base. Class A construction, \$150,000. Moscow, Latah Co., Idaho. Architects Strltesky and Rooney, Empire State Bldg., Spokane. Owners Latah County. The building will be 60x150, of fireproof construction with reinforced concrete floors. The exterior will be of pressed brick. The interior trim will be of metal. A county jail will be erected in connection with the court house. The plans are now being prepared.

**Church**—1 story and base, brick and concrete, \$6,000. Tacoma, Wash. Architect Frank Mahon, Parkland, Wash. Owners Slavonian Catholic Church of Tacoma. The plans for this work are complete and contracts will be awarded at once.

**Church**—2 story and base, reinforced concrete, \$50,000. Seattle, Wash. Architects Clark and Bristow, Seattle. Owners First Christian Church of Seattle. The building will have a 12-foot basement under the whole structure. The seating capacity of the main auditorium will be about 1,000. There will be steam heat and other modern improvements. The plans will be ready for figures shortly.

**Post Office**—2 story and base, brick and steel. Cost not stated. Leads, South Dakota. Architect John Knox Taylor, Washington, D. C. Owners U. S. Government. The plans for this building are complete and bids are being

taken. Bids will be opened in Washington on June 24th.

**Hotel**—2 story and base, reinforced concrete, \$18,000. Seattle, Wash. Architects Josenhans and Alleb, Hinchley Bldg., Seattle. Owner's name withheld. This work has been mentioned here before, and at that time the owner had contemplated a brick structure. The plans were completed on May 18th and figures will be taken at once.

HOYT MAY 20 w n  
**Pipe Line**—\$80,000. Seattle, Wash. City Engineering Dept. Owners City of Seattle. The pipe line will be of steel, and will be used to convey the city water supply. The plans and specifications have been approved.

**Railroad Construction**—Cost not stated. Bremerton to Gray's Harbor, Wash. L. H. Gray of Seattle representing the Puget Sound and Southern R. R., has been granted a franchise through the town of Bremerton for a road on which will be operated street and interurban cars. The franchise stated that work must be started within one year and completed within three years.

**Freight and Passenger Stations**—\$750,000. Centralia, Wash. Engineering Dept. Northern Pacific R. R. Co., Seattle. Owners Northern Pacific, Great Northern and O. W. R. and N. Co. It has been officially announced that the three roads mentioned will expend the above amount in constructing freight and passenger depots, round houses, repair shops and yards during the summer.

**School Addition**—2 story and base, brick, \$50,000. Seattle, Wash. Architect's name not given. Owners City of Seattle. Bids are being taken for this work, which includes the complete construction of a building 104x150. Bids will be opened May 25th.

**School**—2 story and base, reinforced concrete. Cost not stated. Seattle, Wash. Architect Ellis F. Lawrence, Seattle. Owners City of Seattle. The building will be fireproof. There will be six rooms in the new building, but provision has been made in the plans for the addition of two more units of six rooms. The plans will be completed by June 10th.

**Schools**—15 new buildings, \$690,000. Tacoma, Wash. Architect Frederick Heath, Savage-Scofield Bldg., Tacoma. Owners City of Tacoma. A bond election has just been carried, voting the above amount for school construction. The following buildings are provided for: Central, \$140,000; Cushman, \$15,000; Fern Hill, \$15,000; Jefferson, \$15,000; Manito Park, \$5,000; Oakland, \$35,000; Parental, \$35,000; Rogers, \$25,000; Regents Park, \$5,000; Sheridan, \$30,000; South Side, \$20,000; Whitman, \$15,000; Willard, \$35,000; High School, \$50,000; and South Side High School, \$250,000.

**Theatre**—8 story and base, reinforced concrete, \$200,000. Seattle, Wash. Arch. W. Marbury Somervell, White Bldg., Seattle. Owners Phinney Realty and Investment Co. The owners have just announced the choice of their architect, and the matter of the exact height and nature of their new building is still somewhat in doubt. The 8 story project is strongly favored, but may be changed to a smaller building, costing \$75,000, and fitted for moving pictures and vaudeville shows.

**Residence**—2 story and base, frame, \$8,000. Seattle, Wash. Architects Breseman and Durfee, Central Bldg., Seattle. Owner's name withheld. The

dwelling will contain 9 rooms and bath. The exterior will be covered with shingles. There will be furnace heat. The plans are being prepared, and the work will be done by Day Labor.

**Residence**—2 story and base, frame and brick, \$15,000. Seattle, Wash. Architect Roy Chapman, 726 Northern Bank Bldg., Seattle. Owner J. S. Holt. The dwelling will contain 12 rooms and baths. The exterior will be faced with pressed brick veneer. There will be a warm air heating system. The owner has not decided whether or not to let a general contract or to do the work by Day Labor.

### Contracts Awarded.

**Store**—5 story and base, reinforced concrete \$150,000. Seattle, Wash. Architect R. C. Heath, 615 Cray Bldg., Seattle. Owners Grote-Rankin Co. Contractor P. A. Baillargeon, Seattle. Contract price approximately \$150,000. The plans for this building have just been started and while the owners have decided upon their contractor the work will not be started until mid-summer.

**Apartment House**—3 story and base, brick, \$45,000. Seattle, Wash. Architect O. M. Broline, Portland. Owner Alexander Pearson, Seattle. Contractors Pearson Construction Co., Seattle. Contract price \$45,000.

**Warehouse**—1 story and base, brick \$16,000, Seattle, Wash. Architects Huron Bros., Seattle. Owners same. Contractors F. S. Misho, Globe Bldg., Seattle. Contract price \$16,000.

**Bridge**—Fixed span and steel draw gridge, \$52,000. Skagit, Wash. Engineers Bowermab and McCloy, Central Bldg., Seattle. Owners Skagit County. Contractors Lance and Peters, 314 Walger Bldg., Seattle. Contract price \$25,377 and \$26,061.

## Portland and Oregon.

**Apartment House**—5 story and base, brick and steel, \$75,000. Portland, Ore. Architects R. F. Wessell and Co., Portland. Owners same. The building will contain 43 apartments of 2, 3 and 4 rooms each. There will be wall beds and steam heat. The exterior will be of pressed brick and terra cotta. The plans will be ready for figures about June 1st, and all contracts will be let separately.

**Lodge Hall**—2 story and base, brick \$40,000. Corvallis, Ore. Architects Bennet and Hendericks, Portland. Owner Masonic Hall Ass'n. The building will be 100x100 and the first floor will contain fine lodge rooms. The exterior will be of pressed brick. The plans will be figured in about a week.

**Residence**—2 story and base, frame \$8,500. Portland, Ore. Architect E. N. Larry, Portland. Owner John Veasen. The dwelling will contain 12 rooms and will be heated by a furnace. The trim will be largely of hardwood. The plans are now complete and work will be started at once.

**Apartment House**—5 story and base, brick, \$75,000. Portland, Ore. Architects R. F. Wessell & Co., Yeon Bldg., Portland. Owner's name withheld. The building will contain 43 apartments arranged in suites of 2 and 3 rooms each. There will be steam heat, elevator service, wall beds and all other modern improvements. The exterior will be faced with light colored pressed brick. The plans will be complete and ready for figures by June 1.

**Apartment House**—3 story and base, brick \$40,000. Portland, Ore. Architects Claussen and Claussen, Portland. Owner George W. Jackson. The building will be 100x100, and will be arranged for stores on the first floor. The upper floors will have 18 apartments of 2 and 3 rooms each to the floor. There will be steam heat, wall beds and private baths. The architects are preparing the plans.

**Flats**—2 story and base, frame, \$7,000. Portland, Ore. Architect George Foote Durham, Portland. Owner J. Levinger. The building will contain 4 flats of 5 and 6 rooms each. The exterior will be of brick veneer and rustic. There will be furnace heat. The plans are now complete. The work is to be done by Day Labor.

**Flats**—2 story and base, frame, \$8,000. Portland, Ore. Architect D. B. Flickinger, Portland. Owner J. L. Glazik. The building will be 40x74, and will contain 8 suites of 3 rooms and bath each. There will be furnace heat. The plans are being prepared.

**Post Office**—2 story and base, steel and brick. Cost not stated. La Grande, Ore. Architect John Knox Taylor, Washington, D. C. Owners U. S. Government. The plans for this work are complete and bids are being taken. Bids will be opened at Washington June 22.

**Post Office**—2 story and base, stone and brick. Cost not stated. Albany, Ore. Architect John Knox Taylor, Washington, D. C. Owners U. S. Government. The plans for this building will be forwarded to coast cities for figures early in July. A copy of the same have already reached the Postmaster at Albany.

### Contracts Awarded.

**Passenger Depot**—1 story, brick and stone. Cost not stated. Vale, Ore. Architect D. H. Ashton, Portland. Owners Oregon Short Line. Contractors Bayles and McDonald, Vale, Ore. Contract price not stated.

## AN IMPORTANT PAINT CONSTITUENT

### United States Geological Survey Issues Report on Production of Barytes.

Barytes, or heavy spar, is an important constituent of mixed paints. It is known as a reinforcing or inert pigment and in this respect may be classed with gypsum and silica. In the past the overloading of mixed paints with inert pigments has been the main source of a strong prejudice that has grown in the minds of consumers against ready mixed paints. After very thorough laboratory tests the scientific section of the Paint Manufacturers' Association and the Master Painters' Association of Philadelphia have concluded that although barytes and other inert pigments when used alone, if intelligently used within certain limits they form an important ingredient in a satisfactory mixed paint and that their use in paints in quantities up to 15 per cent is thoroughly justified, producing better paints for general exterior painting.

### Mixed Paints to be in Better Favor.

Mr. Ernest F. Birchard, in an advance chapter from Mineral Resources of the United States for 1909—"The production of Barytes and Strontium"—states that these investigations have demonstrated the legitimate place of barytes products among pigments, helping to restore confidence in them, and

that it is expected that the depression in the trade caused partly through mis-use of the material by paint makers and partly through misapprehension on the part of consumers will soon be overcome. The report states that the quantity of crude barytes mined in the United States in 1909 was 58,377 short tons, valued at \$198,561, an increase in quantity of 19,850 tons and of \$78,119 in value over the figures for 1908, or 51.5 per cent in quantity and 64.8 per cent in value. The production in 1909, however, was considerably less than that in 1907, which was 89,621 tons. The imports of crude barytes in 1909 were valued at \$29,028; of manufactured barytes at \$25,679.

#### Strontium Production a Negligible Industry.

In the same pamphlet Mr. Burchard reports that no strontium ore was produced in the United States in 1909 and that only \$270 worth of strontium salts was imported.

## A Successful Firm.

The HAMILTON PURE AIR RANGE AND GRATE COMPANY has moved their Oakland office from the Bacon Block to 1371 Broadway, opposite the new City Hall annex. This new location gives them room to display and demonstrate their heating and ventilating appliances. They demonstrate from 8 A. M. to 6 P. M. and later by appointment.

The San Francisco address remains the same, 418 Mechanics' Bldg., in charge of Wilson and Wilson, also the Walker Stove Co., 426-428 Sutter St.

All members of this Corporation are Oakland and San Francisco men of exceptional business ability, their reliability and good business judgment has been proven by more than twenty years successful business in Cities about the Bay. These men have placed many thousand dollars behind this manufacturing enterprise.

W. S. Hamilton, the patentee, has supervision of installing all grates, logs and stoves thus assuring perfect satisfaction and permanency in the work.

Call and see them demonstrate their appliances at above addresses, or call them up, or drop them a card and ask them to mail you their twenty page booklet illustrating and explaining the many advantages over all other gas heating appliances, entirely eliminating all the objections to gas as fuel, no fumes, no odor, no sweating, as it does not consume the oxygen from the room but brings fresh air in from the outside of building by means of a three-inch pipe to supply the mixing chamber continually, also brings in PURE AIR full of oxygen into the room (warmed) while burner is going. All the above they guarantee.

The many advantages over coal and wood you already know, no carrying in coal and wood with the dirt, and carrying out ashes, no loss of heat as this heater system needs no flume or chimney unless you want it for ornament. This system consumes about half the gas that any other gas appliance consumes and both heats and ventilates at same time.

This is truly a wonderful invention, and is past the experimental stage. This company can give you the names of many prominent citizens and addresses on both sides of the bay who

have used this heating system for more than two years and are pleased with it and will highly recommend it to any one. Go and see them, it will pay you well if you are at all interested in a sanitary, economical and convenient way of heating any room, rooms, hall, church or building, no matter how small or large. See HAMILTON PURE AIR Advertisement on this page.

#### BIDS OPENED FOR SIX MILLION GALLON RESERVOIR. PLANS FOR OTHER WORK ALSO UNDER WAY.

The constructing quartermaster, Fort Mason, Cal., opened bids recently for a six million gallon reservoir to be erected at the Presidio of San Francisco. Fourteen bids were opened.

J. J. Leonard (Builders' Exchange) lowest, \$41,951; Chambers & Heaphy, were next lowest, \$42,465. The highest bid was for \$89,600 by J. Daniels & Co.

The bid of O'Day & Co., as per the O'Day plan, was \$52,800.

For reconstructing the pipe line the lowest bidder was Pringle & Dunn Co., 338 Pine street, San Francisco, \$15,975. Messrs. Chambers & Heaphy were again the second lowest.

The constructing quartermaster is now preparing the plans for grading the entire parade ground at Fort Winfield Scott; also plans for a three million gallon reservoir at Fort Barry in Marin county.

#### BETTER TASTE IN SMALL HOUSES.

The unattractiveness of most suburban development lies, first, in the fact that the land is hopelessly subdivided into uniform and monotonous units admitting of little or no variety, excepting by an expenditure of money which the investment does not justify; hence the attempt to obtain variety by stunts and detail, much of which is tawdry.

Secondly, the designing of these houses, which has been mostly in the hands of speculators and promoters, has not usually been entrusted to architects of skill, and has not been developed with the idea of elevating and developing public taste, but rather of catering to passing fancies.

Assuming four lots, each fifty feet wide, if, instead of building, as usual, four houses with a narrow frontage and extending back into the lot—all in a row, with a small garden in front, a contracted space separating them, and ugly yards in the back—it were planned to place the two end houses with narrow fronts and extending back, and the two middle houses set back and designed with broad fronts, thus forming a court, a composition would immediately be possible, and a better distribution of light, air and grounds—whether for ornamental or merely back-yard purposes—would immediately result without any interference of property lines or of light easements.—John M. Carrere in Country Life in America.

#### SALE OF GEARY STREET BONDS ABOUT COMPLETED.

Twenty-six thousand dollars worth of the Geary street railroad bonds were sold Tuesday to country banks and the authorities had inquiries from the Bank of Commerce of San Diego for the balance.

The Tomales bank and trust company took 20 of the bonds and the bank of Pleasanton six. President Julius Wangenheim of the San Diego institution wrote to ask if the bonds would be acceptable as security for a loan of the city funds on the 2 per cent basis.

McDougald telegraphed that these bonds were so accepted by the city along with state or national bonds for 90 per cent of their face as security on advances. Wangenheim intimated in this case his bank would take the remainder of the issue, now \$200,000.

#### NEW POWDER COMPANY INCORPORATED.

The American safety powder corporation has been incorporated with a capital of \$5,000,000.

It is the company's intention to manufacture a safety blasting powder, which is made by a secret process and is one of the most popular explosives.

The plant will have a capacity of 7,000,000 pounds a year. The stockholders are:

Herbert E. Law, E. O. Lindblom, P. A. Brangier, L. A. Steger, J. W. Schultz, J. B. Rogers and Luther Elkins.

The plant will be built near Antioch.

#### GOVERNMENT AWARDS.

##### Recent Contracts That Have Been Let for Federal Construction in the Pacific Coast States.

**BUILDING**—The following bids were received by the assistant quartermaster, U. S. Marine Corps, Washington, D. C., on May 1 for the construction of a marine barracks at the navy yard, Bremerton, Wash.:

Puget Sound Bridge and Dredging Co., Seattle, Wash., \$140,993; time, 150 days.

W. W. Anderson, Seattle, Wash., \$135,628; 16 months.

W. N. Concannon, San Francisco, Cal., \$159,890; time, 500 working days.

Wm. Hamilton, Des Moines, Iowa, \$145,000; 310 working days.

McLellan-Hickey Co., Seattle, Wash., \$139,235; 180 working days.

T. Strausser & Son, Spokane, Wash., \$154,008; 365 days.

**BUILDING**—The following bids were received by the Commissioner of Indian Affairs, Washington, D. C., for constructing employes' quarters at the Indian School, Greenville, Cal.:

Dreyfus Bros., San Francisco, Cal., \$4,300; 90 days.

Merrilees & Sheridan, Berkeley, Cal., \$3,734; time as specified.

James T. Taylor, Taylorsville, Cal., \$4,000; time, 90 days.

The contract for the remodeling of the U. S. public building at Salt Lake City, Utah, has been awarded to the Campbell Building Company, Salt Lake City, Utah, at \$197,800, less \$6,578 for certain omissions; for omitting fourth story of the extension and facing the rear wall with facing brick, \$28,500; for leaving in place the west end of the south wall, \$9,000; for using hollow brick for 2-inch wall, furring for the outer walls, \$675; net amount, \$153,047; time, Jan. 1, 1913.

The contract for installing a pipe line or loop at the Mare Island navy yard, bids for which were opened by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., has been awarded to Grant Fee, San Francisco, Cal., at \$39,000.

## Editorial Comment.

There is evidence in all American cities at the present time that there is a general awakening to the importance of the question of the architectural and general esthetic appearance of our cities. The City Beautiful is no longer a mere dream of the enthusiast but public improvements now have some measure of relative value compared with the effect on their surroundings. The cities all over the country are planning civic centers and there is a general tendency to receive some instruction from the old masters of Europe who have left such enduring monuments in art and architecture in the cities of the continent.

An evidence of this awakening sentiment is the popular protest by the citizens of New York City against a bill passed by the legislature of that state commanding the Board of Estimate of New York City at the behest of the Supreme Court Justices to provide funds for a County Court House in City Hall Park. As this site had been selected by the justices for the erection of a huge court house that would reduce to insignificance the beautiful City Hall there has been objections raised from every source in the city. There has been suggested a substitute scheme for the purchase of the blocks to the north immediately adjoining the City Hall square, for the site for the proposed court house and the erection thereon of a noble civic center. This scheme has received popular indorsement and if it can be done in New York it ought to be done in other cities.

The time has come when the public improvement of cities should look to the beautification and symmetrical development of the whole municipality. We ought to get some ideas from the the exposition soon to be held here in San Francisco and apply them to the future city.

The primeval forces which upheaved the great Sierra into the region of perpetual snow and later crumpled the coast range into a series of broken and picturesque mountains that sink into the sea left a broad interior plain that became the natural avenue of drainage for the state of California and was occupied by the Sacramento and San Joaquin rivers. Between the two great mountain ranges is a level tract of land that rises into the Siskiyou mountains on the north and is bounded by the Tehachapi mountains on the south. This great interior valley has successively been grazing country, wheat land, and is now being divided into small farms to be adapted to more intensive farming. Wherever water has been applied for irrigating

purposes the crops are perennial and the seasonal changes have but little effect upon such crops as alfalfa, which roots deeply in the ground and produces successive crops at equal intervals of time. In the summertime these lines of irrigation are plainly marked, for where water has been applied the level land shows green under the cloudless skies and against the russet brown of the foothills.

To the traveler through this great interior district in the summertime the dry and dusty plain stretches for leagues on leagues to the distant mountains on the horizon. Here and there are herds of sheep and cattle, and here and there are great harvesters that cut, thresh and sack the wheat of the great fields in one operation. But this day is fast changing. The lands no longer produce the phenomenal wheat crops of some years ago and to be productive under present seasons the fields must lie fallow one year and be farmed the next. Where the life giving water is applied to the land these facts are changed and the dormant soil becomes as productive as a garden.

"Swat the fly" has been the slogan of the anti-fly crusade for several years. In Kansas there has been a state wide crusade against the pest for the past three years and free information and means of extermination have been distributed broadcast throughout the country till the insect now finds continuous war within the borders of the state and every man's hand is against it.

Ever since the M. D's have determined that disease is the result of some particular microbe that gets into the system and burrows into a man's constitution there has been continuous investigation as to the means of conveyance of these health destroyers. Malaria and yellow fever were found to be distributed only by mosquitoes. The bubonic plague is conveyed by the bite of a flea. Destructive fever among cattle is communicated by the tick, and so on throughout the whole limit of ills that flesh is heir to.

So it is natural to suppose the pestiferous house fly is responsible for a great many ills. Its activity is unbounded. It wipes its feet on everything and wades into everything in sight. If disease germs can be carried the fly is undoubtedly the best distributor there is. It breeds in dirt and delights in filth and goes anywhere and everywhere. The crusade is a good one. If the fly is any good in the economy of nature its uses have not yet been discovered. Anyway it is an unmitigated nuisance, a harbinger of filth and a bringer of disease. Swat the fly!

## The Origin Of The Bungalow. A Distinctive California Home.

In the winter of 1900-1901 a dweller in Los Angeles, better endowed with artistic perceptions than financial resources, builded him a home, low and rambling, with unsurfaced lumber for the outside finish, the frame resting upon mudsills, the roof of shakes, and the interior walls covered with burlap in lieu of plaster. Its lines pleased him; its economy of cost satisfied him, and for the purpose of a residence it answered his every need in that semi-tropical land. Some adaptive genius, seeing a fanciful resemblance to the officers' quarters in faraway India, in this improvement upon the temporary shack which lot owners, at that time, were permitted to erect upon their property while building their permanent residence, christened it a "Bungalow." No one then thought that this new creation was aught but a makeshift, to be superseded by a "real" house as soon as the pecuniary circumstances of the owner would enable him to do so.

In fact, when others sought to imitate it, the owners of new additions treated such structures as infringements upon their building restrictions in the matter of cost, and attempted in many instances to prevent their erection on their tracts. The term "bungalow" until 1904-1905 was treated as a name indicative of poor and cheap construction—an unplastered, inexpensively finished residence of the cheapest materials.

At about this time, possibly in 1903, a few architects, at the behest of clients who saw more clearly than the trained builders, the points of beauty and usefulness in this new idea, began treating the bungalow from the standpoint of the artistic designer; and the cottage, the Queen Anne house, and the moderate price two-story residence gave way in the affections of the home-builder to this latest creation.

The term "bungalow," as a name became fixed, though its resemblance to the original Indian structure of that name is far-fetched and imaginative; it is purely of California origin, a spontaneous evolution from the impecunious lot owner's shack, brought forth and made possible by the wonderful climate of that land of sunshine, and its habitat was thought to be restricted to that State. Not so, however. As built in California, it is ill adapted to protect its occupant from the rigors of a more trying climate. But the visitors to the south took home with them the plans of those bungalows which pleased their fancy, and had their architects model their new homes on the strange lines of the new-fangled house design, adapting the construction to the requirements of the climate of their own locality. These found the bungalow to be all that could be desired in a moderate-priced house. Others, and not a few, used the plans as they bought them, and at the first experience of cold and storm, raised their voices in lamentation that a bungalow might be a good summer home, but that it could not be heated in winter.

As indicated the distaste for the term "bungalow," that prevailed at the period when the idea was at its incep-

tion, an owner had a plan prepared of a house containing six rooms, all on the one floor, and had it built at Raymond Park, a new addition at that time—the spring of 1903—just south of the Raymond Hotel at Pasadena. The broad, flat roof, prominent bays, porch of clinker bricks, and dominant chimney of the same material, marked its strange individuality, and despite the owner's protests, the people who saw it called it a bungalow, and "bungalow" it remained. The owner could never reconcile himself to the fact that a house which cost him over \$4,000 could possibly be classified as a bungalow.

This house was among the earliest, possibly the first, departure from the cheap construction. Like the fad for mission furniture, the desire for bungalows became epidemic, and in its acute form it has brought forth some strange results. Some of the newer types are, however, marvelously pleasing, and exhibit considerable skill and artistic talent on the part of their designers. It affords a vehicle for the tyro and the inexperienced to do their own planning. The absence of stairs, and the fact that a chimney can be placed almost anywhere without fear of its appearing in the center of a second story room, affords the opportunity for every prospective bride to plan her own home. In this respect it could not help but be a favorite.

Portland, Oregon, early took up the new idea. The first bungalow in the city was built on East Thirty-fourth street in May, 1904, and the strangeness of the design excited considerable curiosity and interest. It was built on the lines of the convertible room idea. Folding beds, escritaires, chiffoniers, cut glass and china closets, bookcases contained in buttressed partitions, were some of the new ideas installed. The new house became a nuisance for a time to its owners. No less than thirty persons asked permission to examine it one Sunday shortly after its completion, and never a day passed without one or more applicants seeking admission.

The popularity of the bungalow as a comfortable type of home at any season, when properly built, has not shown any sign of waning, but on the contrary, both architects and owners have sought to outdo one another in artistic conception and execution of this truly new American style of domestic architecture, for in every line and every feature it is distinctly American—and Western at that. Only its name belies it. Its originators never saw, perhaps never heard of a bungalow, but were influenced by the lines of the homes of the Spanish first settlers. It is more properly a development of the rancho of the early Californian, or the more pretentious adobe residence of the prosperous hacienda, that existed in California before the division of the vast landed estates under the Spanish grants.

Many of the old-line architects were slow to gauge the new movement, and prophesied the early—according to them, timely—demise of an ill-considered fad. But the houses are here, and

the type will remain; it is too good—it is too elastic—to become old and out of date. It is susceptible of greater variety—though it seems scarcely credible—than any other style of dwelling, and this quality will keep it ever new and attractive to the home-builder. You cannot sell a one-story house now if you call it a cottage. Name it a bungalow and you have applicants a-plenty. Some of the rare geniuses who get up books of bungalow plans, in their zeal for the new idea, and to reap the advantage of its popularity, call their full two-story houses "bungalows," but this is stretching architectural nomenclature to the point of breaking. They have taken license for their names as well as for their plans.

## Illustrations For The Week.

### A MODERN SOCIAL HALL.

Architect O. E. Evans, 2454 Mission street, San Francisco, will shortly complete the plans for a modern social hall, which is to be erected on a prominent corner in the Mission district. The building is designed in the Spanish Mission style of architecture, is three stories high, and both street elevations will be faced with cement plaster on metal lath. There will be a Spanish tile cornice. A large dance hall will occupy the second floor. The hall will be 50 by 50 feet, and will have a special constructed floor, accommodating in the neighborhood of two hundred couples. There will be large hat and cloak rooms for both ladies and gentlemen, retiring rooms and a complete stage. The third floor will contain a large balcony, which will overlook the dancing floor, and which will command an unobstructed view of the stage.

The architect has estimated the cost of the work at \$10,000, and as soon as the plans can be completed will take figures on the work.

### THE NEW CONCORD INN.

O Plate A of this week's supplement is shown a perspective of the new Concord Inn, taken from the water-color drawing of Architect Henry C. Smith, San Francisco. The design shows a wonderfully attractive piece of the Spanish Mission style of architecture. The hotel is shortly to be erected at Concord, Contra Costa County, California, and will be modern in every part of its equipment.

The features of the first floor will be a large palm garden and tea room, opening out on the main lobby and dining room. The dining room decoration is to be carried out in the Old Mission style, with large open fire place at one end. The upper floors are to be arranged with sixty-four rooms, divided into suites of one, two and three rooms each. All of the suites will have connecting baths, and many of the rooms will connect with exterior sleeping porches. Another pleasing feature of the building will be the large porch, which extends across the front of the hotel, and which is to be partly enclosed for evening entertainment.

When completed the hotel will represent the investment of nearly \$60,000.

and the company will spare no expense in making the Concord Inn one of the best hostleries in the State of California.

The architect is working on the finish drawings and the work will be started as soon as the plans can be completed.

#### THE NEW HAYWARDS HIGH SCHOOL.

Architect Henry C. Smith, Humboldt Bank Building, San Francisco, has recently been commissioned by the Haywards Board of Education to prepare the plans for a new high school building, which is to be erected in that town as soon as bonds for the construction can be voted. The plan as prepared by the architect shows a handsome classic building of the reinforced concrete type of construction, costing about \$60,000. The plans have been accepted by the School Board.

The building will be strictly modern in every particular, and has been so arranged that it can be easily enlarged and made into a Polytechnic School when the future needs of the district call for such a building. At present, the school as designed by Mr. Smith, will contain 16 class rooms besides the library, teachers' rooms, assembly rooms and open air study. The heating plant for this building will be housed in a separate structure.

#### FOREIGN TRADE OPPORTUNITIES.

No. 6381. Bath Tubs and Appurtenances.—An American consular officer in a South American city reports that the proprietors of the principal barber shop in the city in which he is located desire to be put in immediate correspondence with firms in the United States manufacturing or dealing in bath tubs and appurtenances thereto. They intend installing bath rooms in connection with their barber shop, and for this purpose require eight of the most modern baths, including three tub baths, three shower baths and two literature and quotations are also desired on any new apparatus suitable for use in a modern bath house.

No. 6563. Apricot pulp.—A business man in Germany advises an American consular officer that he is desirous of receiving direct offers of apricot pulp from California dealers. Quoted terms should be c. i. f., payment after delivery at destination.

No. 6373. Marine Steam Motor.—A business man in a South American city is about to enter upon the business of equipping and repairing steam motor boats, and informs an American consul that he wishes to purchase at once a 15-horse power steam motor, generator with the burner vaporizer and pilot light, clutch, universal joint and 5 meters (Meter 39.37 inches) of driving shaft. Prices are desired by cablegram, including packing and placing on board vessel direct for South American freight and insurance to Luenos Aires; also the name to whom draft should be made payable. Correspondence with the inquirer may be in English.

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

## Plans Wanted.

The Trustees of the Belmont School District in San Mateo County, California, have decided upon the amount of money which they will ask the district to vote as bonds for the construction of the new building. The amount has been fixed at \$27,000. After paying for the site and providing for the furnishing of the building, a balance of approximately \$17,000 will be left for the construction of the building. A general competition will be held. Roy Cloud is the County Superintendent of Schools; address, Redwood City.

The following information relative to the work which is to be done at Olympia; the Washington State capital, may be of interest in connection with what has preceded this announcement. From the following statement it would seem that a general plan is wanted for several State buildings, besides the temple of justice as was at first called for:

#### Notice to Architects.

The State Capitol Commission of the State of Washington, at Olympia, Wash., invites a competition among architects for a general architectural plan for a series or group of buildings to be erected on "Capitol Place," and designs and plans for a temple of justice. Application for the program of information and contour maps should be made to E. W. Ross, Secretary State Capitol Commission, Olympia. Same to cost \$1. All designs are to be in hands of Commission before 3 p. m. July 27.

The City Council of the city of North Yakima, Washington, has instructed the City Clerk to advertise for plans for a city hall building, which is to be erected on the site provided for the building on Walnut street. The new building is to cost not more than \$50,000. No date has been set on which the plans must be received.

A new school building has been made necessary by the formation of a new district in Ventura County, California. The new district will be known as the Santa Rosa School District. The trustees named are as follows: G. D. Wirt, A. C. Middleton and Neils Olsen.

The City Trustees of Corona, Riverside County, California, have increased the amount of money to be used in the construction of their new city hall building to \$21,500. Competitive plans for the building will be called for shortly.

A small school building is to be erected in the Jackson School District of Santa Clara County, California, in the near future. Bonds amounting to \$5,000 will be voted for the construction. G. H. Bacharach is one of the trustees. No architect has been selected.

#### —APARTMENT HOUSES—

San Francisco.—Apartment house, 3 story and base, frame, \$15,000. Architect W. G. Hind, Humboldt Bank Bldg., S. F. Owner J. Eisenbach. The building will be arranged for stores on the

first floor and eight apartments of 2 and 3 rooms each on the upper floors. There will be private baths, gas grates, wall beds and all other modern improvements. The exterior of the building will be faced with pressed brick veneer. The plans are being figured, and all contracts are to be segregated.

San Francisco.—Apartment house, 3 story and base, frame, \$8,000. Architect none. Owner S. Sockolov, 1450 6th Ave., S. F. The building will contain 12 apartments. The exterior of the building will be of pressed brick veneer and cement plaster. The plans are in the hands of the owner, and the work is to be done by Day Labor.

San Francisco.—Apartment house, 3 story and base, frame, \$9,000. Architect none. Owner F. Merschen, 300 Baker St., S. F. There will be six well-arranged apartments in the building, equipped with all the most modern conveniences. The street elevation will be faced with pressed brick veneer and cement plaster. The plans are in the hands of the owner, and the work is to be done by Day Labor.

San Francisco.—Apartment house, 5 story and base, reinforced concrete, \$65,000. Architect C. A. Meussdorffer, Humboldt Bank Bldg. Owners O'Conner Estate. The building will be one of the most modern structures yet erected in the city, and will contain about 90 rooms divided into apartments of 2 and 3 rooms each. There will be private baths, steam heat, elevator service, wall beds and all other modern conveniences. The plans are now being prepared.

Los Angeles, Cal.—Apartment house, 3 story and base, brick, \$10,000. Architects B. B. Young and Son, 700 Lankershim Bldg., L. A. Owner Marie C. Mayhew. The building will be 50x115, and will contain 48 apartments divided into suites of 2, 3, and 4 rooms each. There will be private baths, steam heat and wall beds. The exterior of the building will be faced with blue brick veneer. The architects are preparing the plans.

Los Angeles, Cal.—Apartment house, 3 story and base, frame, \$30,000. Architect Eugene Weston, 605 Lankershim Bldg., L. A. Owner Dr. F. E. Chamberlain. The building will be covered with cement plaster on metal lath. The plans are now being prepared.

Los Angeles, Cal.—Apartment house, 4 or 5 story and base, brick and steel. Cost not stated. Architects John P. Krempel and Walter E. Erkes, 415 Henne Bldg., L. A., associated. Owner F. Neuman. The owner has just decided upon the type of a building to be erected, and other than the fact that the apartment house is to contain from 80 to 100 rooms with private baths and all other modern equipment nothing can be said of the details of construction. The architects are now working on the finished drawings.

Los Angeles, Cal.—Apartment house, 4 story and base, brick, \$40,000. Archi-

tect S. Tilden Norton, 418 Const. Realty Bldg., L. A. Owner Morris Spier. There will be steam heat, wall beds and other modern equipment. The exterior of the building will be of pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 2 story and base, brick. Cost not stated. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner A. Jameson. The building will be arranged for stores and apartments. The exterior will be of red pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 2 story and base, frame, \$13,000. Architect C. B. Franklin Building and Investment Co., 707 Fay Bldg., L. A. Owner Mr. Elder. There will be 45 living rooms and 16 baths contained in the building. The apartments will be equipped with wall beds and steam heat. The exterior will be of cement plaster on metal lath. The plans are being prepared.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 3 story and base, frame. Cost not given. Architect A. Burnside Sturges, 617 Story Bldg., L. A. Owner Long Beach Improvement Co. The building will contain 45 rooms and 15 baths. The exterior will be of cement plaster on metal lath. The architect is preparing the plans, and they will be ready for figures in one week. The same owners are also considering a smaller building, 2 stories in height, and Mr. Sturges has prepared plans.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame. Cost not stated. Architect E. J. Borgmeyer, 317 Stimson Bldg., L. A. Owner Robert Stoll. The building will contain 66 rooms, divided into 2 and 3 room apartments. There will be 25 baths, steam heat and elevator service and wall beds. The exterior will be of rustic. The architect has completed the plans.

**Hollywood, Los Angeles Co., Cal.**—Apartment house, 2 story and base, frame. Cost not stated. Architect Harlow M. Kimball, 225 N. Cahuenga St., Hollywood. Owner Susan W. Kimball. The building will be 45x100, and there will be eight 4 room apartments. The exterior will be of blue brick veneer. The work is to be done by Day Labor.

**Seattle, Wash.**—Apartment house, 6 story and base, reinforced concrete, \$75,000. Architect F. F. Travis, 511 E. Roy St., Seattle. Owner's name withheld. The building will contain 65 apartments arranged in large suites. There will be steam heat, elevator service and wall beds. The exterior of the building will be of cement plaster. The architect has completed the plans and figures are being taken.

**Seattle, Wash.**—Apartment house, 3 story and base, frame, \$15,000. Architect C. C. Dose, Oriental Bldg., Seattle. Owner's name withheld. The building will contain 6 apartments to the floor, and there will be steam heat and wall beds. The architect has just completed the working drawings.

**San Francisco**—Apartment house, 3 story and base, frame, \$20,000. Architects Oser Bros., 601 Metropolis Bank Bldg., S. F. Owner Morris Oser. The building will contain 24 apartments of 2 and 3 rooms each. There will be private baths, wall beds and a hot water system of heating. The exterior

of the building will be of rustic. The bids are in and have been taken under advisement.

### —BANKS—

**Los Angeles, Cal.**—Bank and offices, 13 story and base. Class A construction. Cost not stated. Architect Henry E. Bean, 921 Central Bldg., L. A. Owners Los Angeles Investment Co. This work has been mentioned here before, when the architectural drawings were started. Mr. Bean is the Structural Engineer, and is now completing the plans for the steel, etc. The building will be ready for figures shortly.

**Corona, Riverside Co., Cal.**—Bank addition, 2 story, brick. Cost not stated. Architect Leo Kroonen, Corona. Owners First National Bank of Corona. The plans for the addition to this building are complete and show two additional stories, which will be finished as offices. The bank will also install new fixtures.

### —BRIDGES—

**Redwood City, San Mateo Co., Cal.**—Bridge, concrete arch type, \$6,000. Engineer County Surveyor Neuman, Redwood City. Owners San Mateo County. Plans for a reinforced concrete arch bridge, which is to be erected in the Third Township are complete, and bids will be opened for the construction on June 5th.

**Empire, Stanislaus Co., Cal.**—Bridge, steel and concrete. Cost not stated. Engineer County Surveyor, Modesto. Owners Stanislaus County. The plans for a steel span and concrete bridge will be completed by June 1st, and bids will be called for at once.

**Seattle, Wash.**—Bridges, 2 steel and concrete, \$170,000 and \$68,000, each. Engineers Waddell and Harrington, Kansas City, Mo. Owners City of Seattle. The plans for these bridges have been forwarded to Commissioner Owen Woods for approval. The larger of the two structures is to be erected over the Tacoma Waterway and the smaller over the Puyallup River. The money for both bridges was provided for by a recent bond election.

**Gooding, Lincoln Co., Idaho.**—Bridge, steel and concrete. Cost not given. Engineer County Surveyor Edward S. Smith, Gooding. Owners Lincoln County. The engineer is now preparing the plans for a steel span bridge over the Big Wood River. Plans will shortly be ready for figures.

**Mountainhome, Idaho.**—Bridge, steel and concrete, \$18,000. Engineer's name not given. Owners Elmore County. The amount of \$12,000 has been provided by Elmore County and \$6,000 by Owyhee County for a steel bridge across the Snake River.

**Baker City, Ore.**—Bridges, steel and concrete. Cost not given. Engineer County Surveyor Baker City. Owner Baker County. The County Commissioners have voted to replace the following wooden bridges by steel structures: 55 foot span over Pine Creek, 120 foot span at the mouth of the Power River at Robinette, 53 foot span over the North Power at North Power, six 60

foot spans at Weatherby, 80 foot span below the same and 75 foot span above. All three of the last mentioned bridges will span the Brunt River.

### Contracts Awarded.

**Grangeville, Idaho**—Bridge, steel and concrete, \$15,000. Engineer's name not given. Owners Idaho County. Contractors Security Bridge Co., Lewiston and Minneapolis. Contract price \$15,950.

**Watsonville, Santa Cruz Co., Cal.**—Wharf, concrete and wood construction, \$60,000. Engineer E. W. Hartman, S. F. Owners Watsonville R. R. and Navigation Co. Contractors Marine Concrete Construction Co., S. F. Contract price \$60,000.

### —CHURCHES—

**Covina, Los Angeles Co., Cal.**—Church, 1 story and base, concrete and stone. Cost not given. Architect John B. Nicholson, 912 Wright and Callender Bldg., L. A. Owners Catholic Church of Covina. The exterior of the building will be of stone and shingles. There will be a number of art glass windows. The architect has completed the plans.

**Walla Walla, Wash.**—Church, 1 story and base, concrete and brick, \$50,000. Architect U. Grant Fay, Central Bldg., Seattle. Owners First Baptist Church of Walla Walla. The building will be 80x120, and the main auditorium will have a seating capacity of 700 people. There will be Sunday school rooms, study rooms and parlors. The exterior will probably be faced with white enameled brick. The architect has started the working drawings. A general contract will be let.

**Seattle, Wash.**—Church, 2 story and base, brick, \$25,000. Architect Theobald Buchinger, Arcade Bldg., Seattle. Owners St. Mary's Catholic Church. The building is to be 60x110, with the exterior of paving brick trimmed with klinker brick. The plans have been figured, but ran too high, and the Building Committee has decided to erect the building by Day Labor. The committee is headed by George C. Dietrich, 431 Globe Bldg., and all inquiries should be addressed to him.

### Contracts Awarded.

**Seattle, Wash.**—Church, 3 story and base, steel and brick, \$175,000. Architect John Graham, Lyon Bldg., Seattle. Owners Plymouth Church Contractors Butler Construction Co., Seattle. Contract price \$119,000. This amount will be added to considerably by the owners who are anxious for certain improvements in addition to the plans. A balance of about \$32,000 is still to be raised. L. J. Colman is chairman of the Building Committee.

**Mesa, Arizona**—Church, 2 story and base, concrete, \$55,000. Architect Royal W. Leshar, National Bank of Arizona Bldg., Phoenix. Owners St. Mark's Episcopal Church of Mesa Contractors Moss and Copelan, Mesa, Arizona. Contract price not stated.

### —COURT HOUSES & JAILS—

**Ventura, Ventura Co., Cal.**—Court house, 3 story and base, reinforced concrete, \$200,000. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners Ven-

tura County. The contract for the excavating has been awarded to Ishman of Ventura for \$7,680. The bids for the balance of the work, except interior finish, etc., will be called for on May 29th, and will be opened the latter part of June.

## FACTORIES & WAREHOUSES

**San Francisco**—Power house, 1 story and base, reinforced concrete, \$15,000. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners San Francisco Gas and Electric Co. The building will be used as a substation. There will be heavy machine beds of concrete and concrete floor. The exterior will be covered with cement plaster. The plans are being figured.

**Oakland, Cal.**—Warehouse, 2 story and base, reinforced concrete, \$35,000. Architect A. W. Smith, 1004 Broadway, Oakland. Owner's name withheld. The building will be of extra heavy construction. The exterior will be faced with cement plaster. There will be no interior trim. The plans are now being figured.

## Contracts Awarded.

**Los Angeles, Cal.**—Warehouse, 3 story and base, brick and steel. Cost not stated. Architects Richards-Neustadt Construction Co., 705 Wright and Calender Bldg., L. A. Owner E. P. Bosbyshell. Contractors Richards-Neustadt Construction Co. Contract price not given. The building will be 135x150, and will be equipped with elevators and an automatic sprinkler system. The work will be started within thirty days.

**Los Angeles, Cal.**—Factory, 3 story and base, brick, \$15,000. Architect M. D. L. Scott, L. A. Owner St. Elmo Cigar Co. Contractors May and Grimwood, 903 Security Bldg., L. A. Contract price \$12,000.

**Santa Ana, Orange Co., Cal.**—Factory, 1 story and base, reinforced concrete, \$100,000. Architect's name not given. Owners Southern Pacific Beet Sugar Co., Santa Ana. Contractors Larowe-Vallez Co., Ford Bldg., Detroit, Mich. Contract price \$100,000.

## FIRE HOUSES.

**San Francisco**—Installing cell work. Cost not stated. Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owners City and County of San Francisco. The plans for the cell work in the County Jail have been completed, and bids are being called for which will be opened on June 7th.

**Los Angeles, Cal.**—Fire house annex, 2 story and base, brick. Cost not stated. Architects Dennis and Farwell, 618 Fay Bldg., L. A. Owners City of Los Angeles. The architects are preparing the plans for an addition 15x77, which will house an auto truck on the first floor and be equipped for dormitories above. Bids will be called for at once.

## FLATS.

**San Francisco**—Flats, 2 story and base, frame, \$8,000. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner Mrs. J. Thomas. The building will be arranged for stores on the first floor and two modern flats above. The

exterior will be covered with shiplap. The architect is now receiving figures on the work.

**San Francisco**—Flats, 3 story and base, frame \$7,000. Architect none. Owner H. Scholten, 1522 Santa Clara Ave., S. F. The building will contain 6 small flats. The exterior will be of shiplap. The plans are in the hands of the owner, who will do the work by Day Labor.

**San Francisco**—Flats, 2 story and base, frame, \$10,000. Architect George L. Streshley Co., Balboa Bldg., S. F. Owner's name withheld. The building is designed in the form of residential flats. There will be four living apartments in the building. The exterior will be of metal lath and plaster. The architect has just closed the bids and will award the contract at once.

**San Francisco**—Flats, 3 story and base, frame, \$8,000. Architect W. W. Yager, 129 Cabrillo St., S. F. Owner J. C. Stambaugh, 1282 Stanyan St., S. F. The building will be 25x74 and will contain 6 flats. The exterior will be of brick veneer and rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame \$4,500. Architect none. Owner Pietro Prasso, 328 Lombard St., S. F. The building will contain three small flats and will be erected by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$7,000. Architects Crim and Scott, 425 Kearny St., S. F. Owner's name withheld. The building will be nicely finished and the equipment will be modern throughout. The exterior will be covered with rustic. The architects are now taking figures on the work.

**San Francisco**—Flats, 2 story and base, frame, \$2,000. Architect none. Owner Walter E. Pinkhaus, 580 Frederick St., S. F. The building will be arranged to contain two flats. An old residence is to be altered over. The work will be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$5,000. Architects Fabre and Bearwald, Metropolis Bank Bldg., S. F. Owner P. Laustalet. The building has been arranged for two modern flats. The exterior will be of brick veneer on shiplap. The architects are now receiving figures on the work.

**Los Angeles, Cal.**—Flats, 2 story and base, frame. Cost not stated. Architects Hurson and Munsell, 415 Stimson Bldg., L. A. Owner Mrs. Hayes. The building will contain four 4 room flats. There will be a furnace heating system. The architects have completed the plans.

## GOVERNMENT WORK AND SUPPLIES.

**San Francisco**—Sub-Treasury, 2 story and base, Class A construction, \$300,000. Architect J. Milton Dyer, Cleveland, Ohio. Owner U. S. Government. The result of a competition held recently to secure plans for this building has just been announced. The winning design calls for a steel and granite building of the highest class of construction. The plans are now be-

ing worked over and will be complete before fall. The work will be let through the offices of the Supervising Architect James Knox Taylor.

## Contracts Awarded.

**Gray's Harbor, Wash.**—Furnishing stone \$725,000. Engineer Major C. W. Kutz, Burke Bldg., Seattle. Owners U. S. Government. Contractors Hercules Sandstone Co., Tenino. Contract price \$785,000.

## HALLS & SOCIETY BLDGS.

**San Francisco**—Hall, 3 story and base, frame, \$12,000. Architect O. E. Evans, 2454 Mission St. Owner Mr. Meyer. The building is arranged for a cafe on the first floor and a dance hall above. There will be ladies' and gentlemen's parlors and coat rooms and a large balcony. The exterior will be of cement plaster on metal lath. The plans are complete and figures will be taken at once.

**Berkeley, Alameda Co., Cal.**—Fraternity house, 2 story and base, frame, \$18,000. Architect J. Cather Newsom, Monadnock Bldg., S. F. Owners Phi Gamma Delta. The building will be in the form of a large residence, containing 16 rooms and baths. There will be a heating system. The interior will be trimmed in pine and hardwood. The exterior will be covered with shiplap. The plans are complete and figures are being taken.

**Berkeley, Alameda Co., Cal.**—Fraternity house, 2 story and base, frame, \$12,000. Architect A. W. Smith, 1004 Broadway, Oakland. Owners Delta Chi Fraternity. The building will contain 14 rooms and baths. The exterior will be covered with shingles. There will be a steam heating system. The plans are complete and figures are being taken.

The contract will probably be let as a whole.

**San Francisco**—Stores and loft, 2 story and base, brick, \$5,000. Architects H. Geiffuss and Son, 150 Fulton St., S. F. Owner K. Winter. The plans call for a concrete floor in first story, steel I beams, etc. The bids for the work are under advisement.

**San Francisco**—Store and loft, 2 story and base, reinforced concrete, \$10,000. Architects McDonald and Applegarth, Call Bldg., S. F. Owners Morse Seed Co. The building will contain one large store for the company and a loft above. The exterior will be of cement plaster. The plans are being figured.

**San Francisco**—Stores and offices, 4 story and base. Class A construction, \$400,000. Architect Frederick H. Meyer, Humboldt Bank Bldg., S. F. Owners Bankers Investment Co. The plans for this work, which has been mentioned here before, are now complete, and are out for figures. The work will consist of a number of high class retail stores and finely finished offices. The contract will probably be let as a whole.

**Oakland, Cal.**—Store, 1' story and base, reinforced concrete, \$5 000. Architect A. W. Smith, 1004 Broadway, Oakland. Owner's name withheld. The plans call for one store with large plate glass windows. The plans are now being figured.

**Seattle, Wash.**—Stores and offices, \$1,250,000. Architects Gagin and Gagin, Syracuse, N. Y. Owner L. C. Smith. A telegram from the architects of this building states that all the figures are in and are being canvassed. It will take some three or four days before this work is complete, and no announcement as to the successful contractor can be made until that time.

## THEATRES.

**Pasadena, Los Angeles Co., Cal.**—Theater addition, 2 story and base, brick. Cost not stated. Architect A. Lawrence Valk, 1101 Story Bldg., L. A. Owner Fisher's Theater Company. The work will consist of enlarging the main auditorium by about 20 feet, and remodeling the entire interior. The plans are being prepared.

## SEALED PROPOSALS.

### CONSTRUCTING BUILDING. (Bids opened June 5.)

NOTICE is hereby given that sealed proposals will be received by the undersigned clerk of the Board of Trustees of the Rowe School District, up to and not later than the hour of 1:30 p. m. of June 5, 1911, for the furnishing of all materials and labor and the erection and construction of a school building in the town of Hickman, County of Stanislaus, State of California, in accordance with plans and specifications adopted by the Board of Trustees of said Rowe School District, as prepared by Architect W. H. Weeks of San Francisco, which plans and specifications may be seen at the office of the County Superintendent of Schools at Modesto, California.

All bids must be accompanied by a certified check, equal to ten per cent of the amount of the bid.

Bids will be received by the Board of School Trustees at the County Superintendent's office, Modesto.

The Board of Trustees reserves the right to reject any or all bids.

By order of the Board of Trustees of Rowe School District, Hickman, County of Stanislaus, State of California. EDWARD APPLING, Clerk; J. J. LONG, WM. DARBY.

### CONSTRUCTING CONCRETE ARCH BRIDGE.

(Bids opened June 5.)

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of the County of San Mateo, State of California, up to the hour of 10 o'clock a. m. on Monday, the 5th day of June, 1911, for constructing a concrete arch bridge in the Third Township over Woodruff creek according to the general plans, working details and specifications therefor, heretofore prepared by the County Surveyor of said county, which said plans, drawings and specifications are now on file in the office of the clerk of said board in the court house in Redwood City, where the same may be inspected.

All bids must be addressed to the Clerk of said Board of Supervisors at Redwood City, and each bid must be

accompanied by a certified check on some reliable bank in a sum equal to at least 10 per cent of the amount of said bid, and made payable to the undersigned Clerk of said Board of Supervisors.

All bids from contractors must specify the time required for the completion of said work, also the cost of concrete in place, per cubic yard to be used in estimating the value of extra work, if required. Funds for the payment of the above contract will not be available until December 10, 1911.

The right is reserved to reject any and all bids. JOS. H. NASH, County Clerk and Ex-Officio Clerk of the Board of Supervisors of the County of San Mateo, State of California.

### CONSTRUCTING BUILDING. (Bids opened June 8.)

NOTICE is hereby given by the Board of Supervisors of Sonoma County, California, that sealed bids will be received by the clerk of said board up to 2 o'clock p. m., Thursday, June 8th, 1911, for the construction of a Power House and Laundry, together with the Mechanical Equipment for the same, including Lighting, Heating and Laundry Machinery, according to the plans and specifications adopted by the Board of Supervisors and now on file in the office of the clerk of said board.

All bids must be accompanied by a good and sufficient bond running to the County of Sonoma, for 25 per cent (25 per cent) of the amount of the bid, as a guarantee that the successful bidder will on or before July 12th, 1911, after the acceptance of said bid, enter into a contract therefor, and give a good and sufficient bond as required by law.

The board reserves the right to reject any and all bids. W. W. FELT, JR., County Clerk and ex-officio clerk of the Board of Supervisors.

### FURNISHING SUPPLIES. (Bids opened June 8.)

OFFICE OF THE BOARD OF FIRE COMMISSIONERS, San Francisco. In accordance with a resolution of the Board of Fire Commissioners, duly passed on May 18, 1911, sealed proposals will be received in open session of the Board on Thursday, June 8, 1911, from 2 to 3 o'clock p. m. for furnishing automobile and electrical supplies, castings, etc., drugs and chemicals, forage, fuel, furniture, glassware, hardware, and tools, hardwood and wagon material, harness, leather and findings, horseshoeing material, tools, etc., hydrants, machines and machine work, paints and oils and painters' tools, rubber goods, wooden and willow ware and other supplies that may be required for use in the San Francisco Fire Department for the fiscal year ending June 30, 1912, in strict accordance with the conditions contained in the proposal blanks of schedule prepared by the Board of Fire Commissioners, on file, and copies of which may be obtained at the office of said Board of Fire Commissioners, 64 Eddy street, San Francisco, Cal. WM. H. McDONNELL, Secretary.

### PROPOSALS FOR CELL WORK.

(Bids opened June 7.)

C., until 10:30 a. m., June 15, 1911, at which

time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 633) may be obtained from this office or the offices of the assistant purchasing agents, 24 State street, New York City; 614 Whitney-Central Building, New Orleans, La.; and 1086 North Point street, San Francisco, Cal.

#### CONSTRUCTING CONCRETE RESERVOIR.

(Bids opened June 3.)

Bids in triplicate will be received by Constructing Quartermaster Capt. E. C. Long, 482 Arcade Annex, until 11 a. m. Saturday, June 3rd, for the construction of a reinforced concrete reservoir, with water mains, etc., at Fort Wordan, Washington.

The reservoir will be 100x160 feet in dimension, 15 feet high, with walls 2 feet thick at the base, and 1 foot 6 inches thick at the top. The floor will be from 6 inches to 1 foot thick. The capacity will be 2,000,000 gallons, and the total cost will probably run between \$90,000 and \$100,000.

Plans and specifications, information and proposal blanks may be had of Capt. Long.

#### CONSTRUCTING BUILDING.

(Bids opened June 19.)

Sealed bids will be received up to and including the 19th day of June by the Board of Trustees of the City of Fresno, Cal., for the construction, including plumbing and electric work, of a two story concrete and frame convention hall. The work is to be done in strict accordance with the plans and specifications as prepared by Architect C. K. Kirby, Jr., Forsyth Bldg., Fresno. Plans may be had on application at either the office of the architect or by applying to W. H. Ryan, City Clerk.

## San Francisco.

**Apartment House**—3 story and base, frame, \$15,000. San Francisco. Architect W. G. Hind, Humboldt Bank Bldg., S. F. Owner J. Eisenbach. The building will be arranged for stores on the first floor and eight apartments of 2 and 3 rooms each on the upper floors. There will be private baths, gas grates, wall beds and all other modern improvements. The exterior of the building will be faced with pressed brick veneer. The plans are being figured, and all contracts are to be segregated.

**Apartment House**—3 story and base, frame, \$8,000. San Francisco. Architect none. Owner S. Sockolov, 1450 6th Ave., S. F. The building will contain 12 apartments. The exterior of the building will be of pressed brick veneer and cement plaster. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Apartment House**—3 story and base, frame, \$9,000. San Francisco. Architect none. Owner F. Merschen, 300 Baker St., S. F. There will be six well-arranged apartments in the building, equipped with all the most modern conveniences. The street elevation will be faced with pressed brick veneer and cement plaster. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Apartment House**—5 story and base, reinforced concrete, \$65,000. San Fran-

cisco. Architect C. A. Meussdorffer, Humboldt Bank Bldg. Owners O' Conner Estate. The building will be one of the most modern structures yet erected in the city, and will contain about 90 rooms divided into apartments of 2 and 3 rooms each. There will be private baths, steam heat, elevator service, wall beds and all other modern conveniences. The plans are now being prepared.

**Flats**—2 story and base, frame, \$8,000. San Francisco. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner Mrs. J. Thomas. The building will be arranged for stores on the first floor and two modern flats above. The exterior will be covered with shiplap. The architect is now receiving figures on the work.

**Flats**—3 story and base, frame, \$7,000. San Francisco. Architect none. Owner H. Scholten, 1522 Santa Clara Ave., S. F. The building will contain 6 small flats. The exterior will be of shiplap. The plans are in the hands of the owner, who will do the work by Day Labor.

**Flats**—2 story and base, frame, \$10,000. San Francisco. Architect George L. Streshley Co., Balboa Bldg., S. F. Owner's name withheld. The building is designed in the form of residential flats. There will be four living apartments in the building. The exterior will be of metal lath and plaster. The architect has just closed the bids and will award the contract at once.

**Flats**—3 story and base, frame, \$8,000. San Francisco. Architect W. W. Yager, 129 Cabrillo St., S. F. Owner J. C. Stambaugh, 1282 Stanyan St., S. F. The building will be 25x74 and will contain 6 flats. The exterior will be of brick veneer and rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**Flats**—3 story and base, frame, \$4,500. San Francisco. Architect none. Owner Pietro Prasso, 328 Lombard St., S. F. The building will contain three small flats and will be erected by Day Labor.

**Flats**—3 story and base, frame, \$7,000. San Francisco. Architects Crim and Scott, 425 Kearny St., S. F. Owner's name withheld. The building will be nicely finished and the equipment will be modern throughout. The exterior will be covered with rustic. The architects are now taking figures on the work.

**Flats**—2 story and base, frame, \$2,000. San Francisco. Architect none. Owner Walter E. Pinkhaus, 580 Frederick St., S. F. The building will be arranged to contain two flats. An old residence is to be altered over. The work will be done by Day Labor.

**Flats**—3 story and base, frame, \$5,000. San Francisco. Architects Fabre and Bearwald, Metropolis Bank Bldg., S. F. Owner P. Laustalet. The building has been arranged for two modern flats. The exterior will be of brick veneer on shiplap. The architects are now receiving figures on the work.

**Installing Cell Work**—Cost not stated. San Francisco. Architect Alfred I. Coffey 1204 David Hewes Bldg., S. F. Owners City and County of San Francisco. The plans for the cell work in the County Jail have been completed, and bids are being called for which will be opened on June 7th.

**Power House**—1 story and base, reinforced concrete, \$15,000. San Francisco. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners

San Francisco Gas and Electric Co. The building will be used as a substation. There will be heavy machine beds of concrete and concrete floor. The exterior will be covered with cement plaster. The plans are being figured.

**Hall**—3 story and base, frame, \$12,000. San Francisco. Architect O. E. Evans, 2454 Mission St. Owner Mr. Meyer. The building is arranged for a cafe on the first floor and a dance hall above. There will be ladies' and gentlemen's parlors and coat rooms and a large balcony. The exterior will be of cement plaster on metal lath. The plans are complete and figures will be taken at once.

**Sub-Treasury**—2 story and base. Class A construction, \$300,000. San Francisco. Architect J. Milton Dyer, Cleveland, Ohio. Owner U. S. Government. The result of a competition held recently to secure plans for this building has just been announced. The winning design calls for a steel and granite building of the highest class of construction. The plans are now being worked over and will be complete before fall. The work will be let through the offices of the Supervising Architect James Knox Taylor.

**Hotel**—7 story and base, reinforced concrete, \$55,000. San Francisco. Architect John Baur, Merchants' Exchange Bldg., S. F. Owner Edward Blanque. This work has been mentioned here before when the plans were started. The architect has awarded contracts for the concrete work, plumbing, steel and carpentry work, and is now taking figures for the plastering, sheet metal work and other work.

**Hotel Alterations**—5 story and base, reinforced concrete, \$6,000. San Francisco. Architect E. W. Hyde, Chronicle Bldg., S. F. Owner's name withheld. The building mentioned here has been designed for loft purposes, and will be remodeled for a hotel. There will be considerable plumbing, new partitions and other work. The plans are complete.

**Residence**—2 story and base, frame, \$4,000. San Francisco. Architect none. Owner E. W. Elliot, 1378 Waller St., S. F. The dwelling will contain 7 rooms and bath. There will be coal grates. The exterior will be of cement plaster on metal lath. The work is to be done by Day Labor.

**Bungalow**—1 story and base, frame, \$3,000. San Francisco. Architect none. Owner Henry C. Warwick, 180 Jessie St., S. F. The dwelling will contain 6 rooms and bath. There will be gas grates. The exterior will be of metal lath and plaster. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$5,250. San Francisco. Architect none. Owner F. F. Palston, 152 Commonwealth Ave., S. F. The dwelling will contain 9 rooms and 2 baths. The interior trim will be of pine and hardwood. The exterior will be of cement plaster on metal lath and brick veneer. The work is to be done by Day Labor.

**Solariums**—1 story, frame and glass. Cost not stated. San Francisco. Architect Constructing Q. M. Dept., U. S. A., Fort Mason, Lt. Col. George McK. Williamson, officer in charge, Fort Mason. The solariums are to be erected at the General Hospital at the Presidio. The roofs of the two buildings will be 72x78, and will be covered with wire glass set in an iron. The plans will be ready for figures on June 5th.

**Apartment House**—3 story and base,

frame, \$20,000. San Francisco. Architects Oser Bros., 604 Metropolis Bank Bldg., S. F. Owner Morris Oser. The building will contain 24 apartments of 2 and 3 rooms each. There will be private baths, wall beds and a hot water system of heating. The exterior of the building will be of rustic. The bids are in and have been taken under advisement.

**Los Angeles and Southern California.**

**Flats**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects Hudson and Munsell, 415 Stimson Bldg., L. A. Owner Mrs. Hayes. The building will contain four 4 room flats. There will be a furnace heating system. The architects have completed the plans.

**Apartment House**—3 story and base, frame. Cost not stated. Los Angeles, Cal. Architect E. J. Borgmeyer 317 Stimson Bldg., L. A. Owner Robert Stoll. The building will contain 66 rooms divided into 2 and 3 room apartments. There will be 25 baths, steam heat and elevator service and wall beds. The exterior will be of rustic. The architect has completed the plans.

**Apartment House**—2 story and base, frame. Cost not stated. Hollywood, Los Angeles Co., Cal. Architect Harlow M. Kimball, 225 N. Cahuenga St., Hollywood. Owner Susan W. Kimball. The building will be 45x100, and there will be 8 four room apartments. The exterior will be of blue brick veneer. The work is to be done by Day Labor.

**Bank and Offices**—13 story and base. Class A construction. Cost not stated. Los Angeles, Cal. Architect Henry E. Bean, 921 Central Bldg., L. A. Owners Los Angeles Investment Co. This work has been mentioned here before when the architectural drawings were started. Mr. Bean is the structural engineer, and is now completing plans for the steel etc. The building will be ready for figures shortly.

**Bank Addition**—2 story, brick. Cost not stated. Corona, Riverside Co., Cal. Architect Leo Kroonen, Corona. Owners First National Bank of Corona. The plans for the addition to this building are complete, and show two additional stories which will be finished as offices. The bank will also install new fixtures.

**Apartment House**—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner A. Jameson. The building will be arranged for stores and apartments. The exterior will be of red pressed brick. The plans are being prepared.

**Apartment House**—2 story and base, frame, \$13,000. Los Angeles, Cal. Architect C. B. Franklin Building and Investment Co., 707 Fay Bldg., L. A. Owner Mr. Elder. There will be 45 living rooms and 16 baths contained in the building. The apartments will be equipped with wall beds and steam heat. The exterior will be of cement plaster on metal lath. The plans are being prepared.

**Apartment House**—3 story and base, frame. Cost not given. Long Beach, Los Angeles Co., Cal. Architect A.

Burnside Sturges, 617 Story Bldg., L. A. Owner Long Beach Improvement Co. The building will contain 45 rooms and 15 baths. The exterior will be of cement plaster on metal lath. The architect is preparing the plans and they will be ready for figures in one week. The same owners are also considering a similar building 2 stories in height, and Mr. Sturges has prepared plans.

**Apartment House**—4 or 5 story and base, brick and steel. Cost not stated. Los Angeles, Cal. Architects John P. Krempel and Walter E. Erkes, 415 Henne Bldg., L. A., associated. Owner F. Neuman. The owner has just decided upon the type of a building to be erected, and other than the fact that the apartment house is to contain from 80 to 100 rooms with private baths and all other modern equipment, nothing can be said of the details of construction. The architects are now working on the finished drawings.

**Apartment House**—3 story and base, brick, \$40,000. Los Angeles, Cal. Architect S. Tilden Norton, 418 Const. Realty Bldg., L. A. Owner Morris Spier. There will be steam heat, wall beds and other modern equipment. The exterior of the building will be of pressed brick. The plans are being prepared.

**Apartment House**—3 story and base, brick, \$40,000. Los Angeles, Cal. Architects B. B. Young and Son, 700 Lankershim Bldg., L. A. Owner Marie C. Mayhew. The building will be 50x115, and will contain 48 apartments divided into suites of 2, 3 and 4 rooms each. There will be private laths, steam heat and wall beds. The exterior of the building will be faced with blue brick veneer. The architects are preparing the plans.

**Apartment House**—3 story and base, frame, \$30,000. Los Angeles, Cal. Architect Eugene Weston, 605 Lankershim Bldg., L. A. Owner Dr. F. E. Chamberlain. The building will be 40x140, and will contain steam heat and 36 baths. The exterior will be covered with cement plaster on metal lath. The plans are now being prepared.

**Church**—1 story and base, concrete and stone. Cost not given. Covina, Los Angeles Co., Cal. Architect John B. Nicholson, 912 Wright and Callender Bldg., L. A. Owners Catholic Church of Covina. The exterior of the building will be of stone and shingles. There will be a number of art glass windows. The architect has completed the plans.

**Court House**—3 story and base, reinforced concrete, \$200,000. Ventura, Ventura Co., Cal. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners Ventura County. The contract for the excavating has been awarded to Ishman of Ventura for \$7,680. The bids for the balance of the work, except interior finish, etc., will be called for on May 29th, and will be opened the latter part of June.

**Fire House Annex**—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architects Dennis and Farwell, 618 Fay Bldg., L. A. Owner City of Los Angeles. The architects are preparing the plans for an addition 15x77, which will house an auto truck on the first floor, and be equipped for dormitories above. Bids will be called for at once.

**Club House**—3 story and base, brick, \$20,000. Los Angeles, Cal. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners American Inail-

tute of Banking. This work has been mentioned here before. The plans have been revised, and are now out for figures again. There will be modern club rooms. The trim throughout will be of hardwoods. The exterior of the building will be faced with pressed brick.

**City Hall**—1 story, reinforced concrete. Vernon, Los Angeles Co., Cal. Architect Joseph A. Hurley, 600 Thorpe Bldg., L. A. Owner Town of Vernon. The building will contain the town offices, session room, vault, etc. The exterior will be of cement plaster. The plans are complete.

**Hospital Buildings**—6, 1 story, frame, \$20,000. Altadena, Los Angeles Co., Cal. Architect Matthew Slavin, 305 Slavin Bldg., L. A. Owner Lavina Sanitarium Company. The six buildings will consist of a general administration building, doctors' quarters, nurses' buildings and store rooms and private wards. The exterior of all the buildings will be of shingles. The plans are complete and the work will be started at once.

**Hotel**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner Albert J. Brown. The building will be 46x100, and will contain 51 rooms, 6 baths and 12 toilets. The exterior will be faced with pressed brick. The plans have been prepared and figures are being taken.

**Hotel**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architect Henry G. Klung, 212 Broadway Central Bldg., L. A. Owner Dr. C. C. Heller. The building will be modern in every particular. There will be steam heat, elevators, 12 bath rooms and hot and cold running water. The exterior will be faced with pressed brick. The owner is now negotiating a loan. The plans are complete.

**Residence**—2 story and base, brick and frame. Cost not stated. Los Angeles, Cal. Architects Eager and Eager, Story Bldg., L. A. Owner P. Young. The dwelling will contain 10 rooms and baths. The interior trim will be of mahogany with oak floors. The exterior will be faced with blue brick veneer and cement plaster. The plans are being prepared.

**Residence**—2 story, attic and base, brick and concrete, \$50,000. Los Angeles, Cal. Architect Robert D. Farquhar, 418 Security Bldg., L. A. Owner Dr. John R. Haynes. The dwelling will be one of the most pretentious places in the district in which it is to be erected. There will be a hot water system of heating. The trim throughout will be of hardwoods. The plans are complete.

**Residence**—2 story and base, frame, \$9,000. Los Angeles, Cal. Architects The Bungalow Designing Co., Grosse Bldg., L. A. Owner Mrs. Sullivan. The dwelling will contain 12 rooms and bath. The design is in the early English. There will be furnace heat. The plans are being prepared.

**Residences**—2, 2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects G. Lawrence Co., Stimson Bldg., L. A. Owner's name withheld. The dwellings will each contain 12 rooms and four baths. There will be furnace heat, and the trim will be of hardwood. The exterior will be of cement plaster on metal lath. The plans are being prepared.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Homer W. Gladden, 505

Wright and Callender Bldg., L. A. Owner Lester G. Baldwin. The dwelling will contain 10 rooms and 2 baths. The exterior is in the Colonial style. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect A. B. Benton, 114 North Spring St., L. A. Owner Mrs. A. S. McKeveit. The dwelling will contain 12 rooms and baths. The exterior will be of cement plaster on metal lath. The plans have been revised and the work is to be done by Day Labor.

**Residences**—1 and 2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect A. L. Acker, 1127 Story Bldg., L. A. Owners M. F. Blanchard and N. W. Zimmer. The bungalow will contain 5 rooms, and the two story building 10 rooms. The interior of both will be handsomely finished. The architect is preparing the plans.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect F. M. Tyler, 601 Union Trust Bldg., L. A. Owner F. B. Ordway. The dwelling will contain 12 rooms and 2 baths. The exterior will be finished in hardwoods. The plans are complete.

**Theater Addition**—2 story and base, brick. Cost not stated. Pasadena, Los Angeles Co., Cal. Architect A. Lawrence Valk, 1101 Story Bldg., L. A. Owner Fisher's Theater Company. The work will consist of enlarging the plans are being prepared.

remodeling the entire interior. The main auditorium by about 20 feet and

**School**—2 story and base, reinforced concrete. Cost not stated. Pasadena, Los Angeles Co., Cal. Architects Greene and Greene, Boston Bldg., Pasadena. Owners City of Pasadena. The building plans provide for 16 class rooms besides offices and other rooms. There will be but eight of the rooms built at this time, and the balance of the work will be done later. There will be a modern steam heating and ventilating system. The architects are preparing the plans.

### Contracts Awarded.

**Church**—2 story and base, concrete, \$55,000. Mesa, Arizona. Architect Royal W. Lester, National Bank of Arizona Bldg., Phoenix. Owners St. Marks Episcopal Church of Mesa. Contractors Moss and Copelan, Mesa, Arizona. Contract price not stated.

**Warehouse**—3 story and base, brick and steel. Cost not stated. Los Angeles, Cal. Architects Richards-Neustadt Construction Co., 705 Wright and Callender Bldg., L. A. Owner E. P. Bosbyshell. Contractors Richards-Neustadt Construction Co. Contract price not given. The building will be 135x150, and will be equipped with elevators and an automatic sprinkler system. The work will be started within thirty days.

**Factory**—3 story and base, brick, \$15,000. Los Angeles, Cal. Architect M. D. L. Scott, L. A. Owner St. Elmo Cigar Co. Contractors May and Grimwood, 903 Security Bldg., L. A. Contract price \$12,000.

**Post Office**—3 story and base, Class A construction, \$160,000. Phoenix, Arizona. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. Contractors William H. Maxwell and Co., Great Falls, Mo. Contract price \$140,847.

**School**—2 story and base, reinforced concrete, \$100,000. Ventura, Ventura Co., Cal. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Own-

er City of Ventura. Contractors: General contract, Guy Bliss and the Ventura Mill and Lumber Co., associated, \$54,000; Heating and Ventilating, Machinery and Electrical Co., 351 N. Main St., L. A., \$5,272; Electrical Work, C. E. Cook Electrical Co., 745 So. Spring St., L. A., \$1,182.

## Seattle and Washington.

**Apartment House**—6 story and base, reinforced concrete, \$75,000. Seattle, Wash. Architect F. F. Travis, 511 E. Roy St., Seattle. Owner's name withheld. The building will contain 65 apartments arranged in large suites. There will be steam heat, elevator service and wall beds. The exterior of the building will be of cement plaster. The architect has completed the plans and figures are being taken.

**Apartment House**—3 story and base, frame, \$15,000. Seattle, Wash. Architect C. C. Dose, Oriental Bldg., Seattle. Owner's name withheld. The building will contain 6 apartments to the floor, and there will be steam heat and wall beds. The architect has just completed the working drawings.

**Bridges**—2, steel and concrete, \$470,000 and \$68,000 each. Seattle. Engineers Waddell and Harrington, Kansas City, Mo. Owners City of Seattle. The plans for these bridges have been forwarded to Commissioner Owen Woods for approval. The larger of the two structures is to be erected over the Tacoma Waterway and the smaller over the Puyallup River. The money for both bridges was provided for by a recent bond election.

**Bridge**—Steel and concrete. Cost not given. Gooding, Lincoln Co., Idaho. Engineer County Surveyor Edward S. Smith, Gooding. Owners Lincoln County. The engineer is now preparing plans for a steel span bridge over the Big Wood River. Plans will shortly be ready for figures.

**Bridge**—Steel and concrete, \$18,000 Mountainhome, Idaho. Engineer's name not given. Owners Elmore County. The amount of \$12,000 has been provided by Elmore County and \$6,000 by Owyhee County for a steel bridge across the Snake River.

**Factory**—1 story and base, reinforced concrete, \$100,000. Santa Ana, Orange Co., Cal. Architect's name not given. Owners Southern Pacific Beet Sugar Co., Santa Ana. Contractors Larowe-Vallex Co., Ford Bldg., Detroit, Mich. Contract price \$100,000.

**Church**—1 story and base, concrete and brick, \$50,000. Walla Walla, Wash. Architect U. Grant Fay, Central Bldg., Seattle. Owners First Baptist Church of Walla Walla. The building will be 80x120, and the main auditorium will have a seating capacity of 700 people. There will be Sunday school rooms, study rooms and parlors. The exterior will probably be faced with white enameled brick. The architect has started the working drawings. A general contract will be let.

**Church**—2 story and base, brick, \$25,000. Seattle, Wash. Architect Theobald Buchinger, Arcade Bldg., Seattle. Owners St. Mary's Catholic Church. The building is to be 60x110, with the exterior of paving brick trimmed with knicker brick. The plans have been figured, but ran too high, and the Building Committee has decided to erect the building by Day Labor. The

committee is headed by George C. Dietrich, 431 Globe Bldg., and all inquiries should be addressed to him.

**Hotel**—3 story and base, frame, \$14,000. Seattle, Wash. Architects Thompson and Thompson, Maynard Bldg., Seattle. Owner's name withheld. The building will contain 4 stores on the first floor, and 46 rooms on the two upper floors. The plans are now being figured.

**Stores and Offices**—\$1,250,000. Seattle, Wash. Architects Gagin and Gagin, Syracuse, N. Y. Owner L. C. Smith. A telegram from the architects of this building states that all the figures are in and are being canvassed. It will take some three or four days before this work is complete, and no announcement as to the successful contractor can be made until that time.

**Concrete Reservoir**—\$100,000. Fort Wordan, Wash. Engineer U. S. Engineer's office, 452 Arcade Bldg., Seattle. Owners U. S. Government. The plans are complete for a reservoir 100x160 and 15 feet high. The construction will be reinforced concrete. Plans can be had by applying to Capt. Long, Seattle. Bids will be opened on June 3.

**Hospital**—2 story and base, brick and steel, \$60,000. Sedro-Wooley, Wash. Architects Saunders and Lawton, Alaska Bldg., Seattle. Owners State of Washington. The building will be the main wing of the State Asylum for Insane. There will be accommodation for 160 patients in this building, and two wings will be added in the near future, bringing the accommodations up to 1,300. The construction will be fire proof throughout. The plans were completed on May 25th and bids will be advertised for at once.

## Contracts Awarded.

**Bridge**—Steel and concrete, \$15,000. Grangeville, Idaho. Engineer's name not given. Owners Idaho County. Contractors Security Bridge Co., Lewiston and Minneapolis. Contract price \$15,950.

**Church**—3 story and base, steel and brick, \$175,000. Seattle, Wash. Architect John Graham, Lyon Bldg., Seattle. Owners Plymouth Church. Contractors Butler Construction Co., Seattle. Contract price \$119,000. This amount will be added to considerably by the owners who are anxious for certain improvements in addition to the plans. A balance of about \$32,000 is still to be raised. L. J. Colman is chairman of the Building Committee.

**Furnishing Stone**—\$725,000. Gray's Harbor, Wash. Engineer Major C. W. Kutz, Burke Bldg., Seattle. Owners U. S. Government. Contractors Hercules Sandstone Co., Tenino. Contract price \$785,000.

**School Add**—Concrete and frame, \$12,000. North Yakima, Wash. Architect's name not given. Owner City of Yakima. Contractor John T. Weller, North Yakima. Contract price \$12,407.

## Portland and Oregon.

**Bridges**—Steel and concrete. Cost not given. Baker City, Oregon. Engineer County Surveyor Baker City. Owner Baker County. The County Commissioners have voted to replace the following wooden bridges by steel structures: 55 foot span over Pine Creek, 120 foot span at the mouth of the Power River at Robinette, 55 foot span over the North Power River at North

Power, six 60 foot spans at Weatherby, 80 foot span below the same and 75 foot span above. All three of the last mentioned bridges will span the Brunt River.

**Lodge Hall**—2 story and base, \$40,000 Eugene, Ore. Architect E. E. McClaren, Portland, Ore. Owners Eugene Elks' Hall Association. The project has been mentioned here before when the association first selected their architect. The plans are now complete and bids will be opened for the construction on June 2nd.

## Contracts Awarded.

**School**—2 story and base, frame, \$20,000. Monmouth, Ore. Architect Fred A. Legg, Portland. Owner Monmouth School District. Contractors Wechter and Woods, Salem. Contract price \$20,000.

**Library**—1 story and base, brick, \$35,000. Portland, Ore. Architects Patterson and Beach, Portland. Owners City of Portland. Contractors Advance Construction Co., Portland. Contract price \$35,000.

The United States Government evidently feels very well satisfied with BITURINE. It is using it generally, but we notice particularly that the roof of the new prison at Alcatraz, the concrete fresh and salt water tanks on this roof and the piping to them are entirely covered with BITURINE, some 54,000 square feet. This is evidently a very satisfactory job, seeing that these tanks contain a depth of anywhere from six to twenty feet of salt water. The Biturine Company have offices a No. 24 California street.

Mile Rock Light House, one mile from the entrance of San Francisco Harbor and on which rock the Rio Janeiro was supposed to have struck, is a point of interest that all San Franciscans at least are familiar with. To the Architect or Contractor may occur the idea as to what preservative the Government used on the base of this steel structure that withstands the action of the waves and salt water and the constantly changing temperature. It is a material obtainable in the local market and known as BITURINE. It has been subject to these extreme conditions for about four years, a really phenomenal result. No wonder these people advertise to protect structural steel and damp proof concrete. The Biturine Company have offices at 24 California street.

Now that the transportation committee have made their report to the Exposition Directors the selection of a site for the fair ought to be one step nearer solution. The majority of the committee have reported that the bay site at Harbor View has the most advantages in this regard as to cheapness and facility for handling freight, while the United Railroads report that the facilities for handling people by the street car service are much in favor of Golden Gate Park. Whichever site is selected as the best suited to make the event one grand success the sooner it is selected the better. Preliminary operation will require a great deal of time and with this end in view there should be as quick action as possible. For the good of everybody put it somewhere.

## Editorial Comment.

The payment by the State of Cali-  
fornia of \$400,000 as its share of the  
contribution for river improvement as-  
sures the expenditure of \$800,000 by  
the War Department in work at the  
mouth of the Sacramento river. This  
is much needed as the mouth of this  
stream has become clogged with min-  
ing debris and as a consequence the  
whole valley is in danger of being  
flooded every year by the breaking of  
levees.

If some scheme could be devised  
whereby the channel of the river could  
be deepened and confined so that it  
would keep free from sedimentary de-  
posit in the long stretch of the great  
valley it would add untold wealth to  
the state. The tule marshes "whose  
level leagues forsaken lie" are now fit  
only for duckhunting and game pre-  
serves. Acres and acres of rich land  
lie practically at the sea level. If it  
could be reclaimed like the lowlands of  
Holland it would be more productive  
than that famous county of cabbages  
and vegetables.

The proposition of requiring the  
state to pay one-half the cost of river  
improvements is a new step on the part  
of the government. Hitherto the "pork  
barrel" has been the appropriation for  
rivers and harbors within states. The  
money has often been injudiciously  
spent and in many cases but little has  
been obtained from the expenditure.  
The policy of requiring the state to pay  
for one-half the improvement is evi-  
dently a good one.

So far as reports indicate the coming  
fruit harvest in California will be large.  
With the improved freight transporta-  
tion and cheaper rates the farmer  
should have a better market than ever  
before. For California is famed the  
world over for its fruits and when it  
can be placed in the eastern cities in  
a short time at a more reasonable price  
the advantage cannot help but redound  
to the fruit grower.

As heretofore the farmer will no  
doubt have some difficulty in getting  
labor to handle his crop at the right  
time. The difficulty is that everybody  
wants men at the same time and that  
only for a short season. As a result  
this transitory demand has to be met  
from whatever source the supply may  
be obtained, and Hindus, Chinese and  
Japanese or any kind of laborers are  
brought into service.

The subdivision of land and the  
colonization of the state will in a great  
measure remedy this complaint. Pro-  
ducts will be more diversified. The  
harvests will come at different periods.  
The population will be greatly increas-  
ed and men who own their own little  
homes will be found who will be able  
to work in the orchards and the fields.  
With increased productiveness the state

will solve its labor question by a great  
increase of the right sort of population.

After all the trust busting of re-  
formers and decisions of courts we  
have the two decisions of the U. S.  
Supreme Court which dissolve the  
Standard Oil and the Tobacco trust,  
two of the tightest trusts there are.  
Whether the courts reasoning be good  
or bad, and whether in accordance  
with the Sherman law or against its  
provisions the decisions have demon-  
strated that Congress can by this law  
or some other compel freedom of action  
in trade.

That these monopolies will find some  
other means of holding together the  
affiliated corporations and perpetuating  
their trade seems evident. But a step  
has been made in the right direction  
and points a way to bringing these cor-  
porations to an equal footing before  
the law.

The trouble has been that the laws  
have not applied to all people alike.  
Such corporations as the Standard Oil  
and The Tobacco trust have long been  
in the habit of evading the laws and  
securing unfair advantages over com-  
petitors. Modern business has come to  
such a standard that nothing is  
thought of violating contracts or even  
laws so long as the offenders do not  
get caught.

If the merged corporations cheapen  
production the profit that is thus de-  
rived should be legitimate. To secure  
a monopoly and crush out competition  
by unlawful methods are practices that  
have long been common. These things  
are contrary to the form and spirit  
of our constitution and laws and if the  
Supreme Court has gone no farther it  
has set a mark for a starting point in  
needed legislation and judicial action  
that will make all persons equal be-  
fore the law.

The latest reports in the press dis-  
patches state that Thomas A. Edison  
has invented a storage battery that  
will overcome the three main objec-  
tions to those now in use, namely that  
of weight, bulk and length of time re-  
quired to store them. Reports state  
the batteries are small in size and can  
be stored from the full current of a  
feed wire in the course of four minutes.

Edison has invented so many things,  
he is always producing something new  
and wonderful that people have ceased  
to think that anything is impossible  
at his hands. If he has in fact in-  
vented a storage battery that can be  
placed under the seat of an ordinary  
street car and one that can be charged  
in the space of four minutes, he has  
solved the problem of quick transporta-  
tion. For if this can be done with-  
out waste the question of overhead  
trolley or underground conduit has  
been done away with. The public will  
await with interest the further de-  
velopments in the reports of this most  
important invention.

# The Theoretical and Practical Side Of Ventilation.

By Theodore Hough, University of Virginia.

The discussion before the American Public Health Association at its Richmond meeting on the various aspects of ventilation was a timely one. The problem of ventilation is largely an engineering problem, but, as in all such problems, the highest efficiency can be secured only by knowing accurately the conditions with which the engineer has to deal and the ends he must secure. Is the theory upon which we base our practice in accord with the advance of knowledge during the past two or more decades? This is always a good question to ask, and especially with regard to matters involving costly and often inconvenient building construction.

The old idea that the purpose of ventilation is to keep the air reasonably free from carbon dioxide and supplied with its normal content of oxygen, has long since been given up. Rarely does the carbon dioxide rise to more than 50 or 100 parts in 10,000, or the oxygen fall below 19 or 20 parts in 100, and we have no reason to think that this of itself, is responsible for the effects of poor ventilation. At the same time it is by no means proved that the quantity of oxygen available to the body or the effectiveness of the removal of carbon dioxide from the body are without influence, for it is the quantity and especially the tensions of these gases in the lungs and not the quantity in the air of the room which is the important thing. It is not impossible that there may be various reflex or psychic interferences with the normal working of the breathing mechanism which results in deficient or perhaps in the equally undesirable overventilation of the lungs. Fortunately, the introduction of Haldane's simple method of analysis of the alveolar air now renders this subject capable of comparatively easy investigation, and it is to be hoped that our knowledge about it may soon be materially extended.

The failure to make the composition of the atmosphere in oxygen or carbon dioxide responsible for the results of poor ventilation led to the theory that the cause of the trouble is the presence of minute traces of extremely poisonous material in the expired air, and it was furthermore assumed, with utterly inadequate proof, that these poisons came from the lungs. Hence the teaching that while the carbon dioxide of the expired air is not itself responsible for the bad effects, it may be used as a measure of the imponderable or undeterminable poisonous material. And so there have been thousands of analyses of air for this gas in the endeavor to measure thereby the efficiency of ventilation.

Expired air unquestionably contains material not present in normal air, and these materials often have a very offensive odor. But it is not true that they are contributed chiefly by the lungs. Decaying food particles in the mouth, catarrhal exudates, uncleanli-

ness of person, and the like, are far more responsible for their presence. If this is so, it is perfectly clear that the carbon dioxide is not a measure of their amount. A room crowded with typical representatives of the great unwashed, who do not brush their teeth and have never occupied a dentist's chair, would certainly impart to any assembly room a flavor which could not be given by the same number of individuals of cleanly habits; and yet the carbon dioxide content of the two rooms would in all probability be identical.

Nor is this all. Even granting that these offensive substances are present, it is not proved that they are poisonous, or at least to what extent they are poisonous. The fundamental assumption of all such theories is that in the bad effects of poor ventilation we are dealing with some sort of intoxication, i. e., with the action of a poisonous material reabsorbed into the body with the inspired air. Good as this assumption may be to serve as a working hypothesis upon which to base accurate investigation, we may confidently challenge the production of any adequate proof that poisonous material in the inspired air is the sole or even the chief cause of trouble. In other words, even on the theory upon which it is based, this measurement of carbon dioxide is an example of "barking up the wrong tree," wasted effort which the exercise of a little common sense would have saved.

Nor is the teaching of physiology lacking in indications of other and certainly equally important sources of trouble. A crowded, badly ventilated room is always in an overheated room with an atmosphere surcharged with moisture. The heat comes from the oxidations going on in the bodies of its occupants, and every breath of expired air leaves these bodies not only with an increased percentage of carbon dioxide and possibly other material of organic nature, but saturated with aqueous vapor. In other words, the atmosphere of the room comes to repeat the conditions of a warm, muggy summer day. Indeed, it only requires an appeal to experience to see that there is a suspicious similarity in the effects of the two conditions upon the human organism. The importance of these atmospheric conditions is, moreover, enhanced when we remember that it is not the general air of the room, but that in immediate contact with the persons of its occupants which exerts the physiological effects in question. The writer cannot but feel that if more attention had been paid to the physical condition of the air within a few inches of the body and less to the general air in the room, the practice of ventilation would today be far more efficient, simply because it would have coped intelligently with at least two of the main evils.

The treatment of the practical problem of ventilation as a portion of the

applied physiology of respiration takes far too narrow a view of the subject, and indeed this is recognized in much of our practice. In technological schools, courses usually combine the treatment of the subjects of heating and ventilation. But they do not generally look upon heating and ventilation as two separate things, instead of being, as they really are, two parts of the same problem. Of course, in such matters all depends upon our definition of terms and we may confine our conception of ventilation, if we will, to supplying of "fresh air" to an inhabited room. At the same time it is no uncommon occurrence to get wrong points of view because of the previous adoption of unfortunate definitions, and we think it should be understood, is not simply the replacement. Ventilation as it is popularly meant of vitiated pure air; it is rather the maintenance of ideal atmospheric conditions in a room, the correction of all undesirable atmospheric conditions, such as the presence of offensive and possibly poisonous constituents, too high or too low temperature or humidity, contamination from leaky gas fixtures, the draught from damp cellars, and numerous others for which the practical engineer must be on the lookout, and which he must understand how to estimate with approximate accuracy. The practice of ventilation as an art is perhaps more a case of the applied physiology of temperature regulation and the circulation of the blood than of the physiology of respiration; it is far more a physiological than a toxicological problem; and, more than this, it requires practical knowledge of many factors of domestic and public sanitation.

The practical side of ventilation should also take account, to a far greater extent than it actually does, of the variable nature of the conditions with which it must cope. The maintenance of ideal atmospheric conditions in a climate whose mean temperature is 75 degrees is an entirely different proposition from what it is in one whose mean is 65 degrees; it is entirely different according to the relative humidity; and the problem differs, above all, with the variability in these conditions from day to day. Has there not been entirely too much rule of thumb in our practice? Every treatise on the subject gives tables of the number of cubic feet of air which should be supplied to hospital wards, to school rooms, to factories, and so on. Surely it must make all the difference in the world in what sort of a climate these buildings are located. Formulas are excellent things, but only when they are judiciously applied, and a good formula for Boston may be a complete failure for Denver.

We may also point out that it is almost certainly a mistake to seek for any single convenient test of the efficiency of ventilation. It is, of course, not impossible that some test may be

found which would give and approximate measure of this efficiency; but there certainly is no such test known today, nor is it likely that it will ever be discovered. The determination of carbon dioxide, as above pointed out, has been lamentably overworked. The operation of this test by a chemist sent from the office of a ventilating expert may at first impress the layman who knows nothing of its significance with a pleasurable feeling that he is getting the worth of the money spent in installing a ventilating system; but too frequently the same layman is found a year or so later expressing his opinion of "these scientific fellows" in language more picturesque than quotable, but he is usually justified in doing so. Efficiency tests should certainly include temperature and humidity, and the results of all tests should be interpreted in the light of actual knowledge of the conditions to be dealt with. After all, the final test is the experience of the occupants of the room.

There is in this whole matter a large field for the very best kind of scientific study.

## Illustrations For The Week.

### TWO MODERN STORE AND APARTMENT BUILDINGS.

On Plate B, of this issue, is shown the perspectives of two modern store and apartment buildings, both of which were designed by Architect O. E. Evans of San Francisco. Both buildings have been executed in the Spanish-Mission style of architecture, handled in a most artistic manner. The exteriors of both have been finished in a pebble-dash cement plaster above the first story. The upper cut is a three-story building erected for Messrs. Wieger and Hagermann on their property at the northwest corner of 23rd and Douglas streets, and contains a large store and several finely finished apartments on the second and third floors. The entrance is finished in marble. The interior trim throughout is of selected slash-grain Oregon pine. All of the dining rooms have beam ceilings, and are paneled to the height of six feet and fitted with stein shelves. The Holmes combination disappearing beds and buffets have been used throughout. Large coal and wood grates are a pleasing feature in all of the living rooms.

The lower cut shows the three-story building which has been erected for A. C. Amburst at the southeast corner of 24th and Noe streets, at a cost of \$18,000. The first floor of this building is given over to two stores, with large plate glass display windows and an attractive entrance to the apartments above. The entrance vestibule is finished in marble and eastern quarter sawn oak, with terrazzo steps to the second floor. The apartments on both floors have been carefully planned with the result that there are no dark

**Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.**

rooms. The plumbing fixtures and other fixtures of the building are strictly modern and in keeping with the handsome finish throughout.

### MODERN HOTEL APARTMENTS.

Architects Salfeld and Kohlberg, Clunie building, San Francisco, have completed the plans and will shortly award the contracts for the construction of the four story store and basement reinforced concrete building which is shown on Plate A of this week's illustrations.

This modern structure is to be erected on the property of H. Cohn in the south line of Geary street, 25 feet west of Hyde, San Francisco, at a cost of approximately \$45,000. A unique feature of the plan is the provision by which the architects have provided for the store without breaking up the arrangement of the first floor. While the entrance to the store has been placed on the street level, the floor is somewhat below the sidewalk, and the main floor of the building proper considerably above the sidewalk line. This arrangement has worked out admirably in many ways, as it permits the use of the main floor for living apartments and avoids the disadvantage of having living rooms directly on the street, it affords an unbroken floor plan besides leaving ample space for a large and artistic entrance.

The first floor of the building has been divided into a large vestibule, finished in marble, a reception hall, fourteen living rooms, two public baths, two toilets and linen closets. Each of the living rooms has a large clothes closet, small buffet kitchen, and is fitted with a wall bed. The upper three floors are arranged similar to the first floor. The building is so planned that the first and second floors and the third and fourth floors may be leased to separate tenants. The first and third floors are provided with a dining room for the proprietors, and also with a nicely finished public parlor for the use of the guests. All of the living rooms have cove ceilings and are wainscoted with lincrusta to the height of four feet. The building will be heated by steam, hot and cold water will be piped to all the rooms and an electric elevator will be installed. On the rear porches provision has been made for coolers, wash trays and dirt chute.

The street elevation has been designed in a modern hotel style, and will be faced with white cement plaster. The ornamental iron marquise which protects the entrance adds to the attractiveness of the building as well as provides shelter from the weather.

As has been stated the plans for the building are complete and the construction will be started at once,

## Plans Wanted.

A bond election is being held in Alameda County, California, today to secure funds for the erection of a new County Hospital. Five hundred thousand dollars has been asked for, and it is the intention of the county to construct one of the best appointed county hospitals in the west. There is practically no opposition to the bonds which will undoubtedly carry. No plans have been secured, and a competition will be called.

Saint Helena, Napa County, California, will shortly erect a new school building at a cost of approximately \$25,000. A bond election, held recently, was successful, and the Trustees of the District are now considering plans for the new building.

The Trinity Methodist Episcopal Church, South, of Los Angeles, has acquired the adjoining lot to their property at Ninth and Grand avenue, giving a site 160x160 feet. The plans for building a \$100,000 church have been abandoned, and their place has been taken by a project for a structure costing nearly \$250,000. In addition to the necessary requirements for the church, the building will contain about 200 living rooms, reading rooms, library, etc. Rev. R. P. Howell is the pastor and Nathan Newby is chairman of the Building Committee.

The Building Committee of the First Christian Church of San Dimas, Los Angeles County, California, have completed all arrangements prior to securing plans for their new church edifice, and have published a notice to architects inviting competitive plans. The new building is to cost in the neighborhood of \$15,000, and will be of brick and concrete construction. The site secured is the southeast corner of Depot and Third streets. All correspondence should be addressed to the Building Committee of the First Christian Church of San Dimas.

Bonds to the amount of \$100,000 have been voted by the county of Meagher, Montana, for the construction of a new Court House and County Jail. The building will be erected at the county seat, White Springs. The new building is to be a Class A structure. No plans have been secured.

Globe, Arizona, will shortly vote on the proposition to bond the city for the amount of \$50,000. The proceeds of the bonds are to be used in the construction of a new school building. It is stated that the vote will be unanimous. A two story reinforced concrete building will be erected. No plans have been secured.

A site has been secured for a new lodge building by the Santa Monica lodge of Elks, of Santa Monica, Los Angeles County, California. A \$50,000 building will be erected in the near future. Ward McFadden, Robert Miller and Earl Gilman compose the Building Committee.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 3 or 4 story and base, brick and steel, \$45,000. Architect Lewis M. Gardner, 740 Phelan Bldg., S. F. Owner's name withheld. The architect has just started the preliminary plans for this work, and other than the type of construction the details of the building have not been settled upon. The owner is negotiating a loan.

**San Francisco**—Apartment house, 3 story and base, frame, \$30,000. Architects Dunn and Kearns, Monadnock Bldg., S. F. Owner C. Blake, 536 Pacific Bldg., S. F. The building will contain 24 modern apartments of 2 and 3 rooms each. There will be private baths in connection with each of the apartments, elevator service, steam heat and wall beds. The plans have been placed in the hands of the owner, and he is now purchasing all materials and will erect the building under the Day Labor system.

**San Francisco**—Apartment house, 5 story and base, brick and steel, 50,000. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner O. Fleisher. The building will contain in the neighborhood of 80 rooms. There will be steam heat, elevator service, hot and cold running water and wall beds. The exterior of the building will be faced with pressed brick and terra cotta. The architect has completed the plans and is now taking figures on the work. The contract will be let as a whole.

**Oakland, Cal.**—Apartment house alterations, \$3,500. Architect none. Owner I. Wollin, 817 16th St., Oakland. The work will consist of considerable alteration to the exterior of a frame building as well as the installation of complete new plumbing and electric work. The owner is taking figures on the work.

**Los Angeles, Cal.**—Apartment house, 2 story and base, frame. Cost not given. Architect Robert M. Taylor, 309 Los Angeles Trust and Savings Bank Bldg., L. A. Owner M. Landsberg. The building will contain 32 rooms, divided into 2 and 3 room apartments. There will be connecting baths, wall beds and all other modern conveniences. The exterior of the building will be of rustic. The architect is taking figures on the work.

**San Francisco**—Apartment house, 5 or 6 story and base, brick and steel, \$50,000. Architects Fabre and Bearwald, Metropolis Bank Bldg., S. F. Owner's name withheld. The building will contain about 90 rooms, arranged in suites of 2 and 3 rooms each. There will be private baths, wall beds, steam heat and elevator service. The exterior of the building will be faced with pressed brick. The preliminary drawings have just been completed.

**Los Angeles, Cal.**—Apartment house, 2 story and base, frame. Cost not given. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner D. W. Tedford. The building will contain 22 rooms, arranged in six apartments of 2 and 3 rooms each. There will be 8 baths. The exterior will be of rustic. The architect is preparing the plans.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame. Cost not

given. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner Mrs. Scarborough. The building will be 50x167, and will contain 72 rooms besides the baths. There will be steam heat and wall beds. The exterior will be faced with white Medusa cement. The architect is preparing the plans.

**Portland, Ore.**—Apartment house, 2 story and base, brick, \$10,000. Architect E. N. Larry, Portland. Owners Elle Bros. The building will be arranged for stores on the first floor and apartments above. The exterior will be faced with pressed brick. The plans are complete, and the work is to be done by Day Labor.

## Contracts Awarded.

**Los Angeles, Cal.**—Apartment house, 5 story and base, reinforced concrete, \$135,000. Architects R. B. Young and Son, Lankershim Bldg., L. A. Owner W. F. Young. Contractors Young Construction Co., Union Trust Bldg., L. A. Contract price \$135,000.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not given. Architects Milwaukee Building Co., Wright and Callender Bldg., L. A. Owner Hulett C. Merritt. Contractors Milwaukee Building Co. Contract price not stated.

**Hollywood, Los Angeles Co., Cal.**—Apartment house, 4 story and base, brick, \$30,000. Architect Peter W. Ehlers, 611 Delta Bldg., L. A. Owners Messrs G. J. Schaefer and Franz Kern. Contractor John Herington, 124 Hudson St., Hollywood. Contract price \$29,751.

## —BANKS—

**Ontario, Los Angeles Co., Cal.**—Bank alterations. Cost not stated. Architects Dennis and Farwell, 619 Fay Bldg., L. A. Owners Ontario National Bank. The work will include new fixtures of mahogany, marble and bronze work, plate glass windows and a new concrete vault. The plans are being prepared.

**Los Angeles, Cal.**—Bank and offices, 11 story and base. Class A construction, \$250,000. Architects Morgan, Walls and Morgan, Story Bldg., L. A. Owner I. N. Van Nuys. This work has been mentioned in these columns several times before. The contract for the concrete foundation work has been awarded to Carl Leonardt, 708 H. W. Hellman Bldg., for \$46,000. The balance of the work is now being figured.

## —BRIDGES—

**Modesto, Stanislaus Co., Cal.**—Bridges steel and concrete. Cost not given. Engineer County Surveyor E. H. Annear, Modesto. Owners County of Stanislaus. There are to be several new bridges erected in this county within the next month or two. The principal work will be known as the Empire bridge, and this will be an all steel structure. There are several other smaller bridges, all of which will be of steel with concrete piers and abutments. The County Surveyor will present plans for this work to the Board of Supervisors on June 20th, and the work will be advertised, bids to be opened on the second Monday in July.

**Oakdale, Stanislaus, Ca., Cal.**—Concrete dam. Cost not stated. Engineers

Duryea and Hunt, S. F. Owners Oakdale and South San Joaquin Irrigation Districts. Plans for this work have recently been accepted, and bids will be opened by the Boards of the two districts on June 19th.

**Seattle, Wash.**—Alterations to pier, \$100,000. Engineer A. R. Cook, Northern Pacific R. R. Co., Tacoma, Wash. Owners Northern Pacific Co. The work will include the erection of a frame superstructure 100x800 feet, two stories high. The plans for the work will be complete about June 20th.

**Tacoma, Wash.**—Bridges, 2 steel and concrete, \$470,000 and \$68,000. Engineers Waddell and Harrington, Kansas City, Mo. Owners City of Tacoma. This work was mentioned here last week, but it was then stated that the owner was the city of Seattle. The bids for this work have been called for and will be opened on June 26th, at which time the style of construction will be settled upon. Bids will be taken on both the vertical lift and the bascule type bridges.

**San Diego, Cal.**—Bridge, reinforced concrete, \$5,000. Engineer E. M. Capps, San Diego. Owner City of San Diego. The bridge will be of four spans, and is to be erected over E street at 17th. The plans are being prepared.

## —CHURCHES—

**San Francisco**—Church, 2 story and base, brick, \$50,000. Architect Charles J. I. Devlin, Pacific Bldg., S. F. Owner Saint Francis Catholic Church. This work has been mentioned here before when the plans were first started. The drawings have now been completed and figures are being taken on the work. Bids were asked for on the general contract and awards will be made at once.

**Barstow, San Bernardino Co., Cal.**—Church, 2 story and base, frame. Cost not stated. Architect T. R. Griffith, 627 Citizens National Bank Bldg., L. A. Owners Catholic Church of Barstow. The building will be 24x50 feet. The plans are complete and figures will be taken at once.

**Los Angeles, Cal.**—Church, 2 story and base, brick, \$50,000. Architect E. E. B. Meinardus, 821 Higgins Bldg., L. A. Owners German Lutheran Church. The exterior of the church will be of pressed brick. The bids are now under advisement. Rev. A. F. Michel, 746 West 18th St., is the pastor, and states that contracts will be awarded soon.

## Contracts Awarded.

**Los Angeles, Cal.**—Church, 2 story and base, frame. Cost not stated. Architect F. J. Soper, I. W. Hellman Bldg., L. A. Owners United Brethren. Contractor E. S. Shapland, 2901 Van Buren Place. Contract price not stated.

## —COURT HOUSES & JAILS—

**Ventura, Ventura Co., Cal.**—Court House, 2 story and base, reinforced concrete, \$250,000. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners County of Ventura. This building has been mentioned here several times before. The excavating has been let, and plans are now complete for the construction of the reinforced skeleton.

This contract will include the foundation walls and basement and exterior walls. Bids are being taken and contractors will be allowed about 30 days in which to figure the work.

## FACTORIES & WAREHOUSES

**Oakland, Cal.**—Warehouse, 1 story and base, brick, \$10,000. Architect Roger Coit, 293 Bacon Bldg., Oakland. Owner's name withheld. The building will be 90x150 feet, and of extra heavy construction. The exterior will be of stock brick. The plans are complete, and the work will be done by Day Labor under the direction of the architect.

**Stockton, San Joaquin Co., Cal.**—Warehouse, 1 story and base, brick and concrete, \$27,000. Architect Ralph P. Morrell, Stockton. Owners Farmers' Union. The building will be 564 feet long and 160 feet wide. The construction will be fireproof, and a considerable amount of iron will be used. The plans are being prepared.

**Los Angeles, Cal.**—Warehouse, 1 story and base, concrete and iron. Cost not stated. Architect F. M. Tyler, L. A. Owner W. R. Hubbard. The exterior will be of corrugated iron. The structure will be 100 feet square. The plans are being prepared.

## Contracts Awarded.

**Seattle, Wash.**—Warehouse, 3 story and base, reinforced concrete, \$60,000. Architect John Graham, Lyon Bldg., Seattle. Owners H. N. Richmond Paper Co. There will be a considerable amount of structural steel used in this building. Two freight elevators will be installed. Contractor George C. Dietrick, Globe Bldg., Seattle. Contract price \$47,000.

## FIRE HOUSES.

**San Francisco**—County Jail work, 4 story and base. Class A construction, \$125,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owners City and County of San Francisco. The plans for the plastering of this building are now complete, and bids are being taken through the Board of Public Works. Bids will be opened on June 9th.

## FLATS.

**San Francisco**—Flats, 3 story and base, frame. \$3,500. Architect none. Owner H. Scholten, 1522 Santa Clara St., S. F. The building will be 25x60, and will contain 6 flats of 5 and 6 rooms each. The exterior will be of shiplap. The plans are in the hands of the owner, and he will do the work by Day Labor.

**San Francisco**—Flats, 2 2 story and base, frame, \$8,000 each. Architects Ross and Burgren, 222 Kearny St., S. F. Owner's name withheld. Each of the buildings will contain 2 flats of 6 and 7 rooms each. There will be gas grates. The exteriors will be covered with shiplap. The plans are complete and the architects are taking figures.

**San Francisco**—Flats, 2 story and base, frame. Cost not given. Architect Alfred Henry Jacobs, French Bank Bldg., S. F. Owner Mrs. Emma Thueson. The building will contain 2 mod-

ern flats with the interiors nicely finished. The exterior will be of brick veneer and cement plaster. The architect is taking figures.

**San Francisco**—Flats, 2 and 3 story and base, frame, \$5,800 and \$2,200. Architect M. S. Woodhams, 68 Post St., S. F. Owner Enrico Bianchi, 1223 Kearny St. The three-story structure will be erected in the front of the lot and the two-story building on the rear. The buildings will be modern in every particular. The exterior will be faced with shiplap and cement plaster on metal lath. The architect is now taking figures on the work.

**San Francisco**—Flat and cafe, 2 story and base, frame, \$7,000. Architect August Nordin, Mills Bldg., S. F. Owner J. J. Bahrs. The first floor will be arranged for a cafe and the second for living purposes. The building will be finely finished throughout. The architect is now preparing the plans.

**Los Angeles, Cal.**—Flats, 2 story and base, frame. Cost not stated. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner's name withheld. The building will contain 8 flats of four rooms each. There will be wall beds and private baths. The plans are complete.

**Los Angeles, Cal.**—Flats, 2 story and base, frame. Cost not given. Architect Fred Biren, 609 Broadway Central Bldg., L. A. Owner Mrs. Smith. The building will contain four flats of five rooms each. There will be wall beds, private baths and gas grates. The plans are being prepared.

## GARAGES.

**San Francisco**—Garage and stables, 2 story and base, reinforced concrete, \$15,000. Architects Jules Godart and Son, 628 Montgomery St., S. F. Owners Parisian Baking Co. The building is to be arranged for the stabling of the company's teams and automobiles. The exterior will be of cement plaster. The plans are complete and bids have been taken.

**Los Angeles, Cal.**—Garage, 1 story and base, brick, \$15,000. Architect J. W. Chalmers, 432 Mason Bldg., L. A. Owner A. L. Hill. The building will be 100x130 feet, and is to be arranged for display rooms as well as a garage. There will be a cement floor over the entire building. The exterior will be faced with pressed brick. The plans are complete and bids are being taken.

## GOVERNMENT WORK AND SUPPLIES.

general lighting system at Fort Flagler. Capt E. C. Long is the officer in charge of the Construction Q. M. Dept. at Seattle.

**Canal Zone**—Canal Supplies. Cost not stated. Owners U. S. Government. Bids will be opened on June 22 for furnishing cargo handling and locomotive cranes, gasoline engine driven passenger car, rock skips, chaplets, electric cable and cable terminals. Complete information at the offices of the various purchasing agents in San Francisco, Seattle, Tacoma and Los Angeles.

## HALLS & SOCIETY BLDGS.

**Oakland, Cal.**—City Hall, 15 story and base. Class A construction, \$1,300,000. Architects Palmer and Hornbostel, New York and Oakland. Owner City of Oakland. Bids for this work have been opened and the majority of the contracts have been awarded. For a complete list of the successful bidders, their figures and the parts of the work on which bids were rejected see Oakland news pages. Bids are being called for on all parts of the work rejected. Opening date announced later.

**San Francisco**—Aquarium, 1 story and base, reinforced concrete, \$100,000. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owners Golden Gate Park. The architect is preparing the preliminary drawings for this building which is to be a donation to the park. The details of the construction cannot be given at this time. The building is to contain one of the finest aquariums in the west.

**Bakersfield, Kern Co., Cal.**—Club house and stores, 3 story and base, reinforced concrete, \$25,000. Architect Thomas B. Wiseman, Producers National Bank Bldg., Bakersfield. Owners Bakersfield Club. The building will be 50x82, and will be arranged in the most modern manner. There will be steam heat. The first floor will be occupied by retail stores. The architect is preparing the plans.

**Altadena, Los Angeles Co., Cal.**—Country Club, 2 story and base, frame, \$25,000. Architect J. J. Bick, 414 Dodsworth Bldg., Pasadena. Owners Altadena Country Club. This building was mentioned here when the architect was first selected. The plans are complete and bids for the construction are now being taken.

**Los Angeles, Cal.**—Lodge Hall, 3 story and base, brick. Cost not stated. Architects Morgan, Walls and Morgan, Story Bldg., L. A. Owners East Los Angeles Odd Fellows Hall Association. The first floor of the building will be arranged for store purposes, and the two upper floors will be devoted to lodge rooms. The exterior will be of pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Lodge Hall, 5 story and base. Class A construction. Architect Albert C. Martin, 430 Higgins Bldg., L. A. Owners Knights of Columbus Hall Association. The site for this building has just been secured, and no definite steps have been taken towards securing the plans, but it is generally accepted that Mr. Martin will prepare the drawings.

**Tucson, Ariz.**—City Hall, 2 story and base, reinforced concrete and brick, \$50,000. Architects D. H. and J. H. Holmes, Tucson. Owners City of Tucson. The building will be 125x75 feet, and will contain the city offices. The plans show a Mission style building. The exterior will be of cement plaster and pressed brick. There will be steam heat. The plans of the architects have just been approved by the City Trustees.

**Santa Fe, New Mex.**—Lodge Hall, 3 story and base, reinforced concrete, \$150,000 to \$200,000. Architects Hunt and Burns, 701 Laughlin Bldg., L. A. Owners Scottish Rights Hall Association of Santa Fe. The building will be designed in the Moorish style, and will be the most elaborate structure in the city. The mechanical equipment will include elevators and steam heat. The exterior will be of cement plaster. The plans are complete and bids will be taken at once.

**Spokane, Wash.**—City Hall 5 story and base. Class A construction, \$650,000. Architect Julius Zittel, Jamison Bldg., Spokane. Owners City of Spokane. The architect has presented his revised plans for this building to the city, and favorable action is expected from the committee.

**Portland, Ore.**—Armory, 2 story and base, brick, \$20,000. Architects Clausen and Clausen, Portland. Owners State of Oregon. The building will contain the most modern plumbing and armory equipment. The exterior will be of pressed brick. The plans are being prepared.

### —HOSPITALS—

**San Francisco**—Hospital work. Cost not stated. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. The work for which bids are now being taken is the plastering of the main group of hospital buildings, which are known as the City and County Hospital. Bids will be opened by the Board of Public Works on June 15th.

### —HOTELS—

**San Francisco**—Hotel alterations and addition, \$10,000. Architect W. D. Shea, 350 Larkin St., S. F. Owner Teresa Chichizola. The exterior will be of brick. There will be a one story addition and a pent house. The interior will be completely rearranged and new plumbing installed. The plans are being figured.

**San Francisco**—Hotel, 4 story and base, brick and steel, \$45,000. Architect Lewis M. Gardner, Phelan Bldg., S. F. Owner's name withheld. The architect has not completed the preliminary drawings for this building as yet, and the details of the construction cannot be given at this time.

**San Francisco**—Hotel and stores, 2 story and base, reinforced concrete, \$75,000. Architect F. W. Burkl, Mechanics' Institute Bldg., S. F. Owner represented by Hoag and Co. The building will be 148x92. There will be 24 stores on the first floor and 110 rooms above. The exterior will be faced with cement plaster. The plans are being prepared.

**San Francisco**—Hotel and store, 3 story and base, brick, \$30,000. Architect Norman Coulter, 46 Kearny St., S. F. Owner August Petzold. The first floor will be arranged for retail stores and the two upper floors will be divided into about 60 rooms. The exterior will be of pressed brick. The plans are complete and figures are being taken.

**Concord, Contra Costa Co., Cal.**—Hotel, 2 story and base, frame, \$40,000. Architects MacDonald and Applegarht, Call Bldg., S. F. Owner Concord Hotel Co. The building is designed in the Spanish style, and the exterior will be covered with cement plaster. There will be a large lobby and public dining room. The building will be heated by steam. The majority of the rooms will be en suite with a connecting bath. The plans are complete and figures are being taken.

**Stockton, San Joaquin Co., Cal.**—Hotel, 3 story and base, brick. Cost not stated. Architect Walter King, Elks' Bldg., Stockton. Owners Stockton Salvation Army. The building will be arranged for the army headquarters and a hotel. The exterior will be of pressed brick. The plans are being prepared.

**Fresno, Fresno Co., Cal.**—Hotel alterations, \$10,000. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owners Messrs. Maxfield and Lissenby, Fresno. The work is to be done in a three story brick structure, and will include new plumbing and electrical work. The plans are complete and figures are being taken.

**Modesto, Stanislaus Co., Cal.**—Hotel, 3 story and base, brick, \$70,000. Architects George L. Streshly and Co., Balboa Bldg., S. F. Owners Rochdale Co. The building will have a steel frame with brick exterior walls and will be faced with pressed brick. There will be about 100 rooms and 25 baths. The first floor will be occupied by a retail store. There will be steam heat and elevator service. The working drawings are complete and bids will be called for at once.

### —POST OFFICES—

**Walla Walla, Wash.**—Post office, 3 story and base. Class A construction, \$350,000. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. The appropriation for this building has just been increased from \$150,000. The plans are to be prepared at once.

### Contracts Awarded.

**San Diego, Cal.**—Post office, 3 story and base. Class A construction, \$160,000. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. Contractors William H. Maxwell and Co., Great Falls, Mo. Contract price \$191,730. The amount of the appropriation is but \$160,000, and it is a question whether or not the contract will be signed.

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Arrow Rock Dam, Idaho.**—Railroad grading. Cost not stated. Engineers Office Reclamation Service, Shaw Bldg., Boise, Idaho. Owners U. S. Govern-

ment. The work includes the removing of approximately 100,000 cubic yards of earth and 35,000 cubic yards of rock. Bids will be opened June 10.

**Mill Valley, Marin Co., Cal.**—Art Square, concrete, \$1,000. Architect Curtis Tobey, 203 Russ Bldg., S. F. Owner Mill Valley Out Door Art League. The plans for a large square in front of the depot have been prepared, and will be presented to the committee for approval.

### Contracts Awarded.

**Portland, Ore.**—Car shops, 1 story, reinforced concrete, \$50,000. Architect none. Owners O. W. R. & N. Co., Portland. Contractor W. W. Concanon, Monadnock Bldg., S. F. Contract price \$50,000.

**Seattle, Wash.**—Passenger station, 2 story and base. Cost not stated. Architect's name not given. Owners Seattle Interurban Electric Co. Contractors Stone and Webster Co., Seattle. Contract price not given.

### RESIDENCES

### RESIDENCES.

**San Francisco**—Residence, 2 story and base, brick, \$25,000. Architect Walter A. Matthews, 969 Broadway, Oakland. Owner Robert M. Loesar. The dwelling is to be erected in the Marine View District. There will be a garage in connection. The plans are not complete, but it is understood that they will provide for steam heat and all other modern conveniences. The architect is preparing the plans.

**San Francisco**—Residence, 2 story and base, frame, \$4,000. Architect J. A. Leonard, 903 Phelan Bldg., S. F. Owner Urban Realty Co. The dwelling will be similar to the many other homes which have been erected by this company. There will be 8 rooms and bath. The exterior will be of brick veneer and cement plaster. There will be coal grates and hardwood floors. The work is to be done by Day Labor.

**San Francisco**—Residence, 2 story and base, frame, \$7,000. Architect J. A. Leonard, 903 Phelan Bldg., S. F. Owner Urban Realty Co. This dwelling will contain 9 rooms and 2 baths. The interior will be largely of hardwoods. A furnace heating system will be installed. The exterior will be of cement plaster and shingles. The work is to be done by Day Labor and the plans are now complete.

**Berkeley, Alameda Co., Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner R. C. Haile, 3007 Fulton St., Berkeley. The dwelling will contain 5 rooms and bath. The exterior will be covered with shingles. The plans are in the hands of the owner, and the work will be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residences, 2, 2 story and base, frame, \$10,000 each. Architect John Galen Howard, Atlas Bldg., S. F. Owner's name withheld. The plans for this work will be complete and out for figures in a day or two. The dwellings will be modern in every particular. The interior trim will be mostly of hard wood.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$2,500. Architects Gallagher and Motts, 472 Hawthorne St., Oakland. Owner Miss F. Smith. The bungalow will contain 6 rooms and bath. The exterior will be of shingles. The plans are now being figured.

**Berkeley, Alameda Co., Cal.**—Bungalow, 1 story and base, frame, \$2,500. Architect none. Owner R. F. Henley, 1516 Edith St., Berkeley. The dwelling will contain 5 rooms and bath. The exterior will be covered with shingles. The plans are now being figured.

**Mission San Jose, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect Frank M. May, 2140 Center St., Berkeley. Owner John McCarthy, Mission San Jose. The dwelling will contain 6 rooms and bath. The interior will have coal grates and hardwood floors on the first floor. The exterior will be covered with shingles. The plans are now being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$12,000. Architect John Hudson Thomas, First National Bank Bldg., Berkeley. Owner W. L. Locke. The dwelling will contain 14 rooms and baths. The interior trim will be of white cedar. There will be a warm air heating system, coal grates and other modern conveniences. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**Oakland, Cal.**—3 cottages, 1 story and base, frame, \$3,000 each. Architect none. Owner B. A. Stewart, 620 40st St., Oakland. The cottages will be of 5 and 6 rooms each. There will be baths and modern plumbing. The exteriors will be covered with shingles. The plans are in the hands of the owner, and the work is to be done under the Day Labor system.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$9,000. Architect C. S. McNally, Mechanics' Institute Bldg., S. F. Owner's name withheld. The dwelling will contain 10 rooms and 2 baths. The interior will be finished in pine and hardwood. There will be a warm air heating system. The exterior will be of cement plaster on metal lath. The plans are now complete and the architect is taking figures.

**Berkeley, Alameda Co., Cal.**—Residences, 2 story and base, frame, \$2,500. Architect none. Owner B. K. Denbigh, 2141 Center St., Berkeley. The dwelling will contain 6 rooms and bath. The interior trim will be of pine. There will be coal grates. The exterior will be of shingles. The plans are in the hands of the owner, and the work is to be done by Day Labor.

**Oakland, Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect Oscar Johnson, 905 4th Ave., Oakland. Owner William R. King. The cottage will contain 6 rooms and bath with modern plumbing. The exterior will be covered with rustic. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner Mrs. B. C. McCall. The dwelling will

contain 7 rooms and bath. The interior will be handsomely finished. The floors will be of hardwood. There will be coal grates. The exterior will be covered with shingles. The plans are complete and the architect is taking figures.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$12,000. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Charles W. Fox. The dwelling will contain 9 rooms and baths. The interior trim will be of pine and hardwoods. There will be a warm air heating system. The exterior will be covered with cement plaster on metal lath. The architect has completed the plans and is now taking figures on the work.

**Stockton, San Joaquin Co., Cal.**—Residence, 1½ story and base, frame, \$3,500. Architect A. Phillips, Hotel Stockton Annex, Stockton. Owner Claude Harrison. The dwelling will contain 7 rooms and bath, with modern plumbing. The exterior will be covered with shingles. The architect is preparing the plans.

**Redwood City, San Mateo Co., Cal.**—Residence, 2 story and base, frame, \$15,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owner T. D. Williams, Redwood City. The dwelling will be erected in Wellesley Park. There will be 12 rooms and 2 baths. The interior trim will be largely of hardwoods. The exterior will be of cement plaster on metal lath. A warm air heating system will be installed. The architects are now preparing the plans.

**Hillsborough, San Mateo Co., Cal.**—Residence, 2 story and base, reinforced concrete, \$100,000. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owner Charles Templeton Crocker. The details of this work have not been completed, and the statement has just been made that the new dwelling is to replace the old family mansion. It is further stated that the new building will follow the Italian villa style of architecture. The details cannot be given until the owner returns from Europe.

**San Francisco**—Residence, 2 story and base, frame, \$2,000. Architect W. Chester Gilligan, 1655 9th Ave., S. F. Owner Thomas Gainsford. The dwelling will contain 7 rooms and bath. The plumbing is not to be included in the contract. The plans are being figured.

**San Francisco**—Residences, 2, 2 story and base, frame, \$3,000 each. Architect none. Owner L. U. Grant, 509 Geary St., S. F. These houses will be built for sale. There will be eight rooms and bath in each. The exteriors will be of shiplap. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, \$5,000. Architect none. Owner Mrs. E. W. Bowle, 2318 Telegraph Ave., Berkeley. The dwelling will contain 9 rooms and bath. There will be a furnace heating plant. A garage is to be erected in connection with the dwelling. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$2,500. Architect E. P. Antonovich, 888 Kearny St., S. F. Owner R. F. Phillips, 888

Hillegass Ave., Berkeley. The exterior of the dwelling will be covered with shingles. The plans have been placed in the hands of the owner and the work will be done by Day Labor.

**Oakland, Cal.**—Cottages, 3, 1 story and base, frame, \$2,000 each. Architect L. E. Hyde, 2715 26th Ave., Oakland. Owner George Hoffschneider, Oakland. The cottages will contain 5 rooms and bath each. The exteriors will be of rustic. The plans are being figured.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not given. Architect Arthur S. Heinemann, 1402 Union Trust Bldg., L. A. Owner T. D. Brigdon. The dwelling will contain 10 rooms and baths. There will be furnace heat and other modern improvements. The exterior will be of brick veneer and cement plaster. The plans are complete. The same architect has prepared plans for a similar residence which is to be erected for Morgan Galbreth. The plans for this residence are now out for figures.

**Los Angeles, Cal.**—Bungalows, 3, 1 story and base, frame. Cost not stated. Architect Arthur S. Heinemann, 1402 Union Trust Bldg., L. A. Owner N. P. Cummings. The exteriors will be of shakes and shingles. There will be furnace heat and hardwood floors. The plans are ready for figures.

**Pomona, Los Angeles Co., Cal.**—Residence, 2 story and base, frame, \$7,000. Architect Robert H. Orr, Pomona. Owner W. T. Michael. The dwelling will contain 10 rooms and 2 baths. There will be furnace heat. The plans are complete.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner T. Grumbach. The house will be in the form of a double residence of 6 rooms each. There will be complete furnace and plumbing equipment for both houses. The plans are being prepared.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architect Frederick Noonan, 1008 Broadway Central Bldg., L. A. Owner H. K. Butterfield. The dwelling will contain 10 rooms and baths. The interior will be trimmed in hardwoods throughout. There will be furnace heat. The plans are being prepared. A one story garage will be erected in connection with this residence. The same architect is also preparing plans for another 10 room residence, which is to be erected for T. F. Joyce. This building will be erected under the Day Labor system.

## SCHOOLS.

**Berkeley, Alameda Co., Cal.**—College buildings. Cost not stated. Architect John Galen Howard, Atlas Bldg., S. F. Owner University of California. The work for which bids are now being taken includes the following: Installation of an indirect heating and ventilating system in the Agricultural Hall, masonry, carpentry work, plumbing and electrical work for the new building to be known as Girton Hall. Bids opened on the above work June 7th.

**Santa Clara, Santa Clara Co., Cal.**—College buildings, group of six or seven structures of the reinforced concrete type, \$1,500,000. Architect Will D. Shea, 350 Larkin St., S. F. Owner Santa Clara College. This work has been mentioned here before under another architect, and at a time when the college contemplated moving from Santa Clara. The original plans have been abandoned and the work will be started at once. The contract for the first of the buildings, a three story Administration building, has been awarded to D. E. Graham, Williams Bldg., S. F., for \$88,000. The architect states that the plans for three other buildings are nearly complete and that contracts will be let at once. The entire work is to be undertaken this year. It is still an unsettled question whether or not the Graham Co. will construct all of the buildings or whether the work will be put out for competitive figures.

**Tracy, San Joaquin Co., Cal.**—School, 2 story and base, brick, \$25,000. Architects Deuel and Wright, Macdonough Bldg., Oakland. Owners Tracy School District. This school has been mentioned here when the architects were first commissioned to prepare the plans. The drawings are now complete and are out for figures.

**Alturas, Modoc Co., Cal.**—School, 2 story and base, frame, \$20,000. Architect J. T. Narbett, Ochsner Bldg., Sacramento and Chico. Owners City of Alturas. The bids for this work have been opened by the Board of Trustees. The contractor's name will appear in the next issue if the contract is awarded.

**Alhambra, Los Angeles Co., Cal.**—School, 2 story addition, brick. Cost not stated. Architect Frederick Noonan, 1008 Broadway Central Bldg., L. A. Owner City of Alhambra. Bids for this work are now being taken and will be opened on June 10th. The addition is to be of six rooms.

**Phoenix, Ariz.**—School, group of 4 reinforced concrete buildings, \$250,000. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Owner City of Phoenix. This work has been mentioned here before. The plans have been completed and the city is calling for bids on the construction. The school will be the most modern structure of its kind in the west, and the main assembly hall will have a seating capacity of 1,400 students.

**Glendora, Los Angeles Co., Cal.**—School, 2 story and base, brick, \$40,000. Architects Allison and Allison, 1416 Union Trust Bldg., L. A. Owner City of Glendora. The architects have just been commissioned to prepare the plans. The building will contain 12 class rooms. The exterior will be faced with pressed brick. There will be steam heat.

**Bell Station, Los Angeles Co., Cal.**—School, 2 story and base, brick, \$20,000. Architect J. W. Lindstrom, Bell Station. Owners Bell Station School District. The building will contain eight class rooms. There will be steam heat. The exterior will be faced with pressed brick. The plans are being figured.

**Montavalo, Ventura Co., Cal.**—School, 1 story and base, frame, \$5,000. Architect Norman F. Marsh, 212 Broadway

Central Bldg., L. A. Owner Montavalo School District. The building will contain two rooms. The plans are in the hands of W. Cannon, R. F. D. No. 2, Ventura. Bids are being taken.

**Riverside, Riverside Co., Cal.**—School, 2 story and base, concrete and brick, \$20,000. Architect G. Stanley Wilson, Riverside. Owner City of Riverside. This work has been mentioned here before. The bids received show that the plans will have to be revised, and the architect states that this will be completed in about a week. New bids will be called at once.

**Great Falls, Mont.**—Girls' Academy, 3 story and base, reinforced concrete, \$150,000. Architect George H. Shanley, Great Falls. Owners Ursuline Sisters. The plans for this building, details of which have not been obtainable, are complete and bids will be opened June 20th.

**Seattle, Wash.**—University add., \$75,000. Architect none. Owner University of Washington. (Prof. O. E. Eastwood, 4702 12th Ave., Seattle, will be in charge of the work.) The work will include a two story reinforced concrete addition to the library, cost \$15,000; alterations in the Science Hall, \$8,000; dormitories to be made fire-proof, \$5,000; Forestry Bldg. to be subdivided, \$4,000, and the sum of \$10,000 will be spent in general repairs to other buildings and in new plumbing.

**Oakland, Cal.**—School addition, \$12,000. Architect Louis S. Stone, Macdonough Bldg., Oakland. Owner City of Oakland. The addition consists of a one story frame structure with an exterior of cement plaster. There will be plumbing, electric work and hardware. The plans are complete and figures are being taken.

## SEWERS, STREET WORK AND WATER SYSTEMS

**Alturas, Modoc Co., Cal.**—Water system. Cost not stated. Engineers Sloan and Robson, Nevada Bank Bldg., S. F. Owner Town of Alturas. The bids for the construction of a large steel reservoir and for boring two 10-inch wells have been taken by the engineers, and are now under advisement.

**Vallejo, Solano Co., Cal.**—Reservoir, concrete, \$40,000. Engineer's name not given. Owner City of Vallejo. The City Trustees have rejected all bids for the construction of a new distributing reservoir, which is to be erected at Fleming Hill. The amount available is \$40,000, and the lowest bid submitted, that of the American Construction Co., was for \$41,675. New bids will be called.

**Coalinga, Fresno Co., Cal.**—Sewer system, \$40,000. City Engineer Coalinga. Plans have been prepared for a complete sanitary sewer system, and bonds to the amount of \$40,000 have been voted. Bids will be called for at once.

## STORE.

**San Francisco**—Store, 1 story and base, reinforced concrete, \$17,500. Architect William Knowles, Mutual Bank Bldg., S. F. Owner William Ede Co. The building will be designed for a market and a tenant has already

been secured. The plans are complete and figures are being taken. The exterior will be faced with cement plaster.

**Oakland, Cal.**—Store, 1 story and base, frame, \$4,500. Architect A. W. Smith, 1004 Broadway, Oakland. Owner John Mitrovitch. The plans for this work are complete and the architect is taking figures. The same architect has plans complete and is taking figures for the construction of another one story frame store building for J. F. Dacha, which has been estimated to cost \$4,000.

**Long Beach, Los Angeles Co., Cal.**—Store, 1 story and base, brick. Cost not stated. Architect W. D. Culbertson, 1609 Cedar Ave., Long Beach. Owner C. Seybert. There will be two stores in the building. The exterior will be faced with pressed brick. The plans call for supports to carry two additional stories. The plans are being prepared.

**Bakersfield, Kern Co., Cal.**—Stores and offices, 3 story and base, brick. Cost not stated. Architect's name not given. Owners Emil Olcovich Co., L. A. The building will be arranged for several stores on the first floor and modern offices above. There will be elevator service. The plans are ready for figures, and may be seen at the company's offices in L. A., or at the office of M. R. Parra & Co., Bakersfield.

**San Francisco**—Stores and offices, 11 story and base. Class A construction, \$150,000. Architects Reid Bros., Call Bldg., S. F. Owners W. N. Brown, F. J. Leicester, et al. This work has been mentioned here before. The work of wrecking the old building and clearing the excavation has been completed. Bids are being taken for the construction of the new building, and awards will be made at once.

**San Francisco**—Stores and offices, 4 story and base. Class A construction, \$500,000. Architect Frederick H. Meyer, Humboldt Bank Bldg., S. F. Owners Bankers Investment Co. This building has also been mentioned here before. The drawings for the work are complete and separate bids are being taken. The contract for the excavating will be signed at once, and the steel work is to be let next.

## Contracts Awarded.

**Pasadena, Los Angeles Co., Cal.**—Store, 1 story and base, reinforced concrete, \$11,000. Architect C. W. Buchanan, 65 North Raymond St., Pasadena. Owner J. W. Mack. Contractor W. C. Crowell, 341 North Marengo Ave., Pasadena.

**Seattle, Wash.**—Stores and offices, 2 story and base, brick, \$14,000. Architects Stephen and Stephen, New York Bldg., Seattle. Owner R. Beesen. Contractor F. R. Barnes, 454 North 43rd St., Seattle. Contract price \$14,000.

**San Francisco**—Stores and offices, 2 story and base, reinforced concrete, \$60,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Eastman Kodak Co. Contractor M. Garden Co. Contract price not stated. This contract is for the excavating and concrete work only. The contracts for the balance of the work will be awarded

**SEALED PROPOSALS.****ELECTRIC LIGHTING SYSTEM.**

(Bids close June 15.)

**ELECTRIC LIGHTING SYSTEM**—Office of Constructing Quartermaster, 482 Arcade Annex, Seattle, Wash. Sealed proposals, in triplicate, for the construction of an electric lighting system at Fort Flagler, Wash., will be received in this office until 11 a. m. June 15, 1911, and then publicly opened. A deposit of \$5 will be required for return of plans. Information, plans, specifications and proposal blanks will be furnished upon application to Capt. E. C. LONG, constructing quartermaster.

**CANAL SUPPLIES.**

(Bids close June 22.)

**CANAL CIRCULAR 634**—Proposals for Cargo Handling and Locomotive Cranes, Gasoline Engine Driven Passenger Car, Rock Skips, Chaplets, Electric Cable and Cable Terminals—Sealed proposals will be received at the office of the general purchasing officer, Isthmian Canal Commission, Washington, D. C., until 10:30 a. m. June 22, 1911, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 634) may be obtained from this office or the offices of the assistant purchasing agents, 1086 North Point street, San Francisco, Cal.; also from the U. S. Engineer offices in the following cities: Seattle, Wash., Los Angeles, Cal.

**RAILROAD GRADING.**

(Bids close June 10.)

**RAILWAY GRADING**—Department of the Interior, United States Reclamation Service, Boise, Idaho—Sealed proposals will be received at the office of the United States Reclamation Service, Shaw Building, Boise, Idaho, until 2 o'clock p. m. June 10, 1911, for constructing roadbed for a branch railway from Barberton to the site of the Arrow rock dam, between stations 491 plus 57 and 874 plus 00. The work involves the excavation of about 100,000 cubic yards of earth and about 35,000 cubic yards of rock. Further particulars may be obtained from the office of the United States Reclamation Service, Boise, Idaho. F. E. WEYMOUTH, supervising engineer.

**PROPOSALS FOR PLASTERING.**

(Bids close June 9.)

**OFFICE OF THE BOARD OF PUBLIC WORKS** of the City and County of San Francisco. Sealed proposals will be received at the office of the said Board of Public Works, tenth floor David Hewes Building, 995 Market street, between the hours of 10 o'clock a. m. and 11 o'clock a. m., on Friday, the 9th day of June, 1911, for doing the following work, to wit:

The lathing, furring and plastering of the City and County Jail building, located on the southerly side of Washington street between Kearny and Montgomery streets.

**NAVY DEPARTMENT SUPPLIES.**

(Bids close June 20.)

PROPOSALS will be received at the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., until 10 o'clock a. m., June 20, 1911, and publicly opened immediately thereafter, to furnish at the Navy Yard, Mare Island, Cal., a quantity of naval supplies, as

follows: Sch. 3697: Hydraulic, forcing press. Sch. 3625: Redwood, Oregon pine. Sch. 3626: Ingot tin, boat lights. Sch. 3627: Insulating tape, fuses, circuit breakers, magnet wire, climax resistance wire. Sch. 3528: Foundry coke. Applications for proposals should designate the schedule desired by number. Blank proposals will be furnished upon application to the Navy Pay Office, San Francisco, Cal., or to the Bureau. T. J. COWIE, Paymaster-General, U. S. N.

**PROPOSALS FOR PLASTERING.**

(Bids close June 16.)

**OFFICE OF THE BOARD OF PUBLIC WORKS** of the City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 10 o'clock a. m. and 11 o'clock a. m. on Friday, the 16th day of June, 1911 for doing the following work, to wit:

The plastering of the Main Group Buildings of the San Francisco Hospital, located on Potrero avenue, near Twenty-second street.

**PROPOSALS FOR SEWERS.**

(Bids close June 14.)

**OFFICE OF THE BOARD OF PUBLIC WORKS** of the City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 14th day of June, 1911, for doing the following street work, to wit:

(1.) That a twelve (12) inch, vitrified, salt-glazed, iron-stone pipe sewer with one (1) brick manhole with cast iron frame and cover and galvanized wrought iron steps be constructed along the center line of Pennsylvania avenue, between the center and northerly lines of Nineteenth street; that a twelve (12) inch, vitrified, salt-glazed, iron-stone pipe sewer be constructed along the center line of Nineteenth street, between the center and westerly lines of Pennsylvania avenue; that brick catch-basins (cesspools) with cast iron frames, gratings and traps and ten (10) inch, vitrified, salt-glazed, iron-stone pipe culverts be constructed, one each on the northwesterly and southwestwesterly angular corners of the crossing of Nineteenth street and Pennsylvania avenue; and that the crossing of Nineteenth street and Pennsylvania avenue be improved by the construction of granite curbs and artificial stone sidewalks on the angular corners thereof and by the construction of a bituminous rock pavement, consisting of a six (6) inch concrete foundation and a two (2) inch bituminous rock wearing surface on the roadway thereof.

(2.) That an eight (8) inch, vitrified, salt-glazed, iron-stone pipe sewer with eight (8) Y branches and one (1) brick manhole with cast iron frame and cover and galvanized wrought iron steps be constructed along the center line of Miguel street, between Bemis and Laidley streets; that an eight (8) inch, vitrified, salt-glazed, iron-stone pipe sewer be constructed along the center line of Miguel street, from the northwesterly line of Laidley street to a point fifteen (15) feet southeasterly therefrom; and that a twelve (12) inch,

vitrified, salt-glazed, iron-stone pipe sewer, with one (1) brick manhole with cast iron frame and cover and galvanized wrought iron steps be constructed along the center line of Miguel street, from the last described point to the southeasterly line of Laidley street.

**PROPOSALS FOR STREET WORK.**

(Bids close June 14.)

**OFFICE OF THE BOARD OF PUBLIC WORKS** of the City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 14th day of June, 1911, for doing the following street work, to wit:

(1.) That the westerly one-half of Nineteenth avenue, between California and Clement streets, be improved by constructing granite curbs and an asphalt pavement, consisting of a six (6) inch concrete foundation and a two (2) inch asphaltic wearing surface, where not already constructed.

(2.) That Balboa street, between La Playa and the Great Highway, be improved by grading to official line and grade, by constructing redwood curbs and broken rock sidewalks on both sides of the roadway thereof with a broken rock pavement.

(3.) That Lawton street, between Forty-eighth avenue and La Playa, be improved by constructing broken rock sidewalks, where not already constructed, by constructing redwood curbs on the roadway thereof, where not already constructed, and by paving the roadway thereof with a broken rock pavement, where not already constructed.

(4.) That full width artificial stone sidewalks be constructed on the angular corners of the crossing of Twentieth and Church streets.

(5.) That Eighteenth avenue, between Clement street and Geary street, be improved by constructing granite curbs and a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface on the roadway thereof, where not already constructed.

(6.) That Vallejo street, between Steiner and Pierce streets, be improved by constructing artificial stone sidewalks of the full official width, where artificial stone sidewalks at least nine (9) feet in width are not already constructed.

(7.) That Cabrillo street, between La Playa and the Great Highway, be improved by grading to official line and grade, by constructing redwood curbs and broken rock sidewalks on both sides of the roadway thereof, and by paving the roadway thereof with a broken rock pavement.

**CONSTRUCTING BUILDING.**

Sealed bids will be received up to and including the 19th day of June by the Board of Trustees of the City of Fresno, Cal., for the construction, including plumbing and electric work, of a two story concrete and frame convention hall. The work is to be done in strict accordance with the plans and specifications as prepared by Architect C. K. Kirby, Jr., Forsyth Bldg., Fresno. Plans may be had on application at either the office of the architect or by applying to W. H. Ryan, City Clerk.

## San Francisco.

**Apartment House**—3 or 4 story and base, brick and steel, \$45,000. San Francisco. Architect Lewis M. Gardner, 740 Phelan Bldg., S. F. Owner's name withheld. The architect has just started the preliminary plans for this work, and other than the type of construction the details of the building have not been settled upon. The owner is negotiating a loan.

**Apartment House**—3 story and base, frame, \$30,000. San Francisco. Architects Dunn and Kearns, Monadnock Bldg., S. F. Owner C. Blake, 536 Pacific Bldg., S. F. The building will contain 24 modern apartments of 2 and 3 rooms each. There will be private baths in connection with each of the apartments, elevator service, steam heat and wall beds. The plans have been placed in the hands of the owner, and he is now purchasing all materials and will erect the building under the Day Labor system.

**Flats**—3 story and base, frame, \$3,500. San Francisco. Architect none. Owner H. Scholten, 1522 Santa Clara St., S. F. The building will be 25x60, and will contain six flats of 5 and 6 rooms each. The exterior will be of shiplap. The plans are in the hands of the owner and he will do the work by Day Labor.

**Flats**—2, 2 story and base, frame, \$8,000 each. San Francisco. Architects Ross and Burgren, 222 Kearny St., S. F. Owner's name withheld. Each of the buildings will contain 2 flats of 6 and 7 rooms each. There will be gas grates. The exteriors will be covered with shiplap. The plans are complete and the architects are taking figures.

**Flats**—2 story and base, frame. Cost not given. San Francisco. Architect Alfred Henry Jacobs, French Bank Bldg., S. F. Owner Mrs. Emma Thueson. The building will contain two modern flats with the interiors nicely finished. The exterior will be of brick veneer and cement plaster. The architect is taking figures.

**Flats**—2 and 3 story and base, frame, \$5,800 and \$2,200. San Francisco. Architect M. S. Woodhams, 68 Post St., S. F. Owner Enrico Bianchi, 1223 Kearny St. The three story structure will be erected in the front of the lot, and the two story building in the rear. The buildings will be modern in every particular. The exterior will be faced with shiplap and cement plaster on metal lath. The architect is now taking figures on the work.

**Flat and Cafe**—2 story and base, frame, \$7,000. San Francisco. Architect August Nordlin, Mills Bldg., S. F. Owner J. J. Bahrs. The first floor will be arranged for a cafe and the second for living purposes. The building will be finely finished throughout. The architect is now preparing the plans.

**Residence**—2 story and base, brick, \$25,000. San Francisco. Architect Walter A. Matthews, 969 Broadway, Oakland. Owner Robert M. Loesar. The dwelling is to be erected in the Marine View District. There will be a garage in connection. The plans are not complete, but it is understood they will provide for steam heat and all other modern conveniences. The architect is preparing the plans.

**Residence**—2 story and base, frame, \$4,000. San Francisco. Architect J. A. Leonard, 903 Phelan Bldg., S. F. Owner Urban Realty Co. The dwelling will

be similar to the many other homes which have been erected by this company. There will be 8 rooms and bath. The exterior will be brick veneer and cement plaster. There will be coal grates and hardwood floors. The work is to be done by Day Labor.

**Canal Supplies**—Cost not stated. Canal Zone. Owners U. S. Government. Bids will be opened on June 22 for furnishing cargo handling and locomotive cranes, gasoline engine driven passenger car, rock skips, chaplets, electric cable and cable terminals. Complete information at the offices of the various purchasing agents in San Francisco, Seattle, Tacoma and Los Angeles.

**Apartment House**—5 story and base, brick and steel, \$50,000. San Francisco. Architect N. W. Sexton, Chronicle Bldg., S. F. Owner O. Fleisher. The building will contain in the neighborhood of 80 rooms, not including the bath rooms. There will be steam heat, elevator service, hot and cold running water and wall beds. The exterior of the building will be faced with pressed brick and terra cotta. The architect has completed the plans and is now taking figures on the work. The contract will be let as a whole.

**Residence**—2 story and base, frame, \$7,000. San Francisco. Architect J. A. Leonard, 903 Phelan Bldg., S. F. Owner Urban Realty Co. This dwelling will contain 9 rooms and 2 baths. The interior will be largely of hardwood. A furnace heating system will be installed. The exterior will be of cement plaster and shingles. The work is to be done by Day Labor, and the plans are now complete.

**County Jail Work**—4 story and base. Class A construction, \$125,000. San Francisco. Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owners City and County of San Francisco. The plans for the plastering of this building are now complete and bids are being taken through the Board of Public Works. Bids will be opened on June 9th.

**Navy Yard Supplies**—Cost not stated. Mare Island, Cal. Owners U. S. Government. Bids are being called for furnishing a considerable amount of general supplies for this yard. Bids are being taken through the Bureau of Supplies and Accounts, Navy Dept., Washington, D. C. Bids will be opened in Washington on June 20th. For a complete list of the supplies see column headed Sealed Proposals.

**Apartment House**—5 or 6 story and base, brick and steel, \$50,000. San Francisco. Architects Fabre and Bearwald, Metropolis Bank Bldg., S. F. Owner's name withheld. The building will contain about 90 rooms, arranged in suites of 2 and 3 rooms each. There will be private baths, wall beds, steam heat and elevator service. The exterior of the building will be faced with pressed brick. The preliminary drawings have just been completed.

**Church**—2 story and base, brick, \$50,000. San Francisco. Architect Charles J. I. Devlin, Pacific Bldg., S. F. Owner Saint Francis Catholic Church. This work has been mentioned here before when the plans were first started. The drawings have now been completed and figures are being taken on the work. Bids were asked for on the general contract and awards will be made at once.

**Hotel and Store**—3 story and base, brick, \$30,000. San Francisco. Archi-

tect Norman Coulter, 46 Kearny St., S. F. Owner August Petzold. The first floor will be arranged for retail stores and the two upper floors will be divided into about 150 rooms. The exterior will be of pressed brick. The plans are complete and figures are being taken.

**Aquarium**—1 story and base, reinforced concrete, \$100,000. San Francisco. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owners Golden Gate Park. The architect is preparing the preliminary drawings for this building which is to be a donation to the park. The details of the construction cannot be given at this time. The building is to contain one of the finest aquariums in the west.

**Garage and Stables**—2 story and base, reinforced concrete, \$15,000. San Francisco. Architects Jules Godart and Son, 628 Montgomery St., S. F. Owners Parisian Baking Co. The building is to be arranged for the stabling of the company's teams and automobiles. The exterior will be of cement plaster. The plans are complete and bids have been taken.

**Hotel**—Alterations and addition, \$10,000. San Francisco. Architect W. D. Shea, 350 Larkin St., S. F. Owner Teresa Chichizola. The exterior will be of brick. There will be a one story addition and pent house. The interior will be completely rearranged and new plumbing installed. The plans are being figured.

**Hotel**—4 story and base, brick and steel, \$45,000. San Francisco. Architect Lewis M. Gardner, Phelan Bldg., S. F. Owner's name withheld. The architect has not completed the preliminary drawings for this building as yet, and the details of the construction cannot be given at this time.

**Hotel and Stores**—2 story and base, reinforced concrete, \$75,000. San Francisco. Architect F. W. Burki, Mechanics' Institute Bldg., S. F. Owner represented by Hoag and Co. The building will be 148x92. There will be 24 stores on the first floor and 110 rooms above. The exterior will be faced with cement plaster. The plans are being prepared.

**Residence**—2 story and base, frame, \$2,000. San Francisco. Architect W. Chester Gilligan, 1655 9th Ave., S. F. Owner Thomas Gainsford. The dwelling will contain 7 rooms and bath. The plumbing is not to be included in the contract. The plans are being figured.

**Residences**—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect none. Owner L. U. Grant, 509 Geary St., S. F. These houses will be built for sale. There will be eight rooms and bath in each. The exteriors will be of shiplap. The work is to be done by Day Labor.

**Store**—1 story and base, reinforced concrete, \$17,500. San Francisco. Architect William Knowles, Mutual Bank Bldg., S. F. Owner William Ede Co. The building will be designed for a market, and a tenant has already been secured. The plans are complete and figures are being taken. The exterior will be faced with cement plaster.

**Stores and Offices**—11 story and base. Class A construction, \$150,000. San Francisco. Architects Reid Bros., Call Bldg., S. F. Owners W. N. Brown, F. J. Leicester et al. This work has been mentioned here before. The work of wrecking the old building and clearing the excavation has been completed. Bids are being taken for the construc-

tion of the new building and awards will be made at once.

**Stores and Offices**—4 story and base. Class A construction, \$500,000. San Francisco. Architect Frederick H. Meyer, Humboldt Bank Bldg., S. F. Owners Bankers' Investment Co. This building has also been mentioned here before. The drawings for the work are complete and separate bids are being taken. The contract for the excavating will be signed at once, and the steel work is to be let next.

**Hospital Work**—Cost not stated. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. The work for which bids are now being taken is the plastering of the main group of hospital buildings, which are known as the City and County Hospital. Bids will be opened by the Board of Public Works on June 15th.

**Contracts Awarded.**

**Stores and Offices**—2 story and base, reinforced concrete, \$60,000. San Francisco. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Eastman Kodak Co. Contractor M. Garden Co. Contract price not stated. This contract is for the excavating and concrete work only. The contracts for the balance of the work will be awarded at once.

The plans are complete and figures are being taken.

**Apartment House Alterations**—\$3,500 Oakland, Cal. Architect none. Owner I. Wollin, 817 16th St., Oakland. The work will consist of considerable alteration to the exterior of a frame building as well as the installation of complete new plumbing and electric work. The owner is taking figures on the work.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner R. C. Haile 3007 Fulton St. Berkeley. The dwelling will contain 5 rooms and bath. The exterior will be covered with shingles. The plans are in the hands of the owner, and the work will be done by Day Labor.

**Residence**—2 story and base, frame, \$12,000. Berkeley, Alameda Co., Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Oakland. Owner Charles W. Fox. The dwelling will contain 9 rooms and baths. The interior trim will be of pine and hardwoods. There will be a warm air heating system. The exterior will be covered with cement plaster on metal lath. The architect has completed the plans, and is now tagging figures on the work.

**Warehouse**—1 story and base, brick, \$10,000. Oakland, Cal. Architect Roger Coit, 293 Bacon Bldg., Oakland. Owner's name withheld. The building will be 90x150 feet, and of extra heavy construction. The exterior will be of stock brick. The plans are complete, and the work will be done by Day Labor under the direction of the architect.

**Residence**—2 story and base, frame, \$2,500. Berkeley Alameda Co., Cal. Architect E. P. Antonovich, 333 Kearny St., S. F. Owner R. F. Phillips, 2526 Hillegass Ave., Berkeley. The exterior of the dwelling will be covered with shingles. The plans have been placed in the hands of the owner and the work will be done by Day Labor.

**Cottages**—3, 1 story and base, frame, \$2,000 each. Oakland, Cal. Architect L. E. Hyde, 2715 26th Ave., Oakland. Owner George Hoffschneider, Oakland. The cottages will contain 5 rooms and

bath each. The exteriors will be of rustic. The plans are complete and figures are being taken.

**Residence**—2 story and base, \$5,000. Berkeley, Alameda Co., Cal. Architect none. Owner Mrs. E. W. Bowie, 2318 Telegraph Ave., Berkeley. The dwelling will contain 9 rooms and bath. There will be a furnace heating plant. A garage is to be erected in connection with the dwelling. The exterior will be of cement plaster on metal lath. The plans are being figured.

**School Addition**—\$12,000 Oakland, Cal. Architect Louis S. Stone, Macdonough Bldg., Oakland. Owner City of Oakland. The addition consists of a one story frame structure with an exterior of cement plaster. There will be plumbing, electric work and hardware. The plans are complete and figures are being taken.

**College Buildings**—Cost not stated. Berkeley, Alameda Co., Cal. Architect John Galen Howard, Atlas Bldg., S. F. Owner University of California. The work for which bids are now being taken includes the following: Installation of an indirect heating and ventilating system in the Agriculture Hall, masonry, carpentry work, plumbing and electrical work for the new building to be known as Girton Hall. Bids opened on the above work June 7th.

**Store**—1 story and base, frame, \$4,500. Oakland, Cal. Architect A. W. Smith, 1004 Broadway, Oakland. Owner John Mitrovitch. The plans for this work are complete and the architect is taking figures. The same architect has plans complete and is taking figures for the construction of another one story frame store building for J. F. Dacha, which has been estimated to cost \$4,000.

Open City Hall Bids.

OAKLAND BOARD MAKES AWARDS ON MAJORITY OF CONTRACTS. SEVERAL DEPARTMENTS OF THE WORK TO BE REFIGURED.

At a special meeting of the Oakland City Council, held last Saturday morning, the awards on the majority of the contracts for the construction of the new City Hall building were made. In making the awards the Council followed the recommendations made by the Architects, Palmer and Hornbostel, of Oakland and New York. The action of the members was unanimous and meet with but one protest, that of the firms bidding on the finish hardware. This contract did not go to the lowest bidder but was placed at a figure about \$1500 higher and awarded to the Pierce Company. The reason given being, that, in the opinion of the architects, the line of goods on which this company submitted their estimate was of a superior quality. The structural steel work, while practically awarded to the Judson Manufacturing Company, was held over until Monday.

The following is a complete list of the awards as made and of the contracts on which the bids were rejected. On the latter new bids will be called for and the official advertisement will appear commencing today:

- (1452) **Piedmont Minor Tract, Piedmont.** Two-story seven-room residence. Owner.....Realty Syndicate, 1218 Broadway, Oakland. Architect...None. Day's work. **Cost, \$3800**

**MARIN, CONTRA COSTA AND SONOMA COUNTIES.**

**Hotel**—2 story and base, frame, \$40,000. Concord, Contra Costa Co., Cal. Architects MacDonald and Applegarth, Call Bldg., S. F. Owner Concord Hotel Co. The building is designed in the Spanish style, and the exterior will be covered with cement plaster. There will be a large lobby and public dining room. The building will be heated by steam. The majority of the rooms will be en suite with a connecting bath. The plans are complete and figures are being taken.

**Reservoir**—Concrete, \$40,000. Vallejo, Solano Co., Cal. Engineer's name not given. Owner City of Vallejo. The City Trustees have rejected all bids for the construction of a new distributing reservoir which is to be erected at Fleming Hill. The amount available is \$40,000, and the lowest bid submitted, that of the American Construction Co., was for \$41,675. New bids will be called.

**Art Square**—Concrete, \$1,000. Mill Valley, Marin Co., Cal. Architect Curtis Tobey, 203 Russ Bldg., S. F. Owners Mill Valley Out Door Art League. The plans for a large square in front of the depot have been prepared, and will be presented to the committee for approval.

**San Jose & Santa Clara Valley.**

**Residence**—2 story and base, frame, \$15,000. Redwood City, San Mateo Co., Cal. Architects Bliss and Faville, Balboa Bldg., S. F. Owner T. D. Williams, Redwood City. The dwelling will be erected in Wellesley Park. There will be 12 rooms and 2 baths. The interior trim will be largely hardwoods. The exterior will be of cement plaster on

metal lath. A warm air heating system will be installed. The architects are now preparing the plans.

**Residence**—2 story and base, reinforced concrete, \$100,000. Hillsborough, San Mateo Co., Cal. Architect Lewis P. Hobart, Crocker Bldg., S. F. Owner Charles Templeton Crocker. The details of this work have not been completed, and the statement has just been made that the new dwelling is to replace the old family mansion. It is further stated that the new building will follow the Italian villa style of architecture. The details cannot be given until the owner returns from Europe.

**College Buildings**—Group of six or seven structures of the reinforced concrete type, \$1,500,000. Santa Clara, Santa Clara Co., Cal. Architect Will D. Shea, 350 Larkin St., S. F. Owner Santa Clara College. This work has been mentioned here before under another architect, and at a time when the college contemplated moving from Santa Clara. The original plans have been abandoned and the work will be started at once. The contract for the first of the buildings, a three story Administration building, has been awarded to D. E. Graham, Williams Bldg., S. F., for \$88,000. The architect states that the plans for three other buildings are nearly complete and that contracts will be let at once. The entire work is to be undertaken this year. It is still an unsettled question whether or not the Graham Co. will construct all of the buildings or whether the work will be put out for competitive figures.

**Fresno, Modesto, Stanislaus and Central California.**

**Club House and Stores**—3 story and base, reinforced concrete, \$25,000. Bakersfield, Kern Co., Cal. Architect Thomas B. Wiseman, Producers National Bank Bldg., Bakersfield. Owners Bakersfield Club. The building will be 50x82, and will be arranged in the most modern manner. There will be steam heat. The first floor will be occupied by retail stores. The architect is preparing the plans.

**Hotel Alterations**—\$10,000. Fresno, Fresno Co., Cal. Architect Edward T. Foulkes, Crocker Bldg., S. F. Owners Messrs. Maxfield and Lissenby, Fresno. The work is to be done in a three story brick structure, and will include new plumbing and electrical work. The plans are complete and figures are being taken.

**Hotel**—3 story and base, brick, \$70,000. Modesto, Stanislaus Co., Cal. Architects George L. Streshley and Co., Balboa Bldg., S. F. Owners Rochdale Co. The building will have a steel frame with brick exterior walls, and will be faced with pressed brick. There will be about 100 rooms and 25 baths. The first floor will be occupied by retail stores. There will be steam heat and elevator service. The working drawings are complete and bids will be called for at once.

**Bridges**—Steel and concrete. Cost not given. Modesto, Stanislaus Co., Cal. Engineer County Surveyor E. H.

Annear, Modesto. Owners County of Stanislaus. There are to be several new bridges erected in this county within the next month or two. The principal work will be known as the Empire bridge, and this will be an all steel structure. There are several other smaller bridges, all of which will be of steel with concrete piers and abutments. The County Surveyor will present plans for this work to the Board of Supervisors on June 20th, and the work will be advertised, bids to be opened on the second Monday in July.

**Concrete Dam**—Cost not stated, Oakdale, Stanislaus Co., Cal. Engineers Duryea and Hunt, S. F. Owners, Oakdale and South San Joaquin Irrigation Districts. Plans for this work have recently been accepted and bids will be opened by the Boards of the two districts on June 19th.

**Sewer System**—\$40,000. Coalinga, Fresno Co., Cal. City Engineer Coalinga. Owner City of Coalinga. Plans have been prepared for a complete sanitary sewer system, and bonds to the amount of \$40,000 have been voted. Bids will be called for at once.

**Stores and Offices**—3 story and base, brick. Cost not stated. Bakersfield, Kern Co., Cal. Architect's name not given. Owners Emil Olcovich Co., L. A. The building will be arranged for several stores on the first floor and modern offices above. There will be elevator service. The plans are ready for figures and may be seen at the company's offices in L. A., or at the office of M. R. Parra & Co., Bakersfield.

## Los Angeles and Southern California.

**Apartment House**—2 story and base, frame. Cost not given. Los Angeles, Cal. Architect Robert M. Taylor, 309 Los Angeles Trust and Savings Bank Bldg., L. A. Owner M. Landsberg. The building will contain 32 rooms, divided into 2 and 3 room apartments. There will be connecting baths, wall beds and all other modern conveniences. The exterior of the building will be of rustic. The architect is taking figures on the work.

**Court House**—2 story and base, reinforced concrete, \$250,000. Ventura, Ventura Co., Cal. Architect A. C. Martin, 430 Higgins Bldg., L. A. Owners County of Ventura. This building has been mentioned here several times before. The excavating has been let, and plans are now complete for the construction of the reinforced skeleton. This contract will include the foundation walls and basement and exterior walls. Bids are being taken and contractors will be allowed about 30 days in which to figure the work.

**City Hall**—2 story and base, reinforced concrete and brick, \$50,000. Tucson, Ariz. Architects D. H. and J. H. Holmes, Tucson. Owners City of Tucson. The building will be 125x75 feet, and will contain the city offices. The plans show a Mission style building. The exterior will be of cement plaster and pressed brick. There will be steam heat. The plans of the architects have just been approved by the City Trustees.

**Lodge Hall**—3 story and base, reinforced concrete, \$150,000 to \$200,000. Santa Fe, N. M. Architects Hunt and Burns, 701 Laughlin Bldg., L. A. Owners Scottish Rights Hall Association of Santa Fe. The building will be designed in the Moorish style and will be the most elaborate structure in the city. The mechanical equipment will include elevators and steam heat. The exterior will be of cement plaster. The plans are complete and bids will be taken at once.

**Country Club**—½ story and base, frame, \$25,000. Altadena, Los Angeles Co., Cal. Architect J. J. Blick, 414 Dodworth Bldg., Pasadena. Owners Altadena Country Club. This building was mentioned here when the architect was first selected. The plans are complete and bids for the construction are now being taken.

**Lodge Hall**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architects Morgan, Walls and Morgan, Story Bldg., L. A. Owners East Los Angeles Odd Fellows Hall Association. The first floor of the building will be arranged for store purposes, and the two upper floors will be devoted to lodge rooms. The exterior will be of pressed brick. The plans are being prepared.

**Lodge Hall**—5 story and base. Class A construction, Los Angeles, Cal.

Architect Albert C. Martin, 430 Higgins Bldg., L. A. Owners Knights of Columbus Hall Association. The site for this building has just been secured, and no definite steps have been taken towards securing the plans, but it is generally accepted that Mr. Martin will prepare the drawings.

**Garage**—1 story and base, brick, \$15,000. Los Angeles, Cal. Architect J. W. Chalmers, 432 Mason Bldg., L. A. Owner A. L. Hill. The building will be 100x130 feet, and is to be arranged for display rooms as well as a garage. There will be a cement floor over the entire building. The exterior will be faced with pressed brick. The plans are complete and bids are being taken.

**Church**—2 story and base, frame. Cost not stated. Barstow, San Bernardino Co., Cal. Architect T. R. Griffith, 627 Citizens National Bank Bldg., L. A. Owners Catholic Church of Barstow. The building will be 24x50 feet. The plans are complete and figures will be taken at once.

**Church**—2 story and base, brick, \$50,000. Los Angeles, Cal. Architect E. E. B. Meinardus, 821 Higgins Bldg., L. A. Owners German Lutheran Church. The exterior of the church will be of pressed brick. The bids are now under advisement. Rev. A. F. Michel, 746 West 18th St., is the pastor, and states that contracts will be awarded soon.

**Flats**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner's name withheld. The building will contain 8 flats of 4 rooms each. There will be wall beds and private baths. The plans are complete.

**Flats**—2 story and base, frame. Cost not given. Los Angeles, Cal. Architect Fred Biren, 609 Broadway Central Bldg., L. A. Owner Mrs. Smith. The building will contain four flats of five rooms each. There will be wall beds, private baths and gas grates. The plans are being prepared.

**Warehouse**—1 story and base, concrete and iron. Cost not stated. Los Angeles, Cal. Architect F. M. Tyler, L. A. Owner W. R. Hubbard. The exterior will be of corrugated iron. The structure will be 100 feet square. The plans are being prepared.

**Bridge**—Reinforced concrete, \$5,000. San Diego, Cal. Engineer E. M. Capps, San Diego. Owner City of San Diego. The bridge will be of four spans and is to be erected over E street at 17th. The plans are being prepared.

**Apartment House**—2 story and base, frame. Cost not given. Los Angeles, Cal. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner D. W. Tedford. The building will contain 22 rooms arranged in six apartments of 2 and 3 rooms each. There will be eight baths. The exterior will be of rustic. The architect is preparing the plans.

**Apartment House**—3 story and base, brick. Cost not given. Los Angeles, Cal. Architect C. C. Rittenhouse, 388 Wilcox Bldg., L. A. Owner Mrs. Scarborough. The building will be 50x167, and will contain 72 rooms besides the baths. There will be steam heat and wall beds. The exterior will be faced with white Medusa cement. The architect is preparing the plans.

**Bank Alterations**—Cost not stated. Ontario, Los Angeles Co., Cal. Architects Dennis and Farwell, 619 Fay Bldg., L. A. Owners Ontario National

Bank. The work will include new fixtures of mahogany marble and bronze work, plate glass windows and a new concrete vault. The plans are being prepared.

**Bank and Offices**—11 story and base. Class A construction, \$250,000. Los Angeles, Cal. Architects Morgan, Walls and Morgan Story Bldg., L. A. Owner I. N. Van Nuys. This work has been mentioned in these columns several times before. The contract for the concrete foundation work has been awarded to Cal Leonardt, 708 H. W. Hellman Bldg., L. A., for \$46,000. The balance of the work is now being figured.

**School**—2 story addition, brick. Cost not stated. Alhambra, Los Angeles Co., Cal. Architect Frederick Noonan, 1008 Broadway Central Bldg., L. A. Owner City of Alhambra. Bids for this work are now being taken and will be opened on June 10th. The addition is to be of six rooms.

**Store**—1 story and base, brick. Cost not stated. Long Beach, Los Angeles Co., Cal. Architect W. D. Culbertson, 1609 Cedar Ave., Long Beach. Owner C. Seybert. There will be two stores in the building. The exterior will be faced with pressed brick. The plans call for supports to carry two additional stories. The plans are being prepared.

**Residence**—2 story and base, frame, Cost not given. Los Angeles, Cal. Architect Arthur S. Heinemann, 1402 Union Trust Bldg., L. A. Owner T. D. Bridgon. The dwelling will contain 10 rooms and baths. There will be furnace heat and other modern improvements. The exterior will be of brick veneer and cement plaster. The plans are complete. The same architect has prepared plans for a similar residence which is to be erected for Morgan Galbreth. The plans for this residence are now out for figures.

**Bungalows**—3, 1 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Arthur S. Heinemann, 1402 Union Trust Bldg., L. A. Owner N. P. Cummings. The exteriors will be of shakes and shingles. There will be furnace heat and hardwood floors. The plans are ready for figures.

**Residence**—2 story and base, frame, \$7,000. Pomona, Los Angeles Co., Cal. Architect Robert H. Orr, Pomona. Owner W. T. Michael. The dwelling will contain 10 rooms and 2 baths. There will be furnace heat. The plans are complete.

**Residence**—2 story and base, frame, Cost not stated. Los Angeles, Cal. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner T. Grumbach. The house will be in the form of a double residence of 6 rooms each. There will be complete furnace and plumbing equipment for both houses. The plans are being prepared.

**Residence**—2 story and base, frame, Cost not stated. Los Angeles, Cal. Architect Frederick Noonan, 1008 Broadway Central Bldg., L. A. Owner H. K. Butterfield. The dwelling will contain 10 rooms and baths. The interior will be trimmed in hardwoods throughout. There will be furnace heat. The plans are being prepared. A one story garage will be erected in connection with this residence. The same architect is also preparing plans for another 10 room residence, which is to be erected for T. F. Joyce. This building will be erected under the Day Labor system,

**School**—Group of four reinforced concrete buildings, \$250,000. Phoenix, Ariz. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Owner City of Phoenix. This work has been mentioned here before. The plans have been completed and the city is calling for bids on the construction. The school will be the most modern structure of its kind in the west, and the main assembly hall will have a seating capacity of 1,400 students.

**School**—2 story and base, brick, \$40,000. Glendora, Los Angeles Co., Cal. Architects Allison and Allison, 1416 Union Trust Bldg., L. A. Owner City of Glendora. The architects have just been commissioned to prepare the plans. The building will contain 12 class rooms. The exterior will be faced with pressed brick. There will be steam heat.

**School**—2 story and base, brick, \$20,000. Bell Station, Los Angeles Co., Cal. Architect J. W. Lindstrom, Bell Station. Owners Bell Station School District. The building will contain 8 class rooms. There will be steam heat. The exterior will be faced with pressed brick. The plans are being figured.

**School**—1 story and base, frame, \$5,000. Montavalo, Ventura Co., Cal. Architect Norman F. Marsh, 212 Broadway Central Bldg., L. A. Owner Montavalo School District. The building will contain 2 rooms. The plans are in the hands of W. Cannon, R. F. D. No. 2, Ventura. Bids are being taken.

**School**—2 story and base, concrete and brick, \$20,000. Riverside, Riverside Co., Cal. Architect G. Stanley Wilson, Riverside. Owner City of Riverside. This work has been mentioned here before. The bids received show that the plans will have to be revised, and the architect states that this will be completed in about a week. New bids will be called at once.

### Contracts Awarded.

**Apartment House**—5 story and base, reinforced concrete, \$135,000. Los Angeles, Cal. Architects R. B. Young and Son, Lankershim Bldg., L. A. Owner W. F. Young. Contractors Young Construction Co., Union Trust Bldg., L. A. Contract price \$135,000.

**Apartment House**—3 story and base, brick. Cost not given. Los Angeles, Cal. Architects Milwaukee Building Co., Wright and Callender Bldg., L. A. Owner Hulett C. Merritt. Contractors Milwaukee Building Co. Contract price not stated.

**Apartment House**—4 story and base, brick, \$30,000. Hollywood, Los Angeles Co., Cal. Architect Peter W. Ehlers, 611 Delta Bldg., L. A. Owners Messrs. G. J. Schaefer and Franz Kern. Contractor John Herington, 124 Hudson St., Hollywood. Contract price \$29,751.

**Church**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect F. J. Soper, L. W. Hellman Bldg., L. A. Owners United Brethren. Contractor E. S. Shapland, 2901 Van Buren Place. Contract price not stated.

**Store**—1 story and base, reinforced concrete, \$11,000. Pasadena, Los Angeles Co., Cal. Architect C. W. Buchanan, 65 North Raymond St., Pasadena. Owner J. W. Mack. Contractor W. C. Crowell, 341 North Marengo Ave., Pasadena.

**Post Office**—3 story and base. Class A construction, \$160,000. San Diego, Cal. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. Contractors William H. Maxwell and Co., Great Falls, Mo. Contract

price \$191,730. The amount of the appropriation is but \$160,000, and it is a question whether or not the contract will be signed.

## Portland and Oregon.

**Armory**—2 story and base, brick, \$20,000. Portland, Ore. Architects Claussen and Claussen, Portland. Owners State of Oregon. The building will contain the most modern plumbing and armory equipment. The exterior will be of pressed brick. The plans are being prepared.

**Apartment House**—2 story and base, brick, \$10,000. Portland, Ore. Architect E. N. Larry, Portland. Owners Elle Bros. The building will be arranged for stores on the first floor and apartments above. The exterior will be faced with pressed brick. The plans are complete and the work is to be done by Day Labor.

### Contracts Awarded.

**Car Shops**—1 story, reinforced concrete, \$50,000. Portland, Ore. Architect none. Owners O. W. R. & N Co., Portland. Contractor W. W. Concannon, Monadnock Bldg., S. F. Contract price \$50,000.

## Seattle and Washington.

**Railroad Grading**—Cost not stated. Arrow Rock Dam, Idaho. Engineers Office Reclamation Service, Shaw Bldg., Boise, Idaho. Owners U. S. Government. The work includes the removing of approximately 100,000 cubic yards of earth and 35,000 cubic yards of rock. Bids will be opened June 10th.

**Electric Lighting System**—Cost not stated. Fort Flagler, Wash. Engineers Construction Q. M. Dept., Office 482 Arcade Bldg., Seattle. Owner U. S. Government. Bids will be received up to June 15th for the construction of a general lighting system at Fort Flagler. Capt. E. C. Long is the officer in charge of the Construction Q. M. Dept. at Seattle.

**City Hall**—5 story and base. Class A construction, \$650,000. Spokane, Wash. Architect Julius Zittel, Jamlson Bldg., Spokane. Owners City of Spokane. The architect has presented his revised plans for this building to the city, and favorable action is expected from the committee.

**Bridges**—2 steel and concrete, \$470,000 and \$68,000. Tacoma, Wash. Engineers Waddell and Harrington, Kansas City, Mo. Owners City of Tacoma. This work was mentioned here last week, but it was then stated that the owner was the city of Seattle. The bids for this work have been called for and will be opened on June 26th, at which time the style of construction will be settled upon. Bids will be taken on both the vertical lift and bascule type bridges.

**Alterations to Pier**—\$100,000. Seattle, Wash. Engineer A. R. Cook, Northern Pacific R. R. Co., Tacoma, Wash. Owners Northern Pacific Co. The work will include the erection of a frame superstructure 100x800 feet, two stories high. The plans for the work will be completed about June 20th.

**Post Office**—3 story and base. Class A construction, \$350,000. Walla Walla, Wash. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. The appropriation for this building has just been increased from

\$150,000. The plans are to be prepared at once.

**Girls Academy**—3 story and base, reinforced concrete, \$150,000. Great Falls, Mont. Architect George H. Shanley, Great Falls. Owners Ursuline Sisters. The plans for this building, details of which have not been obtainable, are complete and bids will be opened June 20th.

**University Add** — \$75,000. Seattle, Wash. Architect none. Owner University of Washington. (Prof. O. E. Eastwood, 4702 12th Ave., Seattle, will be in charge of the work.) The work will include a two story reinforced concrete addition to the library, cost \$15,000; alterations in the Science Hall, \$8,000; dormitories to be made fire-proof, \$5,000; Forestry building to be subdivided, \$4,000, and the sum of \$10,000 will be spent in general repairs to other buildings and in new plumbing.

### Contracts Awarded.

**Warehouse**—3 story and base, reinforced concrete, \$60,000. Seattle, Wash. Architect John Graham, Lyon Bldg. Seattle. Owners H. N. Richmond Paper Co. There will be a considerable amount of structural steel used in this building. Two freight elevators will be installed. Contractor George C. Dietrick, Globe Bldg., Seattle. Contract price \$47,000.

**Passenger Station**—2 story and base. Cost not stated. Architect's name not given. Owners Seattle Interurban Electric Co. Contractors Stone and Webster Co., Seattle. Contract price not given.

**Stores and Offices**—2 story and base, brick, \$14,000. Seattle, Wash. Architects Stephen and Stephen, New York Bldg., Seattle. Owner R. Beesen. Contractor F. R. Barnes, 454 North 42nd St., Seattle. Contract price \$14,000.

### RECENT GOVERNMENT CONTRACTS AWARDED.

Fort D. A. Russell, Wyo. Constructing one hospital corps barracks, including heating, plumbing, electric work and lighting fixtures. John G. Barnes, Leavenworth, Texas, \$53,328 low; J. T. Dalton & Sons, Junction City, Kansas, \$53,888.46 and R. D. Connell, Denver, Colo., \$53,996. No award made as yet.

Arrow Rock Dam, Idaho. Furnishing hydraulic turbines for Boise Irrigation Project was let to the Allis-Chalmers Co., Milwaukee, Wis., for \$17,310.

The following awards have been made for the construction of pump house, plumbing, and electric wiring in same and other work at Fort Ruger, H. T.: Lord-Young Engineer Co., Ltd., Honolulu, H. T., constructing plumbing and electric wiring, \$1,982; furnishing and installing two triplex pumps, direct connected to 40- H. P. motor, \$4,830. Honolulu construction & Draying Co., Honolulu, H. T., construction of pipe line, pipe in tunnel, etc., \$20,707.

The bid of J. H. Rebstock, of Cheyenne, Wyo., \$3,500 in amount, has been accepted for the construction of a drain for new barracks at Fort D. A. Russell, Wyo.

The secretary of the Interior has awarded contract to the Illinois Steel Co., of South Chicago, Ill., for 1,850

tons of 60-lb steel rails for use in constructing a branch railroad to Arrow Rock dam, Boise irrigation project, Idaho. The contract price is \$64,306 f. o. b. cars, South Chicago.

The Henry Cowell Lime & Cement Company, San Francisco, have been awarded the contract for furnishing 23,000 barrels of cement to the Reclamation Service during the ensuing construction season. Contract price is \$1.34 per barrel f. o. b. cars, Bay Point.

J. P. Cullen, of Jamesville, Wis., has submitted the lowest figure for the construction of the extension of the post office and court house at Sioux Falls, South Dakota, his bid being \$174,726. The next figure, \$176,815 was submitted by Dieter & Wenzel, of Joplin, Mo. No contract has been awarded.

The following bids were received by the Commissioner of Indian Affairs, Washington, D. C., for the construction of a frame dormitory at the Round Valley School, Cal.:

Mesmer & Rice, Los Angeles, Cal., \$22,460.

Merrill & Sheridan, San Francisco, Cal., \$25,144.32.

W. D. Lovell, Minneapolis, Minn., \$22,200.

J. H. Weise of South Omaha, Neb., has submitted the lowest bid for the construction of the post office at Fort Collins, Colorado. His figures for sandstone were, \$89,754 and limestone \$86,114. The estimate cost is \$81,000. Other figures ran over the \$100,000 mark.

Bids were opened by the inspector of the eighteenth light house district, San Francisco, Cal., for constructing Petaluma Inlet Beacon No. 2, in San Pablo Bay, Cal., as follows:

Healty-Tibbitts Construction Co., \$572, accepted.

Mercer-Fraser Co., \$878.

Thomson Bridge Co., \$898.

Hyde-Hayes Co., \$970.

Mervy-Elwell Co., \$990.

Bids were opened by the inspector of the eighteenth light house district, San Francisco, Cal., for erecting one steel tower for Point Montara Station, Cal., as follows:

Item 1, tower erected, station; 2, tower, shop erected dismantled, Farallon City.

Brode Iron Works, item 1, \$873; 2, \$655, accepted.

Schrader Iron Works, item 2, \$785.

Ralston Iron Works, item 2, \$689.

Dper Bros. Golden West Iron Works, item 1, \$1,500.

Ocean Shore Iron Works, item 1, \$1,625.

### SEEK TO ENFORCE PERFORMANCE OF BOND.

One of the many suits pending in the Justices and Superior courts against the Empire State Surety Company to enforce performance of its bonds came to trial today before a jury in Judge Murasky's department of the Superior Court.

The suit is brought by the Dunne Investment Company upon a bond to secure the performance of the contract

of Condon & McGlynn, building contractors, for the construction of the Dunne Investment Company Building, at the corner of Ellis and Stockton streets.

Condon & McGlynn abandoned the building, and the owners are suing the bonding company which stood as surety for the contractors for the excess in costs of construction, and damages caused by the delay of its completion and by the filing of liens against it.

The surety company pleads violation of the contract by the investment company, as a defense.

### SKYSCRAPERS ARE TO REALLY SHOOT UP.

**Building Interests Said to Have Secured Control of Cement Gun Project that Promises to Revolutionize Present Methods.**

NEW YORK, May 21.—Not content with putting up forty story steel structures in six months time, a new inventor has appeared in the field, with big capital behind him, who actually proposes to shoot walls into place with a rapid fire gun.

The new invention will accomplish as much in a single day as the united efforts of twenty-four men could create under old methods. The ancient cement mixer is to give place to the cement gun.

No procession of men wheeling heavily laden barrows will clog progress where the cement gun is utilized. Instead, liquid cement is actually shot into place by means of compressed air.

Thomas A. Edison's prediction that cement was the means by which building construction would be revolutionized seems in a fair way to be realized. He planned building by filling giant moulds. The inventor of the cement gun seems to have fairly outdone Edison himself.

First, there is a long tube of sufficient tensile strength to withstand the pressure of both compressed air and water. This is the gun barrel. There is a valve just forward of the breech of the gun and another near the muzzle. Compressed air is admitted through the first, and water through the second.

At about the point of the vent in the ordinary breech loading cannon a tube like connection is established with a hopper, a wide angled V shaped affair.

Dry cement and sand are thrown into this hopper by two men, and here, aside from valve manipulation and directing the cement stream, the human element feature of cement gun operation ends.

The hopper vibrates constantly, mixing its contents thoroughly before it drops down through the tube connection. Once in the gun barrel, the mixture is shot forward by the compressed air fed through the valve.

At the muzzle a stream of water is encountered that does not check velocity, but mixes with the sand and cement, the whole driving out the gun end with sufficient force to carry it to the desired point.

The incorporation of the Cement Appliances Company was the first inkling the public had of such an invention. It is understood the new company is controlled by powerful building interests operating in the large cities of the United States.

## Editorial Comment.

The recent earthquake in the City of Mexico with its reported loss of life should emphasize the fact that buildings in the Pacific Coast countries should be constructed with the ability to withstand shakes. There is no gainsaying the fact that cities all along the Pacific Coast of the Americas are liable to have earthquakes of more or less violence at any time and those who build should take this into consideration. Already the lessons of the earthquake and the great fire of 1906 seem to be forgotten. Buildings are being constructed with little reference to the possibility of a shake however slight. Fireproof buildings are veneered with a single course of bricks and insufficient bonds are placed to hold these facings. As a result any considerable vibration would throw the whole thing into the street thereby endangering life and adding disaster to what might otherwise be an inconsequential disturbance.

Violent as was the shake of April 18, 1906, no building of proper construction collapsed. The Palace Hotel, covering a block of ground and built only of brick walls, stood as firmly as if nothing had happened.

Permanent buildings should at all times be constructed with every idea for safety. But much more so here where we are liable to receive shocks from earthquakes. Poor construction not only endangers life and property, but it gives the city and the country a bad reputation for results that are not at all to be attributed to natural causes.

Reports to the effect that ex-mayor Schmitz and his brother are corraled in Mexico, so to speak, calls attention to the fact that there is considerable interest being manifested here in the trade of the southern country and that notwithstanding the revolution now in progress a considerable number of Americans are taking chances to try their fortunes in the Latin republic. There is said to be \$305,000,000 of American money invested there. England has \$260,000,000. This is not a very great difference considering the difference of location of the two governments and it is a patent fact that this country has not secured the advantages in trade that it should have secured on account of its proximity of location.

If there is any kind of a stable government formed in Mexico from the present agitation the state should have great possibilities. It is wonderfully rich in natural resources. The com-

pletion of the Panama canal ought to increase its markets. It is up to American tradesmen to secure its trade and further development of the industries of the country. The only way that this can be done is by going after it.

Nowhere does business develop wholly of its own accord. Success results from push, energy and enterprise of the men behind the goods, not from waiting for orders to walk in and beg to be taken care of. The United States gets only a crumb or two from South America, because her merchants have not carried those attributes into that territory.

Whether it is something contained in the muddy waters of the Colorado river that causes it to dissolve the solid enclosures of its containing walls, or whether it is the peculiar character of the country through which it flows it is a physical fact that this stream has eroded its banks and sculptured its course into the most fantastic shapes of any river on the surface of the earth.

First there is the grand canyon in Arizona with its mighty chasm stretching for miles and miles in the solid rock of the great desert country; and on down its changing bed; and the needle like monuments that mark the erosion of the more durable elements of its containing walls. And lastly as it borders on California we have the territory known as the Salton Sea reclaimed into the great Imperial Valley which is a marvel of productive powers in a state where wonders are common.

But this great district that has been builded into an empire is forever at the mercy of the treacherous stream. At the present time the river is tearing down length after length of the bank that the government has built up at the cost of hundreds of thousands of dollars. Constant attention is required to keep the water from again working its way into the Salton basin and covering the reclaimed tract.

When the settlement of this great district was first discussed engineers of the United States government reported unfavorably on the project and in turn were vilified by the promoters and silenced by political pressure. The result seems to have been about what the engineers predicted. The rich soil of Salton basin seems to be powerless to resist the eroding action of the river. There will always probably have to be government aid to resist the encroachment of the stream and while a rich empire has been built up in the district it is at the expense of the general government,

# Banquet to Samuel H. Kent.

Father Kent: "Easy Bob, I'm Tired, I've Packed it 14 years, and it's almost become a part of myself, but it's getting heavy."  
 Stepfather Dewar: "I'm a little weak myself, so I'll just rest it on the board and watch it bear the load."

Board OF Directors.

## BANQUET.

A bunch of the old friends of Mr. Samuel H. Kent, past president of the Builders' Exchange of San Francisco, assembled at the Palace Hotel last Thursday afternoon for the purpose of expressing their appreciation of his past services and to mark his final retirement from active service.

Mr. Robert Dewar, the newly elected president, presided while James A. Wilson, the former secretary, acted as toast master. The menu was characteristic of Mr. Wilson's skill and humor, being replete with strange and mystical sayings and wonderful illustrations.

The frontispiece depicted Past President Kent as unloading upon the newly elected president the cares of office, who in turn "passed the buck" to the Board of Directors.

With a few happily chosen remarks president Dewar appointed past secretary Wilson to act as toast master and called upon Chapple Reed as leader of the choir in the always appropriate song to president Kent "For He's a Jolly Good Fellow."

Toast master Wilson called upon Jos. J. Phillips and remarked that if he kept his hands open to the public, as suggested in the menu card, he would surely be a supervisor.

Mr. Phillips complimented Mr. Kent for his constancy and declared that the greatest honor that could befall any man, was to pile up the plaudits of his fellow workers.

Eddie Brandon said in part that as an old time trade unionist he believed that trade unions should never become political organizations. He also complimented Mr. Kent for his splendid record as president.

Frederick Thompson enlivened the proceedings with several tip top scotch stories.

Bob McKillican, one of the old guard, urged the young men of the Exchange to conduct themselves as President Kent has done and thereby to earn the commendations of their co-workers.

L. A. Larsen sang several songs in which all present joined in the choruses in such a hearty manner that the gathering was at times like a regular song fest.

Richard (Dick) Herring, the youngest old man of the Exchange, who by the way was a full fledged mechanic in 1865, still claimed the title of the youngest member of the Exchange, that he was a Cokney by birth, but an American by improvement.

Major W. S. (Great) Scott, who made it possible for us to have a Governor, and who by the way, was the Major General of the Chinese Army at Fresno, made his usual enthusiastic speech, complimenting the past and present presidents and accounting for all the titles by which he is familiarly known. As a persistent worker, who does not know the meaning of defeat, he paid the Exchange the compliment of saying he was more proud of being a member of the order than any title he had obtained.

The Lumber trust was represented by Wm. Chatham, owner and manager of all the lumber fleets on the Pacific Coast, who assured the members that his only desire was to sell lumber at the consumers' figure and to collect his bill 30 days after completion.

Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.

M. F. Gale, retired contractor, told the boys present "how it was done" and was now writing a book, "How to Retire at an Early Age and Enjoy all the Blessings of a Well Spent Life in the Future."

The retiring president delivered his valedictory with much force and character and brought the members up to such a pitch of excitement and enthusiasm that when he sat down every member arose as one man and voted him the prince of good fellows and a life member of the Builders' Exchange, with the hope that as he had been the first on the list he would continue until he himself answered the final roll call as an active and honorary member of the Exchange.

President Dewar in his masterly way then dismissed the banqueters with his blessing and the hope that all present would conduct themselves in the business world with such uprightness of character that they would all of them be considered by their coworkers with the same high regard and esteem as the honored guest of this occasion.

The following were present:

R. Dewar, James A. Wilson, J. E. Gilson, R. Herring, O. B. Drusick, J. W. Cobby, Jos. J. Phillips, W. E. Jackson, L. A. Larsen, J. Costello, J. Cassaretto, M. F. Gale, A. Durbrow, E. Brandon, W. S. Scott, H. B. Brigham, Sid Watson, R. J. Collins, Joe Kaiser, C. Munoay, A. W. Lawson, Frederic Thompson, A. F. Mahoney, W. J. Frighery, M. Kirwan, H. B. Knox, Walter Reed, Geo. Farrell, Joe Odgers, Thos. Mulcahy, D. O. Church, Arthur Sibley, W. C. Murray, J. Cohen, Robt. McKillican, W. Heidt, Fred P. Fischer, Wm. Chatham, Val Franz, W. G. Fulford, A. H. Wilhelm, J. D. Hannah, A. Christensen, R. D. McElroy.

The building record for the month of May in San Francisco sums up to \$2,326,562 for all classes of construction. Considering conditions this is not a bad showing for the five months of the present year have averaged two million a month, the total since January 1, 1911, amounting to \$10,097,471.

As everything has been particularly quiet for the past five months and building totals throughout the country have generally fallen off during the period, the showing for the year has been very good.

Compared with the same month last year there is slight decrease as the figures for May 1910 amounted to \$2,789,204 The figures for the past five months are as follows:

January, 1911	.....\$1,243,806
February, 1911	..... 1,568,680
March, 1911	..... 2,819,727
April, 1911	..... 2,139,696
May, 1911	..... 2,326,562

Total .....\$10,098,471

As no very large contracts were filed the past month the two million dollar total represents a pretty healthy activity among the smaller builders. When the fair site is decided and active operations begun we may confidently look forward to the starting of some of the larger jobs and heavier totals for the succeeding months.

## Plans Wanted.

The recent bond election which was held in Alameda County, California, to secure funds for the construction of a modern County Hospital was voted down by the property holders in the outlying districts. A statement has been issued by the parties most interested to the effect that another election will be called at which time they expect to get out a large enough city vote to carry the outlying districts. The last election asked for \$500,000.

The Trustees of the Belmont School District in San Mateo County, California, are now ready to receive competitive bids for the new school building which is to be erected in that district. There is \$17,000 available for the construction of the new building. Roy Cloud, Redwood City, is the County Superintendent of Schools, and can furnish all desired information.

A recent report from the Young Men's Christian Association in San Jose, California, states that the plans for their new building campaign are progressing favorably, and that they expect to have considerably over \$100,000 in the fund which will be put into the new building. The site has been secured and is free from debt. No plans for the new structure have been secured as yet.

An item which will be of considerable interest to architects in the northern section of California comes from Woodland, the county seat of Yolo, and which states that the plans of Architects Cuff and Diggs of Sacramento have been approved for the new County Court House. The plans call for a building costing \$350,000. The funds for the construction of the building are yet to be voted.

An important bond election has just been held in the city of Sacramento, California. Bonds to the amount of \$800,000 have been voted, the proceeds of which were to be used in the construction of new schools. The work will probably be given out to competing architects if the election resulted satisfactory.

The Tacoma, Washington, Lodge of Moose will purchase the old First Congregational Church and site on St. Helens avenue and Eighth street and erect a club building. Meyer Cohen, Scenic Theatre, is chairman of Building Committee.

Oceanside, California, will shortly call an election at which there will be voted \$20,000 worth of bonds. If the election is carried there will be \$26,000 available for the construction of the new building. No architect has been selected to prepare the plans.

Washington State Masons have favorably considered the plan of establishing a State Home, and have appointed Past Grand Master E. L. McAllister and J. C. Taylor as a committee to report on the site. The report of these two gentlemen is favorable to a 20-acre tract near Puyallup. Mr. McAllister may be addressed at 509 Belmont avenue, Seattle.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 3 story and base, brick and steel, \$35,000. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. This building will contain 45 rooms, arranged in two room suites and with connecting baths. There will be steam heat and elevator service and all other modern improvements. The exterior will be of pressed brick. The architects have completed the working drawings and will take figures on the work at once.

**San Francisco**—Apartment house, 3 story and base, frame and brick, \$25,000. Architects Chas. M. and A. F. Rousseau, Monadnock Bldg., S. F. Owner Theo. E. Rulfs. The building will contain a number of finely arranged apartments of two, and three rooms each. There will be connecting baths, wall beds, steam heat and elevator service. The exterior will be covered with pressed brick and cement plaster and metal lath. The plans are complete and bids are being taken for the construction.

**San Francisco**—Apartment house, 4 story and base, reinforced concrete, \$45,000. Architects Salfield and Kohlberg, Clunie Bldg., S. F. Owner H. Cohn. This building will be arranged for a store on the first floor and 14 rooms to the floor above the first floor. There will be but few private baths. The mechanical equipment of the building includes steam heat, elevator service and wall beds. The exterior will be faced with white Medusa cement plaster. The contract will be awarded at once.

**San Francisco**—Apartment house, 5 story and base, brick and steel, \$60,000. Architects O'Brien and Werner, Foxcroft Bldg., S. F. Owner Edward F. Burns. The five stories of this building will be arranged in apartments of two, three and four rooms each. There will be connecting baths. The apartment house will be heated by steam and there will be an electric elevator. Wall beds will be used throughout. The exterior will be faced with pressed brick and trimmed with terra cotta. The architects are preparing the plans.

**Los Angeles, Cal.**—Apartment house, 2 story and base, frame. Cost not given. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner Natt Piper. The building will be arranged for stores and apartments. The first floor will contain besides the store one apartment, while the second floor will be arranged for four three-room apartments. The exterior will be of shiplap. The plans are ready for figures.

**Los Angeles, Cal.**—Apartment additions, \$15,000. Architects Eager and Eager, Story Bldg., L. A. Owner Carl F. Schader. The additions will consist of a fourth story to the present brick building. An elevator will be installed. The plans are complete and figures are being taken on the work.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick, \$35,000. Architects Robert M. Taylor and F. R. Greenleaf, associated, 309 Trust and Savings Bldg., L. A. Owner J. H. Roberts. The building will be 45x150, and will con-

tain 76 rooms. There will be steam heat and elevator service and wall beds. The plans are being figured.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick, \$40,000. Architect S. Tilden Norton, 418 Conservative Realty Bldg., L. A. Owner Morris Spier. The building will contain 74 rooms, divided into 2 and 3 room apartments. There will be connecting baths, steam heat and elevator service and wall beds. The exterior will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

## —BANKS—

**Oakland, Cal.**—Bank and offices, 8 story and base. Class A construction, \$200,000. Architects Meyer and Reed, Oakland Bank of Savings, Oakland. Owners Oakland Saving Union and Trust Co. The building has been mentioned here before when the plans were being prepared. The contract has been awarded to P. J. Walker on a percentage basis, and the work will be started at once.

**Patterson, Nevada Co., Cal.**—Bank, 1 story and base, reinforced concrete, \$20,000. Architect Benj. G. McDougall, Sheldon Bldg. S. F. Owner Bank of Patterson. The building will be in the Doric style. There will be modern vaults and plate glass and bronze trim. The exterior will be of white cement. The plans are complete and figures are being taken.

**Marysville, Yuba Co., Cal.**—Bank, 2 story and base, reinforced concrete, \$50,000. Architects Parker and Kenyon, 244 Kearny St., S. F. Owner Northern California Bank of Savings. This work has been mentioned here when the plans were being prepared. The work is now out for figures and the contract will be awarded at once.

## —BRIDGES—

**Santa Barbara, Santa Barbara Co., Cal.**—Bridge, reinforced concrete, \$4,100. Engineer County Surveyor. Owner County of Santa Barbara. Bids will be received up to July 3, 1911, by the Board of Supervisors of Santa Barbara county, Cal., for the construction of a reinforced concrete bridge across the Carpentaria Creek at Casitas Pass.

**San Lucas, Santa Barbara Co., Cal.**—Bridge, steel and concrete, \$50,000. Engineers Thomas and Poste, 1217 Union Trust Bldg., L. A. Owners Santa Barbara County. It will be of the Thomas patent three hinge reinforced construction. There will be five arches with a span of 126 feet each. The total length will be 693 feet with a roadway 18 feet wide. The estimated cost is \$50,000. Bids for the construction of the bridge will be received up to July 5, 1911, by the Board of Supervisors of Santa Barbara County. Frank Flournoy, Santa Barbara, is the County Engineer.

**Little Colorado River, Ariz.**—Bridge, steel and concrete. Cost not stated. Construction Engineer Office, Bureau of Indian Affairs, Washington, D. C. Owner U. S. Government. Bids are now being called for the construction of a steel suspension bridge. Bids will be opened on June 31st. Plans and specifications can be seen at the offices of

the Indian warehouses in San Francisco or Los Angeles.

**San Francisco**—Piers and docks, concrete and wooden. Cost not stated. Engineer Saph, State Harbor Commissioners' office, Ferry Bldg., S. F. Owner State of California. The work will consist of the construction of section 11 of the sea wall, repairs to the piers and docks north of the Ferry building, and the extension of the Belt Line Road. Bids will be called for on the first part of this work in about one month.

**Seattle, Wash.**—Piers, 2 concrete structures, \$180,000 each. Engineer J. V. Patterson, St. Charles and Railroad Ave., Seattle. Owner Moran Co., Seattle. The piers will be 800 feet long and 100 feet wide. The plans for this work are now complete and the engineer will call for figures at once.

## —CHURCHES—

**San Francisco**—Church, 2 story and base, frame and brick, \$40,000. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Roman Catholic Arch Bishop. The plans for this building which has been designed in the Gothic style are now nearly complete and will go out for figures in a short time. The edifice will have a seating capacity of 400 people in the main auditorium and 200 in the balcony. The exterior will be faced with a veneer of pressed brick.

**Florence, Ariz.**—Church, 2 story and base, frame and brick. Cost not stated. Architect none. Owner Catholic Church of Florence. Father Heitz in charge. Bids are being taken by the Father for this work, separate bids being received for the carpentry and masonry work. Bids will be opened on June 17th.

**San Diego, Cal.**—Church, 2 story and base, frame, \$22,000. Architect's name withheld. Owner Church of the Nazarene (Catholic.) The building will be in the Mission style, the exterior being of cement plaster on metal lath. The seating capacity will be 400. Father Alpin M. Bowes, 2334 F street, San Diego, is taking figures on the work.

**Portland, Ore.**—Church alterations, \$15,000. Architects Otto Kleeman, Portland. Owners Church of the Good Shepherd. The plans include complete rearrangement of the interior, the installation of a new heating system and material changes to the parsonage. Bids will be called for shortly.

## FACTORIES & WAREHOUSES

**San Mateo, San Mateo Co., Cal.**—Factory, 1 story frame and concrete, \$5,000. Architects Salfield and Kohlberg, Clunie Bldg., S. F. Owner's name withheld. The plans for this building are being prepared. The exterior will be of cement plaster and corrugated iron. The bids will be called for in a week or two.

**Bakersfield, Kern Co., Cal.**—Brewery, 3 and 4 story and base, brick and steel, \$225,000. Architect B. Barthell, Chicago. Owner Joseph Baumgarten, East Bakersfield. The plans and specifications for this work have been forwarded to Mr. Baumgarten and have received his approval. Construction work will be started in the near future. The cost given above is exclusive

of the machinery which is to be installed.

**Wallace, Idaho.**—Brewery addition, reinforced concrete, \$40,000. Architect B. Barthell, Chicago. Owners Sunset Brewery Co. (Homer Brown Mgr.) The plans for these additions have been forwarded to Mr. Brown, and construction will be started as soon as figures for the same can be obtained.

**Seattle, Wash.**—Foundry, 2 story and base, reinforced concrete, \$100,000. Engineer J. V. Patterson, Charles and Railroad Sts., Seattle. Owner Moran Co. The engineer has prepared plans for this work and other extensive work for the same company. Construction will be undertaken in the course of a few weeks. All contracts are to be let separately.

### Contracts Awarded.

**San Diego, Cal.**—Factory, 2 story and base. Mill construction, \$25,000. Architects Quayle Bros., Granger Bldg., San Diego. Owners Toms and Blair. Contractors Brawner and Hunter, San Diego. Contract price \$25,000.

**Los Angeles, Cal.**—Power house, 1 story and base, brick, \$10,000. Architect none. Owner City of Los Angeles. Contractor John Nelson, Los Angeles. Contract price \$8,671. While no contract has been awarded the bid of Mr. Nelson was the lowest of three submitted, and he will undoubtedly be awarded the contract.

### FLATS.

**San Francisco**—Flats, 3 story and base, frame, \$4,000. Architect none. Owner John B. McCue, 124 Douglas St., S. F. The building will contain 3 flats fitted with modern conveniences. The exterior will be of cement plaster on metal lath. There will be gas grates. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 2 story and base, frame, \$3,000. Architect none. Owner B. B. Wickersham, 1143 Harrison St., S. F. The building will contain two flats with baths and gas grates. The exterior will be of shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 2 story and base, frame \$2,500. Architect none. Owner Fred Simon, 204 Virginia St., S. F. The building will contain two flats with baths and gas grates. The exterior will be of rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$6,000. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Mrs. Boddy. The building will contain three nicely finished flats with baths and coal grates. The exterior will be finished in shiplap. The architect has completed the plans and is now taking figures on the work.

**San Francisco**—Flats, 3 story and base, frame, \$5,000. Architect J. J. Foley, Monadnock Bldg., S. F. Owner's name withheld. This building, like the one mentioned above, will contain 3 flats with all of the most modern improvements. The exterior will be finished in rustic. The plans are complete and the architect is taking figures on the work.

ished in rustic. The plans are complete and the architect is taking figures on the work.

**San Francisco**—Flats, 2 story and base, frame, \$4,800. Architect none. Owner A. Petry, 336 Pierce St., S. F. The building will contain four flats fitted in the most modern manner. There will be complete baths, coal grates etc. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 2 story and base, frame, \$4,000. Architect none. Owner James P. Duffy, 137 Bartlett St., S. F. The building will contain two flats of six rooms each. There will be modern plumbing and gas grates. The exterior will be covered with shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**Los Angeles, Cal.**—Flat, 2 story and base, frame. Cost not stated. Architect Fred Biren, Broadway Central Bldg., L. A. Owner J. W. Ross. There will be four flats of three rooms each. Eight wall beds will be used, and there will be connecting baths with each of the flats. The exterior will be of rustic. The plans are complete and figures will be taken at once.

### GOVERNMENT WORK AND SUPPLIES.

#### Contracts Awarded.

**San Francisco**—Barracks, 3 story and base, brick and concrete, \$120,000. Architect Construction Q. M. Dept., U. S. A. Officer in charge Lt. Col. George McK. Williamson, Fort Mason. Owners U. S. Government. Contractors Rickon-Ehrhart Co., S. F. Contract price \$117,002.

### GARAGES.

**Los Angeles, Cal.**—Garage, 1 story and base, brick, \$9,000. Architect J. W. Chalmers, 432 Mason Bldg., L. A. Owner Alonzo Lee Hill. The building will be 100x128, and the exterior will be faced with pressed brick. A concrete floor will cover the whole area of the building. The plans are complete and the work is to be done by Day Labor.

### HALLS & SOCIETY BLDGS.

**Berkeley, Alameda Co., Cal.**—Lodge Hall, 5 story and base. Class A construction, \$150,000. Architects Shea and Lofquist, Bank of Italy Bldg., S. F. Owners Berkeley Elks' Hall Association. This building will be erected as soon as the architects can complete the working drawings. The plans have just been accepted by the Building Committee. Details of the construction cannot be given at this time. The exterior will probably be of pressed brick and terra cotta.

**Santa Monica, Los Angeles Co., Cal.**—Lodge Hall, 2 story and base, reinforced concrete. Cost not stated. Architects Eager and Eager, Story Bldg., L. A. Owners Santa Monica Masonic Temple Association. The site for this building has been donated by Mr. Schader, and the preliminary plans have just been started. The details cannot be

given at this time other than the fact that the building will be in the Moorish style of architecture.

**Santa Monica, Los Angeles Co., Cal.**—Lodge Hall, 3 story and base, brick and steel. Cost not stated. Architects Eager and Eager, Story Bldg., L. A. Owners Santa Monica Elks' Hall Association. The working drawings for this structure are well advanced and will be ready for figures in the course of the next week or two. There will be steam heat and elevator service. The upper floor will be arranged for sleeping apartments. The exterior will be faced with pressed brick.

### Contracts Awarded.

**Pasadena, Los Angeles Co., Cal.**—Lodge Hall, 3 story and base, concrete and frame, \$54,000. Architect Myron Hunt, L. A. Owners Pasadena Elks' Hall Association. Contractor Matthew Slavin, 361 Slavin Bldg., Pasadena. Contract price \$54,000.

**Los Angeles, Cal.**—Club House, 3 story and base, brick, \$40,000. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners L. A. Chapter American Institute of Bankers. Contractors Alta Planing Mill Co., 830 McGarry St., L. A. Contract price \$37,000.

### HOSPITALS.

**San Francisco**—Hospital work. Cost not stated. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The work now being advertised is the construction of floors in the engine house of the San Francisco Hospital buildings. Bids will be opened on June 14.

### Contracts Awarded.

**San Francisco**—Hospital, 1 story and base, brick and concrete, \$25,000. Architect Constructing Q. M. Dept., U. S. A. Officer in charge Lt. Col. George McK. Williamson, Fort Mason, Cal. Owners U. S. Government. Contractor Pringle-Dunn Co., S. F. Contract price \$18,818. This price does not include the heating and ventilating nor the plumbing which are to be re-advertised.

### HOTELS.

**Ortley, Ore.**—Hotel, 2 story and base, stone and frame, \$15,000. Architects Kroner and Henn, Portland. Owners Mosier View Hotel Co. The building will be of original design with the exterior covered with stone and shakes. The interior will be modern in every particular, including steam heat, etc. The plans will shortly be ready for figures.

**San Francisco**—Hotel and stores, 5 story and base, brick and steel, \$60,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owner Dr. Underwood Hall. The building will be located near Market street and will be modern in every particular. There will be steam heat and elevator service. The exterior will be faced with pressed brick trimmed with terra cotta. The architect is now preparing the plans, which will be completed and ready for figures in about three weeks.

**San Francisco**—Hotel and stores, 2 story and base, brick, \$20,000. Architect Frank S. Holland, 100 Haight St.,

S. F. Owner's name withheld. The building will be located near the water front and will contain about 6 stores and 20 rooms. There will be no heat. The exterior will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

**San Francisco**—Hotel, 7 story and base. Class A construction, \$140,000. Architects O'Brien Bros, Clunie Bldg., S. F. Owner's name withheld for the present. The details of the building cannot be given at this time as the architects have just started the preliminary drawings. The building is to be designed as a high class commercial hotel, and the plans will include steam heat, elevator service and all other modern improvements. There will be in the neighborhood of 150 rooms and 75 baths. The exterior will be faced with pressed brick trimmed with terra cotta. The working drawings will be complete in about one month.

### —POST OFFICES—

#### Contracts Awarded.

**Roswell, N. M.**—Post Office, 3 story and base. Class A construction, \$114,000. Architect James Knox Taylor, Washington, D. C. Owner U. S. Government. Contractors J. E. and A. L. Pennock, Philadelphia. Contract price \$144,000.

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Oakland, Cal.**—Station, 2 and 3 story and base. Class A construction, \$450,000. Architect Jarvis Hunt, Chicago, Ill. Owners Southern Pacific Co. This building has been mentioned here before when the company first called for figures on the construction. Bids are now all in and have been referred to the architect in Chicago. The contract will probably be awarded within the next week.

**Calwa, Fresno Co., Cal.**—Round house and shops, reinforced concrete, \$1,000,000. Architect's name not given, but understood to be an engineer in the employ of the Santa Fe with headquarters at Los Angeles. Owners Santa Fe R. R. The contract for the grading of the site has been awarded to the H. Houser Contracting Co., of Los Angeles. The plans for the round house are complete, and the statement has been issued from headquarters that the work will be undertaken this year.

**San Francisco**—Railroad construction. Cost not stated. Engineer Saph, Assistant State Engineer, Ferry Bldg. Owners State of California. The plans for the extension of the Belt Line, a road constructed by the State Board of Harbor Commissioners, south of the Ferry, are being prepared. Bids will be called for in about two months.

### RESIDENCES.

**San Francisco**—Residence, 2 story, attic and base, brick and frame, \$15,000. Architect's name not given. Owner C. F. Butte, 683 Howard St., S. F. The owner is now taking figures for the brick veneer work and the terrazzo and mosaic work. Bids will be received at the office of the Butte Electric Co.

**San Francisco**—Residence, 2 story, and base, frame, \$3,000. Architect none. Owner John Turner, 991 Valencia St., S. F. The building will contain eight rooms and baths. The interior will be trimmed with mahogany and pine. The exterior will be faced with brick veneer and shingles. The work is to be done by Day Labor.

**San Francisco**—Residence, 2 story, and base, frame, \$5,300. Architect Henry Shermund, Mills Bldg., S. F. Owner Oscar Figel. The contract for this dwelling is about to be signed. There will be nine rooms and two baths. The trim will be of pine with hardwood floors. The exterior will be of shiplap, the design being in the Colonial style.

**San Francisco**—Residence, 2 story, and base, frame, \$5,000. Architect Frank S. Holland, 100 Haight St., S. F. Owner Chas. F. Gibbons. The dwelling will contain 10 rooms and bath. The trim will be largely of hardwood. The open fire places will be a feature of the dwelling. The exterior will be covered with shiplap. The plans are complete and figures are being taken.

**San Francisco**—Residence, 2 story, and base, frame and brick, \$10,000. Architect Henry Shermund, Mills Bldg., S. F. Owner's name withheld. The dwelling is to be erected in Jordan Park and will be designed in the Colonial style. There will be 12 rooms and 2 baths. The interior trim will be largely of hardwood. The exterior will be of pressed brick veneer and shiplap. The building will be heated by a furnace. The plans are being prepared.

**San Francisco**—Residence, 2 story, and base, frame, \$6,500. Architect Louis Christian Mulgardt, Chronicle Bldg., S. F. Owner E. M. Crimes. The dwelling will contain nine rooms and bath. There will be hardwood floors on the first floor and open fire places. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**San Francisco**—Residence, 2 story, and base, frame, \$3,000. Architect none. Owner E. Holloway, 3327 25th St., S. F. The dwelling will contain 7 rooms and bath. The trim will be of pine. The exterior will be covered with brick veneer and shingles. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Cottage, 1½ story and base, frame, \$2,000. Architect none. Owners Oscar Heyman and Bro., 113 Montgomery St., S. F. This building is one of several similar dwellings built by the same owners for sale in their tract. The work will be done by Day Labor.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$5,000. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Peter Thompson. The dwelling will contain 10 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior will be covered with shingles and rustic. The architect is preparing the plans.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,000. Architect Realty Syndicate, 14th and Broadway, Oakland. Owner Ernest S. Houdlette. The dwelling is to be erected in the

Piedmont district, and will contain 8 rooms and baths. There will be hardwood floors and open fire places. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$4,500. Architect Frank M. May, 2145 Center St., Berkeley. Owner F. F. Martimer. The dwelling will contain 7 rooms and baths. The interior trim will be of pine with hardwood floors. There will be furnace heat and coal grates. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$6,000. Architect Dibble, 369 Niles Ave., Oakland. Owner Mr. Brouger. The dwelling will contain ten rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior of the dwelling will be covered with shingles. The plans are complete and figures are being taken.

**Oakland, Cal.**—Alteration to residence, \$2,000. Architect Albert Farr, Foxcroft Bldg., S. F. Owner Mr. Norris. The work will include new plumbing, some concrete work and complete new interior pine trim, and electric work. The plans are now being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story, attic and base, frame, \$7,000. Architect Julia Morgan, Merchants' Exchange Bldg., S. F. Owner J. N. Rodgers. The dwelling will contain 9 rooms and baths. The interior trim will be in pine and hardwoods. There will be furnace heat. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,000. Architect J. F. Gunn, 823 Isabella St., Oakland. Owner E. C. Bridgman. The dwelling will contain 8 rooms and bath. The trim will be of pine with hardwood floors on the first floor. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$6,000. Architect A. W. Smith, 1004 Broadway, Oakland. Owner Mr. Cohen. The dwelling will be erected in the Piedmont district. There will be ten rooms and baths. The trim will be of pine and hardwood. There will be furnace heat. The exterior will be of cement plaster. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$5,000. Architect none. Owner J. O. Barlow, 2315 Howe St., Berkeley. The dwelling will contain 7 rooms and bath. There will be furnace heat and coal grates. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner, and the work will be done by Day Labor.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,000. Architect A. Merrill Bowser, 526½ 66th St., Oakland. Owner Emile Pellitter. The dwelling will contain 8 rooms and bath. The trim will be of pine with hardwood floors. Open fire places will be a feature of the dwelling. The exterior will

be covered with shingles. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$2,000. Architect none. Owner John G. Wallen, 2807 Piedmont Ave., Berkeley. The dwelling will contain 7 rooms and bath. There will be coal grates. The exterior will be covered with shingles. The plans are in the hands of the owner and the work will be done by Day Labor.

**Los Angeles, Cal.**—Residence, 2 story and base, frame and concrete. Cost not stated. Architect Frederick Noonan, Broadway Central Bldg., L. A. Owner H. K. Butterfield. The dwelling will contain 10 rooms and two baths. The interior trim will be of mahogany and white cedar. The baths will be in tile. There will be furnace heat and Ruid heaters. The exterior will be of brick and cement plaster on metal lath. A one story garage is to be built in connection. The plans are being figured.

**Hollywood, Los Angeles Co., Cal.**—Residence, 2 story and base, frame. Cost not stated. Architect Elmer Grey, Wright and Callender Bldg., L. A. Owner J. M. Hunter. The dwelling will contain 10 rooms and two baths. The trim will be of hardwood. There will be furnace heat. The exterior will be of cement plaster. The plans are being prepared.

**Hollywood, Los Angeles Co., Cal.**—Residence, 2 story and base, frame, \$10,000. Architect Planry Building Co.

**Los Angeles, Cal.**—Residence, 2 story and base, frame and brick. Cost not given. Architect F. M. Tyler, Union Trust Bldg., L. A. Owner M. C. Brady. The building will be faced with blue brick veneer. There will be hardwood floors throughout and the trim will be mostly of hardwood. The plans are complete.

**Oxnard, Ventura Co., Cal.**—Residence, 2 story and base, frame. Cost not stated. Architect Alfred F. Priest, Fay Bldg., L. A. Owner Gabe Gislser. The dwelling will contain 14 rooms and 2 baths. The exterior will be covered with rustic and shingles. The trim will be of hardwoods. The plans are being prepared. The same architect will shortly take figures for the construction of a 2 story nine room residence, which is also to be erected in Oxnard for Ernest Eastwood.

**Pasadena, Los Angeles Co., Cal.**—Three residences, 2 and 3 story and base, each, reinforced concrete and frame, \$100,000. Architects G. Lawrence Stimson Co., 1211 Avoca St., Pasadena. Owner's name withheld. One of the buildings will contain 14 rooms and four baths, one 12 rooms and two baths and the third 11 rooms and two baths. The exterior walls will be of concrete to the second floor line, and cement plaster on metal lath above that point. The trim throughout will be of hardwood. There will be heating systems in all of the dwellings. The plans for the work are practically complete and figures will be called for shortly.

**Pomona, Los Angeles Co., Cal.**—Residence, 1 story and base, frame. Cost not stated. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner M. J. Biggs. The exterior of this dwell-

ing will be of rustic. There will be a warm air heating system installed. The plans are being prepared.

**Pomona, Los Angeles Co., Cal.**—Bungalow, 1 story and base, frame, \$3,000. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner J. R. Hill, Pomona. The exterior will be of rustic and cobble stones. There will be a warm air heating system. The plans are complete and have been placed in the hands of the owner, who is taking figures on the work.

**Seattle, Wash.**—Residence, 2½ story and base, frame, \$12,000. Architect E. E. Green, Central Bldg., Seattle. Owner A. Forgeson. The dwelling will contain 10 rooms and two baths. The exterior will be of brick veneer and cement plaster. The plans are now being figured.

**Portland, Ore.**—Residence, 1½ story and base, frame, \$14,000. Architects Roberts and Roberts, Portland. Owner Raymond G. Jubitz. The dwelling will contain 10 rooms and 2 baths. The exterior will be of cement paster on metal lath. The trim will be of hardwood. There will be a heating system. The plans are nearly ready for figures.

### Contracts Awarded.

**Los Angeles, Cal.**—Residence, 2 story and base, frame, \$28,000. Architect R. D. Farquhar, Security Bldg., L. A. Owner John R. Haynes. Contractor B. D. Kronnick, 3901 So. Hill St., L. A. Contract price \$28,000.

### SCHOOLS.

**Cole, Stanislaus Co., Cal.**—School, 1 story and base, frame, \$5,000. Architect Walter King, Elks' Bldg., Stockton. Owners Cole School District. The plans of Architect King have just been accepted for this building, and bids will be called as soon as the working drawings can be completed. The building will contain 4 class rooms.

**Davis, Yolo Co., Cal.**—School dormitories, 2 story and base, frame. Cost not stated. Architect John Galen Howard, Atlas Bldg., S. F. Owner University of California. This work has been mentioned here before when the plans for the building were first started. The Regents of the University are now taking figures on the work and will open bids on June 15th.

**Reedley, Fresno Co., Cal.**—School, 2 story and base, brick, \$25,000. Architects A. C. Swartz and Son, Fresno. Owners Reedley School District. The architects have just been commissioned to prepare the plans for this building. The building will contain four class rooms besides teachers' rooms and assembly hall. The exterior will be of red brick. There will be a central heating system. The plans will be ready for figures in the course of the next two weeks.

**Norwalk, Los Angeles Co., Cal.**—School, 1 story and base, brick and concrete, \$30,000. Architect Robert H. Orr, Pomona. Owners Excelsior School District. The building will contain four class rooms, an assembly hall and other rooms. There will be a central heating system. The exterior will be faced with pressed brick. The plans are nearly complete and bids will be called for shortly.

**Nordhoff, Ventura Co., Cal.**—School, 1 story and base, frame and concrete. Cost not stated. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owners Nordhoff School District. This work has been mentioned here before when the architect was first commissioned to prepare the plans. The work is now to be advertised, and bids will be opened on June 20th. Plans are at the architect's offices.

**Graham, Cal.**—School, 2 story and base, brick, \$12,000. Architect H. D. Salveter, Central Bldg., L. A. Owner Graham School District. This work has been mentioned here before when figures were taken the first time. The plans have been revised and new bids will be taken. Figures will be opened June 17th. The building is to contain 8 class rooms.

**Fillmore, Ventura Co., Cal.**—School repairs. Cost not stated. Architect A. C. Smith, 307 So. Broadway, L. A. Owner City of Fillmore. The architect has prepared plans for finishing the basement rooms in this building, and will take figures on the work at once. The same architect has prepared plans for a frame addition of two class rooms for the Washington Park School at Eagle Rock. Bids will be called for at once on this work.

**Watts, Los Angeles Co., Cal.**—School, 1 story and base, frame, \$6,000. Architect Paul V. Tuttle, Delta Bldg., L. A. Owner Town of Watts. The building will be of frame construction, and will contain but two class rooms. Bids will be called for at once.

**Seattle, Wash.**—School addition, 2 story and base, reinforced concrete. Architect Edgar Blair, Seattle. Owner City of Seattle. The Board of Education has decided to make the above addition to the Prential School at Mercer Island this summer. Work will be advertised as soon as the plans can be completed.

**Seattle, Wash.**—Schools, 2 story and base, brick, \$60,000. Architect Edgar Blair, School Architect, Seattle. Owner City of Seattle. The building will be known as the West Seattle School. Bids will be called for at once. School Architect Blair has also completed the plans for the Mt. Baker High School, and bids will be taken at once. The cost of this building has been estimated at \$300,000. The contract for the excavating has been let.

**Fernwood, Ore.**—School, 2 story and base, reinforced concrete, \$80,000. Architect Ellis F. Lawrence, Portland. Owner City of Fernwood. The architect has completed the plans for this building, and bids have been called which will be opened on June 17th. The structure will be fireproof.

### Contracts Awarded.

**Phoenix, Ariz.**—Schools, 3 grammar school buildings. Architects Knipe & Hurst, Phoenix. Owners City of Phoenix. Contractors for buildings 1 and 2 T. L. Edens and S. L. Metton, Phoenix. Contract price \$33,961 each. Building No. 3 J. C. Huff, Phoenix. Contract price \$17,847. The Machinery and Electrical Co., of Los Angeles, were awarded the contract for the heating and ventilating in all three buildings on their bid of \$6,717.

**Tulare, Tulare, Co., Cal.**—School, 2 story and base, concrete, \$45,000. Architect J. Carl Thayer, Tulare. Owner Lemoors School District. Contractors Oscar Palier, Tulare, (general contract \$36,932); heating and ventilating, Horlock-Clow Co., Hanford, \$3,400; blackboards, S. Rosenthal, Tulare, \$550.

## SEWERS, STREET WORK AND WATER SYSTEMS

**San Francisco**—Extension of drainage system. Cost not stated. Engineer Constructing Q. M. Dept., U. S. A. Lt. Col. George McK. Williamson, officer in charge, Fort Mason, Cal. Owner U. S. Government. Bids for this work will be received up to and including the 17th day of June.

**Kern Co., Cal.**—Water system, \$100,000. Engineer H. E. Stone, Pacific Bldg., S. F. Owner's name withheld. This work was reported in these columns sometime ago under the head of Hydro-Electric plants. The engineer now informs us that the system will be a water plant only, consisting of a pumping station and complete mechanical equipment.

**Orange, Orange Co., Cal.**—Sewers. Cost not stated. City Engineer, Orange. Owner City of Orange. Bids will be received on June 19th for the construction of sewers in several of the principal streets of the city. Plans are on file at the City Engineer's office.

## Contracts Awarded.

**Seattle, Wash.**—Reservoir and water mains, concrete and iron, \$35,000. Engineer Constructing Q. M. Dept., U. S. A., Capt. E. C. Long, officer in charge, Arcade Bldg., Seattle. Contractors McInnis and Harrington, Seattle. Contract price—reservoir \$33,400; water mains \$5,100.

## STORE.

**San Francisco**—Stores and lofts, 2 story and base, brick and steel, \$11,000. Architect William Mooser, Nevada Bank Bldg., S. F. Owner Joseph Musto Estate. The building will contain several stores on the first floor and two large lofts above. The exterior will be faced with pressed brick. The plans are being figured.

**San Francisco**—Stores, 1 story and base. Class A construction, \$17,000. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. This work has been mentioned here before when the plans were being prepared. Figures have been taken on the work, and the contract will be awarded in a day or two.

**San Francisco**—Stores and offices, 10 story and base. Class A construction, \$250,000. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owners Standard Oil Co., Sheldon Bldg., S. F. This building is to be erected on property recently purchased by the company in the heart of the financial district. The architect has just been selected, and has only completed the preliminary drawings. The details of construction will be given in the next issue. It is stated that the company wish to go ahead with the building as soon as possible.

**San Francisco**—Stores and lofts, 5 story and base, reinforced concrete, \$75,000. Architects Masow and Morrison, Monadnock Bldg., S. F. Owners same. The plans for this building are now in the course of preparation, and when complete the construction will be undertaken under the Day Labor system.

**Los Angeles, Cal.**—Offices, 6 story and base. Class A construction. Cost not given. Architects Parkinson and Bergstrom, Security Bldg., L. A. Owners City of Los Angeles. The plans for this building, which is to be used to house the Water Department, are being revised. The building will be 60x110, with steel frame and foundations heavy enough to support four additional stories.

**Los Angeles, Cal.**—Store, 2 story and base, brick. Cost not stated. Architect Paul V. Tuttle, Delta Bldg., L. A. Owner Dr. Rudy. The building will be arranged with stores on the first floor and offices on the second floor. The architect is completing the working drawings.

## THEATRES.

**San Francisco**—Theatre, 2 story and base. Class A, \$65,000. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. The new theatre will be located in the downtown district and will be modern in every particular. The seating capacity is said to be in the neighborhood of 1,400. The plans will be ready for figures in the course of the next few weeks, and at that time the exact location and the name of the owner will be given.

## SEALED PROPOSALS.

### PROPOSALS.

(Close June 28th.)

The Board of Public Works of the City of Oakland, California, will receive separate and distinct bids or estimates between 10 and 11 o'clock A. M., Pacific time, on Wednesday, the twenty-eighth day of June, 1911, in the office of the Board, in the City Hall, Oakland, California, for each of the following 5 items of work entering into the construction of the New Oakland City Hall Building:

- 8—Dampproof Paint and Painting.
- 13—Metal Furring and Lathing.
- 19—Glass and Glazing.
- 23—Elevators.
- 24—Heating and Ventilating.

The bids or estimates shall be made on the blank forms bound into the contract and specifications prepared by the Architects, and shall be deposited by the contractor, or his agent, with the Secretary of the Board between 10 and 11 o'clock A. M., Pacific time, on the twenty-eighth day of June, 1911, and at the expiration of the time named the bids will be publicly opened and read by the Board.

Each bid shall bear the affidavit of bidder as required by Section 80 of the Charter of the City of Oakland, such affidavit appearing in the bid or estimate contained in the bound forms which will be furnished gratuitously upon application. All bids shall be clearly and distinctly written, without erasure or interlineation, and if any bid shall have an erasure or interlineation, it shall not be received or considered by the Board.

No bid or estimate will be considered which is not accompanied by a certified check upon a responsible Bank, payable to the order of Frank R. Thompson, Clerk of the City Council, for an amount not less than ten per cent (10%) of the aggregate of the proposal or estimate submitted. The certified check deposit shall be forfeited and retained by the City of Oakland if the successful bidder fails or refuses to execute the contract or contracts, and furnish the bonds as required by the Charter of the City of Oakland.

At the same time with the execution of the Contract each Contractor shall execute to the City of Oakland and deliver to the Secretary of the Board of Public Works, a Bond equal to fifty per cent (50%) of the amount of the contract. He shall also deliver to said City of Oakland and to the Clerk of said Board at said time a Bond to guarantee the City against loss through the filing of liens aggregating an amount equal to fifty per cent (50%) of the amount of the contract, all as required by said Charter.

A bound book of forms containing bid bonds, contract and specifications will be furnished bidders on demand at the office of the Architects of said building.

Each contractor will be required to begin work within ten (10) days from the receipt of an order from the Architects and to complete the entire work in accordance with the plans and specifications and to the satisfaction and approval of the Board of Public Works, with such force and materials as may be required, so that the work of other contractors shall not be delayed.

The plans and drawings may be obtained from the Architects, Messrs. Palmer & Hornbostel, at their offices in the First National Bank Building, Oakland, California, after June 5th, 1911, within a reasonable time after application is made and upon the deposit of \$50.00 which deposit will be returned to the applicant when the plans and drawings are returned in good condition. One copy of the plans and drawings will be furnished each bidder. Additional copies will be furnished, provided the bidder pays the cost of reproduction.

Persons or firms supplying materials, but not submitting estimates to the Board, may obtain copies of the plans and drawings from the Architects within a reasonable time after application is made, provided they pay the cost of reproduction.

The Board reserves the right to reject any or all bids in accordance with the provisions of the Charter of the City of Oakland.

JAMES W. NELSON,  
Secretary of the Board of Public Works.  
Dated, June 3, 1911. tf

## FURNISHING TRANSFORMERS.

(Bids close June 23.)

TRANSFORMERS—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the offices of the U. S. Reclamation Service, Los Angeles, Cal., until 2 o'clock p. m. June 23, 1911, for furnishing transformers for the U. S. Reclamation Service. For particulars address the U. S. Reclamation Service, 605 Federal Bldg., Los Angeles, Cal., or Washington, D. C. F. H. NEWELL, director.

## FURNISHING PUMPS.

(Bids close June 15.)

PUMPS—Chief Q. M. Office, 556 Federal Building, Chicago, Ill.—The advertisement of this office inviting proposals for furnishing six one-million gallon pumps for Fort Mills, Corregidor Island, P. I., is hereby modified so as to invite proposals for six 500,000-gallon pumps, two each under items one, two and three of the specifications, reserving right to make award of one pump under each item if thought desirable. Bids will be opened at 2 o'clock p. m., central time, on June 15, 1911, as previously advertised. THOMAS CRUSE, chief quartermaster.

## PROPOSALS FOR FLOORING.

(Bids close June 14.)

OFFICE OF THE BOARD OF PUBLIC WORKS of the City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 993 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 14th day of June, 1911, for doing

the following work, to wit:

The furnishing and installing of composition flooring in the power house of the San Francisco Hospital, located on Potrero avenue, near Twenty-second street.

**Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.**

## CULVERTS AND FIRE APPARATUS.

(Bids close June 26.)

SEALED bids or proposals are invited to be delivered to the Board of Public Works of the City of Oakland, at its office in the City Hall, Oakland, California, on Monday, the 26th day of June, 1911, between the hours of 10 and 11 o'clock a. m., for furnishing the necessary labor and materials for and in each of the four following propositions:

(1) For the construction of a concrete culvert in East 14th street, between 73rd and 74th avenues in the City of Oakland for the Street Department of the City of Oakland;

(2) For the construction of a concrete culvert in Penniman avenue, opposite Viola street, in the City of Oakland for the Street Department of the City of Oakland;

(3) For furnishing one motor-driven pumping engine for the Fire Department of said City of Oakland; and

(4) For furnishing three motor-driven combination chemical and hose wagons for the Fire Department of said City of Oakland.

and 11 o'clock a. m. on Saturday, the 17th day of June, 1911, for furnishing the necessary labor and materials for the construction of a system of main sewers together with lateral sewers within Oakland Sewer District No. One in accordance with plans and specifications therefor on file in the office of said Board of Public Works, to which reference is hereby made for full details and description of said work and materials.

Bond \$50,000.

(4) The Board of Public Works invites sealed proposals or bids to be delivered to said Board of Public Works at its office in the Council Chamber in the City Hall, Oakland, California, between the hours of 10 and 11 o'clock a. m. on Saturday, the 17th day of June, 1911, for furnishing the necessary labor and materials for the construction of a system of main sewers together with lateral sewers within Oakland Sewer District No. Three in accordance with plans and specifications therefor on file in the office of said Board of Public Works, to which reference is hereby made for full details and description of said work and materials.

Bond \$55,000.

## CONSTRUCTING DRAINAGE SYSTEM.

(Bids close June 16.)

OFFICE of the Constructing Quartermaster, Fort Mason, Cal.—Sealed proposals, in triplicate, for the construction of an extension to the drainage system at Fort Winfield Scott, Cal., will be received here until 11 a. m. June 16, and then opened. Plans and specifications, blank forms and necessary information can be obtained here. A deposit of \$10 is required to insure the return of the plans, etc. Envelopes containing proposals to be indorsed "Proposals for Drainage System, Fort Winfield Scott, Cal.," and addressed to Lt. Col. George McK. Williamson, C. Q. M., Gen. Dept., U. S. A.

## CONSTRUCTING BUILDING.

(Bids close June 15.)

SEALED proposals will be received by the Regents of the University of California at their office in the Crocker Building, San Francisco, up to and including the 15th day of June, for the construction of a dormitory building at the University Farm, located at Davis, California. All bids to be accompanied by a certified check.

## CONSTRUCTING BRIDGE.

(Bids close June 31.)

SEALED proposals will be received by the Department of the Interior, Bureau of Indian Affairs, Washington, D. C., until June 31st, for the construction of a steel suspension bridge over the Little Colorado River in Arizona. Plans and specifications are on file at the Indian warehouse at 312 8th street, San Francisco; also in Los Angeles and Seattle. Capt. Collins in charge, San Francisco.

## San Francisco.

**Apartment House**—3 story and base, brick and steel, \$35,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. This building will contain 45 rooms, arranged in two room suites and with connecting baths. There will be steam heat and elevator service and all other modern improvements. The exterior will be of pressed brick. The architects have completed the working drawings and will take figures on the work at once.

**Apartment House**—3 story and base, frame and brick, \$25,000. San Francisco. Architects Chas. M. and A. F. Rousseau, Monadnock Bldg., S. F. Owner Theo. E. Rulfs. The building will contain a number of finely arranged apartments of two, and three rooms each. There will be connecting baths, wall beds, steam heat and elevator service. The exterior will be covered with pressed brick and cement plaster and metal lath. The plans are complete and bids are being taken for the construction.

**Apartment House**—4 story and base, reinforced concrete, \$45,000. San Francisco. Architects Salfield and Kohlberg, Clunie Bldg., S. F. Owner H. Cohn. This building will be arranged for a store on the first floor and 14 rooms to the floor above the first floor. There will be but few private baths. The mechanical equipment of the building includes steam heat, elevator service and wall beds. The exterior will be faced with white Medusa cement plaster. The contract will be awarded at once.

**Apartment House**—5 story and base, brick and steel, \$60,000. San Francisco. Architects O'Brien and Werner, Foxcroft Bldg., S. F. Owner Edward F. Burns. The five stories of this building will be arranged in apartments of two, three and four rooms each. There will be connecting baths. The apartment house will be heated by steam and there will be an electric elevator. Wall beds will be used throughout. The exterior will be faced with pressed brick and trimmed with terra cotta. The architects are preparing the plans.

**Flats**—3 story and base, frame, \$4,000. San Francisco. Architect none. Owner John E. McCue, 124 Douglas St., S. F. The building will contain three flats fitted with modern conveniences. The exterior will be of cement plaster on metal lath. There will be gas grates. The plans are in the hands of the owner and the work will be done by Day Labor.

**Flats**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner B. B. Wickersham, 1143 Harrison St., S. F. The building will contain two flats with baths and gas grates. The exterior will be of shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**Flats**—2 story and base, frame, \$2,500. San Francisco. Architect none. Owner Fred Simon, 204 Virginia St., S.

## PROPOSALS FOR SEWERS.

(Bids close June 17.)

(1) The Board of Public Works invites sealed proposals or bids to be delivered to said Board of Public Works at its office in the Council Chamber in the City Hall, Oakland, California, between the hours of 10 and 11 o'clock a. m. on Saturday, the 17th day of June, 1911, for furnishing the necessary labor and materials for the construction of a system of main sewers together with lateral sewers within Oakland Sewer District No. Two in accordance with plans and specifications therefor on file in the office of said Board of Public Works, to which reference is hereby made for full details and description of said work and materials.

Bond \$40,000.

(2) The Board of Public Works invites sealed proposals or bids to be delivered to said Board of Public Works at its office in the Council Chamber in the City Hall, Oakland, California, between the hours of 10 and 11 o'clock a. m. on Saturday, the 17th day of June, 1911, for furnishing the necessary labor and materials for the construction of a system of main sewers together with lateral sewers within Oakland Sewer District No. Four in accordance with plans and specifications therefor on file in the office of said Board of Public Works, to which reference is hereby made for full details and description of said work and materials.

Bond \$60,000.

(3) The Board of Public Works invites sealed proposals or bids to be delivered to said Board of Public Works at its office in the Council Chamber in the City Hall, Oakland, California, between the hours of 10

F. The building will contain two flats with baths and gas grates. The exterior will be of rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**Flats**—3 story and base, frame, \$6,000. San Francisco. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Mrs. Boddy. The building will contain three nicely finished flats with baths and coal grates. The exterior will be finished in shiplap. The architect has completed the plans and is now taking figures on the work.

**Flats**—3 story and base, frame, \$5,000. San Francisco. Architect J. J. Foley, Monadnock Bldg., S. F. Owner's name withheld. This building, like the one mentioned above, will contain three flats with all of the most modern improvements. The exterior will be finished in rustic. The plans are complete and the architect is taking figures on the work.

**Flats**—2 story and base, frame, \$4,800. San Francisco. Architect none. Owner A. Petry, 336 Pierce St., S. F. The building will contain four flats fitted in the most modern manner. There will be complete baths, coal grates, etc. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner and the work will be done by Day Labor.

**Flats**—2 story and base, frame, \$4,000. San Francisco. Architect none. Owner Joseph P. Duffy, 137 Bartlett St., S. F. The building will contain two flats of six rooms each. There will be modern plumbing and gas grates. The exterior will be covered with shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**Residence**—2 story, attic and base, brick and frame, \$15,000. San Francisco. Architect's name not given. Owner C. F. Butte, 683 Howard St., S. F. The owner is now taking figures for the brick veneer work and the terrazzo and mosaic work. Bids will be received at the office of the Butte Electric Co.

**Residence**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner John Turner, 991 Valencia St., S. F. The building will contain eight rooms and baths. The interior will be trimmed with mahogany and pine. The exterior will be faced with brick veneer and shingles. The work is to be done by Day Labor.

**Residence**—2 story and base, frame, \$5,300. San Francisco. Architect Henry Shermund, Mills Bldg., S. F. Owner Oscar Figel. The contract for this dwelling is about to be signed. There will be nine rooms and two baths. The trim will be of pine with hardwood floors. The exterior will be of shiplap, the design being in the Colonial style.

**Residence**—2 story and base, frame, \$5,000. San Francisco. Architect Frank S. Holland, 100 Haight St., S. F. Owner Chas. F. Gibbons. The dwelling will contain 10 rooms and bath. The trim will be largely of hardwood. The open fire places will be a feature of the dwelling. The exterior will be covered with shiplap. The plans are complete and figures are being taken.

**Residence**—2 story and base, frame and brick, \$10,000. San Francisco. Architect Henry Shermund, Mills Bldg., S. F. Owner's name withheld. The dwelling is to be erected in Jordan Park, and will be designed in the Co-

lonial style. There will be 12 rooms and 2 baths. The interior trim will be largely of hardwood. The exterior will be of pressed brick veneer and shiplap. The building will be heated by a furnace. The plans are being prepared.

**Residence**—2 story and base, frame, \$6,500. San Francisco. Architect Louis Christian Mulgardt, Chronicle Bldg., S. F. Owner E. M. Crimes. The dwelling will contain nine rooms and bath. There will be hardwood floors on the first floor and open fire places. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**Residence**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner E. Holloway, 3327 25th St., S. F. The dwelling will contain 7 rooms and bath. The trim will be of pine. The exterior will be covered with brick veneer and shingles. The plans are in the hands of the owner and the work will be done by Day Labor.

**Cottage**—1½ story and base, frame, \$2,000. San Francisco. Architect none. Owners Oscar Heyman and Bro., 113 Montgomery St., S. F. This building is one of several similar dwellings built by the same owners for sale in their tract. The work will be done by Day Labor.

**Church**—2 story and base, frame and brick, \$40,000. San Francisco. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Roman Catholic Arch Bishop. The plans for this building, which has been designed in the Gothic style, are now nearly complete and will go out for figures in a short time. The edifice will have a seating capacity of 400 people in the main auditorium and 200 in the balcony. The exterior will be faced with a veneer of pressed brick.

**Piers and Dock**—Concrete and wooden. Cost not stated. San Francisco. Engineer Saph, State Harbor Commissioners' office, Ferry Bldg., S. F. Owner State of California. The work will consist of the construction of section 11 of the sea wall, repairs to the piers and docks north of the Ferry building, and the extension of the Belt Line Road. Bids will be called for on the first part of the work in about one month.

**Hotel and Stores**—5 story and base, brick and steel, \$60,000. San Francisco. Architect W. H. Weeks, 251 Kearny St., S. F. Owner Dr. Underwood Hall. The building will be located near Market street and will be modern in every particular. There will be steam heat and elevator service. The exterior will be faced with pressed brick trimmed with terra cotta. The architect is now preparing the plans which will be complete and ready for figures in about three weeks.

**Hotel and Stores**—2 story and base, brick, \$20,000. San Francisco. Architect Frank S. Holland, 100 Haight St., S. F. Owner's name withheld. The building will be located near the water front and will contain about 6 stores and 20 rooms. There will be no heat. The exterior will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

**Hotel**—7 story and base. Class A construction, \$140,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld for the present. The details of the building cannot be given at this time as the architects have just started the pre-

liminary drawings. The building is to be designed as a high class commercial hotel, and the plans will include steam heat, elevator service and all other modern improvements. There will be in the neighborhood of 150 rooms and 75 baths. The exterior will be faced with pressed brick trimmed with terra cotta. The working drawings will be complete in about one month.

**Hospital Work**—Cost not stated. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The work now being advertised is the construction of floors in the engine house of the San Francisco Hospital buildings. Bids will be opened on June 14.

**Railroad Construction**—Cost not stated. San Francisco. Engineer Saph, Assistant State Engineer, Ferry Bldg. Owners State of California. The plans for the extension of the Belt Line, a road constructed by the State Board of Harbor Commissioners south of the Ferry, are being prepared. Bids will be called for in about two months.

**Extension of Drainage System**—Cost not stated. San Francisco. Engineer Constructing Q. M. Dept., U. S. A. Lt. Col. George McK. Williamson, officer in charge, Fort Mason, Cal. Owner U. S. Government. Bids for this work will be received up to and including the 17th day of June.

**Stores and Lofts**—2 story and base, brick and steel, \$11,000. San Francisco. Architect William Mooser, Nevada Bank Bldg., S. F. Owner Joseph Musto Estate. The building will contain several stores on the first floor, and two large lofts above. The exterior will be faced with pressed brick. The plans are being figured.

**Stores**—1 story and base. Class A construction, \$17,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. This work has been mentioned here before when the plans were being prepared. Figures have been taken on the work and the contract will be awarded in a day or two.

**Stores and Offices**—10 story and base. Class A construction, \$250,000. San Francisco. Architect Benj. G. McDougall, Sheldon Bldg., S. F. Owners Standard Oil Co., Sheldon Bldg., S. F. This building is to be erected on property recently purchased by the company in the heart of the financial district. The architect has just been selected and has only completed the preliminary drawings. The details of construction will be given in the next issue. It is stated that the company wish to go ahead with the building as soon as possible.

**Stores and Lofts**—5 story and base, reinforced concrete, \$75,000. San Francisco. Architect Masow and Morrison, Monadnock Bldg. Owners same. The plans for this building are now in the course of preparation, and when complete the construction will be undertaken under the Day Labor system.

**Theatre**—2 story and base. Class A, \$65,000. San Francisco. Architects O'Brien Bros., Clunie Bldg., S. F. Owner's name withheld. The new theatre will be located in the downtown district and will be modern in every particular. The seating capacity will be in the neighborhood of 1,400. The plans will be ready for figures in the course of the next few weeks, and at that time the exact location and the name of the owner will be given.

**Contracts Awarded.**

**Barracks**—3 story and base, brick and concrete, \$120,000. San Francisco. Architect Constructing Q. M. Dept., U. S. A. Officer in charge Lt. Col. George McK. Williamson, Fort Mason. Owners U. S. Government. Contractor Rickon-Ehrhart Co., S. F. Contract price \$117,002.

**Hospital**—1 story and base, brick and concrete, \$25,000. San Francisco. Architect Constructing Q. M. Dept., U. S. A. Officer in charge Lt. Col. George McK. Williamson, Fort Mason, Cal. Owners U. S. Government. Contractor Pringle-Dunn Co., S. F. Contract price \$18,818. This price does not include the heating and ventilating or the plumbing, which are to be re-advertised.

**Building Contracts Awarded.**

**San Francisco.**

**Oakland and Alameda County.**

**Residence**—2 story and base, frame, \$5,000. Oakland, Cal. Architect Olin S. Grove, 2911 Telegraph Ave., Berkeley. Owner Peter Thompson. The dwelling will contain 10 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior will be covered with shingles and rustic. The architect is preparing the plans.

**Residence**—2 story and base, frame, \$4,000. Oakland, Cal. Architect Realty Syndicate, 14th and Broadway, Oakland. Owner Ernest S. Houdlette. The dwelling is to be erected in the Piedmont district, and will contain eight rooms and baths. There will be hardwood floors and open fire places. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Residence**—2 story and base, frame, \$4,500. Berkeley Alameda Co., Cal. Architect Frank M. May, 2145 Center St., Berkeley. Owner F. F. Martimer. The dwelling will contain 7 rooms and baths. The interior trim will be of

pine with hardwood floors. There will be furnace heat and coal grates. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Residence**—2 story and base, frame, \$6,000. Oakland, Cal. Architect Dibble, 369 Niles Ave., Oakland. Owner Mr. Brougher. The dwelling will contain 10 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior of the dwelling will be covered with shingles. The plans are complete and figures are being taken.

**Alteration to Residence** — \$2,000. Architect Albert Farr, Foxcroft Bldg., S. F. Owner Mr. Norris. The work will include new plumbing, some concrete work and complete new interior pine trim and electric work. The plans are now being figured.

**Residence**—2 story, attic and base, frame, \$7,000. Berkeley Alameda Co., Cal. Architect Julia Morgan, Merchants' Exchange Bldg., S. F. Owner J. N. Rodgers. The dwelling will contain nine rooms and baths. The interior trim will be in pine and hardwoods. There will be furnace heat. The exterior will be of cement plaster on metal lath. The plans are complete and figures are being taken.

**Residence**—2 story and base, frame, \$4,000. Oakland, Cal. Architect J. F. Gunn, 823 Isabella St., Otkland. Owner E. C. Bridgman. The dwelling will contain eight rooms and bath. The trim will be of pine with hardwood floors on the first floor. The exterior will be of cement plaster on metal lath. The plans are being figured.

**Residence**—2 story and base, frame, \$6,000. Oakland, Cal. Architect A. W. Smith, 1004 Broadway, Oakland. Owner Mr. Cohen. The dwelling will be erected in the Piedmont district. There will be 10 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat. The exterior will be of cement plaster. The plans are being figured.

**Residence**—2 story and base, frame, \$5,000. Berkeley Alameda Co., Cal. Architect none. Owner J. O. Barlow, 2315 Howe St., Berkeley. The dwelling will contain seven rooms and bath. There will be furnace heat and coal grates. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner and the work will be done by Day Labor.

**Residence**—2 story and base, frame, \$4,000. Oakland, Cal. Architect A. Merrill Bowser, 526 1/2 66th St., Oakland. Owner Emile Pellitier. The dwelling will contain 8 rooms and bath. The trim will be of pine with hardwood floors. Open fire places will be a feature of the dwelling. The exterior will be covered with shingles. The plans are being figured.

**Residence**—2 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner John G. Wallen, 2807 Piedmont Ave., Berkeley. The dwelling will contain 7 rooms and bath. There will be coal grates. The exterior will be covered with shingles. The plans are in the hands of the owner and the work will be done by Day Labor.

**Bank and Offices**—8 story and base. Class A construction, \$200,000. Oakland, Cal. Architects Meyer and Reed, Oakland Bank of Savings. Owners Oakland Savings Union and Trust Co.

The building has been mentioned here before when the plans were being prepared. The contract has been awarded to P. J. Walker on a percentage basis, and the work will be started at once.

**Lodge Hall**—5 story and base. Class A construction, \$150,000. Berkeley, Alameda Co., Cal. Architects Shea and Lofquist, Bank of Italy Bldg., S. F. Owners Berkeley Elks' Hall Association. This building will be erected as soon as the architects can complete the working drawings. The plans have just been accepted by the Building Committee. Details of the construction cannot be given at this time. The exterior will probably be of pressed brick and terra cotta.

**Station**—2 and 3 story and base. Class A construction, \$450,000. Oakland, Cal. Architect Jarvis Hunt, Chicago, Ill. Owners Southern Pacific Co. This building has been mentioned here before when the company first called for figures on the construction. Bids are now all in and have been referred to the architect in Chicago. The contract will probably be awarded within the next week.

**NEW YORK INCREASES IN POPULATION.**

NEW YORK, June 11.—New York will overtake London in the matter of population some time between 1914 and 1916, according to calculation made public today by the Secretary of the Federation of Churches.  
 The computations, however, include a portion of the New Jersey suburban territory as a logical part of New York City, making New York's present population about 6,500,000.  
 The difference figured on this basis is now only about 600,000 and the population here is growing at three times the rate in the older city.

### San Jose & Santa Clara Valley.

**Factory**—1 story, frame and concrete, \$5,000. San Mateo, San Mateo Co., Cal. Architects Salfield and Kohlberg, Clunie Bldg., S. F. Owner's name withheld. ## Los Angeles and Southern California.

**Garage**—1 story and base, brick, \$9,000. Los Angeles, Cal. Architect J. W. Chalmers, 422 Mason Bldg., L. A. Owner Alonzo Lee Hill. The building will be 100x128, and the exterior will be faced with pressed brick. A concrete floor will cover the whole area of the building. The plans are complete and the work is to be done by Day Labor.

**Flat**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Fred Biren, Broadway Central Bldg., L. A. Owner J. W. Ross. There will be four flats of three rooms each. Eight wall beds will be used, and there will be connecting baths with each of the flats. The exterior will be of rustic. The plans are complete and figures will be taken at once.

**Power House**—1 story and base, brick, \$10,000. Los Angeles, Cal. Architect none. Owner City of Los Angeles. Contractor John Nelson, Los Angeles. Contract price \$8,671. While no contract has been awarded, the bid of

Mr. Nelson was the lowest of three submitted, and he will undoubtedly be awarded the contract.

**Church**—2 story and base, frame, \$22,000. San Diego, Cal. Architect's name withheld. Owner Church of the Nazarene (Catholic.) The building will be in the Mission style, the exterior being of cement plaster on metal lath. The seating capacity will be four hundred. Father Alpin M. Bowes, 2334 F street, San Diego, is taking figures on the work.

**Church**—2 story and base, frame and brick. Cost not stated. Florence, Ariz. Architect none. Owner Catholic Church of Florence. Father Heitz in charge. Bids are being taken by the Father for this work, separate bids being received for the carpentry and mason work. Bids will be opened on June 17.

**Apartment House**—2 story and base, frame. Cost not given. Los Angeles, Cal. Architects Garrett and Bixby, 405 Currier Bldg., L. A. Owner Natt Piper. The building will be arranged for stores and apartments. The first floor will contain besides the store one apartment, while the second floor will be arranged for four three-room apartments. The exterior will be of ship-lap. The plans are ready for figures.

**Apartment Additions**—\$15,000. Los Angeles, Cal. Architects Eager and Eager, Story Bldg., L. A. Owner Carl F. Schader. The additions will consist of a fourth story to the present brick building. An elevator will be installed. The plans are complete and figures are being taken on the work.

**Apartment House**—3 story and base, brick, \$35,000. Los Angeles, Cal. Architects Robert M. Taylor and F. R. Greenleaf, associated, 309 Trust and Savings Bldg., L. A. Owner J. H. Roberts. The building will be 45x150, and will contain 76 rooms. There will be steam heat and elevator service and wall beds. The plans are being figured.

**Apartment House**—4 story and base, brick, \$40,000. Los Angeles, Cal. Architect S. Tilden Norton, 418 Conservative Realty Bldg., L. A. Owner Morris Spier. The building will contain 74 rooms, divided into 2 and 3 room apartments. There will be connecting baths, steam heat and elevator service and wall beds. The exterior will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

**Bridge**—Reinforced concrete, \$4,100. Santa Barbara, Santa Barbara Co., Cal. Engineer County Surveyor. Owner County of Santa Barbara. Bids will be received up to July 3, 1911, by the Board of Supervisors of Santa Barbara county, Cal., for the construction of a reinforced concrete bridge across the Carpenteria Creek at Casitas Pass.

**Bridge**—Steel and concrete, \$50,000. San Lucas, Santa Barbara Co., Cal. Engineers Thomas and Poste, 1217 Union Trust Bldg., L. A. Owners Santa Barbara County. It will be of the Thomas patent three hinge reinforced construction. There will be five arches with a span of 126 feet each. The total length will be 693 feet with a roadway 18 feet wide. The estimated cost is \$50,000. Bids for the construction of the bridge will be received up to July 5, 1911, by the Board of Supervisors of Santa Barbara County. Frank Flournoy, Santa Barbara, is the County Engineer.

**Bridge**—Steel and concrete. Cost not stated. Little Colorado River, Ariz. Constructing Engineers' Office, Bureau of Indian Affairs, Washington D. C.

Owner U. S. Government. Bids are now being called for the construction of a steel suspension bridge. Bids will be opened on June 31st. Plans and specifications can be seen at the offices of the Indian warehouses in San Francisco or Los Angeles.

**Lodge Hall**—2 story and base, reinforced concrete. Cost not stated. Santa Monica, Los Angeles Co. Cal. Architects Eager and Eager, Story Bldg., L. A. Owners Santa Monica Masonic Temple Association. The site for this building has been donated by Mr. Schader, and the preliminary plans have just been started. The details cannot be given at this time other than the fact that the building will be in the Moorish style of architecture.

**Lodge Hall**—3 story and base, brick and steel. Cost not stated. Santa Monica, Los Angeles Co., Cal. Architects Eager and Eager, Story Bldg., L. A. Owners Santa Monica Elks' Hall Association. The working drawings for this structure are well advanced and will be ready for figures in the course of the next week or two. There will be steam heat and elevator service. The upper floor will be arranged for sleeping apartments. The exterior will be faced with pressed brick.

**Residence**—2 story and base, frame and concrete. Cost not stated. Los Angeles, Cal. Architect Frederick Noonan, Broadway Central Bldg., L. A. Owner H. K. Butterfield. The dwelling will contain 10 rooms and 2 baths. The interior trim will be of mahogany and white cedar. The baths will be in tile. There will be furnace heat and Ruud water heaters. The exterior will be of brick and cement plaster on metal lath. A one story garage is to be built in connection. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Hollywood, Los Angeles Co., Cal. Architect Elmer Grey, Wright and Callender Bldg., L. A. Owner J. M. Hunter. The dwelling will contain 10 rooms and 2 baths. The trim will be of hardwood. There will be furnace heat. The exterior will be of cement plaster. The plans are being prepared.

**Residences**—3, 2 and 3 story and base, each, reinforced concrete and frame, \$100,000. Pasadena, Los Angeles Co., Cal. Architects G. Lawrence Stimson Co., 1211 Avoca St., Pasadena. Owner's name withheld. One of the buildings will contain 14 rooms and 4 baths, one 12 rooms and 2 baths and the third 11 rooms and 2 baths. The exterior walls will be of concrete to the second floor line and of cement plaster on metal lath above that point. The trim throughout will be of hardwood. There will be heating systems in all of the dwellings. The plans for the work are practically complete and figures will be called for shortly.

**Residence**—1 story and base, frame. Cost not stated. Pomona, Los Angeles Co., Cal. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner M. E. Biggs. The exterior of this dwelling will be of rustic. There will be a warm air heating system installed. The plans are being prepared.

**Bungalow**—1 story and base, frame, \$3,000. Pomona, Los Angeles Co., Cal. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner J. R. Hill, Pomona. The exterior will be of rustic and cobble stones. There will be a warm air heating system. The plans are complete, and have been placed in

the hands of the owner, who is taking figures on the work.

**Residence**—2 story and base, frame and brick. Cost not given. Los Angeles, Cal. Architect F. M. Tyler, Union Trust Bldg., L. A. Owner M. C. Brady. The building will be faced with blue brick veneer. There will be hardwood floors throughout and the trim will be mostly of hardwood. The plans are complete.

**Residence**—2 story and base, frame. Cost not stated. Oxnard, Ventura Co., Cal. Architect Alfred F. Priest, Fay Bldg., L. A. Owner Gabe Giesler. The dwelling will contain 14 rooms and 2 baths. The exterior will be covered with rustic and shingles. The trim will be of hardwoods. The plans are being prepared. The same architect will shortly take figures for the construction of a 2 story nine room residence which is also to be erected in Oxnard for Ernest Eastwood.

**School**—1 story and base, brick and concrete, \$30,000. Norwalk, Los Angeles Co., Cal. Architect Robert H. Orr, Pomona. Owners Excelsior School District. The building will contain four class rooms, an assembly hall and other rooms. There will be a central heating system. The exterior will be faced with pressed brick. The plans are nearly complete and bids will be called for shortly.

**School**—1 story and base, frame and concrete. Cost not stated. Nordhoff, Ventura Co., Cal. Architect Norman F. Marsh, Broadway Central Bldg., L. A. Owners Nordhoff School District. This work has been mentioned here before when the architect was first commissioned to prepare the plans. The work is now to be advertised and bids will be opened on June 20th. Plans are at the architect's offices.

**School**—2 story and base, brick, \$12,000. Graham, Cal. Architect H. D. Salveter, Central Bldg., L. A. Owner Graham School District. This work has been mentioned here before when figures were taken the first time. The plans have been revised and new bids will be taken. Figures will be opened June 17th. The building is to contain 8 class rooms.

**School Repairs**—Cost not stated. Fillmore, Ventura Co., Cal. Architect A. C. Smith, 307 So. Broadway, L. A. Owner City of Fillmore. The architect has prepared plans for finishing the basement rooms in this building, and will take figures on the work at once. The same architect has prepared plans for a frame addition of two class rooms for the Washington Park School at Eagle Rock. Bids will be called for at once on this work.

**School**—1 story and base, frame, \$6,000. Watts, Los Angeles Co., Cal. Architect Paul V. Tuttle, Delta Bldg., L. A. Owner Town of Watts. The building will be of frame construction, and will contain but two class rooms. Bids will be called for at once.

**Sewers**—Cost not stated. Orange, Orange Co., Cal. City Engineer, Orange. Owner City of Orange. Bids will be received on June 19th for the construction of sewers in several of the principal streets of the city. Plans are on file at the City Engineer's office.

**Offices**—6 story and base, Class A construction. Cost not given. Los Angeles, Cal. Architects Parkinson and Bergstrom, Security Bldg., L. A. plans for this building, which is to be used to house the Water Department, are being revised. The building will

be 60x110, with steel frame and foundations heavy enough to support four additional stories.

**Store**—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architect Paul V. Tuttle, Delta Bldg., L. A. Owner Dr. Rudy. The building will be arranged with stores on the first floor and offices on the second floor. The architect is completing the working drawings.

### Contracts Awarded.

Contract price \$33,961 each. Building No. 3 J. C. Huff, Phoenix. Contract price \$17,847. The Machinery and Electrical Co., of Los Angeles were awarded the contract for the heating and ventilating in all three buildings on their bid of \$6,717.

## Seattle and Washington.

**Brewery Addition**—Reinforced concrete, \$40,000. Wallace, Idaho. Architect B. Barthell, Chicago. Owners Sunset Brewery Co. (Homer Brown Mgr.) The plans for these additions have been forwarded to Mr. Brown, and construction will be started as soon as figures for the same can be obtained.

**Foundry**—2 story and base, reinforced concrete, \$100,000. Seattle, Wash. Engineer J. V. Patterson, Charles and Railroad Sts., Seattle. Owner Moran Co. The engineer has prepared plans for this work and other extensive work for the same company. Construction will be undertaken in the course of a few weeks. All contracts are to be let separately.

**Piers**—2 concrete structures, \$180,000 each. Seattle, Wash. Engineer J. V. Patterson, Charles St. and Railroad Ave., Seattle. Owner Moran Co., Seattle. The piers will be 800 feet long and 100 feet wide. The plans for this work are now complete and the engineer will call for figures at once.

**Residence**—2½ story and base, frame, \$12,000. Seattle, Wash. Architect E. E. Green, Central Bldg., Seattle. Owner A. Forgeson. The dwelling will contain 10 rooms and 2 baths. The exterior will be of brick veneer and cement plaster. The plans are now being figured.

**School Addition**—2 story and base, reinforced concrete. Seattle, Wash. Architect Edgar Blair, Seattle. Owner City of Seattle. The Board of Education has decided to make the above addition to the Prential School at Mercer Island this summer. Work will be advertised as soon as the plans can be completed.

**Schools**—2 story and base, brick, \$60,000. Seattle, Wash. Architect Edgar Blair, School Architect, Seattle. Owner City of Seattle. The building will be known as the West Seattle School. Bids will be called for at once. School Architect Blair has also completed the plans for the Mt. Baker High School, and bids will be taken at once. The cost of this building has been estimated at \$300,000. The contract for the excavating has been let.

#### Contracts Awarded.

**Reservoir and Water Mains**—Concrete and iron, \$35,000. Seattle, Wash. Engineer Constructing Q. M. Dept., U. S. A. Capt. E. C. Long, officer in charge, Arcade Bldg., Seattle. Contractors McInnis and Harrington, Seattle. Contract price, reservoir, \$33,400; water mains, \$5,100.

### Portland and Oregon.

**Church Alterations**—\$15,000. Portland, Ore. Architect Otto Kleeman, Portland. Owners Church of the Good Shepherd. The plans include complete rearrangement of the interior, the installation of a new heating system, and material changes to the parsonage. Bids will be called for shortly.

**Residence**—1½ story and base, frame, \$11,000. Portland, Ore. Architects Roberts and Roberts, Portland. Owner Raymond G. Jubitz. The dwelling will contain 10 rooms and 2 baths. The exterior will be of cement plaster on metal bath. The trim will be of hardwood. There will be a heating system. The plans are nearly ready for figures.

**School**—2 story and base, reinforced concrete, \$80,000. Fernwood, Ore. Architect Ellis F. Lawrence, Portland. Owner City of Fernwood. The architect has completed the plans for this building and bids have been called for, which will be opened on June 17th. The structure will be fireproof.

**Hotel**—2 story and base, stone and frame, \$15,000. Oriley, Ore. Architects Kroner and Henna, Portland. Owner Mosler View Hotel Co. The

building will be of original design, with the exterior covered with stone and shakes. The interior will be modern in every particular, including steam heat, etc. The plans will shortly be ready for figures.

## What Is Biturine?

The Pacific Gas and Electric Company owns and operates eighteen gas works in California. From these works it supplies thirty-three cities with light and fuel. The aggregate population served is more than 900,000.

When a concern of this magnitude introduces an improvement it is for economic and practical reasons. In San Francisco recently it wished to secure a satisfactory protective coating for a new sixteen-inch high-pressure main extending from the Potrero gas works for a distance of seven and a half miles around through the outlying districts and toward the Presidio Reservation. It also had in prospect the construction of a high-pressure main from its Santa Rosa gas plant to the town of Sebastopol in Sonoma County, and the construction of a new six-inch high-pressure main from Melrose to San Leandro in Alameda County.

After most thorough testing to secure a neutral substance containing neither acid nor alkali the company's gas engineers decided upon a preparation known as Biturine. During the tests it was found that Biturine is an excellent non-conductor of electricity, and protects metals against the action of electrolysis. So Biturine was ordered for all the steel and wrought-iron pipe lines mentioned.

Biturine is a bituminous compound resembling shiny black paint, but contains no asphaltum. When applied to metal surfaces it effectually closes the pores and prevents seepage, corrosion, and rust. After the surface of the metal has been thoroughly cleaned to free it from rust, grease, and moisture, the Biturine paint is applied cold with a brush. The enamel can be put on in any thickness desired, and will last many times longer than ordinary paint. When properly applied it will double the lifetime of steel or iron, afloat or ashore, above or below ground.

The Associated Oil Company ordered Biturine with which to coat one hundred and sixty-nine miles of its rilled pipe-line from the Bakersfield oil district to water transportation. And the United States Government is using Biturine as a protective covering upon the metal work within the big transport vessels that come into the San Francisco harbor.

This interests the architect as a splendid paint for structural steel and tanks also water and dampproofing for concrete. A result obtained by this material that makes it of particular interest to the Architect is that it causes the concrete to adhere to the iron and does not disintegrate at the point of contact. Think what this means to the solidity of the building.

Biturine is sold by five different concerns on the Pacific Coast: At San Francisco by the Biturine Company of American, 24 California Street; at Los Angeles by F. C. Millard, 425 Merchants Trust Building, and also by Parrott & Co., 435 Citizens National Bank Building; at Portland, Oregon, by Huston and Crawford, 42 Second Street, and at Seattle, Washington, by W. A. Corder & Co., 79 West Washington Street.

### REMARKABLE DURABILITY OF BITURINE.

Mile Rock Light House was built in 1906 after the loss of the Rio Janeiro, which vessel it is supposed struck on this Rock. The location is about one mile from the entrance of the Golden Gate and is seen by nearly all tourists visiting San Francisco, who cannot help noticing this Light House, when viewing the Seal Rocks. The construc-

tion is particularly interesting and consists of a steel base surmounted by the Light House and the Light. It is not circular in shape as is apparent to the eye, but rather the shape of the capital letter "D," a circle flattened on one side. One of the most interesting details in reference to this Light is the means the U. S. Government has of preserving this steel base, which is subject to all changes of atmosphere, and the erosive action of the salt waves constantly beating upon it.

Here manufacturers of metal coating that are satisfactory for ordinary use acknowledge themselves beaten. No iron preservative or coating is practical under such conditions is the answer of most manufacturers, and yet for over four years now this steel base has been protected from sun, wind and tide by an article called BITURINE. This record is almost unparalleled under the seemingly impossible conditions. This truly must appeal to the Architect and it certainly is pleasant to see an article that has been thoroughly tested before being offered to the building trade, thus not burdening the Architect with such risks' of test. For structural steel, tanks, concrete, water proofing and damp proofing, this material has a splendid record

## Editorial Comment.

The State tax assessment rolls from which the State revenues will be obtained this year and which have been prepared by the State Board of Equalization indicate that a special ad valorem tax to meet any deficiency will be unnecessary. The new system of segregating the sources of taxation therefore will be a success. The corporations will pay the expenses of the state government and the counties will pay the local expenses. According to the returns the following amounts will be paid by the different corporations:

	Returns Now In.
Railroads, including street railroads .....	\$4,776,000
Gas, electric and power companies .....	1,225,000
Telegraph and telephone companies .....	425,000
Car companies .....	89,000
Express companies .....	102,000
Banks .....	1,635,000
Insurance companies .....	523,000
Franchises .....	1,600,000
Total .....	\$10,375,000

This is a net increase of \$1,342,750 over the estimate made by the State board and brings the figures well up to the probable expenditures of the state.

It is gratifying to learn that the new constitutional amendment is working out more satisfactory than was expected. It was feared that the new law which dispenses with the general state tax would leave a large deficiency in the state revenue for the ensuing year. But as the figures show an increase of over 10 per cent over the estimate made there is no cause for apprehension.

The new law is to some extent an experiment and there were and are differences of opinion as to the practicability and justice of the system. The merit of the new system is in its complete separation of state and local taxes. By it there can be a much closer approach to adequate valuations for assessment purposes and more property will be disclosed.

The old plan led to undervaluation for assessment purposes and consequently high rates of local taxation, each county trying to avoid paying more than its proportionate share of the state taxes. The State Board of Equalization could never in reality justly distribute the burden.

As no state taxes will be imposed on county assessments this will in the

main bring about a lowering of local taxes. While the withdrawal of corporation property and franchises from the local assessment roll reduces the total valuation somewhat still the lifting of the state tax from the county assessment more than offsets it. The coming year will in a great measure try out the new law and disclose its merits and defects. If it places the burden of taxation more equally and where it belongs it will be a great improvement over the old system which often failed of its object.

In the matter of a test case taken by the owner of a hotel at Riverside before the Superior Court of that county, Judge Densmore has held that the law passed by the recent legislature limiting the hours of labor for women is in the main constitutional but in part unconstitutional.

By its own terms the statute applies only to "females employed in any manufacturing, mechanical or mercantile establishment, laundry, hotel or restaurant, or telegraph or telephone establishment or office, or by any express or transportation company." And "the harvesting, curing, canning or drying of any variety of perishable fruit or vegetable" are expressly excepted from the operation of the Act.

Evidently the intention of the Legislature was to frame a law applicable only to certain kinds of employment for girls and women, and to discriminate between different occupations.

The superior judge has held that the law is unconstitutional in so far as it permits employment of waitresses in boarding houses and chambermaids in lodging houses, while denying the right of waitresses in hotels to work more than eight hours a day.

This the court held to be discriminatory as the two places are practically the same.

Assemblyman Griffin of Modesto, the author of the Act in question contends that the Supreme Court of the State has held that the selection of the classes of business requiring regulation is a proper subject for legislative action; and that if the work in lodging houses is the same as in the hotels that the word "hotels" in the Act is broad enough to include lodging houses; but if lodging houses are a different class of business they may be properly exempted by the Act.

The reasoning of the assemblyman seems to be to the point and more logical than the decision of the judge. For if it is discriminatory in one part it is hard to see where the line is to be drawn. It is said that there are similar laws in existence in Washington and Nebraska which have been upheld by the supreme courts of these states.

# The Relation Of Sculpture To Architecture In The Matter Of Carved Ornament and Building Design.

W. S. Frith

The discussion of the relation of sculpture and carved ornament to architecture is necessarily directed mainly to that interesting series of instances, where the art of form finds its fullest expression through the harmonious co-operation of both its branches; for though sculpture and architecture may each have their own definite sphere, and are in that sense independent of the other, it is when acting together in harmony that each is recognized as attaining to its highest achievements.

The Egyptian, the Assyrian, the Greek, the Roman, the Gothic, the Renaissance periods are all distinguished by the presence of an adequate sculpture, in sympathy with the aesthetic theme of the architecture much in the same way as a song and its accompaniment. These periods illustrate that architecture and sculpture being phases of one art, their excellence is largely interchangeable and that when working in entire sympathy and understanding, the art of form is effectively presented, because it is then presented in its entirety.

It is suggested that all art is one, and therefore the architect, sculptor, and painter should be united in one person. There are so few instances, however, of this being done with success, that these instances constitute exceptions rather than rules, and judging by the amount a sculptor has positively to learn, and the difference of standpoint his phase of art demands, there is little probability of the artist in either branch really possessing more than a smattering of knowledge in the allied arts.

The early use of sculpture would appear not to differ essentially from the present, viz., assisting to realize an object, or event, a person or an abstract idea; and it still appeals as having qualities which give it predominance as a nucleus around which the associations and memories of a person or event may congregate. Ruskin states that to make things in real volume is a primary human instinct, and cites the case of a child making a cat and kittens in dough in support of this theory.

The subjects of the Egyptian sculpture were historical records of the Kings and their achievements, the representations of their various Deities; and there are some very interesting and realistic portraits of priests and other people of importance. Most of these minor works are in wood but their treatment is similar in character to the granite work, and perhaps for this reason suggests their being thought out in granite.

The Assyrian works are much the same subject, the records and dolms of the Kings, their Deities, and their sports. Those depicting lion hunting are of exceptional vigor in treatment, and expression, as might be expected of a sport loving people.

Of the Greek, the sculpture was mainly devoted to the service of religion and as the worship of beauty formed a not inconsiderable part, we

find this reflected in the humanizing of their Deities, and the effort to represent those of the highest physical development, beauty, and dignity; an effort which eventually developed that magnificent school of sculpture which is still the wonder and admiration of the world. Although Rome continued much the same theology, the impulse of the people being different, the real seems to have had more charm than the ideal; and we find a development of portraiture, and a careful rendering of detail—the things which are, matter rather than the things which might be. We get an actual Hadrian in his statue, and it is a fine statue. We find also a development of the minor forms of sculpture. Foliated ornament especially gained in importance.

Greek carved ornament was much more restrained and seems designed rather for effects of light, and of conveying through its texture, the effect of lace-like enrichment of a solid structure—while the Roman is distinguished by vigor and boldness of design. The capitals of the Pantheon which is typical of Roman ornament has remained the dominant type in use for palatial buildings to the present day. Generally, Roman sculpture conveys the impression of being used rather for its decorative value as an adjunct to luxury rather than, as the Greek, for the love of art and delight found in seeking for its higher development.

The break up of the Roman Empire coinciding with change of faith, and that faith one in which the ancient sculpture was considered idolatrous; together with the vast social disturbances, brought about the disappearance of the architecture and sculpture identified with ancient Rome. After an interval came the rise of the Byzantine order in which sculpture served to record the persons and the incidents of the Faith, although this was affected in a way rather symbolical than personal, while in architecture its principal use was to assist to produce pattern, texture and rhythm, of the general composition. The statues from Chartres Cathedral are a good instance of this, as also is the Portal of Rheims which though of later date carries on the same traditions, and as example of design must be considered a masterpiece.

This system of using sculpture affords considerable opportunity for the introduction of a variety of scales in the figures, a device not exclusively Gothic but of which considerable use is made in all its varieties. The harmonious contrast of broad surface with broken surface, of lines with fret; and curved, with straight line, while preserving the general structural idea, is one which provided the artists with material for some centuries.

The many examples the various cathedrals afford, are well worthy of long and continued study, and it is the conviction of all who have been interested in the Gothic phase of the art, that it is not only what has been done, that is of interest; but they feel that here is

a mine of knowledge and suggestion capable of immense future development.

The Percy Tomb is a fine example of English work under this general influence; the way in which the whole weaves together, the arrangement whereby the structural idea carries through, and is borne out by the foliated enrichment is worthy of all praise.

The revival of classical learning in Italy, and the revival of classic art which followed it, cut short the independent development of Gothic, but not without there being an effort to blend the two. As in the art of Northern France, and in that called the style of Francis I, the Jube de Limoges must be taken as a sufficient example.

With reference to the art of Italy, I think it may be said that Italian artists never took kindly to the Gothic idea of the human figure represented merely as a symbol (as it were a letter in the alphabet); but in even their early work felt and represented the strivings of the individualistic spirit within; although, the work of Nicola Pisano and his school approximated to the texture scheme of the Gothic sculptures, there is yet a feeling for form and movement which differs from these and in the work of Ghiberti, Donatello, Verrocchio, Lucca della Robbia, Rossellino, and many more, and above all Michael Angelo the details become lost in the grand effort to realize to the fullest the conception of the mighty spirit moving in the divinely formed body; the work arriving at a stage when it is its emotional aspect, rather than its architectural that enforces attention.

As our subject is, however, Sculpture in Relation to Architecture, it may be well to consider the question of general principles; for in reviewing these various works, we seem to need a guide to consecutive thought, other than that supplied by the purely historical aspect.

Yet, in approaching this, the question at once arises as to who shall define art, for the spirit of art is as intangible as any dream—may be it is a dream—of which may be said in the words of Shelly:

"On an unimagined shore,  
Under the grey beak of some promontory,

She met me in such exceeding glory  
That I saw her not."

Though the spirit of art is indefinable and may be considered as a vision apprehended not by any means by the eye alone, the efforts to realize this vision, which result in works of art, are found to conform to general rules; with reference to which in reading a musical book lately, I found a definition of the qualities a work in that form of art should possess, which seem to me to the point. It commenced by saying Form, Expression, Feeling and variety were essential. Form, the shape presented to the mind; expression, the prominence given to some sounds and the subordination of others; feeling,

the character of the effect produced; and variety, to prevent the work becoming mechanical and so lifeless. It further states a melody should display amidst all its features, and phases, an all-pervading unity and relationship among its several parts. The text then proceeds in criticism of a certain arrangement, as wanting in design in its form, regularity in its expression, stability, or clearness in its feeling, and method in its variety.

These directions seem so admirably adapted to the art of the sculptor and carver, that they might well have been written expressly for him, except that being written about musical composition they make no mention of the artists' hand.

Lord Bacon, in one of his essays remarks: "There is no beauty, but hath some quality of strangeness in it." I think it may also be said that we do not recognize beauty in that which is altogether strange, and it is the just proportion of strangeness harmonized with that which is familiar, which constitutes the charm. How is this charm of the familiar and the new to be obtained? By a search through the realms of nature by developing a helpful imagination, and by acquiring the power to invent, and to express or rather to reveal your discoveries with a skilful hand. Imitation alone is not sufficient, it must be balanced and controlled; in the Gothic period of direct imitation of leaves as in early decorated, soon cease to satisfy, and develop into the more rhythmical perpendicular.

In the Renaissance period, the most satisfactory arrangement or ornament was found to be (where direct imitation was used at all) in obtaining the necessary architectural quality by a considerable dominance of conventional form, and this occurs even in the extreme free treatment of Grinling Gibbons.

The principles applying to the figure are not identical with those of ornament, but in the Greek work I think the contention that the earlier and less realistic work is the best fitted for architectural purposes can well be maintained. In the Gothic period the unity of the whole could not have been preserved except the sculptors' convention permitted the lights and shadows to be of the right size and shape and to occur in the right place, three things of which imitation can take no heed.

On this question of harmonistic treatment which really embraces the question of distance effect also, M. Camille Maclair writes in his work on Rodin: "This theory of which Rodin approved of my giving the name of 'deliberate amplification of surfaces' is simply the critical principle of Greek sculpture, which has been entirely misunderstood by the Academic School. That school which is supposed to honor the Greeks, is really false to their spirit, and their teaching. Moreover, this principle which belongs to all primitive statuary that was made for the open air is to be found among the Egyptian and Assyrian. It calls in question the Academic Tradition, whereby exactitude is confounded with truth." This deliberate arrangement of surfaces is well borne out by a number of examples including the Wellington Memorial, probably the finest monument in existence, all of which show a care devoted to the arrangement, design and treatment of light and shade bearing surfaces, prac-

tically coinciding with the Rodin view.

In examples of Michael Angelo's work, it will also be found that the dominant feature is the light bearing surface finely defined by the broad groupings, and design of the shadows; and indeed, this may be accepted as one of the most important elements in the means of expression of the art.

This may be considered as rather appertaining to the craftsmanship; of course, craftsmanship is after all only the servant, something more is required in a work of art, something on which the human mind can work; for in all real art it is essential that underlying the mere representation of the working of the directing mind and the touch of the executing hand should be evident. In certain work the skill of the hand is alone sufficient to justify the work; in the Roman stucco, for instance, how great a charm is imparted by the hand traces left upon them.

In the work of Rodin, how much does it owe to the same cause; and in the work of Michael Angelo, how do those parts so called unfinished yield traces of his consummately skilful hand in moving as directed by his mighty brain—it brings the thing home to us and seems to place us in immediate touch with the artist working at those grand conceptions, which for four hundred years have filled so large a space in the history and development of art; and to use a hackneyed phrase which expresses nevertheless a profound truth, supplies the "touch of nature that makes the whole world kin."

## Illustrations For The Week.

### PRINCETON HIGH SCHOOL.

The final plans for the construction of the Princeton High School, prepared by Architects Parker and Kenyon, San Francisco, have been approved by the Board of Trustees, and actual construction will be started within the next few days. The new school building is one of the most modern structures erected in this section, and when complete will cost about \$23,000.

A perspective of the building appears on Plate A of this issue, and shows a one-story and basement structure, designed in the Spanish style. The building is long and low with a distinctive Spanish cast. A square tower adds to the general effect, raising some distance above the main portion of the building.

A number of class rooms have been arranged on the ground floor, besides the main assembly rooms, principal's office, teachers' rooms and toilets. The construction of the building will be the reinforced concrete type, the exterior walls being covered with cement plaster. The rooms will be nicely finished in pine. A steam heating system will be installed and the building, together with its equipment, will be modern in every particular.

The Board of Trustees will call for bids for the construction at once, and it is their intention to have the building complete and ready for use by the opening of the fall term of school.

### TWO NEW APARTMENTS.

A most important addition to the numerous improvements that have been made of late in the Mission Warm-Belt and Eureka Valley districts are the two apartment houses, designed by Architect Arthur G. Scholz for Mrs. Colombia Moretti, on the westerly line of Castro street, near the junction of 18th street.

The buildings are planned in Mission style, in accord with the architecture of the Mission Warm-Belt district.

To meet the demands of business at the 18th and Castro transfer point, two stores have been installed on the ground floor of each building.

Each building contains seven 2 and 3 room apartments, an intermediate court between the buildings will provide for the adequate lighting of each room. A terrazzo playground on the roof is a feature of the design, and will be thoroughly appreciated on account of the lack of public playground facilities in the neighborhood.

In addition to the apartments, a spacious lobby has been provided for on each floor, and in the rear of the lobby a set of sewing and reading rooms for the convenience of the guests.

These buildings will improve the only vacant property in the locality, which is a business and amusement center of itself, directly south of the proposed entrance to the Twin Peaks Tunnel at 17th and Castro streets, and confidence in the growing importance of the district has induced Mrs. Moretti to substantially improve her property. Construction will be started at once.

### FOREIGN TRADE OPPORTUNITIES.

(From the Consular Reports.)

(Inquiries in which addresses are omitted are on file at Bureau of Manufactures, Washington, D. C. In applying for addresses refer to file number.)

**No. 6833. Surgical Instruments and Appliances.**—An American consular officer in a Latin-American country reports that a resident of his district would like to receive catalogues and price lists of American surgical instruments and appliances, including modern glass and metal framed vitrinas for studios, suitable for physicians in private practice or for sanitariums or hospitals.

**No. 6835. Refuse Materials for Sale.**—A business man in a South American country called at an American consulate recently and inquired for the names of firms in the United States that would purchase rags, paper, and old rubber in quantities. He stated that he could supply them tons each month. If interested persons will correspond with the consulate their letters will be referred to the inquirer.

**No. 6832. Tenders for Two Bridges.**—Consul Frederick W. Goding, of Montevideo, Uruguay, reports that a call for tenders for two bridges was recently published in the *Diario Oficial*. The tenders call for the provision of metallic superstructures of the bridges over the San Francisco and La Plata Creeks, in accordance with the specifications and conditions of the plans which are open to inspection in the general secretary's office of the National Department of Engineers. Bids will be received at the general secretary's office until September 11, 1911.

Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.

## Plans Wanted.

The Episcopal Church of Orland, California, has decided to erect a new church building in that city this year. A site has already been secured, and a committee will be appointed at once to arrange for the raising of funds and the selection of plans for the new edifice. The church is in hopes of raising enough money to erect a \$25,000 building, but if unsuccessful, a building costing this amount will be planned and only part constructed during the present year.

The Library Trustees of Roseville, California, have been assured by a representative of Andrew Carnegie that a fund of \$10,000 will be placed at their disposal for the construction of a new library building. The trustees hope to add another \$6,000 to this amount, bringing the total up to \$16,000 for construction purposes. The site has been secured.

The P. A. P. Association of Vallejo, California, has filed articles of incorporation in the County Clerk's office. The life of the corporation is fixed at fifty years. The capital stock is \$30,000, divided into 30,000 shares of a par value of \$1.00 each. The incorporators are William Symonds, Joseph Brophy, I. Harris, W. J. Tormey and J. E. Hanlon, each of whom have subscribed for five shares.

It is understood that the incorporators are members of the Moose Lodge, and that the object of the association is to raise funds for the purpose of building a lodge hall in Vallejo.

The Board of Trustees of Glendale, California, will immediately call a bond election to vote an issue of \$40,000 for the purchase of ground and the erection of two brick grammar school buildings. One of the buildings is to be erected on Third street, between Jackson and Kenwood streets, and is to contain six class rooms; and the other is to be built on Doran street, and will contain six class rooms. The first building will cost about \$12,000, and the other will cost \$15,000. No architects have been selected, but plans and estimates are to be submitted to the board at the meeting of June 27.

The Board of Trustees of Delano Union High School District, Delano, California, have named July 1 as the date for the bond election to vote the sum of \$50,000 for a union high school building.

Bonds in the sum of \$60,000 have been voted by the City of Alhambra, California, for the purchase of ground and the erection of a manual training and domestic science high school building. No plans have been drawn for this building.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 5 story and base, brick and steel, \$100,000. Architect Arthur G. Scholz, 829 Phelan Bldg., S. F. Owner P. J. Gartland. The building will contain 60 apartments arranged in single rooms

and suites of 2 and 3 rooms each. There will be connecting baths with all apartments. The mechanical equipment will include 2 elevators, dumb waiters, steam heat and all other modern improvements. The exterior will be faced with red pressed brick laid up in white mortar. The construction to the second floor will be steel frame, and from there up the construction will be of the class C type. The plans are complete and the contract for the excavating has been let. All work will be segregated. Bids will be called for at once for the balance of the work.

**San Francisco**—Apartment house, 6 story and base. Class A construction, \$500,000. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. The building will be one of the most modern apartment houses in the west, and will be located in the down town district, and will cover a full Fifty Vara lot. The details of this work have just been settled upon, and the architect is now working on the finished drawings. The plans show a total of approximately 250 rooms, which will be arranged in various sized apartments. There will be steam heat with oil burning equipment, freight and passenger elevators, dumb waters, vacuum cleaning system and a cold storage plant. The exterior will probably be faced with terra cotta and pressed brick. The plans will be finished and ready for figures in about 30 days.

**San Francisco**—2 apartment houses, 3 story and base, frame, \$10,000 each. Architect Arthur G. Scholz, Phelan Bldg., Owner Mrs. Moretti. These two buildings have been mentioned here before when the plans were first out for figures. There will be seven apartments in each building consisting of 2 and 3 rooms each. The figures will be complete in the course of a day or two, and the contract will be let at once.

**San Francisco**—Apartment House, 5 story and base, brick and steel, \$60,000. Architect Fred H. Meyer, Humboldt Bank Bldg., S. F. Owner Robert Mendel. This building was mentioned here several weeks ago when the plans were first started. There will be in the neighborhood of 75 apartments in the building arranged in the most modern manner. The exterior will be of pressed brick trimmed with terra cotta. The plans will be ready for figures within the next week or ten days.

**San Francisco**—Apartment house, 3 story and base, frame, \$10,000. Architect E. H. Hildebrand, Crocker Bldg., S. F. Owner same. This building has been mentioned here before when the architect started the plans. There will be twenty-four apartments of 2 and 3 rooms each. All apartments will have connecting baths, and the bedrooms will be equipped with portal wall beds. The exterior will be of veneered brick. The plans are now being figured.

**San Francisco**—Apartment house, 3 story and base, frame, \$24,000. Architect Charles Peter Weeks, Mutual

Bank Bldg., S. F. Owner F. J. Bayer. The building will contain 21 modern apartments. There will be steam heat and wall beds. The exterior will be of brick veneer and cement plaster on metal lath. The plans are now complete and figures are being taken.

**Stockton, San Joaquin Co., Cal.**—Apartment house, 3 story and base, brick, \$35,000. Architect R. P. Morrell, Stockton. Owner Tom Meeker. The building will contain about 10 apartments arranged in suites of 2, 3 and 4 rooms each. There will be connecting baths, steam heat and wall beds. The exterior of the building will probably be faced with pressed brick. The plans have not been completed, and it will be some time before the figures are called on this work.

**Seattle, Wash.**—Apartment house, 4 story and base, reinforced concrete, \$55,000. Architect Gould and Champney, American Bank Bldg., Seattle. Owner W. L. Rhodes. The building will be constructed by sections, the first floor, containing stores, will be erected first, at a cost of about \$15,000. The remaining three stories will be added as soon as the first floor is completed. The exterior will be faced with cement plaster. The plans went out for figures on the 13th.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not stated. Architects Train and Williams, 226 Exchange Bldg., L. A. Owner R. B. Wilson, 500 Union Trust Bldg., L. A. The building will contain a total of 76 rooms, arranged in apartments of 2 and 3 rooms with connecting baths. There will be steam heat and elevator service. The exterior will be faced with pressed brick. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 5 story and base, reinforced concrete, \$28,000. Architect A. W. Angel, 635 Citizens Bank Bldg., L. A. Owner C. A. Eastman. The building will contain 67 rooms, divided into 2 and 3 room apartments with connecting baths. There will be steam heat, electric elevators, wall beds and a vacuum cleaning system. The exterior of the building will be of cement plaster. The plans went out for figures on the 18th.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$30,000. Architect Eugene Weston, 605 Lankershim Bldg., L. A. Owner Dr. F. E. Chamberlain. The building will contain 34 2 room apartments and 36 baths. There will be steam heat and wall beds. The exterior will be of cement plaster on metal lath. The plans are complete and bids are being taken.

**Los Angeles, Cal.**—Apartment house, 3 story and base. Cost not stated. Architect Alfred F. Priest, 615 Fay Bldg., L. A. Owner George McAnany. The building will be 50x132, and will contain 75 rooms, divided into 2 and 3 room apartments with connecting baths. There will be steam heat. The exterior will be faced with veneer brick to the water table, and the balance of the exterior will be covered with cement plaster on metal lath. The plans are ready for figures.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick and steel, \$18,-

000. Architect Anton Reif, 404 Higgins Bldg., L. A. Owner Mrs. H. M. Morris. The building will be 51x60, and will contain 43 rooms. There will be 18 private baths, steam heat, and elevator service. The exterior of the building will be of cement plaster on brick. The plans are complete and figures are being taken.

**Los Angeles, Cal.**—Apartment house, 4 story and base, reinforced concrete. Cost not stated. Architect Chas E. Shattuck, 318 Mason Bldg., L. A. Owner's name withheld. The building will be 50x110, and will contain 65 rooms, arranged in suites of 2 and 3 rooms each. There will be private baths, steam heat, elevator service, wall beds and vacuum cleaners. The exterior of the building will be of cement plaster. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick and steel. Cost not stated. Architect Frank M. Tyler, 600 Union Trust Bldg., L. A. Owner E. G. Adams. The building will be 60x125, and will contain 80 rooms. There will be steam heat, elevator service and wall beds. The exterior will be faced with pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Apartments and store, 3 story and base, brick. Cost not stated. Architect James B. Schuyler, 642 San Fernando Bldg., L. A. Owner same. The owner is taking figures for materials, etc. The building will contain five stores and 12 apartments. There will be private baths and steam heat. The exterior will be of cement plaster.

### Contracts Awarded.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick and steel, \$100,000. Architect Robert H. Walker, Coulter Bldg., L. A. Owner Emerson Bender, Pres. National Construction Co., 2212 West 7th St., L. A. Contractors National Construction Co. The building will be 100x123, and will contain 110 rooms, with every modern convenience. Construction has just been started.

### BANKS

**Sacramento, Cal.**—Bank, 1 story and mezzanine floor. Class A construction, \$250,000. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners D. D. Mills Bank of Sacramento. This work has been mentioned in these columns before when the architect was selected to prepare the plans. The completed drawings show a monumental building of granite and steel. The banking offices will be elaborately finished in marble and bronze. There will be steam heat. The basement will be used for the concrete vaults and safety deposit vaults. The bids will be called for very shortly. Contracts are to be segregated.

### Contracts Awarded.

**Danville, Contra Costa Co., Cal.**—Bank, 1 story and base, brick. Cost not stated. Architect none. Owner San Ramon Valley Bank, Danville. Contractor R. H. Ingraham, Martinez. Contract price not stated. The building will be 40x36, and will have modern bank fittings.

### BARRACKS.

**Yosemite Valley, Cal.**—Army barracks, 11, 1 and 2 story, frame. Cost not stated. Architect Constructing Q. M. Dept., Washington, D. C. Owners U. S. Government. The plans for a new army quarters are being prepared in Washington, and will be forwarded to Col. Von Schrader, Chief Q. M. officer of the Department of California. Co. Von Schrader's offices are in the Chronicle Bldg., S. F., and plans and specifications may be seen there in about two weeks.

### BRIDGES

**Sacramento, Cal.**—Bridge, steel and concrete, \$35,000. Engineer Miller, County Surveyor, Sacramento. The bridge will be erected near 12th and J streets, and will consist of three spans of 160 feet, and will be carried on concrete cylinder piles. The bridge will be used for foot and wagon traffic only. Bids are being taken on the work.

**Santa Barbara, Santa Barbara Co., Cal.**—Bridges, steel and concrete. Cost not stated. Engineer County Surveyor, Santa Barbara. Owner Santa Barbara County. There are three bridges to be erected, one over the Quemada Creek, one over the Carpenteria Creek and the third over the Santa Ynez River. The plans for this work are complete and bids are being taken. Bids will be opened by County Clerk C. A. Hunt on July 3.

### Contracts Awarded.

**Auburn, Placer Co., Cal.**—Bridge, reinforced concrete, \$90,000. Engineer J. B. Leonard, S. F. Owners Mountain Quarries Co. Contractors Duncanson-Harleson Co., Chronicle Bldg., S. F. Contract price \$90,000.

### CHURCHES

**Oakland, Cal.**—Church. Class A construction. Architect W. C. Hays, Foxcroft Bldg., S. F., associated with Architects Cram, Goodhue and Ferguson, Boston. Owners First Presbyterian Church of Oakland. The plans for this edifice are still in the preliminary stage. Architect Hays is now in the east consulting with the associate architects. The details of the building will be given later.

**Los Angeles, Cal.**—Church, 2 story and base, brick, \$60,000. Architect E. E. B. Meinardus, 827 Higgins Bldg., L. A. Owners German Lutheran Church. This work has been mentioned here before. Plans were recently figured, but the bids ran too high and were rejected. The plans are being revised, and will be ready for new figures in about four weeks.

**Taft, Cal.**—Church, 1 story and base, frame, \$10,000. Architect John E. Nicholson, 912 Wright and Callender Bldg., L. A. Owners Roman Catholic Church of Taft. The plans for this building, which has been designed in the Mission style are now ready for figures.

**Chula Vista, San Diego Co., Cal.**—Church, 1 story and base, frame, \$10,000. Architects Walker and Vawter, Wright and Callender Bldg. L. A. Owners Methodist Episcopal Church of Chula Vista. The building will be 74x

88, and the exterior will be covered with rustic. The plans are being prepared.

### COURT HOUSES & JAILS

**Woodland, Yolo Co., Cal.**—Court house, 3 story and base. Class A construction, \$350,000. Architects Cuff and Diggs, 12th and J Sts., Sacramento. Owners Yolo County. The plans for this building have just been accepted by the county officials. Details of the construction have not been worked out as yet. The intention is to put up a building that will be fireproof. Stone, either granite or sandstone, will be used to face the structure. There will be a steam heating system, elevators and a vacuum cleaning system. The preliminary plans are being made.

### FACTORIES & WAREHOUSES

**San Francisco**—Shop building, 1 story and base, brick, \$2,000. Architect P. Demartini, 2123 Powell St., S. F. Owner P. Cheli, 1634 Lombard St., S. The building is designed simply as a workshop. The facing will be stock brick. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Laundry, 1 story and base, frame. Cost not stated. Architect none. Owner William Roneberg, 1123 Francisco St., Berkeley. There will be no trim in the building. The plans are in the hands of the owner and the work is to be done by Day Labor. The building will be 40x60.

**Sacramento, Cal.**—Warehouse, 5 story and base, reinforced concrete, \$100,000. Architects Cuff and Diggs, 12th and J Sts., Sacramento. This building has mentioned here before. There will be no interior trim above the first floor. The construction will be exceptionally heavy. The plans are complete and figures will be taken beginning next week.

**Sacramento, Cal.**—Dairy and barns, 1 story and base, reinforced concrete and frame, \$60,000. State Architect Diggs, Capitol Bldg., Sacramento. Owners State of California. The buildings referred to will comprise a group to be erected at the State Exhibit grounds. There will be a modern dairy, cow barn and dry cow shed, and exhibit building and grand stand. The plans are nearly ready for figures.

**Washington, Nevada Co., Cal.**—Warehouse and wharf, frame construction, \$50,000. Engineer H. J. Brunier, Monadnock Bldg., S. F. Owner Haywood Reed. The plans for this work, covering about 40,000 square feet, are complete and figures are being taken for the construction. The wharf will rest on concrete piles, and the warehouse will be constructed of wood and corrugated iron.

### FIRE HOUSES.

**San Francisco**—Fire station, 2 story attic and base. Class C construction, \$35,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The weekly statement from the architect's office show that the plans for this building are now nearly complete, and bids will be ordered within the next two weeks.

**San Francisco**—Police station, 3 story and base, brick and steel, \$30,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The working drawings for this building are complete, and the specifications are being written. Bids will be called for in two weeks.

**San Quentin, Marin Co., Cal.**—Prison extension, 2 story and base, reinforced concrete, \$100,000. State Architect Diggs, Capitol Bldg., Sacramento. Owners State of California. This work is now in progress at the prison, and consists of the addition of a large dining hall. The work is being done by convict labor, and the cost given above is the architect's estimate of the work based on other State work done by contract. The plans for a large reinforced concrete barn at San Quentin are also being prepared in the offices of the State Architect. This work will be done by convict labor, and has been estimated to cost \$25,000. All materials will be purchased through the State Architect's offices.

### FLATS.

**San Francisco**—Flats, 2 story and base, frame, \$3,000. Architect none. Owner P. F. Grigsby, 314 11 Ave., S. F. The building will contain two flats of 6 and 7 rooms each. There will be modern plumbing, gas grates and pine trim. The exterior will be covered with shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 2 story and base, frame, \$5,000. Architect August Nordin, Mills Bldg., S. F. Owner J. J. Bahrs. The building will be arranged for flats up stairs and a cafe on the first floor. The cafe will be handsomely finished. The plans are complete and bids are being taken.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$6,000. Architect M. J. Welsh, 22nd and Mission Sts., S. F. Owner's name withheld. The building will be arranged for a store on the first floor and two flats above. The flats will consist of 5 and 6 rooms each. The exterior will be covered with brick veneer. There will be coal grates. The plans are complete and the architect is taking figures on the work.

**San Francisco**—Flats, 2 story and base, frame, \$4,000. Architect William Knowles, Mutual Bank Bldg., S. F. Owner Pauline E. Townes. The work will consist of the alteration of a frame dwelling into modern flats. There will be complete new plumbing and electric wiring installed. The plans are being figured.

**Oakland, Cal.**—Flats, 2 story and base, brick, \$11,000. Architect none. Owner Cornelius Donovan, 507 Alcatraz Ave., Oakland. The building will be arranged for a store on the first floor and living rooms above. The exterior will be faced with pressed brick. The owner is preparing the plans.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$4,000. Architect L. H. Hyde, 2715 26th Ave., Oakland. Owner's name withheld. The building will contain 2 flats of 5 and 6 rooms each. There will be gas grates and modern plumbing. The exterior will be covered with rustic. The plans are being prepared.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$5,000. Architect L. Mastropasqua, 580 Washington St., S. F. Owner August A. Guglieri. The building is arranged for stores on the first floor and living rooms above. There will be gas grates. The exterior will be covered with rustic. The plans are complete and figures are being taken.

### —HALLS & SOCIETY BLDGS.—

**San Francisco**—Club, 2 story and base, frame, \$15,000. Architects Ward and Blohmer, Alaska Commercial Bldg., S. F. Owners Girls' Club. The building will be in the form of a large residence, and will have a number of bed chambers and baths. There will be a heating system. The plans are complete and bids are to be in this week. The exterior will be of rustic.

**San Francisco**—Armory, 5 story and base. Class A construction, \$350,000. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. The preliminary plans for this building have been prepared and are now ready for approval. They show a five story structure with a one story drill shed. The site has been definitely settled upon as the corner of 14th and Mission streets. The construction will probably be undertaken this year.

**Sacramento, Cal.**—Armory, 3 story and base, reinforced concrete, \$60,000. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. Sketches for this building are now ready for approval. The building will be located at 12th and W streets. The work will be started this year.

**Redwood City, San Mateo Co., Cal.**—City Hall, 2 story and base, brick, \$12,000. Architect E. P. Anotovich, 333 Kearny St., S. F. Owners City of Redwood. This work has been mentioned in these columns before. The plans are now ready for figures and bids will be called for at once. The statement has been made that only Redwood City firms will be allowed to figure the work.

**Fresno, Fresno Co., Cal.**—Auditorium, 3 story and base, brick, \$20,000. Architect C. K. Kirby, Jr., Fresno. Owners City of Fresno. The building has been changed somewhat from the original plans and now includes a children's playground. The exterior will be of pressed brick. The plans have been accepted by the city and figures are being taken.

**Los Angeles, Cal.**—Armory, 3 story and base. Class A construction, \$250,000. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. The sketches for this building are now ready for approval. The plans show a modern structure in every particular. The location will be in Agricultural Park. It is announced that the work will be undertaken this year.

**Vancouver, Wash.**—City Hall, 2 story and base, brick and concrete. Cost not stated. Architects Wright, Rushforth and Cahill, California St., S. F. Owners City of Vancouver. The architects have just been selected to prepare the plans for this building. The building will be 100 feet square. Further details will be given later.

**Woodburn, Ore.**—Armory, 2 story and base, brick. Cost not stated. Architects Claussen and Claussen, Portland.

Owners State of Washington. The building will be heated by steam. The exterior will be faced with pressed brick. The architects are taking bids on the work which will be opened June 30th.

### Contracts Awarded.

**Santa Rosa, Sonoma Co., Cal.**—Lodge hall, 3 story and base, brick, \$23,000. Architect's name not given. Owners Santa Rosa Odd Fellows Hall Association. Contractors Simpson and Roberts, Santa Rosa. Contract price not given.

**Pasco, Wash.**—City Hall, 2 story and base, brick, \$30,000. Architect C. Lewis Wilson, Chehalis. Owner City of Pasco. Contractor A. R. Gary, Pasco. Contract price \$28,690.

### —HOTELS—

**San Francisco**—Hotel, 7 story and base. Class A construction, \$250,000. Architects William Curlett and Son, Phelan Bldg., S. F. Owners Terminal Investment Co. (represented by Pringle Bros., Russ Bldg., S. F.) This building has been mentioned here before several times. The first floor will be given over to retail stores and the main lobby of the hotel. The upper floors will be arranged for hotel purposes. The contract for the steel work has been let to Dyer Bros. S. F., and the plans for the remainder of the work are complete and out for figures.

**San Francisco**—Hotel, 7 story and base, brick and steel, \$125,000. Architect G. A. Landsburg, Gunst Bldg., S. F. Owner Morris Brown. The building will occupy a corner lot, and the first floor will be arranged for stores and the hotel lobby. The upper floors will contain in the neighborhood of 200 rooms and baths. The mechanical equipment will include passenger and freight elevators, steam heat, with oil burner plant and vacuum cleaners. There will be a large number of baths. The exterior of the building will be faced with pressed brick. The plans are complete and figures have been taken. The contracts will be awarded within the next few days.

**San Francisco**—Hotel, 5 story and base, brick and steel, \$30,000. Architect W. H. Crim, 425 Kearny St., S. F. Owner's name withheld. The building will be located on Kearny street, and the first floor will be arranged for store purposes. The upper five floors will be given over to the use of the hotel. There will be steam heat and electric elevators. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken on the work.

**San Francisco**—Hotel and stores, 3 story and base, reinforced concrete, \$40,000. Architects Miller and Colmenillo, Lick Bldg., S. F. Owners McEwen Bros. There will be a number of stores on the first floor and rooms above. There will be steam heat and elevator service. The exterior of the building will be faced with cement plaster. The plans are complete and figures are being taken.

**Lodi, San Joaquin Co., Cal.**—Hotel, 3 story and base, reinforced concrete or brick and steel, \$60,000. Architect E. B. Brown, Stockton. Owners Raymond Knight and C. S. Jordan et al. (rep. by the U. S. Bond and Mortgage Co., S. F.)

The details of the construction of this building have not been settled, but the structure will be either of reinforced concrete or brick. The plans show 75 rooms, large dining rooms and general lobby and office, besides a large number of baths. Part of the money necessary has been raised and the balance pledged. Construction will probably be started within a month or two.

**Watsonville, Santa Cruz Co., Cal.**—Hotel, 4 story and base, reinforced concrete, \$100,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owner Appleton Investment Co. The building has been mentioned in these columns before when the plans were being prepared. There will be 96 rooms arranged en suite, and as single rooms besides 35 baths. The exterior will be covered with cement plaster. There will be steam heat and all other modern improvements. The plans are now out for figures and the contract will be let as a whole, with the exception of the plumbing and concrete work.

**Wilmington, Los Angeles Co., Cal.**—Hotel, 2 story and base, frame. Cost not stated. Architect H. M. Patterson, 3240 T. Johnson Bldg., L. A. Owner J. E. Dawson. The building will be in the Mission style, and will contain 24 rooms and baths. The exterior will be of cement plaster on metal lath. The owner will take all bids.

**Seattle, Wash.**—Hotel and stores, 4 story and base, concrete and brick, \$80,000. Architects Thompson and Thompson, Maynard Bldg., Seattle. Owner Oriental American Bank. The building will be 120 feet square, and will contain 144 rooms. The exterior will be faced with pressed brick. There will be steam heat, elevators and all other modern improvements. The plans are practically complete and work will be started this summer.

### Contracts Awarded.

**Seattle, Wash.**—Hotel, 8 story and base. Class A construction, \$200,000. Architect not selected. Owners Amos Brown Estate Co., Moore Theatre Bldg., Seattle. Contractor P. S. Coombs. The estate company have announced their intention of going ahead with this work at once. They have employed Mr. Coombs on several large jobs and have turned this work over to him on a percentage basis. The work will be started about the first of August.

### HOSPITALS

**Stockton, San Joaquin Co., Cal.**—Sanitarium, 2 story and base, frame, \$25,000. Architect R. P. Morrell Stockton. Owner Dr. Dameron. The building is designed for a private sanitarium with accommodations for about 20 patients. There will be a central heating system and other modern improvements. The exterior of the building will be covered with rustic. The plans are being prepared and will be ready for figures in about three weeks.

**Agnew, Santa Clara Co., Cal.**—Nurses' dormitory, 2 story and base, reinforced concrete, \$60,000. State Architect Diggs, Capitol Bldg., Sacramento, Owner State of California. The plans for this building are now complete and figures will be called for very shortly. The structure will be similar in the main to the rest of the buildings,

the exterior being faced with cement plaster.

**Walla Walla, Wash.**—Hospital, 5 story and base, reinforced concrete. Cost not stated. The following three men have submitted sketches, Tegan and E. F. Lawrence of Portland and Rooney of Spokane. Owners St. Mary's Hospital. (Mother Superior Hilary.) The architects will be selected this week. The building will be 90x200 and fireproof. Construction will be started as soon as the plans can be completed.

### LIBRARIES

**San Francisco**—Library, 2 story and base. Class A construction, \$75,000. Architect Albert Pissis, Flood Bldg., S. F. Owners Leland Stanford University. The building will be used as a reference library for the faculty. There will be a steel frame faced with terra cotta and pressed brick. A steam heating plant will be installed. The plans are now being prepared and will be ready for figures shortly.

**Modesto, Stanislaus Co., Cal.**—Library, 2 story and base, brick, \$35,000. Architect W. H. Weeks, 251 Kearny St., S. F. Owner City of Modesto. This work has been mentioned here several times before. The plans are now complete and bids are being taken. There will be a steam heating system installed. The exterior of the building will be of pressed brick and terra cotta. The contract will be let as a whole with the exception of the heating.

### RAILROAD CONST., STATIONS AND EQUIPMENT

**Panama-David, Panama**—Railroad construction. Cost not stated. Owners Panama-David R. R. Co. Represented in San Francisco by the consul of Panama, Dr. P. de Obarrio, 510 Battery St., S. F. The consul has issued a statement to the effect that the time of opening bids for the construction of this line has been postponed until August 31st.

**Argo, Wash.**—Railroad shops, 7 reinforced concrete buildings, \$300,000. Engineer Holman, of the O. W. and N. Co., Seattle. Owners Oregon and Washington Railroad and Navigation Co. Contractors Grant-Smith Co., 227 Henry Bldg., Seattle. Contract price \$300,000.

### RESIDENCES.

**San Francisco**—Residence, 3 story and base, brick, \$25,000. Architects Miller and Colmesnil, Lick Bldg., S. F. Owner Robert M. Loeser. This dwelling will be erected in the Marine View district, and will contain in the neighborhood of 16 rooms and baths. The interior will be handsomely finished in hardwoods, with considerable marble and ornamental iron. The exterior will be of pressed brick. There will be a warm air heating system and coal grates. The plans are being prepared.

**Pebble Beach, Monterey Co., Cal.**—Residence, 1½ story and base, frame \$12,000. Architect J. T. Carter, Call Bldg., S. F. Owner J. Woodburn. The dwelling will contain 9 rooms and 2 baths. There will be hardwood and pine trim. A central heating system will be installed. The exterior will be

covered with cement plaster on metal lath. The roof will be of terra cotta tile. The plans are ready for figures.

**Alameda, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$5,000. Architect W. J. Cuthbertson, 323 Montgomery St., S. F. Owner D. Brown. The dwelling is designed in the Mission style and the exterior will be of cement plaster on metal lath. The interior will be finished in pine. There will be coal grates. The plans are complete and figures are being taken.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,500. Architect none. Owner James L. McCarthy, 175 10th St., Oakland. The dwelling will contain 8 rooms and bath. There will be coal grates and modern plumbing. The exterior will be covered with rustic. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$6,000. Architect Dibble, 369 Miles Ave., Oakland. Owner Brougher. The dwelling will contain 8 rooms and bath. There will be coal grates and hardwood floors. The trim will be of pine. The exterior will be covered with shingles. The plans are complete and figures are being taken.

**San Rafael, Marin Co., Cal.**—Residence, 2 story, attic and base, frame, \$9,000. Architects Meyer & Reed, Oakland Bank of Savings Bldg., Oakland. Owner W. H. Freeland. The building will be covered with cement plaster on metal lath. The interior trim will be of pine and hardwoods. There will be furnace heat and coal grates. The floors on the first floor will be of hardwood. The plans are complete and are now being figured.

**Stockton, San Joaquin Co., Cal.**—Bungalow, 1 story and base, frame, \$4,000. Architect Walter King, Elks' Bldg., Stockton. Owner B. M. Drury. The bungalow will contain 6 rooms and bath. There will be coal grates and hardwood floors. The exterior will be covered with rustic. The bids are in and have been taken under advisement.

**Stockton, San Joaquin Co., Cal.**—Bungalow, 1½ story and base, frame, \$3,500. Architect R. P. Morrell, Stockton. Owner Mr. Jones. The bungalow will contain 7 rooms and bath. There will be coal grates with brick mantels. The exterior will be covered with rustic. The plans are now being prepared.

**Ripon, San Joaquin Co., Cal.**—Bungalow, 1½ story and base, frame, \$3,000. Architect Walter King, Elks' Bldg., Stockton. Owner T. C. Hughes. The bungalow will contain 7 rooms and bath. There will be coal grates. The exterior will be of rustic. The plans are being prepared.

**San Francisco**—Residence, 2 story, attic and base, concrete and brick, \$30,000. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners A. S. and C. L. Griffith. The plans for this dwelling are being revised. The exterior will be of cement and pressed brick, while the interior will be of hardwoods. The mechanical equipment will be of the highest class. Complete details will be given as soon as the plans are complete.

**San Francisco**—Residence, 2 story and base, reinforced concrete, \$30,000. Architect Henry O. Smith, Humboldt Bank Bldg., S. F. Owner Mrs. M. John-

son. The dwelling will contain 15 rooms and baths. The exterior will be of cement plaster. The trim throughout will be of hardwoods. The mechanical equipment will include vacuum cleaners, steam heat, dumb waiters and a refrigerating plant. The plans are being prepared.

**Piedmont, Alameda Co., Cal.**—Bungalow, 1½ story and base, frame, \$3,500. Architect L. H. Hyde, 2715, 26th Ave., Oakland. Owner's name withheld. The bungalow will contain 5 rooms and bath. There will be furnace heat and hardwood floors. The exterior will be covered with shingles. The plans are being prepared.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$7,000. Architect Henry Houle, 3009 Grove St., Berkeley. Owner V. C. Jacks. The dwelling will contain 9 rooms and baths. There will be furnace heat and coal grates. The interior trim will be of pine. The exterior will be covered with rustic. The plans are being figured.

**Redwood City, San Mateo Co., Cal.**—Cottage, 1 story and base, frame, \$1,500. Architect J. R. Reed, Redwood City. Owner Mr. Goodwin. The building will be erected in the rear of the Goodwin home. The exterior will be of shingles. The plans are out for figures.

**Redwood City San Mateo Co., Cal.**—Residence, 2 story and base, frame, \$15,000. Architects Havens and Toepke, Mutual Bank Bldg., S. F. Owner Carl Beeger, Redwood City. The plans for this work are now being prepared. The interior will be finished in hardwood, and there will be furnace heat. The exterior finish has not been decided, but will probably be of cement plaster on metal lath.

**Apartment House**—5 story and base, brick and steel, \$100,000. San Francisco. Architect Arthur G. Scholz, 339 Phelan Bldg., S. F. Owner P. J. Gartland. The building will contain 60 apartments arranged in single rooms and suites of 2 and 3 rooms each. There will be connecting baths with all apartments. The mechanical equipment will include 2 elevators, dumb waiters, steam heat and all other modern improvements. The exterior will be faced with red pressed brick laid up in white mortar. The construction to the second floor will be steel frame, and from there up the construction will be of the class C type. The plans are complete and the contract for the excavating has been let. All work will be segregated. Bids will be called for at once for the balance of the work.

**Los Angeles, Cal.**—Residence, 2 story and base, frame and brick. Cost not stated. Architect Robert D. Farquhar, 418 Security Bldg., L. A. Owner Dr. Phillip S. Chancellor. The architect has just started the preliminary drawings for this work, and the details can not be given at this time. The residence will be constructed in the Oak Knoll district, and will be one of the most pretentious dwellings in the tract.

**Santa Paula, Ventura Co., Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects Austin and Pennell, 1015 Wright and Callender Bldg., L. A. Owner Nathan Blanchard. The dwelling will contain 10 rooms and 4 baths. The interior trim will be largely of hardwoods. There will be furnace

heat. The exterior will be covered with shingles. The plans are being prepared.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects Butler Bros., Mason Bldg., L. A. Owner James R. Boal. The dwelling will contain 10 rooms and bath. There will be a furnace installed. The exterior will be of shingles. The plans are being figured.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects Neher and Skilling, Pacific Electric Bldg., L. A. Owner A. H. Holmes. The dwelling will contain 9 rooms and baths. There will be hardwood floors. The plans are ready for figures.

**Los Angeles, Cal.**—Residence, 2 story and base, frame. Cost not stated. Architects Eager and Eager, Story Bldg., L. A. Owner P. Young. The dwelling will contain 10 rooms and 2 baths. There will be large open fire places. The trim will be largely of hardwood. The exterior will be of blue brick veneer and cement plaster. The work is to be done by Day Labor.

**Pomona, Los Angeles Co., Cal.**—Residence, 1 story and base, frame. Cost not stated. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner H. H. Denny. The dwelling will have furnace heat, and will be nicely finished. The plumbing will be strictly modern. The architect is preparing the plans.

SCHOOLS.

**Oakland, Cal.**—School, 2 story and base, reinforced concrete, \$25,000. Architect J. F. Forderer, 1212 Regent St., Alameda. Owner Fred Finck Orphanage. The plans for this building are prepared. There will be several call rooms besides dormitories. There will be steam heat. The exterior will be faced with pressed brick.

**San Jose, Santa Clara Co., Cal.**—School, 2 story and base, reinforced concrete, \$50,000. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. This building will be designed for a training school, and will be similar in construction to the other buildings at the San Jose Normal School. The plans are practically complete and bids will be called for shortly.

**Long Beach, Los Angeles Co., Cal.**—School addition, 2 story and base, frame, \$10,000. Architect A. Burnside Sturgis, L. A. Owners Long Beach School District. The plans for this addition are complete and bids will be opened for the construction on June 27th.

**Los Angeles, Cal.**—School additions, 1 story and base, reinforced concrete. Cost not stated. Architects R. B. Young and Son, Lankershim Bldg., L. A. Owners L. A. Catholic School. The work will include the raising of the present building and the concrete of a concrete story underneath. The new portion of the building will contain 4 class rooms and 2 amusement rooms. The plans are being prepared.

**Vancouver, Wash.**—School dormitories, 2, 3 story and base, concrete and brick, \$15,000 each. Architect Olof Han-

son, 50 Downs Bldg., Seattle. Owner State of Washington. The buildings will be erected at the School for the Blind. The plans are complete and bids will be opened on June 27th. The State appropriation for the work at the school is \$107,000.

Contracts Awarded.

**Elmont, Chehalis Co., Wash.**—School, 2 story and base, concrete and brick, \$25,000. Architect's name not given. Owners Elmont School District. Contractor C. L. Wood, 1624 3rd Ave., Seattle. Contract price \$25,000.

**Wenatchee, Wash.**—School, 1 and 3 story and base, brick, \$26,000. Architects Stephen and Stephen, New York Bldg., Seattle. Owner City of Wenatchee. Contractor A. C. Walter, Carry Bldg., Seattle. Contract price \$26,500.

SEWERS, STREET WORK AND WATER SYSTEMS

**San Francisco**—Pumping station and tanks. Cost not stated. Engineers L. Winther and H. Monett, S. F. Owners Spring Valley Water Co. Bids are now being taken for the construction of this work. Bids will be opened by T. A. Elliott, 375 Ellis St., S. F.

**Dinuba, Tulare Co., Cal.**—Sewer system, \$30,000. City Engineer of Dinuba. Owner City of Dinuba. The plans for this system are now being prepared and will be ready for figures about the end of this month. The system will include both sanitary and storm water sewers.

STORE.

**Portland, Ore.**—Stores and offices, 5 story and base. Class A construction, \$150,000. Architect Lionel Dean, Phelan Bldg., S. F. Owners H. W. Fries and Mrs. E. Cramer. The building will be 100x110, and will be modern in every particular. The first floor will be occupied by stores, the second by offices and the three upper floors will be fitted for hotel purposes. The plans are nearly complete and bids will be called for shortly.

**Seattle, Wash.**—Stores, 2 story and base, brick, \$10,000. Architect Daniel R. Huntington, Colman Bldg., Seattle. Owners Noice Undertaking Co. The building will be fitted for the purposes of the owners. The exterior will be faced with pressed brick. The plans are now out for figures.

**Seattle, Wash.**—Stores and offices, 42 story and base. Class A construction, \$1,500,000. Architects Gagin and Gagin, Syracuse, N. Y. Owner L. C. Smith. This work has been mentioned here several times before. The representative of L. C. Smith is now in the east, and contracts for this work will be signed in the next few days. In all probability the Building and Industrial News will be able to announce the successful bidders on this work in the next issue.

Contracts Awarded.

**Seattle, Wash.**—Stores and offices, 8 story and base, brick and steel, \$125,000. Architect E. S. Goodwin, 312 Leary Bldg., Seattle. Owners American Cities Realty Co. Contractors Boyle and Boyle 525 Malden Place Seattle. Contract price not stated.

**SEALED PROPOSAL.****CANAL CIRCULAR.**

(Bids close July 24.)

**CANAL CIRCULAR 636.**—Proposals to Furnish and Erect Spillway, Gates and Caissons, and to Furnish Foot Bridges for Spillways; Rising Stem Gate Valves, Lower Guard Gate Valves, Lateral Culvert Valves, Bulkhead Gates and Screens for the Lock Culverts; Castings, etc., to Form the Gate Seats in Spillways; Roller Trains and Sealing Devices for the Rising Stem Gate Valves for the Locks; Roller Trains and Sealing Devices, Rocker Bearings and Gate Rollers for Stoney Gates at Spillways and Railings for Spillways.—Sealed proposals will be received at the office of the general purchasing officer, Isthmian Canal Commission, Washington, D. C., until 10:30 a. m. July 24, 1911, at which time they will be opened in public, for furnishing the above-mentioned articles. Blanks and general information relating to this circular (No. 636) may be obtained from this office or the offices of the assistant purchasing agents, 1086 North Point street, San Francisco, Cal

Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard, New York. R. C. HOLLYDAY, chief of bureau.

**PROPOSALS.**

(Close June 25th.)

The Board of Public Works of the City of Oakland, California, will re-

Firms desiring news from certain localities like San Francisco, Los Angeles, Portland, Seattle, etc., will find all such items, commencing on this page, all carefully classified as to location. These same items are repeated in the fore part of the news department, under distinct headings such as Banks, Churches, Hotels, etc.

**SAN FRANCISCO.**

**Apartment House**—6 story and base. Class A construction, \$500,000. San Francisco. Architect William Beasley, 127 Montgomery St., S. F. Owner's name withheld. The building will be one of the most modern apartment houses in the west, and will be located in the down town district, and will cover a full Fifty Vara lot. The details of this work have just been settled upon, and the architect is now working on the finished drawings. The plans show a total of approximately 250 rooms, which will be arranged in various sized apartments. There will be steam heat with oil burning equipment, freight and passenger elevators, dumb waiters, vacuum cleaning system and a cold storage plant. The exterior will probably be faced with terra cotta and pressed brick. The plans will be finished and ready for figures in about 30 days.

**Apartment Houses**—2, 3 story and base, frame, \$10,000 each. San Francisco. Architect Arthur G. Scholz, Phelan Bldg., Owner Mrs. Moretti. These two buildings have been mentioned here before when the plans were first out for figures. There will be seven apartments in each building consisting of 2 and 3 rooms each. The figures will be complete in the course of a day or two, and the contract will be let at once.

**Apartment House**—5 story and base, brick and steel, \$60,000. San Francisco. Architect Fred H. Meyer, Humboldt Bank Bldg., S. F. Owner Robert Mendel. This building was mentioned here several weeks ago when the plans were first started. There will be in the neighborhood of 75 apartments in the building arranged in the most modern manner. The exterior will be of pressed brick trimmed with terra cotta. The plans will be ready for figures within the next week or ten days.

**Apartment House**—3 story and base, frame, \$10,000. San Francisco. Architect E. H. Hildebrand, Crocker Bldg., S. F. Owner same. This building has been mentioned here before when the architect started the plans. There will be twenty-four apartments of 2 and 3 rooms each. All apartments will have connecting baths, and the bedrooms will be equipped with portal wall beds. The exterior will be of veneered brick. The plans are now being figured.

**Apartment House**—3 story and base, frame, \$24,000. San Francisco. Architect Charles Peter Weeks, Mutual Bank Bldg., S. F. Owner F. J. Bayer. The building will contain 21 modern apartments. There will be steam heat and wall beds. The exterior will be of brick veneer and cement plaster on metal lath. The plans are now complete and figures are being taken.

**Flats**—2 story and base, frame, \$3,000. San Francisco. Architect none. Owner: P. E. Grigsby, 314 11th Ave., S. F. The building will contain two flats of 6 and 7 rooms each. There will be modern plumbing, gas grates and pine trim. The exterior will be covered with shiplap. The plans are in the

ceive separate and distinct bids or estimates between 10 and 11 o'clock A. M., Pacific time, on Wednesday, the twenty-eighth day of June, 1911, in the office of the Board, in the City Hall, Oakland, California, for each of the following 5 items of work entering into the construction of the New Oakland City Hall Building:

- 8—Dampproof Paint and Painting.
- 13—Metal Furring and Lathing.
- 19—Glass and Glazing.
- 23—Elevators.
- 24—Heating and Ventilating.

The bids or estimates shall be made on the blank forms bound into the contract and specifications prepared by the Architects, and shall be deposited by the contractor or his agent, with the Secretary of the Board between 10 and 11 o'clock A. M., Pacific time, on the twenty-eighth day of June, 1911, and at the expiration of the time named the bids will be publicly opened and read by the Board.

Each bid shall bear the affidavit of bidder as required by Section 80 of the Charter of the City of Oakland, such affidavit appearing in the bid or estimate contained in the bound forms which will be furnished gratuitously upon application. All bids shall be clearly and distinctly written, without erasure or interlineation, and if any bid shall have an erasure or interlineation, it shall not be received or considered by the Board.

No bid or estimate will be considered which is not accompanied by a certified check upon a responsible Bank, payable to the order of Frank R. Thompson, Clerk of the City Council, for an amount not less than ten per cent (10%) of the aggregate of the proposal or estimate submitted. The certified check deposit shall be forfeited and retained by the City of Oakland if the successful bidder fails or refuses to execute the contract or contracts, and furnish the bonds as required by the Charter of the City of Oakland.

At the same time with the execution of the Contract each Contractor shall execute to the City of Oakland and deliver to the Secretary of the Board of Public Works, a Bond equal to fifty per cent (50%) of the amount of the contract. He shall also deliver to said City of Oakland and to the Clerk of said Board at said time a Bond to guarantee the City against loss through the filing of liens aggregating an amount equal to fifty per cent (50%) of the amount of the contract, all as required by said Charter.

A bound book of forms containing bid, bonds, contract and specifications will be furnished bidders on demand at the office of the Architects of said building.

Each contractor will be required to begin work within ten (10) days from the receipt of an order from the Architects and to complete the entire work in accordance with the plans and specifications and to the satisfaction and approval of the Board of Public Works, with such force and materials as may be required, so that the work of other contractors shall not be delayed.

The plans and drawings may be obtained from the Architects, Messrs. Palmer & Hornbostel, at their offices in the First National Bank Building, Oakland, California, after June 5th, 1911, within a reasonable time after application is made and upon the deposit of \$50.00, which deposit will be returned to the applicant when the plans and drawings are returned in good condition. One copy of the plans and drawings will be furnished each bidder. Additional copies will be furnished, provided the bidder pays the cost of reproduction.

Persons or firms supplying materials, but not submitting estimates to the Board, may obtain copies of the plans and drawings from the Architects within a reasonable time after application is made, provided they pay the cost of reproduction.

The Board reserves the right to reject any or all bids in accordance with the provisions of the Charter of the City of Oakland.

JAMES W. NELSON,  
Secretary of the Board of Public Works.  
Dated, June 3, 1911.

hands of the owner and the work will be done by Day Labor.

**Flats**—2 story and base, frame, \$5,000. San Francisco. Architect August Nordin, Mills Bldg., S. F. Owner J. J. Bahrs. The building will be arranged for flats up stairs and a cafe on the first floor. The cafe will be handsomely finished. The plans are complete and bids are being taken.

**Flats**—2 story and base, frame, \$4,000. San Francisco. Architect William Knowles, Mutual Bank Bldg., S. F. Owner Pauline E. Townes. The work will consist of the alteration of a frame dwelling into modern flats. There will be complete new plumbing and electric wiring installed. The plans are being figured.

**Residence**—3 story and base, brick, \$25,000. San Francisco. Architects Miller and Colmesnil, Lick Bldg., S. F. Owner Robert M. Loeser. This dwelling will be erected in the Marine View district, and will contain in the neighborhood of 16 rooms and baths. The interior will be handsomely finished in hardwoods, with considerable marble and ornamental iron. The exterior will be of pressed brick. There will be a warm air heating system and coal grates. The plans are being prepared.

**Hotel**—7 story and base. Class A construction, \$250,000. San Francisco. Architects William Curlett and Son, Phelan Bldg., S. F. Owners Terminal Investment Co. (represented by Pringle Bros., Russ Bldg., S. F.) This building has been mentioned here before several times. The first floor will be given over to retail stores and the main lobby of the hotel. The upper floors will be arranged for hotel purposes. The contract for the steel work has been let to Dyer Bros., S. F., and the plans for the remainder of the work are complete and out for figures.

**Hotel**—7 story and base, brick and steel, \$125,000. San Francisco. Architect G. A. Landsburg, Gunst Bldg., S. F. Owner Morris Brown. The building will occupy a corner lot, and the first floor will be arranged for stores and the hotel lobby. The upper floors will contain in the neighborhood of 200 rooms and baths. The mechanical equipment will include passenger and freight elevators, steam heat, with oil burner plant and vacuum cleaners. There will be a large number of baths. The exterior of the building will be faced with pressed brick. The plans are complete and figures have been taken. The contracts will be awarded within the next few days.

**Hotel**—5 story and base, brick and steel, \$30,000. San Francisco. Architect W. H. Crim, 425 Kearny St., S. F. Owner's name withheld. The building will be located on Kearny street, and the first floor will be arranged for store purposes. The upper five floors will be given over to the use of the hotel. There will be steam heat and electric elevators. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken on the work.

**Hotel and Stores**—5 story and base, reinforced concrete, \$40,000. San Francisco. Architects Miller and Colmesnil, Lick Bldg., S. F. Owners McEwen Bros. There will be a number of stores on the first floor and rooms above. There will be steam heat and elevator service. The exterior of the building will be faced with cement plaster. The plans are complete and figures are being taken.

**Library**—2 story and base. Class A construction, \$75,000. San Francisco. Architect Albert Pissis, Flood Bldg., S. F. Owners Leland Stanford University. The building will be used as a reference library for the faculty. There will be a steel frame faced with terra cotta and pressed brick. A steam heating plant will be installed. The plans are now being prepared and will be ready for figures shortly.

**Shop Building**—1 story and base, brick, \$2,000. San Francisco. Architect P. Demartini, 2123 Powell St., S. F. Owner P. Cheli, 1634 Lombard St., S. F. The building is designed simply as a work shop. The facing will be stock brick. The work is to be done by Day Labor.

**Club House**—2 story and base, frame, \$15,000. San Francisco. Architects Ward and Blohme, Alaska Commercial Bldg., S. F. Owners Girls' Club. The building will be in the form of a large residence and will have a number of bed chambers and baths. There will be a heating system. The plans are complete and bids are to be taken this week. The exterior will be of rustic.

**Armory**—5 story and base. Class A construction, \$350,000. San Francisco. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. The preliminary plans for this building have been prepared and are now ready for approval. They show a five story structure with a one story drill shed. The site has been definitely settled upon as the corner of 14th and Mission streets. The construction will probably be undertaken this year.

**Residence**—2 story, attic and base, concrete and brick, \$30,000. San Francisco. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners A. S. and C. L. Griffith. The plans for this dwelling are being revised. The exterior will be of cement and pressed brick, while the interior will be of hardwoods. The mechanical equipment will be of the highest class. Complete details will be given as soon as the plans are complete.

**Residence**—2 story and base, reinforced concrete, \$30,000. San Francisco. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Mrs. M. Johnson. The dwelling will contain 15 rooms and baths. The exterior will be of cement plaster. The trim throughout will be of hardwoods. The mechanical equipment will include vacuum cleaners, steam heat, dumb waiters and a refrigerating plant. The plans are being prepared.

**Hotel**—5 story and base, brick and steel, \$30,000. San Francisco. Architect W. H. Crim, 425 Kearny St., S. F. Owner's name withheld. The building will be located on Kearny street, and the first floor will be arranged for store purposes. The upper five floors will be given over to the use of the hotel. There will be steam heat and electric elevators. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken on the work.

**Hotel and Stores**—5 story and base, reinforced concrete, \$40,000. San Francisco. Architects Miller and Colmesnil, Lick Bldg., S. F. Owners McEwen Bros. There will be a number of stores on the first floor and rooms above. There will be steam heat and elevator service. The exterior of the building will be faced with cement plaster. The plans are complete and figures are being taken.

**Fire Station**—2 story and base. Class C construction, \$35,000. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The weekly statement from the architect's office show that the plans for this building are now nearly complete and bids will be ordered within the next two weeks.

**Police Station**—3 story and base, brick and steel, \$30,000. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. The working drawings for this building are complete and the specifications are being written. Bids will be called for in two weeks.

**Army Barracks**—11, 1 and 2 story, frame. Cost not stated. Yosemite Valley, Cal. Architect Constructing Q. M. Dept., Washington, D. C. Owners U. S. Government. The plans for a new army quarters are being prepared in Washington, and will be forwarded to Col. Von Schrader, Chief Q. M. officer of the Department of California. Col. Von Schrader's offices are in the Chronicle Bldg., S. F., and plans and specifications may be seen there in about two weeks.

**Railroad Construction**—Cost not stated, Panama-David R. R. Co. Owners Panama-David R. R. Co., Represented in San Francisco by the consul of Panama, Dr. P. de Obarrio, 510 Battery St., S. F. The consul has issued a statement to the effect that the time of opening bids for the construction of this line has been postponed until August 31st.

**Pumping Station and Tanks**—Cost not stated. San Francisco. Engineers L. Winther and H. Monett, S. F. Owners Spring Valley Water Co. Bids are now being taken for the construction of this work. Bids will be opened by T. A. Elliott, 375 Ellis St., S. F.

**MODIFICATION OF BLDG. CONTRACT**

June 12, 1911—Standard Construction Co. entered into a contract with Hartland Law, for reconstruction of Rialto Bldg., on SW Mission and New Montgomery, for \$47,725, and a contract was made with Taylor & Co. by Standard Construction Co. to furnish mill work for the sum of \$21,950 and \$925 extras. The Standard Construction Co. now finds it cannot complete this contract and it is agreed between Hartland Law and Taylor & Co., that Taylor & Co. will complete his contract and Hartland Law will furnish the means to com-

plete the contract of Standard Construction Co. and will employ and pay all labor to complete contract of Standard Construction Co. and also purchase all other materials, other than mill work, to the end; all work to be completed as speedily as possible. Agreed that said Hartland Law will be entitled to a credit against the \$47,725 for all money Chas. A. Littlefield & Son, Supts. paid out by said Hartland Law.

OAKLAND AND ALAMEDA COUNTY.

**Flats**—2 story and base, frame, \$6,000. Oakland, Cal. Architect M. J. Welsh, 22nd and Mission Sts., S. F. Owner's name withheld. The building will be arranged for a store on the first floor and two flats above. The flats will consist of 5 and 6 rooms each. The exterior will be covered with brick veneer. There will be coal grates. The plans are complete and the architect is taking figures on the work.

**Flats**—2 story and base, brick, \$11,000. Oakland, Cal. Architect none. Owner Cornelius Donovan, 507 Alcatraz Ave., Oakland. The building will be arranged for a store on the first floor and living rooms above. The exterior will be faced with pressed brick. The owner is preparing the plans.

**Residence**—2 story and base, frame, \$5,000. Alameda, Alameda Co., Cal. Architect W. J. Cuthbertson, 323 Montgomery St., S. F. Owner D. Brown. The dwelling is designed in the Mission style, and the exterior will be of cement plaster on metal lath. The interior will be finished in pine. There will be coal grates. The plans are complete and figures are being taken.

**Residence**—2 story and base, frame, \$4,500. Oakland, Cal. Architect none. Owner James L. McCarthy, 175 10th St., Oakland. The dwelling will contain 8 rooms and bath. There will be coal grates and modern plumbing. The exterior will be covered with rustic. The plans are being figured.

**SAN JOSE & SANTA CLARA VALLEY.**

**Residence**—1 1/2 story and base, frame, \$12,000. Pebble Beach, Monterey Co., Cal. Architect J. T. Carter, Call Bldg., S. F. Owner J. Woodburn. The dwelling will contain 9 rooms and two baths. There will be hardwood and pine trim. A central heating system will be installed. The exterior will be covered with cement plaster on metal lath. The roof will be of terra cotta tile. The plans are ready for figures.

**Nurses' Dormitory**—2 story and base, reinforced concrete, \$60,000. Agnew, Santa Clara Co., Cal. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. The plans for this building are now complete and figures will be called for very shortly. The structure will be similar in the main to the rest of the buildings, the exterior being faced with cement plaster.

**City Hall**—2 story and base, brick, \$12,000. Redwood City, San Mateo Co., Cal. Architect E. P. Anotnovich, 333 Kearny St., S. F. Owners City of Redwood. This work has been mentioned in these columns before. The plans are now ready for figures and bids will be called for at once. The statement has been made that only Redwood City firms will be allowed to figure the work.

**Cottage**—1 story and base, frame, \$1,500. Redwood City, San Mateo Co., Cal. Architect J. R. Reid, Redwood City. Owner Mr. Goodwin. The building will be erected in the rear of the Goodwin home. The exterior will be of shingles. The plans are out for figures.

**Residence**—2 story and base, frame, \$15,000. Redwood City, San Mateo Co., Cal. Architects Havens and Toepke, Mutual Bank Bldg., S. F. Owner Carl Beeger, Redwood City. The plans for this work are now being prepared. The interior will be finished in hardwood, and there will be furnace heat. The exterior finish has not been decided, but will probably be of cement plaster on metal lath.

**School**—2 story and base, reinforced concrete, \$60,000. San Jose, Santa Clara Co., Cal. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. This building will be designed for a training school, and will be similar in construction to the other buildings at the State Normal School. The plans are practically complete and bids will be called for shortly.

**SACRAMENTO, STOCKTON & NORTHERN CALIFORNIA.**

**Bungalow—1 story and base, frame, \$1,000.** Stockton, San Joaquin Co., Cal. Architect Walter King, Elks' Bldg., stockton. Owner B. M. Drury. The bungalow will contain 6 rooms and bath. There will be coal grates and hardwood floors. The exterior will be covered with rustle. The bids are in and have been taken under advisement.

**Bungalow—1½ story and base, frame, \$3,500.** Stockton, San Joaquin Co., Cal. Architect R. P. Morrell, Stockton. Owner Mr. Jones. The bungalow will contain 7 rooms and bath. There will be coal grates with brick mantels. The

exterior will be covered with rustic. The plans are now being prepared.

**Bungalow**—1½ story and base, frame, \$3,000. Ripon, San Joaquin Co., Cal. Architect Walter King, Elks' Bldg., Stockton. Owner T. C. Hughes. The bungalow will contain 7 rooms and bath. There will be coal grates. The exterior will be of rustic. The plans are being prepared.

**Apartment House**—3 story and base, brick, \$35,000. Stockton, San Joaquin Co., Cal. Architect R. P. Morrell, Stockton. Owner Tom Meeker. The building will contain about 30 apartments arranged in suites of 2, 3 and 4 rooms each. There will be connecting baths, steam heat and wall beds. The exterior of the building will probably be faced with pressed brick. The plans have not been completed, and it will be some time before the figures are called on this work.

**Bank**—1 story and mezzanine floor. Class A construction, \$250,000. Sacramento, Cal. Architect Willis Polk, Merchants' Exchange Bldg., S. F. Owners D. D. Mills Bank of Sacramento. This work has been mentioned in these columns before when the architect was selected to prepare the plans. The completed drawings show a monumental building of granite and steel. The banking offices will be elaborately finished in marble and bronze. There will be steam heat. The basement will be used for the concrete vaults and safety deposit vaults. The bids will be called for very shortly. Contracts are to be segregated.

**Court House**—3 story and base. Class A construction, \$350,000. Woodland, Yolo Co., Cal. Architects Cuff and Diggs, 12th and J Sts., Sacramento. Owners Yolo County. The plans for this building have just been accepted by the county officials. Details of the construction have not been worked out as yet. The intention is to put up a building that will be fireproof. Stone, either granite or sandstone, will be used to face the structure. There will be a steam heating system, elevators and a vacuum cleaning system. The preliminary plans are being made.

**Hotel**—3 story and base, reinforced concrete or brick and steel, \$60,000. Lodi, San Joaquin Co., Cal. Architect E. B. Brown, Stockton. Owners Raymond Knight and C. S. Jordan et al. (rep. by the U. S. Bond and Mortgage Co., S. F.) The details of the construction of this building have not been settled, but the structure will be either of reinforced concrete or brick. The plans show 75 rooms, large dining rooms and general lobby and office, besides a large number of baths. Part of the money necessary has been raised and the balance pledged. Construction will probably be started within a month or two.

**Sanitarium**—2 story and base, frame, \$25,000. Stockton, San Joaquin Co., Cal. Architect R. P. Morrell, Stockton. Owner Dr. Dameron. The building is designed for a private sanitarium with accommodations for about 20 patients. There will be a central heating system and other modern improvements. The exterior of the building will be covered with rustic. The plans are being prepared, and will be ready for figures in about three weeks.

**Wharf house and Wharf**—Frame construction, \$50,000. Washington, Nevada Co., Cal. Engineer H. J. Brunier, Mo-nadnock Bldg., S. F. Owner Haywood Reed. The plans for this work, covering about 40,000 square feet, are com-

plete, and figures are being taken for the construction. The wharf will rest on concrete piles, and the warehouse will be constructed of wood and corrugated iron.

**Armory**—3 story and base, reinforced concrete, \$60,000. Sacramento, Cal. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. Sketches for this building are now ready for approval. The building will be located at 12th and W streets. The work will be started this year.  
HOYT NINE June 16

**Warehouse**—5 story and base, reinforced concrete, \$100,000. Sacramento, Cal. Architects Cuff and Diggs, 12th and J Sts., Sacramento. Owners Thompson-Diggs Co., Sacramento. This building has been mentioned here before. There will be no interior trim above the first floor. The construction will be exceptionally heavy. The plans are complete and figures will be taken beginning next week.

**Dairy and Barns**—1 story and base, reinforced concrete and frame, \$60,000. Sacramento, Cal. State Architect Diggs, Capitol Bldg., Sacramento. Owners State of California. The buildings referred to will comprise a group to be erected at the State Exhibit grounds. There will be a modern dairy, cow barn and dry cow shed, an exhibit building and grand stand. The plans are nearly ready for figures.

**Bridge**—Steel and concrete, \$35,000. Sacramento, Cal. Engineer Miller, County Surveyor, Sacramento. The bridge will be erected near 12th and J streets, and will consist of three spans of 160 feet, and will be carried on concrete cylinder piles. The bridge will be used for foot and wagon traffic only. Bids are being taken on the work.

**Contracts Awarded.**

**Bridge**—Reinforced concrete, \$90,000. Auburn, Placer Co., Cal. Engineer J. B. Leonard, S. F. Owners Mountain Quarries Co. Contractors Duncanson-Harleson Co., Chronicle Bldg., S. F. Contract price \$90,000.

**LOS ANGELES AND SOUTHERN CALIFORNIA.**

**Armory**—3 story and base, Class A construction, \$250,000. Los Angeles, Cal. State Architect Diggs, Capitol Bldg., Sacramento. Owner State of California. The sketches for this building are now ready for approval. The plans show a modern structure in every particular. The location will be in Agricultural Park. It is announced that the work will be undertaken this year.

**Apartment House**—3 story and base, frame, \$30,000. Los Angeles, Cal. Architect Eugene Weston, 605 Lankershim Bldg., L. A. Owner Dr. F. E. Chamberlain. The building will contain 34 2 room apartments and 36 baths. There will be steam heat and wall beds. The exterior will be of cement plaster on metal lath. The plans are complete and bids are being taken.

**Apartment House**—3 story and base, frame. Cost not stated. Los Angeles, Cal. Architect Alfred F. Priest, 615 Fay Bldg., L. A. Owner George McAnany. The building will be 50x132, and will contain 75 rooms, divided into 2 and 3 room apartments with connecting baths. There will be steam heat. The exterior will be faced with veneer brick to the water table, and the balance of the exterior will be covered with cement plaster on metal lath. The plans are ready for figures.

**Apartment House**—4 story and base, brick and steel, \$18,000. Los Angeles, Cal. Architect Anton Reif, 404 Higgins Bldg., L. A. Owner Mrs. H. M. Morris. The building will be 51x60, and will contain 43 rooms. There will be 18 private baths, steam heat and elevator service. The exterior of the building will be of cement plaster on brick. The plans are complete and figures are being taken.

**Apartment House**—4 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architect Chas. E. Shattuck, 318 Mason Bldg., L. A. Owner's name withheld. The building will be 50x110, and will contain 65 rooms, arranged in suites of 2 and 3 rooms each. There will be private baths, steam heat, elevator service, wall beds and vacuum cleaners. The exterior of the building will be of cement plaster. The plans are being prepared.

**Apartment House**—3 story and base, brick and steel. Cost not stated. Los Angeles, Cal. Architect Frank M. Tyler, 600 Union Trust Bldg., L. A. Owner B. G. Adams. The building will be 60x125, and will contain 80 rooms. There will be steam heat, elevator service and wall beds. The exterior will be faced with pressed brick. The plans are being prepared.

**Apartment and Stores**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architect James B. Schuy-

ler, 642 San Fernando Bldg., L. A. Owner same. The owner is taking figures for materials, etc. The building will contain five stores and 12 apartments. There will be private baths and steam heat. The exterior will be of cement plaster.

**Apartment House**—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architects Train and Williams, 226 Exchange Bldg., L. A. Owner R. B. Wilson, 500 Union Trust Bldg., L. A. The building will contain a total of 76 rooms, arranged in apartments of 2 and 3 rooms with connecting baths. There will be steam heat and elevator service. The exterior will be faced with pressed brick. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Apartment House**—5 story and base, reinforced concrete, \$28,000. Long Beach, Los Angeles Co., Cal. Architect A. W. Angel, 635 Citizens Bank Bldg., L. A. Owner C. A. Eastman. The building will contain 67 rooms, divided into 2 and 3 room apartments with connecting baths. There will be steam heat, electric elevators, wall beds and a vacuum cleaning system. The exterior of the building will be of cement plaster. The plans went out for figures on the 15th.

**School Addition**—2 story and base, frame, \$10,000. Long Beach, Los Angeles Co., Cal. Architect A. Burnside Sturgis, L. A. Owners Long Beach School District. The plans for this addition are complete and bids will be opened for the construction on June 27.

**School Additions**—1 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architects R. B. Young and Son, Lankersim Bldg., L. A. Owners L. A. Catholic School. The work will include the raising of the present building and the concrete of a concrete story underneath. The new portion of the building will contain 4 class rooms and two amusement rooms. The plans are being prepared.

**Residence**—1 story and base, frame. Cost not stated. Pomona, Los Angeles Co., Cal. Architect C. E. Wolfe, State Bank Bldg., Pomona. Owner H. H. Denny. The dwelling will have furnace heat and will be nicely finished. The plumbing will be strictly modern. The architect is preparing the plans.

**Hotel**—2 story and base, frame. Cost not stated. Wilmington, Los Angeles Co., Cal. Architect H. M. Patterson, 3240 T. Johnson Bldg., L. A. Owner J. E. Dawson. The building will be in the Mission style and will contain 24 rooms and baths. The exterior will be of cement plaster on metal lath. The owner will take all bids.

**Church**—2 story and base, brick, \$60,000. Los Angeles, Cal. Architect E. E. B. Meinardus, 827 Higgins Bldg., L. A. Owners German Lutheran Church. This work has been mentioned here before. Plans were recently figured, but the bids ran too high and were rejected. The plans are being revised and will be ready for new figures in about four weeks.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects Butler Bros., Mason Bldg., L. A. Owner James R. Boal. The dwelling will contain 10 rooms and bath. There will be a furnace installed. The exterior will be of shingles. The plans are being figured.

**Residence**—2 story and base, frame. Cost not stated. Los Angeles, Cal. Architects Neher and Skilling, Pacific Electric Bldg., L. A. Owner A. H.

## Editorial Comment.

### THE NEW LIEN LAW.

The Savings Union Bank of San Francisco has published in a pamphlet form the mechanics' lien law passed by the last legislature. As a preface is published a sort of a synopsis pretending to give the features of the new law as contrasted with the old. In reality it is the stock argument that the banks advanced against the passage of the new law and it ends up by saying that as the courts may declare the new law unconstitutional, it advises owners to comply with both the old and the new law.

What sense there can be in such a course it is extremely difficult to see. The only section where there is any doubt about the constitutionality of the law is section 1183 where there is a provision for the requirement of a bond of not less than 50% of the contract price for the protection of the owner against liens. This provision was a compromise and insisted upon by the opponents of the new law. They now hold it up as the only provision wherein the law is likely to be held unconstitutional. If it should be declared unconstitutional it would in no way affect the validity of the remainder of the act or in any way affect its operation.

So the contention of the bank or its attorney seems to be for the purpose of befogging the issue and complicating procedure so as to create prejudice against the new law.

The Mechanics' Lien Law, which goes into effect on July the First, was draughted by Mr. Alex. G. Eells, of San Francisco, the foremost authority on this phase of the law in the state. Everyone admits that the old law was most unsatisfactory. Mr Eells prepared the new statute only on the ground that the statute would be entirely new and proceed on the basis of the direct lien on the property upon which work had been done or material furnished. This is in accordance with the laws of nearly all the states of the Union and is the only satisfactory method of procedure.

The Bank's attorney leaves the impression that under the new law the owner will have no protection against the contractor except in the filing of the 50% bond mentioned and then further states that this section is liable to be declared unconstitutional.

The great value of the new law is that it will simplify procedure. Under its provisions the owner may require a bond from the contractor for the faithful performance of the work. If the contractor does not live up to his

agreement and liens attach, the owner pays the liens and then recovers on the bond to the extent of the money thus paid and all the costs of the action.

This is expressly provided for in the new law and the action is simple and there is no question about the recovery.

An agent of one of the most prominent bonding companies had this to say in reference to the two lien laws: Speaking of the procedure in Oregon, where they have the direct lien similar to our new law, and of California under the old law he said; "In Oregon when a contractor fails we pay the damages or finish the work, in California we send for our attorney."

Apparently these facts are not known to the Bank or its attorneys, or if they are known they are not mentioned. Apparently Mr. Eells, the author of the act, has not been consulted as to its intent and purposes nor do the authors of the synopsis apparently know any thing about it. The great value of the new law will be that honest men will be protected. The pro rata contractor will not be able to get bondsmen. The crooked speculative builder will not be able to beat the laborer and contractor out of his hard earned money and when once the law is in operation its results will become apparent.

The Savings Union Bank is apparently trying to prejudice people against the new procedure either through ignorance or intention or both.

The Daily Pacific Builder will have ready for distribution at the end of the week a handbook containing the Lien Law with an introduction and brief by Mr. Eells and also containing the new Tenement House Act. Therein the law will be found and its intent and purposes set forth.

San Francisco is getting to be a convention town. It presents more unique attractions and a better climate than any other city in the United States. There is more individuality to it than any other place, it has more hotels than any other place of its size. And when it comes to eating its cafes have the world backed off the map.

To accommodate these throngs which come to the city and provide a suitable place for their entertainment there should be some kind of a permanent building like the convention halls of other cities.

The present Sunday School Convention has emphasized this need. The coming National Educational Association will make it still more apparent. Now that the time has come when the fair site must of necessity be settled when active operations are begun, it would be a good scheme to make provision for the erection of a public convention building to be located at some central place for the accommodation of gatherings of this sort.

## Some Historical Facts and Practical Suggestions On The Use Of Asphaltum In Its Various Capacities.

(Read before the Society, Aug. 28, 1908.)

The paper relates to the various uses of a substance which has been at the service of mankind from the earliest history, in fact, before the date of authentic record. We find evidence of its use for cementing the bricks in building the great temples of the Sun-god and the Moon-god and in other stupendous structures that in ages long ago stood where Babylon with its architectural grandeur housed the rulers of a world, recorded in the most ancient of histories.

The Assyrians used asphaltum for waterproofing the immense irrigation canals built four thousand years ago, and their sources of supply, the fountains of Is, on a tributary of the Euphrates, still yield forth.

The Bible tells us that our forefather, Noah, used this material for rendering the Ark watertight, and that Moses' cradle in the bullrushes was bound together with "pitch."

With such a venerable history as this, it is a strange fact that an intelligent use of asphaltum today is an exception both in architecture and engineering. In most cases the advent on a job of a kettle accompanied by barrels of asphaltum, buckets, mops, felt, gravel, etc., is looked upon with contempt—a disagreeable detail that it is hoped will soon disappear. The nature of the work prevents the mechanics looking like the "elite," but nevertheless, it takes years of practice and experience to develop a thoroughly competent workman in the handling of asphaltum in any of its branches. To the passer-by the humble workman with sooty face and dirty clothing who tends the kettle is a common laborer. The truth of the matter is, however, that an incompetent kettleman may render the work performed very short lived, whether it be roofing, paving or waterproofing, by overheating the asphaltum. Here lies the keynote of all asphaltum work. Nothing will kill the binding properties of asphaltum so quickly as overheating. In laying a felt and gravel roof, the topcoating will be shortlived, the gravel will not be properly imbedded and the roof will soon need recoating. In a paving job, if either the asphaltum or grit be overheated, the pavement will have no consistency and it will soon crack and go to pieces. In waterproofing work, the surface will be black and the contractor will probably get his money before any evidence of his imperfect work is discovered. On a roof, the greatest care and judgment must be used in laying felt to see that it is properly stretched, laid smoothly and that no wrinkles appear. The spreading of gravel is an art that few can learn; it takes judgment, quick action and a steady hand to get the gravel into the asphaltum before it chills and still leave the finished surface even. In the usual specifications not enough stress is laid on the quality of the asphaltum used or on the workmanship. A certain number of piles of a specified weight of felt are called for, to be laid in com-

pliance with the local building ordinances. This may comply with the law, but it does not guarantee a good roof. The same specifications will probably call very particularly for a certain brand of cement in the item of the concrete, which is to be used in certain quantities, together with clean crushed rock and gravel. No roof should have less than 100 pounds of asphaltum to the square if a reasonably good job is expected. The asphaltum is the life of the roof, particularly in the topcoating. The gravel should be applied liberally, so that the asphaltum is completely buried and protected from the sun. If there be a little loose gravel on the roof, do not fear it; it will mean so many years more service, for that is what it is put there for,—to protect the asphaltum and felt underneath from oxidizing.

Then, again, asphaltum has been cursed by enthusiasts with ideas; well-meaning men who have done a little laboratory work have produced a sample and gone forth to organize a corporation to spring on the unsuspecting public a production thoroughly impractical in actual use. I have in mind such a corporation that was formed here some eighteen years ago for treating wood piles after a particular manner to prevent their being eaten by teredo and limnoria. These men sent out about a shipload of Val de Travers and Neufchatel asphaltals (as good asphaltals as have ever been on the market), but when it came to actual usage and wear their ideas proved a failure and the asphaltum lay for years in a warehouse on Battery street. An honored ex-president of the society, Mr. George Percy, was one of the few who recognized the superiority of this particular material, and I remember it well that he was ever faithful in specifying its use, to see to it that it was used in preference to all other kinds. In after years this asphaltum was reshipped to the Atlantic coast, the stockholders of the corporation having paid the bill for their experience.

In later years a certain contractor of San Francisco thought he could lay street pavements of redwood blocks dipped and coated with asphaltum. You probably remember his work on several of the wharves along the city front, and on Market street in front of the Phelan building. Wood block pavements had been laid in San Francisco twenty years before and were subjected to the hardest kind of wear in the steel warehouse of Dunham, Carrigan & Hayden Co., and the Haslett warehouse at the time the contractor referred to put down his pavement on Market street; this gentleman's knowledge of asphaltum was limited and as a result all of his pavements were a failure.

The old Boston Mastic roofs, laid by Mr. Perine some forty years ago, were good serviceable roofs, but their success brought cheap imitations and the city was flooded with roofers who put down a ply of burlap, coated it with

coal tar and gravel, collected their bill and flew. The result was that the mention of a felt and gravel roofing to a prospective builder for twenty years after that was like a red rag to a bull. At the present time asphalt, felt and gravel roofing is almost universally used in this city, but I fear that some of the work done hurriedly after the recent disaster may have a tendency to shake some owners' faith in human honesty.

On the Pacific coast at present all of the asphaltum in use is derived from the refining of natural mineral oils, the deposits of natural rock asphalt having been exhausted. The process followed in its production is to place the natural oil in a still and take from it the volatile parts, such as benzine, distillate, lubricating oils, etc., the heavier carbons remaining, constituting the commercial asphaltum of today. The nature of the asphaltum obtained depends upon the density of the original oil, the care taken in not overheating the still and the length of time required in treating the oil. The hardness of the asphaltum depends upon the length of time it remains in the still—the longer it is treated the harder it gets. I consider that the only proper test of asphaltum is in the kettle, as an asphaltum taken from a high gravity oil may be treated in the still so as to come up to a specified number of points penetration according to the tests of our Board of Public Works and still be unfit for use either for making mastic, grouting basalt blocks or any purpose other than making paint or coating building papers.

Great improvements have been made in the production of asphaltum in this manner during the past ten years; in fact today there are oil asphaltums in the market that very nearly approach the fine cementing qualities of the old rock asphalt. These are derived from low-gravity oils by refining where care is taken to produce a superior article. All asphaltums are black, but they are not all good. I am not from Missouri, but I must be shown more than a sample in a little tin can to convince me that the asphaltum I buy is suited to my purpose. There may be some means of telling the binding qualities of asphaltum in the laboratory, but experience teaches me that the most satisfactory means is to use a few barrels on the work and an experienced eye will know whether the material will do the work expected of it.

Asphaltum is a cement in a waxy form. It is nothing else. Its natural tendency is to contract, so that due allowance must be made where it is used either for roofing, paving, insulation or waterproofing. In roofing or waterproofing the object of using saturated felt is merely as a medium to hold the asphaltum together, to allow for expansions, contractions and settlements. In paving the asphaltum is simply a binder for the grit that takes the wear. The tendency to shrink will

show itself in a pavement unless it is rolled out and worked by constant use. No better illustration can be shown than the asphalt mastic pavement originally laid in the quadrangle at the Stanford University by the old firm of Coil, Barton & Cowles, predecessors of the Alcatraz Asphalt Company. The pavement was laid as well and of as good material as money could buy, but a student's crossing of the "quad" occasionally was all the use it was put to. The pavement cracked and its surface looked like a map in a geographical atlas in a few years; it was eventually taken up entirely. If the "quad" had been open for driving, the pavement, in its greater part, would probably be good today, but lack of use wore it out. Like Portland cement, asphaltum in its pure state is of little use; it must be used in conjunction with felt, grit, gravel and a little common sense, to fill requirements, and it will, when properly and intelligently mixed, fill them well.

In buidng construction asphaltum is largely used in laying roofs. The methods followed are to lay from four to eight thicknesses of saturated felt over the roof surface, each ply being cemented to the preceding layer with a heavy coating of asphaltum. All felt is turned up at the firewalls and curbs at least 4 inches at the highest points of the roof, and not less than 12 inches high as the outlets are approached, in order to avoid overflows should the outlets become clogged. All such flashings should be reinforced with an additional layer of felt (preferably flax felt) mopped solidly, running parallel to the wall, and counter-flashed with galvanized iron, or copper wedged, and cemented in place. The entire surface should then be floated with a heavy, flowing coat of asphaltum, in which, while hot, clean, dry, uniformly screened gravel should be imbedded sufficient in quantity to cover the surface thoroughly.

The character of the roof depends upon the style of the building. If a wooden sheathing is used as a foundation, I would advise that the first layer next to the roof boards be of unsaturated felt, serving as a dry sheet. There are two reasons for this: First, it is important in the life of the roof that it be free from the building so as to allow for shrinkages of lumber, settling, vibration, etc.; and second, an unsaturated dry sheet will prevent any excess of asphaltum dripping through the cracks, which dripping, however small in quantity, causes great annoyance in a loft building. In the case of concrete or tile construction, I would advise the use of saturated felt entirely, but I would lay the first sheet with mopping to the concrete or tile surface.

Some architects specify a metal standing flashing on felt roofs, but experience has taught me that this is a great mistake. In putting in such flashing it is necessary to nail through the metal and felt in order to hold it in place. Expansion and contraction soon loosen the nails, and if the flashing be in position so that the water may flow on it, an opening will be found in the course of time to cause a leak. I never, under any circumstances, put a nail through a felt roof if it can be avoided, and if compelled to do so I make sure that it is well covered with felt. A reinforcement of flax felt,

mopped on solidly, is more satisfactory in every way.

When an unusually fine job is wanted, a second coating of asphaltum and gravel is often put over the roof as heretofore specified; or, as in the case of light-well roofs, an improved appearance and a clean surface may be had by putting a cement top finish over the gravel roof; or tile may be set in concrete over it. But in any event, lay the roof first, complete with flashings and counterflashings, and then finish the surface to suit your taste.

Asphalt mastic has been used as a top finish over felt roofs, but this has not been altogether satisfactory on account of the tendency to contract, the mastic cracking in time and permitting water to lodge directly on the felt where this is laid without first graveling it. Actinolite has given good service as a substitute for mastic where a smooth surface is wanted. Its cost and weight are much less than either the tile, cement or asphalt mastic, and this material has the advantage of being adaptable to steeply pitched surfaces as well as flat ones. It is the only material other than tile that gives a thoroughly satisfactory smooth finish to a felt roof. This desire for a smooth surface is solely a matter of appearance, for accumulations of dust and dirt, that do so much harm to a metal roof, have a tendency to preserve an asphalt roof by protecting it from the sun's rays and oxidation. The life of any roof is in its top finish. If the roof be a plain felt and gravel roof, a liberal amount of asphaltum and gravel on top is of more importance than the number of plies of felt, or the quantity of asphaltum put between the sheets.

What is known as a felt and gravel roof should never be used on a surface of greater pitch than one-sixth, or 4 inches to the foot. Where it is necessary to use an asphalt roof on a greater pitch, the gutters may be put in with plies of felt or asphaltum and the steeply pitched surface covered with some of the many ready roofings on the market. There is little choice between the different brands, for they are all laid with joints cemented and nailed to the sheathing. This nailing is what makes them so unsatisfactory: expansion and contraction of the body material in the course of time open holes alongside the nails and permit water to enter.

Asphaltum may be used to great advantage in other parts of a building. A recent fire in Market street, opposite Sansome street, brings to mind a fad of mine that appears to be in every way reasonable. At the time of the fire (which occurred in the upper story) newspaper reports stated that H. S. Crocker & Co. had a stock of \$25,000 of very perishable goods on the ground floor, the loss being \$23,000. Now, if in the construction of the building a waterproof course of two-ply felt and asphaltum had been put in the upper floors, the greater part of the damage to the stock below would have been prevented. Such waterproof course would have cost 3 cents per square foot, and besides making the floor watertight, it would have been the finest deadener of sound and barrier against rats that could have been put in.

In certain localities precautions must be taken to keep water out of basements. In these cases the treatment

depends upon the character of the building and foundation. In heavy structures it is best to wait until the building is nearly completed, and when it has settled to its final resting place then pump out the basement and over a thin foundation layer of concrete mop solidly three plies of good saturated felt, running the felt up the walls and piers a little higher than the natural level of the water, and cover this felt with from 8 to 10 inches of good cement and top-finish to serve as a floor. This cement must be built up around the piers and along the walls to support the waterproof course in place. On brick and concrete foundation walls a continuous course of asphaltum, applied to the outer side of the wall, will prevent entrance of ordinary dampness, but in cases where a great amount of water is present, I would recommend mopping on two plies of felt and filling in the earth at once as a support. The use of felt and asphaltum in waterproofing work is very general throughout the East, and some of the structures so treated are very extensive, such as the subways recently completed in New York. In letting contracts for such work, and in fact all asphaltum work, the integrity of the contractor is of greater importance than the cost, for it is seldom that a waterproofing job is so situated that it can be reached after the work is completed, and if there be a single defect, the full amount paid is loss.

The civil engineer often has use for asphaltum in lining reservoirs and flumes, and waterproofing retaining walls and cisterns. The same simple rules of handling as already mentioned will apply. We all learn from noting failures, and I cannot help but mention here two particular instances of poor judgment or ignorance of the material that have come to my mind. When the water-works were built at Portland, Ore., some fifteen years ago, the three higher reservoirs were lined with concrete, and this lining was in turn coated with straight asphaltum. The coating was done during the winter season by unskilled workmen and, as a consequence, was in patches and nowhere continuous. As the work was not satisfactory to Colonel Smith, the engineer, the entire surfaces were gone over with paving irons, and, in the course of time, the asphaltum was ironed together, but the life was burned out of it and an immense expense was incurred without accomplishing anything. If skilled workmen had been employed, the first application would have cost less and the job would have been acceptable.

The other case was a reservoir of the Contra Costa Water Company, on the outskirts of Berkeley. The reservoir leaked and a specification was prepared calling for the surface to be coated with asphaltum in which burlap was imbedded. This burlap was in turn given a heavy coating of asphaltum, probably two coats. Where the mistake was made was in the burlap. Asphaltum will not penetrate anything while in its natural state. No force can be applied that will make it enter the pores of burlap, canvas, concrete, brick, stone or wood. As soon as it chills it sets, and in the case of the burlap, a simple surface coating was made through which the fibers of the burlap extended, to rot and draw moisture into the body material, to cause it

to decay in turn. If a material like flax felt had been used, having for its foundation practically the same stock as burlap, but which is saturated with a preserving substance that harmonizes with asphaltum, the result would have been a satisfactory job instead of the failure, without question.

All of the roofing felts on the market are made of wool or flax, saturated with a preserving material that will harmonize with the asphaltum. The felts simply constitute a medium for holding the asphaltum in place, as before stated. The saturated wool roofing felts are compact, and although they absorb little of the asphaltum used in laying them, they hold it in repeated layers to constitute the body material of the roof or other structure to which they are applied. The flax felt is porous and of strong texture and absorbs the asphaltum, holding it within its fibers. An unsaturated burlap or canvas cannot be made to hold the asphaltum unless it be first run through a bath of flux, liquid asphalt or tar.

Herein lies a field for an energetic manufacturer: to produce a mixture of asphaltum and some material of the same specific gravity of the character of mica or asbestos, or something indestructible through decay, but which has a fiber to it that will hold the asphaltum together, or, in other words, that the asphaltum will hold together, such a compound would be invaluable for coating reservoirs, pipe conduit, insulation, etc., if it be of a consistency easily handled. A refinery in Bakersfield is placing on the market a combination which it calls mastic, consisting of oil, asphaltum and lime from the beet sugar refineries. The lime tends to toughen the asphaltum in the same manner as sand, but it lacks the fiber to bind it together. The firm has the idea, but as yet it has only succeeded in adulterating the asphaltum without any material gain.

Asphaltum has been used in various characters of paving with varied success. The bituminous rock which has been so generally used in California is a natural mixture of sand and asphaltum found in large deposits along the coast. For sidewalks or streets having moderate wear it makes a very satisfactory and cheap surface covering. Wherein it is weak is in the loam and vegetable matter in the mixture, and in the sand itself not being sharp; besides, the method of disintegration with steam leaves the finished pavement porous so that when the cold and damp weather comes on it cuts out into ruts. The character of "Poultice pavement" more recently used in San Francisco has been a mechanical mixture of crushed rock for a binder, with a similar mixture of asphaltum and sand for the wearing surface. Provided the sand be clean and sharp, these pavements will give far better service than bituminous rock. Both the asphalt mastic and bituminous rock pavements cost little to keep in repair and have the advantage of being the most sanitary covering that can be placed on a public street. For streets having heavy traffic or even a slight grade, there is nothing better for wearing surface than basalt blocks grouted with clean warm gravel and asphaltum. It was a great blessing to San Francisco that Third street, from the freight depots to the business

centers, was so paved at the time of our recent disaster, for it gave us a passable thoroughfare over which to truck our supplies for building and stocking up the mercantile community again. After thousands of tons of all kinds of material have been hauled over it, the street is in good condition today, barring a few minor faults caused by excavations necessary for connecting new buildings. I doubt whether the city has spent a cent on this thoroughfare from Townsend street to Mission street since the pavement was laid some five years ago.

Pavements consisting of wooden blocks laid on vertical grain, dipped and grouted with asphaltum and warm gravel, make an excellent wearing surface for driveways inside of buildings. They are comparatively noiseless and furnish good foothold for horses. In warehouses nothing will give better satisfaction. I consider fir blocks, cut at least 4 inches long, out of stuff not over 4 by 8, will make the best pavement when the blocks are laid to break joints and are well grouted with gravel and asphaltum. In case of very heavy teaming, blocks 6 inches deep would be better, but I would not recommend larger sizes than 4 by 8, as before mentioned. Creosoting the blocks does more harm than good. If the blocks are well dipped and grouted, they will never fail through decay. In this climate a wooden block pavement will never give satisfactory service out of doors. It is for this reason that I confine my recommendation of it to the use in warehouses and driveways under cover.

The foundation is all important whatever the character of the pavement. Concrete has no superior. Our practice of ripping up a pavement for sewer, water and gas connections, and for laying conduits, has been the cause of numerous faults in our streets, but if the repairs were conscientiously made, the patching would never be evident whatever be the character of the pavement. This is one peculiarity of asphaltum—it will heal over an injury in a roof or pavement, when the patch is properly applied, at a small cost, and in the end will be better than new. It has always been a source of pride and satisfaction to the asphaltum man to know that when the good metal, slate or tile roofs leak, or the concrete or brick walls sweat, he will be sought in the end to apply his asphaltum in some form or another to remedy the defect. The use of a few dollars' worth of asphaltum in building the foundation walls and basement floors in localities like the Western Addition, north of Washington street, or over the entire area of Berkeley, would save our clients endless expense after the residence is occupied. The two localities are peculiarly subject to underground dampness, and there is hardly a residence in either locality that is not troubled in winter. This is a hard matter to correct after the building is up, but an inexpensive one to prevent in first construction. The roofs please the artistic eye and appeal to our loyalty to peculiarly California mission architecture; but a course of felt and asphaltum is advisable under the tile, to keep the rain out in rainy weather when the advantages of the roof are most needed. Our changing from an iron to a steel age has rendered metal roofs of short service; the steel ox-

dizes so rapidly that it is only a question of a short time when the owner will send for the asphalt man to put a covering over his head that will let him rest securely and keep him dry.

The statements I have made favoring the use of asphaltum are with the presumption that intelligence be used in its application. Asphaltum is most excellent for some uses, but like wood, steel, stone or brick, it has its field and cannot be successfully used without judgment.

## Illustrations For The Week.

Further details of the important lease recently made by the J. K. Prior Estate Company with a syndicate of local capitalists known as the Down Town Realty Company on the southwest corner of Eddy and Mason streets were announced yesterday. This information states that the Down Town Realty Company have already closed a lease with a high-class theatrical syndicate in the East for a large portion of the new building which is to be erected on the property and that the associated architects, William Beasley and Bernard J. Joseph, of this city, are now busy preparing the working drawings for the new structure.

The structure will be six stories in height and will be thoroughly modern, containing a very large percentage of baths, vacuum cleaning system, compressed air ventilating plant, etc. The exterior of the building will be finished in red and buff brick with ornamental belt courses and cornice. The lobby will be finished in Alaska marble and will be done in colors of ivory and gold. Besides a marble staircase there will be three fast passenger elevators and one freight elevator. Upward of 250 rooms will be contained in the building and the ground floor will contain, besides the hotel lobby, a modern theatre with the entrance on Mason street.

The lease for this land was negotiated through the office of George B. Perkins, negotiations for which have been pending for several months. The ground rental involves one million dollars and is for a long term and the improvements when completed will involve another half-million dollars, making ground and improvements total close to another million dollars.

This deal is considered by real estate men to be one of the most important that has been turned in many months and certainly means much to that entire section west of Powell street, since it at once establishes a value and starts activity in a section that, though very prominent and close in, has been somewhat slow since the big fire in coming into its own.

The design shown by the preliminary plans is a handsome six-story and basement Class "A" structure containing a hotel of one hundred and fifty rooms and a modern theatre with a seating capacity of 1500 people. The latest and most approved equipment of all kinds will find a place in the new building. The intention of the owners is to commence the work as soon as practicable.

Firms desiring news on special classes of buildings such as Banks, Churches, Schools, Hotels, etc., will find such items all classified and grouped under proper headings, commencing on this page. These same items are again repeated under "LOCALITIES" in the last part of our news department.

## Plans Wanted.

Nearly \$100,000 worth of the bonds recently voted by the city of San Jose, California, will be spent in the construction of new buildings. A number of new fire houses will be erected, and a modern bath house will be erected in Alum Rock Park.

It will be of interest to architects to learn that the recent bond election held at Ripon, California, to secure funds for the construction of a new school building was defeated. The Trustees of the school district state that steps will be taken at once to build a new high school building by direct tax.

A. J. Speckert, pastor of the Wallace Watson Church of True Spiritualism, Seattle, Washington, announced that a campaign has been launched as a preliminary to obtaining \$250,000 for a building and equipment.

Members of the First Baptist Church of Spokane, Washington, passed a motion empowering the Rev. Dr. James W. Kramer to appoint a committee of seven to consider the advisability of erecting a six-story building for an institutional church.

Details for a campaign to raise \$350,000 for the building of a great institutional church structure will be discussed at a meeting of trustees of the Trinity Methodist Episcopal Church of Los Angeles.

Rev. Holt, rector of St. John's Episcopal Church of Oroville, California, has started a fund for the construction of a new church building in that town. The work has just been undertaken, and no details are obtainable at this time.

The Young Men's Christian Association of San Bernardino has secured \$142,000 with which to erect and equip a new building for the association. The campaign is still in progress, and the intention of the building committee is to turn over the completed building to the association one year from the day that the campaign closes. No architect has been secured.

## —APARTMENT HOUSES—

**San Francisco**—Apartment house, 3 story and base, frame, \$12,000. Architect C. O. Clausen, Phelan Bldg., S. F. Owner J. Mourin. The building will contain 12 apartments of two rooms each. There will be wall beds and gas steam radiators. The exterior of the apartment house will be faced with veneer pressed brick to the water table and shiplap above. The architect has completed the plans and will award the contract shortly.

**Oakland, Cal.**—Apartment house, 3 story and base, frame. Cost not stated. Architect none. Owner Louis W. Blake, 534 24th St., Oakland. The building will contain a number of apartments arranged in large suites. The exterior of the building will be of cement plaster on metal lath. The owner is taking figures on the construction.

**Oakland, Cal.**—Apartment house, 3 story and base, frame. Cost not stated,

Architects Whalin Bros., Bacon Block, Oakland. Owner Mr. Gilbert. The plans for this building are complete and figures are being taken. There will be a number of apartments of two and three rooms each. All modern conveniences will be installed. The exterior of the building will be covered with rustic.

**Los Angeles, Cal.**—Apartment house, 3 story and base, \$35,000. Architect Joseph F. Rhoades, Central Bldg., L. A. Owner H. H. Yerington. The building will contain 58 rooms, divided into two room suites with connecting baths. There will be steam heat and wall beds. The exterior of the building will be faced with pressed brick. The work is to be done by Day Labor and under the direction of the architect.

**Los Angeles, Cal.**—Apartment house, 2 story and base, brick. Cost not stated. Architect Clyde J. Cheney, Grant Bldg., L. A. Owner J. H. Carr. The building will contain 8 apartments of two and three rooms each. There will be connecting baths and wall beds. The exterior will be of pressed brick. The architect has completed the plans.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 2 story and base, frame. Cost not stated. Architect Fred Biren, Broadway Central Bldg., L. A. Owner C. F. Van de Water. The building will contain four 4 room apartments. There will be Backus heaters and 8 wall beds. The exterior will be of cement plaster and metal lath. The architect is preparing the plans.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 2 story and base, frame. Cost not stated. Architect A. Burnside Sturges, Story Bldg., L. A. Owner Mrs. Helms. The building will contain 20 apartments, each with connecting bath. There will be steam heat and wall beds. The exterior will be of cement plaster on metal lath. The architect is preparing the plans.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$11,000. Architect Frank L. Stiff, Story Bldg., L. A. Owner Mr. Larquet. The apartments will be arranged in suites of two and three rooms each. There will be wall beds and 18 baths. The exterior of the building will be covered with rustic. The architect has completed the plans.

**Long Beach, Los Angeles Co., Cal.**—Apartment house, 2 story and base, brick, \$10,000. Architects Scholes and Lochridge, First National Bank Bldg., Long Beach. Owner J. N. Schaefer. The building will be 35x120, and will contain 16 apartments of two rooms each. There will be steam heat and wall beds. The exterior will be faced with pressed brick. The plans are being prepared.

**Los Angeles, Cal.**—Apartment house, 4 story and base, brick and steel, \$45,000. Architect J. W. Chalmers, Mason Bldg., L. A. Owner W. B. Drackett. The building will be 60x127, and will contain 88 rooms, arranged in two and three room apartments. The trim will be of mahogany and oak. There will be private baths in connection with all apartments, steam heat, wall beds, elevator service and a vacuum cleaning system. The exterior will be faced with pressed brick. The architect is

preparing the plans.

**Seattle, Wash.**—Apartment house, 4 story and base, brick, \$50,000. Architect V. W. Voorhees, Eitel Bldg., Seattle. Owners William Curtis Co. The building will be equipped with steam heat and both passenger and freight elevators. The exterior will be of pressed brick. The plans will be ready for figures July 1st.

## Contracts Awarded.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick, \$35,000. Architect S. Tilden Norton, Consolidated Realty Bldg., L. A. Owner Morris Spier, Contractor Martin Madden, 1450 Bellevue Ave., L. A. Contract price \$35,000.

**Los Angeles, Cal.**—Apartment house, 3 story and base, frame, \$30,000. Architect Engene Weston, Lankershim Bldg., L. A. Owner Dr. F. E. Chamberlain, Contractors Weston Building Co., Lankershim Bldg., L. A. Contract price \$30,000.

**Los Angeles, Cal.**—Apartment house, 3 story and base, brick. Cost not stated. Architects Milwaukee Building Co., Wright and Callender Bldg., L. A. Owner Mrs. Polk. Contractors Milwaukee Building Co., L. A. Contract price not stated.

## —BANKS—

**Sacramento, Cal.**—Bank and offices, 5 story and base. Class A construction, \$150,000. Architect C. S. Kaiser, Mechanics' Institute Bldg., S. F. Owners Farmers' and Merchants' Bank of Sacramento. This work has been mentioned here some time ago, when the architect was first selected to prepare the plans. The working drawings are now complete and figures are being taken. The structure will be modern in every particular, and the plans include beautiful offices for the bank, besides a large number of business offices on the upper floors. There will be steam heat and elevator service. The exterior will be faced with pressed brick and terra cotta.

## —BRIDGES—

**Coronado Beach, San Diego Co., Cal.**—Seawall, reinforced concrete, \$22,000. Engineer Ervast, City Engineer of Coronado Beach. Owners City of Coronado Beach. The engineer has just submitted plans and estimates for a seawall along the Ocean Front Boulevard. The plans have been approved, and bids will be called for early in July.

**Newport, Orange Co., Cal.**—Bridge, reinforced concrete. Cost not stated. Engineers Newport Bay Land Co., Newport. Owners same. The company have just been granted a permit by the War Department to construct a bridge 180 feet long from Balboa to Newport. The structure will be of the reinforced concrete type. The plans are being prepared.

**Mexico**—Bridge repairs, \$50,000. Engineer James Trainor, care of the Southern Pacific R. R. Co., Los Angeles. Owners Southern Pacific R. R. Co. The engineer has just returned from a trip through the country traversed by the S. P. in Mexico, and now has a force of men working on the repairs to the bridges. He stated that the work will require one year.

## BARRACKS.

**Camp Yosemite, Cal.**—Barracks, 11, 1 story frame buildings. Cost not stated. Engineer Constructing Q. M. Dept., Washington, D. C. Owners U. S. Government. Plans for this work have been forwarded to Chief Q. M. F. Von Schrader, Chronicle Bldg., S. F., and bids are being taken. The bids will be opened on July 17th. The plans include six company officers' quarters, two barracks, and two lavatories.

## CHURCHES

**San Francisco**—Church, 2 story and base, brick, \$40,000. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Roman Catholic Church. The building will be erected in the Potrero District, and will have a seating capacity of about 900 people. There will be furnace heat. The exterior will be faced with red stock brick. The plans are complete and the architect is taking figures.

**San Dimas, Los Angeles Co., Cal.**—Church, 2 story and base, frame. Cost not stated. Architect Robert H. Orr, State Bank Bldg., Pomona. Owners Christian Church of San Dimas. The architect has completed the plans for this edifice, and will call for figures at once. The building will be 46x50 feet, and will have a seating capacity of 400 people. The exterior will be covered with cement plaster on metal lath.

**Santa Ana, Orange Co., Cal.**—Church, frame construction, \$20,000. Architect H. M. Patterson, O. T. Johnson Bldg., L. A. Owners United Presbyterian Church of Santa Ana. The plans for this work were prepared nearly a year ago, but have been revised and were recently accepted by the Board of Trustees. The building will be 74x120, and will have a seating capacity of 850 people. There will be a number of class rooms, etc. The exterior will be of cement plaster on metal lath. The plans will be out for figures within a short time.

**Aberdeen, Wash.**—Church, 2 story and base, brick and stone, \$45,000. Architect George B. Reid, Aberdeen. Owner St. Aegedius Church. The plans for this building are complete and the architect will award the general contract at once. There will be steam heat and other modern improvements incorporated in the building.

## FACTORIES & WAREHOUSES

**Oakland, Cal.**—Warehouse, 1 story and base, brick. Cost not stated. Architect A. J. Mazurette, Bacon Bldg., Oakland. Owner Roger Colt. The building will be erected near the Southern Pacific freight depot, and will be of extra heavy construction, and will be used as a freight storage warehouse. The exterior will be of stock brick. The plans are complete and figures are being taken.

**Oakland, Cal.**—Brewery, 4 story and base, brick and steel, \$75,000. Architect J. T. Ludlow, Atlas Bldg., S. F. Owners Golden West Brewing Co. This building is designed for a modern brewery plant and storage place. The cost of construction given above does not include the machinery. The exterior will be of stock brick. The plans are complete and figures are being taken. The contract will be awarded at once.

**Sacramento, Cal.**—Wharf and warehouse, 1 story and base, frame and concrete, \$30,000. Architect Western Pacific Engineering Dept., Mills Bldg., S. F. Owners Western Pacific R. R. Co. and City of Sacramento. The railroad has applied for a lease on the water front property between P and Q streets and have offered to pay the cost of construction of both wharf and warehouse from their plans. The city will probably accept the proposition. The plans have been prepared.

**Bakersfield, Kern Co., Cal.**—Brewery, 4 story and base, concrete and brick, \$65,000. Architects name not given. Owner Joseph Baumgarten, Bakersfield. This building was mentioned here two weeks ago when the owner first called for figures. Only one figure was submitted, that of F. J. Amweg of San Francisco, and the owner has extended the time for taking figures.

**Richmond Beach, Kings Co., Wash.**—Warehouses and storage tanks, concrete and brick, \$1,000,000. Architect Engineering Dept. Standard Oil Co., Sheldon Bldg., S. F. Owners Standard Oil Co. The northern manager, Mr. McLean of Seattle states that the company have authorized the purchase of 47 acres of land, and that the plans for extensive improvements are being made in the San Francisco office. There are to be two reinforced concrete tanks erected at once at a cost of \$55,000 each and several brick warehouses. The work will be figured in both San Francisco and Seattle.

**Los Angeles, Cal.**—Warehouse, 3 story and base, brick. Cost not stated. Architects Hudson and Munsell, Stimson Bldg., L. A. Owners W. P. Fuller & Co. The building will be 125x150, and of extra heavy construction. There will be considerable structural iron used. The exterior will be of stock brick. The architects are preparing the plans.

## FIRE HOUSES.

**San Francisco**—Fire house, 2 story and base. Class C, \$35,000. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City and County of San Francisco. This work was mentioned in the last issue of the News, when it was stated that figures would soon be taken. Bids will be opened on July 5th by the Board of Public Works. Separate figures are being taken for the general construction, plumbing and electrical work.

**Los Angeles, Cal.**—Fire house annex, brick. Cost not stated. Architects Dennis and Farwell, Fay Bldg., L. A. Owners City of Los Angeles. The plans for an addition 15x77 are being prepared. The structure will be of brick with concrete and asphalt floors. The exterior will be faced with pressed brick. The bids for the work will be opened on July 3rd by the Board of Public Works.

**Seattle, Wash.**—Church, 2 story and base, brick, \$35,000. Architect C. E. Troutman, Seattle. Owners Methodist Episcopal Church of Seattle. This work has been mentioned here before. The plans are complete and the work has been started under the Day Labor system, the architect purchasing all materials.

## FLATS.

**San Francisco**—Flats, 3 story and base, frame, \$6,500. Architect none. Owner Hugh Keenan, 300 Webster St.,

S. F. There will be three flats in the building. Each flat will be of six rooms and bath. There will be gas grates. The plumbing will be modern throughout. The exterior will be covered with rustic. The plans are in the hands of the owner and the work is to be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$7,500. Architect C. O. Clausen, Phelan Bldg., S. F. Owner W. F. Krugger. There will be three flats in the building. Each flat will be of six rooms and bath. There will be coal grates. Terra cotta tile will be used in the bath rooms. The trim will be of selected pine. The exterior will be covered with shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Flats, 3 story and base, frame, \$7,000. Architect C. O. Clausen, Phelan Bldg., S. F. Owner Mr. Emanuel. There will be three flats of six rooms and bath in the building. The plumbing and other arrangements will be modern throughout. The exterior of the building will be covered with shiplap. The architect is preparing the plans.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$5,000. Architects Smith and Fake, 1456 24th Ave., Oakland. Owner's name withheld. There will be four flats in the building. The trim will be of pine. Coal grates will be used. The plans are now out for figures.

**Oakland, Cal.**—Flats and store, 2 story and base, brick, \$10,000. Architect none. Owner Cornelius Donovan, 507 Alcatraz Ave., Oakland. The owner is preparing the plans for this building. The preliminary drawings show a store on the first floor and large well arranged living rooms above. The living rooms will be heated by coal grates. The exterior of the building will be faced with pressed brick. The plans will be ready for figures in about one week.

**Oakland, Cal.**—Flats, 2 story and base, frame, \$5,000. Architect none. Owner John E. Dufton, 1625 9th Ave. Oakland. There will be four flats of six rooms each in the building. The exterior will be of rustic. The plans are in the hands of the owner and he is taking figures for the work.

**Los Angeles, Cal.**—Flats, 2 story and base, frame, \$16,000. Architect Fred R. Dorn, Douglass Bldg., L. A. Owner William Bowers. The building will contain eight 4 room flats, furnished with all the latest improvements. The exterior will be covered with rustic. The plans are complete and bids will be called for at once.

## GARAGES.

**Los Angeles, Cal.**—Garage, 1 story and base, brick, \$25,000. Architects Architectural Designing Co., Grosse Bldg., L. A. Owner John Schrey. The building will be 50x100, and will be in the Mission style, with the street elevation covered with cement plaster. There will be a cement floor over the entire space. The plans are complete.

**Los Angeles, Cal.**—Garage, 1 story and base, brick. Cost not stated. Architect A. C. Martin, Higgins Bldg., L. A. Owner Joe Reagan. The building will be 63x75, and will be designed to support two additional stories. There will be a cement floor over the entire area. The exterior will be faced with pressed brick. The plans are being prepared.

## GOVERNMENT WORK AND SUPPLIES.

**San Francisco**—Plumbing and heating. Cost not stated. Architect Lt. Col. George McK. Williamson, officer in charge of the Constructing Q. M. Dept., Fort Mason. The work for which bids are now being taken includes the heating and plumbing work for the Isolation Ward of the General Hospital. Bids will be opened on July 5th.

**San Francisco**—Painting. Cost not stated. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. The work will be done in the post office in this city. Bids are now being taken and will be opened by the Supervising Architect on July 10th.

**Pearl Harbor, H. T.**—Power plant equipment. Cost not stated. Engineer Bureau of Yards and Docks, Washington, D. C. Owners U. S. Government. Bids are now being taken for a complete mechanical equipment for the new power house at the naval station at Pearl Harbor. The equipment will include condensers, pumps, large boilers and transformers. Bids will be opened on July 5th.

**Fallon, Nev.**—Conveyors. Cost not stated. Engineer B. W. Cole, Fallon, Nev., in charge of the U. S. Reclamation project. Owner U. S. Government. Bids will be opened by Mr. Cole on July 5th for a large belt conveyor 925 feet long.

## —HALLS & SOCIETY BLDGS.—

**San Francisco**—Masonic Temple, 6 story and base. Class A construction, \$600,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Grand Masonic Lodge. This building has been mentioned here several times before. The bids for the work have been under advisement for sometime, but it was stated last week that awards would be made within the next ten days.

**Berkeley, Alameda Co., Cal.**—Hall, 2 story and base, reinforced concrete, \$25,000. Architect John Galen Howard, Atlas Bldg., S. F. Owner University of California. The building will be erected on the campus and will be used as a lecture hall. There will be steam heat. The exterior will be of cement plaster. The plans are being prepared.

**Oakland, Cal.**—Hall and stores, 3 story and base, brick and steel, \$30,000. Architect Will Wilde, Albany Block, Oakland. Owner Danish American Hall Association. The plans for this building show a modern structure with stores on the first floor, and a large hall above. There will be steam heat. The exterior of the building will be faced with pressed brick. The plans are complete, and the architect is taking figures for the construction.

**Fresno, Fresno Co., Cal.**—Convention Hall, 2 story and base, reinforced concrete, \$35,000. Architect C. K. Kirby, Fresno. Owners City of Fresno. This work has been mentioned here before when the bids for the construction were first called. The figures have been opened by the city trustees and found to be above the estimate. The architect is now revising the plans and new figures will be taken at once. The lowest figure received was for \$45,000.

## Contracts Awarded.

**Long Beach, Los Angeles Co., Cal.**—Lodge Hall, 3 story and base, brick, \$45,000. Architects Fisher and Lory, Omaha, Neb. Owners Long Beach

Elks' Hall Association. Contractor Horace W. Austin, 503 Long Beach National Bank Bldg., Long Beach. Mr. Austin has been selected to superintend the work, and it will be done on a percentage basis.

## —HOSPITALS—

**Boise, Idaho**—Hospital addition, 3 story and base, brick. Cost not stated. Architects Tourtellotte and Hummell, Boise. Owners Alphonsus Hospital. The plans for this addition have been completed. Bids will be taken at once. The equipment throughout will be modern, and will include complete hydrotherapeutic apparatus.

## Contracts Awarded.

**Salem, Ore.**—Hospital ward, 2 story and base, brick, \$50,000. Architects Lazarus and Logan, Portland. Owners State of Oregon. Contractors Welsh Bros., Salem. Contract price \$47,000.

## —HOTELS—

**San Francisco**—Hotel, 3 story and base, brick, \$13,000. Architects Fabre and Bearwald, Metropolitan Bank Bldg., S. F. Owners Alice and Theresa Russeau. The building will be arranged for stores on the first floor and a number of hotel rooms on the upper two floors. There will be no central heating plant. The plumbing will be modern in every particular. The exterior of the building will be faced with pressed brick. The plans are complete and the architects are taking figures on the work.

**San Francisco**—Hotel and stores, 4 story and base, brick and steel, \$80,000. Architect M. J. Lyons, 127 Montgomery St., S. F. Owner Edward Rolkin. There will be in the neighborhood of 120 rooms in this building besides the stores on the first floor. There will be a number of baths on each floor. A central heating system will be installed. Electric elevators will be used, and all other modern conveniences are specified. The exterior will be faced with pressed brick. Bids are being taken.

**Sacramento, Cal.**—Hotel, 6 story and base, brick and steel, \$85,000. Architect C. W. Dickey Russ Bldg., S. F. Owner's name withheld. The building will contain over 150 rooms, a large number of which will have connecting baths. There will be steam heat and elevator service. The first floor will be given over to the lobby, dining room, office and several stores. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken.

**Bakersfield, Kern Co., Cal.**—Hotel, 2 story and base, frame, \$10,000. Engineering Dept. of the Esperanza Oil Co., Bakersfield. Owner Esperanza Oil Co. The building will be designed for a company hotel. There will be a hot air heating system. The exterior of the building will be covered with rustic. The plans are complete and figures are being taken.

**Portland, Ore.**—Hotel and store, 5 story and base, brick and steel, \$150,000. Architect Lionel Deane, Phelan Bldg., S. F. Owners H. W. Fries and Mrs. E. Cramer. This work was mentioned in last week's issue, and at that time it was stated that figures would be taken shortly. The architect now has the plans complete, and will take figures the latter part of this week.

**San Diego, Cal.**—Hotel, 4 story and

base, brick and steel. Cost not stated. Architects Quayle Bros., Granger Bldg., San Diego. Owners Lubin Bros. The building will be 50x100, and will be arranged for stores on the first floor and a number of hotel rooms above. There will be steam heat and elevator service. The exterior will be faced with pressed brick and terra cotta. The architects have completed the plans and will take figures on the work at once.

**Seattle, Wash.**—Hotel alterations, \$35,000. Architect P. A. Baillargeon, New York Bldg., Seattle. Owners Place Hotel Co. The alterations will consist of the addition of about 20 baths and the installation of hot water in every room. There will be a grill and additional barber shop facilities added. The plans are now ready for figures.

**Seattle, Wash.**—Hotel and stores, 6 story and base, reinforced concrete, \$150,000 to \$200,000. Architect John Graham, Lyon Bldg., Seattle. Owner Amos Brown estate (represented by H. Singleton). The plans for this building have just been started, and other than the fact that it will cover a site 35x120, no details of construction can be given. The plans are to be rushed to completion, and the work undertaken this summer.

## RAILROAD CONST., STATIONS AND EQUIPMENT

Bids will be received for grading 66 miles of roadbed in Arizona by the Engineering Dept. of the El Paso and Southwestern R. R. at their offices in El Paso, Texas, up to and including July 25th.

## RESIDENCES.

**San Francisco**—Residence, 2 story and base, reinforced concrete, \$30,000. Architect Henry C. Smith Humboldt Bank Bldg., S. F. Owner Mrs. M. Johnson. This dwelling was mentioned in last week's issue. The plans are now nearing completion and figures will be taken in a short time. The residence will be one of the most modern homes constructed in the Presidio Terrace District.

**San Francisco**—Residence, 3 story and base, frame, \$4,500. Architect none. Owner Thomas Scoble 1405 Clement St., S. F. The dwelling will contain 10 rooms and baths. There will be coal grates and furnace heat. The trim will be of pine. The exterior will be covered with rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**San Francisco**—Bungalow, 1½ story and base, frame, \$2,000. Architect A. Hildebrand, 51 Lower Terrace S. F. Owner E. J. Roberts, 1294 Masonic Ave., S. F. The bungalow will contain 8 rooms and bath. The trim will be of pine. There will be open fire places. The exterior will be covered with ship-lap. The work is to be done by Day Labor.

**San Francisco**—Residence, 2 story and base, brick, \$13,000. Architect none. Owner A. Haus 17th and Bryant Sts., S. F. There will be 8 rooms and bath in the residence. In connection with the building will be a brick shop building. The exterior will be faced with pressed brick. The plans are in

the hands of the owner and he is now taking figures.

**San Francisco**—Residences, 2, 2 story and base, frame, \$4500 each. Architect Jos. A. Leonard Phelan Bldg., S. F. Owners Urban Realty Co. These two dwellings will be similar to several others constructed recently in the Richmond District by the same company. Each of the dwellings will contain 7 rooms and bath. The trim will be of pine throughout. There will be coal grates. The exteriors will be covered with shingles and rustic. The plans are complete and the work is to be done by Day Labor.

**San Francisco**—Cottage, 1½ story and base, frame, \$2,500. Architect Arthur G. Scholz Phelan Bldg., S. F. Owner Helen E. Corwell. The cottage will contain 7 rooms and bath. There will be open fire places. The exterior will be covered with rustic. The plans are being figured.

**Berkeley Cal.**—Residence, 3 story and base, frame, \$5,000. Architect Julia Morgan, Merchants' Exchange Bldg., S. F. Owner E. I. McCormac. The dwelling will contain 8 rooms and baths. The exterior will be of cement plaster and shingles. The trim will be of pine with hardwood floors on the first floor. The plans are being figured.

**Berkeley Alameda Co., Cal.**—Cottage, 1 story and base, frame \$2,000 Architect none. Owner F. M. Sparks, 6663 Telegraph Ave., Berkeley. The cottage will consist of six rooms and bath. The trim will be of pine. The exterior will be finished with shingles. The work is to be done by Day Labor.

**San Leandro, Alameda Co., Cal.**—Residence, 2 story and base frame. Cost not stated. Architect L. H. Hyde, 2715 26th Ave., Oakland. Owner's name withheld. The plans for this work are being prepared. The drawings show an 8 room dwelling with bath and all other modern improvements. The exterior will be covered with shingles.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base frame \$4,000. Architect Noble Newsome 2610 Durant St., Berkeley. Owner H. K. Thornton. The dwelling will contain 9 rooms and baths. The trim will be of pine and some hardwood. There will be open fire places. The exterior will be covered with shingles. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame \$4,000. Architect G. Raeside, 1428 Lake St., S. F. Owner Mrs. Mary Lazarus. The dwelling will contain 7 rooms and bath. There will be coal grates. The trim will be of pine. The exterior will be covered with cement plaster on metal lath. The plans are being figured.

**Haywards, Alameda Co., Cal.**—Residence, 1 story and base, frame \$2,000. Architect Will Wilde, Albany Block, Oakland. Owner A. F. Oliver. The plans for the cottage are complete and figures are being taken. The exterior will be of rustic and there will be coal grates.

**Berkeley, Alameda Co., Cal.**—Alterations to residence, \$3,000. Architect none. Owner Mr. Friedman, Rich Ave. and LeRoy St., Berkeley. The alterations will be extensive, and will include new plumbing and wiring. The work is to be done by Day Labor.

**Berkeley, Alameda Co., Cal.**—Cottage, 1 story and base, frame, \$2,000. Architect none. Owner L. S. Lewis, 2428 Tyler St., Berkeley. The cottage will contain five rooms and bath. The ex-

terior will be covered with rustic. The work is to be done by Day Labor.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$2,000. Architects Home Planners, 27 Montgomery St., S. F. Owner E. R. Jewell. The dwelling will contain 8 rooms and bath. The trim will be of pine. There will be coal grates. The exterior will be covered with shingles. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$5,000. Architect C. W. McCall Central Bldg., Oakland. Owner H. E. Jones. The dwelling will contain 10 rooms and baths. There will be furnace heat and coal grates. The floors on the first story will be of hardwood. The exterior will be covered with rustic. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$5,000. Architect Louis Upton, Montgomery St., S. F. Owner R. E. Cotter. The dwelling will contain 8 rooms and bath. The trim will be of pine and hardwood. The exterior will be covered with shingles. The plans are complete and figures are being taken.

**Oakland, Cal.**—Bungalow, 1 story and base, frame, \$3,000. Architect none. Owners Mr. and Mrs. C. E. Seeger, Oakland. The bungalow will contain 7 rooms and bath. There will be coal grates. The exterior will be covered with cement plaster on metal lath. The plans are being figured.

**Berkeley, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect none. Owner George Atkins, 2961 Pine St., Berkeley. The dwelling will contain 7 rooms and bath. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner and he is taking figures on the work.

**Oakland, Cal.**—Residence, 2 story, attic and base, frame, \$7,500. Architect C. S. Kaiser, Mechanics' Institute Bldg., S. F. Owner Chas. E. Townsend. There will be 10 rooms in the dwelling, which will be heated by a hot water system. The exterior will be covered with cement plaster on metal lath. The trim will be of pine and hardwood. The plans are complete and the architect is taking figures.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$4,500. Architects Murdock and Smith, 268 Market St., S. F. Owner Mrs. Clara J. Smith. The dwelling will contain 8 rooms and bath. There will be coal grates and furnace heat. The first story will have hardwood floors. The exterior will be covered with shiplap. The plans are being figured.

**Oakland, Cal.**—Residence, 2 story and base, frame, \$5,500. Architect A. J. Mazurette, 292 Bacon Block, Oakland. Owner Thomas J. Thompson. The dwelling will contain 8 rooms and will be handsomely finished. There will be coal grates. The exterior of the building will be covered with shingles. The plans are being figured.

**Sunol, Alameda Co., Cal.**—Residence, 2 story and base, frame, \$10,000 Architect C. B. Barton, 460 13th St., Oakland. Owner G. Helme. The dwelling will contain 12 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior of the dwelling will be covered with shingles. The plans are complete and the architect is taking figures.

**Redwood City, San Mateo Co., Cal.**—

Residence, 2 story and base, frame, \$14,000. Architects Bliss and Faville, Balboa Bldg., S. F. Owner D. F. Williams. The dwelling will contain 10 rooms, and will be handsomely finished in hardwoods. There will be furnace heat and coal grates. The exterior will be of clapboards. The plans are complete and the architects are taking figures on the work.

**San Jose Santa Clara Co., Cal.**—Residence, 2 story and base, frame, \$3,500. Architect C. S. McKenzie, Bank of San Jose Bldg., San Jose. Owner's name withheld. The dwelling will contain 7 rooms and bath. The exterior will be finished in cement plaster on metal lath. The architect is preparing the plans.

**Pebble Beach, Monterey, Cal.**—Residence, 2 story and base, frame, \$12,000. Architect J. T. Carter, Call Bldg., S. F. Owner J. Woodburn. This dwelling has been mentioned here before, when the architect started the plans. Since that time there has been considerable change made in the original drawings, and the revised plans are now out for figures.

**San Rafael, Marin Co., Cal.**—Residence, 2 story and base, \$12,000. Architect C. M. Dufficy, 5th and Tamalpais Ave., San Rafael. Owner A. Patton. The dwelling will contain 10 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior will be covered with cement plaster on metal lath. The plans are complete and the architect is taking figures on the work.

**Stockton, San Joaquin Co., Cal.**—Bungalow, 1½ story and base, frame, \$4,000. Architect E. B. Brown, Yosemite Bldg., Stockton. Owner Otto Grunsky. The bungalow will contain nine rooms and baths. The exterior will be covered with rustic. There will be furnace heat and coal grates. The plans are being prepared.

**Santa Barbara, Santa Barbara Co., Cal.**—Residence, 1 story and base, frame, \$4,500. Architect John Galen Howard, Atlas Bldg., S. F. Owner M. B. McDuffie. The dwelling will contain nine rooms and baths. The interior will be handsomely finished. There will be large open fire places. The plans are complete and the architect is taking figures on the work.

**Lordsburg, Los Angeles Co., Cal.**—Residence, 2 story and base, frame. Cost not stated. Architect F. M. Tyler, Union Trust Bldg., L. A. Owner W. T. Michaels. The dwelling will contain 10 rooms and two baths. There will be furnace heat. The trim will be of pine and hardwood. The exterior will be covered with rustic and shingles. The plans are complete.

**Phoenix, Ariz.**—Residence, 2 story, attic and base, brick. Cost \$35,000. Architect Thornton Fitzhugh, Pacific Electric Bldg., I A Owner J. W. Dorris. The dwelling will contain 17 rooms and baths. The interior will be finished largely in hardwoods. There will be furnace heat and other modern improvements. The exterior will be plastered with cement. The plans are complete and figures are being taken.

**Pasadena, Los Angeles Co., Cal.**—Residence, 2 story, attic and base, frame. Cost not stated. Architect Myron Hunt, Union Trust Bldg., L. A. Owner John P. Wilson. The dwelling will contain 18 rooms and three baths. The trim will be of hardwood throughout. There will be steam heat and a vacuum cleaning plant. The exterior

will be of cement plaster on metal lath. The contract for the excavating has been let and plans for the balance of the work are being completed.

**Seattle, Wash.**—Residence, 1 and 2 story and base, frame, \$10,000. Architect Julian Everett, Wa'ker Bldg., Seattle. Owner H. B. Ames. The dwelling will contain 11 rooms and two baths. There will be a hot water heating system. The interior will be finished in pine and hardwood. The exterior will be of stone and rustic. The plans are complete and bids will be called for at once.

#### Contracts Awarded.

**Whittier, Los Angeles Co., Cal.**—Residence, 2 story and base, frame, \$35,000. Architects Eisen and Son, Pasadena. Owner William Loftus. Contractor J. H. Linkletter, 403 West Philadelphia St., Whittier. Contract price \$23,523. This price does not include the plumbing, painting, electric work, heating or hardwood finish.

**Pasadena, Los Angeles Co., Cal.**—Residence, 2 story and base, frame, \$20,000. Architect F. M. Tyler, Union Trust Bldg., L. A. Owner Thomas Bradley. Contractor Thomas A. Norton, Pasadena. Contract price not given.

#### SCHOOLS.

**San Francisco**—School work, installing blast system. Cost not stated. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. Bids are now being taken for the installation of a blast system in the new Polytechnic High School. Bids will be opened by the Board of Public Works on June 28th.

**Covina, Los Angeles Co., Cal.**—Reservoir, reinforced concrete. Cost not stated. Engineer George W. Harding, Citizens' National Bank Bldg., L. A. Owners Covina Irrigation District. The reservoir will be 200 feet long, 90 feet wide and 10 feet deep. The capacity will be 1,500,000 gallons. The plans are complete. The same engineer has awarded a contract for the construction of a reinforced concrete power house for the same company to the Security Construction Co., Citizens' National Bank Bldg., L. A. Contract price not stated.

**North Yakima, Wash.**—Reservoirs, 2, reinforced concrete. Cost not stated. Engineer L. M. Rice, Central Bldg., Seattle. Owners Klickitat Irrigation and Water Co. The engineer has completed plans for two reservoirs, one of which will be 130 feet high and the other 230 feet. The construction will be very

heavy. The plans will be figured with in a short time.

#### Contracts Awarded.

**Coalinga, Fresno Co., Cal.**—Reservoirs, 2, reinforced concrete. Cost not stated. Engineer B. D. Vail, S. F. Owners Associated Oil Co. Contractors Mahoney Bros., Crocker Bldg., S. F. Contract price not stated. The reservoirs will each have a capacity of 750,000 barrels of oil. The Mahoney Bros. have the contract for the excavating only. Bids are being taken for the steel work and concrete work by the engineer.

#### —STORE BUILDINGS—

**San Francisco**—Stores and lofts, 3 story and base, brick and steel, \$35,000. Architect C. S. McNailey, Mechanics' Institute Bldg., S. F. Owner's name withheld. The building will be arranged for several stores on the first floor and two large lofts on the second and third floors. The exterior will be faced with pressed brick. There will be a freight elevator. The plans are being prepared.

**San Francisco**—Stores and offices, 2 story and base, brick, \$35,000. Architect G. A. Landsburgh, Gunst Bldg., S. F. Owner Marion Leventritt. There will be several retail stores on the first floor and modern offices on the second. There will be steam heat and other modern improvements. The exterior of the building will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

**San Francisco**—Stores and rooms, 2 story and base, reinforced concrete, \$75,000. Architect F. W. Burki, Mechanics' Institute Bldg., S. F. Owner represented by Lyon & Co. The building will cover a large area, and will be located on East street. There will be 20 stores on the ground floor and 110 rooms above. The exterior will be faced with cement plaster. The plans are complete and the architect is taking figures.

**San Francisco**—Stores and lofts, 2 story and base, brick, \$14,000. Architect none. Owner M. Fisher, Pacific Bldg., S. F. There will be one store on the first floor and a large loft above. The exterior will be faced with pressed brick. The owner is a well-known contractor, and the work will be done by him. The plans are complete and Mr. Fisher is now purchasing materials.

**San Francisco**—Store and lofts, 3 story and base, brick, \$17,000. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner M. Lovin. The building will be arranged for one store and two large lofts. There will be freight elevators. The exterior will be faced with pressed brick. Considerable structural iron will be used. The building is to be erected in the wholesale district, and will be of heavy construction. The plans are complete and figures are being taken.

**Oakland, Cal.**—Alteration to brick building, \$3,100. Architects Hart and Boehrer, Delger Bldg., Oakland. Owner A. Fibush. The alterations will be extensive, and will include new plumbing and electric wiring. Changes will also be made in the exterior, and the new work will be faced with pressed brick. The plans are complete and figures are being taken.

**Oakland Ca.**—Stores, 2 story and base, brick. Cost not stated. Architects Deuel and Wright, Macdonough Bldg., Oakland. Owner Mr. Schaefer. The building will be arranged for a

store on the first floor and offices above. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken.

**Oakland, Cal.**—Stores and offices, 2 story and base, reinforced concrete, \$20,000. Architects Hart and Boehrer, Delger Bldg., Oakland. Owner A. Fibush. There will be two stores on the first floor and several modern and well arranged offices on the second floor. The exterior of the building will be faced with pressed brick. The architects are now preparing the plans which will be complete in a short time and figures will be taken.

**Sellwood, Ore.**—Stores, 2 story and base, brick, \$10,000. Architects Clausen and Clausen, Portland. Owner Mrs. Wilhelm. The plans for this building will be complete about July 30th. There will be several stores on the first floor and offices on the second. The exterior will be faced with pressed brick.

**Portland, Ore.**—Offices and store rooms, 2 story and base, brick, \$25,000. Architect's name not given. Owners City of Portland. The plans for this building, which is to serve for an office for the Water Department and storage rooms, have been completed and the department is taking figures for the construction. The exterior will be of pressed brick.

**Seattle, Wash.**—Stores and offices, 18 story. Class A construction, \$400,000. Architects (an Eastern firm, name not made public.) Owners W. D. Wood, of the Trustee Co., Central Bldg., Seattle. The building will be in the form of a square tower. The owner states that nothing in the way of construction will be undertaken until next year.

#### Contracts Awarded.

**Seattle, Wash.**—Stores and offices, 5 story and base, brick and steel, \$150,000. Architects Howells and Stokes, Henry Bldg., Seattle. Owners Metropolitan Building Co. Contractors Stone-Webster Co., Seattle. Contract price \$150,000. The contractors will take sub-figures on all parts of the work.

#### THEATRES.

**San Francisco.**—Theatre, 1 story and base, reinforced concrete, \$80,000. Architects Miller and De Colmesnil, Lick Bldg., S. F. Owner Alex. Pantages. This building has been mentioned here before when the plans were being prepared. The working drawings are now complete and are out for figures. The building will be a fireproof structure, and the latest improvements in theatre construction will be incorporated. The entrance will be on Market street, and it is probable that a large hotel or office building will be erected on the street front. Bids for this work will be opened the latter part of this week.

**San Luis Obispo, San Luis Obispo Co., Cal.**—Theatre and lodge hall. Class A construction, \$45,000. Architects Riggheuti and Headman, Phelan Bldg., S. F. Owners San Luis Obispo Elks' Hall Association. This work has been mentioned here before, when the plans were first started. The working drawings are now complete and figures will be taken at once. The building will be the most modern and up-to-date theatre between San Francisco and Los Angeles.

**San Francisco.**—Theatre and hotel, 6 story and base. Class A construction, \$500,000. Associated Architects William Beasley and Bernard J. Joseph, 127

Montgomery St., S. F. Owners Down Town Realty Co. The announcement has been made public that a lease has been closed with one of the largest eastern theatrical syndicates for this structure. The building will be located at the southwest corner of Mason and Eddy streets, and will be one of the finest structures of its kind in the city. The construction will be absolutely fireproof. Besides the theatre there will be a hotel of 150 rooms, all of which will have connecting baths. There will be elevator service, steam heat, vacuum cleaning plant and all other modern improvements. The exterior of the building will be faced with pressed brick and terra cotta. The working drawings are now being made, and the architects state that actual construction will be started as soon as possible.

(1) That Fourteenth street, between Mission and Howard streets, be improved by constructing artificial stone sidewalks of the full official width, where artificial stone sidewalks of the full official width are not already constructed.

(2) That the intersection of Francisco street and Laguna street be improved by constructing granite curbs, artificial stone sidewalks, brick cesspools (catchbasins) with castiron frames, gratings and traps and ten (10) inch vitrified, salt-glazed, ironstone pipe culverts on the angular corners thereof, and by paving the roadway thereof with an asphalt pavement, consisting of a six (6) inch concrete foundation and a two and one-half (2½) inch asphaltic wearing surface.

(3) That Edith street be improved between Grant avenue and its westerly termination by constructing artificial stone sidewalks of the full official width, where not already constructed; by constructing granite curbs on the roadway thereof, where not already constructed; by paving the roadway thereof from the intersection of Grant avenue and Edith street to a line 120 feet westerly with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface, where not already constructed; by paving the roadway thereof from a line 120 feet westerly from Grant avenue to a line 220 feet westerly from Grant avenue with a basalt block pavement on a sand foundation, where not already constructed, and by paving the roadway thereof from a line 220 feet westerly from Grant avenue to its westerly termination with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface, where not already constructed.

(4) That Central avenue, between Grove and Fulton streets, be improved by constructing artificial stone sidewalks of the full official width, where artificial stone sidewalks are not already constructed.

(5) That the crossing of Cook and Geary streets be improved by constructing granite curbs and artificial stone sidewalks on the angular corners thereof; by paving the roadway, except on that portion required by law to be kept in repair by the railroad

company having tracks thereon, with a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface, and by constructing brick cesspools (catchbasins) with castiron frames, gratings and traps and 10-inch vitrified, salt-glazed, ironstone pipe culverts, on the angular corners thereof, where not already constructed.

(6) That the crossing of Douglas and Twenty-third streets be improved by constructing artificial stone sidewalks and granite curbs on the angular corners thereof where not already constructed; by paving the roadway thereof with a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface, where not already constructed, and by resetting to official line and grade the existing brick catchbasins (cesspools) that are not already at official line and grade.

(7) That Irving street, between Tenth and Eleventh avenues, be improved by constructing artificial stone sidewalks of the full official width, where artificial stone sidewalks at least six (6) feet in width are not already constructed.

(8) That Twenty-third street, between Castro and Diamond street, be improved by constructing artificial stone sidewalks nine (9) feet in width, where artificial stone sidewalks at least six (6) feet in width are not already constructed.

(9) That Devisadero street, between Greenwich and Lombard streets, be improved by constructing granite curbs on both sides of the roadway thereof.

(10) That Lake street, between Fifteenth and Sixteenth avenues, be improved by constructing granite curbs and by paving the roadway thereof with a bituminous rock pavement, consisting of a 6-inch concrete foundation and a 2-inch bituminous rock wearing surface, where not already constructed.

#### PROPOSALS FOR SEWERS.

(Bids close July 5.)

**OFFICE OF THE BOARD OF PUBLIC WORKS** of the City and County of San Francisco.—Sealed proposals will be received at the office of the said Board of Public Works, tenth floor, David Hewes Building, 995 Market street, between the hours of 2 o'clock p. m. and 3 o'clock p. m., on Wednesday, the 5th day of July, 1911, for doing the following street work, to wit:

(1) The constructing of sewers and appurtenances in Section "D-1" of the North Point Main.

(2) The construction of sewers and appurtenances in section "D-2" of the North Point Main.

(3) The construction of sewers and appurtenances in section "G" of the North Point Main. Bids close June 30.

### SAN FRANCISCO.

**Apartment House**—3 story and base, frame, \$12,000. San Francisco. Architect C. O. Clausen, Phelan Bldg., S. F. Owner J. Mourin. The building will contain 12 apartments of two rooms each. There will be wall beds and gas steam radiators. The exterior of the apartment house will be faced with veneer pressed brick to the water table and shiplap above. The architect has completed the plans and will award the contract shortly.

**Flats**—3 story and base, frame, \$6,500. San Francisco. Architect none. Owner Hugh Keenan, 300 Webster St.,

S. F. There will be three flats in the building. Each flat will be of six rooms and bath. There will be gas grates. The plumbing will be modern throughout. The exterior of the building will be covered with rustic. The plans are in the hands of the owner and the work is to be done by Day Labor.

**Flats**—3 story and base, frame, \$7,500. San Francisco. Architect C. O. Clausen, Phelan Bldg., S. F. Owner W. F. Krugger. There will be three flats in the building. Each flat will be of six rooms and bath. There will be coal grates. Terra cotta tile will be used in the bath rooms. The trim will be of selected pine. The exterior will be covered with shiplap. The plans are in the hands of the owner and the work will be done by Day Labor.

**Fire House**—2 story and base. Class C, \$35,000. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. This work was mentioned in the last issue of the News, when it was stated that figures would soon be taken. Bids will be opened on July 5th by the Board of Public Works. Separate figures are being taken for the general construction, plumbing and electrical work.

**School Work**—Installing blast system. Cost not stated. San Francisco. City Architect Alfred I. Coffey, 1204 David Hewes Bldg., S. F. Owner City of San Francisco. Bids are now being taken for the installation of a blast system in the new Polytechnic High School. Bids will be opened by the Board of Public Works on June 28th.

**Plumbing and Heating**—Cost not stated. San Francisco. Architect Lt. Col. George McK. Williamson, officer in charge of the Constructing Q. M. Dept., Fort Mason. The work for which bids are now being taken includes the heating and plumbing work for the Isolation Ward of the General Hospital. Bids will be opened on July 5th.

**Painting**—Cost not stated. San Francisco. Architect James Knox Taylor, Washington, D. C. Owners U. S. Government. The work will be done in the post office in this city. Bids are now being taken and will be opened by the Supervising Architect on July 10th.

**Flats**—3 story and base, frame, \$7,000. San Francisco. Architect C. O. Clausen, Phelan Bldg., S. F. Owner Mr. Emanuel. There will be three flats of six rooms and baths in this building. The plumbing and other arrangements will be modern throughout. The exterior of the building will be covered with shiplap. The architect is preparing the plans.

**Power Plant Equipment**—Cost not stated. Pearl Harbor, H. T. Engineer Bureau of Yards and Docks, Washington, D. C. Owners U. S. Government. Bids are now being taken for a complete mechanical equipment for the new power house at the naval station at Pearl Harbor. The equipment will include condensers, pumps, large boilers and transformers. Bids will be opened on July 5th.

**Masonic Temple**—6 story and base. Class A construction, \$600,000. San Francisco. Architects Bliss and Faville, Balboa Bldg., S. F. Owners Grand Masonic Lodge. This building has been mentioned here several times before. The bids for the work have been under advisement for some time, but it was stated last week that awards would be

made within the next ten days.

**Theatre**—1 story and base, reinforced concrete, \$80,000. San Francisco. Architects Miller and De Colmesnil, Lick Bldg., S. F. Owner Alex. Pantages. This building has been mentioned here before when the plans were being prepared. The working drawings are now complete and are out for figures. The building will be a fireproof structure, and the latest improvements in theatre construction will be incorporated. The entrance will be on Market street, and it is probable that a large hotel or office building will be erected on the street front. Bids for this work will be opened the latter part of this week.

**Hotel**—3 story and base, brick, \$13,000. San Francisco. Architects Fabre and Bearwald, Metropolis Bank Bldg., S. F. Owners Alice and Theresa Russeau. The building will be arranged for stores on the first floor and a number of hotel rooms on the upper two floors. There will be no central heating plant. The plumbing will be modern in every particular. The exterior of the building will be faced with pressed brick. The plans are complete and the architects are taking figures on the work.

**Hotel and Stores**—4 story and base, brick and steel, \$80,000. San Francisco. Architect M. J. Lyons, 127 Montgomery St., S. F. Owner Edward Rolkin. There will be in the neighborhood of 120 rooms in this building besides the stores on the first floor. There will be a number of baths on each floor. A central heating system will be installed. Electric elevators will be used, and all other modern conveniences are specified. The exterior will be faced with pressed brick. Bids are being taken.

**Theatre and Hotel**—6 story and base. Class A construction, \$200,000. San Francisco. Associated Architects William Beasley and Bernard J. Joseph, 127 Montgomery St., S. F. Owners Down Town Realty Co. The announcement has been made public that a lease has been closed with one of the largest eastern theatrical syndicates for this structure. The building will be located at the southwest corner of Mason and Eddy streets, and will be one of the finest structures of its kind in the city. The construction will be absolutely fireproof. Besides the theatre there will be a hotel of 150 rooms, all of which will have connecting baths. There will be elevator service, steam heat, vacuum cleaning plant and all other modern improvements. The exterior of the building will be faced with pressed brick and terra cotta. The working drawings are now being made, and the architects state that actual construction will be started as soon as possible.

**Stores and Lofts**—3 story and base, brick and steel, \$35,000. San Francisco. Architect C. S. McNalley, Mechanics' Institute Bldg., S. F. Owner's name withheld. The building will be arranged for several stores on the first floor and two large lofts on the second and third floors. The exterior will be faced with pressed brick. There will be a freight elevator. The plans are being prepared.

**Stores and Offices**—2 story and base, brick, \$35,000. San Francisco. Architect G. A. Landsburgh, Gunst Bldg., S. F. Owner Marlon Leventritt. There will be several retail stores on the first floor and modern offices on the second. There will be steam heat and other modern improvements. The exterior of

the building will be faced with pressed brick. The plans are complete and the architect is taking figures on the work.

**Stores and rooms**—2 story and base, reinforced concrete, \$75,000. San Francisco. Architect F. W. Burki, Mechanics' Institute Bldg., S. F. Owner represented by Lyon & Co. The building will cover a large area, and will be located on East street. There will be 20 stores on the ground floor and 110 rooms above. The exterior will be faced with cement plaster. The plans are complete and the architect is taking figures.

**Stores and Lofts**—2 story and base, brick, \$14,000. San Francisco. Architect none. Owner M. Fisher, Pacific Bldg., S. F. There will be one store on the first floor and a large loft above. The exterior will be faced with pressed brick. The owner is a well-known contractor, and the work will be done by him. The plans are complete and Mr. Fisher is now purchasing materials.

**Store and Lofts**—3 story and base, brick, \$17,000. San Francisco. Architect A. D. Nicholson, 20 Montgomery St., S. F. Owner M. Lovin. The building will be arranged for one store and two large lofts. There will be freight elevators. The exterior will be faced with pressed brick. Considerable structural iron will be used. The building is to be erected in the wholesale district, and will be of heavy construction. The plans are complete and figures are being taken.

**Residences**—2, 2 story and base, frame, \$4,500 each. San Francisco. Architect Jos. A. Leonard, Phelan Bldg., S. F. Owners Urban Realty Co. These two dwellings will be similar to several others constructed recently in the Richmond District by the same company. Each of the dwellings will contain 7 rooms and bath. The trim will be of pine throughout. There will be coal grates. The exteriors will be covered with shingles and rustic. The plans are complete and the work is to be done by Day Labor.

**Cottage**—1½ story and base, frame, \$2,500. San Francisco. Architect Arthur G. Scholz, Phelan Bldg. Owner Helen E. Corwell. The cottage will contain 7 rooms and bath. There will be open fire places. The exterior will be covered with rustic. The plans are being figured.

**Bungalow**—1½ story and base, frame, \$2,000. San Francisco. Architect A. Hildebrand, 51 Lower Terrace, S. F. Owner E. J. Roberts, 1394 Masonic Ave., S. F. The bungalow will contain 8 rooms and bath. The trim will be of pine. There will be open fire places. The exterior will be covered with ship-lap. The work is to be done by Day Labor.

**Residence**—2 story and base, brick, \$13,000. San Francisco. Architect none. Owner A. Haus, 17th and Bryant Sts., S. F. There will be eight rooms and bath in the residence. In connection with the building there will be a shop building also of brick construction. The exterior will be faced with pressed brick. The plans are in the hands of the owner and he is now taking figures.

**Residence**—2 story and base, reinforced concrete, \$30,000. San Francisco. Architect Henry C. Smith, Humboldt Bank Bldg., S. F. Owner Mrs. M. Johnson. This dwelling was mentioned in last week's issue. The plans are now nearing completion and figures will be taken in a short time. The

residence will be one of the most modern homes constructed in the Presidio Terrace District.

**Residence**—3 story and base, frame, \$4,500. San Francisco. Architect none. Owner Thomas Scoble, 1405 Clement St., S. F. The dwelling will contain 10 rooms and baths. There will be coal grates and furnace heat. The trim will be of pine. The exterior will be covered with rustic. The plans are in the hands of the owner and the work will be done by Day Labor.

**Church**—2 story and base, brick, \$40,000. San Francisco. Architect J. J. Foley, Monadnock Bldg., S. F. Owner Roman Catholic Church. The building will be erected in the Potrero District, and will have a seating capacity of about 900 people. There will be furnace heat. The exterior will be faced with red stock brick. The plans are complete and the architect is taking figures.

**Alterations to Residence** — \$3,000. Berkeley, Alameda Co., Cal. Architect none. Owner Mr. Friedman, Rich Ave. and Leroy St., Berkeley. The alterations will be extensive, and will include new plumbing and wiring. The work is to be done by Day Labor.

**Residence**—3 story and base, frame, \$5,000. Berkeley, Alameda Co., Cal. Architect Julia Morgan, Merchants'

Exchange Bldg., S. F. Owner E. I. McCormac. The dwelling will contain 8 rooms and baths. The exterior will be of cement plaster and shingles. The trim will be of pine with hardwood floors on the first floor. The plans are being figured.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner F. M. Sparks, 6663 Telegraph Ave., Berkeley. The cottage will consist of six rooms and bath. The trim will be of pine. The exterior will be finished with shingles. The work is to be done by Day Labor.

**Residence**—2 story and base, frame. Cost not stated. San Leandro, Alameda Co., Cal. Architect L. H. Hyde, 2715 26th Ave., Oakland. Owner's name withheld. The plans for this work are being prepared. The drawings show an 8 room dwelling with bath and all other modern improvements. The exterior will be covered with shingles.

**Residence**—2 story and base, frame, \$4,000. Berkeley, Alameda Co., Cal. Architect Noble Newsome, 2610 Durant St., Berkeley. Owner H. K. Thornton. The dwelling will contain 9 rooms and baths. The trim will be of pine and some hardwood. There will be open fire places. The exterior will be covered with shingles. The plans are being figured.

**Hall and Stores**—3 story and base, brick and steel, \$30,000. Oakland, Cal. Architect Will Wilde, Albany Block, Oakland. Owners Danish American Hall Association. The plans for this building show a modern structure with stores on the first floor, and a large hall above. There will be steam heat. The exterior of the building will be faced with pressed brick. The plans are complete and the architect is taking figures.

**Hall**—2 story and base, reinforced concrete, \$25,000. Berkeley, Alameda Co., Cal. Architect John Galen Howard, Atlas Bldg., S. F. Owner University of California. The building will be erected on the campus and will be used as a lecture hall. There will be steam heat. The exterior will be of cement plaster. The plans are being prepared.

**Cottage**—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect none. Owner L. S. Lewis, 2428 Tyler St., Berkeley. The cottage will contain five rooms and bath. The exterior will be covered with rustic. The work is to be done by Day Labor.

**Bungalow**—1 story and base, frame, \$2,500. Oakland, Cal. Architects Home Planners, 27 Montgomery St., S. F. Owner E. R. Jewell. The dwelling will contain 8 rooms and bath. The trim will be of pine. There will be coal grates. The exterior will be covered with shingles. The plans are being figured.

**Residence**—2 story and base, frame, \$5,000. Oakland, Cal. Architect C. W. McCall, Central Bldg., Oakland. Owner H. E. Jones. The dwelling will contain 10 rooms and baths. There will be furnace heat and coal grates. The floors on the first story will be of hardwood. The exterior will be covered with rustic. The plans are being figured.

**Residence**—2 story and base, frame, \$5,000. Oakland, Cal. Architect Louis Upton, Montgomery St., S. F. Owner R. E. Cotter. The dwelling will contain 8 rooms and bath. The trim will be of pine and hardwood. The exterior will be covered with shingles. The

plans are complete and figures are being taken.

**Bungalow**—1 story and base, frame, \$3,000. Oakland, Cal. Architect none. Owners Mr. and Mrs. C. E. Seeger, Oakland. The bungalow will contain 7 rooms and bath. There will be coal grates. The exterior will be covered with cement plaster on metal lath. The plans are being figured.

**Residence**—2 story and base, frame, \$3,500. Berkeley, Alameda Co., Cal. Architect none. Owner George Atkins, 2961 Pine St., Berkeley. The dwelling will contain 7 rooms and bath. The exterior will be covered with cement plaster on metal lath. The plans are in the hands of the owner and he is taking figures on the work.

**Residence**—2 story, attic and base, frame, \$7,500. Oakland, Cal. Architect C. S. Kaiser, Mechanics' Institute Bldg., S. F. Owner Chas. E. Townsend. There will be 10 rooms in the dwelling, which will be heated by a hot water system. The exterior will be covered with cement plaster on metal lath. The trim will be of pine and hardwood. The plans are complete and the architect is taking figures.

**Residence**—2 story and base, frame, \$4,500. Oakland, Cal. Architects Murdoch and Smith, 268 Market St., S. F. Owner Mrs. Clara J. Smith. The dwelling will contain 8 rooms and bath. There will be coal grates and furnace heat. The first story will have hardwood floors. The exterior will be covered with shiplap. The plans are being figured.

**Residence**—2 story and base, frame, \$5,500. Oakland, Cal. Architect A. J. Mazurette, 292 Bacon Block, Oakland. Owner Thomas J. Thompson. The dwelling will contain 8 rooms and will be handsomely finished. There will be coal grates. The exterior will be covered with shingles. The plans are being figured.

**Residence**—2 story and base, frame, \$10,000. Sunol, Alameda Co., Cal. Architect C. E. Barton, 460 13th St., Oakland. Owner G. Heine. The dwelling will contain 12 rooms and baths. The trim will be of pine and hardwood. There will be furnace heat and coal grates. The exterior of the dwelling will be covered with shingles. The plans are complete and the architect is taking figures.

**Apartment House**—3 story and base, frame. Cost not stated. Oakland, Cal. Architect none. Owner Louis W. Blake, 534 24th St., Oakland. The building will contain a number of apartments, arranged in large suites. There will be private baths in connection with all suites. The exterior of the building will be of cement plaster on metal lath. The owner is taking figures on the construction.

**Flats**—2 story and base, frame, \$5,000. Oakland, Cal. Architects Smith and Fake, 1456 24th Ave., Oakland. Owner's name withheld. There will be four flats in the building. The trim will be of pine. Coal grates will be used. The plans are now out for figures.

**Plats and Store**—2 story and base, brick, \$10,000. Oakland, Cal. Architect none. Owner Cornelius Donovan, 507 Alcatraz Ave., Oakland. The owner is preparing the plans for this building. The preliminary drawings show a store on the first floor and large, well-arranged living rooms above. The living rooms will be heated by coal grates. The exterior of the building

will be faced with pressed brick. The plans will be ready for figures in about one week.

**Flats**—2 story and base, frame, \$5,000. Oakland, Cal. Architect none. Owner John E. Dufton, 1625 9th Ave., Oakland. There will be four flats of si rooms each in the building. The exterior will be of rustic. The plans are in the hands of the owner and he is taking figures for the work.

**Apartment House**—3 story and base, frame. Cost not stated. Oakland, Cal. Architects Whalin Bros., Bacon Block, Oakland. Owner Mr. Gilbert. The plans for this building are complete and figures are being taken. There will be a number of apartments of two and three rooms each. All modern conveniences will be installed. The exterior of the building will be covered with rustic.

**Stores and Offices**—2 story and base, reinforced concrete, \$20,000. Oakland, Cal. Architects Hart and Boehrer, Delger Bldg., Oakland. Owner A. Fibush. There will be two stores on the first floor and several modern and well arranged offices on the second floor. The exterior of the building will be faced with pressed brick. The architects are now preparing the plans which will be complete in a short time and figures will be taken.

**Alteration to Brick Building**—\$3,100. Oakland, Cal. Architects Hart and Boehrer, Delger Bldg., Oakland. Owner A. Fibush. The alterations will be extensive, and will include new plumbing and electric wiring. Changes will also be made in the exterior, and the new work will be faced with pressed brick. The plans are complete and figures are being taken.

**Stores**—2 story and base, brick. Cost not stated. Oakland, Cal. Architects Deuel and Wright, Macdonough Bldg., Oakland. Owner Mr. Schaefer. The building will be arranged for a store on the first floor and offices above. The exterior of the building will be faced with pressed brick. The plans are complete and figures are being taken.

**Warehouse**—1 story and base, brick. Cost not stated. Oakland, Cal. Architect A. J. Mazurette, Bacon Bldg., Oakland. Owner Roger Coit. The building will be erected near the Southern Pacific freight depot, and will be of extra heavy construction, and will be used as a freight storage warehouse. The exterior will be of stock brick. The plans are complete and figures are being taken.

**Brewery**—4 story and base, brick and steel, \$75,000. Oakland, Cal. Architect J. T. Ludlow, Atlas Bldg., S. F. Owners Golden West Brewing Co. This building is designed for a modern brewery plant and storage place. The cost of construction given above does not include the machinery. The exterior will be of stock brick. The plans are complete and figures are being taken. The contract will be awarded at once.

### FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA.

**Theatre and Lodge Hall.**—Class construction, \$45,000. San Luis Obispo San Luis Obispo Co., Cal. Architect Righetti and Headman, Phelan Bld. S. F. Owners San Luis Obispo Elk Hall Association. This work has been mentioned here before when the plans were first started. The working drawings are now complete and figures will be taken at once. The building will be the most modern and up-to-date theatre between San Francisco and Los Angeles.

**Hotel**—2 story and base, frame, \$1,000. Bakersfield, Kern Co., Cal. Engineering Dept. of the Esperanza Oil. The building will be designed for company hotel. There will be an air heating system. The exterior of the building will be covered with terra cotta. The plans are complete and figures are being taken.

**School**—1 and 2 story and base, brick, \$12,000. Bakersfield, Kern Co., Cal. Architects Thomas B. Wiseman and Charles H. Biggar, associated, Producers' National Bank Bldg., Bakersfield. Owners City of Bakersfield. The building is designed for a mechanical arts building in connection with city's present high school. The exterior will be of pressed brick. The plans of the architects have just been accepted.

**School**—2 story and base, brick, \$10,000. Taft, Cal. Architect Orville Clark, Bakersfield. Owners Taft School District. The plans for this building have just been accepted by the board. The building will contain four classrooms on each floor, besides a library, auditorium and teachers' rooms. The exterior will be of cement on terra cotta walls. The plans will be complete

bids will be called for in about two weeks.

**Convention Hall**—2 story and base, reinforced concrete, \$35,000. Fresno, Fresno Co., Cal. Architect C. K. Kirby, Fresno. Owners City of Fresno. This work has been mentioned here before when the bids for the construction were first called. The figures have been opened by the City Trustees and found to be above the estimate. The architect is now revising the plans, and the figures will be taken at once. The lowest figure received was for \$45,000.

**Brewery**—4 story and base, concrete and brick, \$65,000. Bakersfield, Kern Co., Cal. Architect's name not given. Owner Joseph Baumgarten, Bakersfield. This building was mentioned here two weeks ago when the owner first called for figures. Only one figure was submitted, that of F. J. Amweg of San Francisco, and the owner has extended the time for taking figures.

**Reservoirs**—2, reinforced concrete. Cost not stated. Engineer B. D. Vail, S. F. Owners Associated Oil Co. Contractors Mahoney Bros., Crocker Bldg., S. F. Contract price not stated. The reservoirs will each have a capacity of 750,000 barrels of oil. The Mahoney Bros. have the contract for the excavating only. Bids are being taken for the steel work and concrete work by the engineer.

**Water System**—Cost not stated. Bakersfield, Kern Co., Cal. Engineering Department Western Water Co., Bakersfield. Owners Western Water Company. The company has let the tracts within the last few days for \$160,000 worth of material for their new system in the Midway District. Bids are now being taken for the excavating, laying pipes and for the construction of two pumping plants of 250 horse power each. Two more pumping plants will be constructed in the near future.

**BUILDING CONTRACTS AWARDED.**

**SAN MATEO COUNTY.**

The plans are complete and the work has been started under the Day Labor system, the architect purchasing all materials.

**Residence**—1 and 2 story and base, frame, \$10,000. Seattle, Wash. Architect Julian Everett, Walker Bldg., Seattle. Owner H. B. Ames. The dwelling will contain 11 rooms and two baths. There will be a hot water heating system. The interior will be finished in pine and hardwood. The exterior will be of stone and rustic. The plans are complete and bids will be called for at once.

**Hotel Alterations**—\$35,000. Seattle, Wash. Architect P. A. Baillargeon, New York Bldg., Seattle. Owners Place Hotel Co. The alterations will consist

of the addition of about twenty baths and the installation of hot water in every room. There will be a grill and additional barber shop facilities added. The plans are now ready for figures.

**Warehouses and Storage Tanks**—Concrete and brick, \$1,000,000. Richmond Beach, Kings Co., Wash. Architects Engineering Dept. Standard Oil Co., Sheldon Bldg., S. F. Owners Standard Oil Co. The northern manager, Mr. McLean of Seattle, states that the company has authorized the purchase of 47 acres of land, and that the plans for extensive improvements are being made in the San Francisco office. There are to be two reinforced concrete tanks erected at once at a cost of \$55,000 each, and several brick warehouses. The work will be figured in both San Francisco and Seattle.

**Hospital Addition**—3 story and base, brick. Cost not stated. Boise, Idaho. Architects Tourtellotte and Hummell, Boise. Owners Alphonse Hospital. The plans for this addition have been completed. Bids will be taken at once. The equipment throughout will be modern and will include complete hydrotherapeutic apparatus.

**Hotel and Stores**—6 story and base, reinforced concrete, \$150,000 to \$200,000. Seattle, Wash. Architect John Graham, Lyon Bldg., Seattle. Owner Amos Brown Estate (represented by H. Singleton). The plans for this building have just been started, and other than the fact that it will cover a site 35x120, no details of construction can be given. The plans are to be rushed to completion and the work undertaken this summer.

**Reservoirs**—2, reinforced concrete. Cost not stated. North Yakima, Wash. Engineer L. M. Rice, Central Bldg., Seattle. Owners Klickitat Irrigation and Water Co. The engineer has completed plans for two reservoirs, one of which will be 130 feet high and the other 230 feet. The construction will be very heavy. The plans will be figured within a short time.

**Stores and Offices**—18 story. Class A construction, \$400,000. Seattle, Wash. Architects (an Eastern firm, name not made public.) Owners W. D. Wood, of the Trustee Co., Central Bldg., Seattle. The building will be in the form of a square tower. The owner states that nothing in the way of construction will be undertaken until next year.

### Contracts Awarded.

**School**—3 story and base, brick, \$60,000. Corvallis, Ore. Architects Bennes and Hendricks, Portland. Owners Oregon Agriculture College. Contractors J. S. Winters & Co., Portland. Contract price \$61,000.

**Stores and Offices**—5 story and base, brick and steel, \$100,000. Seattle, Wash. Architects Howells and Stokes, Henry Bldg., Seattle. Owners Metropolitan Building Co. Contractors Stone-Webster Co., Seattle. Contract price \$150,000. The contractors will take sub-figures on all parts of the work.

### GOES SOUTH ON BUSINESS TRIP.

Frank Hudson, manager of the Hudson Plaster Block Co., is now in the south attending to several important pieces of work which that company now have under way in that section of the state. During the absence of Mr. Hudson all inquiries relating to the business may be referred to the Leonard Berrien Co., 1081 Monadnock Bldg.
