

Wikimedia Pre-Hackathon in Greece

Marios Magioladitis

Wikimedia Community User Group Greece

CEE Meeting 2017, Warsaw, Poland

23 September 2017

WIKIMEDIA
COMMUNITY USER GROUP
GREECE

What did we do?

- Contact with OKF and SheSharp
- Used WMF wishlist
- One single-event with amphitheater for talks and a large room for hacking
- 20' talks on Mediawiki, Phabricator, AutoWikiBrowser, Open Data
- Hacking covered MediaWiki, Pywikibot, Mobile, AutoWikiBrowser and documentation for rookies

What did we learn?

- Phabricator is not easy for newcomers
- WMF wishlist is not appropriate target
- More tutorials

Logistics:

- 150 attendees
- 85 participants
- Budget all covered by sponsors

These slides are part of “Wikimedia Hackathon goes CEE: What we learned from pre-hackathons across the region” prepared for Wikimedia CEE Meeting 2017 that took place in Warsaw, Poland.

The pre-hackathon was made possible thanks to **Wikipedia Österreich**.

Special thanks to **Claudia Garad** for organising the entire thing and her continuous support and help through all the stages of the pre-hackathon preparation and long after it.
