Chief, Service Group
Commanding Officer,

Commandant GG School

YAMAZU, ZEN-E
Superintendent 1st Class
Chief, General Affairs Section

1. In order to clarify the command relationship of Camp and Unit Commanders, the following decisions, to be regarded as directive in nature, are published for the guidance of all concerned:

a. The commanding officer of the senior line unit in each camp will be appointed the camp commander in addition to his duties as unit commander. The exception to this principle will be in those instances where the camp is primarily a Service Group installation and a line unit junior to the senior service group may be present. In that case the Commanding Officer of the senior service group unit will be appointed the Camp Commander. The foregoing does not apply to camps in an exempted status such as Camp McKnight or Camp Kurihama. Command relationships at such camps will be clarified in other instructions. Line units will be understood to mean Ordinary and Special Units and Engineer Units of the ordinary region.

b. The Camp Commander will command all units at his camp subject to the limitations imposed in paragraph 1c below.

c. There will be attached to the senior line unit at the camp all other units stationed at the camp. This attachment will be for all purposes except training, which will remain a responsibility of the parent unit, and technical operations of Service Group units which will come under the supervision of the senior headquarters of the technical services concerned. In the case of service support units organic to a region or regiment, the same principle will apply. Disposition of matters relating to appointments, assignments, temporary retirements, retirements, dismissal, and disciplinary actions will be in accordance with appropriate NPR regulations. For Service Group Units attachments will be accomplished by attaching units of the same technical service to the senior of such units and then attaching this senior technical service unit to the senior line unit

at the camp. At service group installations, established or to be established, where the Camp Commander is the commanding officer of the senior Service Group unit in the camp, the same principle of attachments will be followed. For purposes of fixing responsibility for training of Service Group units, the senior headquarters in each technical service will be considered to be the parent unit of that technical service. Parent unit, as the term is used here, for each type of service unit is shown in inclosure 1. Final responsibility for the training of all Service Group units rests with Service Group Headquarters.

d. In those instances where the senior line unit at a camp is a battalion, the battalion will not be detached from its parent unit but will come under the command of the parent unit on all matters. As camp commander the commanding officer of the battalion in such instances will issue necessary orders for the operation of the camp.

2. Detailed responsibilities of Camp Commanders will be covered in separate communications.

3. The command relationship at Camp Hakodate will be the subject of a separate communication.

Chief, General Affairs Section

This letter confirms telephone conversation of 10 May 1951 at which time you were given the following instructions:

1. The Small Unit Training Program will be extended for two additional weeks, through 2 June 1951.

2. Training programs for this interim period will be prescribed by the Chief of each Region, Chief of the Service Group, and by the Commanding Officer of Camp McKnight. Programs will include Small Unit Training Program subjects in which personnel are deficient and which were inadequately covered due to training time lost in movement of trainees.

3. Five copies of the implementing programs, to cover the 2-week interim period, will be forwarded so as to reach this headquarters, attention Operations Division, not later than 1 June 1951.

4. Reports on Form NPR 101 will be continued during this period.

11 April 1951

1. Recommend that the following be added to par 3.f. of letter:

"(7) Safeguard NPR funds on hand.

"(8) Safeguard disbursing facilities at Advanced and Partial Advanced Funds Accounting Offices."

2. The attached proposed letter requiring a monthly report of field installations of NPR apparently has not been staffed with the Comptroller's Division-NPR for the assignment of a Reports Control Symbol.

3. The letter is addressed to Chiefs, All Regions, with a copy to Commanding Officer, Camp McKnight. In this form, it is not understood whether or not a report is desired concerning Camp McKnight. Should a report be required of Camp McKnight, it is recommended the letter be addressed formally to the Headquarters Commandant, Camp McKnight. In the event report is not desired of Camp McKnight, no apparent benefit is seen to sending a copy of the letter to the Commanding Officer, Camp McKnight.

4. Recommend that the proposed letter be returned to Operations Division/CASA, and in turn to the NPR GG Hq Division concerned for completion of proposed document, and staffing for Reports Control Symbol number.

----- P.A.F. -----

FROM: Operations

TO: Executive

DATE: 17 April 1951

1. Do not concur in comments of Comptroller for reasons shown below:

a. Par 1 - Basic letter is intended to obtain information concerning the security measures instituted in each camp for the safeguarding of ammunition and weapons. The additional items indicated in basic letter such as fire protection, identification of individuals, and interior guard have a direct relationship to security of weapons and ammunition. If such items as safeguarding NPR funds are included in the letter, then it appears equally as logical to extend the scope of this letter to include security of vehicles, gasoline and oil, food, water supply, files in headquarters buildings, and prevention of sabotage.

b. Par 2 - Basic letter was staffed in NPR. NPR Comptroller did not have a reports control symbol system established applicable to this letter. It was agreed, therefore, that no symbol would be provided for this report. A second staffing has been completed and the comptroller again states he is not prepared to furnish a reports control symbol for this report.

SUBJECT: Security (Cont'd)

c. Par 3 - Paragraph 2 of basic letter states in part that a monthly report will be submitted for each camp. A copy of the letter to Commanding Officer, Camp McKnight, appears to be adequate notice for compliance. This procedure has been in use for some time and no questions have ever arisen in the past as to the intent.

d. Par 4 - See paragraph 1b above.

2. Recommend concurrence in basic letter as written.

MEMORANDUM FOR RECORD:

Senior Advisers of all NPR Regions were given the following message by telephone, this date:

"In the event of serious injury or illness of NPR personnel, where it appears that evacuation to a hospital in another area is advisable in order to insure necessary and appropriate treatment, this section, attention Executive, will be notified promptly. In a recent vehicle accident which resulted in the death of two patrolmen and serious injury to five others, the condition of the seriously injured became aggravated because of the lack of necessary medical and surgical attention due to the absence of suitable local hospital facilities. This section, by arrangement with FEAF, was able to provide for the evacuation of the seriously injured personnel by air to a hospital where required treatment could be obtained. Requests to this section for assistance in obtaining other than normal transportation for evacuation or removal of NPR personnel need not be limited to cases involving only serious illness or injury but may cover any emergency where it is felt that transportation of personnel by fastest means is justified. Requests for assistance from this section in obtaining air transportation will be made by telephone and will contain a brief description of the circumstances prompting the request."
