**1st-Lt. Comdr. M. T. WHITTIER, USNR, led this strike against every installations on OKINAWA Shim. The targets selected were storage facilities and installations in and around the town of Nakasa. A probable gasoline storage area was bombed, and, as a result of the attack, hits were scored, causing flames to cover a block square area. In addition, explosions continued to occur in the area after the bomb hits. This indicated the detonation of ammunition left in the area. When the pilot left the area at least 12 fires were observed in the town.**
