NEW RECORD IS SET IN SIGNING NEW C. OF C. MEMBERS

Twenty-four Are Secured for Presentation at Luncheon of Directors Today

Twenty-four new members were accepted by the board of directors of the Glendale Chamber of Commerce at their weekly luncheon this noon and it is said that this number established a record for the 1922 campaign.

In addition to committee reports, two communications were read, one from Congressman Walter F. Lineberger asking the local chamber to back him in an effort to obtain an additional government hospital for southern California.

The representative in congress from this district wired that \$17,000.00 for a tubercular sanitarium at Palo Alto was provided for in the Langley bill and it was his belief that this district was much more adapted, from the standpoint of climate, to aid the service men in recuperating.

P. E. Denies Request

The Pacific Electric denied the chamber's request for electric wig-wag signal bells and lights at their intersection of Central, Pacific and Grand View avenues on the Burbank line through western Glendale. D. W. Hantus, general manager, set forth the reasons for refusal of the request.

Petitions were presented the board asking for a three delivery mail service in the business district each day. The chamber will have these petitions circulated among the business men. Robert Cavenagh, representing the La Brea Exposition enterprizes, was present.

Following is the banner list of applications for membership:

Favor Bus Line and Score Telephone Tolls

Indorsement of the proposed bus line to Los Angeles, indorsement of the bond issue for \$600,000 to erect a modern high school plant and condemnation of the telephone toll to Los Angeles were the principal actions taken last night in the auditorium of the Broadway school at the monthly meeting of the Eastside Welfare Association.

"This organization is prepared to give material aid to any legitimate project that promises to remedy the condition complained of," states the resolution in regard to the Pacific Electric, "and particularly will give its support to any motor bus service that may be established to convey passengers between the Eagle Rock car line at its Verdugo road crossing and the eastern portion of Glendale."

"The Glendale Welfare Association appeals to the Glendale Chamber of Commerce to renew or continue its efforts to secure the elimination of this charge, which is daily working an injury to the people of this community," states the resolution in regard to the telephone tolls.

ANY OLD CLOTHES? ORPHAN CHILDREN IN GREAT NEED

Bundle Day for Near East Relief Thursday; Look for Old Discarded Garments

What promises to be one of the most successful local efforts for the relief of orphan children and refugees in the desolated Near East was launched last night when hundreds of students of Glendale schools, working under the direction of the Near East relief committee, telephone Glendale 1513-W, distributed to householders printed appeals for the "skeletons in your closet," that is, castoff, yet serviceable garments and shoes.

The appeal, in part, follows: "Bundle up your bundle and share your spare clothes and deliver them to your neighborhood school building on Thursday, April 6, Glendale 'bundle day.'"

"The earnest co-operation of citizens both young and old is solicited in the name of a half million suffering people in the Land of Want."

Clothing is Needed

Next to food in the famine and war-torn region, says the local committee, the greatest need in the Near East is clothing, as the climate there is very severe in winter and but little clothing has been brought into the country during the past six or seven years except that which has been contributed by America and distributed by Near East relief.

Appeals for clothing and shoes are being distributed early in the week so that families may have two intervening days in which to make up bundles. On Thursday, Glendale "bundle day," school children are requested to collect the bundles in their neighborhood and bring them to the school yard, where a place will be set aside for them.

Donors of bundles of used clothing and shoes on Thursday are asked to wrap bundles securely and attach the tag given by the worker before delivering the packages to school buildings.
The committee urges that each recipient of the appeal for clothing and shoes act now. It takes but little time to make up a bundle and send it on its way.

For information call Rev. R. W. Mottern at Glendale 1513-W.

Money Being Received

Cash contributions with which to purchase foodstuffs for early forwarding from Los Angeles are being received by E. E. Osgood, treasurer, N. E. R., First National Bank.

"It seems almost an impossible task to tell to the American people the true story of the American Old Clothes Bag in the Near East," says the new Near East Magazine.

"Used clothes have gone from America to Armenia, Palestine, Syria and Constantinople by thousands of tons. They have been used to clothe the children in the orphanages; to clothe thousands of refugees in camps as they bled through the towns during transportation; and to clothe refugees who have streamed into the cities from farms and villages devastated by wars."

NATIONAL HEAD OF P.-T. A. RECEIVES WELCOME HERE

Mrs. Milton P. Higgins Tells of Problems Facing Mothers of Nation; Urges Action

The First District Convention of the Congress of Mothers and Parent-Teacher associations opened this morning at the First Methodist church, Kenwood and Wilson avenues, with over 450 members and officers of the various organizations of this district present, greeting at that time Mrs. Milton P. Higgins, president of the national organization, with the officers and members of the Glendale Federation acting as hostesses.

The convention was in charge of Mrs. H. A. Archibald, president of the district board, and opened with an invocation by Rev. C. M. Crist of the First Methodist church. This was followed by a short parliamentary law drill by Mrs. P. S. McNeill, district parliamentarian, and who is also a resident of Glendale.

The big message of the convention this morning was given by Mrs. Higgins in the president's council. Mrs. Higgins was introduced to the presidents by Mrs. Archibald and to the work of the national organization and the problems of the officers of same in uniting all of the Parent-Teacher associations into one large whole. She stated:

"The greatest opportunity that the world has ever had is now in the hands of the members of the organization. Although in emergencies we can turn aside to other things, such as during the World War, underneath is the one great call, which is 'humanity.' How are we going to lift it up so that there will never be any more wars?"

Great Opportunity

"The opportunity is great, the greatest the whole world has ever had. Why was it not thought in former years that training of children was the most important work in the world? The parents have been led to feel that they can turn over their work to the educators. The four big elements which go to make up a child's character are home, school, church, and state and nation.

"We have ten years of peace with us, ten years in which there will be no naval warfare, ten years to make another generation. It is up to you presidents to so work in your various places wherever you are, to work for your state and your nation to bring forth a generation of citizens who shall want civilization instead of war, who shall want peace. That is our main job, to make the characters of the citizens of the world."

REMAIN CALM AND TASTY WATER MAY BE PURIFIED

Dr. J. E. Eckles, City Health Officer, Says Every Effort Made to Clear Liquid

"If the people will just have a little patience, we are going to get the taste out of the water," remarked Dr. J. E. Eckles, city health officer, at a meeting of the city health department, held at the city council, the city manager and every "goldarned" person connected with the city administration is doing their "goshindgest" to clear up the situation, no matter what it costs.

"The water tastes just as bad at my place as it does at yours, and my wife is pulling out what few hairs I have left on account of the situation."

"The taste positively is not due to chlorine added to the water. Repeated chemical tests by expert bacteriologists, whose reputation is such that their word cannot be doubted, say that there is absolutely no free chlorine in the water."

Required By State Board
The amount of chlorine added by the local health department has been strictly in accordance with the requirements of the state board of health. Either we had to add some chlorine or cut out our canyon flow entirely. The amount used is only one and one-fourth pounds of liquid chlorine per million gallons of water.

Glendale Radio Fans! Get This—Talk by Major William T. Morgan on Why Men Fail To Be Sent Wednesday Night, 8:45 o'Clock

General Squiers, chief of the Signal Corps of the U. S. Army, introduces a new medium for receiving radio broadcasting, and also talking via the radiophone. He uses the electric lamp on the desk of the chief signal officer as the aerial. The broadcasted tones were sent out by means of the lamp. The usual standard receiving set and amplifier were used.

BETTER RESULTS BY WATCHING AERIAL, WRITER STATES

Expert Tells What to Do if Vibrations Are Blocked by Neighboring Mountains

By GEORGE VAN SANDS
Radio Editor The Evening News
A number of queries in today's mail are on the same subject, namely: Why do not the broadcasting stations in and around San Francisco come in as clear and distinct as other stations which are a considerable distance further away? One letter in particular, goes on to say, how the writer was in San Diego a few days ago and listened in on a musical concert sent out by the Colia B. Kennedy company of San Francisco. The reproduction was absolutely perfect and was much plainer than the writer had ever heard the same station from his own receiving set in Glendale.

I have consulted a number of radio fans on this subject and the consensus of opinion seems to indicate that the geographical position of the mountains to the north of Glendale, for some unaccountable reason, seem to block off the electrical vibrations coming through the air from San Francisco. Now, while this may be true, and the evidence seems to indicate that it is, do not for a moment become disheartened, because it is a positive fact that a good aerial will overcome seventy-five per cent of this trouble.

Look to Your Aerial
It is a fact that receiving outfit and operator considered equal and the same, San Diego can listen in on San Francisco with perfect results on an aerial that would not give the same results in Glendale. So, to overcome this, as stated above, simply look to your aerial, and either increase its height or length as seems indicated.

Speaking of aeriels, it may be of interest to know that Tanner & Hall, one of a firm of automobile dealers on South Brand boulevard, recently installed a receiving set in their office and are using for their aerial the common ordinary bell wire used on their night bell. They simply hooked on to this bell wire in its original position, and they are getting perfect results.

NATIONAL HEAD OF P. T. A. RECEIVES WELCOME HERE

Mrs. Milton P. Higgins Tells of Problems Facing Mothers of Nation; Urges Action

(Continued from Page 1)

"The little children in the schools now will be governing the state, nation and perhaps the whole world in ten years from now. For the coming generation we should bring up one that shall have justice, truth, honor, honesty and courage to carry out our convictions."

At the close of her inspiring address Mrs. Higgins was presented with a beautiful basket of roses and spring flowers. In responding, she stated that music and flowers both go together, both touch the soul.

"Although the music will die away and the flowers will fade, the thought in my heart will always be warmer," she said.

Reports of Presidents
The remainder of the morning session was given over to the reports of federation presidents of the district. Mrs. Archibald stated that this district has sixteen federations at the present time.

In the report for the Glendale Federation, Mrs. John Robert White, president, stated that there are eleven associations in this city, with a membership of 2657, an increase of 421 over last year.

Following the luncheon at noon the afternoon session began with the reports of the associations not federated. There were musical numbers and Mrs. Higgins' address.

A report of the luncheon and the glendale meeting will appear in The Glendale Evening News tomorrow.

Questions on Radio and Their Answers
Question—Will the ordinary telephone receivers that are used by the telephone companies do for a wireless receiving set?—C. S., Glendale.
Answer—No, they won't work very well. Rest assured that if they would there would be a lot of them missing from the telephones in homes, offices and telephone booths. These receivers are generally wound for only 75 ohms, whereas the wireless receiver is wound from 2000 ohms up.
Question—How much, if any, electrical current is necessary to run a receiving set, and is the current expensive?—A. M., Glendale.
Answer—No batteries or current of any kind is essential on the Crystal detector type of receiving apparatus, but on a regenerative vacuum tube outfit, electrical energy as supplied by a storage battery is necessary. The cost for this electrical current would amount to no more than the cost of the current as supplied by a storage battery used in the ignition system of an automobile.
Question—Is there any danger whatever of a home wherein a receiving set is installed being struck during a thunder storm?—B. C. L., Glendale.
Answer—Not the slightest danger. In the first place a thunder storm is exceedingly rare in these parts. An aerial, properly installed, would absolutely make the best kind of a lightning rod, the receiving set has to be grounded and the only damage such a storm could do would be that it might blow down the aerial.
Question—Am reading your articles with interest and note wherein you refer to a bed springs aerial. Am I to understand that you recommend that attaching a receiving set to the bed springs is all that is necessary in the way of an aerial?—L. B., Glendale.
Answer—Glad you brought this point up. Today's article will in a great way answer your question. To get the best possible results a good outside aerial should be installed, especially if you expect to tune in on broadcasting stations considerable distance away. A bed springs or almost any other makeshift device will do very nicely for stations close by, but radio fans who are getting the best results are using bed springs for nothing other than their original purpose.

INCOME TAX \$393,382,045

WASHINGTON, D. C., April 4.—Government revenue from income taxes in March amounted to \$393,382,045 including payment of 1921 payers of the first installment due on March 15, the treasury department announced. The reduction will be larger, probably, when segregation of the tax returns reveal that payments in many instances were in settlement of taxes for years prior to 1921 as the result of decisions by the treasury.

BANK IS HELD UP; FARMERS READY TO GIVE BATTLE

SOUTH BEND, Ind., April 4.—The Eau Claire state bank at Eau Claire, Michigan, near here, was held up by three bandits, two negroes and a white man, this forenoon. They escaped with \$2500 in cash. A posse of farmers quickly organized, gave pursuit and the bandits were headed off near Berrien Center, Michigan, when their automobile stalled in the mud, and abandoning the car, they dashed for a nearby woods. This wood is now surrounded and capture of the robbers is expected.

IRISH FREE STATE TROOPS AND MUTINEERS CLASH

DUBLIN, April 4.—The first clash between mutineers of the Irish republican army and Irish free state troops occurred early today when the Irish free state troops were attacked in two separate districts of the city by rebels. The mutineers opened fire with revolvers, which was returned by the soldiers supporting the Irish government. Finally the free staters charged with fixed bayonets, putting the rebels to flight. The free staters sustained no casualties. The casualties of the mutineers, if any, are not known.

ARMY OFFICER IS KILLED AT HOME OF FORMER JUDGE

OKLAHOMA CITY, Okla., April 4.—Lieutenant Colonel Paul Ward Beck, commandant of Post Field, Fort Sill, was shot and almost instantly killed here today at the home of J. P. Day, prominent Oklahoma City financier and until recently a judge of the state supreme court. Judge Day was being held following the shooting and it was said that a charge of murder would be formally filed against him. The shooting, according to police, came as the aftermath of a party held at Judge Day's home. The judge, leaving Beck in the house, took some of his guests home in his automobile. When he returned, the shooting is alleged to have taken place. Beck was a close friend of the Day family, it was stated, and had often visited at the home. He was prominent in Washington, D. C., society circles. About a year ago his wife died at Washington, it was reported here. Day refused to comment on the shooting. He was being questioned by the police. Mrs. Day, it was said, was nearly prostrated over the affair and no statement was obtained from her. According to one story told this afternoon, it was Judge Day's hand which held the weapon, but the shooting, according to a statement being investigated by police, was accidental. The weapon was discharged, it is said, as Day attempted to strike the army officer over the head, after he had found Mrs. Day struggling in Beck's embrace.

NEW YORK.—How would you like to be a judge at the finish of a 100-yard dash with Charley Padock, Morris Kirksey, Loren Murchison and Edwards, the British negro, coming out of their marks for the final heat?
The chances would be very good that you might boot one there unless you have the eye of a basilisk. Given an even break at the gun, this quartet would figure to come down to the tape so closely bunched that one might readily imagine them as running in quadruple harness.
And by the same token, the impending National League race figures to be a four-team race, from first to last, with the possibility imminent that not more than five games will separate the first and fourth runners at the wire. We have picked the St. Louis Cardinals to head off the Giants, Braves and Pirates for reasons that seem to us conclusive and sufficient. Yet the Cards can finish fourth and still avert the charge of having engaged in that pastime elegantly known as "doing a flop."
This should be Cards' year. They have the most impressive hitting ensemble in the major leagues, and a more consistent punch all down the line than the Giants and the McGraw entry has yet to prove that it will produce better pitching this season.
The Giants have fallen heir to the best infield in baseball today in obtaining Heinie Groh from the Reds, yet they were forced to give up George Burns to put the deal through and Burns is the lead-off man in the league in addition to one of its best outfielders and base runners.
However, you will have to prove the Giants' ability to repeat by their pitchers and that will be no easy feat, as the fellow said. Toney is nearing the end of his tether and does not figure to be as effective as of yore, while Nehf, the most consistent winner of the outfit, must be nursed carefully. He cannot be overworked because his snap delivers.

During the last two years rifle shooting among the universities of the country has become widely participated in. Intercollegiate rifle shooting—especially with the .22 calibre rifle—has come to stay and the present year finds colleges all over the country actually holding dual competitions both on local ranges and via the agency of the telegraph wires. In the latter case a match is arranged for which, in date, each team shoots on its own range and the results are telegraphed by each team to its opponent.
This latter style of contest has become an international factor as is instanced in the recent match between Yale of this country and Oxford of England. The shoot is the second annual one between these teams and Yale has won both times. Yale last year defeated Oxford 1,564 to 1,361, on targets suggested by Yale. This year the conditions and targets were suggested by Oxford and again Yale won, this time by a score of 740 to 708.
These long distance collegiate matches are becoming popular with colleges of the Pacific Coast. This year the same Yale team which defeated Oxford had a contest with the University of Washington of Seattle, Wash., and Yale won, but the scoring was so close that it was a "won by a nose proposition," as the scores of 499 by Yale to 497 by Washington indicate. Incidentally, it is the first intercollegiate contest lost by Washington this year, the

Many followers of outdoor sports wonder why it is that the game of lacrosse has not taken with the American public here as it has in one of the prettiest and fastest games in which athletes can compete, and is just the type one would think would have an appeal to the Yankee bleachers.
Aside from the other side of the Canadian border line, lacrosse simply is played in spots. At the present time the East practically has a monopoly of it. There was a time when the Pacific coast indulged, but it was spasmodic and sporadic at best and came and went something after the nature of a rash on the skin. There practically is no lacrosse now being played in the far west, as far as the United States are concerned.
Just how much interest in the game will be aroused with the arrival of the Oxford lacrosse team is problematical. Here it does not seem all likely that it will add any recruits to the game in this country. At least, not an appreciable number. As a matter of fact, the numbers who play lacrosse at the present time are but a drop in the bucket when compared with the participants in other outdoor sports of which baseball, golf, tennis and football are the leaders.
At this writing, the Oxford team is scheduled to play about a dozen games and it is more than likely that this number will be considerably augmented before the Britishers return to their country. Aside from playing in the United States, they will naturally invade Canada where they will meet with the most formidable competition they are likely to find on this continent.
Among the eastern colleges that play the game are Princeton, Harvard, Yale, Cornell, Pennsylvania and others, while the Crescent Athletic club of Brooklyn is a representative team of the continent, in a number of instances, the game has been in being for forty or fifty years, but the number of adherents have practically remained the same. Latest reports from the universities mentioned are to the effect that they are good teams and anticipate a good season of play.
The Oxford team, which is expected to arrive in this country in early April, will keep fit aboard during the voyage across in any way feasible. It is interesting to note that the game they will play against the Crescent team will be in the nature of a return match—a match that first was played 25 years ago, when the Brooklynites went to England.
In point of time the game has been played by them, the American teams seem to have the advantage for the reason that the Oxford-Cambridge annual contests only were inaugurated in 1903. Essentially a Canadian game, it probably has

MAKE PLANS FOR
LARGE BANQUET

Father and Son Gathering Will Be Held on April 18, at First Methodist Church

The board of directors of the Glendale district, Y. M. C. A., held its regular monthly meeting at noon yesterday in the private dining room of the Chamber of Commerce building, those present being David Black, J. S. Thompson, H. L. Finlay, C. W. Ingledue and Rex C. Kelley.
The reports of the treasurer, C. D. Lusby, and of the local secretary, Rex C. Kelley, showed the finances to be in good condition and the work of the past month full of activities of a varied nature.
Considerable time was spent in discussing plans for the coming "father and son" banquet to be held April 18 at the First Methodist church. Dr. Kleinsmidt, president of the University of Southern California, will be the speaker at that occasion. This will be the third annual Y. M. C. A. "father and son" dinner and it has been the one big stag affair of the year for the boys and their "dads."
Each year the boys put on a program of special interest. This time one of the groups, under the direction of Chester Weaver, is planning to give a demonstration of a radio-phonograph, letting the Glendale folks in on this hobby that is sweeping the country with such a storm of enthusiasm. The committee from this group which was appointed to look after the details of arranging this affair includes Charles Lee, Shirley Preston and John Wardell.
Bible Study Inquiry
The grammar school group of the Y. M. C. A. will hold their Bible study examination at the First Methodist church on Thursday of this week. This is an international affair, the Y. M. C. A. Bible study groups all over the country holding the examination at this time.
The Y. M. C. A. summer camp will be held this year at Catalina Island. The first camp, which will be for the older boys and those of high school age, will begin on June 10 and the second camp, for the younger boys, will begin July 14. The Glendale groups have their own camp at Pine Flats in San Gabriel Canyon, but, on account of the canyon being in such a shape on account of the heavy rains this year, it would not be possible to take provisions to the camp until the middle of June or later, so it was decided that this camp would be abandoned for this year and the offer of the Pasadena Y. M. C. A. for the use of their camp was accepted.

"Going good" is the report of the T. It is expected that every home in this vicinity will be thoroughly canvassed by the club members in their endeavors to sell ticket books to the theatre. Votes are based on their sales. Now is a good time to start, it is stated, if anyone wishes to share in the prize awards.

Certainly cricket cannot be placed in the same category as lacrosse from the viewpoint of the American player. Cricket never has appeared here for the reason that the intensive moments do not develop as is the case in football or baseball. There never was any hope for cricket here from the start and, like lacrosse, this game may be found only in spots in points in the field of American sporting activity.

BANKERS AND MERCHANTS SAY BUSINESS EXCELLENT
Spring Trade Is Steadily Increasing and Outlook for Summer Encouraging
SOUTHERN GATEWAY TO CITY BUILDING MANY HOMES

W. P. Murphy Store Is Growing Steadily

William P. Murphy started a furniture store at 1261 South Brand boulevard about eighteen months ago with a stock which he doubts totaled \$500 in cost. Every month the business has grown so that a similar amount has been added and today two storerooms are insufficient to care for the great patronage.

A brother, J. E. Murphy, and a brother-in-law, Walter Markham, and other efficient sales people aid in the conduct of the stores which boast of one of the largest lines of second-hand furniture and some of the best bargains to be found in a new line. The same applies in stoves and four of the best makes of kitchen ranges are handled by this enterprising merchant.

Two delivery cars are kept busy and the service given by Murphys includes setting up stoves, laying linoleum and repairing furniture. They work far into the night—an average of sixteen hours a day—to keep up to the demands of the business.

The Murphys came from Lansing, Mich., with the intention of establishing just such a store as they have. They selected the location because it is almost a mile from any similar establishment and in the heart of a most rapidly developing district.

Allan N. Fairchild's El Kildad Meg Real Vamp in Dog Society

El Kildad Meg is a gay dog! She likes the white lights, late hours, jazzy music and good food. She's the "vamp" who almost ruined the career of Judge Rumbauer of the comic strip.

Allan N. Fairchild says so. Yesterday her photograph was in a Los Angeles newspaper.

"And that ain't all," remarked Mr. Fairchild. "She won a championship at the Pasadena Kennel Show. Almost 500 dogs entered! First place? I should say not—three of 'em. And a couple of 'honorable mentions' beside. She's been in bench shows at Exposition Park, Riverside and the Crown City Kennel club, too."

Mr. Fairchild is a salesman for the local branch at 1737 South San Fernando Road of the W. A. Heitman Realty company. He now resides at 1036 Boynton street. When he lived at 224 Arden street, his kennel usually contained about twenty prize dogs.

Sandy McTavish, an imported Scotch terrier pup from Canada, also was entered in the show by Mr. Fairchild.

Says he: "These are the dog days, sure!"

W. A. Stilwell Has Charge Realty Office

W. A. Stilwell now is in charge of the Charles B. Guthrie Realty company's branch office at the corner of Los Feliz and Brand boulevards. He is a resident of 1107 Melrose avenue and is familiar with local property values.

Backed by a large experience in meeting the public, Mr. Stilwell is quickly becoming acquainted with conditions local to southern Glendale and he plans to offer specials every week in these columns for quick action.

This speed in deals promised by Mr. Stilwell is in the sale of homes that are priced right. There are many homes ready to invest if they can get what they want, he adds. This will be interesting news to many southern Glendale builders.

Many Homes Receive Composition Roofing

Hundreds of homes are being roofed this spring season by the Bentley-Schoeneman crew, it is reported. Now is the ideal time to have the work done and save a part of old composition roofs. The summer sun has a deteriorating effect on cracked coatings.

Good guarantees are given on work which looks as substantial as the roof of Gibraltar and every homeowner should take due care that next fall will find him with a roof over his head that doesn't leak.

HORSEMAN COMING SOON

H. B. Renwick of New York City, one of the best amateur horsemen in the United States, is expected to spend a few days with Mr. and Mrs. Allan N. Fairchild at their home, 1036 Boynton street, as soon as he has finished judging the Santa Barbara horse show. Mr. Renwick had charge of the remount division of the quartermaster corps in France and supervised the sale of numbers of army horses after the signing of the armistice.

TOM ROGAN GOES EAST

Tom Rogan, manager of the grocery department of the Gateway Market, left Sunday morning for St. Louis on a business trip. He expected to be gone three weeks. During his absence, F. W. Franklin of Franklin & Spafard, proprietors of the grocery department of the Gateway Market, will be on the job. Said he: "The weather is fine, business is good and everybody is happy."

CLOSE DRESSMAKING SHOP

Mrs. Rebecca Dunsford of 1508 Gardena avenue has closed her dressmaking and cleaning shop at 1500 South San Fernando Road. The exterior of the building has been painted French gray by its owner, George E. Schram of 1224 South San Fernando Road.

VISIT SAN PEDRO SUNDAY

Mr. and Mrs. Robert Danner and their daughter, Miss Dorothy Danner of 1431 Gardena avenue, were visitors in San Pedro Sunday. Mr. Danner also attended the races.

RECEIVE BUNGALOW PLANS

Several new bungalow plans have been received recently, according to Don Glin, manager of the service department of the Bentley-Schoeneman Lumber Company at 460 West Los Feliz road. He reports the sale of many plans lately and public approval of the built-in devices endorsed by this company. These include folding ironing boards, breakfast nooks, and closed beds. He says if Glendale prosperity continues every new home will require a built-in safe, too.

The foundation is now ready, but Mr. Murray for the reason mentioned, has no idea when his family will be able to move in.

Circus and Wild Animal Show to Present Many Features Pleasing to Little Folks

Well! Well! See the bear! What is the bear doing? The bear is looking at the moon—or taking a drink of moonshine! Why is the bear doing that? Because the bear wants to see the moon shine—or is thirsty. How's great London Circus and Van Amburg's wild animals, exhibiting here on Friday, April 7, will present a decided novelty feature particularly pleasing to the little folks, "Cinderella in Jungland." This is only one of the many innovations contained in the all-star program and really pertains to the theatrical, rather than the circus world. Out of the atmosphere of the well known nursery tale steps "Cinderella," she of the slipper and dear to the childish heart. An army of people appear in a gorgeous musical spectacle introducing in appropriate jungle settings splendid specimens of practically every family of the wild animal kingdom. An excellent musical score, with brilliant lighting effects, combine to leave a lasting impression on the minds of the little folks. Other features, appealing to the little ones, will be the appearance here of the pair of baby lion cubs, "naive sons," too, having first viewed the light in winter quarters at Palo Alto on the occasion of the lion stork's visit to their jungle parents, "Romeo" and "Juliet." This occurred on January 10, 1922. They have been christened "Mitt" and "Bessie." A baby monkey is also a recently added feature in the circus kindergarten, fully entitled to birthplace. There will be ponies, pretty Shetlands, performing with a most human intelligence, monkeys who ride bicycles just like men; goats and dogs, carrier pigeons and many other acts of particular appeal to the juveniles. Clowns, thirty of them, come 'em! The world's greatest funmakers, headed by Kenneth Waite, greatest of original fun producers.

When a person speaks of Western avenue, they immediately think of the rapidly developing Los Angeles thoroughfare. And if they will investigate the road which leads over Mt. Therefore, the name of Vine street is being changed to Western avenue as there is another Vine street in Glendale. Along Western avenue the R. L. Kent company is developing the Glendale Gardens, a beautiful residential and business tract.

American Citizenship Topic Of Talk by Maj. W. T. Morgan

As part of the program of installation of officers by the Glendale Elks last night, Major William T. Morgan gave a talk on "American Citizenship." He said, in part:

"There is a great need for us to get down to bottom foundations in this matter of citizenship. A good citizen is a person who is willing to sacrifice his fortune and his life, if necessary, in order that the will of the majority be held sacred and prevail, and that, too, when he is in the minority. Unnumbered wars have been fought to gain this blessing.

"Majorities are not always right, but majority rule is the law of our land and a majority rule must prevail. Minorities have free speech and a free press, and if they think a majority wrong they are at liberty to wail ever by those peaceful means the majority.

"A good citizen first obeys the will of the majority and protests later with his free speech and priceless ballot. A good citizen will honor, obey and support the existing government under which he lives whether he personally likes it or not. The existing government may not be his choice but it is the choice of a majority and was elected to our offices and no good citizen will criticize harshly or slander those of another party.

Willing to Offer Life "Any man not willing to defend this nation with his life, if necessary, should be deprived of its protection and blessings. A good citizen will obey the laws of the land even though he does not like them, or if they work a hardship on him, or if they interfere with his pleasures or business.

"The laboring man who defies the law he does not like and uses direct action to draw attention to his opposition, we call a bolshevik and an anarchist. What shall we call the wealthy man who disregards and disobeys the law he does not like? "He is a bolshevik, also, and a more dangerous one than the one with a bomb in his hand. We are prone to criticize and denounce severely a law we do not like; yet we are bound to obey it, and if it is a citizen will make it his business to see that other men also obey the law.

"Many will not tell what they know of lawbreaking, they will not back up the officers of the law in the discharge of their duties. We could decrease lawbreaking one-half in three months were men and women fearlessly to tell all they know of lawbreaking and back up the law as they should do.

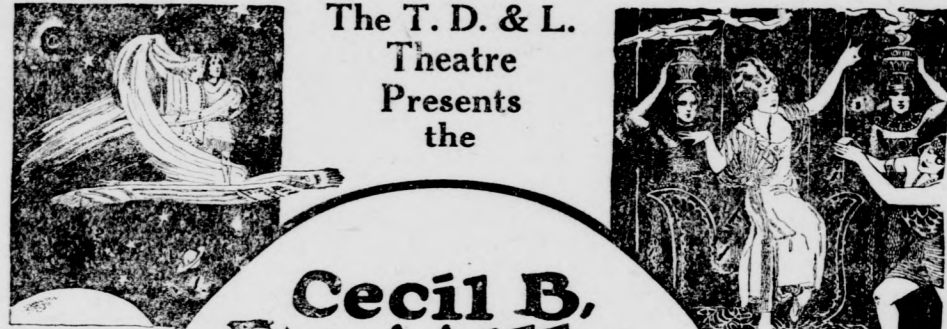

"A good citizen will enter politics and take an active part in civic affairs and will see to it that the best men are nominated for office. Many good people excuse themselves from entering politics on the ground that politics is a dirty business, forgetting that it will always remain so until clean men and women take a hand in it.

"If those men who have been elected to office are inefficient or corrupt a good citizen will do his best to expose them and defeat them, but while in office he will uphold their hands in the discharge of their lawful duties. None but real slackers will refuse to vote at election time because of the battle of the ballot we preserve our liberties, and by proportion as every citizen votes, is America safe."

ELABORATE PICTURE, 'FOOL'S PARADISE' SHOW TODAY

Cecil B. DeMille, Film Genius, Has Prepared Wonderful Attraction, Declared

Emphasizing the facts of importance about "Fool's Paradise," Ralph Allan, manager of the T. D. & L. theatre, where this greatest of all Cecil B. DeMille's productions will be shown beginning today, has the following to say:

"It is a magnificent photographic achievement and one of the most elaborate and artistic productions ever made by Cecil B. DeMille, master producer."

"It is massive and beautiful, the story is appealing and the characters are portrayed by distinguished screen favorites."

"In these respects the picture is alone in its class. It will please the old and young alike because of its beauty as a spectacle that carries one from France to Mexico and thence to Siam."

"It contains settings of unexampled magnificence so that it may be classed as one of the most superb spectacular screen offerings of the decade."

"Don't miss it—and as a suggestion, come early."

Genius Well Displayed
With each succeeding production, one of the most conspicuous picture producers in the world proves his incomparable mastery of screen technique. Years ago, Mr. DeMille promised the American motion picture public that every picture produced by him would excel its predecessor in artistry and popular appeal, and he has kept his word. In his latest Paramount production, "Fool's Paradise," his directorial genius and art are exquisitely expressed; and in point of theme, cast and settings and universal appeal, it outranks any of his previous productions. This is saying a great deal, but the facts justify the statement.

Union Label League Dance Fine Success

The April Fool's party and dance given last night in the Knights of Pythias hall by the members of the Women's Union Label League of Glendale proved a big success and was attended by over 150 couples. The hall had been decorated for the occasion with purple and white iris. This color scheme was also carried out in the refreshments which were served later in the evening.

A very enjoyable program occupied the first part of the evening and included dancing numbers by Mildred Thompson; piano solos by Raymond Wolf; piano and dancing numbers by Marion and Dorothy Hill. Later in the evening refreshments of ice cream and a large birthday cake were served. Although the orchestra which had been engaged for the evening failed to make an appearance, the volunteer pianist who furnished music for dancing was greatly appreciated. Music during the evening was also furnished by a grateful use of which was donated by the Kenny Music shop.

Child Actress Plays In Benefit for Legion

At the benefit performance given the Disabled Veterans of the World War, Doris Phillips, the vivacious child movie actress, has an important role in "The Dummy," which is the special attraction at the Tent Theatre tonight. Every mother as well as every youngster is interested in an unusually clever child, on or off the stage, and in little Doris they have not a "stagny" child, but a most delightful juvenile personality.

In tonight's play, Adria Alden, who charmed in "Peg O' My Heart," last night, will be seen to fine advantage in the role of a boy in "Kidnaped," around whom the story of the play revolves. Each of the big cast have exacting roles, and those who enjoy the thrilling and sensational will be more than delighted with this double offering tonight.

Aside from the worthiness of the event, the show is well worth double the small admissions asked, and the Tent Theatre likely will be filled to overflowing. As a diversion and distinctive novelty there will be a concert following the play, and an even dozen acts will be provided.

Frank Booth Objects To City Garbage Tax

Editor The Evening News: This is the third period that the people of Glendale are paying \$1 extra for a tag to fasten on the garbage can to insure the collection by the city of the garbage. We were told at first by the old city administration that the first three months was merely to tide over the city finance shortage. We paid up like lambs; the second installment just natural, like the first. Now this is the third, another pretty presentation card. When will it cease?

I do not think it is hygienic to allow this tax to be evaded by burying the garbage in someone's lot. Eventually this will create disease and an epidemic. If a tax is to be made, make it and let all share the burden. Why not let the garbage collection pay for itself? Hog raisers would take care of this and gladly pay for the privilege of getting it, and the residue makes fine fertilizer for the land.

Yours truly,
FRANK BOOTH,
318 E. Broadway.

'Our Players' to Give 'Don't Tell My Wife'

"Our Players," who appear in conjunction with the regular film program at the Glendale Theatre tonight, will present the great laughing farce comedy, "Don't Tell My Wife." With Herbert Bethew directing this superb cast in such a splendid vehicle there seems to be no question but what the theatre will be well filled. The serio-comic situations in the play are speeded into an hour. You will enjoy it.

COMMENT THAT'S ALL

Good Citizen Obeys Laws
Need of High School Bonds
Free Seeds 'Knocked Out'
Citizens' Training Camps
—By Gil A. Cowan—

"A GOOD citizen will obey the laws of the land even though he does not like them and they work a hardship on him, or if they interfere with his pleasures or business."

That poignant paragraph from the address of Major Morgan before the Elks' lodge last night is something worthy of consideration and comment, for an obedient citizenship makes possible the enactment of corrective legislation.

"A good citizen will make it his business to see that other men also obey the law," was another crashing thought driven home by the fighting major, who is doing his part now in aiding Colonel Everington's efforts to clean up Los Angeles.

It was a splendid demonstration Sunday when more than 1200 men in one church arose to assert themselves as being behind the chief of police of Los Angeles to make that city a better place in which to live. Fearless men and women, not night riders, are needed now. The day is past when mere threats, political patronage, unknown quantities will scare people into submission.

Now that registration is complete insofar as the May 2 bond election for the Glendale Union High school is concerned, it is time to concentrate on a campaign of education for additional facilities for the instruction of the youth.

Actually, it seems that the \$600,000 being asked for a new high school group is not enough for this thriving community. It may be necessary to personally convince some folks as to the necessity of the bonds, but a visit to the institution today, or any school day, will clearly demonstrate the advisability of voting "yes."

Free garden seeds get "knocked out." Yes, the house item of \$360,000 for free seeds was knocked out of the agricultural appropriations bill yesterday by the senate committee.

However, there are a few packets of seeds at The Glendale Evening News office which arrived before the "party" was spoiled, so, if you haven't planted your garden, call around.

Here's some news which should interest Glendale young men: Plans are now being completed throughout the entire United States for the establishment of citizens' military training camps for the instruction of qualified civilians and enlisted men of the regular army, national guard and the organized reserves. Similar camps were held last year and they met with such success that it has been decided to hold them in every section of the country each year.

These camps bring together young men of the highest type from every part of the state and place them upon a common basis of equality under the most favorable conditions of outdoor life. No more profitable vacation can be spent by a young man than at one of these camps where, at practically no expense to himself, he can learn the rudiments of military art and fit himself for a commission in the services of his country, should the necessity arise.

Two camps will be held in California, one at the Presidio of San Francisco, with accommodations for 950 students, with red, white and blue courses for infantry, cavalry, field artillery, air service, engineers and signal corps, and one at Fort Scott, with accommodations for 40 students, with white and blue courses for the coast artillery. Both camps will open on the sixth of July and close on the fourth of August, 1922.

Further information may be obtained by writing headquarters, 91st division, U. S. Army, Presidio of San Francisco, Calif.

Automatic Refrigerators Save Foods

Ice cannot melt without giving proper refrigeration in an AUTOMATIC

—it is one thing to put money INTO ice, but it is quite another thing to get your money's worth OUT OF the ice.

—Note above the eight (8) walls of insulating material in the Automatic. You are INSURED proper refrigeration for every bit of ice you buy. Cold, dry air circulating constantly makes your ice do its duty.

—Insulation like that in the Automatic is a question of HONOR with the manufacturer. Always look for the Automatic trade mark.

—Think of the ECONOMY! Think of the convenience; think of being saved from the annoyance of always finding the ice "gone."

—And—The Automatic Water Cooling System is the most wonderful convenience of all. Ask to see it.
