TO OUR PATRONS AND FRIENDS

January 1, 1926.

Alaska Peas
See page 23

We wish to thank our many customers for their patronage during 1925. In presenting this our 1926 catalogue we assure you that any orders entrusted to us will receive the best care and attention.

The following suggestions will enable you to fill out your order quickly and our shipping department will then be able to handle it with no loss of time.

Do not Delay Ordering until you are ready to use the goods you want. It will prove economical often to anticipate your wants. The loss of time in planting by delays of transportation companies, also advances in prices, should show the wise buyer that it is to his interest to order early.

Save Money. When you make out your general list of Seed, be sure to include Insecticides and Sprayers, also fertilizers, with your order; thereby you will be saving extra express or freight charges. Remember, when the bugs or insects appear on your crop, you need insecticides; then delay getting the remedy and sprayers may cost you ten times the cost of your purchase.

How to Send an Order. You will find in the back of this book an order sheet, perforated for tearing out; also an addressed envelope in which to send the order. When convenient, always use this order sheet. Please do not write anything on the sheet except items wanted and what pertains to the order. Write on separate sheet when asking for prices or information; this will avoid the possibility of being overlooked; also insure quick attention to information asked.

Please be careful to sign your name, postoffice, county, and state on each order and letter sent us. Each year we receive orders without name or address of sender.

Terms. All orders, to secure prompt shipment, should be accompanied with the cash. We can only send to well rated merchants, or parties well known to us, without the cash with order. When remittance falls short of amount of goods ordered, it is our custom to reduce the quantity sent, instead of delaying order by writing.

How to Send Money. By Post-Office or Express Money Order, Bank Check, or Draft, Cash by Registered Letter. We accept clean postage stamps for small amounts the same as cash.

C. O. D. Orders must be accompanied by a remittance equal to one-fourth the amount of the order; this insures the express or freight charges in case the goods are not taken when they arrive at destination.

Postage on Seeds. We pay the postage on packets, ounces, and quarter-pound packages; also where pre-paid postage prices are given. For large quantities, see parcel post rates in table given below.

Parcel Post Rates on Bulbs, Plants and Seeds. Seed rate, 2 ounces for one cent, up to 8 ounces. Above 8 ounces the local and zone parcel post rates are applied.

Prices on Field Seeds, Onion Sets, and Potatoes are constantly fluctuating. The prices given are those ruling at the time this catalogue is printed but they are not binding, and may change at any time. We will cheerfully quote prices at any time on request, and will always fill open orders entrusted to us at the lowest rates possible for our best quality seeds. It frequently occurs that the prices of articles may have changed between the time our catalog is printed and receipt of orders. When such is the case, if the article ordered is cheaper, we will send the value of such articles at the ruling prices. If the articles are higher, we will deduct the quantity to meet the amount of remittances. But in case you wish to limit your price, please so state on your order otherwise we will fill your order as we think best.

About Warranting Seeds. We exercise the greatest possible care in growing, buying, examining, and testing our seeds, and we try in every department of the business to guard against mistakes and insure reliability, and under certain conditions and with proper cultivation they will certainly grow good crops, yet no seedsmen can, or ever does in good faith, assume any responsibility for crops grown from seeds supplied by him, there being too many causes, known and unknown, which prevent good seeds from germinating. Therefore, in common with all responsible seed houses, we sell our goods subject to the following, and all orders sent us will be accepted under these conditions only: Job P. Wyatt & Sons Co. give no warranty, expressed or implied, as to growth, description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be responsible in any way for the crop.

To Those Who Have Never Planted Our Seeds.

We are very anxious that you send us a trial order this year, and we know that the fine crops our seeds produce for you will please you so well that you will send us your full order next year.

JOB P. WYATT & SONS CO.,
Raleigh, N. C.

Diversified Farming Pays Best

Vegetable Novelties

Make Gardening a Real Pleasure

Our Specialties offered here are varieties that will give satisfaction. Include a few Novelties in your order. The Novelties are new varieties and sometimes represent an entirely new class of vegetables. A great deal of the pleasure of gardening lies in discovering something new—and in being pleasantly surprised. These Novelties will help you win prizes at exhibitions—and will certainly excite the wonder of your friends.

Early Model Deep Red Beet

Fordhook Favorite Beans

A White Seeded Stringless Green Pod.

This is a green podded bean, perfectly stringless, with white seeds, which can be used for soup or baked beans all winter.

The bush grows from 18 to 20 inches high, with dark green foliage, producing an enormous yield of beautiful, meaty, almost round, green pods averaging 5½ to 6½ inches long. Ready for picking in 45 days. Pkt. 10 cts., lb. 35 cts., prepaid. Not prepaid: 3 lbs. 90 cts., 10 lbs. \$2.75.

Early Model Deep Red Beet

An excellent variety for Carolina market gardeners. Pkt. 10 cts., 1 oz. 15 cts., ¼ lb. 35 cts., 1 lb. \$1.25., 5 lbs. \$5.00.

Fordhook Favorite Beans

Speckled Pole Lima Beans

Is a mottled bean, white streaked and spotted red. The quality is excellent and it is a prolific yielder. Pkt. 10 cts., lb. 35 cts., postpaid; 10 lbs. \$2.75.

The "Yard Long" Bean

Asparagus Bean

Pods are nearly up to the name, often reaching a length of 30 to 36 in., but usually 18 to 24 in. Your friends will wonder at and admire your plants of this great bean, and they are of excellent table quality also, with a rich asparagus flavor. Do not be without this valuable curiosity. It is a pole bean of quick growth, with neat foliage, not attacked by insects. Pkt. 10 cts., ¼ lb. 50 cts., lb. \$1.50.

Davis' Kidney Wax Beans

It is a reliable and exceedingly heavy yielder, with the merit of maturing early and very evenly. The pods are attractive, being long and straight and of a beautiful waxy white that does not discolor in cooking. The seeds are pure white, kidney shaped and are excellent for cooking either green or dry. Pkt. 10 cts., lb. 35 cts., 10 lbs. \$2.50.

Jackson's Wonder Bush Lima

In habit of growth is very similar to Henderson Bush Lima. The dry seed is larger and mottled in dark red and brown. Pkt. 10 cts., lb. 35 cts., 10 lbs. \$2.75.

Martynia.

Tennessee Green Pod Beans

A green pod variety that is wonderfully productive. Pkt. 10 cts., 1 lb. 35 cts., 2 lbs. 65 cts.

Black Diamond Cucumber

A small extremely early, intense green variety. Pkt. 10 cts., 1 oz. 35 cts., ¼ lb. \$1.00.

Black Russian Cucumber

The smallest cucumber grown. Best for small pickles. Pkt. 10 cts., 1 oz. 35 cts., ¼ lb. \$1.00.

Golden Carmine Beans

Extra large beans. New. Try a few. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts.

Sure Crop Wax Beans

Stringless, rustproof, a good yielder. Pkt. 10 cts., lb. 35 cts., 10 lbs. \$2.50.

Sure Crop Wax Beans.

Martynia

The seed pods are used for pickling when gathered young and tender. Sow in open ground in May, in hills 3 feet apart each way, or in hot-bed, and afterward transplant. If once planted in the garden, voluntary plants are likely to spring up the following year from scattered seeds.

Proboscidea. Large size, with long horns. Pkt. 10c., oz. 25c., ¼ lb. 90 cts., lb. \$3.25.

Edwards' New Perfecto Cantaloupe

Nearly round and densely covered with a hard gray netting; flesh very thick and of a beautiful salmon color, shading into green as it nears the rind. Pkt. 10 cts., oz. 20 cts., ¼ lb. 50 cts., lb. \$1.25 postpaid.

Tip Top Muskmelon

Nearly round, deeply ribbed, moderately netted; flesh is bright salmon, thick and of good flavor. Pkt. 10 cts., oz. 15 cts., 2 oz. 25 cts., ¼ lb. 35 cts., 1 lb. \$1.25, parcel post paid.

Shumway's Giant Muskmelon

Salmon flesh, extremely large, almost round, no netting, and yellow when mature. Pkt. 10 cts., 1 oz. 20 cts., ¼ lb. 50 cts., 1 lb. \$2.25.

Pollock Muskmelon

The original pink meated Rocky Ford. Pkt. 10 cts., oz. 20 cts., ¼ lb. 60 cts., lb. \$1.75.

Edible-Podded Sugar Peas

Used in the same manner as wax beans

Giant Luscious Sugar (Salad Peas). Without an equal for sweetness and tenderness. Eaten either shelled or in the pod. This is the best of the edible varieties. May be sliced, boiled and served with butter and sauce. Pkt. 10 cts., lb. 35 cts., 2 lbs. 60 cts., postpaid. By express or freight, 5 lbs. \$1.25, 10 lbs. \$2.00.

English Peas

Market Surprise Peas. Will produce excellent peas of the finest flavor in 60 days. 1 lb. 35 cts., 2 lbs. 60 cts., postpaid. Not prepaid, \$3.00 per peck.

Squash, Banana

☐ This squash grows from one to two feet in length. The skin varies from a bright yellow to a dark olive green. Flesh firm and solid, of beautiful orange-yellow and excellent quality. When quite young it is excellent to cook as a marrow. Pkt. 10 cts., oz. 25 cts., ¼ lb. 85 cts., lb. \$2.50, postpaid.

Squash

Delicata. A small squash for both summer and winter use. Golden color mottled green. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts.

Cocozele. A wonderful new squash, 12 to 16 inches long. Try a few this year. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts.

Delicata Squash.

Radish, Johnson's Perfection

The best of the Red Turnip white tipped varieties. Market Gardeners will find ready sale for this brilliant scarlet white-tipped variety. Pkt. 10 cts., oz. 20 cts., ¼ lb. 50 cts., lb. \$1.25, postpaid.

Anaheim Chili Pepper

Anaheim Chili is desired above all others for culinary use because of its agreeable pungency. That is what makes it the best seller in the market and the best pungent variety for canning. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.50, lb. \$4.75, postpaid.

Edwards' New Perfecto Cantaloupe.

Golden Honey Watermelon

Oblong, white seed, yellow flesh melon, dark green with indistinct stripes, a very fine variety. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. \$1.25.

King and Queen Winter Watermelon

It is Russian in origin; round in shape, about the size of the Honey Dew muskmelon; the skin is a light cream in color with very faint irregular stripes of light green. It is very early, prolific and its edible qualities are excellent. The seed are quite small and very black. Average weight, 10 pounds. Pkt. 10 cts., ¼ lb. 50 cts., 1 lb. \$1.50.

Colossal Tomato.

Tomato, First Early

Best for the early market. For a first early money-maker it has no equal in the tomato line. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.75, lb. \$5.00, postpaid.

Tomato, Gulf State Market

The best of the early, purple-fruited varieties. Globe-shaped, very solid, free from cracking and productive. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.75, lb. \$5.00, postpaid.

Colossal Tomato

The largest of all. The finest quality. Often attains a weight of 18 ozs. to 2 lbs. Pkt. 10 cts., ¼ oz. 35 cts., ½ oz. 60 cts., oz. \$1.00.

SPECIAL OFFER

Any six 10-cent packages.....\$.50
 Any twelve 10-cent packages..... 1.00
 Do not fail to include some seeds listed on pages 2, 3 and 4.

New and Selected Flower Varieties

Inoculation for
Sweet Peas 50c

COSMOS

Anemone Flowered or Crown and Crested. These differ from the other cosmos in the formation of the center of the flower, which develops a crown or crest, like an anemone, the guard petals remain the same.

Crested Cosmos

Anemone. Flowered. Pink Beauty. Pkt. 15 cts.

Anemone. Flowered. White Queen. Pkt. 15 cts.

Klondyke. Wonderful Golden. Pkt. 15 cts.

Anemone. Flowered. Mixed. Pkt. 15 cts., 2 pkts. 25 cts.

WYATT'S GIANT ANTIRRHINUM (Snapdragon)

Blooms profusely and continuously during the early spring and summer; very showy in beds, and valuable for cutting. We offer greatly improved varieties, producing long stems and large flowers.

Rose d'Or. salmon-rose, shad-gold. Pkt. 15 cts.

White Queen. Pure white. Pkt. 15 cts. ¼ oz. 75 cts.

Brilliant Red. Pkt. 15 cts., ¼ oz. 75 cts.

Cottage Maid. Coral pink. Pkt. 15 cts. ¼ oz. 75 cts.

Golden Queen. Large; rich yellow. Pkt. 15 cts. ¼ oz. 75 cts.

Giant Mixed. Pkt. 10 cts. ¼ oz. 30 cts.

Antirrhinum (Snapdragon)
Golden Queen.

ALYSSUM

Saxatile Compactum (Gold Dust). A pretty Alyssum for rock-gardens and

for borders in perennial beds. The plants are 9 inches in height, and spread freely, and produce masses of bright yellow flowers in early spring, which serve to brighten up the beds until the later-blooming perennials come on. Pkt. 10 cts., ¼ oz. 25 cts., 1 oz. 85 cts.

DIDISCUS (Blue Lace Flower)

Pale lavender blossoms, exquisite. Pkt. 15 cts.

CANDYTUFT (Iberus)

Perennial Candytufts are excellent for rockwork and the edges of herbaceous borders. The foliage is evergreen and very pretty. The flowers appear in clusters in early spring and are very fragrant.

Gibraltarica. Large delicate lilac flowers blooming in May and June. 1 ft. Pkt. 20 cts.

Sempervirens. Pure white; blooms in April and May. 10 in. Pkt. 25 cts. Plants \$2.25 per doz.

VIOLA CORNUTA (Tufted Pansies)

A cross between violets and pansies, with flowers of large size, strongly perfumed. Almost as large as the pansy, and borne on longer stems. They are excellent for edging.

Mixed Colors. Pkt. 15 cts., ¼ oz. 50 cts.

MIXTURE OF
DOUBLE PETUNIAS

This is a mixture of the best large flowering and fringed double petunias. Seed is saved from plants grown in pots, carefully pollenized and will produce grand flowers. Of course, every one knows only a certain percentage of double flowers may be expected from seed, but our mixture will produce from 20 to 30 per cent of doubles, while the remainder will be choice, large single flowers. The weaker seedlings should be carefully saved, as those invariably produce the finest double flowers. Pkt., 200 seeds, 30 cts.

Double Petunias.

OENOTHERA

(Evening Primrose)

Excellent for exposed sunny positions. Pkt. 10 cts., ¼ oz. 45 cts.

LATHYRUS

(Everlasting or Hardy Sweet Peas)

Mixed Colors. 10 cts. pkt., 1 oz. 60 cts.

LANTANA

Verbena-like flowers. Good for cutting. Pkt. 10 cts., ¼ oz. 30 cts., 1 oz. \$1.10.

ACROLINIUM

A pretty "Everlasting."

Mixed Colors. Pkt. 10 cts., ¼ oz. 25 cts., 1 oz. 85 cts.

COBAEA SCANDENS

A rapid climber; also known as Cup and Saucer Vine. Pkt. 10 cts., ¼ oz. 25 cts., 1 oz. 85 cts.

PHLOX (Perennial)

Mixed Colors. Pkt. 15 cts., 2 pkts. 25 cts.

NEW FLOWERS FROM CALIFORNIA

Golden California Poppy. Pkt. 10 cts., ¼ oz. 40 cts.

Dahlia. Cactus-flowering. Pkt. 15 cts., ¼ oz. 50 cts.

Dahlia. Peony-flowering. Pkt. 15 cts., ¼ oz. 50 cts.

Wyatt's Dependable Vegetable Seeds

BEST FOR SOUTHERN PLANTING

We will send one large packet of ten different vegetables for 50 cents, post-paid.

INOCULATE THIS SEED WITH FARMOGERM

Palmetto Asparagus.

ASPARAGUS 1 ounce will plant 60 feet of drill

Sow in March or April, in rows 1 foot apart. When two years old, transplant into permanent beds, which should be well and deeply manured and trenched to the depth of 2 feet. Set the plant (in rows) from 3 to 4 feet apart and 2 feet in the rows, spreading out the roots and covering 6 to 8 inches. On the approach of winter, cover with manure, or compost; fork the beds early in the spring and apply a dressing of salt. Cut for use the second year after planting in permanent bed.

Palmetto. This is the favorite and earliest variety grown in the South. Pkt. 10 cts., 1 oz. 20 cts., $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.00.
Asparagus Roots. \$1.50 per 100, \$12.00 per 1,000, f. o. b. Raleigh.

ARTICHOKES

Jerusalem. Used for table and stock feeding. 30 cts. per qt., peck. \$1.50; \$5.00 per bu.

BEANS, Bush or Snap One pound will plant 60 feet of row; 100 pounds will plant an acre

For the earliest crop, plant just as soon as the weather gets warm—in this section, about April 1. To have a succession, plant every two weeks throughout the summer until the middle of August, or, farther south, as late as September 20. For field culture, plant in rows $2\frac{1}{2}$ to 3 feet apart, 3 inches between the Beans, covering about 2 inches. In small gardens the rows may be only 2 feet apart. Cultivate often until they blossom, not afterward, and never when the vines are wet. To prevent anthracnose, blight, mildew, rust and leaf-spot, spray early and frequently with Bordeaux Mixture. Will mature in 42 to 70 days.

Green Podded Varieties

Wyatt's Improved Red Valentine. Pods $4\frac{1}{2}$ inches long, round and crease-backed, medium green, brittle even when full grown. By freight or express or buyer paying postage. 5 lbs. \$1.25, 10 lbs. \$2.00, 100 lbs. \$18.00.

Bountiful

Black Valentine. Very hardy and productive; the green pods are fit for the table in 45 days. 5 lbs., \$1.50, 10 lbs. \$2.25, 100 lbs. \$20. Not prepaid. 500 lbs. at 16 cts.

Bountiful. The pods are from 5 to 6 inches long, large and flat. The seed is of medium size and of a solid, rich yellow color. 5 lbs. \$1.25, 10 lbs. \$2.00, 100 lbs. \$19.00. Not prepaid.

Burpee's Stringless. Early, hardy, vigorous, productive. Pods large, 5 in. long, stout, round and crease-backed; dark green in color, strictly stringless, tender and brittle; of good quality. 5 lbs. \$1.50, 10 lbs. \$2.50, 100 lbs. \$20. Not prepaid.

1,000-to-1, or Extra Early Refugee. Enormously prolific, and from its earliness is almost certain to produce a crop in any kind of season. By freight or express or buyer paying postage. 5 lbs. \$1.25, 10 lbs. \$2.00, 100 lbs. \$19.00.

All varieties postpaid prices, as follows: Pkt. 10 cts., $\frac{1}{4}$ lb. 15 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts, except as noted. Remember, these are Prepaid Prices.

Longfellow, or French Stringless. A round, solid, very early, green-podded Bean. Good quality, very tender and crisp, and exceedingly prolific. 5 lbs. \$1.50, 10 lbs. \$2.25, 100 lbs. \$20.00. Not prepaid.

Giant Stringless. Somewhat similar to Burpee's Stringless, but pod is a little longer, straighter and more slender; more depressed between Beans and slightly lighter in color; early, hardy, and of highest quality. 5 lbs. \$1.50, 10 lbs. \$2.50, 100 lbs. \$20.00. Not prepaid.

Full Measure. A new main crop variety of bush beans—a stringless Round Green Pod Bean. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., 10 lbs. \$2.50, postpaid.

Early Round Pod Six Weeks. Early sort for market. Good yielder. Pkt. 10 cts., lb. 35 cts., 2 lbs. 60 cts., 10 lbs. \$2.50.

Stringless Green Pod.

Improved Golden Wax

Improved Golden Wax. Probably the most popular of the wax varieties and one of the best. Early and productive, pods 5 inches long, very stout, straight or slightly curved, and oval in form; flesh brittle, stringless and of good quality; color bright yellow; seed white, much mottled brown. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, ½ pk. \$1.75, pk. \$3.00. 1 bus., 60 lbs. \$10.80.

Cabbage, or Crystal White Wax. A very beautiful, distinct, and desirable variety, producing pods of good size. Color waxy white and almost transparent; stringless, crisp, tender and of rich flavor. The pods develop quickly, but mature slowly and remain in condition for table use longer than any other variety. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid; by freight or express, 10 lbs. \$2.50, 100 lbs. \$22.

Cabbage or Crystal White Wax

Pole, or Cornfield Bean

These are much stronger growers than Bush Beans and require good, strong stakes. They give a much greater yield than Bush Beans, but being more tender, should never be planted before May in this section.

Use poles about 8 feet long and set firmly 4 feet apart each way. Plant five to eight Beans in a hill, 1½ to 2 inches deep. When well started, thin to four plants in a hill. They are sometimes planted in the hills of field corn.

Old Homestead, or Kentucky Wonder. The most popular green-podded climbing or corn-hill bean; early and productive. Pods 8 to 9 inches long; very slender decidedly curved; slightly stringy, tender and good quality. Pkt. 10 cts., lb. 35 cts., 2 lbs. 60 cts., postpaid. Not prepaid, 30 cts. lb., 5 lbs. \$1.25, 1 pk. \$3.00.

White Kentucky Wonder. A very early, white-seeded variety. Pods 6 to 7 inches long, round, slender and straight; very tender, fleshy and stringless; of high quality; color dark green. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. 1 pk. \$3.00.

Striped Creaseback Scotia, or Nancy Davis. Plants large, compact; vigorous grower; pods about 7 inches long, almost straight or slightly bent backward at the end, round, well filled, and of good quality. Pkt. 10 cts., lb. 35 cts., postpaid; by freight or express, 10 lbs. \$2.40, 100 lbs. \$21.50.

Lazy Wife. Good shell beans; long, thick, stringless pods. Crop very short. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., 10 lbs. \$2.75, postpaid.

Scarlet Runner. Ornamental, bright red flowers. Good snap bean. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., 10 lbs. \$3.00, postpaid.

Cut Short, or Cornfield. Very popular throughout the South for planting in corn. Pods fleshy and of good quality. A good yielder and well liked wherever grown. By mail, postpaid, pkt. 10 cts., lb. 35 cts., 2 lbs., 65 cts., 5 lbs. \$1.35, 10 lbs. \$2.25. By express, lb. 30 cts., 2 lbs. 50 cts., 5 lbs. \$1.20, 10 lbs. \$2.25, 100 lbs. \$17.50.

Kentucky Wonder Wax. It is similar in habit of growth to "Kentucky Wonder Green Pod," and bears as early, or when about as high as the average bush bean. Pods are beautiful golden-yellow, and so fleshy that often the thickness surpasses the width; make delicious eating. Pkt. 10 cts., lb. 40 cts., 2 lbs. 70 cts., 10 lbs. \$2.75, postpaid. Not prepaid, 30 cts. lb.

Striped Creaseback Scotia, or Nancy Davis Pole Beans produced more and better green beans during the severe drought of 1925 than any other sort.

We would call special attention to our lists of Farm Seeds, including Grasses, Clovers, Alfalfa, Wheat, Oats, etc., which will be found further on in this catalogue. These are all of the very highest quality, and we heartily recommend them to our farmer friends.

"The crop difference between an acre of regular Clover and an acre of FARMOGERM Clover will pay for the inoculation of 5 to 10 acres. See page 48."

Kentucky Wonder

Henderson's Bush Lima—Extra Early, Very Prolific, Best Quality.

Henderson's Bush Lima. The original well-known small Bush Lima. It is earlier, a larger yielder, and of good flavor. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, 24 cts. lb., peck 15 lbs. \$3.50. 100 lbs. \$22.00.

Pole Lima Beans

Will mature in 70 to 90 days

Wyatt's Improved Pole Lima. Much larger than the small lima and earlier and much more prolific than the large white Lima Beans. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, 25 cts. lb., 1 pk. \$3.00.

Small White Pole Lima. Also known as "Carolina" or "Sieva" Bean. A climbing form of the Henderson Bush Lima and very popular. This variety is a continuous bearer and furnishes the most tender and delicious Beans for the table. It's very prolific and a hardy grower for "butter beans" in the South. Pkt. 10 cts., ¼ lb. 20 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, 15 lbs. (peck) \$3.50, 60 lbs. (bu.) \$13.50, 100 lbs. \$22.00.

Carolina, or Sieva Pole Lima or Butter Bean.

Brussels Sprouts.

Bush Lima Beans

Will mature in 70 to 90 days

Lima Beans are sensitive to cold and should not be planted until all danger of frost is past. Require a rich, light, preferably sandy soil, which helps to mature the "Limas" quickly. Select a rich soil or use old, well-rotted manure. Plant in hills 2½ to 3½ feet apart each way and 5 to 6 seeds in a hill, or in rows 2 to 3 feet apart, 4 to 6 inches between the plants in the row and 2 inches deep. Draw the soil up along the plants, but do not work among the beans when wet, as this induces rust.

Prolific Bush Lima. A very good, medium-sized Bush Bean, larger than the Henderson Bush and not as large as the Burpee Bush. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, 25 cts. lb., 1 pk. \$3.00.

Burpee's Fordhook Bush Lima. A most excellent variety and exceedingly popular with market-gardeners. Pods about 5 inches long, containing four or five large, oval-shaped, very thick white Beans. Pkt. 10 cts., lb. 40 cts., 2 lbs. 75 cts., postpaid. Not prepaid, 35 cts. lb., peck 15 lbs. \$4.95, 100 lbs. \$29.00. 500 lbs. at 27 cts.

Burpee's Improved Bush Lima. Of enormous size, eight days earlier than the old Burpee's Bush Lima, and the Beans are larger and thicker. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. By freight or express, 10 lbs. \$2.60, 100 lbs. \$22.00.

Write for prices on 100 lb. lots or larger of any variety.

Fordhook Bush Lima

INOCULATE THIS SEED WITH FARMOGERM

BRUSSELS SPROUTS

One ounce will produce about 3,000 plants

Sow seed in a bed during June or July. When large enough to move, transplant in the open ground 18 inches apart in the row. The cultivation and handling is in every respect similar to that given cabbage. Matures in about 125 days.

The "Sprouts" resemble miniature cabbage, growing closely on the stalk of the plant. The leaves should be broken down in the fall to give the little heads more room to grow. They should be treated in all respects like winter cabbage or kale. Pkt. 10 cts., oz. 20 cts., ¼ lb. 65 cts. lb. \$2.00.

Eat More Beans

Beans of all kinds are one of the best and most nutritious forms of food for human beings. They are good both green and dry. They are easier to grow in the South than any other vegetable. Grow and eat more Beans.

Hammond's Slug Shot

KILLS CABBAGE AND CAULIFLOWER WORMS

1 pound carton with perforated top, 35 cts., postpaid.

By express or freight, not prepaid, 1 pound carton, 25 cts., 5 pound package, 60 cts., 10 pound package, \$1.15.

Ferns

All varieties, 25 cts., 50 cts., 75 cts. and \$1.00, each postpaid.

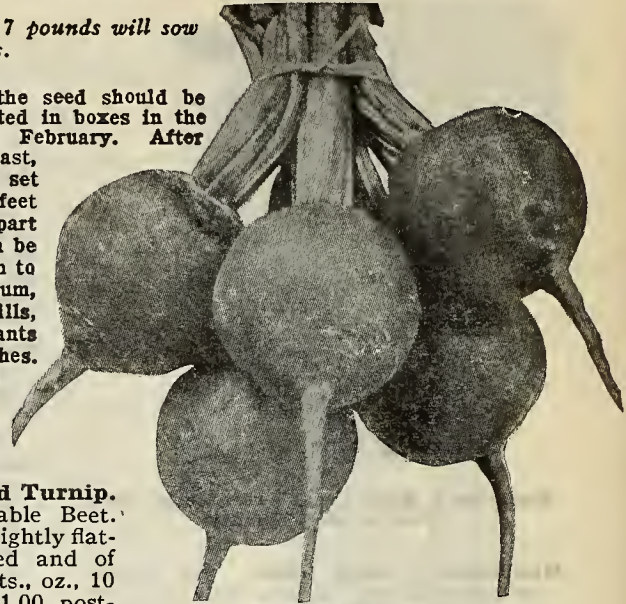

KILL RATS with BARIUM CARBONATE—35 cts. pkg. Write U. S. Dept. of Agriculture for Bulletin describing use.

BEETS Two ounces of seed will sow 100 feet of row; about 7 pounds will sow an acre. Will mature in 40 to 60 days.

Detroit Dark Red.

For very early crop, the seed should be sown in hotbeds or started in boxes in the house in January and February. After danger of frost is past, transplant and set them in rows 2 to 3 feet apart and 6 to 8 inches apart in the rows. Or they can be sown out-side from March to July, as desired for medium, early or late crop, in drills, covering 1 inch, and plants thinned to 6 to 8 inches. Beets should be grown in light, clean, deep soil and kept well cultivated.

Early Wonder Beets.

Improved Early Blood Turnip.

The old standard table Beet. Roots nearly round or slightly flattened, bright red, zoned and of good quality. Pkt. 5 cts., oz., 10 cts., ¼ lb. 35 cts., lb. \$1.00, postpaid. 5 lbs. at 85 cts.

Crimson Globe. Early; rich crimson; perfect globe; smooth and clean. Very attractive and a general favorite. Pkt. 5 cts., ¼ lb. 40 cts., lb. \$1.25, postpaid; by express, lb. \$1.15.

Detroit Dark Red. Here is a Beet you will like, whether you grow for home use or market. Almost globe-shaped, with small tops and tap-roots, very smooth and of dark blood-red color. The quality is fine and for canning purposes it has no superior. Pkt. 5 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.35, postpaid; by express, lb. \$1.00, 5 lbs. and over, 90 cts. per lb.

Extra-Early Eclipse. An early variety, with small top and medium-sized, round, bright, deep red roots. Flesh bright red, zoned pinkish white. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.00, postpaid.

Extra-Early Egyptian. One of the very earliest, with small tops; roots flat and moderately thick; very dark red; flesh dark purplish red. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.00, postpaid. 5 lbs. at 85 cts.

Long Smooth Blood-Red. Roots long, penetrating the soil deeply, but seldom growing more than 2 ins. in diameter. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.00, postpaid.

Crosby's Improved Egyptian.

Very early strain of the old standard Egyptian; small tops, good shape; popular with the truckers. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts., lb. \$1.10, postpaid; by express, lb. 90 cts.

Early Wonder Beets.

Deep blood-red; nearly globular in shape with a small root and top; one of the earliest and most uniform bunching beets that can be grown. Postpaid, pkt. 10 cts., oz. 20 cts., ¼ lb. 45 cts., lb. \$1.25.

Mammoth Prize Long Red Mangel.
(A good feed for cattle and poultry.)

Mangel-Wurzels

Also called Stock Beet, or Cow Beet, is a very large Beet, growing mostly above the ground, and all stock eats it greedily.

Plow the soil for it deeply, and in May, June or July plant six Mangel seeds to the foot, in 2- to 3-foot rows, later thinning to a 10-inch row, and an acre requires five to six pounds. When a light frost has occurred, lift the roots, store in pits or cellars, and the Mangels are soon ready for feeding.

Long Red. A large, long variety, grown for stock-feeding. It stands up well above the surface; color light red; flesh white and rose-colored. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.00, postpaid.

Swiss Chard, or Spinach Beet

One ounce will sow 100 feet of row

Giant Lucullus. The Swiss Chard, or Spinach Beet is prepared for the table in the same manner as spinach; sometimes, however, the midrib is prepared like asparagus. Seed planted early in the spring will quickly produce plants from which cuttings may be made in 24 days and continued all summer, as you can cut right down to the ground, and new shoots will soon spring up and make a fast growth, while those plants which are allowed to grow on without any cutting will make large curly leaves, with thick, light-colored midribs, which are delicious when cooked and served like asparagus. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.50.

Giant Lucullus Swiss Chard.

CABBAGE

One ounce will produce 2,000 plants; 6 ozs. will give enough plants for an acre.

For early spring Cabbage, sow one-quarter of an inch deep from the middle of September to the middle of October and when the plants are large enough, transplant. When a supply of plants has not been secured in the fall, sow in coldframes in December, or in a gentle hotbed the last of February. Give plenty of air at proper times, in order to harden the plants, and transplant in the open ground as soon as the weather permits. For a summer crop, sowings may be made in March until the middle of May. For winter Cabbage, sow Flat Dutch, Drumhead and Savoy from middle of May to last of July, transplanting when large enough; late Cabbage should be set 3 feet apart and not less than 18 inches in the row. It is useless to attempt the cultivation of this crop without deep and thorough plowing or spading and an abundance of rich, well-decomposed manure or suitable substitutes. Many successful gardeners grow cabbage without transplanting, sowing the seed thinly in drills or in hills, and afterward thinning to the proper distance in the row, or to one plant in the hill. Cabbage produces heads in 75 to 130 days.

Large, or Charleston Wakefield Cabbage.

Early Flat Dutch. Medium early, large, flat, solid heads. A reliable and popular variety. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.35, postpaid.

Winnigstadt. Medium early, for either early or late use. Heads hard, fine-grained, and cone-shaped. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.40, postpaid.

Glory of Enkuizen (100 days). Large, early, white, solid heads. Pkt. 10 cts., oz. 35 cts., $\frac{1}{4}$ lb. 85 cts., lb. \$3.00.

Volga (115 days). Good size, early, round, extra quality. Pkt. 10 cts., oz. 35 cts., $\frac{1}{4}$ lb. 85 cts., lb. \$3.00.

Perfection Drumhead Savoy. The largest solid-heading Savoy; has the rich flavor of the Cauliflower. The plants are strong and vigorous, and withstand the ravages of the cabbage worm better than other sorts. This is the best for market-gardeners, as it will produce larger heads than any other kind of Savoy Cabbage. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.75, postpaid.

Early Drumhead.

Early Drumhead. A good second early for the home-garden; large, round, very solid head. This we consider the best for following Charleston Wakefield; it matures about 10 days later. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.35, postpaid.

Large, or Charleston Wakefield. About one week later than the Early Jersey Wakefield, but the pointed head is fully one-half larger. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.40, postpaid, 5 lbs. at \$2.25.

Wyatt's Selected Early Jersey Wakefield. Long recognized as the best early marketable Cabbage. In size, medium; in shape, pyramidal with pointed peak. Its uncommonly fine heading qualities pleases the most critical gardeners. Our strain of seed is of superior quality, Long Island grown. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.40, postpaid.

Perfection Drumhead Savoy Cabbage.

Cabbage seed by freight or express, except where noted, 5 lbs. at \$2.25 per lb., 10 lbs. at \$2.15 per lb., 100 lbs. at \$2.00 per lb.

Danish Ballhead Cabbage.

Wyatt's Improved Danish Ballhead Cabbage

Heads hard, solid, tender and crisp. The leading late sort. Danish Ballhead is more largely grown for market than any other late variety, and without a doubt is the best of the late sorts. It frequently commands a higher price in the market than any other late variety. It is remarkable for the solidity of its heads and long-keeping qualities. The heads are of medium size, measuring from eight to ten inches in diameter, with few outer leaves, admitting of close planting; exceedingly fine-grained, hardiest of all, tender, crisp, solid, with no waste heart. Under fair conditions will average six pounds per head. Pkt. 10 cts., $\frac{1}{2}$ oz. 25 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.25, lb. \$3.50, 5 lbs. \$15.00.

New Copenhagen Market. Undoubtedly the best Cabbage for all conditions. Good for market-growing and home-garden. Heads medium sized, firm, and round. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 90 cts., lb. \$3.00.

Henderson's Succession. Is about 10 days later than Early Summer. Is a dwarf, flat head, light green, and very solid. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25, postpaid.

Premium Late Flat Dutch. A popular winter Cabbage. Large, solid, flat heads. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 65 cts., lb. \$2.35, postpaid.

All Seasons.

Premium Late Flat Dutch

All Seasons—Good Early and Late. One of the finest for second early or late, growing to a large size quickly and surely. The heads are extremely hard, solid, round, flattened at top. It is called "All Seasons" because it is good for autumn as well as early summer. Even under adverse conditions it is a sure header, and though planted late, it keeps well. Desirable for kraut. Ready for market in 110 days. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25, postpaid.

Henderson's Early Summer. A desirable, medium-sized, early, flat headed variety. A good keeper and does well in summer and autumn. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25, postpaid.

Autumn King, or World Beater. Heads large, solid, good quality, and keeps well. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25, postpaid.

Large Late Drumhead. Heads are solid and have few loose leaves, thus allowing of planting closely in the field and thereby increasing the number of heads produced. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25, postpaid.

Red Rock. The largest and surest heading red winter Cabbage, and the sort most generally planted by gardeners. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.50.

The sowing of cheap or spurious seeds is a most serious and unprofitable investment.

Plant Department

Our Sturdy Southern Grown Cabbage Plants are Tough and Hardy—They Mean Dollars to the Wide-Awake Gardener

Frost-proof Cabbage Plants.

The plants make a slow but steady growth, until at eight or ten weeks of age they are very tough, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and be planted in the open ground a month to six weeks sooner than the home-grown hotbed or coldframe plants. These **Frost-proof Cabbage Plants** will stand a temperature of twenty degrees above zero without injury, the land freezing, or the plants being covered with ice, sleet or snow after they are planted will not injure them.

The top of the plant does not grow until your regular Spring weather opens up, but the roots grow from the time they are planted, and just as soon as Spring weather starts, the established root growth assimilates the fertilizer in the soil, the plants grow very fast, maturing headed cabbage two to three weeks sooner than you can mature them from hotbed and coldframe plants. You know what the difference in profit will be if your crop is matured and marketed before the general crop from home-grown plants is matured.

Tomato Plant.

To get the advantage of these **Frost-Proof Cabbage Plants** they must be planted a month or six weeks earlier than you would plant home-grown plants.

Our cabbage plants are grown from the best Long Island grown seed. We can fill orders from November 1st to May 1st.

The plants when received will be somewhat wilted and have a hard, stunted appearance which will be disap-

pointing to persons who have never used these plants before. Regardless of appearance, they will produce the crop results. We do not guarantee delivery. Our responsibility ceases upon delivery of plants to post-office or transportation company.

HORSERADISH ROOTS (Ready in March)

Mallner Kren (Bohemian). Large, strong cuttings, 35 cts. per doz.; per 100, \$2.00; \$15.00 per 1,000.

If Horseradish are wanted by mail, add 10 cts per 100 for postage.

Varieties—Early Jersey Wakefield, Charleston Large Type Wakefield, Succession and Early Flat Dutch, Copenhagen Market and other varieties.

Prices by parcel post, postage paid, 50 cts. per hundred; 200 or more at 35 cts. per hundred.

Prices by express, buyer paying charges, 1,000 to 4,000 at \$2.50 per thousand; 5,000 to 8,000 at \$2.40 per thousand; 10,000 and over, \$2.25 per thousand.

Write or wire for quantity prices.

Terms, cash with order.

Strawberries for Home Use or Market.

We can also supply Nursery Stock, Shrubs and Flower Plants.

Chinese or Celery Cabbage, Pe-Tsai

Chinese Cabbage.

ones, is delicate and tender. **Pe-Tsai** should be of special interest to poultrymen; it is an economical and prolific green food. Sow early in the spring and again in July and August, transplanting 18 inches apart in 2½ ft. rows. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts., lb. \$2.50, postpaid.

Pe-Tsai. A wonderful salad plant, growing 15 to 16 inches high, somewhat resembling Cos Lettuce, or probably more like Swiss Chard. Cut up like Cabbage, and served with mayonnaise or French dressing, it makes a splendid coleslaw. Can be boiled like cabbage if cooked quickly and served with cream sauce, but is without the strong flavor and odor of Cabbage. The hearts blanch to a crystalline white, whiter than lettuce and more beautiful than Cabbage—every leaf, including the outside

CELERY

One ounce to sow 100 feet, will produce about 4,000 plants; 8 ounces to set one acre.

Sow seed in February, March or April, in rows of fine rich soil, and if dry enough, press the soil firmly with a roller or the back of a spade. Keep the seed-bed well watered, as Celery germinates slowly. When 4 inches high cut tops to make the plants grow stocky. Transplant from June to September, in rows 3 feet apart, 6 inches apart in the row. Matures from 120 to 160 days.

Winter Queen. The best winter Celery. It blanches easily, has a crisp, nutty flavor, is hardy and a splendid keeper. Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. \$2.50.

Giant Pascal. Thick, solid stalk, golden hearts; blanches quickly; keeps well and is of good flavor. Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. \$2.50.

White Plume. One of the best for early use; handsome; good quality; blanches easily. Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. \$2.50.

Golden Self-Blanching Celery.

Golden Self-Blanching. Not so early as the White Plume, but is of a heavier and more compact growth. Its stalks are thick, crisp, and brittle. Pkt. 10 cts., oz. 40 cts., ¼ lb. \$1.25.

Early Snowball

Cauliflower

One ounce will produce about 2,000 plants

For best success sow Cauliflower seed in hotbed or cold-frame during January.

Early Snowball. An extremely early dwarf variety, producing magnificent white heads in 90 days. The plants make a compact growth, with short outside leaves, and produce heads of medium size. Well suited for hotbed culture. Pkt. 20 cts., ¼ oz. 60 cts., oz. \$2.00, 4 oz. \$6.00.

CARROTS

Chantenay Carrot.

Sow in rich, sandy loam which has been well manured the previous year. The soil should be thoroughly pulverized before, because the seeds are very small, and there is danger of covering them too deep. Sow in drills 2 feet apart, at the rate of 1 ounce to every 100 feet of row. The time for seeding extends from early spring to the middle of the summer. Produces Carrots in 75 days.

Danvers Half-Long. The roots are smooth, 8 to 10 inches long, of a deep orange color. The flesh is fine-grained, sweet, and of the very best quality. This is an excellent variety either for the home garden or for the market. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. \$1.45 postpaid.

Chantenay. Suited to either garden or field culture. It has a medium-sized top, small neck, stump root and a broad, thick shoulder. The roots are of an orange color, and the flesh is of good quality. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. \$1.25 postpaid. Not postpaid, 5 lbs. \$5.00.

Improved Long Orange. The roots grow uniform and smooth, 8 to 10 inches long, of large size and deep, rich orange color. It is a good keeper and of fine quality for table use, also highly nutritious for stock. Ready for table in 75 days. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.00 prepaid. 5 lbs. for \$4.00, not prepaid.

Oxheart, or Guerande. One of the most popular and heaviest yielders among the short Carrots. The shape is particularly desirable for heavy soils. It tapers slightly to the bottom, and is very stump-rooted. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.25.

Celeriac or Turnip-Rooted Celery

In this kind of celery, the roots have been developed by cultivation and not the leaf-stalks. The roots, which are edible portion, keep well for winter use and are excellent for soups and stews. They are also cooked and sliced as a salad.

Giant Smooth Prague. Pkt. 10 cts., oz. 35 cts., ¼ lb. \$1.00, lb. \$3.00.

If you are fond of greens nothing will suit you better than Swiss Chard. Try some in your garden this season.

SWEET, or SUGAR CORN

One-half pound will plant 150 feet of row;
12 pounds to the acre

Country Gentleman.

Plant 5 or 6 grains, 1½ inches deep, 3 feet apart, in rows 3 feet apart. When plants are 4 inches high pull out all but two plants to the hill. For very early Corn, the hardiest and earliest varieties can be planted the latter part of March, if the weather is mild, but Sweet Corn should not be planted until April, or until the spring weather opens and the ground gets warm, as it has a tendency to rot in the ground if planted too early or during a continued cold or rainy spell of weather. It should be planted at intervals of every two weeks until July or August, so as to have Corn for use during the entire season. Roasting ears in 60 to 80 days.

For table use the Sweet Corns are far and away ahead of all other varieties. While they cannot be planted quite as early as the first of the Field Corns their quality is so superior that no garden should be without a good planting. Good prices can always be obtained, and the crop is a very profitable one for the market gardener.

Golden Bantam. The earliest and best of Sugar Corns. It is golden color and delicious flavor, with the sweetness of honey. The stalks are dwarf in habit, growing about four feet high, producing two or three good ears, 5 to 6 inches long, well set from the ground. Pkt. 10 cts., lb. 30 cts., postpaid. By freight or express, 5 lbs. \$1.25, 10 lbs. \$2.25, pt. 30 cts., qt. 50 cts. 100 lbs. at 16 cts.

Country Gentleman. Considered one of the best quality Sweet Corns for table use and canning. Has long, deep grains, and yields two to four ears to the stalk. Pkt. 10 cts., lb. 30 cts., postpaid. Not prepaid, 25 cts. lb., pt. 30 cts., qt. 50 cts.

Stowell's Evergreen. The standard and best known Sweet Corn. Ears 8 inches long, 10 to 20 rowed with very deep, sweet grains. Pkt. 10 cts., lb. 30 cts., 2 lbs. 55 cts. By freight or express, 5 lbs., \$1.25, 10 lbs. \$2.25, 100 lbs. \$16.00.

DeLue's Golden Giant

DeLue's Golden Giant Sweet Corn. You know how tenderly delicious and sweet Golden Bantam is. Those who have grown Golden Giant say it is just as good to eat and yet is 50 to 75 per cent larger. The ears have 12-16 rows of very deep, luscious golden kernels. Pkt. 15 cts., lb. 45 cts., prepaid. Not prepaid, 3 lbs. \$1.00, 10 lbs. \$3.00, 25 lbs. \$6.75.

Kindly send us names and addresses of your gardener friends and we will mail them our catalog free.

Black Mexican. One of the sweetest and tenderest corns in cultivation. The seed is blue, but in the roasting ear state is a clear white. Pkt. 10 cts., 1 lb. 30 cts., 2 lbs. 50 cts., postpaid. By freight or express, 5 lbs. \$1.00, 10 lbs. \$1.75.

Stowell's Evergreen.

Golden Rod. Long ear, yellow grains, delicious. Pkt. 10 cts., lb. 35 cts., 2 lbs. 65 cts.

Metropolitan. White, large, sweet extra quality. Pkt. 10 cts., pt. 35 cts., qt. 65 cts.

White Evergreen. Mid-season, good for home garden. Pkt. 10 cts., pt. 35 cts., qt. 65 cts.

CHICORY

Witloof Chicory or French Endive. A delicious vegetable very easily grown. The roots, from which the tender white stalks that are used for eating are grown, are raised from seed which should be sown early in June, in drills. In November the roots are dug and the tops cut off, leaving about one and a half inches of the leaf stalks. These roots are then planted out of doors for use the following spring, or they can be forced in boxes inside. In either case the roots are set in sand or soil in upright positions with tops about six inches below the surface. The tender shoots can be used as a salad raw, or are delicious cooked. Pkt. 10 cts., oz. 30 cts., ¼ lb. 60 cts., lb. \$1.75.

Chicory.

SPACE-SAVING SUGGESTIONS

In the small home garden where space is at a premium—oftentimes two or even three crops can be grown together, all of them taking up no more space than one alone. Here are a few combinations that have been found to work well: Corn and Cucumbers. Late Peas and Sweet Corn. Potatoes (Early) and Late Sweet Corn. Sweet Corn and Squash or Pumpkins. Early Peas, Lettuce and Tomatoes.

Golden Giant Sweet Corn.

Improved Adams Early Corn.

ROASTING EAR CORN

Improved or Large Adams' Early. An improvement in the old Adams' Early, being nearly one-third larger and almost as early. Pkt. 10 cts., lb. 30 cts., 2 lbs. 50 cts., prepaid. Not prepaid, 5 lbs. 80 cts., 10 lbs. \$1.25.

Wyatt's Snowflake Corn.

BROCCOLI

Requires a longer season than either cabbage or cauliflower to develop. The same cultivation as suggested for cauliflower should be given to Broccoli. Sow seed early in May; transplant in June. Growth and habit like cauliflower but far more hardy.

Early White Cape. The best variety. The heads are white, compact, and hard, and it is a hardy, vigorous, and easily grown sort. Pkt. 15 cts., ½ oz. 40 cts., oz. 75 cts.

CRESS

Fine Curled (Pepper Grass). Pkt. 10 cts., oz. 20 cts., ¼ lb. 50 cts., lb. \$1.50.

True Water. Pkt. 10 cts., oz. 60 cts., ¼ lb. \$2.00, lb. \$6.00.

Corn Salad, or Fetticus

A most refreshing salad, especially for winter use; can also be cooked and used like spinach. Plant is of quick growth and hardy. For spring crop sow seed ½ inch deep in rows 1 foot apart and thin to 6 inches in row. For extra early crop, sow seed in September or October. For fall use, a sowing should be made in July or August. One ounce will plant a row 50 feet long. Is ready for table in 60 days. Pkt. 5 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.35, ppd.

Adams' Early. While not a Sugar Corn, is a tender white corn for the table; can be planted earlier and will be ready in 60 days. Pkt. 10 cts., lb. 30 cts., 2 lbs. 50 cts., prepaid. Not prepaid, 5 lbs. 80 cts., 10 lbs. \$1.25.

Wyatt's Snowflake. It is larger than Trucker's Favorite, but not quite so early. The stalks grow large and vigorous, bearing several large, well-filled ears. The grains are rather large, deep, and pure white. Pkt. 10 cts., lb. 30 cts., 2 lbs. 50 cts., prepaid. Not prepaid, 5 lbs. 80 cts., 10 lbs. \$1.25, 1 pt. 25 cts., 1 qt. 40 cts.

Trucker's Favorite. A splendid early white corn, coming in directly after Adams' Early, but much larger; has a deep, white, soft grain. Pkt. 10 cts., lb. 30 cts., 2 lbs. 55 cts., prepaid. Not prepaid, 5 lbs. 90 cts., 10 lbs. \$1.50, 1 bu. \$5.50, 5 bus \$5.25.

Norfolk Market. Ears will average 8 inches in length. A very prolific, popular variety. Pkt. 10 cts., lb. 30 cts., 2 lbs. 50 cts., prepaid. Not prepaid, 5 lbs. 90 cts., 10 lbs. \$1.50, 50 lbs. at 12 cts.

Garden Corn on Ear. For seed purposes. Extra fine ears. 10 cts. each, \$1.00 per dozen ears. Postage 15 cts. doz. extra. \$7.50 per 100 ears, not prepaid.

Basket of Trucker's Favorite Corn. This Variety Always Brings Top Prices on All Markets.

POP CORN

Your Crop Will Give You Many Winter Evenings of Pleasure.

Queen's Golden. Stalks grow 6 feet high, with large ears produced in abundance. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. Pkt. 10 cts., ½ lb. 20 cts., lb. 30 cts., postpaid. By freight or express, 10 lbs. for \$1.50, 50 lbs. at 14 cts.

White Rice. The popular and widely known variety. The kernels are pointed and resemble rice. It matures later than other varieties but yields heavily and "pops" fine. Pkt. 10 cts., ½ lb. 20 cts., lb. 30 cts., postpaid. By freight or express, 10 lbs. \$1.50, 100 lbs. at 12 cts.

Red Beauty. A prolific variety with deep red ears. Pops white. Pkt. 10 cts., lb. 30 cts., postpaid. By freight or express, 10 lbs. for \$2.00.

Maple Dale Prolific. Same price as White Rice.

Pop Corn for Popping. Lb. 12 cts., 5 lbs. 55 cts., 10 lbs. \$1.10, 100 lbs. \$10.00. If wanted by mail, add 5 cts. per pound for postage.

White Rice Pop Corn.

BEAUTIFY YOUR HOME GROUNDS BY PLANTING GLADIOLI. You will be well pleased. See page 44.

CUCUMBERS

One ounce plants about 50 hills; 2 lbs. plants an acre

An early crop of Cucumbers can be had each year by starting the seed in pots, boxes, or on a piece of sod so they can be readily transplanted without checking the growth. For outside planting, the ground should be prepared and put in good condition and the seed should be planted about the latter part of April or the first part of May in this particular latitude. The seeds should not be planted more than an inch deep and in hills slightly raised above the ground, about 4 feet apart each way. We also recommend planting about two or three times as much seed as you would for any other crop and then thin out or pull out the plants, as the insects attack the vines which are the weakest, leaving about three or four strong vines to each hill. The Cucumbers are ready for use about two months after planting.

Early Fortune Cucumbers.

We Will Quote Special Quantity Prices to Truckers

Gherkin or Burr. Small prickly; used for pickles only.

Pkt. 10 cts., oz. 25 cts., ¼ lb. 65 cts., postpaid.

Japanese Climbing. Grows quickly on poles or trellis, takes up little room in the garden. Fruit is good size, fine flavor, especially good for slicing and salads; does best in dry warm summers. Pkt. 10 cts., oz. 20 cts., ¼ lb. 60 cts., lb. \$2.00.

Klondyke Cucumbers.

Spray Cucumbers with PYROX

Klondyke. Very hardy, resisting unfavorable weather conditions and is a good size for slicing. It is also quite firm when small and is excellent for pickling. Matures in 60 days. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.25, postpaid. 10 lbs. for \$9.00.

Davis Perfect. A highly popular shipping variety because of its deep green color. Fruit long, rather slender, beautiful deep green color, few seeds. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.45, postpaid.

Thorburn's Everbearing. An extremely small early pickling variety. Pkt. 10 cts., oz. 25 cts., ¼ lb. 65 cts.

Early Fortune. An extra-early Cucumber of the White Spine type. Very productive; fruits 8 inches long, slightly tapering. Color dark green. Pkt. 10 cts., oz. 15 cts., ¼ lb., 40 cts., lb. \$1.25, postpaid. Not prepaid. 5 lbs., \$1.00 per lb., 10 lbs. for \$9.00.

Early Green Cluster. They are very prolific, and frequently set in clusters of two and three. If the fruits are kept gathered, the vines will continue long in bearing. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.25, postpaid.

Improved Long Green.

Improved Long Green. Well-known table sort, 12 to 14 inches long; slender, more tapering toward the stem end; color dark green; flesh white and firm. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.50, postpaid.

Green Prolific

Arlington White Spine. One of the earliest and most productive of the White Spine family; true to type and uniform. Fruits about 7 inches long, rounded at both ends and of bright, deep green color. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.25, postpaid. 5 lbs. at \$1.00 lb.

Arlington White Spine.

Green Prolific. Very prolific; especially recommended for pickles. Pkt. 10 cts., oz. 15 cts., ¼ lb. 45 cts., lb. \$1.50, postpaid.

Wyatt's Oak City Collection of Cucumbers: 1 pkt. each of any 6 varieties on this page, postpaid, for 25c.

COLLARDS

One of the most popular southern vegetables and largely used in place of cabbage. It is hardier and easier to grow than cabbage, can be grown on poorer soil, and withstands insect attacks better.

Although often sown during the spring and summer, the principal sowings are made in June, July and August, transplanted a foot apart in the row and given frequent cultivation. They make a most excellent vegetable for the late fall, winter and early spring. The flavor is improved by frost. Cultivate like late cabbage. Ready for use in about 75 days.

North Carolina Short-Stem. A decided improvement, and has proved very popular wherever grown. Has a short stem; large spreading leaves; very hardy, withstanding drought in summer and cold in winter. Its flavor and cooking qualities are the very best. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, postpaid. By express, lb. 90 cts.

Cabbage Collard. Called "Cabbage Collard" because of its close bunching habit and general resemblance to cabbage. As white and crisp as cabbage. Pkt. 10 cts.,

oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.35, postpaid. By express, 1 lb. \$1.25.

True Georgia, or Southern.

The well known and popular Collard that has been grown for generations in the South. Should have a place in every Southern garden. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, postpaid. By express, 1 lb. 90 cts.

White or Cabbage Collards.

GOURDS

Nest-Egg. The small, white fruits of this variety resemble exactly in color, form and size the eggs of hens. When properly dried they are light and durable. As they do not crack and are uninjured by cold or wet, they make the best of nest-eggs. Grown on a trellis, the vines serve as an ornamental screen. They should not be grown in a very rich soil, or fruits will become too large for nest-eggs. They are also useful for stocking darning. Pkt. 10 cts., oz. 20 cts., lb. \$2.50.

Green Curled Endive.

Black Beauty Egg Plant.

EGG PLANT

One ounce of seed will produce 2,000 plants; $\frac{1}{4}$ pound will sow an acre.

Sow in hotbeds during February and March, and when 3 inches high transplant into small pots or otherwise. Plant out of doors after the weather has become perfectly warm. The rows should be 3 feet apart and the plants set 2 feet apart in the row. Hoe frequently to keep soil loose and fine. Matures in about 120 days.

Black Beauty. Fully as large as the New York Improved, and about 10 days earlier. Very rich, dark purple, spineless. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.25, lb. \$4.75, postpaid. By express, \$4.50 per lb.

New York Improved Purple (see inside back cover). This popular variety is of low growth, very compact and forms perfect support for its fruit. Usually makes 8 to 10 fruits before frost, of superb quality, which are smooth; glossy deep purple in color. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.25, lb. \$4.75, postpaid. By express, \$4.50.

ENDIVE

One ounce will sow about 200 feet of drill

When plants are well started thin out to 10 inches apart in the row, or they may be transplanted to fresh rows. When plants have reached a good size gather the leaves closely together and tie loosely in an upright bunch. This bleaches the inner leaves in about ten days and adds to the crispness as a salad, as it renders the flavor mild and delicate. One ounce will sow 100 feet of rows; 3 lbs. will plant 1 acre of land in rows 3 feet apart.

Green Curled. An attractive and appetizing salad for the fall and winter. Has fine-cut leaves, giving it a mossy appearance. Sow in August in 18-inch drill, and later thin plants to 1 foot apart; when large, tie up outer leaves to blanch. In dry seasons give plenty of water. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.50.

Grow Health-Giving "Greens"

Spinach and allied plants grown for boiled "Greens" are nourishing, and they provide food elements which cannot be obtained readily otherwise. They possess great medicinal value, also, in assisting digestion and enabling the functions of the body to perform efficiently. The following vegetables are among those which furnish boiling greens and they should have a place in every garden.

Beet-tops	Southern prize Turnip	Seven-Top Turnip
Brussels Sprouts	Kale	D W F. Rape
Cabbage	Mustard	Spinach
Collards	New Zealand Spinach	Swiss Chard

For Garden Pests and plant diseases, the use of insecticides, etc., is imperative. For Liquids, Dust Compounds, Sprayers, etc., see pages 54, 55 and 56.

KALE, or BORECOLE

One ounce will produce about 1500 plants. Sow 8 pounds per acre broadcast; 4 to 5 pounds in drills.

Spring or Smooth Kale may be sown either in the spring or fall, making greens earlier than the winter sorts. Make spring sowings in February and March. The Siberian and Scotch are the popular sorts for fall sowings. Sow from August 15 to November 15, either broadcast or in drills 18 inches apart, and give some cultivation, and they will yield greens throughout the winter.

Spring, or Smooth. Hardy, quick-growing; best for spring sowing. Sow 10 pounds to the acre broadcast or 4 to 5 pounds in drills. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. 65 cts., postpaid. 5 lbs. at 50 cts. lb.

Early Green Curled Siberian. Blue Kale or Dwarf German Greens. It comes at a time when a variety for the table is scarce, furnishing a valuable wholesome food rich in mineral salts, iron, etc. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.15, postpaid. By express, \$1.15 per lb., 5 lbs. and over, 90 cts. per lb.

Green Curled Scotch. Very popular for shipping. Light Green; nicely curled. Sow 5 pounds to the acre. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. \$1.00, postpaid. 5 lbs. not postpaid, at 90 cts. per lb.

Green Curled Scotch Kale.

MUSTARD

One ounce will sow about 75 feet of drill.

Mustard can be grown at almost any time of the year. Sow the seed either broadcast or in drills about 1 foot apart. Requires little or no cultivation.

Southern Giant Curled. It grows rapidly and produces an abundant crop of "greens" or salad. The leaves are large and curled. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.00, postpaid. 5 lbs. at 85 cts.

Giant Southern Curled Mustard

Ostrich Plume. Delicious as well as ornamental. The leaves resemble ostrich plumes. Pkt. 10 cts., oz. 15 cts., lb. \$1.00, postpaid.

Chinese Broad-Leaved. Makes a large and tender growth for greens, without bitter taste. Ready six weeks from sowing; sweet and pungent. Pkt. 10 cts., oz. 15 cts., $\frac{1}{2}$ lb. 65 cts., lb. \$1.00, postpaid.

Large Flag Leek.

LEEK

One ounce will sow 100 feet of drill

Similar to onions in flavor, being of the same family of plants, but does not form a thick bulb. Sow seed early as possible, half an inch deep, and when plants are large enough to handle transplant to rows 12 inches apart, setting plants 6 inches apart. Hill up as they grow to bleach the stems, or plant in a trench like celery and fill in as they grow. Seed may also be sown in September and transplanted in spring.

Large Flag. Well known and popular variety; hardy. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 60 cts., lb. \$2.00, postpaid.

KOHLRABI

One ounce will sow 200 feet of drill.

A peculiar vegetable, belonging to the cabbage family and forming a turnip-shaped bulb above the ground which is used in the same manner as turnips. For garden cultivation give same treatment as cabbage. The plants are ready to use in 60 days.

Early White Vienna. Light green, fine grained bulb; short leaves.

Early Purple Vienna. Same as above, except in color. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.35, postpaid.

Kohl Rabi.

Succession Crops

Early beets followed by celery.

Early beans followed by turnips.

Lettuce or onion sets followed by tomatoes.

Radishes followed by tomatoes.

Spinach, lettuce or radishes followed by cabbage.

Early peas followed by peppers, eggplants or tomatoes.

Tobacco Dust. 1 lb. 10 cts., 5 lbs. 40 cts., 25 lbs. \$1.50, 100 lbs. \$5.00.

Bug Death. 1 lb. 25 cts., 3 lbs. 50 cts., 5 lbs. 80 cts.

LETTUCE

READY TO CUT IN
45 TO 85 DAYS

One ounce will produce 2,500 plants; 8 ounces
enough plants to set out an acre

To raise the best of Lettuce, rich soil with plenty of humus is needed, and we particularly recommend that it be planted after clover, whenever possible. North Carolina truckers treat the head varieties in the same way as cabbage, sowing the seed the last week of September in beds $\frac{1}{8}$ inch deep, and setting the plants in the open field during November. Shelter from the wind is of such immense advantage that if no natural windbreaks are available it pays handsomely to provide artificial ones made from cornstalks or cheap lumber. For the family garden, seed may be sown as late as October in a warm, sheltered bed, protecting it during severe weather with a covering of straw, or it may be transplanted into coldframes to head during the winter. For a succession, sow in beds from the last of March to the middle of May, covering the seed thinly as directed, but taking care to firm the surface.

Grand Rapids Lettuce.

Grand Rapids. Of highest merit as a forcing variety.

Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 60 cts., lb. \$1.50, postpaid.

Early Curled Simpson. A leading early sort; heads up loose and very tender. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.50, postpaid.

Big Boston. Very popular for outside culture as well as cold frame forcing. The heads are large and compact; leaves broad, almost smooth, but wavy at the edges; color light green, slightly tinged reddish brown. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 60 cts., lb. \$1.65, postpaid. 5 lbs. at \$1.50, 10 lbs. at \$1.35.

Big Boston Lettuce.

We would call special attention to our lists of Farm Seeds, including Grasses, Clovers, Alfalfa, Wheat, Oats, etc., which will be found further on in this catalog. These are all of the very highest quality, and we heartily recommend them to our farmer friends.

Iceberg Lettuce.

Improved Hanson. One of the best summer Lettuces. Large solid, sure header, crisp and tender. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 60 cts., lb. \$1.75, postpaid. 5 lbs. at \$1.50.

Iceberg. A large solid-headed very crisp kind, the hearts of which under moderate cultivation weigh from 2 to 3 pounds. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.50.

Wayahead. It is not only earlier than May King and other fine early varieties, but the tightly folded heads are generally larger in size. The outer leaves are a rich, buttery yellow. Wayahead stands a longer time before running to seed than any other early head variety. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 65 cts., lb. \$2.00, postpaid.

Mignonette. A solid header; leaves broad, excessively blistered, crumpled, and twisted. The best variety for the Southern home-garden. Quality excellent, tender, crisp and sweet. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 65 cts., lb. \$2.25, postpaid.

New York Improved. Also called "Los Angeles" and "Wonderful." Plants of extra large growth, producing closely folded heads of immense size. The inner portion is beautifully blanched; outer leaves a deep, rich green. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.50, postpaid.

White Paris Cos. One of the best celery Lettuces. Forms large, light green, solid, well-folded head; of upright growth, and esteemed for its crispness and mild flavor. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 65 cts., lb. \$2.00, postpaid.

Tennis Ball.

Black Seeded.

One of the best

standard sorts.

Pkt. 10 cts., oz.

25 cts., $\frac{1}{4}$ lb.

65 cts., 1 lb.

\$2.00.

Tennis Ball.

White Seeded.

(Boston Mar-

ket). A good

forer. Pkt. 10

cts., oz. 25 cts.,

$\frac{1}{4}$ lb. 65 cts.,

lb. \$2.00.

White Summer

Cabbage.

Green, very

hardy, popu-

lar. Pkt. 10

cts., oz. 20 cts.,

$\frac{1}{4}$ lb. 50 cts.,

lb. \$1.50.

Unrivalled.

A light green

strain of Big

Boston. Pkt.

10 cts., oz. 20 cts.,

2 oz. 35 cts.,

$\frac{1}{4}$ lb. 50 cts.,

lb. \$1.60.

Cos
Lettuce

Beet-Tops

Be sure to sow a row of Beet seed for "Tops." Nothing is more delicious than Beet Tops cooked like spinach when young, and served in same way. Eclipse is good for this purpose. Sow thickly.

In warm weather Lettuce should be shaded and given plenty of water.

CANTALOUPE, or MUSKMELON

One oz. will plant 50 hills; 2 pounds to the acre

Prepare hills 4 to 6 feet apart in a rich, moderately dry, sandy soil, using well-rotted manure. When danger of frost is over, plant ten to twelve seeds in each hill, and when well up, thin out, leaving four strong plants to the hill. Give frequent but shallow cultivation till the vines cover the ground. Dust with sifted ashes, air-slaked lime or road-dust to keep off insects; spray with Bordeaux Mixture to prevent disease and improve the yield. Do not grow near cucumbers, squashes, etc. Matures in about 90 days.

Honey Dew. Finest extra late variety. Very popular Melon with a delicious honey flavor, smooth light cream colored skin, with thick flesh of light green color. Melons weigh 6 to 8 lbs. when matured. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.35, postpaid.

Genuine Rocky Ford Netted Gem. The fruit is small, almost round, smooth, showing no rib, and densely covered with heavy gray netting. Flesh thick and deep green, showing a faint lining of pink or gold at the center; of the highest quality. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.00, 10 lbs. \$9.45 postpaid.

Montreal Market. Fruit of the largest size, often attaining a weight of fifteen to twenty pounds. Shape nearly round, flattened at the ends, deeply ribbed; flesh remarkably thick, green, melting, and of the finest flavor. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 60 cts., lb. \$2.00.

Banana. Long, shaped like a banana; has a most delicious odor. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.50, postpaid.

Delicious Gold-Lined Rocky Ford. Its shape is ideal, very slightly oval, no ribs, and is heavily netted over entire melon. The melon is thick-meated, fine grained and sweet; color green, with gold margin next to the seed cavity. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25, postpaid.

Delicious Gold-Lined Rocky Ford.

Knight Cantaloupe.

Knight. About a week earlier than the Rocky Ford; of uniform size, with thick, green flesh, of splendid flavor and appearance. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25, postpaid.

Hoodoo. As a Muskmelon for the private garden, this variety will surely please all who plant it. The vines make a strong and vigorous growth, which enables them to withstand disease and produce an abundant crop of the most delicious melons one can imagine. Flesh thick and firm; deep salmon or orange color. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.50, 5 lbs. at \$1.25.

Emerald Gem. Dark green skin, orange flesh, very sweet, extra early. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.25.

Fordhook. Flesh thick, salmon. Pkt. 10 cts., oz., 20 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.50.

Eden Gem. The real true money-making variety for the shipper and market gardener as well as the most satisfactory of all for home use. Its dense netting helps greatly in resistance to insect attacks. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.15, postpaid.

Tip Top, Shumways Giant, Edwards New Perfecto and Pollock Muskmelons. See page 3.

Extra Early Hackensack. An early melon, flattened at the end, roughly netted, thick flesh and of good flavor. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.00, postpaid.

Hearts of Gold. A wonderful new Melon of excellent flavor and quality. Pkt. 10 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.50.

Osage. Salmon fleshed, delicious. Pkt. 10 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.50.

Extra Early Hackensack.

Eden Gem.

Melon Pests

Watch out for the cutworms, aphid and blight. Use Paris Green mixed with bran for cutworms; Black-Leaf 40 for Aphid and Bordeaux Mixture for blight.

WATERMELON

One ounce is sufficient for a row 100 feet in hills;
2 to 3 pounds will plant an acre in hills

A rich but light and well-drained soil is needed to produce the best results. Plant the seeds 1 inch deep, from April to July, in hills not less than 6 feet apart each way. Avoid planting until the warm weather has become settled, as the vine will never thrive if checked by cold, and it really pays to use the seed more lavishly than indicated above. After the first plowing, cultivation must be shallow and the crop "laid by" as soon as the ground is well covered. Matures in about 110 days.

Carolina Bradford. Fine flavored, large shipping melon, oblong in shape, rather square ends. The skin is very dark-green with darker stripes; flesh is very tender and solid. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25, postpaid.

Improved Kleckley Sweet.

Improved Kleckley Sweet. No other melon has ever attained such popularity for home use and nearby markets. This is a perfect melon for that purpose. Its eating qualities leave nothing to be desired. Vines strong and vigorous; melons medium to large in size. Oblong. The melons grow 18 to 24 inches in length; 10 to 12 inches through. Skin a very rich, dark green color; white seeds. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 90 cts., postpaid.

Georgia Rattlesnake.

Georgia Rattlesnake or Gypsy Striped. Oblong, striped and mottled; very sweet; popular South. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. 90 cts., postpaid. 5 lbs. 75 cts. lb.

Dark Icing. An extra early and extra good melon for home use and nearby market. One of the most delicious fruits of round or shortened oval form, with dark green skin. Flesh deep pink, very sweet and melting. White seed. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 90 cts., postpaid. 5 lbs. 75 cts. lb.

Halbert Honey.

Halbert Honey. A variety somewhat similar to Kleckley Sweets—of much darker color. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00.

Duke Jones, or Jumbo. Although a shipping melon, it is of such good quality and fine flavor that it is equally well recommended for home use. Extra large and of attractive color and appearance. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 90 cts., postpaid.

Excel.

Excel. It is well adapted to Southern conditions, and as a shipping melon it can't be beat. The rind is tough and will withstand the roughest use in transit. A heavy cropper. It is large, long dark green melon with faint stripes. Flesh red, very crisp, solid. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.15, postpaid.

The Jackson. An old variety, but still popular in many sections. Early; long pale green melons; very tender; crimson flesh; unusually sweet. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. 90 cts., postpaid.

Florida Favorite. Oblong, of fair size. Rind tough, dark green, irregular stripes; flesh bright red, fine quality. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. 90 cts., postpaid.

Tom Watson (see inside back cover). There's delicious sweetness in every bite. The flesh is rich red, crisp and tenderly melting. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, 5 lbs. \$4.25, 10 lbs. \$7.75.

Pride of Georgia.

Pride of Georgia. One of the largest melons in our list. Dark green rind; oval shape; meat bright red. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 90 cts., postpaid. 5 lbs. 75 cts. lb.

Irish Grey.

Irish Grey. A mottled greenish grey, every melon very distinct. A fine shipper and the equal of any in sweetness and quality. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25, 5 lbs. \$5.00.

Seeds and Plants for the Garden

Vegetable seeds should be ordered in advance of the time for planting in the open, so that they will be on hand in time for planting in flats or frames and also for use outdoors as soon as weather and condition of the soil make planting possible.

OKRA, or GUMBO

Perkins Mammoth Podded

One ounce of seed will sow 50 feet of row; 8 pounds to an acre.

Sow seed when ground is warm, 1 inch deep, a few inches apart in rows 3 to 5 feet apart. Thin plants 18 to 24 inches apart. Until plants are almost grown, cultivate frequently and not very deeply. Pick young pods every day to keep plants bearing. Ready to use in 70 days.

Perkins Mammoth-podded. Very productive. Pods intense green, 8 to 10 inches long; superior for canning. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.15, postpaid. 5 lbs. \$5.00.

White Velvet. Pods large, white and smooth and very abundant. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.15, postpaid, 5 lbs. \$5.00.

Dwarf Prolific. Plants small, but very prolific. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.15, postpaid.

Tall Green. Long pods; grows 4 to 5 feet high. Pkt. 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.15, postpaid.

PARSNIPS

One ounce will sow about 100 feet of drill.

Sow seed during the early spring in a rich soil, drilling them in rows from 2 to 3 feet apart, and not over 1 inch deep. Later thin plants to 6 inches apart, and give frequent shallow cultivation.

Long, Smooth, or Hollow Crown. The best variety for table use and for the market. Early and productive. Roots long, smooth and tender. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. 95 cts., postpaid.

The SAVO Steel All-year-round Flower Box

Self-Watering and Sub-Irrigating for Porches, Sun Parlors, etc. Perfect Air Circulation and Drainage, Leak Proof and Rust Proof.

Most Efficient, Durable and Artistic. Six Sizes. Beautifully Finished.

Fill with water only once a week. Move Savo Boxes indoors or out and you have beautiful Flowers and Plants continually for many years.

An All-Year Round Garden

- Model A— 8 in. high, 9½ in. wide, 23 in. long \$3.50
- Model B— 8 in. high, 9½ in. wide, 29 in. long 4.00
- Model C— 8 in. high, 9½ in. wide, 35 in. long 4.50
- Model D— 8 in. high, 9½ in. wide, 41 in. long 5.00
- Model E— 8 in. high, 12 in. wide, 12 in. long 3.50
- Model F— 12 in. high, 12 in. wide, 12 in. long 4.00
- Model B fernery, complete box and stand, 30½ in. high, 9½ wide, 29 in. long. \$12.00
- Model G round fernery, complete box and stand 12 in. diameter, 28½ in. high. \$6.00

CELLO GLASS CLOTH

For hot beds, cold frames or plant beds, 15 cts. square foot, 50 square feet for \$7.00. Send for free sample.

Champion Moss Curled Parsley

PARSLEY

One ounce will sow a 100-foot drill.

Parsley is easily grown, only it takes several weeks for it to come up, hence the ground where it is sown is often covered with weeds or dug over with the belief that the seed is no good. Sow it early in the spring in rows a foot apart. It can also be used to border beds, making a very pretty effect. A few plants can be taken up in the fall and put in pots or boxes in a sunny window and will continue to furnish leaves for flavoring or garnishing throughout winter.

Champion Moss Curled. A very fine strain, with beautiful foliage, useful for all purposes. Pkt 10 cts., oz. 15 cts., ¼ lb. 40 cts., lb. \$1.00, postpaid.

Plain. Hardy and vigorous grower; not so mild as the above. Pkt. 10 cts., oz. 15 cts., ¼ lb. 25 cts., lb 75 cts.

FLOWER POTS and SAUCERS

Special Prices to Florists Using Large Quantities

Charge will be made for packing at 25 cents for orders amounting to \$2.50 or less. On larger orders, add 10 per cent to amount of order. This barely covers the cost. We pack carefully, but will not be responsible for breakage.

ONION *One ounce will sow about 100 feet of drill; 5 to 6 pounds will plant an acre*

To grow large Onions from seed the first year, sow in January or February in hotbed or in the open ground later, and when the weather opens and the plants are the size of a goose-quill, transplant 4 to 5 inches apart in 12 to 18 rows. Transplanting always increases the yield, sometimes doubles it.

GROWING ONION SETS: To grow Onion Sets, sow in broad wide rows in March or early in April, 40 to 50 pounds per acre and keep clean of weeds. In late summer or whenever the tops die, remove the sets to a dry place spreading them out thinly on trays made of laths.

Prizetaker Onion.

Prizetaker. A large-growing yellowish brown variety. The flesh is white, fine-grained, and like all Spanish Onions, is mild. Pkt. 10 cts., oz. 35 cts., ¼ lb. \$1.25, lb. \$4.50, postpaid.

Yellow Globe Danvers.

Yellow Globe Danvers. It is a great favorite with market gardeners and commercial growers. Very productive and a good keeper. The bulbs grow large, of globe shape and have a clear yellow color. The flesh is crisp and mild. Pkt. 10 cts., oz. 35 cts., ¼ lb. \$1.25, lb. \$4.50, postpaid.

White Silverskin, or Portugal. Large early white Onion, noted for its mild flavor and good keeping qualities. It is one of the best keepers among the early Onions, and is often used for pickles. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.50, lb. \$5.75, postpaid.

Large Red Wethersfield. The bulbs are large, somewhat flattened, but thick; skin purplish red; flesh purplish white; very hard and solid; an excellent keeper and a heavy cropper. A good Onion for poor and dry soils. Pkt. 10 cts., oz. 35 cts., ¼ lb. \$1.25, lb. \$4.50, postpaid.

Extra Early White Pearl.

Extra Early White Pearl. The quickest of the white sorts; makes large pearly white Onions, tender, mild and of excellent flavor. Sown in the spring thickly, and the sets put out in the fall, large Onions may be had before any other sorts are ready. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.50, lb. \$5.00, postpaid.

Onion Sets

Bushel prices quoted on request.

CULTURE OF ONION SETS: Soil requirements the same as for Onion seed. Place the Onion Sets 3 to 4 inches apart, according to the size, 2 inches deep, in rows 1 foot apart. It is customary to furrow out the soil with a little hand plow or hoe. Set the Onion in this furrow right side up and cover with a garden rake and if the soil is dry it should be well firmed over the sets; 250 to 300 lbs. of sets required for one acre. One pound equals about one quart.

Onion Sets.

Silverskin. Lb. 25 cts., (postpaid, 35 cts.), 5 lbs. 85 cts., 10 lbs. \$1.50, 1 bu. 32 lbs. \$4.00.

Yellow Danvers. Lb. 25 cts., (postpaid, 35 cts.), 5 lbs. 85 cts., 10 lbs. \$1.50, 1 bu. 32 lbs. \$3.75.

Red Wethersfield. Lb. 25 cts., (postpaid, 35 cts.), 5 lbs. 85 cts., 10 lbs. \$1.50, 1 bu. 32 lbs. \$3.75.

Extra-Early White Pearl. Recommended for fall planting. Lb. 25 cts., (postpaid, 35 cts.), 5 lbs. 85 cts., 10 lbs. \$1.50.

White Multiplier. Qt. 25 cts., pk. \$1.50.

Yellow Potato. Qt. 35 cts., pk. \$1.75.

Egyptian or Red Perennial. Best for early green onions. Pt. 15 cts., qt. 25 cts., ½ pk. 65 cts., 1 pk. \$1.00, bu. \$3.50.

Carbon Disulphide. For Ants and Cut Worms, also Grain and Cowpea Weevils. 1 lb. 50 cts., 5 lbs. \$2.25, 10 lbs. \$4.00. (Cannot be mailed.)

GARDEN, or ENGLISH PEAS

One pound will sow about 100 feet of row, about 100 pounds will sow an acre.

The extra-early or smooth varieties are very hardy, and can be planted as early in the spring as the ground can be cultivated, while the wrinkled varieties should not be planted until later. Plant in rows about 3 feet apart, and cover 3 to 4 inches. Keep well cultivated until 6 inches high, then stake the tall growing varieties with brush. Peas should be planted at intervals of two weeks to give continuous crop. Ready to use in 60 to 80 days.

Thomas Laxton.

Gradus Peas.

Early Morning Star Pea. This pea has become a leading favorite with market gardeners as well as in the home garden, producing a crop in 45 days under favorable weather conditions. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. By freight or express, not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$17.50.

Gradus, or Prosperity. Second early. Bears abundance of long pods, containing ten large Peas. $2\frac{1}{2}$ ft. Lb. 35 cts., 5 lbs. \$1.50, 10 lbs. \$2.75 postpaid. 100 lbs. \$18.00.

Champion of England. Much prized by those who are fond of a large, tender, and luscious pea; seed wrinkled; height of vine 48 inches. Pt. 35 cts., qt. 65 cts., pk. \$3.00, bu. \$11.00.

Alaska. Vines grow about 30 in. high. Pods are about $2\frac{1}{2}$ in. long, straight, round and well filled. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$17.00.

First and Best. This well-known variety grows about 2 or $2\frac{1}{2}$ feet in height, is very early and has long been a general favorite with gardeners. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$17.50.

Thomas Laxton. A cross between Gradus and one of the extra early sorts. It ripens within a day or two of the earliest varieties. Height 34 in. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35

cts., 2 lbs. 65 cts., postpaid. By freight or express, not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$18.00.
Laxtonian. The dwarf gradus or blue bantam. New large bodied dwarf pea. Grows 16 to 18 inches high. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. By freight or express, not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$20.00. Write for quantity prices of all varieties when ready to buy.

Improved Dark Green Telephone. Productive, sugary; pods contain six or seven peas; late. Height 4 ft. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. By freight or express, not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$17.50.

Premium Gem. A favorite early dwarf Pea, bears well; good quality. Height 18 in. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. By freight or express, not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25; 100 lbs. \$18.00.

Bliss Everbearing. A good variety that continues in bearing a long time. Height 3 ft. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$19.00.

Large White Marrowfat. Late, very hardy and vigorous. Pods good size, contain 5 or 6 peas of good quality. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$14.00.

Large Black Eye Marrowfat. Price same as Large White Marrowfat.

The Ameer. Very popular with truckers in certain sections of the South. The peas are smooth and therefore can be planted early without rotting. The season is early, 2 or 3 days later than Alaska, and the pods are almost twice as large. Pkt. 10 cts., $\frac{1}{2}$ lb. 25 cts., lb. 35 cts., 2 lbs. 65 cts., postpaid. Not prepaid, lb. 30 cts., 5 lbs. \$1.25, 10 lbs. \$2.25, 100 lbs. \$16.00.

Laxtonian Peas.

The Ameer

Market Surprise Peas, and Edible Podded Peas. (See page 3).

PEPPER

One ounce will produce about 1200 plants.

Sow in hothed in February or March and transplant outside in May, 18 ins. apart, in 2 to 3 foot rows. When the ground becomes warm, sow outside and transplant as above. Cultivate well and keep free of weeds. Hen manure, liquid manure, or a good garden fertilizer, if worked into the soil when the plants are 6 inches high, will materially increase the yield. Matures in about 130 days.

Chinese Giant. This is the largest sweet pepper ever offered. Grows about 2 feet tall, bearing scarlet colored fruit measuring from 12 to 15 inches in circumference and about 5 inches long. Flesh is thick, mild, very tender and sweet. May be sliced and eaten as tomatoes, or stuffed as mangoes. Pkt. 10 cts., oz. 50 cts., $\frac{1}{4}$ lb. \$1.50, lb. \$5.10, postpaid. By express, \$5.00 per lb.

Large Bell, or Bull Nose. A beautiful sweet pepper, with large green fruits turning to a vivid scarlet. Very thick flesh, perfectly mild and a heavy yielder. Ripens early. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.50, lb. \$5.00, postpaid. By express, \$4.90 lb.

Pimento Pepper.

Pimento. One of the sweetest peppers grown; heart-shaped and brilliant red color. Being of a medium size, it is very desirable for filling with meats, etc. May be made into Spanish omelettes and is excellent for canning. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.00, lb. \$3.50, postpaid. By express, \$3.40 per lb.

Ruby King. Fruits red, from 4 to 6 inches long by 3 or 4 inches in diameter. Fruit dark green when young, turning to bright red as it ripens. Excellent for pickles. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.00, lb. \$3.50 postpaid. By express, \$3.40 per lb.

Long Red Cayenne. A long, red, very hot variety. Green and ripe fruits are used for pickling, and ripe fruits dried for winter use. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.00, lb. \$3.75, postpaid. By express, \$3.65 per lb.

Neapolitan. Very early and productive; large and sweet; fruit of upright growth, four to four and one-half inches long by two inches in diameter. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00.

Ruby King and Bell Pepper.

Golden Queen. Excellent quality. Pkt. 10 cts., $\frac{1}{2}$ oz. 30 cts., 1 oz. 50 cts.

Red Chili. Good hot pickling. Pkt. 10 cts., oz. 35 cts., $\frac{1}{4}$ lb., \$1.00, lb. \$3.75, postpaid.

Sweet Mountain. An excellent sort similar to the Large Bell, but larger and sweeter. Pkt. 10 cts., oz. 40 cts., $\frac{1}{4}$ lb. \$1.00, lb. \$3.25.

PREMIER BRAND PULVERIZED POULTRY MANURE

10 lbs. 75 cts., 50 lbs. \$1.75, 100 lbs. \$3.25.

PUMPKIN

One ounce is sufficient for a row of 100 feet in hills; for an acre in hills, 2 to 3 lbs.

Plant from May to July, 1 inch deep in hills 8 feet apart each way, and cultivate frequently until the vines get a strong growth. Matures in 70 to 90 days.

Large Cheese.

Large Cheese. Produces very large flat ribbed fruit of a beautiful orange red color. A heavy yielder and well adapted for home, market or canning purposes. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 85 cts., postpaid. By express, 75 cts. per lb.

Sugar or Pie. Flesh deep orange yellow; remarkably sweet, and fine grained. One of the best for pies and a good keeper. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 85 cts., postpaid. By express, 80 cts. per lb.

Corn Field Pumpkin. Grown in corn fields principally for stock, but also makes excellent pies. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 20 cts., lb. 60 cts., postpaid. By express, 50 cts. per lb.

Sweet Potato. Bell-shaped. White flesh. Used for pies. Pkt. 10 cts., oz. 20 cts., 2 oz. 35 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.60.

Green Striped Cushaw.

Green-striped Cushaw. Fruits very large, with crooked-neck; color creamy white, irregularly striped or traced with green; flesh light yellow, very thick, sweet. Very productive and popular in the southern states. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25, postpaid.

King of Mammoth. Extremely large, orange colored, often weighing 50 pounds. Round. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.50, postpaid.

Yellow Cushaw Crookneck. Grows to a medium size; color light yellow, and is the best variety for table use. Should have a place in every home garden and is also an excellent market sort. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.25, postpaid.

Chirimen. A Japanese variety of excellent quality. Pkt. 10 cts., oz. 25 cts.

BLOSSOM CIRCLE OF THE YEAR IN SOUTHERN GARDENS

By Julia Lester Dillon

First and only book dealing exclusively with methods, materials and problems of southern ornamental gardening. 200 pages; cloth; profusely illustrated; \$2.65.

SELECTED SEED POTATOES

NORTHERN-GROWN STOCK, SELECTED AND GROWN
ESPECIALLY FOR SEED

Prices fluctuate. Write us when you are ready to purchase, stating quantity wanted. Potatoes are forwarded by express or freight as directed, purchaser paying charges. We assume no risk on Potatoes, and ship strictly on purchasers responsibility. Sacks contain 2½ bushels.

One peck will plant about 100 feet of row, or 100 hills; 10 bushels are required for an acre.

Good, well-drained, fibrous loam will produce Potatoes under right climatic conditions. For early Potatoes, which mature eight to ten weeks from planting, the soil must be rich. Potatoes are planted at various times—both early and late. Cut the tubers so there will be two to three eyes to each piece. Plant in hills or rows 3 feet apart and from 15 to 18 inches apart in the row. Spray the leaves of the young plants with a bordeaux-arsenate mixture as a protection against blight and attacks of beetles.

Irish Cobbler. Extremely early—a world-wide favorite. It is a most excellent extra-early variety producing plump handsome tubers of good size and excellent quality. The vines make short upright growth, so that the hills may be only a short distance apart. The flesh is pure white, with a clean, smooth white skin with strong well-developed eyes slightly indented. In quality they are excellent, always

Bliss Red Triumph, Extremely Hardy.

cooking dry and mealy. Splendid keepers, and a first-class sort worth the attention of all Potato growers. Matures in 80 days. Pk. \$1.25, bu. \$4.00, sack \$9.75.

True Early Rose. The Early Rose is the old standard early Potato; rosy blush skin; white flesh; productive and of excellent flavor; a fine keeper. A standard variety that has been popular for years. Pk. \$1.25, bu. \$4.00, sack \$9.75.

Bliss Early Red Triumph. It is an extra early variety. The tubers are of medium size, round and uniform in shape, eyes slightly depressed; color a beautiful red. Its great beauty, productiveness, and fine quality make it one of the best extra-early market varieties, especially for the South. Pk. \$1.00, bu. \$4.00, sack \$9.75.

Spaldings' No. 4 Rose. A popular and large-yielding early variety, coming in a little later than the regular Early Rose, but ordinarily gives larger yields and better crop results. Large sized round potato, pinkish skin; good keeping and shipping qualities; for either early or late crop. We have no hesitation in recommending it as a most satisfactory and profitable variety. Pk. \$1.25, bu. \$4.00, sack \$9.75.

Green Mountain. A large, handsome, pure white Potato for main or late crop; prolific yielder and invariably of fine table quality, cooking dry and mealy. It has largely superseded other varieties for late plantings, is also one of the best varieties for main crop, maturing about two weeks later than the Irish Cobbler. Pk. \$1.25, bu. \$4.00, sack \$9.75.

We carry a full line of Sprayers, Bordeaux Mixture, Arsenate of Lead, Blue Stone, Paris Green.

Early Rose Seed Potatoes.

Irish Cobbler.

Improved Peachblow. An old favorite for late planting; skin slightly tinged with pink; of attractive appearance, and one of the best keepers. Our stock of these Potatoes is superior to the old Peachblow, being rounder in shape and of better quality. Stands drought and heat better than other late cropping varieties. Pk. \$1.25, bu. \$4.00, sack \$9.75.

Certified Seed Potatoes

We have been fortunate in securing several hundred sacks of Extra Fancy Certified Field Inspected Irish Cobblers. Government records show that certified seed increases the yield 50%.
Price, pk. \$1.50, bu. \$5.00, sack \$12.25.

HOME VEGETABLE GARDENING FROM A TO Z

A valuable book by Adolph Kruhm. The discussion of each vegetable is practical and complete from sowing seeds to what kinds to grow in different soils and sections. About 300 pages, more than 200 photographic reproductions, and 32 four-color illustrations. Bound in cloth, \$2.00 postpaid.

Cold Storage Potatoes

We will have a nice stock of Seed Potatoes kept in cold storage for late planting. Write for prices in June or July.

RADISH

One ounce will sow 50 feet of drill; 8 to 10 pounds, 1 acre.
Ready for market in 25 to 45 days.

To be tender and crisp, Radishes must be grown quickly, and this requires rich soil and plenty of moisture. Commencing with the first mild spell in the spring, sow at intervals of ten days, in a light, rich, deeply worked soil. May also be sown as a catch crop between rows of beets, lettuce, onions, etc., or sown in the same drill with slow-growing vegetables like carrots and parsnips. When forced in hotbeds, they must have plenty of ventilation and moisture. For fall and winter use, sow the winter varieties in August or September until October 10th.

Iceicle. A fine white radish about 5 inches in length and quite slender. This is one of the very best of the summer radishes. Skin is smooth and thin; flesh fine grained, white and crisp. A good variety for family use. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. \$1.00, postpaid.

Early Scarlet Globe (see inside front cover). An excellent variety of fine quality and appearance; brilliant colored skin; very round in shape. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.00; 5 lbs. \$4.00.

White Box. The Philadelphia gardeners are partial to this Radish, and it is grown to some extent for shipment to that market. It is a rapid grower, rather small in size, with brittle, sweet flesh and pure white skin. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. \$1.00 postpaid.

French Breakfast. A white-tipped, olive shaped sort, and one of the earliest forcing varieties, but should be used while young. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00 postpaid. 5 lbs. \$4.00.

Early White-tipped Scarlet Turnip. (Rosy Gem). A fine forcing Radish. Very early; makes beautiful, deep scarlet roots, with white tip; crisp, tender and mild. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. \$1.00, postpaid. 5 lbs. \$4.00.

Long Scarlet Short-Top. Long, bright scarlet, fine for forcing. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, postpaid.

Early Scarlet
White Tipped
Radishes.

White Strasburg. Large, long, solid; one of the best for summer use. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. \$1.00, postpaid.

Crimson Giant. For forcing or outdoor planting. Although twice the size of other forcing sorts this does not get pithy or hollow; the skin is crimson, flesh is white, tender, crisp and sweet-flavored. Sow seed thinly to permit root growth. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.15, 10 lbs. \$8.00.

Early Red or Scarlet Turnip Radish.

Early Red, or Scarlet Turnip. A quick-growing, round red Radish, with small tops; rich red color; crisp and tender. Fine for early outdoor planting. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.00, postpaid. Buyer's expense, 90 cts. lb.

For Winter—Winter Radishes

Sow during August, September until October 10th, and when freezing weather comes on, pack in sandy soil, either buried outdoors or in a damp cool cellar, where they will keep all winter.

Rose China Winter. Roots cylindrical; color bright rose, flesh white and of superior quality. One of the best. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 85 cts., ppd.

Long Black Spanish. One of the hardiest of Radishes; oblong in shape; of large size. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 85 cts., postpaid.

White Chinese, or New Celestial. Large stump-rooted, white skin and flesh, mild in flavor, brittle and never woody. For late planting and a splendid keeper. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., lb. 90 cts.

Salsify.

Salsify, or Vegetable Oyster

One ounce will sow about 50 feet of drill.

Soil and culture should be the same as for parsnips. Make sowings as early as practicable in spring. Salsify is boiled like parsnips or carrots, or is half-boiled and grated, then made into balls, which are dipped into batter and fried like Carrots.

Mammoth Sandwich Island. A new and improved type, producing roots of nearly double the size and weight of the old sort, and in every way preferable. Much valued by market-gardeners, as it grows stronger and is less inclined to branch. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 65 cts., lb. \$2.35, postpaid. Buyer's expense, \$2.25 per lb.

Leeks have a more delicate flavor than green onions.

SQUASH, or CYMBLING

An ounce of the summer varieties will plant 30 hills; of the winter sorts; 15 hills.

There are two types of these, the summer and winter varieties. The former are used when they are about half-grown and are soft and tender, but are of no value when matured. The winter squash is one of our finest winter vegetables, and should be largely grown. No variety can be planted until the weather has become warm, as the plants are very susceptible to cold, damp weather. For the summer varieties hills can be made 4 to 6 feet apart. For the winter varieties they should be 8 to 10 feet apart. Sow eight to ten seeds in a hill, and after danger from bugs or cutworms is over, thin to four plants in a hill. The striped beetle and large squash bug are very troublesome, but can be held in check if tobacco dust or stems are freely used in the hills and the plants dusted frequently about with Slug-Shot, air slacked lime, or fine ashes mixed with road dust. Matures in 65 to 125 days.

Wyatt's Early White Bush.

remarkably productive and of good quality. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.25, postpaid, 5 lbs. \$5.00.

Mammoth White Bush. Is an improved selection of the old "Early White Bush," the highly favored early summer squash. The newer sort is much larger and deeper, has fewer scallops, which saves waste, and is a heavier producer. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.25. 5 lbs. for \$5.00.

Hubbard Squash.

Hubbard. Large size, flesh bright orange, fine grained, dry and good flavor. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00.

Boston Marrow. Very popular for fall and winter; thin rind, orange color, yellow flesh, fine for pies, good keeper. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00.

Golden Custard Bush. Similar to the White Bush, but yellow. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.25.

Wyatt's Early White Bush, or Patty Pan. Very largely grown in the South. Early, productive and a good shipper. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, postpaid, 5 lbs. for \$4.50.

Earliest Prolific. An extremely early variety of summer squash of Patty-Pan type; a bush squash of remarkable

Giant Golden Summer Crookneck.

Giant Golden Summer Crookneck Squash. Much larger than the original Summer Crookneck and more desirable, being as early and of more vigorous growth. The flesh is thick, yellow. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 45 cts., lb. \$1.25.

English Marrow. Fruits shorter than Long Cream. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts.

Long Cream. Bears creamy white oblong fruits. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 75 cts.

Bush Fordhook Squash. Unequalled in quality and delicious sweetness by any variety, whether for summer or winter use. If stored before frost in a warm dry place, it will furnish winter squash for table use until the new crop is ready. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 40 cts., lb. \$1.25.

SPINACH

One ounce will sow 100 feet of drill; 20 pounds per acre in drills, or 25 to 30 pounds broadcast. One-half pound is sufficient for an average garden.

Should be grown in every garden for greens. It is very healthful, and should be freely used, as it is not difficult to raise, requires little cultivation, and seed is easily grown. It can be sown in drills, which should be about 18 inches apart, covering the seed with an inch of soil or it can be sown broadcast. Can be sown in February, March, and April, or in September or October for late fall and early spring use. Ready to cut in 40 to 60 days.

Norfolk Savoy, or Bloomsdale. A hardy variety; very early, producing leaves resembling a Savoy cabbage, a good variety for fall seeding. Pkt. 5 cts., oz. 10 cts., $\frac{1}{4}$ lb. 25 cts., lb. 50 cts., 5 lbs. \$2.25, postpaid, 100 lbs. \$25.00. 500 lbs. \$100.00.

Long Season. Well-known variety for either fall or spring seeding. Stands a long time in edible condition. Pkt. 5 cts., oz. 10 cts., $\frac{1}{4}$ lb. 25 cts., lb. 50 cts., postpaid.

New Zealand. Produces tender Spinach even during hot weather, and will grow in poor soil. Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 35 cts., lb. \$1.00, postpaid.

King of Denmark Spinach. This new variety is slow to go to seed. It makes a very quick growth of dark green leaves, large and attractively crumpled. **Plant some without fail.** Pkt. 10 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., lb. 60 cts., 10 lbs. \$4.75.

Norfolk Savoy, or Bloomsdale.

TOMATOES *One ounce will make about 1,500 plants, 4 ounces will make plants enough for an acre.*

Six or eight weeks before frost is over sow seed in hotbeds or in pots or shallow boxes in the house, and when the plants have made four leaves, transplant in the beds to promote root-growth. Expose as much as possible to harden them, so that when set out on the open ground they will be strong and stocky, but do not allow the growth to be checked. Transplant 3 to 4 feet apart in a light, warm soil, and cultivate as long as possible. When transplanted, puddle the plants and shade them a few days until they are well rooted. The earliest fruits may be had by growing in pots and shifting to large pots as they become filled with roots. Earliness may also be promoted by pinching off all the branches except the one most thrifty and tying this and the main stem to stakes. If all useless growth is removed by pinching out the side branches, the plants may be set closer and will produce more perfect fruits and a more abundant crop.

Brimmer (see front cover). A new Tomato, well adapted to Southern conditions, larger than most kinds. The fruit is unusually large, flat curved, of a bright red color, thick, meaty and contains but few seed. Pkt. 10 cts., 1/2 oz. 50 cts., 1 oz. 75 cts., 1/4 lb. \$2.25, lb. \$8.00.

Wyatt's Matchless (see inside front cover). Large, bright red, long keeping tomato. The solid fruit is produced on strong, vigorous, prolific vines. Very distinct. Pkt. 10 cts., 1/2 oz. 20 cts., oz. 35 cts., 1/4 lb. \$1.00, lb. \$3.50.

Ponderosa Tomato.

Ponderosa. Fruits very large, solid and bright crimson. Pkt. 10 cts., oz. 50 cts., 1/4 lb. \$1.40, lb. \$5.00.

Crimson Cushion. An extremely large, bright red variety of the Ponderosa type; ripens evenly; good quality; late. Pkt. 10 cts., 1/2 oz. 35 cts., oz. 60 cts., 1/4 lb. \$1.90, lb. \$6.50, postpaid.

Greater Baltimore. A main-crop variety, excellent for canning; fruit large, smoother and well formed; color bright red; a heavy cropper. Pkt. 10 cts., oz. 30 cts., 1/4 lb. 90 cts., lb. \$3.25, ppd.

Greater Baltimore Tomatoes.

John Baer Tomatoes.

John Baer. Very early and an exceedingly heavy cropper; produces fruit of medium size and fine flavor. Pkt. 10 cts., oz. 25 cts., 1/4 lb. 80 cts., 1 lb. \$3.00.

Livingston Beauty (Purple). Vines large, vigorous and heavy bearers, fruit large, uniform, very smooth purplish pink skin; flesh light pink. Pkt. 10 cts., oz. 35 cts., 1/4 lb. 85 cts., lb. \$2.85.

Dwarf Champion. Fruit of medium size; very prolific. Pkt. 10 cts., oz. 50 cts., 1/4 lb. \$1.25.

Earliana. Extra early; bright red, smooth. Pkt. 10 cts., oz. 45 cts., 1/4 lb. \$1.00, 1 lb. \$3.00.

Acme. One of the earliest; handsome, medium-sized fruit. Pkt. 10 cts., oz. 35 cts., 1/4 lb. \$1.00.

Bonny Best. Very early; medium size; valuable for market. Pkt. 10 cts., oz. 50 cts., 1/4 lb. \$1.25.

June Pink. This is really a pink "Spark's Earliana," as it resembles that variety in every way except the color, which is pink. Pkt. 10 cts., oz. 45 cts., 1/4 lb. \$1.25.

Chalk's Early Jewel. Very fine; large, solid, smooth and bright red. Pkt. 10 cts., oz. 45 cts., 1/4 lb. \$1.00.

Wyatt's Beefsteak. Is very large, round and regular; bright scarlet skin, solid flesh of best quality, seed cells small. Plants are very prolific, fine appearance. Pkt. 10 cts., 1/2 oz. 30 cts., oz. 55 cts., 1/4 lb. \$1.60.

Magnus. Potato leaved; strong growing vines, a heavy cropper. Fruit globe-shape and ripens evenly. Pkt. 10 cts., 1/2 oz. 20 cts., oz. 55 cts., 1/4 lb. \$1.75.

Yellow Pear-shaped. Small, for preserves, much resembling a pear in form. Pkt. 10 cts., oz. 45 cts., 1/4 lb. \$1.50, postpaid.

Yellow Pear-Shaped Tomatoes

Livingston's New Stone.

Livingston's New Stone. A standard and general favorite with truckers and canners; always dependable; very vigorous and productive. Fruits round, large, solid, smooth and deep red in color. Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. \$2.50, prepaid.

Red Rock. A main-crop variety similar in character to the Stone; very productive, a good shipper. Fruit is a brilliant red; exceptionally smooth and uniform in size; flesh is very firm; an excellent variety for canning. Pkt. 10 cts., oz. 30 cts., ¼ lb. 90 cts., lb. \$3.25, postpaid.

New Globe Tomato. This new Globe or Ball-shaped tomato is ideal for the home garden; it is excellent for slicing. The rich, juicy, tomato flavor gives a certain zest and joy in the eating. The skin is a smooth, glossy red; the flesh is firm and it has few seeds. Pkt. 10 cts., ½ oz. 25 cts., oz. 40 cts., ¼ lb. \$1.25, lb. \$4.00.

Golden Queen. Brick yellow. Pkt. 10 cts., ½ oz. 25 cts., oz. 40 cts., ¼ lb. \$1.20, lb. \$4.00.

Golden Ponderosa. A Yellow Gem. This is a yellow Ponderosa equal in size to that magnificent variety. Sliced and served with the Purple Ponderosa, it makes a highly decorative and appetizing salad. Runs nearly true to type with a small percentage of mixed fruits. Pkt. 10 cts., ½ oz. 35 cts., oz. 60 cts., ¼ lb. \$1.75, lb. \$6.00.

New Globe (Selected Stock)

Wilt Resistant Tomatoes

Marvel. A good bearer, heavy foliage, medium sized. Pkt. 10 cts., ½ oz. 35 cts., oz. 60 cts., ¼ lb. \$2.00.

Norduke. An excellent home garden and local market sort. Pkt. 10 cts., ½ oz. 35 cts., oz. 60 cts., ¼ lb. \$2.00.

Columbia Wilt-Resistant.

(Plant some, you will be pleased with results.)

Norton. Resembles Livingston's Stone, good keeper and yielder. Pkt. 10 cts., ½ oz. 35 cts., oz. 60 cts., ¼ lb. \$2.00.

Columbia. Our seed of this variety is the very best California grown. Pkt. 10 cts., oz. 60 cts.

Louisiana Pink. Pink meated. Pkt. 10 cts., ½ oz. 60 cts., oz. \$1.00.

Louisiana Red. The highest yielding Tomato for the Carolinas. Pkt. 10 cts., ½ oz. 60 cts., oz. \$1.00.

The above six Wilt Resistant varieties have been tried and we know that they will give you satisfaction. Try some this season.

Tomato Plants.—We can supply all varieties in season. Write for prices when ready to purchase.

Tomato Collection.—Six papers of fine Tomato Seed, of the following varieties, mailed to any address in the United States.

for TWENTY-FIVE CENTS

TURNIPS

One ounce is sufficient for 100 feet of drill; 1½ to 2 pounds to an acre

The successful cultivation of Turnips requires land which has been thoroughly enriched and put in the best condition. For spring use, sow the earlier varieties about the last of February, three-quarters of an inch deep in drills 18 inches apart, and thin the plants to 6 inches apart; for fall and winter supply, sow from the middle of July to November 1. The strap-leaf varieties will usually make Turnips as late as the middle of October. For the rutabagas and large Turnips the drills ought to be 2 feet apart, and the plants thinned to 10 inches. If desired, they may also be sown broadcast.

Turnips are easy to grow. Pull them while they are tender and sweet. These Turnips selected for rich flavor, fine grain and handsome appearance. You should sell lots of Turnips and Salad on your local market.

Rutabaga for table and for stock. Nothing better for feeding cows, hogs and sheep.

Extra Early Purple Top Milan. An excellent medium size turnip, almost as early as White Milan, smooth white surface, purple top, flat shape, white flesh—its growth is very uniform and quality the best. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. \$1.00.

Early White Milan. Is the earliest turnip, but can be used Spring or Fall. The skin is smooth, snowy white, has a polished appearance; medium size, white, tender, sweet. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. \$1.00.

THE TURNIP SEED CROP is very short this year; particularly the salad varieties will be unobtainable later in season.

1. Early Milan Purple Top.
2. Early White Flat Dutch.
3. Purple Top Strap Leaf.
4. White Egg.
5. Large Amber Globe.
6. Purple Top White Globe.

White Flat Dutch. It is an early garden variety, popular in the Southern states; is medium sized, sweet, tender and desirable for table use. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., 5 lbs. \$3.00.

Early Snowball. Small, white, grows quickly, splendid table quality. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., 5 lbs. \$3.00, 10 lbs., \$5.00.

Large Amber Globe. Large yellow turnip, used for both table and stock feeding. It resembles the rutabaga and grows to an enormous size. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., postpaid.

Red or Purple Top Strap Leaf. This strap-leaf variety is good for early spring and fall use; top red or purple above ground, flesh fine grained; mild flavor. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts.

Mixed Turnips. A mixture of all varieties of garden turnips, early and late sorts, both white and yellow fleshed. Just what people want for the home garden. One sowing will supply turnips for summer and winter use. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 60 cts., postpaid.

Purple-Top White Globe. A large, rapid-growing sort with globe-shaped roots. Flesh pure white, and the best flavored; the skin is white, with a purple top. On account of its shape it will outyield any other sort. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., prepaid. Not prepaid, 5 lbs. \$3.50, 10 lbs. \$6.00.

Cow Horn or Long White. Grows nearly half way out of the ground, carrot shape, usually slightly bent; pure white. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts., lb. 90 cts.

White Egg. Quick growing, egg shaped, perfectly smooth pure white variety, grows half way out of ground with small tops and rough leaves, never has rank, strong taste, but the sweet, firm flesh is always mild, rich and fine flavored. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts., lb. 80 cts., 5 lbs. \$3.50.

Prices of the following: Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., 5 lbs. \$3.00.

Pomeranian White Globe. Large, good both for table and stock.

Large White Norfolk. Globular, late, solid.
Yellow Aberdeen. Large globe-shaped table and stock variety.

SALAD TURNIPS

Seven Top. This variety is grown altogether for its top. It does not make a root of sufficient size to eat. It is the best salad Turnip grown, and the tops will continue to come after being cut. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.25, postpaid. Not prepaid, 10 lbs. \$11.15.

Southern Prize. Makes an abundant growth of tops, and at the same time produces a medium-sized root, which is white and of good quality. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. \$1.25, postpaid. Not postpaid, 10 lbs. for \$11.15.

RUTABAGA

Large White, or Sweet Russian. Pkt. 10 cts., oz. 15 cts., ¼ lb. 35 cts., lb. 80 cts.

Improved Purple-Top Yellow. The sweetest and most productive of all the Rutabagas. This makes one of the best of Turnips for table use. Roots grow large, yellow and have a very sweet flesh. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts., postpaid. 5 lbs. \$3.00.

Purple Top Yellow Rutabaga.

TOBACCO SEED

One ounce will sow 50 square yards and produce about 7,500 plants

A very clean piece of land is best for the Tobacco plant beds; hence it is customary to burn a piece of land in the woods for same. This destroys grass, weeds, and insects, adds fertility through the action of the wood-ashes, and leaves the ground in good order. The seeds are sown about February and protected by plant-bed cloth to keep off tobacco flies. When large enough and weather is settled (April-May-June), set the plants out in highly manured or fertilized soil in 3 1/2 foot rows, 3 feet between the plants. Constant care must be given, cultivating, suckering, worming, etc. Methods of curing differ according to the variety and color, whether to be sun or flue-cured, etc.

Adcock. One of the best Tobaccos for poor land. The leaf, though not long, is broad for its length; they are set well apart on the stalk, exposing a greater surface to sun, resulting in a more uniform ripening and more even crop. Best adapted to light gray or sandy soils; makes fine cigarette cutters and smokers; cures bright. Pkt. 10 cts., oz. 50 cts., 1/4 lb. \$1.50, postpaid.

North Carolina Bright Yellow. Plants of medium size and very erect; leaf of medium length and breadth. Cures well and is of unsurpassable quality. Oz. 50 cts., 4 oz. \$1.50, lb. \$4.00, postpaid.

Improved Gold Leaf. A splendid combination of size; weight and quality. The leaf is long, broad, very similar to Warne, but of finer texture and less inclined to have green shoulders. It has been thoroughly tried out by both growers and manufacturers, and has stood every test and proved one of the best of the bright Tobaccos on the market at the present time. Pkt. 10 cts., oz. 50 cts., 1/4 lb. \$1.50, postpaid.

Improved White Stem Oronoko. The plants are large, with long, medium broad leaves of handsome shape, fine texture and good body. Oz. 50 cts., 4 oz. \$1.50, lb. \$4.00, postpaid.

Yellow Oronoko. Yellow Pryor. Conqueror. Hester. Hickory Pryor.

The above are largely used in the Bright Tobacco Belt. Prices: Pkt. 10 cts., oz. 50 cts., 4 ozs. \$1.50.

Warne. For bright wrappers this variety can be excelled only by the Gold Leaf. Grows to a large size and holds itself up well. The leaf is large, of medium breadth and very fine grained. Oz. 50 cts., 4 oz. \$1.50, lb. \$4.00, postpaid.

Long-Leaf Gooch. Famous for its long, broad leaf of fine texture and superior quality. Ranks among the first in the class where size does not injure quality. Well known upon the market and brings top prices. Oz. 50 cts., 4 oz. \$1.50, lb. \$4.00, postpaid.

Improved Gold Leaf Tobacco.

Wyatt's Hardy Everblooming Roses

- Antoine Rivolle.** Soft peach flesh.
- Columbia.** Lively pink, almost thornless.
- Crusader.** Rich crimson, fragrant.
- Duchess of Wellington.** Saffron-yellow.
- Hadley.** Dazzling crimson, pointed bud.
- Jonker J. L. Mock.** Deep pink.
- K. A. Victoria.** Soft pearly-white.
- Los Angeles.** Flame pink, coral and gold.
- Mrs. Aaron Ward.** India yellow.
- Ophelia.** Salmon flesh.
- Paul Neyron.** Dark rose, immense flower.
- Radlance.** Wonderful pink.
- Red Radlance.** Bright cerise-red.
- White Maman Cochet.** White, and good bloomer.
- President Taft.** Shell pink.
- Frau Karl Druschki.** Pure white.

Radlance Rose

Price, all Varieties:

- Extra Strong Plants. \$1.00 each, \$10.00 per doz.
- Strong Plants. 75 cts. each, \$7.50 per doz.
- Large Specimen Plants. \$1.75 each.

Climbing Roses

- Climbing American Beauty.** Red.
- Dr. W. Van Fleet.** Shell pink.
- Paul's Scarlet Climber.** Scarlet.
- Silver Moon.** Wonderful white
- Tausendschon.** Pale pink.
- Hoosier Beauty.** Dazzling crimson-scarlet.
- Cherokee Pink.** Rich pink.
- Cherokee Red.** Deep red.
- Climbing Hadley.** Crimson.
- Climbing Sunburst.** Golden.

Price, any of the above: 75 cts. each, \$7.50 per doz. Extra strong plants \$1.00 each.

Nursery Stock

Apples

- Early Harvest** **Grimes Golden**
- Horse** **Delicious** **Winesap**
- York Imperial**
- Also Other Varieties**

Strong Trees. 75 cts. each, \$5.50 per 10.

Peaches

Leading Varieties

Strong Trees. 50 cts. each, \$4.35 per 10.

Pears

Leading Varieties

Strong Trees. \$1.00 each, \$9.50 per 10.

- CHERRIES.** Each \$1.25; per 10..... \$11 00
- APRICOTS.** Each \$1.00; per 10..... 9 00
- FIGS.** Each 75 cts. and \$1.00; per 10..... 7 00
- PECANS.** Each..... \$1.50 to 5 00
- GRAPES (Bunch).** Each 25 cts.; per 10..... 2 25
- GRAPES (Scuppernong and James).** Each 75 cts., 6.00 per 10.

Shrubs

- Abella Grandiflora.** Each 75 cts. to \$1.50
- Spiraea Van Houttel.** Each 75 cts.; 10 for..... 6 00
- Crepe Myrtle.** White, Pink, Red. Each 75 cts. and 1 50
- Evergreens.....** \$1.25 up

WYATT'S SELECTED FLOWER SEEDS

Will Make Your Home-Grounds More Beautiful

Early Flowering
Mammoth Cosmos.
(See page 35.)

There are few places where some variety of flower seeds cannot be sown, and certainly, where there is any space at all, one should have flowers. For the beginner, we would suggest such kinds as Alyssum, Asters, Calliopsis, Centaurea, Cosmos, Nasturtium, Dianthus, Poppies, Verbenas, and Zinnias.

Light, rich loam is most suitable for flowers. The soil should be finely pulverized for best results. This is of paramount importance if one wishes to grow them successfully. They, in common with all other seeds, should be sown thinly and the soil pressed firmly over them when covered. Water frequently. A good plan is, sow the seeds in rows about 8 inches apart, then transplant to the permanent garden later. This applies to all the above varieties or those flowers to be sown from small seeds with the exception of Poppies, Nasturtiums and other large-seeded varieties, which can be planted where they are intended to flower, placing the seed about 2 inches apart in the rows and about 1 inch deep.

Annuals are those flowers that attain their full growth, bloom, and die the first year. Among these are Asters, Balsam, Cosmos, Zinnias, Mignonettes, Sweet Peas, Nasturtiums, Morning Glories and other brilliant and fragrant sorts.

Biennials produced from seed generally flower the second year and then die, the life of the plant being two seasons.

Perennials usually do not flower the first year, but live over until the second season and then bloom. They continue for many years after. These sorts constitute the "Hardy Flowers," such as Hollyhocks, Sweet William, etc.

Hardy, Half-Hardy, and Tender are common terms applied to Annuals. All Hardy Annuals can be sown at same time peas and radishes are usually sown in the vegetable garden. Half-Hardy Annuals may be sown at corn-planting time, or when there is little danger of frost. Tender Annuals should not be sown until the ground is warm and the weather is settled, usually in May.

Desirable Annuals for Beds and Massing

Ageratum, Alyssum, Antirrhinum (Snapdragon), Balsams, Asters, Calendula, Calliopsis, Candytuft, Carnation, Celosia, Cosmos, Dianthus, Gaillardia, Heliotrope, Marigold, Chrysanthemum, Eschscholtzia, Nasturtiums, Pansy, Petunia, Mignonette, Scabiosa, Phlox Drummondii, Poppies, Portulaca, Salvia splendens, Zinnia, Verbena, and Vinca.

Long-Stemmed Flowers for Cutting

Aquilegia, Asters, Calliopsis, Carnations, Centaurea cyanus, Centaurea (sweet), Chrysanthemum, Coreopsis, Cosmos, Dahlias, Delphinium (hardy), Gypsophila, Gaillardias, Larkspur, Marigolds, Mignonette, Poppies, Salpiglossis, Scabiosa, Stocks, Stokesia, Sunflowers, Sweet Peas, Sweet Sultan, and Zinnias.

Climbing Annuals for Verandas, Arbors, Trellises, Etc.

Balloon Vine, Cobea, Cypress Vine, Gourds, Dolichos, Moonflower, Nasturtium, Morning-Glories, Thunbergia, Sweet peas, and Maurandya.

Desirable Plants for Shady Locations.

Antirrhinum, Canterbury Bells, Coreopsis, Digitalis, Pansies, Mimulus, Poppies (hardy), Violet, Aquilegia, Asperula, Daisies, and Delphinium.

Plants Suitable for Edging and Low Borders.

Aster, Ageratum, Alyssum, Begonia, Bellis (Daisies), Candytuft, Centaurea candidissima, Cosmos (dwarf), Lobelia compacta, Marigold, Pinks (hardy), Portulaca, Pyrethrum, Forget-me-not, Verbenas, and Zinnias.

Plants for Baskets, Vases, Veranda Boxes, Etc.

Alyssum, Abronia, Centranthus, Dusty Miller, Centaureas, Clarkia, Dwarf Morning-Glory, Lobelia gracilis, Maurandya, Nasturtium, Petunia, Begonia, Coleus, Fuchsia, Geranium, Heliotrope, Impatiens, Pansy, Oxalis, and Thunbergia.

Showy Annuals for Tall Beds, Groups and Backgrounds.

Cosmos, Centaurea, Datura, Hibiscus, Amaranthus, Marigolds, Poppies, Nicotiana, Ricinus, Salvia, Sunflower, Zinnias, Calendula, and Calliopsis.

Annuals to be Started in Boxes Early.

Cosmos, Godetia, Marigolds, Canterbury Bells, Calliopsis, Chrysanthemum, Cockscomb, Petunia, Ricinus, Verbena, Sweet William, Asters, and Salvia (Scarlet Sage). These can also be planted in the open when weather permits.

Double Mixed Hollyhocks

(See page 36.)

WYATT'S ASTERS

The Aster is the queen of the late summer flowers—it is equally good for cut-flowers and for bedding. Wyatt's varieties are all of the fine large American kinds with flowers 4 to 5 inches across. An Aster bed is a mass of color, from white through delicate pinks to rich red and from palest lavender to deepest purple. Sow Aster seed in boxes in January and transplant to the garden about April 1 to 15, or sow in the open in April.

WYATT'S MAMMOTH ASTERS

Twisted Petal Type

Mammoth Asters have petals just a little broader than Crego's and less twisted. They have *fine large flowers, over 4 inches across* and sometimes 5 inches, borne on long stems. They are entirely new and different from all of the other Asters, and have a great charm in the delicacy of their flowers.

- | | |
|---------------------------|-----------------------|
| Mammoth White | Mammoth Rose |
| Mammoth Shell-pink | Mammoth Purple |
| Mammoth Lavender | Mammoth Mixed |

Pkt. 15 cts., 1/4 oz. 60 cts.

Mixed Asters. Pkt. 10 cts., 1/4 oz. 40 cts., oz. \$1.00.

Semple's Giant Late-Branching.

SEMPLÉ'S GIANT LATE-BRANCHING

Without question, the finest Aster grown. It has size, vigor, fine stem, beauty of form and varied color to recommend it, and, while not so early as many of the other varieties, it stands at the head of the list.

Finest Mixed Colors. All shades and colors. Pkt. 10 cts., 1/8 oz. 30 cts.

Lavender. Pkt. 10 cts., 1/8 oz. 40 cts.

Royal Purple. Pkt. 10 cts., 1/8 oz. 40 cts.

Pure White. Pkt. 10 cts., 1/8 oz. 40 cts.

Crimson. Pkt. 10 cts., 1/8 oz. 40 cts.

Shell-Pink. Pkt. 10 cts., 1/8 oz. 40 cts.

Collection of Semple's Giant Asters, 5 above sorts, 40 cts.

CREGO ASTER

The Crego comes into bloom just ahead of the Late-branching Asters, and being of Comet type, affords variety in the garden.

Purple. Rich purple. Pkt. 10 cts., 1/8 oz. 40 cts.

White. Pure white. Pkt. 10 cts., 1/8 oz. 40 cts.

Pink. Beautiful pink. Pkt. 10 cts., 1/8 oz. 40 cts.

Lavender. Rich. Pkt. 10 cts., 1/8 oz. 40 cts.

Crego's Giant Crimson. Pkt. 10 cts., 1/8 oz. 40 cts.

Mixed. All colors. Pkt. 10 cts., 1/8 oz. 30 cts.

Collection of Crego Asters, 1 pkt. each above 6 colors, 45 cts.

QUEEN OF THE MARKET ASTER

Very early. White, pink, lavender, scarlet, dark blue, and choice mixed. Pkt. 10 cts., oz. \$1.50.

AQUILEGIA (Columbine)

This is one of our finest hardy perennials, flowering the second year from seed and worthy of a place in every garden. Seed grows readily, but is slow in starting.

Single or Double Mixed. All colors. Pkt. 10 cts., 1/4 oz. 25 cts., 1 oz. 75 cts.

AGERATUM

An annual plant, growing about a foot high and covered all summer with close, fluffy heads of bloom of a pretty shade of blue. Used largely for edgings and borders of taller-growing plants. Hardy annual.

Mixed. Pkt. 10 cts., oz. 50 cts.

Imperial Blue. Pkt. 10 cts., 1/8 oz. 25 cts.

Wyatt's Mammoth Twisted Petal Aster.

WYATT'S PEONY-FLOWERED

The improved strains of this grand Aster are considered the finest in cultivation. The large, perfectly double flowers are fine. Height, 2 feet. Fine assortment.

Mixed Colors. Pkt. 10 cts., 1/8 oz. 40 cts.

AMARANTHUS

These plants grow 2 to 3 feet tall and have ornamental foliage as well as flowers. The seed is very fine, but grows readily if kept moist. Can be readily transplanted. Do not cover seed over a quarter of an inch. Hardy annual.

Candatus (Love-lies-bleeding). Long, drooping sprays of red flowers. Pkt. 10 cts., 1/2 oz. 20 cts.

Tricolor (Joseph's Coat). Very fine variegated foliage. Pkt. 10 cts., 1/2 oz. 20 cts.

ALYSSUM

A wonderfully hardy little plant, coming into bloom when only a couple of inches high and flowering all the summer. Grows about 6 inches high, and is fine for edging beds.

Carpet of Snow. An exceptionally fine and compact variety. Pkt. 10 cts., 1/4 oz. 20 cts., 1/2 oz. 35 cts., oz. 65 cts.

Sweet Alyssum. The regular type; strong grower; free bloomer. Pkt. 10 cts., oz. 65 cts.

Sweet Alyssum.

Columbine.

Giant Snapdragon.

ANTIRRHINUM
(Snapdragon)

This is a well-known and valuable plant, bearing long spikes of many colored flowers throughout the season. A hardy annual but sometimes lives over to the second year. Seed rather slow to sprout.

Giant Mixed. Pkt. 10 cts., oz. \$1.00.

BALSAM

Sometimes called "Touch-me-not," or "Lady's Slipper." A tender annual, growing about 18 inches tall in the shape of a small tree, and producing all along the branches showy single and double flowers like small roses.

Double Mixed. Pkt. 10 cts., oz. 75 cts.

BALSAM PEAR AND APPLE

A good climber, with dense foliage and oddly shaped fruit, which is claimed to have mechanical qualities when put in alcohol. Height 10 feet. Half-hardy annual. Pkt. 10 cts., oz. 35 cts.

BALLOON VINE

A rapid grower with fine flowers, followed by inflated seed-pots resembling small balloons. Half-hardy annual. Height 10 feet. Pkt. 10 cts., oz. 35 cts.

BELLIS

(English Daisy)

A little old-fashioned plant, growing about 4 inches tall and used for edging; produces very double pink and white flowers in early summer. Hardy perennial. Pkt. 10 cts., 1/8 oz. 50 cts.

CALENDULA

The old "Pot Marigold". A very hardy annual with double yellow flowers, like double daisies. Blooms all summer and grows about 15 inches tall. Hardy annual. Pkt. 10 cts., oz. 35 cts.

Calendula.

CALLIOPSIS

Very hardy and showy annual with bright yellow and reddish brown single daisy-like flowers, easily grown and useful both for garden decoration and cutting.

Tall, Mixed Colors. Pkt. 10 cts., oz. 35 cts.

Dwarf, Mixed Colors. Pkt. 10 cts., oz. 35 cts.

Coreopsis.

Coreopsis. — There are no more glowing or dignified yellow flowers in our gardens.

COREOPSIS (Tickseed)

One of the most popular hardy plants, the flowers are a rich golden yellow of a beautiful graceful form and bloom June to October.

California Sunbeam. 2 ft. Large orange-yellow flowers on long graceful stems. About the best yellow cutflower blooming incessantly. Pkt. 10 cts., 1/4 oz. 25 cts.

Plants. 3 for 50 cts., doz. \$1.75, 100, \$12.00.

Candytuft.

CANDYTUFT

A free-flowering, hardy annual, somewhat resembling Alyssum, but larger, with longer heads of bloom, fragrant and easily grown.

Mixed Colors. Pkt. 10 cts., oz. 35 cts.

CAMPANULA
(Canterbury Bells)

Grows about 2 feet high and blooms in early summer. Will flower well in the shade. This is a true biennial. Does not bloom the first year, and after flowering the second year dies. Colors White, Pink, Blue and Purple, in fine mixture.

Single or Double. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.10.

CENTAUREA

There are two types of this plant, one Centaurea gymnocarpa, or Dusty Miller, a plant with silvery gray foliage and largely used for bordering formal beds, and the other, our old-fashioned Bachelor's Button, or Cornflower, Centaurea cyanea, which is a very hardy annual, flowering all summer and useful for cutting. Very easily grown.

Gymnocarpa. Pkt. 10 cts., oz. 50 cts.

Cyanea. Mixed Colors. Pkt. 10 cts., oz. 50 cts.

Centaurea Cyanea.

GIANT-FLOWERING SWEET SULTANS
(Centaurea imperialis)

The blooms are borne on long stems. Of the easiest growth; very showy in the garden all summer long.

Giant Mixed Colors. An elegant assortment of colors. Pkt. 10 cts., 1/4 oz. 25 cts., oz. 75 cts.

CHRYSANTHEMUMS
(Annual Varieties)

The following hardy annuals are summer-flowering border plants (growing about 2 feet high), bearing in profusion daisy-like flowers averaging about 3 inches across on good stems, and quite distinct from the hardy perennial and autumn-flowering varieties.

Single Mixed. (*Painted Daisies*). Many colors. Pkt 10 cts., 1/2 oz. 40 cts.

Coronarium, Double Mixed. Yellow, white, etc. Pkt 10 cts., oz. 75 cts.

Mixed. The choicest carinatum and coronarium varieties, both single and double. Pkt. 10 cts., 1/4 oz. 25c.

CHRYSANTHEMUM PLANTS

Extra Selected Varieties. Large flowering or pompoms. Yellow, Golden, Cream, White, Bronze, Pink, Lavender. 60 cts. per dozen, postpaid. \$4.00 per 100.

CLARKIA

This pretty and easily grown annual has been much improved in recent years. They do well either in sun or shade, growing 2 to 2 1/2 feet high, with leafy racemes of double flowers, which all open in water when cut.

Elegans Double Mixed. A fine mixture containing all the colors. Pkt. 10 cts., 1/4 oz. 25 cts.

CYPRESS VINE

One of the prettiest of our smaller vines, with fine, feathery dark green foliage and star-shaped scarlet and white flowers. Height 6 feet. Pkt. 10 cts., oz. 45 cts.

DIANTHUS

Fine little plants with flowers resembling Carnations. Very hardy and usually live over for several years, but bloom freely the first year. One of the easiest flowers to grow.

Chinese Fl.-Pl. Double Chinese Pinks. A very attractive variety. Mixed colors. Pkt. 10 cts., oz. 70 cts.

Everblooming. Pkt. 10 cts., 1/4 oz. 30 cts.

DOLICHOS (Hyacinth Bean)

A free-growing climber with heavy foliage and large sprays of white and purple flowers. Pkt. 10 cts., oz. 30 cts.

For Aphis Use Black Leaf-40, 35c. a Bottle.

CARNATIONS

Have a delightful clove fragrance. Half-hardy perennials, flowering the second year from seed, with exception of the "Marguerite" variety, which will bloom in four months from time of sowing seed. Should not be planted where water stands in winter.

Mixed Colors. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

Marguerite. All colors. Pkt. 10 cts., 1/4 oz. 40 cts.

CELOSIA (Cockscomb)

Hardy annuals, producing peculiar heads of bloom rather resembling a cock's comb, hence the name.

Glasgow Prize. The finest of all, producing immense heads of glowing crimson. Pkt. 10 cts., 1/2 oz. 35 cts.

African Daisy.

AFRICAN DAISY (New Hybrids)

The blooms of these New Hybrids of the Golden Orange African Daisy comprise a wonderful variety of beautiful and delicate shades of color, ranging from pure white through pale salmon and primrose tones to deepest orange. Pkt. 10 cts., 3 pkts. 25 cts., 1/4 oz. 40 cts.

COLEUS

The most popular of all foliage plants. Easily grown from seed, but must be started in a box in the house or hotbed, as the seed is very fine and when sown is scarcely covered, but must be kept moist. Tender annual.

Mixed Colors. Pkt. 15 cts., 1/8 oz. 85 cts.

COSMOS

One of our most satisfactory hardy annuals, flowering in late summer. Fine for cutting and easily grown. Grows 4 to 6 feet high.

Early-Flowering Mammoth. (See illustration, page 32).

This improved variety has flowers fully as large as the later type, but begins to flower in July, and from that time on to frost yields a quantity of bloom. Pkt. 10 cts., 1/4 oz. 25 cts., 1/4 oz. 45 cts., 1/2 oz. 75 cts., oz. \$1.00.

Double Cosmos. (See page 4).

ANNUAL LARKSPUR

	Pkt.	1/4 oz.
Tall Stock-flowered. White..	\$0 10	\$0 25
Tall Stock-flowered. Shell-pink . . .	10	25
Tall stock-flowered. Bright rose	10	25
Tall Stock-Flowered. Dark blue	10	25

SALVIA OR SAGE

Blue, the same type growth as the Scarlet or Red Sage, but with wonderful blue flowers. Pkt. 10 cts., 3 pkts. 25 cts.

DIBBLES

for transplanting
75 cts. each

Turf Edgers

Each \$1.50.

THERMOMETERS

Taylor Company's Household Type, each \$1.10.

Try Helichrysum or Strawflowers for Winter Bouquets. Offered on page 36.

Larkspur.

DELPHINIUM

(Larkspur)

Very showy plants, producing long spikes of beautiful flowers in various shades of blue. There are both annuals and perennials.

Giant Hyacinth-Flowered. Hardy annual. All colors. Sow early as ground is in working condition. Pkt. 10 cts., 1/4 oz., 30 cts., 1 oz. \$1.00.

DIGITALIS (Foxglove)

Produces long spikes of pink, light purple, and white, tube-shaped flowers. Does well in the shade. A very stately plant easily grown, and should be in

every garden. Biennial. Pkt. 10 cts., 1/4 oz. 30 cts.

DAHLIAS

The double sorts will bloom the first season if the seed is sown before the beginning of April; the single sorts will bloom from seed sown in the open ground as late as June, although an earlier start is better.

Single Mixed. All colors. Pkt. 10 cts., 1/4 oz. 25 cts.

Double Mixed. This type is very desirable. Many colors. Pkt. 10 cts., 1/8 oz. 40 cts.

ESCHSCHOLTZIA (California Poppy)

A hardy, free-flowering annual, growing about 15 inches high and producing quantities of single, poppy shaped blooms in shades of yellow, orange and red. Flowers over a long period. Pkt. 10 cts., oz 30 cts.

EUPHORBIA VARIEGATA (Snow on the Mountain)

A favorite for mass planting. Showy and distinct plants with very attractive foliage, dark green leaves, edged clear white. 2 feet. Easily grown from seed, doing well in any fairly good soil. Pkt. 10 cts., 1/4 oz. 25 cts., oz. 75 cts.

GALLARDIA

A perennial producing large, single, daisy-shaped flowers in shades of yellow and reddish brown, with brown centers; fine for cutting. One of the most persistent bloomers. Does best in the hottest, driest location. Pkt. 10 cts., 3 pkts. for 25 cts., 1/4 oz. 30 cts.

GLOBE AMARANTH

When fully developed and hung head down in a cool dry place for a few days, they will keep their form and color for many months. Hardy annual. Pkt. 10 cts., 1/4 oz. 20 cts.

HELIOTROPE

Always popular on account of its delightful fragrance. The seed is rather slow in starting and had best be sown in boxes or in a hotbed. While it is a perennial, it will not stand any frost, and it is therefore started afresh each year unless one cares to remove the plants to the house before frost comes. Can be started from cuttings.

Mixed Colors. Pkt. 10 cts., 1/4 oz. 40 cts.

FORGET-ME-NOT

(Myosotis)

Charming little flowers, highly effective if grown in masses. If sown early in sunny border, will bloom the first season. Height 6 to 9 inches. H. P.

Mixed Colors. The finest varieties mixed. Pkt. 10 cts., 1/8 oz. 20 cts., 1/4 oz. 35 cts.

GODETIA

(Satin Flower)

Beautiful and easily grown, producing a profusion of flowers, satiny texture.

Tall or Dwarf. Pkt. 10 cts., 1/8 oz. 20 cts.

Forget-Me-Not.

Perennial Plants. All kinds in season. \$2.50 doz., postpaid. Send us your list for prices.

GOURDS

Very rapid-growing vines, producing odd and interesting fruit.

Nest Egg. Pkt. 10 cts., oz. 25 cts.

Dipper. Pkt. 10 cts., oz. 25 cts.

Small Varieties, Mixed. Pkt. 10 cts. oz. 25 cts.

HELICHRYSUM (Eternal Flower)

Everlasting; cut when about to open and dry for winter bouquets; large, double and of many colors. Pkt. 10 cts., 1/4 oz. 20 cts.

Helichrysum or Strawflowers

HIBISCUS (Marshmallow)

Showy Ornamental perennial plants for mixed beds or shrubby borders, having large-sized beautifully colored flowers. Pkt. 10 cts., 1/2 oz. 30 cts.

HOLLYHOCK

(See illustration, page 32).

Their long spikes of many-hued flowers add a quaint touch to any flower-garden and are invaluable where it is desired to hide high fences. There are both single and double varieties and they vary in color from white to deepest garnet, and include many lovely shades of yellow.

Choice Mixed. All varieties. Pkt. 10 cts., oz. \$1.00.

Newport Pink

Double Salmon-Rose

Double Apple Blossom

Pkt. 10 cts., 1/4 oz. 35 cts.

Double Yellow

Double Deep Scarlet

Annual Hollyhock

JOB'S TEARS

(Coix Lacryma)

A grass-like annual, producing large, shiny seeds, used for many purposes. Hardy annual. Pkt. 10 cts., oz. 20 cts., 1/4 lb. 30 cts.

KOCHIA

(Summer Cypress)

A remarkable annual, producing dense, rounded plants with fine green leaves and growing to a height of 3 feet. The foliage changes to a reddish shade toward fall. Fine for a hedge or to outline the garden. Pkt. 10 cts., oz. 40 cts., postpaid.

Kochia.

THE LITTLE BOOK OF ANNUALS

By Professor Albert C. Hottes.

A reliable guide through the the season of annual bloom. Carefully written and freely illustrated book of 128 pages; paper cover, \$1.10; cloth binding, \$1.35 postpaid.

LOBELIA ERINUS (gracilis)

Bright Blue. Pkt. 10 cts.

LOBELIA Cardinalis
(Indian Pink or Cardinal Flower)

Thrives best in moist and slightly shaded positions. The flowers are rich crimson. Height 2 to 4 feet. Pkt. 15 cts., 1-32 oz. 60 cts., 1-16 oz. \$1.10, 1/8 oz. \$2.00.

LUPINUS (Lupine)

Lupines are extremely decorative in the garden and valuable for cutting.

Annual Mixed. One to two feet high, with upright racemes of variously colored, pea-shaped flowers. Valuable for mixed flower-beds and borders. Pkt. 10 cts., oz. 25 cts.

Orange Prince Marigold.

MARIGOLD

One of the easiest grown annuals, furnishing all summer long quantities of double and single flowers in shades of yellow and orange—some being striped with brown.

French Gold-Striped. Pkt. 10 cts., oz. 50 cts.

African Double Mixed. Pkt. 10 cts., oz. 50 cts.

Tall French Double Mixed. Pkt. 10 cts., 1/2 oz. 30 cts.

Orange Prince. Large perfect double-quilled flowers of a rich deep golden-orange color. Pkt. 10 cts., 1/4 oz. 50 cts., oz. \$1.50.

Lemon Queen. A counterpart of Orange Prince except in color, which is a soft lemon-yellow. Pkt. 10 cts., 1/4 oz. 50 cts., oz. \$1.50.

MIGNONETTE

Very popular on account of its delightful fragrance. A very hardy annual, and should be sown soon as the ground can be worked. Does not transplant, and should be thinned to stand 6 inches apart.

Sweet. The common variety. Pkt. 10 cts., 1/2 oz. 15 cts., oz. 25 cts.

Machet. A very choice large-flowered type. Pkt. 10 cts., oz. 40 cts.

Mignonette.

MARIBILIS

(Marvel of Peru)

The well-known Four o'Clock. Grows freely and flowers quickly from seed. Blooms from late afternoon on through the night. Very fragrant. Roots can be taken up and stored like dahlias, but seed is very cheap and starts readily. Hardy annual.

Mixed Colors. Pkt. 10 cts., oz. 25 cts.

MORNING GLORY

Imperial Japanese. Very pretty foliage and a great variety of colors in the bloom. Sow in a sunny location and give plenty of water. Pkt. 10 cts., oz. 40 cts.

Common Morning Glory. (Convolvulus major). All colors, finely mixed. Very popular. Pkt. 10 cts., oz. 20 cts., 1/4 lb. 30 cts.

MOONFLOWER (Evening Glory)

A rapid grower, climbing some 20 feet in a season, and producing large, waxy white flowers, similar to morning glories, 4 to 6 inches across. Very fragrant and opening about 7 o'clock in the evening. The seed is very hard and the shell should be chipped or filed until the white seed shows through and then soaked in warm water for half a day before sowing. Pkt. 10 cts., 1/4 oz. 25 cts.

NICOTIANA

A very popular plant, with fragrant, white, star-shaped flowers. Sometimes called "Flowering Tobacco." Pkt. 5 cts., 1/8 oz. 75 cts.

Sanderae Hybrids. An improved type with many delicate shades of color. Pkt. 10 cts., 1/8 oz. \$1.00.

Maribilis.
(Marvel of Peru.)

Nasturtium.

NASTURTIUM

Sow anywhere, except in the shade. No ground is too poor to grow them. Fine for cutting. The tall or trailing variety is a useful plant for trailing over walls or stumps, also for porch boxes or hanging baskets. The dwarf variety forms compact bushes. Both flower all summer.

Pine State Mixed. A grand mixture of all the best colors and everything good in tall nasturtiums. Pkt. 10 cts., oz. 15 cts., 1/4 lb. 50 cts., lb. \$1.60.

Old North State Mixed. A very fancy mixture of all the best dwarf varieties. Pkt. 10 cts., oz. 15 cts., 1/4 lb. 50 cts., lb. \$1.60.

Be sure and include Salpiglossis and Scabiosas in your order. See pages 38 and 39.

Pansies.

PORTULACA

Select the hottest, sunniest place for this little plant. Sometimes called "Rose Moss." Forms masses of delicate green foliage covered with bright colored flowers somewhat resembling small roses. Specially adapted for light, dry soils, and particularly for sowing on surface of beds of spring-blooming bulbs such as Tulips, Narcissus, etc.

Single Mixed. Pkt. 10 cts., 1/4 oz. 40 cts.

Double Mixed. Fine. Pkt. 10 cts., 1/4 oz. 65 cts.

PANSY

Can be sown in the spring or in September. Plants from the later sowings live over and flower in the spring. They require rich soil and quantities of water to do their best.

Fancy Mixed. A very fancy strain, all colors. Pkt. 10 cts., 1/8 oz. \$1.00, oz. \$5.00.

Large Flowering Mixed. Many standard varieties. Pkt. 10 cts., 1/4 oz. 50 cts., oz. \$2.00.

Pansy Plants in season. 50 cts. per doz., postpaid; \$3.75 per 100 by express.

Ruffled Giant Petunias.

PETUNIA

One of our finest bedding plants, blooming constantly from June until frost. Hardy annual.

Mixed colors. The regular type of Petunias in assorted colors. Pkt., 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

Ruffled Giant. Very large-flowered; ruffled, fluted and fringed, striped and mottled, blotched and self-colors. Pkt. 15 cts., 1/4 oz. 75 cts.

Rosy Morn Selected. Pkt. 15 cts., 1/4 oz. 75 cts.

White Petunia. A selected strain for bedding. Pkt. 15 cts., 1/4 oz. 75 cts.

Deep Purple. Pkt. 15 cts.

Countess of Ellesmere. Rose with white throat. Pkt. 15 cts.

PHLOX DRUMMONDII

A hardy annual, with a greater range of colors than almost any other flower, and no other surpasses it in freedom of bloom. Transplanting readily, and as the seed is rather slow in starting, it pays to start it in a hot bed or box in the house.

Large Flowering Mixed. Pkt. 10 cts., 1/4 oz. 35 cts., oz. \$1.00.

Crimson. Pkt. 10 cts., 1/4 oz. 50 cts.

White. Pkt. 10 cts., 1/4 oz. 50 cts.

Phlox

PERIWINKLE (Vinca)

A free bloomer with glossy green leaves and bright rose and white flowers. As bedding plants for the garden they rival the Geranium. Their soft and delicate colors and profuse blooming habit makes them at all times attractive. 2 ft. Mixed colors. Pkt. 10 cts., 1/4 oz. 40 cts., 1 oz. \$1.25.

POPPIES

Very hardy and can be sown as early in the spring as the ground is in working order, the annual varieties flowering from June on for some weeks.

Shirley Mixed. The very finest strain of single Poppies, all colors, from white to deep scarlet. Pkt. 10 cts., 1/2 oz. 40 cts., oz. 75 cts.

Shirley Scarlet. Pkt. 10 cts.

Shirley Rose. Pink. Pkt. 10 cts.

Peony-Flowered. Very double and fine. All colors. Pkt. 10 cts., 1/2 oz. 25 cts., oz. 45 cts.

Oriental This is extremely hardy, and once established lasts for years. It produces immense single scarlet flowers 4 inches across in early summer, and makes a gorgeous display. Pkt. 10 cts., 1/8 oz. 25 cts.

Shirley Poppies.

SCABIOSA (Mourning Bride)

A very showy hardy annual fine for cutting and furnishing quantities of very bright blossoms all summer long in a variety of colors. Pkt. 10 cts., 1/2 oz. 40 cts.

Scabiosa.

SHASTA DAISY

Alaska. 2 ft. Wonderful show of large white flowers, fine for cutting. Blooms all summer. Pkt. 10 cts., 1/8 oz. 35 cts.

Plants. 3 for 85 cts., doz. \$2.50, 100, \$15.00.

RICINUS (Castor-Oil Bean)

An annual plant, making a rank growth in one season, frequently to the height of 6 to 8 feet, with immense leaves. Fine for the center of foliage beds or as a screen.

Mixed Varieties. Many kinds. Pkt. 10 cts., oz. 15 cts

Ricinus (Castor-Oil Bean)

Inoculate Soy Beans and Cowpeas whether growing them alone or in mixture, inoculate with Farmogerm.

Salpiglossis.

SALPIGLOSSIS

Emperor. A beautiful and easily grown annual, producing velvety-looking flowers in many colors, somewhat in shape of Petunias. Half-hardy annual. Pkt. 10 cts., 1/8 oz. 35 cts., 1/2 oz. \$1.00.

SALVIA (Scarlet Sage)

This ranks with the geraniums as a bedding plant and is easily raised from seed. Long sprays of brilliant scarlet flowers in late summer. Pkt. 10 cts., 1/4 oz. 60 cts., oz. \$2.00.

SCHIZANTHUS (Butterfly Flower)

Also known as "The Poor Man's Orchid." Dainty, compact, branching plants with finely cut foliage, covered when in bloom with clusters of brilliantly colored butterfly-like flowers. One of our very finest annuals, deserving of a prominent place in every flower garden. Plant 15 to 20 inches high. Large flowering Hybrids. Mixed. Pkt. 10 cts., 1/8 oz. 20 cts.

CYPRESS VINE (Impomoea Quamoelit)

One of the most popular vines, with very delicate fern-like foliage, and masses of beautiful, small, star-shaped flowers. Sow in April and May, first soaking the seeds in warm water for a few hours. Height 15 feet.

Mixed. White and scarlet. Pkt. 10 cts., 1/4 oz. 15 cts., oz. 40 cts.

Cardinal Climber. (Quamoelit Hybrida). The best annual climber introduced in many years; beautiful fern-like foliage and brilliant cardinal flowers. Pkt. 15 cts., 2 pkts. 25 cts.

Ten Weeks Stock.

STOCK, TEN WEEKS

An annual used largely for bedding purposes, and grown in pots for spring flowers. Has long spikes of bloom. White, pink and crimson; single and double. Very fragrant. Half-hardy annual.

Dwarf Mixed. Pkt. 10 cts., 1/4 oz. 35 cts.

HEDGES FROM SEED

Marvel of Peru (Four o'Clock), Salvia (Flowering Sage), Kochia (Summer Cypress or Burning Bush).

RUDBECKIA

Bicolor Superba (Cone-flower). 2 feet. Produces an abundance of bright yellow flowers with brown central disc; fine for cutting. Pkt. 10 cts.

MIXED CANNAS (N. C. Crown Roots) 75 cts. per doz., \$5.50 per 100, postpaid.

HELIANTHUS (Hardy or Perennial Sunflower) Pkt. 10 cts. Strong plants, 25 cts. each, \$2.50 doz.

SUNFLOWER

Very hardy annual plants; grown everywhere.

Double California. Handsome, extremely double flowers. Pkt. 10 cts., oz. 20 cts.

Chrysanthemum Flowered. A fine variety, double and of vigorous growth. Pkt. 10 cts., oz. 20 cts.

Red Sunflower. The flowers vary in size from 2 to 3 inches and upward; some are yellow with a red ring around a dark center, others yellow streaked with red, and other interesting color combinations.

Unique Red Sunflower.

Plants without purple in the stems and leaves should be removed while young. Pkt. 10 cts., 1/2 oz. 25 cts., oz. 40 cts.

Miniature Sunflower Mixed. All the newest and best varieties, some a single colors, others black centered, with golden yellow petals, others resembling cactus dahlias, many with curiously twisted petals. Pkt. 10 cts., 1/2 oz. 20 cts.

Giant Zinnia Plants In Season. 50 cts. per doz., postp'd.

Seeds in Quantity.

Market-Gardeners and Public Institutions who buy Vegetable Seeds in large quantities send us a list of your requirements for special prices, as we can frequently make substantial reductions on large orders.

WYATT'S GIANT DOUBLE ZINNIAS

(See illustration, back cover).

A giant strain of this grand old favorite, free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across being not unusual. Plants are of extremely robust habit, attaining a height of about three feet and bearing on long stems numerous semi-globular, mostly very double flowers, all of the largest size, making them of great value in large beds, borders, etc.

Giant Apricot Yellow. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Purple.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Golden Yellow.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Scarlet.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant White.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Flesh Color.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Sulphur-Yellow.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.**Giant Crimson.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.

Verbena.

WALLFLOWER

Tender perennial; variegated. Has massive spikes of sweet scented flowers. 1 $\frac{1}{2}$ feet. Pkt. 10 cts.

SWEET WILLIAM

Old-time hardy perennial with dense heads of many colored flowers. For many years Sweet William has been esteemed as one of our finest hardy garden plants, being of easy culture, thriving in any good garden soil and lasting for years.

Double Mixed. Pkt. 10 cts., $\frac{1}{2}$ oz. 50 cts.**Single Mixed.** Pkt. 10 cts., $\frac{1}{2}$ oz. 50 cts.**Annual Variety.** Mixed colors. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts.

Practical Landscape Gardening, by Robt. B. Cridland. Gives all needful instruction on every detail connected with landscape gardening and as to the embellishment of the home grounds. 91 photographic illustrations, 76 sketches and 33 plans, 276 pages: \$2.65, postpaid.

Giant Picotee Type Zinnia.

ZINNIAS

Picotee, Mixed. The flowers are of the largest size. Pink, light and rich yellow, orange, etc.—all tipped rich mahogany-brown on the end of each petal. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., $\frac{1}{2}$ oz. 75 cts.

Quilled and Crested. The petals are elegantly twisted and curled, giving the flower a most attractive, crested-like appearance. The colors range from white through many shades of yellow, rose-pink, and salmon to deepest crimson. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., $\frac{1}{2}$ oz. 75 cts.

THUNBERGIA

Beautiful, rapid growing annual climbers, preferring a warm, sunny situation; used extensively in hanging baskets, vases, low fences, etc., very pretty flowers in buff, white, orange, etc., with dark eyes; mixed colors; 4 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.

VERBENA

No more attractive low-growing or trailing plants can be had. The trusses and individual flowers are of large size, of brilliant colors, free-blooming and of vigorous habit. For best and quickest results seed should be sown early in the house or hot bed, and transplanted to flowering quarters in May. Verbenas are better grown from seed than from cuttings, being more vigorous and not liable to disease. Seed starts slowly. Hardy annual.

New Mammoth. Very large flowers. Fine mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.**Fine Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts., oz. 75 cts.**Giant White.** Pkt. 10 cts. **Giant Pink.** Pkt. 10 cts.**Giant Blue.** Pkt. 10 cts. **Giant Purple.** Pkt. 10 cts.**Giant Scarlet.** Pkt. 10 cts.**Italian Striped.** Pkt. 10 cts.

OLD NORTH STATE SWEET PEAS

These are almost hardy enough to live out overwinter, and they make their best growth in the cool part of the season. The only way to have them last at all, once the hot weather comes, is to have them deeply rooted by that time, so plant as soon as you can stir the ground in the spring, when it is not muddy, covering 2 inches. Frost will not hurt them. Cultivate thoroughly, plant about 1 inch apart in rich ground; give plenty of water as soon as plants are up. Can be sown in the fall, November being a good time.

Spencer Sweet Peas.

HERCULES

SPENCER OR STANDARD SWEET PEAS

WHITE

Pkt. 10 cts., oz. 35 cts., ¼ lb. \$1.25.

Constance Hinton large; white; black seeded.

Our Garden Flowers By Harriet L. Keeler. With 90 full-page illustrations from photographs and 186 illustrations from drawings. A popular study of their native lands, their life histories, and their structural affiliation. \$2.50.

BULBS FOR SPRING PLANTING

CANNAS

The gorgeous flowers and splendid foliage of the Canna are gaining for it greater popularity each season. No lawn or park seems complete without its tropical leaves and its mammoth flower-spikes that are a mass of bloom from July until frost.

Although astonishing success with Cannas will often be had under most unpromising conditions, they respond so luxuriantly to care that it is well worth while to take a little trouble at the start. The bed should be spaded to a depth of at least a foot and an abundance of well-decomposed manure worked in, and the roots set 4 or 5 inches under the surface. The "blazing" effects for which Cannas are so famous are best secured by the use in masses, with the roots set not more than 2 feet apart—dwarf kinds being set even more closely. All Cannas love water, and in dry seasons blooming will be much more profuse and constant if the soil be kept always moist. In the South, planting may be done as early as the last of March, but if early bloom is wanted, the best way is to start them in pots under protection, transplanting to the open ground when danger of frost has passed.

The President. 4 ft. In color a rich glowing scarlet and the immense rounded flowers, seven inches across when fully open are produced on strong erect stalks well above the large green foliage. Free bloomer and strong grower. Each 15 cts., dozen \$1.50, 50 for \$5.50, 100 for \$10.00.

Austria. 4½ feet. Pure canary yellow with crimson spots in the center of the two inside petals. Each 15 cts., 2 for 25 cts., \$1.25 doz.

City of Portland. 4 ft. The most beautiful pink; a fine bedder and profuse bloomer.

Eureka. 4 ft. The finest white or cream-colored Canna.

Gladiator. 4½ ft. A leader for years. Color is bright yellow, spotted with red. No other Canna in this color can surpass this sturdy robust grower.

King Humbert. 5 ft. The most popular Canna. Great orange-scarlet flowers surmount the vigorous dark bronze foliage throughout the season.

Louisiana. 6 ft. Vivid-scarlet; often 6 inches across; orchid flowered.

Panama. 3½ ft. Orange-red with well-defined edging of bright yellow.

Richard Wallace. 4 ft. Canary-yellow flowers. Very floriferous. One of the best yellows.

Shenandoah. 4 ft. Flowers salmon-pink borne in large clusters, foliage rich ruby-red.

Yellow King Humbert. 4 ft. Rich yellow, spotted with bright red; often 5 to 7 inches across.

All varieties, except where noted, 15 cts. each, 5 for 50 cts., doz. \$1.00, postpaid, \$6.00 per 100.

Canna.

CALADIUM ESCULENTUM

(Elephant's Ear). A very effective plant for setting out on the lawn either singly or in beds and massed in combination with Cannas it is superb. Caladiums will grow in any garden soil, but if given lots of moisture and rich soil they will grow to an enormous size, five to six feet high. Bulbs are safely stored over winter in dry sand.

Select Size Bulbs. Seven to nine inches in circumference, each 20 cts., 3 for 50 cts., \$1.75 per doz., prepaid.

Large Bulbs. Nine to eleven inches in circumference. Each 30 cts., 3 for 50 cts., dozen \$3.00, prepaid.

Mammoth Size. Eleven to thirteen inches in circumference. Each 45 cts., 3 for \$1.00, \$3.90 per doz., prepaid.

Fancy-Leaved. Superbly ornamental foliage-plants for greenhouse, conservatory, window-boxes, or for planting outdoors in a sheltered and shaded location. The leaves show a remarkable range of colors in beautiful variegation. 45 cts. each, 3 for \$1.10, 6 for \$2.15, 12 for \$4.00, postpaid.

CINNAMON VINE

The Cinnamon Vine is one of the most beautiful climbers and will grow 30 feet in a single season. The vine produces clusters of delicate white flowers, which send out the most delicious fragrance. Perfectly hardy, thriving anywhere, growing in the shade, in the sun and where it is wet or dry. Die down each winter, but grow up very early in the season. Good strong roots, large size, 15 cts. each, 3 for 40 cts., doz. \$1.35, 100 for \$9.00, prepaid.

TUBEROSES

This well known flower is highly prized for its delicate fragrance.

Tuberoses should be grown only in rich, well drained soil, and

their love for the sunshine must be remembered. As the bulbs are extremely sensitive to cold, planting should be deferred until all danger of frost is past, and they should be set so that the top of the bulb will be not more than 2 inches under the surface of the ground. As the flower-stalks shoot up, some kind of light support should be provided to prevent damage by storms.

Double Dwarf Pearl. 60 cts. per doz., \$4.50 per 100, postpaid.

Single or Orange-flowered. 60 cts. per doz., \$4.50 per 100, postpaid.

Double Dwarf Pearl Tuberoses.

SPECIAL

1 doz. Cannas, our selection, 75c., prepaid, 100 for \$6.00.

StimUplant
Makes a
Wonder Garden

Caladium Esculentum.

Tulips, Hyacinths, Narcissus and other spring-flowering bulbs can be had after September 1. Send for Fall Catalog.

CACTUS DAHLIAS

The Cactus Dahlias have large, loosely-formed, Chrysanthemum-like flowers. The long, narrow petals are variously rolled or twisted.

Countess of Lonsdale. Rich salmon, tinted apricot. One of the easiest of all Cactus Dahlias. Each 35 cts., doz. \$3.50.

Earl of Pembroke. Bright plum color; large, bold flowers. 25 cts. each.

Ella Kramer. Rose-pink with much brighter center; fine form. 25 cts. each.

Libelle. Clear, deep rose-purple. 25 cts. each.

Prince of the Yellows. Bright primrose-yellow. The flowers are large; petals long and pointed. 25 cts. each.

Standard Bearer. Brightest fiery scarlet, base tinged yellow. An immense flower. 25 cts. each.

Winsome. Pure cream white. 25 cts. each, \$2.00 per 10.

Kalif. This variety does exceptionally well in Raleigh. A truly majestic flower, frequently measuring over 9 inches in diameter, of perfect Cactus form, in color a pure scarlet. 60 cts. each, \$5.00 per 10.

DECORATIVE DAHLIAS

Decorative Dahlias are intermediate between Cactus and Show. The massive flowers are not so globular as those of the Show, and the petals are broad and somewhat flattened.

Dolly or Sylvia. White, edged pink. Very attractive. A great favorite with florists. 25 cts. each, doz. \$2.50.

Jack Rose. Rich glowing crimson, like the favorite old Rose, General Jacqueminot. Blooms early and profusely. The standard red Dahlia. 25 cts. each, doz. \$2.50.

Mina Burgle. Color, brilliant ruby red. 35 cts. each, doz. \$3.50.

Souvenir de Gustav Doazon. A pleasing shade of orange red. Flowers are very full and often measure 9 to 12 inches in diameter. 35 cts. each, doz. \$3.50.

Golden West. Very large pure yellow, good long stems for cutting, ends of petals split. 50 cts. each; doz. \$5.00.

Delice. Large flower with long stems, very fine for cutting, color clear bright rose-pink. 35 cts. each; doz. \$3.50.

Kalif Dahlia.

Minnie McCullough. Rich soft canary yellow shaded and tipped with crimson scarlet. 25 cts. each, doz. \$2.50

Lyndhurst. The best long stemmed, medium sized bright scarlet for cut flowers. 25 cts. each; doz. \$2.50,

Emily. A fine variety for cut flowers, color white edged with lively rosy-lavender. 35 cts. each; doz. \$3.50.

MIXED DAHLIAS

A splendid mixture of many fine varieties. 15 cts. each 2 for 25 cts., 12 for \$1.25

PEONY FLOWERED DAHLIAS

Flowers are semi-double, having broad, flat, loosely arranged petals.

Mrs. Jacques Futrelle. An exquisite lemon-yellow, heavily splashed scarlet. 25 cts. each.

Caecilia. A wonderfully large creamy-white flower. 35 cts. each.

Mrs. M. W. Crowell. Color, a beautiful orange-yellow. Very free-flowering. 25 cts. each.

SHOW DAHLIAS

The old-fashioned double Dahlia. Ball-shaped flowers; the petals quilled or tubular. As a class they are more formal than the Cactus or Decorative.

Arabella. Light sulphur-yellow, shaded peach blossom at edges. 25 cts. each, doz. \$2.50.

James Vick. Rich purple-crimson. One of the best. 25 cts. each; doz. \$2.40.

Stradella. Deep wine-rose. Very free-flowering. Long stems. 25 cts. each; doz. \$2.50.

Vivian. A new favorite with wonderful flowers of white edged rose-violet. Each 25 cts., doz. \$2.50.

White Swan. Pure white. A great favorite. The best bloomer in this class. 30 cts. each, doz. \$3.00.

A. D. Livoni. A beautiful soft pink. 25 cts. each, doz. \$2.50.

Yellow Duke. Very large canary yellow on long, stiff stems; tightly quilled petals. 25 cts. each; doz. \$2.50.

Stradella Dahlia.

SPECIAL

Select any 10 varieties listed at 25 cts. each for \$2.00.

Lime for garden, lawns and farm, 75 cts. per 100 lbs.; \$12.00 per ton. Special price on large lots.

GLADIOLI

Gladioli are so inexpensive, so easily grown, and so beautiful, both in the garden and as cut-flowers, that it is difficult to understand the general lack of interest in them.

Any good soil is suitable, and unlike most flowering bulbs in this climate, they not only do not deteriorate, but on the other hand, increase rapidly. Planting may be done at any time in March, April, May, or June, the bulbs being set about 3 inches under the surface. As supports will be needed for the flowers, it is a good plan to put a dozen or more in a group around one stake, tying the stalks loosely to it. In the South the bulbs are best left in the ground and covered with litter for the winter.

If wanted by mail, add 10c per dozen extra for postage.

America. Very popular. Flowers soft lavender-pink. Well-known florist's variety. 7 cts. each, 75 cts. per doz., \$5.00 per 100.

Chicago White. A good white Gladiolus. Flowers of great substance and an unusually good keeper. We recommend this highly. 7 cts. each, 75 cts. per doz., \$5.00 per 100.

Marshal Foch. Beautiful soft rose-color; extra-large flower. A splendid novelty. 20 cts. each, \$2.00 per doz.

Baron Joseph Hulot (Blue King). The best blue Gladiolus. Rich indigo-blue. Do not fail to plant this. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

Halley. Delicate salmon; blooms early. This is a beautiful variety. 6 cts. each, 65 cts. per doz., \$5.00 per 100.

Mrs. Francis King. Well-known variety. Flame-color. One of the best for florists. 7 cts. each, 75 cts. per doz., \$5.00 per 100.

Mrs. Frank Pendleton. Rose-pink, shading deeper to center of petals. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

Mrs. Watt. Deep wine-color. One of the most beautiful varieties we know. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

Niagara. Extra-fine light yellow. Flowers very large on strong stems. 10 cts. each, \$1.00 per doz., \$7.50 per 100.

Panama. Color deep pink; well-expanded flowers. 9 cts. each, 85 cts. per doz., \$6.00 per 100.

Peace. This is a beautiful variety with fine, large, white flowers, with pale cattleya-like feathering on petals. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

War. Large deep blood-red, late. 12 cts. each, \$1.15 per doz.

Empress of India. Rich deep purplish-red. 12 cts. each, \$1.25 per doz.

Prince of Wales. Warm light salmon. An early variety and one of the most beautiful of these shades. 15 cts. each, \$1.50 per doz.

Princepine. Bright red with pure white blotches on lower petals. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

Schwaben. Primrose yellow, with dark blotches of brownish red in throat. 10 cts. each, \$1.00 per doz., \$7.00 per 100.

Wyatt's Special Mixed Gladioli. This mixture is made up of fine selected stock from named varieties, and we can highly recommend same to our customers who require Gladioli in all colors. 60 cts. per doz., \$4.50 per 100.

Common Mixture. Made up from a good assortment of varieties especially adapted for massing etc. 50 cts. per doz., \$3.50 per 100.

Primulinus Hybrids. The upper petal droops, forming a "hood." The colors range from primrose yellow to a beautiful rose. 7 cts. each, 75 cts. per doz., \$5.00 per 100, \$35.00 per 1,000.

Ruffled Glory. Salmon-pink, with crimson stripe in the center of each lower petal. The broadly expanded, wide open flowers are carried on straight, stout 3½ foot stalks. Each petal is exquisitely ruffled. Each, 10 cts., doz. \$1.00, \$7.00 per 100.

1. Mrs. Francis King. 2. Mrs. Frank Pendleton.
3. Panama. 4. Chicago White.
5. Baron Joseph Hulot. 6. Peace.
One Bulb of the above 6 varieties 50c.

Three-Tine. Convenient, strong and well made; tines polished; hardwood handle; length, 11 ins. By mail postpaid 45 cts.

OUR BULB CATALOGUE which we sent out in September, contained all the various bulbs, and, of course, many varieties can still be planted. If you do not have the list, we will send you one on receipt of postcard.

WYATT'S EVERGREEN MIXED LAWN GRASS

In the South we often have trouble in getting good lawns because it has been found that no one grass will give satisfactory results at all seasons and on all soils. By careful experiments we have succeeded in getting a combination of grasses that will produce an evergreen lawn, giving permanency and beauty of sward. By the use of this Evergreen Mixed Lawn Grass Seed a rich, velvety lawn can be made and maintained. One pound will sow a space 10 by 25 feet or 250 square feet; 75 to 90 pounds to an acre. Lb. 50 cts., 5 lbs. at 45 cts., 10 lbs. and over 40 cts. per lb., 25 to 50 lbs. at 38 cts. per lb., 100 lbs. at \$35.00. By mail, postpaid, lb. 50 cts.

Suggestions for the Making and Care of Lawns

It must not be supposed that by sowing grass seeds at any season of the year in soil of any character, and in any state of cultivation or neglect, a durable, attractive turf is to be formed. From the beginning the lawn is both troublesome and expensive, and even when obtained, it is like liberty, preserved only by "eternal vigilance." The coarser natural grasses and weeds will take possession unless kept down, and wherever, from any cause, a bare spot is formed it will rapidly enlarge unless repaired.

As in housebuilding, so in the making of a lawn—a good foundation must be secured, or the rest of the work will be entirely wasted, and too great care cannot be exercised, since the roots must be able to penetrate quite 18 inches in order to keep the grasses growing through the scorching days of July, August and September. If the ground is not already very rich, give a liberal application of fertilizer, avoiding the use of stable manure, as it invariably contains seeds of weeds and noxious grasses. Bone meal never produces the "burned" appearance so often noticed after the use of ammoniated fertilizers. Harrow or rake the surface to the finest possible condition and roll until all elevations and depressions have been removed.

Rake the seeds in lightly, following with a roller of medium weight, a firmly rolled surface being absolutely

necessary if the ground be dry; small areas may readily be packed firm by the back of a spade. Sowings made in the fall, from the first of September to the middle of December, are most successful, but if deferred until spring, sowings may be made in February, March, April and May.

When the grass is well set, about 4 inches high, it should be cut with a sickle or mown with the machine set to avoid cutting too closely, 2 inches at least being left above the root. After that a cutting every ten days and an occasional rolling will make the grass finer, strengthen the turf and keep all rank-growing weeds in check. In the heat of summer the mower should be arranged so as to leave ample protection to the roots. Unless the drainage is perfect, it is much more injurious to give too much water than to neglect watering altogether, and an occasional saturation is much better than the daily sprinkling commonly thought beneficial. If bare spots appear they must be patched by breaking the ground about 10 inches deep, smoothing the surface and raking in double the usual allowance of seed. To maintain the vigor and color of the grass a light top dressing of bone meal two or three times a year is advisable. Liberal applications of sheep, poultry and cattle manure are very beneficial and will give your lawn that rich, velvety appearance that is so much admired by everyone.

Fertilizers

STIM-O-PLANT

PLANT STIMULANT TABLET

An All-the-Year Fertilizer for Garden and House Plants. Trial size 15 cts., small size 25 cts., 100 tablets 75 cts., 1,000 \$3.50.

PURE BONE MEAL. This pulverized ground bone is excellent for rose culture and lawns. It decomposes rapidly and is quickly effective. Should be applied at the rate of 400 to 500 pounds to the acre. 10 lbs. 60 cts., 50 lbs. \$2.50, 100 lbs. \$4.25, 500 lbs. \$21.00, 1,000 lbs. \$40.00, 2,000 lbs. \$75.00.

SUPERIOR HOUSE PLANT FOOD. A wonderful food for ferns and plants. 25 cts., 50 cts., and \$1.00 boxes.

Wyatt's Quality Field and Farm Seeds

TESTED CLOVER AND ALFALFA SEED

Our Clovers and Alfalfa can be depended upon, as they are of the highest grade and re-cleaned. Our seeds are not only of a high-germinating test, but they are of a high purity test, giving assurance to the planter that he will receive the best seeds obtainable. Our Brand means the Highest Quality, the Most Profit and Cheapest for the Planter.

Prices named on Clovers are subject to change. Write for prices. Mention quantity wanted and we will fill orders sent us at our lowest prevailing price day order is received.

Red Medium Clover (Trifolium Pratense)

This is the common red or "old-fashioned" clover so largely grown; 8 to 12 pounds per acre. Lb. 45 cts., 3 lbs. \$1.35, postpaid. By express or freight, 10 lbs. or more at 40 cts. per lb., \$37.50 per 100 lbs.

Mammoth or Peavine Clover (Trifolium Pratense Perenne)

Also known as Sapling Clover. This grows much taller than Red Medium, with larger, leafier stalks; 8 to 12 pounds of seed per acre. Lb. 45 cts., 3 lbs. \$1.35, postpaid. By express or freight, 10 lbs. or more at 40 cts. per lbs. Write for quantity prices.

Crimson Clover.

Inoculate this Seed with FARMOGERM

Crimson Clover (Trifolium Incarnatum)

An annual variety providing large crops of green forage, or, if cut while in bloom, will make excellent hay. Seed should be sown in August, September, October and November; 20 to 30 pounds per acre broadcast. Lb. 15 cts., 3 lbs. 40 cts. postpaid. By express or freight, 10 lbs. or more at 12½ cts. per lb., \$6.00 per bu.

Sweet Clover, White Blossom (Melilotus Alba)

Biennial. Also known as Bokhara Clover. Plants grow 4 feet during the first season and 6 to 12 feet the second year.; 20 to 30 pounds per acre sown broadcast. Lb. 35 cts., 3 lbs. 95 cts., postpaid. By express or freight, 10 lbs. or more at 22 cts. per lb.

Bur Clover

Can only be sown in the summer and fall. For the South it is a most valuable winter grazing crop. Price, seed in the bur: Lb. 25 cts., 10 lbs. and over at 20 cts. per lb. Re-cleaned Hulled Seed: Lb. 50 cts., 10 lbs. at 45 cts. per lb.

Alfalfa, or Lucerne.

Alfalfa, or Lucerne The Profitable and Nutritious Hay Crop

Inoculate this Seed with FARMOGERM

Alfalfa, or Lucerne, will produce from 5 to 7 tons of hay an acre each year in the South. Lime should be applied at the rate of 1,500 pounds to the acre. Before sowing the seed it will be best to inoculate them, if Alfalfa has never been grown on the soil you are to sow. Lb. 35 cts., 10 to 30 lbs. at 30 cts. per lb., bushel (60 lbs.) \$17.50.

Alsike or Hybrid Clover (Trifolium Hybridum)

A long-lived perennial and very hardy, thriving equally well on wet or dry soils. Sow at the rate of 8 to 12 pounds to the acre. Lb. 40 cts., 3 lbs. \$1.10, postpaid. By express or freight, at purchaser's expense, 10 lbs. or more at 35 cts. per lb. Write for sack prices.

White Dutch Clover

Is especially valuable and largely used in lawn and pasture mixtures. Lb. 70 cts., 5 to 10 lbs. at 65c per lb.

Lespedeza, or Japan Clover

This is valuable to sow on poor wornout fields, hill-sides, thin woods, groves, and wet bottom lands for summer pasture and for improving the land. It is particularly valuable for late summer grazing on land that cannot be used for other purposes. Sow 10 to 15 pounds per acre broadcast in March or April and do not graze it early if you wish to re-seed. Lb. 45 cts., postpaid. Not postpaid, lb. 35 cts., 10 lbs. at 33 cts. per lb., 100 lbs. at 28 cts. per lb.

Cahoon Seed Sower will sow any kind of seeds that are to be sown broadcast, and will do it better than you can by hand; much faster and more evenly. You can average 4 to 6 acres an hour with a Cahoon. No experience necessary; just follow directions. Post-paid, \$5.00. By express, \$4.75. Not Prepaid.

Salsify should be grown in all Southern Gardens.

Wyatt's Pasture and Grass Mixtures

We have made a study of Grass Mixtures, and in offering the following we have the ideal mixtures for the purposes for which they are recommended. Only the highest grade of seed is used and it is thoroughly mixed in the proper proportions to give the best results. In the Hay Mixtures we use only the Grasses which have proven the best to sow together and which mature and ripen together, which is, of course, necessary to get the best crops. Should you desire a special mixture we shall be glad to fill your order.

North Carolina Grazing Scene.

Wyatt's Dependable Grass Mixture No. 1, For Hay or Pasture. Recommended for light, loamy or medium upland, for either hay crop or grazing purposes. Composed of Orchard Grass, Perennial Rye Grass, Tall Meadow Oat Grass, Red Clover, Alfalfa, etc. These Grasses mature and ripen together, making a splendid hay. Sow 30 to 35 pounds to the acre. Lb. 35 cts., 10 lbs. at 32 cts. per lb., 100 lbs. \$30.00.

Wyatt's Dependable Grass Mixture No. 2, For Hay or Pasture. Recommended for stiff, heavy or low lands. Composed of Kentucky Blue Grass, Alsike Clover, Herds Grass, White Dutch Clover, and Meadow Fescue, etc. Sow 30 to 35 pounds to the acre. Lb. 35 cts., 10 lbs. at 32 cts. per lb., 100 lbs. \$30.00.

Timothy.

Pure Grass Seed

Prices subject to market changes. Ask for our current farm seed prices stating quantities wanted.

Kentucky Blue Grass (*Poa pratensis*). This grass succeeds best on limestone soil, but does well on any stiff soil. Sow either in the fall or spring, 35 to 40 pounds to the acre. Present price: Lb. 55 cts., postpaid. By express, lb. 50 cts., 10 lbs. 45 cts. per lb., 100 lbs. at 42 cts.

Tall Meadow Oat Grass (*Avena elatior*). Sow 50 pounds to the acre. Lb. 45 cts., postpaid. Bushel (10 lbs.) \$3.00, 100 lbs. \$22.50.

Crested Dogtail (*Cynosurus cristatus*). 30 lbs. to the acre. Lb. 60 cts., postpaid. Bushel (21 lbs.) \$11.50, 100 lbs. \$50.00.

English Rye Grass, Perennial Rye (*Lolium perenne*). Sow 60 lbs. to the acre. Lb. 35 cts., postpaid. Bushel (24 lbs.) \$4.75, 100 lbs. \$18.00.

Timothy (*Phleum pratense*). Thrives best on heavy moist soils; should not be sown on light dry land. Lb. 20 cts., 10 lbs. at 16 cts. per lb., bushel (45 lbs.) \$7.00.

Canada Blue Grass (*Poa compressa*). Useful for sowing on hard clay and poor soils. Weight per bu. 14 lbs. Lb. 50 cts., 10 lbs. \$4.50, 100 lbs. \$40.00.

Red or Creeping Fescue (*Festuca rubra*). For lawns it is unsurpassed and should be included in all shade mixtures. Lb. 85 cts., 10 lbs. \$7.00, 100 lbs. \$65.00.

Rhode Island Bent (*Agrostis tenuis*). One of the best grasses for lawns. Weight per bushel 14 lbs. Lb. \$1.75, 10 lbs. at \$1.50, 100 lbs. at \$1.45.

Italian Rye Grass (*Lolium Italicum*). Valuable for pasture mixtures. 50 lbs. to the acre. Lb. 35 cts., postpaid. Bushel (18 lbs.) \$3.75, 100 lbs. \$18.00.

Orchard Grass (*Dactylis Glomerata*). One of the most valuable of the pasture grasses; makes a good hay. Sow 3 bushels to the acre. Lb. 35 cts., postpaid. Bushel (14 lbs.) \$4.00, 100 lbs. \$22.00.

Meadow Fescue (*Festuca pratensis*). English Blue Grass, or Sweet Grass. Sow 40 lbs. to acre. Lb. 39 cts., postpaid. Bushel (22 lbs.) \$5.50, 100 lbs. \$20.00.

Bermuda Grass (*Cynodom dactylon*). A valuable grass for permanent sod. Would not advise sowing on land which is to be planted in other crops, as it is very tenacious in habit and very hard to eradicate after it once gets a hold. It is very similar to Virginia Wire Grass. Sow in March or April, 15 lbs. to the acre in well prepared soil. Lb. 60 cts., postpaid. By express, lb. 55 cts., 10 lbs. at 52 cts. a lb., 100 lbs. at 50 cts.

Red-Top, or Herd Grass (*Agrotis vulgaris*). Suitable for meadow, also lawns and pasture. Sow 3 to 4 bushels per acre for lawns; for pasture, 1½ to 3 bushels per acre. Lb. 50 cts., postpaid; 10 lbs. \$4.50, sack of 50 lbs. \$21.00, 100 lbs. \$40.00.

Orchard Grass.

We handle over 5,000 bushels of Cowpeas annually. Write us for prices when you are ready to buy, or we will buy peas. Send samples for our prices.

PRICES—Account of catalog going to press before spring market has been established on all field seeds, we are unable to quote quantity prices. For current prices write us.

Dwarf Essex Rape

Makes Splendid, Nutritious Pasturage for Cattle, Sheep, Hogs and Poultry.

This crop is very highly recommended for pasturage for cattle, sheep, and hogs, furnishing most rich and nutritious pasturage within six to eight weeks from the time of sowing. The fattening properties of Rape are said to be very much better than those of clover. It also makes splendid green feed for poultry. In this section Rape can be successfully sown in the spring and fall. Rape is best sown in drills, at the rate of 3 to 5 pounds per acre, or it can be broadcast, when 10 lbs. per acre should be used. Lb. 25 cts., (postpaid, lb. 35 cts.), 10-lb. lots and over at 15 cts. per lb., 50-lb. lots and over at 12 cts. per lb., 100 lbs. at 10 cts.

Dwarf Essex Rape.

Yellow Milo Maize

This crop is grown like corn, and may be cut several times for green forage; also used for ensilage, or cured like sorghum. Use 4 to 5 lbs. per acre. Grows to a height of 8 to 10 feet. Lb. 35 cts., postpaid. By express or freight, at purchaser's expense, 5 lbs. 60 cts., 10 lbs. \$1, 50 lbs. \$4.

Broom Corn

Evergreen. Grows long and straight; brings highest market prices for making brooms. Sow in 3-foot drills and thin plants to 3 inches. Sow 5 pounds to the acre. Present price: Lb. 25 cts., 10 lbs. \$1.80.

Sweet-Scented Vernal Grass

(Anthoxanthum odoratum)

True Perennial. Emits an agreeable odor which it imparts to hay or to lawn when being cut. Sow only in mixtures, using 2 or 3 pounds per acre. Lb. \$1.00. Write us for prices on larger quantities.

Kaffir Corn

The grain is much relished by cattle and poultry. It can be sown with cowpeas; the corn holds the vines off the ground, making a larger yield of peas, and both can be cut together, making larger yield of feed. Sow alone broadcast 40 to 50 pounds to the acre for forage; and cut before fully headed. Lb. 25 cts., postpaid; not postpaid, 10 lbs. at 15 cts. per lb., 50 lbs. \$4.00, 100 lbs. \$7.50.

Kaffir Corn.

Spanish Chufas

They can be planted from April to June. Make rows 2½ to 3 feet apart, dropping from three to five Chufas together, 15 to 18 inches apart in the row, covering about 2 inches. Chufas require from 1 to 1½ pecks per acre.

Chufas

When it is desired to turn hogs into them, pull up a few of the hills by the roots and leave them on top of the soil, and when either hogs or chickens get a taste of them they will quickly go over the field in search of them. Lb. 30 cts., postpaid. Pk. \$1.50, bu. (40 lbs.) \$5.75.

Sunflower

Large Russian. This bears large heads, frequently 12 to 20 inches in diameter and sometimes yielding 1,000 pounds of seed per acre. The seed is used for feeding chickens and parrots. Use 3 pounds of seed per acre, sowing in rows 5 feet apart and thinning to 1 foot. Lb. 25 cts., 5 lbs. \$1.00. Write for prices in quantity.

Teosinte

Reana Luxurians

A forage plant somewhat like corn. The seed should not be sown until all danger of frost is past. If cut for green forage, which can be done at any stage during growth, two or more joints should be left at the base of the stalk. These will sprout out quickly into fresh growth, making an even larger crop than at first cutting. Sow in drills 4 feet apart, using 4 pounds of seed per acre. Lb. 70 cts., 10 lbs. \$6.50.

Paspalum Dilatatum

(Dallas Grass)

A new grass for hot, dry climates. A hardy perennial from Australia, growing 5 feet high without getting tough, and seems to be particularly adapted for grazing dairy cattle. The seed requires about three weeks of moist, genial weather to germinate it, but once established, it seems to stand anything. Sow 8 or 10 pounds per acre. Lb. 65 cts., 10 lbs. at 55 cts., 50 lbs. at 45 cts., 100 lbs. \$40.00. Prices fluctuate.

The Best Inoculation for all Legume Seeds

FARMOGERM, the "Always Fresh" Inoculant

A pure culture of nitrogen-fixing bacteria of highest quality. By reason of the patented stopper, which admits air and excludes contaminations, FARMOGERM is guaranteed for five years—always fresh—always strong and virile.

A different culture is required for each legume group, so when ordering, be sure to state what crops you wish to inoculate.

		5-bus. size.....	2.25

Special garden size for Garden Peas, Beans, and Sweet Peas, 25 cts.

Sudan Grass

It yields from 2 to 8 tons of hay per acre, depending upon sufficient moisture. Two cuttings are assured and in places four have been taken. The hay is of superior quality and relished by all stock. Plant late in spring after frost is past. If drilled in rows 36 inches apart, you will require 2 to 4 pounds of seed to the acre; if seeded in rows 18 to 20 inches apart, 4 to 6 pounds; if broadcast, 15 pounds. Lb. 20 cts., 10 lbs. \$1.60, 50 lbs. at 15 cts. per lb. 100 lbs. \$12.50.

Sudan Grass.
The Best Quick Growing Feed Crop for the Carolinas.

Peanuts

Plant in May or June 12 inches apart, in 3-foot drills. About 1 bushel in the hull is required to plant an acre, and about 15 pounds shelled nuts. Cultivate flat, keep well worked. Peanuts should be shelled before planting.

Spanish. Nuts small, and have a thin hull. They are early to mature, very productive, and in the far South, where they can be planted during March and April, two crops can be made

Inoculate this Seed with **FARMOGERM**

in one year. The vine and roots make excellent food for stock. In the hull, lb. 20 cts. (postpaid, 25 cts.), 10 lbs. at 18 cts. per lb., 100 lbs. \$16.00; shelled, lb. 25 cts. (postpaid, 35 cts.), 10 lbs. at 20 cts. per lb., 100 lbs. \$17.50.

Valencia. These are dull red in color, of medium size. A heavy yielder with long pods, sometimes containing three or four peanuts. It is probably the hardiest Peanut in cultivation. Lb. 20 cts. (postpaid, 30 cts.), 10 lbs. at 18 cts. per lb., 100 lbs. \$15.00.

Virginia Jumbo. A large variety of the well-known Virginia Peanut. In the hull, lb. 20 cts. (postpaid, 30 cts.), 10 lbs. at 18 cts. per lb., 100 lbs. price quoted on request.

Carpet Grass

This is one of the most valuable pasture grasses for this section. Good for lawns. Sow 10 pounds per acre. Lb. 60 cts., 10 lbs. \$5.50, 25 lb. lots at 52 cts.

Peanuts.

White Beans

Navy. Can be planted during the summer months, and when dry stored for winter use. Beans small and pure white. Very prolific. Lb. 30 cts., postpaid; 100 lbs. at 12½ cts. per lb.

White Kidney. Similar in growth and use to the Navy, but larger and kidney-shaped. Makes a choice eating bean. Very prolific. Lb. 35 cts., postpaid; 100 lbs. at 20 cts. per lb. Write for prices on bulk quantities.

Cane, or Sorghum

All Varieties Cane: 10 lbs. \$1.25, 100 lbs. \$10.00, 500 lbs. at 8 cts.

Texas Seeded Ribbon Cane. This cane gets its name from being a variety that closely resembles the true Ribbon Cane. Price, 1 lb. 30 cts., parcel post paid.

Early Orange. It is from 8 to 10 days later than the Early Amber, and produces a syrup of excellent quality. Price: Lb. 20 cts., 2 lbs. 35 cts., parcel post paid.

Early Amber. Early Amber is the most valuable fodder plant in existence. Is but little affected by drouth. Price: Lb. 20 cts., 5 lbs. 75 cts., parcel post paid.

Sugar Drip. It is also one of the best varieties for making syrup, giving an immense quantity, as well as the very best quality. Sow broadcast at the rate of 1 bushel per acre. Lb. 30 cts., 2 lbs. 50 cts., 5 lbs. \$1.00, postpaid. Write for prices on bulk quantities.

Velvet Beans

Dolichos Multiflorus

They are equally as nutritious as Cowpeas, are largely used both for grazing and as a forage crop throughout the South. It is much better, if possible, to leave them above ground until killed by frost, then to plow under in the winter or early spring, at which time they will make a heavy matted coating of vegetable matter. These should be planted in May, June, or July, at the rate of 1½ pecks to the acre, in drills 5 feet apart.

Velvet Beans.

Oseola Velvet Beans. Price on application, usually about \$1.25 per peck, \$4.00 per bushel.

Early Speckled or 100-Day Velvet Beans. Price on application, about \$1.25 per peck, \$4.00 per bushel.

Georgia Bush Velvet Beans

The upright bush grows 3½ feet high with limbs branching from the bottom.

Stock like it better than the vining varieties. The seed is a little smaller and darker than the seed of the 100-day Speckled Velvet Bean.

For hay, sow one bushel broadcast per acre in May or June. In the corn plant about April 15th. Price: Qt. 50 cts., postpaid; bu. about \$5.00, not prepaid.

Table Cowpeas

All varieties except where noted, present price, about 50 cts. per qt., \$1.75 per pk., \$6.50 per bushel.

Brown-Eye White Peas. This is a well-known Pea in the Carolinas. It has a purple hull and is a tremendous yielder.

Large Early Black-Eye. The pods are long and well filled with large, pure white Peas with a coal-black eye. Price about \$6.50 bu. Write for prices on bulk quantities.

Small Black-Eye. The seeds are of beautiful shape and color, very small, and of the most select eating qualities.

Crowder. A new Pea that we put ahead of any for table use. Its color is a light brown. The seeds are large or medium size, irregular shape and of the most choice flavor. Its eating qualities are far superior to those of any other variety. Qt. 75 cts.

Ask yourself about any crop, "Does it grow seeds in pods?" If so, inoculate with Farmogerm. See page 48.

Whippoorwill Cowpeas.

Cowpeas (Vigna sinensis)

Sow 60 to 90 pounds of seed to the acre.

The vines when cured are considered superior to timothy hay in the South. As a fertilizer the Cowpea has no superior, for, to a greater extent than any other leguminous crop, it has the power of extracting the nitrogen from the air and depositing it in the vines and roots, so that the land is benefited even when the crop is cut for hay. Sow from middle of May to the tenth of August.

Whippoorwill. A favorite, early, upright growing variety, more largely used and sold than any other kind. Has brown-speckled seed, which are easily gathered.

Wonderful or Unknown. A variety valuable on account of its immense growth of vines. It is late in maturing and needs a full season to give good results.

Braham. It is disease resistant, and heavy yielder of both seed and hay. The seeds are small. One bushel will go twice as far as any of the older varieties.

New Era. It is quicker in growth than any other Cowpea; makes a very large growth of vine and a very prolific yielder of Peas.

Clay. Seeds medium-sized and cream or clay-colored. Vines grow long and leafy. Seed matures medium late.

Black. It is very prolific, early to mature, makes a fine growth, both of vines and a good yield of Peas.

Iron. This variety is noted for its disease-resistant qualities. The seed is smaller than the average Cowpea.

Red Ripper. The Red Ripper resembles the Black Cowpea in growth of vine, but is ten days earlier and more prolific.

Mixed Cowpea Seed. The principal varieties in the Mixed Cowpeas we offer are the Clay, Black, Red Ripper, Whippoorwill, and other southern varieties. A great many southern farmers prefer to sow Cowpeas in mixture as they grow thicker, producing a better crop of vines and forage than sowing single varieties alone.

All varieties of Cowpeas, present price: pk. \$1.50, bu. \$5.

GOOD YEAR

Garden Lemon, Pineapple Casaba (Winter), Vegetable Orange, or Vine Peach. Pkt. 15 cts., 1 oz. 35 cts.

Millet

Pearl or Cat-Tail Millet. It grows rapidly, and will attain a height of 12 feet, but we advise cutting several times, rather than allowing it to mature. It will continue to grow until killed by freezing weather. Sow 5 pounds of seed per acre in drills 3 feet apart, or sow broadcast at the rate of 20 to 30 pounds per acre. Crop very short. Pkt. 10 cts., lb. 25 cts. (postpaid, 35 cts.), 10 lbs. at 23 cts. per lb., 100 lbs. at 22 cts. per lb.

Golden or Liberty Millet is decidedly one of the best varieties to grow for a hay crop; produces large crop of fine grass ranging in height from 4¾ to 6 ft., according to strength of soil. Can be cut green or made into hay, and is readily eaten by stock. It requires 1 bushel to sow an acre broadcast. Lb. 15 cts., 10 lbs. at 12½ cts. lb., 50 lbs. and over at 8 cts. per lb. Not prepaid.

Golden Millet.

Seed Wheat

Red May, Purple Straw or Blue Stem, Leap's Prolific and Fultz. Bu. \$2.50, 10 bu. at \$2.35 per bushel.

Winter Rye

Common Winter. Bu. \$1.75. **Rosen.** Bu. \$1.75. **Abruzzi.** Bu. \$2.75.

Oats

Burt or 90-Day. The best spring Oats, as it is the earliest, nearly rust-proof, hardy and vigorous and yields more grain than any spring Oat. Sow 2 bushels to the acre. Present price: Bu. \$1.20, 5 bu. \$5.50.

Virginia Gray Winter or Turf. Though a winter Oat, it also succeeds well if sown in the spring, making surest crop if sown by March 15. Sow 1¼ to 2 bushels to the acre. Bu. \$1.70, 10 bu. at \$1.60.

Red Rustproof. A very desirable early variety for heavy soils and low, moist grounds, where rust attacks other varieties. Yields abundantly of large, heavy grain, but does not grow as tall as the winter oat. Sow 2 bushels to the acre. Present price: Bu. \$1.20, 5 bu. \$5.50, 25 bu. at \$1.00.

Appler. An early, large red Oat, similar to the Rust-proof, but hardier and yields more grain. Present price: Bu. \$1.20, 10 bu. at \$1.15 per bu.

Fulghum. This Oat is of a rustproof type, somewhat earlier than the Appler, and is a heavier yielder. Is largely used in the South. Present price: Bu. \$1.25, 5 bu. \$6.00, 10 bu. at \$1.20 per bushel.

Japanese Millet—Billion Dollar Grass

It has a marvelous, luxuriant growth, often reaching 6 feet in height and producing an immense amount of hay of great feeding value which is keenly relished by stock. Specially adapted to the low, wet ground. Best sown in drills, using about 10 pounds of seed to the acre—but sometimes sown broadcast, when 15 pounds per acre should be sown. Lb. 25 cts., 10 lbs. \$1.75. Write for prices on larger quantities.

Barley

Bearded Winter. Bu. \$2.50. **Spring.** Bu. \$2.50.

Japanese Buckwheat

This is a profitable crop for either grain, flower food for bees, soil-enricher, or to kill out weeds. Splendid for poultry. Sow 1 bushel to the acre in June, July, or August. Price, about \$3.00 per bu.

Canada Field Peas

Canada Field Peas should be sown in February or March, weather permitting. They make large yields of most nutritious hay, cut either green or cured for hay. They should be sown 1 to 1¼ bushels per acre, with 1 bushel Spring Oats. Pk. \$1.25, bu. \$5.00. Cotton bags 50 cts.

On account of their extreme hardiness, they can be sown earlier than any other legume crop, furnishing an excellent crop of hay or serving the purpose of a green fertilizer.

Carrots are excellent in soups or grated and added to the salad as well as served as a vegetable. There is a year-round demand for carrots on your local market.

SPECIAL COLLECTION OF FLOWER SEEDS

For those who are not familiar with the best summer-flowering annuals, quick-growing climbers, etc. we have collections of the best, 12 pkts. for 50c.

Calf Meal. It makes calves grow. \$1.50 per sack. Postage 30 cts. extra.

Norwich Feeders \$1.00 each, without Rain-top 75 cents.

FIELD CORN

Prolific Corn.

Wyatt's Improved Golden Dent.

We have been carefully growing and selecting this Corn on our own farms for several years, until now we have in it the most prolific and hardy yellow Corn to be had for the South. It is very early, maturing in about 90 days. Present price: 4 qts. 65 cts., pk. \$1.00, bushel \$3.25.

Red Cob White Gourd Seed. A very deep-grained Corn, with large ears and medium cob. One of the most popular Corns for medium or light land. Present price, Pk. \$1.00, bu. \$3.25.

Blount's Prolific. One of the largest yielding varieties for the South, producing 3 to 6 ears of white, flinty Corn to the stalk. Makes excellent meal. Pk. \$1.25, bu. \$3.25.

Boone County White. Ears well filled out at both ends, cylindrical, 9 to 11 inches long, averaging 20 rows, some 18 and 22. Grain very deep, a little rough. Cobs white, of medium size. Pk. \$1.00, bu. \$3.00.

Wyatt's Improved Golden Dent.

Cockes Prolific. (140 days). On land of good fertility, it may be relied upon to produce from two to four ears to the stalk. The ears are of good average size, the grain being white, of flinty nature, making an excellent meal or hominy Corn. By express or freight, qt. 25 cts., pk. \$1.00, bu. \$3.25; by mail, postpaid, pkt. 10 cts., qt. 40 cts.

Early Northern White Dent. For early ripening, large yield and compact growth, is one of the best varieties; ears large, from 14 to 18-rowed. Qt. 25 cts., 4 qts. 75 cts., pk. \$1.00, bu. \$3.25, 5 bu. at \$3.00 per bu.

Snow Flake. Large size, very early; a fine corn for early roasting ears; also makes an excellent field variety, as it matures in 80 to 85 days. Qt. 40 cts., gal. \$1.00, postpaid. Not prepaid, qt. 25 cts., 4 qts. 80 cts., bu. \$4.50.

Wyatt's Red Cob White Dent

Trucker's Favorite. For such markets as rank size and profit first, this variety is very profitable to grow for market as a Sugar Corn; it is a White Dent sort with 12-rowed, long, symmetrical, well-filled ears. Qt. 35 cts., 4 qts. \$1.00, pk. \$1.65, bu. \$5.50, 5 bus. at \$5.25.

Hickory King. (100 days). It produces on good soil three or four average-sized ears to the stalk. The grain is large, broad and beautifully white, making the finest quality meal. The cob is often so small that a large sized grain will cover the end of it. By express or freight, qt. 25 cts., pk. \$1.00, bu. \$3.50; by mail, postpaid, pkt. 10 cts., qt. 40 cts.

Wyatt's North Carolina Two-Ear White. An extra-early variety that we have been improv-

ing on our own Wake County farms. Stalks produce two and three ears of good size; the fodder is also abundant and of fine quality. Pk. \$1.00, bu. \$3.50, not prepaid.

Mexican June Corn. This corn is planted very extensively during the months of May, June and July; stands the dry weather. It is largely used for roasting ears. Not prepaid, qt. 25 cts., 4 qts. 75 cts., pk. \$1.25, bu. \$4.00.

Eureka Ensilage Corn. The highest yielding silo filler. Qt. 25 cts., 4 qts. 75 cts., pk. \$1.25, bu. \$3.25, not prepaid.

Little Putnam Stove for Poultry Fountains

Burns a Month Without Attention

This little device will keep water from freezing in zero weather. **Burns a month without filling or trimming.** One cold day with water frozen may stop egg production for a month.

A Little Putnam Stove is also used to heat home-made oat sprouter. Plans for making sprouter packed with every stove.

Save Your Meat With [CHAMBER'S ANTI-SKIPPER COMPOUND]

If unobtainable at your dealer's we will send by parcel post prepaid—
50 ct. size, sufficient for 250 pounds; \$1.00 size, for 500 pounds.

SOJA, or SOY BEANS

A Great Drought-Resisting Forage Crop, Producing Immense Quantities of Nutritious Feed, Besides Being an Excellent Soil Improver.

Mammoth Yellow Soy, or Soja Beans.

Very few varieties make a vine, but are of upright growth, although if grown on rich soil there is a tendency to lodge. The Soy Bean produces a much larger crop of seed than the Cowpea, and this crop is easier to harvest.

The plant is generally upright, branched, and grows from 1½ to 4 feet tall, according to variety and weather conditions. The plants are covered with fine hairs, whereas the Cowpea is smooth and glossy. The pods are small and usually contain many beans. With so variable a plant, it is but natural that many varieties are offered.

If sowed in rows 2½ feet apart, it requires ½ bushel of seed per acre; and if drilled in or broadcast, 1½ bushels per acre. Seed can be sown in May, June, or July, but does best if sown rather early and the seed should be covered lightly, not over a couple of inches.

Soy Bean prices, Jan. 1, 1926: Pk. \$1.00, bu. \$3.00. Write for firm quotations when ready to place your order.

Mammoth Yellow. The largest-growing and most popular of Soja Beans for forage purposes. A little later in maturity than other kinds, but makes larger yields, both of forage and seed. Especially valuable for this section, and further south. Lb. 15 cts., (postpaid, lb. 23 cts.). Price fluctuates.

Tar Heel Black. Dark green foliage. Slightly earlier than Mammoth Yellow. Heavy growth of vine, upright in habit, and a Soja Bean that is destined to become very popular. Lb. 15 cts., (postpaid, lb. 23 cts.).

Brown. This is one of the best varieties for forage and soil-improving purposes, making a quick and large growth of forage. Probably better adapted for sowing with cowpeas than any other kinds, on account of its maturing with the cowpea crop. Lb. 15 cts., (postpaid, lb. 23 cts.).

Medium Soy, Wilson, Early Black, Haberlandt, Virginia, and other varieties of Soy Beans. Prices on application.

Mung Beans. A wonderful new Bean. Good soil builder, also excellent for stock. 1 lb. 35 cts., 4 lbs. \$1.25. Large lots, 25 cts. per lb.

Biloxi Soy Bean. A new heavy yielding variety. Does not shatter seed. Lb. 35 cts., postpaid, pk. \$1.25, bu. \$4.00.

Otootan. The best Soy Bean for hay. It produces an abundance of fine texture foliage. ½ pk. \$1.00, pk. \$1.95. Write for quantity prices.

Laredo. A new variety of high merit. Well adapted to the Carolinas. ½ pk. \$1.00, 1 pk. \$1.95.

NORTH CAROLINA-GROWN COTTON SEED

One to 1½ bushels of seed is required for an acre.

The cultivation of Cotton varies considerably, of course, according to the locality and soil, but in general the ground should be prepared by thorough plowing and harrowing, with rows 40 to 50 inches apart, 5 feet being given where the land is unusually rich. Seeding is best done with the Cotton planter, and the young plants should be thinned to about 12 or 18 inches in the rows; if the ground is very rich, two plants may be left in a hill, but otherwise only one.

Perry's Early Prolific. (Medium boll). A good early variety. Pk. 75 cts., bu. \$2.50.

King's. (Medium boll). It is one of the earliest kinds, and is invaluable for sections where the growing season is short. Pk. 75 cts., bu. \$2.50. Write for prices on larger quantities.

Ideal. (Medium boll). It is of rank growth and resists drouth better than most kinds. Pk. 75 cts., bu. \$2.50. Write for special prices on larger quantities.

Cleveland Big Boll. (Special Wake County Strain). This is the variety from which the famous Wannamaker Cleveland was developed. It has bigger bolls than Wannamaker, and longer staple, about 1-16 inch full, and for that reason is better liked in some sections. Price, single bushels, \$2.50.

Write for prices on Cotton Seed. We have only listed a few varieties of cotton, but we can furnish most varieties. Write for prices.

Cleveland Big Boll Cotton.

THE PUTNAM BROODER

INSECTICIDES AND FUNGICIDES

PARCEL POST. Only those insecticides marked * can be shipped through the mails. Articles so marked will be shipped provided sufficient postage is included with your order.

Don Sung Makes Hens Lay

Eggs will undoubtedly be higher in price this year than ever before. If you can keep your hens laying, this is your opportunity to make money. Don Sung (Chinese for egg-laying) is a new scientific discovery for hens that stimulates the egg-laying organs and makes the hen healthy, strong and vigorous. It is used by thousands of successful poultry raisers the world over. Price: 50 cts.; large size, \$1.00 (holds three times the 50 ct. size); special size, \$5.00 (holds six times the \$1.00 size). No lay, no pay. Postpaid.

Humpty Dumpty Folding Egg Crates

A safe and convenient folding, shipping crate for eggs. Made of hard wood with wire rod through corners and card board division and fillers. Fig. 1, folded flat; fig. 2, set up closed; fig. 3, set up open; fig. 4, shows half doz., complete, ready for shipment.

Planet Jr. Farm and Garden Implements

Thousands of people are now cultivating gardens who have never done so before; thousands of people, therefore, are making a large saving in their living expenses and finding out, perhaps for the first time in their lives, what fresh peas, beans and corn taste like when they are right out of the garden. The labor of cultivating these gardens is made easy by the use of Planet Jr. Seed Drills and Wheel Hoes, as is shown by the fact that many of the most enthusiastic gardeners of recent years are women.

The name "PLANET JR." has become synonymous with labor-saving among farmers and gardeners everywhere, and they instinctively want the implement that bears the PLANET JR. trade-mark.

No. 4 Planet Jr. Combined Hill and Drill Seeder and Single Wheel Hoe.

No. 5 Hill and Drill Seeder.

No. 25 Planet Jr. Combined Hill and Drill Seeder and Double Wheel Hoe.

No. 12 Planet Jr. Double Wheel Hoe.

No. 16. Single Wheel Hoe. Designed to do all work required in the small garden: plowing, cultivating, hoeing and raking. It is very light, and can therefore be easily carried about\$9.00

No. 17. Single Wheel Hoe. Identical with No. 16, excepting that the two rakes and leaf guard are not supplied.\$7.75

No. 19. Single Wheel Hoe. A medium priced wheel hoe with all the attachments necessary for cultivating a small garden.....\$6.00

No. 4. Combined Hill and Drill Seeder and Single Wheel Hoe. The small grower should select one of the combined machines. The drill attachment will not be used as often as the hoeing and cultivating tools, but will be a source of much saving. This machine is a special favorite. There are probably more of them in use in the world than any other seeder made. As a Hill and Drill Seeder it opens the furrow, deposits the seed, covers it and rolls it, either in drills or hills. Holds 2 1/4 qts. Price\$18.00

No. 5. Hill and Drill Seeder. This seeder holds 5 quarts and is the best seeder made for market gardeners. Price, \$20.00.

No. 12. Double and Single Wheel Hoe Combined. The arch is high enough to straddle a row until plants are 20 inches high; this insures close work. It can be altered into an admirable single wheel hoe for working between rows. Price, \$10.75

No. 25. Combined Hill and Drill Seeder, Double and Single Wheel Hoe. This machine as a seeder is practically the same as No. 4; sows in drills or drops in hills 4, 6, 8, 12 or 24 ins. apart. Holds 2 1/4 qts. Price.....\$21.50

No. 119. Single Wheel Hoe. This plow has 2 1/2 inch wheel and same quality as other Planet Jr. Plows. Price..\$4.75

No. 16 Planet Jr. Single Wheel Hoe.

No. 19 Planet Jr. Single Wheel Hoe.

Fire Fly Plow. This wheel hand plow will throw a furrow four to six inches wide and one to three inches deep. Price.....\$4.25

Fire-Fly Hand Plow.

No. 119 Single Wheel Hoe.

PLANET JR. TOOLS—Continued

You cannot afford to till the ground without Planet Jr. tools. They not only save hard labor, but enable you to cultivate double the acreage in the same time, and thus add over 100 per cent to your crop yield. Invented by a practical farmer and manufacturer—the result of fifty years' experience. Strong, lasting construction. Fully guaranteed.

No. 9 Planet Jr. Horse Hoe and Cultivator

Weight, 70 lbs.
Price, \$15.50.

These Planet Jr. Horse Hoes and Cultivators are stronger, better made and finished than any other one-horse cultivators, and enable you to increase your yield, because they do a greater variety of work in corn, potatoes, cotton, beans, tobacco and other crops requiring similar cultivation, and do it more thoroughly. Cultivate deep or shallow, in different width rows, and the extra-long frames make them steady running. All Planet Jr. cultivator steels are made of beveled steel, thickest down the center, making them self-sharpening, and the points retain their shape and strength. No. 9 has lever expander, allowing quick adjustment for different width rows. Used with or without a wheel. No. 9-D, without wheel, price \$14.50;

No. 4-D Planet Jr. Plain Cultivator

Weight, 49 lbs.
Price, \$9.25.

This tool is strong and simple, it has patent handle braces; very firm, simple and convenient. With them the frame and

handles seem almost like one solid piece. Changes in width are quickly made by loosening one nut on each side, and one side may be opened wide, while the other is closed. An every-day all-day tool.

No. 100-D Planet Jr. Plain Cultivator

We offer this Cultivator with the object of filling a definite need where lands are light or where farming is done on a modest scale. It weighs but 42 pounds. It will stand hard usage and do excellent work. A steady running tool and easy to handle and adjust.

Weight,
42 lbs.
Price,
\$8.25

No. 2 PLANET JR. GRASS EDGER, \$1.60 each

FREIGHT PREPAID to any point in North or South Carolina on PLANET JR. TOOLS at prices listed on pages 61 and 62.

No. 90 Planet Jr. Twelve-Tooth Harrow, Cultivator and Pulverizer

Complete with Steel Wheel, \$18.00. Weight, pkd. 74 lbs.
No. 90-B (Without Pulverizer), \$14.75.
No. 90-D (Without Pulverizer), \$11.75.

This tool is a special favorite with strawberry, tobacco and sugar-beet growers, market gardeners and farmers, because of its twelve chisel-shaped teeth. The teeth and pulverizer leave the ground in fine condition. Cultivates any width from 12 to 32 inches.

No. 76 Planet Jr. Pivot-Wheel Riding Cultivator, Plow, Furrow & Ridger

Complete \$80.00.

No. 76-D (with Cultivator teeth and Pair of Plant Guards Only). \$76.00.

For Spring Trip Standards add \$10.00 to above prices.

A one-row machine, strongly constructed, easily handled, that has no equal anywhere. Its superior construction, almost entirely of steel, accurate-fitting parts, spring lifting levers and variety of cultivating attachments make it yield big dividends in time and labor saved. The arch is extra wide and 34 inches high, and will work corn safely up to 4 feet. The frame and tongue are steel. Pivot wheels change in width easily to suit different width rows. The gang frames are extra heavy, but improved levers with lifting springs make their control easy. Has malleable pivots and steel axles, both practically dust-proof; steel ratchets and pins. The center lever operates the hinged tongue, regulating the depth of the front teeth and leveling the machine; the same lever moves the teeth instantly, either closer to or further from the row, while the team is in motion. Cultivates, plows, and hills crops 23 to 44 inches apart.

Planet Jr. Seeder Attachment

Fits and works on any Planet Jr. Wheel Hoe or Garden Cultivator. \$6.50 each

Full Line of PLANET JR. SWEEPS, STEELS and REPAIRS are always carried in stock for prompt shipment.

Coldwell Lawn Mowers

"Lakewood"

The "Lakewood" is a ball-bearing, 4-blade Mower, carried in 16- and 18-inch sizes. \$12.50.
The "Colonial" is a medium-priced ball-bearing machine, low wheels. 16- and 18-inch sizes. \$10.50.

"Cadet"

The "Cadet" is a low-priced plain bearing Mower, giving universal satisfaction. Carried in stock in 14-, 16- and 18-inch sizes. 14 and 16 inch, \$8.00; 18 inch, \$8.50.

Gantt Guano Distributor No. 1— Rotary Feed

Price \$8.00

Strongest, most perfect made. Far superior to anything on the market. Unsurpassed for putting out all kinds of guano; easily regulated to distribute the proper amount; no waste in turning rows. The Gantt patent cotton planters and guano distributors are the best implements for the purpose ever put on the market. Satisfaction guaranteed.

Gantt Guano Distributor No. 2

Price \$9.00

This distributor is built on steel frame, with covering plows to list or bed on guano when put out. It opens the furrow, puts down and spreads the fertilizer, covers the same, all at one operation, with one man and one horse. The hopper is large and holds nearly twice the amount of guano as some other makes. No waste in turning or going from one field to another. The lever is in easy reach of the operator, and will distribute from 100 to 1,000 pounds to the acre.

Acme Harrow, Size No. 23

Price \$27.00

The Acme not only pulverizes, smooths, and turns the surface, but cuts through to the under soil, pulverizing and compacting it. It also turns and mixes the soil so that the seed sown is covered evenly with fully pulverized soil, insuring a quick catch under the most favorable conditions for best germination. Size No. 23, for two horses, has a wrought-iron tubular bar, to which are attached two gang bars, which can be used either flexible or rigid, each provided with six curved cast-steel coulters, supplemented by flat cast-steel crushing spurs. This size Harrow works a space 6½ feet wide.

Size H—One-Horse Acme Harrow with eight coulters..... \$20.00

Hallock 7½ ft. 39 Tooth Weeder

Price \$15.00

Just the machine to use as cotton begins to come up.

Iron Age Cultivator No. 78 Low Wheel and No. 68 High Wheel

All-Steel Pivot Wheels, Pivot Gangs, Parallel Motion, Perfectly Adjustable, Balance Frame Steel Construction makes them both strong and rigid, and yet light—steel pipe, solid steel neck yoke, steel frame, inverted angle iron arch, one-piece steel axle standards (or shinbones), steel levers, steel lock washers on every bolt, the simplest but strongest steel gangs you have ever seen. Not a piece of wood in the machine, except the brake pins for the plain hoes.

No. 78 Cultivator \$40.00. No. 68 Cultivator \$45.00.

Grape Bags, Transparent or Opaque

Protects fruit from birds and insects. \$1.00 per 100, ppd.
