Seed Potatoes,

Grown by

Howard J. Smith.

Irving C. Smith.

J. M. Smith's Sons,

GARDENERS.

---

Growers of Choice Seed Potatoes.

Established 1865.

Reorganized 1894.

**50 Acres** Devoted to gardening and  
Seed Potato growing.

# How to Order.

---

Our terms are cash with the order.

All orders acknowledged as soon as received.

Potatoes will be shipped as soon as the weather will permit. All inquiries promptly answered. We pack in barrels, for which we make no charge. Purchaser pays freight or express charges. Be sure to write your name and address plainly, giving Post Office, County and State.

## EARLY OHIO.

We have grown them for many years and they invariably give us the best results of any of the early varieties we have tried. They are large, well shaped, of good quality and very productive.

—PRICE.—

PER PECK, - 40 cents.    BUSHEL, - \$1.50  
Six Bushels or Over at \$1.40  
Second Size per Bushel, \$1.00

---

## BEAUTY OF HEBRON.

This is one of the Standard varieties, and is well worthy the place it holds among growers. It is of good size, very handsome, a heavy cropper and of excellent quality: not quite as early as the Ohio.

—PRICE.—

PER PECK, - 40 cents.    BUSHEL, - \$1.40  
Six Bushels at \$1.30  
Second Size per Bushel, \$1.00

## TRIUMPH.

This is the earliest of any variety grown about here. In size as well as quality, it is inferior to either the Ohio or Hebron, but as it is earlier than either, it can be gotten into the market sooner. It has been grown with success and profit in this locality for several years.

—(P) PRICE. (P)—

PER PECK, - 50 cents. PER BUSHEL, - \$1.60  
Second Size per Bushel at \$1.20

---

## FREEMAN.

This variety, which has been boomed so extensively by Mr. Maule and other seedsmen, we have grown for four years and must say, it has many good qualities. It is medium early, very handsome, a heavy cropper and of superb quality. We have produced very large crops of the Freeman under conditions distinctly unfavorable. We have much finer stock now, than the original barrel

contained, which we received from Mr. Maule in the spring of 1891.

—(C) PRICE (S)—

PER PECK, - 50 cents                      BUSHFL, - \$1.60  
Six Bushels at \$1.40  
Second Size per Bushel, \$1.10

---

## BURBANK'S SEEDLING.

This variety, while inferior to most of the standard varieties, maintains a strong place in the market on account of its handsome appearance. Rather late, it is a heavy cropper and is a strong favorite all through the celebrated Waupaca district.

—(C) PRICE. (S)—

PER PECK, - 40 cents.                      BUSHEL, - \$1.30  
Six Bushels at \$1.20  
Second Size per Bushel, \$1.00

## VAN ORNAM'S SUPERFINE.

We received the first of these from Mr. F. B. Van Ornam of Lewis, Cass Co., Iowa, in 1893. They are of good size, medium early, color pure white, and are with us, very productive. Quality very fine. Have only a very few.

—(S) PRICE. (S)—

PER HALF PECK, - 60 cents.      PECK, - \$1.00

---

## RUSSET PEACHBLOW.

We received one small tuber of this variety in the spring of 1893, from some unknown party. They are, as the name indicates, a true Peachblow, medium size, rather late, of good Quality. Only a few.

—(S) PRICE. (S)—

PER HALF PECK, - 60.      PECK, - \$1.00

Single fine tuber of any of the foregoing varieties by mail, post paid, 25 cents.

## WORLD'S FAIR.

We are growing this variety somewhat extensively, and consider it one of the very best of the new varieties. Our surplus stock is all sold to Mr. L. L. Olds of Clinton, Wis., to whom we would recommend our patrons.

J. M. SMITH'S SONS,

GREEN BAY, WIS.

We also have a fine lot of Palmetto Asparagus Plants.

One Year Old Plants, - per 100, \$1.00

Two " " " " " \$1.25

---

## RHUBARB. (PIE PLANT.)

Fine One Year old Plants, grown from seed, per dozen, - \$1.00 per hundred, - \$5.00

Plants from old stools, cut to one large eye

Red Varieties. per dozen, \$1.20 per hundred, \$6 00

Mammoth Green, per doz. \$1 50 per hundred, \$7.00

---

Satisfaction Guaranteed.

## CURRANTS.

We have, what has been called by many gardeners and fruit growers, the finest field of currant bushes in the North-West. They are mainly Prince Albert and Long Bunch Holland (both red) with a few Black. The bushes are at all stages of growth, from two year old plants just set, to fully developed bushes. We should be pleased to have your orders for full length canes of either of the above varieties for next fall delivery. The Prince Albert and Long Bunch Holland are a little later than the old Red Dutch and produce much finer, larger fruit. We consider them far ahead of any of the earlier varieties.

— (C) PRICE. (C) —

25 CANES, 40 cents;                      100 CANES, \$1.00;  
1,000 CANES, \$8.00.
