E 387.6

SUBJECT: Destruction of Serviceable Motors

TO : Chief, Civil Affairs Section
GHQ SCAP
APO 500
ATTN: Mr. Woodward

1. Reference is made to letter Civil Property Custodian, 387.6 (17 July) CPC/Ad, subject: "Release of Reparations Equipment Located at Kokura Military Arsenal, Itoguchiyama Factory, Code Number 30-4", dated 17 July 1950.

2. Inspection on 12 September of the Itoguchiyama Factory reveals the following:

a. The scrap items listed in the above reference were being destroyed on the spot, prior to movement to the Yawata Steel Works.

b. Fifty (50) motors ranging from 1 HP to 10 HP attached to these scrap machines were destroyed, disregarding condition of motors.

c. Destruction was ordered stopped on approximately 150 motors ranging from 1 HP to 10 HP that were in Class A condition, until such time that clarification is received from SCAP.

3. It is the opinion of this headquarters that it was not the intention of SCAP to destroy 200 serviceable motors attached to the scrap machines. In view of the above facts, information is requested on motors in the above and future scraping operations.

SUBJECT: Release of Equipment as Melt Down Scrap

THROUGH: Kyushu Liaison and Coordination Office, Fukuoka, Kyushu

TO : Minami Kyushu Finance Bureau,
Kumamoto shi, Kumamoto Ken

1. Reference is made to paragraph 3b(5) of Operational Directive 11, Civil Affairs Section, General Headquarters, Supreme Commander for the Allied Powers, subject: "Industry", dated 10 April 1950.

2. In compliance with above reference, the equipment listed on the attached application is released from reparations custody as melt down scrap.

3. A copy of the report on the disposition of this equipment will be forwarded to this headquarters.

LAW/enh

KYUSHU MIL GOVT REGION HQ & HQ DET, APO 929, 21 Nov 1946

TO: Commanding Officer, Oita Military Government Team

1. All instructions pertaining to inventory of machinery repeatedly stressed the classification of machinery; this matter was further discussed at all conferences in order that no changes would be necessary.

2. Attention is directed to paragraph 8, letter 383.7, this headquarters, dated 13 July 46, Subject: Reparations Inventory Procedure which states in part: "when in doubt, the machine will be placed in the lower classification". After machinery has once been inventoried and the inventory and plant cover sheets forwarded, it is not intended that changes should later be made in the reported classification condition of machines (Par H of Inventory Sheet).
