(o) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

Two rockets failed to fire and were returned to base. and rockets landed in the target area. Nine rockets and one bomb hit the power plant in target area, 7674-F; all other bombs and rockets hit among the caves and gun positions in target area 7574-B.C.D.E.F.H and I. Inc. addition, 2400 rounds of .30 calibre and 2500 rounds of 20mm. were fired into the area.

Photographs of Damage, WhenTaken, Should Be Attached By Staple. (p) Were Photographs Taken?

This unit of seven VB planes, in company with units of the VBF and VT squadrons, took off at 1300 (local time), and proceeded to 0 Kinawa Shima. Upon arrival at approach point #2 (20 miles east of Kummu-Saki), the VB unit was directed by Commander Support Air to attack caves, gun positions and buildings on the south shore of Asa Kawa, just south of Machinato Airfield. Eight attacks were made on this area. Bombs were dropped singly on the first two attacks, and rockets were fired in pairs on the two following attacks, after which four strafing attacks were made. The bombing and rocket-firing attacks were made from an altitude of 3,000 feet and in an east-west direction, while the strafing runs were made from the same altitude, but in a north-south direction. The entire area was worked over very thoroughly. and a "Well Done" was given by Commander Support Air. the attacks were completed, the VB unit rendezvoused with the VBF and VT units over Kutaka Jima, off the east coast of southern OKinawa, and returned to base.
