HALIFAX NOW HOPES FOR BOOM

Ready to Welcome Larger Number of Ships Watching Effect of the U.S. Order Barring Liquor

Halifax, Oct. 11.—Halifax steamship agents express a lively interest in the possibility of a boom at this port as a result of United States Attorney-General Daugherty's ruling against steamships entering United States ports with liquor on board.

FARM ANIMALS ESCAPED FIRE

Few Burned in Temiskaming Region, Ontario Secretaries of Farmers' Clubs Make Reports

Toronto, Oct. 11.—Letters to the head office of the United Farmers in Toronto from secretaries of clubs in the Northern Ontario burned area reveal that livestock in nearly every case came through the fire unharmed, even on farms where human lives were lost.

CASH TAKEN FROM HAILEYBURY VAULT AFTER BIG FIRE

Cobalt, Ont., Oct. 11.—The vaults of the Haileybury branch of the Bank of Montreal were opened by the use of explosives yesterday. In one was recovered \$50,000 in cash, quite safe, in the other a number of valuable documents and records were destroyed by the premature opening of the safe.

INSURANCE CLAIMS ARE \$5,000,000

Toronto, Oct. 11.—Fifty adjusters of fire insurance claims will leave this city for Northern Ontario today to adjust the claims in the burned district. It is estimated that \$5,000,000 will be paid out in fire insurance in the devastated area in a few days.

MODERATOR ELECTED

Montreal, Oct. 11.—Rev. R. M. Hamilton, of Brockville, was elected Moderator of the Montreal and Ottawa Synod of the Presbyterian Church of Canada at the opening session here last night.

BOARD ASKS FOR RELIEF EXTENSION

Realty Men Want Until November for Tax Adjustment Consider Formation of Board to Make Valuations

A special committee from the Victoria Real Estate Board will wait on the City Council to ask for an extension of the city's relief measure whereby tax delinquents by paying the current year's taxes, may be granted fifteen years in which to pick up their arrears, and keep their property in good standing.

Fred Landsberg asserted that the city's relief measure was an excellent thing, but that it had not been sufficiently advertised, and that when the time expired on September 29 for making advantage of the measure there were so few people who knew of it that only a few properties were carried along by the owners under the relief terms. He averred that the "alleged" tax relief measure of the 1919 Council was nothing short of a confiscatory measure.

LIBERALS ELECT OFFICERS TO-NIGHT

Annual General Meeting Called in Liberal Club Members of the Victoria Liberal Association are reminded of the annual meeting of the association which is to be held to-night, commencing at eight o'clock in the rooms of the Liberal Club, Government Street.

FOX FARM FOR CENTRE ISLAND

Among the passengers leaving on the Princess Edwina last evening was G. J. Beck, who took out some foxes to establish a fox farm on Centre Island. This is believed to be the first case of an attempt at fur farming on the West Coast.

ELECTION TALK IN GREAT BRITAIN

London, Oct. 11.—The domestic political storm, of which broke this morning while permanent peace in the Near East was not yet an accomplished fact.

Premier Lloyd George's decision to vindicate his policy at a small Manchester Reform Club luncheon on Saturday instead of at a big popular gathering in the Free Trade Hall has been dictated by three considerations: First, he holds the crisis demands an appeal to the sober sense of the nation; secondly he considers the political temper of Manchester fairer than that of London, and thirdly, he will link his destiny in the coming general election with the main Liberal Party.

A general election is regarded as certain at the end of November, after the meetings of the National Unionist Association and the National Conservative Association on October 20 and November 15.

All party newspapers by the Dominion News-to-day put European peace and consequent economic stability as the foremost plank in their programmes. Col. Leslie Wilson, Chief Unionist Whip, in an exclusive interview with the Dominion News, gave second place in importance to development of Empire.

"I look not only for closer ties with the Dominions, but also for their assistance in solving the question of unemployment here," he said. "However good future trade may become, it is certain that England is more thickly populated than ever before. Emigration is the only employment must increase. We must train our young men to take their place on Canada's lands."

VIGOROUS REPLY BY LLOYD GEORGE

London, Oct. 11.—(Canadian Press Cable)—It is announced that Premier Lloyd George will speak in Manchester on Saturday in defence of the Near East policy of his Government. A vigorous reply to his critics.

While it is stated in some quarters that Mr. Lloyd George may make a sensational announcement of fresh-landed arms, the Premier's speech on Saturday is expected to be a defence of his policy. It is stated there is no question of the resignation of Lloyd George or an immediate general election.

URGE STATEMENT BY BONAR LAW

Bonar Law's position naturally arouses considerable curiosity. Oloona Murray, Mr. P. Glasgow, who recently quit the Coalition, thinks the time has arrived when Bonar Law should come out into the open. Similar expressions of opinion are voiced by other Unionists who hold back on the question of deserting the Lloyd George Ministry.

Against this there is a strong feeling that Bonar Law will never assist in displacing Austen Chamberlain as leader of the Unionists, while it is further held that Mr. Chamberlain and Viscount Birkenhead, Lord High Chancellor, will stand on all fours. Premier, Bonar Law, moreover, although in better health than for a long time past, would probably run grave personal risk in undertaking the strains of a sharp political contest at the present time.

MEN SUGGESTED FOR PREMIERSHIP

London, Oct. 11 (Canadian Press Cable)—Discussion of the question of alternatives to the present Prime Minister and Government has suddenly become one of the favorite occupations.

The latest contributor is Sir Donald Maclean, M.P., who, in a speech at the luncheon of the Aberdeen Liberal Association last evening, said if he were asked he could produce an alternative to the present head of the Government. He could produce three statesmen of international reputation, namely Rt. Hon. H. H. Asquith, Viscount Grey and Lord Robert Cecil. There were other names, namely Lord Cowdray, Lord Gladstone, Lord Crewe, Lord Buckmaster, Sir John Simon and Rt. Hon. Walter Runciman.

Cowdray declared he knew of no reason why Liberals and Labor should not work together. "We all can talk extreme talk when we are angry," he said, "but give me the responsibility to which it is entitled as the majority of a democratic country, and I say unhesitatingly we need not fear any clash of warfare from a Labor Government."

HIS FUTURE AND CABINET'S DISCUSSED; MR. LLOYD GEORGE

London, Oct. 11.—(Canadian Press Cable)—The Daily Telegraph, which in the last few days has said very little about the political crisis in the domestic sphere, came down heavily this morning on the side of Premier Lloyd George. The Daily Telegraph represents a body of opinion somewhat corresponding to the opinion which the late Duke of Devonshire was supposed to typify, consisting of the upper and middle classes which "does not go to meetings."

The charge brought by Viscount Grey and former Premier H. H. Asquith is that the Government ought to have separated itself from the Allies. The Telegraph continues, yet the Government would not have evaded a single difficulty by doing so. The Telegraph expresses the belief that war was prevented by the Government's prompt action in hastening reinforcements to the Near East.

"If it is objected," says the Telegraph, "that our allies, equally with ourselves, approved of the same policy, and yet withdrew their forces, the answer is that the French Premier continually reaffirmed his determination that there should be no use of force under any pretext, and that visible force is the only argument to which the Kemalists would have yielded."

Will Perceive Truth. In conclusion the Telegraph states: "When the Premier defends himself at Manchester on Saturday, let us hope that the critics who have been duped and deceived."

LABOR TO OFFER 400 CANDIDATES

London, Oct. 11.—(Canadian Press Cable)—National Agent Wake of the Labor Party declares the party hopes to put at least 400 candidates in the field in the next general election.

LIBERALS ELECT OFFICERS TO-NIGHT

Annual General Meeting Called in Liberal Club Members of the Victoria Liberal Association are reminded of the annual meeting of the association which is to be held to-night, commencing at eight o'clock in the rooms of the Liberal Club, Government Street.

The principal business will be the election of officers for the ensuing term. Addresses will be delivered by Premier, Oliver, the Attorney-General, and other ministers.

It is hoped that all members of the Victoria Liberal Association will attend the right to attend the annual meeting for the election of officers for the ensuing year. Frank Carlow, the acting president of the association, says that it is not the intention to debar any of these Liberals from attending or voting. In order to avoid any confusion or errors in taking the vote, the ward rolls will be used and members will be checked off as they enter the meeting.

VESSEL SANK OFF THE COAST OF NOVA SCOTIA

North Sydney, N. S., Oct. 11.—A two-masted steamer with funnel amidships was the only additional description which could be obtained here last night from Ray St. Lawrence, a party of Lloyd's agents, who this morning received a report from that place that a freighter had sunk two miles off shore during the heavy weather of Thursday afternoon last.

The disaster took place at a spot with which communication is difficult.

OVER SIX HUNDRED ISLAND MEMBERS

Women's Institutes Convention Hears Presidential Report The Vancouver Island Women's Institutes have a membership of 633. Mrs. George Henderson, the President, told the delegates this morning, in welcoming the delegates to the annual convention of the Island Institutes which will continue here three days.

She regretted, in passing, that under the new system adopted by the Department, members of the Advisory Board were not allowed travelling expenses, and so found personal visits to all the Institutes a matter of difficulty. The policy now inaugurated called for the payment of the member's expenses by the Institute inviting her presence.

Mrs. Henderson called attention to the need, in some of the Institutes, of a stricter adherence to Parliamentary procedure, and urged all to familiarize themselves with the rules and regulations governing the conduct of Institute meetings.

Institutes Progress. She spoke with warm commendation of the progress and initiative displayed in the Institutes of the Island and of the efforts made to better conditions in the various districts. Continuing she said: "As an organization with some 2,700 members, 632 of whom are on Vancouver Island, we shall when organized provincially exert a still greater influence than at present. Let our motto be 'to do the most for the highest' for home and country."

Home Economics. An excellent report on Home Economics was given by Mrs. M. Hall, of Garden City. Six of the Institutes in the province had joined classes along these lines, the activities including dress-making, millinery, first aid and home nursing, rug-making and similar occupations. Efforts were being made by the committee to stage a "Model Kitchen" at David Spencer's Ltd., and an exhibit of this nature is being shown this afternoon.

The balance of the morning was taken with the annual reports of various Institutes, including Cobble Hill, Esquimalt, Comox, Garden City and Gordon Head, the reports revealing the wide and practical phases of Institute work. Mrs. Matheson, Mrs. Raven, Mrs. Hall and Mrs. Sprague were appointed a committee to receive resolutions.

Guides. The aims and objects of the Girl Guide movement were explained by Mrs. Tyrrell-Godman, Vancouver Island Commissioner, who appealed for the support of the Women's Institutes in their own communities. She emphasized the value of the movement in inculcating in girlhood a proper sense of "playing the game" and a practical knowledge of the rudiments of home-making.

A TORONTO DEATH

Toronto, Oct. 11.—A prominent figure in financial circles, Robert A. Lyon, 45, of the firm of Lyon & Plummer, died yesterday.

POLICE CHIEF'S WIFE WAS A REAL "MAGGIE JIGGS"

Chicago, Oct. 11.—Asserting that his wife smashed three sets of dishes on his head, threatened to stab him in the back, and broke windows with wild threats, John G. Eckstein, police chief of the twin villages of Lansing and Oak Glen, Ill., has applied for a divorce in Judge Manger's court.

FOURTEEN MISSING AFTER WRECK ON SABLE ISLAND

Halifax, Oct. 11.—Fourteen members of the crew of the Gloucester schooner Marshal Foch, discovered to-day to have run ashore on Sable Island, are missing. Eight of the crew were landed.

SOVIET WANTS CONFERENCE SHARE

Wishes Voice Heard in Near East Settlement Insists, But Not Making Threats, Says Leader

Moscow, Oct. 11.—Russia as a world power must be reckoned with in the consideration of all matters being discussed by the Allies in the freedom of commercial navigation through the Dardanelles, and therefore any proposition to leave the Soviet without proper consideration in the first conference proposed by the Allies for settlement of the Near Eastern question is altogether unsatisfactory to the Moscow Government.

In expressing this view, M. Tschitcherin, Soviet Foreign Minister, said: "We are not making threats and are not rattling the sword, but we do insist upon proper consideration in all questions relating to the Near East, particularly the commercial freedom of the straits."

Interests. "Questions in which Russia has tremendous interests will naturally be discussed at the conference, and the Russian Government feels it should be invited to that, as well as to the one to be held later."

"Russia to-day has recovered and is a world power to be reckoned with. We believe the action of the Allies in blockading the straits, thereby cutting off our southern ports while we are striving to re-establish our economic position by our own means, despite the failure of the Genoa and Hague conferences to help us, is very unjust and we will act accordingly."

FEAR OF POLITICS KEPT GOVERNMENT BOARD, SAYS MAYOR

Idea Will Succeed Yet, He Believes; Assured of Support Privately Warmly Defends Municipal Union and Work of Victoria Delegation

The Union of British Columbia Municipalities, at its Kamloops convention, rejected its Local Government Board plan because it feared that the proposed board would consist of political favorites. Mayor William Marchant asserted on his return to his desk to-day after a brief vacation on the mainland. "The proposal in fact, was condemned not on its merits but on the supposed action of the Government that might be in power at the time. Perhaps a minor consideration was the fear that Union has been formed by the Local Government Board, municipal councils would be shorn of some of their present powers, but that idea was not so strongly expressed."

"However, assurances came to me privately from leading members of the Union that the proposed Local Government Board could be given to municipalities generally. These men said, however, that opinion was so much against the idea that it was useless to discuss it now. One leading delegate ventured the prediction that before five years had passed both political parties would endorse the plan."

Satisfied With Convention. The Mayor said that he was generally satisfied with the Kamloops convention, and declared that the opposition which he had experienced in pressing his plans before the delegates, was of a good-natured character. While many questions and interjections had been hurled at him when he was speaking in favor of his schemes none of this opposition had been raised in an offensive way.

"Most of the ideas suggested by Victoria at the convention, except a few that were adopted if not directly, then indirectly," the Mayor asserted. "Many of our resolutions are being discussed."

DOOR KEY IN MAN'S STOMACH FIFTY YEARS

Chicago, Oct. 11.—A door key that his father "lost" more than fifty years ago was found by surgeons operating on the stomach of Philip J. Keller, aged 59, recovering to-day in the Asland Boulevard Hospital. Shown the key, Keller said he probably would have got a licking if his father had known who was responsible for losing it.

GREEK SPOKESMAN AT CONFERENCE; M. VENIZELOS

London, Oct. 11.—M. Venizelos, former Premier of Greece, will act as the chief plenipotentiary of Greece at the first peace conference of representatives of Greece and Turkey and the Allied Powers, it was announced here to-day. The place and date of the conference have not yet been determined.

CHINESE DEMAND ARMY BE DISBANDED

Big Demonstrations in Peking on Republic Day President Heckled and Forced to End Speech

Peking, Oct. 11.—Public demonstrations demanding the disbanding of China's huge army attended the celebration yesterday of the eleventh anniversary of the birth of the Chinese Republic.

Thousands of persons, led by students, paraded the streets displaying placards which ascribed China's present difficulties to the soldiers, who were charged with sapping the country's wealth and preventing the establishment of a constitutional government. "Among the most conspicuous inscriptions on the placards were: 'Soldiers, go to work'; 'China is burdened with militarism'; 'We demand the resignations of all the Tschunks.'"

President Li Yuan Hung, who addressed 5,000 persons in the public square, was heckled and compelled to discontinue his speech. Li, who assumed the presidency with promises to reconstruct China by eliminating the military system, declared he had found many difficulties in the way of disbanding the troops. He said the Tschunks military provincial governors and practically supreme rulers of their districts were opposing him, but predicted that China would eventually emerge from her present problems.

Scores of Chinese, waving banners, interrupted the President's speech with cries of "why don't you use force and oust the militarists? We are sick of the soldiers!"

The tumult became so intense that President Li retired. The crowd then dispersed, but many continued to parade, demanding demobilization.

ULSTER CONDITIONS SATISFACTORY, SAYS SIR JAMES CRAIG

Belfast, Oct. 11.—In a speech in Parliament yesterday, Sir James Craig, the Premier, described conditions as more satisfactory than on any previous occasion, since the Ulster Government undertook its responsibility.

He denied there would be any change of policy on the part of his Government, and added that Northern Ireland would never consent to come under the rule of the Dublin Parliament.

Sir James said it was proposed to set up a Royal Commission to investigate and report on the subject of temperance reform, with a view to legislation on the question.

LIGHT DRAGON WINNER TO-DAY OF CESAREWITCH

Newmarket, Eng., Oct. 11.—Captain Forester's Light Dragon, at 100 to 1 against, won the Cesarewitch Stakes Handicap of £1,000 with extras, run here to-day. A. De Rothschild's The Villager, at 40 to 1, was second, and Sir A. Balfour's Ceylonese, at 10 to 1, was third.

Light Dragon, the winner, is a three-year-old bay gelding by Charles O'Malley out of Queen's Parade. Light Dragon won by a neck, while three lengths separated The Villager and Ceylonese. Thirty-one horses ran.

TO-DAY'S REGISTRATION

The registrations at the City Hall are increasing, and numerous people are calling at the City Clerk's office to check up their names and addresses.

Yesterday there were fifteen registrations, several more than on any previous day, and by noon to-day twelve more declarations had been filed, setting a new mark for morning totals.

TWO CONFERENCES ON NEAR EAST AFFAIRS ARE BEING ARRANGED

Peace Terms Will Be Fixed at the First; Neutralization of the Straits Will Be Put in Treaty Form at the Second.

London, Oct. 11.—With the armistice just signed at Mudania, putting an end to the warfare between the Greeks and the Turkish Nationalists, plans for the conferences designed to bring about a definite peace in the Near East are proceeding in a less agitated atmosphere.

Two conferences to this end are being arranged, one to fix the general Near Eastern peace terms and another to provide for neutralization of the Straits of the Dardanelles. Preparations are being made for both conferences by the various Governments, as it is pointed out that the settlements reached at the first must necessarily affect the second.

It is believed, according to expressions in authoritative quarters here, that all the Governments would welcome the attendance of the United States at both conferences and it is considered probable that both the Greeks and Turks will make formal requests to this effect.

CANADA'S WHEAT CROP ESTIMATE SHOWS INCREASE

Ottawa, Oct. 11.—Canada's official estimate of wheat production for 1922, issued by the Dominion Bureau of Statistics and based on conditions at the end of August, is 388,775,000 bushels, as against 300,858,000 bushels last year. Subsequent estimates, it is believed, will tend to increase this figure considerably as conditions in the wheat growing areas subsequent to September were very favorable to heavy yields.

BRITISH WELCOME ARMISTICE NEWS

London, Oct. 11.—The announcement that the armistice convention had been signed at Mudania last night between the Allies and the Turks reached London early this morning and brought relief to the Government, which certainly will be echoed heartily throughout the country.

BRITISH PREPARE TO PAY INTEREST ON U.S. WAR LOAN

London, Oct. 11.—The British Government is proceeding with arrangements under which it will pay £50,000,000 to the United States on Monday next as the yearly interest on its war loan, it was stated to-day.

The exact amount due will not be settled until the Washington conference between the minister of Sir Robert Horne, Chancellor of the Exchequer, and United States officials. The interest will be paid through the Federal Reserve Bank at New York.

ARAB GOVERNMENT IN PALESTINE URGED

Independence Is Demand of Arab Leaders Emir, in London, Pressed to Recognize Views

Jerusalem, Oct. 11.—Unless Emir Abdullah demands independence for Palestine, the establishment of a national Arab Government and the withdrawal of the Balfour declaration favoring the Jewish homeland, he must not presume to speak for the Arabs of Palestine.

AWAIT RETURN OF SIR H. THORNTON

Directors of C.N.R. Mark Time Till Chairman Arrives

Ottawa, Oct. 11.—(Canadian Press)—Nothing in the line of permanent appointments to either Grand Trunk or Canadian Northern positions was made at yesterday's meeting of the new directors, according to a statement made this morning by Hon. George P. Graham, Acting Minister of Railways and Canals, in his return from Toronto. W. D. Robb had been appointed Vice-President and General Manager of the Grand Trunk by the old Grand Trunk board some time ago. Mr. Graham pointed out, and was simply continuing in that position until the new board made its permanent appointments. S. J. Hunterford became General Manager of the Canadian Northern on the retirement of President D. B. Hanna and he will hold that office until the new board makes its appointments. The others mentioned as appointed to Grand Trunk positions were appointed to them in the reorganization of the Grand Trunk staff necessitated by the change in Mr. Robb's title and duties.

Permanent appointments of staff and vice-presidents will not be made until the return of Sir Henry W. Thornton from England, when the Board will again meet. When these appointments are made it is considered very unlikely that separate vice-presidents and general managers will be named for the two entities of the joint system.

SULTAN'S MINISTRY ACTS MADE NULL

Constantinople, Oct. 11.—It is reported that the Turkish Nationalist Government has issued a statement declaring that all conventions, treaties, contracts and agreements negotiated by the Government of the Sultan since March 16, 1920, are regarded as null and void. The date referred to marked the Allied occupation of Constantinople.

NEW CAMPAIGN FOR VLADIVOSTOK

Troops Sent Forward by Soviet Leaders Riga, Oct. 11.—The Bolsheviks are organizing a campaign against Vladivostok, according to reports reaching here. Japan began to evacuate that territory on October 6. It is reported here, and the Bolshevik Fifth Army, hitherto stationed on the frontier of the friendly Siberian Republic, has sent large detachments to Khabarovsk.

FIRE TO-DAY IN ST. PAUL, MINN.; LOSS \$300,000

St. Paul, Minn., Oct. 11.—With four explosions at intervals, the plant of the Twin City Hardwood Lumber Company, in the Midway District here, was destroyed by fire early to-day. Officials of the company estimated the loss at \$300,000.

DAMAGES ARE GIVEN WIDOW OF MAN MURDERED

Brockville, Ont., Oct. 11.—The principle that a person of unsound mind is responsible for his acts was re-established at the assizes here yesterday before Mr. Justice Latchford when Mrs. Ida A. Wood, whose husband was shot and killed by Derrick Tennant, who was later found insane and committed to the Ontario Hospital here, was given \$4,000 damages after an agreement had been reached between her and the Public Trustee of Ontario, whom she sued for the loss of her husband's life and for injuries to herself.

SERIES OF FIGHTS IN DUBLIN; NO CASUALTY REPORT

Dublin, Oct. 11.—Numerous ambushes accompanied by heavy bursts of firing, occurred in various parts of the city during last night. The fighting continued until dawn. No reports on the casualties were available this forenoon.

## CHINESE GET BACK JOBS ON RAILWAYS AS IDLE WHITE MEN REFUSE WORK

Although industries in all parts of B. C. have been crying out for men, unemployed hanging around the Coast cities have already been visiting employment offices and asking when the offices were going to start to hand out relief doles, according to reports on labor conditions made to the Hon. A. M. Manson, Attorney-General and Minister of Labor.

Unemployed are so persistent in their determination not to take jobs outside the big cities that the railway companies have had to go back to using Orientals on their section work, the reports show.

Shortly after he took office early in the year, Mr. Manson approached the railway companies and got them to agree to do away with Oriental labor and give white men the jobs.

"I personally asked all the railway companies operating in the Province to take on white men in place of Orientals for section work," Mr. Manson said to-day in discussing the problem.

"They agreed to do so, but before long they informed me that they had had to bring the Orientals back again as they could not get white men for the work."

"We had plenty of single white men in our cities but they would not go out to where the jobs were waiting for them."

"I do not mind telling you that individuals of this kind will receive scant consideration if they ask for assistance during the coming Winter."

"Already in the last week or two, when there has been still plenty of work to be had in various parts of the Province, I have been told of men coming into our employment offices and asking how soon we were going to begin giving out relief."

"For two months past some of our industries have been asking for men and could not get them, and yet we have had in Victoria and Vancouver a large number of single men capable of taking up these positions, positively refusing to entertain any idea of leaving the city."

## CANADA HEADS U.S. TRADE LIST

Figures Given Out at Washington To-day

Washington, Oct. 11.—(Canadian Press)—Canada topped the list of countries in trade with the United States during August, figures issued to-day by the Department of Trade and Commerce disclose.

The United States sold more goods to Canada than to any other country, and also bought more goods from the Dominion during the month. Canada ordinarily is second only to Great Britain in the volume of trade with this country. During August, however, both exports to and imports from the Dominion were \$1,000,000 above those of the Old Country. The figures are: Canada—Exports \$14,000,000, valued at \$8,000,000 in August, 1921; imports \$32,000,000, against \$24,000,000 in August, 1921.

Great Britain—Exports \$55,000,000, against \$35,000,000 in August, 1921; imports \$31,000,000, against \$16,000,000 in August, 1921.

## DRAFT LEGISLATION FOR NEW WATER BOARD

Legislation which would create a Joint Inter-municipal Water Board to control water services all over the southern portion of Vancouver Island was laid before the Greater Victoria Committee Executive last night by its chairman, Alderman A. E. Todd.

The draft of the legislation prepared by Alderman Todd deals with all phases of the proposed Water Board's work, and practically all its clauses were approved. After slight amendments have been made the legislation will be submitted to the Greater Victoria Committee next Wednesday night.

## Obituary Record

There passed away yesterday morning in the city, Mr. Richard Richmond, aged fifty years. The deceased was born in Leeds, England, and had been a resident of this city for the past eighteen years. He leaves to mourn his loss, a widow of 20 years, and two brothers in England. The remains are resting at the B. C. Funeral Chapel until Friday afternoon, when service will be held at 2 o'clock in the afternoon at Ross Bay Cemetery. The late Mr. Richmond left Victoria with the 11th C. M. R. and was transferred in France with that unit. He was serving with that unit until his wounding and subsequent discharge in 1918. The funeral with military honors will be held from 2 p. m. and former comrades in the 11th and 2nd C. M. R. are invited to attend.

## Political Broadcastings

The straw ballot on the liquor license in B. C. was by a Vancouver newspaper along the lines of the recent national ballot in the United States by the Literary Digest shows that the people who voted want a change in the present Government Liquor Act.

Out of 5,528 ballots cast, 4,425 are marked in favor of the sale of beer and light wines; 1,057 support prohibition; 237 are satisfied with the present regulations.

Capt. Ian Mackenzie, M. P. P. of Vancouver, who has been visiting the Parliament Buildings after the straw ballot, said that the Moderation League for which he is acting took no part in the newspaper balloting. He took the vote as vindicating the stand of the Moderation League.

"The average voter," marked his ballot without deep consideration and without having the question presented to him from the public platform, said Brig.-Gen. Victoria W. Odium, member of the executive of the Prohibition Party.

"The question of whether the sale of light wines and beer could be properly controlled probably never entered his head."

"A Vancouver weekly farm paper circulating widely throughout the rural parts of the Province is not holding a straw ballot on the liquor question."

Premier Oliver is not yet finished with Senator Taylor, of New Westminister, and his editorial writer who called him a "desperado" and a "railway desperado."

Senator Taylor in his newspaper has been continuing his attacks on the Premier.

The Premier is to-day preparing a hot shot which he says will bring Senator Taylor down. It will likely be fired to-morrow.

Vancouver Conservatives last night elected Charles Jones president of their city organization.

Other officers elected are: Hon. president, Rt. Hon. Arthur Melghen; hon. vice-president, W. J. Bowers; K. C. M. P. P. vice-presidents, F. W. Rounsefell, T. H. Kirk and C. J. White; treasurer, William Manson; secretary, N. Rigby Fisher.

Provision was made for the addition of two women, to be chosen by the Women's Liberal-Conservative Association.

## WHAT IS A LETTER

Many Times It's a Guide to Health as is This One

Women—Read It

Marmion, Ontario.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pain in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half-way up. I saw your medicine advertised in the newspapers and gave it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children and do all my housework, milk eight cows and do a hired man's work and enjoy the best of health. I also found the Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends."—Mrs. HENRY JARRE, Marmion, Ontario.

Letters which you read in the newspapers recommending Lydia E. Pinkham's Vegetable Compound are genuine expressions from women who have been helped by this splendid medicine. They are anxious for other women, who may be suffering as they did, to know of the great merit of this medicine.

## PREPARE TO IMPORT CANADIAN CATTLE

British Traders Study Conditions in Canada

Toronto, Oct. 11.—Twelve members of the Livestock Traders Association of England, who have been studying livestock conditions in Canada in anticipation of the lifting of the British embargo on Canadian cattle, had an interview with Premier Drury yesterday in the House of Commons, after visiting his wife at the hospital he made a statement to the police, and it is believed detectives are searching for a man of whom they have been given a description.

Mr. Drury assured them that cattle exported from Ontario would be properly inspected for disease and properly graded for the Old Country market.

T. D. Chapman, president of the association, who acted as spokesman, expressed himself as well satisfied with the results of the Canadian tour. The party is just back from the West.

## SUNDAY CLOSING AN OPEN QUESTION AGAIN

Lord's Day Alliance Move to Bring Matters to Head; Commission to Meet

The question of Sunday closing of newsstands and other places of business will be brought before the regular meeting of the Police Commission to-morrow evening. It is understood. Communications from the Attorney-General's Department in reference to a motion on the part of Lord's Day Alliance will be considered it is said.

Some weeks ago, it is reported, two men were employed by the local branch of the Alliance to secure evidence of Sunday opening. This is said to have been done on a Sunday, with the result that the facts were laid before the Attorney-General and a fine requested. The decision of the Police Commission in the light of the projected renewal of the Sunday closing prosecutions will be sought at the meeting to-morrow.

## IN POLICE COURT

Charged in the city police court to-day with the unlawful sale of beer, W. J. Adie, 41-year-old, was fined \$50. Chief Fry asked for the confiscation of the beer, amounting to 114 bottles, found on the premises of the Helton Club, Yates Street, and which formed the substance of the charge. Seventy-one pints of beer had been found by the police in the cooler, thirty-one pints were on ice in another place behind the bar, six pints were found on the floor, en route to the ice box, while two empties were found on the bar. The confiscation was ordered.

Charles de Macedo and Sidney Burrows, charged with riding a bicycle on the Johnson Street Bridge, were fined \$5. H. C. Sealey, W. W. Winby and Allen Lyons, charged with failure to have the necessary tail lights operating on their respective cars, were fined \$5 each. Charles Cronk paid \$15 for speeding.

## BRITISH POLITICS ARE NOW HOLDING CENTRE OF STAGE

Talk of General Election Before Christmas

London, Oct. 11.—The announcement in the Ministerial organs that a general election was a practical certainty before Christmas and that Premier Lloyd George would open the campaign with a fighting speech at Manchester on Saturday has all but swept the Near Eastern situation from the position of prominence in the newspapers and has raised the political temperature to white heat with startling rapidity.

The Government's opponents, particularly the Labor Party, are deluged with the prospects of a fight at the polls and the campaign machinery of all parties has already put on full speed in preparation for the struggle.

Thus far the Premier has not indicated publicly what line he proposes taking and the newspapers this afternoon were filled with speculation on this point. Some of the writers express the opinion that he will attempt to continue the Coalition, while others think he will return to party politics and make a stand with one of the established organizations.

May Form New Party.

In some quarters it is maintained that Lloyd George will emulate Roosevelt and form a new Progressive party which would more closely represent his views than any of the old factions. The Premier, however, is sitting tight for the moment and to his close friends is that he is full of fight and has no intention of surrendering without a struggle.

## MAN IS SOUGHT BY DETECTIVES

Vancouver, Oct. 11.—Robert Law, husband of the woman who was shot in Stanley Park Monday night, arrived to-day from Calgary. After visiting his wife at the hospital he made a statement to the police, and it is believed detectives are searching for a man of whom they have been given a description.

Mr. Law refused to make a statement, beyond the fact that he found his wife improving and that her recovery was expected. He said he would make no statement except to the police.

## KAMALIST SOLDIERS IN CIVILIAN ATTIRE PASS INTO THRACE

Rodos, Thrace, Oct. 11.—Five thousand Turkish Nationalist soldiers in civilian attire have filtered into Eastern Thrace during the last fortnight through this city and other ports on the Sea of Marmora, for the purpose of facilitating the Turkish occupation of the province, according to information received by the Allied mission here.

The Kamalist soldiers have come in mostly with groups of refugees, making their detection difficult.

The local Greeks declare the object of this infiltration is to foment disturbances, organize bands of irregulars and gather information for reprisals against the Greeks.

## HEAR REPORT ON CHURCH UNION

Toronto, Oct. 11.—At the opening session of the annual meeting of the Synod of Toronto of Kingston of the Presbyterian Church here yesterday, Rev. Dr. J. A. McGillivray, of Knox Church, Guelph, was chosen as the new Moderator and a motion was adopted to have Rev. Dr. G. C. Edgerton come before the Synod to-morrow and explain, as chairman of the Union Committee, the draft of the new bill on church union.

## GHOSTS NOT CAUSE, DR. BAKER SAYS

It is not ghosts at all who raise tables, make chairs dance, ring bells and perform all sorts of antics at spiritualist meetings, according to Dr. R. S. Baker, who made an announcement on the matter to-day in connection with the meeting of psychologists of Victoria in the Conservative Club, Campbell Building, to-night.

What is responsible for all the spiritualist "stunts" is telekinetic energy, Dr. Baker explained. This is ordinary energy which will do anything, thought that is, a person who has special facilities developed can concentrate his mind and throw out work at a distance from himself, just as he can concentrate and transmit through ether his thought to some other person.

"Scientific men recognize it now that it is possible to move matter at a distance," Dr. Baker said.

He told of the instrument now possessed by the Psychological Society of Seattle which has a needle which moves proportionately to strength of thought concentration on the part of a person.

Psychologists here are now studying the subconscious mind. Capt. Everett, who is an experienced psychologist, and uses it in all his work, will "How to Make the Subconscious Mind Work for You." Dr. Baker will take part in the discussion.

Later the club will take to formalization and concentration along with the development of the power of telepathy and telekinetic energy.

## G.W.V.A. TAKES OVER CARNIVAL

Spectacular Production to Be Staged in November

The Great War Veterans' Association executive last night decided to take over the Autumn carnival for which seven hundred Victoria artists have been rehearsing during the last few weeks, and which was recently cancelled by the L. O. D. E. The carnival will be carried out along the lines originally planned at the old Drill Hall, Meades Street, between November 4 and 11.

A special stage will be erected to give the proper effect to the production, which is on a greater line than anything previously attempted in the city, and an elaborate and tasteful lighting system is being planned. Three hundred boxes will be built to accommodate box parties.

Rehearsals of the children who will take part in the carnival are continuing at the Empress Hotel to-day, and this evening, adult performers will rehearse at the Empress Hotel. Mr. L. Lyndon, who has been training the children, will have charge of the plans.

The Old Drill Hall has been specially opened for the carnival by the Provincial Government.

### STAND SIDE BY SIDE FOR PEACE

Britain's and Allies' Duty, Says Lloyd George

London, Oct. 11 (Canadian Press Cable)—In a speech acknowledging a wreath placed on a cenotaph by the Belgian Fanfare Band, which is now in London giving entertainments on behalf of hospital and wounded men, Premier Lloyd George said Great Britain's entry into the recent struggle for liberty and right had cost her very heavily, but great as was the sacrifice and much as she was suffering from it down to this very hour, the British people had never regretted it for one second. It was a proud page in British history.

"We were glad to stand beside Belgium in the war," he continued, "and we hope to stand beside Belgium and France and all our Allies in the cause of peace. It would indeed be a tragedy if, having worked together facing death in war, we parted when we tried to march together to the reconstruction of the world."

### ALBERTA YOUTH CONFESSED KILLING

Smiled During Preliminary Hearing of Murder Charge

Vulcan, Alta., Oct. 11.—Love for his employer's wife caused Otis Dow, a nineteen-year-old farm hand, to shoot and kill Charles H. Kelly, a well-known Vulcan farmer, last Friday, according to a confession made by Dorthea after his arrest and accepted as evidence at the preliminary hearing held here. Both Otis and his seventeen-year-old brother, Othello, were committed for trial on a charge of murder, following testimony given by twelve witnesses called for the prosecution. They were taken to the Lethbridge jail and will be held there until the trial, which will be held in Calgary next January.

During the hearing, the elder Dorthea maintained an unruffled bearing. He smiled tauntingly at the witnesses, cross-examining some of them minutely and displayed great interest in the proceedings. He smiled slightly when his confession was read by Corporal Hudson of the Alberta provincial police, and when asked if he wished to question the police officer's statements, merely smiled again and murmured that they were "correct."

The younger lad who, according to the evidence, was unaware that his brother went to Kelly's house on the night of October 6 to kill, took no part in the proceedings, but was confined to his brother's ask questions. Only once during the proceedings did Dorthea display any emotion. When being led back to the Vulcan detachment at the conclusion of the hearing, he threw one arm around his brother and said: "Cheer up, Othello. It may mean the rope for me, but you'll be running around the farm again in a few weeks. They've got nothing on you."

**The Confession.**  
Following is part of the text of the confession:

"I got familiar with Mrs. Charles H. Kelly and was very jealous of her husband. I am in love with her, and she promised to marry me when her husband died. If that happened, I could see where I would be on city street. I borrowed Albert Greenleaf's car, telling him that I was going to meet a bootlegger. I went with my brother to his dad's farm about 8 o'clock on the evening of October 6. I told Dad I wanted his shotgun to go duck hunting. My brother and I started off in the car and stopped near Kelly's gate. I got out of the car and walked over to Kelly's house, leaving my brother in the car. "I called out: 'How's chances to get some gasoline?' "Kelly came down in his night-shirt. He did not recognize me, so I walked in front of him to the garage, carrying the shotgun in front of me so that he could not see it. I stood in the far corner of the yard, and as soon as Kelly came to the door, I fired at him. I then ran out of the door of the garage and then ran to where my brother was in the car."

### BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Back-ache.

The American men and women must guard constantly against kidney trouble, because we eat often too much red meat and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous, acid, spells, acid stomach, or if you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and moon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so no longer is a source of irritation; thus often ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage and belongs in every home because nobody can make a mistake by having a good kidney flushing any time.

### LABOR UNREST EXISTS IN FRANCE

Paris, Oct. 11.—General agitation and unrest prevails in the labor organizations throughout France, due to the modification of the eight-hour day regulation for marine employees, recently promulgated by the Minister of Marine. The labor unions now demand the enforcement of the eight-hour day in the other classes of labor.

The printer's union has given notice that it will not condone hereafter the practice of its members working overtime at the ordinary tariff.

### INQUIRY SOON BY COAL COMMITTEE

Supply for Eastern Canada and Prairies to Be Studied

Steps Taken by Minister of Interior

Ottawa, Oct. 11.—With the object of seeking methods of supplying Canada's coal demands from domestic mines, and with special reference to the situation in Quebec and Ontario, Hon. Charles Stewart, Minister of the Interior, is organizing a committee of coal and mining experts under the chairmanship of Dr. Charles Camsell, Deputy Minister of Mines.

The committee, which will be largely composed of scientists in the Government's employ, will conduct a thorough investigation—in an endeavor to make this country independent of anthracite importations from the United States. Mr. Stewart, in commenting on the task of combatting possible future coal shortages, was optimistic that some solution would be discovered. One of the problems to be dealt with by the committee of experts will be the possibility of establishing plants for the coking of Nova Scotia bituminous coal and for the extraction of the valuable by-products. It is hoped to produce a coke highly suitable for heating purposes and in this way to obviate the necessity of importing high grade coal from the United States.

**From Wales.**  
An other question outlined for the committee is the feasibility of importing Welsh anthracite into Canada, during the summer months and storing it for winter use. In this case the plan is, it is understood, to use the Welsh coal to supplement the supplies of special coke-manufactured from domestic soft coal. A special phase of this feature, those supporting the proposal point out, would be that part of the large sums of money now going annually to producers of American anthracite would be kept within the British Empire.

### W. D. EULER, M.P., SPEAKS OF RAILWAYS

Kitchener, Ont. 11.—If ever there is a railway monopoly in Canada, it will be when all the railways, including the Canadian Pacific Railway, will be owned by the people of Canada, said W. D. Euler, M.P. for North Waterloo, at a Kiwanis luncheon here yesterday. "Canada will never tolerate a private railway monopoly," he expressed the opinion that there was a determined and persistent effort being made in some quarters, especially in Montreal, to discredit public ownership. The propaganda he declared, was supported by one member of the Cabinet, despite the fact that the latter is pledged to give the railways a fair chance.

gress in Sheffield yesterday, referred to a conversation which he had had with the noted Belgian prelate of the Roman Catholic Church, Cardinal Mercier, on the question of church reunion. He said his conversation with the cardinal had made it clear to him that the greater number of questions which were supposed to divide the "Church of England from the Roman Catholic Church were due to misunderstandings rather than to Anglican formulas, on the one side, or the statement of what was defined on the part of the Roman Catholic Church on the other.

Viscount Halifax asked if there were not sufficient grounds, without any sacrifice of principles, to accept

the Roman Catholic position of a primacy by divine appointment having been confirmed on St. Peter, or, at least, to enter into negotiations which might pave the way for some terms of reunion being reached.

### COMMISSION WILL STUDY BUDGET

To Report to Methodist Conference Four Years Hence

Reorganization of Work Discussed Yesterday

Toronto, Oct. 11.—The Methodist General Conference will appoint a commission of experts to study the question of a budget scheme and reorganization of the departments of the church and report to the next Quadrennial Conference.

An amendment to the report of the Committee on Departmental Work proposed by Rev. J. W. McConnell, president of the New Brunswick Conference, to the above effect, was adopted last night by the Conference by a vote of 173 to 133.

Sir Joseph Flavell, of Toronto, led the opposition to the proposed budget, considering it a mistake in tactics and in procedure.

Rev. J. G. Brown, Vancouver, was the first advocate of the budget system and presented arguments to show overlapping of departmental work. It had been said there should be a reduction in the work of the Temperance and Social Reform Departments, but he wished to emphasize that today temperance and social reform were just as important as when General Superintendent Chown had charge of the work.

**Desired in Saskatchewan**  
Rev. H. Lewis, President of the Saskatchewan Conference, said that although a budget proposal had been voted down at the session of his conference a year ago, the call for a budget system was still strong in his district.

Colonel C. B. Keenleyside, Regina, considered the question of reorganization of the departments one of the most important before the Conference because it affected the very vitals of the church. He expressed the view that the whole financial obligation should be taken from the ministers and shouldered by the laymen of the church.

**George Bell Spoken**  
George Bell, Victoria, said he could drive a "coach and four" through some of the clauses in the plan, and that if the Conference was looking for something to solve its difficulties it would be sadly disappointed.

Rev. James Endicott, of the Foreign Missions Department, was entirely opposed and declared he never had met a foreign mission secretary or a foreign missionary who liked a budget system. The attitude of the Missionary Society had been neutral on the question of a budget and he hoped that, if it was adopted, the organization would be left out of it.

Rev. R. E. McCullough, Winnipeg, was in favor of the proposals because

he said, experience had taught them a budget was a good thing.

### Flavell's Attitude

Sir Joseph Flavell stated he stood out in strong opposition to the proposal. There was something more far-reaching than a budget plan needed. He did not know what that requirement was, but it was akin to reform in the work of the church. It was not that there was a lack of money, for it was in evidence in all walks of life.

"There is plenty of money for gasoline," said Sir Joseph, "but none to give reasonable accommodation for the worship of God."

Sir Joseph declared that it would have warmed his heart if a call had gone out to the laymen of the church and they had placed before them the assumption of all the obligations of the church. He would have had a message sent to the laymen of Canada to free the ministers of their obligations and concerns in their respective districts; and he would have hoped from such an effort more results could be obtained than from any mechanical organization, however excellent it might be.

**Requests**  
Elmer Davis, of Kingston, chairman of the sub-committee on the Committee on Departmental Work, again emphasized that requests made to missionary funds through wills were regarded as trust funds and did not come under the budget. Also, he declared, reasonable autonomy in local church with regard to the raising of moneys for local purposes would not be interfered with by the operation of the proposed budget. He did not consider the proposals appropriate.

**Deaconesses.**  
In considering the report of the Deaconesses' Committee, the Conference last night adopted a report recommending the raising of a fund of \$100,000 for the establishment of a superannuation fund for deaconesses, and appointed a committee to inquire into the work of the deaconesses and place it on a satisfactory basis.

Complaints had been made that few girls were taking up the work, and the committee felt that it should be made more attractive. In 1909 there were 73 deaconesses, while this year the number has fallen to 28.

ONE CERTAINTY

Victoria Daily Times

WEDNESDAY, OCT. 11, 1922. Published every afternoon (except Sun- day) by THE TIMES PRINTING & PUBLISH- ING COMPANY, LIMITED.

WILL THE UNITED STATES PARTICIPATE?

If it shall be decided that the freedom of the Dardanelles is a question in which both New and Old Worlds are equally interest- ed—and will it be seriously con- tended that it is not—our neighbor to the South will doubtless be convinced that it would be to her interest as well as to the interest of the rest of the world were she to exercise her undisputed influence at the deliberations that are soon to commence.

Meanwhile it is suggested that the question of Rus- sia's participation in the peace conference is still a difficult problem. There seems to be a large volume of public opinion that would exclude the Black Sea States as well as Russia from any discussion in refer- ence to the future status of the Dardanelles. The Soviet Gov- ernment insists that its representa- tives should be invited and in- fers that if they are not Russia may be counted out in any at- tempt to bring permanent peace to this trouble spot. And why exclude Russia? Would it not be better to let the Government at Moscow know once more that international honor still exists in some form or another? Can it be argued that the Allies would be doing any more backing down by asking Russia to partic- ipate in the conference than they are by telling Turkey that the Treaty of Sevres is now without force or effect? The terms of the armistice conven- tion virtually mean this.

Sword rattling by Russia wor- ries nobody at the moment. But it goes without saying that she has an interest in the Dardan- elles as great as that of any other country. The Black Sea ports are her only outlet in the Winter. And if the Great War has produced a new conception of international politics it must surely support a claimant's in- terest in international property to which neither he nor others may possess the title of absolute ownership. This is obviously the position of Russia and that of the Black Sea States.

With Russia, Germany, Tur- key, and all the rest of the in- terested nations in conference, it ought to be possible to ex- pose international outlawry and give a warning to present and future culprits that would do a great deal more good than draw- ing a line of demarcation be- tween the various peoples of the world. The United States could help Great Britain and France to tell Russia—and other trouble-makers—what to do to regain and hold the respect of decent society.

When Premier Oliver reaches a point in his interesting career at which he considers he should turn over his present or future duties to a successor his de- cision will not be reached or de- termined for him by those who think he has outlived his useful- ness to this Province. The leader of the Government is capable of making up his own mind according to his own con- ception of public duty. Sen- sational reports of failing health, or despair of ever solving prob- lems which confront him, can be taken with a large grain of salt.

We are now informed by a morning newspaper in Vancou- ver that Mr. Oliver has dropped the railway portfolio and will turn it over to the Minister of Public Works. But neither the Premier nor Dr. Sutherland knows anything about the change. On the other hand it will be apparent to most people that until the Legislature shall have had an opportunity to discuss the future of the Pacific Great Eastern the likelihood of any administrative changes in the Department of Railways is at least remote.

REDUCED FARES.

Both the Pacific Northwest Tourist Association and the Vic- toria and Island Publicity Bi- reau are to be congratulated upon the success which has at- tended their efforts to induce the railway companies to reduce their rates on Westbound tour- ist tickets during the months of December and January.

Last Winter's arrangements permitted tourists from the Prairies and the Middle Western States to travel to Eastern points at a considerably lower cost than the ordinary fares which Westbound holiday mak- ers were compelled to pay throughout that particular sea- son of the year.

Under the principle of equal privileges for the West during the two months named British Columbia in general and Vancouver Island in particular should derive substantial bene- fit. Even under conditions which have existed hitherto the number of visitors who have taken advantage of the equable climate of this part of the Pacific coast has increased from year to year. But in the absence of such an important in- ducement as a reduced railway fare the work of the Victoria and Island Publicity Bureau and other similar organizations in this Province and across the line to our immediate South has not been rewarded as liberally as might have been the case.

Now that the railways are seized by the importance of the mutual advantage that must ex- ceed from the arrangement it may be supposed that the various pro- gressive bodies especially inter- ested in stimulating the tourist trade will be assisted by the gen- eral public in such policies as may be found necessary to in- crease the growing number of Winter guests.

MAKING VOTERS VOTE.

Neither on the ground of ig- norance of the privilege nor through inability to understand the method of procedure will any eligible voter in the City of Victoria find it simple to escape admission to the municipal vot- ers' list during or by the end of the present month. In addi- tion to its campaign to beat its previous record the Gyro Club has gone one better this year and now proposes to send a notary to the residence of any citizen who is unable to fill up the forms and take the necessary oath at the City Hall.

If the lethargic individual who looks upon the process of regis- tration and the exercise of the franchise as something akin to a nuisance will not bestir him- self and get on the list and vote after treatment of this kind he deserves to lose the right for which his forefathers fought and died. Meanwhile the Gyro Club has undertaken a task which cannot fail to be productive of good results and contribute to a better conception of public duty on the part of a section of the people who do not readily grasp that they and they alone are responsible for the sort of government they get. The in- dividual who may vote and does not is not entitled to grumble about the management of his af- fairs.

THE EMBARGO. It is fortunate that Mr. Fielding and the Canadian High Commissioner will represent this country when the officials of the British Ministry of Agriculture settle down to a discussion of the regulations that shall eventu- ally control the admission of Canadian store cattle to Great Britain. Both the Minister of Finance and Mr. Larkin are familiar with the history of the controversy and are consequent- ly well equipped to put the brake upon any irrelevant diversion that would seek to borrow justifi- cation for retaining the restric- tion from the sanitary as- pects of the discussion.

The embargo and its removal are now matters of departmental detail. Canada made out her case at the Imperial Conference in 1917 and the British Govern- ment gave its pledge that the existing restrictions would be re- moved after the war. Objection to the fulfillment of this under- taking took the form of con- tinued pressure by agricultural interests in Great Britain. The Government appointed a Royal Commission; Canadian cattle got a clean bill of health; the prin- ciple of the embargo disap- peared. The House of Commons

voted substantially in favor of its removal. To what extent the economic phases of the question will influence the regulations that are about to be framed re- mains to be seen. Meanwhile Canada's case is in good hands and the attitude of the British Parliament will strengthen them.

NOTE AND COMMENT

Mustapha Kemal Pasha is wise in his day and generation. He ran a bluff that he knew would disappear as soon as the British lion began to bare his teeth. War with Great Britain is the last thing he wants.

German marks dropped to 13,400 to the pound sterling yester- day. These daily evidences of the great miscalculation must be annoying to those junkers who continue to review the re- mainds of Germany's military might in parts of Bavaria.

It is now declared that Mr. Lloyd George will join forces with the main Liberal Party of Great Britain at the next gen- eral election. But how is he go- ing to square himself with men like Mr. Asquith and Viscount Grey? Surely the "divorce" has been made absolute by this time.

MR. KELLIE'S OFFER

To the Editor—My attention is di- rected to a letter from J. M. Kellie not to be acting with good grace were I to accept Mr. Kellie's offer. CHINESE SEGREGATION

To the Editor—The Chinese-Can- adian Club is composed of a body of Canadian-born Chinese, whose future must perforce be in and with Canada, and many of us are married, and some have children. It goes without saying that we view the attitude of the present School Board with con- siderable anxiety. Kindly grant me space to state our position in the light of present developments. The initial mistake made by the Chinese was when they, believing in the good intentions of the School Boards, accepted the principle of seg-regation at Rock Bay eight years or so ago. There segregation was con- fined to the first and second primers and second readers. It was thought that segregation would en- able the children better to acquire a knowledge of English. After eight years' experience it has been proved to be a complete failure. If we are to accept the statements of the Muni- cipal Inspector of Schools, we little should can be the thin edge of the wedge which had for its purpose really to prevent the children secur- ing a knowledge of English. In any case, that has seemingly been the result. With this experience before us, we are now asked to accept an extension of the plan to cover third reader, high and low, and low fourth reader, otherwise up to the entrance class. If we accept this we have no reason to expect any better result. The next step will be on the grounds of imperfect knowledge of English we will be prevented from the entrance classes of the High School. You can therefore see, Mr. Editor, how serious the question is to us. It is not the 200 children now affected that we have to think of, but the whole of our future is involved in this question. We cannot afford to take any other attitude than the one we have taken. We ask ourselves for the purpose behind this movement? Can it be the intention to prevent us securing an English education so that our children can be permanently ignorant, so that they must remain laborers to be exploited? Being ignorant of the language we will be unable to take our part by the side of the Canadians, and we will then be pointed out as those who re- fuse to learn the customs or social life of the country—in fact, refuse to assimilate. It will have been forgot- ten by then that it was not because we did not want to learn, but because certain narrow-minded autocrats have taken upon themselves the re- sponsibility of preventing our learn- ing. Children who come from China to acquire an English education have the ambition, upon completing their edu- cation, to return to China, where the country is just awakening to the meaning of Occidental civilization. The present trade of China, accord- ing to recent reports, shows an aver- age of 15 shillings per head, as com- pared to Belgium of £76 per head per annum. The opportunities in com- merce are, therefore, tremendous, and any Chinese hav- ing a decent education will find un- limited chances there, so that there will be no inducement to stay in this country. Yet as the children born in China and now seeking education here have paid their head tax of \$50 each they must perform remain here as laborers if education is denied them. Is this what Canada wants? It was reported in the local press yesterday and to-day that there has been picketing at the schools by the

Chinese. I wish emphatically to con- tradict it, as it is absolutely untrue. If any children were at the schools looking on it could only have been from curiosity. The Chinese are not organized to that extent. They are conscious that they are helping out as far as their own efforts are con- cerned, when against an unreason- able and autocratic board. They are anxious for the removal of the tax, but must depend upon the sympathy and goodwill of that section of the citi- zens who enjoy the privilege of the franchise, and upon the sense of British justice. They are therefore not likely to take any action which is likely to antagonize anyone, much less those whose influence and sym- pathy they need. They are taxpay- ers. The politicians say that it is the will of the British people and the Canadians that they shall be deprived of the ordinary rights of citizenship. They must bear their cross until such times as a generation shall arise which has a more Christian sense of justice. In conclusion, I would appeal to the citizens who have children to put themselves in our place and see themselves if they would have ac- cepted the edict of the School Board in similar circumstances if reversed to affect their children. We ask in the practice of the Golden Rule. CHINESE CANADIAN CLUB, Low Kwong Joe, President, 6084, Comox street, Victoria, B.C., October 11, 1922.

IS "SINGLE-TAX" UNJUST? To the Editor.—Unjust! a word not to be judged with, yet, alas, how frequently it is. It is often used by the prejudiced or ignorant to condemn some fact or arguments which are necessary to a just and impartial determination; or throughout want of knowledge and enlightenment. Is any system unjust which has for its object the alleviation of the dis- tress of poverty; the equitable dis- tribution of the working hours; the securing of the individual share of opportunities desig- nated for each of us by our Creator; a system which recognizes the different abilities and virtues of men, and would have each rewarded ac- cording to his labor, perseverance, industry and goodness. In any such system, which has no sympathy with the sluggard, and would not have the workers kept the drones, but would give all equal opportuni- ties, it would be unjust to speak of "Free Trade" and "privilege"; eradicate those unjust man-made laws, laws contrary to the laws of God, laws that make a privileged class; a system that would expose the fallacies of ideas and practices that appear right because of custom. Is a system unjust that would give freedom to frugality, enterprise, in- dustry and righteousness, and de- stroy their antithesis prodigality, idleness and unrighteousness? Must we have a "single tax" in its entirety, is such a system.

REPLY TO COL. SIMONDS.

To the Editor.—I am much obliged to Colonel Simonds for replying to my letter in your issue of October 2, but I think it would have been better had he given himself time to read it a little more carefully. Had he done so, he would hardly have read into it an inference that he had sug- gested the abolition of cold storage. No such inference was there, and none was intended to be there. I find the opinion of Colonel Simonds' ex- cursions into history extremely in- teresting, and in one or two partic- ulars a little confusing. For in- stance, he says my knowledge of sta- tistics had been alluded in my pre- vious letter to a period "some years before the (French) Revolution began." Well, the Revolution began in 1789, and my allusion was to Colonel Simonds' own statement that "about 1780 or a little later" the French got bitten with Free Trade theories. I therefore do not think he has any ground for complaint against me for speaking of his de- scription of what occurred as relat- ing to "some years before the Rev- olution began." In any case, the matter does not seem important, though if we are to accept Colonel Simonds' second version of French pre-Revolution history instead of his own, it would seem that the move- ment rapidly indeed in those days. For some reason or other which I cannot understand, the Colonel will now have nothing to do with what hap- pened before 1787. He now tells us that in that year France first proposed Free Trade. Later in the same year England accepted it; and again later, but still in the same year, there were 4,000 manufacturers "begging in the streets of Rouen. One naturally wonders what in- credibly short space of time it took for the acute operation of Free Trade to produce these ghastly re- sults; but Colonel Simonds, perhaps out of consideration for my sensitive Free Trade feelings, refrains from giving us the details. Certainly these events moved very quickly. Our own Protectionists of to-day have a very pretty aptitude for calling blue-rin- ing and grey-washing the names of their privileges as threatened, and it would appear that the French Pro- tectionists of 1787 were no less alert. Having regard to the chronology of Col. Simonds' latest letter, he will hardly quarrel with me for describing France's pre-Revolution experience of Free Trade as a "mere tentative experiment." I know little about the trade agree- ment between Germany and Russia in the early years of the present century, to which Colonel Simonds devoted a lengthy passage in his letter. Seeing, however, that those two countries were highly Protection- ist, both before and after the agreement, I do not see how the dis- asters which followed from the policy can be laid at the door of Free Trade. Indeed, perhaps it will not be out of place for me to sug- gest to the Colonel that if he should find anything in this letter calling for further observations on his part, he might endeavor to establish a connection, in the Dominion of Canada in the year 1922-23. That would be far better than inviting our imaginations to wander over to Eng- land and France, to Germany and Russia, to the United States and the Straits Settlements, and perhaps Mesopotamia and Timbuctoo, and digging up stray records from the forgotten fiscal archives of those more or less delectable lands. A hundred and forty years ago, according to the theory which Col. Simonds has so industriously spinning, Free Trade was Great Britain meant ruin, and that right rapidly. Well, Sir, as one who re- gards the Mother Country with the strongest feelings of loyalty and af- fection, I do not think so badly of her as that. Evidently, however, she

authority, or in whose behalf, they supported a resolution taking away the responsibility of parents to pro- vide the major expense of educat- ing the children, brought into this world. Neither have they enlighten- ed your many readers how the Pro- vincial Government is to obtain the needed revenue to carry on if the taxpayers are to be relieved of the cost of education, this principle so far as I know only obtains in Soviet Russia. If these delegates have any knowledge where the Province's Gov- ernment can run the affairs of this Province other than through taxation they should unfold it. It is said that in Germany they grind out immense quantities of paper money to carry on the affairs of the state, in Soviet Russia the government run their af- fairs at the point of the rifle, and no tax gatherer is in evidence, yet people don't seem to appreciate that kind of rule. Why should Reeves Watson and Lockley wish to pass the buck over to the Provincial Gov- ernment? Must we have paternal government in everything? For example: Victoria's cost of schools, 1921, \$545,470.55 Saanich's cost of schools, 1921, 126,897.83

Approximate expenditure Victoria and Saanich, less Government grants: Victoria, 1921, \$156,018.75 Saanich, 1921, 40,217.94 Total Government grant, \$146,236.69 Deduct \$146,236.69 Government grants from school expenditures and there remains to be assumed by the Government under the demands of the Kamloop's resolutions the large amount of \$536,131.79, in addition to the present grant, \$146,236.79. This, of course, does not take into consideration the thousands of other schools in the Province including Vancouver, Westminter, Nanaimo and other cities. Yet we find this representative municipal aggregation of Mayors and Reeves in a resolution passing this huge liability of school expenditures from the taxpayers, who share its benefits, to the shoulders of the Oliver Government without winking an eye. Who should pay a bill but those who incur it? Shifting school responsibilities from those immediately benefited without rhyme or reason does not get anywhere. What ward in Saanich authorized Reeve Watson to advocate

that demoralizing remedy? Or what parent-teachers' organization ad- vocated such a measure? This whole question deserves better solution than a jug-handled shoving of school responsibilities. A SAANICH RESIDENT, Ward Seven, Saanich, Oct. 28, 1922.

## STATES PROCEDURE FOR REGISTRATION

### Companies' Franchise Is Explained for Voter's Information

An incorporated company owning property in Victoria or paying a trade license may appoint a representative to cast a vote for the firm at the municipal elections. The representative's only qualifications necessary are that he be a resident of British Columbia and of the full age of twenty-one years.

The voting representative of a company is appointed by the signing of a declaration by the president or vice-president and the secretary. One form is used for a firm owning property, and another one for a concern voting on its trade license. This declaration is sent to the City Clerk's office, and the representative thus appointed continues to have his name placed on the voters' list beside the name of the company he is representing until such time as a further declaration making a new appointment is made.

In some cases the names of dead men appear on the voters' list as voting representatives of companies; no successors having been appointed after their demise.

By holding the voting power for a company and also having a vote for himself, an individual is enabled to mark two ballots on election day.

Voting on a trade license is only allowed in the case of an incorporated company, private individuals holding such a license having to own property or pay the two-dollar road tax before securing franchise privileges.

Registration will continue at the City Hall until October 31. Early registration is urged.

take valuations for the government, municipalities and private individuals and corporations. Mr. Patterson said that such an organization was operating successfully in connection with Realty Boards in all parts of Canada and the United States and

the services rendered were acceptable to the communities where they operated and evidence given by such boards was reliable. Fees for such work were kept at a reasonable rate.

Alfred Carmichael, in speaking of the Board's affiliation with the Northwest Realty Association, said that until such time as British Columbia formed a board, the fees for individual members should certainly be reduced from \$19 to \$5.

Beaumont Boggs speaks. Beaumont Boggs gave a very interesting talk on methods of valuing property. There were a great many factors connected with this work which influences prices. Business sections were always changing their locality, there was the question of deterioration of buildings, created and changes in architecture and various business facilities.

Mr. Boggs estimated that in a city with a population of 50,000 the highest price per front foot for best business property should be \$1,000. In residential valuations he did not think corner lots should be placed at more than twenty-five per cent higher than inside property.

"One of the great troubles of the city to-day is due to the vast amounts of money paid out for expropriated property valued by incompetent and inexperienced valuers," said Mr. Boggs, who also pointed out in emphatic terms that the assessments of property were absolutely false and could not be relied upon so far as a just and equitable valuation was concerned.

The Old Country based its valuation on the ability of property to produce income—which was not the way on this continent, where the fair valuation was considered to be the best price that a man could be made willing to pay, it was said.

Mr. Boggs went thoroughly into the details of valuation, and the board members were greatly pleased and enlightened by his address.

## COURT DISCHARGES BRIGDEN JURY IN MORNING SESSION

### Assize Court Trial Comes to Abrupt End; Defence Counsel Sustained in Objections

A dramatic turn to the trial of Charles Brigden on three counts charged with the theft of letters from the mails came in the Assize Court proceedings to-day when Mr. Justice Morrison discharged the jury.

Giving effect to objections raised by J. A. Aikman, counsel for the accused, who held that the alleged confession admitted in yesterday's proceedings was not admissible, as there was no proof of it being extracted voluntarily without fear of threat or favor of promise, the court discharged the petit jury and traversed the accused to the next assizes on bail.

Judge's Action. "I am not satisfied, I confess, with the way this trial has progressed," stated His Lordship. "If Mr. Aikman's submission is given effect to it would lead to my discharging the jury," continued the court. "This is a most important case, involving a high department of state. Gentlemen," continued His Lordship to the jury, "under the circumstances I will give effect to Mr. Aikman's objection and discharge the jury. The accused is traversed to the next assizes." Bail was then arranged, to continue as formerly, and the court adjourned sine die.

The discharging of the jury followed a brief argument by Mr. Aikman for the accused, in which he moved for dismissal of the second and third counts, regarding the Jackman and Aikman letters. These objections were overruled. Mr. Aikman then attacked the admission of the alleged confession.

Mr. Brandon submitted that the alleged admission had been proved to have been made voluntarily. The court expressed a doubt as to this point. The court remarked on the fact that material evidence given at the preliminary hearing had not been brought before him at the present sitting. Finally Mr. Justice Morrison took the case from the jury in the manner stated.

Mr. Aikman and E. B. Williams appeared for the accused. J. S. Brandon acted for the Crown. In the bill returned by the Grand Jury against Charles Brigden three specific counts were cited. Each dealt with the alleged theft of a letter from the mails, at the Victoria Post Office. The first count concerned a letter posted by Robert Gray, Nanaimo, to his wife in this city on November 7, 1920. A letter from "somewhere in the United States" to Samuel Jackman, Colquitz, on or about May 17, 1922, was the substance of the second count. The third concerned a letter from Mrs. Gardiner, of this city to Mr. Aikman, the defence counsel in person, which was mailed September 27, 1921. These three letters had contained sums ranging from \$10 to \$20 and had not been received, it was alleged, though fully prepaid and regularly entrusted to the mails.

Through his counsel, J. A. Aikman

and E. B. Williams, the accused pleaded not guilty to all counts.

In opening the case for the Crown, J. S. Brandon recited the circumstances under which evidence would be brought to prove the allegations advanced. He described the arrival, sorting and distribution of mails at the city post office, and detailed the part the accused had occupied in this act, while so employed.

Mr. Gardiner's Evidence. George Gardiner, assistant Postmaster of the Victoria office, took the stand. Witness recited how in response to many complaints as to the disappearance of mails he was set out to track down the culprit. In consequence of checks he kept on certain letters which he found in the racks of the accused, and which should not have been there, witness was led to believe that the accused had tampered with these communications. In particular he noted that bulky letters—fully prepaid—were sometimes found in the unpaid rack, the peculiar duty of the accused. Tracing several of these letters witness found they did not leave the post office for delivery within forty-eight hours of watching. As a result of his investigations witness had brought the accused before Post Office Inspector James E. Corley.

Witness alleged that leaving the office with the accused the latter had said to him, "I am glad it has come to this. I felt it had to burst on me some time and I am glad it is all over."

"Why didn't you stop it?" witness had replied, he stated. "Well Mr. Gardiner, I could not stop it," was the response, stated witness.

At this stage and frequently throughout the remainder of the trial Mr. Aikman objected to the admission of evidence which did not, he said, bear on the three specific counts in the indictment.

Question of Conversation. James Britton Corley, post office inspector at Victoria, was about to give his conversation with the accused at the time of the post-office investigation but was intercepted by an objection from Mr. Aikman. Witness admitted the conversation did not turn on the three letters in question.

Robert Gray, Cuddehul Road, Saanich, here testified that he had posted a letter to Mrs. Gray as stated in the first count; Mrs. Gray gave evidence to show that the \$10 in the letter, or the letter itself had not been received by her.

Confession Alleged. Stanley Arthur Deaville, post office clerk in the Victoria centre, stated he saw the accused sign a written statement in the office of James E. Corley, post office inspector. Witness identified the letter produced by the prosecution, to which witness had appended his signature at the time as witness.

Over the objection of Mr. Aikman the letter was read to the jury, purporting to have been written at the request of the inspector. It read in part, "I Charles Brigden, hereby admit that I have stolen letters from time to time since 1917." The statement was signed with the names of the accused, the post office inspector, Gardiner, and Deaville, the last three in witnessing the signature of the accused, it was stated.

Recalled, Mr. Corley identified the alleged confession, as his own signature on it in witnessing the document. Witness on cross-examination denied that he had held out any promises or hope of mercy to the accused prior to the making of the alleged confession. The accused had at first denied the general charges against him at the time of the investigation and when asked, he had been guilty. Later at the request of witness he had put this in writing and signed it in the presence of three witnesses.

Objection Overruled. Mr. Aikman again objected to the alleged confession being put to the jury, but was overruled. The "mischievous" comment of the court, and could not now be erased from the minds of the jury.

John Pitney, George Baker and A. P. Gaiger, employees of the Victoria Post Office were then called, testifying that after the investigation they had spoken to Brigden, and he had discussed the affair with them.

Samuel James Jackman, Colquitz, gave evidence of the non-receipt of a letter posted to him from the United States. Miss Gardiner told of posting a letter from her mother to the defence counsel in person, in September, 1919. This letter, stated witness, contained \$10 and had not been received by Mr. Aikman. Witness did not know this of her own knowledge, but had been told so.

Alexander Percy Gaiger, a post office employee, told of meeting the accused some time after the investigation. Witness had commenced to speak of the affair, when the accused replied, "Yes, I guess I have made a mess of things."

"Why didn't you quit?" witness had asked him. "Well, its like gambling, it gets a hold of you" was the answer alleged witness. "I've put enough away for the wife if I go over the road," he had concluded, stated witness. The Crown rested its case at this point, the court adjourning until this morning.

HAVING DOUBTS Colonel—"Have you seen anything suspicious, sentry?" Sentry—"Yes, sir, I've seen a dead horse carted into camp, and I'm wondering what sort of a point we'll have for dinner to-morrow!"

### GIRL SUFFERED FRACTURE OF ARM

Sidney-June McKillean, a little girl, while running on the sidewalk fell and broke one of her arms. Medical aid was brought and the bones were set.

The first military five hundred drive of the season was held in the new club hall, Deep Cove, at the week-end. The first prize, which had been given by Mrs. R. Jackson, was won by the table at which were Mrs. S. M. Jones and Messrs. Copithorne, Briston and Anderson. Two tables tied for the second prize, so the winning table was decided by cutting the cards, the result being that the table occupied by Messdames Copithorne and Patterson and Messrs. A. Downey and Patterson was the winning one.

The official opening of the new hall will take place on Friday at 8.30, when a dance will be held. The SS. Amur, of Vancouver, put in at the wharf on Tuesday morning for clearance papers for Ladysmith.

A public meeting will be held in the Metchosin Hall, under the auspices of the Metchosin Farmers' Institute, on Tuesday, Oct. 17, at 8.30 p.m. Hon. A. M. Manson, Attorney-General, will address the meeting, commencing his address at 8.45 promptly. His subject will be "Present Day Problems of Government in British Columbia." M. B. Jackson, M.P.P., will also address the meeting on matters connected with game and game law in British Columbia. All are cordially invited, and the meeting will be followed by an informal dance.

## COWICHAN DISTRICT FARMERS MET

Duncan.—At a meeting of the Cowichan District Association of the United Farmers of B. C., Mr. J. T. Copeman, who was in the chair, gave a report on what had been done since the last meeting in May, explaining that he had attended a meeting of the Fish and Game Conservation Board and had had an interview with Mr. Barrow, Minister of Agriculture, with regard to the creating of an accredited area for Vancouver Island.

The members of the association disagreed with the recommendations

## Beauty Hint for Women

When food is only imperfectly digested, it gives rise to fermentation, clogs the bowels, and renders the blood impure. This results in dull eyes, muddy skin, blotches, pimples and other disfiguring marks. Beecham's Pills act immediately on the stomach, liver and bowels; regulate them and keep them in a vigorous condition. They are mild, harmless and dependable. They are compounded of remedies of vegetable origin having great medicinal value.

## CATHOLIC WOMEN OFFICIALS WELCOMED AT RECEPTION

Members of the Catholic Women's League held a reception in the K. of C. Hall yesterday afternoon in honor of Miss Margaret Jones, secretary of the Dominion executive of the League. Miss Sara Tansey, her assistant, and Madame Roi, of Ottawa, who have been attending the recent Western convention. The occasion also served as a welcome home to Mrs. Elbbs-Canavan, who represented the local branch of the league at the convention.

After the serving of tea and the interchange of social amenities, Miss Jones gave an interesting address on the aims and objects of the league, which came into existence two years ago. Since its inception 229 branches have been formed in Canada, and among their many activities were progressive plans along educational lines and immigration. Miss Jones also reviewed the sessions at the International Union of Catholic Women which met in conference at Rome and which she personally attended. The work of the Winnipeg Sisters of St. Joseph, which organization has a feature of the education of children in isolated homes far from schools, was also described.

## MAYO CAMP IS FLOURISHING

Progress in Spite of Transportation Costs, Says Lady from the North

The high cost of transportation and the lack of communication with the outside world has served as a detriment to the development of the Mayo district of the Yukon from a mineral standpoint, according to Miss C. Baunton, of Mayo, who arrived at the Dominion Hotel yesterday and left this morning for Seattle. Miss Baunton has been at Mayo for the past twelve months and, while women are not numerous in that section, she finds life attractive and has not suffered from loneliness in the northern wilderness. She told The Times that the churches are developing their interests, and other philanthropic developments are in progress, but the camps are in need of motion picture houses, and of wireless or some other communication with the outside world. The nearest telegraph line is at Minton, on the Yukon. She said that private interests would be willing to put in a wireless for three years if the Government would undertake to take it over at the expiry of that time.

Thread Expensive The cost of supplies is high at that point owing to lack of transportation. A companion of Miss Baunton who was with her at the time of the interview mentioned that in the Keno Hill district a spool of thread cost \$1.50 this summer. In spite of the obstacles to transportation, the output of ore has doubled, and other mining developments are expected which will greatly add to the output in 1923. The Keno Hill property is shipping to the Selby smelter at San Francisco, the ore being high grade owing to it not being practicable to ship lower grade qualities. The Alaska Treadwell mines are also shipping extensively from that district. The ore is being transferred from the mines to the river boats by tractor trucks.

Young Prospectors Wanted One thing which has struck Miss Baunton particularly, apart from the considerable improvement in the housing of the inhabitants, frame structures having replaced log cabins with the advent of sawmills in that section, is the dearth of young prospectors. The prospectors working through the country are old-timers who have mined in the territory for twenty years or more, and apparently few of the younger men are tempted to try their hand in this respect.

More capital and better transportation is the crying need, she says, of the Mayo area.

## MARRIAGE UNITED TALENTED COUPLE

Major and Mrs. Todd R. Moss Are Honeymooning Here

Major and Mrs. Todd R. Moss, of Seattle, who are on their honeymoon at the Empress Hotel are both entitled to commendation for having won distinction in different fields of activity.

The wedding took place at Seattle on Monday morning, and the newly married couple came here by the next steamer. Mrs. Moss was Miss Julia Edmunds, daughter of Mr. and Mrs. W. J. Edmunds, of Seattle. She has won quite a reputation for herself as an amateur actress. She attended the University of Washington for two sessions, and appeared in the Wilkes Stock Company. Later she has gained fame for two years in a leading part in "The Wayfarer" pageant.

Major Moss, whose home city has hitherto been Los Angeles, is a graduate of Culver Military Academy and Kansas University. The Major has been in the Intelligence Bureau of Arizona and Southern California, and holds the Distinguished Service Cross. He also served with distinction in Cuba. For some time during the Great War he was a resident of Seattle. A son of Judge Charles E. Moss, of Topeka, Kansas, he has travelled widely, and written for a number of leading magazines in the United States, including the National Geographic.

Major and Mrs. Moss will make their honeymoon in Western Canada, and take up residence in Seattle about November 1.

The best revenge for a wrong is to forgive it.

## IF WINTER COMES INSTALMENT NUMBER 73

BY A. S. M. HUTCHINSON

Copyrighted—Published by arrangement with British & Colonial Press, Ltd.

The whole of these considerations were advanced again in a letter which Sabre received in July and which gave him great pleasure. Mabel had decided to get a paid companion—it was rather lonely in some ways—and she had arranged to have "that girl, Miss Bright." Sabre, reading, exclaimed aloud, "By Jove, that's good. I am glad." And he thought, "Jolly little Effie! That's splendid. He somehow liked immensely the idea of imagining Bright Effie about the house. He thought, "I wish she could have been in long ago, when I was there. It would have made a difference. Some one between Mabel and me. We used to work on one another's nerves. That was our trouble. Pretty little Effie! How jolly it would have been! Like a jolly little sister."

Early in December he wrote to Mabel: "A most extraordinary thing has happened. I'm coming home. I shall be with you almost on top of this. It's too astonishing. I've suddenly been told that I'm one of five men in the battalion who have been selected to go home to an Officer Cadet battalion for a commission. Don't jump to the conclusion that I'm the pride of the Regiment or anything like that. It's simply due to two things: one that this is not the kind of battalion with many men who would think of taking commissions; the other that both my platoon officer and the captain of my company happen to be Old Tiduburns and, as I've told you, have often been rather decent to me. So when this chance came along the rest was easy. I know you'll be glad. You've never liked the idea of my being in the ranks. But it's rather wonderful, isn't it? I hope to be home on the third and I go to the Cadet battalion, at Cambridge, on the fifth."

Two days later he started, very high of spirit, for England. As he was leaving the village where the battalion was resting—his immediate programme the adventure of "lorry-jumping" to the railroad—the mail came in and brought him a letter from Mabel. It had crossed his own and a paragraph in it somehow dampened the tide of his spirits. "It was very much annoyed with Miss Bright yesterday. I had been kept rather late at our Red Cross Supply Depot owing to an urgent call for accessories and when I came home I found that Miss Bright had actually taken what I consider the great liberty of ordering up tea without waiting for me. I considered it great presumption on her part and told her so. I find her taking liberties in many ways. It's always the way with that class—once you treat them kindly they turn on you. However, I have, I think, made it quite clear to her that she is not here for the purpose of giving her own orders and being a princess."

### RAILWAYS TAPPING OLYMPIC TIMBER

While the probable exploitation of the Olympic peninsula's vast timber resources across the Straits from Victoria is obscured in a maze of indefinite announcements by representatives of the Hill Scribner-Lyon interests, which bought the United States Government's \$10,000,000 railroad, big timber men of the Grays Harbor country are steadily extending private railroads into the territory and buying little.

As a result of the activities of the M. R. Smith Logging Company, the Polson Logging Company and others, the completion of a circuit of lines connecting Port Angeles and the Government's wartime project with Hoquiam is predicted by many railroad men.

Twenty years ago the Northern Pacific extended a survey for a railroad from Mclellis to Port Angeles, following a line calculated to tap the best timber of the district. Two months ago, following sales of Government timber to the M. R. Smith Logging Company and others, the original survey plans of the Northern Pacific were relinquished to M. R. Smith. Immediately Mr. Smith started operations. He hired over 100 track builders. An old-time railroad man,

having constructed many miles of common carrier track in Arkansas, he said little. And now he has almost two miles of track laid, has a regulation engine on the grounds, has effected arrangements with the Northern Pacific for cars and will soon be bringing logs to the mills at Hoquiam, Mclellis and other points.

### ADMIRAL TELLS OF BRITISH SEA POWER

"The Empire and Sea Power" was the subject of an address by Admiral Sir Edmund Peary before the Victoria Branch of the Royal Society of St. George last night.

The Society last night passed a resolution of sympathy to the widow of the late Rev. J. J. Batty, one of the chaplains of the Society.

The musical programme of the meeting included a solo by Mr. Moss and a duet by Mrs. de Gruchy and Miss Connie Moore.

The next meeting of the Society will be held October 24, and will be in the form of a social gathering. C. T. Cross presided at the meeting.

## H.C. WELLS' FAMOUS OUTLINE OF HISTORY

The Romance of Mother Earth

TO-DAY'S INSTALMENT—27

### The Shepherds and the Stars

Out of such ideas and a jumble of kindred ones grew the first quasi-religious elements in human life. With every development of speech it became possible to intensify and develop the tradition of tabus and restraints and ceremonies. There is not a savage or barbaric race to-day that is not held in a net of such tradition.

And with the coming of the primitive herdsman there would be a considerable broadening out of this sort of practice. Things hitherto unheeded would be found of importance in human affairs. Neolithic man was nomadic in a different spirit from the mere daylight drift after food of the primordial hunter. He was a herdsman upon whose mind a sense of direction and the lie of the land had been forced. He watched his flock by night as well as by day.

The sun by day and presently the stars by night helped to guide his migrations; he began to find after many ages that the stars are steadier guides than the sun. He would begin to note particular stars and star groups, and to distinguish any individual thing was for primitive man to believe it individual—and personal.

**Friendly Guides.**  
 He would begin to think of the chief stars as persons, very shining and dignified and trustworthy persons looking at him like bright eyes in the night. His primitive tillage strengthened his sense of the seasons. Particular stars guided his heavens when seedtime was due. Up to a certain point, a mountain peak or what not, a bright star moved, night after night. It stopped there, and then night after night receded. Surely this was a sign, a silent, marvelous warning to the wise.

The beginnings of agriculture, we must remember, were in the subtropical zone, or even nearer the equator, where stars of the first magnitude shine with a splendor unknown in more temperate latitudes. And Neolithic man was counting, and falling under the spell of numbers. There are savage languages that have no word for any number above five. Some peoples cannot go above two. But Neolithic man in the lands of his origin—in Asia and Africa, even more than in Europe—was already counting his accumulating possessions.

**The Hoodoo of Thirteen.**  
 He was beginning to use tallies, and wondering at the triangularity of three and the squareness of four, and why some quantities like twelve were easy to divide in all sorts of ways, and others, like thirteen, impossible. Twelve became a magic, generous and familiar number to him, and thirteen rather an outcast and disreputable one.

Probably man began reckoning time by the clock of the full and new moons.

Moonlight is an important thing to herdsman who no longer merely hunt their herds, but watch and guard them. Moonlight, too, was, perhaps, his time for lovemaking, as indeed it may have been for primordial man and the ground ape ancestor before him. But from the phases of the moon, as his tillage increased, man's attitude would go on to the greater cycle of the seasons.

Primordial man probably only drifted before the Winter as the days grew cold. Neolithic man knew

surely that the Winter would come, and stored his fodder and presently his grain. He had to fix a seed-time, a propitious seedtime, or his sowing was a failure. The earliest recorded reckoning is by moons and by generations of men. The former seems to be the case in the Book of Genesis, where, if one reads the great ages of the patriarchs who lived before the flood as lunar months instead of years, Methuselah and the others are reduced to a credible length of life. But with agriculture began the difficult task of squaring the lunar month with the solar year.

A CARVED STATUE ("MENHIR") OF THE NEOLITHIC PERIOD—A CONTRAST TO THE FREEDOM AND VIGOR OF PALEOLITHIC ART

A task which has left its scars on our calendar to-day. Easter shifts uneasily from year to year, to the great discomfort of holiday-makers; it is now inconveniently early and now late in the season because of this ancient reference of time to the moon.

And when men began to move with set intention from place to place with their animals and other possessions, then they would begin to develop the idea of other places in which they were not, and to think of what might be in those other places. And in any valley where they lingered for a time, they would remember how they got there, ask, "How did this or that other thing get here?" They would begin to wonder what was beyond the mountains, and where the sun went when it set, and what was above the clouds.

The capacity for telling things increased with their vocabulary. The simple individual fancies, the unsystematic fetish tricks and furdas began to be handed on and made into a more consistent system. Men began to tell stories about themselves, about the tribes about which they had to be about the world and why they had to be about the world and the why for the world.

**The Coming of Tradition.**  
 A tribal mind came into existence, a tradition. Palaeolithic man was certainly more of a free individualist, more of an artist, as well as more of a savage than Neolithic man. Neolithic man was coming under prescription; he could be trained from his youth and told to do things and not to do things; he was not so free to form independent ideas of his own about things. He had thoughts given to him, he was under a new power of suggestion. And to have more words and to attend more to words is not simply to increase mental powers, words themselves are powerful things—and dangerous things. Palaeolithic man's words perhaps, were chiefly just names. He used them for what they were. But Neolithic man was thinking about these words, he was thinking about a number of things with a great deal of verbal confusion, and getting to some odd conclusions. In speech he had woven a net to bind his race together, but also it was a net about his feet. Man was binding himself into new and deeper and more efficient combinations, indeed, but at a price.

One of the most notable things about the Neolithic Age is the total absence of the direct artistic impulse which was the supreme quality of later Palaeolithic man. We find much industry, much skill, polished implements, pottery with conventional designs, co-operation upon all sorts of things, but no evidence of personal creativeness. Self-expression is beginning for man. Man entered upon the long and tortuous and difficult path toward a life for the common good, with all its

sacrifice of personal impulse, which he is still treading to-day. Certain things appear in the mythology of mankind again and again. Neolithic man was enormously impressed by serpents—and he no longer took the sun for granted. Nearly everywhere that Neolithic culture went, there went a disposition to associate the sun and the serpent in decoration and worship. This primitive serpent worship spread ultimately far beyond the regions where the snake is of serious practical importance in human life.

#### Marriage of Miss Lucy Bullen and Mr. C. W. Graham

A pretty wedding, the first to take place in Cassidy, was solemnized recently in the community church, Cassidy, by the Rev. H. W. Bolton, of St. Phillip's Church, Cedar, when Emily, only daughter of Mr. and Mrs. Thos. Bullen, was given in marriage by her father to Cecil Walter Graham, fourth son of Mr. and Mrs. W. Graham, 3333 Tennyson Ave., Victoria, B. C.

The church was beautifully decorated with chrysanthemums and Autumn foliage.

The bride looked charming in a wedding gown of white Canton crepe, with side panels of radium lace, and regulation veil with wreath of orange blossoms, previously worn by the bride's aunt, Mrs. A. P. Willison, of Los Angeles, Cal. She carried a bouquet of Ophelia roses and fern, and her only ornament was a necklace of pearls, with platinum and diamond clasp, the gift of the groom.

The bride was attended by Miss Alice Graham, sister of the groom. She wore a frock of old rose sinon, with picture buttons, slippers to match, and carried a bouquet of roses. The groom was supported by his brother, Mr. George Graham.

They would begin to wonder what was beyond the mountains, and where the sun went when it set, and what was above the clouds.

The capacity for telling things increased with their vocabulary. The simple individual fancies, the unsystematic fetish tricks and furdas began to be handed on and made into a more consistent system. Men began to tell stories about themselves, about the tribes about which they had to be about the world and why they had to be about the world and the why for the world.

The happy couple left to spend their honeymoon in the Sound. The bride's going away dress was of henna tricotine with which she wore a taupe velour coat, with duvetyne hat to match.

Mr. and Mrs. Graham will make their future home in Victoria.

Among the many guests were: Mrs. W. Graham, the Misses D. and A. Graham, Mr. G. Graham, Mr. and Mrs. J. Woodcock, Mr. and Mrs. H. Heller, all of Victoria; Miss Lucy Allan and Miss Jackson, of Nanaimo; Miss A. Allan, of Lantzville; Mr. and Mrs. C. W. Graham, of Cassidy; Mrs. Max McLeod, Mr. and Mrs. Wm. Grundy, Mrs. and Miss K. McLaughlin and Mrs. D. Stafford, all of Granby.

**VICTORIA ODD FELLOWS VISIT NANAIMO**  
 Nanaimo, Oct. 11.—One of the most interesting meetings in the history of Oddfellowship in this city was held on Saturday night when Victoria Lodge No. 1, the oldest lodge in the Province, paid a fraternal visit to the local lodge. There was a large attendance in addition to over 30 from Victoria, as many were present from Ladysmith, also representatives from Cumberland, Vancouver and Fernie.

At the social meeting held afterwards the banquet hall was packed with the Victoria visitors proving that besides being able to put on good degree work, they were also very capable entertainers, the Dobbie Trio being a host in themselves. Bro. Charles Wilson and A. E. Bradshaw also contributed, the meeting being presided over by Bro. G. E. Jardine, Noble Grand of Black Diamond Lodge, assisted by Grand Warden Walkem of Ladysmith and Grand Marshal Livingstone of Victoria.

The gathering concluded by the singing of "Auld Lang Syne" and a remarkable ovation given by the visitors to the committee of Rebekahs, who had so ably helped to make it a success.

### WINTER SCHEDULE ON INTERURBAN

Announcement was made to-day by B. C. E. R. officials that a winter schedule of train times will become effective on and after October 15. This rearrangement is necessary on account of the reduced volume of travel during the winter months.

Among the contemplated changes is a less frequent service on week days to Deep Bay, but there will be no reduction in the number of trains on Sundays.

The company also announces that after the 15 freight will be accepted in car load lots only.

New timetables are now being printed and will be ready for distribution within a day or so.

The name is in itself a safeguard and guarantee of quality, style and comfort. There are two models and we instance them here.

One model is truly a remarkable corset for the average to stout figures. The comfortable top graduates to a slightly higher back to take care of the excess flesh at the shoulder blades. The medium length skirt has ample fullness to ensure comfort through hips and thighs. This model is available in pink or white coutil; \$2.50.

The other model is a very modern corset fashioned for the slight to medium figures. The low top curves under the bust to a slightly higher support at the back. The skirt slopes to medium length over hips and thighs to give long graceful lines, and graduates to medium length, unusually flat back; is made of dainty pink, fancy batiste; \$2.50.

### The Newest Innovations in Black Hats

Characteristic of the new conceits is the glimmer of metal—the sheen of velvet. Each model truly expresses individuality. Designers have accomplished fascinating results. All the wonderful attractiveness of the East translated to become the needs of the West.

Here are models that will charm the eye of the woman who seeks for—The Black Hat. They will appeal to the taste of the most discriminating; the trimmings of silver make them unusually distinctive. The prices are modest, considering.

PASSAGE DENIED JOHN BARLEYCORN BY U.S. SHIPS CALLING HERE

Admiral Liners Will Not Be Permitted to Load and Discharge Liquor Here

Seattle, Oct. 11.—Officials of the United States Shipping Board in Seattle expect to receive an official order from Washington, D. C., banning John Barleycorn, well-known overseas traveler, from Government-owned passenger liners plying between Seattle and Japan, China and the Philippines.

The Shipping Board liners, which are discharging their supplies of liquors in Victoria, B. C., homeward bound and picking them up again in Victoria on the way to sea. The bars aboard the liners have never been open in American waters. Shipping Board officials are expecting to receive an order from Washington to load the surplus Government-owned liquors at Victoria, B. C., and sell them in the Orient. Arrangements will soon be made to convert the bars aboard the liners into soft drink marts.

Passage will be denied to Mr. Barleycorn at Victoria, B. C., by the next Shipping Board-carrier calling in the port.

AMERICA-CHINA LINE CEASES OPERATIONS

Depression in Orient Caused New Company to Sell Its Only Ship

Official of the Line Passed Through Here on Empress of Canada

Owing to the depressed condition of Oriental shipping the America-China Steamship Company, of New York, has temporarily ceased operations, and recently sold at Kobe the S.S. Monmouth, the only vessel in the service, to the Kishimoto Steamship Company at a figure said to be \$62,500.

The action of the America-China Steamship Company became known as the result of the recent visit to Japan of C. D. Harryman, vice-president of the company. Mr. Harryman was a passenger arriving here on Monday by the liner Empress of Canada on his way from Yokohama to New York.

The America-China Steamship Company was organized several months ago for the purpose of expanding the trade between the United States and the Far East. The stockholders are principally American and Chinese business men.

After a thorough investigation of the immediate prospects for Oriental shipping, Mr. Harryman recommended to his company that the steamer Monmouth be sold in the Far East, and that operations be stopped for the time being.

As to the plans for the future of the America-China Company, nothing definite is known. The Chinese members of the company at the Monmouth have been sent back to China and the captain and several other officers of the boat were on the Empress of Canada with Mr. Harryman.

SALVOR PICKS UP M'KINLEY'S ANCHOR. The steamer Salvor, of the Pacific Salvage Company, was sent out this morning to locate and recover the anchor lost by the Admiral liner President McKinley on Monday in the bay at William Head.

AUSTRALIA FOR BREMERTON DOCK

Disabled C.P.S.S. Steamship at Puget Sound Navy Yard To-day

Seattle, Oct. 11.—The Canadian Pacific steamship Empress of Australia, formerly the German liner Tirpitz, is due to go into the Puget Sound Navy Yard graving dock to-day.

It is expected that repairs to the vessel's turbines will take eight or nine weeks. The largeness of the vessel leads to arrangements with the United States navy for the work to be done at Bremerton.

The Admiral Line steamship Spokane, which arrived from South-eastern Alaska last night, will be dry-docked to-day for cleaning and painting.

Repairs to the steamship Nika, which tore her wooden hull when grounded on Vancouver Island in August, will be begun to-day.

Rumors that the Pacific Steamship Company was to become Pacific Coast agent for an intercoastal service proposed by the Munson Line are denied by H. F. Alexander, president of the company, and R. Stanley Dollar, vice-president. The rumors were said to have originated in San Francisco.

The Admiral Line is still the agent for the Nawaco Line on this coast, and so far as I know will continue this agency," said Mr. Alexander.

Flying the flag of the republic of Panama, the steamship Pequot, former German carrier, recently purchased from the U. S. Shipping Board by W. L. Comyn and associates of San Francisco for the Pacific Freighters Company, is due on Puget Sound this or next month to load lumber. This company is to have two motorships, the Challemba and the Colcha on berth here in a few days.

The steamship Commercial Pathfinder, first of the Moore & McCormick Line to come to this port, is due about November 20, and will load for Cuba, the Walker-Ross Company, Inc. agent for the line, announces.

TWO FREIGHTERS DUE FOR LUMBER

Indian City and Camilla Gilbert Coming This Month For Cargoes

Two freighters are shortly due in port to load lumber for offshore ports. The Indian City is due at the Canadian Puget Sound Mills in the Upper Harbor late this month to load for the Atlantic coast range.

The Norwegian steamer Camilla Gilbert is expected about October 23 from Kobe to load lumber here and at Nanosue. It is expected that she will take on her local cargo from several of the Outer Docks.

The Italian freighter Brenta is loading lumber at the Canadian Puget Sound Mills for New York is due to get away from the harbor here Friday night for Vancouver. She will complete her cargo at Genoa Bay. The Italian ship is taking on about 2,900,000 feet of lumber here.

During the past quarter the shipyards of all countries combined started on new work aggregating only 137,527 gross tons, while in the same period last year the shipyards were launched, the launchings being more than two and one-half times the volume of new work.

In the United States it is shown that there have been virtually no new launchings in the three months and no new orders. Great Britain's launchings have been nearly four times her new contracts.

MAKURA IS DUE EARLY SATURDAY. A wireless from the Canadian-Australasian liner Makura reports that the vessel will make port from Sydney via Auckland and Honolulu early on Saturday morning.

WORLD SLUMP IN SHIPBUILDING

Greatest Decline in United States, Lloyd's Register Shows. Britain Building Sixty Per Cent of World's Tonnage.

New York, Oct. 11.—A world-wide slump in shipbuilding, with the United States showing by far the greatest loss, is disclosed in figures compiled by Lloyd's Register. With reference to the United States, the Register shows that:

1. Counting only ships on which work actually is in progress, the United States is led by Great Britain, France and Holland. Japan and British Dominions are on the heels of the United States.

2. The United States is building only six per cent of the world's tonnage. Britain is building sixty per cent, and the other maritime nations 34 per cent combined.

3. The United States has only 150 tons of ships in the yards; has not contracted for any new ones since last July 1, and has largely suspended work on these already on the ways.

4. The decline of the United States since the post-armistice peak of vessel construction has been 4,035,000 tons.

5. The shipyards of the United States are building only one-third as much tonnage as they were a year ago; Great Britain's are building one-half.

6. The United States is building to-day only 2,000 tons more of freight bottoms than she was at the outbreak of the world war in July 1914; all other nations, taking into account the wholesale suspension of building during the last three months, aggregate 219,000 tons above the pre-war construction totals.

Great Britain is building 1,200,000 tons compared with 1,750,000 she had under way in July, 1914.

Lloyd's Register points to these figures as a "striking indication of how the volume of shipbuilding is falling off through the scarcity of new orders to replace work to be completed."

During the past quarter the shipyards of all countries combined started on new work aggregating only 137,527 gross tons, while in the same period last year the shipyards were launched, the launchings being more than two and one-half times the volume of new work.

In the United States it is shown that there have been virtually no new launchings in the three months and no new orders. Great Britain's launchings have been nearly four times her new contracts.

GRAIN EXPORTS AT GOLDEN GATE

September Ranks as High Month for San Francisco

San Francisco, Oct. 11.—September will rank as the high month of the year in the exportation of grain from this port, according to compilations of the marine department of the Chamber of Commerce. The shipments showed 35,261 barrels of flour, 11,080 casks of corn, 155,794 casks of wheat, and 1,310,325 casks of barley. French and British steamers carried most of the freight. During the same period 400,000 cases of canned fruits were shipped to the Atlantic coast via the intercoastal fleet.

One of the largest consignments of Makura silk to be auctioned on the Pacific Coast arrived here yesterday on the S.S. President Cleveland. The shipment consists of 4,016 bales and is valued at more than \$4,000,000.

The steamer Maul with 151 passengers and a heavy cargo of island products arrived yesterday after a rough trip from Honolulu. Heavy seas were encountered during four of the six-day voyage, but due to heavy cargo in the holds the rolling of the vessel was reduced to a minimum.

The vessel's bottom was reported badly damaged.

BRITISH LINERS SAILING FOR U. S. CARRY LIQUOR

Liverpool, Oct. 11.—The North Atlantic Shipping Conference took no action yesterday on United States Attorney-General Daugherty's liquor ruling, which did not even appear on the agenda, and any discussion of it after the meeting was entirely informal. It was stated, however, that all the liners scheduled to sail from Liverpool this week would carry their usual supplies of liquor.

## Arena Opening Up For Season Oct. 31

Lester Patrick Announces Date For Opening of Skating Season; Earliest Opening In History, Which Assures Skaters of Longest Season They Have Yet Enjoyed; Workmen Getting Arena In Shape; Get Your Skates Sharpened

Skaters, attention!  
 The Arena will fling wide its doors on the evening of Tuesday, October 31, at 8.15 o'clock.  
 This is the earliest date in the history of the institution on which the skating season has opened.  
 Lester Patrick, manager of the Arena, announced this morning that he had definitely decided to usher in the season on the last day of the month and yesterday he turned loose a gang of workmen with orders to get the Arena in shape for the biggest season in the annals of the skating game in Victoria. The machinery is being overhauled, the huge building cleaned inside and the mixture prepared for turning into the pipes for the making of the artificial ice.

### FRISCO EXPECTS TO WIN BALL PENNANT

San Francisco, Oct. 11.—Baseball fans of San Francisco are preparing to celebrate the winning of the first Pacific Coast League pennant brought to San Francisco since 1917. Yesterday's defeat of Vernon by Los Angeles put the San Francisco two and one-half games ahead of the second place Tigers and local enthusiasts are certain that the Seals can not be overtaken. San Francisco and Oakland open the last week of the season here to-day, rain having delayed yesterday's start. They have seven games to play, while Vernon has six more clashes against Los Angeles.

### GRANTIES, ALLAN CUP HOLDERS, INTACT FOR THE COMING SEASON

Toronto, Oct. 11.—Toronto Granties, senior O.H.A. champions, Allan Cup holders and amateur hockey champions of Canada, organized for the coming season last night. The champions are intact for the season, and in addition they expect to secure Murray Rutherford and Stew Hogarth of Aura Lee.

### HUNNINGS A WINNER

H. E. Hunnings won the men's monthly competition at the Uplands Golf Club on Sunday. The match was played over 15 holes. Hunnings gross score was 75, which with his handicap of 20 gave him a net score of 55. R. L. Challoner was second with a gross score of 69 and a net score of 56 1/2.

### Baseball

Pacific Coast League.  
 Los Angeles, Oct. 11.—Vernon dropped a 14-inning game to Los Angeles yesterday 3 to 2 and slipped back half a game in the Coast League pennant race. Twombly's fifth hit of the day, a single, brought in McCauley with the winning run in the 14th inning. The Angels took a two run lead in the first inning when "Bill" James, Vernon pitcher, was touched for three hits, gave a base on balls and hit a batsman before he was replaced by Gilder. The Tigers tied the score in the 8th on three hits, Spencer's remarkable catch, Boer's hit to deep center in the 14th cut short the last Vernon rally.

Portland, Ore., Oct. 11.—The Beavers made themselves mathematically certain of seventh place by beating Sacramento yesterday, 6 to 1. Yarrison outpitched Prough, by a wide margin and the game was the shortest of the season here, taking only one hour and fifteen minutes. The Beavers now have a margin of 7 1/2 games over Sacramento and could lose all their remaining games and still be out of the cellar.

Seattle, Oct. 11.—Seattle and Salt Lake yesterday played a tie game, five runs each, that went to eleven innings and was called on account of darkness. Gregg, on the mound for the Indians, got a lead of three in the first two innings, but a group of infield errors in the sixth permitted the Bees to tie the score, and neither team made a run after that. After the first two innings Gould settled down and pitched good ball for the Bees.

## Calling Bambino a Bust

BABE RUTH.

The former home run king has been buried by the Cincinnati boys and they have done more to ruin his reputation as a ball player than anything else. The Giants' pitchers have made him look like a weakling and the fans are beginning to ask whether or not National League pitching is not better than that dished up in the American League. Rogers Hornsby hit forty-two home runs last season against National League pitching, while Babe Ruth compiled thirty-six in the American League in a curtailed season. How many would Hornsby have hit in the American League, is a question that affords some discussion.  
 Ruth's failure has brought forth all kinds of reports as to what is in store for him next year. He will be made to get and keep in condition and his flare-ups will not be tolerated again. His run-ins with the umpires this season have brought down the wrath of the fans and sports writers upon his head.  
 One sport writer commenting on Ruth's failure in the last series has said to be the most powerful athlete in the country. According to accounts, he could lift 1,250 pounds.

### STRONG MAN AND FIRST BOXING CHAMPION DIES

New York, Oct. 11.—Henry E. Ruermeier, 84, the first amateur heavyweight boxing champion of the United States, died in Brooklyn last night. He became amateur heavyweight champion in 1878 by scoring the first knock-out ever recorded in Madison Square Garden. At one time he was said to be the most powerful athlete in the country. According to accounts, he could lift 1,250 pounds.

## Ladysmith To Play Victoria All-Stars

Crack Up-Island Soccer Team Will Be Here For Exhibition Game On Thanksgiving Day With the Pick of Local Players; Proceeds For "Muir Fund"; First Division Games Arranged For Saturday; G. Allen In Hot Water

Ladysmith's crack soccer eleven which has been well strengthened during the past month and is rated as one of the fleetest and most brilliant teams on the Island, will visit Victoria on Thanksgiving Day, November 6, to play an exhibition football game against a picked local eleven in aid of the "Billy Muir Fund."  
 At the regular weekly meeting of the board of the Victoria and District Football Association held last evening a communication was received from the Ladysmith club stating that arrangements had been made for the trip to Victoria and the board at once went ahead completing details for the game.

### Speaking 'Bout Faithful Husbands

It appears that Allan signed a registration form with Victoria West, the club with which he played last year. Allan then turned around and signed with the Hudson's Bay in the Wednesday Football League and played with that team against the Garrison last Wednesday afternoon. If the board should find that Allan has done something wrong he may not only incur censure upon himself but the Hudson's Bay may even lose the points which he secured as a result of their win over the Garrison.

### HERE'S WALLY SCHANG

Wally Schang, the demon backstop of the New York Yankees, is one of those rare things in "faithful husbands."  
 He can write a letter and what's more he can skillfully mail it. His hobby, if one might call it that, by preference or by feminine draft, he doesn't say, is to write lengthy letters to Mrs. Wally, in Philadelphia, immediately after each and every game. He tells her of the various things that have happened throughout the day from the oatmeal down to "good night, Shawkey."  
 And these letters are not mere notes, they are those big, fat, bulgy kind that will take the wife rocking clear across the room before she has reached the "affectionately yours" part.  
 But that's not the half of it. Not only does Schang write dutifully and long but he gets the drop on the rest of us by two weeks when he actually drops one into the mailbox.  
 His secret is this:  
 "A fellow soon learns to mail a letter when he has to mail it TO his wife and not FOR her," says Schang.  
 "There is just one way to mail a letter and that is to carry it in your hand until it becomes a nuisance and then you'll drop it in the box."

### WESTERN COLLEGE RECORDS BROKEN

Saskatoon, Sask., Oct. 11.—As the result of the breaking of one western intercollegiate record and seven other inter-faculty marks at the varsity field day here yesterday, athletic officials at the University of Saskatchewan expect to place a strong track and field team in the field at the western intercollegiate athletic meet at Winnipeg Saturday.  
 Many newcomers to the university have added great strength to the team which is rated at least 50 per cent stronger than last year.  
 The team will leave here Thursday night.

### GOLDEN GATE RECORD HOLDER PASSES AWAY

San Francisco, Oct. 11.—Walter Pomeroy, noted San Francisco swimmer, whose record for swimming the Golden Gate has never been beaten, died suddenly here last night, aged 24. Pomeroy was one of two athletes who were voted life memberships in the San Francisco Olympic Club.  
 CAIRNS STEEPLECHASE.  
 Saskatoon, Oct. 11.—Over 300 runners will face the starter in the eighth annual Cairns Steeplechase over a course of three miles here Friday afternoon.

### U. S. ATHLETES MAY PERFORM IN SWEDEN

New York, Oct. 11.—United States track and field athletes will have an opportunity to compete in Sweden next summer if the invitation received by the Amateur Athletic Union yesterday is accepted.  
 The Swedish Athletic Association notified A. A. U. officials that a set of international games would be held at Gothenburg, July 1 to 15, to commemorate the 200th anniversary of the establishment of that city.

### ENGLISH SWIMMER SHATTERS WORLD'S RECORD SET BY ROSS

Middlesborough, Eng., Oct. 11.—Jack Hatfield, an English swimmer yesterday swam 500 metres in 6 minutes, 11.5 seconds, breaking the world's record of Norman Ross, the United States swimmer, of 6 minutes, 51.3 seconds, made in Chicago in 1921.

### JOHNNY DUNDEE IS HURT IN SMASH-UP

West Orange, N. J., Oct. 11.—Johnny Dundee, junior light-weight boxing champion, was painfully bruised last night when he was thrown from his automobile as it struck the edge of a forty-foot gully. Dundee, who was driving to his mountain home, became confused by a heavy fog. He fell on rocks several feet below after his car struck the ledge at the top of the gully.

### CUBS-SOX SERIES IS HALTED BY RAIN

Chicago, Oct. 11.—Rain yesterday caused the fourth postponement of the city series between the Cubs and the White Sox for the championship of Chicago. Weather conditions permitting, the game will be played to-day.

### ARGENTINE POLOISTS TAKE HOME TWO CUPS

New York, Oct. 11.—The Argentine Federation polo team will sail back to South America the latter part of this month with the British and United States open championship trophies in its possession, but without the ponies ridden to these brilliant triumphs. Twenty of the Argentine mounts will be sold at auction to-day. Heavy expense of shipping the animals back to Argentina compelled the sale.

### ELKS DANCE WILL BE STAGED THIS EVENING

The first of a series of dances to be held this season by the Elks Swimming Club will be staged this evening at the Elks' Hall. Dancing will commence at 9 o'clock, and continue until 1 a. m. Ozzard's orchestra will provide the music. A big attendance is looked for.

### BLUENOSE LEAVES FOR GLOUCESTER

Halifax, Oct. 11.—The Lunenburg schooner, Bluenose, Captain Angus Walters, chairman of the Nova Scotia fleet, left port this morning in tow of the Canadian destroyer Patriot bound for Gloucester, where she will defend the international schooner race trophy against the challenger to be chosen in the elimination races to be held off that port to-morrow and Friday.

### BOY CHESS WONDER LOSES HIS MATCH

New York, Oct. 11.—Samuel Rzechowski, the nine-year-old Polish chess player, lost his first game last night in the Ninth American chess congress.  
 Playing in the fourth round against Bernstein, New York State champion, he was forced to resign after forty-one moves.  
 In other matches played in the fourth round, Edward Lasker, Chicago, was defeated by David Janowski, champion of France, and Charles Jaffe, former New York State champion, defeated H. R. Bigelow, former Oxford University player.

# at the Theatre

DOMINION

Jack Mower "did" for the first time in nine years of screen work during the filming of Cecil B. De Mille's production of "Manslaughter," which is on view at the Dominion Theatre.

Mr. Mower's screen career has included all types of characterizations, except the depiction of death. It remained for him to be the victim of a speed maniac's escapade in Cecil B. De Mille's Paramount picture, that is to say, for the purpose of this little story only.

Leatrice Joy and Mr. Mower spent an exciting day on location filming the scenes of the automobile accident in which the character played by the latter meets his death. Mr. De Mille refused to permit the use

### AMUSEMENTS TO-DAY

Dominion—"Manslaughter,"  
 Columbia—"Men of Zanzibar,"  
 Capitol—"Pink Gods,"  
 Playhouse—"The Bing Boys,"  
 Royal—"Kindred of the Dust."

of a dummy in these vital scenes with painful though not serious results, to the victim. However, he was badly shaken up.

A notable cast is seen in this picture of Alice Duer Miller's story. Thomas Meighan, Leatrice Joy, Lois Wilson, John Milner, Jack Mower, Dorothy Cumming, Julia Faye, Edythe Chapman, Casson Ferguson, George Fawcett, Mickey Moore, James Neill and Sylvia Ashton are in the cast.

### COLUMBIA

Richard Harding Davis, soldier, war correspondent and author, possessed a vivid imagination and a swift-flowing pen. He drew characters from life, and described them in words that pulsed with varying human emotions. His was a sure knowledge of people on every level—the deft touch of an artist who knew mankind from contact. And from his creative vision came "The Men of Zanzibar," on which remarkable story is based the Fox photoplay of that name.

The action of the picture runs strongly, masterfully, to a climax of tremendous power. The situations are well handled by the director, Rowland V. Lee. The cast, headed by William Russell as the star, portraying their parts with fine artistry. Nothing has been left undone to make the Fox production worthy of the author who wrote the story.

"The Men of Zanzibar" is the feature attraction at the Columbia Theatre to-day.

### CAPITOL

Ever try a diet of "Pink Gods"? Sounds like the name of a new fluffy-ruffles dessert, but it isn't. "Pink Gods" in the Paramount production of that name, are really diamonds, the faultless, delicately pink ones which are so much esteemed. And they're "gods" because women fall down and worship them. Men, who work in the diamond mines swallow them to get them past the lawless guards; then the heartless overseers use the X-ray and have the miners operated upon to recover the uncut gems.

"Pink Gods" is a Penrhyn Stanlaws production featuring Bebe Daniels and James Kirkwood, members of the Paramount stock company. It is the feature at the Capitol Theatre to-day. Bebe Daniels and James Kirkwood are featured.

### DIGBY TOMLINSON, VANCOUVER BLIND PIANIST, WHO WILL GIVE RECITAL HERE SHORTLY

An unusual musical event will be the pianoforte recital to be given here on November 2 by Vancouver's blind pianist, Digby Tomlinson. At his premier recital in Vancouver its citizens gave him a large and hearty send-off, and one of the objects of these Western concerts is to encourage and promote a series of recitals to be given throughout Canada. Already much interest is being shown locally, and the following have expressed to act as patrons for this recital: The Acting Lieutenant-Governor, Hon. Chief Justice Macdonald, His Worship Mayor Marchant, Very Rev. the Dean of Columbia, Mrs. Gideon Hicks, Mrs. D. E. Campbell, President of Victoria Ladies' Musical Club, Mrs. Angus Campbell, Mrs. J. C. F. Hyndman, President Women's Canadian Club, Mrs. R. B. McMicking, also Thomas Lewis, President of the Arson Club, and Herbert Kent.

The pianist will have the assistance of one of Victoria's prominent singers.

### DISTRICT ATTORNEY HAS TO PROSECUTE HIS OWN FIANCEE

That is Motive for Tense Situation in "Manslaughter"

Melodramatic Pace Never Slackens in New Picture at Dominion

By Quinn Martin.

"Manslaughter," at the Dominion. Thomas Meighan as the star in a new Paramount photoplay. In the cast also are Leatrice Joy, Lois Wilson and George Fawcett.

Thomas Meighan will probably bring you to the edge of your seat if you go to see him in his new photoplay at the Dominion. When, as District Attorney, he prosecutes his fiancee after her motor car has crashed into a motorcycle policeman and caused his death, there is one of the tensest scenes which we have seen in the photoplay world for months.

Alice Duer Miller's story, "Manslaughter" is constructed for that one purpose. Its melodramatic pace seems never to slacken, and once you allow yourself to become interested in the affair of Lydia Thorne, the rich woman, and O'Bannon, her fiance, the District Attorney, and Evans, the rich woman's maid, there is not much question about your staying through to the end.

Mr. Meighan's performance here is powerful and human. The Paramount Company has photographed the various scenes in its usual fine manner, and the titles seem to tell everything they ought to tell without teaching lessons.

### ROYAL VICTORIA

Peter B. Kyne, the author of countless heroic novels and stories which have appeared in the Saturday Evening Post, wrote the story of "Kindred of the Dust," produced by Raoul A. Walsh for Associated First National release, and which will be shown again to-day at the Royal Victoria Theatre.

In this instance Mr. Kyne's story is one of the strongest ever filmed. The chief character is "Nan of the Sawdust Pile," and the part is played by Miriam Cooper, who won considerable praise for her work in "The Oath," "Serenade" and other recent First National attractions.

Playing opposite her is Ralph Graves, one of the most talented of screen actors. Due to the high character of his work in this production, it is understood that he will be elevated to stardom within the near future. Others in the cast are Lionel Belmore, Eugenie Bessiere, W. J. Ferguson and Pat Rooney.

The Great Northwest is the locale of the story, and the camera's eye has caught many exciting and breath-taking scenes.

### THE PLAYHOUSE

To-night the second week of the Bing Boys Revue starts at the Playhouse and judging from its reception last week, and the advance sale of seats it is destined to be a record breaker for attendance. When this revue was first presented in London it was an instant success and proceeded to an unprecedented run. At the playhouse, this week the part originally played by the famous comedian George Robey is played by Ernie Fetch, while Herbert Lester's part is being filled by Reginald N. Hincks. In these two performers we have Victoria's best and most popular comedians, and it has been said on every hand that in this show they

are the funniest that they have ever seen. Sufficient to say that the audience is in a riot of laughter the whole time they are on the stage, and that is most of the evening.

Preceding the Bing Boys there is a gripping sketch—"The Burglar and the Girl," in which Mrs. D'Arcy Martin and Bob Webb are the characters. This is followed by some delightful violin selections by Drury Pryce.

Playhouse show number five will continue for the balance of the week with a matinee on Saturday.

### COMING TO COLUMBIA.

Propaganda is not the inspiration of "Ten Nights in a Bar Room." It deals with liquor, not as a main theme, but as the setting of a heart interest story of family life, with an appeal to the sentiments of mother love and father love.

Lloyd George, the Prime Minister of the British Empire, once said to the compiler of this article that the peace of the world would be preserved forever if alcohol could be banished from it. Of course, it doesn't need a statesman to establish the force of an obvious truth.

The skeleton that is in every cupboard walks out when you see "Ten Nights in a Bar Room." Ever since history began to be written, ardent fluids have operated to destroy the happiness of the human race—or rather, their excessive use. Not a family, since the family became a mundane institution, but that has been injured by the evils of drink.

War has claimed fewer victims; sin and crime are largely caused by it. Human life would have approached the Arcadian, possibly the Utopian, if the exhilarating effects of alcohol had not induced excess. And the physical and spiritual standards of mankind would have been higher.

The story that Mrs. Russell presents unconsciously takes this view of the matter. "Ten Nights" does not deliberately sermonize, rather, it presents an aspect of life that has passed out of sight in the United States, but is apparent in other parts of the world. The poet's aspiration for "better manners, purer laws" would probably be realized if chemically, alcohol were extinct.

## QUEBEC'S NEWEST MONUMENT

The Monument of Cardinal Taschereau as it will appear when completed.

Mr. André Vermare, Sculptor.

Mr. M. Rois in, Architect.

To the many artistic monuments to be seen in the city of Quebec, out of which those of Champlain on the Terrace and Mgr. de Laval in front of the Post Office, are not the least, another will soon be added which will be of no ordinary interest, as it will be erected to the memory of one of the greatest personalities in the contemporary history of French Canada. Cardinal-Éléazar Alexandre Taschereau, the first Canadian to become member of the Holy College of Rome, will shortly have his statue in his good old Quebec, the city he loved and cared for during his lifetime, and upon which was reflected so much of the glory he gathered by his rapid ascent in the hierarchy of the Catholic Church. Cardinal Taschereau was appointed to that high state in 1886 and he died in 1897. He was succeeded by Mgr. Bégin, who was later awarded the scarlet robes of office.

It had long been the earnest desire of the citizens of Quebec to have the memory of their beloved cardinal recalled in a more material fashion, and for that purpose a public subscription had been organized some time ago to defray the cost of such a memorial. When sufficient funds had been collected, a contest in which many noted sculptors from America and the old world participated, was held, and from the models submitted by these artists, a committee selected the design of the statue which will later be unveiled on the Place de la Basilique, in front of the famous old temple of Quebec.

The author is a French sculptor of renown, Mr. André Vermare of Paris, who has been engaged in making many of France's best known monuments erected in recent years. One of them recalling the fame of the "Blue Devils," the celebrated Alpine regiment of France, stands on

the summit of Guetwiller and is much admired. Shortly after the decision of the committee was made known, Mr. André Vermare landed in Quebec with Mr. Maxime Rois, the architect who is going to design the pedestal of the Taschereau memorial. Mr. Rois, also, has attained a great reputation in his country as a master of his art. His last work of importance is probably the triumphal arch which will soon be built on the road from Bar-le-Duc to Verdun, to immortalize the glorious stand of the "Poilu" on what was then known as the "Hell of Verdun." The two French artists, who left Quebec for their own country a short time ago to proceed with their work on the Taschereau memorial, took the opportunity of their stay in the old city of Champlain to collect some valuable information regarding the life, ways and character of the late cardinal, such information being

indispensable to give a true interpretation of his personality. The location of the monument was also discussed, and it was agreed that it would stand in the little park stretching in front of the Basilica, at the end of the Rue de la Fabrique. While in Quebec, Mr. Vermare and Mr. Rois were the guests at a great banquet given in their honour at the Garrison Club, at which most of the prominent people of the ancient capital attended. In answer to various speeches of welcome by Hon. L. A. Taschereau, Mgr. Marois, Mr. Henri Gagnon, and others, Mr. Vermare said how he and his companion were pleased to be in Quebec and how they had been impressed by the welcome extended to them. He also had eloquent words to express his admiration for the picturesqueness of the city and for the congenial hospitality of its citizens. He said he hoped to come back for the unveiling of the statue, which will take place on June 17th, 1923.

## FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT

### OLD THORNY WITCH. Part I.

Once there dwelt in a deep forest a witch named Thorny, because her cave was surrounded by thorn bushes which made it impossible to approach. At the top of the cave was an opening through which the witch flew out on her broomstick at night and sailed away over the tops of trees and mountains, looking about for mortals who were in a bad temper or wished some bad deed done. Thorny Witch cackled with delight when she found a person who was in a temper, for she enjoyed only those who were bad like herself; the envious or greedy mortal made her eyes shine and her hooked nose almost touch her pointed chin as she smiled at the thought of gain. Old Thorny Witch wanted gold, she wished to become a Queen and rule over all the magic folk, and to do this she must become very rich, so rich that she could make them all kneel before her with envy. Now there lived in a Castle not far away from the forest where Thorny Witch lived two brothers the sons of a rich king. One son was named Rollo and the other Carlo and though their names sounded something alike these two princes were as unlike as a dove and a lion. Rollo was a kind and brave boy, while his brother was unkind, and never faced even small dangers, such as rescuing a drowning kitten or helping a rabbit to escape from a thorn bush where it had been caught.

But Rollo had done these things and more, too, for he had once saved a Princess from being dashed to death from a high rock when her horse had become frightened and had run away with the frightened Princess clinging to his mane. It was Prince Carlo, however, who was to become King after his father. All the gold in the chests stored in the castle was to be his, and the jewels and the crown with all the broad lands while Prince Rollo would inherit only one chest of gold and a small palace. But there were two things which his brother would possess that Prince Carlo wanted for himself. One was a large diamond in the shape of a star that had belonged to the Queen, his mother. This wonderful jewel the Queen had left to Prince Rollo when she died, because he was the younger son and would have so little.

This last fact, however, did not stop the greedy Carlo from wanting the diamond, and every time he saw it a feeling of envy filled him with almost a hatred of his brother. And when one day Prince Rollo caught at the very edge of a cliff and saved the Princess his brother's envy did turn to hate. The rescued Princess was the one Prince Carlo wanted for his wife, for the Princess Della would inherit gold and jewels as well as a kingdom, equalled by none, not even that which Prince Carlo would one day rule over as king. But the Princess was in love with Prince Rollo, and when he saved her from death she plainly showed which brother she wished to help her rule her kingdom, for Prince Carlo had stood beside his brother when the runaway dashed by and made no effort to save her and Princess Della wanted no coward for a husband and king. The King, who loved both of his sons, was happy when he heard that Rollo was to become the husband of Princess Della, for then both of his sons would be kings and rich as well. The wedding day was set and all was in readiness for the grand festivities when Thorny Witch on one of her nightly rides flew over the Castle gardens and spied Prince Carlo walking about in the moonlight.

### THOUGHTFUL OF HIM

The vicar was on his way to church when he met the gamekeeper. "Ah," he said, "how is it, my friend, that I never see you in church?" "Well," said the gamekeeper, "you see, sir, I don't want to make your congregation smaller." "What do you mean?" the vicar asked, sharply. "Well, you see, sir," replied the keeper, "if I came to church some of the others would go poaching!"
