“Rules of Order”-ing

This list cancels all previous quotations, and the terms and conditions shown will carry for Fall, 1929, in all offers to the trade.

The prices printed in this list are based upon present market conditions, and are for immediate acceptance, subject to change without notice and stock being unsold. All goods are offered f. o. b. West Grove, Penna.; **packing extra** at cost or **free for cash with order. 250 of a kind are offered at the 1,000 rate and 25 of a kind at the 100 rate.**

Orders are booked with the understanding that they shall become void should injury befall the stock from flood, error in count, drought, fire, or other causes beyond our control.

Shipments travel at purchaser's risk and in the absence of definite instructions from the buyer, stock will be forwarded according to our best judgment without assuming responsibility.

Claims, if any, must be made immediately on receipt of goods.

Terms cash, except to those with established credit, who may have the benefit of 60 days net from date of invoice.

Every effort is made to keep varieties true to name and, on proper proof, any not true will be replaced promptly; but the success of the grower is not guaranteed. In event of untrue stock, our liability must be limited to invoice value at time of shipment.

Copy of Pennsylvania State Certificate of Inspection on all orders.

Correspondence from prospective buyers is invited, but all communications should be written on printed business stationery so that trade prices can be granted to only those individuals or firms actually entitled to receive them.

The plant names used in this list conform, for the most part, with “Standardized Plant Names,” adopted by The American Joint Committee on Horticultural Nomenclature.

Member American Association of Nurserymen, Eastern Nurserymen's Association, Pennsylvania Nurserymen's Association, etc.

★ ROSES

Far and wide goes this block of *ROSA HUGONIS*

Hugonis cuts telling expense— it sells big, too!

Telling people about your products costs you precious time and real money so, naturally, if you can reduce that cost you add velvet to your profit.

Take *ROSA HUGONIS*, for instance. It will reduce your *telling* expense because, in a measure, it is popular enough to sell itself. Leading Nurserymen have featured and advertised it for more than a decade. Display *HUGONIS*, and its very attractiveness will make friends for you, *easily*, because a few slipped into some of your more prominent plantings will tempt trade; a dozen or so in your display plots will build sales for you; and a small number of plants at your entrance will speak better words of welcome than you can.

The great golden Hollyhock-like blooms of clear yellow in mid-May herald the other Roses. In fact, *HUGONIS* is continuously attractive; even when the flowers have flown, for its slender arching branches are charmingly clad with Acacia-like foliage, and maroon-colored new growths are constantly beckoning the eye. *HUGONIS* is at home as an early flowering hedge, in a shrubbery planting, or upon the lawn!

Use *HUGONIS* in quantity this year!

★ MME. GREGOIRE STAEHELIN (Cl. HP)

(See cut front cover)

New 1928 — First Climbing Rose to Win Bagatelle Gold Medal.

“One dependable way to keep your trade thinking of you as a wide-awake source of supply is to offer the cream of the new things—varieties that will keep you ahead and make you money.”

This tip from a careful adviser seems to point directly to Mme. Gregoire Staechelin, the new fragrant climbing Rose from Barcelona, Spain—introduced Spring 1928 in the United States by The Conard-Pyle Company.

Staechelin was awarded the Gold Medal at Bagatelle Gardens, Paris, June 11, 1927—the first Gold Medal to be given to a climbing Rose at the famous French Test-Garden. It has aristocratic parents (Frau Karl Druschki and Chateau de Clos Vougeot) and has inherited the best traits of both.

There is no other rose like it

Staechelin is gorgeously colored and exquisitely perfumed. Its color is iridescent—pearl pink with claret-carmine markings on the outer petal.

Tests in our Trial Garden show that Mme. Gregoire Staechelin is very hardy, grows twelve feet or more high and has large disease-resistant foliage. The main stems shoot upright and the second season they put out *side branches* 12 to 14 inches long with an abundance of blooms; and, if the flowers are not cut off, there will be in the Fall an abundance of orange-colored seed-pods, looking like little Seckel pears.

Advance orders from Nurserymen in all parts of the country show complete faith in this new Climber as a distinct maker of money.

You will be getting calls for this miracle rose if you haven't already a demand for it. Be prepared, order *now!* The supply is not over-large, but there should be sufficient for all comers.

Lining-Out Evergreens

Except where otherwise indicated, these are our famous winter-rested 2¼-in. pot grown plants for Spring delivery. Rooted indoors on concrete benches winter 1928; grown in 2¼-in. pots since early Spring 1929; rested in outside beds from early Fall 1929. Those marked 2-yr. T are 2¼-in. pot grown plants which have been grown in the Nursery since June, 1928.

A couple of Nurserymen, themselves heavy growers of Evergreens, were looking over this stock recently just prior to placing their yearly orders when one was heard to say to the other "Mighty nice plants, Bill." "Yes, John, and the pretty part is **they're a year older** than what you can get anywhere else."

If that feature alone is not sufficient to convince you that here is more for your money, add to "well-rootedness" the fact that these plants are **winter-rested**. That is, the growing energy is preserved, kept back for you, and, in the Spring, when the young Evergreens are put into your rows they are able to produce returns 100%.

Weigh these two points with extreme care for they are the fact story of how you can get more for the same money you invest in Lining-Out Evergreens. Pencil your list right now on this page, mail in the whole thing, a copy will be made and your List will be returned to you. Do!
