There is an ordinance which prohibits the use of firearms inside the corporation. We heard a good deal of complaint about this lately and some of our citizens are greatly annoyed by its frequent occurrence.

Every one is invited to attend the 15th annual meeting of the Genesee County Union Pioneer Society at McCann's Grove, Long Lake on Thursday Aug 24 1882. Prominent speakers will be present.

Jesse Hoyt, of Saginaw, died in New York on the 14th inst. He will be remembered as one of the most energetic capitalists of Saginaw valley, and to him, in a great measure, Saginaw owes her present prosperous condition.

A large crowd of people attended the temperance meeting on Tuesday evening, and were greeted with a splendid programme embracing both serious and comic entertainment. These meetings are getting to be very interesting as well as exciting a good influence.

We were shown yesterday, two teeth supposed to belong to the primeval mastodon, which existed in ages long gone by, these teeth were fully seven inches broad by 3 wide and are quite a curiosity. They were found by Mr. Richard Cottrell while digging a ditch on his place. We should think that further explorations might reveal the entire skeleton of the animal, which undoubtedly is somewhere in the immediate vicinity.

Game of base ball this afternoon.

That was a beautiful and refreshing shower yesterday.

Note the new ad. of the "only one price clothiers" in this issue.

A. S. Partridge has got a long string of that concrete walk in front of his lot on Beech St.

As we go to press we learn that the Corunna base ball club cannot keep their appointment here to-day, but notwithstanding a game will be played.

Mrs. Burt wishes to inform the ladies of Flushing and vicinity that they will find her at Mrs. C. Smith's Millinery rooms over the Post Office with samples of fancy work and prepared to give lessons in all kinds of fancy work, chenille embroidery a specialty. Please call and examine. She will be there Wednesday Aug 23rd 1882.

Mr. Warner has purchased 1080 acres of pine land at the head of Green Bay which is covered with valuable timber. Mr. Warner thinks there is over 5,000,000 feet of pine besides on this tract. Other valuable timber on this tract. Parties are here from Saginaw for the purpose of buying out Mr. Warner's interests in the timber business which he wishes to dispose of. Mr. W. intends to commence cutting his pine about Sept. 1st.

The Ovid Union says: Thursday night last week, that belt of country lying between Lowell and Ionia was deluged. A rain cloud is supposed to have burst for the country for miles around was covered with one vast sheet of water. The track of the D. & G. H. & M. R. W. was practically destroyed for a distance of nine miles, rendering it inoperative; bridges were carried away, culverts swept out and embankments leveled as if by magic. For several days trains were run via Howard city to Grand Rapids, to get around the wash-out. The damage to the road is beyond calculation almost, as it will require months of work and thousands of dollars expenditure, to restore it to its former condition. The destruction to private property throughout that entire section is also large.

The impression that the Northeastern coast of the American continent is slowly rising—the estimate of the rate of emergence in progress being over a foot, and perhaps as much as three feet in a century—has recently been controverted by eminent scientific authorities, among these being Dr. Mitchell of the Coast Survey, who states that the salt marshes are still, as they were in the time of the early explorers, at ordinary high water level, and that the rocks on our coast, long notorious as dangerous to navigation, have not risen since they were discovered. Ancient maps and documents are cited, and the conditions of the various rocks are considered in detail, with the result just named. But eastward of longitude 64 deg. 13 min., and especially Newfoundland, great changes present themselves in the comparison of charts, the depth appearing to be at some points less and at other points greater now than formerly.

—Mrs. M. Hills, and Harvey Hawkins returned from Reed city Monday evening. They report having a pleasant visit.

—Mr. and Mrs. St. John, of Saginaw spent Monday night with Mr. James Penoyer, at O. F. Clarke's residence. Mr. St. John is a partner of Mr. Penoyer, who is at present conducting the business of the firm.

For five cents, (Wells, Richardson & Co., Burlington, Vt., will send colored samples of all colors of Diamond Dyes, with directions.

TEMPERANCE.

The meeting of the Red Ribbon club was well attended last Tuesday evening, quite a number went away not being able to find seats. The remarks made by several members were short but to the point. A large majority present were ladies; very few business men get to these meetings. The literary program was interesting and finished up with a lively representation of "Mother Goose's Melodies." The persons who prepared the program are evidently aware of the fact that "Mother Goose" is no mythical personage, but that she lived, moved, and had her being among very aristocratic people, and upon whom she cast quite an influence for good. Mr. Dupuis' little girls added considerably to the occasion by singing a French song, entitled "Le Bonheur et sa Fille," or in English would be "The Butcher and his daughter."

Hoping that the people of Flushing and surroundings will not be misled by the item in last week's Democrat, not by any like report. I wish to announce through the columns of the OBSERVER that it is my intention to remain in this village and continue in the barber business, where I should like to see all of my old customers with as many new ones as wish to favor me with their patronage.

THERE seems to be a feeling among some of the western papers that Senator Allison of Iowa would make a good candidate for the presidency in 1884.

This is the dull time of the year, but business men are getting a good ready for the driving season to come. The present indications all point to a lively business in general trade.

DURING the fiscal year ending June 30 there was a falling off of \$156,862,010 in our foreign export trade, as compared with the preceding year. These are large figures and may well be considered.

The chief survivor of the old Astor family of New York millionaires—W. W. Astor—has been appointed and confirmed United States Minister at Rome, Italy, to fill the vacancy caused by the death of Mr. Marsh; being an accomplished gentleman, no doubt but that this country will be well represented at the ancient city.

The Egyptian affairs remain about the same for the past week, no battles having occurred. The English still continue to send large forces to Egypt. They are trying to organize a new Egyptian Ministry with Chief Pasha as prime minister.

The report of the State Board of Health, for the week ending Aug. 5, makes the following statements:

Including reports by regular observers and by others, diphtheria was reported present during the week ending August 5, and since, at 20 places, scarlet fever at 8 places, measles at 11 places, and small-pox at 17 places, as follows: In Dearfield township, Lapeer Co., July 30; at Lansing (one case, convalescent), July 31; in Crystal township, Montcalm Co. (4 cases), Aug. 1; in Rapid River township, in Danby, in Antrim Co., and in Manclona township, Antrim Co. (3 cases), Aug. 3; at Mt. Morris, Genesee Co. (one case convalescent), Aug. 4; at Detroit (3 cases), Flint, and Portland (one case), Aug. 5; in Walker township, Aug. 5; at Clio, Genesee Co., in Ionia township, and near Carson city, Montcalm Co., Aug. 10.

CONGRESS has not been idle during the long session just closed, and has appropriated \$216,694,408. The important bills that have been passed are the Utah Commission bill; the bill to enable the national banks to continue their corporate existence; the Tariff Commission bill; the granting of pensions to Mrs. Lincoln, Mrs. Garfield, Mrs. Polk and Mrs. Tyler; the bill appropriating \$57,500 to pay the expenses of the late President's last sickness; doctor bills and funeral expenses; a bill authorizing erection of a large number of public buildings, at a cost of \$15,000,000; special appropriation for the sufferers of the Mississippi floods; fixing the membership of the House for the next ten years at 325; to distribute the balance of the Geneva Award Fund; and six contested seat cases were considered out of twenty-one pending.

A greater number of bills were introduced into both houses than ever before, and many of them of great importance were considered by committees but failed to pass.

Some of the most important bills passed one house, but failed entirely in the other are: the Japanese Indemnity bill, the bill creating a Department of Agriculture, a bill reducing internal revenue taxation, a bill to create a Court of Appeals, a bill to regulate the counting of the electoral vote, and a bill placing Gen. Grant on the retired list. A large number of bills were considered by committees, debated at great length, but did not reach a vote.

GENERAL KEIFER, of Ohio, the speaker of the House, secured a re-nomination for Congress without much trouble. He was nominated without a ballot, by acclamation.

The persons charged with conspiracy to defraud the government in connection with the star route service will probably be acquitted. The methods of the prosecution have been a series of blunders from beginning to ending.—Bay City Tribune.

SENATOR FERRY is deserving of the thanks of the maimed soldiers for his bill proposing to increase their pensions. Pensioners who lost an arm or leg, or were incapacitated for the activities of life, by wounds received in the war of the rebellion, should have their pensions increased, as the infirmities of age come on. The republic owes them a debt it can never pay whatever provision it may make for their welfare.—Bay City Tribune.

Congress finally reached an adjournment of its long session on the 8th inst., which passes into history as one of the longest ever held, it will compare favorably with the following sessions: that of 1845-46 lasted till Aug. 12; that of 1847-48 until Aug. 10. The longest session was that of 1849-50 lasting till Sept. 30; that of 1851-2 until Aug. 31; that of 1853-4 until Aug. 7, and that of 1855-6 until Aug. 18.

One of the last acts of the adjourned Congress was the passing of the River Harbor bill over the President's veto which has been a most absorbing subject of public discussion ever since. Many of its opponents deprecating that the bill contains many items of an extravagant character, and the general sentiment of the country approves the veto of the President.

In a conversation on the cars, a night or two ago, the Hon. James G. Blaine is reported to have said to a friend:

As I feel now, nothing would induce me to enter into a contest for public life without General Garfield. We were associated together, and were warm personal and political friends from that time forth. I entered his Cabinet from the Senate to identify myself with his Administration. I was in full harmony with his views, and his death seemed to complete the era in American politics to which we both belonged. I have no regrets nor any revenges to satisfy. I have thousands of warm friends whose esteem and regard is of priceless value to me. It will always be my pleasure to serve them, I am content with the past, and I find the greatest pleasure in the pursuit of my private affairs. I am ardently a Republican and shall take an active interest in public affairs as long as I live, but as I feel now I could not enter any contest for any public position.

THE United States Court at Leavenworth, Kansas, has been considering the right of a telegraph company to limit its liability as companies attempt to do by printing on their blanks a notice that they will not be responsible for mistakes unless the message be repeated. The decision of the court is that the company cannot limit the liability. The court says: "Any rule or regulation of the company which seems to relieve it from performing its duty, belonging to the employment, with integrity skill and diligence, contravenes public policy as well as the law, and under it the party at fault cannot seek redress. If it becomes necessary for the company, in transmitting messages with integrity, skill and diligence to secure accuracy, to have said message repeated, then the law devolves upon them that duty.

"He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from from East to West and from North to South or vis versa, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

MOTHERS! MOTHERS! MOTHERS!!!
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it, there is no mistake about it. There not a mother on earth who has ever used it, will tell you at once that it will regulate the bowels and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best families of physicians and nurses in the United States. Sold everywhere. 25 cts a bottle.

Of the working of prohibition in Iowa, where the prohibitory amendment to the constitution has been in force for more than a month, a Davenport correspondent of the New York Herald says:
During the month of July, the first month of the prohibitory amendment, the receipts for taxes—stamps sold to brewers and distillers—in this, the second revenue district of the state, have been the largest known for years. In Dubuque, Davenport, Burlington, Keokuk, the sale of beer and wine and whisky is as unrestrained to-day as it ever was, or is in the city of New York. It is sold at all hours seven days in the week. What else can be expected in view of the facts? Dubuque county, containing the city of Dubuque, gave 6,283 votes against the amendment to 1,567 in favor of it. The same feeling as expressed through the ballot box, exists in Des Moines county, in which Burlington is located, and in Lee county, where Keokuk is found. In all of these counties the grand juries are representatives of public sentiment, and it will be impossible for an indictment to be found against any party selling beer and wine, though the evidence is direct and overwhelming. In the doubtful possibility that a grand jury indicts no trial jury composed of 12 men can be found who will convict. This state of things is known by the saloon keepers and they appear indifferent. Mr. M. Frahm, for 20 years a brewer of Davenport, told the writer to-day that he would continue business as he always had done, and that he did not fear molestation. In case the advocates of prohibition attempt to force their laws in smaller cities where the public sentiment is not so strong the brewers' association of that state will make common cause of the defense and appeal to the last tribunal.—Post and Tribune.

Canada Thistles. There is a far more excellent way of eradicating the thistle than by summer following, and this is by means of clovering. Sow clover, without a grain crop, on thistley land, well prepared by late fall plowing; run the mowing machine over the ground before the thistles bloom, let the aftermath grow, which it will do faster than the thistles, mow again in due time; repeat the process the second year, and you may say "good-bye" to the thistles. Is not this a far easier plan than "early and often plowing during the entire summer?" The field thus worked yields no crop, whereas on the clover method there is a crop of hay to pay for the labor, while the land which has been two seasons in clover is left in a prime condition for a wheat crop or any other grain crop. Summer following is a relief of old foggy farming. It is a fight with nature, which aims to cover the surface with some kind of a green growth. Let that green growth be clover, and the double work of cleaning and enriching the land will be most satisfactorily done.

PRO BONO PUBLICO.—It is a remark- able fact, that while thousands of people refuse to read paid puffings over less nostrums, none skip worth Dr Swayne's little squib about his Ointment for Itching Piles that itch so much at night. The people well know that it is published for their benefit, in other words it is "pro bono publico." May its far reaching effects be perpetuated to the end of time.

B. TURNER'S COLUMN.

CARDS.—CARDS. We have a few left advertising the best corset in the world, every little girl in the county is entitled to one.

Curiosity brings the crowd to look at our 5 and 10 cent counters. Surprise and astonishment at the great number of useful articles to be found there for the small sum of 5 and 10 cents. Many articles that have cost 20 to 25 cts in the regular trade can be found and are being bought daily for 10 cts and then the choice and attractive stock of dry goods is the wonder and admiration of the crowds of new customers that are constantly dropping in with their butter and eggs and their cash. That hat-rack standing just inside the door with every style of men's and boys' hats, those new and stylish paisly and Merino shawls, the choice selection of ladies and children's shoes, that we carefully select with an eye to durability as well as beauty are constant sources of attraction. We cordially thank all of our old customers who have stood by us so long with their trade and we solicit a continuance of your trade, we also invite a trial of our goods from all those that have not as yet given us a trial. Our teas are carefully tested by steeping before we buy them and we warrant them equal in price and quality to any in the county. We have coffee as low as 10 cts per lb we also have a choice Mocha at 35cts and if you want a Bonanza that will tempt an epicure buy equal parts of our selected Rio and Mocha and have it ground in our large coffee-mill and you will have a beverage that will satisfy the inveterate drinker—and so with all our groceries you will find them selected with the greatest care and equal in price and quality to anything found in Genesee county.

And now about agricultural im- plements. The Wired plow has all the latest improvements, the Triumph seed drill cannot be excel- led, the Canton cultivator and the Lansing spring tooth cultivators are the very latest achievements in tools for wheat culture. We also have plow points for many other plows in use. Call and see me. B. TURNER.
