**End Time:** 1 pm

**Place:** fablab

**Absences/Apologies:**

### Agenda

- 1) Final modifications to be done
- 2) Preparation for final race

### Minutes

The SSV was totally done. All the minor changes were done by the team members. Team leader cheered up group for the race. We tested the SSV with solar panel, all was perfect. The wheels were little heavy, but group leader suggested not to change in last minute. Painting on the SSV was done, finally the SSV was tested on the race track before the race.
