Diamonds AND Diamond Jewelry

When you see a ring or other piece of diamond jewelry that was purchased from us, notice how carefully the stones are matched.

You will not find one stone high, another low, one round, another oval, one pure white, another of color, but all the stones carefully selected. This is one of the many advantages we are able to offer, though carrying a large stock of loose diamonds.

SHOE SAYINGS

For Feminine Readers

A shoe to please a woman must be elegant in appearance, must fit the foot like a glove, ought to have more than a semblance of comfort, and the price should not be sky high. Well, we have just such shoes, and ask the ladies of Victoria to raise their opinions upon them. Shall we ask 'is 'ain? In this case our vote is for women judges.

Kitchener Reports That One Hundred and Thirty Boers Have Been Captured.

Large Quantities of Ammunition and Grain and Fifteen Hundred Horses Taken.

Sir J. Gordon Sprigg Denies the Report of Re-Construction of Cape Cabinet.

(Associated Press.) London, May 11.—Lord Kitchener reports to the war office, under the date of Pretoria, May 10th, as follows:

"Since May 2th 28 Boers have been killed, 6 wounded, 130 taken prisoners and 183 have surrendered. "Nine thousand rounds of ammunition, 230 wagons, 1,500 horses and large quantities of grain and stock have been captured."

The Cape Cabinet. Capetown, May 11.—The South African News to-day declares it has been decided to reconstruct the ministry with Cecil Rhodes as premier, Dr. Jameson as colonial secretary and Sir John Gordon Sprigg as treasurer.

The premier, Sir John Gordon Sprigg, however, authorizes a statement that there is no foundation for the reports of the reconstruction of the cabinet. Canadian Recruits. (Special to the Times.)

Ottawa, May 11.—The secretary of state for the colonies cables the Governor-General:

"His Majesty's government have received with much pleasure the following message from the high commissioner for South Africa: 'The Inspector-General of the South African constabulary reports most favorably on Canadian recruits. The average physique of the men is splendid, and they seem to be particularly well fitted for their duties. I regret that owing to my departure I have not yet had time to see them myself.' Milner. (Signed) Chamberlain."

PAID FINE AND DUTY. The Willamette Difficulty Has Been Finally Settled. (Special to the Times.)

Nanaimo, May 11.—B. H. Smith, collector of excise, returned here this evening from Union, bringing with him the fine paid by Moran Brothers for an infraction of the reciprocal wrecking law and duty collected on their entire wrecking outfit. The money, which is in gold coin, was deposited in the bank here.

Mr. Smith, acting under instructions from the department of marine and fisheries, took an expert marine appraiser with him to assess duty. The Willamette could have been floated entirely yesterday, but the transverse bulkhead forward of the boiler room was discovered to be so badly twisted as to necessitate extensive repairs. Her whole after part was aloft last night.

Mr. Moran expresses entire satisfaction with the manner the Dominion at Nanaimo have treated him. The Willamette goes to Seattle dry dock on Wednesday morning. The fine imposed was light.

MANITOBA LIQUOR ACT. Privy Council Has Granted the Attorney-General Leave to Appeal. (Associated Press.)

London, May 11.—The privy council has granted the Attorney-General of Manitoba leave to appeal from the decision of the King's Bench court of Manitoba, in ruling that the provincial legislature has no power to pass a liquor act. MACEDONIANS EXECUTED. (Associated Press.)

Vienna, May 11.—A dispatch to the Abendblatt from Co. and nople announces the wholesale shooting of revolutionary Macedonians, including women. Twenty-four persons were executed at Monastir, fourteen at Heria, eighteen at Istip, eighteen at Sres, and twenty-nine at Uskup.

FORCED TO FAY.

Naturalized American Citizen Fined For Not Serving in Russian Army. (Associated Press.)

Chicago, May 11.—A special to the Tribune from St. Paul, Minn., says: "L. D. Horne, a naturalized American citizen and member of a wholesale firm in this city, has been forced by the Russian government, of which country he is a native, to pay a fine amounting to \$250. Mr. Horne received notice several months ago from Russia that the fine had been imposed because he did not serve his time in the Russian army. Through the American minister at St. Petersburg, he arbitrated the matter, claiming exemption because of having been an American citizen. He desired to go to Russia in person, but the American official informed him that it would be difficult to secure his release from the arrest which would surely ensue as soon as he entered the Czar's domain. The Russian government seized the homestead of Horne's parents at Sison, northern Russia, to secure payment of the fine. Mr. Horne's parents had aged and their own property is their home. To prevent them from being turned out he paid his fine."

The Louise Ashore

She Went on a Reef at High Tide and She Is Held Fast.

Efforts to Float the Steamer Have So Far Been Unavailing. Passengers of the Stranded Vessel Have Been Landed at Nanaimo. (Special to the Times.)

Nanaimo, May 11.—Capt. John Irving, with four of the crew of the steamer Princess Louise, have just arrived here after a twenty-five mile row across the gulf from Thormanby Island, just south of Texada, where the Louise went on the reef at 11:30 last night at high tide, and now lies fast.

The captain and four men were nearly dead from exposure and cold. The Louise left Vancouver at 6:30 last night for north British Columbia ports with 25 passengers and a large quantity of freight. The lookout forward, as the steamer was passing Thormanby Island, and sung out "rocks ahead." The engines were reversed, but the steamer struck almost full speed, smashing her forefoot and sticking fast.

Capt. Sears ordered freight to be thrown overboard to lighten her, and a good many tons were dumped into the sea without effect. The sea is calm with a light wind from the southeast. If the wind rises she will go to pieces.

The captain, crew and passengers are now on the steamer waiting help. Capt. Irving came here to telegraph for assistance. The wind blew them out of the course; and they struck the land near Nanaimo Bay, and they covered down along the beach. They started at 4 o'clock this morning and reached here at half-past twelve.

Passengers at Nanaimo. Nanaimo, May 11.—The steamer Falcon has just arrived here with all the Louise's passengers. She was halted when passing through Welcome Pass. Some of the passengers say the steamer will be a total wreck.

CHICAGO TO LIVERPOOL. (Associated Press.) Ogdensburg, N. Y., May 11.—The steamer Northwestern, of the Northwestern Steamship Line, bound from Chicago to Liverpool, with a cargo of farm implements, passed here and into Galop Rapids today. A large quantity of coal was loaded on to the forward deck, throwing the tops of her wheel buckets out of the water in order to prevent the possibility of striking the bottom. She was drawing about thirteen feet of water.

This is the first steamer of this line to make the trip, and three others are following. A Canadian official is on board to take observations and report as to the availability of a clear fourteen foot channel to the rapids, as claimed by that government. The St. Lawrence rapids was safely run to Cornwall, from which point she will take the canal to Montreal.

THIEF MISSING. (Associated Press.) Mexico City, May 11.—The police and citizens of Guadalajara are looking for Rev. Father Amado, a well-known priest of that city and treasurer of various religious fraternities and guilds. It is reported that the clergyman has disappeared, taking it is estimated, nearly \$100,000 belonging to religious societies and also carrying off the young daughter of one of the leading families. When Father Amado left the city he placed a letter, explaining things within the lord safe, the letter being addressed to Dr. Arias, dean of the cathedral.

The Privy Council

Proposal to Give the Colonies Representation on the Judicial Committee

Hon. D. Mills Will Be Canadian Delegate at Conference Next Month

The Supplementary Estimates, Submitted Yesterday, Show a Total of \$8,369,241.

(Special to the Times.) Ottawa, May 11.—Hon. David Mills will represent Canada at the conference to be held in London, England, to give representation to the colonies on the judicial committee of the Imperial Privy Council. The conference was to have been held this month, but owing to the sitting of the Canadian parliament and opening of the parliament of the Commonwealth in Australia, the meeting was postponed. It will probably take place about the end of June. Hon. Mr. Mills will see that the interests of Canada are well safeguarded.

Solicitor-General Fitzpatrick may accompany him. Supplementary. The supplementary estimates for the financial year ending June 30th, 1902, were brought down yesterday, and show a total of \$8,369,241. Of this amount \$4,222,003 is charged to the consolidated fund.

There is \$50,000 for the construction of a fisheries steamer for British Columbia, \$41,700 for the harbors and rivers of British Columbia, and \$18,000 for dredging. The supplementary estimates place \$50,000 for the Royal mint at Ottawa.

ALBANY STRIKE. Efforts Will Be Made to Arrange Settlement To-Day. (Associated Press.)

Albany, N. Y., May 11.—Although there are no actual developments in the railway strike situation in this city today, there is every indication that an effort will be made to reach an agreement before night. The executive committee of the board of directors of the company is in session at this hour considering the question of arbitration.

NEW CHINESE PARTY. Desires to Set Prince Tuan's Son on the Throne. (Associated Press.)

Shanghai, May 11.—It is reported that the Empress Dowager's favorite, Fa Lien Yeng, heads a strong reactionary party, including the Grand Chancellor, Lu Chen Lung, Yung Fu, Prince Tuan and Gen. Tung Fu Hsing, which aims to depose Emperor Kwang Su in favor of the son of Prince Tuan.

BRINGING THE SULTAN TO TIME. (Associated Press.) Constantinople, May 11.—A third note, evidently emanating direct from the Sultan, was delivered to-day to the ambassadors demanding an explanatory language, the immediate suppression of the charges of smuggling against foreign officials. The ambassadors immediately returned the note to the Porte, thus creating a partial cessation of relations between the embassies and the Turkish government.

KILLED A BOARDER. (Associated Press.) New York, May 11.—Jan. Elliot, who has been boarding with James O'Donnell at the latter's home at Stapleton, Staten Island, was shot and killed by O'Donnell early this morning. Domestic trouble led to the shooting. O'Donnell was badly injured by Elliot before the shooting occurred, and he is now in the hospital. He was placed under arrest to await the action of the coroner's jury.

NORWEGIAN VOTERS. (Associated Press.) Christiania, Norway, May 11.—The 10th sitting, the lower house of the Norwegian parliament, to-day adopted, by a vote of 48 to 38, a bill introducing universal communal male suffrage, and by 68 to 47 votes adopted a bill providing communal suffrage for women paying taxes on an income of at least 300 crowns.

TOTALLY WRECKED. (Associated Press.) Colon, Colombia, May 11.—The Norwegian steamer Douglas, Capt. Erickson, which sailed from Havana on April 24th for Cartagena, has been totally wrecked off the Rosalia Islands, near Cartagena, Colombia. The crew have been saved.

QUARANTINED. (Associated Press.) Montreal, May 10.—Steamer Lake Superior, Capt. Taylor, Liverpool for Montreal, is quarantined at Goose Lake for 21 days with smallpox on board. She carries seven hundred passengers.

FATALEY BURNED. (Associated Press.) Montreal, N. B., May 11.—The three-year-old child of Smith Brown, Mountain road, near here, was severely burned yesterday, dying three hours later.

Quiet on Wall Street

The Tension Has Been Relieved and Business Progresses as Usual

Contesting Parties in Northern Pacific Are Holding on to the Stock.

New York, May 10.—The calm that succeeded the storm pervaded Wall street today. The settlement with Northern Pacific shorts largely eliminated the element of danger that by mysterious process created the alarm of yesterday. Prices of stocks went up with a rush at the last closing at about the top end with the net losses left after yesterday's session pretty largely recovered.

There were some clouds remaining on the situation this morning, and some natural triplicity lest the violent collapse of yesterday should have left some casual clearing house sheets of the stock exchange had been made up. The official announcement that the sheets of all the members of the exchange had been cleared perfectly and that all their checks had been honored, relieved the feverish and earnest signs which were manifest in the stock market during the first hour of the day.

Things quieted down into a condition of business such as has not been witnessed in Wall street for many weeks. The measures taken over night to clear the situation left little to fear. The agreement to allow the shorts in Northern Pacific to settle at 150 really went to the root of the crisis and wiped out the impelling cause of yesterday's panic.

The announcement by the banks that yesterday's loans which had been provided by agreement amongst the leading institutions of the street would not be called to-day, kept the situation free from additional tension. During the day it was announced by some of the banks that loans which had been placed in yesterday's excitement had been voluntarily paid off by the borrowers to-day, and the collateral taken up and delivered made with it.

The obvious leadership of the movement of Union Pacific and the Southwestern group gave ground for the conjecture that it was based on benefits expected to accrue to Union Pacific from a contract of Northern Pacific, a contract which was still stoutly claimed to-day, but as emphatically denied by the Hill-Morgan parties. It was remarkable that the breaking of the settlement with Northern Pacific at 150 brought almost no stock upon the market, as is the rule after the termination of the contract.

The removal of the overshadowing fear from the market, and the quotations for the Northern Pacific on the tape at 150 still further allayed the apprehensions. The stock sold at \$200 for each afterwards, but the progress of the settlement with the shorts at the offices of the conflicting interests in Northern Pacific prevented any further disturbance on that ground. The measures taken by the banks which placed heavy loans in the street yesterday and their decision not to call the loans to-day completed the tranquillizing influences.

ATTACKS ON THE KING.

Police Seize All Copies of W. O'Brien's Paper, 'The Irish People'. Dublin, May 10.—The police of Cork, Limerick and other towns of Ireland seized all the copies of Mr. William O'Brien's weekly paper, 'The Irish People', found at the newsdealers this morning. The offending articles, it now appears, were abusive attacks on King Edward, Cardinal Vaughan, and the address of the King, which the paper declares was such as might have been presented to a League a half century ago.

Discussed in the Commons. London, May 10.—At the conclusion of the questions in the House of Commons to-day, John Dillon, Nationalist, moved the adjournment of the House in order to call attention to the seizure of 'The Irish People'. Mr. Dillon complained that the action of the authorities was grossly illegal, and asked whether it was due to the attack on Mr. Wyndham, the chief secretary for Ireland, or to the attack on the King.

Mr. Wyndham replied that it was owing to the attack on the King. Mr. Dillon said he was not concerned to defend the violence of the attack, but any seizure should have been done through the courts. Far more violent attacks have been made on Queen Victoria in the English papers without their being seized. The present action was a blow to the liberty of the press.

Mr. Wm. Redmond, Nationalist, seconded the motion, characterizing the article complained of as a very proper and patriotic attack on the conduct of the chief secretary.

Mr. Wyndham in defending the seizure, declared to "soil his lips with reading the attack on the King, which constituted a libel, nor would the feeling of indignation be propagated by the outrageous, gross and scurrilous lies of the article."

Mr. Wyndham in defending the seizure, declared to "soil his lips with reading the attack on the King, which constituted a libel, nor would the feeling of indignation be propagated by the outrageous, gross and scurrilous lies of the article."

What Motherhood Means

Motherhood means either happiness or misery. There is scant happiness for the mother, who in pain and weakness brings into the world a weakling babe which she can neither nurse nor nourish.

Dr. Pierce's Favorite Prescription fits women for motherhood. It strengthens the maternal organism. It tranquilizes the nerves, encourages the appetite and brings refreshing sleep. It makes the birth hour practically painless and gives the mother the nourishment to give her child.

Proceedings Continued

Another Three-Hour Session of Court on the Case Last Night.

Witness Will Be Brought From Seattle If Possible—Request For Thousands.

Last night's session of the court in the hearing of the Macdonnell case was taken up principally in the reading and filing of his account book. He did not mention the voluminous correspondence directed and indirectly in the trial, most of which to the general public would possess little interest.

W. J. Fullerton, the secretary of the association which had been formed for the management of the Point Ellice bridge suits, who gave most of his evidence at the previous sitting of the court, continued his evidence, and was questioned by Mr. Duff on certain points in his account book.

Mr. Duff then asked the witness whether he had been in contact with Mr. Macdonnell relative to fees prior to the Patterson case, except as to the comparative costs of bringing the case into court in Victoria and elsewhere.

SAD HOME-COMING.

Father and Son, After Fighting in South Africa, Separated by Death.

A sad story is told of the home-coming of one of the British Columbia members of Strathcona's Horse, C. C. Harris, formerly of "C" squadron of that body, when arriving in Canada from England.

Mr. Duff then asked the witness whether he had been in contact with Mr. Macdonnell relative to fees prior to the Patterson case, except as to the comparative costs of bringing the case into court in Victoria and elsewhere.

MR. GAGNON BETTER

Prominent Quebec Gentleman Is Cured of Kidney Disease.

Followed the Advice of an Advertisement, and Secured Results so Satisfactory, that He has given His Own Testimonials for Publication.

Point au Pic, Quebec, May 10.—(Special)—Henry Gagnon is better. This announcement will be hailed with pleasure by his many friends, who knew of his long illness.

Mr. Gagnon had suffered with kidney complaint. What he has endured is beyond description. Everything he tried failed to cure him.

The Annual Budget

The Police Get No Patrol Wagon This Year—Various Appropriations.

Not Very Many Changes For the Coming Term—The Schedule.

The police get no patrol wagon this year. Possibly this announcement will come with cruel force to Lawrence Mooney or Phillip Chalk, who may have fondly anticipated an uninterrupted ride in the new vehicle to the Cormorant street barracks.

It might also be noted on the estimates that \$200 is appropriated for fire department harness and clothing. This will not go very far if it is to buy harness for seventeen horses and gum coats and helmets for the men.

Mr. Duff then asked the witness whether he had been in contact with Mr. Macdonnell relative to fees prior to the Patterson case, except as to the comparative costs of bringing the case into court in Victoria and elsewhere.

Provincial Parliament

Members Finished Their Labors Shortly Before One O'clock This Morning.

The Formal Prorogation of the House This Evening—The Final Scenes.

Victoria, May 11th.

The House did not finish its labors last night as hoped for. A number of bills were discharged, and considerable expedition manifested in passing business. The Coal Mines Regulation Bill was among those dropped. The extraordinary feature of the session was the effort by the government to push through a bill giving 20,000 acres a mile in subsidy to the Kamloops-Alton railway. They were unsuccessful in doing so, however.

AFTERNOON SESSION.

The House resumed at 2.30, the supplementaries again being taken into consideration. On the item for \$720, twelve months' superannuation allowance for Dr. Bodington, of the New Westminster asylum, a protest was entered by Mr. Martin on the principle that the pension system, if it was to be adopted, was not to be applied to certain cases only.

The Provincial Secretary defended the proposal, holding that the doctor had given long and faithful service to the province. Mr. Brown argued that the principle of superannuation should not be attacked in this case, where the doctor had sustained injuries while in the discharge of his duties.

Mr. Oliver said the doctor had received \$2,500 a year, and should be in a position where he would not require superannuation fund. On the estimates being submitted for second reading, Mr. Martin demanded a vote on the extra appropriation for Mr. Bland, because he received \$15 a month from the Law Society. Hon. Mr. Eberst pointed out that Mr. Beck, the registrar in Vancouver, got \$100 and \$30 from the Law Society, yet there was no suggestion that his salary be reduced. If Mr. Bland wanted to work extra hours to augment his salary no objection could be entered to it.

Mr. Martin was supported only by Messrs. Gilmour, Oliver, Brown, and Curtis. Mr. Martin then asked for a vote on the item for the superannuation of Dr. Bodington. Mr. Gilmour said the report of the commissioner indicated that the doctor was unfit to hold the position. Why did not the government the manliness to discharge him instead of superannuating him.

Mr. Oliver said the doctor had only been in the government employ two years, and was over seventy when appointed. Mr. Munro opposed and Mr. Brown supported the item. Mr. Hawthornthwaite supported the item because he wanted to see the pension system established, not because he had any confidence in the government.

The item stood, Messrs. Martin, Curtis, McInnes, Gilmour, E. C. Smith, Oliver and Munro opposing it. Mr. Helmcken asked what was being done to carry out the vote of the House for a new Government House. He didn't want to see that vote lapse. He didn't want to see that vote lapse.

Hon. Mr. Wells said the vote did not expire before September. Mr. Martin said work under that vote could not be legally started after June 30th. Mr. Hunter, while hoping the building would be completed with said there was nothing in the terms of union by which British Columbia was not obliged to keep up such an institution.

The estimates were then finally passed. Prorogation. The Premier here announced that the House would prorogue tomorrow evening at 9 o'clock. Land Registry. The Land Registry Act passed its third reading. Mineral Act. The Mineral Act Amendment Bill was committed, with Mr. Oliver in the chair. After a short discussion between the Minister of Mines and Mr. Curtis, the bill was completed with amendments.

It was then read a third time and finally passed. Dropped. To expedite public business the Investment and Loan Societies Bill and the Columbia & Western Subsidy Bill were discharged.

Creditors Trusts. The Creditors Trusts Deeds Bill was committed, progress reported and the House rose.

EVENING SESSION. The House upon resuming business at the evening session finally passed the estimates. Creditors Bill. The Execution Creditors Bill received its second reading.

Land Act Amendment. The Chief Commissioner in moving the second reading of the Land Act Amendment Bill took occasion in referring to the various sections of the bill to speak very hopefully of the prospect of establishing pulp mills in the country.

The House went into committee of the whole to consider the bill, with Mr. McInnes in the chair. Mr. Martin moved an amendment to the section dealing with the establishment of pulp mills, that no one should be employed in connection with those who could not upon being called upon to do so read the sections of this act in some European language. In doing so, he stated that rather than see Chinese of Japanese monopolize this industry he would prefer seeing no such mills established.

The amendment was carried. Wood Pulp and Paper Bill. Hon. Mr. Wells moved the second reading of the Wood Pulp and Paper Bill, and it was at once committed. It was reported, read a third time and finally passed.

Municipal Classes Act. The Municipal Classes Bill was read a second time and committed, reported complete with amendments, and read a third time. Trust Deeds Bill. The Creditors Trust Deeds Bill passed its third reading.

Stood Over. At 11.30 the government introduced a bill by message, providing for the granting of a land subsidy of 20,000 acres a mile. Mr. Martin refused to permit this bill to go through at once, and the government were obliged to stand it over. The same course was taken with a proposal to aid the Kamloops Irrigation & Power Co.

Telephones. The District Telephone & Power Company Bill underwent a number of amendments, one of which allowed the company to install telephones in Victoria. Legal Professions Bill. The Legal Professions Bill, as amended by providing that students need not serve as articled clerks, received the sixth month's hoist.

Dropped. The Inheritance Bill, the Coal Mines Regulation Bill and Labor Bill were dropped. Debate Adjourned. On the Landlord and Tenant Act, the debate adjourned on motion of Mr. Martin.

Acts Discharged. Arrest and Imprisonment Act and Fire Escape Act, Fence Act and Masters and Servants Act were discharged. Railway Act Amendment. Railway Act Amendment Bill was read a second and third time and passed. Dyking and Irrigation. The Drainage, Dyking and Irrigation Act was committed and read a third time and finally passed.

Coal Mines Act. On the second reading of the Coal Mines Act Bill, Mr. Curtis explained that it was intended to provide that in coal leases hereafter granted the Governor-in-Council and legislature reserved the right to fix the price of coal at the pit mouth or on cars. The amendment was withdrawn. Second Reading. The Municipal Classes Amendment Bill was read a second time.

To Australia. The Premier read a resolution of congratulation to the Federal parliament at the Commonwealth of Australia, now in session at Melbourne. This was carried amid great applause. Elections Act. The Provincial Elections Act was read

a second time and committed. Its principal provision is as follows: Section 7 of the "Provincial Elections Act" is hereby repealed, and the following substituted in lieu thereof: "Electors.—Qualification.—7. Every male of the full age of twenty-one years, not being disqualified by this act or by any other law in force in this province, being entitled within this province to the privileges of a natural-born British subject, and being able to read this act, or any portion thereof, to the satisfaction of the collector, if required by such collector so to do, having resided in this province six months, and in the electoral district in which he claims to vote for one month of that period immediately previous to sending in his claim to vote as hereinafter mentioned, and being duly registered as an elector under the provisions of this act, shall be entitled to vote at any election: Provided that no person shall be entitled to be registered or to vote as aforesaid who shall have been convicted of any treason, felony, or other infamous offence, unless he shall have received a free or conditional pardon for such offence, or have undergone the sentence passed upon him for such offence."

Mr. Curtis offered an amendment to prevent the bill being made retroactive: This was carried, and the bill passed its third reading and finally passed. The Willamette. Mr. Helmcken asked the Premier if he had any information in regard to the Moran wrecking matter. The Premier said he had wired to Ottawa and had received a reply.

The National Anthem. The House then adjourned until 8.30 this evening amid loud cheers and the singing of the National Anthem, led by the Attorney-General.

VICTORIAN MARRIED. Capt. McCookie, Well Known Steam Boat Man, Wedded at Bath. Capt. McCookie, of the steamer Willapa, was married at St. Luke's church, South Seymour, on April 25th. The bride was Miss Alice Jane Tye, daughter of Wm. Tye, of 7 Bloomfield Crescent, Bath. Arthur Saxty acted as best man, and Miss Emily and Nellie Tye, sisters of the bride, acted in the capacity of bridesmaids. The service was a full choral one.

Among the presents was an embossed silver manicule set presented by the officers and crew of the Willapa. The Imperial war office denies the statement published in New York that Lord Kitchener has telegraphed advising yielding to all the demands of the Boers, with the exception of independence, owing to his conviction that they cannot be forced to lay down their arms without a long continuation of the war.

WISE-HELM-MAN. Wife Put Him Right. All hotel men, as a rule, are healthy, but once in a while they are subject to stomach trouble like the ordinary mortal, and it is interesting to know what they do to provide themselves with proper food. In the case of Mr. McKee, of the Wheeler House, Howard, S. D., he finally got down to Grape-Nuts Food, and lived on it for a little over six months. He speaks of some wheat foods and other cereals that he could not digest, but Grape-Nuts is pre-digested and easy for the weakest kind of a stomach, so that he got well on it.

He writes at length, giving a description of his years of sickness and his final cure by food. He says he had become completely discouraged as he could not retain any food and digest it. Finally his wife heard of Grape-Nuts Food, and urged him to eat some of it and nothing else. He says: "I quickly began to gain in flesh, and my skin took on another color. I struck to Grape-Nuts and nothing else for over six months. I gained 25 pounds, began to sleep naturally, and have gotten quite well."

After a while I began to eat plain food again and felt no distress. The Grape-Nuts regulated my bowels and cured me of the old headache. The makers do not advise the use of Grape-Nuts Food alone, except in extreme cases like this. It is better, as a rule, to make the breakfast of three or four heaping teaspoonsful of Grape-Nuts with some good rich cream, together with a little cooked fruit and some Postum Food Coffee. At midday have a little meat and some vegetables, and at night have the same meal as the breakfast. This sort of a diet will cure stomach and nervous troubles in 90 cases out of 100.

TOPEKA'S REPAIRS. The Pacific Coast steamship, City of Topeka, which struck in Lyman canal some months ago and for a time was partly submerged, is again being repaired for service. She has left the quarters' dock, where repairs amounting to \$35,000 were carried out. The Topeka is being thoroughly refitted throughout and is to be re-trimmed. It is expected that the work on her will be complete inside of two weeks at the outside, so that she can go into commission.

Cut Rates Still Apply

No Satisfactory Decision Could Be Reached at Yesterday's Meeting in Seattle.

Queen City Returns From Coast—Amur Completes a Quick Northern Trip.

Local transportation companies in the Klondike trade have been called by their representatives who attended the big meeting held in Seattle yesterday to maintain the low rates to Skagway in vogue for the last few weeks. This is taken to mean that the object of the meeting, namely, that of arriving at an understanding between the different companies, in order that old rates might be restored has not been accomplished, and that the war will go on for an indefinite time. One of the reasons for this is said to be due to the fact that the C. P. N. Company absolutely refused to enter into any compact that did not include American companies from the Canadian field of business on fair conditions. Capt. Troop, manager of the C. P. N., attended the meeting, and his proposition is understood to be that the American steamers should land all British Columbia passengers before crossing the straits if they called on their way North at Vancouver or Victoria. The American companies, however, would make no concessions of this kind, and as a result the cut rates will continue to be applied. The steamer Cottage City is the first vessel to be governed accordingly. She sailed from here this morning, taking the following saloon and two second-class passengers, in addition to five and one-half tons of freight from this city: H. C. Manners, W. Nesbitt, Robt. Blair, C. C. McCulloch, Robt. Adams, C. H. Whitman, Capt. W. L. Latzley, Chas. McDonald, W. Enefish, Jas. E. Laughey, R. G. Campbell, S. McKay, A. J. McNaughton, A. J. English, C. P. Asten, C. C. Pemberton and J. Leary.

A new local agent for the Pacific Coast Steamship Company has just been appointed, in the person of W. D. Gutman, who has been furnished with desk room in the office of B. F. Rohrer & Co. The company intends making a more determined fight than ever for Victoria business, and Mr. Gutman's appointment is made in consequence.

A QUICK TRIP. Victoria steamers on the Skagway route have been making record trips during the last few weeks. The Amur, which arrived yesterday afternoon, completed one of the fastest trips she has ever made in the service. Among the passengers arriving on the ship were some five or six members of the crew of the wrecked Colorado in Wrangel Narrows. They embarked on the stranded craft, and have left her for good. The work of taking the concentrates out of the hold of the wreck was still in progress at the time they left, and it was thought that the vessel would be a total wreck. There were thirty-three passengers in all on the Amur, but few came from the interior points beyond White Horse. The complete list is as follows: E. Bernard, W. B. Copping, W. G. Kingston, W. McDonald, S. J. Mason, Mrs. W. M. Conley, Mrs. M. Smith, M. F. Barry, W. W. Boughton, Mrs. Boughton, Mrs. A. P. Mead, Frank Collier, Mrs. J. Jensen, Mrs. R. E. Kindell, H. Darin, W. Correy, Mrs. Burt Johnson, O. H. Pearson, John Wylie, John Anderson, W. Johnson, W. Henna, S. Kennard, E. Broadway, R. Matson, T. Maloy, A. James, S. P. Nelson, C. M. Smith, D. McDonald, Wm. Burns, Geo. Blanchard and C. Newbold.

The Amur will sail again on Wednesday. Already a large amount of freight has accumulated on the wharf for her.

THE QUEEN CITY RETURNS. Steamer Queen City returned from coast ports this morning, bringing the remains of the late Leslie Jones who, as told in last evening's Times, was killed in an explosion at the Monitor mine, Barclay Sound. The passengers arriving on the steamer were G. H. Harek, H. E. Newton, A. Rochester, who had charge of the remains; J. C. Anderson, who came down from Sechart to confer with Mr. Swaney relative to the transfer of some mining property which he owns at that point; M. Simmons, F. T. Child, who has been with the party making a survey for the telegraph line to be run from Alberni to Clayoquot, and George Smith. The steamer brought no gold or ore from the coast trip, and throughout the voyage sighted no sealers.

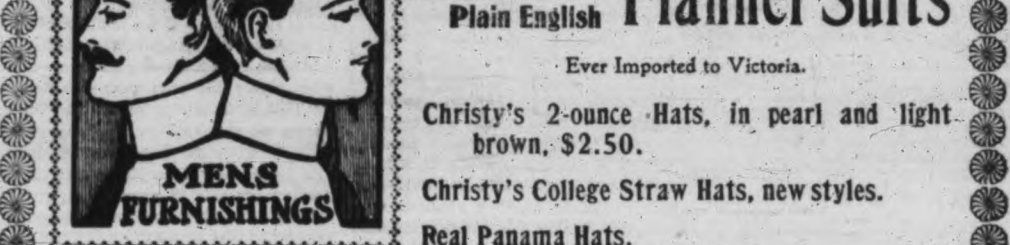

MARINE NOTES. Steamer Centennial is due to arrive in San Francisco from Honolulu to-morrow. The Centennial is one of the large steamers which will be in the Nome business this season. When she arrives at San Francisco she will be thoroughly renovated and overhauled preparatory to her northern voyage. She will reach Seattle about May 20th or 21st.

Wood received from Dutch Harbor states that the steamer Dispatch arrived there on March 31st, sailing April 2nd, for Nushagak. The Dispatch went within eight-five miles of that place and

MONTHLY REPORT. R. P. Rihet & Co. in the regular monthly freight and shipping report have the following comment on business during the past month: "There was a short decline in grain freights during the first part of the month, and quotations reached the low figure of thirty-two shillings and sixpence from San Francisco to United Kingdom or Continent. Owing to the continued dry weather there was some uneasiness as to the new wheat crop, but at the end of the month prospects improved with a general rainfall and rates recovered to the extent of one shilling and three pence to two shillings and six pence. The course of lumber freights is still downwards, and quotations have again been lowered. Although business is dull in export trade with few orders on hand, vessels for prompt loading are still far from plentiful."

CITY POLICE COURT. For Malicious Injury to Property John Williams is Sentenced to a Fine of \$20 and Costs. In the city police court this morning John Williams appeared upon two charges. The first offence charged against him was that of being drunk, to which he pleaded guilty and was fined \$25 or 5 days' imprisonment. The second charge was of a more serious nature, that of doing malicious injury to property. The circumstances of the case as related by the witnesses were that the accused had broken the lock of a cabin on Menzies street and broken property belonging to the occupant. The value of the damage done was put at \$6; articles belonging to another had been broken also to the value of \$4.25. In sentencing him, the police-magistrate said the accused might consider himself fortunate in not having the more serious charge of house-breaking laid against him, and sentenced him to a fine of \$25, with \$2 costs and \$7.25 damages to be paid forthwith, in default of which he should be imprisoned for 2 months, the term of imprisonment to commence at the expiration of the term for being drunk.

William Big Bell, of the White Horse saloon, upon the charge of selling liquor within prohibited hours, pleaded guilty this morning, and was fined \$50. Several drunks and four violators of the bicycle-by-law were also disposed of in the court.

Sentence was pronounced at Elberfeld, Prussia, yesterday, on the accused and others charged with assisting young men to evade military service. Bannmann, who furnished the pills producing artificial jaundice, was sentenced to seven years, besides five years' degradation of civic rights. Frankliff was sentenced to two years' imprisonment and three years' deprivation of civil rights. Several others were sentenced to shorter terms of imprisonment and eight were acquitted.

Mountain of Sulphur

Dawson Fire Destroys Seventy Thousand Dollars' Worth of Property on May 1st.

The mining of crude sulphur from the crater of Mount Makushin, an extinct volcano on Unalaska island, is one of the projects undertaken by John J. Habecker, treasurer and general manager of the Philadelphia Crude Oil Co., and his associates.

It was on the summit of this mountain that Dr. Chestnut, a prominent Philadelphia physician and well known capitalist, died last summer. Mr. Habecker brought his remains by the Rossok to Seattle, whence they were shipped to his home.

At the time of Dr. Chestnut's death parties were engaged in surveying the mountain to build a railroad to the summit, by which road the crude sulphur was to be conveyed to tide water. His death, and a series of small accidents which occurred subsequently, put a stop to the work for the season. This year it will be taken up again.

Habecker stated that he is now making preparations to send a party to Unalaska, which will complete the surveys for a road up Mount Makushin. Prof. William C. Pratt, of the University of Delaware, at Wilmington, will lead this expedition. Several engineers will be included in the party, as well as packers and laborers.

The Dawson fire, which broke out on May 1st, destroyed property to the value of \$70,000. The fire started from a stove in the rear of the building, and spread rapidly, owing to the high wind. The fire was extinguished after a struggle of several hours.

The formal prorogation ceremonies will take place this evening at 9 o'clock, the House meeting at 8.30 to conduct the preliminaries. In the absence of His Honor the Lieutenant-Governor, Hon. George W. White, a ministerial member of the province will give the Royal assent to the measures passed and prorogue the House.

There will not be the usual guard of honor furnished by the Fifth Regiment, as these, according to regulation, are to be on duty in the city. There will be no special invitations issued, excepting to those in official positions. The fire nearest the main entrance and the public galleries will be thrown open to the public.

A few of the members, including Messrs. E. C. Smith and G. W. Munro, left for home last evening. The majority will be on hand, however, for to-night.

The engrossed address presented to Hon. Mr. Turner by the members of the House is a unique souvenir. The picture of all the members as stamped on the border, that of the recipient surrounded by his colleagues of the ministry being worked into a horseshoe.

There are also photos of Mr. Turner's first office in the old building, of his Victoria residence, of the old seal and the present seal of the province, and finally of the present buildings. The whole forms a most interesting souvenir, and one which will be highly prized by the Finance Minister.

This morning was spent by most of the members in setting their desks in order. This afternoon most of them attended the gymkhana at Colwood. An error was made in the report of the Loan Bill debate on Thursday night in saying that all the amendments offered by Mr. Curtis were negatived.

Every subsidy granted under this act shall be subject to the conditions that the workmen, laborers or servants employed in or about the construction and operation of the railway in aid of which such subsidy is granted shall be paid such rate of wages as may be currently payable to workmen, laborers and servants engaged in similar occupations in the district in which such railway is constructed and operated, and upon breach of such condition by the railway company there may be deducted and retained from any moneys payable in respect of such subsidy, such amount as the Lieutenant-Governor-in-Council may think proper, and in case the subsidy shall have been paid before such breach of condition, the amount so determined by order in council may be recovered back from the railway company to which the same was granted, with full costs of action, at the suit of the Attorney-General of the province in any court of competent jurisdiction.

The body of Joseph Black, who was lost from the trail near Selwyn on the 20th of last January, having left Tracy last night, has been found, and is reported to have been badly torn and mutilated, supposedly by wolves.

The discovery of his body, however, is almost conclusive evidence that he was overcome by cold, the thermometer being nearly sixty below, and sink down to his death on the cheerless ice of the Yukon.

The disease rapidly spread until 38 cases were reported, since which time a partially effective quarantine has been in force.

There have been thirty cases in the Presbyterian hospital, mostly children. On the island there have been about 50 cases. During the prevalence of the disease there have been four deaths among the Indians, doubtless due to complications of smallpox.

Some 700 Indians were vaccinated at Sitka, but some took their chances and got away. All the whites have been vaccinated and re-vaccinated, so there is no probability of its spreading among them.

The only white affected, of whom I could learn, is the janitor of the Greek church, and he is recovering.

At Killisnoe there was one case in the village and fifteen on the island. The Indians there realized the danger of the infection and are enforcing a quarantine. There have been six deaths there since January. While we were there Dr. Leachman vaccinated 125 of them, all the points he had. He told the chief that he had not vaccine points enough for all, and the men therefore stood back for the women and children to be first treated.

All present there are no cases at Juneau, and the council has men stationed on the point to prevent any Indian coming in. Douglas is joining with Juneau in this quarantine.

At Haines there were no cases of smallpox, but Dr. Gibbons is vaccinating all the Indians there.

LABOR NEWS.

(Continued.)

Conciliation as a means of maintaining industrial peace between labor and capital was discussed by leaders of unionism and finance at the chamber of commerce, New York, recently. The meeting was arranged by the industrial department of the National Civic Federation and all of the contributors to the symposium were leaders in their several fields of activity. They met upon common ground and were a unit in the hope that strife would be eliminated from the relations of employer and toiler and a perpetual truce declared. The speakers were Samuel Gompers, president of the American Federation of Labor; Bishop Potter, John B. Mitchell, president of the United Mine Workers of America; Charles B. Flint, president of the American Rubber Company; Daniel J. Keene of the Illinois board of arbitration; William H. Hayward of the National Association of Builders; James O'Connell, president of the International Association of Machinists, and Hermann Justi, of the Illinois Coal Operators' Association. Samuel Gompers presided and in opening the meeting expressed the hope that a new epoch had come in the relations of labor and capital.

Rev. Mr. Cassidy, representing the Lord's Day Alliance before the Senate Trades and Labor Council, said capital and labor should be friends. That is an old, old song. Had he said they should meet on even terms, that would have come short of the truth. Labor created capital, and without labor the word capital would have no significance. But nature's laws make labor a necessary, and selfishness divides men into two great classes—capital and labor. The relative positions of these classes should be reversed—labor receiving the honor now accorded to capital. Capital, knowing it occupies a usurped position, is relentless in its tyranny, and will never be a friend to its slave. Labor can only win back its rights by unanimity at the polls, and consequent enactment of righteous laws. —William Joyce in Citizen and Country.

Victoria Typographical Union has started an agitation against the class of people in this city who are in the habit of sending East for their printing. The following petition which is now being circulated among the unionists, explains itself.

To the Public.—For the purpose of encouraging home industry, we, the undersigned members of Victoria Typographical Union, No. 261, and kindred branches of the printing business, promise to refrain from patronizing concerns who decline to support local enterprise by having their printing done in other places than Victoria.

Sir, Wm. C. Macdonald, who, by the creation of manual training schools and otherwise, has already done much for the cause of education in Canada, now has a plan for improving rural schools and keeping boys on the farm. Briefly stated, it is a method of teaching children, especially in rural districts, to observe nature, the phenomena of plant life, etc., and to initiate the system, it is proposed to bring expert teachers from England.

Secretary Garriety, of the Cigar-makers' Union, says that if the existing difficulty is not soon settled, the International Cigar-makers' Union of America, will take steps to establish a large cigar factory in Montreal, and is willing to put up from \$40,000 to \$50,000 for that purpose, and will allow the men to operate it themselves.

The industrial depression in Europe continues to spread. Upward of 100,000 workers are on strike or locked out in Russia and frequent collisions with the troops occur. In Germany the Krupps

have added 5,000 men to the already large army of unemployed iron, textile and other workers. In Austria and Switzerland the depression is daily becoming more intensified, and big strikes are raging in Italy. In France a national strike of the miners has been ordered for June 1st, and in Belgium also national strikes of various trades are contemplated. Wage reductions, strikes and shut-downs are following one another in the iron, mining and other industries thick and fast in England. Altogether, the outlook is a gloomy one in Europe, and there is much suffering among the exploited working people.

The cooks and waiters of all the principal restaurants in San Francisco went on a strike a week ago, owing to a disagreement arising between the union and the Restaurant Keepers' Association regarding wages. The fight was lively for a few days, and the union appeared to be getting a little the worst of it, when the union butchers came to the rescue, and refused to cut meat for the non-union restaurants. Then the bakers refused to supply them with bread, the milkmen passed their doors without calling, and the teamsters vowed they would not deliver goods to them. Now, some people will call this "tyranny," while others will say it is simply a "combine." The cooks and waiters won.

On a question of privilege at Thursday night's session of the legislature, Mr. Hunter rose to "square" himself, for what he was reported in the newspapers to have said concerning trades unions being implicated in the agitation for the amendment to the Medical Act. What he said was "that the agitation came from men, many of whom belonged to trades unions." Mr. Hunter's apology is accepted, but at the same time the criticism is pretty general that he went out of his way to cast a reflection on trades unions.

Where wealth is best distributed, or is common to the masses, there is the highest civilization. Where poverty is most distributed, or is common to the masses, there is the lowest civilization. The Journeymen Barbers' International Union has organized fifty new unions since the opening of the year. It is understood that an effort is being made to establish a branch of the barbers' union in this city, and that a meeting will soon be called for that purpose.

Trades unions do not claim to be the only institution for good, but we claim that when they have reached a stage of perfection, other reforms that are then desirable will come without the asking, and without effort.—Cigar-makers' Journal.

The Nelson Laborers' Protective Union and the West Kootenay Power & Light Co. are at loggerheads over the rate of wages to be paid members of the union. The company offers \$2.00 per day and the men demand \$2.50. A strike was the result.

The trade union, cooperative and Socialist congress in Belgium adopted a resolution to inaugurate a general strike in case the bill in parliament granting universal suffrage is defeated.

Mr. Robins, of the New Vancouver Coal Co. has entered into an agreement with his miners whereby the present rate of wages paid by the company will not be disturbed for six months.

Teachers endorse Union. Committee Appointed in Draft By-laws in Connection With the Organization.

At the meeting of the Teachers' Association in the city hall yesterday, a resolution of a teachers' union came up for full discussion.

The election of officers for the ensuing term were: President, E. B. Paul; vice-president, C. L. Brown; secretary, Miss A. E. Fraser; executive, J. W. Gillis, Miss A. E. Gardner, and S. A. Robinson.

Whereas Canadian teachers and the educational interests of Canada generally have long suffered from the lack of organization in the profession, whilst teachers' unions in Great Britain and elsewhere have proved a great success; and whereas the time seems now ripe for the formation of a teachers' union in British Columbia;

Resolved, that this Institute is hereby in favor of a teachers' union, and stands prepared to co-operate in such a move to enter a British Columbia union; and be it further resolved that a committee of seven persons be appointed, who shall be empowered to examine into the constitutions of similar bodies and to draft a constitution and by-laws for the governance of a Victoria Teachers' Union, to be presented at the next meeting of this Institute, and also to communicate with other institutes and educational centres of the province and urge forward the formation of similar unions elsewhere, with a view to the ultimate formation of a Provincial Teachers' Union.

It passed unanimously, and, as provided for in the resolution, the following committee was appointed to carry out its provisions: A. B. McNeill, Miss A. D. Cameron, C. L. Brown, L. J. Tait, S. J. Willis, A. T. Pines, and Miss L. A. Barron.

OTTAWA POINT NOTES. (Special Correspondence of the Times.) On the 4th inst. a most enjoyable evening was spent in our rustic school house, when a concert and social was given in aid of our organ fund. The success obtained was to a very great extent due to Messrs. Sprague and Pirih.

The local talent was represented by the following, who each performed their part with great success: Miss Edna and Master John Whittier, of Sooke; Miss Lena Clark, Miss Marjorie Anderson, Miss Clark, Miss Campbell, and Mrs. Anderson. Refreshments were provided by the ladies, for which a most hearty vote of thanks was tendered to them. After votes of thanks being unanimously given to the chairman and Mr. Pirih, the National Anthem was sung and the programme was finished. The rest of the evening was spent in games and dancing. About midnight "Auld Lang Syne" was heartily sung. Our organ fund is growing apace, due to a very great extent to the generosity of friends.

On the evening of the 8th inst. a well attended public meeting was held at the school house, when matters pertaining to the roads of this district were discussed.

ENCOURAGING REPORTS.

Finance Committee Grant Appropriations to Progression and for Encouraging Rifle Shooting.

A meeting of the finance committee was held yesterday afternoon in the committee rooms, city hall, for the purpose of transacting business in connection with the coming Victoria Day celebration. There were present the Mayor, who occupied the chair, and Messrs. Price, DeLaff, Cuthbert, Brassel and Smith.

Mr. Cuthbert pointed out that the meeting had been called for the purpose of granting some appropriations which were absolutely necessary for the forwarding of the preparations for the celebration. He stated that the committee were all at work and so far they had received the greatest encouragement.

Towards the end of the evening attention was drawn to the fact that of all the members of the committee only six were in attendance. Mr. Cuthbert said that about forty post cards had been sent out, and it was pointed out that the probable cause of the small attendance was the rather inconvenient time the meeting was called.

The secretary then read a list of the amount of appropriations asked by the various committees as follows: Regatta, \$225; band, \$250; reception, \$100; procession, \$250; sundries, \$250; printing, \$300; illumination, \$500; sports, \$100; rifle shooting, \$100. It was estimated by the secretary that the total cost of the celebration would amount in all to about \$3,100.

The Mayor deemed it passing the proposed appropriations with so small an attendance. It was, however, decided after some discussion that the more pressing appropriations be granted, while the others be allowed to stand over until another meeting, when a larger number of the committee would be in attendance. This suggestion was adopted.

It was moved, seconded and passed, that \$100 be appropriated for the encouragement of rifle shooting. It was pointed out in this connection that the 24th would be an ideal date to open up the new rifle range.

Mr. Cuthbert stated that the rival people were taking a great deal of interest this year in the regatta, and that anything they could do towards its success would not doubt be granted.

It was pointed out by Mr. Price that it would require quite a sum of money to make the procession a success, and he advised an appropriation for that part of the celebration, so that the work could be proceeded with at once. This view was taken by the meeting and a grant of \$800 was made to the procession committee.

The meeting was adjourned until Wednesday evening next.

GRIFFITHS' MENTHOL LINIMENT

OLD PEOPLE

There are thousands of Grandfathers and Grandmothers too, right here in Canada, who find in Griffiths' Menthol Liniment the only thing that does their stiff, aching joints any real, lasting good. Whether it is Rheumatism, Lame Back, a Pain in the Shoulder, Hip, Knee, Arm, Leg, or any other part of the body, Griffiths' Liniment will reach it and give you almost instant relief. Nature never made anything else so good for bodily aches, pains, stiffness or soreness, as this wonderful vegetable oil Liniment. It goes right in to where all the soreness is and removes it. You will find it pleasant to use, never burns or blisters, and it rubs in so rapidly, and takes out the pain so quickly that you will wonder where it all went to. Griffiths' Menthol Liniment makes the declining years of life free from pains that come on as the days go by. Just go right to your drug-gist and get a bottle and after you have tried it you will wonder how you have done without it all these years.

Griffiths' Menthol Liniment cures all pains and aches. Griffiths' Menthol Liniment is the only, exclusive vegetable oil and non-poisonous Liniment made. Sold everywhere at 25c. per bottle. See that you get Griffiths' Menthol Liniment. There are imitations but they never did anybody any good.

Farwell to Mr. Turner

Members of the House Express Their Appreciation of the Finance Minister.

Some of the Amenities of the Last Day—Good Whip Remembered.

The close of the session was marked by a number of incidents which go to illustrate the amiable rather than the more unpleasant features of parliamentary life.

Legislative Assembly, Victoria, B. C., May 10, 1901.

Dear Mr. Ellison—As the session is now drawing to a close your friends and associates in the cause of good government are desirous of recording in a fitting manner your arduous and pressing labors during a period full of work and responsibility.

Mr. Ellison replied in appropriate terms. Hon. Mr. Turner, the oldest of those who have held portfolios in the past, was also honored by the men who during this session have fought with and for him.

It is the unanimous wish of the House that before the close of the session there should be some formal recognition of the esteem in which, without exception, you are held by its members.

ALLEGED CONSPIRATORS. Several prominent men arrested at Monte Video.

CASTORIA For Infants and Children.

you have come in contact is but one of the many reasons for your popularity among the people of Victoria.

It is not wholly a secret, we believe, that you are about to enter upon a new sphere of usefulness, in which the responsibilities of office will be not less important than those which you have previously borne.

There is not a member of this House who does not appreciate the distinguished and faithful service you have rendered to your country and who does not highly esteem your personal friendship.

As an able and conspicuous member of the House and as one who has been its leader, as well as for such a length of time the exponent of the financial policy of the government, it is realized that your absence will be sorely felt.

In your new sphere of usefulness we bespeak for you still higher honors, and we trust that you may be long spared not only to represent this great province in the heart of the British Empire, but that you may enjoy that measure of respite from business cares and political warfare which arduous years spent in the public interests so deservingly entitle you.

The presentation took place in the ante-chamber of the House at the close of the sitting of the House at 1 o'clock this morning.

Japanese Situation

Since the Backdown of Russia Matters Have Resumed Their Normal Course.

Corea Will Be Necessary as a Field for Emigrants From Japan.

Yokohama, April 25.—Since the backdown of Russia, by which she has just, in essence, in her prestige in the Orient, matters have resumed their normal course.

There is no doubt that the Japanese government will be glad to see the strength of the national sentiment regarding Corea.

Commanded By Roberts

Dispatch Telling of Excellent Work of Officers During South African War.

Names of a Number of Canadians Are Mentioned by the Field Marshal.

The London Gazette of April 10th contains a further dispatch dated London, 2nd April, from Lord Roberts, in continuation of his despatch No. 1, dated Johannesburg, 12th November, 1900. In the present despatch Lord Roberts refers to the excellent work done during the campaign up to the 27th November, 1900. Our space will in most cases not allow of more than a brief record of some of the names and appointments held.

General Lord Kitchener of Khartoum, G.C.B., K.C.M.G., R.E., chief of the staff, rendered the untiring and very loyal support, and I am greatly indebted to him for the valuable assistance he has at all times afforded me. He has held a difficult position, and he has discharged his duties with consummate ability. I left the command of the army in South Africa to his able hand, and he would do all that man could do to bring the present phase of the war to a speedy conclusion.

Major-General Robert Canadian, Regent of the Orange River Colony, in the early part of 1900, from that time onwards he was in command of the Orange River Colony, and he has discharged his duties with great ability and loyalty. He has shown exceptional ability in carrying out the somewhat thankless task of pacifying the Orange River Colony and procuring its communication.

Colonel H. E. Smith-Dorrien, D.S.O., has done excellent service since the commencement of the war. He has shown exceptional ability in carrying out the somewhat thankless task of pacifying the Orange River Colony and procuring its communication.

Colonel H. E. Smith-Dorrien, D.S.O., has done excellent service since the commencement of the war. He has shown exceptional ability in carrying out the somewhat thankless task of pacifying the Orange River Colony and procuring its communication.

Colonel H. E. Smith-Dorrien, D.S.O., has done excellent service since the commencement of the war. He has shown exceptional ability in carrying out the somewhat thankless task of pacifying the Orange River Colony and procuring its communication.

His meriting instinct, and his perfect loyalty. His services have been of incalculable value to the empire, as well as to myself.

Major-General R. Pole-Carew commanded a brigade under Lord Methuen to that of the satisfaction. Given the command of a division in April, 1900, he did good service at the battle of Diamond Hill and in the subsequent advance to Komati Poort.

Major-General R. S. S. Baden-Powell, as the gallant defender of Mafeking, is already well known. Since the relief of that town he has held a command in the field, and I selected him for the responsible position of inspector-general of police, in which his undoubted organizing powers will have ample scope for good and useful work.

Since his command of the 13th Brigade, he has given Colonel Knox on several occasions the command of mixed columns, and in every case he has fully justified his previous reputation as a gallant soldier, a sound strategist and a good tactician.

Colonel Knox was of immense value to Sir Buller's White during the siege of Ladysmith, and afterwards as director of supplies to the field army. His readiness and resource, his imperishable good temper, his power of organization, and thorough knowledge of the duties, deserve the thanks of all who served in the Orange River Colony.

Colonel Knox served with credit throughout the siege of Ladysmith, and since then while commanding a brigade in the Orange River Colony, has carried out his duties in an efficient manner. He has shown exceptional ability in carrying out the somewhat thankless task of pacifying the Orange River Colony and procuring its communication.

The following correction has been made in the army order relating to the South African medal. Par. 10 is now to read: A class inscribed "Boifast" will be granted to all troops who, on the 26th or 27th August, 1900, were east of a north or south line drawn through Wonderfontein in the garrison and troops quartered at Wonderfontein on those dates will not receive the class, and west of a north or south line drawn through Dalmutha Station, and north of an east-west line through Carolina, the word "Carolina" being substituted for "Dalmutha Station" in the original order.

A lengthy list of rewards and honors for officers who have distinguished themselves during the operations in South Africa is published in the Gazette. It cannot be regarded as final, considering the contracted and varied character of the services which were rendered, nor will anyone grudge a proper recognition for men who have borne the brunt and cost of the war for a number of months. It is to be noticed, however, that the list only brings us down to the 26th November, last year, the day on which Lord Roberts handed over the command, and that the recommendations received during the month, January, and February have not yet been dealt with, except in the case of Lord Chesham, who became a K. C. B., and of some of the colonials. Amongst others who obtained the same honor as Lord Chesham may be noted the names of Lord Methuen, General Charles Tucker, Colonel H. E. Smith-Dorrien, Colonel Knox, and Colonel Buller, as well as those of Hamilton and H. For Macdonald, who has just been appointed to an important command on the Orange River. A very large number of officers became C. B.'s, including the following: Major-General Buller, Lord Kitchener, Sir John Buller, and Sir Frederick F. Walker have been given the honor of C. M. G., and are very gratified to find how many of those who came from Canada, America, and other countries were rewarded for services during the war.
