A TRAGEDY IN THE HOME

When the Money-Maker Falls Ill
Wives and mothers, who are dependent upon the wages of husbands and sons, should see that the men take care of themselves. When the men are out of work, through sickness, no money comes in. When the men complain of headache and headache—of Rheumatism or Lumbago—take things in your own hands and get GIN PILLS. A box or two of GIN PILLS may save you many dollars in the pay envelope.

"My husband was taken with severe Kidney Trouble last winter and could not work for some time. After taking one box of GIN PILLS, he was able to go back to his work again. He continued with GIN PILLS until he had taken two boxes when the pain had entirely gone from his back. You may publish this letter as I sincerely wish every sufferer, who has Kidney Trouble, should test the merits of GIN PILLS.
"MRS. M. E. GARDNER.
If you have tried medicine and doctors, without relief, do as Mr. Gardner did—take GIN PILLS. They will help you and cure you—money refunded if they fail. 50c a box—6 for \$2.50—sample free if you write us. National Drug and Chemical Co., Dept. V. T., Toronto. NATIONAL LAZY LIVER PILLS for Sick Headache, Biliousness, Constipation and Indigestion. 25c a box. 61
—Collections given careful attention—R. V. Winch & Co. Ltd.
According to a return made by the British Home Secretary, there are at present twenty-two known private houses in London in which opium smoking is practiced, mostly by "Chinese" women. The commissioner of police declares that the practice is on the decrease.

HEARTY SEND-OFF FOR SIR WILFRID

POLITICAL OPPONENTS JOIN IN DEMONSTRATION

Premier in Best of Health for Arduous Work Which Awaits Him

(Special Correspondence.)

Ottawa, May 12.—The departure of Sir Wilfrid Laurier for England yesterday was the occasion of a stirring demonstration from his supporters, from prominent citizens, and even from political opponents. Hundreds assembled at the Union Depot a little after twelve to wish him bon voyage. His appearance was marked by tremendous cheering, which caused the celebrated sunny smile to spring to his face and remain there until his train passed out of sight. Among those at the depot were his right-hand man, the Honorable W. S. Fielding, Minister of Finance, who will lead the House in his absence, and all the other members of the Cabinet. The send-off was altogether impromptu, with "O Canada," the Scotchmen with "Will Ye No Come Back Again," and everybody with "God Save the King."

Sir Wilfrid started out in the best of health and spirits, in spite of the heavy responsibility he is carrying. The big domestic issues this country is facing, and the large Imperial questions with which the Empire's statesmen have now to do. One would imagine from his demeanor that he hadn't a care in the world. He is one of those rarely gifted men who have the faculty of avoiding worry. No matter how wearying may be the pressure or how onerous and difficult the various tasks to which he sets his statesmanlike hand, he can detach himself from any of them without a moment's hesitation, and eradicate from his mind any lingering traces of them. It is this capacity for mental detachment which enables him to keep his health and spirits in every situation. It indicates indomitable will and perfect self-control. Sir Wilfrid's exhibitions of self-control are the conspicuous features of the Parliamentary session. Seldom indeed is he absent from his seat, no matter how stale, flat and unprofitable may be the debate; it matters not whether a back-bender is wasting time and energy by repeating for hours and hours arguments for or against reciprocity which have already done service a dozen times, the Prime Minister is always attentive, and seems always interested. He never misses a division, and very rarely does he leave the House before the final adjournment at midnight or after. During his comparatively brief absence abroad, he will be greatly missed in the House of Commons, not only by his followers, but by his opponents. There is no man either in the House or in the country—and there are few in the Empire—who care measure to him, and there is no doubt that when he returns he will receive a right royal welcome from the men of both parties.

He leaves the leadership of the House in good hands. The Minister of Finance is one of the greatest men Canada has ever produced. He was a record breaker in point of service as Prime Minister of Nova Scotia, before he entered the Cabinet of Sir Wilfrid Laurier; he has been a record breaker as Minister of Finance since he became head of the Federal Department of Finance. He is a man of exceptional energy, who bears the burden of almost overpowering responsibilities, always alert, apparently never preoccupied, with an extraordinary capacity for grasping the heart of the most complicated questions that arise in the House of Commons, easily the readiest debater in that body, he is one of the giants of Canadian public life. One would imagine that the consideration of the thousand and one details involved in preparing the budget speech; in the present reciprocity agreement, and in the various financial arrangements of the country, would be enough for one man; but even with these large issues in his mind, the Minister of Finance can always be depended upon to meet any opponent or any number of opponents upon any subject they see fit to introduce to the attention of the House.

The Liberal Party of Canada is proud that it has produced a statesman so illustrious as the Right Hon. Sir Wilfrid Laurier, and so able a man as the resourceful Minister of Finance, Mr. Fielding.

CASE DISMISSED.

Nelson, B. C., May 20.—The action brought by A. L. Houston against A. G. Fraser, of Trout Lake City, for unnamed damages alleged to be due in connection with the sale of the Broadview True Issue group in Larouan district, was dismissed by Justice Murphy in the Supreme court yesterday afternoon. Judgment in Larson vs. Wells was reserved.

AT LAST, A CURE FOR RHEUMATISM

"Fruit-a-tives Cured Me" Says Mrs. Baxter.

"I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without help."

"I saw 'Fruit-a-tives' advertised in 'The Telegram' and decided to try them. After I had taken one box, I was much better."

"When I had taken three boxes, I could use my arm and the pain was almost gone."

"After taking five boxes I was entirely well again. The cure of my case by 'Fruit-a-tives' was indeed splendid because all the doctors failed to even relieve me. 'Fruit-a-tives' cured me."

"MRS. LIZZIE BAXTER, 4 Home Place, Toronto, Dec. 15, '09."

In hundreds of other cases, "Fruit-a-tives" has given exactly the same satisfactory results because "Fruit-a-tives" is "the greatest blood purifying medicine in the world." "Fruit-a-tives" the famous fruit medicine regulates kidneys, liver, bowels and skin, and prevents the accumulation of uric acid, which is the prime cause of Rheumatism.

"Fruit-a-tives" will positively cure every case of Rheumatism, when taken according to directions. 50c a box, 4 for \$2.50, or trial size, 25c. All dealers, or from Fruit-a-tives Limited, Ottawa.

RACING TEST FOR FLYING MACHINES

Contest Will Be Held in New York This Summer — Prizes Total \$10,000

New York, May 20.—A fifty-mile airplane race for prizes totaling \$10,000, designed as an actual racing test for three flying machines of as many different types, will be held in New York this summer if a suitable course can be induced to enter. The competitors proposed for the contest are Paul L. Livingston, Captain Thomas Baldwin and Thomas Sopwith. Captain Baldwin has flown his bi-plane at 50 miles an hour. Livingston has a new 70 horse power Bleriot, and Sopwith, English aviator, will fly in an English machine.

SUPPOSED ELOPEMENT.

Couple Who Disappeared From France Expected to Reach Montreal on Monday.

Montreal, May 20.—The St. Lawrence route will have another romance of international importance, although possibly not as famous as the Crippen-Leneve affair last year.

Miss Helene Benoit, a prepossessing French woman of 23, up to last November was governess in the employ of a wealthy family named D'Abbadie at Extroux, France. The young woman was attracted to Canada, and after some effort succeeded in obtaining an appointment as a French teacher in the Paris school of the Bonno Madonne, Saskatchewan. Miss Benoit was to have sailed from France on April 27, and notified the wife of the wealthy Canadian north to expect her about May 15. The young lady has a cousin as sub-rector of a college near Montreal.

Inquiries from France instituted a search for the young woman and also for the whereabouts of her late employer, D'Abbadie, who disappeared from his estate at Eyreux, France, almost simultaneously with the young lady's departure for Canada. Investigations by English and French detectives have traced the two to England and to the gangway of the Lake Manitoba, which sailed for Canada on May 15. The Lake Manitoba is due in Quebec on Monday. Miss Benoit's two brothers arrived yesterday in Montreal from France.

Of 1,121 aliens naturalized in Britain last year, 299 were Russians and 34 Germans, while of the whole total 468 acted in London.

THINKING THEMES BY DR. FRANK CRANE

I conceive the word Home to be the key-word for all the moral forces at work in America. Religion is moving over from Justification to Justice, is laying less stress on safety after death and more on honesty before death. Socialism, in its heart, means brotherhood. Trade unionism aims, in its innermost feeling, at fairness. Even the extreme agitators, if we come sympathetically to the core of their purpose, are struggling to make us all free family, even if they are as mad as the French Revolutionists, who cried

"Sois mon frere on je-vous tue!" (Be my brother or I'll kill you!)

The Home Instinct is working in us. We shall never stop until Home impulses are substituted for egoistic, until the Nation shall become a vast family, until we learn to work for the joy of service instead of for gain, until all separators, as wealth and poverty, caste and ignorance, have been swept away, and we shall each feel the real Motherliness of the human race. It is coming. We are far, very far from it now. Sometimes the world seems to be utterly barbarous, and men seem to stalk among office buildings as savages among trees. "For," says Maeterlinck, in a passionate phrase, "it is little less than the laborer who passes by, that we should be better fed or clad than he, that we should buy any object that is not strictly indispensable, and we have unconsciously assumed, through a thousand by-ways, the ruthless act of primitive man despoiling his weaker brother." Thank God we are not happy so! We are fighting, struggling, wrestling, but it is toward each other, that at length all barriers may be broken down, and that

we may learn to co-operate in one national Home, instead of competitively battling in a national arena.

PEACE PROSPECTS.

During the past two weeks the negotiations looking to the conclusion of an arbitration pact between Great Britain and the United States, by whose terms all matters affecting the international relations of the two Anglo-Saxon nations of the earth may be settled without resort to arms, have made amazing progress. The finished tentative draft of the agreement which has been placed in the hands of the British Ambassador at Washington is even more liberal than the articles at first published as the text of the proposed pact. The cordiality with which the cabinet summary of the draft was received in Britain early this week and the utterances of British press and public men confirm the anticipation that Britain is prepared to go quite as far as the United States in making the agreement as wide and liberal as possible.

Since then, however, France has intimated her willingness to make the agreement final, and yesterday the French Ambassador at Washington was made a party to the negotiations.

There have been, also, semi-official reports that Japan has signified her willingness to enter the compact, and while these are not yet confirmed, there is nothing in the utterances of Japanese responsible ministers, made from time to time on war questions, to cause doubt that the rumors are without some foundation. Should these four nations enter such a pact the moral effect of the agreement would be such that tremendous pressure would be brought upon all other powers. The reflection incident to a refusal to make the pact world-wide would be almost too much for any governments of other civilized powers.

But it is not so much with the present status of the peace problem or the immediate future of its results that we are this moment concerned. In the quiet of the week-end it may be profitable to devote some thought to the influences which have brought about the present conditions and find, if possible, the basic reason for such a modern movement.

More than forty years ago Queen Victoria gave expression to feelings of consuming desire for a world-wide peace. She was the first monarch of whom it is recorded that such an expressive form as the longing of a royal heart.

Since then The Hague Tribunal has been formed and two conferences of world powers have been held for the discussion of questions of world-wide unity. As the outcome of these peace societies have been formed in every Christian nation and a popular impetus has been given. The idea if not the peace movement. There are 175 peace societies in France, 85 in Germany, 70 in

Britain, 50 in Sweden, 35 in Italy, 53 in United States and several important ones in Japan, White Australia, China and Africa are not without a beginning in this sentimental work.

The late King Edward VII. was so successful a diplomat and so thoroughly enamored of the peace idea that he completely revolutionized the foreign relations of Great Britain, settling many matters which had been for many years the ulcerating sores of nations without sufficient inflammation to make them cause of war. So recognized is King Edward's influence that he goes down in history bearing the name of peacemaker.

The last to receive the distinction of greatness in such a cause is President Taft, whose place in world history may yet become unique. He has projected into international politics the question of questions, and it would appear now that he is to be rewarded with the guerdon of triumph.

Doubtless we have omitted many of the conspiring personalities and influences that have been at work to make possible the present condition of affairs, but enough has been said to show that to men rather than to indefinable and intangible sentiment belongs the credit for practical results that obtain. And it should be said that these men were all animated by a very practical appreciation of the truly religious forces that are at work in the world. We do not mean that they have made religion prominent in their professions, for veritable religion is never vaunting in its nature. None of the men who have seized the psychological moment to grasp what a multitude have been praying for have been men noted for their piety, if by piety we mean the conventional thing. It has been charged of some of them that they were not good men; that they descended to the revelry of the common and ungodly herd; that they were men dangerous to society, of whose example we were warned to have a care. Perhaps so, but they were men who, having seen all and tested all, were discerning enough to recognize the abiding principles which underlie all enduring things and to recover themselves from the lesser things of life that they might perform the greater.

None of them has promulgated a New Tenor decree or ordered its enforcement. None of them has sought to make burdensome the obligations of morality, or to lay upon the people a yolk that was arduous to be borne. The particular form in which their faith in the eternal principles was symbolized was not so much a matter of concern with them as that it should be a vital faith. In their estimate of the person of Jesus or Nazareth they did not bother themselves whether he was to be called "Homolousos" or "Homolouston," but they managed to catch his spirit. It was strong enough to defy conventions, to belittle ceremonial, and yet to maintain in its most serviceable sense the essentials of true religion.

Perhaps we heed the great theologian; mayhap we heed the forgotten angles of truth, and there are enough of these. God, however, raises up men in the fulness of time who have practical visions and whose purpose it is to bring the whole world into harmony with the abiding purpose of all revealed religion, and the great statesman is always greater than the great theologian. Each has his place, but the lesson upon the world which history and events have a thousand times repeated is that the practical act is greater than the thought.

It might have been more modest to put it "Railways and The Colonist."

UNCOVERING THE METHODS.

It would be uncharitable to impute motives of a sinister kind to the instigator of the present insinuation columns against the honor and integrity of Hon. Frank Oliver, and his folly can best be attributed to his disappointment in life, which may have been sufficiently oppressive to make him politically sore. We have known men who have attempted that which was impossible in the way of patronage, and their disappointment has left them with a grudge which accounted for years of after grouching.

The persistency, however, with which most all of the Conservative organs repeat the insinuations, elaborate the fictitious grounds upon which these are based and keep up their continuous farce performance is a weariness to the flesh.

Everyone knows, of course, that the alleged photographs of a bank account of the minister were denied authenticity by the manager of the bank in question, but the method by which this, seemingly convincing, fraud was perpetrated is not generally known. We had not seen in print, until the arrival of the Monetary Times of Toronto, an explanation of the method by which the dishonorable convivors in this gigantic fraud carried out, their nefarious purpose to slander a public man for personal and political ends.

The Monetary Times piques itself on its record as a non-political paper, but explains that the attack on Hon. Mr. Oliver is of a kind the last of which might be expected. It says it regards Mr. Oliver as one of the strong men of the Dominion, a man who has actually hewed his way as a pioneer across the prairie and as a statesman through the labyrinth of politics.

It then takes up the question of the forgery, and for the first time discloses what is known of the mode of procedure. We read its account as follows:

"There is a serious aspect of the Oliver incident which has not received due attention, and is the relation of a bank to its customers and in turn to curious mongers. A photograph is said to have been taken of a certain bank's ledger page showing part of Mr. Oliver's bank account. If that photograph had really been taken it would reflect little credit upon the institution guarding the account. The photograph was apparently faked in a clever although clumsy manner. So far as we can learn, a minor official of the bank which had Mr. Oliver's account was approached by a certain gentleman whom we need not name with an offer of a substantial cash payment and a comparatively high and permanent position elsewhere. The bank official, whose method of address is usually at the best, was so astounded at the request, that his reply may be recorded as a matter of history. The applicant was told to 'Go to h—'

"The branch bank manager was informed as to what was happening. (In the meantime by some, up to the present, incredible manner certain items of Mr. Oliver's account had been secured, and apparently copied upon a ledger paper, then photographed. This was the photograph which Mr. D. R. White, general manager of the Imperial Bank, stated in the most emphatic terms was not an exact photograph of Mr. Oliver's account, as had been stated. A comparison of the original with the spurious at once reveals this fact."

With this generally known, as it must be throughout the east, it is extremely difficult to excuse the misconduct of the fabricator of the press that is hounding Mr. Oliver and demanding that he account for the money which the fake bank account says he received. It is sometimes necessary to resort to detective methods in order to secure evidence against a criminal, but the sleuth who manufactures evidence in order to make a case is one of the most contemptible and despicable of all the human cattle allowed to live. There is nothing for him anywhere in decent society but execration. And to say that "there is a principle involved" in the demand that Mr. Oliver should disclose where he got this money is to compel the question as to what principle is involved.

It is bad enough to manufacture evidence and resort to crime in order to convict an outlaw who is known to be such, but to resort to forgery in order to attach suspicion to the name of a public man whose honor is as dear to him as his life is beneath contempt. The squalid pack of newspaper hounds who are buying at Mr. Oliver's shadow when they know how slender is the thread of insinuation by which they connect him with a malfeasance in office are simply proclaiming their hypocrisy to the world, and to talk about principle being involved in a matter of this sort is a false alarm.

It is fortunate that these things happen in time to show the desperate danger of the opposition for the place and power of office. Their estimate of Mr. Oliver is a safe guide to what they may be expected to do themselves if they should ever come into possession of the treasury benches. And their resort to such devious methods to gain office is a safe index to the quality of the "principle" that will be requisitioned in their administration.

Do not put off till Tuesday what you will not have another chance to do again this year. Vote for all the by-laws on Monday. The School By-law provides only for such expenditure as is necessary to put Victoria's place in educational matters on a level with her progress in material affairs. The Sewer By-law is imperative and a favorable vote enabling drainage to be made now will save thousands

W. & M. SHEPHERD, MONTREAL, SOLE AGENT FOR CANADA

later on. The Library By-law affords the opportunity for voters to testify approval of an institution that can be made of great service and pride to the citizens. Give the police courts suitable accommodation and encourage the morals of Victoria. Do not forget that your progeny 100 years from now will bless the memories of men who gave them parks.

Rev. Albert Carman, D. D. for many years and still the veteran General Superintendent of the Methodist church in Canada, gave evidence recently in the case of Rev. Dr. Workman, who is suing the trustees of Montreal Theological College for dismissal from its professional staff on account of alleged heterodoxy in his doctrinal beliefs. Dr. Carman in giving his evidence is reported to have said that his "testimony might be regarded as the voice of the Methodist church." Now that we give a resume of his insistent orthodoxy in the news columns of the Times the Methodist ministers of this province will know what they subscribed to when they took their ordination vows. It will be the first time.

At the Strangers Rest a social evening will be spent to-night.

All Foresters are asked to remember the open meeting to be held at the K. of P. Hall on Tuesday evening, May 23.

The police department is getting after merchants and others who unpack goods on the road or sidewalk and leave nails lying about. All litter must be carefully gathered up.

The Saanich municipality is taking steps to quell the noisy youths who congregated at the George bridge on Sundays and pass impudent remarks at those in canoes and boats on the water below. Some fresh youngsters on Sunday last went beyond the bounds of restraint and pelted the people below with oranges and other things.

A meeting of the members of the Victoria branch of the Archaeological Institute, will be held in the council chamber, city hall, at 8 o'clock this evening for the purpose of organization. Professor A. Judson Eaton of McGill University will deliver a lecture on "A Roman Gentleman's Home of the First Century."

By the addition of the twelve men to the police force the suburbs will

receive more police protection. Two are to be detailed to James Bay, two to Victoria West, and Foul Bay, Fairfield, and North Ward districts will get additional protection. Assistant Chief Palmer is now working out the new beats. Until horses are purchased the two mounted men will do foot duty.

world, not even Mr. Rockefeller's millions. You know money doesn't bring you so much, anyway.

The old prize fighter and present philosopher pointed to a picture on the wall in the boxing room of the New York Athletic Club—his room. He looked at it with reverence. It was a large half-tone of a powerfully built man, with muscles standing out all over his naked body.

"That guy," said "Mike," "gave me the hardest fight of my life. Because we were afraid of the authorities we could not have a ring and were fighting in a cleared space on rough ground, with nude fists. In one corner of the lot was a stump—an ugly thing which had been splintered by lightning. Murray rushed me and had me going for a minute. He was backing me into the stump. I didn't know that it was there and was giving ground. The crowd separated and Murray's backers shouted—

"Come Back Here, Mike," He Said, "There's a Bad Stump Behind You."

Mike Donovan, now teaching the manly art at the New York Athletic Club, recalls fighters of a bygone day, their severe battles and their politeness in the ring.

Mike Donovan, now teaching the manly art at the New York Athletic Club, recalls fighters of a bygone day, their severe battles and their politeness in the ring.

"Rush him, Jim." Now you got him. Knock him over the stump.

"Come back here, Mike," he said. "There's a bad stump behind you and you may fall over it and hurt yourself."

"I looked around, saw it for the first time and walked away from it. He could have rushed me and won the fight then. I never received so much punishment in my life as I did in that fight. He is a great man. There was decency in the prize ring among the old school."

The old fighter gave by a brief silence the meed of fitting reverence for the knightly old opponent that had once striven with him. Then he fixed his eye upon a leviathan young member of the New York Athletic Club who was fraternally trading blows with

WHERE WOMEN ARE PURCHASED. IN these days of furious fights for women's suffrage it is interesting to note a statement made by Professor Franklin P. Ruthven, a Western educator and champion of woman's rights, in which he says that in every part of the globe woman's position in the community has advanced with rapid stride, comparatively, as the movement in England and in the United States. However, there are some parts of the civilized world where women are bargained for and sold to the highest bidder.

CHANGES AGAINST ASSESSOR
Oakland, May 19.—The grand jury of
Alameda county yesterday returned
two indictments against Henry P. Dalton,
assessor of Alameda county, who
was arrested here Thursday. The
indictments charge receiving a bribe and
asking and agreeing to take a bribe.
Dalton was arraigned before Judge
William Waste of the superior court,
who fixed bail at \$25,000 for the first
indictment and \$10,000 for the second. The
indictments were returned after the
grand jury had listened all day long to
testimony from officials of the Siskiyou
Valley Water Co., who helped arrange
the trap for Dalton. Dalton, said
when notified of the indictments.

**MYSTERIES AND
CRUELTY OF TARIFFS**

**Famous Woman Economist
Deals With Pros and Cons
of Protection**

(By Ida M. Tarbell.)

The most perfect object lesson in the logical effects of high tariffs in this or perhaps any land is the state of Rhode Island. An object lesson should not be over large. It should have something of the character of a Chautauque model of the Holy Land—a thing you can see as a whole—that you can walk over if you will. Rhode Island satisfies this condition perfectly. An energetic traveller could cover in a few weeks all the roads which criss-cross her 674,000 acres. In less time he could acquaint himself with all the men and women to be reckoned with among the 542,754 population which the census of 1910 gives her; Rhode Island is so small that nothing within her borders can get lost, hence any system which she has thoroughly tried out gives a student unusual opportunities.

In the matter of the protective tariff Rhode Island is the more useful as an object lesson because she was a well developed state when the system was applied to her. She had at the beginning of the 19th century flourishing farms and some 40,000 sheep. She was exporting annually between two and three millions of agricultural products. She was building many ships and from her fine ports carrying on a varied and lively trade with other lands. She was well advanced for the time in manufacturing. Long before the revolution Rhode Island's iron foundries turned out cannon and frigates, anchors and bells, and all sorts of small wares. When the cotton factory came she had the first in the country. The Slater factory of Pawtucket (the old building is still standing) she was able to make her own cotton machinery. In the manufacture of woolen cloth she took a prominent place from the start.

It was then in an all-round development that our policy of high protection was applied in this particular state. Under its stimulus her manufactures have multiplied and enlarged in a truly magnificent fashion. The story of this

development cannot be told here, but like all stories of rapid growth it excites and dazzles. The results are sufficient for the present purpose. Sixty years ago in 1855, the manufacturing plants of Rhode Island turned out goods worth \$187,000,000—about \$375 for each man, woman and child in the state. But while she had been making things to sell at this prodigious rate, she has ceased entirely to build ships and send men to sea to trade. All the old bustling shipyards have fallen into decay or have been turned into places of pleasure and show. That is, while high duties were stimulating, mainly the making of all that went into ships, they were making the ships so costly to buy that nobody could afford them. Rhode Island had her factories, and part of the price paid was her ships—her ships and her farms, for her farms steadily and surely have gone to pieces. To-day she has not over 1,000 sheep, one-tenth of what she raised 50 years ago. Between 1855 and 1900 the improved land decreased by 17 per cent. The state, to one who travels it rapidly, looks like a wild, its farms are not strictly abandoned, but have fallen into a neglect more disheartening. Rhode Island's agricultural product was but \$7,900,000 last year; her manufacturing product \$187,000,000. She is practically dependent on the world outside for food. She buys her apples on the Pacific Coast, her flour in the Mississippi valley and her meat from the best trust.

But what has the tariff to do with the neglect of the Rhode Island farmer? Everything. A farmer's family affairs are no other industry. It yields its best only when it passes down from generation to generation. Tenants, however faithful, are not sufficient. It demands its own, and in Rhode Island its own has deserted the farm for the factory. Quick fortunes seem to lie that way. It seemed to demand neither the patience nor the droopiness. It was ready money at least, and the young men and women left the farms to the old people and the old people died. Those who followed them were the dregs of the old communities—the shiftless, the weak, the ignorant and the unambitious. The farm yearly dropped back and it has to-day a forlorn and unkept relic of its old self.

All Rhode Island then has flocked to manufacturing, small to-day the one thing in the state which sticks out above everything else is the factory. It is the factory in which capital is invested and from which dividends are drawn. It is the factory that employs the people. I have heard it estimated by one who should know that three-fourths of the population of the state are dependent upon the textile mills alone, and a little figuring shows that the estimate, if perhaps a little too high,

Hunyadi Janos
Natural Laxative Water
Recommended by Physicians
Refuse Substitutes
Best remedy for CONSTIPATION

is not so far out of the way. There are over 60,000 men, women and children in the textile mills of the state as operatives, factory hands. Consider what a force it takes to keep this number employed. There must be foremen to direct the work, clerks to keep track of the product and all that belongs to salesmen to dispose of it in the market of the world, directors to outline, oversee and enforce the policy, and bankers to finance. This for the factory alone. But consider the number of persons required to administer to the 60,000 and the supplementary group which directs, sells and finances their labor. They must have houses to live in, food to eat, clothes to wear. There must be doctors and nurses for their bodies, clergymen for their souls, teachers for their children. The great body of bread winners in Rhode Island not directly connected with the textile trades is busy administering to the wants of the textile workers.

Further, that portion of the population which does not belong to the two groups above is dependent upon other highly protective industries; on rubber, with its duty of 25 per cent., on machinery 45 per cent., on cheap jewelry 50 per cent., on silver and gold wares 60 per cent. That is, Rhode Island to-day is a tariff made state, and as such should offer no simple statistics for an exact analysis of what the American system of protection, given full encouragement, does for a community.

A second surprise awaits the student of these Rhode Island laborers blessed by protection. They are an unstable quantity. They must be constantly retrained. The "benefits" do not hold them. The success of the overseer in the textile factory has come to be judged largely by his ability to "hold labor." One of the interesting proofs of the restlessness of the operatives is the small percentage of people in the state who own their own homes. I have before me the results of a recent careful investigation into the housing conditions of the state. It was found that farm houses aside, only 25 per cent. of Rhode Island's population owned their own homes. That is, in one of the first settled states of the union, one of the most advantageously situated, one offering the best opportunities for diversified occupations, one of the richest in its per capita product and bank deposits, only a fourth of the people live in houses which they own.

In recent years the problems of the operative have been complicated by the soaring cost of living. Almost the only argument which makes the tariff acceptable to-day, I believe, is that it does so distribute wealth that it helps the American workman. This is what every advocate tells you. This is why everything he buys is higher in price, or if he insists upon a standard price the article is poorer in quality. Take the very protected articles from which Rhode Island draws her wealth. All these 60,000 textile workers must have clothes. The price of women's all-wool dress goods increased in Providence, the centre of the industry between 1891 and 1907, over 35 per cent. There was an increase in practically

all the cotton warp goods varying from 4 to 40 per cent. Underwear in which there was any mixture of wool cost a fourth more in 1907 than sixteen years before. Cotton underwear was reported as stationary in price, though since 1907 it has risen. Bleached muslin used for shirts was 34 per cent. dearer in 1907 than in 1891. Cotton thread was 10 per cent. dearer. All linens were higher, though of course the textile operatives cannot buy much linen. That is, their own industries are taking out of them the increase in wages which this same period has seen.

Are not the conditions so hastily sketched a fairly satisfactory answer to the question with which we started out: Why should not Rhode Island have a stable, settled, home-owning body of American workmen? The hazards are so great, the wages so low, the work so uncertain that the American workman or the foreigner, after a few years of experience here, will remain if he can get out. He realizes that the chances are against the operative getting on in the world. What this means is that it is not he who is getting the benefits of the protective duties which Mr. Aldrich says are laid for "our people in the United States." He is barely getting a living and getting it under conditions which make life to himself, his wife and children a constant misère. That is, we pay our textile money not to the stockholders, who in Rhode Island are usually a family that for generations have run their mills and absorbed the profits—absorbed them so quietly, too, that one knows nothing of what they are save by the degrading outward signs.

Not only has the average factory owner absorbed the lion's share of the profits, but he has his face like a flint against spending a cent of his profits on any kind of humane efforts to make the industry more tolerable. This man who periodically appears as a supplicant before congress, praying for a continuation of benefits which cost this whole people dearly, will not unless driven to it by law, and outraged public opinion, protect even the children who work in his mills.

Three generations of Rhode Island textile manufacturers have accepted protection from the American people. Whenever that protection had accomplished the purpose for which it had been granted, or proved that it was possible to accomplish it, instead of re-

CURED OF CONSTIPATOR
Mr. Andrews praises Dr. Morse's Indian Root Pills.
Mr. George Andrews of Halifax, N. S. writes:
"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all came in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about the Indian Root Pills.
That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.
They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."
For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c. a box.

BURNSIDE ROAD

The musical event not only of the week but of the year has been the visit to Victoria of the Sheffield choir...

A choir of 200 voices is not unusual since in many of the English festivals several thousand voices unite in song.

The entire performance of the choir amply justified the reputation which English choirs have won for themselves wherever music is sung for highly developed and finished part singing.

The great festivals of Birmingham, Leeds and the Sheffield festival are almost household words in musical communities, while the distinctively musical character of the people of Northern England, particularly of Yorkshire, which boasts a number of fine choirs, of which the Sheffield is one, is a matter of universal information.

In its conductor, Dr. Henry Coward, the choir has a man of dominant force and a thorough musician. Under the sway of his baton the individuals are welded into one mighty instrument.

A marriage of interest to Canadians was that of Miss Margaret Anglin, the Canadian actress, to Mr. Howard Hull.

SCENE FROM "THE BARRIER" At the Victoria Theatre on the Evening of Victoria Day.

A magazine writer of some note, The ceremony took place at New York last week, and was conducted by Rev. Father Gleason and Rev. Dr. Sinnott.

Admirers of Olga Nethersole, one of the leading emotional actresses of the generation, will welcome her return to Victoria on Monday evening.

Manager George Trumbull, of the Grand theatre, took a party of friends over to Seattle last Sunday to see the new Orpheum, built by John Considine, which has its formal opening on Monday evening.

other beautiful theatres of the continent, while for size and appointments it is not excelled in America.

The appointments are magnificent and as complete as money and the world-wide knowledge of John Considine in theatrical matters can make them.

Another new theatre on the Pacific coast is a Court house in San Francisco, in course of construction on Ellis street near Market, which was given an informal dedication on Wednesday afternoon by the Shakespearian club.

Following a few informal remarks by Mr. Sothorn, a select audience of important personages was treated to one of the most unique and memorable witnessed on any stage.

A Victoria-born girl, Miss Helen Barham, is leading woman in 'The Barrier' which comes here on Victoria Day.

THE ADVANCE MAN

An interesting novelty at the Victoria theatre will be the appearance of Olga Nethersole in two plays.

Maurice Maeterlinck is the author of 'Sister Beatrice', which he describes as a miracle play. The same setting, a convent near Louvain, is used in the three acts of the play.

The supposed Beatrice is blamed, but when punishment is to be inflicted she knows and scourgings become pained. At this miracle Beatrice is proclaimed a saint.

The 'Enigma' is the work of Paul Hervieu and is one of the most popular plays in the repertory of the Comedie Francaise.

'Managerial Troubles' is the title of the new comedia in which Nick Long and Idalene Cotton open at the Grand Monday. Nick Long is so well-known that his name stands for a good act

and Idalene Cotton is a daughter of old Ben Cotton, of pleasant memory. Their act is a back stage scene with Nick as stage manager and Idalene as the young woman with a lot of ambition and very little else except, of course, beauty.

Anything that Maan and Miss Franks have had to do with during their stage careers has been successful, so when they go from the sublime to the ridicu-

SCENE FROM "SISTER BEATRICE" The Maeterlinck Play in which Miss Nethersole appears in the Victoria Theatre on Monday Evening.

ous with new songs and extempore fun they are bound to go to the limit. Miss Franks has a voice of power and of passion, to act three will be high grade.

The European act on the bill next week is Nello, in amazing juggling and balancing feats. The advance photographs of his performance show that he surpasses the laws of gravity, and advances American and European crowd notices say he has very few equals.

TRAVELLERS PARADE THROUGH THE CITY

Most Unique Spectacle Seen in Victoria—Grand Council Officers Elected

A spectacle, such as is seldom seen in the streets of Victoria, took place this morning, a Grand street parade of all the councils of the United Commercial Travellers of Oregon, Washington and British Columbia...

First in the parade of the councils came the Bagmen of Bagdad, who are among the aristocracy of fraternal societies and are representative of all the different councils...

Fully 500 delegates participated and were housed in tall-hos and automobiles by at least one hundred of the visiting ladies...

Last evening was marked by a smoking concert at the A. O. U. W. hall, at which several hundred were present. The programme consisted of music by local talent, selections by vaudeville performers from the Grand and other theatres...

RECIPROcity AND PROTECTION.

(Toronto Star) Originally introduced in Canada as an expedient and a device to open grounds of expediency, protection has gradually established itself as a sort of religious creed...

Just as Vancouver sprang into prominence and became industrially and commercially of great importance in the shipping world, so will Prince Rupert be to our new North Empire.

The British Pacific Coal Company's mines are close at hand.

Fullest information will be supplied if you are interested and make your cheques payable to T. R. Morrow, Victoria, B. C. Office is open from 9 a. m. to 9. p. m.

Residents on Pacific Coast Will Burn Anthracite From Graham Is

If you control a market you can practically specify your own price.

Anthracite coal laid down in Vancouver, Prince Rupert, Victoria, Portland, Seattle or San Francisco, at practically the same cost or lower than bituminous coal...

The British Pacific Coal Company Limited control 8,320 acres, practically the only body of anthracite coal in commercial quantities in Canada outside the mines in the Maritime Provinces...

Some idea of the popularity of the British Pacific Coal Company's property may be gleaned from the fact that offers have been received at the offices of the Company for the property, representing prices which would pay 40 per cent dividend and return the purchase price of the shares to the shareholders.

Also received offers to contract for a mine output for 25 years at a price per ton in excess of the present price of coal at the mine's mouth.

You Naturally Prefer to Purchase a Mine than in a Prospect

There is no need to wait for a projected railroad to be constructed.

Engineer Faulds says coal may be shipped in months' time; hence the party should be an early indent payer.

Will you join in supplying the new market? Remember you take chance.

If you buy at 35c a share in a few days your price will be 15c a share through the advance in price to a share.

Send in your application to-day.

One dollar shares are offered to the public at 35c a share for a few more days.

On the completion of the sale of the 35c issue the price will be advanced, on next block of stock, to 50c or 60c a share.

After the sale of the 35c issue the price on the subsequent block will be 75c or \$1.00 a share.

The reader will readily see that by in-to-day at 35c a share, his profit in the future will be 15c a share, therefore he held 1,000 shares he has made 150 in a few days' time.

Terms of Sales of Shares

Remember that you can buy shares on the easy payment plan. No cash is required for the first payment.

A cash payment with application shall equal 10c per share.

The remainder is payable in equal monthly instalments.

All applications and cheques to be directed to T. R. Morrow, Victoria, B. C.

ferrets a... the price the 50c... name, ment 500 a... saying near if he cent... shares: appli than... ation... three... are... Trust... well Alex... native fully... oper... Pract...

Buy more than the number of shares you intend to hold permanently, and when the price is 75c a share, a few weeks hence, sell out half your holding. The shares will be more active than now through the development work which is taking place.

This will give you one half of your original purchase free of cost, and an additional profit of 5c per share in cash. In a few days' time the Superintendent with the party of miners now en route, will arrive at the property. Bulletins direct from the property will be published from time to time.

The British Pacific Coal Company is one of the first corporations to co-act early development on Graham Island. This is an operative company, not a speculative concern. You have the satisfaction of knowing that your money is going into the property for development purposes.

Important financial transaction ever effected in Canada and America. European syndicate will be signed to-day.

NOTICE NOTICE IS HEREBY GIVEN THAT I intend to apply to the Board of Licensing Commissioners of the City of Victoria, B. C., at the next sitting thereof for a transfer of the Retail Liquor Licence in respect of the premises known as "The Carlton Bar," situated at the corner of Douglas and View Streets, Victoria, B. SALE

His reports are viewed by the capitalist and shrewd investor as being exceptionally conservative and very accurate.

In his appraisal of the property of the British Pacific Coal Company, Mr. Faulds says:

"Your properties are very valuable, being of adequate commercial assemblages and magnitude, and excellently located, with their transportation facilities, the potentialities of which, from the estimated quantities of coal they are likely to contain are very vast, and practically unlimited with depth.

"The value of 36,000,000 tons of bituminous coal in your properties for one coal seam six feet thick should not be less than \$120 per acre, and anthracite not less than \$180 per acre, the mean or average of which would be \$150 per acre, exclusive of agricultural and timber values." [For surface holdings.]

"These are most essential facts, absolutely essential to the appraisal of these properties towards industrial enterprises.

"These 8,320 acres or thereby are an excellent and adequate commercial assemblage for colliery operations capable of producing a daily output of 1,000 tons for about 144 years."

But a few days remain in which it will be possible to obtain shares at 35c. Those resident at a distance are urged to lose no time in sending application by early mail or wiring to the Trustee their reservation of shares.

BRINGS MILLION DOLLARS IN SILK

PROMINENT PASSENGERS ARRIVE ON WHITE LINER

Empress of India Reaches Port From Orient—Has Fine Passage Across

Bringing across from the Orient a cargo of silk, valued at over a million dollars, one of the richest shipments that has arrived here for some time, and several distinguished passengers, who are on a tour of the world, and many residents of the Orient who will attend the coronation in London, the R. M. S. Empress of India, Capt. Beetham, arrived at the outer wharf early this morning from Yokohama and after a few hours' stop here proceeded to Vancouver.

Capt. Beetham reports that the Empress had one of the finest passages across the Pacific that she has ever experienced. She occupied twelve days to make the trip and throughout that time she never encountered a strong gale; light winds prevailing the greater part of the time.

Amongst the passengers who arrived on the Empress of India was H. H. Prince Leopold of Battenberg, who is on a tour of the world.

EXCITING SCENES FOLLOW GROUNDING

Don Sticks on Glimpse Reef—Good Work of Y.M.C.A. Lifeboat

Unable to make any headway against the heavy seas and the wind which was blowing in the straits last evening, the little steamer Don, towing the barge Escort, ran aground on Glimpse reef about 8 o'clock, and it was not until several hours later that she was freed from the rocks and safe in the harbor.

The big silk shipment aboard the white liner consisted of 1322 bales of raw silk, 116 bales of wild silk, 111 bales of piece goods, 118 bales pongees and fine bales of samples.

Amongst the passengers who arrived on the Empress of India was H. H. Prince Leopold of Battenberg, who is on a tour of the world.

SAIL ON ZEALANDIA FOR SOUTHERN SEAS

Sheffield Choir Get a Farewell From Victorians at Outer Dock

Gathered at the outer wharf last night was a large number of Victorians who were desirous of bidding farewell to their guests of the past few days, the members of the Sheffield choir.

The passenger list of the Zealandia was the largest ever taken southward by a Canadian-Australian steamship, the number being swelled to such large figures by the two hundred singers from the Cutler city, who were booked on her.

The Canadian-Mexican liner Lonsdale is due to arrive from Salina Cruz about the end of the month with freight from Atlantic ports via the Tehuantepec railway.

STEAMER STARTS UP YUKON FOR DAWSON

Canadian Takes Many Passengers, Including Surveyors—River Partly Free

Whitehorse, Y.T., May 20.—The Yukon river having broken north of Hazelton, the steamer Canadian of the White Pass and Yukon route sailed from the foot of Lake La Barge yesterday for Dawson with passengers and freight.

SAANICH PROPERTY INCREASES MILLION

Neighbor Municipality is in a Prosperous Condition— Council Business

Municipal business in Saanich is growing very fast as the annual assessment roll for 1911 will show the total assessable property has increased over one million dollars and nearly six thousand new entries have been made on the assessment roll. The valuation by districts is as follows:

Victoria District, \$3,328,095 (land), \$702,850 (improvements); Lake District, \$1,182,750 (land), \$128,200 (improvements); Saanich, \$848,750 (land),

\$174,350 (improvements); total (land) \$5,359,595, (improvements) \$805,400.

By assessing improvements at 50 per cent, the roll shows the total value of taxable property as \$5,762,295. Notwithstanding this great increase in values the assessment of the district is not one-quarter of its selling value.

Sub-division plans continue to absorb a lot of the council's time, and many are the efforts to palm off streets with dead ends, narrow streets and small lots on the council. Seven plans were presented at last meeting, five of which were approved and two returned for alterations.

The revee announced that the new hall was nearing completion, and that probably this was the last meeting of the council in Glanford avenue chambers. In view of this suitable furniture was needed for the new premises. On motion the building committee was authorized to purchase the furniture as their judgment determines.

Coleman & Ellis's subdivision of sec. 13 and 14, range 1 and 2 west, was approved.

R. Wilkinson, on behalf of George S. Williams, submitted a plan subdividing part of sec. 32, Cardova Bay beach. This plan showed a 66 feet street to the waterfront, and was otherwise in order and approved.

Sidney Williams filed plans of part of lots 86 and 90, Todd estate, Mt. Douglas, showing the Cedar Hill road 40 feet wide at that point. The council declined to accept this width in view of the importance of this location, half of which adjoined Mt. Douglas park, and this plan was returned for amendment.

Sidney Williams, on behalf of the Crilland estate, Cadboro Bay, block 59, lot 44, fronting on Sea View and Douglas avenue, submitted a plan which was approved.

Plans were resubmitted of the Ellis-

ton orchard, Quadra street extension, which showed a conglomerate system of streets abated lanes far from meeting the needs of the industrial section in the opinion of the council and therefore it was returned to be revised.

A. Pichon's plan of sec. 3, range 3 west, was approved. A plan of sec. 22, lot 13, off Quadra street extension, and Binkinsop road, was also accepted.

Gore & McGregor informed the council that their survey on east side of Wilkinson road was correct according to the original survey, and that the road was out of place. The letter was received and filed, and Gore & McGregor will be informed that their plan will be required to show their lot lines starting 33 feet from the centre of the existing road, otherwise it will not be accepted.

W. F. Somers, Tyndall avenue, Gordon Head, wrote asking that the avenue be widened in the grade. Councillor Hobbs, the ward representative, emphasized the need of this work being done, and it was referred to the road foreman for favorable consideration.

Chandler Bros., Wilkinson road, offered to deed to the municipality a 66 feet road to straighten Wellington avenue, thus forming a straight entry to Strawberry Vale. This was referred to the foreman of Ward 4 for an estimate of the cost of grading and graveling it, and the offer will be accepted if the cost of putting it in order is reasonable.

A. H. Harman complained that certain streets near Mount Tomlie were being fenced across. This matter was referred to the road foreman of Wards 1 and 2, with power to remove the obstructions.

The subject of a public park at Mount Tomlie was discussed and referred to the collector for report. This is a matter of 16 acres at Mount Tomlie dedicated for a public park, but owing to some uncertainty as to the title it has become a sort of a no-man's land. An effort will be made to clear the doubt up.

Gore & McGregor informed the council that a survey made at Maynard street, Cadboro Bay, was correct, and that the parties on the opposite side are on the wrong lines. They will be informed that the Ralph survey differs from their contention, and until proof is submitted that the council is in error it will adhere to the Ralph survey.

Hon. H. E. Young, provincial secretary, wrote regarding the Mason & Mann appeal to the lieutenant-governor in council against the Saanich council's decision to refuse to sign a subdivision plan of part of sec. 16, Lake district. The government engineer reported that the street objected to took a sudden drop of 60 to 70 feet, and was unfit for street purposes, resulting in the council's action being sustained.

Eberts & Taylor asked for particulars of closing of Finerney road, fronting on sec. 44, lots 12, 13 and 14. The clerk was instructed to furnish the information needed.

J. N. Carruthers, Wilkinson road, complained about the conditions of Chinese pigsties on Burnside, and suggested regulations for same. Referred to sanitary officer.

Hon. D. M. Eberts received a vote of thanks for his efforts in securing an appropriation of \$10,000 for the roads of Saanich.

D. Dolg, manager of the Bank of R. N. A., agreed to finance the local improvement debentures to the extent of \$20,000 upon the premier's guarantee to amend the Municipal Clauses Act at next session of the legislature.

A petition was received from H. Freeman and three others asking that C. Dumbilton be appointed a special constable. Owing to the petitioners failing to show cause the request was not complied with.

The finance committee reported an expenditure of \$966.70, which they found correct. The report was adopted.

Local improvement by-law No. 2, providing for water main to University

school, was reconsidered and finally passed.

The revee reported that he had given orders to close the bridge across the mouth of the Colquitz river, condemned as unsafe by the government bridge inspector. It was decided to get an estimate of the cost to rebuild it by contract. The revee was given power to act.

The matter of aid to the Saanich agricultural hall was brought up, and a decision reached to give a sum to be fixed later. Councillor Haldon stated that the association was contemplating erecting a \$6,000 building.

The Court of Revision will be held in the Royal Oak municipal hall on Monday, July 3, at 2 p.m.

At the conclusion of the business one of the councillors remarked that the proceedings of this council were not conducted along the lines of that in the city of Victoria. He supposed the revee noticed the difference.

THE BRIGHTER DAY FOR EVERY WOMAN

Comes With Good Health Through the Use of Dr. Williams' Pink Pills

Her brightest day for every girl and every woman is the day when she looks well, feels well and is well; but with most of the fair sex such days are rare. Instead they suffer from a painful languor, have a terrible weakness in the back, headaches that make everything seem blurred, and a ceaseless aching in the limbs. These and other trials afflict girls and women through the lack of rich, red blood nature is calling for Dr. Williams' Pink Pills have given the joy of real robust health to thousands of women who are happy today because these Pills actually make the rich, red blood that makes weak ones well and strong. This statement has been proven over and over again. Here is further proof from Mrs. C. J. Brook, Manitou, Man., who says: "After a busy term on second class work, I felt a great need of relaxation, and a strenuous two-and-a-half months normal course, in March, 1906, I began teaching school. I had a heavy rural school, with a large attendance, and consequently a large number of grades; thus I found the work a great nervous strain. This added to the overwork of study, previous to teaching, soon resulted in a 'run down' condition. When vacation time came I did not pay much attention to my condition as I thought the holidays would fully restore me, but as I resumed work again I soon found this was not the case. One morning when I came to breakfast everything reeled before me and I almost fainted away. The lady with whom I was boarding advised me to take Dr. Williams' Pink Pills. She always spoke very highly of them, her daughter having used them with the most beneficial results following a severe attack of inflammatory rheumatism. I decided to take her advice, and had only taken a few boxes when I began to improve in health, and such an appetite as I had. I rapidly gained health, my face became healthy glow, and I gained in weight. I have since often recommended Dr. Williams' Pink Pills to others who have used them with equally beneficial results, and I believe the Pills to be a standard remedy for the ills for which you recommend them.

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

USES ELECTRICAL COLD STORAGE

French Scientist Perfects New Method of Conserving Fruits

Paris, May 20.—A scientist named M. Poulverel has discovered a manner of treating fresh fruit, vegetables, butter, milk, eggs, anything in fact, with electricity, and conserving them indefinitely in as perfect a state of freshness as they were to begin with. The discovery, it is said, will revolutionize the cold-storage business.

Poulverel's method remains a secret so far as details are concerned. But he applies electric vibrations produced by special machines built by himself to the article to be conserved and when placed in an airtight compartment there is no such thing as decay.

The correspondent was shown a Montreal peach which was plucked from the tree last August. To the eye, taste and smell, the peach had lost not an iota of its original self and Montreal peaches are perhaps the most delicately flavored, the most beautiful to the eye and the most delicious variety of peach known. Ordinarily it "ripens" quickly, after ripening fully, because of its great juiciness. The conserving of such a peach, therefore, for eight months appeared a miracle, especially in light of the fact by witnesses it was proved that the peach had not lost a particle of weight.

Unlike cold-storage fruits, the electricity treated peach did not decay extra quickly; it retained its firmness fully as long as a fresh peach, under the same circumstances, when exposed to the free air. Eggs are said to retain every bit of their freshness, no matter how long kept in this fashion, whereas a cold-storage egg has a taste all its own and one certainly not to be envied by a fresh egg. Milk, the fresh juice of fruits and articles of that sort are equally successfully conserved.

The basic principle of this new method of storing fresh articles of food, roughly speaking, is the same by which D. Doyen cures cancer—not a very beautiful comparison, but true, according to what the facts are said to be. The invisible waves of electricity

Nervous Depression

PAINS AFTER EATING—WIND
HEADACHES—BILIOUSNESS
CONSTIPATION

CURED BY

THE HERBAL TONIC

Do you suffer from nervous depression, headaches, biliousness or constipation? Have you a furred tongue with a nasty taste in your mouth, and a dull, heavy feeling? Have you lost your appetite, lost your vigour, lost your interest in life? If so, your stomach and liver are out of order. Your stomach must be toned up and strengthened, and your liver gently stimulated, or worse will follow. Mother Seigel's Syrup is the very remedy you need. The herbal extracts it contains make it the finest stomach and liver tonic in existence. It quickly restores those organs to working order, and thus it makes food nourish, cleanses your tongue, raises your vitality, restores your strength, and gives you the vigour and glow of health. Try it to-day!

Mr. James McPhee, Boulardarie East, North Cape Breton, N.S., says:—"I suffered for several years from severe stomach trouble and sick headaches. I could not eat without having the most agonising pains, and would often vomit after food. I became thin, and fell into a very despondent state. My case seemed hopeless, but after a few doses of Mother Seigel's Syrup, I suffered no pain after eating, and after taking the Syrup for two months, I was entirely cured." And Miss Lidia Savoie, Dundee, Restigouche Co., N.B., says:—"I suffered from disordered stomach and indigestion for a number of years, and nothing seemed to do me good, but now, thanks to Mother Seigel's Syrup, I am in perfect health." Test it for yourself!

2 IN 1 SHOE POLISH

Is the Perfection in Shoe Polish.

Some preparations give a gloss but destroy the leather. "2 in 1" not only is not injurious but increases the life of the leather keeping it always soft. It gives a brilliant, smooth and lasting gloss that gives perfect satisfaction.

It is good for your shoes.

collect for the same purpose on the other side of the line. His worship added: "When these people are here we have to have extra policemen and extra patrolmen. The question is, shall the city control its own affairs or shall the Country Club control them for it?"

STEEL COMPANY WILL PAY DIVIDEND. Cheers Greet Announcement at Meeting of Shareholders at Montreal.

Montreal, May 20.—Cheers that were heard on St. James' street came from the Dominion steel shareholders yesterday when Mr. Plummer read a carefully prepared statement to the effect that the directors saw no reason why the dividend should not be continued.

thing, however, with which I am concerned is that this great work for the diffusion of knowledge is to be brought out before the world and committed to it under the auspices of one of the great universities. The significant thing is that here is a great university taking charge of the hearing of classes of a work, extra-academic, which has to do with human knowledge at large, which has to do not with the walls of a college; but here is an effort on the part of a great university to spread knowledge of an exact and of a fruitful sort throughout all the world. I believe this is a significant ideal for all universities, and for our own universities in particular."

Dr. Henry Smith Pritchett, in his speech at the dinner to the Canadian and United States contributors to the new Encyclopaedia Britannica.

Comprehensive In Its Scope. THE 11th Edition of the Encyclopaedia Britannica was described by Dr. Pritchett as constituting a "cross section of the trunk of the tree of knowledge as it stood in the year 1910."

B. C. CHAMPIONSHIP. Nanaimo, May 20.—The tie existing between the locals and Ladysmith in the British Columbia football league will be decided by the playing of home and home games, the first game to be played in Nanaimo on Sunday, May 28, and the second game in Ladysmith the week following.

DREDGE MASTADON AT PORT ALBERNI

Deputation of Citizens Extends Welcome to the Captain and Crew

(Special Correspondence.)

Alberni, May 19.—The dredge Mastadon arrived at Port Alberni on Saturday afternoon from Victoria to commence the work of dredging the Spuzzan river. A deputation of citizens headed by C. M. Pleno, president of the board of trade, and C. F. Bishop, president of the Liberal Association, went on board Saturday night and welcomed Capt. Luwes and his crew to Alberni, and were shown all over the vessel by the captain.

L. Lyche, G. Fraser, R. B. Brown, and G. Grant were visitors in town last week from Uclulet.

H. G. Walton has severed his connection with the Arlington and has opened a pool room on Victoria Quay, in Whyte's block.

Mr. and Mrs. Phil A. Watson left for Victoria on Saturday to visit Mrs. Watson's mother, Mrs. A. St. G. Flint. H. H. Browne and wife returned from a visit to Victoria on Saturday night.

WILL KEEP DATE OF GENERAL STRIKE SECRET

Glasgow, Scotland, May 20.—At a largely-attended meeting yesterday Secretary French, of the local Seamen's and Firemen's Union, stated that a date for a general strike at all ports had been fixed, but that the union officials had decided to keep the date secret until the eve of the day the strike is to become effective. He promised the shipping federation the biggest fight ever known among the transport workers of Great Britain. The shipowners on the Clyde do not take much stock in these threats, but are preparing for emergencies. It is reported here that May 24 has been chosen as the day upon which to quit work.

ROYAL OAK NEWS

James Pim, the superintendent of roads in Saanich, is still in the hospital with typhoid fever. He has been dangerously ill but at last report is improving slightly.

Duvall Bros. are moving their sawmill into Prospect Lake, where they have a belt of timber that will last for some time to come.

The B. C. Electric right-of-way gang is making rapid progress with its work and making a wide clearing.

The long suffering people of this district are still putting up with the inadequate railway station. The waiting room is usually filled with milk cans and baggage, while the passengers sit on the platform dangling their legs over the side. Last Sunday evening standing room on the platform was at a premium and a little girl fell off the unprotected side. If a rail is not provided and enlargements made a serious accident is due to happen. The people are asking if the district council is powerless to interfere on behalf of the public.

The boom in land and buildings here has spread to the matrimonial side. Two weddings will take place at an early date and make happy two popular young couples.

The Royal Oak Choral Society was fortunate in securing the Victoria West amateur comedians to give a performance under its auspices. On Saturday night a big house was pleased with "A Rival by Request," a comedy in three acts, every member of the cast acquitting themselves faultlessly. The local orchestra and Messrs. Cave and Semple supplied extras during the scene-shifting. The inhabitants hope to hear from the Victoria West again.

On May 31 the Lake Hill Women's Institute will give a grand concert and dance in the Royal Oak hall. J. G. Brown, Victoria harpiste, and Mrs. Taylor, harpist, are amongst those who have promised their services. The energetic ladies are sparing no pains to make the entertainment first class.

COMMON SENSE EXTERMINATOR KILLS

RATS MICE ROACHES BED BUGS

A 25c. Package Will Kill 50 Rats

Rats eat it in preference to any food. It destroys them, dries them up, leaving no odor. Perfectly safe to use, because harmless to children and animals. Destroys rats and mice, also roaches and bed bugs, where all other methods and preparations fail.

It's most effective, and cheapest because it goes farthest.

Remember—Two Kinds

- 1—For Rats and Mice.
- 2—For Roaches and Bed Bugs.

DOCTORS FAILED TO HELP HER

Cured by Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham writes: "I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman."

"I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."

—Mrs. HERMAN SMITH, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

GOLF CHAMPIONSHIP.

Portrush, May 20.—Miss Dorothy Campbell, champion of Canada and the United States, won the women's golf championship of Great Britain yesterday by defeating Miss Violet Heselet, the Irish champion, in the final two up and two to play.

Miss Campbell defeated Mrs. T. W. Bourne, of Tyndale Club, 2 up to 1 to play, in the semi-final, and Miss Violet Heselet of the Portrush Royal Club, the Irish champion, beat Miss Mather of Tyneside 2 up and 1 to play.

Miss Campbell, who represented the Hamilton, Ontario, Ladies' Golf Club, played splendidly throughout the tournament in which there were 114 entries comprising the flower of English, Irish and Scottish women golfers. Miss Campbell's superior long game won her the final match. She outdrove Miss Heselet all the time. They were all square at the ninth, but Miss Heselet lost the tenth and eleventh holes, breaking down at the fourteenth and was unable to retrieve her position.

MORE STARVING CLERICALS.

Baptist Preachers in England Receive 20 Shillings a Week.

At the concluding sitting of the spring assembly of the Baptist Union of Great Britain and Ireland, held in Bloomsbury Central church, the question of the need for a Baptist sustentation fund was introduced by Rev. F. G. Benkin of Bristol, who said that he had inquired into 967 pastorates in England, and found that the financial straits under which many men worked were enough to break the hearts of the strongest. We are all the pastors of the Baptist Union in England pastorates, taken into account one half would be found to receive less than \$500, and were the grants in aid of the pastors would be found to be receiving the equivalent of only 20s. a week—a terrible approach to their churches. They wanted a minimum income, for married pastors, of from \$600 to \$750 per annum, and for unmarried pastors of from \$500 to \$600. The Rev. J. H. Shakespeare, secretary of the union, agreed that ministers were paid begrudging salaries. In his judgment, for the Baptist Union to seek a spiritual revival whilst starving its ministers was very much like singing hymns heartily but not paying one's debts.

New List of Gordon Head Fruit Farms

5 ACRES, 500 bearing fruit trees, small fruits, new 5 room bungalow, 3 miles from city, price \$3,500, cash \$4,500, balance to suit.

8 1/2 ACRES, all cultivated, 600 fruit trees, 300 strawberry plants, logan berries, 200 grape vines, gooseberries, raspberries, etc., 3 room house, out-buildings, horse, buggy, chickens and farming implements; the owner of this wishes to retire and will take \$11,000 for the farm as a going concern; terms: half cash, balance to suit purchaser; this is a snap; 2 miles from city.

12 ACRES, 7 room, modern house, good barn and out-buildings, 200 bearing fruit trees, 4500 strawberry plants, and other small fruits; this property overlooks the sea and has a nice beach; a most desirable home and cheap at \$15,000, on terms of 1-2 cash, balance to arrange; 5 miles from city.

17 ACRES, cottage of 4 rooms, out-buildings, 400 fruit trees, 3 acres in strawberries; this is a corner property and could be cut to make two good farms; the price for a quick sale is \$15,000, half cash.

5 ACRES of splendid land, 4 miles from city, all cultivated, 2 acres in strawberries, a new, modern, 10 room bungalow under completion, house alone could not be built for \$4,000, the price of this property for a short time is \$7,000, half cash.

\$2,600
SNAP
HILLSIDE
Two Houses
Lot 60x120
\$2,600

This property is one of the best buys offered for the homeseeker or investor. The smaller of these two houses rents for \$11.00 per month and the other is new and modern in every way. Contains six rooms and stands on a lot entirely free from rock. The terms on this are especially attractive, only \$800 cash being required, the purchaser to assume a mortgage of \$700 and the balance to be paid in 6, 12 and 18 months or the payments may be arranged to suit.

Cordova Bay
Waterfront
24 Acres
\$320 per acre

This is without doubt the cheapest piece of acreage offered in Saanich. Of the twenty-four acres over half of it is entirely free from rock and about 4 acres cultivated with the remainder all slashed.

The property on the other side of the road and on the waterfront is nearly all slashed and burned. About five acres scattered patches of rock may be found on this but may be subdivided to great advantage.

Forty-foot lots half a mile north sell for \$1,000 to \$1,200.

See us about this at once.

THINKS CRIMINALS
MENTALLY DISEASED

Prison Director of California
Outlines Philanthropic
Plan

That the annual report of the California state board of prison directors, which will be submitted within a few days to Governor Johnson, will contain as its principal feature a recommendation favoring the establishment of an institution for the reclamation of convicts to useful life is the statement made by Colonel Charles A. Sonntag, the board's senior member.

Colonel Sonntag added that it is proposed to recommend that professors of the State university and other surgeons interested in this particular branch of medical research be appointed special commissioners to examine into the mental conditions of persons charged more than once with the commission of a felony.

"In view of the reported success of the recent surgical operation performed on Jeanne Thurmer, the Oakland girl who was believed to be suffering from incurable kleptomania and who was on the verge of being returned to San Quentin prison, the prison directors are strengthened in their belief that the commission of crime is not so much due to inherited or acquired tendencies as to hitherto unfathomed mental diseases," said Colonel Sonntag in discussing the matter.

"In my experience as a prison director during a period of more than twenty years I have come to the conclusion that very few offenders are criminals by desire or instinct, but rather unfortunate victims of mental diseases, and my colleagues on the board concur with me in this opinion. Just as we are ever striving to convert penal institutions into institutions of a reformatory character, so we now believe that the wonderful progress of scientific medical research makes it opportune to go a step further and attempt experiments along the line of what might be termed 'human reclamation service.'"

"We propose to recommend that professors of the State university and other surgeons interested in this particular branch of medical research be appointed special commissioners to examine into the mental condition of individuals charged more than once with the commission of a felony. This, of course, will make necessary the establishment of indeterminate sentences, and likewise the founding of an institution where such persons may be sent pending the observation and prospective treatment of the unfortunate by specialists."

"In my dealings with prisoners I have found that there are many who are susceptible of elevating influences, and I want California to have the credit of being among the first of the states to start the work which I consider the greatest effort ever made for the reclamation of an amazingly large percentage of human beings who are today considered incurable criminals— incurable simply because custom and perhaps prejudice have made it convenient to dispose of prisoners in the easiest way possible."

"If this work proves the success we anticipate it to be, then it will offer a wonderful opportunity to philanthropists to make endowments for larger research work along these lines. There is, in my mind, nothing more noble than endowing scientific work having as its chief object a lasting benefit to humanity, and I can conceive nothing of greater good than the reclamation to usefulness of individuals branded before their fellow men as incurable criminals."

RECIPROCITY HEARING.
Washington, D. C., May 20.—Following a heated colloquy between Senator La Follette and L. Bronson of the National Lumber Association of yesterday's Canadian reciprocity hearing, a declaration by Bronson that the conservation policy of Theodore Roosevelt and Gifford Pinchot worked for the benefit of the lumber trust and forced up the price of lumber was stricken from the record.

Bronson had also declared that the withdrawal by the government of large tracts of timber lands was the chief cause of the high price of lumber. La Follette demanded to know what authority Mr. Bronson had for these assertions. This Mr. Bronson refused to explain and after a series of questions by Senator La Follette both the assertions and the ensuing colloquy were expunged.

CLIMBED MOUNTAIN PEAK.
Lost Child Follows Inevitable Rule and Ascends Hill.

A party searching for a missing five-year-old boy, Evey Sandalls, at Hayfield, Derbyshire, found the little wanderer in an exhausted condition on the top of Kinder Scout, the highest summit in the Peak district. How the boy climbed to such a bleak spot without injury or did not succumb to this thirty hours' exposure on the mountain side is a mystery.

The summit of Kinder Scout is 2,088 feet high, and is only accessible from Hayfield side by surmounting huge boulders and avoiding treacherous tracts of bog and broken ground. One morning Sandalls set off with two companions to play in Kinder valley. His companions returned, but Sandalls scamped away and got lost. He spent the night, which was cold and wild, in climbing Kinder hills.

A party, including his father, the police, and workmen, searched the moors and mountain side for ten hours the following day, eventually finding the boy asleep on the slope of Kinder falls, a cascade which tumbles down the mountain side. He was lying on some sand underneath an overhanging boulder. A false movement would have meant his death.

He was in a very weak state, but recovered under the influence of restorative. He was unable to give a clear account of how he climbed the hillsides,

MARTIN-SENOUR PAINT
 100% PURE
 510

EVERY DROP 100% PURE

After a thorough investigation of various brands of paint Martin-Senour proved to be the paint we could risk our reputation on.

Martin-Senour 100% Pure Paint
 which we guarantee to be Pure White Lead, Pure Oxide of Zinc, and Pure Linseed Oil, with of course the necessary coloring ingredients and driers. Now to be entirely truthful, they do make a few dark shades that cannot be produced from lead and zinc. Come in the store and we will show them to you—but every other color is positively and absolutely 100 per cent Pure Paint, and not a drop of adulteration or substitution is mixed in.

We recommend this excellent brand to all our friends and customers. Another good point is that two gallons of this paint covers as much space as three gallons of the filled paints.

We have color cards showing all the colors and shades made. Free for the asking.

STRANGER GUARDS CIVIC STRONGROOM

Orders Officials "Out of Here"
 —Youth Pays for Getting Cheque Habit

There was considerable excitement in the police court room this morning before the court commenced, when one of the officers of the court found a muscular stranger standing in the recess where the civic strong room is lodged. The man was standing at attention and glaring fiercely at the first observer, said "Get out of here."

The officer went for the chief, who was also told to get away from the safe, which the warder appeared to have taken under his own special care. As the court records were in the strong room and the books were needed to hold the regular session of the police court it was necessary to have the occupant of the recess removed. Two constables were summoned and muscular persuasion resulted in the removal of the self-imposed guard over the civic papers to the police quarters, where he is to-day remaining under medical supervision.

Bernard W. Cator, a young Englishman 25-years of age, who came to Victoria seven years ago to learn farming, was presented before Magistrate Jay on a charge of obtaining money by false pretence. Cator pleaded guilty to having obtained \$10 from T. N. Hibben & Company on a cheque which the Bank of B. N. A. refused to honor. In accused's possession was the stub of a chequebook and the stubs were marked in accused's handwriting, "N. S. E." for between ten and twenty cheques he had drawn. The officials of the bank say the Cator account had been "an infernal nuisance," for they have been misled by a stream of cheque-bearers who have had to be turned empty-handed away. A farmer from William Head told the magistrate that accused was not always right in his mind. He had at times done things for which he could not be held responsible. Cator received a sentence of two months' imprisonment.

Patrick Hart, who used disgusting language to two ladies on Douglas Street last night, was sentenced to four months in jail.

George Soren, an habitue of the race track, who came here first at the time of the 61-day meeting, was fined \$35 for participating in a gambling game at 375 Johnston street.

ALDERMAN GLEASON VOTED BOTH WAYS

Purchase of \$600 Float Causes Storm in a Teacup in City Council

A storm in a teacup is the term that might be applied to an incident which occurred in the city council last night. Alderman Humber has a resolution on the table moving that a float, priced at \$600, be purchased and located in the place of the present small float at the Causeway which it is proposed to move.

Nobody seemed to object to the float at all, and everything went as merrily as a marriage bell until the question of where the money was to come from arose. Then Alderman Gleason rose in his place and declared, preferably, that the council had dealt very generously with the parks, very generously indeed. He thought, therefore, that the money for the float should be taken from the parks appropriation.

In a moment there was a fireworks display on. Alderman Humber arose and protested vigorously against such a proposal. All the money voted for parks had been for specific purpose, and he would not stand for any tinkering with it.

Ald. H. M. Fullerton upheld the view of the chairman of the parks committee. It was unfair, he said, to suggest that the money should be taken from the parks appropriation.

Mayor Moseley interposed with a request that the matter be stood over for a few days. He was in possession of information which unfortunately, he could not divulge at the moment, which made it impossible that a float could be obtained for nothing.

Alderman Humber—We don't want anything for nothing. We can afford

THE GREATEST DISPLAY OF JARDINIERES EVER SHOWN

HUNDREDS ARE NOW ON DISPLAY HERE

There has never been such a magnificent display of Jardinieres and Fern Pots in this city. Our present stock shows by far the most handsome creations ever shown in the city, and the quality surpasses any former stocks.

Hundreds of most artistic creations are now offered and at the right time of the year. Your finest flower specimens will be shown to advantage in a pretty jardiniere. There is a wide choice both in style and price, and the one you want is here.

Come in and let us show you jardiniere suitable for the veranda or the house, and at prices that are the most fair ever asked. We have them as low as 25c. You'll never see more artistic fern pots than these that we have now. Do not fail to see these dainty pieces, especially those at \$1.25 each. Many beautiful examples in Brass Fern Pots displayed on our first floor.

Solid Comfort Chairs

And Other Furniture in Leather—The Satisfactory Kind
 The Leather upholstered Furniture we are showing on our third floor is the kind you get solid comfort from. They are made for comfort, and they certainly give all the pleasure it is possible to get from any chair.

They are made substantially, and therefore will give you years of satisfaction. Come and see the striking designs we are showing in fine, strong, stylish Morris Chairs, Arm Chairs, Arm Rockers, Settes, etc.

These pieces are made from specially selected woods, beautifully finished and upholstered in the best manner and best leathers. This furniture will last you a lifetime.
 Come and See Our Splendid Showing

MORRIS CHAIRS	ARM CHAIRS	ARM ROCKERS	SETTEES AND SUITES
In leather Upholstered Morris Chairs we show a splendid range of styles and prices. It's the most popular chair made. You'll find some splendid chairs in this collection. Prices start at \$20.00.	Some people prefer an Arm Chair. But, listen! There is a way to stamp with paint the exact grain of quartered oak on softer, cheaper woods. It looks fine for a while. Ours are genuine, and we have an excellent showing of Arm Chairs in the leather-upholstered section. Many styles and prices. Marked from \$12.00.	The Rocker is an ideal chair, and many people are partial to this style of chair. You will find the choosing of a substantial Rocker easy if you make your selections from this stock. Our Rockers can stand the severest examination. Priced from, \$10.00.	In Settees we have many luxurious styles, and in suites we have also an excellent showing in design and quality. If something in the settee line is wanted, do not fail to see our offerings, and if you prefer to choose a suite to the odd pieces, don't miss ours. Come to-day.

The Times Has All the News

Suffered Greatly From Colic
 Mrs. Alma Guenette, L'Immaculee Conception, Que., writes: "My little boy suffered greatly from colic. I gave him castor oil and other medicines without helping him in the least. One day I saw Baby's Own Tablets advertised, so wrote for a box. I found them so good that I always keep them in the house and would use no other medicine for baby." The experience of Mrs. Guenette has been that of thousands of other mothers. Not only do the Tablets cure colic, but they cure constipation, vomiting, indigestion, make teething easy, banish worms and make baby bright, active and happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
