Claim : Item – Property – Value

Item	Property	Value
Ynes Mexia	occupation	botanist
Q2600470	P106	Q2374149

The image shows a Wikidata profile for Ynes Mexia (Q2600470) with various annotations. On the left, labels point to different parts of the profile: 'label' points to the name 'Ynes Mexia', 'description' points to the biographical text, 'property' points to the 'occupation' property, 'rank' points to the 'botanist' value, 'statement group' points to the entire 'Statements' section, 'property' points to the 'Bionomia ID' property, and 'identifier group' points to the 'botanist author abbreviation' property. On the right, labels point to specific values: 'Item identifier' points to 'Q2600470', 'aliases' points to the list of alternative names, 'value' points to the 'botanist' value, 'opened reference' points to the expanded reference for 'botanist', and 'collapsed reference' points to the collapsed reference for 'botanist collector'. The profile includes a 'Statements' section with properties like 'occupation', 'botanist', 'botanist collector', 'lecturer', 'social worker', and 'educated at', and an 'Identifiers' section with 'Bionomia ID' and 'botanist author abbreviation'.
