The Reason Why we Quote Special Bargains in February

WE LIKE TO BE BUSY IN FEBRUARY.

February used to be one of the duller months in the year with us. The other eleven months are naturally busy months, and take care of themselves, but if we didn't do something to stimulate trade in February we and our hundreds of clerks wouldn't have as much to do as we would like to have.

WE KNOW HOW TO KEEP BUSY IN FEBRUARY.

We have learned by experience that if we give you some special bargains to consider, special inducements to buy things during this usually dull

month, you would just as soon buy bargains in February as at any other time of the year.

SEVEN YEARS AGO WE BEGAN HAVING SPECIAL FEBRUARY SALES.

They have proven to be just what was wanted, and have kept us busy packing up goods every February since. Our regular customers have learned to look for and profit by our bargain price offers, and many thousands of new customers also start with us during our February sales and continue buying of us regularly.

How to Profit by this Bargain List

You will get the greatest value out of your February purchase by not only ordering your wants from this Bargain List, but at the same time looking over the Grocery List and the No. 77 Catalogue, and from the three selecting all your wants for the present and the coming spring season, and ordering them all now so as to come together at one time. This will economize for you in freight, as well as convenience, and as you are going to buy your Spring needs later if not now, it might better

be done before spring work begins and while our low prices hold, than at any other time. Look over the prices we quote in our Catalogues and Lists on the things you want, and think it over. Ask your wife what she wants this spring. Look in the pantry and see what is running short. Remember the old folks and the little ones, too, and let the things for the entire family, the house, barn, farm and shop all be ordered at the same time. This is wisdom.

MAKE YOUR ORDER LARGE ENOUGH TO COME BY FREIGHT.

See that it runs at least to a hundred pounds in weight, as you can easily do by including one or more of the Bargain Lots in this list—a box or a sack of this or that staple food, or something else heavy that we quote very low in price for the February sale. But don't hesitate, after your order reaches a hundred pounds in weight, to add as many more goods of all kinds as you will need. The freight is in your favor as soon as you get the weight up. And freight is the cheapest way to ship.

WE ARE PREPARED FOR LOTS OF ORDERS THIS MONTH.

We have laid in an especially large stock of the goods we quote in this Bargain List, and our hundreds of trained clerks and packers will make quick work of your orders. But let us remind you that February is a short month and that our special sale closes the 28th day of the month, so that you will not put your order off too long. The evenings are long, now, and part of an evening devoted by all the family to a study of this Bargain List, the Grocery List and the No. 77 Catalogue, and writing out and sending in your order, will be a pleasant task that will prove very profitable.

Be Sure to Read and Understand This!

We have made prices so low on Special Lots, Nos. A1 to T19, in this Bargain List that we cannot fill orders for more than one of each to a person or family. You may order ONE Lot of EACH Number, but do not ask us for two or more of any one lot.

NO CLUB ORDERS.

We cannot fill Club Orders for Lots Nos. A1 to T19, and will positively omit where more than one is ordered. Tell your friends to order for

themselves. One of our reasons for these special sales is that they start many new customers to trading with us on their own account. No orders accepted for delivery of Lots A1 to T19 to persons calling at our store.

EXCEPTIONS APPLY ONLY TO LOTS A1 TO T19 IN THIS LIST. Anything else in this Bargain List or in any of our other Catalogues or Price Lists we will fill orders for to any amount desired.

THIS BARGAIN SALE CLOSSES FEBRUARY 28, 1909.

READ THE FEW WORDS HERE CAREFULLY BEFORE YOU SEND IN YOUR ORDER.

The Complete Official Story of the Italian Earthquake Horror Including a History of **67c**
By **J. MARTIN MILLER**, Historian, War Correspondent and Ex-Consul General
Italy and Sicily

The most disastrous earthquake in the history of the whole world occurred in the southern part of Italy on December 28th, 1908. A calamity so great that one cannot comprehend nor words describe it, has befallen the inhabitants of "Sunny" Italy. In thirty-two seconds hundreds of square miles of Cities, Towns, Villages and Farming districts with all their people were destroyed and changed to a chaotic mass of earth and stone.

This is the Official History of the greatest disaster of the entire world. Stories by eye-witnesses and survivors. Photographs show the cities before the earthquake and actual photographs of the same places after the catastrophe.

Special 10% Discount on Our Finer Teas

The teas here offered at temporarily cut prices are our better grades. Many of these grades are too high in quality to be profitably handled in usual stores, and if obtainable at all are at much advanced prices. Real good teas are scarce in the large tea markets today, and will be for some time. It will be nearly six months before the 1909 crop teas are in market and available for table use. Our tea buyer, from advance information obtained from the tea gardens, says we will have to pay a big advance over present quotations when we replace our present stock. So there is economy as well as quality to be gained by ordering now for six months ahead. You are one who judges a tea by its high price, and think you must pay a good price per pound to get a good tea, surprise yourself by ordering a caddy of your favorite tea of us at these low and reduced quotations, and see for yourself what a superior tea we are offering at a cut price.

Spring and Mattress illustrated in this book should be ordered with bed as they are the greatest values ever offered to our customers

R 57—The buying public is at times offered merchandise through their particular sources of supply which is of exceptional value, and it is always with a great deal of satisfaction that purchases of this class are made. It is our intention to offer to you the greatest value of an Iron Bed ever offered to the consumer, and in order to give you a real bargain we have scouted about all the metal bed factories in the United States and have finally found one institution which has produced for us an iron bed of special design and of which we have purchased upwards of ten thousand. You can readily understand therefore the enormous bargain which we procured in this deal and we are taking pleasure in turn in offering you this particular bed at the ridiculously low figure of **\$3.33**.

Posts and top rails of this bed are made of $\frac{3}{8}$ -inch tubing and the interior filling is 5-16 inch. The head of the bed stands 55 inches and the foot 41 inches, including the casters, and weighs approximately 80 to 85 lbs., shipping weight. Be sure and order Bed and Spring illustrated, if you want a fine combination at about one-half its real value.

Felt Mattress for **4**

This Offer Good for Our February Special Sale Only

Considering that one-third of your life is spent in bed, you should have a good, comfortable mattress. A good mattress makes a good bed. This mattress is absolutely clean, sanitary, germ-proof and vermin-proof.

R 7—We have made a very large purchase of these mattresses at a very low price, on account of their being made during the dull months of January and February. It is only on account of the great quantity that we are enabled to make this exceptional offer. It is a high-grade mattress in every way, and the only difference in the filling of this mattress and the most expensive felt mattress on the market is—the cotton used to make the felt of this mattress is a little darker shade, being unbleached, in layers of long, tough fibers, which are worked and lapped, forming sheets which undergo a mechanical and chemical treatment, making it thoroughly sanitary, and the grade used in the most expensive mattress on the market is pure white but otherwise the same process is used in making the felt. It is the same thickness and same weight as our most expensive felt mattress. The ticking is of a good quality, satin finish, cotton tufts are used in tufting, which are the best for wear. We guarantee the mattress to be made of all new, clean and sanitary material, and is the best mattress at the price we have ever been able to offer our customers. We can furnish this mattress in full size only, which is 4 ft. 6 in. x 6 ft. 4 in. Full weight 45 pounds. Carefully packed in heavy paper and new burlap. If you are looking for a high grade mattress that will make the most comfortable bed that you could possibly have, you will be delighted with this one. Our special price for February..... **\$4.98**

R 37-R 27—This Table and Rocker are of Pure Mission Design, in the dull, dark brown Weathered Finish. Our large quantity purchased for this sale enables us to offer them to you at about one-third value in usual stores. They are made of Oak of unusually heavy stock, and superior construction. These pieces are shipped knocked down, which takes the very lowest freight rate, and can be easily set up in a few minutes' time and can be made as rigid as though they were set up by the factory. Both pieces are full size and are made of much heavier stock than generally used in Mission furniture at these prices. The table top is 24x34 in. and has a deep 3-inch rim. This table is supported by heavy 2-inch legs and has a large shelf and drawer under the top.

The stock in the rocker is also unusually heavy. The seat is extra large and comfortable and upholstered with imitation leather. The arms are 3½ inches wide and of 1¼-inch stock. The back is just the right height to make it exceedingly comfortable. The main posts in the back are of 1¼-inch stock, the top panel is 6 inches deep and the

box frame to the seat is 4 inches deep. The runners are 1 inch thick. You will notice from the dimensions of the stock used that it is an unusually large and solid piece.

In all respects these pieces are extra special values at our prices and are not obtainable elsewhere. They can be used in almost any room in the house, but are most suitable for the den or living room. We will sell either piece separately, but we advise you to order the pair, as our price for both pieces is less than you pay for one piece in your local store. Our price will be withdrawn after this sale is over. The frame is extra massive, in the genuine quarter-sawed oak veneer, in the golden finish. The front posts are trimmed with carvings; the entire frame is extra heavy for a Davenport at this price. The top, arms and front posts are 5 inches wide, and being plain the quarter-sawed stock shows off to excellent advantage. It is a most refined design.

The seat and back are filled with tow and hair and have 23 high-tempered steel springs. It is deep tufted and upholstered in imitation leather or velour plush. The top of back and front of seat are richly ruffled, which adds to its richness.

This piece can be used for a Davenport Sofa or with the back down making a perfect and comfortable bed. The large, roomy box containing the clothing moves out and within a few seconds a comfortable bed is ready for use. The fixtures are guaranteed never to get out of order.

The simple raising of the seat automatically brings the base or box forward and lowers the back at the same time. We can furnish this in imitation leather or green brocaded velour plush. We by all means advise the imitation leather as it will not fade and lasts longer than plush.

The wardrobe box under the seat can be used for storing bedding or for ladies' clothing. The length of this piece between the arms is 73 inches, width of seat when closed, 22 inches; height of back when closed, 23 inches; extreme width when open, 46 inches; length inside of wardrobe box, 64 inches; width inside of wardrobe box, 27 inches; ex-

terior outside length of piece 83 inches, extreme width 32 inches. Bed clothing and pillows as shown in the illustration are not included at this price. Also remember that we can furnish this only in the black imitation leather or green brocaded velour plush, and our special price for this sale only is

\$1.25 Bed Spread, 83c

Z 67—Another stunning value in staple dry goods. An article we could hardly omit from our February Special without disappointing a great number of our patrons, for at this season of the year many people buy bed spreads, and to all such this is an opportunity they should certainly take advantage of, if desiring a medium grade quilt. It is a splendid, weighty spread of crocheted weave, made of three-ply yarn, both warp and filling, so is stocky and solid in texture, with raised and pronounced figures of the woven designs, which are handsome Marselles effects. It measures 72x82 inches and weighs 41 ozs. All pure cotton, not weighted with any other substance whatever, and is hemmed all ready for use. Our yearly sales of bed spreads are, of course, immense and our big contracts mean much to the mills, so there was but little difficulty in getting their co-operation in the production of this special spread. They have given us a wonderful bargain for this February Sale.

Put up 10 doz. in a box; every customer should order at least 5 dozen. We do not sell less than 1 dozen. **44c**

THIS IS YOUR OPPORTUNITY AND THE TIME TO BUY YOUR SPRING SUIT AND TROUSERS, when you can save yourself 50 per cent of what you will pay later on for this same value.

FABRIC is a hard finish, closely woven worsted, very strong and serviceable and medium weight, has a strong, substantial feel and is about the same grade of material you see in the \$12.50 to \$15.00 suits elsewhere.

A weight you can put right on now in the early spring and wear right through the summer, not the heaviest, nor is it very light weight, but just right for this time of the year.

TWO PATTERNS. Pattern A is a neat brown mixture showing a small woven plaid or large, subdued check effect in the weave. Not conspicuous, but very neat and attractive in shade and design. Pattern B shows a plain, dark gray diagonal separated every 3/4 of an inch by a narrow woven black stripe, forming a subdued stripe pattern of very nobly and modest design.

PLEASE MENTION which pattern you desire, "B" GRAY or "A" BROWN MIXTURE.

STYLE OF GARMENT. Made in three button, single breasted sack style, coat has slight dip in front, long lapels (cut low), and closes with three buttons rather closely set. Vest is made in five button style without collar, has rather low opening and liberal points at the waist line.

Trousers are made with side pockets, side buckle straps, belt loops, outside welt seams and are liberally full in the seat and thighs (semi peg style. Made with excellent quality Mohair Serge linings and Canvas and hair cloth interlinings, which, with our method of putting them in, guarantees a shape retaining garment. PRICES LESS THAN MILL PRICE OF FABRIC

Here are two of the greatest trousers values we have ever offered and the prices we quote for the made-up trousers are less than most manufacturers have paid for the fabric alone.

Woolen mills have suffered during the past season, not only on account of general price reductions, but also for want of sufficient business to keep plants in operation and organizations of mill operators together.

With our large output, enabling us to pay spot cash for large quantities of cloth, we have succeeded in securing for

the special February sale two of the GREATEST TROUSERS VALUES EVER OFFERED BY ANYONE, ANYWHERE.

You will need a pair either right now, or during the summer with which to splice out the old suit for every-day wear.

THIS IS THE TIME TO BUY, WHEN YOU CAN GET THESE \$2.25 TROUSERS at \$1.48 and these regular \$3.25 Trousers at \$2.45.

Sizes—30 to 44 in. waist measure. 30 to 36 in. inseam measure

These trousers are not cheaply made to sell at a price—but are strongly sewed throughout and shaped and tailored in a proper manner.

They are cut good and full in the seat and thighs and will hang and fit as well as any trousers you ever bought at twice the price we are asking for these.

Silk Sensation BEAUTIFUL 5000 Pieces at Half Price for February

"JAPONIKA"

Z7—A near substitute for this charming novelty, though not as good, is being retailed throughout the land at 47½ cts. per yard. A few leading stores may offer this silk at a somewhat lower price than that, but our special half-price offer for February certainly makes it one of the most sensational silk values of the season. Were it not for our very early contract for the above quantity this wonderful price could never be quoted now, as several advances have gone into effect since our contract was made; owing to the overwhelming demand for this beautiful fabric. It has some resemblance to china silk, but is far handsomer because of its surpassing brilliancy and luster. It is soft finished and plain colored, without figure; some threads of fine mercerized cotton are interwoven, though not seen, which insures great strength and excellent wearing qualities. The readiness with which it is being bought, at from 45 cents to 50 cents per yard, best indicates the charm and beauty of "Japonika," at the same time suggests the advisability of ordering it as early as possible, as such bargains are very unusual for prices of such immense popularity, and possibly the 5,000 pieces may not last through the month. Our color range includes the most salable shades, Creamy White, Light Blue, Pink, Light Shade, Golden Brown, Copenhagen Blue, Old Rose, Black. Width, 27 inches. 26 Cents.

Surprise in Table Damasks. A Matchless Value

Z17—Here is a superb value of bleached table damask, so heavy and good that the bargain will be long remembered by all who purchase it, as it will be in service for many years to come. It is really a splendid article, satin faced, snow white damask, beautiful in design, floral effects mostly, with handsome open borders, and its sturdy texture of the pure linen cloth will delight every housekeeper who is fortunate enough to buy some. A damask of full width, 72 inches. Under ordinary circumstances we could not hope to put out so unusual a value in staple goods. Order this damask and be prepared for a pleasant surprise. February price, per yard.....67c

Startling Dress Goods Value—50c. Mohair Brilliantine, 29c.

Z27—Our special Wool Dress goods offer for this month certainly caps them all. A half-dollar, genuine, mohair brilliantine at the record price of 29 cents per yard. The mill people put this extraordinary value on sale. Fortunately this cloth had been on the looms for some time past to supply the great demand that comes for it every Spring; or we could never have secured the necessary quantity. It has splendid body and a fine luster and is the genuine mohair goods. Colors: Navy, Brown, Gray, Cream, Black. Width, 36 inches. For February, per yard.....29c

Toweling for the Millions—A Great Bargain

Z37—The crash bargain of the century. Stevens' unbleached all linen crash toweling; a cloze women, heavy quality that leading stores sell at 10 cents per yard and others at 12½ cents. A value of this kind is much too good to pass by. If you need the crash you should not hesitate to get a good supply. We guarantee you will think it a splendid bargain, so take enough while you can. At this price it should only be sold in full pieces of 40 yards, but as all cannot conveniently use that quantity, we have had them cut into ten-yard lengths so that every one might be supplied. Width 16 inches, all pure flax. 10 yards for.....74c

Long Cloth Sale—America's Best Value

Z47—Our February Sale of Long Cloth was thought of long ago, and prepared for when long cloths were cheaper than they are today. This number was secured for considerably less than market value than so is a wonderful bargain at today's prices. It is a fine, chamois finished cloth that we guarantee you will be delighted with when you see it; the best for the money we ever recollect listing. \$1.50 would be considered a low price for it at most stores. Our purchase was an unusually large one, as long cloths always sell readily this month. If you need one piece, buy two; you will not meet with such a bargain again for a long time to come. Pieces contain 12 yards, one yard wide. Weight 31 oz. Per piece.....96c

Great Sheet Bargain—Annual Spring Sale

Z57—This is the season of the year when sheet manufacturers are apt to have a bargain or two for the heavy buyer. A case of this kind gives you an opportunity of participating in this extraordinary February offering of ready made sheets, for we have recently cleaned up at a sacrifice a big lot of the celebrated "Ironclad" Sheets. We have handled this brand before, and know they are splendid goods; not extra fine, but weighty and strong, A full size sheet, measuring 72x90 inches, and weighing about 10 oz., with 3-inch hem at top and 1 inch hem at bottom. Sheets at the price of these would bear no comparison to them if seen together. For February, each.....53c
