Bulbs, Seeds, Strawberry Plants, and Garden Supplies

WILLIAM M. HUNT & COMPANY

Telephone, Barclay 5615

148 Chambers Street, New York

To Our Friends and Customers:

We take this opportunity of thanking you for the support extended last season and respectfully solicit a continuance of your patronage.

Early Ordering. Your coöperation is invited, by placing orders early; this will aid us in preparing for the summer and autumn trade and facilitate delivery at proper time.

Prices on Bulbs, Seeds, Plants, and Supplies are subject to market changes.

Any Varieties of Seeds, etc., not named in this Catalogue can be supplied, and we shall always be pleased to quote special prices for large quantities on receipt of list of kinds and amount required.

Terms. Prices quoted are net and do not include free transit, except for seeds in packets, ounces, or quarter-pounds, on which we prepay postage or expressage to any point in the United States.

Non-Warranty. William M. Hunt & Company give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

May 1, 1920

Strawberry Plants

EXTRA-STRONG
POT-GROWN

THIS SEASON'S FINEST NOVELTY

BUCKBEE

THE NEW HYBRID STRAWBERRY

This is the culmination of thirty-five years' successful hybridizing and is the finest evolution in Strawberries. It excels all others in size, quality, quantity, and flavor.

Tice C. Kevitt, Athenia, N. J., the originator of this Sterling Novelty, submits the following description:

"On the Field Day Meeting held at my grounds, Athenia, N. J., on June 15, 1919, the visiting experts declared after critical examination that **Buckbee** was my best hybrid. In the severe drought of last season (when all other varieties were suffering greatly), **Buckbee** was bearing an abundant crop of large and luscious berries.

"The abundant foliage of this variety affords ample protection from the scorching sun during intense heat.

"**Buckbee** produces enormous, bright, glossy red berries, which are round in shape, and similar in flavor to Chesapeake, from which it originated in 1912.

"**Buckbee** is undoubtedly the best Strawberry for long-distance shipping. Best results are obtained by planting this variety in July and August, but if planted in the spring will give satisfactory results the same year." Spring or summer delivery.

Plants, \$5 per doz., \$9.50 for 25, \$18.50 for 50, \$35 per 100

Kevitt's Jubilee

THE NEW BLACK
STRAWBERRY

The plants are extremely vigorous and healthy and give an abundance of very dark red, luscious fruits of exquisite flavor and giant size, well above the ground. Mid-season to late. Perfect flowering.

Plants, \$2.50 per doz., \$4.50 for 25,
\$8 for 50, \$15 per 100

Beal

This variety is the result of special hybridization for over a period of years by Tice C. Kevitt, and under normal conditions plants set out make a growth of 14 inches high with berries that measure 3 inches in a straight line passing through the center of the berry.

Plants, \$3 for 25, \$5.50 for 50, \$10
per 100

THE ABOVE VARIETIES ARE ILLUSTRATED IN COLORS, ON COVER

STRAWBERRY PLANTS

Standard Varieties—POT-GROWN

Pot-Grown Strawberry Plants are much superior to the ordinary ground layers usually sold, as there is no loss of fine roots in taking them up, consequently transplanting scarcely checks their growth. The earlier the pot-grown plants can be planted after July 20 the larger they will grow, and the more they will produce the next spring.

The varieties below marked "P" have pistillate or imperfect flowers and must be planted near perfect-flowering kinds in order that the flowers may fertilize. Varieties not so marked are perfect flowering and can be planted alone.

Prices, except where otherwise noted, \$1.25 per doz., \$6 per 100, \$50 per 1,000

- August Luther.** Extra early. Berries uniform in shape and size; rich flavor.
- Barrymore.** Midseason. Large, crimson, round fruits; delicious flavor.
- Big Joe.** Midseason to late. Resembles Chesapeake but, unlike that variety, will succeed on almost any soil; deliciously flavored.
- Brandywine.** Midseason to late. The large, firm berries are of excellent quality and rich in flavor. Succeeds in any soil.
- Chesapeake.** Midseason. Large; one of the best in shape, flavor, and color; dark color like Marshall.
- Commonwealth.** Very late. Extra-large variety. Fruit is large, smooth, dark red, and juicy.
- Early Jersey Giant.** Ripens with the very earliest. Berries very large, brilliant scarlet-crimson; has a delightful aroma and rich, mild, wild strawberry flavor. A fine variety in every way.
- Excelsior.** Extra early. Its tall, thick foliage protects the blossoms from late frosts. Fruit large, handsome, and firm.
- Gandy.** Late, in fact, the standard late variety. A strong compact grower, large, bright crimson fruit, firm and of finest flavor.
- Glen Mary.** Midseason. A superb variety which unites large size, great productiveness, and good quality; bright glossy crimson; fine flavor.
- Hub.** Midseason. Fruit is large, smooth, firm and very productive.
- Klondyke.** Midseason. Berries uniform and shapely. Heavy cropper.
- Magic Gem.** Midseason to late. Very large, beautifully formed berries; delicious flavor.
- Marshall.** Midseason. One of the largest strawberries on the market. Not quite so productive as some other varieties, but its large size, fine quality and handsome appearance will go a long way to make up this deficiency. Recommended for forcing.
- Nick Ohmer.** Midseason to late. Superb variety; heavy cropper; berries dark red, of large size and delicious flavor.
- Royal Sovereign.** A well-known English variety that is used here principally for forcing, but which does equally well outdoors. Distinct in habit, shape, and flavor. Very heavy cropper. \$10 per 100.
- Sample. (P.)** Late. Large, round, crimson berry of extra-fine quality.
- Scofield.** Early to late. Flavor rich and aromatic.
- Senator Dunlap.** Midseason to late. Very prolific; fruit large, dark red, and richly flavored.
- Sharpless.** Midseason. Demands a strong, rich soil; strong grower, bearing large, crimson, irregularly shaped berries; moderately firm and of good flavor.
- Stevens' Late Champion.** This late variety is remarkable for its heavy cropping qualities, and does well on light sandy soil. The berries are large, perfect in form, and bright crimson in color.
- Success.** One of the earliest. The berries are globular in form, slightly conical, and of a bright scarlet color. The flavor is mild, sweet, and rich. Vigorous and productive.
- Wm. Belt.** Midseason. The berries are as large as Bubach, more perfect in shape, just as productive, and the color is perfect.

FALL, or EVERBEARING STRAWBERRIES (POT-GROWN)

Plant in same manner and give same treatment as the June varieties. To get best and most paying results, keep blossoms pinched off until three weeks before the time fruit is wanted. The rule is to stop pinching the blossoms after August 1.

Prices, \$1.75 per doz., \$8 per 100, \$70 per 1,000

- Americus.** The berries are aromatic and excellent in quality. If a late frost sweeps out the first set of fruit, the plants will go right on and bear some more.
- Advance.** The berries are nearly round, of good size and shape, deep crimson, firm, and of good quality.
- Progressive.** The fruit is rich and sweet, of a deep red color inside and out. Considered the best of this class.
- Superb.** The fruit of this variety is medium to large, and very attractive. The berries are a glossy, dark red, aromatic and of excellent quality.

STRAWBERRY BASKETS

Chinese Sacred Lilies. White, yellow cup. Top roots.....	\$3 00	\$22 50	
Paper-White Grandiflora. Large and fragrant blooms; long stems. Extra-large bulbs. XXX.....	75	4 50	\$40 00
Second-size bulbs. XX.....	50	3 50	32 50
Soleil d'Or. Dark yellow, orange cup.....	1 25	8 00	70 00

FREESIAS

Purity. Snowy white flowers of large size, borne in great profusion on stems 2 to 2 1/2 feet long, which grow upright and stiff. Largest bulbs. XXX. 75 cts. per doz., \$4.50 per 100, \$40 per 1,000.

Purity. Second size. XX. 60 cts. per doz., \$3.75 per 100, \$34 per 1,000.

Refracta alba. Mammoth bulbs. 50 cts. per doz., \$3 per 100, \$27.50 per 1,000.

Excelsior. The new giant yellow Freesia. One of the sensations of the International Flower Show, New York City, 1920. Large and fragrant blooms produced on very long and strong stems. Excellent for cutting. \$2 per doz., \$12.50 per 100.

Giant Pink. Soft rose. \$1.25 per doz., \$9 per 100, \$80 per 1,000.

Giant Mauve. Delicate lavender. \$1.25 per doz., \$9 per 100, \$80 per 1,000.

Giant Orange. Yellow. \$1.25 per doz., \$9 per 100, \$80 per 1,000.

Giant Blue. Rich sky-blue. \$1.25 per doz., \$9 per 100, \$80 per 1,000.

Giant Colored Hybrids. A mixture of various shades of lavender, orange, pink, yellow, etc. \$1 per doz., \$6 per 100, \$50 per 1,000.

Freesia, Purity

EARLY-FLOWERING BULBS, continued

**SINGLE TRUMPET
NARCISSI**

For Christmas and January Flowering

Golden Spur. Deep yellow, very large.
\$1.25 per doz., \$7.50 per 100, \$72.50 per
1,000.

French Trumpet Major. Pale yellow. \$1
per doz., \$6 per 100, \$50 per 1,000.

LILIES

Early-Flowering Varieties

Lilium candidum (Madonna Lily). Mammoth Bulbs. XXX. \$4.50 per doz., \$32.50 per 100. Large Bulbs. XX. \$2.75 per doz., \$22.50 per 100.

L. Harrissii. The true Bermuda Easter Lily. The crop is again very short this season, but can offer sound bulbs in the following sizes: Mammoth Bulbs. XXX. 9 to 11 inches in circumference, \$12 per doz., \$95 per 100. Large Bulbs. XX. 7 to 9 inches in circumference, \$8.50 per doz., \$60 per 100. Medium Bulbs. X. 5 to 7 inches in circumference, \$5 per doz., \$35 per 100.

L. azoricum. Similar to *L. Harrissii* excepting being longer in the trumpet. \$8.50 per doz., \$60 per 100.

French Golden Spur Narcissus

LILIES, continued

L. bermudium. This is the result of crossing *L. Harrissii* with *L. Jamesii*. Has proved to be almost entirely free from disease. Produces large flowers of excellent substance. \$9.50 per doz., \$70 per 100.

L. longiflorum formosum. Earliest of Easter Lilies. Free of disease and easy to force. First-size Bulbs, 9 to 10 inches in circumference, \$9.50 per doz., \$70 per 100. Second-size Bulbs, 7 to 9 inches in circumference, \$6.50 per doz., \$50 per 100.

L. longiflorum giganteum. Large flowers of excellent quality. First-size Bulbs, 9 to 10 inches in circumference, \$6.50 per doz., \$50 per 100. Second-size Bulbs, 7 to 9 inches in circumference, \$5.50 per doz., \$37.50 per 100.

Lilium candidum

LILY-OF-THE-VALLEY

Extra-strong Berlin pips, for forcing, from cold storage. \$13.50 for case of 250, \$50 per 1,000.

HARDY LILIES

See page 19

Selected Holland Bulbs

The following list of Dutch Bulbs represents the cream of novelties and standard varieties, and as they are raised by the most reputable growers of Holland, we have every confidence in recommending them.

DARWIN TULIPS

Varieties marked (*) are specially recommended for forcing

A popular and distinct class of late-flowering Tulips, producing blooms in many colors on tall, strong stems.

	Doz.	100	1,000
Anton Mauve. Deep lilac-blue; enormous flower.....	\$4 00	\$27 50	
Anton Roozen. Rosy pink; very large.....	1 25	8 00	\$67 50

DARWIN TULIPS MIXED. Fine mixture of all the best varieties ..	75	5 00	42 50

Darwin Tulip, Clara Butt
 (see page 7)

BREEDER TULIPS

These are the old Dutch self-colored Tulips which have been neglected for many years but the present taste for artistic colors has, however, called them into prominence once more. Nature's happiest color combinations of purple and bronze, grey and lilac, yellow and bronze, brown and orange, are revealed to us in this group. The flowers are mostly

large, but of perfect form, and are borne on tall, strong stems.

They may be successfully brought into bloom in the greenhouse by the first week of April.

	Doz.	100	1,000
Apricot. Bronze, shaded apricot.....	\$1 50	\$10 00	\$90 00
Attraction. Bluish violet, inside purple, white base..	1 00	6 50	57 50

LILY-FLOWERED TULIPS—NOVELTIES (May-Flowering)

This handsome and distinct new race of Tulips has been obtained by crossing *Tulipa retroflexa* with a pink Darwin variety, and the result is a sturdy growing form with large, substantial flowers that still retain the form and elegance of *Retroflexa*, all segments reflexing a little at the tips.

Adonis. Long shaped flower, with reflexed petals; vivid rosy red. \$12.50 per doz.

Artemis. Long-stemmed; elegantly reflexed petals; bright carmine-rose, with pure white base. \$12.50 per doz.

Marvel. Very distinct, sweet-scented variety, inside old-gold, outside salmon-rose, edged yellow. \$12.50 per doz.

Siren. (First Class Certificate, R. H. S., London.) A very beautiful flower. The color is rich cerise-pink, with pale pink at the margins of the segments, and a white base. \$15 per doz.

Double Tulip, Couronne d'Or

Bed of Selected Hyacinths

Florentina, Blue . Tall and vigorous; deep dark blue.	1 00	7 00
Gertrude . Standard and falls same shade—rare violet-blue.	1 00	6 00
Her Majesty . New and very beautiful. One of the choicest. Standards lovely rose-pink; falls bright crimson, tinged with darker shade.	3 00	20 00
Iris King . Standards rich yellow; falls velvety plum, edged yellow. A very striking variety.	7 00	50 00
Loreley . Standards pale yellow, mottled purple; falls purple, deeply veined yellow margin.	4 00	30 00
Pallida dalmatica . A queen among flowers, grand and stately. Standards lavender; falls clear, deep lavender. Flowers large and extra fine.	3 00	20 00
Princess Victoria Louise . Height 30 inches. Standards pale yellow; falls rich violet, edged cream. Very fresh coloring and especially attractive in the garden.	4 00	24 00
Queen of May . This is very satisfactory and well adapted everywhere. It is soft, rosy lilac, almost pink—a color rare among Iris.	2 00	16 00
Rheine Nixe . Very tall and grand. Late. Standards snowy white; falls deep violet-blue, white margin; inner petals satiny ivory.	4 00	30 00
Velveteen . Standards yellowish buff; falls intense plum-purple.	1 00	6 00
All Colors Mixed	60	4 00

AMARYLLIS

Belladonna major . An autumn-blooming variety of extreme beauty and fragrance. The flowers are white, flushed and tipped with deep rose.	3 00	24 00
Johnsonii (The Bermuda Spice Lily). Produces large flowers of bright red with white stripe on each petal; early and abundant bloomer; very robust.	5 00	40 00
Formosissima (Jacobean Lily). Dark scarlet flower of fine shape; forces well and can be grown in water like hyacinths.	3 00	24 00
Vittata Hybrids . This selection contains a mixture of the finest unnamed seedlings in cultivation. The colorings and markings are unique and provide a show of unexampled beauty. Extra-large, sound bulbs \$1.50 each.	13 50	

Flower Seeds for Greenhouse Culture

1452 Asylum Ave., Hartford, Conn., May 4, 1920.

"You will be interested to know that the flower seeds we received from you turned out a better percentage in germination than seeds from three of the leading seed stores in America; both Mrs. Williams and myself are very well pleased with the results. We are of the opinion that it pays to study quality rather than cheapness when buying seeds."

(Signed) H. SEARS, Head Gardener Dr. G. C. F. Williams Estate

ANTIRRHINUM, Nelrose. Lovely Pkt.		MIGNONETTE, Allen's Defiance. Pkt.	
pink.....	\$0 50	Very long and heavy spikes.....	1/2oz. \$1.00

New Winter-Flowering Spencer Sweet Pea, RIDGEFIELD BEAUTY

This Sweet Pea now offered for the first time is disseminated by Mr. J. W. Smith, superintendent to Mrs. F. E. Lewis, Ridgefield, Conn. The large frilled flowers are purplish blue with wings of a lighter shade; a very attractive color. Mr. Smith has grown these Sweet Peas on stems exceeding 24 inches in length and bearing as many as eight flowers on a stem. Stems almost invariably carry five or more flowers. We consider this to be the finest novelty of Sweet Peas offered in recent years. Stock is limited; sold only in packets of 12 seeds at 75 cts. per pkt., 3 packets for \$2.
