This target consisted of an area approximately 400 yards square on the side of a hill. The Commander Air Support designated this target for this flight, indicating that the exact locations of the artillery emplacements were not known, but that they were somewhere in that area. The base of the clouds was about 1200' and it was very hazy over the target. On the first run, a level bombing run, bombs were dropped in salve at 1100'. On the following run, the rockets were fired at an angle of 15° - 20° and a slant range of 800 yards.

No enemy A/A or aircraft was encountered.
