CONTRACT IS LET FOR NEW BANK OF NOVA SCOTIA BLOCK

Vancouver Firm Gets Work, Which Will Be Started Almost Immediately on Handsome Banking Structure Which Will Adorn Northeast Corner of Douglas and Yates Streets.

Building statistics for Victoria will be materially boosted with the early commencement of construction work on the new Bank of Nova Scotia Building which will be erected at the northeast corner of Douglas and Yates Streets.

The contract for the building has been placed, and the successful contractors, Hodgson, King & Marble, of Vancouver, will proceed with the building operations almost immediately, it was learned to-day.

The new bank building, which is to be erected in the new financial district of the business area of the city, is expected to cost over \$200,000. It will be of stone construction and will be faced with handsome stone pillars. Alternative tenders were called some time ago and when passed upon by headquarters at Toronto the decision reached called for the erection of a modern two-story building of stone construction.

It will be one of the finest bank buildings in the country. It was stated to-day by J. W. Corning, manager of the local branch of the Bank of Nova Scotia.

Victoria contractors figured on the work, but the lowest tender was submitted by the mainland firm. The site of the new bank has been excavated since last Fall, when the old Clarence Hotel building was torn down to make way for the Bank of Nova Scotia structure.

Another very important building contract to be commenced in the immediate future will be the new Canadian Pacific marine terminal offices, which are to be erected on Belleville Street. F. M. Rattenbury, the designer of the building, has the plans about ready and it is expected to-day that the work will be proceeded with very shortly.

The building will be an imposing one of four stories and will be of cast stone construction. In general design the building will conform to the architectural beauty of the public buildings flanking the site.

Costs on the new Anglican Synod Memorial Hall to be built here are being cut down, and the contract for this building may be awarded shortly.

DELORME TRIAL

TWO WEEKS YET

Verdict is Not Expected Before That Time

Several Prosecution Witnesses and Defence Still Unheard

Montreal, July 5.—The trial of Rev. Adelard Delorme on the charge of having murdered his half-brother, Raoul, shows little signs of coming to an end. It is now two weeks since it commenced, and not even all the witnesses for the prosecution have yet been heard. In all probability the trial will not be concluded for another two weeks.

Rene Pilon, a garage employee, testifying at the session of the trial yesterday afternoon, said that on January 7, 1922, at 5.30 o'clock in the morning, about the time the body of Raoul Delorme was being carried in to the morgue, Father Delorme drove up to a Dorchester Street garage and ordered the two chains on the rear wheels of his automobile to be repaired and readjusted with some cross chains. Twelve cross chains or cross links which Abbe brought himself, were placed on the chains, six for each, Pilon stated. In some places the cross-links were missing; in others they were only worn.

In the cross-examination, witness stated that he had often carried out repair work for Father Delorme, and that the priest usually called to have it done in the early morning.

Not Blood Stains. Other evidence was by Dr. Derome, court autopsist, to the effect that the red stains in the snow near the place where the body of the victim was found, supposed to be blood stains, were actually of animal origin, thus disposing of one aspect of the case.

Yesterday morning Detective Brodeur went over the route between 140 Hubert Street, the residence of the priest at the date of the murder, to the place in the northwest suburb of the city where the body of the victim was found, and returned, completing the round trip in fifty-nine minutes.

30,000 DOCKERS ARE OUT ON STRIKE

14,000 Idle in London; Other British Ports Affected

Interrupted Handling of Food Supplies Causes Inconvenience

London, July 5.—The unofficial dock strike has been extended until it involves nearly 30,000 men. Of this number some 14,000 are in London, the others being scattered among Hull, Cardiff, Barry, Bristol, Grimsby and some of the smaller ports. Liverpool, Southampton and Swansea have not been affected, and although most of the large London docks are involved, the employees under the authority of the Port of London are still loyal. The strike is causing serious inconvenience, especially in the handling of food supplies. No food shortage is probable unless the strike becomes more general. With fruit it is different, and one large vessel loaded with bananas left Hull to unload at Rotterdam.

RELEASING 300 PRISONERS WEEKLY

Irish Free State Government Still Holds 10,000 Captives

Country Tranquil as Great Britain, Says Healy

London, July 5.—"Ireland to-day is as tranquil as Great Britain," said Timothy Healy, Governor-General of the Irish Free State, in an interview with The Daily Express prior to his return to Ireland last evening after conversations with the Imperial authorities here regarding Irish affairs.

"The Free State is now established definitely, despite the internal assaults that have been made upon it," he said.

He added that the Free State Government was intensely pre-occupied with how to terminate a situation in which, to its sorrow, it found itself still holding 10,000 Irishmen. The Government's purpose, he said, was to release these prisoners as rapidly as possible without exposing the public to a recurrence of these disorders. They were now being freed at the rate of about 200 weekly.

No Boundary Commission. The Governor-General complained at the continued refusal of the Government of Ulster to appoint a boundary commission to co-operate with Great Britain and the Free State in settling the boundary between the two divisions of the country.

He also denounced the Belfast authorities for keeping more than 400 Free State sympathizers interned "on nothing but suspicion." Mr. Healy said many of these persons had been arrested merely in order that the public officers they held under the Imperial Government might be given to nominees of the new Government.

VARIED SUBJECTS ARE DISCUSSED

G. W. V. A. Delegates at Vancouver Deal With Re-establishment

Housing, Immigration and Association Administration Other Problems

Vancouver, July 5.—The 132 delegates to the Dominion convention of the Great War Veterans' Association here, having defined the pension policy of the organization, will tackle re-establishment housing, immigration and other problems of national moment. Prairie veterans have massed on file about twenty-five re-employment housing. No special provision has yet been made for such cases and the Royal Commission made no recommendation.

It is urged that prompt action must be taken also regarding the invitation extended by the International Labor Office of the League of Nations at Geneva to the G. W. V. A. to send delegates to represent Canada at the world conference on re-establishment problems.

French-Canadian Proposals. A dozen French-Canadian delegates, representing the forty-two associations in Quebec, presented resolutions urging the establishment of a French-speaking appeal board and for the election of a French-Canadian representative on the Dominion Executive of the G. W. V. A.

Of the forty-two branches, thirty-six conduct their business entirely in the French language and they state that their members entitle them to special consideration.

The French-Canadian delegates are asking the convention also to support them in their fight for preference for ex-service men in the allotting of civil service jobs by the Quebec Government.

Reorganization. Recommendations regarding a complete reorganization of the Dominion Command with a view to coordinating the machinery of government from a national standpoint and placing the association on a sound business basis may be considered to-day.

One German was killed and three wounded by Belgian sentries yesterday for refusing to halt after curfew.

No Solution Reported. London, July 5.—Most of the political writers in the morning newspapers treat the Franco-British dispute rather despairingly, and do not profess to see a rift in the clouds. The only exception is the lobby correspondent of The Daily Express, who says:

"It was stated in ministerial quarters overnight that the negotiations will be dropped. He adds that the British government is unable to disclose the nature of the reported change.

A New Basis. The well-informed diplomatic correspondent of The Daily Telegraph says the Government still regards the situation as one of "exceeding gravity as well as delicacy." He adds that the conversations can hardly be resumed except upon a new basis, such as might be afforded by a clear and complete French reply to Great Britain's fundamental queries.

The correspondent understands that in his recent discussions with the French ambassador, the British ambassador has been very helpful. Lord Curzon strongly impressed upon them that the patience of the British Parliament and nation was exhausted, even hinting that Great Britain might be driven to independent action.

Mussolini's Views. Marquis Della Torretta, the Italian ambassador, visited the Foreign Secretary yesterday, even hinting that the conversations can hardly be resumed except upon a new basis, such as might be afforded by a clear and complete French reply to Great Britain's fundamental queries.

CONFEREES NOT YET IN AGREEMENT

No New Basis For Russo-Japanese Relations Found

Joffe Acting as Soviet Representative in Tokio

Tokyo, July 5.—A. A. Joffe, envoy from Moscow, who from his sick bed has been carrying on diplomatic conversations with Toshihiko Kawakami, delegate of the Japanese Government, in an effort to pave the way for a resumption of relations between Japan and Russia, remarked after the last such meeting:

"The only reason I don't walk out is that I can't walk."

This comment from the Soviet diplomat was called forth by the insistence of Kawakami that the question of a resumption of relations between Japan and Nikolai Joffe be considered jointly with the Russian request that Japan fix a date for the evacuation of Northern Sakhalin Island. Thus far the conversations have brought the delegates no nearer an accord than were the recent conferences at Changchung, where Japan and Russia split on practically the same issue.

"The only difference," said a spokesman for Joffe, "is that the Japanese seem to be more sincere in their effort to reach an agreement."

The body of two men and a woman have not been identified. Six guests were injured, two seriously.

A score of men, women and children trapped on upper floors were rescued by police. Others leaped into life nets.

The loss is estimated at \$40,000.

B. C. FISHERIES ONE-THIRD OF ALL CANADA

Value of Pack \$13,953,670 For Last Year, Report Shows

Salmon Pack For Whole Province Double That of Previous Year

During the last year British Columbia produced fishery products of a value of \$13,953,670, or 31 per cent of the total fishery products of Canada, according to Hon. William Sloan, Commissioner of Fisheries, who completed his annual report to-day.

British Columbia again led all the Provinces of Canada in the value of her fishery products, the Commissioner says. The value of the fisheries of Canada for 1921, the latest available, shows a total of \$24,937,938, the lowest since 1914, and \$14,309,484 less than for 1920.

The catch of salmon in 1921 was valued at \$8,577,602 or \$6,551,744 less than in 1920, and \$8,856,864 less than in 1919. The price received in 1921 was relatively less than in 1920 and much less than in 1919, and the total pack value in 1921 was the smallest in the Province since the industry was fully established.

Salmon Pack Doubled. The salmon pack of the Province in 1922 totalled 1,290,326 cases, as against 693,448 cases in 1921, 1,137,419 cases in 1920, 1,293,156 cases in 1919, and 1,557,485 cases in 1918.

Notwithstanding that the pack of 1922 is the fourth largest packed in the Province, it was far less valuable than in many other years, due to the fact that \$40,183 cases, or 60 per cent, consisted of pink and chum salmon.

The value of the 1922 pack is estimated at \$11,247,000, as against \$8,577,602 in 1921 and \$15,129,348 in 1920. Of the estimated value of the pack, \$5,100,000 is credited to 2,259,614 cases of sockeyes and \$4,900,000 to the \$40,183 cases of pink and chum salmon.

STRIKE SITUATION IN CAPE BRETON IS APPROACHING CRISIS

Special Trains Carrying Troops to Disturbed Area; Police Forces Being Increased; No Fresh Disorders Reported; Cabinet Discusses the Developments.

Sydney, N.S., July 5.—With special trains carrying trained detachments from all but two military centres in the West and reinforcements for the special provincial foot and mounted police being recruited as rapidly as possible, the strike situation in Cape Breton is thought to be approaching a crisis. No outstanding event marked the last twelve hours.

Major-General Thacker, in command of Military District No. 6, is in Sydney to-day on a tour of inspection. Whether or not he will take over personal command of the troops in the field has not been announced, but it is known that the soldiers are to occupy strategic points in the Glace Bay district this afternoon.

Glacé Bay is the heart of the coal-mining industry and the headquarters of District No. 25 of the United Mine Workers of America.

Troops From London. London, Ontario, July 5.—Five officers and thirty-one other ranks, all the available personnel of the permanent force remaining in London, left the city early to-day for Sydney, N. S. With other detachments to be picked up en route, they will reinforce the troops already there to maintain order during the strike.

Cabinet Discussion. Ottawa, July 5.—The situation in the strike area of Cape Breton will doubtless come up for discussion at a meeting of the Cabinet to be held to-day, although it has been estimated that Federal action is now restricted to furnishing sufficient soldiers to keep order in the mining district.

FIGURES OF CRIME SHOW A DECREASE

Drop in Canada in 1922 Over Ten Per Cent

Convictions for Drunkenness in B. C. Cut in Half

Ottawa, July 5.—(Canadian Press)—A very marked decrease in criminal offences in 1922 as compared with the previous year is recorded by the Dominion Bureau of Statistics. A general decrease in drunkenness is also shown, most notably in British Columbia.

The total number of offences tried by various criminal courts in Canada during the year ended September 30, 1922, was 162,929, as compared with 182,720 in 1921, a decrease being 10.28 per cent.

Convictions decreased from 177,173 to 158,339, or 10.52 per cent. The acquittals of indictable and major offences increased from 5,547 to 5,590 during the year.

ENGINEER KILLED IN TRAIN WRECK

Fireman Badly Scalded After Smash Outside Tacoma

Train Struck Landslide at Fifty Miles an Hour

Tacoma, July 5.—The monster Union Pacific locomotive No. 3219, which on July 4 drew President Harding's special train into Portland, is a wreck just outside the city of Tacoma this morning and one trainman is dead, another seriously injured and four passengers slightly injured, with the probability that one or more tramps are dead as a result of the Union Pacific Owl train from Portland running into a landslide at Salmon Beach at 4.47 a. m. to-day.

The man killed was Edward Roddey, engineer, Seattle.

The injured: W. Watson, fireman, Seattle, badly scalded; J. W. Pycheon, conductor, scratches.

Four or five passengers were so slightly injured that their names have not been reported.

Fifty Miles an Hour. The Owl, which leaves Portland at 11.15 p. m. and which is due in Tacoma at 4.50 a. m., was late, and was running fast, about fifty miles an hour, to make up time. There were 199 passengers aboard, many coming to Tacoma to be present for the festivities in honor of the President and his party, who arrived here this morning.

Just a short distance before entering the Nelson Bennett Tunnel the locomotive ran into a landslide which covered the tracks for a distance of 200 feet. The engine, two baggage cars and three coaches left the track. Engineer Roddey was pinned in his cab, and was scalded to death by escaping steam. Fireman Watson also was badly scalded.

The first baggage car was completely demolished, but there happened to be no baggage men in it at the time. The first coach was thrown off in the opposite direction, coming to rest with one end on the embankment above the wrecked engine. Flames almost immediately enveloped it, but the passengers in it managed to escape.

MADE APOLOGIES TO CHURCHILL

Two London Papers Were Misinformed About An Expense Account

London, July 5.—Both Lord Rothermere's papers, The Evening News, and the Socialist Journal, the Herald, yesterday tendered unreserved apologies to Winston Churchill, former Secretary of State for the Colonies, when he sued them for libel concerning their statements regarding his expense when visiting Egypt as Colonial Secretary. The articles inserted that he spent over £4,000 on seven persons' expenses, whereas the money was the amount spent on more than seventy persons who had been invited to Cairo by the Government for a conference to discuss this country's future policy in the Middle East.

Counsel for the former Colonial Secretary stated that Mr. Churchill had himself paid £200 for his wife's expenses.

The defendants, on learning the facts, had instantly published a retraction, having been misled by a hasty reading of the blue book.

LIQUOR OFFENCES

Offences Against the Liquor Act decreased in Canada by 18.5 per cent from 10,460 to 8,519. Manitoba and the provinces eastward all showed decreases, while increases were shown west of Manitoba. British Columbia increased 14.92 per cent, from 1,220 to 1,391.

Respecting summary convictions or non-indictable offences, British Columbia decreased nearly nineteen per cent. Increases are shown only in Saskatchewan and the Yukon.

Convictions for drunkenness in British Columbia decreased from 2,379 to 1,081, or 54.6 per cent, while in Alberta such convictions decreased 5.56 per cent. The provinces of Manitoba, Saskatchewan and the Yukon showed increases. The decrease for all Canada was 26.8 per cent, from 34,362 convictions in 1921 to 25,945 in 1922.

BANK RATE IN BRITAIN RAISED

Put Back at Four Per Cent. After Year at Three

London, July 5.—The Bank of England to-day raised its rate to four per cent from the three per cent level which had prevailed for a year.

Although the increase had been awaited with interest, it caused little surprise, inasmuch as events recently have been moving rapidly towards such action. At the same time there is considerable opinion against the raising of the rate to four per cent at a time when trade is so bad, and when Great Britain's purchases of food and raw materials in the United States and South America must be financed. It was therefore hoped that the authorities would not have recourse to such a step.

The Causes. The chief reason for the present increase is to bring the official rate more in line with the United States, where money for some time has ruled one and a half per cent above London's. This has induced United States traders to borrow funds in Lombard Street, assisting in the depression of United States exchange.

The Ruhr situation also was evidently in the minds of the bank directors when they decided to impose a higher rate of exchange.

The effect of the raise had already been discounted in both stock exchange circles, and the money market, prices on the exchange having recorded declines on gilt-edged securities during the past few days, while Lombard Street had gradually raised the discount rates against traders.

**APPEAL QUASHED IN COURT TO-DAY**

**G. T. P. Co., Has No Right of Appeal at Prince Rupert**

**Northern City Wins Action Tried Here**

Holding that the judgment appealed from was one on facts and not on a point of law, the Court of Appeal this morning gave effect to a preliminary objection by the respondents in the hearing of the G. T. P. Development Co. versus the City of Prince Rupert and quashed the appeal.

The appeal was one by the plaintiffs to set aside an order made by Judge F. McE. Young in the court at Prince Rupert, where the assessment of the plaintiffs' land by the court of revision was upheld. H. B. Robertson, K.C., with E. F. Jones appeared for the respondents, the city of Prince Rupert, and held that no right of appeal would lie. The court sustained this objection and the hearing was quashed. The land was assessed at \$588,848, and the reduction sought was \$235,000 odd.

The history of the appeal begins in correspondence between the appellants and the City Council at Prince Rupert. The assessment on their land was too high, and could only be described as fictitious, declared the appellants. The matter went before the Court of Revision, which upheld the court of revision, which upheld the assessment of the council in part. The appellants appealed to the County Court, where Judge Young upheld the court of revision on city land, but reduced the value of the acreage slightly. From this judgment the land owners appealed.

**Drastic Cut**

A decrease in value of from nearly \$500,000 to \$250,000 between the years 1920 and 1921 was argued by the appellants to the Court of Revision as a necessity for radical reductions in the assessment. The court of revision was urged to reduce the average assessment per lot to \$20, instead of an average of \$24. The city council was offered the whole of the appellants' land within the city for the nominal sum of \$1, if it agreed to pay the 1923 taxes and all subsequent dues on the land. The offer was refused.

The plea of the appellants to the Court of Revision was referred by that court to the city council again, but the council declined the offer on the advice of its finance committee.

To the court-to-day L. W. Patmore, for the appellants, argued that the land owners had advertised in the Prince Rupert papers, offering the land at from \$10 to \$15 a lot, and no buyers could be found.

**Preliminary Objections**

The County Court Judge had neglected to consider the evidence for the appellants in his reasons for judgment, held "summet," and the appellants had a good point in law to support their appeal to the present court.

**Judgments Pending**

Judgment of eight Vancouver hearings will be delivered by their lordships tomorrow in the following appeals: Brown versus Columbian, Vine versus B.C. Electric Railway, Moldovan versus B.C. Electric Railway, Waddington versus Bush, Maclean versus Johnson, Belmont Investment Co. versus Moody, Pioneer

**Evidence on Audit**

Willy Marier, expert accountant, gave evidence as to his examination of the books and papers of Father Delorme. Some of the documents bore no auditing mark, and defence counsel asked how the witness knew whether they had not been shown in on the crown counsel from some other source altogether during the last year. Witness persisted in his affirmation that such documents had been included in a parcel of papers handed to him by Abbe Delorme.

Re-examined by Crown Prosecutor Calder, he agreed to look at his inventory on adjournment and see whether by checking he could trace every one of several documents brought in question by the defence.

**APPEAL QUASHED IN COURT TO-DAY**

**G. T. P. Co., Has No Right of Appeal at Prince Rupert**

**Northern City Wins Action Tried Here**

Holding that the judgment appealed from was one on facts and not on a point of law, the Court of Appeal this morning gave effect to a preliminary objection by the respondents in the hearing of the G. T. P. Development Co. versus the City of Prince Rupert and quashed the appeal.

The appeal was one by the plaintiffs to set aside an order made by Judge F. McE. Young in the court at Prince Rupert, where the assessment of the plaintiffs' land by the court of revision was upheld. H. B. Robertson, K.C., with E. F. Jones appeared for the respondents, the city of Prince Rupert, and held that no right of appeal would lie. The court sustained this objection and the hearing was quashed. The land was assessed at \$588,848, and the reduction sought was \$235,000 odd.

The history of the appeal begins in correspondence between the appellants and the City Council at Prince Rupert. The assessment on their land was too high, and could only be described as fictitious, declared the appellants. The matter went before the Court of Revision, which upheld the court of revision, which upheld the assessment of the council in part. The appellants appealed to the County Court, where Judge Young upheld the court of revision on city land, but reduced the value of the acreage slightly. From this judgment the land owners appealed.

**Drastic Cut**

A decrease in value of from nearly \$500,000 to \$250,000 between the years 1920 and 1921 was argued by the appellants to the Court of Revision as a necessity for radical reductions in the assessment. The court of revision was urged to reduce the average assessment per lot to \$20, instead of an average of \$24. The city council was offered the whole of the appellants' land within the city for the nominal sum of \$1, if it agreed to pay the 1923 taxes and all subsequent dues on the land. The offer was refused.

The plea of the appellants to the Court of Revision was referred by that court to the city council again, but the council declined the offer on the advice of its finance committee.

To the court-to-day L. W. Patmore, for the appellants, argued that the land owners had advertised in the Prince Rupert papers, offering the land at from \$10 to \$15 a lot, and no buyers could be found.

**Preliminary Objections**

The County Court Judge had neglected to consider the evidence for the appellants in his reasons for judgment, held "summet," and the appellants had a good point in law to support their appeal to the present court.

**Judgments Pending**

Judgment of eight Vancouver hearings will be delivered by their lordships tomorrow in the following appeals: Brown versus Columbian, Vine versus B.C. Electric Railway, Moldovan versus B.C. Electric Railway, Waddington versus Bush, Maclean versus Johnson, Belmont Investment Co. versus Moody, Pioneer

**HELD AT SOOKE SCHOOL PICNIC**

Special to The Times.

Sooke, July 4.—The annual school picnic was held on Saturday afternoon on the Sooke river flats, and was enjoyed by everyone. There was a great spirit of co-operation among the parents and friends, and the work of getting the luncheon, washing dishes and getting supper was divided among so many that no one was too busy, and everyone could watch the sports. Clifford Charters and Alvida Laukkanen were the winners of the highest number of points, and each obtained a special prize for this distinction. Dr. Felton distributed the prizes, and at the close called for three cheers for Miss McKinnon, who is leaving Sooke.

The following is a full list of the winners: Running races—Boys, three to six years, 1, P. Poirier; 2, J. Richardson; 3, M. Poirier; 4, G. Poirier; 5, C. Asprey; 6, B. McFarland. **JACKSON STARTS SHOOTING GROUNDS FOR ALL AT SOOKE**

**Preserves to be Restocked With Game for Sport of City Folk**

Logged-over land at Sooke has been turned into public shooting ground under M. B. Jackson, K.C., M.P.P., chairman of the Game Conservation Board, it was announced to-day.

Officials of the board have been busy during the last few months stocking this barren area with sporty Monolian pheasants in preparation for the October shooting season. Then hunters will be turned loose on the place and be given an opportunity to blaze away and accumulate some bags.

Other public shooting preserves are being planned by the game board on the mainland, especially around Vancouver. At Kamloops a 1,500-acre tract is being turned into a shooting ground.

These shooting preserves will be restocked from time to time with young birds, grouse as well as pheasant.

Public shooting grounds have been inaugurated in Alberta and Saskatchewan and in the United States, so that city people who need a little recreation may be able to go out and enjoy a little hunting in comparative comfort and near their homes, and without having to go off on a long tour into the unknown wilds. Members of the board explain that friction with farmers and private property owners is lessened by establishment of these shooting places.

**CABINET MEETS IN OTTAWA TO-DAY**

**First Discussion Since Parliament Ended Its Session**

Ottawa, July 5 (Canadian Press)—The first meeting of the Cabinet since prorogation is scheduled to take place to-day. Premier King, who went to the country when Parliament closed its doors, has returned to preside and it is expected that a number of matters which were held up during the last strenuous weeks of the session will be considered. It is possible also that a number of appointments, senatorial and judicial and to fill vacancies in high offices of the civil service, may result from today's deliberations.

One of the most important matters which will probably come up for consideration is the situation resulting from exportation of liquor to the United States.

The appointment of a commission to look over Canada's supply of pulpwood and determine the course of action which should be followed in order to prevent the wholesale destruction of the forests which furnish a valuable commodity was forecast at the last session. It rests with the Government to select the members of this commission.

**FORECAST MADE OF FERUGSON CABINET**

Toronto, Ont., July 5.—It is expected that the personnel of the Ferguson Provincial Cabinet will be made known to-night.

According to The Toronto Telegram the Cabinet lineup will probably be as follows: Premier, Hon. G. Howard Ferguson; Minister of Finance, Hon. J. A. A. Macdonald; Minister of Education, W. H. Price; K. C. Parkdale, Toronto; Provincial Secretary, C. H. McKee; Minister of Labour, Hon. J. A. A. Macdonald; Minister of Agriculture, J. A. A. Macdonald; Minister of Public Works, Hon. Geo. S. Henry; Hon. J. A. A. Macdonald; Minister of North Toronto, Hon. Sir Adam Beck, London. The Telegram adds that Capt. Joseph E. Thompson, of North Toronto, is the likely choice for the Speakership.

## STORM IN ONTARIO CAUSES BIG LOSS

Damage in St. Thomas District Hundreds of Thousands of Dollars

Hailstones Very Large; Animals and Birds Killed

St. Thomas, Ont., July 5.—Damage estimated to reach into hundreds of thousands of dollars is expected as a result of a hailstorm which struck the district south and west of St. Thomas for over an hour Tuesday night. Crops of sugar beets and corn were ruined, farm animals were struck dead, chickens were beaten to death by the ferocity of the storm and the weight of the hailstones, and even birds of the air were driven to the ground and instantly killed. Never before in the history of the province has such a storm invaded this territory.

St. Thomas did not escape altogether, and the southern section of the city was buried in over a foot of hail and snow. Pinafore Park was practically ruined. The flower beds were beaten down, and serious damage caused to buildings.

"The little green apple will soon be ripe for mischief."

## Avoid Motor Oils

containing paraffin, asphalt or any other non-lubricating substance. Aristo Oil is refined by the most advanced processes, designed to remove everything in the crude which has no lubricating value.

# A "Gritty" Carbon

that scores cylinders and rings

## There's a softer, fluffier kind

Some carbonaceous residue is deposited by all motor oils. Every manufacturer of motor oil knows that. But there are two kinds of "carbon." One is hard, flint-like and gritty. It clings to the pistons, cylinders, valves and rings. Cylinders can be scored by it. And chisels or acetylene torches are required to remove it.

### Causes "Knocking"

Being hard and gritty, it acts as an abrasive, causing pistons, cylinders and rings to wear. Small pieces become incandescent, causing pre-ignition so the motor "knocks." Spark plugs become coated. So the spark is short-circuited and your motor misses. Particles attach to valve heads and seats, preventing proper seating and resulting in loss of compression and weak power. And this "carbon" of flint-like hardness collects in quantities two to three times as great as the other kind.

### Can Not Wear

The small residue which Aristo Motor Oil deposits is of a different kind. It is soft and fluff. Most of it blows out with the exhaust. What is left is softer than the metal of cylinders, pistons and rings so cannot score or wear them. Motors so lubricated run thousands of miles farther without the necessity of cleaning. Your motor retains tight compression and full power, and you save repairs. Aristo is made by the lubrication specialists of the Union Oil Company, equipped with every accepted facility for producing perfect motor oil. A durable, fine film penetrates to and protects each working part in any weather and at all motor heats. Tested by famous drivers under conditions far more severe than any you will ever cause your motor to encounter. If you would operate a smoother, well-protected, longer-lasting motor, always use an oil like this. For sale at all first-class garages and service stations.

## RAPID GRAIN GROWTH REPORTED

Favorable Weather in Prairie Region; Hail in Southern Alberta

### Canadian National Railways Preparing For Grain Transportation

Winnipeg, July 5.—The crop throughout Western Canada appears to be making rapid progress, according to the second crop report of the Union Bank of Canada, just issued. A continuance of almost perfect weather conditions and ample moisture are reported, with minor exceptions, from 173 points. Wheat is sixty to seventy per cent. in shot blade and heading out at many points.

A strip of Southern Alberta was hailed out over the last week-end, and the extent of the damage is not fully known from the present returns, but this is regarded as entirely a local situation. Generally, the situation continues exceptionally favorable in Alberta.

In the Grande Prairie district the hay crop will be abundant.

### Rain in Saskatchewan

Regina, July 5.—While Regina and district received a good soaking Tuesday night, no hail has been reported from any part of the district. One claim for a hail loss has been received from a point twelve miles south of the city. Hail insurance officials are inclined to the belief that the damage will not be extensive, though some will claim before they are in a position to give an estimate.

### C.N.R. Ready

Montreal, July 5.—The Canadian National Railways have practically completed all preparations for the movement of Western Canada's promised record grain crop. Extensive and careful preparations have been made by officials of the railway who have been making an exhaustive study of the situation. Since May the Canadian National Railways have been shipping all available box cars to the prairies and assembling them at the various loading centres.

By August 15, when it is estimated the first movement of grain will commence, the Canadian National will have sufficient cars in the prairie provinces.

## B. C. FISHERIES ONE-THIRD OF ALL CANADA

(Continued from page 1)

The gain in the pack this year was due largely to the increased pack of pink salmon. The pack of pinks totaled 581,979 cases, as against 192,306 cases in 1921, when few canners packed either pinks or chums. The public continues to ignore the prime food value of both those grades. Mr. Sloan points out that the sockeye pack increases.

The pack of sockeye in 1922 totaled 239,614 cases, as against 163,914 cases in 1921. The catch in every district shows gain over that of 1921.

Most of the gain was made on the Skeena and Nass Rivers. The catch of sockeye in the Provincial waters of the Fraser River system produced a pack of 51,832 cases, as against 19,697 cases in the preceding fourth year and is comparable with that of eight years ago of 19,183. The pack of sockeye in the State of Washington waters of the Fraser River system in 1922 totaled 48,566 cases, as against 102,367 cases in 1921, 50,723 cases in 1918, and 337,374 cases in 1914.

The total pack of sockeye in the entire Fraser River system in 1922 was 100,399 cases, compared to 70,420 cases in the preceding fourth year, and to 140,504 cases in the preceding eighth year. The increased catch in Provincial waters of the Fraser system is largely attributable to the use of less fishery gear in the State of Washington. Under the present depleted condition of the run of sockeye to the Fraser the amount of gear used in that section is less because of its expensive nature. If permitted gill-nets will be used in the Provincial waters of the system long after the expensive traps and purse-nets are abandoned in the State waters.

The catch of salmon on the Skeena this year totaled 482,305 cases, as against 234,745 cases in 1921. There was a marked gain in all species. The salmon pack at Rivers Inlet in 1922 totaled 79,712 cases, as against 103,155 cases in 1918 and 95,302 cases in 1917. 1918 and 1917 were the brood years of the 1922 run.

The pack on the Nass in 1922 totaled 124,071 cases, much the largest since 1918. The catch of sockeye gave a marked gain in all species. The pack of 31,277 cases was also much the largest since 1916. It was the fifth largest ever made on the Nass. The bulk of the season's pack, however, consisted of pink with a total of 76,687 cases.

## TRY TO SAVE LANGLEY FORT

### Historic Sites Board to Be Appealed to By Residents

Langley Fort, July 5.—The preservation of the old Hudson's Bay fort in Langley, one of the few historical buildings that are still standing on the Lower Mainland, was discussed at a recent public meeting of Langley residents. The matter was debated from all possible angles, and in view of the historic value of the building, which is at present falling into a sad state of disrepair, there was a unanimous feeling that immediate steps should be taken to preserve it. The building still can be saved, and at the meeting it was intimated that the Historic Sites Board will repair it, providing the site on which it is located is purchased.

The site is a part of the old Mavis estate, and contains about six acres. The property can be purchased, it was reported, at a price either for the whole or in a block of two acres for \$500 per acre. For the actual preserving of the building, about two acres would be sufficient, but it was felt that it would be most advisable, if it could be arranged, to purchase the whole property and fit it up as a park and tourist camping grounds. The price, however, was considered excessive, and efforts will be made to find out if a reduced quotation can be obtained. A committee consisting of Dr. B. B. Barr, chairman, and Messrs. S. C. Towle, Geo. F. Young, J. Nash, together with Mrs. W. Brown as representative of the Women's Institute, was appointed to obtain further particulars in connection with the whole matter.

A further meeting to which all residents of the municipality are invited, will be held in the town hall, Langley Fort, on Friday evening, when further arrangements will be made.

### GAVE THANKS

His Honor Judge F. W. Howay, of New Westminster, who is a member of the Historic Sites Board, by taking an interest in the preservation of the building. The Langley Board of Trade is also interested in the project and Judge Howay has been invited to address the next meeting of the board on the matter.

## NEW WAY TO MAKE JAMS AND JELLIES AT HOME

### Never Fails—One Minute's Boiling—Full Flavor and Color Retained—Economic.

The new method of making jams and jellies is rapidly replacing the old-time, wasteful, haphazard ways. This new scientific method results in perfect jams and jellies from all fruits—gives 50 per cent. more jam or jelly from the same amount of fruit—infinite more delicious quality due to the retaining of all the original delicate flavor and color of the fruit which is ordinarily destroyed by long boiling and a great saving of fuel and time because these modern-made jams and jellies require only one minute of boiling with all the guess work eliminated.

The process is so revolutionary, of course, and they are attained by a scientific discovery, but that does not mean that they are difficult. On the contrary—they are being performed every day in the home with a fraction of the effort and skill required by the old highly wasteful methods. The new way is as easy as A. B. C. By following the simplest of the most inexperienced housewife can produce perfect jams and jellies of quality unheard of in the home and impossible to attain by the old wasteful, haphazard methods. One simply follows the directions for Certo and then follows the directions. That is all.

What is Certo? It is pectin, and pectin is one of the elements Nature puts into fruits. It is Pectin that makes jelly "jelly." Science has found a way to concentrate the pectin from pure fruits so that it is available in handy liquid form. Certo is thus a pure fruit product absolutely free from preservative or gelatine. It is as natural as the fruit itself and being a natural pure fruit product it makes wholesome jellies and jams.

Pectin is found in all fruits, but the quantity present varies with different fruits and with different degrees of ripeness. Those that have the proper amount will naturally make better jelly than those that are lacking, but the housewife has no means of telling the amount of pectin present in the fruit. One is going to use the use of Certo—overcomes this uncertainty by supplying the necessary pectin, enabling jam and jelly to be made with one or two minutes boiling and thus eliminating all chances of spoiling your fruit.

If you boil fruit for half an hour or more you naturally boil away a good part of the delicate flavor and color and away the bright odor. This color and flavor, so precious as quality factors, are conserved by the Certo process of boiling only one or two minutes, resulting in jams and jellies of superior quality to any ever made by the old-fashioned rule-of-thumb methods.

Certo, used along with the required amount of sugar, makes every time good, wonderful flavor and color undreamed of by the use of the old wasteful methods. You can use the juice of any fruit you like and make sparkling jelly with the natural color and the full richness of flavor of the fruit. You can also make jams with all fruits and the flavor will be fruit flavor and not that concentrated sugar taste so noticeable in many home-made jams.

It is wonderfully satisfying to succeed the first time and every time with Certo, because you make your jellies and jams by the same principle as you always did, but with all the haphazard removed. You make it the natural way without gelatine, and you get natural flavor.

## NO BRITISH EMBARGO ON U.S. MOVIE FILMS

London, July 5.—The British Government has decided not to place an embargo on moving picture films entering Great Britain from the United States.

In the House of Commons yesterday Colonel Sir Arthur Holbrook, Unionist member for the Basingstoke division of Hampshire, asked whether the Board of Trade would consider the imposition of an import of thirty-three per cent on American films, inasmuch as the British film industry was being destroyed by the dumping of American films, ninety per cent of the films shown in Great Britain being of American origin. Sir

Arthur asserted that the United States embargo on British films was so effective that the proportion of British films exhibited in the United States was only one-eighth of one per cent.

## Mrs. Moles Makes a Pudding

Mrs. K. N. Moles tried a pudding of some kind with Pacific Milk and it did not turn out at all like one she had eaten at a friend's home. Mrs. M. wrote for the recipe again and still it was not right. Finally she sent in to see what could be the matter. The only trouble was she had used the milk as it comes from the can when it should have been diluted with an equal amount of water. The richness of the cream threw it out of balance. She had success with the last and says she is now a confirmed user.

AN INQUIRY NEEDED.

It should not take the Dominion Government long to make up its mind to find out whether any members of the Civil Service did anything calculated to influence the members of the Senate against the pensions measure.

The resolution passed by the Victoria Post of the Canadian Legion last night alludes to the fact that the press of Canada has given prominence to rumors of interference on the part of officials of the Department of Soldiers' Re-establishment and local ex-service men very naturally feel it their duty to make inquiries.

The whole question is a matter in which the people of Canada are interested. Thousands of families, directly or indirectly, are concerned with the treatment that is being meted out to disabled pensioners and dependants of the dead.

It is pertinent to inquire why the Senate should have chosen to ignore the findings of the Commission, why it imagined that a committee of its own selection should be able to arrive at more pleasant conclusions in the space of a day or so, why it ultimately stuck to its own objections without one iota of material to substantiate them.

Herein obviously lies the basis for the rumors which have caused the press of Canada to speculate upon what has happened. The Government will no doubt make it its business to make pointed investigation among the officers of the D. S. C. R.

PROFESSIONALISM GONE MAD.

In the previously almost unheard of Montana town of Shelby professionalism went completely mad yesterday afternoon. For forty-five minutes two men fought for a knockout blow and the defender remained unbeaten at the end of the prescribed period.

To the average sportsman who puts the game before the cash box these particulars are especially disgusting. But the attendance at yesterday's event is a gratifying commentary upon a changing public attitude towards exhibitions of this sort.

From a financial point of view the fight was an encouraging failure and ought to have an effect upon the man in the street that will cause him to wonder why men should be allowed to prostitute sport in such a mercenary fashion.

The heavyweight champion of the world has no claim on the public of the United States that is worth even a \$310 gift for a few minutes fighting. Happily the public is realizing how it has been fooled in the past.

SOME WAY WILL BE FOUND.

Until some arrangement can be made between the United States and the principal foreign nations involved in the ship liquor controversy, or until Congress can have an opportunity to review the whole situation and modify the regulations to which all vessels in American ports must conform for the time being, the logical course is to comply with the law.

three-mile limit of the American coast. It is obviously an unsatisfactory state of affairs—it must be irksome to United States officials as well—but there are already indications that some compromise will be reached as soon as the proper machinery can be invoked.

AN INTER-ALLIED VETERANS BODY.

There is a great deal to be said in favor of the creation of an inter-allied organization of ex-service men as an agency for the preservation of peace throughout the world.

Canada's veterans have met political gesture in commendable fashion. Their deliberations, organized and unorganized, have been tempered with the utmost respect for constitutional practice.

Lord Robert Cecil has dealt another blow at war by insisting that the discussions of the League of Nations Council on the Saar Valley question shall be held in public.

LORD ROBERT CECIL'S GOOD MOVE.

The old form of diplomacy was very largely responsible for the wars of the past. Discussion of international problems and international difficulties behind closed doors merely ignores the man and woman who have to pay for war in blood and money.

Shelby, Montana, is no doubt experiencing the feelings of the cold grey dawn of the morning after. Great Britain has liquidated all her foreign debts except that of the United States.

NOTE AND COMMENT

Ninety per cent. of the films shown in Great Britain are said to be of American origin.

British-American relations did not look very strained in Portland yesterday.

Eamonn de Valera must feel rather sorry for himself these days. All those elaborately worded manifestoes that littered the country and promised Ireland a republican government and freedom from the British yoke must be poor reading just now.

Pearson, of 2736 Fifth Street, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. An unusually large number of relatives and friends attended the very impressive service conducted by the Rev. J. S. Piperell, D.D. Good and J. Montgomery. Very Rev. Joseph LeTempteur, V.G., officiated at the graveside.

**ROTARIANS HEAR OF SUCCESS OF BIG CONFERENCE**

**Huge Gathering at St. Louis Showed Growth of Rotary Influence**

The recent convention of International Rotary in St. Louis, attended by delegates from all parts of the world, indicated that Rotary is becoming a great force in world affairs, Harry Boorman, one of Victoria's delegates to the conference, told the Rotary Club at its luncheon in the Chamber of Commerce rooms to-day.

"It was asserted at the convention—and this seemed to be an exaggeration—that Rotary is growing so rapidly that it will be able eventually to maintain the peace of the world," said Mr. Boorman. He quoted extracts from the featured speeches of the convention to show how the Rotary philosophy is revolutionizing business by teaching businessmen that "He profits most who serves best."

The convention, Mr. Boorman explained, had accomplished a great deal of good work in setting forth general rules which should govern all Rotary clubs and in defining definitely the real work of Rotary. Rotary, the convention had decided, must work through the individual rather than through the international philanthropic project.

President James Adam who, with Mr. Boorman, represented Victoria at the international conference, described the striking spectacle of delegates from all over the world. He was warm in his praise of the hospitality extended to visitors by their American hosts and declared that the gathering had done much to foster international friendliness.

**STOKER FACES SERIOUS CHARGE**

**Allegation of Forging Name to a Cheque**

Charged in the city police court to-day with forging the name of E. T. Soper to a cheque in the sum of \$35, P. J. Jackson was remanded after some evidence was heard until Wednesday for further hearing. He was accused, a stoker of the H.M.C.S. Patricia, appeared in the dock in uniform and declined the services of counsel in defence. He pleaded not guilty when the charge had been explained to him.

W. Purser, an employee of the Victoria Realty Company, was the sole witness for the crown to-day. Witness identified the accused as the man who tendered the cheque in question in payment of \$18 rent money on a house. It was not until a preliminary investigation had taken place at the naval barracks, Esquimalt, witness met Soper, a leading stoker on the warcraft. The cheque was returned from the bank when presented.

At this stage of the proceedings it was learned that the destroyer was away from port and would not be back until Tuesday. The hearing was remanded until the day following. The accused elected speedy trial and made no motion for bail. Soper was fined \$15 for speeding. Hong Hop Yick was fined a like amount for ill-treating a dog. Lee Jack Chew and two Lee's were fined for failure to secure a provincial chauffeur's license. One man told the court that while he drove a truck he held a \$500 equity in the \$10,000 company, with nineteen other partners. A license was necessary even at that, ruled the court. Costs were assessed at \$2.50 in each case. Ah Joe and Wong Yung were acquitted on similar counts.

**OFFICIALS WORRIED BY PENSION DELAY**

City employees are growing anxious about the inauguration of the council's new superannuation scheme, action on which has been delayed for many weeks.

Members of the police and fire departments, it was understood at the city hall to-day, are planning to wait upon the council immediately and find out exactly what the mayor and aldermen intend to do about the pension plan.

A special committee of the council, it was explained to-day, is investigating the superannuation scheme and will bring in a report soon.

**SEEK ACTION ON MURDER REWARD; COUNCIL PUZZLED**

**City Not Legally Bound to Pay, Officials Rule; Ask Government's Stand**

**Payment of Money to City Police is Sought Now**

City officials conferred to-day in an effort to advise the City Council immediately on the disposal of the \$1,000 reward offered for information leading to the conviction of the murderer of E. L. Lorenz, who was shot dead here February 28.

The Council will be advised, as a result of to-day's conference, that it is not legally bound to pay the reward to anyone. After deciding to offer the reward, officials explain, the Council later rescinded this decision. Members of the Council, however, hold that the city is morally obligated to grant the reward, provided the person entitled to it can be found.

**Ask Money For Police.**

Members of the City Police Commission have brought a new factor into the situation by urging that the reward be given to the police force be given the reward for their work in connection with the murder. The Council is now puzzled to decide between the claims of the police and the demands put forward by former detective Harry Macdonald and several other claimants.

**FURTHER HONOR FOR BRAVE NURSE**

**Gold Medal of St. John of Jerusalem For Mrs. Starr**

The gold medal of the Order of the Hospital of St. John of Jerusalem in England has been awarded to Mrs. Lillian Agnes Starr in recognition of her bravery in assisting in the rescue of Miss Mollie Ellis, who was abducted by tribesmen from the north-west frontier of India. Mrs. Starr has already been awarded the Kaisar-i-Hind medal and bar for her brave action.

After the murder of Mrs. Ellis and the kidnapping of Miss Ellis, the commissioner immediately approached Mrs. Starr, nursing sister at the Church Missionary Society's Hospital at Peshawar. She was known to everybody and was intimately acquainted with the ways of the Afridis. In 1918 her husband, Dr. Starr, was murdered by Afridis. The village from which his slayers had fled was known to her. She was asked to start in half an hour, as soon as she had changed her clothes, provided her horse and concealed a revolver in her dress.

She was not afraid, indeed, it is said that she is absolutely without fear, and is an accomplished swimmer, horsewoman and a deft hand with the rifle. She was escorted to the border and then with a native assistant to the commissioner and a few friendly tribesmen she proceeded to the hospital, where she nursed Miss Ellis, and, after much strategy, effected her rescue.

Childrens of Aid Home to Enjoy Outing at Saseenos

Kiddies' Camp to Open on Saturday

Childrens of the Children's Aid Home will go into camp at Saseenos Saturday, it was announced at the City Hall to-day. Preparations for the opening of the camp were under way this afternoon under the direction of Alderman John Harvey.

The children will be taken out to the camping site by members of the Gyro Club, Alderman Harvey stated. They will spend several weeks under canvas and it is expected, will return to the city greatly benefited.

"The camp last year was a great success," Alderman Harvey declared. "The children's health was strengthened by their experience and the out-of-door life." Alderman Harvey made efforts to-day to borrow military tents for the use of the children. The local military authorities, he said, had approved this plan but the Militia Department at Ottawa had rejected it.

PERSONAL

Miss Dora Rolls and her maids of honor who took part in the July 4 pageant in Seattle yesterday received favorable comment from the Seattle press.

The marriage took place in Vancouver on July 4, Mrs. A. Leslie, of Victoria, to Mr. W. Thorp, of Tacoma, Wash. The marriage took place at the home of the bride's mother, Mrs. A. R. Stebbings.

At "Breadalbane" last evening, Rev. Dr. Campbell celebrated the marriage of Gordon Wesley Harris to Miss Hilda Holt, both of Victoria.

On Monday afternoon many friends of Miss May Hatcher and her mother gathered in the hall for the purpose of presenting her with a purse as a slight testimonial of the good wishes of her friends in Sooke.

The engagement is announced of Miss Grace Mable Laird, daughter of Mr. and Mrs. A. Laird, of London, England, to Mr. Andrew Dick McCordie, son of Mrs. R. McCordie, of Montreal.

SURPRISING VIEWS ON DIVORCE ISSUE

English Bill For Easier Divorce Passes Third Reading

Some surprising views concerning divorce and the equality of the sexes was expressed in the House of Commons, London, recently during the third reading of the Matrimonial Causes Bill, aimed at easier divorce.

Equality Doubtful. It is a private Bill introduced by C. F. Entwistle (Hull) to grant a divorce on the same terms as her husband can now obtain. As adultery, without cruelty or desertion.

Collusion DANGER. Sir Ellis Hume-Williams (Bassetlaw) said he would make it as hard for a woman to obtain a divorce as it was for a man.

PERMANENT WAVE CONTEST AMUSING. London, July 5.—Women and girls filled the National Sporting Club, Covent Garden, recently and watched with keen interest an electrical display in the ring.

A quiet and pretty wedding took place on Monday afternoon in the presence of the relatives and immediate friends at the residence of the bride's parents, 1515 Cook Street.

Through the kindness of Mrs. A. E. Hodgins, the members of the Overseas League met at her charming home, "Arbutus," Road, yesterday afternoon for a social afternoon in lieu of the regular monthly meeting.

ished so that a man can love his fellowman better than himself and not have to pay for his altruism with his life?  
These are the vital questions asked and answered by Sir Hall Caine in the screen dramatization.

## "JAZZMANIA" STAR DESIGNED GOWNS

Among the most talked of features of Mae Murray's recent photoplays, "Fascination" and "Broadway Rose" was the dazzling array of gowns that the blonde star wore in those productions. In her latest picture, "Jazzmania," now presented by Robert Z. Leonard at the Columbia Theatre, she is said to wear costumes that will make even the most fortunate woman gasp with envy.

## ROYAL VICTORIA

Mark Twain's "The Prince and The Pauper," which is the attraction again to-day at the Royal will be staged to justify the high praise bestowed on it by all the New York critics. It is brilliant with picture scenes of London in the time of Henry VIII. They range from thieves' dens to the pomp and pageantry of cathedral and castle as well as to the narrow streets swarming with a colorful mob.

## COMPTON PLAYERS SCORE BIG SUCCESS

The romance and chivalry of old France was revived at the Playhouse last evening when the Compton Comedy Company presented Dumas' brilliant four-act comedy, "A Marriage of Convenience," before a delighted audience. ## "THE ISLE OF LOST SHIPS" IS COMING TO ROYAL

Milton Sills, Anna Q. Nilsson, Frank Campeau and Walter Long are the principal members of the cast of "The Isle of Lost Ships," a First National attraction produced by M. C. Levee and personally directed by Maurice Tourneur, which will be the feature at the Royal Theatre next week. It is based on Crittenden Marriot's famous drama of the sea. The remainder of the cast likewise leaves nothing to be desired.

Milton Sills, as the escaped convict—facing death in the electric chair—who saves the life of the beautiful young society girl when the vessel on which he is being taken back to the United States is rammed by a derelict, gives his customary strong characterization.

Miss Nilsson, as the heroine who finds herself compelled to marry within twenty-four hours, has a strenuous role which she enacts with skill and finesse.

Frank Campeau as the indomitable detective, and Walter Long as the powerful and arrogant ruler of the little community of castaways on a strange island of ships in the center of the Sargasso Sea, are exceptionally well drawn roles.

Island Yachting Club Busy With Preparations For Pacific International Regatta Closing Events To-morrow

Cowichan Bay Yacht Club are busy with preparations for the regatta to be held on Friday. Great interest centres on Thursday night for the finish of the international-Pacific yacht race.

There will be a free for all regatta in the Cowichan waters Friday and a grand flannel dance in the evening at the Agricultural Hall, Duncan.

Visitors Celebrate

The United States squadron of yachts celebrated their national holiday by capturing a big share of the prizes at English Bay yesterday.

Captain Geary sent his Seattle crew over the finish line just seconds ahead of the Patricia. Captain R. M. Maitland, Royal Vancouver Yacht Club, the Patricia, in turn, was ahead of the Lipton Cup.

There will be a free for all regatta in the Cowichan waters Friday and a grand flannel dance in the evening at the Agricultural Hall, Duncan.

Outside of these four championship trophies, the various classes cleaned up all the rest and carried off nearly a boatload of handsome cups.

The third race of the Isherwood Cup series yesterday between Sir Tom, Angela and Patricia was pretty easy for Captain Geary.

The race was sailed over a windward and leeward course of eight miles, and while the Los Angeles was a fair match, she showed to better advantage in the first heat to windward than she has at any time during the series.

The winners in the various classes were as follows: Kitten class, international championship (points) at race races—Meow, Captain C. P. Leckie, Royal Vancouver Yacht Club.

Gallop, Kitten class, team race—1, Seattle Yacht Club, 13 points; 2, Royal Vancouver Yacht Club, team.

MacNeill Challenger Cup for star class championship of north-Straits—Astrea, Captain Wyle and Simmonds, Royal Vancouver Yacht Club.

Star class, international championship of Pacific Coast—Main, Captain Owen Churchill, Southern California Yacht Club.

Heavy cruiser class, international championship—1, Gwendolyn II, Captain F. Hellenthal, Seattle Yacht Club.

To-day the entire fleet of yachts, both sail and power, will leave at an early hour for Cowichan, where another day's racing is to be held on Friday.

He's a Popular Loser

Tommy Gibbons

St. Paul, Minn., July 5.—Tommy Gibbons' showing against Dempsey yesterday was hailed by his fellow townsmen with almost as much enthusiasm as a victory would have been.

Plans are under way to give Gibbons and his family a rousing reception when they arrive in St. Paul.

After the decision at Shelby Gibbons, his face blood-smear and lips and nose bruised, smilingly extended his hand to Dempsey.

Then he trotted to his corner, where he received a deafening ovation. And the crowds of Gibbons' admirers rushed toward the ring.

The police and deputies did not attempt to interfere as it was seen that everyone was good-natured and all merely wanted to get a close-up glimpse of Tommy.

Elbowing his way through the cheering spectators, Chief Clerk Bear, of the Blackfeet Indians, climbed up to the ring.

The Indians recently adopted Tommy as a brother of the tribe. The tall chief, resplendent in feathers and rainbow-hues, lifted his single-tipped war bonnet from his head and placed it on that of Gibbons, while the crowd yelled itself hoarse.

Mayor's Demonstrative. The wife of Mayor Jim Johnson, of Shelby, hurried to the ring and threw her arms around the challenger. Hundreds tried to shake hands with him. He smiled broadly at the demonstration while his seconds removed his gloves.

TO-DAY'S BASEBALL

The Eagles and the C. P. R. will provide the excitement at the Stadium this evening in the senior amateur league fixture.

To-night's game is the most important one of the season, as the winning team will advance into the leadership of the league.

At present the rail-roads are leading by half a game but should the feathered warriors win this evening they will be half a battle in the lead.

Most likely Noble or McDonald will be on the mound for the lodgement, while Norm Forbes will do the chucking for the railwaymen.

It is expected that it will be a battle royal and the fans are assured of a good game.

BELYEA CENTRE OF INTEREST TO-DAY

Canadian Bidder of Diamond Skulls Meets Dr. Boshard of Zurich

Henley-on-Thames, July 5.—Hilton Belyea, of St. John, the Canadian champion, won his heat for the Diamond Skulls, easily defeating Dr. R. L. Boshard, of Zurich, Switzerland.

Russell Codman, Jr., the Boston oarsman, was eliminated from competition for the Diamond Skulls to-day, being defeated by Dr. L. H. Golan, Great Britain, Victor over Walter Hoover, yesterday.

The Englishman won by two lengths in 8 minutes, 30 seconds.

Brazenos College, Oxford, won its heat in the Spencers' chalk, with a time of 7 minutes, 3 seconds.

Spencer's fast stepping ball nine added another son and heir credit last night when they defeated the Hudson's Bay team 9-7 in a Commercial League fixture at the Central Park last evening.

As a result of their win, they have advanced into within one game of the Native Sons of Canada League leaders.

The game last night was closely contested the whole of the nine frames, and Spencer's had to step lively in order to chalk up a win.

In the initial inning the winners secured a three run lead, and they held it the rest of the battle.

Howland, a close runner, stepped out in the eighth when the Bays got two men on base with one man retired.

The next two batters struck out, and this clinched the tussle for the winners.

The teams were as follows: Hudson's Bay—Pollock, Stewart, Harris, Passmore, McLellan, Price, Skoville, Richardson and Wade.

Spencer's—Donaldson, Smith, Robinson, Post, Nex, Easler, Bentley, Lee and Tubman.

FAVORITES FAIL TO COME THROUGH AT BRIGHOUSE

Several Surprises For Race Followers Provided Yesterday Afternoon

Vancouver, July 5.—Tom Wellman at 4 to 1 returned the top price paid among the first past the post at Brigthouse yesterday afternoon.

It was in the second race of the day and Tom, taking the lead at the start, kept in front of the pack. York Road was again second and Vodka third.

Winking Waters was taken sick just as it was being saddled, and was scratched. All bets were refunded.

W. C. Dooley created surprise by finishing second in the first race, paying \$15.45 for place. Ann S., continuing her improved form, and while Angelo, on which many backers put their money, was third.

Despite the fact that he carried an extra five pounds, Cannon managed to show in the third race of the day. Mayflower created a little surprise by finishing first ahead of Junata Fredericka. Juanita was a hot favorite.

The Day's Classic

Another red-hot favorite, Frank Fogarty, failed to come through with the goods in the day's classic, finishing second. Gold Bryan, a McGinnis entry, set the pace at the start, and for well over half the distance held the lead. Encrinite, however, forged ahead, and capped her smart performance of the other day with another win.

Kinglike again proved a disappointment in the fifth race. It was the second favorite, the Drummer entry carrying most of the money. The entry proved successful. My Reverie being first and Wolf's Cry second, Black Monkey coming in third.

Full Moon went up in the air in the sixth race and, although carrying loads of dough, finished nowhere. Donatello, for the marionette, followed by holding the lead from start to finish, while Plunger, second favorite, and Doctor Tubbs came in second and third.

Tex Rickard Stages Next World's Fight

Winner of Willard-Firpo Clash Meets Dempsey At Boyle's Thirty Acres In September or October

New York, July 5.—Tex Rickard announced last night that he will start negotiations at once to match Jack Dempsey with the winner of the Luis Firpo-Jess Willard bout for a world's title fight, probably at Boyle's Thirty Acres, Jersey City, in September or October.

Willard and Firpo, who will battle at the Jersey City Arena July 12, have signed an agreement under the terms of which the winner will be matched with Dempsey, Rickard said.

The promoter has made no definite offer to the champion, but expects to bind articles when Dempsey comes east next week with his manager, Jack Kearns, to witness the Firpo-Willard go.

Praises Gibbons. The promoter was warm in his praise of Tom Gibbons' showing against Dempsey in to-day's fight. He said all along that Gibbons is the best fighter his weight in the country and his fight to-day proved it, Rickard declared.

"He was under a heavy handicap in weight, but battled cleverly and gamely. I don't think Dempsey has gone back. He simply had a hard man to beat."

A Vacation. Great Falls, Mont., July 5.—Jack Dempsey, refreshed by a good night's sleep prepared to-day to desert Montana for a few days' vacation in Salt Lake City after nine weeks of training for his match with Tommy Gibbons at Shelby yesterday.

Dempsey expressed admiration for Gibbons' ability as a boxer and declared he wanted to give him credit for his wonderful showing.

Dempsey to-day has two slightly discolored eyes and a wound under the right eye and an old cut opened up over the left as a result of Gibbons' left hooks and right crosses.

**JAMES F. NICHOLSON**, former treasurer of the I. B. Street Corporation, who has been indicted on charges of receiving unlawful commissions from the sale of stock by a grand jury in Buffalo. He was released on \$5,000 bail.

**THIRTY LASHES INSTEAD OF THIRTY DAYS.**—Wife-beaters, and other offenders of the law, get their punishment in the market square in Teheran, Persia, from the hand that wields the cane. So effective is this form of punishment that divorce cases are unheard of among this population of 70,000.

**REAL BUCKING BRONCHO.**—"No Sir" is the name of this horse. And he means it! He is entered in the Calgary Stampede at Calgary, Alberta, July 9 to 14. The Prince of Wales has offered a silver horse 18 inches high for the champion rider of the meet.

**IN QUESTION.**—This statue of "The Virgin and Child," standing in the Metropolitan Museum of Art, New York, has been branded as a reproduction of the original in testimony in a French court. The charge has stirred up artists of two continents.

**PREMIER-DESIGNATE FERGUSON OF ONTARIO AND HIS PROBABLE CABINET.**—Top row, left to right: A. C. Lewis, minister without portfolio; M. M. McBride, minister of labor; Premier Ferguson; Sir Adam Beck, minister of power; F. G. Macdormid, minister of public works. Middle row, left to right: W. H. Price, attorney-general; George S. Henry, minister of agriculture; J. E. Thompson, provincial secretary; W. F. Nickle, provincial treasurer; Charles Macrae, mines. Bottom row: J. R. Cooke, minister of education; Thomas Crawford, speaker; F. H. Keefer, minister of lands and forests. While most of the above names are definitely stated, one or two may be the subject of some revision before the list is officially announced.

**GOES TO HARVARD.**—Miss Katherine H. Shea, honor graduate of Barnard College, is to enter Harvard School of Engineering in the Fall. She is specializing in electrical engineering. Miss Shea was awarded a scholarship to the big eastern university.  
**TOAST OF TOWN.**—Joan Gardner (above) was a waitress in Spokane when Ina Claire, noted actress, discovered her. She considers Miss Gardner the most beautiful girl she has seen for a long time, and will put her on the stage. "She'll be the toast of the town," predicts Ina.

## SCHOOL DAYS By DWIG

SH-SS-S!

**PITTSBURG HOLOCAUST'S RIVER OF FIRE.**—A bolt of lightning and a tank of oil. Well, here's how they mixed in a Pittsburg refinery. Flames spread quickly to other giant containers. Many were injured. Property loss was estimated at \$200,000. It looks like the River's on fire. But it's thousands of gallons of burning oil. Only a change in wind saved the big Sharpburg bridge, across the Allegheny River.

**GETTING MEASURED FOR NEW FACES.**—If you sit in the baldhead row you needn't sprain your neck trying to pick out the prettiest girl in the chorus of the newest musical show. All the girls will look alike, for they will be wearing new conformational masks, designed by Alex Hall, a Los Angeles sculptor. Here they are getting their faces done over.

**IN COLLEGE ROW.**—Dr. Alexander Melick, president of Amherst College, is the central figure in a dispute over methods of education. Students planned a strike of the senior class commencement day in protest against the reported intention of trustees to oust the president.

**GODDESS OF LIBERTY.**—Miss Margaret M. Krask, San Francisco, has charge of the Pageant of All Nations at the National Educational Association's convention, held simultaneously in San Francisco and Oakland, Calif., June 28-July 6. She will personify the Goddess of Liberty in the pageant. British Columbia educationists are attending this convention.

## RESOLUTIONS ON PENSIONS ADOPTED

**Views of G. W. V. A. Set Forth at Convention in Vancouver**

Vancouver, July 5.—In addition to passing a resolution continuing office of the Pension Board and application of Government funds for the relief of dependents of soldiers and sailors, the Dominion convention of the Great War Veterans' Association here yesterday afternoon adopted another resolution on its pensions committee, protesting against any civilians being employed in any of the departments administering legislation affecting returned soldiers or their dependents and declaring that only returned soldiers should be employed in future and that any employees who are not returned soldiers should be removed in order that an administration may be set up which will function in the most sympathetic and efficient manner possible in the interests of returned men and their dependents.

It was urged that treatment and pensions should be dealt with conjointly, that the present system of pensions should be discontinued, and that upon admission for treatment one hundred per cent pension should be granted, and that such acceptance for treatment be an admission of eligibility for pensions and that in all cases the assessment of pension should be determined before discharge from treatment. This would give the permanent pension immediately the hundred per cent pension ceased.

**For Widows.**

There was considerable discussion over the proposal to have sub-section one of section one of the Pension Act amended by adding the following words thereto: "Or to widows of ex-service men whose marriage took place subsequent to the date of the disability which resulted in death, and whose marriage took place during service or within one year of the date of discharge from the C. E. F."

Some of the members wanted the period extended to two years and others wanted it longer than that, but the one-year period, as embodied in the resolution, was finally endorsed.

**Pension Rates.**

The council again urged revision of the pension rates, to pay widows and dependent children at the rate of \$75 per month; widows with children \$100 per month, plus allowances for children, and all disabled men \$100 per month per 100 per cent of disability, and pensions for ex-service men who at the time of discharge were suffering from neurasthenia and objective and subjective symptoms. It was resolved that an ex-soldier should at all times be entitled to medical examination for compensation or treatment.

Other resolutions endorsed urged that the particular D. S. C. R. regulations governing eligibility for pension, that in all cases where pension had been granted for any disability and has continued for a period of two years from the date of award there shall be a conclusive presumption that such disability is attributable to or was incurred or aggravated during active service, this to be retroactive; that in all cases where an ex-service man dies from a disability for which he received or was entitled to receive pension, his widow or dependents shall automatically become eligible for pension; that all regulations regarding pensions or establishment be made public and available for distribution on demand; that the Federal Government be asked to amend the Pension Act making provision for free medical attendance and medicine to all widows and dependents of deceased soldiers and dependents of total disability pensioners.

## THE WALL OF SILENCE By ALICE SLIGH TURNBULL

Secret of His Wealth.

When it was all over, she stood in the kitchen, trembling from the tension of the last hour and its safe issue.

As her hands moved mechanically about the task of getting supper her mind woke from its stupor of dread and pain and turned over all the facts of her life. Before her strong sense of justice and honor she stood convicted. She was no longer clad in her old armor of righteous superiority; she was chastened and humbled. It seemed now that David suddenly towered above her. In spite of all his shortcomings, she knew that his character rested upon the bedrock of the elemental morality. David would never have touched money that was not his own!

Her thoughts turned again to the miracle of her escape. Why had there been no outbreak when he heard of her guilt? And how had he come into possession of the roll of bills? She walked to the window and looked out abstractedly. Then all at once she started, leaned forward and searched the pasture field with her eyes. There was no mistake. The golden calf had gone.

So that was the secret of David's sudden wealth! It was the golden calf, then, that had saved her from disgrace.

The pasture field, sadly empty of the golden flash, spoke, too, of a mystery as great as that of her own downfall; the motive that had prompted David to sell his treasure.

Through the silent evening meal she caught his eyes fixed upon her with a questioning look, but the expected torrent of profane reproach did not come.

When David finished he rose slowly. "There wasn't no letter to-day," he said.

"No," Margaret replied. "I don't think we'll hear again from Abe."

"I s'pose not."

An unusual hint of disappointment and of resignation lurked in the tones. Margaret, noting it, watched him curiously as he went out and sat down on the steps.

When she had finished her work in the kitchen, she went into the sitting room to arrange the scattered packages. As she folded the articles and sorted the papers, her pocketbook tumbled from amongst them. She picked it up, feeling absently, then gasped with surprise.

For the first time since the danger had threatened her, she remembered that she had twenty-five dollars in her possession. The train fare! That should have been the sacrifice. And with sickening clearness she realized that it was not yet too late. The atonement would be

a cruel one, but her conscience sternly demanded it.

She walked slowly out to the porch to her husband, with the bills in her hand.

"David," she began unsteadily, "this may sound as if it wasn't true, but it is. I had twenty-five dollars this afternoon, all the time I was away in my purse... for my ticket... to go on... I never thought of it till just now. I s'pose because I felt so guilty, and so scared money, my senses seemed to leave me. But I want you to take it now, instead of what you gave me."

She held out the bills to him. He looked at them, and then at her.

"And what are you going to do on, then?" he demanded.

"I'm not going," Margaret said. "I don't deserve to—after what I did. Take this, David; it's yours."

**They Went Together.**

The man tried to raise his voice to its old harsh brusqueness. "Not going? What kind of talk's that? Of course you're going. Keep your money. What do I want money for? I haven't got anything to spend it on. Go on an' get the boy takin' his honors. Don't bother about me."

He dropped his head in his hands, a queer tremor passed over him. Margaret watched him wondering, and as she watched the lines in his face were softened. Tenderness and something new and humble touched it.

"If you don't need the money, what made you sell the calf?" she asked softly.

He didn't answer. The fresh breath of the early June twilight brought the faint odor of the pennyroyal growing along the brook far in the pasture meadow.

She pressed lightly against him.

"David!" she said, with the gentleness to which his heart would

have opened all through the years if she had but known, "tell me why you sold the calf. Tell me."

He drew a long breath. "Oh, it was nothing but my blamed foolishness. Don't you bother anything about it. I just—just—just a thought mebbe at the last the boy might say something about me goin' too. Fool I was to ever get no notion in my head. Thought I ought to have a little ready money in case—Aw, I wasn't fool enough to expect it, but I just thought—ah, you know how Laird's been pesterin' me, blame him—glad I did it though." His voice dropped huskily. "Been a long time since you come to me for anything."

With a sob Margaret leaned closer her hands touching his.

"David," she cried, "we'll go together, you and I, like we ought to go—Abe's father and mother. We'll see him graduate together, like—Oh, David, I didn't know—I never thought you—"

He caught her hands in a painful grip.

"Wouldn't you be ashamed of me? Would you want me, you and the boy? Would you, honest?"

Their eyes met. Out of the faraway years a light returned to them. "Honest—honest," said Margaret, softly.

And the words were as a vow.

### The Sandman Story For To-night

**THE KING'S EMERALD RING.**  
Part VI.

There was nothing to do but wait until the Gobins returned. Being very tired, Felicia, after eating some berries she found growing near by, curled herself up under some bushes behind a rock and went to sleep.

She slept soundly until the moon wisp up and the Gobins were coming out of their rocky doorway. She might have kept right on sleeping if one of the little creatures had not awakened her by placing a finger tip on her cheek.

"Oh!" exclaimed Felicia, jumping up. "I must have slept all day!"

"And part of the night as well," said the little man. "Now tell us your story and we will see if we can help you."

Just then Felicia saw a big ugly toad hopping past with long, quick leaps. On its head she noticed a little red mark.

"Yes," nodded the Gobin. "That is Goboro. We have turned him into a toad. We could never trust him again, so we have thrown a spell over him that no one can change, and because in some way you helped to deliver him into our power we are willing to give you our help."

Felicia sat down on the ground and with the Gobins all around her told her story.

"And now I can never find the ring and gave my Grandfather, because you have taken away all my fine clothes. But you have saved me from marrying that dreadful creature Goboro."

"And you shall not, the ring and save your Grandfather, too," said the Spokesman Gobin. "Come, brothers, we must away."

Felicia felt herself lifted from the ground and sailing up and over tops of trees, while all the Gobins went whirling along beside her.

"Here we are at the palace of the King," said the spokesman. "And here we are at the palace garden."

Down they all dropped as lightly as a fleecy cloud, while all the little

## GRAIN INQUIRY COMMISSION Holds Session at Vulcan, Alberta

Vulcan, Alta., July 5.—(Canadian Press)—Word to grain shippers are suffering grave injustices from the present system of mixing Canadian hard wheat with softer grades from other countries, Hon. O. L. McPherson, Speaker of the Alberta Legislature, told the Royal Grain Inquiry Commission here yesterday afternoon.

Mr. McPherson, who has a farm of 2,400 acres, said Canadian farmers were not getting as good a price as producers of other countries for their wheat, although Canadian wheat was superior. He recommended that mixing with other grades should not take place until the wheat reached Liverpool, Canada, he thought would remedy the situation greatly.

Mr. McPherson complained of the operations of the Winnipeg Grain Exchange. "Flooding" methods adopted there by grain speculators, he said, were causing great dissatisfaction among the farmers. Much of the trading going on there, he said, was necessary, he said, and should be eliminated.

## H. G. WELLS FAMOUS OUTLINE OF HISTORY The Romance of Mother Earth

### Nineteenth Century Progress Japan's Development

In 1898 Germany descended upon China, and making the murder of two missionaries her excuse, annexed a portion of the province of Shantung. Thereupon Russia seized the Liaodung peninsula, and extended the consent of China to an extension of her trans-Siberian railway to Port Arthur; and in 1899 she occupied Manchuria. Britain was unable to resist the maritime imperialism and seized the port of Weihaiwei (1898).

**Russo-Japanese War.**

How alarming these movements must have been to every intelligent Japanese a glance at the map will show. They led to a war with Russia which marks an epoch in the history of Asia, the close of the period of European arrogance. The Russian people were, of course, innocent and ignorant of this trouble that was being made for them half way round the world, and the wiser Russian statesmen were against these foolish thrusts; but a gang of financial adventurers surrounded the czar, including the grand dukes, his cousins. They had gambled deeply in the prospective looting of Manchuria and China, and they would suffer no withdrawal.

So there began a transportation of great armies of Japanese soldiers across the sea to Port Arthur and Korea, and the sending of endless trainloads of Russian peasants along the Siberian railway to die in those distant battlefields.

The Russians, badly led and disorganized, were beaten on sea and land alike. The Russian Baltic fleet sailed around Africa to be utterly destroyed in the Straits of Tsushima. A revolutionary movement among the common people of Russia, infuriated by this remote and senseless slaughter, obliged the czar to end the war (1905); he returned the southern half of Saghalien, which had been seized by Russia in 1875, evacuated Manchuria, resigned Korea to Japan, and the whole man was beginning to drop his load in eastern Asia. For some years, however, Germany remained in uneasy possession of Kiau-Chau.

To-morrow: "The British Empire."

For two centuries Japan remained outside the main current of history. She lived on in a state of picturesque feudalism enveloped by blood feuds in which about 500 noble houses, the samurai, or fighting men, and the nobles and their families, tyrannized without restraint over the rest of the population. All common men, when a noble passed, to betray the slightest disrespect was to risk being slashed to death by his samurai.

The elect classes lived lives of romantic adventure without one redeeming gleam of novelty; they loved, murdered, and pursued fine points of honor to which probably bored the intelligent ones extremely. We can imagine the wretchedness of a curious mind, tormented by the craving for travel and knowledge, cooped up in these islands of empty romance.

Meanwhile the great world outside went on to wider visions and new powers. Strange shipping became more frequent, passing the Japanese headlands; sometimes ships were wrecked and sailors brought ashore. Through the Dutch settlements at Deshima, their one link with the outer universe, came warnings that Japan was not keeping pace with the power of the western world. In 1837 a ship sailed into Yedo Bay flying a strange flag of stars and stripes, and carrying some Japanese sailors she had picked up far adrift in the Pacific. She was driven off by a cannon shot. This flag presently reappeared in other ships. One in 1849 came to demand the liberation of eighteen shipwrecked American sailors.

**The Coming of Perry.**

Then in 1853 came four American warships under Commodore Perry, and refused to be driven away. He lay at anchor in forbidden waters and sent messages to the two rulers who at that time shared the control of Japan. In 1854 he returned with ten ships, amazing ships propelled by steam and equipped with big guns, and he made proposals for trade and intercourse that the Japanese had no power to resist. He landed with a guard of 500 men to sign the treaty. Incredible crowds watched this visitation through the streets.

Russia, Holland, and Britain followed in the wake of America. Foreigners entered the country, and conflicts between them and a Japan-

ese gentlemen of spirit ensued. A British subject was killed in a street brawl and a Japanese town was bombarded by the British (1853). A great nobleman whose estates commanded the Straits of Shimoda, saw fit to fire on foreign vessels, and a second bombardment by a fleet of British, French, Dutch and American warships destroyed his batteries and scattered his swordsmen. Finally an allied squadron (1865), at anchor off Kioto, imposed a ratification of the treaties which opened Japan to the world.

The humiliation of the Japanese by these events was intense, and it would seem that the salvation of peoples lies largely in such humiliations. With astonishing energy and intelligence they set themselves to bring their culture and organization to a level with the most advanced European powers, and well in advance of Russia. She completely dispelled the persuasion that Asia was in some irrevocable way less behind Europe. She made all European progress seem sluggish and tentative by comparison.

**Hostilities With China.**

We cannot tell here in any detail of Japan's war with China in 1894-95, demonstrated the extent of her westernization. She had an efficient westernized army and a small but sound fleet. But the significance of the consciousness, though it was appreciated by Britain and the United States, who were already treating her as if she were a European state, was not understood by the other great powers engaged in the pursuit of new Indias in Asia.

Russia was pushing down through Manchuria to Korea. France was already established far to the south in Tonkin and Annam, Germany was prowling hungrily on the lookout for some settlement. The three powers combined to prevent Japan reaping any fruits from the Chinese war, and particularly from establishing herself on the mainland at the points commanding the Japan Sea. She was exhausted by her war with China, and they threatened her with war.

J. Pierpont Morgan once said on the witness stand, "Character is everything in business." He, of course, referred to the character of men who wished credit.

Coal has character too—when it proves itself to be dependable. And coal buyers buy it because they have confidence in the service which it renders.

Nanaimo-Wellington Coal enjoys the confidence of coal users everywhere, gained not by being dependable for a day, but by the character that it has shown during the last fifty years.

**IS OPTIMISTIC OF CEDAR CREEK CAMP**

Cedar Creek as a mining camp having fallen somewhat under a cloud for a period, it is gratifying to learn from W. R. Jones, who reached the Dominion Hotel yesterday from the Horsely district of the Cariboo, that the camp is beginning to show signs of improvement. Mr. Jones mentioned to The Times, as an illustration that the area is improving, two Swedish miners who went in prospecting with nothing to their name have cleared \$60,000, realized from the sale of their holdings.

Mr. Jones says there is a considerable improvement generally in mining in the Queen's Lake district, and that more capital is expected to be invested this summer.

Mr. Jones, who is accompanied by his family, has been eleven years in the Cariboo, teaching and mining. Mr. Jones will stay here for the summer school, which will commence next week.

**LEGION PASSES THREE RESOLUTIONS**

Condemns Senate Action On S. C. R. Bills; Officers Nominated

Resolution Calls For Inquiry Into Lobbying

Comrade H. Despard Twigg was last evening unanimously renominated for office as commandant of the Victoria Post of the Canadian Legion. The annual election of officers will take place on Thursday, July 19, and all nominations must be in the secretary's hands by July 17. Other nominations announced were as follows: First vice-commander, Comrades Gus Lyons, F. A. Robertson, E. S. Mitchell and Ed. Cole; second vice-commander, Comrade W. McLagan; executive council, Comrades H. A. Bowden, A. H. Nunn, I. Hughes, Thomas Mooney, Frank Hatcher, J. W. Wallis, J. Baxter, J. Carruthers, Robert Macnicol, C. A. Gill, E. B. McLean, P. Sparks, J. A. Baron, George Potter, Fullerton, P. I. Hope, D. M. Campbell, Jack Watty (naval) and W. G. Godwin (naval).

**Suggests Inquiry**

A resolution was adopted to urge the Prime Minister to institute a public inquiry into the truth of a report that officials of the S.C.R. had attempted to influence opinion in the Senate about the Pensions Act amendment as follows:

"Whereas, it is reported in the public press of Canada (for example, The Toronto Globe of June 22, 1923, at p. 4) and is commonly rumored that officials of the S.C.R. at Ottawa did prior to and during the Senate debate on the amendment to the Pensions Act seek to influence members of the Senate adversely to the proposed measure, and

"And whereas, such officials are members of the civil service of Canada;

"And whereas, the minister of the D. S. C. R. is the author of the said amendments, which were approved by the House of Commons;

"And whereas, such conduct on the part of civil service employees and inserting into official reports, if a fact, is indefensible, intolerable, and subversive to all good government.

"Be it resolved, by the Victoria Post of the Canadian Legion, that the Prime Minister of Canada be, and is hereby urged to institute or caused to be instituted forthwith, a public inquiry into the truth of such reports, and to secure the immediate dismissal from the civil service of any official or officials of the D. S. C. R. or of the Pensions Board who may be made or who have attempted to make directly or indirectly a lobby of the Senate; or sought in any way to influence any Senator or group of Senators adversely to the said measure, or to have interfered with the deliberations of the Senate in any manner in the premises.

"Further resolved, that copies of this resolution be forwarded to the Prime Minister of Canada, to the Minister of the D. S. C. R. to the Leader of the Opposition, to the Secretary of the Civil Service Commission, and to the Chairman of the Pension Board at Ottawa.

**Confidence in Minister**

Commandant Twigg introduced the resolutions, another of which expressed confidence in Hon. H. S. Beland, Minister of Soldiers' Civil Re-establishment, "and his desire to do full justice to ex-service men."

**The Senate's Action**

Expression of regret with regard to the Senate's refusal to accept the report of the Royal Commission on ex-service men's problems was voiced in a motion which said: "Resolved, that the Victoria Post of the Canadian Legion is its great disappointment with the action taken by the Senate in regard to the proposed amending measure, and regrets exceedingly that as a result of such action, which to a meeting appears inexplicable, ex-service men and their dependents must continue to suffer intolerable injustice in regard to pensions and treatment."

"Further resolved, that copies of this resolution be forwarded to Senator Lougheed, leader of the Conservative majority in the Senate; to Senator Bostick, leader of the Liberal majority therein; to the Senators for British Columbia, and such other Senators as are named upon inquiry to have taken leading part in frustrating the passage of the proposed bill as presented."

**Canada Confident of the Future**

CANADA is endeavoring to regain her after-the-war stride in the midst of many difficulties—debt, deflation and depression being some of them.

Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue ruin, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift.

It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right.

**Our Experience Proves It**

Look back over the path Canada has trod. The French Colonists, cut off from civilization by 3,000 miles of sea, faced a continent—a wilderness—without the aid of even a blazed trail. They had to fight savages, frosts, scurvy, loneliness, and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat never would grow. To-day the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with average savings on deposit per family of \$800. Canada's foreign trade per head of population stands among the highest of the commercial nations, being \$192 per capita in 1922-23, as compared with \$135 in 1913-14, the "peak" year before the war.

**New Opportunities for Canada**

In Canada, although prices in the world markets fell below war level, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opening up for Canadian stockers and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith.

The next article will suggest practical opportunities for profit-making on our Canadian farms.

**REMEMBER FALL OF THE BASTILE**

Local France-Canada Society Appeals to Victorians

The directorate of the Victoria Courtee of France-Canada here, through its president, Major F. V. Longstaff, issued an appeal to Victorians to co-operate in observing France's great day and national fête on July 14.

"The French state prison, the Bastille, was founded in 1369 by Hugues d'Aubriot. It was destroyed by the Paris mob on July 14, 1789. This day is to French people what July 1 is to Canadians and July 4 to Americans. During the Great War the Allies of France paid homage to this great day by sending detachments of their finest troops to be present in the annual parade of troops through Paris on July 14.

"We suggest that all stores give a French display in their windows on Saturday week and that the French flag and colors be displayed as much as possible. Falling the tricolor, it is suggested that other flags be hoisted, as the appeal."

**BARBERS TO MAKE BALD MEN RACE**

The second big super-extra attraction that will take place at the barbers' monster midsummer outing, to be held early in August, is a foot race that calls for unusual qualifications. It is officially announced by the sports committee that an event under the title of "The bald-headed men's race" will be staged early in the afternoon. This will be a handicap contest, in which the baldiest will be given the advantage at the start.
