PLANTING HALE.

"Time to start your planting!" says Dame Nature. And those who follow her advice will be rewarded by the sturdy, healthy growth which comes as a result of setting out every pos-sible growing-thing now, when the early season when the early season rains will pack the soil firmly around the roots.

We will gladly advise you what varieties to plant

May 6, 1931. My plants arrived in splendid condition, and you can well afford to brag about methods of packing. Enclosing check for the following ———. Rifle, Colo.

Nov. 15, 1930. In your specials last spring at your place, I bought 6 Hybrid Tea Roses for \$1, at the same time I bought 15 Hybrid Tea Roses at another place for \$5.00, and the 6 I bought of you gave me more roses than all of the other 15. I took some of the blooms to the hospital and they said they were nicer than the ones that came from the greenhouse.

HERBACEOUS PERENNIALS

ROCK GARDEN, ALPINE AND
BORDER PLANTS

All plants listed are field grown, standard divisions, or Weaver's Potted Plants, according to needs of different types and varieties. While Potted Perennials are more expensive to produce, experience has proven them far superior to other kinds, and unless otherwise ordered they will invariably be sent, as you get the complete root system with ball of earth, thereby eliminating usual planting losses.

(1500 miles away, and plants arrive fine.)

May 25, 1931.

Plants came in fine shape and the Portulaca is so good I want 60 more and am enclosing check for \$2.00. Your plants are cheaper and better than other. It is peculiar I live in New York and have to send to Kansas for plants and can say I have tried such leading firms as —————————————————————, and -, etc. Your plants are better and cost only half as much.

New York City.

May 20, 1931.

Received order today and well pleased with plants.

Never seen such healthy plants—Arrived in such good condition and am sure all will live. Have only one regret—that I did not order all of my plants and shrubbery from you this spring. Sheridan, Wyo.

March 27, 1931.

Plants came by express and I hasten to tell you how I appreciate the freshness and the fine condition they came in—not a wilted plant in the lot.

Yours truly,

Kansas City.

July 30, 1931.

Received my order of Umbrella plants, tickled to death with them.

Buffalo, N. Y.

July 1, 1931.

I want to thank you for your courtesy and prompt attention to my letter. It was splendid of you to make good the plants that were bad. We won't forget your sense of fairness when we want plants again.

Very truly yours,

Asheville, N. C.

Just received the 500 California Wonder Peppers and they are surely fine. Please send express the following

Waterloo, Iowa.

May 12, 1931.

My order of plants came in good condition with good roots. I wish to thank you for your satisfactory dealings.

Sincerely,

Allentown, Penn.

(Please read the following, and right during the hottest weather.)

July 30, 1931.

I received my order and want to tell you I am delighted with the plants and the way you ship your stock, I have never received any plants before in such good condition. Have bought plants from several states and big nurseries but none as nice as yours. I surely recommend you.

Decatur, Ill.

I am more than pleased with the \$1 combination of flower plants. All strong and healthy, and so far they are all living, even the Oriental Poppys which I have been told could not be transplanted in a growing condition. I ordered from you after seeing the fine plants you sent one of my neighbors.

Ardmore, Okla.

And please remember, that whether your plans call for a complete planting for your grounds or simply the addition of a few new varieties, we are prepared to supply you with healthy, well-rooted stock that will grow vigorously.

and assure successful growth next spring!

FALL is the ideal time to plant nearly all varieties of trees and shrubs. Then plants are dormant, the soil workable and the ample fall rains pack the earth firmly about the roots so they are ready to respond to the first growing urge of spring.

To delay planting until next spring may mean the loss of a full season—plant this fall!

We will be glad to help you select exactly the right varieties to give the effect you desire. Call, phone or write —our advice is free.
