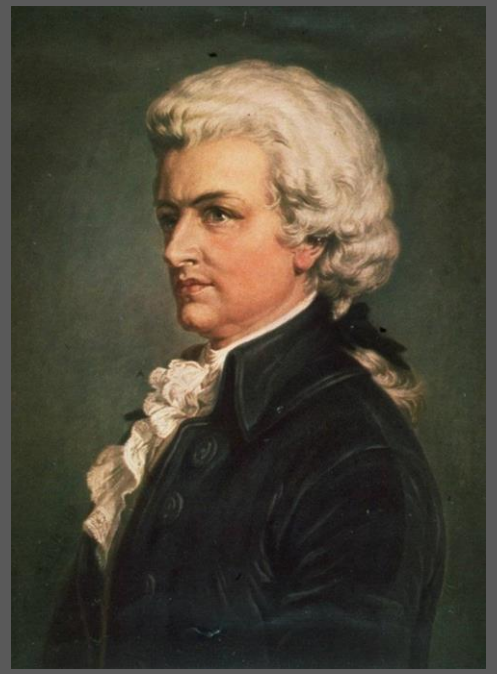
Mozart? But which one?



something to discuss

worth mentioning?

(A)Will there be a new professional, the „prompt specialist“?

(B) Should the work of prompt specialists be honoured? How?

(C) Which skills of artists will be enhanced by or replaced by AI?

(A) Will media have a label in the future that content is "guaranteed AI-free"?

Good for the people?

(B) Will there be campaigns against AI? (From creators, from activists?)

(C) Will there be quality labels attesting ethical controlled training?

(A) What are the opportunities and risks for Wikipedia?

(B) Should there be general rules for Wikipedia / WM movement?

(C) Should prompts, models, etc. be obligatory as meta data?

What are we going to do with it?

Ahoj! Vždyť
ani neexistuji!

I have served my people in 2005-2021.

Am I just fan art?

Jsem zcela průměrné, typické, reprezentativní jablko.
