P R E F A C E.

WE take pleasure in presenting herewith, this edition of the BROOKLINE DIRECTORY, for 1887. We have availed ourselves of every facility within our reach to ensure the utmost accuracy and completeness, and we believe that our efforts in this direction will be appreciated.

We shall be disappointed if the present edition, does not prove to be superior to any of its predecessors.

We take this occasion to offer our congratulations to the citizens of Brookline on the brilliant prospects of the future growth of their beautiful town, which must infallibly result from the Beacon street extension, no better evidence of their enterprise and sagacious foresight could be offered than the unanimity and enthusiasm with which they endorsed the proposed movement, and voted the necessary appropriations therefor.

We would call especial attention to a new map made expressly for this work by C. D. Elliot, civil engineer, of Somerville, who has had long experience in this direction.

The fact that no fixed rules govern the spelling or pronunciation of proper names, hence in looking for a particular name, one must know how the person spells and pronounces it, the observance of this rule will prevent some perplexity and unjust criticism.

Americans visiting Europe, will find our different Directories on file at Messrs. Henry F. Gillig & Co.'s, American Exchange and Reading Room, 449 Strand, Charing Cross, London, W. C., and at 35 Boulevard des Capucines, Paris.

The following synopsis shows the increase of names over the last edition :

Names in 1887	3,524
“ 1885	3409-69 died, equals 3,340
Increase	184

Our usual thanks are extended to any and all who have assisted our agents while canvassing for the present number.

Respectfully,

W. A. GREENOUGH & CO.,

Editors, Printers and Publishers.

The Anthony Steel-Plate Furnace,

A STRICTLY SANITARY HEATER.

Reproducing in the house all the purity of the external atmosphere at the proper temperature for respiration.

Has Heavy Steel Plate Radiator, Clinkerless Grate, Gas-tight Riveted Connections, and all the latest improvements.

Does not heat the cellar, is easily regulated, burns less coal than any other furnaces made, and, when quality is considered, is the lowest in price.

Indorsed by leading physicians and sanitary authorities as being the best for dwelling house use, and the most favorable to the health of the family.

The construction and sanitary application of this Furnace are fully described in our new 96-page book, entitled, "Our Homes; How to Heat and Ventilate Them." This book will be mailed free to any one on receipt of 6 cents in stamps.

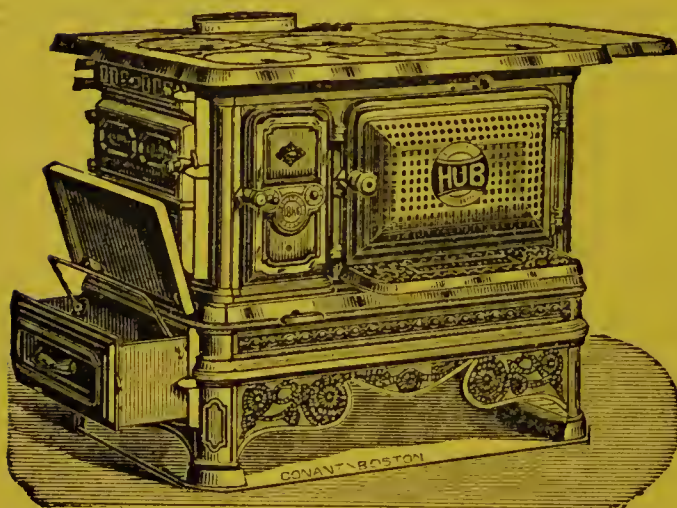

SMITH & ANTHONY STOVE COMPANY, Manufacturers.

The New Hub Range,

WITH WIRE-GAUZE OVEN DOOR.

THE PERFECTION OF BAKING.

—THE WIRE-GAUZE OVEN DOOR—

gives a delicious flavor to the Meat or Turkey, and prevents the shrinkage common to other ovens.

Roasting meats in a tight oven loses nearly one-half of the juices, which become dried up owing to the excessive evaporation.

When roasted with the Wire-Gauze Oven Door, the juices are saved, and as the juice is the vital part of a roast, the amount of nourishing substance saved is really about fifty per cent.

Tough meats are made tender and palatable, while for baking Bread and Pastry the Gauze Door is simply perfection.

The New Hub Range with Wire-Gauze Door is used by the Boston Cooking School for their demonstration lessons.

Special Circulars describing the Science and Practice of Cooking will be mailed on application.
