APO 301 (Kyoto, Honshu)

Questions for Economic Conference

1. Have plans been made to dissolve the Charcoal Distribution Control Association before the winter season?
2. It is felt that the program for redistribution of critical materials is not working satisfactorily. Other than conferences and publicity, what can be done by local teams to speed up reallocations?
3. What markings, if any, should be placed upon machinery purchased and moved into reparations plants after plant evaluation has been completed?
4. Inclosure #3 to GD 27 lists critical materials to be reported. When this list does not coincide with official Japanese lists, which should be followed?
